In the last analysis the test of good police work must be:

1. In general the number, not of arrests but of convictions obtained.
2. The percentage this bears to the number of arrests.

This factor depends, however, on a coordinate branch of City government, namely, the courts.

3. Perfection of police work (in other words, the impossible ideal) can be obtained only when police and courts work as one and when the number of convictions is exactly equal to the number of arrests and both correspond to the number of crimes.

The above refers to ordinary police work, which is mostly concerned with misdemeanors. In felony cases, which are often obscure, a detective cannot fairly be judged by number of convictions alone, because here the element of time is essential. The best detective may be weeks or even months in attaining success.

Coming down from ideals to practical every day life, it appears that, generally speaking, the best available every day test of a police department is simply the number of convictions obtained.

I once said to your Honor that I yet hoped to hand you a year's report of this Police Department on a postal card. Here it is for three years:

	1906. (Revised.)	1907. (Revised.)	1908.
Arrests for felony	18,948	22,045	25,209
Convictions for felony	5,042	5,606	6,099
Arrests for misdemeanor	167,723	178,727	219,613
Convictions for misdemeanor	90,072	105,396	134,805
Total arrests	186,671	200,772	244,822
Total convictions	95,114	111,002	140,904

The above shows a steady improvement in three years with an increase of convictions in 1908 over 1906 of over 48 per cent.

For the first time in the history of the Police Department such a record and classification of results as given above have been made and a system established to continue them. In addition to the above, detailed reports, classified by crime, are now made weekly, so that it is possible not only to check up and watch and stir up the work of the force from almost daily reports, but it is now possible to report instantly how police work is progressing. This system was first worked out under my direction, by the reorganized Detective Bureau and the Fourth Deputy, and later carried to completion for the uniformed force by three Inspectors.

In a pamphlet issued February, 1908, entitled "Budget Appropriations of The City of New York, 1899-1908," the Comptroller says that the Board of Health figures show the population of New York to have increased in ten years (1899-1908) by 31.75 per cent.

Population, 1900—U. S. Census Bureau.

Hence the present population of Greater New York is very nearly equal to the combined population of New Hampshire, Vermont, Massachusetts and Connecticut.

Few people realize how large New York City really is—least of all its own inhabitants.

* Estimated. † Average.

The foregoing table shows:

1. That while the Police Commissioner is supposed to be supplied with men corresponding to an expenditure of over fourteen and three-quarter millions, he is short of that number of men by 455, whose salaries amount to over half a million ($623,366).

2. Only for the first time this year, 1909, do all those Departments of the City government who use 455 policemen, pay for them out of their own appropriations, thus properly reducing the responsibility of the Police Commissioner.

3. The average annual cost of a policeman to the City is from $1,448 in 1906 down to $1,416, in 1909.

4. From this it is evident that those City Departments who use policemen, thus taking them away from patrol, could, for the most part, fill this need of help at much less cost to the City, say at an average of $1,000 per man—thus saving over $400 per head for 455 men, or at a saving of $182,000 per year.

5. The average cost per head of population of the police force has an average during the four years, 1906-7-8-9, of $3.21, which is 12 cents cheaper than in 1899.

In the statement published by the Comptroller during 1908 it appears that

	1899.	1908.
Cost of Police Department per head of population was	$3 33	$3 24

Also that in ten years (1899-1908) the increases in cost were as follows:

	Per Cent.
Department of Education	108.70
Fire Department	68.41
Department of Correction	66.90
Police Department	28.33

The Comptroller also says that from estimates of population of New York made by the Board of Health, the increase in the ten years, from 1899 to 1908, was 31.75 per cent.

Hence the appropriations for the Police Department have not kept pace with the increase in population by 3 per cent. while those for the other Departments mentioned above have very greatly exceeded the ratio of increase of population, by from 34 per cent. to over 76 per cent.

Taking the total Police appropriation, not including pensions for 1909, at $14,452,028.85, a 3 per cent. increase would amount to $433,561, or enough to provide 542 additional Patrolmen at $800 per year, all of whom are absolutely needed; although of the increase of 800 Patrolmen asked for by the Police Commissioner for 1909, only 150 were granted.

This 3 per cent. increase of $433,561 would provide 417 additional Patrolmen, at $800 per year, and also the $100,000 asked for 1909 (but refused) to develop the detective service and make it immensely more effective. This $100,000 so expended would unquestionably repay itself more than doubly.

After thus bringing the police force up to what it should be to keep pace with the increase of population, the total annual cost thereafter would then be about $15,300,000 per year, including pensions, and this allows for no increase as population increases.

Now let us assume that the force be increased to match the increase in population from 1899-1908 (as above described), we have:

1. Force at work under Police Commission, 10,296.
2. Total cost (including pensions) about $15,300,000.
3. This is one member of force to every 430 inhabitants.
4. At a cost per head of population of $3.45.

Obviously there should be an automatic increase of the police force to keep pace with increase in population. This can be determined only by adopting a standard as to how many inhabitants shall correspond to one member of the force.

The following table, which is sufficiently accurate for comparisons, gives an idea of the number of Patrolmen in the various cities of the world:

Twenty-six cities			11,041

Average, 1 to 425.

By a study of the above figures, with careful consideration of police conditions existing in each of the cities cited; and by a careful consideration, from experience, of criminal conditions in New York, including the large numbers of foreign criminals here, of many nationalities, I arrive at the conclusion that, for the next ten years at least, the police force of New York, meaning only those available by the Police Commissioner for strictly Police Department work, should be in the proportion of 1 to 400 inhabitants.

This would require an increase of the force actually available by the Police Commissioner for patrol, etc. (and not counting details away from strict police duty) from 9,754 (the figure for 1909) to 11,060—or an increase of 1,306; or an increase of the total legal quota from 10,209 to 11,515.

Of this increase, 542 would merely bring the force level with the increase in population since 1899.

This proportion should be automatic by mandatory legislation and be determined by an annual census by the Board of Health.

Administration.

The pressure of work at Police Headquarters, increasing as it does year by year, with the necessity for improvement in methods and closer scrutiny of all details by the Police Commissioner and his personal staff, made it necessary to avail more thoroughly of another Deputy. Hence, the Deputy stationed in Brooklyn was brought to Manhattan Headquarters for part of his time.

This involved the rearrangement, more or less, of the duties assigned to all the four Deputies in order to make the work more evenly balanced.

Far from injuring police service in Brooklyn this will really result in better police service there and instead of, in the main, having the service of only one Deputy, that part of the City will receive closer attention, not only from the Commissioner, but from all four Deputies, each in his sphere.

A very important piece of work done in 1908 was the publication of a new edition of the Police Rules. This work took two and one-half years to complete and involved the rearrangement and reclassification of the old rules. Much, too, was improved on and some new matter was introduced.

The One Hundred and Eighty-second Precinct, composed of the men detailed for duty in Courts, in Brooklyn and Queens, was abolished. The various Court Squads being placed under the nearest Inspection Districts, thus making a number of men more available for police work and producing a more direct and effective supervision of the Court Squads.

New Precincts.

Pressure of police work required the establishment of one new precinct in Queens, No. 282, located at Broadway, near Ocean avenue, Ozone Park, and taken from the Two Hundred and Eighty-third Precinct.

A new precinct in The Bronx is being worked out of the Sixty-third Precinct, which has become too much built up and populated to be properly administered from the present centre.

Bureau of Electrical Service.

Total number of telephone instruments in use		463
Number of switchboards in use (one of which is 8 section, another of which is 6 section)		8
Total number of patrol signal stations		1,210
Total signal switchboards in station houses		38
Miles of telephone lines—		
Aerial	601	
Underground	1,776	
Submarine	5	
		2,382

This mileage is less than shown on last year's report, due to three causes:

1. Inaccuracy of past records.
2. Worn out lines not yet replaced.
3. Better arrangement of lines.

Twenty conductor miles were laid in Flatbush avenue, Brooklyn, to replace damaged cable.

New cable was laid under Harlem River.

Eighty-three miles of conductor installed in Queens, thus eliminating nine exchange leased lines.

Record of Messages.

	1906.	1907..	1908.
Manhattan	285,377	512,648	439,978
The Bronx	45,891	53,148	52,105
Brooklyn	153,784	308,936	301,550
Queens	41,915	20,661	56,951
Richmond	.....	10,793	31,369
Total	526,967	906,186	881,953

This is a less figure than reported for 1907 for Manhattan and Brooklyn because now a large number of alarms are no longer sent by telephone, but issued in printed form.

Aside from the above recorded messages are as many again unrecorded sent over the wires and relating to the daily routine official business of the Department of which no records are kept.

The underground cable plant owned and operated by the Police Department is utterly inadequate, especially in Manhattan.

The congestion on some wires has become so acute that it was found necessary to lease about 57 miles of conductor at an annual cost of $840.

The number of trunk lines connecting the various boroughs is wholly unequal to the necessities of the service.

Owing to the destruction by ice of the submarine cable between Staten Island and Brooklyn it was found necessary to lease telephone lines through the State of New Jersey at a cost of nearly $1,000 per annum. To replace this cable would only cost about $5,000.

The Police signal box system in Brooklyn is utterly inadequate and practically out of commission. Twelve thousand dollars is about what it will cost to replace it. All over the City the underground cables for the most part are worn out and need renewal.

When it is considered that the whole business of the Police Department would be paralyzed if these telephone connections were to break down, it can be readily understood that it is desirable for the City to expend the necessary money upon this necessity.

Various technical and practical improvements have been made during the year in details to the telephone system, all of which have added greatly to the dispatch of business.

The Police Department is now in possession of proper maps and records of all its lines and telephone property and the supplies of the Telephone Bureau are now being handled in a systematic, business-like and economical way.

The Bureau of Electrical Service has given the Police Department in general much valuable assistance aside from its regular telephone work.

Bureau of Repairs and Supplies.

This branch of the Police Department has been given careful attention and detailed study. It has never been thoroughly and systematically organized. Great improvements have been made in the method of caring for public property since 1906, but now one of the deputies is in personal charge, and the most minute details will be worked out so as to place this branch on a thoroughly sound, simple and clear basis, such as should exist in any business house. Changes in personnel have been made, the Commissioners of Accounts and Bureau of Municipal Research have given their assistance freely, with the best results.

Repairs and their cost are being given close attention.

In overhauling the system and details of buying it has been found that under the laws, it is impossible to draw contracts to the best advantage of the City—so that the Department can only do the best it can, but cannot get the best results. The best sellers do not like to and for the most part will not bid on City work and supplies. One firm has had so much difficulty in getting its bills paid that it declines any orders, except for cash, which, of course, is impossible.

