Resolved, That the Minutes be amended on page 51, S. O. 172, report of the Committee on Finance, resolution for Special Revenue Bonds for alterations to and equipment of St. Mary's Lyceum for use of the First District Municipal Court of the Borough of Queens, be and the same is hereby amended by adding thereto the words "all obligations contracted for hereunder to be incurred on or before December 31, 1915," the same being a typographical omission.

Which was adopted.

On motion of Alderman Curran the minutes, as amended, were then approved.

PETITIONS AND COMMUNICATIONS.

No. 1633.

The American Museum of Safety—Recommending the Enactment of the Ordinance "Regulating the Construction, Operation and Maintenance of Elevators in The City of New York."

The American Museum of Safety, 14-18 West 24th Street, New York, April 8, 1915.

Honorable GEORGE A. MCANENY, *Board of Aldermen,* City Hall, New York:

Dear Sir—We understand that an Ordinance "regulating the construction, operation and maintenance of elevators in The City of New York," was drawn in consultation with Mr. Miller, Superintendent of the Building Department, and commends itself to his best judgment. As the provisions of the Ordinance seem to be carefully drawn for the protection of the public, the American Museum of Safety is in accord with it, and we would urge its enactment. Respectfully,

W. H. TOLMAN, Director.

Which was referred to the Committee on Buildings.

No. 1634.

Communication in Relation to Extending the Eight-Foot Stop Rule so as to Apply to 'Buses.

61 Riverside Drive.

Board of Aldermen, City of New York:

Honorable Sirs—Would it be possible to extend the same 8-foot stop rule where buses are concerned, as in the case of cars? Last week a little fellow was laid low because he ran in front of a standing bus, to be run down by an auto darting from behind. I think making autos stop or run 8 feet away from standing buses will avoid a lot of accidents. Yours very truly, JOSEPH HUNGERT.

April 12, 1915.

Which was ordered on file.

At this point the President entered the Chamber and took the chair.

The Supervisor of the City Record appeared before the Board, in compliance with a notice sent him by direction of the Committee on Finance, and responded to questions in relation to his interpretation of the ordinance calling for the printtng of five hundred copies of an ordinance directly after its approval by the Mayor.

The Supervisor explained that in the particular instance which brought up this question, the matter of printing the ordinance embodying the Code of Ordinances, he had interpreted a resolution to print one thousand copies of the Code, when properly indexed, to include the standing ordinance requiring the five hundred copies, and had, consequently, waited for copy containing index before proceeding with the printing.

When it had been demonstrated to the Supervisor of the City Record that he had mistaken the intent of the Board of Aldermen, he at once promised to forward the work on the five hundred copies called for by the ordinance.

In this connection the Supervisor stated that he was of the opinion that some portions of the regular minutes of the Board were at times superfluous.

The Board took cognizance of this statement and the Committee on Rules was requested to meet with the Supervisor to receive his opinion.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communications from the President, Borough of Manhattan.

No. 1635.

President of the Borough of Manhattan—Request for Authority to Make Alterations to and Rehabilitate the West Wing of the City Hall Building, Without Public Letting.

City of New York, President of the Borough of Manhattan, Municipal Building, April 7th, 1915.

Hon. GEORGE MCANENY, *President, Borough of Manhattan,* Municipal Building, New York:

Dear Sir—Additional funds have been requested for the rehabilitation of additional parts of the City Hall, which will include the Mayor's offices in the west wing of the City Hall Building. Practically all of this is for repair and replacement work for which it is almost impossible to write specifications for public lettng of a contract without serious loss to the City, because of existing conditions which cannot be foreseen until the work in question is uncovered, and the obvious possibility of obtaining work of an inferior quality to that which has already been done under conditions which have given satisfaction in the past, making it both necessary and desirable that exemption from public letting be granted.

Therefore, I respectfully petition your Honorable Board to grant permission by resolution for the expenditure of funds for the work without public letting, and request that permission be given, pursuant to Chapter 419 of the Greater New York Charter, to enter into contracts without public letting for the required additional work in the sum of $47,000, covered by request under date of April 5th, 1915. Very truly yours, MARCUS M. MARKS, President, Borough of Manhattan.

Which was referred to the committee on Public Letting.

No. 1636.

President of the Borough of Manhattan—Request for Special Revenue Bonds, $47,000, for the Purpose of Making Alterations to and Rehabilitating the West Wing of the City Hall Building.

City of New York, President of the Borough of Manhattan, Municipal Building, April 5th, 1915.

Honorable GEORGE MCANENY, *President, Board of Aldermen,* City Hall, Manhattan:

Dear Sir—Request is hereby made for an issue of Special Revenue Bonds in the amount of forty-seven thousand dollars ($47,000), for the purpose of making alterations and continuing the restoration of the first floor of the west wing of City Hall, agreeable with the plans prepared by Grosvenor Atterbury, Architect, approved by his Honor, the Mayor, and the Special Committee of the Art Commission.

The sum of $7,000 of the above amount is set aside by the Architect submitting the estimates to be used in expediting the work that it may be finished by August 1, 1915, as per request of the Mayor, and this sum or such parts of it will be used to pay for overtime as it may be required, as the work progresses.

It is hoped that work may be commenced by May 1st, therefore your early consideration will oblige, yours very truly.

MARCUS M. MARKS, President, Borough of Manhattan.

Which was referred to the Committee on Finance.

At this point Alderman White moved that the privileges of the floor be granted to Ex-Alderman Charles W. Culkin.

Which motion was adopted.

The President laid before the Board the following communication from the Commissioner on Public Charities.

No. 1637.

Commissioner of Public Charities—Request for Authority to Purchase Certain Items of Equipment for the Greenpoint Hospital Without Public Letting.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, March 18, 1915.

Repurchase Without Public Letting of the Equipment for Greenpoint Hospital.

To the Honorable the Board of Aldermen:

Gentlemen—We would respectfully request permission to purchase without public letting the following items, at amounts not exceeding the sum set opposite each, for the new Greenpoint Hospital for which there is an appropriation of $50,000 in the budget for this year known as "Code No. 2046, Greenpoint Hospital, for Equipment Only."

Beds	$2,500 00
X-Ray Apparatus	3,000 00
Operating Tables, etc	2,500 00
Furniture	4,500 00
Culinary Equipment	3,000 00
Hospital Apparatus	6,000 00
Fire Apparatus	1,500 00
Mattresses and Bedding	1,500 00

This request is made because of the length of time and the details required to get up specifications for the different items called for in this appropriation.

We believe that if the Department is granted permission to buy this equipment in open market, better and quicker results can be accomplished than by advertising. This statement is based upon our experience with the equipment for Sea View Hospital, for which everything was advertised. The awards were made to the lowest bidders, and in many casese there were rejections owing to the fact that the Contractor tried to deliver goods that were not according to specifications.

Trusting that a resolution in the enclosed form or some other suitable form will be adopted by your Board immediately, as we are anxious to purchase this equipment at the earliest possible date, I am, respectfully yours,

JOHN A. KINGSBURY, Commissioner.

Resolved, That, pursuant to section 419 of the Greater New York Charter, the Commissioner of Public Charities of The City of New York be and he hereby is authorized to purchase without public letting for the use of said Department the following items not exceeding the amounts set opposite each of the equipment of the new Greenpoint Hospital:

Beds	$2.500 00
X-Ray Apparatus	3.000 00
Operating Tables, etc	2.500 00
Furniture	4,500 00
Culinary Equipment	3.000 00
Hospital Apparatus	6.000 00
Fire Apparatus	1.500 00
Mattresses and Bedding	1,500 00

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communication from the Public Administrator:

No. 1638.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, March 25, 1915.

To the Board of Estimate and Apportionment:

Gentlemen—On March 19, 1915, you referred to the Corporate Stock Budget Committee a communication from the Commissioner of Public Charities, dated March 9, 1915, requesting that the resolution adopted by the Board of Estimate and Apportionment on June 26, 1913, and concurred in by the Board of Aldermen on July 15, 1913, authorizing an issue of corporate stock in the sum of $50,000, to provide means for the construction and equipment of an addition to the City Hospital, Blackwells Island, to be used for operating purposes; be amended to read "For alterations and addition to City Hospital, providing for suite for operating purposes and enclosing the present elevator shafts with fireproof material."

Plans and specifications for alterations to the fourth floor of the City Hospital to provide an operating suite, recently submitted to the Board of Estimate and Apportionment for approval, include the erection of fireproof walls enclosing the elevator shafts.

The fireproofing of these shafts not being a proper charge against the fund authorized for the operating suite, and as the work appeared to be urgent, the Commissioner of Public Charities was notified on February 27, 1915, that the purpose of this authorization would have to be amended.

The Commissioner now makes the request for this amendment, and as the work is urgent and a proper corporate stock charge, we recommend that the request be granted, but we believe that the word "equipment" should remain in the resolution as originally authorized.

The adoption of the attached resolution will effect this recommendation.

Respectfully, WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; DOUGLAS MATHEWSON, President, Borough of The Bronx; Corporate Stock Budget Committee.

A true copy of resolution adopted by the Board of Estimate and Apportionment, April 9, 1915.

JAMES MATTHEWS, Assistant Secretary.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, March 19, 1915.

To the Board of Estimate and Apportionment:

Gentlemen—On February 2, 1915, the Fire Commissioner requested that $50,000 of the appropriation of $200,000 in the corporate stock fund entitled "C. F. D. 2C," Fire Alarm Telegraph System, Boroughs of Manhattan, The Bronx and Brooklyn, Interior Equipment of New Central Stations," be rescinded and that an appropriation of $50,000 be authorized for the installation of the New Fire Alarm Telegraph System.

On April 1, 1913, the Fire Department requested an appropriation of $336,000 for the interior equipment of the three central stations of the Fire Alarm Telegraph system, divided as follows:

Manhattan Central Station	$96,000 00
Bronx Central Station	112,000 00
Brooklyn Central Station	128,000 00

An appropriation of $200,000 for the purpose was approved by the Board of Estimate and Apportionment on June 26, 1913, and by the Board of Aldermen on July 15, 1913. No part of this appropriation has been expended or encumbered. The Chief of the Fire Alarm Telegraph Bureau states that as the Brooklyn and Bronx stations were planned for an ultimate capacity greater than the present needs, an appropriation of $150,000 will supply all of the interior equipment needed during the next few years in all three stations. This will permit of the reduction of $50,000 in the fund "C. F. D. 2C," which is requested.

The monthly payrolls for employees in the Fire Alarm Telegraph Bureau who are employed on the development of the plans and supervision of the installation of the new fire alarm telegraph system averages $4,600.

The only available balance of corporate stock to meet these payrolls is the unencumbered balance in the fund entitled "C. F. D. 2B, Fire Alarm Telegraph System, Boroughs of Manhattan, The Bronx and Brooklyn, Rearranging Circuits, etc., for New System."

The appropriation of $100,000 for this fund was approved by the Board of Estimate and Apportionment on June 26, 1913, and by the Board of Aldermen on July 15, 1913. The appropriation was reduced to $96,573.19 by the Board of Estimate and Apportionment on December 11, 1914, which was concurred in by the Board of Aldermen on January 4, 1915. On March 17, 1915, the unencumbered balance in this fund was $21,013.63 which will be sufficient to meet the monthly payrolls until about August 1, 1915. There will, however, probably be additional charges for temporary labor which will exhaust the fund before that time.

The purposes for which the additional appropriation of $50,000 is requested is to construct immediately in the Borough of Brooklyn certain portions of the New Fire Alarm Telegraph System to take the place of wiring which is defective, as follows:

Purpose	Estimated Cost
1. Substitution of underground installations for present overhead wires on Fulton Street between Bedford avenue and Sackman Street. The third tracking of the elevated railroad, now in progress, necessitates removal of Fire Department wires in this location	6,000 00
2. Substitution of underground installation for present overhead wires on Church avenue, Rugby Road, Cortelyou Road and Beverly Road. The poles now used are in bad condition	4,250 00
3. Same purpose; similar condition; Bedford avenue, Myrtle avenue and Rodney street	1,500 00
4. Same purpose; similar condition; Union avenue from Grand street to Broadway	1,500 00
5. Same purpose; similar condition; Graham avenue from Grand Street to Broadway	1,500 00
6. In Eastern Brooklyn; to reduce the length of various fire alarm box circuits, thereby decreasing the number of boxes on these circuits	29,735 00

The balance of the amount requested, it is expected, will provide for the completion of the revised preliminary plan for the Manhattan Borough system, and will meet the corporate stock force payroll charges until a decision has been reached upon the pending request of the Fire Department for an appropriation of corporate stock for the completion of the new fire alarm telegraph system in the Borough of Manhattan.

We recommend that the request be granted by the adoption of the attached resolutions. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; DOUGLAS MATHEWSON, President, Borough of The Bronx; Corporate Stock Budget Committee.

Which were severally referred to the Committee on Finance.

and at $600 per annum for 55 incumbents; also of the grade of position of Chief Clinic Physician at $1,200 per annum for seven incumbents. The Bureau of Standards reports thereon as follows:

"On March 29, 1915, the Commissioner orally requested that the proposed title of 'Chief Clinic Physician' be changed to 'Supervising Clinic Physician,' and that, in addition to a $1,200 rate, the rates of $1,260, $1,380 and $1,500 be fixed for the position; also that, in addition to the rates of $300 and $600 requested for Clinic Physician, the rates of $480 and $660 be established.

"The purpose of the request is to change the title of 'Attending Physician' to 'Clinic Physician,' and that of 'Hospital Physician' in the clinics to 'Supervising Clinic Physician.'

"The changes of titles and rates of compensation are in conformity with the proposed specifications of the Bureau of Standards, to which the Commissioner desires to conform."

