PARK AT BEDFORD AVENUE AND LYNCH STREET, BROOKLYN.

The following report from the Park Commissioner was presented:

THE CITY OF NEW YORK—DEPARTMENT OF PARKS,
BOROUGHS OF BROOKLYN AND QUEENS—LITCHFIELD MANSION, PROSPECT PARK,
BOROUGH OF BROOKLYN, June 1, 1904.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—In compliance with the request of your Honorable Body of May 10 for my opinion as to the advisability of acquiring the property bounded by Flushing avenue, Bedford avenue, Lee avenue and Lynch street for a public park, I have the honor to report as follows:

I have thoroughly examined the site of the proposed park, the purchase of which has been recommended by the Local Board last year and is now again taken up, and find the same suitable for the purposes contemplated. While there are a number of rather expensive buildings on this site I have not been able to discover any property in this neighborhood against which the same objection could not be raised. The locality is a densely populated one, and there is no park in this vicinity. In fact, it has been noticed for many years that this is the only section of the City wherein no public park is located. Tompkins Park at Lafayette and Marcy avenues is the nearest to the site, being about one mile from it, while City Park to the west is a mile and a quarter distant. The small park under the Williamsburg Bridge to the north is about one mile distant, and Cooper Park to the east is over a mile and a half from this site. The proposed park site is bisected by Wallabout street, while Middleton street intersects Wallabout street at an angle of about forty-five (45) degrees in the middle of the park. It is not proposed to close Wallabout street, it being one of the most important thoroughfares in that district, but it will be no hardship to any one to close the short block of Middleton street, between Lee avenue and Wallabout street.

Respectfully,

M. J. KENNEDY, Commissioner.

The Comptroller moved that the matter be laid over until the first Public Improvement meeting in September, which motion was adopted by the following vote:

Affirmative—The Mayor, the Comptroller and the President of the Board of Aldermen—9.

Negative—The President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—7.

The President of the Borough of The Bronx moved that the petition be denied, which motion was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

REPORT No. 1555.

MAY 26, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on April 25, 1904, recommends a change in the map of The City by laying out thereon a public park, to be bounded by Bedford avenue, Atlantic avenue, Bedford place and Brevoort place. This action was prompted by a petition addressed to the President of the Borough of Brooklyn by J. Richard Taylor, M. D., and forty-eight others, which petition states that the grounds have been slightly cultivated for many years, and contain a forest of fine shade trees, which will require but small expense to convert into an attractive park.

The plot described consists of one city block, having a frontage of 427 feet along Bedford avenue and a depth of about 230 feet. It is at present divided into three parcels, which are assessed for purposes of taxation at \$182,000. The executive offices of the Brooklyn Public Library are located on one of these plots in a substantial brick building, the only building on the block, and belonging to the Brevoort estate. The grounds are well wooded, and opposite them to the north is a large apartment house, while to the south is the Twenty-third Regiment Armory. This plot if taken as a public park might make an admirable site for the central building of the Public Library System of Brooklyn, although I am advised that the Trustees have selected what was formerly the David M. Stone place, on Franklin avenue, at the foot of Hancock street, several blocks distant.

It is true that the park is central in its location and that there are no other public parks in the immediate vicinity. Although there is but one building on the site, it would doubtless be an expensive one to acquire, although less expensive than a similar area in this immediate vicinity. It is but one block distant from Fulton street, and is in the heart of the Bedford District. It is difficult to estimate what would be the actual cost if the property were purchased either by private sale or by condemnation, but judging from its adaptability for business purposes, I do not think it could be secured for less than \$450,000.

A map is herewith submitted, and the resolution itself contains a technical description for a public hearing, and it is recommended that such hearing be given.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

REPORT No. 2013.

MAY 31, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on May 5, 1904, recommending an alteration of the map or plan of The City of New York by laying out an extension of Bathgate avenue, from East One Hundred and Eighty-eighth street to Pelham avenue.

On March 25, 1904, a resolution of the Local Board recommending the laying out of Bathgate avenue through the northerly one of the two blocks covered by the resolution now offered was presented to the Board of Estimate and Apportionment, but was referred back to the President of the Borough, with a suggestion that it might be wise at this time to also lay out a street through the block between East One Hundred and Eighty-eighth and East One Hundred and Eighty-ninth streets, so as to provide a continuous thoroughfare along Bathgate avenue. The street, as now in use, has its northerly terminal at East One Hundred and Eighty-eighth street. The resolution now offered is in conformity with this suggestion.

The street as proposed under the original resolution was to have a width of 50 feet, while under the resolution now submitted it is to have a width of 60 feet, which is the same as that south of East One Hundred and Eighty-eighth street. Between East One Hundred and Eighty-eighth and East One Hundred and Eighty-ninth streets the land is partially occupied by the buildings of the St. Joseph's Institute for Deaf Mutes.

I do not understand that the placing of the street upon the map at this time will be followed by the immediate opening of the southerly block, but that by taking the action proposed the erection of further buildings upon the site of the street, which will ultimately be required, may be prevented.

Favorable action upon this resolution is recommended. The changes proposed are shown by the accompanying map and technical description.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by laying out an extension of Bathgate avenue, from East One Hundred and Eighty-eighth street to Pelham avenue, in the Borough of The Bronx, City of New York, more particularly described as follows:

LAYING OUT.

