REPORTS OF STANDING COMMITTEES.

Report of Committee on Finance—

No. 428.

The Committee on Finance of the Board of Aldermen, to whom was referred the assessment rolls of the estates, real and personal, of The City of New York for the year 1912, together with a communication from the Comptroller of The City of New York, dated February 15, 1912, transmitting the Budget in detail for the year 1912, accompanied by his certificates of: First, the aggregate amount of the Budget for the year 1912; second, amount of County charges and expenses for the respective counties included in the Budget for the year 1912; third, amount of County charges and expenses for the respective counties paid during the year 1911, from the proceeds of special revenue bonds; fourth, estimated revenues of the General Fund for the reduction of taxation during the current year, respectfully submits the following

REPORT:

The aggregate amount of the Budget for the year 1912 is one hundred and eighty-one million ninety thousand two hundred and fifty-six dollars and fifty-one cents ($181,090,256.51), which includes County charges and expenses for the four counties of New York, Kings, Queens and Richmond, aggregating ten millon two hundred and seventeen thousand one hundred and fifty-four dollars and eight cents ($10,217,154.08), leaving one hundred and seventy million eight hundred and seventy-three thousand one hundred and two dollars and forty-three cents ($170,873,102.43) as the amount of the Budget, which affects the general tax rates of The City of New York.

In addition to the amount of ten millon two hundred and seventeen thousand one hundred and fifty-four dollars and eight cents ($10,217,154.08), included in the Budget for County charges and expenses, the following amounts disbursed during the year 1911 from the proceeds of special revenue bonds for judgments and claims for County charges or liabilities, for the four counties of New York, Kings, Queens and Richmond, are to be raised by tax in the year 1912, as provided by subdivisions 3 and 7 of section 188 of the revised Greater New York Charter, amounting in the aggregate to three hundred and eighty-seven thousand six hundred and eight dollars and fifty-eight cents ($387,608.58).

Section 902 of the Charter, referred to in the Comptroller's communication, directs that the amounts required for the payment of all County charges and expenses shall be levied and collected from the taxable property within each of said counties respectively, to the end that each of said counties shall ultimately bear and pay all expenses necessary to be incurred for County as distinguished from City purposes. Compliance with this provision of the law will, of course, forever prevent a uniform tax rate from prevailing in The City of New York.

AMOUNT TO BE RAISED FOR CITY PURPOSES BY GENERAL RATES.

The following statement shows therefore the proportion of the Budget which is to be raised by taxation at uniform rates throughout the whole City:

Total Budget		$181,090,256 51
Less estimated revenues of the General Fund as certified by the Comptroller, and deducted, pursuant to section 900 of the Greater New York Charter	$30,971,807 62	
Less aggregate of County Budgets to be severally raised in the respective counties, as provided by section 902 of the Greater New York Charter	10,217,154 08	
		41,188,961 70
Tax required to be raised by general rates throughout the City		$139,901,294 81

ASSESSED VALUATIONS.

The County lines correspond with the Borough lines in all the Boroughs except Manhattan and The Bronx, which, together, constitute New York County, and, as the rate of taxation in these two Boroughs happens to be the same, it will be convenient in dealing with the assessed valuations to use the county classification.

The assessment rolls for the current year, transmitted to the Board of Aldermen March 1, 1912, show the following valuations by counties:

Counties.	Real Estate.	Personal Estate.	Assessment of Property Liable to Taxation for Local City and County Purposes.
New York County	$5,652,006,791 00	$286,062,320 00	$5,938,069,111 00
Kings County	1,674,742,409 00	48,753,985 00	1,723,496,394 00
Queens County	456,750,539 00	6,396,750 00	463,147,289 00
Richmond County	78,399,151 00	1,750,485 00	80,149,636 00
Grand total	$7,861,898,890 00	$342,963,540 00	$8,204,862,430 00

COUNTY CHARGES AND EXPENSES.

The county charges and expenses included in the Budget and the county charges or liabilities paid from the proceeds of special revenue bonds during the year 1911 are as follows:

TAX RATE.

The tax rates upon each dollar of assessed valuation based upon the amount required to be raised in the several counties expressed in percentages are as follows:

	New York County.	Kings County.	Queens County.	Richmond County.

