DEPARTMENT OF FINANCE.

WARRANTS MADE READY FOR PAYMENT IN DEPARTMENT OF FINANCE
MONDAY, FEBRUARY 14, 1916.

Below is a statement of warrants made ready for payment on the above date, showing therein the Department of Finance voucher number, the dates of the invoices or the registered number of the contract, the date the voucher was filed in the Department of Finance, the name of the payee and the amount of the warrant.

Where two or more bills are embraced in the warrant, the dates of the earliest and latest are given, excepting that, when such payments are made under a contract, the registered number of the contract is shown in the place of the second invoice date.

Where the word "final" is shown after the name of the payee, payment will not be made until thirty days after the completion and acceptance of the work, but all of the other warrants mentioned will be forwarded through the mail unless some reason exists why payment is to be made in person, in which event written notice will be promptly given to the claimant.

In making a written or verbal inquiry at this office for any of the above mentioned warrants, it is requested that reference be made by the Department of Finance voucher number.
WILLIAM A. PRENDERGAST, Comptroller.

STATE INDUSTRIAL COMMISSION, DEPARTMENT OF LABOR.

Public Notices.

Whereas, The Electro Bleaching Gas Co., of Niagara Falls, N. Y., has made application, under sub-section 5 of section 8-a of the Labor Law, as amended by chapter 648 of the Laws of 1915, for exemption for certain of its employees, on the ground that such employees are engaged in the work of an industry of manufacturing process necessarily continuous, and that the exemption asked for is desired by the employees themselves, and furnishes said employees as much rest during the average week as does the law itself, and

Whereas, On investigation of the Supervising Inspector of the district in which said industry is located, it is shown that such exemption is a proper one to be made under the provisions of the law already referred to, and the application presents a situation substantially similar to that of the Hooker Electro Chemical Co., of Niagara Falls, N. Y., in which an exemption was, on the 29th day of June, 1915, allowed by this Commission, and which exemption was published pursuant to the statute in such case made and provided; therefore, be it

Resolved, That said application be granted and that the said Electro Bleaching Gas Company, of Niagara Falls, N. Y., be and it hereby is granted permission to work 6 liquifiers and 6 machine attendants 8 hours per day throughout the week, except when making shifts, then 16 hours on one shift, and then eight hours on, eight hours off, and eight hours on, leaving 32 continuous hours of rest at the end of each period of three weeks; but not to work its said employees more than 8 hours on any shift except the 16-hour shift above referred to; and that this resolution shall become effective at once.

STATE OF NEW YORK, OFFICE OF THE STATE INDUSTRIAL COMMISSION, SS.:
I, HENRY D. SAYER, Secretary of the State Industrial Commission of the State of New York, DO HEREBY CERTIFY that I have compared the foregoing copy of a resolution with the original thereof, duly adopted by the State Industrial Commission on the 8th day of February, 1916, and duly filed in the office of said Commission, and that the same is a true and correct copy and transcript of said resolution and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the State Industrial Commission this 11th day of February, 1916.
H. D. SAYER, Secretary.
(Seal.) f15

Whereas, Walter Haefeli, of 245 West 55th St., New York City, has filed a petition dated November 13th, 1915, for variation from the provisions of section 79-a-2, re number of exits, on the proposed building 404-12 Fourth Avenue, New York City, and

Whereas, a public hearing has been held on the 11th day of January, 1916, at 381 Fourth Avenue, in the Borough of Manhattan, City of New York, and opportunity for all interested persons to be heard thereon having been given, and

Whereas, an examination of the plans of the said proposed building has been made and a report of such examination is on file in the offices of the commission, from which examination it appears that the building will be on a plot 78' 0" x 94' 0", with an approximate floor area of 5,500 square feet; will be sixteen stories high, of fireproof construction, and will be sprinklered; will have two interior fireproof enclosed stairways. Building will be used for offices and light manufacturing, and there appearing from such examination and public hearing that there are practical difficulties and unnecessary hardship in carrying out the strict provisions of the law or the rules and regulations of the Industrial Code on the said proposed building, the spirit of the law and rules and regulations will be observed and public safety secured.

Be it resolved by the State Industrial Commission that a variation be and it hereby is granted to Walter Haefeli, of 245 West 55th St., N. Y. C., on the proposed building 404-12 Fourth Avenue, New York City, upon the following terms and conditions:
That two stairways be accepted as the required number of stairways for this building, provided one is of the exterior enclosed type as required by section 79-a-2 of the Labor Law.

Be it further resolved that the said variation is granted only during the period that the conditions above set forth are maintained.

STATE OF NEW YORK, OFFICE OF THE STATE INDUSTRIAL COMMISSION, SS.:
I, HENRY D. SAYER, Secretary of the State Industrial Commission of the State of New York, DO HEREBY CERTIFY that I have compared the foregoing copy of a resolution with the original thereof, duly adopted by the State Industrial Commission on the 8th day of February, 1916, and duly filed in the office of said Commission, and that the same is a true and correct copy and transcript of said resolution and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the State Industrial Commission this 11th day of February, 1916.

Whereas, Charles B. Meyers, of 1 Union Square West, New York City, has filed a petition dated September 21st, 1915, for a variation from the provisions of section 79-f-9, re construction of horizontal exits, on premises 351-53 E. 73rd St., New York City, and

Whereas, a public hearing has been held on the 14th day of October, 1915, at 381 Fourth Avenue, in the Borough of Manhattan, City of New York, and opportunity for all interested parties to be heard thereon having been given, and

Whereas, an inspection of the said premises has been made and a report of such inspection is on file in the offices of the commission, from which inspection it appears that the said premises are two five-story non-fireproof buildings, one 24' 0" x 70' 0", the other 24' 0" x 90' 0", total approximate floor area of 3,800 square feet divided by fire wall, in which are two horizontal exits on each floor fitted with one fireproof self-closing door each. Building has in addition to horizontal exits one interior unenclosed stairway, and one exterior screened stairway. There are also two fire escapes, one on front of the building, one on rear, which are not used as means of exit. Building is equipped with fire alarm signal system, and is occupied by one tenant with a stated occupancy of about one hundred persons, and there appearing from

such inspection and public hearing that there are practical difficulties and unnecessary hardship in carrying out the strict provisions of the law or the rules and regulations of the Industrial Code on the said premises, and that in the granting of a variation on said premises the spirit of the law and rules and regulations will be observed and public safety secured;

Be it resolved by the State Industrial Commission that a variation be and it hereby is granted to Charles B. Meyers, of 1 Union Square West, N. Y. C., on the said premises 351-53 East 73rd St., New York City, upon the following terms and conditions:

That one fire door be accepted at each horizontal exit provided horizontal exit in other respects conforms to section 79-f-9 of the Labor Law.

Be it further resolved that the said variation is granted only during the period that the conditions above set forth are maintained.

Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.