Bathgate avenue, which is at the present time laid out northerly as far as East One Hundred and Eighty-eighth street, is to be extended northerly to Pelham avenue at a width of sixty (60) feet and in such manner that it is a direct continuation of the lines in the block below East One Hundred and Eighty-eighth street.

GRADES.

1. The elevation of the grade at the intersection of Bathgate avenue with East One Hundred and Eighty-eighth street to be 85.0 feet above mean high water datum, as heretofore.

2. The elevation of the grade at the centre of the block between East One Hundred and Eighty-eighth street and East One Hundred and Eighty-ninth street to be 90.0 feet above mean high water datum.

3. The elevation of the grade at the intersection of Bathgate avenue with East One Hundred and Eighty-ninth street to be 86.0 feet above mean high water datum, and the grade established at a point 395 feet easterly of Washington avenue as 86.0 feet above mean high water datum is to be abandoned, making a uniform grade in East One Hundred and Eighty-ninth street, from Bathgate avenue to Washington avenue.

4. The elevation of the grade at the intersection of Bathgate avenue and Pelham avenue to be the same as heretofore, Pelham avenue having been graded at a uniform grade between Lorillard place and Washington avenue.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 16th day of September, 1904, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 16th day of September, 1904.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

REPORT No. 2014.

MAY 31, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on April 6, 1904, recommending a change in the map or plan of The City of New York by changing the grade of Hulst street, between Greenpoint avenue and the Long Island Railroad tracks, in the First Ward.

This change involves a length of seven blocks of Hulst street, or practically its entire length. The grades as now established differ very materially from the present surface, and when they were fixed it was the undoubted intention to cut away the high ground along the line of the street for use in filling the adjoining low sections. I under-

stand that the low ground is being filled in with material obtained from other sources, so that the natural surface of the locality may be adhered to much closer than originally intended. This street is in use and several buildings have been erected upon the abutting property. South of Thompson avenue these buildings practically conform with the existing surface which, in the extreme case in the vicinity of Anable avenue, is about 22 feet above the legal grade; through this portion of the street the proposed grade follows the present surface very closely and will conform with the improvements which have been made. North of Thompson avenue the grade is to be slightly raised from that heretofore adopted; there are a few buildings along this section, but few or none of them will be seriously injured, while most of them will be benefited by the proposed change, which has been laid out in connection with a study of the grades of adjoining streets also affected.

A map and technical description are herewith submitted.
Favorable action upon this resolution is recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the grade of Hulst street, between Greenpoint avenue and the Long Island Railroad tracks, in the First Ward, Borough of Queens, City of New York, more particularly described as follows:

REPORT No. 2027.

JUNE 2, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on May 19, 1904, initiating proceedings for opening Fifty-first street, between Ninth and New Utrecht avenues.

Title to Fifty-first street west of Ninth avenue has already been acquired under legal proceedings. Through the four blocks covered by the resolution now submitted the street is not in use or marked in any way upon the ground, a portion of the land being under cultivation and another portion being covered with a thin growth of timber. There are no buildings on the land to be acquired. The street is laid out upon the map of the City to have a width of 60 feet.

I see no reason why the resolution should not be approved, and would recommend such action, the cost of the proceeding to be assessed upon the property benefited.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of Fifty-first street, between Ninth avenue and New Utrecht avenue, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a special term of the Supreme Court, for the appointment of Commissioners of Esti-

mate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the land, tenements and hereditaments that shall or may be required for the purpose of opening and extending Fifty-first street, between Ninth avenue and New Utrecht avenue, in the Borough of Brooklyn, City of New York.

Resolved, That the cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

REPORT No. 2030.

JUNE 2, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on May 19, 1904, initiating proceedings for opening Senator street, between First and Fifth avenues.

Through the three blocks between Second and Fifth avenues an old, narrow lane is in use, the same following approximately the line laid out for Senator street. Between Fourth and Fifth avenues this lane has been macadamized and several buildings have been erected upon the abutting property. There are a few buildings between Second and Fourth avenues, while between First and Second avenues no street is in use, the land being inclosed by a fence. A change was made in the lines of this street on September 16, 1903, to permit of the construction of the structure for carrying the Third Avenue Elevated Railroad to the surface just south of Senator street. The street is laid out upon the map of the City to have a width of sixty feet. A frame stable encroaches upon the land to be taken in the block between Second and Third avenues.

The approval of this resolution is recommended, the cost of the proceeding to be assessed upon the property to be benefited.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of Senator street, from First avenue to Fifth avenue, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Senator street, from First avenue to Fifth avenue, in the Borough of Brooklyn, City of New York.

Resolved, That the cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

OPENING PARK AT EAST AND VAN ALST AVENUES, QUEENS.

The following communication and report of the Chief Engineer were presented:

THE CITIZENS' PUBLIC IMPROVEMENT ASSOCIATION
OF THE FIRST WARD OF THE BOROUGH OF QUEENS, CITY OF NEW YORK,
LONG ISLAND CITY, May 18, 1904.

The Honorable the Board of Estimate and Apportionment, City of New York, New York:

GENTLEMEN—The Citizens' Public Improvement Association of the First Ward of the Borough of Queens more than two years ago began agitating for a small park to be located in the Hunter's Point District of Long Island City, between East and Van Alst avenues and Ninth and Twelfth streets.

