## DEPARTMENT OF HEALTH.

Report for Week Ending March 1, 1913.

### MILK BOTTLE ORDINANCE SUSTAINED BY APPELLATE DIVISION.

In November, 1912, the Court of Special Sessions affirmed a conviction which was of the greatest importance to the Department of Health. The defendant, a driver for a milk company, had been charged upon information with having in his possession and having received milk bottles which had not been washed after holding milk and were therefore unclean. He was prosecuted under section 183 of the Sanitary Code (cited below) and was convicted. The case was discussed at length in the Monthly Bulletin for December. The defendant appealed and the decision of the Appellate Division of the Supreme Court affirming the conviction has just been announced. The opinion handed down was written by Justice Francis M. Scott, the other justices concurring, and was as follows:

"The evidence would support a finding that defendant had collected a large number of used milk bottles, some of which had not been washed; that he had taken them to a railway station at Park avenue and 164th street and unloaded them upon the platform where they were stacked up. About two hours later the bottles, including the unclean ones, were loaded on cars.

"The milk company had a cleaning plant at Manhattan street, and the reason why the defendant did not take the bottles there, was that it was out of the way.

"The defendant makes no question as to the facts, contenting himself with attacking the constitutionality of the ordinance, which reads as follows; the part attacked being the last sentence: 'Sec. 183. It shall be the duty of all persons having in their possession bottles, cans or other receptacles containing milk or cream, which are used in the transportation and delivery of milk or cream, to clean or cause them to be cleaned immediately upon emptying. No person shall use or cause or allow to be used any receptacle which is used in the transportation and delivery of milk or cream, for any purpose whatsoever other than the holding of milk or cream, nor shall any person receive or have in his possession any such receptacle which has not been washed after holding milk or cream or which is unclean in any way.'

"The defendant urges that upon a strict construction of the section, and both sides agree it should be so construed, it is unreasonable in that it makes it an offense for the milk company to reclaim or retake its own property, if someone else has violated a duty with regard to it.

"I have no doubt that this strict construction is precisely what was intended by the Board of Health, and it fits perfectly with the Agricultural Law, to which it is merely supplementary.

"Sec. 47 of that law as amended by L. 1911, Ch. 608, provides that: 'Whenever any can or receptacle is used for transporting \* \* \*, milk to the market for the purpose of selling or furnishing the same for consumption as human food, which can or receptacle, when emptied, is returned or intended to be returned to the person so selling, furnishing or shipping such substance to be again thus used, or which is liable to continued use in so transporting \* \* \* the consumer, dealer or consignee using, selling or receiving the milk, cream or curd from such can or receptacle, shall before so returning such can or receptacle remove all substances foreign to milk therefrom by rinsing with water or otherwise.'

"The appellant concedes that there is no constitutional objection to either the Statute or Ordinance except the last sentence of the Ordinance under which defendant was convicted.

"We are of opinion that the sentence objected to is not unreasonable and is within the police power of the State. It does not deprive the milk company, appellant's employee, of its property, but merely requires it, before accepting a bottle or other receptacle from a customer, to insist that that customer shall observe the law and wash out the receptacle. This can be done either by ceasing to deliver milk to a customer who refuses to obey the law or by lodging an information against the persistent law breaker.

"That the company had provided a sterilizing plant to clean bottles and receptacles does not seem to meet the requirements of law, especially when the bottles are not taken to the plant, but are shipped away in an unclean condition.

"Both the Statute and the Ordinance are undoubtedly drastic, but the danger to be apprehended from the use of unclean receptacles for milk intended for human food is too obvious and so well known that drastic measures to prevent the possibility of such use are reasonable and justifiable.

"The judgment is affirmed."

### DUTIES OF INSPECTORS AND VETERINARIANS IN SLAUGHTER-HOUSES.

At the last meeting of the Board of Health new rules and regulations were adopted relating to the duties of inspectors and veterinarians in slaughter-houses, and since their duties have thereby been considerably augmented, it is well that the proprietors of slaughter-houses, and the public in general, should know exactly what these duties are in order that unnecessary friction may be avoided. The following are the new rules which are to govern their actions:

1. At all times when on duty the badge of the Department of Health must be worn on the outer clothing, conspicuously displayed.
2. Inspectors and veterinarians assigned to abattoirs must at all times, so far as lies in their power, enforce the rules and regulations for the conduct of such premises adopted by the Board of Health on January 21, 1913.
3. Inspectors shall not leave the floor or the premises while killing or dressing is in progress unless relieved by another inspector or the veterinarian in charge, except on urgent or unusual business of the department.
4. Inspectors will state on their daily report card, in addition to the time at which they arrived and departed from the premises, the time at which operations began and the time at which the operations were suspended for the day and the premises thoroughly cleaned.
5. Upon completion of the day's work, both inspectors and veterinarians will report the fact to the department either by telephone or in person.
6. Upon the completion of the day's work the inspector and veterinarian will ascertain from the manager or owner of the abattoir to which they have been assigned, the hour at which slaughtering will be resumed on the following day.
7. If upon arrival at their posts it is discovered that there will be no killing on that day, the inspector will communicate immediately with the office of the chief of the Division of Food Inspection, by telephone, for instructions.
8. Inspectors are required to correct all unsanitary conditions which exist in the abattoirs under their charge. If they fail to improve conditions by verbal notice to the owner of manager, they shall immediately report the fact to the veterinarian and to the office of the chief of the Division of Food Inspection, by telephone, from which office they will receive instructions as to their subsequent conduct.
9. Upon the carcasses of animals slaughtered in abattoirs which are under the supervision of the Department of Health, the inspectors assigned thereto shall place suitable tags or stamps, as prescribed by the Department of Health. If the tag used is a retaining tag, then the inspector shall cause the carcass to be placed in some room set aside for the purpose until after examination by the veterinarian.
10. When any carcass, organ or part of an animal becomes unfit for food for any reason other than that caused by disease, the inspector shall immediately cause the same to be destroyed.
11. When any carcass, organ or part of any animal has been condemned as unfit for food purposes, it shall be the duty of the inspector to cause such carcass, organ or part to be denatured and removed by the offal contractor, or to some approved rendering plant for destruction.
12. It shall be the duty of the inspectors when the carcass of an animal suffering with an infectious disease, or the carcass of an animal which dies suffering with an infectious disease, has been skinned, split or dressed, that he require all persons who have handled said carcass, and all implements which have been used in the handling of said carcass, to be disinfected to the approval of the Department of Health before another carcass is handled.
13. Inspectors, on Saturday of each week, will report to the department the

number of animals killed, and the weight of meat produced therefrom, in the abattoirs under their charge.