On the ground of the absolute impossibility of getting two City departments to work in unison, thereby causing endless delay, confusion and bad results for the City, I wish to place here on record the official opinion that it is best for the City to continue the present system of purchasing supplies for the Police Department rather than to merge it into a Central Supply Bureau for all departments. The latter won't work.

Legal Bureau, 1908.

There are detailed in this Bureau under the Third Deputy Police Commissioner four members of the Police Force who have been admitted to the Bar. The work done by them has been a factor in increasing the efficiency of the work done by the police force. There is no doubt that many cases have been held for trial by the Magistrates which would have been dismissed had these cases not been presented by members of the Legal Bureau. Also, the advice given by the members of this Bureau has greatly aided members of the Police Force of all ranks in the performance of their duty.

During the year the records of candidates for new patrolmen presented by the Municipal Civil Service Commission have been carefully scrutinized and a careful investigation has been made into the character of such candidates for the police force. As a result, a number of candidates have been rejected, to the benefit of the City. It is hoped by such investigation in future to raise considerably the standard of new men appointed to the police force.

School of Instruction.

Careful study has been given to this subject for a long time with the view of ascertaining how best a recruit for Policeman could be taught his duties in a short time, and a detailed schedule and program has finally been prepared which promises good results and which will be put into operation as soon as circumstances permit. In a word, the change consists rather in giving recruits verbal instruction than in requiring them to study law books which, while necessary, should properly come later in their careers.

Relief was granted to five widows with small children from the Police Relief Fund. To each was granted the sum of $240, payable in monthly installments of $10 each. These widows are not eligible for pensions because of the short service of their deceased husbands.

During the year four hundred and fifty-six pensioners (women and children) were reinvestigated.

During the year a number of contributions have been received from citizens either for the Police Pension Fund or the Police Relief Fund. There was one gift to the latter fund of $5,000 and another to the same fund of $1,000.

New Buildings and Sites.

The new Police Headquarters at Grand and Centre streets is closely nearing completion. The plans were approved in September, 1904, but owing to various delays, failure of contractors, construction of subways, etc., occupation was greatly delayed and can not now be expected much before June 1, 1909.

The occupation of this building will greatly increase the efficiency of the Police Department—some work can be concentrated, other work can be enlarged and developed, all work can be got better in hand.

The occupation of the new building will set free the old historic headquarters at No. 300 Mulberry street, for much needed storehouse use and shops for minor repair work.

A new station house has been completed and occupied (August, 1908) for the Twenty-third Precinct on Thirtieth street between Sixth and Seventh avenues. It is no boast to claim that this is the finest in the United States, both architecturally and in interior arrangement. The old station house opposite has been utilized as a store and supply depot.

Advertisement is just being made for a new and up-to-date station-house for the First Precinct at Old slip.

A new modern station house has been begun for the Second Precinct at Nos. 156 and 158 Greenwich street, running through the block to Washington street.

Plans are completed and nearly approved for a new and almost typical station house for the Eighth Precinct at the corner of Beach and Varick streets.

Plans are nearly completed for a new station house for the Thirteenth Precinct, corner of Clinton and Delancey streets, at west end of Williamsburg bridge.

A convenient lot, with house, has been bought for the Ninety-ninth Precinct (Tottenville). That precinct will soon be fairly well housed after really bad treatment where it is now.

New site with old buildings bought for Habror Precinct—Station B, at One Hundred and Twentieth street and East River.

Harbor Police.

During 1908 the rehabilitation of this branch of the work has been practically completed.

On January 1, 1906, the boats were all in bad shape and the service consequently poor.

Two new and speedy launches were built in 1907 for $12,500, speed thirteen miles per hour.

Two sister boats to the above were completed in 1908 at a cost of $11,500, speed 13 miles per hour.

Three old launches have been repaired and provided with new engines, speed 10 miles per hour.

The steamer "Patrol" is now in good repair.

The old station at the end of East One Hundred and Twenty-second street, in the street and alongside the sewer, has been abandoned and a new station at One Hundred and Twentieth street and East River has been bought. This gives the men a station house (lacking before), a small brick shop, space to store derelicts and recovered property, a proper landing dock, space for a runway for hauling out our launches for repairs and a convenient centre for river police work.

A new station has been established at Canarsie for Jamaica Bay, and another at Staten Island.

The entire water police now forms one command with four stations, as follows:

Harbor Precinct, Station A, Pier "A," North River; Harbor Precinct, Station B, One Hundred and Twentieth street and East River; Harbor Precinct, Station C, Canarsie, Jamaica Bay; Harbor Precinct, Station D, Staten Island.

All the waters of the city have been laid out in patrol posts and are now patrolled by boats and crews just like posts on land.

Traffic.

It may well be doubted whether the business of New York would get on without the Traffic Squad. It is vital to the life of a great city that its life blood, namely, traffic, should circulate. This work has so increased that it became necessary to organize it in four precincts, as follows:

Inspector in command	1	Patrolmen, foot	452
Captains	4	Patrolmen, mounted	117
Lieutenants	11	Bicycle men	21
Sergeants	34	Horses	130

The precincts are labeled: A, at City Hall, Manhattan; B, at No. 36 East Ninth street, Manhattan; C, at No. 1 East Twenty-seventh street, Manhattan; D, at No. 118 Waverly avenue, Brooklyn.

This work has been made uniform throughout the greater city and special attention is given to it at all times to render it more efficient and extend it as resources permit.

A specially selected troop of twenty-five mounted men of this squad attended the County Fair at Syracuse during the week of September 14 to 19, 1908, and did so well that they won a prize flag, which was, on November 5, 1908, presented by his Honor the Mayor to the squad, with appropriate ceremonies, in Union square. Mr. A. E. Perrine, of the Committee, was present on the occasion and presented the flag to his Honor.

Bureau of Information of Chief Inspector's Office.

The Bureau of Information is a branch that probably comes into closer touch with all classes of life than any other part of the Police Department. It receives requests for many kinds of information which it is neither in the province or in the power of the police to give; this is due to a prevailing belief that it is a bureau of general information on all subjects, whereas, in reality, its work is confined, or at least an attempt is made to confine it, to matters which come within the scope of police regulations or of police action. These include the search for missing persons, the identification of unknown dead, the care and recovery of lost or missing children and their restoration to parents or committal to homes or societies, and the issuance of parade and funeral permits when required. It keeps a record of the numbers of automobiles and the names of the corresponding owners and also of the numbers of chauffeurs' licenses and the names of the persons holding them. It keeps a card system record of arrests and accidents and persons aided by the police. It also investigates and answers hundreds of letters, both domestic and foreign, and these necessarily include many difficult translations.

A reference to the detailed report of this bureau will give an idea of the amount of work which it performs.

White Slave Traffic.

The traffic in importing women for purposes of prostitution, especially among the French, has received careful attention from the Department during the past year. This traffic is found to be of large dimensions. There seems to be very slight difficulty in getting women into the country. The requirements of the immigration authorities are easily met by various simple subterfuges. The new law which went into effect July 1, 1907, has been of great help, but the traffic still goes on, and will continue until drastic federal measures are taken to extirpate it. The forms it takes are as bad as possible. The men who own these women are of the lowest class and seem to have an organization, or at least an understanding, which is national and even international in scope. The term ownership is no misnomer. The women seem to be the property of the men in about the same way that a trick dog would be the property of the man who trains him and exhibits him for his own personal profit. The table below gives the figures of deportation. These figures show only a small part of what has been accomplished by this Department, since, according to our best information, a large number of men have taken their women to other cities, and even to other countries, on account of the risk they run by staying in New York.

The tables above show that two women were allowed to marry and stay in the United States in spite of the fact that they had been found guilty of being in this country in violation of the immigration laws. The Police Department, which arrested these women and delivered them to the federal authorities, was not consulted.

In this connection the affidavits below are interesting:

State of New York, City and County of New York, ss.:

John Doe, being duly sworn, deposes and says: I am a Detective in the Police Department of The City of New York, attached to the Detective Bureau, Borough of Manhattan, and engaged in getting evidence against alien prostitutes and criminals.

On June 23, 1908, I arrested an alien woman named Mary Doe on a warrant issued by the Department of Commerce and Labor, Washington, D. C.

The said Mary Doe was charged with violation of the Immigration Law (Act of Congress, February 20, 1908). She was found guilty and ordered deported by the Department of Commerce and Labor.

In the meantime the United States Grand Jury in the Southern District of New York found an indictment against a man named of street, New York City, for harboring several alien prostitutes. The said Mary Doe was therefore held as a witness in this case at the request of the United States Attorney.

After the lapse of several months, a native born American citizen by the name of Richard Roe made an application to marry the said Mary Doe. The said application was granted by the Department of Commerce and Labor.

On November 5, 1908, the said Richard Roe (who was at the time divorced from his first wife, under her own application, as the divorce papers show plainly that he was caught in the act of committing adultery with another woman) married the said Mary Doe, who was discharged by the Department of Commerce and Labor, and took her to his house at street.

Several days after I met the said Mary Doe, who told me the following:

"Don't you know what he wanted from me, that fellow Roe. Don't you know that he had another girl in his house at street, and when we got there he introduced me to her (an old prostitute named Laura) and told me she was his wife, but that I would stay with them and that we both would make good money by both hustling from his house. I therefore left him and went back to at street, where I have been living a few days. I sent a letter to him stating that I was going to sue him if he didn't give me some money, as I was penniless. He then advised me to return to his house at street, and 'do business' there for myself (meaning prostitution). This I did, and I now make five or six dollars a day, which I keep for myself, and Roe stays with his affinity Laura.

"Of course you know, John, that if I married that fellow Roe, it was only to beat deportation and be safe forever, as I am now an American citizen."

Since that time I have seen the said Mary Doe, now Mrs. Roe, soliciting on Twenty-sixth street and Sixth avenue, and taking men to street.

State of New York, City and County of New York, ss.:

John Doe, being duly sworn, deposes and says: I am an officer in the Police Department of The City of New York, attached to the Detective Bureau, Borough of Manhattan, and engaged in getting evidence against alien prostitutes and criminals.

On May 19, 1908, there arrived by the steamship Mauretania an alien woman named Jane Doe who was arrested on a warrant issued by the Department of Commerce and Labor, which warrant was obtained by the Police Department on an affidavit made and sworn to by me. She was ordered deported by the Department of Commerce and Labor on September 2, 1908, and held as a witness in a case now pending.

I met the said Jane Doe on Broadway and Twenty-eighth street during the first part of November, 1908. She came to me saying:

"Hello, how are you? You didn't expect to see me back in New York, did you? Well, I am going to tell you the whole thing.