All the arguments in favor of this park were presented in detail before the preceding Board of Estimate and Apportionment and they unanimously approved of the site and requested the President of the Borough of Queens to have maps drawn covering the proposed area; these maps were completed and approved on May 29, 1903.

On December 11, 1903, Park Commissioner Richard Young, in requesting the Board to take steps to acquire the property, stated his opinion, as follows:

"The proposition is a most desirable one, the property being located in the centre of Long Island City, immediately fronting the public school, with a registry

of about nineteen hundred pupils. There is but one building, a small frame church, on the property. The transformation into a public park will be inexpensive and of great value to that section of the city, which is practically without any park accommodation whatever."

By request of Comptroller Grout the matter was laid over until the first public improvement meeting in March of this year.

At the meeting on March 11, 1904, President Cassidy being absent, the matter was brought up for consideration and, on motion of the Comptroller, was laid on the table.

In view of the desirability of a small park in this locality and the rapidly increasing value of the land our association feels that your Honorable Board should take steps to acquire the land without further delay.

Yours respectfully,

JOHN L. STREEVER,

President, Citizens' Public Improvement Association.

REPORT No. 2031.

JUNE 4, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—In the accompanying letter from Mr. John L. Streever, President of the Citizens' Public Improvement Association of Long Island City, attention is called to the fact that, while the last Board of Estimate and Apportionment laid out a small park in Long Island City, bounded by Ninth and Twelfth streets and Van Alst and East avenues, and while the initiation of the proceedings to acquire title to this park was recommended by the Commissioner of Parks for the Boroughs of Brooklyn and Queens, no steps have yet been taken to do so. Mr. Streever asks the Board to take steps to acquire the land without further delay. The facts in the case are as follows:

The map laying out the park was approved after a public hearing on May 29, 1903. No resolution was ever received from the Local Board of the District recommending the acquisition of the property. The Commissioner of Parks for the Boroughs of Brooklyn and Queens, however, under date of December 8, 1903, addressed a letter to the Board of Estimate and Apportionment asking that the property be acquired. This communication is printed on page 2823 of the minutes of the Board of Estimate and Apportionment for December 11. The matter was laid over until the first public improvement meeting in March of 1904. It was on the calendar for that date, but was again laid on the table.

There is no doubt but that property values in Long Island City are increasing very rapidly, and assuming that the action of the former Board of Estimate and Apportionment in laying out this park upon the map of the City is to be followed by the acquisition of the property and its conversion into a public park, it would seem that the present time is a favorable one for its purchase, and it is recommended that the Corporation Counsel be authorized to take the necessary steps in the matter, the entire expense to be borne by the City at large.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

After hearing Mr. John L. Streever in support of the application, on motion of the Comptroller, the matter was laid over until the first public improvement meeting in September.

LANDS FOR WATER SUPPLY IN WESTCHESTER COUNTY.

The following communication from the Commissioner of Water Supply, Gas and Electricity and report of the Chief Engineer were presented and placed on file:

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,
COMMISSIONER'S OFFICE, NOS. 13-21 PARK ROW,
CITY OF NEW YORK, May 17, 1904.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment:

DEAR SIR—I herewith forward for your approval map showing lands in the Towns of Lewisboro, Poundridge and Bedford, Westchester County, New York, to be acquired for the purpose of maintaining, preserving and increasing the supply of pure and wholesome water for the use of The City of New York. This map, covering the property for which I would recommend that proceedings be immediately commenced to acquire the land shown thereon, was approved by the Commissioner of Water Supply under section 378, Laws of 1897, and submitted to the Board of Public Improvements for its approval, and was approved and adopted by the said Board of the 27th day of December, 1899, after a public hearing, as shown by the signatures on the tracing forwarded. The acquisition of these lands was also recommended and approved by the then Commissioner of the Department of Water Supply, Mr. William Dalton, and Mr. G. W. Birdsall, Chief Engineer.

Accompanying also will be found the assessed valuation of the land to be acquired under the proposed proceedings.

Very truly yours,

JOHN T. OAKLEY, Commissioner.

REPORT No. 2032.

JUNE 4, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Under date of May 17, 1904, the Commissioner of Water Supply, Gas and Electricity addressed to the Board of Estimate and Apportionment the accompanying letter, submitting for its approval a map showing lands in the towns of Lewisboro, Poundridge and Bedford, Westchester County, to be acquired for the purpose of maintaining, preserving and increasing the supply of pure and wholesome water for The City of New York.

As is stated by the Commissioner in his letter, the same map was approved by the Hon. William Dalton, Commissioner of Water Supply in 1899, and was submitted to the Board of Public Improvements for its approval, which approval was given on December 27, 1899 (see page 2695 of the printed minutes of that date). I think that the Commissioner is acting under a misapprehension in again submitting the plan to the Board of Estimate and Apportionment. The provisions of the Charter of 1897 relating to the acquisition of land for this purpose are identical with the provisions of the Charter of 1901, except that in the latter the Board of Estimate and Apportionment is substituted for the Board of Public Improvements. Both the original and the amended Charters further provide that, after the approval of the map by the Board of Public Improvements in one case and the Board of Estimate and Apportionment in the other, and the filing of the said maps, "the Corporation Counsel for and on behalf of The City of New York shall * * * apply to the Supreme Court * * * for the appointment of Commissioners of Appraisal." It would seem, therefore, that if the Commissioner of Water Supply, Gas and Electricity files his plans as required by the Charter, the Corporation Counsel has full power to proceed in the acquisition of the land required. Any action by this Board, therefore, seems unnecessary, and it is recommended that the plans be returned to the Department of Water Supply, Gas and Electricity.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The Mayor having to withdraw to attend another meeting, the President of the Board of Aldermen took the chair.