14. Any violation of these rules may lead to the presentation of charges of neglect of duty to the Board of Health.

#### WHY PHYSICIANS SOMETIMES FAIL TO APPRECIATE THE WORK OF THE DIAGNOSIS LABORATORY.

It is the aim of the Department of Health to make the Diagnosis Laboratory of as much real assistance to practicing physicians as possible. But there are physicians who are not fully benefited by the examinations performed for them, and the Laboratory is often called upon for services which it was never intended to perform. This occasionally leads to unjust criticism and is due entirely to a lack of understanding as to the position that laboratory diagnoses should occupy in the daily work of the physician. Although the laboratory facilities offered by the Department of Health are intended to aid the physician in every possible way, he must not expect the entire burden of responsibility in making a diagnosis, to be removed from his shoulders.

In order to get results which are of value from the Diagnosis Laboratory, it is absolutely necessary for all specimens to be obtained exactly as described on the slips accompanying the several outfits. No amount of care on the part of a laboratory worker will produce satisfactory results if the specimen has been carelessly prepared and therefore does not represent the true condition of the patient. It is not an uncommon occurrence for two cultures from the same case of diphtheria, taken within an hour of each other by different physicians, to be positive and negative respectively; and furthermore, it is usually the careless physician of the two, who complains that the laboratory findings do not agree with his clinical diagnosis.

It should be constantly borne in mind that the possibility of making a correct or incorrect diagnosis as to the nature of a patient's illness, begins the moment it is decided to submit a specimen for examination and does not end until the results have been received and interpreted; the interpretation of results is second in importance only to the results *per se*.

Only specimens are examined, not patients; and while laboratory findings indicate the nature of the trouble, they should not be construed as being an index to the severity of the patient's illness. If a specimen contains diphtheria bacilli, it does not mean that the patient must necessarily be very ill nor, if it does not contain them, that he is normal in every respect. The absence of tubercle bacilli in a specimen of sputum which consists of saliva only, is of no significance, and cultures with the swab pushed through the medium or with the medium macerated to a pulp do not afford a fair test. A negative result from a specimen of blood sent in for examination for malaria is of little value if large doses of quinine have been given to the patient.

Time is often wasted in examining specimens which should not have been sent in at all; e. g., cultures submitted every day throughout the entire course of a case of diphtheria; specimens of blood for the Widal reaction, sent once a week after positive reaction has been obtained, and gonorrheal specimens at short intervals. Numerous instances could be given showing a lack of knowledge as to the location of the dividing line between laboratory diagnosis and clinical diagnosis and also the tendency to draw false conclusions from the result of the examination of a single specimen. The physician who personally superintends the collection and forwarding of all specimens from his patients is in a much more favorable position as regards interpretation of results, than he who allows some one else to perform these services for him.

Occasionally attempt is made to deceive, by sending specimens under improper conditions in order to receive false results, and thereby cause embarrassment. In regard to such cases, it can be truly said that whether apparently successful or not, such persons really deceive only themselves, for it is always assumed in the Diagnosis Laboratory that all specimens are obtained and prepared under standard conditions, and the results reported apply only when such is the case.

If specimens are obtained with as much care as is used in making the physical examination of the case and the results received properly interpreted, the Diagnosis Laboratory will be of great assistance to physicians; but otherwise the time spent in forwarding and examining specimens may be largely wasted.

There are also transmitted two supplemental agreements which the Commission proposes to enter into upon the execution of the two main contracts. These supplemental agreements are:

**PUBLIC NOTICE IS HEREBY GIVEN THAT** at the meeting of the Board of Estimate and Apportionment held this day the following resolutions were adopted:

Whereas, The Stock Quotation Telegraph Company has by a petition verified February 6, 1912, applied to this Board for its consent and approval to the continuance of its business, and the continued use and occupation of the streets of The City of New York, for the maintenance and operation of its system of wires and cables connecting its offices with each other, and with other offices and subscribers in the said City so as to allow of the collection and exchange by means of telegraph instruments, commonly known as "Morse instruments," of general news, financial news and other matters of general interest, and the distribution of the same over the said wires and cables to printing telegraph instruments, commonly known as "stock tickers," and  
Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and  
Whereas, In pursuance of such laws this Board adopted a resolution on March 28, 1912, fixing the date for the public hearing thereon as April 25, 1912, at which citizens were entitled to appear and be heard, and publication was had for at least two (2) days in the "Herald" and the "New York Press," newspapers designated by the Mayor, and in the CITY RECORD for ten (10) days immediately prior to the date of hearing, and the public hearing was had on such date; and  
Whereas, This Board has made inquiry as to the money value of the franchise or right applied for, and proposed to be granted to The Stock Quotation Telegraph Company, and the adequacy of the compensation to be paid therefor; now, therefore, it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by The Stock Quotation Telegraph Company containing the form of proposed contract for the grant of such franchise or right be hereby introduced and entered in the minutes of this Board, as follows, to wit:  
Resolved, That the Board of Estimate and Apportionment hereby grants to The Stock Quotation Telegraph Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