In view of the above facts, we recommend the adoption of the attached resolution recommending to the Board of Aldermen the establishment of the grades of position, as requested. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

Board of Estimate and Apportionment—Resolution to Establish Grades of Position of Junior Draftsman in the Fire Department.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of Section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Fire Department of the grades of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.
Junior Draftsman	$900, $1,020 and $1,140

A true copy of resolution adopted by the Board of Estimate and Apportionment, April 9, 1915. JAMES MATTHEWS, Assistant Secretary.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, March 24, 1915.

To the Board of Estimate and Apportionment:

Gentlemen—On March 11, 1915, the Fire Commissioner requested establishment in his Department, pursuant to the provisions of Section 56 of the Greater New York Charter, of the position of Junior Draftsman, at $1,050 per annum. The request was referred to the Committee on Salaries and Grades on March 19, 1915. The Bureau of Standards reports thereon as follows:

"The 1915 budget schedule for the Fire Alarm Telegraph Bureau, 1659C, Corporate Stock Force, provides for two Architectural Draftsmen, at $1,050 per annum. These positions are now vacant. It is proposed to replace them by the position of Junior Draftsman, with a mechanical and electrical knowledge, as the work called for will be general in character and not architectural.

"According to proposed specifications for the Draftsman Group, the work to be performed falls within Grade 1, with compensation at the rates of $900, $1,020 and $1,140 per annum."

In view of the foregoing, we recommend the adoption of the attached resolution providing for the establishment in the Fire Department of the position of Junior Draftsman, at $900, $1,020 and $1,140 per annum. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

Board of Estimate and Apportionment—Resolution to Establish the Grade of Position of Stenographer and Typewriter in the Police Department.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of Section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Police Department of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.
Stenographer and Typewriter	$1,560 00

A true copy of resolution adopted by the Board of Estimate and Apportionment, April 9, 1915. JAMES MATTHEWS, Assistant Secretary.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, March 29, 1915.

To the Board of Estimate and Apportionment:

Gentlemen—On January 28, 1915, the Police Commissioner requested establishment in the Police Department, pursuant to the provisions of Section 56 of the Greater New York Charter, of the grade of position of Stenographer and Typewriter at $1,560 per annum for two incumbents. The request was verbally amended on March 29, 1915, to provide for the establishment of the position for one incumbent. In connection therewith the Bureau of Standards reports thereon as follows:

"The request for establishment of the $1,560 rate is made for the purpose of increasing the salary of Mr. Harry V. Russell, now receiving $1,200 per annum.

"Mr. Russell was appointed in the Board of Water Supply as a Stenographer and Typewriter at $900 per annum on February 9, 1909. On February 15, 1910, he was increased to $1,190 per annum. From February 16 to May 31, 1911, he was granted a leave of absence. On June 1, 1911, he was appointed Stenographer to the First Deputy Police Commissioner (exempt), at $1,500 per annum. From November 1, 1911, to April 7, 1912, he was granted a leave of absence. On April 8, 1912, he was reassigned to the Board of Water Supply as a Stenographer and Typewriter at $1,190 per annum, and on September 16, 1913, was promoted to third grade Stenographer and Typewriter and salary fixed at $1,400 per annum. On November 10, 1913, he was transferred to the Police Department at $1,200 per annum, and on January 16, 1914, was appointed Stenographer to Commissioner (exempt) at $1,650 per annum. On April 7, 1914, he was reassigned to Stenographer and Typewriter (competitive) at $1,200 per annum. The description of the work performed by Mr. Russell is as follows:

"Does confidential stenographic work for the Police Commissioner and his Secretary, takes confidential reports of police investigators, as required; reports hearings granted to committees and complaints regarding matters requiring police attention, has charge of the Police Commissioner's tickler or follow-up file, and the preparation, tabulation and filing of all correspondence pertaining to the issuance of police line passes.

"The work now performed by Mr. Russell falls within Grade 3 of the proposed specifications of the Bureau of Standards for the Stenographer Group. Mr. Russell has also had the required two years' experience in stenographic work in Grade 2, requisite under the rules before promotion may be made to Grade 3."

We believe, on the merits, that the case of Mr. Russell is an exceptional and most deserving one and warrants higher compensation for the class of work performed by him.

We recommend, therefore, the adoption of the attached resolution requesting the Board of Aldermen to establish the grade of position of Stenographer and Typewriter, at $1,560 per annum. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

"Proper certification of bills and reports.

"If the position of Secretary to the Fourth Deputy Commissioner is established it is proposed to have the incumbent take up work in connection with making and keeping records and reports, particularly in connection with the following:

"Methods of handling complaints and supervision of complaint records in precinct and district offices, as well as at Police Headquarters; methods of reporting by precinct and district offices on current happenings, such as accidents, highway conditions, street lamp outages and routine police reports; efficiency records for police officers; reorganization of the clerical work at Headquarters, particularly in connection with the work of the Chief Clerk's office and assisting in the revision of methods of reporting and keeping records in the Detective Bureau.

"The work of keeping efficiency records for the uniformed force will require a great deal of supervision and in the development of the records a great amount of work will have to be done in devising forms of reports, etc.

"The work in connection with the revision of methods of reporting and keeping records in the Detective Bureau has been started but a great amount remains yet to be done and constant supervision is needed in order that it may properly be carried on.

"The work falls within grade 1 C of the Secretary's group of the proposed specifications and is in fact one of the examples of the grade. The compensation for this grade extends from $1,800 to $2,160, under the provisions of resolution 2 C of the Budget, apportionment therefor should be made at $1,800."

We believe that the Fourth Deputy Commissioner, to properly perform the functions assigned to him, has need for an assistant, and we therefore recommend the adoption of the attached resolution providing for the establishment of the position of Secretary to Fourth Deputy Commissioner, at $1,800 per annum, in the Police Department. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

Board of Estimate and Apportionment—Resolution to Establish the Grade of Position of Typewriting Copyist in the Office of the Commissioners of Accounts.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of Section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the Commissioners of Accounts, of the grade of position, in addition to those heretofore established, as follows:

Title of Position.	Rate Per Annum.
Typewriting Copyist	$720 00

A true copy of resolution adopted by the Board of Estimate and Apportionment, April 9, 1915. JAMES MATTHEWS, Assistant Secretary.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, April 1, 1915.

To the Board of Estimate and Apportionment:

Gentlemen—On March 20, 1915, the Commissioner of Accounts requested the establishment for his office of the grade of position of Typewriting Copyist at $720. The Bureau of Standards reports thereon, under date of March 30, as follows:

"The 1915 budget provides $1,800 for temporary Typewriting Copyist at $75 per month. It is the intention of the Commissioner to make unnecessary, so far as possible, the appointment of temporary employees against this line, by a permanent appointment at $720. To provide the funds, a position of Clerk at $900 will be eliminated. The proposed work for the new position falls within grade 2 of the tentative specifications for Typists, the minimum compensation for which is $840."

In view of the foregoing we recommend the adoption of the attached resolution granting the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

A true copy of resolution adopted by the Board of Estimate and Apportionment April 9, 1915. JAMES MATTHEWS, Assistant Secretary.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, January 12, 1915.

To the Board of Estimate and Apportionment:

Gentlemen—On October 28, 1914, the Commissioner of the Department of Correction requested the change of title of six employees from Deckhand to Prison Helper, and on November 9, 1914, modified this request to incorporate the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of the grades of positions of Prison Helper at $720 per annum, Prison Helper at $600 per annum and Hospital Helper Mechanic at $720 per annum.

The Bureau of Standards reports as follows:

"On December 28, 1914, the Commissioner verbally modified her former requests to establish for her Department grades of positions carrying salary rates in conformity with the tentative work specifications for the Helper and Artisan groups, as suggested by this Bureau.

"The original purpose of the request was to correct a condition prevailing in the Department of Correction, namely, that deckhands and others performed duties foreign to their title, and to establish for the Department a title more appropriate for penal institutions than Hospital Helper. The duties of incumbents in the positions in question involve greater responsibility in the prison work than they do in hospital work. Heretofore Deckhands, Hospital Helpers and Orderlies have been acting in a capacity properly described as Prison Helpers and Prison Artisans, at salaries ranging from $240 to $720, with full or partial maintenance.

"The Bureau of Standards suggests the establishment for the Department of two grades of Prison Helpers and two grades of Prison Artisans. Within each grade various rates of compensation are proposed, such rates to be determined by length

of service and value of work performed. The lower grade in each group is provided for persons now employed as Hospital Helpers and Orderlies, performing work of less importance and responsibility. The higher grades are provided for persons who have charge of a group of inmates in cleaning wards, dormitories, buildings, etc., and for individual work requiring greater qualification.

"The proposed titles, grades and rates of compensation are as follows:

Helper Group—With Maintenance.

Grade.	Title.	Rates of Compensation.				
2.	Prison Helper (Male)	$240	$270	$300	$330	$360
2.	Prison Helper (Female)	180	210	240	270	300
3.	Senior Prison Helper (Male)	390	420	450	480	
3.	Senior Prison Helper (Female)	330	360	390	420	
	Helper Group, Without Maintenance.					
2.	Prison Helper (Male)	$480	$510	$540	$570	$600
2.	Prison Helper (Female)	420	450	480	510	540
3.	Senior Prison Helper (Male)	630	660	690	720	
3.	Senior Prison Helper (Female)	570	600	630	660	

Artisan Group, with Maintenance.

Grade.	Title.	Rates of Compensation.				
1.	Prison Artisan	$240	$270	$300	$330	$360
2.	Senior Prison Artisan	390	420	450	480	510 $540
	Artisan Group, Without Maintenance.					
1.	Prison Artisan	$480	$510	$540	$570	$600
2.	Senior Prison Artisan	630	660	690	720	750 $780

"It is proposed to fill positions in each grade at the initial salary and to grant increases to the next rate after each six months of efficiency and satisfactory service.

"The titles of Prison Artisan and Senior Prison Artisan are proposed to cover such employments as are now engaged in under the titles of Hospital Helper Mechanic, Deckhand, Hospital Helper and Orderly. Many of these employments do not necessitate residence in the institution, for the reason that after certain stated hours the inmates of all penal institutions are turned over to the care of Keepers. It would seem that providing compensation in lieu of maintenance for positions of this sort would attract a more reliable class of men who have home responsibilities in this City, and pay rent here. It is suggested that it is more to the interest of the City to provide employment for this class than for a class of transients unemployed."

In view of the above facts, we recommend the adoption of the attached resolution recommending to the Board of Aldermen the establishment of the suggested grades of position in accordance with section 56 of the Greater New York Charter.

Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

On motion of Alderman Colne, that portion of General Order 572, Introductory No. 1582, which was placed on file on April 6, 1915, and is as follows: "Janitor, Bushwick High School, Brooklyn, per annum, less $3,000, including night school service—$11,540," was taken from file and referred to the Committee on Salaries and Offices.

§ 52. *Working stresses for columns.* 1. *General. In columns or compression members with flat ends, of cast iron, steel or wood, the stresses shall not exceed those specified in this section for the respective ratios of slenderness. For intermediate ratio of slenderness the working stresses shall be proportionate to those given.*

2. Unsupported lengths. Columns and compression members shall not be used having an unsupported length of greater ratios than given in [the tables contained in] this section.

3. [Eccentric loads.] *Eccentrically loaded columns.* Any column eccentrically loaded shall have the stresses caused by such eccentricity at any part of the column, added to all other stresses at that part, shall in no case exceed the working stresses [stated in this section.] *given in this section.* The eccentric load of a column [shall] *may* be considered to be distributed equally over the entire area of that column at the next point below *that* at which the column is securely braced laterally in the direction of the eccentricity.

[4. Working stresses. In columns or compression members with flat ends of cast iron, steel, wrought iron or wood, the stress per square inch shall not exceed that given in the following tables:

C. pine or Douglas fir the working stresses shall not exceed three-fourths of the corresponding values given for longleaf yellow pine; for columns of white pine or fir the working stresses shall be taken the same as for spruce; for columns of white oak the working stresses shall be taken the same as for longleaf yellow pine.

[§ 52. Safe loads for masonry work. 1. Brick-work. The safe-bearing load to apply to brickwork shall be taken at 8 tons per superficial foot, when lime mortar is used; 11½ tons per superficial foot when lime and cement mortar mixed is used, and 15 tons per superficial foot when cement mortar is used.

The safe-bearing load to apply to rubble-stone work shall be taken at 10 tons per superficial foot when Portland cement is used; when cement other than Portland is used, 8 tons per superficial foot; when lime and cement mortar mixed is used, 7 tons per superficial foot; and when lime mortar is used, 5 tons per superficial foot.]

§ 53. *Loads.* [§ 54. Live loads. 1. Generally. Every column, post or other vertical support shall be of sufficient strength to bear safely the weight of the portion of each and every floor depending upon it for support, in addition to the weight required as before stated to be supported safely upon said portion of said floors.

2. Distribution. The weight placed on any of the floors of any building shall be safely distributed thereon. The superintendent of buildings may require the owner or occupant of any building, or of any portion thereof, to redistribute the load on any floor, or to lighten such load where he deems it to be necessary.

3. Dwellings, apartment houses, tenement house. In a building used as a dwelling house, apartment house, tenement house, hotel or lodging house, each floor shall be of sufficient strength in all its parts to bear safely upon every superficial foot of its surface not less than 60 pounds.

5. Ordinary mercantile or light manufacturing plants. In a building to be used for ordinary stores, light manufacturing and light storage, each floor shall be of sufficient strength in all its parts to bear safely not less than 120 pounds upon every superficial foot. The strength of factory floors intended to carry running machinery shall be increased above the minimum given in this section in proportion to the degree of vibratory impulse liable to be transmitted to the floor, as may be required by the superintendent of buildings.