President of the Borough of The Bronx.

REPORT No. 2054.

JUNE 13, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution adopted by the Local Board of the Morrisania District on May 19, 1904, recommends to the Board of Estimate and Apportionment that the map of The City of New York be changed by laying out a small public park to be known as Joseph Rodman Drake Park, on the block bounded by Eastern Boulevard, Whittier street, Longfellow street and East Bay avenue, in the Borough of The Bronx. The object of the laying out of this park is the preservation of the grave of Joseph Rodman Drake.

The grave is in a small cemetery formerly belonging to the Hunt family, which owned a large estate at this point and from whom the name of the locality, Hunt's Point, is derived. This cemetery is about 130 feet in width and of the same average length. Whittier street, as at present laid down upon the map, will pass directly through it, but the poet's grave will fall outside the lines of the street. The proposition is to take 200 feet from the northerly end of this block, creating a small park 200 feet square. The cemetery is on a wooded knoll near the mouth of the Bronx river, although the larger part of the area which it is proposed to convert into a park is low ground, which is occasionally flooded after heavy rains, combined with high tides.

The movement to preserve this grave has undoubtedly been prompted by the suggestion that the poet's body be removed to another State, an act which would be greatly deplored by the residents of The Bronx, who appear to have set aside this locality as a sort of poets' corner, four adjacent streets bearing the names Longfellow, Whittier, Drake and Halleck. While it may be said that a sufficiently large area has already been reserved for parks in the Borough of The Bronx, and that the present suggestion is due to sentiment and not necessity, it must be admitted that the object to be attained is a desirable one, and it is recommended that a public hearing be given, a map and technical description being herewith submitted.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442, of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by laying out a public park to be known as Joseph Rodman Drake Park, at Hunt's Point road, Eastern Boulevard and Whittier street, in the Borough of The Bronx, City of New York, more particularly described as follows:

Beginning at the intersection of the southern line of Eastern Boulevard with the western line of Whittier street.

1. Thence running southerly along the western line of Whittier street for 200 feet;
2. Thence westerly on a line parallel to the Eastern Boulevard for 200 feet to the eastern line of Longfellow street;
3. Thence northerly along the eastern line of Longfellow street to the southern line of Eastern Boulevard;
4. Thence easterly along said southern line of the Eastern Boulevard for 200 feet to the point of beginning.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 16th day of September, 1904, at 10.30 o'clock.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 16th day of September, 1904.

"Beginning at a point on the westerly line of Whittier street 200 feet south of the southerly line of the Eastern Boulevard; thence running westerly on a line parallel to the Eastern Boulevard 200 feet to the easterly line of Longfellow street; thence running southerly along the easterly line of Longfellow street for 50 feet; thence running easterly on a line parallel to the Eastern Boulevard for 200 feet to the westerly line of Whittier street; thence running northerly along the westerly line of Whittier street for 50 feet to the point or place of beginning."

In the Local Board of the Newtown District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Queens; and

President of the Borough of Queens.

REPORT No. 2051.

JUNE 10, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board of the Newtown District, Borough of Queens, adopted on January 28, 1904, initiates proceedings to open Fresh Pond road, from Flushing avenue to Myrtle avenue, in the Second Ward, in accordance with the map adopted by the Board of Estimate and Apportionment on November 13, 1903.

The map referred to is that of what is known as the Maspeth Section, included in the former Town of Newtown, now the Second Ward of the Borough of Queens. This map gives the widths of the streets and established grade at street intersections, but it does not give block dimensions, and, therefore, it does not definitely locate the different streets shown upon it. This absence of block dimensions renders it impossible, in most cases, to positively fix street lines, and there is a question whether street opening proceedings can properly be instituted where definite information as to the exact location of these street lines is lacking. In the case of the street under consideration, however, its location is fixed with fair accuracy by the position of an old road which is included within its lines.

Fresh Pond road is one of the old streets traversing the Maspeth Section, beginning at Myrtle avenue, where it is crossed by the Manhattan Beach Division of the Long Island Railroad, and running northerly in an irregular line to Grand street. The old street had an irregular width, averaging about 50 feet. On the map the lines are straightened, departing at both ends from the old road, while the street is laid down to have a width of 80 feet. It is occupied by a double-track trolley railroad.

The old Fresh Pond road is fully dedicated by many years of public use, and the opening proceeding is really a widening of this old road, and, in my judgment, should be treated as such. The Topographical Engineer of the Borough has prepared a map showing the dedicated portion of the street, and the position of this dedicated portion relative to the new lines as established by the map of November 13, 1903. I find, by computing the area which has been dedicated, that it amounts to 299,240 square feet, and that the length of the street to be opened is 7,895 feet. This would be equivalent to a dedicated street 38 feet in width for the entire length of the proposed improvement. There would remain, therefore, a strip having an average width of 42 feet still to be acquired.