## Proposed Form of Contract.

This Contract, made this day of 1913, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and The Stock Quotation Telegraph Company (hereinafter called the Company), party of the second part, witnesses:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to lay, construct, maintain and operate suitable wires or other electrical conductors under the streets and avenues within the Borough of Manhattan and the portion of the Borough of The Bronx lying west of the Bronx River, and to lay, construct, maintain and operate suitable wires or other electrical conductors, and the necessary conduits for the same, under the streets and avenues within the Borough of Brooklyn, and the Borough of Queens, for the purpose of electrically connecting its offices with each other and with other offices and with subscribers, so as to allow of the collection and exchange by means of telegraph instruments, commonly known as "Morse instruments," of general news, financial news and other matters of general interest, and the distribution of the same over the said wires and cables to printing telegraph instruments, commonly known as "stock tickers," and for no other purpose whatsoever.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right and privilege to lay, construct, maintain and operate wires or other electrical conductors in conduits, and on bridges, for the purposes aforesaid, shall be held and enjoyed by the Company for the term of fifteen (15) years from January 1, 1913, with the privilege of renewal of said contract for a further period of ten (10) years, upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. If determination of the revaluation shall be sufficient as agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at

a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year after the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

1. The sum of ten thousand dollars (\$10,000) in cash within thirty (30) days after the date upon which this contract is signed by the Mayor.  
2. The further sum of five thousand dollars (\$5,000) in cash for use and occupation of the streets of the City since October 4, 1911, to be paid within thirty (30) days after the signing of this contract by the Mayor.

3. During the first term of five years, an annual sum which shall in no case be less than forty-five hundred dollars (\$4,500) and which shall be equal to three (3) per cent. of its gross annual receipts within the City, exclusive of rentals from its building or buildings, if such percentage shall exceed the sum of forty-five hundred dollars (\$4,500).

4. During the second term of five (5) years, an annual sum which shall in no case be less than six thousand dollars (\$6,000), and which shall be equal to four (4) per cent. of its gross annual receipts within the City, exclusive of said rentals, if such percentage shall exceed the sum of six thousand dollars (\$6,000).

5. During the remaining term of this original contract, an annual sum which shall in no case be less than seventy-five hundred dollars (\$7,500), and which shall be equal to five (5) per cent. of its gross annual receipts within the City, exclusive of said rentals, if such percentage shall exceed the sum of seventy-five hundred dollars (\$7,500).

6. Such further sum or sums as may be imposed by the Bridge Commissioner for the use of such bridge or bridges under his jurisdiction as he may permit.

The annual charges shall commence from the date on which this contract is signed by the Mayor.

All annual charges as above shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the moneys due when this contract is signed by the Mayor shall be paid into the Treasury of the City within thirty (30) days immediately following such date, and provided further that the first annual payment thereafter shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, shall be valid or effectual for any purpose, unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all said conditions and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding; and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this contract.

Fourth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Upon the termination of this original contract, or, if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the wires and equipment of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its wires and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Sixth—The Company shall construct, maintain and operate its electric system subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City and in strict compliance with all laws or ordinances or departmental rules and regulations now in force, or which may be adopted, affecting companies operating electrical conductors in the City.

No construction or repair of said electrical system shall be commenced until written permits have been obtained from the proper City officials. In any permit so issued, such officials may impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues and the proper restoration of the surface of such streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

Upon completion of any work or construction, the Company shall furnish to the President of the Borough a plan of such character as he may direct, showing accurately and distinctly the location, size and type of construction and complete dimensions of the structures erected, installed or constructed under this contract, and the location and dimensions of all substructures encountered during the progress of the work; the depth below the street surface of the new structures and of the substructures encountered must be shown, also their location with reference to the nearest curb line and the nearest curb line intersection.

The electrical and other equipment to be installed by the Company, whether the same be under streets and avenues, in any department of the City or in private property, shall be constructed and maintained subject to the approval and under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Seventh—The plant, conduits, wires, conductors, connections, instruments and all appurtenances thereto, shall be constructed, maintained and operated in the latest approved manner and with the most modern and improved appliances, and it is hereby agreed that the Board may require the Company to improve or add to its plant, conduits, wires, conductors, connections, instruments and appurtenances, from time to time, as such additions or improvements are necessary in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Eighth—All cables and wires of the Company laid pursuant to this contract shall be placed in ducts, conduits or subways (referred to in this paragraph as subways). In the Borough of Manhattan and that portion of the Borough of The Bronx west of the Bronx River, such subways shall be leased from the company or companies having control thereof under the provisions of law, or from the City, should it succeed to the rights of such company or companies. In the other territory in which the Company is authorized to operate by virtue of this contract, it may construct such subways as are necessary for the accommodation of its cables and wires and no more. If the City shall construct or acquire subways for electrical conductors of the character or tension of those used by the Company or similar companies, in any or all of the Boroughs, the Company hereby agrees to lay its wires and conductors in such subways and the City agrees to lease to the Company such space as may be necessary and available for the operation of the system hereby authorized. No cables or wires shall, in the future, be strung above the surface of the streets and avenues by the Company, and those at present in existence shall be removed and placed underground when and where required by the Board or the Commissioner of Water Supply, Gas and Electricity.

Ninth—The use of any bridge under the jurisdiction of the Department of Bridges shall be at the discretion of the Bridge Commissioner and in accordance with such terms and conditions and upon such reasonable charges as he may prescribe.

Tenth—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant. Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets required on account of the construction or operation of the underground conduits herein authorized to be placed in the streets, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Eleventh—It is agreed that the right hereby granted to lay and maintain conduits shall not be in preference or in hindrance to public work of the City, and should the said conduits in any way interfere with the construction of public works in

the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move its conduits and their appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twelfth—Should the grades or lines of the streets and avenues in which the Company is hereby authorized to operate be changed at any time during the term of this contract, or any renewal thereof, the Company shall, at its own expense, change its conduits and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets or avenues the Company shall take care of and protect its conduits and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Thirteenth—The Company shall, upon request from any individual or corporation occupying or owning premises in the territory in which the Company is authorized to operate, by this contract, not in arrears to it for service already rendered; extend its wires to such premises and furnish news or other service to such individual or corporation, provided that such premises are not more than one-half mile from any other premises in which the Company has its apparatus installed at the time such request is made.

