Letter from the Director of Food Policy

Dear New Yorkers:

Welcome to the Food Metrics Report for 2016. Local Law 52 of 2011 established this report, and a list of 19 reporting requirements on City agency initiatives relating to food. Since that time, the City has greatly expanded its work to support a more sustainable, accessible, nutritious, and equitable food system for communities throughout New York City.

This report, now in its fifth year of publication, reflects these program additions and expanded scope. We have added new sections to reflect Mayor Bill de Blasio's commitment to send zero waste to landfill by 2030, expand opportunities for growing food for NYCHA residents, and invest in infrastructure to support the resiliency and sustainability of our food supply. We are also highlighting our efforts to expand the Health Bucks program, support school and community gardens, and increase fresh food access and nutrition education in our neighborhoods and institutions.

The report also highlights on a few key indicators that are important lenses with which to examine our work. We are focused on food insecurity and have a chapter devoted to the extent of this problem in New York City. We are concerned about neighborhood grocery access and have updated our data to reflect the changing grocery landscape in New York City. These indicators shed light on the interdisciplinary nature of the factors contributing to food system gaps and the partners needed to address them.

The City has made great progress over the past five years. We would like to acknowledge the commitment of Mayor Bill de Blasio, Deputy Mayor Herminia Palacio, Deputy Mayor Alicia Glen, and the many commissioners and agency staff to prioritize policies and expanding programs that support furthering equity in our food system.

Sincerely,

A handwritten signature in black ink that reads "Barbara Turk". The signature is written in a cursive, flowing style.

Barbara J. Turk
Director, Food Policy

Section 1

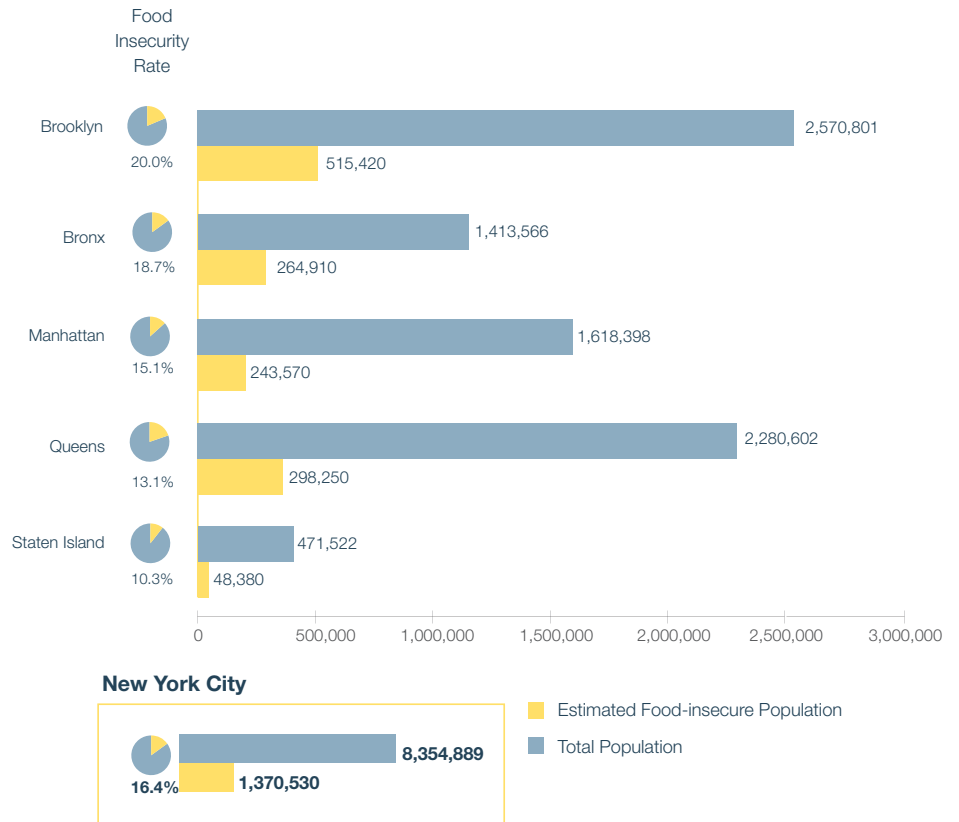

Addressing Food Security in New York City

Food insecurity is the lack of access, at times, to enough nutritionally adequate food for an active, healthy life for all members of a household. Food insecure families may worry that food will run out before they have enough money to buy more, eat less than they should, or be unable to afford to eat balanced meals. New York City is committed to working towards a city where everyone has enough nutritious food to eat, through a range of initiatives in partnership with community-based and nonprofit organizations. The NYC Human Resources Administration manages the Emergency Food Assistance Program (EFAP) which distributes food to 495 soup kitchens and food pantries across the city. These organizations distributed 12.2 million pounds of food in FY 2016. We have expanded our support of the city's emergency food providers with additional purchases of nutritious food, and are working to connect food insecure New Yorkers with food assistance benefits.

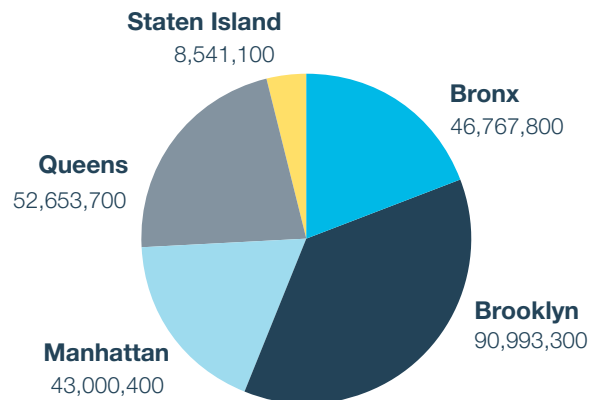

Food Insecurity*

The USDA monitors the extent and severity of food insecurity in U.S. households through an annual, nationally representative survey. In New York City, 1.37 million people (16.4%) were food insecure at least some time during the year in 2014. While the number of food insecure individuals has gone up (from 1.36 million people in 2013), the food insecurity rate has decreased slightly since 2013 (from 16.5%).

Feeding America has done analysis to project national food insecurity data to the county level and identify where there is a Meal Gap, the meals missing from the homes of families and individuals struggling with food insecurity. In 2014, New York City was missing 242 million meals.