If this were treated as an opening of a street 42 feet wide, in addition to the 38 feet already dedicated, and the City, under the rule established by the former Board of Estimate and Apportionment, were to assume one-third of the cost of acquiring that portion over 60 feet in width, the amount to be borne by the City at large would be 16 per cent. of the total cost, assuming that only nominal awards, if any, will be made for the fee of that portion of the street already dedicated. If treated as a widening, the City assuming one-half the cost of acquiring that portion of the street over 60 feet in width, the proportion borne by the City would be 24 per cent. of the total.

Inasmuch as there are a number of buildings along this street, I would recommend that the latter course be adopted, with the understanding that the 24 per cent. of the total cost to be assumed by the City shall include that portion of the cost of the buildings which might be imposed upon the City by the Commissioners of Estimate and Assessment under the street opening provisions of the Greater New York Charter.

The street is an important one, and I do not think that 80 feet is a greater width than will be required by the traffic which it will sustain.

The approval of the resolution is recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of Fresh Pond road, from Flushing avenue to Myrtle avenue, Second Ward, in the Borough of Queens, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a special term of the Supreme Court, for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Fresh Pond road, from Flushing avenue to Myrtle avenue, Second Ward, in the Borough of Queens, City of New York.

Resolved, That twenty-four per cent. of the cost and expense of said proceedings, inclusive of any sum which may be assessed on The City of New York by the Commissioners of Estimate and Assessment under the Charter, for taking buildings, shall be borne and paid by The City of New York, and that the remainder shall be assessed upon the property deemed to be benefited thereby.

Affirmative—The President of the Board of Aldermen, the Comptroller, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—13.

REPORT No. 2050.

JUNE 9, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on April 25, 1904, recommending an alteration in the map or plan of The City of New York by changing the grades of streets in the territory bounded by Riverdale avenue, Thatford avenue, Hegeman avenue, East Ninety-eighth street and Saratoga avenue.

On March 11, 1904, changes were made in the grades of streets in the adjoining section to the north, with the understanding that changes were to be made in the territory included within the limits of the resolution now offered.

Rockaway avenue has been in use for many years through this territory, and the street is occupied by trolley tracks. The changes here proposed will have the effect of making the present surface conform much closer with the established grade

than at present. The remaining changes are on land owned by the Brooklyn Development Company, which is now making extensive improvements in the locality, having already graded and flagged some of the streets; this company is the petitioner for the change.

The Engineer of the Highway Bureau reports that the changes proposed are in harmony with the desires of the property owners in the vicinity and acceptable to the Sewer Bureau.

The approval of these changes are hereby recommended, and the same are shown by the accompanying map and technical description.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

REPORT No. 2047.

JUNE 9, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on May 19, 1904, recommending an alteration in the map or plan of The City of New York by changing the grade of Harrison avenue, between Tremont and Burnside avenues.

This street closely adjoins the old Croton Aqueduct, which, in the section adjoining Burnside avenue, is carried in a high embankment. The change proposed in the grade of Harrison avenue consists in slightly lowering the grade at the Tremont avenue end and raising it at the Burnside avenue end, these changes being made by the introduction of crowns in the middle of each of the two blocks. The maximum change consists of raising the grade at the summit near Burnside avenue about 15.5 feet. The intention of the resolution is to make the official grade correspond much closer with the existing surface than does that now adopted.

A resolution providing for regulating and grading the southerly section extending from the drainage street to Tremont avenue has been favorably reported, the proposed change between these limits being very slight.

The approval of the resolution now offered is recommended, and there are herewith presented a map and technical description showing the change proposed.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by changing the grade of Harrison avenue, between Tremont avenue and Burnside avenue, in the Borough of The Bronx, City of New York, more particularly described as follows:

1. The elevation of the grade of Harrison avenue at Tremont avenue to be 117.0 feet above mean high-water datum, as heretofore;

2. The elevation of the grade at a point 400 feet southerly of the centre line of the Drainage street to be 122.0 feet above mean high-water datum;

3. The elevation of the grade at the centre line of Drainage street to be 112.0 feet above mean high-water datum;

4. The elevation of the grade at a point 500 feet southerly from the point of tangency at Burnside avenue to be 115.5 feet above mean high-water datum;

5. The elevation of the grade at the point of tangency where Harrison avenue connects with Burnside avenue to be 91.0 feet above mean high-water datum.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 16th day of September, 1904, at 10:30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the City RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 16th day of September, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on May 10, 1904, recommending an alteration of the map or plan of The City of New York by laying out West One Hundred and Sixty-first street, between the Boulevard Lafayette and the land of the New York Central and Hudson River Railroad Company.

The proposed street would have a width of sixty feet and a length of about two hundred and eighty-five feet, terminating at the westerly end at a retaining wall to be built along the railroad property.

Several buildings have been erected upon the Boulevard Lafayette just south of the proposed street, which latter is not in use and which is not marked upon the ground. I am advised by the counsel for the petitioner for this change in the map that a retaining wall, which is now being constructed in this vicinity, will form the northerly boundary of the street, which will be several feet above the grade of the present surface; also that the said petitioner is the owner of all of the land to be taken for street purposes, and that, as soon as the street has been placed upon the map of the City, he intends to give a deed of the same.