Fourteenth—The Company shall file with the Board on the first day of November in each year a map or plan upon which shall be plainly and separately indicated the number of wires which were in use by the Company on September 30 preceding, and the streets in which the same are located, and also those which were put in use during the year preceding that date. It shall also file with the Department of Water Supply, Gas and Electricity, on or before the tenth day of each month, a map or plan of the locations in which wires have been placed by it during the preceding month.

Fifteenth—The rates to be charged by the Company shall not be in excess of the following, and it is agreed that the same may be altered or changed by the Board as hereinafter provided.

(a) For ordinary news service, including the rental of the printing telegraph or ticker, the sum of fifteen dollars (\$15) a month, or one hundred and eighty dollars (\$180) a year.

(b) For general news service, including the rental of the printing telegraph or ticker, the sum of twenty dollars (\$20) a month, or two hundred and forty dollars (\$240) a year.

(c) For financial news service, including the rental of the printing telegraph or ticker, the sum of forty dollars (\$40) a month or four hundred and eighty dollars (\$480) a year.

(d) For any other service furnished or to be furnished by the Company the rates charged shall be reasonable and fair and subject to the approval of the Board.

The Company agrees upon request of any Board, Department or Bureau of the City government, to furnish service to any and all buildings under the control of such Board, Department or Bureau, at one-half the rates above authorized to be charged by it for whatever class or classes of service may be required.

Sixteenth—During the term of this contract, or any renewal thereof, the Board shall have the power, by resolution, to regulate and fix the maximum and minimum rates to be charged by the Company in the City, provided such rates shall be reasonable and fair.

Seventeenth—The Company shall not receive nor receive from its subscribers any deposit or advance payment in excess of what is reasonably necessary to insure payment of current bills, and on such amounts so paid the Company shall pay interest at the statutory rate whenever such money is held for more than one month. Unpaid bills, unless due from its owner, shall never be charged against property, and no person not himself in arrears shall be denied service because any previous occupant of the same premises is in arrears to the Company for service.

Eighteenth—The wires of the Company shall be employed for no other purposes than those explicitly set forth herein and the Company binds itself not to lay, use, lease or operate wires for illegal purposes or to illegal places.

Nineteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the system authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Twentieth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions in the territory covered by this contract, or any part thereof.

Twenty-first—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars (\$100) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund herein-after provided for.

Twenty-second—If for a period of twelve consecutive months, the system of the Company shall not be operated, or if the same shall not be operated for a period of eighteen months out of any consecutive twenty-four months, the Board may declare the right and franchise and this contract terminated without further proceedings at law or in equity.

Twenty-third—The Company shall at all times keep accurate books of account and shall, on or before November 1 in each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding. Such report shall contain a statement of the gross receipts received from the operation of the system hereby authorized from all subscribers served by the Company in the City, together with such other information and in such form and detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Twenty-fourth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.

8. The total amount of funded and floating debt.
  9. The average rate per annum of interest on funded debt.
  10. Statement of dividends paid during the year.
  11. The total amount expended for same.
  12. The names of the directors and officers elected at the last meeting of the corporation held for such purpose.
  13. Location, value and amount paid for real estate owned by the Company as by last report.
  14. Location, value and amount paid for real estate now owned by the Company.
  15. Number and location of premises served by the Company in the City.
  16. Total receipts of the Company for each class of business in the City.
  17. Amounts paid by the Company for damage to persons or property on account of construction and operation in the City.
  18. Total expenses for operation, including salaries, in the City.
- and such other information in regard to the business of the Company as may be required by the Board.

Twenty-fifth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of twelve thousand dollars (\$12,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privileges hereby granted, in default of which payment of the annual charges, the City shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company.

In case of failure of the Company to comply with the terms of this contract relating to the filing of annual statements, furnishing of service to applicants as herein provided or its neglect or refusal to comply with any demand or direction of the Board or other municipal officials, made pursuant to the terms of this contract, or under the authority of any laws, ordinances or departmental regulations now or hereafter in force, in such case and in any of these events, the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars (\$50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or after a hearing appears, in the judgment of the Board, to be in default, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund, the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of twelve thousand dollars (\$12,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-sixth—In case of any violation or breach of failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board, by resolution of said Board, which said resolution may contain a provision to the effect that the portion of its system constructed and in use by virtue of this contract and located in the public streets and avenues shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-seventh—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-eighth—The words "notice" or "direction" wherever used in this contract shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-ninth—The words "streets and avenues" or "streets or avenues," wherever used in this contract, shall be deemed to mean streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement, included within the limits of the territory in which the Company is hereby authorized to operate.

Thirtieth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues of the territory in which the Company is authorized to operate by this contract.

Sec. 3. It is understood that this contract is made without prejudice to any rights which the Company may have heretofore acquired, if any, to operate a telephone, telegraph or ticker business. However, the Company shall not exercise any right or privilege other than that herein authorized and recognized, and in accordance with the terms of this contract, except after final judicial determination in an action to which the City is made a party.

Sec. 4. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained, unless and until, in an action brought or conducted as hereinbefore provided, the courts shall finally determine that the Company had heretofore acquired the right to carry on its business as now conducted without the necessity of obtaining this franchise or consent from the City.

The Company further promises, covenants and agrees that in the event of a decision in its favor in any action brought, as provided in section 3, it will not claim or attempt to claim or demand any damage, penalty or recompense from The City of New York for any expense, expenditures, suits or other disadvantage incurred by it because of the entering into this contract with The City of New York, and hereby expressly waives and surrenders to the City any such claim or demand.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

New York, February 27, 1913. m1,13

PUBLIC NOTICE IS HEREBY GIVEN THAT at the meeting of the Board of Estimate and Apportionment, held this day, the following resolutions were adopted:

Whereas, The Brooklyn and North River Railroad Company has under date of January 8, 1912, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate a double-track street surface railway upon and along Flatbush avenue extension, from Fulton street to Nassau street, Borough of Brooklyn, and upon and over the Manhattan Bridge and its approaches to and connecting with existing tracks in Canal street, Borough of Manhattan; and

Whereas, Section 172 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on April 11, 1912, fixing the date for a public hearing thereon as May 9, 1912, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in "The Times" and "New York Press," newspapers designated by the Mayor, and in the City Record for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to The Brooklyn and North River Railroad Company, and the adequacy of the compensation to be paid therefor; now, therefore, it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by The Brooklyn and North River Railroad Company, containing the form of the proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to The Brooklyn and North River Railroad Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all the terms and conditions, including the provisions as to rates, fares and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

Proposed Form of Contract.