Meal Gap

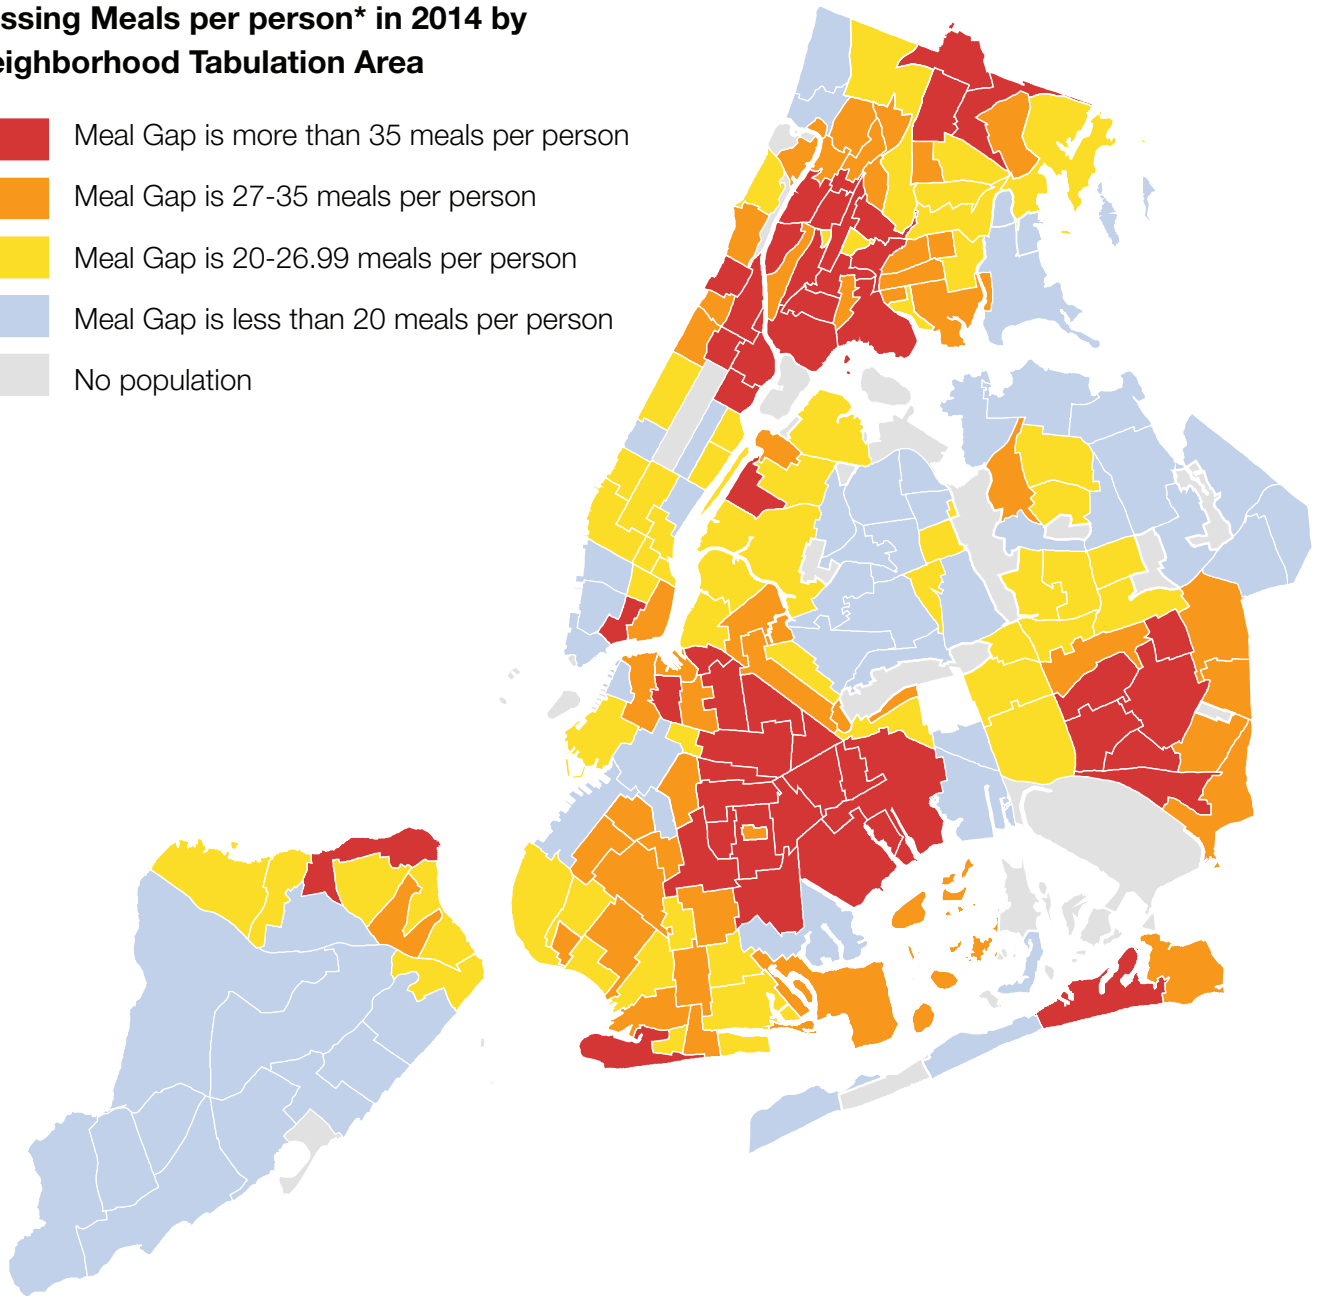

* Throughout this report, metrics that are required pursuant to Local Law 52 of 2011 are delineated with an asterisk.

Meal Gap

Missing Meals per person* in 2014 by Neighborhood Tabulation Area

- Meal Gap is more than 35 meals per person
- Meal Gap is 27-35 meals per person
- Meal Gap is 20-26.99 meals per person
- Meal Gap is less than 20 meals per person
- No population

*The 2014 Meal Gap is presented as the number of missing meals per capita for each Neighborhood Tabulation Area (NTA), to show the magnitude of missing meals while controlling for population size.

Food Bank For New York City analysis based on Gundersen, C., A. Dewey, A. Crumbaugh, M. Kato & E. Engelhard. *Map the Meal Gap 2016: Food Insecurity and Child Food Insecurity Estimates at the County Level*. Feeding America, 2016.

SNAP Recipients

The Supplemental Nutrition Assistance Program (SNAP) program serves 1.7 million New York City residents, or 20 percent of the population. SNAP caseload peaked at more than 1.8 million recipients in 2013, and has since declined by 8.6 percent.

September 2016*

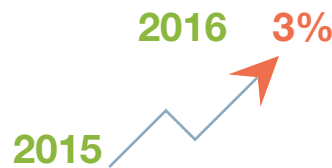

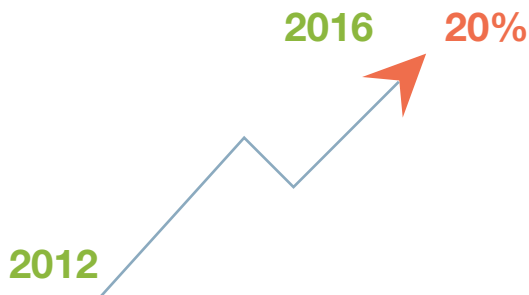

New York City	1,702,125
New York State	2,941,315
United States	43,369,684
Bronx	475,380
Brooklyn	613,395
Manhattan	240,325
Queens	310,183
Staten Island	62,842

* NYS and US numbers reflect July 2016

New York City Food Assistance Collaborative

Starting in 2014, the Director of Food Policy convened an ongoing New York City Food Assistance Collaborative with support from the Helmsley Charitable Trust and the Redstone Strategy Group. The Collaborative includes New York City's largest emergency food suppliers to food pantries and community kitchens and focuses on increasing the capacity and coordination of emergency food providers and of the food and funds distributors that work with them.

The Collaborative's goal is to increase emergency food availability for those who need it, and increase access to food and income assistance benefits for eligible New Yorkers. In 2016, NYC allocated an additional 4.9 million in Emergency Food Assistance Program (EFAP) funding to build capacity and provide additional food to emergency food providers in neighborhoods most underserved by emergency food.

Senior SNAP enrollment

Snap Benefits for Seniors*

Many seniors in New York City do not receive the food assistance they are eligible for. Over the past few years, the Human Resources Administration (HRA), the Department for the Aging (DFTA), and the Food Bank for New York City have worked together to identify senior citizens eligible for but not receiving SNAP benefits through a computer match with the Senior Citizens Rent Increase Exemption (SCRIE) program. Supplemental Nutrition Assistance Program (SNAP) enrollment among seniors has gone up over the past three years. On average in FY 2016, there were 308,890 NYC residents 65 years or older receiving SNAP benefits each month.

SNAP Outreach Programs*

HRA’s Office of Supplemental Nutrition Assistance Program Outreach Services (SNAP-OS) seeks to maximize the City’s use of federal programs available to increase purchasing power of low-income New Yorkers by educating the public about SNAP benefits. SNAP-OS’ services include SNAP trainings and presentations; prescreening potentially eligible applicants; and assisting with the SNAP application process. Over the past three years, HRA has grown this program by increasing the number of outreach sites, and the total number of presentations. In FY 2015, SNAP-OS conducted outreach at 282 unduplicated sites and three facilitated enrollment (POS) sites. In addition, this program conducted 62 presentations at various community-based, human services, and government organizations, and monitored SNAP outreach activity at 111 community based organizations. The budget for this program for FY 2015 was \$2,393,845. As a result of HRA SNAP-OS efforts in FY 2015, 11,657 households were enrolled in SNAP.

Section 2

Improving City Food Procurement and Service

New York City aims to use the scale of its food procurement and food service programs to purchase and provide food that meets high nutrition standards, and where possible is sourced regionally, to millions of New Yorkers. New York City serves more than 245 million meals and snacks per year. In addition to the over 171 million meals and snacks served in schools, New York City either directly or through its nonprofit partners serves an additional 74 million meals in homeless shelters, child care centers, after school programs, correctional facilities, and public hospitals and care facilities.

Photo Credit: Molly Hartman

Agency Meals and Food Standards*

The Agency Standards for Meals/Snacks Purchased and Served (Standards) were established by Mayoral Executive Order 122 of 2008 and set nutrition requirements for the foods purchased and meals and snacks served by City agencies. The Standards have been an integral part of the City's effort to increase access to healthy foods by improving the nutritional quality of food served in City programs. They were first distributed in September 2008, went into effect in March 2009, and have since been revised every three years.

The Department of Citywide Administrative Services (DCAS) is responsible for purchasing and inspecting food products for many City agencies, except for schools, including for the Department of Correction, Human Resources Administration, Administration for Children's Services. DCAS also purchases drinking water for all City agencies. DCAS works closely with agencies to develop specifications and solicitations that provide high quality food products at the lowest net cost.

Eleven City agencies are implementing the Standards, which apply to more than 245 million meals and snacks served per year across a variety of settings, including schools, senior centers, homeless shelters, public hospitals, and correctional facilities, among others. Agencies have an average compliance rate of 91% with the standards. See Appendix H for full data on agency food standards.

New York City served more than 245 million meals and snacks in FY 2016.

Photo Credit: Molly Hartman

Department of Education Food Procurement*

The Department of Education (DOE) has the largest school food service program in the United States by far, with about \$200 million in annual purchases of food, and serving around 850,000 meals to students each day.

DOE's Office of School Food (SchoolFood) has made the procurement of local and fresh food a priority, as well as sourcing sustainable and healthy products. Starting in the 2016-2017 school year, SchoolFood serves only antibiotic-free chicken products in schools. SchoolFood continues to develop the New York Thursdays campaign, moving closer to the goal of offering a totally locally-sourced menu every Thursday, and has begun to offer a 100% New York sourced beef burger in schools. In Fiscal Year (FY) 2016, not including distribution costs, DOE spent \$28 million on produce, milk, and yogurt that was locally or regionally grown or produced. Of that, \$7.8 million was spent on produce, and \$20.1 million was spent on milk and yogurt. This represents a 4% increase in the amount spent on local and regional products since the previous fiscal year.

In 2015, SchoolFood began rolling out Breakfast in the Classroom, reaching 143 school buildings in the first year. To date, SchoolFood has opened 1,430 salad bars in 1,100 of the City's 1,500 school buildings as part of its efforts to provide healthy vegetables to students.

Photo Credit: Molly Hartman

Department of Education Vending Machines*

For the most recent contract year, there were 2,407 beverage vending machines and 875 snack vending machines located in facilities operated by the Department of Education. Their gross sales during that period were \$3.8 million and \$5.8 million, respectively.

