COMMUNICATIONS FROM DEPARTMENTS AND CORPORATION OFFICERS.

The President laid before the Board the following communication from the Counsel to the Corporation:

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION,
NEW YORK, February 7, 1893.

MICHAEL F. BLAKE, Esq., Clerk of the Common Council :

SIR—I have received your letter of the 18th instant calling my attention to a letter addressed to you by the Chief Clerk of the Secretary of State, in which you are requested to send notice of designation, pursuant to section 3 of chapter 715 of the Laws of 1892, of newspapers appointed to publish the session laws in the City of New York to the Secretary of State.

You ask me to advise whether the County of New York is exempt from the provision of said section, or whether you must proceed to call a meeting of the Board of Aldermen as a Board of Supervisors for the County of New York, and whether the Board, when so organized, must proceed to designate the papers to publish the session laws, pursuant to said section.

The statute in question provides as follows:

The statute in question provides as follows:

"§ 3. It shall be the duty of each Board of Supervisors in the several counties in this state, at their annual meeting or at any special meeting called for the purpose, to appoint the printers for publishing the laws in their respective counties, etc., etc."

I am of the opinion that the statute in question has no application to the City of New York.

1. The Court of Appeals, in Billings vs. The Mayor, 68 N. Y., 417, has said:

"By the amendment of the Constitution which took effect January first, 1875, all restraint of this description was removed. The County of New York was no longer required to have a Board of Supervisors, and in that city and county all the powers and duties of a Board of Supervisors were rendered capable of being devolved upon the Board of Aldermen. After this amendment took effect therefore, there remained no case to which the exception contained in the act of 1874 was applicable. There was no case in which action could not "under any power conferred by that act or otherwise, be taken in any other manner" than by a Board of Supervisors. Where there remained no case in which action in any other manner could not be authorized, that act operated to abolish all the functions of Supervisors as such, and there was no case in which the Board of Aldermen were required to or could act as a Board of Supervisors. The functions of the office having been abolished the office itself ceased to exist."

There is, therefore, no Board of Supervisors in the County of New York, and the provision in

There is, therefore, no Board of Supervisors in the County of New York, and the provision in question is applicable only to the counties in which there are Boards of Supervisors, and annual meetings thereof are held, or special meetings are called to appoint printers for publishing laws.

2. By section 66 of the Consolidation Act ample provision has been made for the publication of all advertisements required by law to be published by the City of New York.

I therefore advise you that no designation of papers to publish the session laws should be made by the Board of Aldermen, acting as a Board of Supervisors, or otherwise.

I remain, respectfully yours.

I remain, respectfully yours,
WM. H. CLARK, Counsel to the Corporation.

Which was ordered on file.

From the Department of Public Works:

DEPARTMENT OF PUBLIC WORKS, COMMISSIONER'S OFFICE, No. 31 CHAMBERS STREET, NEW YORK, February 9, 1893.

Hon. THOMAS F. GILROY, Chairman, Board of Estimate and Apportionment:

Dear Sir—In the matter of the enclosed petition, addressed to you by the owners of nearly all the houses and lots fronting on Thirtieth street, between Madison and Fourth avenues, for an asphalt pavement on that street, and the communication addressed to the Comptroller by Dr. John H. Thompson, claiming to represent eight other property-owners, with a frontage of 387½ feet, protesting against an asphalt pavement on the street, I have the honor to report:

The petition in favor of the asphalt pavement represents a frontage of 744 feet 6 inches out of a total frontage of 840 feet on that block. Dr. Thompson, therefore, clearly misrepresents the case when he states that the owners of 387½ feet frontage are opposed to an asphalt pavement.

It is upon such misrepresentation that the street has heretofore been stricken from the list for asphalt repavement. The petitioners in favor of the asphalt are represented by their own genuine

asphalt repayement. The persignatures, and not by proxy. The petitioners in favor of the asphalt are represented by their own genuine

The street is an exclusively residential one and every circumstance connected with it makes the smooth, clean and noiseless asphalt pavement specially desirable there.

I therefore respectfully recommend that the street be restored to the list for asphalt repavement and that your Board authorize such repavement to be made.

Very respectfully,
MICHAEL T. DALY, Commissioner of Public Works. NEW YORK, January 20, 1893.

Hon. THEODORE W. MYERS, Comptroller:

Dear Sir—The newspapers recently printed a list of streets that are to be newly paved. Among them I find this street, Thirtieth, from Madison to Lexington or Third avenue. I regret very much to find this street, and especially this block, between Madison and Fourth avenues, is down to be paved with asphalt. Some two years ago, when the subject was broached, I got up a petition which was signed by most of the property-owners between these avenues, requesting that asphalt should not be placed here as a pavement, stating as reasons that it would deprive some eight or ten fine large shade trees of water, and thereby kill them; shade trees being so few and so necessary to health and comfort. The pavement is so slippery, under many circumstances, when wet or with snow on it, as to render it very dangerous to drive on. I keep two horses, with which I have to drive from my house several times each day. Nobody else on the block owns horses except those who live in the apartment house on the corner of Madison avenue, which occupies only eighty feet on Thirtieth street, and they object to stone pavement because the insurance only eighty feet on Thirtieth street, and they object to stone pavement because the insurance patrol wagon makes so much noise when it runs over the stones. I know of no other reason. In slippery weather the asphalt is avoided by all careful drivers or those owning valuable horses; and when that pavement is watered during the summer I always have my horses driven from the stable in Twenty-eighth street), to my house by the way of Fourth avenue, so as to avoid the asphalt on Madison avenue.