"An immigration official down on Ellis Island got 'dead stuck' on me, because I appeared to be a nice girl when I was down there. I know how to behave, when necessary. This man hired a lawyer for me, who got me out of there on a writ of habeas corpus. Some immigration officials in Ellis Island got 'wise' to the attention that he was paying me, and he was immediately transferred to Texas. But he came to New York a week ago and he married me in New Jersey. Here is my marriage certificate (handing same to me), but he (her husband) is now back in Texas, and he wants me to go there, but I won't. I couldn't live with that man, he isn't making enough money. I don't want to go in the dressmaking business and earn eight or nine dollars a week, when I can make that every day on Broadway. I wish my husband would remain in Texas steady, and I would be all right in New York."

I read the marriage certificate above referred to, which showed that a certain William Doe married Jane Doe in Hoboken, N. J., on October 28, 1908.

Almost every night I see the said Jane Doe (now Mrs. Doe) soliciting on Broadway and taking men to hotels in that vicinity.

The Black Hand.

During the past year the Police Department has taken very vigorous action against these blackmailers. The fact that bomb explosions during the last six months of the year decreased 50 per cent. from those that occurred during the first six months shows partly the success that has been attained. The fact also that twenty-four Italians have been arrested in this city and delivered to Ellis Island on warrants for deportation shows something.

It is estimated that there are about 400,000 Italians in New York City. There are about forty Italian speaking officers on the Police Force. Of these only three or four speak the Sicilian dialects. These are of only limited usefulness, because they so quickly become known to the criminal Italians. On account of insufficient funds the Police Department can indulge in very little outside assistance in these matters. There have been, however, during the past year, some outside men available to assist the Department by secret work among the Italians. The results thus obtained have been so good that it is fairly evident that the situation would be very appreciably benefited if we could have an adequate secret service.

The difficulties in handling the Black Hand situation are peculiar. The Police know who most of these criminals are; we know how they work, and we know who a large number of the victims are. The Department is hampered, however, in its efforts against them by the almost universal refusal of the victims to enter complaints or to give the Police any sort of assistance, and by the fact that it is forced to work under the laws of the United States and the State of New York.

It is very rare that a complainant ever comes forward from among the Italians against one of these people. They seem to prefer to suffer in silence. If some of the persons who have been blackmailed would make this known to the Police and give evidence in court, the situation would be very different.

We are trying to handle mediaeval criminals, men in whose blood runs the spirit of the vendetta, by modern Anglo-Saxon procedure. It is wrong to allow these people to slip into this country. But besides allowing this, we give them, once in, every chance to work their blackmail without getting caught. Against this sort of crime our laws are weak. Either they must be kept out or else a system of procedure must be devised which is potent and immediate enough to handle that sort of crime.

The case of an alien who was arrested November 27, 1908, will illustrate something of the difficulty the Police Department works under in trying to keep the city clear of alien criminals.

On November 17, 1908, warrant was requested for the arrest for deportation of an Italian from Naples. November 20, 1908, the warrant was issued. November 27, 1908, the man was arrested and delivered to Ellis Island.

The penal certificate of the man stated that he had been sentenced to eight days' solitary confinement in March, 1908, by the Judge of the Tribunal of Naples. Besides this, a letter from the Minister of the Interior of Italy stated that this man had committed a brutal murder in Naples, that he had attempted to kill his own wife, that he had attempted to kill another man, and that while in the employ of the Post Office Department he had robbed the mail. The letter went on to say that on July 10, 1908, this alien was sentenced in his absence by the Court of Assize, Naples, Italy, to life imprisonment. All this information was given to the United States authorities.

On December 15, 1908, this alien was discharged from Ellis Island and is now at large in New York City.

The case of another man shows how the United States seems to insist on keeping these blackmailers here.

A man who is at present confined in a New York State prison, serving a sentence of two and one-half years for attempted extortion, was arrested in Italy twenty-seven times and convicted twenty-five times. When he was sentenced to state's prison here he had been in this country less than three years. The Police Department tried to get a warrant for his arrest so that he could be deported. The warrant was refused on the ground that the man had, by serving time in prison, been here more than three years.

In spite of the fact that he had twenty-five convictions in Italy and that before he had been in this country three years he was convicted again for blackmailing, our laws say he must stay here.

I believe that it is unusual that an Italian who has not been a criminal before he lands in this country becomes a Black Hander. America seems to be a sort of promised land to Italian criminals. In Italy the laws are rigorous against them and are vigorously enforced; the criminal is treated as a criminal. Here the laws are easy, and the lack of adequate provisions for secret service work makes their rigid enforcement impossible.

Legislation.

I.

Legislation on the following points is urged as vitally important to good police administration in the order named:

1. Police Commissioner to be authorized to reduce Sergeants to Patrolmen without trial as now Inspectors to Captains. It is believed this will nearly solve the problem of how to make Patrolmen patrol.

2. The establishment of a penalty after trial between thirty days' fine and dismissal from the Force. This penalty should be reduction of one grade in rank, applicable to all members of the Force.

3. Members of the Force on the retired list and drawing pensions from the taxpayer should be made subject to the Rules of the Police Department so far as relates to conduct unbecoming a Policeman, immorality or law breaking; with penalty after trial of: First, suspension of pension for a time; second, reduction of pension; third, revocation of pension.

Pensioners are now immune so far as pension is concerned, no matter how scandalous their conduct.

4. Provision by which members of the active force who have reached the age of sixty-four years or have served thirty years may be placed on the retired list by the Police Commissioner without application from them.

5. A clearly understood term of office for the Police Commissioner of at least nine years—with definite immunity from the usual propriety of resigning upon a change of administration.

Also, in order to obtain the class of men whom the City needs and should have, especially for so long a term, the salaries should be increased to at least $15,000 per year for Commissioner, $7,500 per year for Deputies.

The work requires all the time of these officials and it should not be forgotten that they are on duty all night as well as all day.

The following points of legislation are urged as vital to better results in police work:

1. A more rigid police supervision of pawnbrokers, second-hand and junk dealers, involving detailed reports by them daily to the police.

2. A more rigid control of the sale of pistols and all other dangerous weapons.

3. More rigid regulation and definition of vagrants, pickpockets and suspicious persons.

4. Severe penalties for self arson and self burglary.

5. Exclusion of the police from the enforcement of Election Law further than to preserve the peace, and make arrests when properly called upon, placing all other work connected with this law under the State Superintendent of Elections and the local Boards of Election—in other words, keep the police to their proper work and, so far as possible, out of politics.

6. Exclusion of the police from the enforcement of the Excise Law further than to preserve the peace and make arrests when properly called on—placing all other work connected with this law under the Commissioner of Excise—in other words, confine the police to their proper duties.

7. Abolish Coroners and have their duties performed by Police Surgeons.

8. New motor Vehicle Law, specifying no limits of speed in definite numbers of miles but prohibiting speed "dangerous to the public safety." Compare law of Connecticut and England.

Requiring chauffeurs to have local licenses issued (in New York) by Police Department and revocable by Police Department upon second conviction. Said license to carry photo of chauffeur and same to be on file in Police Department. Chauffeur to be required to carry a little book containing license, photo, and blank for record of arrests, etc., to be shown on request.

9. Permit non-Christians who keep their shops closed on the sacred day of their respective creeds to open them on Sunday afternoon. This is merely charitable toleration and would remove from this community the danger of being charged with attempting to propagandize by force the Christian gospel of forbearance, gentleness, meekness, charity and peace.

10. Too many lawyers live by showing people how to break the law safely. Much of our modern legislation is ineffective because it is subjected in execution to out of date precedents and technical tricks.

(a) How else are prize-fights and gambling so difficult to suppress?

(b) How else do these lawbreakers dare fortify themselves behind iron doors which are sometimes part of a "live wire" dangerous electrical circuit?

(c) Why else does the liquor dealer cheerfully produce bail, confident that a chemical analysis will be required of his whiskey?

(d) How else in Sunday theatres is a dance not a dance; nor a costume not a costume; nor a play not a play?

(e) How else is it that a racing bet is not a racing bet?

(f) Is it not common sense, that when the police cannot openly and in uniform buy tickets to a boxing bout, it is because there is to be a prize fight?

(g) Is it not common sense that gamblers have no need to fortify themselves unless they intend to break the law?

Refusal of admittance to the police in these cases is evidence of guilt and we all know it.

(h) Is it common sense that a policeman does not know the taste of whiskey sufficiently well, at least, for the purposes of evidence? Why, to get a definition of whiskey that will satisfy the courts is now a national joke.

Do we propose to do anything about all this or are we all "in the same boat"?

Pressing Material Needs of the Police Department.

		Estimated Cost.
1.	A very radical renewal of wornout telephone connections, especially in Brooklyn	$100,000 00
2.	New signal-box system in Brooklyn (now nearly useless)	15,000 00
3.	Cable across the Narrows	5,000 00
	The above will materially reduce leasing expenses.	
4.	Ten gasoline patrol wagons	25,000 00
5.	Ten electric patrol wagons	25,000 00
	This will greatly reduce cost of transportation of prisoners and police.	
6.	A second installment on the construction of new station-houses. Five more are absolutely needed in Manhattan and five in Brooklyn	2,000,000 00
7.	Now is the time to buy cheaply the necessary sites for future station-houses in the suburbs; twenty sites should be bought at once	200,000 00
8.	The training farm should be developed carefully and with foresight. There is vital need of:	
	A brick riding hall for winter and wet weather	50,000 00
	A brick stable for 100 horses	50,000 00
	A brick wagon house and storehouse, blacksmith and repair shop	30,000 00
	Draining, grading, fencing	20,000 00
9.	Two stables in Manhattan for 100 horses; one in Leonard street, one in Thirtieth street; City owns sites	150,000 00
	Including storeroom, garage, blacksmith shop, etc.	
10.	Two stables in Brooklyn; one near corner Bond and Nevins streets, one near corner Broadway and Sumner avenue; including storeroom, garage, blacksmith shop, etc	150,000 00
11.	A branch headquarters in Brooklyn	350,000 00
12.	Last but really first, fund to make available and furnish the new Police Headquarters in Manhattan	75,000 00
	Installation of wireless telegraph between Police Headquarters and Police steamer "Patrol"	2,500 00
	To which must be added funds for the mechanical and laboring force needed, including firemen, engineers, elevator men, cleaners, laborers, etc	20,000 00
		$3,267,500 00

Club House.

Finally, permit me to propose to your Honor and through you to the citizens of New York, an idea of a large central club house for the Police force.

It should be located on the East Side somewhere from Twenty-third street to Fifty-ninth street and should cover a whole block. It might come from a few generous citizens and would be a powerful factor in elevating the tone of the force.

Maintenance would be easy if each member of the force contributed 50 cents per month.

The controlling body should be three—the Mayor, the President of the Chamber of Commerce and the Police Commissioner, the latter as executive member.