Photo Credit: GrowNYC

Salad Bars in Hospitals*

NYC Health + Hospitals offers salads either prepackaged or prepared to order by on-site food vendors in nine hospital cafeterias: in Manhattan at Metropolitan Hospital Center and Coler Specialty Hospital and Nursing Facility; in the Bronx at North Central Bronx Hospital; in Queens at Queens Hospital Center and Elmhurst Hospital Center; in Brooklyn at Kings County, Coney Island, and Woodhull Hospitals; and in Staten Island at Seaview Hospital rehabilitation Center & Home. There are also salad bars at Kings County Hospital and Woodhull Hospital in Brooklyn.

Bottled Water Expenditures*

DCAS purchases bottled water primarily for routine service to agency offices in multiple City-owned or leased facilities throughout the city. In FY 2012, DCAS registered a water purification unit installation and maintenance contract to reduce water purchases over time. DCAS expenditures on water for FY 2016 were \$406,683 for bottled water in 5 gallon demijohn (including cooler rental) and \$247,517 for single serve bottles.

Photo Credit: Molly Hartman

Section 3

Increasing Healthy Food Access and Awareness

We know that there are significant disparities in healthy food options between neighborhoods. New York City's approach to healthy food access includes strategies to connect New Yorkers to affordable, healthy food where they live, work, and play. We have expanded our initiatives to increase access to healthy options at retail stores, increase New Yorkers' purchasing power for fruits and vegetables, and provide education and resources for preparing balanced meals at home.

Fruit and Vegetable Consumption

Increased intake of fruits and vegetables is associated with decreased risk of hypertension, heart disease, and stroke. The City's goal, announced in OneNYC in April 2015, is to increase the average number of servings of fruits and vegetables adult New Yorkers eat every day by 25 percent over the next twenty years. In 2015, fruit and vegetable consumption was 2.3 servings, which is consistent with mean consumption in 2014.

Nutrition Education Programs*

Farmers' Market Based Nutrition Education

The New York City Department of Health and Mental Hygiene (DOHMH)'s Stellar Farmers' Market Program provides free, bilingual nutrition workshops and cooking demonstrations at select farmers' markets serving low-income communities across the city to promote the benefits of a diet rich in fruits and vegetables and to empower New Yorkers to prepare healthy meals using fresh produce. Over 10,200 workshops and cooking demonstrations have been held, reaching over 264,000 participants since the program's inception in 2009.

Funding for FY 2016 was \$562,991 and was provided in part by the United States Department of Agriculture's (USDA) Supplemental Nutrition Assistance Program- Education (SNAP-Ed) Program, through a contract with the New York State Department of Health. The program also distributed Health Bucks to more than 25,000 workshop participants. Eighty-seven percent of these coupons were redeemed.

Photo Credit: Molly Hartman

Child Care Based Nutrition Education

Eat Well Play Hard (EWPH) employs registered dietitians from DOHMH to provide training and workshops to child care staff, parents and children in centers serving low-income families on the importance of good nutrition and physical activity for children aged three to four years. EWPH has worked with 533 child care centers and has reached 77,000 children, parents, and staff since its inception in 2008. Funding for FY 2016 was \$1,134,641 and was provided in part by the United States Department of Agriculture's (USDA) Supplemental Nutrition Assistance Program-Education (SNAP-Ed) Program, through a contract with the New York State Department of Health.

The Farm to Preschool Program is a partnership between DOHMH, GrowNYC, and Corbin Hill Food Project. The program brings fresh, locally grown fruits and vegetables to participating preschools, giving parents, staff and community members weekly access to much needed produce. Each week, during the New York City farmers' market season (July through November), parents, staff and community members can purchase a produce box with a variety of locally grown fruits and vegetables at participating preschools. Produce boxes are pre-ordered and paid for one week in advance. Prices range from \$12 to \$14. Health Bucks, cash, credit and debit are accepted. Preschools also have the opportunity to purchase local produce for incorporation into meals and snacks served to children.

The program helps young children develop healthy eating habits early on, by supporting gardening at the preschools and by providing on-site nutrition education and cooking demonstrations for parents, staff, and community members. In FY 2015, twelve preschool sites participated from across the city generating over \$73,000 in sales of approximately 58,000 pounds of produce.

Photo Credit: Molly Hartman

Neighborhood-Based Nutrition Education

Since 2002, DOHMH has operated District Public Health Offices (DPHOs) in the South Bronx, East and Central Harlem, and North and Central Brooklyn. In 2016, DPHOs were renamed as Neighborhood Health Action Centers, which are a part of NYC's plan to promote health equity and reduce health disparities at the neighborhood level. Neighborhood Action Centers provide space for community-based organizations and Health Department staff to work together to advance neighborhood health. Neighborhood Health Action Centers have played a critical role in promoting healthy eating by providing nutrition education to their surrounding communities. Activities have included working with schools to promote healthy and equitable school environments; supporting Community Health Workers to provide nutrition education and training community cooks to lead cooking classes in community kitchens; tours and demonstrations at farmers markets in the community; and promoting healthy eating in neighborhoods through community summits, festivals, and events.

Funding for these activities comes from a combination of CTL and grant dollars. Funding for the Bronx Center in FY 2016 was \$421,000. Funding for the Brooklyn Center in FY 2016 was \$393,176. Funding for the Harlem Center in FY 2015 was \$796,213. Funding for the Center for Health Equity for FY 2016 was in FY 2015 was \$905,200.