This Contract, made this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Brooklyn and North River Railroad Company (hereinafter called the Company), party of the second part, witnesseseth:

Whereas, The Brooklyn Heights Railroad Company, the Nassau Electric Railroad Company, the Metropolitan Street Railway Company, the Third Avenue Railroad Company, the Dry Dock, East Broadway and Battery Railroad Company and the Coney Island and Brooklyn Railroad Company (called participating companies) agree to unite in organizing New Company for purpose of constructing and operating a line running generally from North River via Canal street, Manhattan Bridge and Flatbush Avenue Extension to Fulton street—called Local Railroad—and between termini of Bridge, called Bridge Line.

Capital to be sufficient for construction and equipment of line and to be subscribed for in following proportions by participating companies: Brooklyn Heights R. R. Co. and Nassau Electric R. R. Co., 25 per cent.

Metropolitan Street Railway Co., 25 per cent.

Third Avenue R. R. Co. and Dry Dock, East Broadway and Battery Railroad Company, 25 per cent.

Coney Island and Brooklyn Railroad Co., 25 per cent.

Fare to be five cents for one continuous ride, except that fare on Bridge Line only will be three cents, with two tickets for five cents.

For fare of five cents on Local Railroad each passenger to be entitled to one transfer to intersecting lines of participating companies, and intersecting lines of participating companies to issue transfers to Local Railroad on payment of five-cent fare. No transfers to be issued upon transfers by Local Railroad, and none by participating companies.

Inasmuch as the principal portion of the business of the Local Railroad is likely to be traffic represented by transfers issued or received by said Local Railroad, and issued or received by said participating companies, in addition to the traffic now carried by said participating companies exclusively, but likely to be diverted to said Local Railroad, and any satisfactory division of receipts from such traffic and of the expense of hauling such traffic is impossible of determination in advance between the New Company and each of the participating companies, therefore, in order to procure the co-operation of all of said participating companies the following arrangement is agreed upon to wit:

Each participating company shall retain the fares collected upon its lines and represented by transfers to the Local Railroad, and shall have the right to redeem the transfers received by it from the Local Railroad at the minimum rate of 1 1/2 cents per transfer thus redeemed.

If, however, at the end of any year's operation any of the participating companies should not be satisfied that the aforesaid minimum rate for the redemption of transfers received by it from the Local Railroad is sufficient, then the New Company shall increase the redemptive value of such transfers to a rate that may be equitable, but not to exceed two cents for transfers thus redeemed, and provided said increased rate thus established shall leave remaining a profit of at least ten (10) per cent. on the stock of the New Company from the operations of its railroad, and in the event that there should be any difference between any such participating company and the New Company as to the rate at which such transfers received from the Local Railroad by the participating companies should be redeemed, such difference shall, at the option of either party, be determined by arbitration in the usual manner, but such arbitration shall not fix the aforesaid redemptive rates at less than 1 1/2 cents nor more than two cents per transfer.

Edward A. Maher, General Manager for the Receiver, Third Avenue Railroad Co.; S. W. Huff, President, Coney Island and Brooklyn Railroad Company; T. S. Williams, President, The Brooklyn Heights Railroad Company; C. D. Menely, Vice-President, The Nassau Electric Railroad Company; Adrian H. Joine, Douglas Robinson, as Receivers Metropolitan Street Railway Company; Edward A. Maher, General Manager for Receiver, Dry Dock, East Broadway and Battery Railroad Company.

December 15, 1911.

Whereas, The New Company provided for in said agreement has been organized by a certificate of incorporation filed in the Office of the Secretary of State on December 30, 1911, under the name of the Brooklyn and North River Railroad Company;

Now, therefore, in consideration of the making of such participating agreement by the said companies, and of the terms thereof, particularly those which relate to the through operation of cars by the New Company from North River, Borough of Manhattan, to Fulton street, Borough of Brooklyn, and the issue and receipt of transfers for a single fare of five (5) cents, and for the purpose of enabling such through operation, issue and receipt of transfers, and in further consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the following rights and privileges:

First—To construct, maintain and operate a double track street surface railway, with the necessary wires and equipment, for the purpose of conveying passengers and property in the Boroughs of Manhattan and Brooklyn, in the City of New York, upon the following route, to wit:

Beginning at a point in Flatbush Avenue Extension at its intersection with Fulton street; thence in and upon Flatbush Avenue Extension to its intersection with Nassau street; thence in, upon and across Nassau street to the northerly side thereof, to a point where connection can conveniently be made with the tracks upon the Manhattan Bridge to be used by the Company, all in the Borough of Brooklyn.

And to cross such other streets and avenues, named and unnamed, as may be encountered in said route. Provided, however, that nothing in this contract shall be construed as permitting the construction or existence of more than a double track street surface railway in any portion of the route above specified.

The said route, with turnouts, switches and crossovers, hereby authorized, is shown upon a map entitled:

"The Brooklyn and North River R. R. Co. Map showing proposed railways of the Brooklyn and North River R. R. Co., in the Boroughs of Brooklyn, Manhattan, City of New York, to accompany petition to the Board of Estimate and Apportionment, dated January 3, 1912."

—and approved by Edward A. Maher, President, and Henry J. Kolb, Civil Engineer; a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description, and the other provisions of this contract, may be permitted by resolution of the Board.