I asked that if a new pavement was laid on this block that it might be of granite blocks, and the names of some of the signers of the petition I herewith give you and the frontage they own on-

Mrs. William Laimbeer, 120 feet. Mrs. Gawtry, 20 feet. Mrs. Lummis, 20 feet.

Francis O'Neill, 80 feet.

A. Waterbury, 34 feet. J. Sullivan, 21 feet. E. Parker, 20 feet.

James Grant Wilson, 50 feet.

-and I am quite sure there were others, but, not having a copy of the petition, will not mention

more.

I know, however, that Mr. Brasier, who lives on the block and drives a team, is very much opposed to the asphalt, though he does not own the property, but has lived here for ten years or more.

Another reason for not wanting the asphalt in front of our property is that unless it is kept wet it becomes dusty, gets out of repair very frequently, and the odor in hot weather is very unpleasant, and when kept wet makes the atmosphere damp and unwholesome. Therefore, I respectfully ask you, in the name of the parties above mentioned, to put at least this block, from Madison to Fourth avenue, upon the list of streets to be pared with granite blocks and not asphalt.

Very respectfully, yours, JOHN H. THOMPSON, M. D.

NEW YORK, January 28, 1893. Hon. THOMAS F. GILROY, Mayor of the City of New York:

Hon. Thomas F. Gilroy, Mayor of the City of New York:

Sir—We are informed that a communication was recently presented to the Board of Estimate and Apportionment of this city, which was in the nature of a protest against the paving of Thirtieth street, east of Madison avenue, with asphalt pavement, and we, the undersigned, being the freeholders of the several premises set down opposite our names, desire to state that we dissent emphatically from the tenor and argument embraced in said protest mentioned above.

We dissent from the statement in said protest that if said East Thirtieth street, between Madison and Fourth avenues is repaved with asphalt pavement that "some eight or ten fine large shade trees will be deprived of water and thereby killed." There are six trees in the block, all very old, two of them for safety should be cut down at once. We are of the opinion that paving streets with asphalt pavement is not deleterious to the growth of trees, and we think that the signers of the protest mentioned above can point to no instance proving the statement quoted above. No city in the world has more trees in it than the City of Washington, D.C., and most of its streets are paved with asphalt.

The remarks in protest about asphalt pavement being slippery, dusty, getting out of repair, causing unpleasant odors in hot weather, etc., need not be combated here; yourself and the gentlemen associated with you in the government of the City know what weight to give such

than signer of protest) mentioned by name, does not now, nor has he during his residence on the block, owned horses.

We are informed that the protest referred to above states that Mrs. William Laimbeer is the owner of 120 feet of frontage in said part of Thirtieth street, between Madison and Fourth avenues. This is incorrect; we are informed that the estate of William Laimbeer is the owner of 40 feet only. We are also informed that one Francis O'Neil, who is alleged in said protest to be the owner of 80 feet frontage in said part of Thirtieth street, is not the owner thereof, but that the same is held in fee by the trustees of the estate of Willard Parker, deceased. We are also informed that several of the other persons who are stated to be the owners of premises fronting on said block signed said protest above described under a misapprehension. The matters we state here on information we believe to be true.

The pavement now in Thirtieth street, between Madison and Fourth avenues, has been frequently repaired, is now in very bad condition and should be repaved.

We hereby respectfully state that the entire frontage on the north and south sides of said block is about eight hundred and fifty-nine feet; that we, the undersigned, comprise the owners of a decidedly large majority of the frontage on said street in said block, and we hereby protest against the repaving of said part of Thirtieth street, between Madison and Fourth avenues, with granite blocks, as the signers of said protest have requested; and we respectfully request that that part of Thirtieth street be repaved with asphalt pavement; but that if the same cannot be repaved with asphalt pavement that the present pavement be allowed to remain as it is.

Debate was had thereon, when the Comptroller moved that the whole subject be laid over until the genuineness of the signatures could be ascertained.

The Mayor stated that he had personally examined into the matter and was prepared to certify to the genuineness of the signatures of the petitioners asking that the street be paved with asphalt, and recommended that the work be done and added to the list of streets and avenues authorized and determined to be repeated with exphalt payment at a meeting of this. Dear Sir—I have the honor to acknowledge receipt of your letter of 19th inst., urging the desirability of having Fifty-fourth street, between Sixth and Seventh avenues, paved with asphalt.

In reply, I beg to say that the matter is now beyond my action as Commissioner of Public Works for the reason that the list of streets recommended for repavement for 1893, and approved by the Board of Estimate and Apportionment, includes all or nearly all, the repavements which can be made under this year's appropriation. It may be possible that later in the year there may be a sufficient balance in the appropriation to cover the repavement which you desire, and if such should be the case your request will receive due consideration.