Section 900 of the Greater New York Charter, as amended, provides that there shall be raised by tax such sum as shall be as nearly as possible but not less than the amount required for the year on account of the Corporation of The City of New York, or for City purposes, and on account of the various counties of New York, Kings, Queens and Richmond less the probable amount of receipts into the City Treasury for the current year from all sources of revenue of the general funds, including surplus revenue from the sinking funds therein mentioned, by fixing a tax rate in cents and hundreths of a cent upon each dollar of assessed valuation.

In order to comply with the provisions of the above section the rates of tax required to be levied and imposed upon each dollar of assessed valuation upon the estates, real and personal, subject to taxation of and within the City of New York, and the several counties and boroughs included within said City, will be as follows:

New York County	.0183
Kings County	.0187
Queens County	.0184
Richmond County	.0192

Your Committee has prepared and submits herewith, for approval and adoption by the Board of Aldermen, an ordinance to provide the necessary means for the support of the government of The City of New York and the Counties of New York, Kings, Queens and Richmond, and for other purposes, and to levy taxes on the estates, real and personal, subject to taxation in the City of New York pursuant to law in and for the year 1912.

To the Honorable the Board of Aldermen:

Gentlemen—Section 900 of the amended Greater New York Charter, provides as follows:

900. For the purpose of enabling the board of aldermen to impose the annual taxes it shall be the duty of the comptroller of said city to prepare and submit to said board, at least two weeks before the first day of March in each and every year, a statement setting forth the amounts by law authorized to be raised by tax in that year, on account of the corporation of the city of New York, as hereby constituted, or for city purposes within said city as created by this act, and purposes for which said city is liable, and on account of the counties of New York, Kings, Queens and Richmond, and also an estimate of the probable amount of receipts into the city treasury during the then current year from all the sources of revenue of the general funds, including surplus revenue from the sinking funds of the mayor, aldermen and commonalty of the city of New York and of any of the municipal and public corporations, or parts of municipal and public corporations by this act consolidated with the municipal corporation known as the mayor, aldermen and commonalty of the city of New York, other than the surplus of revenues of any such sinking funds for the payment of interest on the city debt of the municipal corporation known as the mayor, aldermen and commonalty of the city of New York, or the like debts of the municipal and public corporations by this act consolidated as aforesaid, and the said board of aldermen is hereby authorized and directed to deduct the total amount of such estimated receipts from the aggregate amount of all the various sums which, by law, it is required to order and cause to be raised by tax in said year, for the purposes aforesaid, and to cause to be raised by tax only the balance of such aggregate amount after making such deductions.

Section 902 of the amended Greater New York Charter provides as follows:

"In the statement submitted by the Comptroller to the Board of Aldermen, as above provided in this chapter, he shall each year include and state specifically the sum or sums necessary to be raised to pay during the current year the salaries of the County officers and the other County charges and expenses in the Counties of New York, Kings, Queens and Richmond, respectively, and the Board of Aldermen is hereby authorized and directed to levy upon and collect from the taxable property within each of said Counties, respectively, the sum or sums so necessary to be raised to pay the salaries of County officers and other County charges and expenses of such County; to the end that each of said Counties shall ultimately bear and pay all expenses necessary to be incurred within the County for County as distinguished from City purposes."

THE CITY OF NEW YORK.
FOR CHARITABLE INSTITUTIONS.

Conditions Governing Payments to Charitable Institutions.

All appropriations made in this Budget for the use of charitable institutions are hereby declared subject to the following conditions, and the acceptance of a payment of money made from the City treasury, in pursuance of these appropriations, shall be deemed to be an acceptance by such institutions of the conditions under which the appropriations are herein made:

1. The accounts and records of all institutions shall be so kept as to show the receipts of the institution from all sources, and all its expenditures, and shall in other respects be in such form as the Comptroller of The City of New York may require, except that a record shall be maintained in which expenses shall be recorded under the following classification:

A. Expenses incurred in the operation of the institution as follows:
- a. Food stuffs.
- b. Clothing.
- c. Linen and bedding.
- d. Fuel.
- e. Magazines and newspapers.
- f. Educational supplies.
- 9. Other supplies.
- h. Salaries and wages.
- i. Professional services.
- j. Light.
- k. Forage and care of animals.
- l. Telephone.
- m. Printing, stationery and advertising.
- n. Postage and telegrams.
- o. Hospital and sanitarium charges.
- p. Funerals.
- q. Recreation expense.
- r. Miscellaneous expense.
- s. Expense for boarded-out children.

B. Expenses incurred in the maintenance of plant and equipment, as follows:
- a. Repairs and renewals of plant and fixed equipment.
- b. Repairs and renewals of furniture and movable equipment.