Second—To operate the cars of the Company on two tracks when constructed upon the Manhattan Bridge and approaches thereto; such tracks to be assigned to the Company by the Commissioner of Bridges, beginning at a point on the northerly side of Nassau street, where connection can conveniently be made with above tracks in Nassau street; thence upon and along land acquired for the Manhattan Bridge terminal in the Borough of Brooklyn, to the approach to the Manhattan Bridge; thence upon and along said approach to the Manhattan Bridge; thence upon and along the Manhattan Bridge to the approach thereto in the Borough of Manhattan; thence upon said approach to land acquired for the Manhattan Bridge terminal in the Borough of Manhattan; thence upon and along said land to Canal street, and there connecting with the existing tracks or tracks to be substituted therefor in Canal street.

The said route is more particularly shown on the map hereinbefore referred to.

The routes described in paragraphs first and second of this section are to be operated by the Company as a part of a continuous route running from the intersection of Flatbush avenue and Fulton street, in the Borough of Brooklyn, along the Flatbush avenue extension to and across the Manhattan Bridge and its approaches to Canal street, in the Borough of Manhattan, and by means of trackage agreements with other companies along Canal street and other streets to the Desbrosses Street Ferry at the North River.

The said continuous route is shown by red and blue lines on the map hereinbefore referred to.

Third—To operate a local service between the termini of the Manhattan Bridge upon the two tracks referred to in Section 1, Second.

Sec. 2. The grant of the right or privilege to construct, maintain and operate said railway in and upon Flatbush Avenue Extension from Fulton street to the northerly side of Nassau street, is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within six (6) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within said six (6) months, or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—Nothing in this consent shall be deemed to affect in any way the right of the City to grant to any other corporation or to any individual a similar right or privilege upon the same or other terms and conditions in and upon said Flatbush Avenue Extension from Fulton street to the northerly side of Nassau street,

and the Company shall not at any time oppose, but shall consent to the construction and operation of any street surface railway by any such other corporation or individual which may receive a franchise therefor from the City, and which may necessitate the use of any portion of the railway which shall be constructed or operated by the Company upon said Flatbush Avenue Extension.

Should the City at any time during the term of this contract grant to any other corporation or to any individual the right or privilege to operate a railway upon the tracks of the Company, upon said Flatbush Avenue Extension, or any portion thereof, then the City shall, within thirty (30) days thereafter, give notice to the Company that such right has been granted, and of the name of the corporation or individual to which such right has been granted.

At the expiration of ninety (90) days after the giving of such notice, such individual or corporation shall have the right to begin the operation of cars upon the tracks of the Company upon said Flatbush Avenue Extension, or any portion thereof, over which such corporation or individual may receive a right or privilege, and to use therefor the tracks, equipment, power and all other property of the Company which shall be necessary in the operation of the cars of such individual or corporation upon the tracks of the Company and shall have the right to continue such operation until the contract, or the right to use such property under the terms of this contract granted said corporation or individual by the City, shall expire. Such corporation or individual shall pay to the Company for the right to use such tracks, equipment, power and other property above described such sum or sums as may be agreed upon in writing by such corporation or individual and the Company within said ninety (90) days, or in the event that such agreement cannot be reached within said ninety (90) days, such sum or sums as shall be determined in the manner hereinafter provided for.

If the Company and such corporation or individual cannot, prior to the expiration of said ninety (90) days agree upon the compensation for the use of such tracks, then such compensation shall be fixed by three arbitrators selected in the following manner:

One fit and impartial person shall be chosen by the Company; one fit and impartial person shall be chosen by such corporation or individual, and the two so chosen shall choose a third fit and impartial person. The decision under oath of any two of said persons who shall be so selected shall be final and conclusive.

The compensation and expenses of the persons selected as arbitrators in the determination of such sum or sums shall be borne by the individual or corporation to which such right may be granted.

Within thirty (30) days after an agreement shall have been reached between said parties, or in case said agreement cannot be reached before the time specified herein, then within thirty (30) days after the determination of the arbitrators, as herein provided, should two of such arbitrators agree, the said parties shall file a duplicate copy of a written agreement with the Board which shall specify the sum or sums which shall have been agreed to by the said parties or determined by said arbitrators as the sum or sums which such corporation or individual shall pay to the Company for said privilege. If the Company fails to file the same with the Board within said thirty (30) days then the right herein granted shall cease and determine.

If either party fails to appoint an arbitrator, as herein provided, or should the first two arbitrators fail to agree on the selection of a third arbitrator within thirty (30) days after the expiration of said ninety (90) days, or if no two of said arbitrators so selected agree upon the sum or sums to be paid by such individual or corporation within sixty (60) days after they shall have been so selected, then such sum or sums shall be fixed by the Supreme Court upon the application of either party.

Third—Upon the termination of this original contract, or, if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract, as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Fourth—The Company shall commence construction of the railway herein authorized within six (6) months from the date upon which the consents of the property owners are filed with the Board, or from the date of the order of the Appellate Division of the Supreme Court made pursuant to section 174 of the Railroad Law, confirming the determination of the commissioners appointed thereunder that such railway ought to be constructed, and shall complete the construction and place the same in full operation within twelve (12) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court, or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Fifth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials. In any permits so issued, such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the

streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Sixth—The portion of said railway in the Borough of Manhattan and upon the Manhattan Bridge and its terminals shall be operated by underground electric power substantially similar to the system of underground electric power now used by the street surface railways in the Borough of Manhattan; or by electric storage battery power; provided that any other power may be used, except locomotive steam power, horse power or overhead electric power, which may be lawfully used, approved by the Board and consented to by the abutting property owners in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York. The portion of said railway in the Borough of Brooklyn, except upon the Manhattan Bridge and its terminals, may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of Brooklyn; or by electric storage battery power; provided that any other power may be used, except locomotive steam power or horse power, which may be lawfully used, approved by the Board and consented to by the abutting property owners in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York.

Seventh—No wires for the transmission of power, except trolley wires, shall be permitted unless they be placed in conduits underneath or along the side of the railway. When such conduits are constructed the Company shall provide two (2) conduits not less than three (3) inches in diameter each, for the exclusive use of the City. The Company hereby agrees that such conduits shall be used only by the Company and the City, as above.