6. Places of public assembly. In a building containing a place of public assembly, not less than 90 pounds upon every superficial foot.

7. Schools. In a building used as a school or place of instruction, not less than 75 pounds upon every superficial foot.

8. Stables and carriage houses. In a building used as a stable or carriage house, not less than 75 pounds upon every superficial foot.]

1. *Dead load. The term "dead load" means the weight of walls, partitions, framing, doors, roofs and all permanent construction entering into any building.*

2. *Live load. The term "live load" means all forms of loading other than the weight of the material entering into the construction of the building.*

3. *Floor loads. Every floor, roof, yard, court or sidewalk shall be of sufficient strength in all parts to bear safely any imposed loads, whether permanent or temporary, in addition to the dead loads depending thereon, provided, however, that no floor in any building or extension to an existing building hereafter erected, shall be designed to carry less than the following live loads per square foot of area, uniformly distributed, according as the floor may be intended or used for the purposes indicated.*

40 pounds for residence purposes,

100 pounds for places of assembly or public purpose, except that for classrooms of schools or other places of instruction the floor need not be designed for more than 75 pounds, and

120 pounds for any other purpose, except that the floors of offices need not be designed for more than 60 pounds.

The live loads for which any and every floor may be designed shall be clearly shown in the application and on the plans before any permit to erect is issued.

4. *Concentrated loads. Every steel floor beam in any building hereafter erected used for any business purpose shall be capable of sustaining a live load concentrated at its centre of at least 4,000 pounds.*

5. *Moving loads. Running machinery or other moving loads shall be considered as increasing the live loads in proportion to the degree of vibratory impulse transmitted to the floor.*

[9. Roofs. The roofs of all buildings having a pitch of less than twenty degrees shall be proportioned to bear safely 50 pounds upon every superficial foot of their surface, in addition to the weight of materials composing the same. If the pitch be more than 20 degrees the live load shall be assumed at 30 pounds upon every superficial foot measured on a horizontal plane.]

6. *Roof loads. Every roof hereafter erected, shall be proportioned to bear safely a live load of 40 pounds per square foot of surface when the pitch of such roof is twenty degrees or less with the horizontal, and thirty pounds per square foot measured on a horizontal plane, when the pitch is more than twenty degrees.*

7. *Loads on vertical supports. Every column, post or other vertical support shall be of sufficient strength to bear safely the combined live and dead loads of such portions of each and every floor as depend upon it for support, except that in buildings more than five stories in height the live load on the floor next below the top floor may be assumed at ninety-five per cent. of the allowable live load, on the next lower floor at ninety per cent. and on each succeeding lower floor at correspondingly decreasing percentages, provided that in no case shall less than fifty per cent. of the allowable live load be assumed.*

8. *Sidewalk loads.* [10. Sidewalks.] For sidewalks between the curb and [area] *building* lines, the live load shall be taken at 300 pounds [upon every superficial foot] *per square foot.*

9. *Yard and court loads. For yards and courts inside the building line, the live loads shall be taken at not less than 120 pounds per square foot.*

§ [57.] 54. Wind pressure. [All structures exposed to wind shall be designed to resist a horizontal wind pressure of 30 pounds for every square foot of surface thus exposed, from the ground to the top of same, including roof, in any direction. In no case shall the overturning moment due to wind pressure exceed 75 per centum of the moment of stability of the structure. In all structures exposed to wind, if the resisting moments of the ordinary materials of construction, such as masonry, partitions, floors and connections are not sufficient to resist the moment of distortion due to wind pressure taken in any direction on any part of the structure, additional bracing shall be introduced sufficient to make up the difference in the moments. In calculations for wind bracing, the working stresses set forth in this chapter may be increased by 50 per centum. In buildings under 100 feet in height, provided the height does not exceed 4 times the average width of the base, the wind pressure may be disregarded.]

1. *When considered. All buildings over 150 feet in height and all buildings or parts of buildings in which the height is more than four times the minimum horizontal dimension, shall be designed to resist a horizontal wind pressure of 30 pounds for every square foot of exposed surface measured from the ground to the top of the structure, including roof, allowing for wind in any direction.*

2. *Stability. The overturning moment due to wind pressure shall not exceed 75 per cent. of the moment of stability of the structure, unless the structure is securely anchored to the foundation. Anchors shall be of sufficient strength to safely carry the excess overturning moment, without exceeding the working stresses prescribed in this chapter.*

3. *Allowable stresses. When the stress in any member due to wind does not exceed 50 per cent. of the stress due to live and dead loads, it may be neglected. When such stress exceeds 50 per cent. of the stress due to live and dead loads, the working stresses prescribed in this chapter may be increased by 50 per cent. in designing such member to resist the combined stresses.*

§ 55. Floor [loads of stores, factories and warehouses] *capacities.* [1. Minimum floor strength. In a building to be used as a store, where heavy materials are kept, or as a warehouse, factory, or for any other manufacturing or commercial purpose, each floor shall be of sufficient strength in all its parts to bear safely not less than 150 pounds upon every superficial foot.

2. Capacity of floors to be ascertained and posted. Before any building hereafter erected is occupied and used, in whole or in part, for any of the purposes aforesaid, and before any building, erected prior to the passage of this ordinance, but not at such time occupied for any of the aforesaid purposes, is occupied or used, in whole or in part, for any of said purposes, the weight that each floor will safely sustain upon each superficial foot thereof, shall be ascertained and posted in the building to which it relates, as hereinafter provided.]

[3.] 1. Estimate of floor capacity. In [all warehouses, storehouses, factories, workshops and stores] *every building now existing or hereafter erected, occupied wholly or in part as a business building, in which* [where] heavy materials are kept or stored, or machinery *is* introduced, the weight that each floor will safely sustain [upon each superficial foot thereof, or upon each varying part of such floor,] shall be estimated by the owner or occupant, or by a competent person employed by the owner or occupant. Such estimate shall be [reduced to writing, on printed forms furnished by] *filed with* the superintendent of buildings [stating the material, size, distance apart and span of beams and girders, posts or columns to support floors, and its correctness shall be sworn to by the person making the same, and it shall thereupon be filed in the office of the said superintendent] *properly verified by the person making the same in such manner as such superintendent may direct, and shall give full information on which the estimate is based. When such estimate is found to be satisfactory and correct, the superintendent of buildings shall approve the same.*

[4. Official revision of estimates. But i] *If* the superintendent of buildings shall have cause to doubt the correctness of said estimate, he is empowered to revise and correct the same and for the purpose of such revision the officers and employes of the bureau of buildings may enter any building and remove so much of any floor or other portion thereof as may be required to make necessary measurements and examination. Any expense necessarily incurred in removing any floor or other portion of any building for the purpose of making any examination herein provided for shall be paid by the comptroller, upon the requisition of the superintendent of buildings, out of the fund paid over to him under the provisions of § 639 of this chapter. Such expenses shall be a charge against the person or persons by whom or on whose behalf said estimate was made, provided such examination proves the floors of insufficient strength to carry with safety the loads found upon them when such examination was made; and shall be collected in an action to be brought by the corporation counsel against said person or persons, and the sum so collected shall be paid over to the comptroller to be deposited in said fund in reimbursement of the amount paid as aforesaid. [When the architect of record for any building has filed with his application to build the data required to determine the strength of floors, on one of the blank forms provided for that purpose, such examination shall not be required provided that the purposes and uses of the building have not been changed.]

[5.] 2. Posting [estimates of] floor capacities. [When the correct estimate of the weight that floors in any such buildings will safely sustain has been ascertained, as herein provided, the superintendent of buildings shall approve the same, and thereupon the owner or occupant of said building, or of any portion thereof, shall post a copy of such approved estimate in a conspicuous place on each story, or varying parts of each story, of the building to which it relates.] *Before any building hereafter erected is occupied, in whole or in part, as a business building, and before any building already erected but not heretofore occupied as a business building, is occupied or used, in whole or in part, for such purpose, the safe live load for each floor as approved by the superintendent of buildings shall be posted in a conspicuous place in the story to which it relates. When the safe live load for any existing floor, ascertained as hereinbefore provided, has been approved by the superintendent of buildings, the owner or occupant shall post such approved live load in a conspicuous place or places on each story occuied for any of the purposes indicated in this section.*

[6. Overloading prohibited.] 3. *Loading of floors.* No person shall place, or cause or permit to be placed on any floor of any building any greater load than the *approved* safe load [thereof as correctly estimated and ascertained as herein provided.]

4. *Safes. No safe shall be placed on a stair landing or in a stair hall, nor shall its weight be carried by any beam which also carries the floor of any landing or stair hall.*

Section 2. The list of Articles at the head of Chapter 5 of the Code of Ordinances of the City of New York is hereby amended by substituting *"Working stresses and loads"* for ["Strength of materials"] as the title of Article 5.

Section 3. This ordinance shall take effect immediately.

Reports of Committee on Finance—

No. 1594.

Report of the Committee on Finance in Favor of Adopting Resolution for $165,000 Special Revenue Bonds for Use of Police Department for Employment of Patrolmen.

The Committee on Finance, to which was referred on March 30, 1915 (Minutes, page 1711), the annexed request from the Police Commissioner for $165,000 Special Revenue Bonds to meet deficiency in appropriation for uniformed force, respectfully

REPORTS:

That the details of this application are set forth in the letter of request. Commissioner Woods appeared before the Committee and satisfied it that this amount was an urgent necessity to provide for the quota of patrolmen figured as being needed for 1915. The Committee, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of Subdivision 8 of Section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of one hundred and sixty-five thousand dollars ($165,000), the proceeds whereof to be used by the Police Department for the purpose of meeting deficiency in the appropriation for the uniformed force.

All obligations contracted for hereunder to be incurred on or before December 31, 1915.

City of New York, Police Department, Office of the Commissioner, March 29, 1915.

The Honorable Board of Aldermen, City Hall, New York City, N. Y.:

Sirs—I respectfully request that revenue bonds be authorized to the amount of $165,000 for the purpose of meeting a deficiency in the appropriation for the uniformed police force, which will occur if appointments are made during this year to fill vacancies now existing in the force.

There are now 206 fewer patrolmen on the force than there were last year. The force actually engaged in uniformed patrol duty has been still further reduced, owing to the necessity of making increases in the traffic squad, in the detective bureau, and in the special squads having to do with the suppression of vice and particularly of the drug evil, and in other special work of the Department.

The traffic squad during the year has been increased from 522 to 580. Even with this increase the needs in this branch of the service have not been met, as there are many points at which traffic men are not stationed where the need is as great as at those places at which traffic men are now assigned. The question of street safety is a pressing one, and it is important that the Department take every means possible not only to reduce the danger to life and property but also to facilitate street traffic. It is felt, however, that the patrol force cannot further be reduced in order to provide the additional men for traffic work.

There are now eighty-one more patrolmen assigned to the detective bureau than last year. When I came into the Department I found this important branch of the service undermanned. So many cases were assigned to a detective that satisfactory results were not being obtained and little attention was being given to preventive work. In order to increase the efficiency of the Detective Bureau it was essential that the force be increased.

Early in the year the Department started on a systematic campaign for the suppression of the drug evil, and the passage of the Boylan Law, which went into effect on July 1, made it incumbent upon the Department to give still more attention to this work. It has been necessary, therefore, to assign forty-four additional men to plain clothes duty.

Other branches of the service, such as the Telegraph Bureau, Harbor Squad, etc., had been depleted to such an extent that the efficiency of the service was seriously impaired. In order to meet the needs in these other services, it was necessary to make further reductions in the patrol force. These depletions of the uniformed force, which were necessary to the accomplishment of the best work, could only partly be foreseen seven months ago at the time the budget estimates were made up.

At that time I had been in the Department only a little over two months and had been unable to look carefully and thoroughly into the needs of the different branches of the service in order to estimate accurately what the requirements would be. At the time the budget was being prepared a study was being made of a redistribution of the force and of a modification of the patrol system in a number of the outlying precincts. It was thought by the changes then under contemplation that it would be possible to save enough men so that the force could be temporarily reduced by from 175 to 200 men. The budget as submitted carried this reduction, amounting to $200,000. It was recognized at that time that there was need for additional men in traffic work, but because of the short time available for study of the requirements in the Detective Bureau and in other branches of the service the needs for additional men for work other than patrol duty were not adequately anticipated. In addition to the needs for regular police work, the conditions of unemployment and distress, which has been unusual this year, has added directly and indirectly a great deal of work to the force.

In addition to the reduction of $200,000, a further reduction was made at one of the last meetings of the Board of Estimate and Apportionment prior to the adoption of the budget, in that a sum of approximately $70,000 was transferred from the account of the uniformed force to other appropriation accounts covering the employment of civilians. The purpose of this was to replace policemen doing clerical, inside work with civilians, so that the policemen could be returned to more distinctively police work.

In order to make this possible it was, of course, necessary to allow vacancies in the uniformed force to accrue. The most careful estimates which we can make indicate that it will be necessary to accumulate a gross of 425 vacancies during the year 1915. The employment of civilians will make it possible to return to police duty about 60 policemen, so that the net reduction in the force will be about 365. To avoid this reduction, $165,000, as stated in the first paragraph of this letter, will be required.

We are very much handicapped in giving proper police service to the city by the reductions in the force, which have been made necessary as described above. The needs for police service are constantly growing with the growth of population, and the city is taking, in my judgment, a backward step which is wholly unwarranted if we permit the police force to be reduced. From incomplete studies which we are making, I am pretty well convinced that instead of reducing, we need a substantial increase. I, therefore, earnestly request favorable consideration of this matter, to the end that the strengh of the force be restored to what it was last year.