All accounts of institutions shall, so far as practicable, be kept on an income and expense basis.

2. All payments made to charitable institutions in pursuance of the following appropriations shall be used by such institutions only for the recurring expenses incurred by the institution for the care, support, maintenance and education of inmates duly committed by the courts or the Commissioner of Charities or accepted by the Commissioner as public charges. Expenses for care, support and maintenance as herein used shall be taken to mean all expenses incurred by the institution for food, clothing, attendance upon, medical service to, and other expenses properly incurred in behalf of inmates committed or accepted by the City, as shown in the classification set forth in Condition 1 governing these appropriations. Such expenses shall not include any expense incurred for improvements or additions to plant or equipment, nor insurance, taxes, rent, interest on loans or mortgages, or repayments of the principal thereof. Recurring expenses for education shall be taken to mean expenses incurred in providing suitable education for properly committed or accepted inmates, and shall include the salaries of instructors, and expenses incurred for supplies for use in instruction.

3. All institutions receiving payments of public moneys in pursuance of appropriations made in this Budget and all their books of record and all their accounts relating to all institutional funds, from whatsoever source received, shall at all reasonable times be open to the visitation, inspection and examination of duly authorized representatives of the Department of Finance and the Board of Estimate and Apportionment. The Department of Public Charities shall be deemed to have the right to visit and inspect any institution receiving City funds at any time whatsoever and at all proper times have access to all the records of such institution.

4. All institutions shall in each year, at a time to be designated by the Comptroller, submit in a manner and form prescribed by him, a statement of their financial operations, and they shall state specifically in their printed annual reports the amount of money received by them from the City treasury.

5. Upon its appearing to the satisfaction of the Comptroller that it would be to the public interest to withhold payments to any charitable institution, he shall, in his discretion, suspend payments and give written notice to such institution of his intention to apply to the Board of Estimate and Apportionment for authority to cease making further payments, and, upon the determination of said board that such payments shall terminate, the right of any such institution to receive payment for services rendered thereafter shall thereupon end.

6. Where apportionments are made to private charitable institutions upon a per capita basis of payment for services to inmates, the bills of the institutions for such services shall show the names of the inmates and the period of service for which payment is claimed, and no payment shall be made for any inmate who has not been accepted by the Commissioner of Public Charities as a proper charge against the City. Except in emergency cases the Commissioner of Public Charities shall not accept as proper charges persons capable of paying for their own support or for whose care adequate provision can be made in the public hospitals. No case shall be regarded as an emergency case unless there shall have been made a certificate to that effect by a properly authorized and informed representative of the institution by which such case was received.

7. The City shall not be liable for any claim for services rendered committed inmates by any charitable institution which shall be in excess of the amount apportioned to such institution in this Budget, notwithstanding the acceptance of the Commissioner of Public Charities, or any per capita rates of payment that may have been fixed for various classes of inmates thereof.

8. No money shall be paid to any institution which pays any salary to or gives any consideration, financial or of any kind, for services to, or that has any business dealing with, or secures goods or merchandise, directly or indirectly, from any officer or trustee or member of its board of managers.

9. Child-caring institutions not sending their inmates to the public schools, and not sharing in the corporate school fund, and not receiving teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institutions for five (5) hours daily for a period equal to the public school year, shall be paid a per capita of 7 cents per day, five school days in the week, for each child receiving such instruction of five years of age and over, except that for abnormal or atypical children a special ruling may be made by the Comptroller. Institutions receiving a per capita allowance for the education of their inmates shall be under the general supervision of the Board of Education, as required by the general conditions relating to institutions receiving corporate school money, as provided in section 1154 of the Charter of The City of New York.

10. No dependent child under 16 years of age shall be accepted as a proper charge upon the City, and no money will be paid for the care, support, maintenance or education of such child unless it shall have been lawfully committed to a suitable private charitable institution having its own plant and equipment for the proper protection and care of children, under the supervision of the State Board of Charities and placed in this Budget by the Board of Estimate and Apportionment.

11. All child-caring institutions shall maintain for each inmate accepted as a public charge by the Commissioner of Charities a complete physical and health record in which shall be recorded the name, age, sex, height and weight, time of admission, general physical condition, including the presence or absence of defects in eyesight, breathing, teeth or any organic defect, in a manner to conform as nearly as practicable with the records maintained by the Department of Health for children in the public schools of The City of New York.