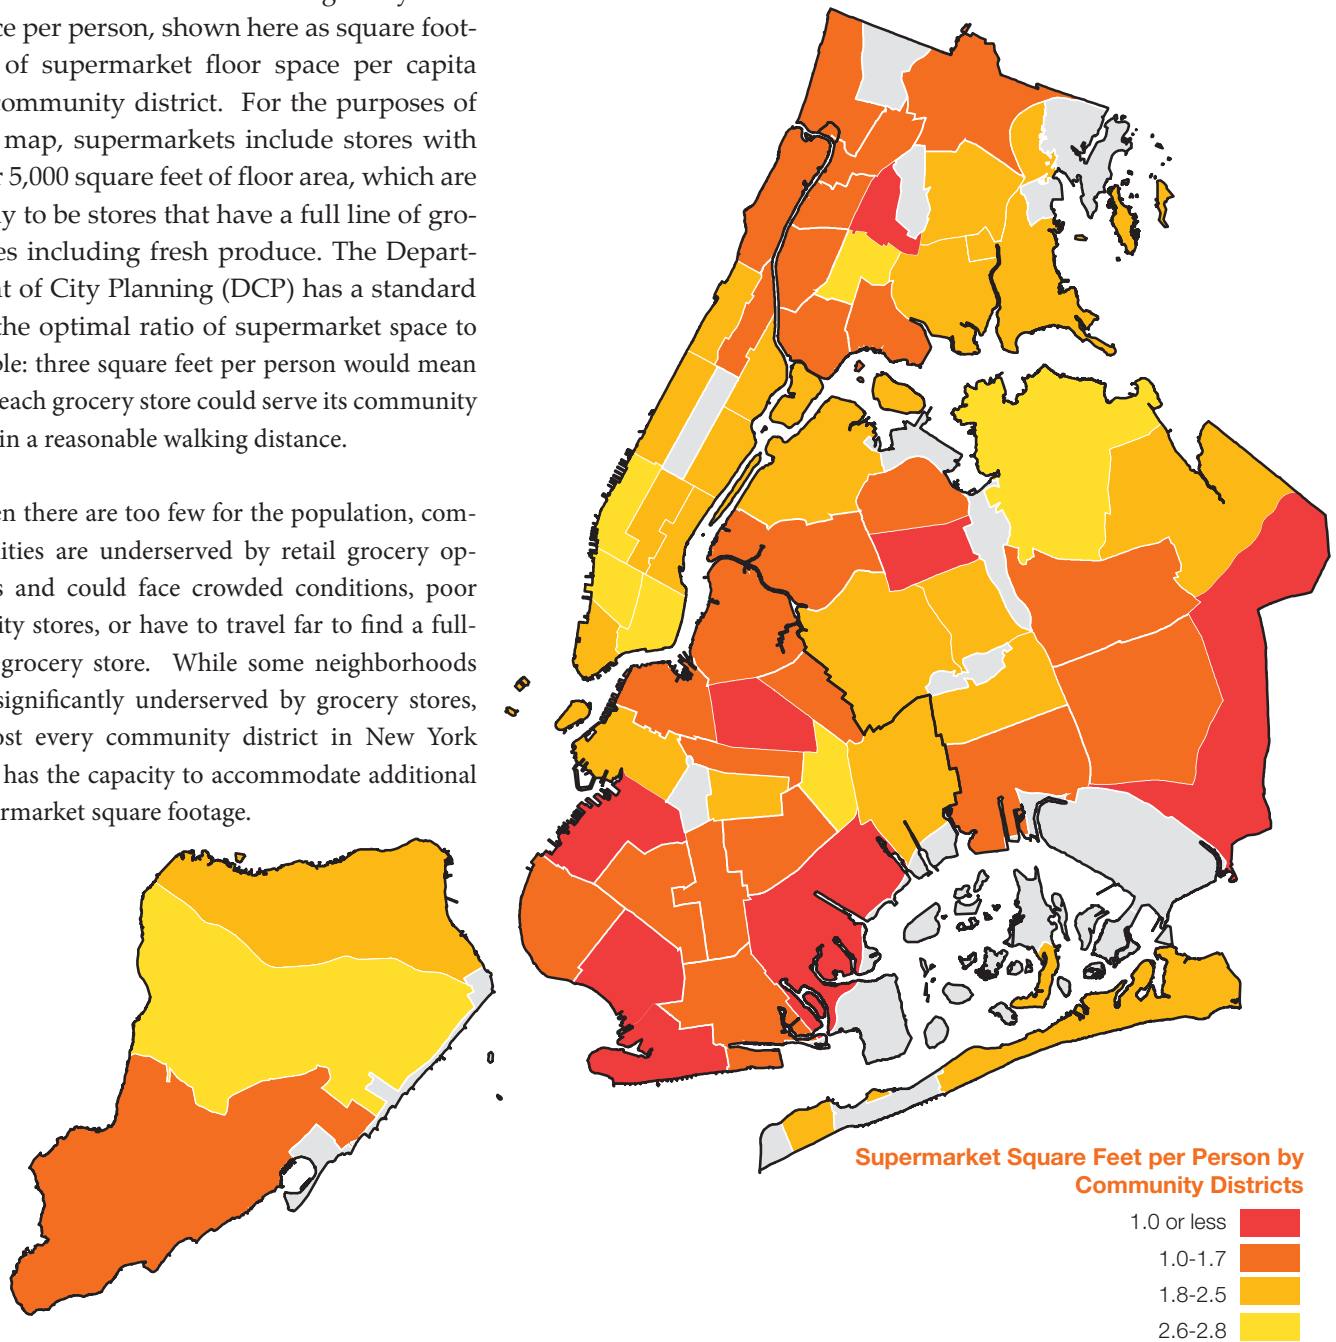

Photo Credit: Molly Hartman

Grocery Stores in NYC*

Access to affordable groceries is an essential component of an equitable and healthy neighborhood. There are many factors that influence whether or not groceries are available and affordable to residents, and whether neighborhood is well served by grocery stores.

One indicator is the amount of grocery store space per person, shown here as square footage of supermarket floor space per capita by community district. For the purposes of this map, supermarkets include stores with over 5,000 square feet of floor area, which are likely to be stores that have a full line of groceries including fresh produce. The Department of City Planning (DCP) has a standard for the optimal ratio of supermarket space to people: three square feet per person would mean that each grocery store could serve its community within a reasonable walking distance.

When there are too few for the population, communities are underserved by retail grocery options and could face crowded conditions, poor quality stores, or have to travel far to find a full-line grocery store. While some neighborhoods are significantly underserved by grocery stores, almost every community district in New York City has the capacity to accommodate additional supermarket square footage.

Retail Food Stores (Nov 2015), NYS Dept. of Agriculture and Markets.

Community District 2015 population estimate is derived by allocating population growth at the borough level to each CD, based on the distribution of DOB permits issued between 2010 and 2015.

NYC City Planning - Community Districts

Food Retail Expansion to Support Health (FRESH)*

The Food Retail Expansion to Support Health program (FRESH) was established in 2009, in partnership with the City Council and in response to a study by the Department of City Planning, which was conducted with assistance from the Mayor's Office, NYCEDC, and the Department of Health and Mental Hygiene. The study showed that many low-income areas across the city are underserved by full-scale grocery stores. Supermarket operators and developers have found it difficult to finance new projects or improve existing stores in New York City because of high acquisition, development and operating costs. The FRESH program mitigates those conditions by providing zoning and financial incentives to eligible grocery store operators and developers in areas with limited availability of fresh food.

Since 2009, 24 FRESH projects have been approved for zoning and/or financial incentives. Two more FRESH supermarkets opened this year. A total of twelve of these projects have been completed and are now open to the public; providing approximately 660,000 square feet of new or renovated grocery store space; estimated to retain more than 600 jobs and create over 1600 new jobs; and represents an investment of more than \$90 million across the City. For a full list of stores receiving FRESH benefits, see Appendix F.

Photo Credit: NYC EDC

Shop Healthy NYC*

Shop Healthy NYC is a DOHMH initiative to support neighborhood-based sustainable changes in access to healthy food. To ensure a long-term impact on food access, Shop Healthy NYC aims to influence supply and demand by reaching out to food retailers, including bodegas and grocery stores, to increase stock and promotion of healthy foods, including intensively working with stores to meet specific criteria; collaborating with distributors and suppliers to facilitate wholesale purchases and widespread promotion of healthy foods; and engaging community constituents (customers) to support participating retailers in their efforts to increase neighborhood access to healthy foods.

As of August 2016, 817 stores have agreed to promote healthier items as part of Shop Healthy. Around 400 of those stores have also agreed to increase access to healthier foods. All Shop Healthy establishments are located in the Bronx, Brooklyn and Harlem. In 2016 the program grew from eight zip codes to 11, which includes an expansion into Brooklyn's East New York neighborhood, Morrisania-Clairemont in the Bronx, and additional areas of East Harlem.

Green Carts*

Green Carts are mobile vending carts that sell fresh fruits and vegetables in low-income neighborhoods with low rates of fruit and vegetable consumption. As of June 2016 there were 320 active Green Carts with 110 using EBT machines. For a full list of information on Green Cart permits, and EBT machines, see Appendix I. For a list of information on Green Cart violations by location, see Appendix J.

Photo Credit: Peggy Leggat

Farmers' Markets*

Farmers' markets play an important role in addressing disparities in access to healthy foods by providing an additional healthy retail outlet in the neighborhoods they serve. The farmers' markets in New York City are run by 37 different operators, including Harvest Home and Greenmarket, as well as many community-based or non-profit organizations. Some of these operators, such as Harvest Home, specifically serve low-income neighborhoods, with the goal of increasing access to farm fresh local produce. Some are located at the site of community gardens and coordinated by local urban farmers. Several farmers' markets are located at city health care facilities, such as the Pitkin Verde Farmers Market in Cypress Hills, and the Harvest Home Harlem Hospital Hospital Greenmarket. Other farmers' markets, such as the Youthmarket Farm Stands operated by GrowNYC, employ neighborhood youth, providing them with jobs and small business skills. There were 142 farmers' markets across the five boroughs in FY 2016. More than 125* of these markets accepted EBT.

The number of farmers' markets in New York City has increased from 79 in FY 2007 to 142 in FY 2016*.

Greenmarket – a program of GrowNYC – is the largest farmers' market operator in the city. Its 51 market locations can be found throughout the five boroughs. For a list of the number of Greenmarkets in NYC as well as the average number of producers at each market sorted by borough, see Appendix K.

*The total number of open markets fluctuates throughout the season.

Photo Credit: Molly Hartman

Photo Credit: Molly Hartman

Health Bucks

Two-dollar coupons redeemable for fresh fruits and vegetables at all NYC farmers' markets provided low-income New Yorkers with additional purchasing power to buy fresh, locally-grown produce at 142 farmers' markets across NYC in FY 2016. Health Bucks are distributed as a Supplemental Nutrition Assistance Program (SNAP) incentive – for every \$5 spent in SNAP benefits (food stamps) at the market, beneficiaries receive a \$2 Health Bucks coupon – and through community-based organizations as part of nutrition and health programming.

In the 2015 season, over 191,000 Health Bucks were distributed at 121 farmers' markets as a SNAP incentive and over 85,500 were distributed by over 385 community-based organizations. In total, over 423,400 Health Bucks were distributed and 79% were redeemed, putting fresh, locally-grown produce into the hands of thousands of low-income New Yorkers.

In total, over 423,400 Health Bucks were distributed in 2015.

Expanding Health Bucks with USDA grant funding

In May of 2016, the NYC Health Department was awarded \$3.37 million in United States Department of Agriculture (USDA) grant funding over the next four years to expand SNAP incentives. The funding will support expansion of the Health Bucks season from five months to year-round so SNAP participants who shop at the City's farmers' markets using their EBT card can receive Health Bucks every month of the year.

Section 4

Supporting a Sustainable and Just Food System

We know that there are significant disparities in healthy food options between neighborhoods. New York City's approach to healthy food access includes strategies to connect New Yorkers to affordable, healthy food where they live, work, and play. We have expanded our initiatives to increase access to healthy options at retail stores, increase New Yorkers' purchasing power for fruits and vegetables, and provide education and resources for preparing balanced meals at home.

Community and School Gardens*

GreenThumb is a program of NYC Parks and is the largest community gardening program in the country. GreenThumb administers, educates and supports community gardens and urban farming, while preserving open space. GreenThumb provides programming as well as material support to over 500 registered community gardens located in all five boroughs of NYC. GreenThumb gardens are hubs of neighborhood pride that provide a myriad of environmental, economic and social benefits to the neighborhoods in which they thrive. In 2016, there were 535 GreenThumb registered gardens in New York City. In 2015, 34 community gardens that were operating on property under the jurisdiction of the NYC Department of Housing Preservation and Development (HPD), with temporary licenses from HPD until that land was to be developed for affordable housing, were transferred to the jurisdiction of NYC Parks to be preserved as community gardens.

For a list of community gardens located on NYC Parks land and/or registered and licensed by GreenThumb, see Appendix C. Information about the size of each garden and whether or not it engages in food production is included to the extent it is available.

Grow to Learn NYC is an initiative of GrowNYC, in partnership with GreenThumb and the Department of Education, with the mission to inspire, facilitate and promote the creation of a school garden in every public school in New York City. Schools work directly with Grow to Learn NYC to ensure that their garden programs are sustainable, responsive to their communities, and transformative for student learning in the cafeteria, the classroom and beyond. Grow to Learn NYC provides the material and financial support to get schools growing, provides technical and professional development supports to school gardeners, and makes the scale of New York City manageable by bringing together city-wide partnerships and resources into one convenient central location.

Since launching in February 2011, 581 out of approximately 1,800 NYC schools have registered garden projects with Grow to Learn. For a list of registered Grow to Learn NYC school gardens, see Appendix D.

581 schools have registered gardens in NYC.