Respectfully yours, ARTHUR WOODS, Police Commissioner.

Alderman Curran moved the acceptance of this report and the adoption of this resolution.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bartscherer, Bedell, Benninger, Boschen, Bosse, Brush, Burden, Burns, Carberry, Carroll, Chorosh, Colne, Curran, Delaney, Donnelly, Dostal, Dotzler, Dowling, Duggan, Dujat, Eichhorn, Ferguson, Ferrand, Eagan, Fink, Gaynor, Hannon, Hogan, Igstaedter, Kenneally, Kenney, Kochendorfer, Lein, Levy, McCann, McCourt, McGarry, Mulligan, McNally, Molen, Moore (Chas. Report of the Committee on Finance in Favor of Adopting Resolution for $9,000 Special Revenue Bonds for Care of Men at Hospital and Industrial Colony at Warwick, N. Y., Under Jurisdiction of Board of Inebriety.

The Committee on Finance, to which was referred on March 30, 1915 (Minutes, page 1712), the annexed request from the Board of Inebriety for $9,000 Special Revenue Bonds for care of inmates at the hospital and industrial colony at Warwick, N. Y., respectfully

REPORTS:

That having examined the subject, it believes the proposed allowance to be necessary, Judge Collins of the Court of Special Sessions and several representatives of departments having to do with those addicted to a drug habit, advocated this appropriation, stating that the treatment given these unfortunates at this colony frequently helped to complete a cure. The Committee recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of Subdivision 8 of Section 182 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of nine thousand dollars ($9,000), the proceeds whereof to be used by the Board of Inebriety for the purpose of caring for inmates at the hospital and industrial colony at Warwick, N. Y.

Board of Inebriety of The City of New York, 300 Mulberry Street, New York, March 30th, 1915.

Hon. GEORGE McANENY, *President, Board of Aldermen, New York City:*

Sir—I am directed by the Board of Inebriety to request the Board of Aldermen to authorize the issue of special revenue bonds in an amount not exceeding $9,000 for the purpose of caring for one hundred men at the Hospital and Industrial Colony of the Board at Warwick, New York, in a camp colony, from May 1st to October 15th, 1915, a period of 168 days. It is proposed to place the men in tents accommodating ten each, and to use a marquee as a dining room. The request is prompted by the desire of the Board to use the splendid facilities at its disposition to the fullest advantage during the summer months, especially following the success of a small camp operated last year. A detailed statement of the estimated cost is attached. The economic value of treating one hundred men for that period will far more than offset the cost involved, and their labor can be used in cultivating the large farm operated by the Board, and in the construction of permanent buildings. Respectfully,

JOHN A. KINGSBURY, President.

Majority and minority report on

No. 1386—(G. O. No. 593).

Majority Report of the Committee on Public Thoroughfares in Favor of Filing Proposed Ordinance Amending "Near Side Stop" Ordinance.

The Committee on Public Thoroughfares to which was referred on February 9, 1915 (Minutes, page 789) the annexed ordinance in favor of amending an ordinance in relation to the stoppage of street surface cars in the City of New York, respectfully

REPORTS:

That in its opinion the proposed amendment is not necessary inasmuch as the discretion granted the Police Commissioner in subdivision C of section 2 of the existing ordinance would permit the privilege sought by the proposed amendment, upon application to said commissioner.

It, therefore, recommends that the said ordinance be placed on file.

AN ORDINANCE amending "An Ordinance in relation to the stoppage of street surface cars in The City of New York."

Be it ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. Safety Stops for Street Surface Railway Cars—In the interest of public safety, street surface railway cars shall come to a full stop:

(a) At all points where a "Fire Stop" sign is exhibited.

(b) At all points where a "School Stop" sign is exhibited, between the hours of 8 a. m. and 9 a. m., 12 noon and 1 p. m., and 3 p. m. and 5 p. m., except on Saturdays, Sundays and legal holidays, and during the period of July 1 and September 1. Each Borough President is hereby authorized to erect signs bearing the words "School Stop" on each side of streets within his jurisdiction which intersect or meet the street on which a public school is located, within 500 feet from such intersecting or meeting street, on lamp posts, street sign posts, trolley poles, trolley span wires, or other available supports, or, in the absence of any such existing structure on such new supports as he may find necessary.

Section 2. Passenger Stops—To take on or discharge passengers, when signaled so to do, all street surface railway cars shall come to a full stop, in such a position as not to obstruct the crosswalk, before crossing any intersecting or connecting street, *and street surface railway cars which operate in the Borough of Manhattan, in an easterly or westerly direction, shall also come to a full stop after crossing any intersecting or connecting street*, except that with the written consent of the Police Commissioner, and if "Trolley Stop" signs are installed by the railway company, cars may stop:

(a) At other points on unpaved streets.

(b) In the centres of blocks over 400 feet long.

(c) *Except as herein provided*, on the far side of any street containing an intersecting railway.

Section 3. Intersecting Streets—Street surface railway cars may cross an intersecting or connecting street without stopping, provided that, in each such case the Police Commissioner shall give his written consent and the railway company shall install a "No Stop" sign, and there shall be a regular stopping place with a "Trolley Stop" sign within 200 feet of the "No Stop" sign.

Minority Report of the Committee on Public Thoroughfares in Favor of Adopting Ordinance Amending "An Ordinance in Relation to the Stoppage of Street Surface Cars in The City of New York."

The Committee on Public Thoroughfares, to which was referred on February 9, 1915 (Minutes, page 789), the annexed ordinance amending "An Ordinance in relation to the stoppage of street surface cars in The City of New York," respectfully

REPORTS:

That, having examined the subject, it believes the proposed amendment to be necessary. It is claimed that the Police Commissioner has discretionary power to order the stops contemplated herein, where he deems it necessary. For the real convenience of shoppers and the enormous day traffic other than "rush hours" it is apparent that such stops as are called for herein should be fixed by ordinance and not left to the judgment of any administrative officer or his subordinates. It is frequently dangerous to cross certain of the north and south arteries of traffic to transfer under the present system to the cars running east and west, and this has already been recognized at some points and cars ordered stopped on both sides of the avenue to safeguard passengers who wish to transfer.

It, therefore, recommends that the said resolution be adopted.

AN ORDINANCE amending "An Ordinance in relation to the stoppage of street surface cars in The City of New York."

Be it ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. Safety Stops for Street Surface Railway Cars—In the interest of public safety, street surface railway cars shall come to a full stop:

(a) At all points where a "Fire Stop" sign is exhibited.

(b) At all points where a "School Stop" sign is exhibited between the hours of 8 a. m. and 9 a. m., 12 noon and 1 p. m., and 3 p. m. and 5 p. m., except on Saturdays, Sundays and legal holidays, and during the period of July 1 and September 1. Each Borough President is hereby authorized to erect signs bearing the words "School Stop" on each side of streets within his jurisdiction which intersect or meet the street on which a public school is located, within 500 feet from such intersecting or meeting street, on lamp posts, street sign posts, trolley poles, trolley span wires, or other available supports, or, in the absence of any such existing structure on such new supports as he may find necessary.

Section 2. Passenger Stops—To take on or discharge passengers, when signaled so to do, all street surface railway cars shall come to a full stop, in such a position as not to obstruct the croswalk, before crossing any intersecting or connecting street, *and street surface railway cars which operate in the Borough of Manhattan, in an easterly or westerly direction, shall also come to a full stop after crossing any intersecting or connecting street*, except that with the written consent of the Police Commissioner, and if "Trolley Stop" signs are installed by the railway company, cars may stop:

(a) At other points on unpaved streets.

(b) In the centres of blocks over 400 feet long.

(c) *Except as herein provided*, on the far side of any street containing an intersecting railway.

Section 3. Intersecting Streets—Street surface railway cars may cross an intersecting or connecting street without stopping, provided that, in each such case the Police Commissioner shall give his written consent and the railway company shall install a "No Stop" sign, and there shall be a regular stopping place with a "Trolley Stop" sign within 200 feet of the "No Stop" sign.

Section 4. Violations—Any street surface railway company violating any provision of this ordinance shall, upon conviction, be punished by a fine of $10 for each offense.

Section 5. This ordinance shall take effect immediately.

Report of the Committee on Public Thoroughfares in Favor of Adopting Ordinance Changing West End Avenue from the Jurisdiction of the Borough President Back to the Park Department.

The Committee on Public Thoroughfares, to which was referred on February 2, 1915 (Minutes, page 781), the annexed ordinance in favor of returning West End Avenue to the jurisdiction of the Park Department, and a petition advocating the change, respectfully

REPORTS:

That, having carefully examined the subject, it believes the proposed change to be advisable for the protection of the trees and preservation of the grass plots along this thoroughfare. At a well attended public hearing a number of residents appeared and advocated this proposed ordinance, and the members of the Board through whose districts the avenue runs report that public sentiment appears unanimously in favor of it.

The Committee recommends that the said ordinance be adopted.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Report of the Committee on Public Thoroughfares in Favor of Adopting Resolution to Authorize the Borough Presidents to Issue Permits for Temporary Display of Signs Giving Notice of Meetings for Charitable or Religious Purposes.

The Committee on Public Thoroughfares, to which was referred on February 16, 1915 (Minutes, page 1080), the annexed resolution, authorizing the Borough Presidents to issue permits for the temporary display of signs and notices relating to meetings for charitable or religious purposes, respectfully

REPORTS.

That having examined the subject, it believes the proposed authorization to be necessary. At present no one has official power in such cases, and it frequently happens that much good would result from temporary permits of this nature, without any cost to the City or detriment to its property. The Committee believes, however, that the resolution may be simplified, and it recommends that the accompanying substitute resolution be adopted.

SUBSTITUTE.

Resolved, That the Presidents of the respective boroughs be and they are hereby authorized, in their discretion, to grant permits for the temporary display, for the information of the public, in the public streets and places of their respective boroughs under such regulations as may be determined by them, of signs and notices relating to meetings or work for charitable or religious purposes.

ORIGINAL.

Resolved, That the presidents of the respective boroughs be and they hereby are authorized, in their discretion, to grant permits for the temporary display, for the information of the public, in the public streets and places, of their respective boroughs, and under such regulations as they may determine, of signs and notices relating or giving publicity to enterprises or meetings of, or the work connected with, religious, charitable, or philanthropic organizations and bodies, upon the president so issuing such permit receiving security approved by him indemnifying the City against all loss, damage and claim, by reason of the grant of such permit or the maintenance or non-removal of such signs and notices; such permit to continue in force for not exceeding two weeks; provided that no such permit shall be issued for the display of any such sign or notice which shall in any way interfere with the general use by the public of such streets and public places.

Report of the Committee on Salaries and Offices Disapproving Resolution to Fix Grades of Position of Stableman, Fire Department, at from $720 to $816 Per Annum, and Returning Same to Board of Estimate and Apportionment.

The Committee on Salaries and Offices, to which was referred on March 16, 1915 (Minutes, page 1607), the annexed resolution in favor of establishing grades of position of Stableman, Fire Department, at from $720 to $816, respectfully

REPORTS:

That, having examined the subject, it believes the proposed grades to be unnecessary. The grade of Stableman at $912.50 is already established. The Fire Commissioner asked permission to fill a vacancy at this rate, and in return received these proposed grades from the Bureau of Standards. The departmental authorities and this Committee unite in the opinion that $912.50 is an equitable rate of pay for this work, and the Committee, therefore, recommends that the said resolution be returned to the Board of Estimate and Apportionment disapproved.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, recommends to the Board of Aldermen the establishment in the Fire Department of the grades of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.
Stableman	$720, $744, $768, $792, $816

REPORTS:

That Secretary Belcher of the Municipal Civil Service Commission appeared before the Committee in opposition to these grades, contending that their creation would vitiate a recent examination held in good faith by the Commission at the request of the Bureau of Standards. The Committee takes the same view of the matter, and, therefore, recommends that the said resolution be returned to the Board of Estimate and Apportionment disapproved.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of Section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Board of Estimate and Apportionment of the grades of position in addition to those heretofore established, as follows:

Report of the Committee on Salaries and Offices in Favor of Adopting Resolution to Establish Grade of Position of Examiner or Expert, not to Exceed $10 per Day, in the Office of the Municipal Civil Service Commission.

The Committee on Salaries and Offices, to which was referred on March 23, 1915 (Minutes, page 1653), the annexed resolution in favor of establishing the grade of position of Examiner or Expert in the office of the Municipal Civil Service Commission, respectfully

REPORTS:

That this resolution permits the employment of an Examiner at a lesser rate than $10 per diem, as it now stands. It is not always necessary to pay the higher rate, and this will allow some elasticity in this class of employment.

It, therefore, recommends that the accompanying resolution be adopted.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a stated meeting held March 19, 1915:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Alderment the establishment, in the office of the Municipal Civil Service Commission, of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate per diem.
Examiner or Expert	Not to exceed $10

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

The Committee on Salaries and Offices, to which was referred on March 23, 1915 (Minutes, page 1699), the annexed ordinance in favor of establishing certain regulations and requirements for the appointment of City Surveyors, respectfully

REPORTS:

That it held a public hearing on this subject at which certain suggestions were made for amendments to the proposed ordinance. The Committee believes that regulations should be made for future appointments, but does not think that a wholesale revocation of all prior appointments should be endorsed. It submits herewith a substitute ordinance e mbodying its conclusions, and recommends that the same be adopted.

City of New York, Law Department, Office of the Corporation Counsel, New York, March 17, 1915.