Very respectfully,

The Commissioner of Public Works, together with Thomas C. Clarke, Engineer of the proposed bridge, and George W. BOARD OF ELECTRICAL CONTROL.

Minutes of the meeting of the Board of Electrical Control, held at the office of the Mayor, in the City of New York, on Wednesday February 8, 1893, at 12 o'clock M.

Present—Mayor Thomas F. Gilroy, President, Commissioners Jacob Hess, Theodore Moss, Walton Storm.

The minutes of February I were read.

Mayor Gilroy objected to that portion of the communication of the Thomson-Houston Electric Company, dated January 23, 1893, going on the record, which intimates that it does not go into certain subways because it is not profitable to do so.

Judge Kelly, of counsel for the company, agreed to withdraw that part of the communication

tion.

The minutes as read, with the modification suggested by his Honor the Mayor and acquiesced

mby Judge Kelly, were approved.

Mayor Gilroy offered the following resolution:
Resolved, That the Electrical Expert be directed to report at the next meeting of this Board whether or not the Postal Telegraph-Cable Company maintains a pole line south of One Hundred and Twenty-fifth street, on Manhattan Island, and at what points.

Which was unanimously adopted.

The following communications were ordered filed:

A communication of the United Electric-light and Power Company, dated February 6, advising the Board of the removal of its wires on Chambers street, between Broadway and Greenwich

street.

A communication of the Metropolitan Telephone and Telegraph Company, dated February 1, stating that its wires will be speedily removed from One Hundred and Nineteenth street and St. Nicholas avenue and placed in the One Hundred and Twenty-fourth street subway.

Mayor Gilroy—With reference to the removal of poles and wires I desire to make a statement. The appropriation made by the Board of Estimate and Apportionment to the Bureau of Incumbrances for the year 1893 has been something like \$20,000 less for the removal of poles and wires than it was in the year 1892, and the consequence is, the bureau will not be able to do that efficient service in the work of removal of poles and wires that they did in 1891 and 1892. Now that makes it incumbent on this Board to do what had better been done before—compel the telephone, telegraph and electric-light companies, whose poles and wires are necessary to be removed to remove them themselves at their own expense; and I desire to move:

Resolved, That, before any notice is sent to the Bureau of Incumbrances for the removal of poles and wires, a demand be made upon the electric-light, telegraph, telephone and other

Resolved, That, before any notice is sent to the Bureau of Incumbrances for the removal of poles and wires, a demand be made upon the electric-light, telegraph, telephone and other companies who own the poles and wires, for their removal, so that actual notice only be sent to the Bureau of Incumbrances when that demand is refused or neglected; and in such case the Department of Public Works will keep an account of the expense of same, and forward it to the Corporation Counsel to be sued for.

Which was unanimously adopted.

lamp-posts at certain designated points on Sixth avenue, was approved.

Commissioner Hess reported as follows on the application of the New York Heat, Light and Power Company of New York City, referred to him at the last meeting:

I have examined the articles of incorporation of the New York Heat, Light and Power Company of New York City and find them to be correct. The incorporators and promoters of the company are responsible people, and they are ready to do business in accordance with the directions of the Board. The company is the successor of the Electric Power (Daft) Company. I report the following resolution and move its adoption:

Resolved, That the New York Heat, Light and Power Company of New York City, incorporated under the laws of the State of New York, is hereby authorized and empowered to lay and construct suitable wires or other conductors in subways under streets, avenues and public parks and places of the City of New York, for conducting and distributing electricity under the direction of the Board of Electrical Control, subject to all existing rules applicable thereto and to all regulations which this Board may hereafter impose by resolution or otherwise.

Provided always, and this consent is given upon that express condition, and not otherwise, that until the further order and resolution of this Board the electrical conductors of the said company shall be laid or constructed, and the privileges above granted shall be exercised only, in and through subways constructed by the Consolidated Telegraph and Electrical Subway Company, under and in pursuance of the statutes of the State of New York, and under and in pursuance of the supervision of this Board. vision of this Board.

The resolution was unanimously adopted.

The Electrical Expert reported in writing as follows:

"I have to report upon the clearing of Westchester avenue, for the construction of a line for city lighting, that the poles obstructing this street are those of the American Rapid Company, now in charge of the court, but that the Western Union Company, which is operating the line, has offered to move the poles out of the way; and it will be attended to in due time."

And the Board, on motion of his Honor the Mayor, adopted the following resolution:

Resolved, That the report of the Electrical Expert, dated February 7, in relation to Westchester avenue, be filed, and that he be directed to see that the poles referred to therein are removed, and report when they are down.

On motion the following resolutions were unanimously adopted.

The Electrical Expert reported verbally upon an application of the Thomson-Houston Electric Company of New York, dated February 1, to connect existing lamp-posts on First avenue, from Fifteenth to Twenty-sixth street, for city lighting, making the same report and recommendation as those made by him and the Engineer upon the company's application to place lamp-posts on Avenue A; and, on motion, it was