Empowering Young Farmers

In 2015, GreenThumb launched a Youth Leadership Council to give 118 New York City high school students the chance to volunteer in 11 community gardens in Community Parks Initiative Zones in all five boroughs. At each garden, experienced gardeners and college mentors provided the participants with guidance on promoting sustainability, economic equality, and food initiatives through urban agriculture. Program partners, including Just food, provided support with training sessions and supplies. Youth Leadership Council members hailed from over 200 hundred community-based organizations and schools from across the city.

Participating in the the GreenThumb Youth Leadership Council is an opportunity for young people to give back to their neighborhoods in a way that strengthens community bonds and local food security. The United Nations has noted the students' ambition and invited program participants for a tour of their food gardens and a discussion on global food security with U.N. officials on July 29th, 2016.

Photo Credit: Carmen Bouyer

Garden to Café

With the support of DOE's Office of SchoolFood, the Garden to Café Program connects school gardens to their cafeterias with the goal of increasing students' knowledge of healthy food, farming, and the local food system. The program features harvest events in which food grown in the school garden is incorporated into school meals via menu items or the cafeteria for tastings. The program has continued to expand, and currently has over 125 schools registered.

In addition, in January, 2015 the Garden to Café program was awarded a Farm to School Grant from the United States Department of Agriculture to initiate a two-year pilot program. The pilot has focused on 16 schools in Upper Manhattan, the Bronx, Bedford-Stuyvesant and East New York and offers an arrangement of experiential learning opportunities with such partners as Grow to Learn and GreenThumb, the Greenmarket Youth Education Project, aquaponics farm Oko Farms and The Queens County Farm Museum. In addition, in collaboration with Leave It Better, three schools created and premiered documentaries on their school gardens at the New York Botanical Garden in July, 2016.

Farms at NYCHA

Established in 2016, Farms at NYCHA is part of Building Healthy Communities (BHC), a city-wide partnership designed to improve health outcomes in 12 neighborhoods in New York City. The Farms expand healthy food access, provide youth workforce and leadership development, and promote sustainable and connected public housing communities.

The farms are constructed and operated by 18 to 24 year-old NYCHA residents who are Green City Force (GCF) AmeriCorps Members. The three new farms established in 2016 are located at Howard Houses in Brownsville, Bay View Houses in Canarsie, and Wagner Houses in East Harlem. Over a three-year period, nearly 100 young public housing residents will be trained in farm management and community programming, further connecting public housing communities to the expanding field of urban agriculture.

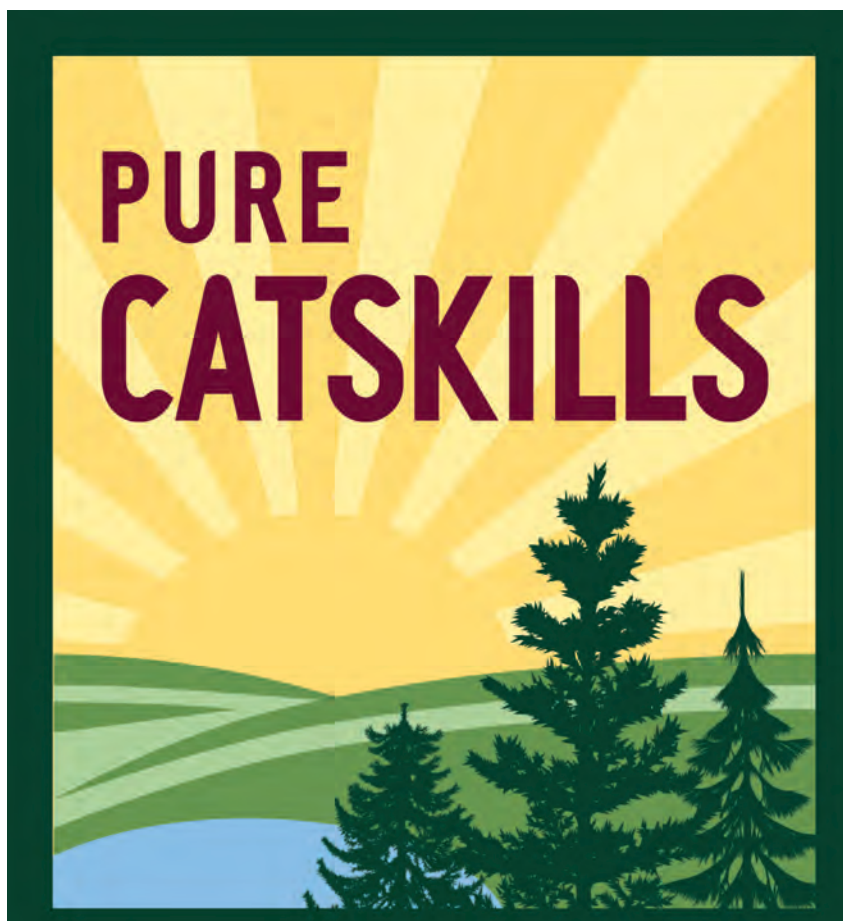

There are currently four farms managed by Green City Force in conjunction with local community-based organizations. NYCHA residents of target developments receive free produce in exchange for volunteering on the farm or bringing household food scraps. The weekly farm stands also feature healthy cooking demonstrations led by Corps Members who receive culinary training from the Sylvia Center. An evaluation is underway to study the impacts of the farms.

Led by the Mayor's Office of Strategic Partnerships and the Fund for Public Health NYC, Building Healthy Communities aims to improve opportunities for physical activity, expand access to healthy, affordable food, and promote public safety in 12 priority neighborhoods.

NYCHA residents also maintain approximately 700 smaller scale gardens, approximately half of which are food-producing. As the 53-year old gardening program shifts to a partnership-based model, the agency is excited to work with a range of citywide partners to cultivate even more dynamic programming for the growing number of resident gardeners and further support local produce production across the five boroughs.

3 new farms were established on NYCHA developments in 2016.

Photo Credit: Ellen McCarthy

NYC Watershed Agricultural Program*

Much of NYC’s drinking water comes from reservoirs in upstate watersheds where productive farmland is an important land use. To preserve the quality of its source water, the City’s Department of Environmental Protection, in partnership with the Watershed Agricultural Council, implements a voluntary Watershed Agricultural Program that promotes the implementation of agricultural best management practices. The goal of the Watershed Agricultural Program is to support and maintain well-managed family farms as beneficial land uses to advance water quality protection and rural economic viability.

Since 1992, the program has worked with over 440 farms in both the Catskill/Delaware and Croton Watersheds to develop Whole Farm Plans, a holistic approach to prioritize environmental issues on a farm without compromising the farm business. The program has implemented over 7,000 best management practices that reduce agricultural pollution and protect water quality. These management practices are funded by the City in the form of technical and financial assistance to watershed farmers. In FY 2016, a total of 79 participating farms working on 26,734 acres received \$3,807,622 in City financial support to protect water quality. For a list of participating farms by county and type, see Appendix B.

Since 1992, NYC has supported over 440 farms in the watershed.

Supporting Watershed Farmers: Pure Catskills

Bovina Valley Farm began its journey in 2000, when Dan Finn purchased a defunct dairy farm along the Glen Burnie Creek in the small town of Delhi, NY, situated in rural Delaware County. The farm is located over a hundred miles north of Manhattan in the upstate watershed that provides New York City with its unfiltered source of safe, clean drinking water. What started out as a part-time beef and maple syrup hobby operation has morphed over the years into a 30 cow organic dairy that also makes value-added cheeses. Maple syrup and a variety of meats compliment the cheeses sold in the on-site farm store, located in Delhi. Bovina Valley Farm products are also found in shops and restaurants in the New York City metro area.

Bovina Valley Farm is a voluntary participant in the Watershed Agricultural Program, which helps farmers to protect water quality by implementing practices that reduce or eliminate agricultural pollution. Bovina Valley Farm products can be identified in stores by the Pure Catskills logo. Pure Catskills is a branding campaign that promotes local food and forest products from the upstate watershed region.

Hunts Point Food Distribution Center*

In 2016, the Mayor’s Office of Recovery and Resiliency (ORR) and the New York City Economic Development Corporation (NYCEDC) commissioned a study to better understand the city’s food distribution system. The following information about the Hunts Point Food Distribution Center is from this 2016 study, the findings from which will be published in Fall 2016.

The Hunts Point Food Distribution Center (HPFDC) is the largest single geographic cluster of food distribution in New York City, measured by annual distribution volume (lbs) to NYC customers—4.5 billion pounds of food is distributed annually through the HPFDC, handled by 8,500 direct jobs in the HPFDC. The HPFDC plays an important role distributing food both within NYC and outside of NYC: approximately 50% of the 4.5 billion lbs (or 2.3 billion lbs) is distributed within NYC; the rest is distributed (exported) to customers outside of NYC.

The 2.3 billion lbs of food distributed from the HPFDC to the five boroughs represents 12% of all food distributed to NYC. For the categories in which the HPFDC specializes, the NYC market share is even greater: the HPFDC accounts for approximately 25% of all produce distributed to NYC, approximately 35% of all meat distributed to NYC, and approximately 40-50% of all fish distributed to NYC. Independent restaurants and cafes are the biggest point-of-sale (POS) segment served by HPFDC; supermarkets, bodegas and food markets (such as green grocers, specialty fish/seafood and specialty meat stores/butchers) are the other major POS segments served by Hunts Point.

2.3 billion pounds of food is distributed from the Hunts Point Food Distribution Center to the five boroughs of NYC every year.

A man wearing a blue t-shirt and a black headband is working in a grocery store's produce section. He is looking towards the camera while standing behind a counter. In the background, there are baskets of fresh produce, including green bell peppers, red grapes, and other vegetables. The lighting is warm and focused on the produce.