The ground floor should have stores all around it, the revenue of which would help maintenance. There should be:

Restaurant (run to pay expenses only), barber shop, police equipment store and salesroom, Turkish bath, other baths and swimming tank. Library, reading and writing room with special stationery. Assembly room for each grade and hence varying in size. Large auditorium for theatre, concerts (Police Band), balls, meetings of the men, etc., show drills, etc. Roof garden. Gymnasium with instructor, bowling alleys, pistol gallery. Perhaps co-operative stores for the food necessities of life. A general life and accident insurance company might be possible to organize for the entire force.

One of the savings banks of the city might come into one of the stores.

A trophy room for prizes won by the force either collectively or individually.

The whole should be planned to include the families of the men.

NOTE.—The above idea is not a new one, as many of the great railroads already have such club houses for their men.

Batteryman, employee	1	..	..	..	..
Deputy Clerk	1	..	..	..	..
Total	55	10	28	10	4

Total force, all Boroughs, 107.

There are further attached to the Bureau of Electrical Service three repair wagons and three horses.

There is a total of 463 sets of telephones and 8 switchboards connected to police lines in the five Boroughs, located in the several headquarters, police stations, police courts, hospitals, public offices and societies, as follows:

	Telephone Instruments.	Switchboards.	Size of Switchboards.
Manhattan	225	3	8-section 2-section 1-section
The Bronx	27	1	2-section
Brooklyn	161	2	6-section 1-section
Queens	36	1	2-section
Richmond	14	1	1-section
Total	463	8	

In addition to the above mentioned police telephones there are the following public telephone trunk lines and exchange lines connected to the switchboards and the various headquarters offices:

	Trunk Lines.	Exchange Lines.
Manhattan	23	26
The Bronx	3	4
Brooklyn	8	10
Queens	4	2
Richmond	2	1
Total	40	43

The police patrol signal station system in the various Boroughs consists of the following:

	Patrol Signal Stations.	Signal Switchboards in Station Houses.
Manhattan	661	30
The Bronx	204	8
Brooklyn	340	..
Queens	5	..
Richmond	..	..
Total	1,210	38

The present patrol signal stations in Brooklyn are not controlled by switchboards, the lines simply terminating at one instrument, which is connected to the various circuits by means of a plug.

The following shows the extent of police telephone lines in the various Boroughs, expressed in miles per conductor:

	Aerial.	Underground.	Submarine.
Manhattan police lines	14	437.33	....
The Bronx police lines	40	164	3.60
Brooklyn police lines	80	550.50	....
Queens police lines	157	134.25	1.25
Richmond police lines	50	....	....
Manhattan signal station lines	20	450	....
The Bronx signal station lines	110	40	....
Brooklyn signal station lines	120	....	....
Queens signal station lines	10	....	....
Richmond signal station lines	....	....	....
Total	601	1,776.08	4.85

Grand total of conductor mileage of all lines, all Boroughs, 2,382.

The above mileage is considerably less than that shown in last year's report; this is due to the fact that no records were available up to that time to accurately determine the extent and size of the Police Department wire and cable plant.

During the year 1908 2,536 feet of cable, aggregating a total of 20 conductor miles, was laid on Flatbush avenue, Brooklyn, to replace cable damaged by the construction of the Interborough subway tunnel. A claim for this damage was made against the contractor, which was recently paid in full.

A new cable was laid under the Harlem River to replace an old cable which had been defective for some years.

In the Borough of Queens additional overhead construction was installed to the extent of 83 miles of conductor to relieve the congestion on the police lines, the capacity of which was entirely unequal to the needs of this Borough; formerly as many as five precincts in various localities were connected to one single overhead line. This has been remedied, and each precinct is now connected direct to Borough Headquarters, and direct connections to hospitals have also been established to facilitate ambulance service. This further enabled the Police Department to eliminate nine exchange lines, at an annual rental of $306.

Record of Telephone Traffic.

The following is a summary of the work of the Bureau of Electrical Service, showing the number of recorded messages in the blotters kept in the operating rooms in the various Boroughs:

Manhattan	439,978
The Bronx	52,105
Brooklyn	301,550
Queens	56,951
Richmond	31,369
Total of recorded messages	881,953

The number of recorded messages in the Boroughs of Manhattan and Brooklyn is less than the figure in the 1907 report, for the reason that during part of that year a large number of alarms were still sent out by telephone which are now sent out in printed form.

The recorded messages in the Boroughs of Queens and Richmond show, however, a decided increase.

Aside from the above recorded messages there are almost again as many sent and received over police lines between Borough Headquarters, inspection districts, precincts, etc., which are conversations relating to official business of the Department, and of which no records are kept.

Size and Condition of Police Telephone Equipment.

The underground cable plant owned and operated by the Police Department is entirely inadequate, especially in the Borough of Manhattan, to such an extent that inspection districts, precincts, squads, hospitals and public institutions are in a number of cases bridged on the same pair of wires, there not being sufficient wires to connect each place on a direct line. This impedes traffic and is in many other respects inadvisable, and should be avoided.

The congestion on some wires has become so acute that it was found necessary to lease about 57 miles of conductor from the telephone companies, at an annual cost of $848.

The number of trunk lines interconnecting the various Boroughs is unequal to the demands made upon them, and they are consequently "busy" entirely too frequently, and therefore necessary and important police business is often delayed. From Manhattan Central Office to Brooklyn there are only 3 trunk lines, to Queens 1, to The Bronx 2, and to Richmond 0.

A section of the submarine cable connecting the Borough of Richmond with Manhattan and Brooklyn was destroyed on February 9, 1908, due to the severe ice jam in the Narrows. No money has been available to replace this cable, which would cost approximately $4,500, and in consequence all police business must be transmitted over public telephone lines through the State of New Jersey, at a cost of nearly $1,000 per annum.

The police patrol signal station system in the Borough of Brooklyn is of an antiquated type, and the overhead wiring connected therewith is in a very poor and, in fact, dangerous condition, chiefly on account of the wires running for miles on the Brooklyn "L" road structures, in close proximity to high tension power lines.

A large portion of the underground cables in the Borough of Manhattan is also in a dilapidated, precarious condition, due to lack of proper care and maintenance in former years.

A number of these cables were laid in 1889 and 1894, and are still working, but no guarantee of their reliability can be given, and serious breakdowns are apt to occur at any moment, the consequences of which may prove to be quite costly in many ways to The City of New York.

The above mentioned facts prove that there is an absolute necessity for placing sufficient funds in the hands of the Police Commissioner for the purpose of providing new and additional cables. A judicious increase of the capacity of the cable plant, with a view for the future, would soon pay for itself, when considering the fact that the Department is forced to add to the number of leased lines at an alarming rate.

Various Improvements to the Telephone Equipment During the Year 1908.

The swinging transmitters and hand receivers on the large switchboards in Manhattan and Brooklyn were replaced by standard breast transmitters and head receivers to facilitate the work and to enable the Operators to have free use of both hands for operating the board and recording messages.

Certain sections of these switchboards were equipped with a special arrangement whereby general alarms can be sent to all precincts in the Borough simultaneously, without interfering with the operation of the balance of the switchboard. Supervisory jacks were placed on each position of all switchboards to enable the Lieutenants acting as Chief Operators to supervise the work of the Operators and properly instruct them.

The "common battery" and "magneto" sections of the Manhattan switchboard were properly multiplied throughout, so that the two sections, which practically formed two separate units, are now connected into one homogeneous equipment.

The Brooklyn switchboard was considerably improved by installing a "busy" test, which enables the Operators, before connecting a person to a line, to determine if same is already engaged, thus avoiding confusion.

A new message pad and padholder was devised for use on all switchboards to simplify the work of operation of the switchboards.

All Borough Headquarters switchboards were thoroughly overhauled and put in proper condition, and arrangements were made for periodic inspection and maintenance.

A sub-switchboard was placed in the Brooklyn Detective Bureau to meet the growing demands of the said Bureau.

All underground cables in all Boroughs were carefully inspected and overhauled, particularly in Brooklyn, where the cable plant had not been previously inspected in this manner since 1905.

Standard protectors, consisting of lightning arresters, heat coils and fuses, were placed at each terminal of every overhead police line, to comply with the law and protect buildings from lightning discharges, high potential currents and sneak currents.

A careful investigation was made of all underground and overhead police lines. These were all properly located, recorded on a special card index file, and also drawn on maps showing their exact location, length, size, make and age. These records extend over a period of nineteen years.

A card index system was also devised for the purpose of keeping accurate and continuous records of all telephone supplies, stating when and by whom delivered, where used, the date, by whom, and by whose approval. A similar card index record was established for all leased instruments, leased lines, trunk lines and exchange lines operated by the Police Department.

New contracts were arranged with the various telephone companies adjusting arbitrary and some very indefinite rates, arranging the contracts on a message basis, and considerably reducing the tolls and other charges to the Department.

The Bureau of Electrical Service further assumed the maintenance of the electric light and power work of the Department, by making all such small repairs and changes which are needed from time to time and which formerly had to be given out on contract.

Mounted Traffic Squad.

On May 1, 1908, all horses were removed from boarding stables and placed in a more central location in a stable conducted by the Police Department, at Nos. 153 and 155 East Thirty-second street.

On September 12, 1908, a detachment of Mounted Traffic Squad, consisting of one Lieutenant, two Sergeants and twenty-five Patrolmen left New York City with their horses and equipments to attend the New York State Fair at Syracuse, and gave daily exhibition drills, catching runaways and showing the practical manner in which traffic is regulated in New York City. The principal object of the visit of this detachment, was to show the farmers and horse-breeders of New York State the kind and quality of horse required for mounted service in the Police Department. This detachment was highly commended by the Governor, Lieutenant Governor, municipal officials of Syracuse, the State Fair Commission and the general public, for the manner in which the exhibitions were given, the excellent display of horsemanship and discipline maintained by this Squad, when practically relieved from the rules and regulations of the Police Department.

As a token of appreciation, the State Fair Commission presented to the Mounted Traffic Squad a silk flag. The presentation took place at Union Square on November 5, 1908, and the presentation speech was made by State Fair Commissioner A. E. Perrin, and the flag was received on behalf of The City of New York by his Honor, Mayor George B. McClellan.

Innovations Instituted.

On June 6, 1908, the Third and Third Sub Precincts were abolished by the Police Commissioner, and the territory of the City Hall Park, formerly included therein, was changed to be included in the Sixth Precinct and Second Inspection District, and the following traffic precincts were established:

Traffic Precinct A, Station House City Hall—Boundaries of precinct, from Battery Park to south side of Canal street, East Broadway and Grand street, North to East rivers.

Traffic Precinct B, Station House No. 36 East Ninth street—Boundaries of precinct, from south side of Canal street, East Broadway and Grand street to south side of Twenty-third street, from North to East rivers.