Hon. MARCUS M. MARKS, *President, Borough of Manhattan:*

Sir—I have received a letter dated March 6, 1915, signed by E. P. Goodrich, Chairman of Consulting Engineers, in which he states in substance that the Board of Aldermen has requested the consulting engineers in the various boroughs to suggest a form of ordinance for adoption regulating the appointment of city surveyors, and that the consulting engineers have decided to recommend the adoption of an ordinance which will require candidates for appointment to be examined by a board of experts appointed either by the Board of Aldermen or the Board of Estimate and Apportionment, or by both of these bodies. I am requested to advise you if the enactment of such an ordinance is beyond the powers of the city authorities as now constituted, and if not, to prepare a draft of such ordinance for submission to the Board of Aldermen.

In an opinion rendered by this office under date of April 8, 1902, and addressed to the Board of Aldermen, the legislation affecting the appointment of surveyors for the City of New York is reviewed at length and conclusion is there reached that this power is vested in the Board of Aldermen. I do not find that there has been any legislation relating to surveyors for the City of New York since the rendition of this opinion and so I advise you that the power to appoint City Surveyors is now vested, as it was then, in the Board of Aldermen.

While I do not think that the Board of Aldermen is empowered to delegate this power of appointment to another body or board, yet I see no reason why it could not provide by ordinance for an examining board, the purpose of which would be to obtain a list, from which to make appointments, of those persons whose qualifications for the office of City Surveyor had been proven to the satisfaction of the examining board. I have therefore prepared, and I transmit herewith a draft of the proposed ordinance in which I have endeavored to follow the suggestions outlined in the letter from Mr. Goodrich. Respectfully yours,

FRANK L. POLK, Corporation Counsel.

Report of the Committee on Public Letting, in Favor of Adopting Resolution to Authorize the Board of Education to Purchase an Automobile Without Public Letting.

The Committee on Public Letting, to which was referred on February 23, 1915 (Minutes, page 1085), a request from the Board of Education for authority to purchase an automobile for use of the President, without public letting, at a cost not to exceed $4,500, respectfully

REPORTS:

That, having examined the subject, it believes there is no question but that a machine should be furnished for the purpose indicated, but it also believes that a perfectly competent and reliable car can be obtained for $2,500. It is convinced that better results occur from direct purchase, and it therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Committee on Supplies of the Board of Education be and hereby is authorized and empowered to purchase in the open market, without public letting, an automobile for the use of the President of the Board of Education at a cost not to exceed twenty-five hundred dollars ($2,500).

Report of the Committee on Public Letting, in Favor of Adopting Resolution to Authorize the Department of Public Charities to Purchase Flour Without Public Letting.

The Committee on Public Letting, to which was referred on March 9, 1915 (Minutes, page 1280), the annexed request from the Commissioner of Public Charities for authority to purchase flour, without public letting, to an amount not to exceed $40,000, respectfully

REPORTS:

That the reasons for this request are set forth in the letter of application. Owing to extraordinary conditions there are some very strong arguments for vacating the laws regulating departmental purchases in this particular case, and such reasons should be convincing for such a release as this. The Deputy Commissioner appeared before the Committee and made a strong appeal for this grant. The Committee believes that the City should be slow to except staples from public letting, and in this case feels that one-half the amount requested is sufficient.

It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of Section 419 of the Greater New York Charter, the Commission of Public Charities be and he is hereby authorized and empowered to purchase flour in the open market, without advertising for public bids, for the three months ending June 30, 1915, to an amount not exceeding twenty thousand dollars ($20,000).

Re Flour.

To the Honorable the Board of Aldermen, City of New York:

Gentlemen—I respectfully request permission to purchase flour in open market for the three months ending June 30th, 1915, to an amount not exceeding Forty Thousand Dollars.

The reason for this request is that at the present time the flour market is in a very unsettled condition, there recently having been instances of the price of this commodity changing from fifteen to thirty cents a barrel within a day or two, which naturally causes a great deal of speculation in bidding upon an item of this kind.

We advertised for 2,400 barrels of flour, bids for which were opened February 23, 1915, and there was only one bid received, and that at $7.49 per barrel. This clearly shows that business men do not care to speculate by bidding or entering into a contract for such an uncertain item.

As stated above, this is only intended to cover a period of three months, after which time, if the market becomes more settled, the Department will be glad to again purchase under the contract system. However, it is my opinion that for the present the interests of the City can be best protected by purchasing this item in open market at the market prices.

Trusting that you will grant this request, I am, respectfully,

JOHN A. KINGSBURY, Commissioner.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bartscherer, Bedell, Benninger, Boschen, Bosse, Brush, Burden, Burns, Carberry, Carroll, Chorosh, Colne, Curran, Delaney, Donnelly, Dostal, Dotzler, Dowling, Duggan, Dujat, Eichhorn, Ferguson, Ferrand, Eagan, Fink, Gaynor, Hannon, Hogan, Igstaedter, Kenneally, Kenney, Kochendorfer, Lein, Levy, McCann, McCourt, McGarry, McNally, Milligan, Molen, Moore (Chas. Report of the Committee on Public Letting, in Favor of Adopting Resolution to Authorize the Department of Public Charities to Make Additional Repairs to the Steamer "Fidelity" Without Public Letting.

The Committee on Public Letting, to which was referred on March 30, 1915 (Minutes, page 1710), the annexed request from the Department of Public Charities for authority to order certain additional repairs on the Steamer "Fidelity," without public letting, at a cost not to exceed $8,000, respectfully

REPORTS:

That the details of this request are set forth in the letter of application. The Committee is of the opinion that this work can be done more economically and expeditiously by the present contractor, and it, therefore, recommends that the said resolution be adopted.

Resolved, That, pursuant to section 419 of the Greater New York Charter, the Commissioner of Public Charities of the City of New York be and he hereby is authorized to enter into an agreement with James Tregarthen, Son & Co., Shipwrights, foot of 7th and 8th Streets, East River, to make certain additional repairs on the Steamer Fidelity as required by the United States Steamboat Inspection Service to an amount of about $8,000.

Re Repairs to Steamer "Fidelity."

To the Honorable the Board of Aldermen:

Gentlemen—We would respectfully request permission to authorize James Tregarthen, Son & Co., who are now repairing the above named Steamer on their dock, at the foot of East 7th Street, in accordance with a contract with this Department, to do additional work on this boat to an estimated amount of about $8,000.

The rules of the United States Steamboat Inspection Service require that when a boat goes on dock these Inspectors are to be notified at once.

Under date of March 10th the Steamboat Inspection Service notified this Department that additional work other than that called for in the specifications, as prepared by us, is required on this boat. A copy of their communication is enclosed herewith.

In connection with this work we requested Tregarthen, Son & Co., to submit a proposition for doing the additional work as called for by the local inspectors on the unit basis. Their quotation is as follows:

"Planking, ceiling, knees, plankshear, and guards on straight side at 75c per ft. B. M.

"Crooked guards around stern, keelsons and timbers at the rate of $1.00 per ft. B. M."

This price includes the cutting out of all old material, the installation of the new, and the complete fastening and finishing of the new work installed.

It is necessary that this work be done at once in order that the Contractor will not have a claim against the City for dockage and we may have the use of the boat without any unnecessary delay.

Trusting that a resolution in the enclosed form or some other suitable form will be adopted by your Board immediately as we are anxious to place this boat into commission, I am, Respectfully yours, JOHN A. KINGSBURY, Commissioner.

The President then put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bartscherer, Bedell, Benninger, Boschen, Bosse, Brush, Burden, Burns, Carberry, Carroll, Chorosh, Colne, Curran, Delaney, Donnelly, Dostal, Dotzler, Dowling, Duggan, Dujat, Eichhorn, Ferguson, Ferrand, Eagan, Fink, Gaynor, Hannon, Hogan, Igstaedter, Kenneally, Kenney, Kochendorfer, Lein, Levy, McCann, McCourt, McGarry, McNally, Milligan, Molen, Moore (Chas. Report of the Committee on Public Letting, in Favor of Adopting Resolution to Authorize the Police Department to Purchase Bicycles and Motorcycles Without Public Letting.

The Committee on Public Letting, to which was referred on February 16, 1915 (Minutes, page 1081), the annexed resolution authorizing the Police Commissioner to purchase bicycles and motor cycles, without public letting, at a cost not to exceed $25,000, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be necessary. The Department knows precisely the character of the machines it requires and has informed the Committee that it has secured bids well below the ordinary price for machines of tested fitness.

It therefore recommends that the said resolution be adopted.

Resolved, That, pursuant to the authority conferred upon it by the provisions of Section 419 of the Greater New York Charter, the necessary funds being available, the Board of Aldermen hereby authorizes and empowers the Police Commissioner of The City of New York to purchase in the open market, instead of by contract at public letting, bicycles at a cost not exceeding $25 each and motorcycles at a cost not exceeding $200 each, for the equipment and use of the Police Department, the total expense not to exceed $12,000 for bicycles, and $13,000 for motorcycles.

JOHN DIEMER, JOHN KOCHENDORFER, JACOB WEIL, W. F. QUINN, WILLIAM DUGGAN, R. H. BOSSE, Committee on Public Letting.

The Board was addressed on this subject by Deputy Commissioner O'Daniel.

The President then put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

HENRY H. CURRAN, JOHN DIEMER, F. H. STEVENSON, D. M. BEDELL, C. AUGUSTUS POST, F. H. WILMOT, FRANCIS P. KENNEY, Committee on Finance.

February 24th, 1915.

Hon. WILLIAM A. PRENDERGAST, *Chairman, Corporate Stock Budget Committee,* Municipal Building, New York City:

My Dear Sir—On January 21st, 1915, I wrote you at the direction of the Bronx Parkway Commission, calling attention to the urgent necessity for appropriation by the Board of Estimate and Apportionment of the amount of corporate stock required to pay the City's share of cost of lands contracted for purchase by the Commission, as follows:

For closing as of June 15th, 1914	$516,000 00
For closing as of October 1st, 1914	270,000 00
Total required from the City	$786,000 00

The Bronx Parkway Commission strongly urges the immediate appropriation of these funds. Contracts have been entered into in good faith by property owners at reasonable prices on the assumption that they would be paid within a short time after dates fixed for closing. In a considerable number of cases the delay caused by the City's failure to appropriate the funds has caused great hardship and financial embarrassment to the property owners who had relied upon these funds for their needs. The Parkway Law, Chapter 594 of the Laws of 1907, makes it obligatory upon the Board of Estimate and Apportionment and the Board of Supervisors of Westchester County to appropriate money for these purposes upon proper requisitions of the Commission, which have long since been made. The County of Westchester stands ready to deposit its share with the Comptroller of the City of New York as soon as there is immediate prospect of the City's funds being available.

The Bronx Parkway Commission, therefore, requests that this amount of $786,000 be appropriated immediately for the purposes mentioned in the requisitions heretofore presented to the Board of Estimate and Apportionment and referred to your Committee on Corporate Stock Budget.

Respectfully, JAY DOWNER, Engineer and Secretary.

REPORTS:

That, having examined the subject, it believes the proposed ordinance to be unnecessary, the crisis which, in the opinion of the Committee, encouraged its introduction, having passed.

It, therefore, recommends that the said ordinance be placed on file.

AN ORDINANCE regulating the sale and prescribing the weight and quality of bread in the loaf, and prescribing a standard loaf, sold or offered for sale within The City of New York.

Be It Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. All bread made or procured for the purpose of sale, sold, offered or exposed for sale in The City of New York shall be made in a clean and sanitary place, of good and wholesome flour or meal, and shall contain no deleterious substance or material.

Section 2. Every loaf of bread made or procured for the purpose of sale, sold, offered or exposed for sale in The City of New York shall weigh a pound avoirdupois (except as hereinafter provided), and such loaf shall be considered to be the standard loaf in The City of New York. Bread may also be made or procured for the purpose of sale, sold, offered or exposed for sale in half, three-quarter, double, triple, quadruple, quintuple or sextuple loaves, and in no other way.

Every loaf of bread made or procured for the purpose of sale, sold, offered or exposed for sale in the city shall have affixed thereon in a conspicuous place a label at least one inch square, or, if round, at least one inch in diameter, upon which label there shall be printed in plain type, the letters and figures of which label shall be printed in black ink upon white paper, the weight of the loaf in pounds, or fraction of a pound, avoirdupois, whether the loaf be a standard loaf or not. The business name and address of the maker, baker or manufacturer of the loaf shall also be printed plainly on each label.

Section 3. Every maker, baker or manufacturer of bread, every proprietor of a bakery or bakeshop, and every seller of bread in The City of New York, shall keep scales and weights suitable for the weighing of bread in a conspicuous place in his bakery, bakeshop or store, and shall, whenever requested by the buyer, and in the buyer's presence, weigh the loaf or loaves of bread sold or offered for sale.

Section 4. If any person, firm or corporation shall make, or procure for the purpose of sale, sell, offer or expose for sale within The City of New York any bread which is not made of good and wholesome flour or meal, any bread which contains a deleterious substance or material, any bread the loaf or loaves of which are not standard, half, three-quarter, double, triple, quadruple, quintuple or sextuple loaves, as defined in section 2 of this ordinance, or any bread which is not made in a clean and sanitary place, or shall make or procure for the purpose of sale, sell, offer or expose for sale within The City of New York any standard loaf or loaves of bread which do not weigh one pound, or any bread the loaf or loaves of which do not weigh as much as the weight marked thereon, or any bread the loaf or loaves of which do not have affixed thereon the label marked as hereinbefore provided, contrary to the provisions of this ordinance, such person, firm or corporation shall be fined not less than ten dollars nor more than one hundred dollars for each offense.

The provisions of this ordinance, other than the provisions of section 1 and section 4 (so far as section 4 relates to violations of section 1) shall not apply to crackers, pretzels, biscuits, buns, scones, rolls, or loaves of fancy bread weighing less than one-fourth of a pound avoirdupois, or to what is commonly known as "stale bread."