NYS-NYC Regional Food Hubs Task Force

In 2015, New York City partnered with New York State to lead a task force to connect the dots between New York State agricultural products and New York City consumer markets. The task force included representatives from City and State agencies responsible for economic development, environmental protection and sustainability, public health and agriculture. The task force held meetings over three months and reviewed a wide range of academic and field research, as well as surveyed stakeholders in agriculture, food processing and distribution, and food purchasing.

The task force recognized that New York's food system is rich in both supply and demand, yet there are supply chain gaps that limit the ability of wholesale products from New York State to expand their access to downstate markets. With this in mind, the task force sought to identify catalytic investments that would expand the distribution of regional foods in and throughout New York City.

The task force made two overarching recommendations. First, to establish a statewide food hubs system that strengthens New York State brand identification for agricultural products; supports on-farm equipment and aggregation hubs near points of production; and creates distribution hubs and manufacturing facilities in NYC. Second, to establish an ongoing upstate-downstate partnership that connects the dots between farmers, distributors, and buyers upstate and downstate, to further build the relationships that enable regional and local food distribution.

Food Manufacturing*

The New York City Economic Development Corporation (NYCEDC) recognizes and supports the role of food entrepreneurship in growing our economy and creating job opportunities for New Yorkers. NYCEDC's footprint in this space includes three culinary incubators which it helped to seed, totaling 26,000 square feet: Hot Bread Kitchen (HBK) Incubates, The Entrepreneur Space (E-Space), and Brooklyn FoodWorks. HBK Incubates is located in the historic La Marqueta in East Harlem; in partnership with the Queens Economic Development Corporation, E-Space is located in Long Island City; and Brooklyn FoodWorks, in partnership with the Brooklyn Borough President's Office, launched February 2016 in the Bedford-Stuyvesant section of Brooklyn. With access to shared commercial kitchen equipment and complimentary programming, these spaces have helped catapult hundreds of NYC-based food entrepreneurs into business.

Reducing Commercial Food Waste

In April 2015, Mayor Bill de Blasio announced One New York: The Plan for a Strong and Just City (“OneNYC”), a groundbreaking effort to address New York City’s long-term challenges. In this plan the City made an ambitious commitment to become a worldwide leader in solid waste management by achieving the goal of sending zero waste to landfills by 2030. As a part of this goal, the City also committed to reducing commercial waste disposal by 90% by 2030. To support this goal, in 2016 NYC launched the Mayor’s Zero Waste Challenge (ZWC), inviting New York City businesses to support the City’s zero waste goals by working to divert at least 50% of their waste from landfill and incineration by the end of the Challenge.

All businesses in NYC are required to recycle metal, glass, plastic, beverage cartons, paper and cardboard, and to ensure to the best of their ability that these recyclable materials are properly handled by their private carter. Further, beginning July 19, 2016, under new business organics rules, certain New York City businesses are required by law to separate their organic waste for beneficial use (composting, anaerobic digestion or other).

The ZWC, which ran from February to June, was created to help participating businesses separate edible, reusable, recyclable and compostable material from their trash, improve their operational efficiency, and help chart the way toward Zero Waste. Participating businesses served as role models for others in their industry and were recognized by the Mayor’s Office as leaders in environmentally sustainable waste management.

31 businesses across all five boroughs, representing a variety of industries including arenas, commercial tenants and building owners, food wholesalers, grocers, caterers, schools, hotels, restaurants, and TV productions, participated in the Challenge. Over the course of the Challenge 36,910 tons of material were diverted from landfill and incineration by participants (and their haulers), including 24,517 tons of organic waste that were composted, anaerobically digested, or otherwise beneficially used. In addition, participants donated 321 tons of edible food to food donation groups. In fact, some participants started donating food for the first time as a result of the ZWC.

Zero Waste Challenge participants diverted 24,516 tons of organic waste from landfill in 2016.

Food Service & Accommodation Industry Partnership

Launched in 2016, the Food Service & Accommodation Industry Partnership at the NYC Department of Small Business Services promotes the sustained growth of the local food and beverage sector. In order to create a formal and sustainable feedback loop from industry leaders, the NYC Food & Beverage Hospitality Council, an alliance of more than 30 NYC food service industry professionals and businesses, held its first convening in September to address skills gaps and labor shortages, help small businesses navigate regulations in NYC, and keep track of industry trends and support business growth.

Food Sector Job Training Programs*

The Department of Small Business Services (SBS) provides training grants to small business owners with the goal of helping New York City businesses and their employees succeed. Agricultural and food-related businesses can take advantage of these programs. The Customized Training Program helps businesses afford professional training services that can reduce employee turnover and increase productivity, thereby saving businesses money and increasing the City's economic development. It eliminates the financial constraints that keep businesses from investing in staff development by co-investing to cover 60-70% of eligible training costs. From 2015-2016, SBS provided 5 food sector businesses with Customized Training grants, serving 428 trainees. For detailed information on SBS food-related job trainings, see Appendix G.

NYCHA Food Business Pathways

The NYCHA Food Business Pathways Program (FBP) is a free business training program that helps NYCHA and NYCHA Section 8 residents start and grow food businesses in New York City. The FBP is a collaboration between the NYC Department of Small Business Services (SBS), The NYC Economic Development Corporation (EDC), Citi Community Development, Hot Bread Kitchen, Start Small Think Big and NYCHA's Office of Resident Economic Empowerment & Sustainability (REES).

Residents who are accepted into the program receive a free intensive business course tailored specifically to meet the needs of NYCHApreneurs (NYCHA Entrepreneurs), free licenses and permits, group and one-on-one business coaching designed to move their businesses forward, and assistance to secure commercial kitchen space in which to operate their food businesses. Since the program's launch in 2015, 141 residents graduated from the program. 87 registered businesses have been created as a result of FBP.

Appendix A - Annual Food Metrics Summary Chart

This chart provides data points for the nineteen food metrics that the City is required to report on annually pursuant to Local Law 52. This is the fifth year of public reporting on these metrics. 2012, 2013, 2014, 2015 and 2016 information is summarized below.

Metric	Progress as of 2012	Progress as of 2013	Progress as of 2014	Progress as of 2015	Progress as of 2016
1 Number of Farms Participating in the DEP Watershed Agricultural Program; Annual Dollar Amount of City Financial Support Received by Participating Farms	58 farms on 18,735 acres; \$2,696,888	66 farms on 22,371 acres; \$1,555,364	73 farms on 26,359 acres; \$2,197,862	82 farms on 20,408 acres; \$4,262,629	79 farms on 26,734 acres; \$3,807,622
2 Total DOE expenditure on local milk, yogurt, and produce	\$20.8 million on milk and yogurt, and \$3.1 million on produce (not including distribution costs)	\$20.8 million on milk and yogurt, and \$3.8 million on produce (not including distribution costs)	\$19.2 million spent on milk and yogurt, and \$6.3 million spent on produce (not including distribution costs)	\$20 million on milk and yogurt, and \$7.3 million was spent on produce (not including distribution costs)	20.1 million was spent on milk and yogurt, and \$7.8 million on produce (not including distribution costs)
3 Registered community gardens on city-owned property	413 community gardens not including DOE Grow to Learn Gardens	530 community gardens not including DOE Grow to Learn Gardens	586 community gardens not including DOE Grow to Learn Gardens	544 community gardens not including DOE Grow to Learn Gardens*	535 community gardens not including DOE Grow to Learn Gardens
4 Food manufacturers receiving monetary benefits from EDC or IDA	24 food manufacturers receiving a total of \$2,205,065	25 food manufacturers receiving a total of \$2,330,977	32 food manufacturers receiving a total of \$2,425,133	33 food manufacturers receiving a total of \$3,056,533	24 food manufacturers receiving a total of \$2,184,808
5 Truck and rail trips to or through Hunts Point Market	Fish Market: 283 daily trucks Meat Market: 763 daily trucks Produce Market: 1727 daily trucks Produce Market: 10.5 railcars/day (average) Baldor Specialty Foods: 2-3 railcar/week (average)	Fish Market: 151 daily straight trucks and tractor trailers (average) Meat Market: 88 daily straight trucks and tractor trailers (average) Produce market: 230 straight trucks & 4 and 5 axes trucks (average) Produce Market: 5 railcars/day Baldor Specialty Foods: 2-3 railcars/week	Fish Market: 153 daily straight trucks and tractor trailers (average) Meat Market: 93 daily straight trucks and tractor trailers (average) Produce Market: 220 straight trucks & 4 and 5 axes trucks (average) Produce Market: 4 railcars/day (average)*** Baldor Specialty Foods: 2 - 3 railcars/week (average)	Fish Market: 140 daily straight trucks and tractor trailers (average) Meat Market: 117 daily straight trucks and tractor trailers (average) Produce Market: 226 straight trucks & 4 and 5 axes trucks (average) Produce Market: 4 railcars/day (average) Baldor Specialty Foods: 2 - 3 railcars/week (average)	Fish Market: 144 daily straight trucks and tractor trailers (average) Meat Market: 121 daily straight trucks and tractor trailers (average) Produce Market: 197 straight trucks & 4 and 5 axes trucks (average) Produce Market: 3 - 4 railcars/day (average) Baldor Specialty Foods: 2 - 3 railcars/week (average)
6 Grocery store SF per capita and the number of grocery stores open during the past five calendar years	Not reported	168 new grocery stores in 54 out of 59 community districts were added in NYC from 2007 - 2011 As of 2011, there were 12,702,808 square feet of grocery store space total in NYC	Not reported	Not reported	Not reported
7 Grocery stores receiving FRESH benefits	11 FRESH projects approved - providing nearly 340,000 square feet of new or renovated space; estimated to retain over 500 jobs and create nearly 300 new jobs; represent an investment of approximately \$40 million across the City	16 FRESH projects approved - four of which have been completed; providing nearly 440,000 square feet of new or renovated space; estimated to retain over 500 jobs and create over 350 new jobs; represent an investment of approximately \$55 million across the City	18 FRESH projects approved - nine of which have been completed; providing approximately 578,000 square feet of new or renovated grocery store space; estimated to retain over 500 jobs and create over 945 new jobs; and represents an investment of almost \$80 million across the City	20 FRESH projects approved - nine of which have been completed; providing approximately 586,000 square feet of new or renovated grocery store space; estimated to retain over 500 jobs and create over 920 new jobs; and represents an investment of more than \$80 million across the City	24 FRESH projects approved - 12 of which have been completed; providing approximately 660,000 square feet of new or renovated grocery store space; estimated to retain over 600 jobs and create over 1600 new jobs; and represents an investment of more than \$90 million across the City