Traffic Precinct C, Station House No. 1 East Twenty-seventh street—Boundaries of precinct, from south side of Twenty-third street to Seventy-third street, from North to East rivers, but not including Central Park. All to be included in the Fourteenth Inspection District.

Also the members of the Public Office and License Squads, formerly attached to Third Precinct, to be attached to the Fourteenth Inspection District Office.

On August 10, 1908, the following Traffic Precinct was established:

Traffic Precinct D, Station House No. 118 Waverly avenue, Brooklyn—Boundaries of precinct co-extensive with the boundaries of the Borough of Brooklyn. Said precinct to be included in the Fourteenth Inspection District.

During the year of 1908, the tours of duty of Traffic Patrolmen, stationed at the following locations, was changed from 8 a. m. to 6 p. m. to tours from 7 a. m. to 5 p. m., owing to the heavy traffic at said place during the early morning hours:

Duane and West streets; Duane and Greenwich streets; Peck Slip, from Front to South street; South street, from Beekman to Peck Slip; Desbrosses and West streets; Piers 16, 17, 18, 19, 20 and 21, North river; Square foot of Whitehall street; South Ferry; Reade street, Hudson to West street; Chambers street, Greenwich to West street.

On May 10, 1908, a foot traffic post was established at Pier 18, North river, at the foot of West Forty-second and Forty-third streets.

On May 18, 1908, ten (10) foot posts were established in the underground terminal of the Manhattan approach to Williamsburgh Bridge, for the purpose of preventing congestion of traffic to and from elevated and surface cars operating over the Williamsburgh Bridge.

On September 11, 1908, an additional mounted post was established on Hudson street, between Christopher and Bank streets, and Eighth avenue, from Bank to Fourteenth street.

On September 14, 1908, a mounted post was established in Wallabout Market, Brooklyn, for the purpose of regulating traffic at said place, from 4 a. m. to 11 a. m.

On November 20, 1908, regulations were established around the Academy of Music, in the Borough of Brooklyn, governing the approach and departure of vehicles in a systematic manner.

On December 21, 1908, Mounted Posts 16 and 17, Traffic Precinct A (Broadway, from Beaver to Grand street) were abolished, and the following mounted posts established:

No. 16, Lafayette street, from Reade to Grand street.

No. 17, Centre street, from Chambers to Canal street.

SCHEDULE "C."

Report of the School of Instruction for 1908.

The School of Instruction is designed to prepare for the duties of Patrolmen the men who are from time to time employed on probation. The period of probation and of instruction is thirty days.

The school is conducted in the old Sixty-ninth Regiment armory building, at Seventh street and Cooper Square, Manhattan. It is under the direction of the Fourth Deputy Police Commissioner and in immediate charge of one Captain and one Lieutenant.

General Instruction.

The Probationary Patrolmen are here instructed orally, in writing, and by practical demonstration. They are required to report each day (Sundays excepted), at 11 a. m., and remain until 4 p. m., with one hour for dinner. At 4 they are dismissed with instructions to report at 8 p. m. to the respective precincts to which they have been assigned by the Police Commissioner. In these precincts they accompany regular Patrolmen on patrol, and are so enabled to get a practical knowledge of the duties of a Patrolman on post. They return to the station house at midnight.

At the school the Probationary Patrolmen are instructed in the laws of the State relating to the Penal Code and the Code of Criminal Procedure, the Corporation Ordinances of the City and the Rules and Regulations of the Police Department. They are taught to make reports, instructed as to an officer's powers of arrest, and drilled in the rules of evidence. Burglars' tools and dangerous weapons are used in object lessons, so as to accustom the pupils to their appearance and uses. They learn how to arraign prisoners, draw up complaints and make affidavits. Their duties at fires are explained and they learn how to turn in an alarm, establish fire lines and save life at fires. So far as possible this instruction takes the form of practical demonstration.

They are also instructed in the regulation of traffic, rules of the road and automobile law, the use of maps and charts being supplemented by practical demonstrations on the drill floor, using the Probationary Patrolmen as subjects.

Training in Court Procedure.

An efficient method of training the Probationary Patrolmen in the proper presentation of evidence, the arraignment of prisoners, the making of affidavits, deportment in Court and generally the presentation of their cases in an intelligent manner to the Presiding Magistrate, is in use at the School of Instruction. A courtroom has been fitted up to represent a Magistrate's Court, and here a moot-court is held, the Captain in charge acting as Judge, the Lieutenant as Clerk of the Court, a number of the Probationary Patrolmen acting as Officers in the cases, an equal number as prisoners charged with different offenses, and others as citizen complainants. This form of instruction has had the result of diminishing the number of prisoners discharged through improper presentation of them in Court.

Lectures on First Aid to the Injured.

Probationary Patrolmen attend five lectures of one hour each on emergency aid to injured persons. The lectures are given by a physician representing the Society of the First Aid to the Injured, who instructs them in anatomy and physiology, proper dressing of wounds, control of hemorrhages, etc., etc. The subject of hydrophobia is studied in detail and the treatment of unconsciousness in all common phases. The differential diagnoses between alcoholism and apoplexy, fracture of the base of the skull and poisonings, are gone over minutely. The different methods of restoring and resuscitating, artificial respiration, etc., are practically demonstrated. Diplomas for efficiency are awarded for successfully passing the examinations concluding the course.

Records of Efficiency.

A general efficiency record is in use at the School of Instruction showing the progress of the Probationary Patrolmen during their term at school. On each record are ratings given by the Captain in charge, based on a personal examination. These records embrace Laws and Ordinances, Rules and Regulations of the Police

Department, making reports, the regulation of traffic, rules of the road, duties at fires, drill regulations, mechanism of the pistol, conduct and efficiency, general intelligence, punctuality and absence.

Drill.

Tactical training in the drill regulations as used in the United States army, an essential factor in the qualification of a Patrolman, receives special attention from the Captain in charge and the Lieutenant at the School of Instruction, both of whom are non-commissioned officers (discharged), so that at the end of the thirty-day probation term the Probationary Patrolmen, who may have had no previous military training whatsoever, are capable of performing evolutions in the School of the Company, riot formation and street column.

Innovations Instituted.

An innovation in the manner of investigating the character of Probationary Patrolmen has been instituted this year by and under the direction of the Third Deputy Police Commissioner, which has shown beneficial results. In many cases unworthy applicants have been dismissed from employment on probation.

Report of Division of Horses and Equipments for 1908.

Force.

Foreman of Stables	1

Sergeant, in charge of training stable	1
Patrolmen, clerical duty in office	2
Patrolmen, training horses	4
Patrolman, driver of delivery wagon	1
Hostlers, duty at training stable	6
Total	16

The Foreman of Stables was appointed from the Civil Service list February 10, 1908, and placed in charge of the Division of Horses and Equipments.

His duties are to inspect stables, horses, forage, vehicles and equipments, make special reports of each and every failure of members of the force or other employees properly to care for and treat the horses in their charge, and keep a record of the work of the Department Veterinarians, Horseshoers, and has supervision of the training and handling of the horses at the training stable.

Specifies and inspects the work of repairs to all Department vehicles and is responsible for their proper maintenance.

It is also the duty of the Foreman of Stables to assist in the selection of the horses purchased and to judge their adaptation for police work during their period of probation.

Since November 13, 1908, the Division of Horses and Equipments has been made more of a unit, the Borough branches having been abolished, with the result that a proper method of keeping records, etc., has been established and the Division conducted in a more businesslike manner and a greater standard of efficiency obtained.

Thirty-five horses were condemned during the year as unfit for police service and sold at public auction. The amount realized from these sales was $2,397.50.

All horses bought by the Police Department are furnished and delivered on contract.

The horses were very carefully selected by competent judges during the year 1908, with the result that on the average a better type of horses for police service was accepted.

Horses to be all bay, with black points, geldings of good conformation, sound, well broken and of good action.

Saddle horses to be from 15-3 to 16 hands and to weigh not less than 1,050 pounds, and from five to seven years old.

Wagon horses to be the same as above, with the exception of weight, which shall be not less than 1,150 pounds.

All horses furnished to the Department must be delivered to the training stable, where they shall remain on probation for a period of not less than thirty (30) days, and where they will be trained in every form that may be required by the Department. The horses are trained by competent members of the Department and are thoroughly tested as to their qualification for both saddle and wagon service. The horses are first used under the saddle, and every effort is made to get them accustomed to ordinary street traffic, such as automobiles, trolley cars, steam engines, etc., after which they are used in a training cart and then hitched to a team wagon.

Imperfections of any kind noted while on probation disqualify the animal for Department use and he is promptly returned to the dealer, who must then furnish another horse in his place. The Police Commissioner reserves the right to reject any or all horses that do not meet the requirements of the Department.

All horses while on probation are at the risk of the contractor. For any injury received which becomes a permanent blemish or for the death of a horse from injuries received or from any cause, the Department is in no way responsible, and the contractor will be compelled to replace any horse so injured or who dies while at the training stable.

On June 1, 1908, a lease was acquired of the premises Nos. 153 and 155 East Thirty-second street, Borough of Manhattan, for the accommodation of the horses of Traffic Troops B and C.

This stable is a three story building, a neat and spacious structure and well adapted for the use of the mounted Traffic Squad.

The first floor permits the assembling of the squads and their inspections.

The second floor is the horse floor, with a capacity to keep ninety-eight horses; is well lighted and ventilated.

The third floor is divided, the front portion being used as a section room for the mounted men, well equipped with spacious lockers, shower baths, washroom, lavatory, etc. On one side of the middle section is a forage room, the other side a stock room and in the rear is a saddle room, blanket drying room, the harness maker and drug room.

Ten new Hostlers were appointed from the Civil Service list to take care of the horses at this stable; this number being insufficient, however, to do the work, six Hostlers were assigned from other precincts, making a total of sixteen Hostlers.

The patrol wagon and horses of the Twenty-fifth Precinct are kept at this stable, together with three traffic wagons and horses, two boiler wagons and horses, one horse and buggy of the Fourteenth District and one horse and buggy of Commanding Officer of Traffic Precinct C; four emergency patrol wagons are also kept at this stable.

The lease of a stable at No. 118 Waverly avenue, Borough of Brooklyn, was also acquired, on August 10, 1908, for the accommodation of Troop D.

This is a one story and basement building, with a good accommodation for thirty-four horses in the basement.

The floor is divided into three compartments; the front room is used for the office and assembly room, the middle section a locker room and the rear part for the storage of forage, washroom, etc.

The stable is situated in a desirable location and makes a very good home for the Traffic D Squad and their mounts.

The training quarters, situated at Jamaica road and North Hempstead turnpike, Borough of Queens, was established August 1, 1908.

These quarters consist of twenty-three and one-half (23½) acres, a stable and shed.

