BOROUGH OF MANHATTAN.

Report for the Year 1904.

City of New York,
Office of the President of the Borough of Manhattan,
City Hall, February 21, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, City of New York:

Dear Sir—I have the honor to transmit to you, pursuant to the requirements of section 383 of the Greater New York Charter, the annual reports of the several bureaus in my Department, showing the extent of the work performed during the year 1904, to which I respectfully invite your attention.

Yours truly,

JOHN F. AHEARN, President, Borough of Manhattan.

ANNUAL REPORT OF THE COMMISSIONER OF PUBLIC WORKS FOR THE YEAR 1904.

Offices of Commissioner of Public Works,
Borough of Manhattan, Nos. 13 to 21 Park Row,
New York, February 10, 1905.

Hon. JOHN F. AHEARN, President, Borough of Manhattan:

Dear Sir—As required by section 383 of the Charter, I submit the following report of the business of the Department of Public Works for the year 1904:

The following contracts were completed during the year:

Ninety-five for paving and repaving, cost, \$1,245,249.80; 9 for regulating and grading, cost, \$87,721.15; 34 for sewers, etc., cost, \$261,712.16; 8 special contracts, cost, \$2,691.05; and 15 miscellaneous contracts, cost, \$73,531.41, making a total of 161 contracts completed, at an aggregate cost of \$1,670,905.57.

During the year new pavements were laid as follows:

Sheet asphalt, 18.02 linear miles; block asphalt, 2.10 linear miles; granite block, 2.21 linear miles; wood block, 1.12 linear miles, making a total of 23.45 linear miles.

At the close of the year there were 417.56 linear miles of paved streets in the Borough of Manhattan.

The repair force of the Bureau of Highways took up and relaid about 144,960 square yards of stone block pavement.

Permits were issued as follows:

To construct vaults, 212; to repair vaults, 166; to place guy posts, 46; to place tar kettles, 549; to place boilers, 535; to place banner poles, 128; to repair pavements at expense of applicants, 15.

The receipts for permits to construct vaults amount to \$204,925.73.

During the year 286,413 linear feet of electric main conduits, 32,527 linear feet of gas mains, 573 linear feet of steam mains, and 966 linear feet of salt water mains were laid; 124,207 linear feet of gas mains and 205 linear feet of salt water mains were overhauled. Of services over 100 feet in length, 19,118 linear feet for electricity and 147 linear feet for steam were laid, while the total length of trenches opened for mains amounts to 464,156 linear feet, or 87.907 miles.

The number of openings made in pavements were as follows:

Nine hundred and twenty-eight to lay and overhaul electric mains; 151 to lay and overhaul gas mains, and 4 to lay and overhaul steam mains; 7,407 to lay and repair electric services; 11,802 to lay and repair gas services; 627 to lay and repair steam services, and 21 for other purposes.

City Departments made 3,044 openings to lay and overhaul water mains, and 302 to lay and overhaul sewers. Plumbers made 1,772 openings to lay and repair water services, and 769 to lay and repair sewer services, and 2,501 openings were made to construct and repair railways, making 29,328 openings in all, not including openings made in the surface of pavements by the Bureau of Highways, and by asphalt paving companies, to repair defects caused by wear and tear, nor openings to repair sidewalks, nor openings for temporary incumbrances, such as poles to support banners or derrick guys.

The Division of Macadamized Roads and Unpaved Streets repaired and maintained 22 miles of macadam and gravel roads and 19 miles of unpaved or dirt roads, including the repairing of washouts, and of gutters to provide necessary drainage.

The area of macadam pavement repaired was 23,320 square yards, and that of unpaved or dirt roadway repaired, was 2,700 square yards.

There were constructed and accepted during the year 2.89 miles of sewers of various dimensions. Of these .33 were alterations and improvements to existing sewers, and therefore do not increase the mileage, leaving 2.56 miles to be added to the mileage of the preceding year, so that the total length of sewers in the Borough of Manhattan at the close of 1904 was 507.64 miles.

The free floating baths were patronized during the summer season by 1,851,020 males and 957,468 females, making a total of 2,808,479. The baths were open for 115 days, making an average of 24,421 bathers per day.

There were 499,730 male and 303,561 female bathers at the Rivington Street Bath, making a total of 803,291.

The report of the Engineer of Street Openings shows the work done in making surveys, maps, plans, etc., for new streets and parks.

During the year the Bureau of Incumbrances received and attended to 2,714 complaints of obstructions; made 605 seizures and removals of obstructions; removed 687 loads of dirt, stone and rubbish, and 195 fallen trees and dangerous stumps and posts; issued 3,708 permits to place building material on streets; 769 permits to cross sidewalks with horses and carts, and 541 permits to erect temporary sheds over sidewalks.

The following reports are hereto attached:

REPORT OF CHIEF ENGINEER OF HIGHWAYS.

President of the Borough of Manhattan,
Offices Commissioner of Public Works—Bureau of Highways,
Chief Engineer, Nos. 13 to 21 Park Row,
New York, January 10, 1905.

Hon. WILLIAM DALTON, Commissioner of Public Works:

Sir—In accordance with your instructions, I beg to submit herewith my report of the office of Chief Engineer for the year ending December 31, 1904, together with a statement of the amount of work done and the expenditures and balances of appropriations.

Respectfully,

GEORGE R. OLNEY, Chief Engineer.

Approved:

Geo. F. Scannell, Superintendent of Highways.

During the year 1904 27 contracts for regulating, grading, curbing, flagging, etc., were completed, at a cost of \$98,579.72, and assessment lists for said works were duly transmitted to the Board of Assessors.

The Engineering force of this office has been busy during the past year making preliminary estimates of various kinds of works for transmission to the Local Boards and Board of Estimate and Apportionment for proposed improvements inaugurated by said Boards, and also giving lines and grades to contractors during the progress of the works of paving and repaving.

The sidewalks throughout the Borough of Manhattan are constantly in need of repair. In a majority of instances the laying of new pavements makes necessary the improvement of the abutting sidewalks.

It is invariably the case after the repaving of a street that, the curb having been set or reset on proper line and grade, the owner or occupant of premises on the line of said improvement is compelled to place his sidewalk to conform to same.

Complaints are being continually received at this Department regarding defective and dangerous sidewalks. The owners or occupants of the premises complained of are notified to make repairs; most owners, etc., willingly comply with our notices, while many refuse or neglect to do so.

An idea of the extent of repairs to sidewalks during the year 1904 can be had by comparison with notices served and permits issued as compared with years 1902 and 1903:

During the greater part of the last year the several asphalt paving companies were engaged in the execution of the contracts let during the latter part of the year 1903, and at a date too late for work to be done during that year, and for that reason but few contracts for asphalt paving and repaving were let during the past year. The contracts and specifications for asphalt paving for the year 1904 call for a higher grade of asphalt than has been used in the past. This change in the grade of asphalt was made after a careful investigation of the condition of the asphalt pavements, and it was wisely decided to exclude the use of an asphalt which in its refined state contained less than 90 per cent. of bitumen, and also an asphalt obtained from the distillation of oils. Although the claim was made that such change would increase the price of asphalt pavements laid in the borough, yet the contracts which have been made with the several companies under such revision of the specifications show no apparent increase in the prices of asphalt paving.

Many complaints have been made to this Bureau of the apparent neglect of the various asphalt companies to make speedy repairs to the pavement where disturbed for subsurface work, such as constructing sewers, laying water-mains, electric conduits, etc., but when we take into consideration the large number of openings made during the year (approximately twenty-five thousand) the neglect complained of is partly excusable, as the asphalt companies have other work to do, such as keeping in repair and maintaining the many pavements which by the terms of their contracts they are obliged to repair and maintain.

In order to have more speedy repairs made to the pavements disturbed by the openings above mentioned, and also to make the necessary repairs to the pavements upon streets where the period of maintenance has expired (approximately ten and one-half miles), and for which said repairs a contract is let annually, a municipal asphalt plant has been suggested. If such a plant were established and properly conducted it would undoubtedly be of great benefit to the City and greatly lessen the present cost of repairs.

The work of the chemical laboratory has been conducted in an efficient and satisfactory manner by Mr. F. Kleeberg, Chemist. I herewith submit a report from the Chemist of the work done by him during the year 1904.

President of the Borough of Manhattan,
Offices Commissioner of Public Works—Bureau of Highways,
Chief Engineer, Nos. 13 to 21 Park Row,
New York, January 14, 1905.

Mr. G. R. OLNEY, Chief Engineer, Bureau of Highways:

Sir—During the year 1904 the work of the chemical laboratory was continued on the same lines as in the preceding year and consisted of:

- 1st. Analyses and tests of samples submitted with bids.
- 2d. Analyses and tests of samples taken from the work during construction constituting the routine work.
- 3d. Miscellaneous analyses for this and other Departments.
- 4th. Experimental work involving (1) the determination of the relative value of bitumen from various sources, and (2) the perfection of analytical methods.

During the past year the requirements relating to refined asphalt were revised. The specifications now demand that the refined asphalt must not be affected by the action of water; that it must contain not less than ninety (90) per cent. of bitumen soluble in carbon bisulphide; that of the bitumen thus soluble in carbon bisulphide, not less than sixty-eight (68) per cent. shall be soluble in boiling Pennsylvania petroleum naphtha (boiling point from 40 to 60 centigrade); and that finally, asphalt obtained by the distillation of asphaltic oils will not be accepted.

Under these specifications, the samples, which reach a total of 161, submitted with bids, were asphalts principally from the deposits found in Venezuela, and it is believed that a far more uniformly satisfactory wearing surface, as compared with many wearing surfaces laid in former years, will result from this radical change in our requirements.

In addition to the routine work, analytical reports on various miscellaneous subjects have been made to you during the year, and are in your possession.

At the request of the Department of Docks and Ferries and in connection with contracts let by that Department, the laboratory has made analyses of paints, pigments, oils, varnishes, asphaltic and Portland cements for said Department and has acted in an advisory capacity to said Department.

The equipment of the laboratory has been enhanced by the acquisition of a small but useful collection of reference books, which have proved of great value in furthering the work.

Respectfully submitted,
F. KLEEBERG, Chemist.

Contracts Let During the Year.

Rebuilding retaining wall on Edgecombe avenue, from One Hundred and Forty-seventh to One Hundred and Forty-eighth street.

This contract directs the rebuilding of the retaining wall along the easterly line of Edgecombe avenue, between the points mentioned, which was destroyed during the heavy storm of October, 1903.

Reregulating, regrading, etc., Pearl street, from a point 200 feet west of old Elm street to Centre street; Leonard street, from a point 190 feet west of new Elm street to Centre street; old Elm street, from Duane to Worth street; Catharine lane, from Elm street to 100 feet west.

The work to be done under this contract was necessary on account of the changing of the grades at the intersections of the streets mentioned in conjunction with the widening of Elm street. This work has been completed, but not yet accepted by the City.

Regulating, grading, etc., new Elm street, from Howard street to City Hall place. This contract completes the work of regulating, grading, etc., new Elm street, from Great Jones street to City Hall place. This work has been completed, but not yet accepted by the City.