Eighth—The Company shall at all times keep the streets and avenues upon which the railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Ninth—As long as said railway, or any portion thereof, remains in any street or avenue, the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed, between its tracks, the rails of its tracks, and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe.

In case of the neglect of the Company to make pavement or repairs after the expiration of thirty (30) days' notice to do so from the President of the Borough of Brooklyn, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Tenth—Any alteration to the sewerage or drainage systems, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Eleventh—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twelfth—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues, the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Sec. 3. The grant of the right or privilege to operate cars upon two (2) tracks of the Manhattan Bridge and the approaches thereto, upon the route hereinbefore described, and to use other equipment owned by the City upon said bridge is subject to the following conditions, which shall be complied with by the Company:

First—The Company shall use only such tracks and terminal facilities as shall be assigned to the Company by the Commissioner of Bridges, and nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, or to affect the right of the Commissioner of Bridges to assign the same or other tracks and terminal facilities to such individual or other corporation.

Such tracks, terminal facilities and all electrical equipment necessary for the operation of cars thereon shall be originally installed at the expense of the City, and shall remain the property of the City, but the Company shall pay the cost of keeping and maintaining such tracks and electrical equipment in good order and repair, and in such manner as shall be approved and directed by the Commissioner of Bridges, and shall furnish all motive power required by the Commissioner of Bridges for the operation of its cars, and the Company shall renew any or all tracks and electrical equipment used by it upon the bridge and its terminals when directed by the Commissioner of Bridges, and in such manner as may be prescribed by him. If deemed necessary by the Commissioner of Bridges, the Company shall install and operate a system of signals to insure the safe and efficient operation of cars; such system to be approved by the Commissioner of Bridges. In the event of any necessity for changing the layout of tracks, curves, switches, sidings or platforms on the bridge, in order to facilitate operation of cars by the Company, said Company shall do all the work and furnish all the labor, material and tools necessary for effecting such changes, which shall all be made under the control and direction of the Commissioner of Bridges, and of no such changes or construction connected therewith, or relating thereto, shall be made unless the plan or plans for the same have been first submitted to the Commissioner of Bridges and approved by him.

If, however, the tracks, terminal facilities and appliances herein mentioned are used by any other individual or corporation, then the Company shall bear only such proportion of the cost of work required by the terms and conditions of this subdivision as the use of such track, terminal facilities and appliances by the Company bears to the entire use of such tracks, terminal facilities and appliances.

Second—Before beginning the operation of the cars, the Company shall file with the Commissioner of Bridges a statement for his approval and assent as to the type of car which it proposes to operate, and a sketch showing clearance dimensions, weight on axles and wheel spacing, or such other information as may be required by said Commissioner. All cars operated over the bridge by the Company, and all equipment and appliances relating to such operation shall be subject at all times to the inspection of the Commissioner of Bridges, or his authorized representatives, who shall have power to forbid the entrance to the bridge of cars which may for any reason be unsatisfactory, and who shall have power to direct the removal of any old or inadequate appliance and the substitution thereof of appliances of approved character.

Said Commissioner may adopt rules and regulations in regard to the number of cars to be operated over the bridge, the rate of speed of said cars, the movement and headway thereof the type and weight of cars to be used and the condition thereof, the switching of cars and the use of platform and the control of the electrical current used by the Company, and the said Commissioner may alter and amend any such rules and regulations so as to secure the safety and comfort of persons using the bridge and preserve the purposes for which the bridge was constructed, and, upon serving notice upon the Company that such rules and regulations have been made, amended or altered, the Company shall comply with all the requirements thereof.

Third—Nothing in this contract shall be deemed to affect in any way the right of the Commissioner of Bridges to make any alterations or changes in the construction, operation or management of the bridge, or to affect in any way the control of said Commissioner over such bridge as provided by the Charter of the City.

Sec. 4. The grant of the said rights and privileges to construct, maintain and operate a street surface railway in and upon Flatbush Avenue Extension from Fulton street to the northerly side of Nassau street upon the route hereinbefore described, and upon the Manhattan Bridge and approaches thereto upon the route hereinbefore described, are both subject to the following conditions, which shall be complied with by the Company:

First—The said rights and privileges shall be held and enjoyed by the Company for the term of ten (10) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of fifteen (15) years upon a fair revaluation of the right and privilege to operate over such continuous route and for the right to use the tracks owned by the City upon the Manhattan Bridge and the approaches thereto, and the terminal loop or other terminal facilities which are the property of the City and used by the Company.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding fifteen (15) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of fifteen thousand dollars (\$15,000) in cash within three (3) months after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years, an annual sum which shall in no case be less than four thousand dollars (\$4,000), but which shall be equal to three (3) per cent of its gross receipts if such percentage shall exceed the sum of four thousand dollars (\$4,000).

During the remaining term of five (5) years, an annual sum which shall in no case be less than seven thousand dollars (\$7,000), but which shall be equal to five (5) per cent of its gross receipts if such percentage shall exceed the sum of seven thousand dollars (\$7,000).

The gross annual receipts mentioned above shall be the gross receipts from all sources within the limits of the City, less the sum or sums paid for the redemption of transfers issued, pursuant to this contract, by the Company to the

intersecting or contiguous lines of the companies which are parties to the participating agreement dated and executed December 15, 1911, hereinbefore referred to, viz.:

The Brooklyn Heights Railroad Company, the Nassau Electric Railroad Company, the Metropolitan Street Railway Company, the Third Avenue Railroad Company, the Dry Dock, East Broadway and Battery Railroad Company, and Coney Island and Brooklyn Railroad Company, or the successor companies of either or any of them.

The rate for such redemption shall not in any case exceed two (2) cents for each transfer so issued and redeemed.

(c) For the use of the tracks owned by the City upon the Manhattan Bridge and the approaches thereto, the sum of five cents for each round trip, or the sum of two and one-half cents for each single trip of each and every car operated upon the bridge.

