PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held November 9, 1906, the following petition was received:

In the matter of the application of the Long Island Railroad Company, as lessee of the Nassau Electric Railroad Company, and said Nassau Electric Railroad Company, for the construction of an electric railroad on portions of Atlantic avenue, in the Borough of Brooklyn, City of New York.

To the Board of Estimate and Apportionment:

The petition of the undersigned respectfully shows:

First—By chapter 256 of the Laws of 1832, the Brooklyn and Jamaica Railroad Company was organized and empowered to construct a railroad, "with such appendages as may be deemed necessary for the convenient use of the same," between Brooklyn and Jamaica.

In addition to the general powers given by law, the corporation was authorized to prescribe the manner in which the railroad should be used, and by what force the carriages to be used thereon may be propelled.

Second—That thereafter it constructed a steam surface railroad upon a right of way which it acquired by purchase or condemnation proceedings, portions of which line were included within the limits of what is now Atlantic avenue.

Third—By chapter 178 of the Laws of 1834 the Long Island Railroad Company was organized and empowered to construct a railroad from Greenport to a point on the waters adjacent to Brooklyn, "with such appendages as may be deemed necessary for the convenient use of the same," with power to prescribe the manner in which its road shall be used, and by what force the carriages to be used thereon may be propelled.

Fourth—By chapter 94 of the Laws of 1836 the Brooklyn and Jamaica Railroad Company was authorized to lease its railroad from Brooklyn to Jamaica to the Long Island Railroad Company, and it was provided that the use of the said Brooklyn and Jamaica Railroad, under such lease, should be taken as a performance of the obligations on the part of the Long Island Railroad Company to construct its road from Greenport to Brooklyn.

Fifth—This lease was made of all the corporate rights and franchises of the said Brooklyn and Jamaica Railroad Company, and has been extended from time to time, and now has seventy (70) years to run. The Long Island Railroad Company under it and under its own charter has been for many years operating a double-track steam railroad over the right of way formerly of the Brooklyn and Jamaica Railroad Company, situated in the center of what is now Atlantic avenue, from the junction of Atlantic and Flatbush avenues, in the Borough of Brooklyn to Jamaica and points eastward thereof.

Sixth—The Brooklyn and Jamaica Railroad Company was foreclosed and its property conveyed to the Atlantic Avenue Railroad Company or Brooklyn, and said Atlantic Avenue Railroad Company of Brooklyn was, on or about January 26, 1899, merged with the Nassau Electric Railroad Company, and the Nassau Electric Railroad Company is now possessed of all its property and franchises.

Seventh—By chapter 499 of the Laws of 1897, for the improvement of Atlantic avenue and for the removal of the steam railroad of the Long Island Railroad Company from the surface, it was provided that the railroad of the Atlantic Avenue Railroad Company of Brooklyn, "now leased and operated by the Long Island Railroad Company," between Flatbush avenue and Atkins avenue, should be changed by said companies "by depressing the same from Flatbush avenue to near the easterly side of Bedford avenue, so as to leave the surface free from the steam railroad tracks, fences and gates of the steam railroad of the Long Island Railroad Company then existing thereon." From this point the right of way of the railroad should be operated in an open cut, to a point between Bedford and Nostrand avenues.

From there running east the tracks should be raised and run on an elevated structure to the easterly side of Ralph avenue. From Ralph avenue the tracks were to descend to the grade of Atlantic avenue, at a point between Ralph and Howard avenues. From there they were to be operated in an open cut to the west side of Cooper place. From there they were to be placed below the surface of the street to a point near the east side of Stone avenue. From there the right of way should be through an open cut to a point near the westerly side of Jardine place, where it should coincide with the grade of Atlantic avenue. From there eastward it should be operated on a surface grade to near the easterly side of Snediker avenue. At this point the tracks were to be elevated, passing over Williams avenue at a height of eight feet, and over Alabama avenue at a height of twelve feet, and from the easterly side of Alabama avenue the tracks should be operated over an elevated structure to a point near Linwood avenue. From there they should descend to the grade of Atlantic avenue, near Atkins avenue, and from that point eastward should be operated on the existing grade.

Eighth—Said act also provided that when completed the Long Island Railroad Company, as lessee of the Atlantic Avenue Railroad Company of Brooklyn, was authorized and directed to run its trains "over such improvement and the road of such railroad as constructed and authorized by law," and no cars of other companies, without permission of the said Long Island Railroad Company, shall be run thereon or thereunder.

Ninth—By chapter 497 of the Laws of 1899 it is provided that whenever any right of way, grade or tracks of any steam railroad in any street, in any city of the first class, are required by law to be changed or altered by elevating or depressing the same for the purpose of discontinuing the use of steam power upon the surface of said highway or street, such alteration or change of grade shall not be deemed to curtail or affect any right which such company, or its

lessees or assigns, may have to maintain, and operate a surface passenger railroad within the limits of the right of way so depressed or elevated, and over or under the railroad tracks so depressed or elevated, with all turnouts, sidings or tracks necessary to secure the continuous connection of portions of such surface railroad. In the event that any such turnouts, sidings or tracks shall extend beyond the lines of the right of way of such railroad corporation whose tracks have been so depressed or elevated in or upon any of the streets or highways aforesaid, such turnouts, sidings or tracks so extending beyond the lines of such right of way shall only be constructed upon condition that the consent of the owners of one-half in value of the property bounded, and the consent also of the local authorities having the control of that portion of such street or highway upon which it is proposed to construct such turnout, siding or tracks, shall be first obtained. No such railroad shall be operated by steam locomotives, and shall not be used except for passenger traffic.