Reregulating, regrading, etc., Seventy-seventh street, from Avenue A to East river. This work is caused by changing of grade on said street to conform to the exterior street at the East river.

Regulating, grading, etc., One Hundred and Fifty-sixth street, from Boulevard Lafayette to Riverside drive.

Regulating, grading, etc., One Hundred and Fifty-seventh street, from Boulevard Lafayette to Riverside drive.

These streets when graded will make direct connection between Riverside drive and the Plaza at the junction of Broadway and Boulevard Lafayette.

Regulating, grading, etc., One Hundred and Ninety-first street, from Audubon avenue to Wadsworth avenue.

Regulating, grading, etc., One Hundred and Ninety-second street, from Audubon avenue to Wadsworth avenue.

Regulating, grading, etc., One Hundred and Ninety-third street, from Audubon avenue to Fort George avenue.

Regulating, grading, etc., Fairview avenue, from St. Nicholas avenue to Broadway.

The work on One Hundred and Ninety-first and One Hundred and Ninety-second streets has been completed; the work on One Hundred and Ninety-third street and Fairview avenue is progressing satisfactorily.

Regulating, grading and paving with macadam pavement Fort Washington avenue, from Kingsbridge road to its first intersection with an unnamed street located about 1,248 feet distant northwesterly from said Kingsbridge road, and also the said unnamed street adjoining the easterly and westerly arms of the loop in Fort Washington avenue.

Regulating, grading and paving with macadam pavement the roadway of Fort Washington avenue, from Broadway at One Hundred and Fifty-ninth street to the northerly side of One Hundred and Eighty-first street.

The work above mentioned is a continuation of the macadam pavement already laid on Fort Washington avenue, from Two Hundredth street south, and when completed, in connection with the contract last above mentioned, will make a driveway parallel to Boulevard Lafayette for nearly its entire length.

Regulating, grading, etc., Watts street extension, from Sullivan street to West Broadway.

The grading of this extension to Watts street makes a continuous thoroughfare from West Broadway to the Hudson river.

Regulating, grading, etc., southerly side of Delancey street, from Clinton street to Bowery, 100 feet from the old southerly line of Delancey street to the new line of Delancey street.

Under authority of the Board of Estimate and Apportionment, Delancey street was widened from its original width of 50 feet to a total width of 150 feet, and the contract above specified covers the extra 100 feet. When the work is completed, in connection with the proposed paving of said street, a thoroughfare will be opened from the Bowery to the Williamsburg Bridge, with a roadway of 106 feet in width, with sidewalks on either side of a width of 22 feet.

The contracts for the extension of Riverside drive, from the northerly end of the Manhattan Valley Viaduct, at One Hundred and Thirty-fifth street, to the junction of One Hundred and Fifty-eighth street and the Boulevard Lafayette, were let in the month of November, 1903.

The contractors for Section No. 2 are the Ryan-Parker Construction Company, and for Sections Nos. 3 and 4, John C. Rodgers. Section No. 2 extends from One Hundred and Thirty-fifth street to One Hundred and Forty-fifth street, and Sections Nos. 3 and 4 from One Hundred and Forty-fifth street to One Hundred and Fifty-eighth street.

Construction was started in March, 1904, and has been rapidly pushed ahead, so that about 25 per cent. of the work has already been completed.

Most of the west retaining wall, being the boundary line between Riverside drive and the tracks of the New York Central Railroad, has been completed. Both walls supporting the drive from Audubon Park, with the filling between them, are finished. Good progress has also been made on the bridge crossing One Hundred and Thirty-eighth street, and a great part of the east retaining wall is also completed. The greater part of the sewers have been laid, with their house connections, and a large quantity of material for the roadways of the drive has been filled in.

The driveway provides for a carriage road sixty feet in width, a bridle path of twenty feet, and two walks of fifteen feet each, with grass plots between the road and the walks. Trees are to be planted, forming beautiful avenues.

The parkway is laid out with walks terraced down to the river, with flights of steps, and ornamented here and there in a simple manner with a fountain or a vase or some similar treatment.

Public comfort stations and shelters are to be provided at suitable places, and a complete drainage, sewerage and water system arranged, not only for the drive itself, but for adjacent streets connected therewith.

The extension of Riverside Drive, when completed, will not only benefit the Washington Heights District by giving them a beautiful breathing place, but will give drivers and pedestrians a continuous trip along the Hudson from Seventy-second street to Two Hundredth street. A pleasure driveway will thus be completed from Central Park, West, via Riverside Drive and the Boulevard Lafayette, to Dyckman street, and back by the Speedway and Seventh avenue, through Central Park to Fifty-ninth street, a distance of about fifteen miles.

The proper development, however, of this the finest drive in the world is by a viaduct across Dyckman street, from the end of the Boulevard Lafayette to the Heights of Inwood opposite, following the old Bolton or other road through Inwood, across Spuyten Duyvil, and on to Van Cortlandt, returning by the Moshulu parkway and the new Concourse, making an unrivaled suburban drive of at least twenty-five miles.

Contracts in Existence Prior to January 1, 1904.

Regulating, grading, etc., Emerson street, from Seaman avenue to Tenth avenue, Work completed, but not accepted.

Reregulating, regrading, etc., Edgecombe avenue, from One Hundred and Forty-seventh to One Hundred and Fifty-fourth street.

The work on this avenue is composed mainly of building of a retaining wall; in consequence of the severity of the weather the contract has been suspended until spring.

Regulating, grading, etc., One Hundred and Seventy-first street, from Kingsbridge road to Haven avenue.

This work is completed, but not yet accepted.

Regulating, grading, etc., One Hundred and Sixty-fourth street, from Broadway to Amsterdam avenue.

This work is practically completed, with the exception of laying flagging and setting curbstones, and in consequence of weather has been suspended until spring.

Regulating, grading, etc., Jacobus place, from Terrace View avenue to Van Corlear place.

This work has been completed, but not yet accepted.

Regulating, grading, etc., One Hundred and Ninety-first street, from Audubon to Wadsworth avenue.

This work has been completed, but not yet accepted.

REPORT OF THE DIVISION OF ROADS.

President of the Borough of Manhattan,
Offices, Commissioner of Public Works—Bureau of Highways,
Nos. 13 to 21 Park Row,
New York, January 10, 1905.

Hon. WILLIAM DALTON, Commissioner of Public Works:

Dear Sir—I respectfully submit the following statement of the financial condition of the Division of Roads, accompanied with an accounting of the work performed and materials used during the year 1904:

The work of this Division consists of the maintenance of 22 miles of macadam and gravel roads and 19 miles of dirt roads in the Borough of Manhattan. This includes the repairing of wash-outs and repairing gutters to insure proper drainage. An examination of these repairs will show that a great amount of the work of this Division cannot well be tabulated, yet calls for a considerable expenditure on the part of the City, such as the sprinkling, scraping and rolling of the macadam and gravel roadways; this work, particularly on Lenox, Seventh and St. Nicholas avenues, is very important, owing to large building interests, also the avenues, necessitating very careful and considerable attention on the part of this Division to prevent the avenues being ruined by the repeated tearing up of the roads for house connections, and the extensive traffic of building material trucks along Seventh and St. Nicholas avenues and upper Broadway, have been lightly covered with gravel, screenings, making the avenues the best driveways in the City. I would also call your attention to the repairing of the Boulevard Lafayette, Fort Washington Ridge road and Dyckman street, including Marble Hill; we have had frequent wash-outs and dangerous holes filled in.

Respectfully submitted,

EUGENE F. CALLAHAN, Clerk.
Division of Roads.

The following is a statement of the work performed and materials used, on "Boulevards, Roads and Avenues, Maintenance of," and "Roads, Streets and Avenues, Unpaved, Maintenance of and Sprinkling," during the year 1904:

REPORT OF THE SUPERINTENDENT OF SEWERS.

President of the Borough of Manhattan,
Offices Commissioner of Public Works, Bureau of Sewers,
Nos. 13-21 Park Row,
New York, January 30, 1905.

Hon. WILLIAM DALTON, Commissioner of Public Works:

Dear Sir—In compliance with your circular letter of January 4, I herewith forward annual report of the Bureau of Sewers for the year 1904, which includes the actual transactions up to December 31, 1904.

Statement No. 1 contains a statement of appropriations and funds, requisitions drawn on the Comptroller, with balances on hand December 31, 1904, with estimated outstanding liabilities.

Statement No. 2 contains detailed list of all work completed during the year 1904, with cost of same.

Statement No. 3 contains detailed list of all assessment works in progress December 31, 1904.

Statement No. 4 contains detailed list of all receiving basins completed during the year 1904.

Statement No. 5 contains a detailed list of all sewers completed but not accepted December 31, 1904, to be paid for out of fund for Rebuilding and Repairs.

Statement No. 6 contains a detailed list of sewers completed but not accepted, to be paid for by assessment.

Statement No. 7 contains a detailed list of repairs to sewers completed in 1904, from Special Fund for Repairing and Rebuilding Sewers.

Statement No. 8 contains the amount of work done by the laboring force in cleaning and repairing sewers and basins during the year, the force employed, detailed statement of expenditures and estimated balance.

Yours respectfully,

MATTHEW F. DONOHUE, Superintendent of Sewers.

New York, January 17, 1905.

Hon. MATTHEW F. DONOHUE, Superintendent of Sewers:

Dear Sir—According to your direction I transmit herewith a report of the transactions of this office during the year 1904. This information is classified and tabulated under various headings, such as "Sewers completed during 1904"; "Work completed, but not accepted during 1904," etc. Classification is also made as to the funds from which payment was made for these works. Reference should be made to these tables for all details of construction, cost, etc.

There have been constructed and accepted during the year 2.89 miles of sewers of various dimensions of which .33 were alteration and improvements to existing sewers, and do not increase the mileage, leaving 2.56 miles to be added to last year's report, making the total length of sewers in this borough 507.64 miles.

Classified as to material from which the above-mentioned sewers were constructed we have:

| | |
|-------------------------------------|----------|
| Wood barrel sewer, linear feet..... | 477.9 |
| Brick sewer, linear feet..... | 8,915.0 |
| Pipe sewer, linear feet..... | 5,881.0 |
| Total linear feet..... | 15,273.9 |

In connection with the above 23 receiving-basins were built. The total cost of this work was \$195,851.18.

There have also been substantially completed but not accepted by this Department on account of failure to restore pavement:

| | |
|-------------------------------|-------------|
| Brick sewer, linear feet..... | 2,349 |
| Culvert, linear feet..... | 87 |
| Receiving-basins..... | 3 |
| Total cost..... | \$33,511 45 |

Independent of the above-described work there were constructed 35 additional receiving-basins and 397 feet of culvert connecting same to sewers at a cost of \$9,777.80, making the total number of basins now in use in this borough 6,146.