Favorable action upon this resolution is recommended. A map and technical description showing the change proposed are herewith submitted.

REPORT No. 1516.

JUNE 2, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on May 19, 1904, initiating proceedings for the construction of a sewer in Eighty-fifth street, between First and Third avenues.

Proceedings to open Eighty-fifth street through five sections, one of which includes the portion between Narrows and Fifth avenues, were authorized on December 5, 1900, and the oaths of the Commissioners of Estimate and Assessment were filed on September 4, 1902. Eighty-fifth street is in use through the two blocks covered by the resolution now submitted, the roadway in the easterly block having been shaped, while in the westerly one it is only a rough, narrow lane. A house has been erected upon the abutting property in each block, and several of the corners have been similarly improved.

The sewer is required not only for local drainage, but also as an outlet for sewers in Third avenue. The outlet sewers required for the sewer now proposed have been provided, and the approval of the resolution is recommended, the work to be done comprising the following:

100 linear feet 15-inch pipe sewer.

1,418 linear feet 12-inch pipe sewer.

The estimated cost of construction is \$7,700, and the assessed valuation of the property to be benefited is \$131,575.

I would recommend that title to Eighty-fifth street, between the easterly side of Third avenue and the westerly side of First avenue, be vested in the City on August 15, 1904.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

"Whereas, The Board of Public Improvements on the 5th day of December, 1900, adopted a resolution requesting the Corporation Counsel to acquire title, whenever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Eighty-fifth street, from Narrows avenue to Fifth avenue; from Fort Hamilton avenue to Tenth avenue, from Twelfth avenue to Waters avenue, from Fifteenth avenue to Sixteenth avenue, and from Eighteenth avenue to Stillwell avenue, in the Borough of Brooklyn, City of New York; and

"Whereas, It appears to the Board of Estimate and Apportionment, from the surveys made and information furnished to it that there are buildings upon the lands that shall or may be required for the purpose of opening and extending said Eighty-fifth street; and

"Whereas, The said Board has received written notice from the Corporation Counsel that Commissioners of Estimate and Assessment have been appointed by the Supreme Court in proceedings to acquire title to said Eighty-fifth street, and that the oaths of said Commissioners of Estimate and Assessment were duly filed, as required by law, on the 4th day of September, 1902; therefore be it

"Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 15th day of August, 1904, the title to each and every piece or parcel of land lying within the lines of said Eighty-fifth street, between the easterly side of Third avenue and the westerly side of First avenue, in the Borough of Brooklyn, City of New York, so required, shall be vested in The City of New York."

Affirmative—The President of the Board of Aldermen, the Comptroller, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—13.

REPORT No. 1527.

JUNE 2, 1904.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bushwick District, Borough of Brooklyn, adopted on May 16, 1904, initiating proceedings for the construction of a sewer in Ashford street, between Glenmore and Pitkin avenues.

Proceedings to open Ashford street, between Atlantic and New Lots avenues, were confirmed in 1902, and title to the land was vested in the City on May 11, 1900, upon the filing of the oaths of the Commissioners of Estimate and Assessment.

The property abutting on the block for which this sewer is proposed has been improved by the erection of nine houses and a church. The roadway is in extensive use, and, the outlet sewer having been authorized, I believe that favorable action may be taken upon the improvement proposed.

The work to be done comprises:

500 linear feet of 12-inch pipe sewer.

2 receiving basins.

The estimated cost of the improvement is \$2,900, and the assessed valuation of the property to be benefited is \$35,010.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Proceedings for opening Ninth avenue, which was formerly designated as Kouwenhoven street, were initiated by the Board of Public Improvements on June 21, 1899, and the oaths of the Commissioners of Estimate and Assessment were filed on November 20, 1901. A roadway is in use through the block for which this improvement is proposed, the same having been roughly shaped at the northerly end, while at the southerly end of the block it is little more than a wagon trail. About a dozen dwellings and a factory building have been erected upon the block. The approval of this resolution is recommended, the work to be done comprising the following:

The estimated cost of construction is \$7,000, and the assessed valuation of the property to be benefited is \$21,900.

It is recommended that title to Ninth avenue (Kouwenhoven street) between the southerly line of Pierce avenue and the northerly line of Graham avenue be vested in the City on August 1, 1904.

REPORT No. 1984.

MAY 18, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on April 6, 1904, initiating proceedings for grading, curbing and flagging Academy street, between Broadway and Grand avenue, in the First Ward.

Title to Academy street has been vested in the City under opening proceedings which are yet pending. Through the three blocks between Jamaica and Grand avenues a neatly-shaped roadway is in use, and a large number of detached frame dwellings have been erected upon the abutting property. In the block between Jamaica avenue and Broadway the roadway is unshaped, and only a few houses have been built. I

see no reason why the improvement proposed under this resolution should not be authorized, and would recommend such action, the work to be done comprising the following:

6,500 cubic yards excavation.
4,000 linear feet curbing.
20,000 square feet flagging.

The estimated cost of construction is \$15,200, and the assessed valuation of the property to be benefited is \$162,050.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

REPORT No. 2015.

MAY 31, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on January 28, 1904, initiating proceedings for grading and curbing Nott avenue, between Van Alst and Vernon avenues, and for laying an asphalt pavement.