The number of cars shall be certified by the Commissioner of Bridges to the Comptroller once each month, in such form as shall be designated by the Comptroller.

(d) The Company shall pay to the City four (4) per cent, per annum upon the cost of any terminal loops or other terminal facilities which are the property of the City and used by the Company; provided, however, that if such terminal facilities are used by any other company or companies, then the Company shall pay only such portion of four (4) per cent, per annum as shall be proportionate to the use of such facilities by the Company. The Commissioner of Bridges shall determine such amounts due the City and certify the same to the Comptroller.

The annual charges shall commence on November 13, 1912.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City pursuant to the Railroad Law as amended.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said agreement, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this contract.

Fourth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Sixth—The rate of fare for any passenger upon the railway hereby authorized shall not exceed five (5) cents, and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on its road, or on any road, line or branch operated by it or under its control to any other point thereof or any connecting branch thereof within the limits of the City.

The rate of fare upon the Manhattan Bridge between the termini thereof shall in no case exceed three (3) cents for each single fare. The Company shall, however, at all times sell and have for sale tickets at the rate of two tickets for five (5) cents, each of which shall entitle a passenger to transportation across the said bridge between the termini thereof.

It being the intention and of the essence of this contract:

1. That the railway hereby authorized shall be operated by the Company as part of a continuous line from Fulton street, Brooklyn, to Desbrosses Street Ferry, Manhattan, under the franchise, rights and privileges herein granted and on the route herein specified, and from the termination of the route herein specified at the terminal of the Manhattan Bridge, in the Borough of Manhattan, to Desbrosses Street Ferry, in said Borough, by way of Canal street and other necessary streets, under trackage agreements with such of the companies named in the participating agreement hereinbefore referred to, or the successor companies of either or any of them, as hold valid franchises to operate on said Canal street and such other necessary streets.

2. That transfers shall be exchanged for a single fare between the through or continuous line of railway to be operated as above, and the intersecting lines in the Borough of Manhattan, and intersecting or contiguous lines in the Borough of Brooklyn, of such participating companies and the successor companies of either or any of them.

—It is further provided that the rate of fare for any passenger from any point on such

through or continuous line operated by the Company to any point on any line of any of the participating companies and the successor companies of either or any of them operating in the Borough of Manhattan which intersects such through or continuous line, and to any point on any line of any of the participating companies and the successor companies of either or any of them operating in the Borough of Brooklyn, which intersects or is operated on a route or routes within five hundred feet of the Brooklyn terminus of said through or continuous line, and from any point on any line of any of the participating companies and the successor companies of either or any of them in the Borough of Brooklyn, which intersects or is operated on a route or routes within five hundred feet of the Brooklyn terminus of the said through or continuous line operated by the Company to any point on such through or continuous line operated by the Company, shall not exceed five (5) cents, and for this purpose transfers shall be issued and received by the Company and the participating companies and the successor companies of either or any of them upon payment of said single fare of five (5) cents. But neither the Company nor any of the participating companies shall by this contract be required to issue transfers upon transfers or more than one transfer for said single fare of five (5) cents, nor shall the Company be required by this contract to issue transfers upon the payment of said single fare of three cents or to any passenger tendering a ticket, as above provided, for transportation upon the local service between the termini of the Manhattan Bridge.

The Company shall carry free upon the railway hereby authorized during the term of this contract, all members of the Police and Fire Departments of the City when such employees are in full uniform.

Seventh—No cars shall be operated upon the railway hereby authorized other than passenger cars, cars for the transportation of express matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway. Provided that no cars for the transportation of express matter shall be operated between the hours of 6 o'clock a. m. and 8 o'clock p. m. daily, and that the Board may further limit the operation of such cars as public convenience may require.

The rate for the carrying of property over the said railway upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board and may be fixed by the Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, and no greater sums shall be charged for such services than provided for by it.

Eighth—(a) The Company, within three (3) months after the signing of this contract by the Mayor, shall itself execute and procure the execution by the other companies of trackage agreements for the use of such tracks of the companies named in the participating agreement hereinbefore referred to or the successor companies of either or any of them on Canal street and other streets in the Borough of Manhattan as may be necessary for the through operation of its line between Fulton street, Borough of Brooklyn, and Desbrosses Street Ferry, Borough of Manhattan, and shall within the same time file sworn copies of such agreement with the Board.

(b) The Company shall commence through or continuous operation of the railway from Fulton street, Borough of Brooklyn, to Desbrosses Street Ferry, Borough of Manhattan, within the time fixed by this contract for the completion of construction and commencement of operation of the railway herein authorized, and shall continue such through or continuous operation throughout the entire term of this contract, whether original or renewal.

(c) The Company shall carry passengers on its through or continuous line and issue and receive transfers to and from the lines of the participating companies or the successor companies of either or any of them, for a single fare of five (5) cents, as provided by subdivision sixth of this section.

In the event of the failure of the Company to do or perform any of the acts or requirements contained in this subdivision and designated as a, b and c, respectively, and within the time specified, the franchise, rights and privileges hereby granted shall cease and determine and such *ipso facto* forfeiture shall not be waived, prevented or affected in any way, by the inability of the Company to procure the execution by any participating company or the successor companies of either or any of them of the trackage agreements, the invalidity of such agreements when executed, the failure or refusal of any participating company or the successor companies of either or any of them to issue or receive transfers, or by the invalidity of the participating agreement dated and executed December 15, 1911, and hereinbefore referred to.

Ninth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter during the term of this contract be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Tenth—All cars which are operated on said railways shall be heated during the cold weather in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Eleventh—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Twelfth—Cars on the said railway shall run at intervals of not more than thirty (30) minutes both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board.

Thirteenth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon the request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.

15. Number of passengers carried during the year.

16. Total receipts of Company for each class of business.

17. Amounts paid by the Company for damage to persons or property on account of construction and operation.

18. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

Fourteenth—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City, and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Fifteenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, except where an *ipso facto* forfeiture is provided for, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Sixteenth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250), as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund herein-after provided for.

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars (\$10,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. #### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beams, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