Minority Report of the Committee on General Welfare, in Favor of Adopting Ordinance Prescribing Weight By Loaf and Quality of Bread.

The Committee on General Welfare, to which was referred on February 9, 1915 (Minutes, page 790), the annexed ordinance regulating the sale and prescribing the weight and quality of bread in the loaf and prescribing a standard loaf, sold or offered for sale within the City of New York, respectfully

REPORTS:

That, having examined the subject, it believes the proposed ordinance to be necessary, in order that some regulation of bakeries and stores selling bread may be made by the Commissoner of Weights and Measures in the interest of the public. The ordinance, as amended herewith, is not harsh in its terms and affords a protection to purchasers now sadly lacking.

It, therefore, recommends that the accompanying substitute ordinance be adopted.

SUBSTITUTE.

Be it ordained by the Board of Aldermen of the City of New York as follows:

Section 2. Every loaf of wrapped or unwrapped bread made or procured for the purpose of sale, sold, offered or exposed for sale in the City of New York shall weigh fourteen or twenty-four ounces avoirdupois (except as hereinafter provided), and such loaf shall be considered to be the standard loaf in the City of New York. Bread may also be made or procured for the purpose of sale, sold, offered or exposed for sale in half, double, triple, quadruple, quintuple or sextuple loaves, and in no other way.

Every loaf of bread made or procured for the purpose of sale, sold, offered or exposed for sale in the city shall have affixed thereon in a conspicuous place a label at least one inch square, or, if round, at least one inch in diameter, upon which label there shall be printed in plain type, the letters and figures of which label shall be printed in black ink upon white paper, the weight of the loaf in pounds, or fraction of a pound, avoirdupois, whether the loaf be a standard loaf or not. The business name and address of the maker, baker or manufacturer of the loaf shall also be printed plainly on each label.

Section 3. Every maker, baker or manufacturer of bread, every proprietor of a bakery or bakeshop, and every seller of bread in the City of New York, shall keep scales or balances suitable for the weighing of bread in a conspicuous place in his bakery, bakeshop or store, and shall, whenever requested by the buyer, and in the buyer's presence, weigh the loaf or loaves of bread sold or offered for sale.

Section 4. If any person, firm or corporation shall make, or procure for the purpose of sale, sell, offer or expose for sale within the City of New York any bread which is not made of good and wholesome flour or meal, any bread which contains a deleterious substance or material, any bread the loaf or loaves of which are not standard, half, double, triple, quadruple, quintuple or sextuple loaves, as defined in section 2 of this ordinance, or any bread which is not made in a clean and sanitary place, or shall make or procure for the purpose of sale, sell, offer or expose for sale within the City of New York any standard loaf or loaves of bread which do not weigh fourteen or twenty-four ounces, or any bread the loaf or loaves of which do not weigh as much as the weight marked thereon, or any bread the loaf or loaves of which do not have affixed thereon the label marked as hereinbefore provided, contrary to the provisions of this ordinance, such person, firm or corporation shall be fined not less than ten dollars nor more than one hundred dollars for each offense.

A variation from the weight stated on the label of not more than five per centum shall not be deemed a violation of this section.

Section 5. This ordinance shall take effect immediately.

Report of the Committee on General Welfare, in Favor of Adopting Resolution to Abolish the So-Called Marriage Bureau in the City Hall.

The Committee on General Welfare, to which was referred on February 23, 1915 (Minutes, page 1194), the annexed resolution in favor of repealing resolution of March 19, 1895, establishing a "Marriage Bureau" in Room No. 3, City Hall, respectfully

REPORTS:

That, having examined the subject, it believes the so-called Marriage Bureau should be abolished. The principle of using a room in any public building for private gain is essentially wrong and it is surprising that it has been tolerated for so many years. In order that the matter may be clearly before the Board the resoluton has been simplified and the Committee recommends that the accompanying substitute be adopted.

Winslow, Keenan & Budd, Attorneys and Counsellors at Law, 111 Broadway, New York, February 25th, 1915.

Aldermen WEIL, 1520 Webster Avenue, Bronx, New York:

Dear Sir—At the last meeting of the Board of Aldermen a resolution providing for the inspection of all meats was referred to your Committee. The measure is sanctioned by all the receivers of country dressed meats in the City markets, who suggested the measure in co-operation with the Health Department. They are very anxious to get to work under this arrangement which has now been pending for some time and would appreciate anything which you might do to facilitate immediate action on this ordinance.

We are writing this as attorney for the Market Men's Association. Very truly yours, WINSLOW, KEENAN & BUDD.

Winslow, Keenan & Budd, Attorneys and Counsellors at Law, 111 Broadway, New York, March 1st, 1915.

Hon. JACOB WEIL, *Board of Aldermen*, City Hall, New York City:

Dear Sir—We wish to thank you for your favor of the 26th inst. and in reply thereto respectfully call your attention to the fact that the ordinance referred to is calculated not only to conserve the city's health but also to provide for the issuance of certificates for inspection charges which will furnish a considerable revenue to the city, which will be paid by the shippers. In this connection we wish to call your attention to the fact that during the rush season, which commences during the present week, the receipts will aggregate 4,000 carcasses a day which will have to be inspected, and at the ratio of five cents per certificate, the city will be losing a revenue of $200 per day until the ordinance goes into effect.

With this in view we would respectfully request that your Committee pass upon this question at your earliest convenience. Very truly yours,

WINSLOW, KEENAN & BUDD.

Alderman Eagan moved that this ordinance be amended by adding after the word "calves" wherever it appears the word "lambs."

On motion the ordinance, with proposed amendment, was recommitted to the Committee on Health.

Ventilators	6 00
Desk baskets	5 75
Stools	9 75
	$440 15

In view of the imperative language in the annexed letter, I would suggest that you secure a transfer from some other department of $500 to eke out this account for the remainder of the year, or else apply for special revenue bonds.

Respectfully, ALBERT E. HULL.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, March 23, 1915.

No. 1654.

An Ordinance to Amend Article 12, Chapter 5, of the Code of Ordinances of The City of New York.

By Alderman McNally (on Behalf of the Committee on Buildings)—

AN ORDINANCE to amend Article 12, Chapter 5, of the Code of Ordinances of The City of New York.

Be It Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. Article 12, Chapter 5, of the Code of Ordinances of The City of New York is hereby amended to read as follows:

ARTICLE 12.
Excavations and Foundations.

Section 230. Excavations.
231. Soil, bearing capacity.
232. Foundations, generally.
[233. Pile foundations.
234. Foundation walls.
235. Isolated piers.
236. Grillage beams.
237. Pressule under footings.]
233. *Footings.*
234. *Foundation piers and caissons.*
235. *Pile foundations.*
236. *Foundation walls.*
237. *Retaining walls.*

§ 230. Excavations. 1. Safeguarding generally. All excavations [for buildings] *within the building line* shall be properly guarded and protected so as to prevent the same from becoming dangerous to life or limb and shall be [sheath] *sheet*-piled where necessary to prevent the adjoining earth from caving in, by the person [or persons] causing the excavation[s] to be made.

2. *When* [R]*r*etaining wall *required.* When an excavation is made on any lot, the person making the same or causing it to be made shall build, at his [or their] own cost and expense, *except as may be provided in Article II of this chapter,* a retaining wall to support the adjoining earth; and such retaining wall shall be carried to the height of the adjoining earth, and be properly protected by coping. [The thickness of a retaining wall at its base shall be in no case less than one-fourth of its height.]

3. Support of adjoining walls. *a. When excavation exceeds ten feet.* Whenever an excavation of either earth or rock for building or other purposes [shall be] *is* intended to be, or shall be carried to the depth of more than 10 feet below the curb, the person [or persons] causing such excavation to be made shall at all times, from the commencement until the completion thereof, if afforded the necessary license to enter upon the adjoining land, and not otherwise, at his [or their] own expense, preserve any adjoining or contiguous wall [or walls], *building or* structure [or structures] from injury, and support the same by proper foundations, so that the said wall [or walls], *building or* structure [or structures] shall be and remain practically as safe as before such excavation was commenced, whether the said adjoining or contiguous wall [or walls], *building or* structure [or structures are] *is* down more or less than 10 feet below the curb. If the necessary license is not accorded to the person [or persons] making such excavation, then it shall be the duty of the owner refusing to grant such license to make the adjoining or contiguous wall [or walls], *building or* structure [or structures] safe, and *to* support the same by proper foundations so that adjoining excavations may be made ; and *such owner* shall be permitted to enter upon the premises where such excavation[s] *is to* [may] be made *when necessary* for that purpose [,when necessary].

b. When excavation does not exceed ten feet. If such excavation [shall] *is* not [be] intended to be, or shall not be, carried to a depth of more than 10 feet below the curb, the owner [or owners] of [such] *any* adjoining or contiguous wall [or walls], *building or* structure [or structures] shall preserve the same from injury, and so support the same by proper foundations that it or they shall be and remain practically as safe as before such excavation was commenced, and *when necessary for the purpose* shall be permitted to enter upon the premises where such excavation is [being] *to be* made [for that purpose, when necessary]. *In case such adjoining or contiguous wall, building or structure, however, is so located that the curb to which it is properly referred is at a higher level than the curb to which the excavation is referred, such part of any necessary underpinning or foundation as may be due to the difference in curb levels shall be made and maintained at the joint expense of the person causing the excavation to be made and the owner of such wall, building or structure.*

4. Support of party wall. In case an adjoining party wall is intended to be used by the person [or persons] causing the excavation to be made and such party wall is in good condition and sufficient for the uses of the [adjoining building] *existing and proposed buildings* [then and in such case] the person [or persons] causing the excavation[s] to be made, shall, at his [or their] own expense, preserve such party wall from injury and support the same by proper foundations, so that said party wall shall be and remain practically as safe as before the excavation was commenced.

5. Superintendent of buildings may act. If the person whose duty it shall be *under the provisions of this chapter to properly guard and protect an excavation, or to prevent adjoining earth from caving in, or* to preserve or protect any wall [or walls], *building or* structure [or structures] from injury, shall neglect or fail so to do after having had a notice of 24 hours from the superintendent of buildings, such superintendent may enter upon the premises and employ such labor, and furnish such materials and take such steps as, in his judgment, may be necessary to make [the same] *such wall, building or structure* safe and secure, or to prevent the same from becoming unsafe or dangerous, at the expense of the person [or persons] whose duty it is to keep the same safe and secure. *The City of New York or any person* [Any party] doing the said work, or any part thereof, under and by direction of a superintendent of buildings, may bring and maintain an action against the person [or persons] last herein referred to, to recover the value of the work done and materials furnished, in and about the said premises, in the same manner as if he had been employed to do the [said] work by the said person [or persons].

§ 231. Soil, bearing capacity. 1. Indicative statement required. [Plans filed in a bureau of buildings shall be accompanied by] *Applications for permits for new buildings, and, when necessary, for alterations to existing buildings shall contain* a statement of the character of the soil at the level of the footings.

2. Presumptive capacities. [Where no] *In the absence of a satisfactory* test of the sustaining power of the soil [is made], different soils, excluding mud, [at the bottom of the footings], shall be deemed to safely sustain the following loads to the superficial foot, namely: [soft clay, 1 ton per square foot; ordinary clay and sand together, in layers, wet and springy, 2 tons per square foot; loam, clay or fine sand, firm and dry, 3 tons per square foot; very firm, coarse sand, stiff gravel or hard clay, 4 tons per square foot, or as otherwise determined by the superintendent of buildings.]

Soft clay	1 *ton,*
Wet sand	2 *tons,*
Firm clay	2 *tons,*
Sand and clay, mixed or in layers	2 *tons,*
Fine and dry sand	3 *tons,*
Hard dry clay	4 *tons,*
Coarse sand	4 *tons,*
Gravel	6 *tons,*
Soft rock	8 *tons,*
Hard pan	10 *tons,*
Medium rock	15 *tons,*
Hard rock	40 *tons.*

In case the soil under the footings of any one building is partly rock and partly yielding soil, the bearing capacity of the yielding soil shall be taken at not more than one-half of the capacity otherwise allowed.

3. [Tests may be required.] *Soil tests. When a doubt arises as to the safe sustaining power of the soil upon which a building is to be erected, the superintendent of buildings may order borings to be made, or he may direct the sustaining power of the soil to be tested in accordance with the methods established by the rules of the superintendent of buildings, by and at the expense of the owner of the proposed building.* Where a test is made of the sustaining power of the soil the superintendent of buildings shall be notified so that he may be present in person or by representative. The record of the test shall be filed in the bureau of buildings. [When a doubt arises as to the safe sustaining power of the earth upon which a building is to be erected, the superintendent of buildings may order borings to be made, or direct the

sustaining power of the soil to be tested by and at the expense of the owner of the proposed building.]

§ 232. Foundations, generally. 1. [Constructing] *General requirements.* Every building, except buildings erected upon solid rock or [buildings erected] upon wharves [and] *or* piers on the water front, shall have foundations of brick, *or other approved masonry,* [stone], iron [,] *or* steel, [or concrete] laid not less than four feet below the surface of the earth, on the solid ground or level surface of rock, or upon piles or ranging timbers when solid earth or rock is not found.

2. [Restrictions as to loads. When foundations are carried down through earth by piers of stone, brick or concrete in caissons, the loads on same shall be not more than 15 tons to the square foot when carried down to rock; 10 tons to the square foot when carried down to firm gravel or hard clay; 8 tons to the square foot in open caissons or sheet pile trenches when carried down to rock.