Tenth—That the change of grade provided in and by the aforesaid acts for the improvement of Atlantic avenue has been duly made, such portions of the aforesaid track required by said act to be depressed below the surface of the street have been so depressed, and such portions as were required to be elevated have been elevated, that the connections between the same have been constructed, and the trains of the Long Island Railroad Company are now being operated thereon by electricity.

Eleventh—That the tracks for an electrical railroad have been laid upon the aforesaid right of way of the said railroad, over or under the said improvement, with the exception of the following portions thereof, viz.:

1. From the westerly side of Bedford avenue to a point midway between Nostrand avenue and New York avenue.

2. From a point opposite Columbus place to a point near Louis place.

3. From a point opposite Olive place to a point nearly opposite Alabama avenue, with the exception of the portion of the south side of Atlantic avenue, between Snediker and Georgia avenues, occupied by the tracks of the Brooklyn and Rockaway Beach Railroad Company, over which the Long Island Railroad Company has the right to operate.

At these points, where either the cuts are located (being the portions of said right of way by which the trains from the depressed subway reach the surface), or the inclined portion of the elevated structure extends from the grade of the avenue to a place where there is sufficient headroom for the cars to pass thereunder. At these points the existence of these obstacles make it impossible to operate a continuous railroad upon the surface of said right of way.

Twelfth—That in order to secure a continuous connection and operation of said surface railroad, it is necessary that a turnout or siding, consisting of a single track on each side of said right of way, should be constructed in the various portions of Atlantic avenue lying between the points aforesaid, and also that the same should be connected with the tracks of the street surface railroad intersecting the same. That such sidings and connections have been duly located, and that the portions of the streets proposed to be occupied thereby are, and the general line of the improvement is designated on the blue print hereto annexed, marked "A," Drawing No. R-4. Maps showing each one of such sidings in detail are also hereto annexed, marked "B," "C," "D," "E" and "F" show the location of the poles carrying the electric wires.

Thirteenth—That your petitioners are advised and believe that under the statutes aforesaid, and under the provisions of law relative to the subject, your petitioners are authorized to construct said turnouts and sidings and to operate an electric railroad over the same in connection with the line constructed upon the surface of the aforesaid right of way as aforesaid, upon obtaining the consent of the local authorities of The City of New York, and the consent of the majority of the owners of the property abutting on said sidings, or, in lieu of the latter, the consent of the Appellate Division of the Supreme Court.

Fourteenth—That your petitioners have used diligent efforts to obtain the consent of the majority of said abutting owners, but have been unable so to do, and are now about to apply to the Appellate Division for its consent in lieu thereof.

Fifteenth—That the portions of Atlantic avenue over which the petitioners desire to obtain the consent of the City to operate, is only a very small portion of the entire route of the proposed railroad, the remainder being upon the property of your petitioners.

That this proposed railroad will be a trolley railroad of the most modern character, and its construction and operation will be a great public convenience, and will, as your petitioners are informed and believe, largely enhance the value of the property abutting on Atlantic avenue and of that in the vicinity. That your petitioners believe that a rental of one hundred dollars (\$100) a year for a franchise to operate each of four turnouts, or the aggregate annual rent of four hundred dollars (\$400) (which represents a capitalization of four per centum of \$10,000), would be a reasonable rent to pay for such privileges, and your petitioners hereby offer to pay the same to the City for its consent to such construction.

Wherefore, your petitioners respectfully pray that the Board of Estimate and Apportionment will grant to the Nassau Electric Railroad Company and the Long Island Railroad Company, as lessee of the Nassau Electric Railroad Company, the consent of The City of New York for the construction of a double track electrical railroad to be laid on the surface of Atlantic avenue in the Borough of Brooklyn, City of New York, one track thereof to be laid on each side of said avenue in the portions thereof adjoining the places where the right of way of the Long Island Railroad Company above mentioned is obstructed by the elevated and depressed tracks, to wit:

1. Leaving the said right of way at a point forty (40) feet westerly from the westerly side of Bedford avenue, and thence running with a single track on each side of the line of the said right of way and the inner rail of said tracks to be about four (4) feet distant therefrom, to a point about one hundred and fifty (150) feet easterly from the easterly line of Nostrand avenue, and thence curving inward, intersecting the said right of way and connecting with the tracks thereon.

2. Leaving the said right of way at a point about opposite the easterly line (if extended) of Columbus place, and running with a single track on each side of the line of the said right of way and the inner rail of said tracks to be about four (4) feet distant therefrom, to a point about opposite to the easterly side of Cooper place (if extended), and thence curving inward, intersecting the said right of way, and connecting with the tracks thereon.

3. Leaving the said right of way at a point approximately at the centre of Stone avenue, or Eastern Parkway Extension, and running with a single track on each side of the line of the said right of way, to a point about opposite the easterly curb line of Alabama avenue (excepting the portion of the southern side of Atlantic avenue between Snediker and Alabama avenues, occupied

by the existing tracks of the Brooklyn and Rockaway Beach Railroad Company, over which the Long Island Railroad Company has the right to operate); thence curving inward into the said right of way and connecting with the tracks laid thereon.

4. Together with the right to erect and maintain the necessary poles, wires and appurtenances, the poles supporting the wires by which said cars are to be operated to be placed as far as practicable within the limits of the right of way aforesaid.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