All such institutions shall examine and make a record of the physical condition of each of their inmates for whose care or education City money is received, at least once in every six months, noting the presence or absence of defects, as stated in the preceding paragraph of this condition.

12. All child-caring institutions shall submit quarterly to the Comptroller and to the Commissioner of Charities, and oftener if required, a sworn statement of the dietary actually employed for the feeding of their inmates for the preceding quarterly period, together with a statement of the approximate quantities of each kind of food allowed each inmate.

13. Each institution shall submit to the Comptroller on forms prescribed by him notice of all persons, for whose care City or county funds are received, within twenty-four hours after their arrival at or discharge from the institution.

14. The rates of payments to private charitable institutions, unless otherwise specially provided for, are fixed for the various classes of inmates as follows: Provided that where the Comptroller finds, after proper investigation, that any per capita rate hereinafter stated is too high, he is hereby authorized, on the approval of the Board of Estimate and Apportionment, to reduce such per capita rate for any or all institutions.

PUBLIC SERVICE COMMISSION.

INVITATION TO CONTRACTORS.
PART OF LEXINGTON AVENUE ROUTE.

The City of New York, acting by the Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct Section No. 2-A of the Lexington Avenue Rapid Transit Railroad, including the underlying portion of the Canal Street Rapid Transit Railroad or Route No. 20.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2-A. Beginning at a point under Broadway about ninety (90) feet north of the centre line of Walker street and extending thence northerly under Broadway for about five hundred and thirty (530) feet to a point about fifty (50) feet north of the centre line of Howard street; including the underlying portion of the Canal Street Rapid Transit Railroad, or Route No. 20 extending under Canal street and Broadway and under and across the portion of the Lexington Avenue Route above described a distance of about one hundred and fifty-seven (157) feet.

The general plan of construction calls for a subsurface railroad having four tracks for such portion of the Lexington Avenue Route and two tracks for such underlying portion of the Canal Street Route; all of which are more particularly indicated on the contract drawings.

Bidders will not be required to do the station-finish work, nor to provide or lay tracks, ties or ballast.

The work of construction under the contract will include the construction of all necessary sewers and connections along the route of the railroad in Broadway and in Canal street; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning where necessary, of all buildings, surface railroads and other structures, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and the temporary paving and maintenance of roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders by payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The Commission is informed by the Department of Docks and Ferries that docks and bulkheads along the East River may be available for dumping purposes. Information in regard thereto may be obtained by any intending bidder upon inquiry at the office of the Commission.

Partial payments to the Contractor will be made monthly as the work proceeds as provided in the form of contract.

The Contractor will be required to complete the work as soon as practicable and within a period of forty (40) months.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau Street, Borough of Manhattan, City of New York, until the 22nd day of March, 1912, at twelve (12) o'clock noon, at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Separate proposals must be submitted for the portion of the Lexington Avenue Route above described and for the underlying portion of the Canal Street Route above described. The Commission may accept the proposal for such portion of the Lexington Avenue Route while at the same time rejecting the accompanying proposal for such portion of the Canal Street Route. Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

Statements based upon estimates of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required on such portion of the Lexington Avenue Route and on such portion of the Canal Street Route are to be found in the schedules forming a part of the form of Contractor's Proposal. The quantities given in such schedules are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

If the contract as awarded embraces both such portion of the Lexington Avenue Route and such portion of the Canal Street Route, the Commission further reserves the right to omit such portion of the Canal Street Route upon the terms and conditions stated in the form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "*Proposal for Constructing Part of Rapid Transit Railroad —Route No. 5, Section No. 2-A,*" and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in the City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of Fifteen Thousand Dollars ($15,000). Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly approved.

At the time of the delivery of the contract, the Contractor will be required to furnish security to the City by giving a bond for thirty-five thousand dollars ($35,000) if the contract as awarded embraces only such portion of the Lexington Avenue Route and fifty thousand dollars ($50,000) if the contract as awarded embraces both such portion of the Lexington Avenue Route and such portion of the Canal Street Route. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen per centum (15%) of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal the sum of One Hundred Thousand Dollars ($100,000) if the contract as awarded embraces only such portion of the Lexington Avenue Route and One Hundred and Fifty Thousand Dollars ($150,000) if the contract as awarded embraces both such portion of the Lexington Avenue Route and such portion of the Canal Street Route. Thereafter there shall be so deducted and retained for such purpose ten per centum (10%) of the amounts certified from time to time to be due to the Contractor. The Contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other Contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