The stable is a frame structure with a good basement. The main floor is divided into twenty-five stalls, has a spacious loft for the storage of forage, etc.; the stable is situated on well elevated ground, is light, airy and very desirable for the caring of "green" and sick horses.

Owing to the lack of gas and water connection, an acetylene lighting plant was installed, together with a small engine and pump, with ample capacity to supply the premises with plenty of light and water, the water being pumped from a spring about 400 feet from the barn.

A one-quarter mile track with a figure eight (8) in the centre was constructed in one of the paddocks for the purpose of teaching the "green" horses their first lesson.

It requires great care and patience to train these animals that they may be perfectly tractable before being assigned to regular work in traffic squads and precincts.

After a few lessons on the track the mounts are ridden on the highway and streets that they may become accustomed to trolley cars, automobiles, etc. It takes from thirty to fifty days of training before a horse is ready for City work.

About five acres of the farm is of a swampy and marshy deposit, but still a very good pasture ground. When horses become footsore, debilitated in the working precincts, they are sent to the farm and turned out into these marshy paddocks, where they speedily recover, and when it is to be considered that most of the ailments of the horses of this Department is navicular or other hoof trouble, it makes the farm a valuable asset for the purpose for which it is now used.

During the month of September the ground was ploughed, harrowed, leveled and sowed with grass seeds.

It is very necessary that a building be constructed to serve as an inclosed riding ring for the training and handling of horses in the winter months and in inclement weather.

On July 8, 1908, five Veterinaries were appointed from the Civil Service list.

The Greater City was divided into five districts and a Veterinary assigned to each district. Under the present system the Veterinaries are paid $2 per visit per horse in the daytime and $3 at night, and the Veterinaries furnish their own medicine, and for which they make additional charges.

Seven patrol wagons and one double delivery wagon were condemned during the year as unfit for police service and sold at public auction. The amount realized from these sales was $215.

During the year no new patrol wagons were purchased. Two patrol wagons were rebuilt, however, using the running gears of two open wagons formerly used in the Borough of Brooklyn.

Five new buggies of the knockabout type were purchased, at a cost of $169.75 each.

Seven patrol wagons which have no regular assignments are used for emergency work and to replace those that are being overhauled and repaired.

During the year patrol wagon service was established in the Seventy-seventh, Two Hundred and Eighty-second and Two Hundred and Ninetieth precincts. These wagons were numbered and assigned from the list of emergency wagons.

All vehicles in this Department are now in good serviceable condition.

A wider invitation for bids for wagon repairs was established, which created stricter competition for the work and resulted in a substantial saving over year 1907.

Inspection of the work of repairs to vehicles has been criticized, and the Foreman of Stables has been ably assisted by Mr. Linus Sceley, Building Expert of this Department.

The electrical patrol wagon used by this Department is assigned to the Twenty-third Precinct, and has done very efficient work.

Arrests in Violation of the Steam Boiler Law.

There were sixteen arrests made for the violation of the Steam Boiler Law, and the same have been disposed of as follows:

Convicted, 3; discharged, 6; pending, 7.

Complaints received, 340; complaints investigated, 340.

Casualties.

April 12, 1908—By the bursting of a cap on economizer No. A, connected to boilers Nos. 1 and 6/8667, owned by the Brooklyn Rapid Transit Company, and located at No. 494 Kent avenue, Brooklyn, George Sarenkoski, age forty-three years; occupation, laborer; residing at No. 123 Metropolitan avenue, and Thomas Milne, age thirty-six years; occupation, laborer, residing at No. 83 Newall street, were injured by escaping gas and steam. Both were attended to by Ambulance Surgeon.

April 22, 1908—At the plant of the Edison Electric Company, foot of Gold street, Brooklyn, a tube of the middle drum of boiler No. 5/9690 bursted, scalding John Skinner, twenty-eight years, residing at No. 241 East Seventy-seventh street, Manhattan; Michael Brennan, twenty-seven years, residing at No. 140 Fifth avenue, Brooklyn, and George Ryan, forty-three years, residing at No. 40 Wilson street, Brooklyn. They were all attended to by Ambulance Surgeon and left for their homes. No further damage was done.

May 4, 1908—By the blowing out of a defective gasket on lower manhole plate on boiler No. 7/8037, operated by the Department of Water Supply, Atlantic avenue and Logan street, Timothy O'Leary, age forty-one years; occupation, boiler maker, residing at No. 138 Lorimer street, and James Ahearn, age forty-two years; occupation, Boiler Fireman, residing at No. 26 Sheffield avenue, were scalded. Both men were attended by Ambulance Surgeon and removed to the Bradford Street Hospital.

June 2, 1908—On May 31, 1908, a tube blew out on boiler No. 1/8628, located at the power house of the Brooklyn Rapid Transit Company, Third avenue and Second street. Hot coals were blown out, burning Joseph Sarvich, age twenty-three, residing at No. 145 Twentieth street; Cornelius Muelenberg, age thirty, residing at No. 314 Bushwick avenue, and Charles Newman, age twenty-eight, residing at No. 91 North Fourteenth street. Sarvich and Newman were taken to the Seney Hospital and Muelenberg left for his home. None of the men were fatally injured.

June 11, 1908—Seven of the cast iron headers in the front of boiler No. 10291, owned by the Queens Borough Gas and Electric Company, Clinton and Union streets, Far Rockaway, cracked and caused an explosion. Cause unknown.

June 20, 1908—Explosion at Tebo dry dock, foot of Twenty-third street, Brooklyn, caused by the breaking of an elbow on the steam pipe, probably due to the raising of the floating dock. No one was injured or further damage done.

June 14, 1908—Tube in boiler No. 3/10291, owned by the Queens Borough Gas and Electric Company, located at Clinton and Union streets, Far Rockaway, burst and badly scalded William Bruns, engineer, and William Schneider, fireman. Cause of accident, defective metal. Schneider and Bruns were attended by Ambulance Surgeon and removed to St. Joseph's Hospital.

July 25, 1908—A tube in the fifth row of No. 19 Babcock & Wilcox boiler, owned by the Brooklyn Rapid Transit Company and located at power house, Third avenue and Second street, Brooklyn, ruptured, severely burning James Olsen, Thomas Bayer, John Brush and Nick Norsen. These men were attended by Ambulance Surgeon and removed to Seney Hospital. Considerable foreign matter was found in these tubes upon final examination.

July 25, 1908—Tube in boiler No. 6/9960, owned by the Brooklyn Rapid Transit Company and located at Third avenue and Second street, Brooklyn, blew out, injuring Frank Hoelga, thirty-two years, of No. 861 Third avenue, Brooklyn. Attended by Ambulance Surgeon Funk and removed to Seney Hospital. No further damage.

September 15, 1908—While repairing steam pipe on second floor of the Tartar Chemical Company, No. 64 Ninth street, Brooklyn, Barney Mudgaskie and Albert Barr failed to shut off the steam, same escaping and severely burning both men. They were attended by Ambulance Surgeon Bell and removed to Seney Hospital.

September 26, 1908—Boiler vacated at Washington avenue, near Vernon avenue, Long Island City, and leased by James Dempsey, of No. 239 East Sixtieth street, New York City, exploded, injuring James Isoldi, of No. 139 Washington avenue, Long Island City, who was attended by Ambulance Surgeon of St. John's Hospital, and later left for his home. This accident was caused by neglect of man in charge of boiler in letting water get low in same. No further damage.

November 9, 1908—At 7.30 p. m. a defective tube, 4 inches, in Sterling boiler No. 7/9690, owned by the Edison Electric Light and Power Company, foot of Gold street, Brooklyn, blew out, injuring Fireman Frank McGowan. He was attended by Ambulance Surgeon and removed to the Brooklyn Hospital.

SCHEDULE "Q."

Report of Harbor Precinct Operations for 1908.

The steamer "Patrol" and launches have constantly patroled the water surrounding the City, giving assistance to vessels in distress, rescuing persons from drowning and recovering bodies of persons who have been drowned. Property on vessels at anchor and on docks has been protected thoroughly, with the result that stealing from these points has been reduced to a minimum.

The extent of the territory patroled has been extended by the establishment of a station at Canarsie, with launch attached, so that Jamaica Bay and adjoining waters have been thoroughly patroled. A launch has also been permanently stationed in the Kill von Kull, protecting the shipping interests around Staten Island and preventing stealing of coal from tows in transmit through the waters around Staten Island.

The three steam launches have been remodeled and motors installed, four new motor boats have been added and the fleet of boats of the precinct now consists of the steamer "Patrol" and eight launches.

New quarters for station B have been opened at the foot of East One Hundred and Twentieth street, with a large water front and improved conditions for the storage of boats or for taking the launches out of the water for the purpose of cleaning or making repairs.

The members of the precinct have also performed special duty on shore in various parts of Greater New York during the year.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF QUEENS:

THIRD WARD.

FIRST AVENUE—TEMPORARY SEWER, from Ninth to Thirteenth street. Area of assessment: Both sides of First avenue, from Ninth to Thirteenth street, and east side of Tenth street, from First avenue to Monument avenue.

—that the same was confirmed by the Board of Revision of Assessments February 18, 1909, and entered on February 18, 1909, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE BRIDGE Commissioner, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings now standing on the property owned by The City of New York, acquired by it for bridge purposes, in the

Borough of Manhattan.

Said buildings being situated upon land more particularly described as follows:

Being all those buildings, parts of buildings, etc., lying within the lines of property taken for bridge purposes between Monroe street and the Bowery, and more particularly designated as being all or part of those buildings known as No. 61 Division street, No. 71 Division street and the rear building at No. 69 Monroe street, all of which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held October 9, 1907, the sale of the above-described buildings and appurtenances thereto will be held by direction of the Comptroller on

FRIDAY, MARCH 5, 1909,

at 10.30 a. m., on the premises, upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check, drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings, extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, are to be taken down and removed. The walls shall be made permanently self supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

J. H. McCOOEY,
Deputy and Acting Comptroller.

The interest on all of said Stock which may be issued in Coupon form will be paid at the option of the holder thereof, at the office of the Comptroller of The City of New York, or at the office of the City's Agent in London, England, at the rate of $4.8780 to the pound sterling.

The said stock is issued in accordance with the provisions of section 10 of article 8 of the Constitution of the State of New York.

The principal of and interest on said stock are payable in gold coin of the United States of America, of the present standard of weight and fineness, pursuant to a resolution of the Commissioners of the Sinking Fund, adopted June 9th, 1898.

CONDITIONS OF SALE.

As provided for by the Greater New York Charter.