3.] Protection of metal work. Where metal is incorporated in or forms part of a foundation, it shall be thoroughly protected from rust by paint, asphaltum, concrete, or by such materials and in such manner as may be approved by the superintendent of buildings. [When footings of iron or steel for columns are placed below the water level, they shall be similarly coated, or inclosed in concrete, for preservation against rust.]

§ 233. *Footings.* 1. *Materials. The footings of foundation walls shall consist of footing stones, concrete, reinforced concrete construction or steel grillages. Wood footings may be used if they are entirely below the permanent water level.*

2. *Footing stones. Footing stones shall not be less than 2 by 3 feet, they shall be not less than 8 inches in thickness for walls, nor less than 10 inches in thickness under piers, columns or posts. Footing stones shall be well bedded and laid crosswise, edge to edge.*

3. *Concrete footings. Concrete footings shall be not less than 12 inches thick, except that for frame buildings the thickness may be not less than 8 inches.*

4. *Steel grillages.* [§ 236. Grillage beams. Grillage beams of wrought iron or steel] *When grillage beams,* resting on a proper concrete bed [may be], *are* used [. Such beams must] *, they shall* be provided with separators and bolts *and shall be* inclosed and filled solid between with concrete [, and of such sizes and so arranged as to transmit with safety the superimposed loads].

5. [§ 237.] Pressure under footings. *For* [T] the loads exerting pressure under the footings of foundations [in buildings more than 3 stories in height are to be computed as follows:

a. For warehouses and factories they are to be the full dead load and the full live load established by § 54 of this chapter.

b. In stores and buildings for light manufacturing purposes they are to be the full dead load and 75 per cent. of the live load established by § 54 of this chapter.

c. In churches, school houses and places of public amusement or assembly, they are to be the full dead load and 75 per cent. of the live load established by § 54 of this chapter.

d. In office buildings, hotels, dwellings, apartment houses, tenement houses, lodging houses and stables, they are to be the full dead load and 60 per cent. of the live load established by § 54.] *the full dead loads and the figured live loads on the lowest tier of columns, piers or walls shall be taken. For this purpose the reduced live loads permitted by subdivision 7 of § 53 of this chapter may be used.*

6. *Design.* Footings shall be so designed that the loads *they sustain per unit of area shall* [will] be as nearly uniform as possible and [not in excess of the safe] *within the* bearing capacit[y]*ies* of [the] soil*s* [, as] established by [§ 231 of this chapter] *this article, and that the stresses in the materials shall not exceed those fixed by this chapter. In proportioning the areas of footings for any building the dead loads alone shall be considered, provided, however, that in no case shall the pressure under the footings as determined under subdivision 5 of this section, exceed the safe load on the soil established by this article.*

§ 234. *Foundation piers and caissons. The foundations of any building may be carried down to rock or hardpan by isolated piers of approved masonry or reinforced concrete, or by open or pneumatic caissons, so designed that the working stresses in the materials and the loads on the rock or hardpan do not exceed those established by this chapter.*

§ [233] 235. Pile foundations. 1. General requirements. Piles intended to sustain a wall [, pier or post] *or building, or any part thereof,* [shall be spaced not more than thirty-six or less than twenty inches on centers, and they] shall be driven to a solid bearing, if practicable to do so, [and the number of such piles shall be sufficient to support the superstructure proposed] *and the method of driving shall be such as not to impair their strength. No pile or group of piles shall be loaded eccentrically. Any type of pile construction not provided for in this section shall meet such requirements as may be prescribed by the rules of the superintendent of buildings.* [No pile shall be used of less dimensions than 5 inches at the small end and ten inches at the butt for short piles, or piles 20 feet or less in length, and 12 inches at the butt for long piles, or piles more than 20 feet in length. No pile shall be weighted with a load exceeding 40,000 pounds.]

2. *Wood piles. a. Quality and size. Wood piles shall be of approved timber, sound and straight. The diameter at the point shall be not less than 6 inches. The diameter at the butt shall be not less than 10 inches for piles not over 25 feet in length, and not less than 12 inches at the butt for piles of greater length.*

b. Allowable loads. [When a pile is not driven to refusal, its] *The* safe sustaining power [shall be determined by the following formula:] *of any wood pile in tons shall be taken as* [T]*t*wice the weight of the hammer in tons multiplied by the height of the fall in feet, divided by [least] *the average* penetration of *the* pile [under the last blow] in inches *under the last five blows,* plus one, *when a drop hammer is used for driving, and as twice the weight of the hammer in tons multiplied by the height of the fall in feet, divided by the average penetration in inches under the last five blows, plus one-tenth, when a steam hammer is used for driving, provided that the driving has reached such a point when successive blows produce approximately equal penetration. No wood pile, however, shall be weighted with a load exceeding 20 tons.* [The superintendent of buildings shall be notified of the time when such test piles will be driven, that he may be present in person or by representative.]

c. Construction. The minimum clear distance between wood piles shall be not less than 24 inches. The tops of [all] *wood* piles shall be cut off below the [lowest] *permanent* water [line] *level.* [When required, concrete shall be rammed down in the interspaces between the heads of the piles to a depth and thickness of not less than 12 inches and for 1 foot in width outside of the piles.] When ranging and capping timbers are laid on piles for foundations, they shall be of hard wood not less than 6 inches thick and properly joined together, and their tops laid below the [lowest] *permanent* water [line] *level.*

d. [2] Meadow land construction [s], *When* [W]*w*ood piles [may be] *are* used [for the foundations] under frame buildings built over the water or on salt meadow land, [in which case the piles] *they* may project above the water a sufficient height to raise the building above high tide, and the building may be placed directly thereon without other foundation.

3. *Concrete piles. a. Concrete-filled steel tubes. For piles consisting of steel tubes filled with concrete the tubes shall have a minimum inside diameter of 10 inches and a thickness of not less than 5-16 of an inch. The ends of each tube shall be faced perpendicular to its axis. Splices shall be of an approved design and not more than one splice shall be used in the total length of the pile. The length of any such pile shall not exceed forty times the inside diameter of the tube. Such piles shall be driven to a full bearing on rock. The allowable load on any such pile shall not exceed 500 lbs. per square inch on the concrete and 7,500 lbs. per square inch on the steel, provided that in computing the effective area of the steel the outer 1-16-inch of thickness shall be deducted from the thickness of the tube. No interior steel reinforcement shall be used.*

b. Piles moulded before driving. Concrete piles moulded and cured before driving shall not be provided with more than 4 per cent. of longitudinal reinforcement) The diameter or lateral dimension of such a pile shall be not less than 8 inches at the foot and shall not average less than 12 inches in the length of the pile. The length shall not exceed twenty times the average diameter when the pile is driven to rock nor forty times the average diameter in any case. When driven to rock the allowable load on any such pile shall not exceed 500 lbs. per square inch on the concrete at the average cross-section and 6,000 lbs. per square inch on the longitudinal reinforcement. If driven to rock, the foot shall be provided with a metal shoe.

c. Piles moulded in place. Concrete piles cast in place shall be so made and placed as to insure the exclusion of any foreign matter, and to secure a perfect full-sized shaft. The average diameter of any such pile shall be not less than 11 inches and the diameter at the foot shall be not less than 6 inches. The length shall not exceed thirty times the average diameter. The allowable load shall not exceed 350 lbs. per square inch on the concrete.

d. Allowable loads. When concrete piles are not driven to rock they shall be treated as friction piles and their carrying capacities shall be determined by test in accordance with rules established by the superintendent of buildings; but the stresses herein given for the materials composing them shall not be exceeded in any case.

e. Concrete. The concrete for concrete piles shall be mixed in the proportion of 1 part portland cement to not more than 2 parts of clean, coarse sand, and 4 parts of broken stone or gravel of a size passing through a 1-inch ring, with sufficient water to produce a plastic or viscous consistency.

4. *Tests. When any doubt exists as to the safe sustaining power of piles upon which a building or structure is to be supported, the superintendent of buildings may order a test of the same to be made at the expense of the owner of the proposed building or structure or the person causing the piles to be driven. The record of every such test shall be filed in the bureau of buildings.*

§ [234] 236. Foundation walls. 1. [Material and thickness.] *Definition. Foundation walls shall be construed to include all walls and piers built below the curb level or the nearest tier of beams to the curb, which serve as supports for walls, piers, columns, or other structural parts of a building or structure.*

2. *Materials.* Foundation walls shall be built of [stone, brick, Portland cement concrete, iron or steel] *approved masonry or steel protected by masonry. All masonry foundation walls shall be laid in cement mortar.*

3. *Thickness.* If built of rubble stone, [or Portland cement concrete, they] *foundation walls* shall be at least 8 inches thicker than the walls next above them [to a depth of 12 feet below the curb level; and for every additional 10 feet, or part thereof, deeper, they shall be increased 4 inches in thickness], *but not less than* 18 *inches in any case.* If built of brick, *concrete, or hollow building blocks,* they shall be [increased] *at least* 4 inches thicker than the walls next above them [to a depth of 12 feet below the curb level; and for every additional 10 feet, or part thereof, deeper, they shall be increased 4 inches in thickness], *but not less than 12 inches thick in any case. For each additional 10 feet, or part thereof, below the depth of 12 feet below the curb level, the thickness shall be increased 4 inches.*

[2. Footing or base courses. The footing or base course shall be of stone or concrete, or both, or of concrete and stepped up brickwork, of sufficient thickness and area to safely bear the weight to be imposed thereon. If the footing or base course be of concrete, the concrete shall not be less than 12 inches thick. If of stone, the stones shall not be less than 2 by 3 feet, and at least 8 inches in thickness for walls; and not less than 10 inches in thickness if under piers, columns or posts; the footing or base course, whether formed of concrete or stone, shall be at least 12 inches wider than the bottom width of walls and at least 12 inches wider on all sides than the bottom width of said piers, columns or posts. If the superimposed load is such as to cause undue transverse strain on a footing projecting 12 inches, the thickness of such footing is to be increased so as to carry the load with safety. For small structures and for small piers sustaining light loads, the superintendent of buildings may, in his discretion, allow a reduction in the thickness and projection for footing and base courses herein specified. All base stones shall be well bedded and laid crosswise, edge to edge. If stepped up footing of brick are used in place of stone, above the concrete, the offsets, if laid in single courses, shall each not exceed 1½ inches, or if laid in double courses, then each shall not exceed 3 inches, offsetting the first course of brickwork, back one-half the thickness of the concrete base, so as to properly distribute the load to be imposed thereon.]

4. *Brick. When brickwork in foundation walls is stepped up from the footings, the offsets, if laid in single courses, shall not exceed 1½ inches, or if laid in double courses, shall not exceed 3 inches.*

5. *Stone. Rubble stone masonry, unless built in dressed, level courses, shall not be used for buildings exceeding 75 feet in height.*

6. *Hollow building blocks. Foundation walls of hollow building blocks may be used only when the upper walls are of frame or hollow building block construction. The hollow spaces in the blocks shall be filled, as the construction progresses, with concrete of not less than 1 part of cement to 9 parts of aggregate.*

[§ 235. Isolated piers. If, in place of continuous foundation wall, isolated piers are built to support the superstructure, where the nature of the ground and the character of the building make it necessary, in the opinion of the superintendent of buildings, inverted arches resting on a proper bed of concrete, both designed to transmit with safety the superimposed loads, shall be turned between the piers. The thrust of the outer piers shall be taken up by suitable wrought iron or steel rods and plates.]

§ 237. *Retaining walls. All walls built to retain or support adjoining earth or rock, including foundation walls subjected to pressure from adjoining earth or rock, shall be so designed that in resisting the pressures to which they are subjected, the working stresses of the materials shall not be exceeded and that the resultant line of pressure shall fall within the middle third of the footings.*

for the position of

INSPECTOR OF FIRE ALARM BOXES, GRADE 2.

No applications delivered at the office of the Commission, by mail or otherwise, after 4 p. m. WEDNESDAY, APRIL 21, 1915, will be accepted. Application blanks will be mailed upon request provided a self-addressed stamped envelope or sufficient postage is enclosed to cover the mailing. The Commission will not guarantee the delivery of the same. Applications forwarded by mail upon which full postage is not prepaid will not be accepted.

Applicants must be citizens of the United States and residents of the State of New York.

The subjects and weights of the examination are: Experience, 4; 70% required; Technical, 3; 75% required; Practical Test, 3; 75% required.

Applications for this examination must be filed on a special blank, Form C, with Insert. Experience blanks will be issued with the applications and must be filed with the Commission at the time of filing applications. Applicants will be required to first pass a physical examination; those who fail in this will not be summoned for the practical test, which will precede the written examination.

The duties of the position call for the inspection of boxes both in the shop and in the field; the making of repairs to minor parts; testing circuits and ascertaining the location of breaks in the electrical lines; to examine and clean boxes and remove causes of mechanical or electrical trouble. Candidates should have had at least three years' experience in electrical testing laboratories, the manufacture of cables or insulation, fire alarm boxes or similar signaling apparatus, or in the construction and repair departments of electrical, telephone or signaling companies. Candidates who have served as Inspectors of Electrical Conduits or Cables for municipalities or operating companies must in addition have had at least one year's factory work as indicated above. Two years' factory, laboratory or inspectional experience as called for in the foregoing will be required of candidates who have been graduated in electrical or mechanical engineering from an institution of recognized standing. From the foregoing conditions, it will be seen that mere knowledge of the apparatus or inspectional experience is not sufficient; candidates must have had actual experience in the making or assembling of apparatus. A sufficient knowledge of the Morse Code is essential, such as would enable the Inspector to maintain a conversation from a box to headquarters.