Under the appropriation for repairs and rebuilding of sewers there have been completed 4,842½ feet of sewers costing \$71,558.64, and there have been substantially completed—work under the same fund, but not accepted on account of pavement not being satisfactorily restored—6,689 feet of sewer at a cost of \$89,843.56. The total amount expended for new work, repairs, rebuilding, receiving-basins, etc., is \$400,542.57.

There is now in progress about four miles of sewers, classified as follows:

| | |
|---------------------------------------|--------|
| Wooden barrel sewer, linear feet..... | 141 |
| Brick sewer, linear feet..... | 15,999 |
| Pipe sewer, linear feet..... | 5,335 |
| Total linear feet..... | 21,475 |

Estimated to cost..... \$293,437 67

To be built in connection with the above are 49 receiving-basins.

Small repairs, costing less than \$1,000, have been made to various sewers out of the fund for repairing and rebuilding, amounting to \$15,637.

Plans are made for following new sewers:

Alteration and improvement to sewer in New street, between Beaver and Wall streets.

Sewer in Broadway, west side, between Park place and Barclay street.

Alteration and improvement to sewer in Norfolk street, between Hester and Grand streets.

Alteration and improvement to sewer in Forty-ninth street, between Tenth and Eleventh avenues.

Alteration and improvement to sewer in Sixty-eighth street, between West End and Amsterdam avenues.

Alteration and improvement to sewer in Sixty-ninth street, between West End and Amsterdam avenues.

Alteration and improvement to sewer in Columbus avenue, east side, between Seventy-fourth and Seventy-fifth streets.

Sewers in One Hundred and Thirty-fifth street, north and south sides, between Riverside and Broadway.

Plans are made for following receiving basins:

Southeast corner Fifth street and Avenue D.

Southeast corner Sixth street and Avenue D.

North side Sixty-ninth street, between West End and Twelfth avenues.

Alteration and improvement to receiving basins on the northeast and southeast corners Eighty-first street and Riverside avenue.

Contracts let, but work not ordered, on alteration and improvement to sewer in Third avenue, east side, between Twenty-second and Twenty-third streets.

The following have been petitioned for by property owners and preliminary steps toward building of the same have been taken:

Sewer in One Hundred and Fifty-first street, between Seventh avenue and Macomb's Dam road.

Sewer in One Hundred and Fiftieth street, between Seventh avenue and Macomb's Dam road.

Sewer in Two Hundred and Fourteenth street, between Harlem river and Tenth avenue.

Sewer in Two Hundred and Fifteenth street, between Harlem river and Tenth avenue.

Sewer in Two Hundred and Sixteenth street, between Harlem river and Tenth avenue.

Sewer in One Hundred and Seventieth street, between Broadway and Fort Washington avenue.

Sewer in One Hundred and Seventy-first street, between Broadway and Fort Washington avenue.

Sewer in Nineteenth street, between Avenue B and East river.

Receiving basins southwest and northwest corners Eighty-first street and Riverside Drive.

The following alterations and improvements and repairs are proposed and preliminary steps toward making contracts taken:

Rebuilding sewer in Twenty-fourth street, between First avenue and Avenue A.

Rebuilding sewer in One Hundred and Fourth street, between Second and Third avenues.

Rebuilding sewer in Albany street, between Greenwich and West streets.

Rebuilding sewer in Seventy-first street, between Broadway and Columbus avenue.

The work of building new sewers has been confined chiefly to the northern part of the borough, as it has been for some years past.

In that portion of this City, say, south of One Hundred and Fifty-fifth street, the system is substantially finished, although there are a few streets here and there which are still unprovided with public sewers. In such cases it is generally found that the buildings use private drains, connecting to public sewers in adjoining streets. In many cases it is found that these drains are located in the rear of dwellings and pass under adjoining houses.

Such methods of drainage are condemned as unsatisfactory, and much has been done and is to be done in improving these conditions.

As before remarked, the new work is mostly in the upper end of the island. As completed this year, I might mention sewer in Wicker place, which was finished in the early part of the year, and the system in that portion of the City known as Marble Hill is now complete.

About 3,000 feet of sewer were built in the northern portion of Fort Washington avenue, and this avenue is now entirely sewer, with the exception of about 2,000 feet between the southerly end of present sewer and the summit south where grade of avenue begins to descend toward One Hundred and Eighty-first street. This portion requires an outlet through private land, or through streets yet to be opened, before any drainage works can be constructed.

Two important outlets have been built carrying sewage into deep water, where the measure of dilution is so great that no nuisance arises therefrom. These are located at Ninety-second street and Harlem river and Seventy-second street and Hudson river, and drain large areas.

There have been substantially completed sewers in Audubon avenue, between One Hundred and Seventy-fifth street and Fort George avenue, and in Broadway,

east and west sides, between Dyckman street and summit north of Hawthorne street. These, though of local importance only, make a very valuable improvement to the territory drained by them.

The territory so often spoken of in my reports, viz., north of Dyckman street and east of Broadway, extending to the Harlem river, on the east and north, is in the same condition as to drainage as reported last year. The streets where outfall sewers are to be built, which will carry the drainage of nearly this whole territory, viz., Two Hundred and Eleventh and Two Hundred and Sixteenth streets, from Broadway to Harlem river, have been legally opened, that is to say, the report of the Commission appointed to condemn these lands was confirmed by the Court on December 4 last, but unfortunately an appeal has been taken, which must indefinitely delay these improvements. This is much to be regretted, since the rapid transit railroad will be open for travel to this section of the City in a very short time, and many buildings are projected looking to a large influx of population. Without drainage investments in buildings will not be made.

The question of an outlet sewer at Fort George has also been revived. For this purpose land must be acquired between Fort George avenue and Harlem river. Plans originally made for this purpose are being checked over and revised, and will be forwarded in a short time to enable the Corporation Counsel to petition for a commission to condemn the land required.

Considerable work has been done in the way of rebuilding the older portion of the sewer system, under the fund appropriated for that purpose; some of the larger ones are:

Sewer in Stanton street, between Mangin and Ridge streets.

Sewer in Twenty-fifth street, between Fourth and Madison avenues.

Sewer in Fortieth street, between Fifth and Sixth avenues.

Other important work of rebuilding finished, but not yet accepted, are:

Sewers in Madison avenue, between Twenty-fifth and Thirty-first streets.

Sewer in Twenty-fifth street, between Broadway and Seventh avenue.

Sewers in Twelfth and Thirteenth avenues, between Twenty-seventh and Thirtieth street, and in Twenty-seventh, Twenty-eighth, Twenty-ninth and Thirtieth streets.

Important works in progress on the Broad street outlet, connected with which is the rebuilding of sewers in many adjoining streets:

Outlet sewer at Ninety-sixth street and Hudson river; also

Rebuilding of sewer in Ninety-sixth street, between West End avenue and Riverside drive.

Alteration and improvement to sewer in St. Nicholas avenue, east and west sides, between One Hundred and Forty-ninth and One Hundred and Fifty-fifth streets.

Rebuilding sewer in Battery place, between Greenwich and West streets, and in West street, between Battery place and Morris street.

The work of rearranging and rebuilding the sewer system in connection with the work of the Rapid Transit Commission, the New York Central Railroad terminal improvements at Fourth avenue, between Forty-second and Fifty-ninth streets, and the Pennsylvania, New York and Long Island Railroad in the territory bounded by Seventh and Ninth avenues and Thirty-first and Thirty-third streets, has progressed during the past year, and tabulated statements of all the details of this work are as follows:

Table Giving Location, Size and Length of Sewers Built to Date in Connection with Terminal Improvements by New York Central and Hudson River Railroad Company.

Forty-second street, Vanderbilt avenue to Lexington avenue—577 feet 4-foot 6-inch by 3-foot brick sewer.
Madison avenue, Forty-fifth to Forty-seventh street—600 feet 4-foot by 2-foot 8-inch brick sewer. 37 feet 3-foot 6-inch by 2-foot 4-inch.
Forty-eighth street, from Madison avenue, east—130 feet 15-inch pipe sewer.
Forty-eighth street, from Lexington avenue to Second avenue—1,178 feet 4-foot by 2-foot 8-inch.
Fifty-first street, at West Park avenue—10 feet 3-foot 6-inch by 2-foot 4-inch.
Fifty-second street and West Park avenue—10 feet 4-foot by 2-foot 8-inch.
Fifty-third street—9 feet 4-foot by 2-foot 8-inch.
Fifty-fourth street, from Park avenue to Third avenue—948 feet 4-foot 6-inch by 3-foot. 147 feet 4-foot by 3-foot.
West Park avenue, from Fifty-fifth to Fifty-sixth street—269 feet of 15-inch pipe sewer. 113 feet of 18-inch pipe sewer.
Fifty-fifth street, at East Park avenue—36 feet of 15-inch pipe sewer.

List of the Sewers Constructed During 1904 by Pennsylvania, New York and Long Island Railroad Company.

In Seventh avenue, north from Thirtieth street—425.5 linear feet of 4-foot circular brick sewer; 95.3 linear feet of 42-inch circular cast-iron sewer; 71 linear feet of 36-inch circular cast-iron sewer.

In Thirty-first street, east of Seventh avenue—67 linear feet of 4-foot by 2-foot 8-inch brick sewer.

In Thirty-second street, east of Seventh avenue—259 linear feet of 36-inch cast-iron sewer.

In Eighth avenue, north of Thirty-first street—347 linear feet of 60-inch circular cast-iron sewer.

In Thirty-first street, west of Seventh avenue—130 linear feet of 15-inch vitrified pipe sewer.

The foregoing tables cover the work done by the Rapid Transit Commission under the laws creating that body, and the New York Central and the Pennsylvania Railroad Company under power conferred on them by their permits granted by the Board of Estimate and Apportionment.

All these changes and alterations are made to make room for these corporations to build railways and railway stations in the public streets and to afford them facilities for carrying freight and passengers to and from and through the City. On the ground that all these things will result in great commercial advantages to the City, there is no doubt that smaller works of public utility should yield place to them. But it should not be forgotten that water supply and sewerage are fully as important to the welfare of this City as railroads.

The result of occupying the whole of the roadway between curbs, and sometimes almost the whole street or avenue between house-lines, is to crowd all sewer and water-pipes and other subsurface lines into a very small space next the houses.

The Department has been compelled to consent to this arrangement since not one inch of space demanded for railroad purposes would be given up. On account of this crowding, access to sewers thus rebuilt, is most difficult, and in some cases almost impossible. These works have no doubt been built in a good and substantial manner, so far as workmanship and material are concerned, and it is to be hoped that they will operate successfully many years before the Department will be called on to make extensive changes or repairs.

When the great works, such as subways, tunnels, bridges, etc., costing many millions, are completed, and consideration is given to smaller matters, such as additional

water distribution and sewerage, it would not be surprising if the City was obliged to widen streets and buy land to accommodate its own works.

The work of repairing and rebuilding the older portion of our system in the southerly part of the City has progressed to the extent of the funds appropriated for that purpose. This work should be continued until all the old style sewer built 40 years or more ago have been replaced by others of modern design and construction.

The work of the draughting room, besides that of keeping up the records of the Bureau, included the following new work of making contract plans, etc., for sewers built during the past year:

51 contract plans, to wit: 20 for new sewers, 7 for repairs, 24 for basins.