1. Proposals containing conditions other than those herein set forth will not be received or considered.

2. No proposal for stock shall be accepted for less than the par value of the same.

3. Every bidder, as a condition precedent to the reception or consideration of his proposal, shall deposit with the Comptroller in money, or by a certified check drawn to the order of said Comptroller upon a trust company or a state bank incorporated and doing business under the laws of the State of New York, or upon a National Bank, Two per cent. of the par value of the stock bid for in said proposal.

No proposal will be received or considered which is not accompanied by such deposit.

All such deposits shall be returned by the Comptroller to the persons making the same within three days after the decision has been rendered as to who is or are the highest bidder or bidders, except the deposit made by the highest bidder or bidders.

4. If said highest bidder or bidders shall refuse or neglect, within five days after service of written notice of the award to him or them, to pay to the City Chamberlain the amount of the stock awarded to him or them, at its, or their, par value, together with the premium thereon, less the amount deposited by him or them, the amount or amounts of deposit thus made shall be forfeited to and retained by said City as liquidated damages for such neglect or refusal, and shall thereafter be paid into the Sinking Fund of The City of New York for the Redemption of the City Debt.

5. Upon the payment into the City Treasury by the persons whose bids are accepted, of the amounts due for the stock awarded to them respectively, including accrued interest from the date of sale, certificates thereof shall be issued to them in such denominations provided for by the Charter as they may desire.

6. It is required by the Charter of the City that, in making proposals for bonds or stock, "every bidder may be required to accept a portion of the whole amount thereof bid for by him at the same rate or proportional price as may be specified in his bid; and any bid which conflicts with this condition shall be rejected, provided, however, that any bidder offering to purchase all or any part of the bonds offered for sale at a price at par or higher may also offer to purchase all or none of said bonds at a different price, and if the Comptroller deems it to be in the interests of the City so to do, he may award the bonds to the bidder offering the highest price for all or none of said bonds; provided, however, that if the Comptroller deems it to be in the interests of the City so to do, he may reject all bids." Under this provision, the condition that the bidder will accept only the whole amount of stock bid for by him, and *not* any part thereof, cannot be inserted in any bids, except those for "all or none" offered by bidders who have also bid for "all or any part" of the stock offered for sale.

7. Stock issued in Coupon form can be converted into Registered Stock, and Stock issued in Registered form can be converted into Coupon Stock in denominations of $1,000.

8. The proposals, together with the security deposits, should be inclosed in a sealed envelope, indorsed "Proposals for Corporate Stock of The City of New York," and said envelope inclosed in another sealed envelope, addressed to the Comptroller of The City of New York. (No special form of proposal is required, therefore no blanks are furnished.)

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE PRESIDENT of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction all the buildings, parts of buildings, etc., standing within the lines of property owned by The City of New York, acquired by it for street opening purposes in the

Borough of Brooklyn.

Being all those buildings, parts of buildings, etc., now standing within the lines of the new street to be opened as an approach to the Manhattan Bridge, extending from Nassau street to the intersection of Flatbush avenue and Fulton street, in the Fourth, Fifth and Eleventh Wards of the Borough of Brooklyn, City of New York, and being more particularly described as being parts of the following buildings: No. 140 Tillary street (part of the front), No. 152 Tillary street (part of the rear), No. 35 Flect street (part of front), No. 195 Prince street (part of rear), No. 39 DeKalb avenue (part of rear), all of which are more particularly shown on a draft damage map on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held February 20, 1907, the sale of the above described buildings and appurtenances thereto will be held by direction of the Comptroller on

TUESDAY, MARCH 2, 1909,

at 11 a. m., on the premises, upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing thereon or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale there of and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings, extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waster resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two f et below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within sixty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within sixty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made water-tight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause to be advertised and to direct the sale thereof as financial officer of the City.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE DEPARTment of Bridges, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction all the buildings, parts of buildings, etc., now standing upon property owned by The City of New York, acquired by it for bridge purposes, in the

Borough of Queens.

Being all those buildings, parts of buildings, situated on all those certain plots of ground with the buildings thereon from the east side of Vernon avenue to the west side of Jackson avenue, three hundred feet in width, in the Borough of Queens, and being more particularly designated as No. 426 Vernon avenue, which is more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held May 22, 1907, the sale of the above described buildings and appurtenances thereto will be held by direction of the Comptroller, on

WEDNESDAY, MARCH 3, 1909,

at 11 a. m., on the premises, upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings, extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Queens, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within sixty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion, as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within sixty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

ASHES, ETC., FOR FILLING IN LANDS.

PERSONS HAVING LANDS OR PLACES in the vicinity of New York Bay to fill in can procure material for that purpose—ashes, street sweepings, etc., collected by the Department of Street Cleaning—free of charge by applying to the Commissioner of Street Cleaning, Nos. 13 to 21 Park row, Borough of Manhattan.

WILLIAM H. EDWARDS,
Commissioner of Street Cleaning.

DEPARTMENT OF DOCKS AND FERRIES.

DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

FILLING PRIVILEGE.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks, at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

FRIDAY, MARCH 5, 1909,

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL TO BE BUILT ON THE GOWANUS SECTION, BETWEEN THIRTY-FIRST AND THIRTY-SECOND STREETS, SOUTH BROOKLYN, BOROUGH OF BROOKLYN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereafter described, the area behind the bulkhead wall to be built on the Gowanus Section, between Thirty-first and Thirty-second streets, South Brooklyn. The filling will extend from the rear of the bulkhead wall to the crib bulkhead along the west side of Second avenue, and will be about 150 feet in width on top, bounded on the north and south by the lines of the proposed pier extended inshore; the exact limits being shown on the map at Pier "A," together with soundings and other data used, the said map being part of this agreement.

It is estimated that the area outlining the above described limits to be filled in, under this agreement, is equal, in net void space, to about 37,000 cubic yards.

This estimate is arrived at by computing the net void space between the face of the old crib bulkhead, along the west side of Second avenue and the rear of the riprap to be placed, in the rear of the bulkhead wall, 150 feet wide on top, with natural side slopes.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material, compression of or penetration into the mud.

Bidders are warned that the Department is not bound in any way by the above estimate, and must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises, or such other means as they may prefer, as all of the above work is to be done at the lump sum bid. Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling, as described above. The purchaser will be required to place the filling in accordance with the following specifications:

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the engineer, and wherever the word "Engineer" is used in these specifications, it refers to and designates the Chief Engineer of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Riprap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

The filling shall consist of any material satisfactory to the Engineer and may include ashes, earth, street sweepings or clean rubbish, and not considered objectionable by the Board of Health. Garbage and other wholly perishable material will not be considered satisfactory.

The filling shall be begun at the old crib bulkhead along Second avenue and carried directly outshore, the centre line being kept well in advance of the sides until the centre reaches the back of the bulkhead wall, after which the filling shall proceed from the back of the wall inshore.

The filling shall be brought to a grade level with the deck of the proposed pier, sloping uniformly inshore to the grade of Second avenue.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, and the work shall proceed to completion at a rate satisfactory to the Engineer, but in no case will the contractor be ordered to deposit more than 100 cubic yards a day.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the Commissioner may at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties, in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety. If, in the opinion of the Commissioner, a sufficient amount of fill cannot be obtained by selling the privilege, the right is reserved to make this area a free dump.

The purchaser shall, during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work of guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser, in the sum of double the amount of the purchase price, as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

Dated The City of New York, February 24, 1909.

ALLEN N. SPOONER, Commissioner.

When an examination is advertised, a person desiring to compete in the same may obtain an application blank upon request made in writing or by personal application at the office of the Commission, Room 1119.

The Commission cannot guarantee that applications mailed in response to written requests will be received in time to permit of their being prepared and filed prior to closing hour.

All notices of examinations will be posted in the office of the Commission, and advertised in the CITY RECORD for two weeks in advance of the date upon which the receipt of applications will close for any stated position.

Public notice will also be given by advertisement in most of the City papers.

Wherever an examination is of a technical character, due notice is given by advertisement in the technical journals appertaining to the particular profession for which the examination is called.

Such notices will be sent to the daily papers as matters of news. The scope of the examination will be stated.

No information will be given by telephone, and the Commission will not be responsible for such if given by employees, either as to date of filing applications or upon other subjects.

Specimen questions of previous examinations may be obtained at Room 1108.

Unless otherwise specifically stated, the minimum age requirement for all positions is 21.

SUPREME COURT—FIRST DEPARTMENT

FIRST JUDICIAL DEPARTMENT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring right and title to and possession of all the wharfage rights, terms, easements, emoluments and privileges not now owned by The City of New York, appurtenant to all that certain bulkhead, wharf or dock property situated on the SOUTHERLY SIDE OF SOUTH STREET, in the Borough of Manhattan, City of New York, commencing on the easterly side of Pier (old) 52, East River, and extending easterly to the westerly side of Pier (old) 53, East River, pursuant to the plan heretofore adopted by the Board of Docks and approved by the Commissioners of the Sinking Fund, as altered and amended by the Commissioner of Docks and approved by the Commissioners of the Sinking Fund.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, by virtue of an order of the Supreme Court, bearing date the 29th day of January, 1909, and filed and entered in the office of the Clerk of the County of New York on the 1st day of February, 1909, were appointed Commissioners of Estimate in the above entitled proceeding, for the purpose of making a just and equitable estimate of the loss and damage to the respective owners, lessees, parties and persons entitled to or interested in the wharf property, wharfage rights, terms, easements, emoluments and privileges hereinafter described and not now owned by The City of New York, and situated in the Borough of Manhattan, in The City of New York, to be taken herein for the improvement of the water-front on the East River, in the Borough of Manhattan, and which said wharf property, wharfage rights, terms, easements, emoluments and privileges so to be taken are described as follows:

All the wharfage rights, terms, easements, emoluments and privileges not now owned by The City of New York appurtenant to all that certain bulkhead, wharf or dock property situate on the southerly side of South street, in the Borough of Manhattan, City of New York, bounded and described as follows:

Beginning at a point in the present bulkhead between Gouverneur slip and Jackson street, where the westerly side of Pier (old) 53, East River, intersects said bulkhead, said point of intersection being perpendicularly opposite or southerly of a point in the northerly line of South street distant 31.01 feet from the westerly line of Jackson street, measured along the said northerly line of South street, and running thence from said point of intersection westerly along the present bulkhead between Pier (old) 52, East River, and Pier (old) 53, East River, 573.08 feet westerly to the easterly side of Pier (old) 52, East River.

All parties and persons interested in the said wharf property, wharfage rights, terms, easements, emoluments and privileges taken or to be taken for the said improvement of the water-front of The City of New York on the East River, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate, at our office, Room 401, on the fourth floor of the building, No. 258 Broadway, in The City of New York, Borough of Manhattan, with such affidavits or other proofs as the said owners or claimants may desire within ten days after the date of this notice, when we, the said Commissioners, will be in attendance at our office above specified on the 15th day of March, 1909, at 2 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto, and at such time and place, or at such other and further times and places as we may appoint, we shall hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs or allegations as may then be offered by such owners or on behalf of The City of New York.