This resolution affects a length of three blocks of Nott avenue. It is accompanied by a report of the Engineer in Charge of the Topographical Bureau of the Borough, showing that the land was formerly owned by the trustees of Union College, and that by deed of December 14, 1874, the same was ceded to Long Island City. Attention is called in this report to the fact that the deed is on file in the Comptroller's office, but has never been recorded in the County Clerks' office.

The street is in use for apparently its full width and has evidently been graded. The sewer has been built, the gas-main has been laid and the laying of the water-pipe is under contract. No buildings have been erected upon the property abutting on this street, between Van Alst and East avenues; between East avenue and Hancock street there are about a dozen frame dwellings and a brick building, while between Hancock street and Vernon avenue the northerly side of the street has been solidly built up.

I believe that there can be no question as to the existence of a sufficient title in the City to warrant the authorization of the work proposed under this resolution, and such authorization is hereby recommended.

The work to be done comprises the following:

1,000 cubic yards excavation.
2,800 linear feet curbing.
9,700 square yards asphalt.

The estimated cost of construction is \$27,100 and the assessed valuation of the property to be benefited is \$123,900.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. REPORT No. 2016.

JUNE 1, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on April 25, 1904, initiating proceedings for grading, curbing and guttering Bay Sixteenth street, between Cropsey avenue and Eighty-sixth street.

Proceedings to open Bay Sixteenth street (the name of which has been changed to New Utrecht avenue) through the block between Bath and Cropsey avenues, were authorized in 1901 and discontinued in 1903, a dedication to public use having been established in the latter year. A report is now before the Board recommending the authorization of a sewer through this block. Through the three blocks between Bath avenue and Eighty-sixth street the street seems to be in use for its full width, the roadway is shaped almost throughout, the sidewalk is practically complete, most of the courtyard line has been fenced, the water-main has been laid, the street is lit with gas and the roadway is lined with old shade trees. There are a large number of detached houses upon the abutting property.

I believe there can be no question as to the sufficiency of the evidences of dedication through this street, although no affidavits to show such dedication accompany the resolution, nor does the report of the Engineer of the borough indicate that such dedication has been established.

Favorable action is recommended, the work to be done comprising the following:

1,200 cubic yards grading.

4,040 linear feet curbing.

1,340 square yards brick gutter.

The estimated cost of construction is \$6,400 and the assessed valuation of the property to be benefited is \$45,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 2017.

JUNE 1, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on April 25, 1904, initiating proceedings for the construction of a sewer in Bay Nineteenth street, between Benson and Bath avenues.

Title to the street through this block has never been acquired under formal proceedings, but the resolution is accompanied by two affidavits certifying that it has been dedicated to public use for more than five years. A portion of the roadway is occupied by the steam railroad tracks of the Brooklyn Rapid Transit Company, and a platform has been erected for railroad use partly in the street. The remainder of the roadway is in use by the public. The courtyard line has been fenced for nearly the entire block, the street is lit by gas, and the abutting property has been improved by the erection of a large number of buildings.

I believe that the evidences of dedication are at least sufficient to warrant the occupancy of the street for the construction of the proposed sewer. The outlet sewer has been authorized, and the approval of this resolution is recommended.

The work to be done comprises the following:

50 linear feet 18-inch pipe sewer.

530 linear feet 15-inch pipe sewer.

The estimated cost of construction is \$3,300 and the assessed valuation of the property to be benefited is \$78,100.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, adopted on April 25, 1904, initiating proceedings for grading, curbing and guttering Bay Seventeenth street, between Cropsey avenue and Eighty-sixth street.

Title to these four blocks has never been acquired under formal proceedings, but the resolution is accompanied by two affidavits setting forth that for more than five years the street has been dedicated to public use for its full width. I believe that the evidences of dedication are sufficient, and would recommend the approval of the resolution, the work to be done comprising the following:

- 1,200 cubic yards grading.
- 4,040 linear feet curbing.
- 1,340 square yards brick gutter.

The estimated cost of construction is \$6,400, and the assessed valuation of the property to be benefited is \$45,400.

REPORT NO. 2019.

JUNE 1, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on April 25, 1904, initiating proceedings for grading and curbing East Twenty-first street, between Cortelyou and Dorchester roads.

Title to this block has never been acquired under formal proceedings, but the resolution is accompanied by two affidavits certifying that it has been dedicated to public use for more than five years.

I find that the street has been roughly shaped and is in use apparently for its full width. The roadway is lined with shade trees, the sidewalk is complete, water and gas mains have been laid and a sewer has been built. The abutting property has been improved by the erection of a large number of detached houses.

I believe that the evidences of dedication to public use justify the affidavits, and would recommend the approval of the resolution.

The work to be done comprises the following:

- 1,200 cubic yards grading.
- 1,236 linear feet curbing.

The estimated cost of construction is \$1,600, and the assessed valuation of the property to be benefited is \$38,500.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Flatbush District, duly adopted by said Board on the 25th day of April, 1904, and approved by the President of the Borough of Brooklyn on the 30th day of April, 1904, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To regulate and grade East Twenty-first street, between Cortelyou road and Dorchester road, in the Borough of Brooklyn, and to set or reset curb of said street where not already done,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$1,600, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$38,500, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The President of the Board of Aldermen, the Comptroller, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—13.