24 file plans; 6 filings of 4 plans each.

47 Inspectors' books.

40 assessment lists of 115 maps each, covering 2,316 separate pieces of property.

The Inspector of Cement reports that he has examined and tested 443 samples of cement, making three tests in each case, or a total of 1,329 specimens made into briquets and broken in the testing machine. Twenty-five (25) samples were rejected because they failed to come up to the requirements of the specifications.

Respectfully submitted,

HORACE LOOMIS, Chief Engineer of Sewers.

REPORT OF ENGINEER OF STREET OPENINGS.

President of the Borough of Manhattan,
Office of Commissioner of Public Works, Nos. 13-21 Park Row,
New York, January, 1905.

Hon. WILLIAM DALTON, Commissioner of Public Works:

Dear Sir—Pursuant to instructions, and in compliance with section 1544 of the Greater New York Charter, I have the honor to submit the following report of the work of the Bureau of Engineer of Street Openings upon surveys, maps, plans, etc., for new streets, parks, etc., for the year 1904.

Respectfully,

JAS. O. B. WEBSTER, Engineer of Street Openings.

New Streets, Avenues, Parks, etc.

Maps, plans, abstracts, surveys, etc., for new streets, avenues, parks, public places, etc., three (3) copies, with technical descriptions, have been prepared and forwarded to the Departments and Commissions for filing, as provided by Greater New York Charter section.

A public park bounded by Broadway, West Two Hundred and Eighteenth street and the Harlem Ship canal.

A public park on the land of the Croton Aqueduct, on Amsterdam avenue, between One Hundred and Fifty-first street and One Hundred and Fifty-second street.

A public park bounded by First avenue, Harlem river, East One Hundred and Twenty-third street and East One Hundred and Twenty-fifth street.

A public park at Broadway, Hamilton place and One Hundred and Thirty-eighth street.

A public park on Convent avenue, between One Hundred and Forty-second street and One Hundred and Forty-third street.

A public park to connect Morningside and Riverside parks, One Hundred and Twenty-first street to One Hundred and Twenty-third street.

A public park, Ninth avenue to Tenth avenue, Twenty-seventh to Twenty-eighth street.

A public park along south side Spuyten Duyvil creek, Bolton road, etc.

High Bridge Park extension, between the land of the present park and the new street running northerly from Washington Bridge approach.

New Streets—Layout, Maps and Plans, Giving the Metes and Bounds of the Layout and Lines and the Established Grades, etc., of New Streets.

One Hundred and Eighty-sixth street, from Amsterdam avenue to new street west of High Bridge Park.

One Hundred and Eighty-seventh street, from Amsterdam avenue to new street west of High Bridge Park.

One Hundred and Sixty-third street, from Broadway to Fort Washington avenue.

One Hundred and Sixty-fourth street, from Broadway to Fort Washington avenue.

One Hundred and Sixty-fifth street, near Boulevard Lafayette, closing and discontinuing parts, and new layout and grades.

One Hundred and Twenty-eighth street, Broadway to Amsterdam avenue.

Two Hundred and Seventh street, Ninth avenue to Harlem river, widening.

One Hundred and Sixty-seventh street, Amsterdam avenue to St. Nicholas avenue.

One Hundred and Seventy-seventh street, Broadway to St. Nicholas avenue.

St. Nicholas avenue, Hillside avenue, Nagle avenue and Dyckman street intersection, widening and extending and new grades.

One Hundred and Sixty-eighth street, Broadway to Fort Washington avenue.

One Hundred and Sixty-first street, Boulevard Lafayette to New York Central Railroad.

Bradhurst avenue extension, from One Hundred and Fifty-fifth street to Harlem River Speedway.

New streets parallel to Dyckman street, from Broadway to Nagle street.

New marginal street, along Harlem river, from Muscota street to Broadway, and extension of Hyatt and Ashley streets.

Draft, Damage and Benefit Maps, with Technical Descriptions, for Use of the Commissioners to Take Title to Streets, Avenues, Parks, etc., in Condemnation Proceedings—These Maps Show Detail Survey of the Lands to be Acquired, with Incumbrances Thereon, in Part or Whole, Within the Lines of the New Streets, as Shown by Deed or in Actual Possession, and the Posts Without the Lines of the Street; also the Area of the Property Deemed to be Benefited and to be Assessed for such Improvements.

Delancey street, widening from a 50-foot street to one of 150 feet in width, from the Bowery to Clinton street. This additional width is taken from the blocks on the southerly side of the street, the survey consisting of ten separate maps with duplicates, including 122 lots and the detailed measurements of 157 houses and other incumbrances in the most densely populated portion of the City. This added greatly to the difficulty in making a correct survey, the recorded dimensions by deeds, not corresponding to the areas in possession; in many cases, the lengths and width of the blocks far in excess of the recorded dimensions, much confusion was encountered in the location and size of the properties. Some of the blocks were found to be from 1.81 feet to 3.54 feet in length and from 0.49 foot to 1.79 feet in width in excess of the dimensions, as shown upon the filed maps of the City.

When the City was laid out into streets and avenues, under the Law of 1807, the Commissioners under that act laid out and monumented all streets and avenues north of Houston street and accepted the portion of the old City street lines south of Houston street, as found; some of the measurements upon the maps being in the English standard and others in the Dutch measurement have caused this confusion which is found in these old streets.

One Hundred and Ninety-second street, Audubon avenue to Wadsworth avenue.

One Hundred and Ninety-third street, Audubon avenue to Wadsworth avenue.

One Hundred and Seventy-third street, Broadway to Fort Washington avenue.

One Hundred and Seventy-fifth street, Broadway to Fort Washington avenue.

One Hundred and Seventy-fourth street, Amsterdam avenue to Fort Washington avenue.

Fairview avenue, Broadway to St. Nicholas avenue.

Rachel lane, Goerck street to Mangin street.

Madison Avenue Bridge approach, widening Madison avenue, from One Hundred and Thirty-sixth street to One Hundred and Thirty-eighth street.

Rule Maps with Technical Descriptions Have Been Furnished the Corporation Counsel for Application to the Courts for Appointments of Commissioners of Estimate and Assessments for Acquiring Title to the Following Streets.

Two Hundred and Nineteenth street, from Broadway to Harlem river.

Two Hundred and Seventh street, from Ninth avenue to Harlem river.

One Hundred and Sixty-seventh street, from Amsterdam avenue to St. Nicholas avenue.

St. Nicholas avenue, Hillside avenue, at their junction with Nagle avenue and Dyckman street.

Madison Avenue Bridge approach, from One Hundred and Thirty-sixth street to One Hundred and Thirty-eighth street, and on One Hundred and Thirty-eighth street to Fifth avenue.

Maps, Grades and Grades Amended.

Catharine Market, Jefferson Market, Tompkins Market, Washington Market, West Washington Market, Gansevoort Market and Fulton Market.

The following leased buildings and corporation yards are under the jurisdiction of the Bureau:

Yards.

Rivington street, West Fifty-sixth street, West Eighty-seventh street, West One Hundred and Twenty-third street and East Eightieth street.

Buildings.

Nos. 8, 10, 12 and 14 Chambers street and Nos. 84, 86 and 88 Park row.

The following offices are under the jurisdiction of the Bureau:

Office President of the Borough of Manhattan, Office Commissioner of Public Works, Bureau of Public Buildings and Offices, Bureau of Buildings, Bureau of Highways, Bureau of Sewers and miscellaneous offices.

The Bureau during the past year maintained and made all the repairs necessary to keep the various buildings in proper condition.

The work of constructing the public baths is progressing as favorably as can be expected under the conditions existing in the labor market. The Forty-first Street Bath was opened to the public on November 24. This building was constructed at a cost of about \$100,000. This bath is an improvement, both in plan and scope, on the Rivington Street Bath. As yet it has not been very largely patronized, although the attendance is steadily increasing as the fact of its existence becomes known to the residents of this locality. This bath has more than one hundred showers and ten bathtubs.

It is expected that the One Hundred and Ninth Street Bath will be opened early in January. This is much larger than any of the baths now in operation. There are in course of construction one bath at West Sixtieth street, containing both showers and plunge; one in Allen street, near Rivington street, almost completed, with showers and tubs similar to the Forty-first street and East One Hundred and Ninth street baths; one at East Seventy-sixth street (John Jay Park). All of these baths are near completion. There will be one erected on Avenue A, between Twenty-third and Twenty-fourth streets. Plans and specifications are ready, but the contract is not as yet let. This bath when completed will be the largest one in this City and will contain plunge, showers and tubs for males and females.

The Board of Estimate and Apportionment has appropriated \$633,000 for the erection and completion of four public bath buildings and the acquiring of sites for same. When this extensive system of public baths will have been completed New York City can be proud of its bathing facilities and will rank as one of the first cities of the world in its work for cleanliness and health. The far-reaching effect on the health of the people of this City that will result from the facilities given them for bathing cannot be overestimated. It is the intention to provide these interior baths so that when the time comes when commerce and unsanitary condition of the waters surrounding New York City will be such that it will be impossible to maintain floating baths at all, the interior baths will be an adequate substitute and meet all the demands of the free floating baths.

The floating baths have rendered excellent service during the past year, and are now in storage at Twenty-second street, South Brooklyn, and have met with no accidents or mishaps during the summer season. They have accommodated 1,851,029 males and 957,468 females, making a total of 2,808,497. The baths were open for 115 days, making an average of 24,421 bathers per diem.

Extensive repairs have been made to the Rivington Street Bath, the steam system overhauled and interior painted and renovated. This bath is extensively patronized by the residents of this locality, and 499,730 males and 303,561 female bathers are accommodated, making a total of 803,291.

The locations of the interior baths when completed will be as follows:

No. 326 Rivington street, open to public.

No. 347 West Forty-first street, open to public.

No. 243 East One Hundred and Ninth street, not yet complete.

No. 133 Allen street, not yet complete.

Seventy-sixth street and East river (John Jay Park), not yet complete.

No. 538 East Eleventh street, not yet complete.

No. 232 West Sixtieth street, not yet complete.

Avenue A, between Twenty-third and Twenty-fourth streets, not yet complete.

A comprehensive system of Public Comfort Stations will be completed and open to the public within a short time. They are located as follows:

City Hall, open.

One Hundred and Twenty-fifth street and Park avenue, open.

Sheriff and Delancey streets, open.

Chatham square, not open.

Battery Park, not open.

Greeley square, not open.

Hanover square, not open.

Long Acre square, not open.

These stations are most beneficial in their results, and are the result of the agitation by the Association for Improving the Condition of the Poor and the co-operation of several well-known public spirited women of this City. The structures are artistic in design and all of them have been approved by the Municipal Art Commission.

The contracts have been let for the installation of electrical ventilating system in the County Court-house. This is almost completed, and has met with the approval of all of the Justices holding court in this building. The building has long been in an unsanitary condition, and the Judges have been constant in their complaints regarding the same. It is expected that this system will accomplish all the desired results. An electric lighting system will be installed in the building and the plumbing work improved. In short, the building will be modernized and made more habitable and sanitary.