Dated New York, February 27, 1909.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, by the Corporation Counsel, for the appointment of Commissioners of Estimate and Assessment to ascertain and determine the compensation which should justly be made for the discontinuance and closing of WEST ONE HUNDRED AND FIFTY-FIRST STREET, from the easterly side of Riverside drive extension to the United States bulkhead line, Hudson River, in the Twelfth Ward, Borough of Manhattan, in The City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 13th day of March, 1909, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 15th day of March, 1909, at 4 o'clock p. m.

Second—That the abstract of our said estimate and assessment, together with our damage and benefit maps, have been deposited in the office of the Clerk of the County of New York, in the County Court House, in the Borough of Manhattan, in said City, there to remain until the 15th day of March, 1909.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in said City of New York, and contained within the lines of the discontinued and closed West One Hundred and Fifty-first street, extending from the westerly property line of the New York Central and Hudson River Railroad Company to the easterly line of Twelfth avenue, and from the westerly line of Twelfth avenue to the United States bulkhead line of the Hudson River. Also all those lands, tenements and hereditaments and premises situate, lying and being within the following-described limits: On the west by the easterly line of Riverside drive; on the north by a line midway between West One Hundred and Fifty-first street and West One Hundred and Fifty-second street; on the east by the westerly line of Amsterdam avenue, and on the south by a line midway between West One Hundred and Fiftieth street and West One Hundred and Fifty-first street.

Fourth—That our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 6th day of April, 1909, at the opening of the Court on that day.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of DEKALB AVENUE, from East Two Hundred and Eighth street to Gun Hill road, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above-entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections, in writing, duly verified, with them at their office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 13th day of March, 1909, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 15th day of March, 1909, at 2 o'clock p. m.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections, in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 13th day of March, 1909, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 15th day of March, 1909, at 3 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 14th day of June, 1907, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Bounded on the northwest by a line midway between DeKalb avenue and Jerome avenue, through that portion of the length of each located between East Two Hundred and Eighth street and Gun Hill road, and by the prolongation of the said line; on the northeast by a line 100 feet northeasterly from and parallel with the northeasterly line of Gun Hill road, the said distance being measured at right angles to the line of Gun Hill road; on the southeast by a line 100 feet southeasterly from and parallel with the southeasterly line of DeKalb avenue, through that portion of its length located between East Two Hundred and Eighth street and Gun Hill road, the said distance being measured at right angles to the line of DeKalb avenue, and by the prolongation of the said line, and on the southwest by a line always distant 100 feet southwesterly from and parallel with the southwesterly line of East Two Hundred and Eighth street, the said distance being measured at right angles to the line of East Two Hundred and Eighth street.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 15th day of March, 1909.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 11th day of May, 1909, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of BUTLER AVENUE, between Eureka place and Broadway, ARENTS AVENUE and CHESTNUT STREET, between Bentley avenue and Church street, as laid out on the map or plan of The City of New York, in the Fifth Ward, Borough of Richmond, City of New York.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 18th day of March, 1909, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 19th day of March, 1909, at 2 o'clock p. m.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 18th day of March, 1909, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 19th day of March, 1909, at 3 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 11th day of January, 1907, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Richmond, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the intersection of the prolongation of a line midway between Eureka place and Amboy avenue with a line 100 feet westerly from and parallel with the westerly side of Bentley street, the said distance being measured at right angles to the line of Bentley street, and running thence northerly and parallel with Bentley street to the intersection with the prolongation of a line midway between Broadway and Eureka place, and through that portion of their length between Bentley street and Butler avenue; thence easterly along said line midway between Eureka place and Broadway and the prolongation thereof to the intersection with a line midway between Bentley street and Butler avenue; thence northerly along said line midway between Bentley street and Butler avenue and the prolongation thereof to a point 100 feet north of Broadway, said distance being measured at right angles to the line of Broadway; thence easterly, parallel with Broadway, to the intersection with the prolongation of a line midway between Butler avenue and Main street; thence southerly along said line midway between Butler avenue and Main street and the prolongation thereof to the intersection with a line midway between Broadway and Eureka place, through that portion of the length of the said streets between Butler avenue and Main street; thence easterly along said line midway between Broadway and Eureka place and the prolongation thereof to the centre line of Main street; thence along the centre line of Main street to the intersection with the prolongation of a line midway between Arents avenue and Broadway, through that portion of their length between Main street and Johnson avenue; thence northerly and along a line midway between Arents avenue and Chestnut street, and Broadway, and the prolongation of said line to a point distant 100 feet east of the easterly side of Church street, said distance being measured at right angles to the line of Church street; thence southerly and parallel with the line of Church street to the intersection with the prolongation of a line midway between Chestnut street and Amboy avenue; thence easterly along said line midway between Amboy avenue and Chestnut street and the prolongation thereof, and along a line midway between Arents avenue and Eureka place, and Amboy avenue, to the point described as the point or place of beginning. The said streets designated as Bentley street, Broadway, Church avenue, Amboy avenue, Johnson avenue and Main street being the streets thus known in the vicinity, although not yet placed upon the map of the City.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings, in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 19th day of March, 1909.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 18th day of May, 1909, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of NINETY-SIXTH STREET, from Third avenue to Fourth avenue, in the Thirtieth Ward, Borough of Brooklyn, The City of New York.

NOTICE IS HEREBY GIVEN THAT BY AN order of the Supreme Court, bearing date the 21st day of December, 1908, and duly entered in the office of the Clerk of the County of Kings at his office in the Borough of Brooklyn, in The City of New York, on the 21st day of December, 1908, a copy of which order was duly filed in the office of the Register of the County of Kings, we, Almet R. Latson, Charles H. Fuller and James B. Sheldon, were appointed Commissioners of Estimate for the purpose of making a just and equitable estimate and assessment of the loss and damage to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of opening and extending the abovementioned street or avenue, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of Kings on the 21st day of December, 1908; and the said Almet R. Latson was appointed Commissioner of Assessment for the purpose of making a just and equitable estimate and assessment of the value of the benefit and advantage of the said street or avenue so to be opened and extended, to the respective owners, lessees, parties and persons respectively entitled to or interested in the respective lands, tenements, hereditaments and premises situated within the area of assessment adopted by the Board of Estimate and Apportionment and not required for the purpose of opening and extending the same, but benefited thereby, the said area of assessment being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of Kings on the 21st day of December, 1908, and of ascertaining and defining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4 of the Greater New York Charter as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the real estate taken or to be taken for the purpose of opening and extending the said street or avenue, and affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate, at our office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, with such affidavit or other proof as the owners or claimants may desire, within ten days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 11th day of March, 1909, at 2 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proof of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of SENATOR STREET, from First avenue to Fifth avenue, in the Thirtieth Ward, Borough of Brooklyn, City of New York.

WE, THE UNDERSIGNED COMMISsioners of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the first day of March, 1909, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the third day of March, 1909, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said City, there to remain until the 11th day of March, 1909.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at a point on the westerly side of Fifth avenue where the same is intersected by a line drawn parallel to Senator street and distant 100 feet northerly therefrom, said distance being measured at right angles to Senator street; running thence westerly along said parallel line to its intersection with the easterly side of Fourth avenue, running thence southerly along the easterly side of Fourth avenue to its intersection with a line drawn parallel to Senator street and distant 100 feet southerly therefrom, said distance being measured at right angles to Senator street; running thence easterly along said parallel line to the westerly side of Fifth avenue; running thence northerly along the westerly side of Fifth avenue to the point or place of beginning.

Also beginning at a point on the westerly side of Fourth avenue where the same is intersected by the centre line of the block between Senator street and Sixty-seventh street; running thence westerly along the centre line of the block between Senator street and Sixty-seventh street to the easterly side of Third avenue; running thence southerly along the easterly side of Third avenue to the centre line of the block between Sixty-eighth street and Senator street; running thence easterly and along the centre line of the block between Sixty-eighth street and Senator street to the westerly side of Fourth avenue; running thence northerly along the westerly side of Fourth avenue to the point or place of beginning.

Also beginning at a point formed by the intersection of the southerly side of Sixty-seventh street with the westerly side of Third avenue; running thence southerly and along the westerly side of Third avenue to the prolongation of a line drawn parallel with Senator street and distant 100 feet southerly therefrom, said distance being measured at right angles to the line of Senator street; running thence westerly and along said parallel line to the easterly side of Second avenue; running thence northerly and along the easterly side of Second avenue to a line drawn parallel with the northerly side of Senator street and distant 100 feet northerly therefrom, said distance being measured at right angles to Senator street; running thence easterly along said parallel line to a point distant 100 feet northwesterly of the northwesterly side of Senator street, said distance being measured at right angles to the northwesterly side of Senator street; running thence northeasterly parallel with the northwesterly side of Senator street to the southerly side of Sixty-seventh street; running thence easterly along the southerly side of Sixty-seventh street to the point or place of beginning.

Also beginning at a point on the westerly side of Second avenue where the same is intersected by the centre line of the block between Sixty-seventh street and Senator street; running thence westerly and along said centre line to the easterly side of First avenue; running thence southerly and along the easterly side of First avenue to the centre line of the block between Sixty-eighth street and Senator street; running thence easterly and along said centre line to the westerly side of Second avenue; running thence northerly along said westerly side of Second avenue to the place of beginning.

Fourth—That provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a special term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 19th day of April, 1909, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, and in the corporation newspapers, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Brooklyn, New York, February 9, 1909.

thence partly along said northerly line and the southerly line of said Parcel No. 370 south 78 degrees 37 minutes 30 seconds west 85.3 feet to the point or place of beginning.

The greatest width of the proposed taking along the line of the Aqueduct is 480 feet, which occurs across Parcels 373 and 374.

The least width of the said taking is 50 feet, which occurs across Parcels 370 to 373, both inclusive, and 375 to 382, both inclusive.

The fee of all the real estate shown on said map is to be acquired by The City of New York, designated as Parcels 370 to 409, both inclusive, except Parcel No. 384, colored dark blue on said map, in which a perpetual easement is to be acquired, being the right to construct and forever maintain the Aqueduct and its appurtenances as provided for by said act and the acts amendatory thereof and relating thereto, on, over or through said parcel.

Reference is hereby made to the said map, filed as aforesaid in the office of the County Clerk of the County of Orange, for a more detailed description of the real estate to be acquired as above stated.

In case any real estate hereinbefore described is used for highway or other public purposes, such use shall continue until such time as The City of New York may acquire the right to close the same.

Dated February 8, 1909.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