Metric	Progress as of 2012	Progress as of 2013	Progress as of 2014	Progress as of 2015	Progress as of 2016
8	Number of stores participating in Shop Healthy	161 stores	~400 stores have agreed to promote their healthier items, with ~132 of them agreeing to work more intensively to increase access to healthier foods in their stores	470 stores have agreed to promote their healthier items, with ~220 of them agreeing to work more intensively to increase access to healthier foods	817 stores have agreed to promote their healthier items, with ~400 of them agreeing to work more intensively to increase access to healthier foods
9	Number of food-related job training programs administered by SBS	108 Customized Trainings for Food Businesses; 96 Restaurant Management Trainings	188 Customized Trainings for Food Businesses; Restaurant Management Trainings program ceased	275 Customized Trainings for Food Businesses	428 trainees served by customized training grants
10	Number of meals served	270,611,523	259,789,054	244,614,710	245,546,270
11	Compliance with food standards	Compliance rate = 93%	Compliance rate = ~89%	Compliance rate = ~93%	Compliance rate = ~91%
12	Number of DOE vending machines and revenue generated	2,504 beverage machines (\$5.7 million) and 934 snack (\$5.2 million) for most recent contract year	2,473 beverage vending machines (\$4.8 million) and 907 snack vending machines (\$5.5 million) for the most recent contract year	2,456 beverage vending machines (\$4.4 million) and 902 snack vending machines (\$5.5 million) for the most recent contract year	2,407 Beverage vending machines (\$3.8 million) and 875 snack machines (\$5.8 million) for the most recent contract year
13	Number of seniors receiving SNAP benefits	256,416	281,000	291,422**	308,890
14	Funds spent on SNAP enrollment by HRA	2011: 212 unduplicated sites, 4 POS sites, 63 presentations, total budget of \$2.4 million	2012: 220 unduplicated sites, 3 POS sites, 13 presentations, total budget of \$2.3 million	2013: 257 unduplicated sites, 3 POS sites, 53 presentations, total budget of \$2.3 million	2015: 282 unduplicated sites, 3 facilitated enrollment sites, 62 presentations, total budget of \$2.4 million
15	Funds spent on Nutrition Education by HRA	\$8,642,689 spent and 152,764 SNAP recipients served (combines those directly and indirectly served)	\$8.9 million spent and 70,000 SNAP recipients reached (directly served) and 200,000 (served via social marketing campaign)	\$6.5 million spent and 329,366 SNAP recipients served	HRA no longer administers the SNAP-Ed program. New York State has assumed responsibility for this program by contracting directly with SNAP-Ed service providers
15	Funds DOHMH Spends on Nutrition Education: Steilar Farmers' Market Initiative	\$582,785; 110,000 participants reached through 4,400 workshops/demos cumulatively since 2009	\$562,990 for FY2013; 154,000 participants reached through 6,000 workshops/demos cumulatively since 2009	\$562,991 for FY2014; 198,000 participants reached; through 7,700 workshops/demos cumulatively since 2009	\$562,991 for FY2016; 264,215 participants reached through 10,217 workshops/demos cumulatively since 2009
15	Funds DOHMH Spends on Nutrition Education: Eat Well Play Hard Program	\$1,270,896 for FY12; 40,000 children/parents/staff reached at 392 child care centers and public schools cumulatively since 2008	\$1,251,832 for FY2013; 52,000 children/parents/staff at 440 child care centers and public schools cumulatively since 2008	\$1,134,641 for FY2014; 65,500 children/parents/staff reached at 533 child care centers and public schools at 463 child care centers and 70 public schools cumulatively since 2008	\$1,134,641 for FY 2016 (includes funding for Farm to Preschool); 77,000 children/parents/staff at 533 child care centers cumulatively since 2008
15	Funds DOHMH Spends on Nutrition Education: District Public Health Offices	Funding for Brooklyn DPHO for FY 2011: \$26,300 (Grants) and \$141,742 (City Tax Levy); Funding for Bronx DPHO for FY 2011: \$335,532 (CTL); Funding for East Harlem DPHO for FY 2011: \$66,939 (Grants) and \$171,963 (CTL)	Funding for Brooklyn DPHO for FY 2012: is \$265,162 (Grants) and \$652,693 (CTL); Funding for Bronx DPHO for FY 2012: \$534,723 (CTL); Funding for East Harlem DPHO for FY 2012: \$49,452 (Grants) and \$446,237 (CTL)	Funding for Brooklyn DPHO for FY 2013: \$311,383 (Grants), and \$606,465 (City Tax Levy); Funding for Bronx DPHO for FY 2013: \$499,687 (CTL); Funding for East Harlem DPHO for FY 2013: \$336,244 (CTL)	Funding for Center for Health Equity for FY 2016: \$330,000 (Grants), and \$575,200 (City Tax Levy); Funding for Brooklyn DPHO for FY 2016: \$178,176 (Grants), and \$215,000 (City Tax Levy); Funding for Bronx DPHO for FY 2016: \$421,000 (CTL); Funding for East Harlem DPHO for FY 2016: \$392,213 (Grants), and \$404,000 (CTL)

Metric	Progress as of 2012	Progress as of 2013	Progress as of 2014	Progress as of 2015	Progress as of 2016
16 Salad bars in schools	1,068 salad bars	1,379 salad bars	1,426 salad bars	1,452 salad bars	1,430 salad bars
16 Salad bars in HHC Hospitals	HHC offers salads in either prepackaged or "made to order" form by on site food vendors in seven facilities: in Manhattan at Bellevue, Metropolitan and Coler-Goldwater, in the Bronx at Jacobi, in Brooklyn at Coney Island Hospital and in Queens at Elmhurst and Queens Hospitals. HHC does not correctly have salad bars in its facilities	HHC offers salads in either prepackaged or "made to order" form by on site food vendors in eight facilities: in Manhattan at Bellevue and Harlem, Metropolitan and Coler-Goldwater, in the Bronx at Jacobi, in Brooklyn at Coney Island Hospital and in Queens at Elmhurst and Queens Hospitals. HHC also has salad bars at Kings County (Brooklyn) Hospital, Jacobi Medical Center (Bronx) and Woodhull Medical and Mental Health Center (Brooklyn)	HHC offers salads in either prepackaged or made to order form by on site food vendors in eleven facilities: in Manhattan at Bellevue, Metropolitan, Harlem, and Coler, in the Bronx at Jacobi Medical Center and Lincoln Medical Center, in Brooklyn at Coney Island Hospital, Kings County, and Woodhull Hospital; and in Queens at Elmhurst and Queens Hospitals. HHC also has salad bars at Kings County (Brooklyn), Jacobi (Bronx), Woodhull Medical and Mental Health Center (Brooklyn), and Coney Island (Brooklyn).	HHC offers salads in either prepackaged or made to order form by on site food vendors in ten facilities: in Manhattan at Bellevue Hospital Center, Metropolitan Hospital Center, and Coler Rehabilitation and Nursing Care Center; in the Bronx at Jacobi Medical Center and Lincoln Medical Center; and in Staten Island, and Woodhull Hospitals; and in Queens at Coney Island Hospital, Kings County Hospital Center, and Woodhull Medical and Mental Health Center; and in Queens at Elmhurst and Queens Hospital Centers. HHC also has salad bars at Kings County Hospital Center (Brooklyn), Jacobi Medical Center (Bronx), Lincoln Medical and Mental Health Center (Bronx), and Woodhull Medical and Mental Health Center (Brooklyn)	Salads offered either prepackaged or prepared to order by on-site food vendors in nine facilities: in Manhattan at Metropolitan Hospital Center, in the Bronx at North Central Bronx Hospital; in Queens at Queens Hospital; in Brooklyn at Kings County, Coney Island, and Woodhull Hospitals; and in Staten Island at Seaview Hospital. There are also salad bars at Kings County Hospital and Woodhull Hospital in Brooklyn.
17 Funds spent by DCAS on bottled water*	\$983,851 for bottled water in 5 gallon demijohn (incl. cooler rental); \$154,244 for single serve bottles	\$878,524 for bottled water in 5 gallon demijohn (incl. cooler rental); \$123,751 for single serve bottles; \$528,834 for Hurricane Sandy	\$451,606 for bottled water in 5 gallon demijohn (incl. cooler rental); \$139,479 for single serve bottles	\$414,623 for bottled water in 5 gallon demijohn (incl. cooler rental); \$18,120 for single serve bottles	\$406,683 for bottled water in 5 gallon demijohn (incl. cooler rental); \$247,617 for single serve bottles
18 Number of Green Cart permits, number of violations, locations, and number of operators that accept EBT	As of August 2012: there were over 475 greencarts with 28 using EBT machines	As of August 2013, there were over 482 greencarts with more than 90 using EBT machines	As of August 2014, there were 452 active greencarts with 113 using EBT machines	As of August 2015 there were 364 active greencarts with 112 using EBT machines	As of June 2016 there were 320 active greencarts with 110 using EBT machines
19 Number of vendors at GrowNYC farmers markets	138 Farmers' Markets and 54 Greenmarket locations	142 Farmers' Markets and 51 Greenmarket locations	142 Farmers' Markets and 53 Greenmarket locations	146 Farmers' Markets and 54 Greenmarket locations	142 Farmers' Markets and 51 Greenmarket locations

*Note: This is a correction from the 2015 Food Metrics report, which incorrectly reported the number of GreenThumb community gardens.