In the City Hall extensive repairs are now going on, correcting the defects in the ventilating system, painting the interior and putting in a first-class sanitary system of plumbing. It is proposed to run a pipe gallery through the building in order that repairs may be made without difficulty to the system of piping. It was necessary under the old conditions if a leak were discovered to expend considerable money in making repairs. As the pipes were imbedded in concrete and were inaccessible to the mechanics, it was therefore necessary to excavate before any repairs could be made to the pipes.

Considerable attention is now being given to the improvement of the Brown Stone Building; \$20,000 will be expended in painting, pointing up the mason work, replacing same where defective, installing additional plumbing fixtures, bringing the building up to date and putting it in a sanitary condition.

It will be necessary to readvertise for bids for the work of altering the Thirteenth District Municipal Court, which was purchased by the City from St. Mary's Church. Bids were advertised for work on this building, and the amount of same was double the money appropriated for this purpose. The specifications are being altered to a more economical basis, but I think an additional \$15,000 will be required to be added to the \$13,000 already in our possession. This work will be prosecuted and completed during the coming year.

The Hall of Records Building it is expected will be turned over to the City the early part of next year, and will provide accommodations for the Finance Department, Register's Office and the Corporation Counsel. This building, as you know, will be one of the handsomest in the City, but falls far short so far as accommodations are concerned in providing offices for the several departments that were intended to be located there. I would strongly indorse any recommendation for the acquiring of property for the erection of a commodious structure that will locate all of the City Departments centrally. This subject has been thoroughly thrashed out before and is familiar to everyone.

Accommodations have been provided for the Second District Municipal Court at No. 59 Madison street. The building was painted, equipped with new furniture, and this district now has a court which meets all the desired requirements.

I have given detailed information in all of the quarterly reports submitted in regard to the supplies and repairs made during the year.

It is proposed to improve the lighting system of the Criminal Courts Building and make repairs to the stone and mason work and the various masonry arches throughout the building, which were damaged through the settlement caused during the construction of the tunnel. All of this work will be prosecuted and completed during the coming year.

Respectfully submitted,
WILLIAM H. WALKER,
Superintendent of Public Buildings and Offices.

Request of the Bridge Department, dated January 31, for authority to change the title of Maurice Downey from Driver, Department of Street Cleaning, to Laborer, Department of Bridges.

Request of the Bridge Department, dated February 4, for authority to change the title of Max Schatz from Sweeper, Department of Street Cleaning, to Laborer, Department of Bridges.

Request of the Bridge Department, dated February 7, for authority to change the titles of John Blake and John Verner from Sweeper, Department of Street Cleaning, to Laborer, Department of Bridges.

Request of the Dock Department, dated January 31, for authority to change the titles of James Denny, John J. Dempsey and Nathaniel T. Jenks from Dock Builder to Foreman Dock Builder.

Request of the Dock Department, dated February 2, for authority to change the title of Thomas Burnes from Laborer to Foreman of Laborers.

Request of the Park Department, The Bronx, for authority to change the title of William Cockfair from Park Laborer to Stableman.

Request of the President of the Borough of Queens, dated February 3, for authority to change the title of Mrs. Anna Conroy from Laundress to Cleaner.

Request of the President of the Borough of Queens for authority to change the title of Arthur Connors from Rigger to Laborer (January 31).

Reinstatements, Reassignments, etc.

Request of the Department of Street Cleaning, dated February 3, for authority to reinstate Vincenzo Petrello as Driver in the Borough of Manhattan.

Request of the Department of Street Cleaning, dated February 3, for authority to reinstate Henry C. Lichen as Driver in the Borough of The Bronx.

Request of the Department of Street Cleaning, dated February 6, for authority to reinstate Michael Houlihan as Hostler in the Borough of Brooklyn.

Request of the Dock Department, dated January 30, for authority to reassign Frank Heckman to duty as Stoker, Manhattan.

Request of the Dock Department, dated January 30, for authority to reassign John Burke to duty as Dock Laborer, Manhattan.

Request of the Dock Department, dated February 7, for authority to reassign John Nestor to duty as Dock Laborer, Brooklyn.

Request of the Department of Docks, dated February 7, for authority to reassign James Handy to duty as Stonecutter and Mason, The Bronx.

Request of the Dock Department, dated February 7, for authority to reassign George Sparks to duty as Dock Builder, Manhattan.

Request of the Borough President, The Bronx, for approval of the rescinding of his action of December 17, 1904, whereby he dropped Cornelius C. O'Brien, a Laborer, from the rolls.

Request of the Park Department, The Bronx, for approval of the rescinding of his action in dropping Edward Tyrrell from the rolls.

Request of the Dock Department, dated February 1, for approval of the rescinding of his action in dropping Thomas J. O'Loughlin from the rolls.

Denied for Lack of Power.

Request of the Borough President, Richmond, dated February 9, for authority to change the title of William H. De Hart from Laborer to Assistant Foreman.

Request of the Borough President, Manhattan, dated February 4, for authority to transfer Edward Purcell, a Driver, from Department of Street Cleaning to his office.

Request of the Department of Water Supply, dated February 2, for authority to transfer Frank P. Day, a Laborer, from the Department of Parks, The Bronx, to Water Supply Department.

Emergency Appointments.

Notice from the Bridge Department, dated February 10, of the employment of Jim Monohan and 113 others in removing snow on Williamsburg Bridge.

Notice of the Bridge Department, dated January 30, of the employment of Jos. Loughlin and 82 others in removing snow from Harlem River Bridges.

Notice from the Bridge Department, dated January 31, of the employment of John Doherty and 168 others in removing snow from the Williamsburgh Bridge, and 102 for the Brooklyn Bridge.

Notice from the Borough President, Richmond, dated January 30, of the employment of 15 men to remove snow.

Notice of Water Supply, Richmond, dated February 1, of the employment of W. T. Buckaloo and Henry Newhouse, Laborers, in Tottenville, to clean wells, etc.

Notice of the Park Department, Manhattan, dated January 30, of the employment of Jos. Marino and 12 others in removing snow.

Notice from the Borough President, Richmond, dated January 30, of the employment of William Brennan and 100 others for removing snow.

Notice of the Water Supply, Richmond, dated February 8, of the employment of W. T. Buckaloo and John Scherb as Laborers to clean wells, etc., at Tottenville.

On motion, the action of the President in the foregoing matters was approved.

The Committee on Transfers presented a report recommending that the following requests for transfer in the City Service be approved:

Thomas J. Coman, from the position of Clerk in the Department of Water Supply, Gas and Electricity to a similar position in the Department of Taxes and Assessments.

Edward Loomis, from the position of Telephone Operator in the Department of Public Charities to a similar position in the Department of Water Supply, Gas and Electricity.

Alexander H. McPhee, from the position of Inspector of Masonry and Carpentry in the Bureau of Public Buildings and Offices, Brooklyn, to a similar position in the Bureau of Buildings, Borough of Manhattan.

Miss Isabella Burrows, from the position of Supervising Nurse in the Department of Public Charities to the position of Deputy Superintendent of Training School for Nurses, she having formerly held the latter position.

Alexis J. Malukoff, from the position of Draughtsman in the Rapid Transit Railroad Commission to a similar position in the Department of Bridges.

Miss Margaret G. Jordan, from the position of Typewriting Copyist in the Tenement House Department to the position of Stenographer and Typewriter, she having been appointed from the list for the latter position.

On motion, the recommendation of the Committee on Transfers was adopted.

The Committee on Reinstatements presented a report recommending that the reinstatement of Harry Jacobs, in the position of Office Boy in the Department of Health (salary at the rate of \$300 per annum), be approved, he having resigned from a similar position in that department on January 31, 1905. The recommendation of the Committee on Reinstatements was adopted.

A letter was presented from Clerk Woodward, stating that the application of William Dunton, candidate for the position of Janitor, had been mislaid in his Department, and requesting permission to accept a duplicate of the said application from the candidate. It appearing from the records of the office that the original application was duly filed, registered and indexed, and that the candidate had taken and passed the examination, and that the loss of the application was in no wise his fault, but rather that of an employee of this Department, on motion the request was granted.

A report was presented from Examiner Byrne, dated February 10, with reference to the complaint made to this office that one Christopher Glover was employed as a Driver in the Department of Street Cleaning, under the name and in the place of one Christopher Cox, deceased, stating that he had investigated the case and found the allegation to be correct. The Secretary stated that immediately upon receipt of Examiner Byrne's report he had communicated with the Department of Street Cleaning and asked that Glover be immediately dismissed, and that he had further instructed the Pay-roll Clerk to pass no pay-roll bearing his name.

A report was presented from Clerk Woodward on the case of Jeremiah Sullivan, No. 2114 Third avenue, candidate for the position of Inspector of Masonry Construction. The report set forth that the candidate had been granted a special medical examination on June 22, 1904, he having missed the regular examination held on June 6. He succeeded in passing the physical test, but had never been called for a mental examination. The Secretary was instructed to communicate with Mr. Sullivan and inform him that as the Civil Service Rules do not permit of special examinations, he cannot be granted a mental examination at this time.

A letter was presented from Clerk Tighe, asking for instructions as to whether the new list for promotion to the position of fourth grade Clerk, Department of Public Charities, superseded the old list for that position, and stating that the old list was originally for second grade, but was changed to fourth grade by action of the Commission taken November 2, 1904.

On motion, the Secretary was directed to instruct Clerk Tighe that the new list established for the position of fourth grade Clerk superseded the old list, the Civil Service Rules providing that an eligible list that has been in force for one year shall terminate whenever a new list is established under the same title, and in case of a graded position for the same grade.

On motion, the bill of Albert M. Judd, M. D., for services rendered in conducting the physical examination for the position of Fireman, in the amount of two hundred dollars (\$200) was approved.

A letter was presented from the Civil Service Reform Association, dated January 30, requesting that the Commission investigate the case of one J. Henrietta Durie, whose name appears on the eligible list for Police Matron, and alleging that in the first physical examination taken by the candidate her height was 5 feet 6¼ inches, and her weight was 121½ pounds, while in the physical re-examination taken by her, her height was 5 feet 4 inches, and her weight 120 pounds, the discrepancy in her measurements pointing to the conclusion, in the opinion of the Reform Association, that the examinations were not taken by the same person. The matter was referred to Examiner Byrne for investigation.

A letter was presented from the Civil Service Reform Association, dated February 10, requesting to be informed whether the Municipal Civil Service Commission had taken any action upon the request submitted on behalf of that association that the charges preferred against Mr. Henry Berlinger, Secretary, be investigated. It was ordered that a communication be addressed to the Civil Service Reform Association, setting forth the fact that Secretary Berlinger had answered the specifications of the Reform Association regarding his conduct in office; that the same had been considered by the Commission at a meeting held December 30, and that a copy of his answer had been forwarded to the association as the answer of the Commission, all of which was conveyed to the association in a letter written by President Coler on January 3, 1905.