Candidates will be tested on their knowledge of the various types of fire alarm boxes, the electrical connections to lamp posts and conduit cables; the methods of detecting breaks and other trouble in circuits; the general alarm systems from buildings and boxes to headquarters; the fundamental principles of battery, electric wiring, insulations and connections.

Several vacancies will occur soon at an entrance salary of $1,200 in the Fire Department, with assignments to any of the five Boroughs.

Minimum age, 21 years.

PUBLIC NOTICE IS HEREBY GIVEN THAT applications will be received by the Municipal Civil Service Commission from

TUESDAY, APRIL 6, 1915, TO TUESDAY APRIL 20, 1915.

for the position of

ENGINEER (with a knowledge of sewage disposal).

No applications delivered at the office of the Commission, by mail or otherwise, after 4 P. M. TUESDAY, APRIL 20, 1915, will be accepted. Application blanks will be mailed upon request, provided a self-addressed stamped envelope or sufficient postage is enclosed to cover the mailing. Applications forwarded by mail upon which full postage is not prepaid will not be accepted. Applicants must be citizens of the United States and residents of the State of New York.

The duties of the Engineer, Bureau of Sewer Plan, will involve the organization of a staff to utilize, to the best possible advantage, the vast heritage of documentary information, material records and investigations bearing on harbor pollution. He will continue the work of the recently disbanded Metropolitan Sewage Commission and institute such constructive work as may be determined upon for the purification of the waters surrounding the city.

The active duties of the Engineer will not involve the design of tanks, the application of processes of local treatment, bacteriological research or the planning of sewer systems—as they constitute the primary elements of the problem. To cope with the situation the candidate must show an extended study of municipal problems of sewage disposal and an experience of ten years as Sanitary Engineer, five years of which should have been in sewage disposal work.

The subjects and weights are: Experience, 5; 70% required Technical, including a report, 5; 75% required.

A qualifying physical examination will be given.

Applications for this examination must be filed on a special blank, Form C, with insert. Experience blanks will be issued with the applications and must be filed with the Commission at the time of filing applications. The Experience will then be rated. Candidates failing to receive 70% on the Experience paper will not be summoned for the physical examination. Candidates failing to pass the physical examination will not be summoned for the mental test.

The candidate must be thoroughly familiar with the particular problem of New York City and the plans heretofore offered for its solution; should have an intimate knowledge of the different methods of sewage treatment which are generally recognized as most successful; should know the general methods of solution adopted by other tidal water cities, as Baltimore, Boston, etc.; and should be reasonably acquainted with the main drainage systems of foreign cities, as London, Birmingham, Dublin, etc.

The technical examination will consist of a searching test along the lines indicated above, together with the writing of a report or discussion of some phase of the problem of river or harbor pollution as applied to the surrounding waters of this city.

One vacancy—Bureau of Sewer Plan, Board of Estimate & Apportionment, at $4,000 per annum. Minimum age, 21 years.

Invitation to Contractors.

Part of the Eastern Parkway Rapid Transit Railroad.

The Public Service Commission for the First District (hereinafter called the "Commission") invites proposals to construct Section No. 2 of Route No. 12, a part of the Eastern Parkway Rapid Transit Railroad.

The points within the City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2. Beginning at a point under the Prospect Park Plaza in the Borough of Brooklyn about twenty-five (25) feet north of the southerly line of St. John's Place extended, and extending thence easterly under the Plaza and Eastern Parkway to a point about six hundred and thirty-five (635) feet east of the center line of Nostrand Avenue, and including a spur curving southeasterly under Eastern Parkway for a connection to Nostrand Avenue subway.

The general plan of construction calls for a subsurface railroad having four tracks.

The Contractor will not be required to provide or lay tracks, ties or ballast nor to do station finish work.

The work under the contract will include the care and support of buildings, vaults, sewers pipes, railroads and other surface, subsurface and overhead structures, the maintenance of traffic and the restoration of pavements and other surfaces.

The method of construction will be chiefly by open trench excavation, but partly by trench excavation under cover. Certain trees are to be maintained in place, and at such points undercutting methods may be necessary.

Bidders must examine the form of contract and the specifications and contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this Invitation.

The City of New York (hereinafter called the "City") and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between the City and said Company for additional rapid transit railroads. The liability of Interborough Rapid Transit Company will be limited to an amount equal to ninety-five per centum (95%) of the total estimated amount to be paid to the Contractor under the contract.

Partial payments to the Contractor will be made as the work proceeds as provided in the contract.

The Contractor must complete the work within twenty-two (22) months from the delivery of the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of two hundred and fifty thousand dollars ($250,000). As further security fifteen per centum (15%) of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten per centum (10%) of the total estimated amount to be paid to the Contractor under the contract. Thereafter there shall be so deducted and retained for such purpose ten per centum (10%) of the amounts certified from time to time to be due to the Contractor.

Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, New York City, until the 20th day of April, 1915, at twelve fifteen (12:15) o'clock p. m., at which time and place, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same except as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed *"Proposal for Constructing Part of Rapid Transit Railroad —Route No. 12, Section No. 2,"* and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for twenty-five thousand dollars ($25,000), payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3)days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

New York, March 19, 1915.

and signed by Herman Bose, Jr., Secretary and Treasurer.

a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed; provided that temporary deviations therefrom may be permitted as hereinafter set forth.

SECTION 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right to maintain or operate said stage or omnibus routes shall be held and enjoyed by the Company for the term of ten (10) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of five (5) years upon a fair revaluation of such right and privilege. Such right and privilege shall be valued as if the Company had not exercised the same for the said period of ten (10) years, and no allowance shall be made to the Company in such valuation by reason of such exercise.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract unless the Board shall, during the original term of this contract, permit another company or an individual to operate stages or omnibuses over all or a portion of the routes herein authorized.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding five (5) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, unless the Board shall, during the original term of this contract, permit another company or an individual to operate stages or omnibuses over all or a portion of the routes herein authorized, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested persons selected in the following manner.

One disinterested person shall be chosen by the Board; one disinterested person shall be chosen by the Company; these two shall choose a third disinterested person, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract unless the Board shall, during the original term of this contract, permit another company or an individual to operate stages or omnibuses over all or a portion of the routes herein authorized. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of five hundred dollars ($500) in cash within thirty (30) days after the date on which this contract is signed by the Mayor.

(b) During the first term of one (1) year a sum which shall be equal to five (5) per cent. of its gross receipts, but which sum shall not be less than five hundred dollars ($500).

During the succeeding term of four (4) years an annual sum which shall be equal to five (5) per cent. of its gross annual receipts, but which sum shall not be less than fifteen hundred dollars ($1,500).

During the remaining term of five (5) years, an annual sum which shall be equal to five (5) per cent. of its gross annual receipts, but which sum shall not be less than two thousand dollars ($2,000).

The gross annual receipts mentioned above shall be the gross receipts of the Company from all sources within the limits of the City and for the purpose of determining such gross annual receipts, the Company shall keep accurate accounts of all fares collected within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract, notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights or franchises at a different rate.

Fourth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets and avenues, hereinbefore described.

Fifth—At the termination or forfeiture of this grant, the City, at the election of the Board, shall have the right to purchase all or any part of the property of the Company used for the purpose of the operation of the stage or omnibus system hereby authorized at a sum equal to a fair valuation of such property, exclusive of any value which such property may have by reason of this contract.

If the Company and the City cannot agree upon a fair valuation of such property, then the valuation thereof shall be determined and fixed by three arbitrators selected in the following manner:

One disinterested person shall be chosen by the Company; one disinterested person shall be chosen by the Board, and the two so chosen shall choose a third disinterested person. The decision under oath of any two of such persons, who shall be so selected, shall be final and conclusive.

If either the Company or the City fails to appoint an arbitrator as herein provided, or should the first two arbitrators fail to agree on the selection of the third arbitrator within thirty (30) days after the first two arbitrators shall be chosen, or if no two arbitrators so selected shall agree upon the valuation of such property within sixty (60) days after the arbitrators shall be so selected, then such valuation may be fixed by a commissioner appointed by the Supreme Court on the application of either party.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents; and no assignment, lease or sublease of the rights or privileges hereby granted, or of any part thereof,, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Seventh—The Company shall commence operation within three (3) months from the date on which this contract is signed by the Mayor; provided that such period may be extended by the Board for a period or periods not exceeding in the aggregate six (6) months; and provided, further, that when the commencement of said operation shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement of such operation may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board, the Company shall, in writing, consent that the Board, either in its own name as a party, or in the name of the City as a party, may intervene in any such proceeding.

Eighth—Nothing herein contained shall be construed as permitting the grantee to erect any structures whatever upon City streets, and the Company shall not construct or maintain any fixture or structure in the street unless especially authorized by resolution of the Board.

Ninth—All vehicles which may be operated pursuant to this contract shall comply with the following general requirements:

1. They shall be propelled by power generated or contained within the vehicle itself, but no power shall be used which will in its generation or use produce smoke or noxious odors sufficient in the opinion of the Board or its authorized representatives to constitute a nuisance.

10. They shall be so constructed that the oil or grease cannot drop on the roadway.
11. All parts shall be so constructed that no undue noise or vibration shall result from operation.

Twelfth—The destination of each stage or omnibus shall be plainly indicated on the front of the vehicle, and shall be illuminated at night.

If after a vehicle shall have been so approved, defects develop which in the opinion of the Board or its authorized representatives render it unsuitable for public service, then the Board or its authorized representatives may require the withdrawal of such vehicle from service.

Upon being approved by the Board or its authorized representatives, each vehicle shall be given a number which shall not be changed so long as such vehicle shall be operated by the Company, unless and until the Company shall notify the Board that it proposes to change the number of the vehicle and of the new number which it is proposed to use.

Seventeenth—All vehicles operated pursuant to this grant shall be maintained in good and safe repair and in a manner which will in all ways render the vehicle fit for public service. The Company shall permit the Board or its authorized representatives to inspect at all reasonable times any or all the vehicles used by the Company. If upon inspection any vehicle shall appear in the judgment of said Board or its authorized representatives to be unfit for public service, then the Company shall, upon notice, immediately withdraw such vehicle from service, and shall remedy the defect and notify the Board or its authorized representatives that the defect has been remedied before such vehicle shall be restored to service.

Eighteenth—All laws and ordinances affecting the operation of stages or omnibuses now in force or which may be in force during the term of this contract shall be complied with by the Company. The Company shall also comply with and enforce the carrying out of any orders or regulations which may be issued by the Board, designed for the protection of per-

Twenty-second—It is understood that the Company shall operate, pursuant to this contract, only the routes herein authorized, but should vehicular traffic be diverted from any portion of any of the streets or avenues upon which the Company is herein authorized to operate because of fires, parades or because of any other event which will close the street to vehicular traffic temporarily, then the Company may use such other streets or avenues as are necessary to continue the operation. If, however, for any reason any of the streets and avenues in which the operation is hereby authorized shall be closed to vehicular traffic for a longer period than twenty-four hours, then the Company shall communicate with the Board or its authorized representatives and obtain authority for the operation upon other streets and avenues for the period during which said street or avenue may be closed.

Twenty-third—Should it be deemed advisable by the Board at any time during the term of this contract to require the Company to operate extensions to the routes herein authorized, additional route or routes in substitution for those herein authorized, and the Board shall so order, then the Company shall, upon notice by the Board, apply for a franchise or right to operate such extension, additional or substituted routes and accept a franchise therefor upon terms and conditions similar to those contained herein, and for a term expiring not later than the date of the expiration of this contract, provided that the Board shall not hereunder require the Company to extend its routes for a distance greater than one mile during any calendar year.

Twenty-fourth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

Twenty-seventh—In case of any violation or breach or failure to comply with any of the provisions herein contained or with any orders of the Board or its authorized representatives, acting under the powers herein reserved, the franchise or consent herein granted may be forfeited at the option of the Board by resolution of said Board, without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Any false entry in the books of the Company or false statement in the reports to the Comptroller as to a material fact, knowingly made by the Company, shall constitute such a violation or breach or failure to comply with the provisions herein contained as to warrant the forfeiture of the franchise.

Nothing herein contained shall affect in any way the right of the Company to apply to a court of competent jurisdiction for review of any action of the Board forfeiting the franchise or consent herein granted.

Twenty-eighth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars ($250) as fixed or liquidated damages or at the option of the Board this contract may be forfeited upon ten (10) days' notice to the Company.

Twenty-ninth—The Company shall assume all liability for damages to persons or property occasioned by reason of the operation of the stage or omnibus routes authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirtieth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of one thousand dollars ($1,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at the rates herein fixed, and the maintenance of vehicles in good condition throughout the whole term of this contract; and in case of default in the performance by the Company of such terms and conditions or compliance with such orders or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder, relating to the headway, repair, maintenance or withdrawal from service of vehicles, the Company shall pay a sum of fifty dollars ($50) per day for each day of violation, and the further sum of ten dollars ($10) per day for each vehicle that shall not be properly heated or lighted in case of the violation of the provisions relating to those matters, as fixed or liquidated damages, all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the sums as fixed or liquidated damages in this contract shall be as follows:

In case of any drafts made upon the security fund, the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of one thousand dollars ($1,000), and in default thereof this contract may be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City. These provisions for the recovery of such damages are in addition to the right to forfeit the franchise conferred by Section 2, Subdivision Twenty-seventh of this contract.

Thirty-first—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-second—The words "streets or avenues" and "streets and avenues," wherever used in this contract, shall be deemed to mean "streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title" encountered in the routes hereinabove described and upon or in which authority is hereby given to the Company to operate stages or omnibuses.

Thirty-third—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

SECTION 3. Nothing in this contact shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

SECTION 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

IN WITNESS WHEREOF, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed the day and year first above written.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, protecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