***Note: this is a correction from the 2015 Food Metrics report, which omitted FY 2015 DOHMH Nutrition Education Programs.

Appendix B

Summary of Watershed Agricultural Program Participants/Expenditures for FY 2016

Watershed County	No. of Farms	Type of Farm	Size (Acres)	NYC Financial Support Received (FY 2016)
Delaware	13	Beef	3,758	\$1,779,745
Delaware	22	Dairy	9,697	\$656,540
Delaware	3	Horse	390	\$76,899
Delaware	12	Mixed Livestock	1,210	\$240,144
Delaware	1	Vegetables	44	\$4,697
Total Delaware County:	51		15,099	\$2,758,025
Dutchess	2	Horse	490	\$59,027
Total Dutchess County	2		490	\$59,027
Greene	3	Beef	1,377	\$108,884
Greene	2	Dairy	976	\$320,463

* Information is based on a review of food and beverages purchased and a one month sample of menus and nutrition analysis from any month in the year prior to the report's publication. Agencies were asked to submit a copy of menus and nutrition analysis to the Health Department for verification

1 Compliance data largely based on information submitted by agency program sites and/or program caterer from a self-report survey tool and is not verified; agencies continue to work to enhance processes to assess accuracy of program site and/or caterer self-report and to improve data quality going forward

2 Compliance data based on field visits conducted by agency staff

3 Compliance data based on a combination of self-report survey and field visits or data collection coordinated by agency staff

4 Agency utilizes centralized menu and food ordering process; information for all locations based on agency assessment of products purchased and menu analysis conducted by agency nutritionists

5 Agency purchases food only

6 Agency serves snacks only

7 Department of Education serves unflavored & flavored milk and all flavored milk is fat free

Appendix I Green Cart Permits

	Bronx	Brooklyn	Queens	Manhattan	Staten Island	Total
Permits issued in 2016	78	33	24	42	0	177
Green Carts using EBT terminals (approximate)*	25	68	1	16	0	110
Persons on the Waiting List**	0	0	0	161	0	161
Currently Active Permits***	123	62	37	98	0	320

*Number fluctuates due to vendor usage

** The development and launch of Accela delayed the offer of permits to people on the wait list for Green Carts. The technical issues are now nearly resolved, and the Department expects to begin calling names off of the waiting lists by the end of the year. Waitlists are restricted by borough. Once a waitlist is exhausted, a new borough-specific waitlist is created. Vendors can be on multiple lists at the same time, so the number does not necessarily represent unique individuals. A new wait list is created approximately twice a year.

*** Currently active permits as of 6/30/2016

**LOCAL LAWS
OF
THE CITY OF NEW YORK
FOR THE YEAR 2011**

No. 52

Introduced by Council Members Dickens, Comrie, Gonzalez, James, Lander, Brewer, Van Bramer, Lappin, Chin, Levin, Jackson, Gennaro and Barron

A LOCAL LAW

To amend the administrative code of the city of New York, in relation to establishing reporting requirements regarding the production, processing, distribution and consumption of food in and for the city, and to repeal section 17-325.2 of the administrative code of the city of New York, relating to reports on green carts.

Be it enacted by the Council as follows:

Section 1. Sections 3-101 to 3-113 of chapter 1 of title 3 of the administrative code of the city of New York are designated as subchapter 1 and a new subchapter 2 is added to read as follows:

Subchapter 2

OFFICE OF LONG-TERM PLANNING AND SUSTAINABILITY

§ 3-120 Annual city food system metrics report. a. No later than September first, two thousand twelve, and no later than every September first thereafter, the office of long-term planning and sustainability shall prepare and submit to the mayor and the speaker of the city council a report regarding the production, processing, distribution and consumption of food in and for the city of New York during the previous fiscal year. Such report shall include:

1. the number, size in acres, county and type of production of, and annual dollar amount of city financial support received by, farms participating in the watershed agricultural program;

2. *the total dollar amount of expenditures by the department of education on milk and other food products that are subject to the United States department of agriculture country of origin labeling requirements, disaggregated and sorted by the product and country of origin in which the essential components of such food products were grown, agriculturally produced and harvested, to the extent such information is reported to the department of education. For any such product where there are multiple countries of origin, the total dollar amount of expenditures, disaggregated by product, shall be separately listed, to the extent such information is reported to the department of education. If the country of origin of milk or fresh whole produce is the United States, for the report due no later than September first, two thousand thirteen, and in every report thereafter, and to the extent such information is reported to the department of education, such report shall include the total dollar amount of expenditures on such milk or fresh whole produce that is local or regional. For purposes of this paragraph, milk or fresh whole produce shall be considered “local” if grown, agriculturally produced and harvested within New York state, and shall be considered “regional” if such food products were grown, agriculturally produced and harvested within the states of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia or West Virginia;*

3. *the location, sorted by community board and size in square feet, of each community garden located on city-owned property that is registered with and licensed by the department of parks and recreation, and whether each such garden engages in food production;*

4. *the number of food manufacturers receiving monetary benefits from the economic development corporation or industrial development agency and the annual dollar amount of such benefits per food manufacturer. For purposes of this paragraph, “food manufacturer” shall mean any natural person, partnership, corporation or other association that*

processes or fabricates food products from raw materials for commercial purposes, provided that it shall not include any establishment engaged solely in the warehousing, distribution or retail sale of products;

5. the daily number of truck and rail trips to or through Hunts Point Market for the purpose of delivering food to Hunts Point Market, to the extent such information is available. For purposes of this paragraph, "Hunts Point Market" shall mean the food distribution center located in Hunts Point in the borough of the Bronx, and shall include the meat, fish and produce markets operating at such location;

6. for the report due no later than September first, two thousand thirteen, and in every fifth report thereafter, the amount of grocery store space per capita, sorted by community board, and the number of grocery stores that opened during the past five calendar years, sorted by community board, to the extent such information is available. The office of long-term planning and sustainability shall request such information, as necessary, from the New York state department of agriculture and markets;

7. the number, community board, and number of employees, of grocery stores receiving financial benefits under the food retail expansion to support health program;

8. the number of establishments participating in the healthy bodega initiative administered by the department of health and mental hygiene, sorted by borough;

9. the number of job training programs administered by the department of small businesses services or the workforce investment board to aid individuals seeking work in food manufacturing, food supply, food service or related industries, sorted by borough;

10. the total number of meals served by city agencies or their contractors, including but not limited to meals served in public schools, hospitals, senior centers, correctional facilities,

and homeless shelters, and not including food sold in vending machines or by a concessionaire, sorted by agency;

11. for each required city agency food standard developed pursuant to executive order number one hundred twenty-two, dated September nineteenth, two thousand eight, the total number of programs or other relevant entities that purchase, prepare or serve meals, not including food sold in vending machines or by a concessionaire, that are in full compliance with each such standard and the total number that are not in full compliance with each such standard, sorted by agency;

12. the number of and amount of annual revenue earned from vending machines located in facilities operated by the department of education;

13. the number of persons sixty-five years or older receiving benefits through the supplemental nutritional assistance program (“SNAP”) administered by the United States department of agriculture;

14. the number and description of, and dollar amount spent by, the human resources administration on SNAP outreach programs;

15. the number and description of, and dollar amount spent on, nutrition education programs administered by the human resources administration and department of health and mental hygiene;

16. the number of salad bars in public schools and in hospitals operated by the health and hospitals corporation, respectively, sorted by borough;

17. the total amount expended by the department of citywide administrative services to purchase water other than tap water;

18. information concerning the green cart initiative administered by the

department of health and mental hygiene, including the number of applications for permits, the number of permits issued, the number of persons on the waiting list, the number of violations issued to green carts, the location of such carts when such violations were issued and, to the extent such information is available, the number of permit holders who accept electronic benefit transfer, sorted by borough; and

19. the number of vendors at greenmarkets, farmers' markets and similar markets operated by the council on the environment of New York city or any successor entity, and the average number of vendors at such markets, sorted by borough.

b. Each annual report prepared pursuant to subdivision a of this section shall be made available to the public at no charge on a website maintained by or on behalf of the city of New York.

§ 2. Section 17-325.2 of the administrative code of the city of New York is
REPEALED.

§ 3. This local law shall take effect immediately.

THE CITY OF NEW YORK, OFFICE OF THE CITY CLERK, s.s:

I hereby certify that the foregoing is a true copy of a local law of The City of New York,
passed by the Council onJuly 28, 2011..... and approved by the Mayor
onAugust 17, 2011.....

MICHAEL M. McSWEENEY, City Clerk Clerk of the Council.

CERTIFICATION PURSUANT TO MUNICIPAL HOME RULE §27

Pursuant to the provisions of Municipal Home Rule Law §27, I hereby certify that the enclosed Local Law (Local Law 52 of 2011, Council Int. No. 615-A) contains the correct text and was passed by the New York City Council on July 28, 2011 approved by the Mayor on August 17, 2011 and returned to the City Clerk on August 17, 2011.

JEFFREY D. FRIEDLANDER, Acting Corporation Counsel.