Letters were presented from the Civil Service Reform Association, dated February 10, requesting (first) that the Commission withhold its certificate from the pay-roll of the Commissioner of Licenses until the position has been classified, as, in the opinion of that association, the said Commissioner of Licenses is not the head of a department within the meaning of section 8 of the Civil Service Act; and (second) that the Commission refuse to attach its certificate to the pay-roll of John J. Caldwell, Esq., Secretary to the Commissioner of Licenses, until such time as that position is classified according to Civil Service Laws and Rules; and (third) that the Commission withhold its certificate from the pay-roll of Joseph O. McShane, Esq., Supervising Inspector in the office of the Commissioner of Licenses, until he has been restored to the position of Inspector of Licenses, inasmuch as he never passed an examination for promotion to his present position. The Secretary called the attention of the Commission to the fact that (first) the Corporation Counsel had stated, in an opinion dated December 23, 1904, that the office of Commissioner of Licenses was independent in its powers and functions and was not a portion of the office of the Mayor, but was a department by itself; (second) that the pay-roll of John J. Caldwell, Esq., for services rendered as Secretary to the Commissioner of Licenses was not being certified by this Commission, and that Commissioner Keating had been notified that the same would not be done until the position had been properly classified; and (third) that there was no violation of the Civil Service Law in the designation of Joseph O. McShane as "Supervising" Inspector, that being merely an office title, permitted by the Civil Service Rules; that the position of Inspector of Licenses being in the ungraded service, the Commissioner clearly had the right to increase Mr. McShane's salary if he saw fit to do so. On motion, the Secretary was instructed to communicate with the Civil Service Reform Association and inform it of the foregoing facts.

A letter was presented from the Chief Examiner, dated February 2, calling the attention of the Commission to the fact that a number of City Departments have failed to comply with section 8 of Rule XV., which requires that appointing officers shall certify and transmit to the Commission on the 1st day of October in each year a transcript of the efficiency records of the graded employees in the several departments. On motion, the Secretary was instructed to communicate with the departments mentioned in the letter of the Chief Examiner and call their attention to the provisions of section 8 of Rule XV., and further to state that no promotion examinations will be held for their departments until the foregoing requirement is complied with.

A letter was presented from the Comptroller, requesting that the examination for promotion to the position of Junior Clerk (Grade B) taken by Joseph Meyers, Otto Domke and Joseph A. Young, employees of his department, be construed to have qualified them for promotion to the position of Junior Clerk (Grade C). In conjunction with the Comptroller's letter the Commission considered a report from the Chief Examiner, stating that the examinations for both grades were similar in character. The request was granted.

The request of the Comptroller that an examination be held for promotion from the position of Assistant Engineer to that of Principal Assistant Engineer was granted.

A letter was presented from the Commissioner of Correction, requesting a further certification of names for appointment to the position of Physician on Riker's Island. It appearing that the eligible list for the position of Physician had been exhausted, no one whose name appeared on the same caring to accept the vacant position, the Secretary was instructed to certify from the list for Medical Inspector.

A letter was presented from the President of the Borough of The Bronx, dated February 9, stating that he had rescinded his action of December 17, 1904, in dis-

missing Cornelius C. O'Brien, Laborer, and had reinstated him in his position. On motion, the reinstatement of Mr. O'Brien was recognized.

A letter was presented from the Superintendent of the Bureau of Buildings, Queens, dated February 8, requesting that the name of Jacob Degan be restored to the eligible list for the position of Inspector of Plumbing, he having been out of town when his notice of appointment reached him, but having reported immediately upon receipt of same. The Secretary was instructed to restore the name to the list.

A letter was presented from Assistant Corporation Counsel Guy, transmitting copy of a bill affecting civil service, recently introduced in the Legislature, and requesting that the Commission communicate with the Corporation Counsel regarding same. The matter was referred to Commissioner Talley for consideration.

The emergency appointment of Henry J. Naylor, as Machinist (Automobile Repairist), in the Department of Street Cleaning, for 5 days beginning February 7, was approved under the provisions of Rule XIX., paragraph 11, there being no eligible list from which to certify.

A letter was presented from the Secretary of the Fire Department, dated February 1, transmitting a letter from Fire Chief Croker, setting forth the fact that the injuries which prevented first grade Fireman Herman F. Kuch from passing the physical test in the examination for promotion to the position of Engineer of Steamer were received in the performance of his duties. The Secretary stated that when the appeal of Fireman Kuch was laid over by the Commission pending receipt of this information, it was his understanding that the candidate had entered the mental examination conditionally; that he had found that such was not the case, and in the event of the appeal for a physical re-examination (eliminating so much of the test as the candidate might be unable to pass by reason of the injuries received in the performance of his duties), being granted, it would be necessary to hold a special mental examination for this one candidate. On motion, the appeal was denied for lack of power.

A letter was presented from Deputy Fire Commissioner William A. Doyle, dated February 4, requesting the Commission to reopen the case of Assistant Foreman Charles E. Field and rate the papers submitted by him in the last examination for promotion to the position of Foreman, said papers not having been rated for the reason that the candidate was rejected in the physical test. On motion, the request was denied for lack of power.

On motion, the action of the Commissioner of Docks and Ferries in rescinding the dismissal of Joseph A. Ganey, Recreation Pier Attendant, and reinstating him in his Department, was appointed, it appearing that Mr. Ganey is a veteran of the Spanish-American War, and for that reason was entitled to retention in the service and transfer to some similar position when his services as Recreation Pier Attendant were no longer required.

The request of Walter F. Smith, of No. 336 East Twenty-ninth street, Brooklyn, that his name be restored to the eligible list for the position of Inspector of Masonry Construction was granted, it appearing that he never received the notice of appointment sent him by the Aqueduct Commission, that Department having mailed the same to East Twenty-ninth street, New York City, through error.

The request of F. A. O'Meara, No. 403 Third street, Brooklyn, for a special examination for the position of Topographical Draughtsman, was denied for lack of power.

The request of Timothy Sullivan, Eastchester road, Westchester, that his name be transferred from the list for Court Attendant, Manhattan, to the list for Court Attendant, The Bronx, was granted.

The request of Michael Keegan, No. 104 Cherry street, for a special examination for the position of Fireman was denied for lack of power.

The request of Siegfried Steinberg, that he be restored to eligibility for appointment at \$1,200 per annum from the list for Stenographer and Typewriter was denied, it appearing from the records of this office that Mr. Steinberg refused appointment at that salary in the office of the President of the Borough of Richmond.

The request of Charles J. Rosene that his papers in the examination for the position of Janitor be rated, was denied for lack of power, he having signed his name to the same instead of his examination number.

The request of Abraham E. Carley, of No. 534 West Twenty-ninth street, New York City, for a special examination for the position of Fireman, was denied for lack of power.

The request of Philip A. Morris that his name be restored to the eligible list for the position of Temporary Clerk was denied, it appearing from the records of this office that he failed to report to a notice of appointment sent him by the Department of Water Supply, Gas and Electricity.

A letter was presented from Frank F. Davis, Esq., Attorney for Captain Charles F. Albertson, of the Police Department, requesting that his client be recognized as an Inspector before any other persons are promoted to that position, and submitting a brief in support of his request. The matter was referred to Commissioner Talley for a report and recommendation.

The request of Miss Sadie Wiener that her name be restored to the eligible list for Stenographer and Typewriter was granted, it appearing from a letter addressed to this Department by the Superintendent of Bellevue Hospital that their notice to the effect that she failed to respond to notice sent her was an error, and that she really declined appointment because the position was a temporary one.

The Secretary was directed to restore the name of Edward A. Merwin, Jr., to the list for Stationary Engineman, it appearing from the physician's certificate furnished by him that he is now sufficiently recovered in health to be able to accept employment.

The request of Philip J. Culkin, No. 79 Montgomery street, Manhattan, for a special examination for the position of Examiner of Sewer Claims, was laid over pending receipt of further information on the subject.

The request of Sigmund Muenz, of No. 323 East Eighty-third street, City, that he be restored to eligibility for appointment to the position of Topographical Draughtsman at \$1,350 per annum, was denied, it appearing from the records of this office that he declined appointment in the office of the President of the Borough of Richmond at that salary.

On motion, it was

Resolved, That the Secretary be and hereby is instructed to admit to the coming examination for promotion to the rank of Inspector in the Police Department all persons now serving in the grade of Captain, irrespective of the length of their service in that grade; provided, however, that no person shall be certified, as a result of the said examination, as eligible for promotion to the rank of Inspector who has not served the required two years in the grade of Captain.

On motion, the appeals of the following-named candidates for Patrolman, that they be permitted to change the date of birth on their respective applications, were granted, they having produced satisfactory proof that the dates originally given by them were erroneous:

18378. George B. Campbell, No. 267 Weirfield street, Brooklyn.

17291. William Hogan, No. 188 Van Alst avenue, Long Island City.

18214. James Hughes, No. 8 West One Hundred and Nineteenth street, Manhattan.

The Commission then adjourned to meet Friday morning, February 17, at 9.30 A. M.

Attest:

HENRY BERLINGER, Secretary.

MUNICIPAL CIVIL SERVICE COMMISSION.

Municipal Civil Service Commission,
No. 61 Elm Street,
New York, February 17, 1905.

A meeting of the Municipal Civil Service Commission was held at the Commission's offices, No. 61 Elm street, on Friday, February 17, 1905, at 9.30 A. M.

All the Commissioners were present.

The public hearing on the application of the Commissioner of Licenses that the positions of Secretary to the Commissioner, Chief Inspector of Licenses and Deputy Chief Inspector of Licenses be placed in the Exempt Class, which has been adjourned from February 3, was continued. Commissioner Keating appeared in behalf of the proposed exemptions, and addressed the Commission, giving his reasons for requesting same. Elliot H. Goodwin, Esq., Secretary of the Civil Service Reform Association, and George R. Crowley, Esq., representing the Association of Civil Employees, addressed the Commission in opposition to the proposed exemptions. The hearing then closed.

A public hearing on the application of the Department of Parks that the position of Architect, boroughs of Manhattan and Richmond, be placed in the Exempt Class, which had been postponed from February 3, the date originally set, for the reason that there were no appearances on that day in behalf of the proposed amendment, was announced by the Secretary. There being no one present to explain the reasons of the Department of Parks for requesting this amendment to the classification, the Secretary was instructed to strike the matter from the calendar. The Commission then went into regular session.

On motion, it was

Resolved, That the classification of offices and positions in the Exempt Class, as fixed by the Municipal Civil Service Rules, be and the same is hereby amended by including therein, under the heading, "Office of the Borough President in Each Borough," the following:

Confidential Inspector, Manhattan.

The Secretary was directed to transmit a copy of the foregoing resolution to the Mayor for his approval.

On motion, it was

Resolved, That the examination for promotion to the position of eighth grade Appointment Clerk in the Department of Street Cleaning, held August 16, 1904, be and the same is hereby canceled for the reason that, through erroneous information received by this Department, persons eligible to enter said examination were not notified to do so.

A letter was presented from the Chief Examiner, dated February 3, calling the attention of the Commission to the fact that on the day set for the examination for promotion from the position of fourth grade Clerk to that of fifth grade Accountant in the office of the Commissioners of Accounts, no candidates appeared, and asking for instructions in the matter.

On motion, the Secretary was instructed to communicate with the Commissioners of Accounts and request an explanation.

A report was presented from the Chief Examiner, dated February 6, upon the complaint of Thomas J. O'Toole, No. 24 Wyckoff street, Brooklyn, against the character of the questions used in the examination for Engineer of Steamer. It appearing from the report of the Chief Examiner that the complaint was not well founded, on motion, the Secretary was instructed to communicate with Mr. O'Toole and to inform him that the Commission cannot take any cognizance of same.

A letter was presented from the Superintendent of the Bureau of Public Buildings and Offices, Brooklyn, dated January 25, stating that when the record of the efficiency, character and conduct of the employees of that bureau was certified to this Commission on October 28, 1904, it was erroneously stated that Mr. William W. Richards, Chief Clerk, had been increased to a compensation of \$2,550 per annum on July 1, 1903, and that, therefore, when Mr. Richards came up for examination for promotion to a compensation of \$3,000 per annum, his seniority was rated only from July 1, 1903, instead of from January 1, 1903, the date upon which he began his service in the former grade. Superintendent Wise further stated that Mr. Richards originally had been promoted to \$2,500 per annum on February 1, 1901, but that he had been reduced on May 21, 1902, to \$2,250 per annum, and requested to be informed whether or not the Civil Service Commission would consent to rate his seniority from the date on which his salary was first fixed at \$2,500 per annum.

On motion, the Secretary was instructed to communicate with the Superintendent of Public Buildings and Offices, and state that his request that Mr. Richards' seniority be rated from February 1, 1901, cannot be granted, but that the Commission will correct the error caused by the erroneous information furnished by his Department; and the Secretary was further instructed to communicate with the Chief Examiner and direct that the seniority in service of William W. Richards, Chief Clerk, be computed from January 1, 1903.

A report was presented from the Chief Examiner on the request of Walter S. Wolfe, an employee in the Department of Finance, that the examination in which he competed for promotion to a compensation of \$1,350 per annum (old fifth grade) be construed to have qualified him for promotion to a salary of \$2,100 per annum (old tenth grade), setting forth that the statement of Mr. Wolfe that the paper submitted in the examination in which he competed was the same for all grades, is correct. It appearing that there were eligible lists established as a result of the said examination for various grades, to which were attached compensations of \$1,500, \$1,800 and \$1,950 per annum, and that the rights of the persons whose names appear on said lists, many of whom received higher percentages than Mr. Wolfe, would be prejudiced by the granting of his request, on motion, the same was denied.

On motion, the report of the Chief Examiner on examinations held during the month of January was ordered filed.

The Secretary presented the pay-roll of Everett L. Tarlton, Automobile Engineman, for services rendered in the Fire Department during the month of December, 1904. It appearing that the services of Automobile Enginemen were urgently required by the Fire Department, and that they were unable to procure an Automobile Engineman from the list established by this Department for that position, for the reason that when the same was ready it contained but eight names and was immediately exhausted, and that it was therefore necessary to continue the temporary services of Mr. Tarlton beyond the sixty days allowed by Rule XII., paragraph 3.

On motion, the Secretary was directed to attach a special certificate to the pay-roll and to forward the same to the Department of Finance.

The Secretary presented the supplementary pay-roll of the Department of Street Cleaning for services rendered by twenty-one (21) Sweepers in the employ of that Department during the week ending December 15, 1904. The Secretary stated that his attention had been called to the fact that these persons had been appointed from the preferred list without respect to their standing on said list, and that he had therefore withheld the certificate of the Commission from the pay-roll. It appearing that since that time all the persons whose names appeared on the said preferred list have been appointed and are now being employed in accordance with section 1543 of the Charter.

On motion, the Secretary was instructed to attach the certificate of the Commission to the pay-roll.

A letter was presented from the Rapid Transit Railroad Commission dated February 14, requesting an amendment to the classification of positions in the exempt class, as fixed by the Civil Service Rules, by including therein, under the heading "Rapid Transit Railroad Commission," the title "Consulting Engineer." The Secretary was instructed to arrange a public hearing on the proposed amendment, in accordance with the provisions of Civil Service Rule III.

A letter was presented from the Department of Health dated February 14, with further reference to the leave of absence, without pay, for the month of February, granted James T. Gallagher, M. D., Medical Inspector. It appearing from the communication of the Department of Health that it was desired to extend the leave of absence granted Dr. Gallagher for a period longer than the six months allowed by Civil Service Rule XIII., paragraph 2, for the reason that he has not yet fully recovered from an illness from which he has been suffering, and therefore could not report for duty at the expiration of the said six months, on motion, the leave of absence was extended until March 1.

The request of the President of the Borough of Richmond that a leave of absence, without pay, for three months from February 16, 1905, granted Joseph W. Rogers, Leveler, be approved, was granted, it appearing from the physician's certificate furnished that such leave of absence was granted because of illness.

The request of Harry H. McConnellogue, No. 1467 Third avenue, that his name be restored to the eligible list for Stenographer and Typewriter, second grade, was granted, it appearing that he declined appointment in Bellevue and Allied Hospitals under a misapprehension.

The request of James Mack, No. 1 Crotona Park, North, that his name be restored to the preferred eligible list for the position of Rodman was granted, it appearing that the reason he did not respond to the notice of appointment sent him by the Aqueduct Commission within the four days prescribed by the rules was because the said notice was misdirected.

The request of James Pieton, No. 28 West Ninth street, that his name be restored to the eligible list for Junior Clerk, was granted, it appearing that he was out of town when notice of appointment was sent him, and therefore could not respond within the four days prescribed by the rules.

The request of Clarence L. Hill, a first grade Clerk in the employ of the Department of Parks, Borough of Manhattan, that the examination in which he competed for promotion to second grade be construed to have qualified him for promotion to the fourth grade, was granted, it appearing from the report of the Chief Examiner that

the same questions were submitted to candidates in the said examination for the first four grades of clerkship, and there being no one in the employ of the Department of Parks whose rights would be prejudiced by the granting of said request.

On motion, it was

Resolved, That the following-named persons be and they hereby are appointed as Experts to conduct the coming examination for the position of Interpreter, with compensation at the rate of \$10 per day while employed:

Dr. George Muth, No. 29 St. Mark's place (German).

George N. Deville, Esq., No. 157 East Thirty-first street (Italian).

Rudolph C. Altschul, Esq., No. 39 West One Hundred and Fourteenth street (French).

On motion, it was

Resolved, That the compensation to be paid Dr. Louis W. Schultze, No. 260 Lenox avenue, and Dr. Henry Altschul, No. 153 West Seventy-sixth street, the Experts appointed by this Commission to conduct the examination for the position of Medical Officer, Fire Department, be and the same is hereby fixed at the sum of \$300 each.

On motion, it was

Resolved, That Austin T. Byrne, Esq., Civil Engineer and Surveyor, of No. 350 Fulton street, Brooklyn, be and hereby is appointed an Expert to examine and rate the Technical and Experience papers in the examination for Chairman and Rodman, with compensation at the rate of \$10 per day while employed.

The Commission then adjourned to meet Tuesday, February 21, 1905, at 9 A. M.

Attest:

DEPARTMENT OF DOCKS AND FERRIES.

TRANSACTIONS OF THE

DEPARTMENT OF DOCKS AND FERRIES DURING THE WEEK ENDING JANUARY 26, 1905.

The following permits were granted:

January 20. Bureau of Sewers—

To construct a barrel sewer through the bulkhead wall at Pier, new 4, East river, and to extend the sewer to the outer end of the pier; and to construct a barrel sewer under the pier at the foot of Morris street, old Pier 4, North river, the consent of the private owners to be obtained in the latter case.

January 20. Pennsylvania, New York and Long Island Railroad Company—

To construct two shafts southerly of Borden avenue, Long Island City, Borough of Queens, in what is known as the "Nassau Slip," and to construct a staging for a distance of about 25 feet around the northerly shaft, in accordance with plans submitted, the shafts and staging to remain only during the pleasure of the Commissioner.

January 20. Consolidated Telegraph and Electrical Subway Company—

To open asphalt pavement between Franklin and North Moore streets, North river, for the purpose of constructing an electric light subway connection thereat, the Uvalde Asphalt Paving Company having agreed to relay the asphalt pavement at the cost of the permittees.

January 20. James Pilkington—

To rebuild dumping board at the inner end of the north side of the pier foot of One Hundred and Thirty-third street, North river, and to use and occupy such dumping board during the pleasure of the Commissioner, rental to be at the rate of \$75 per month, payable monthly in advance to the Cashier.

January 23. New York City Railway Company—

To make general repairs to its car tracks along the waterfront in the Borough of Manhattan, until July 1, 1905, unless sooner revoked.

January 23. Philip F. Donohue—

To use and occupy bulkhead extending for a distance of 75 feet south from the southerly line of the area now occupied by him at One Hundred and Fifty-fourth street, North river, together with land under water in front of said bulkhead, with the privilege of constructing an extension to his bath houses thereat, rental for the additional privileges to be at the rate of \$75 per annum, payable to the Cashier quarterly in advance, the permit to continue until April 30, 1905, the additional rental to commence as soon as the bath house extension is completed, and the extension to be erected in accordance with plans to be hereafter submitted to and approved by the Engineer-in-Chief.

January 23. Sanitarium for Hebrew Children—

To land its barge excursions at the outer end of the pier foot of East Third street, East river, Borough of Manhattan, on July 5, July 12, July 19, July 26, August 2, August 9, August 16 and August 23, 1905, rental to be at the rate of \$1 for each landing, payable to the Dock Master.

January 25. Manhattan Beach Hotel and Land Company, Limited—

To dredge in Sheepshead Bay, and to deposit the dredged material in rear of the bulkhead now in existence in the vicinity of Neptune avenue, Sheepshead Bay, Borough of Brooklyn, it being understood that, in accordance with agreement entered into by said company with the City, providing for the construction of substantial bulkhead and marginal street, which will become the property of the City after completion, no material is to be deposited on waste and vacant lands unless and until a suitable retaining structure shall first be constructed, the plans for which must first be submitted to and approved by the Engineer-in-Chief.

January 25. Consolidated Telegraph and Electrical Subway Company—

To lay an electric light subway connection at the approach to Pier, new 38, East river.

January 26. Pennsylvania, New York and Long Island Railroad Company—

To maintain suction and blow-off pipes near the foot of Flushing street, Long Island City, Borough of Queens, in accordance with plans submitted, pipes to remain thereat during the pleasure of the Commissioner.

January 26. American Ice Company—

To repair the premises occupied for ice-bridge purposes at the outer end of the pier near the foot of Gansevoort street, North river, and to sink scales in the deck of said pier, upon condition that the premises will be restored to proper condition whenever so ordered by the Commissioner.

On January 21 permission was granted Mary G. Pinkney (John C. Shaw, attorney,) to deposit filling between the northerly side of One Hundred and Forty-fifth street and the southerly side of One Hundred and Forty-sixth street, Lenox avenue and the exterior street, and within the triangular space between the northerly side of West One Hundred and Forty-eighth street, the westerly line of Lenox avenue and the easterly line of the exterior street, Harlem river, upon condition that a substantial retaining structure be first constructed for retaining the filling, the work to be done in accordance with plans to be first submitted to and approved by the Engineer-in-Chief.

The Dock Superintendent reported that the Dock Master of the district caused the arrest of two men, Gannon and Ferro, on January 19, 1905, for dumping cellar dirt along the west bank of the Harlem river, between One Hundred and Forty-fifth and One

Hundred and Forty-sixth streets, and the Corporation Counsel was requested to have a representative at the trial of the two men in order that the interests of the City might be properly protected.

In accordance with recommendation of the Engineer-in-Chief, the Montauk Steamboat Company and the Munson Steamship Company were directed, January 23, to vacate Piers, old 13 and old 14, East river, with the adjoining bulkheads, on or before February 1, 1905, in order that the work of improvement of the waterfront at that point might be proceeded with.

On January 24 a rental of \$1 per day was fixed for the seven days during which the barge "Hattie M. Field" was berthed outside of the ship "Jacob A. Stamler" on the north side of the pier foot of West Twenty-first street, North river, from January 2 to January 9, 1905, and permit was granted John Arbuckle to berth the "John Wise" alongside of the "Jacob A. Stamler," from January 9, 1905, the date on which the boat was placed in position, and for the berthing of the "Gitina" alongside of the "John Wise," commencing January 17, 1905, the date on which that boat was placed in position, rental for the "John Wise" and the "Gitina" to be at the rate of \$1 per day for each boat, payable at the end of each week to the Dock Master of the district.

On January 25, in accordance with recommendation of the Auditor, a rental at the rate of \$11,500 per annum was fixed for the occupation of Pier, old 11, East river, with the bulkhead westerly thereof, by the New York and Baltimore Transportation Company, the said rental to commence as of January 15, 1905, the date on which title to the property vested in the City.

On January 26, in accordance with recommendation of the Dock Superintendent, the permit granted Thomas F. McLaughlin April 29, 1904, for the use and occupation of space for the storage of sand and building material in rear of the bulkhead between One Hundred and Fortieth and One Hundred and Forty-first streets, Harlem river (space actually occupied located between One Hundred and Thirty-ninth and One Hundred and Fortieth streets, Harlem river, adjoining the easterly line of Fifth avenue,) was amended so as to cover space 50 by 100 feet in dimensions on the upland between the slips at East One Hundred and Thirty-ninth and East One Hundred and Fortieth streets, Harlem river, rental to be at the same rate as heretofore charged, namely, \$25 per month, payable monthly in advance to the Cashier, the amended permit to terminate April 30, 1905, unless sooner revoked.

On January 24, pursuant to the authority vested in the Commissioner by the terms and conditions of sale under which William J. Fitzgerald purchased on August 10, 1904, the privilege of placing filling in rear of the bulkhead wall at the northerly end of the Chelsea section, on the North river, the Commissioner extended the southerly limit of the filling from the line heretofore fixed, namely, 1,035 feet south of a point 100 feet south of the southerly side of West Twenty-third street, a distance of 400 feet further southerly to a point about 105 feet north of the north side of West Eighteenth street, the said limit of filling to be at right angles to the bulkhead wall; an additional amount—\$4,347—to be paid by Fitzgerald to the City for the additional filling privilege, in accordance with the terms of sale; 25 per cent. of the same to be paid at once to cover the first one-quarter of the filling to be deposited; another 25 per cent. to be paid when the first one-quarter filling has been completed; another 25 per cent. when one-half of the filling has been completed, and the remaining 25 per cent. when three-quarters of the filling is completed.

On January 26 bids were received and opened for furnishing and delivering about 10,000 barrels of Portland cement under Contract No. 893, the following bids being received:

| | Per Barrel. |
|------------------------------------|-------------|
| Atlas Portland Cement Company..... | \$1 35 |
| Standard Material Company..... | 1 45 |
| John P. Kane Company..... | 1 27½ |

Contract awarded, January 26, to the John P. Kane Company, the lowest bidder, subject to the approval of the United States Fidelity and Guaranty Company as surety by the Comptroller.

The following extensions of time were granted for the completion of contracts: January 20. R. G. Packard Company, for the removal of rock between Seventy-sixth and Seventy-eighth streets, East river, under Contract No. 841, to and including January 17, 1905.

January 21. R. G. Packard Company, for the completion of dredging between Fifteenth and Eighteenth streets, North river, under Contract No. 798, to and including January 10, 1905.

SUPREME COURT.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND SEVENTY-THIRD STREET (although not yet named by proper authority), from Broadway to Fort Washington avenue, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 27th day of April, 1905, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 28th day of April, 1905, at 11 o'clock A. M.

Second—That the abstract of our said estimate and assessment, together with our damage maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 8th day of May, 1905.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the easterly side of Buena Vista avenue with the westerly prolongation of the middle line of the blocks between West One Hundred and Seventy-fourth street and West One Hundred and Seventy-fifth street; running thence easterly along said prolongation and middle line and its easterly prolongation to its intersection with a line parallel to and 100 feet easterly from the easterly line of Amsterdam avenue; thence southerly along said parallel line to its intersection with the easterly prolongation of the middle line of the blocks between West One Hundred and Seventy-first street and West One Hundred and Seventy-second street; thence westerly along said prolongation and middle line and its westerly prolongation to its intersection with the easterly side of Buena Vista avenue; thence northerly along the easterly side of Buena Vista avenue to the point or place of beginning; excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon or benefit maps deposited as aforesaid.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court-house, in the Borough of Manhattan, in the City of New York, on the 22d day of June, 1905, at the opening of the Court on that day.

In the matter of the application of The City of New York, relative to the widening of LIVINGTON STREET, from 50 feet to 80 feet, between Court street and Flatbush avenue, in the First and Third Wards, in the Borough of Brooklyn, The City of New York.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, were appointed by an order of the Supreme Court, made and entered herein on the 6th day of March, 1905, and duly filed in the office of the Clerk of Kings County, a copy of which order was filed in the office of the Register of the County of Kings on the 6th day of March, 1905, and indexed in the Index of Conveyances in Section No. 1, Blocks Nos. 269, 163, 164, 165, 166, 167, Commissioners of Estimate and Assessment for the purpose of making a just and equitable estimate of the loss or damage, if any, to the respective owners, lessees, parties and persons entitled to or interested in the lands and premises to be taken for the purpose of opening the said street or avenue, as particularly described in the petition of The City of New York, filed with said order in the office of the Clerk of Kings County, and for the purpose of making a just and equitable assessment of the benefit of said street or avenue so to be opened, to the respective owners, parties and persons respectively entitled to or interested in the lands and premises and not required for the purpose of opening said street or avenue, but benefited thereby, and of ascertaining and defining the district benefited by said assessment, and the extent and boundaries of the respective tracts and parcels of land participating in said benefit, and of performing the trusts and duties required of us by title 4 of chapter 17 of the Charter of The City of New York, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the lands and premises taken or to be taken for the purpose of opening said street or avenue, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office in the Bureau of Street Openings of the Law Department, No. 166 Montague street, Borough of Brooklyn, in the City of New York, with such affidavits or other proofs as the said owner or claimants may desire, within twenty days after date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 25th day of April, 1905, at 3:30 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto; and at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto, and examine proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner or on behalf of The City of New York.

Dated BOROUGH OF BROOKLYN, THE CITY OF NEW YORK, March 31, 1905.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring right and title to and possession of certain lands, lands filled in, wharf property, terms, easements, emoluments and privileges necessary to be taken for the improvement of the water front of The City of New York on the NORTH RIVER, BETWEEN WEST TWENTY-SECOND AND WEST TWENTY-THIRD STREETS, ELEVENTH AND THIRTEENTH AVENUES, pursuant to the plan heretofore adopted by the Board of Docks and approved by the Commissioners of the Sinking Fund.

NOTICE IS HEREBY GIVEN THAT, BY an order of the Supreme Court of the State of New York, bearing date the 24th day of February, 1905, and filed and entered in the office of the Clerk of the County of New York on the 11th day of March, 1905, Emanuel Blumenstiel, Michael J. Murray and Edward Duffy were appointed Commissioners of Estimate and Assessment in the above-entitled proceeding.

Notice is further given, pursuant to the statutes in such case made and provided, that the said Emanuel Blumenstiel, Michael J. Murray and Edward Duffy will attend at a Special Term, Part II, of the Supreme Court, to be held at the County Court-house, in the Borough of Manhattan, City of New York, on the 10th day of April, 1905, at the opening of court on that day, for the purpose of being examined under oath by the Corporation Counsel of The City of New York, or by any person having an interest in the said proceeding, as to their qualifications to act as Commissioners of Estimate and Assessment in this proceeding.

Dated New York, March 28, 1905.
JOHN J. DELANY,
Corporation Counsel,
No. 2 Tryon Row,
Borough of Manhattan,

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to WEST TWO HUNDRED AND EIGHTEENTH STREET (although not yet named by proper authority), from Seaman avenue to Ninth avenue, in the Twelfth Ward, Borough of Manhattan, in The City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, lessee or lessees, parties or persons respectively entitled to or interested in the lands, tenements, hereditaments and premises affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 to 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 11th day of April, 1905, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 13th day of April, 1905, at 4 o'clock P. M.

Second—That the abstract of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 22d day of April, 1905.

Third—That the limits of our assessment for benefit include all those lands, tenements and

hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the bulkhead line of the Harlem river with a line drawn parallel to and distant 100 feet northeasterly from the northeasterly line of West Two Hundred and Sixteenth street; running thence northwesterly along said parallel line and its northwesterly prolongation to its intersection with a line drawn parallel to and distant 100 feet northwesterly from the northwesterly line of Broadway; thence southwesterly along said parallel line to its intersection with a line drawn parallel to and distant 100 feet southwesterly from the southwesterly line of West Two Hundred and Fifteenth street; thence northwesterly along said parallel line and its northwesterly prolongation to its intersection with the bulkhead line of the Harlem river; thence northeasterly along said bulkhead line to its intersection with the northwesterly prolongation of the middle line of the blocks between West Two Hundred and Nineteenth street and West Two Hundred and Twentieth street; thence southeasterly along said prolongation and middle line and its southeasterly prolongation to its intersection with the bulkhead line of the Harlem river; thence southerly along said bulkhead line to the point or place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That our supplemental and amended report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court-house, in the Borough of Manhattan, in The City of New York, on the 20th day of June, 1905, at the opening of the Court on that day.

Dated Borough of Manhattan, New York, March 10, 1905.

JOSEPH GORDON,
Chairman;
ADAM WIENER,
SAM'L SANDERS,
Commissioners.

JOHN P. DUNK,
Clerk.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