REPORT NO. 2020.

JUNE 1, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on April 25, 1904, initiating proceedings for laying an asphalt pavement on East Twenty-first street, between Cortelyou and Dorchester roads.

In a previous report of this date, upon the grading and curbing of East Twenty-first street, between the limits named in this resolution, the authorization of which was recommended, attention was called to the fact that the street has been dedicated to public use, and the evidences of such dedication were fully detailed.

All of the subsurface improvements have been provided, and since the grading required is of very small magnitude, I see no reason why the resolution now submitted be not approved, such action being recommended.

The work to be done comprises the laying of 2,200 square yards of asphalt pavement at an estimated cost of \$5,200, while the assessed valuation of the property to be benefited is \$38,500.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

REPORT No. 2022.

JUNE 2, 1904.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Chester District, Borough of The Bronx, adopted on April 7, 1904, initiating proceedings for the construction of temporary sewers in the following streets:

Sixth avenue, between Arthur street and Fifth street.

Third street, between first summit west of Sixth avenue and Sixth avenue.

Fourth street, between first summit west of Sixth avenue and Sixth avenue.

Fifth street, between first summit west of Sixth avenue and Sixth avenue.

These streets are located in the Wakefield section and have been laid out upon the tentative map of the Chester District adopted on May 29, 1903. The resolution is accompanied by a report of the Chief Engineer of the Borough stating that the streets have been used as thoroughfares for the last seven years. The streets as dedicated do not appear to be of the full width proposed under the official map, but I believe there can be no question as to the dedication being sufficient to carry out the proposed work.

A few frame dwellings have been erected upon the property abutting on each street. The outlet sewer has been constructed, and the approval of this resolution is recommended, the work to be done comprising the following:

550 linear feet 8-inch pipe sewer.

2,100 linear feet 6-inch pipe sewer.

25 manholes.

The estimated cost of construction is \$9,100, and the assessed valuation of the property to be benefited is \$57,142.

Herewith is also transmitted a map showing the temporary sewers which it is proposed to construct under this resolution, and the approval of the same is recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York hereby approves the map submitted by the President of the Borough of The Bronx, entitled "Plan of drainage for temporary sewers (for house drainage only) in Sixth avenue, between Arthur street and Fifth street; Third street, between first summit west of Sixth avenue and Sixth avenue; Fourth street, between first summit west of Sixth avenue and Sixth avenue; and Fifth street, between first summit west of Sixth avenue and Sixth avenue," and dated June 17, 1904.

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$9,100; and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$57,142, having also been presented, it is

REPORT No. 2024.

JUNE 2, 1904.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a communication from the Secretary to the President of the Borough of Manhattan, bearing date of June 2, 1904, transmitting for approval a map providing for an amendment to Drainage District 30A.

This amendment affects the territory bounded by the Harlem river on the north and east, by West Two Hundred and Fifteenth street on the south, and by a line approximately midway between Broadway and Seaman avenue on the west. Under the plan now existing an outlet for a portion of this drainage was provided along a line which was the extension of West Two Hundred and Nineteenth street from Ninth avenue to the Harlem river; this street is not laid out upon the map between these limits, and it was proposed to secure an easement for the construction of the sewer. Under the plan now offered the necessity for securing land for sewer purposes is avoided, the drainage being carried to West Two Hundred and Sixteenth street, which street extends to the river.

The change proposed is, in my judgment, a desirable one, and the approval of the map is hereby recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 445 of the Greater New York Charter, hereby approves the map submitted by the President of the Borough of Manhattan, entitled "Amendment to Sewerage District No. 30-A."

Affirmative—The President of the Board of Aldermen, the Comptroller, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—13.

JUNE 2, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bushwick District, Borough of Brooklyn, adopted on April 27, 1904, initiating proceedings for grading and curbing Christopher avenue, between Riverdale avenue and New Lots road.

Proceedings to open Christopher avenue, between East New York avenue and New Lots avenue were authorized by the Board of Public Improvements on November 27, 1901, and the oaths of the Commissioners of Estimate and Assessment were filed on June 3, 1903.

The improvement proposed covers a length of three blocks, through which an unshaped roadway is in use. Between Riverdale avenue and Newport street, the New Lots Playground adjoins this street on the east, while on the westerly side one small frame dwelling has been erected. The abutting property is otherwise unimproved, with the exception of a building at the corner of New Lots road, which road seems to be a few feet below the established grade.

The petition for this improvement bears the names of two property owners claiming a frontage of 800 feet.

I see no reason why the resolution should not be approved, and would recommend such action, the work to be done comprising the following:

6,000 cubic yards grading.

3,200 linear feet curbing.

The estimated cost of construction is \$6,200 and the assessed valuation of the property to be benefited is \$22,000.

I would recommend that title to Christopher avenue, between the northerly side of Riverdale avenue and New Lots road be vested in the City on August 15, 1904.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

"Whereas, The Board of Public Improvements on the 27th day of November, 1901, adopted a resolution requesting the Corporation Counsel to acquire title, whenever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Christopher avenue, between East New York avenue and New Lots avenue, in the Borough of Brooklyn, City of New York; and

"Whereas, It appears to the Board of Estimate and Apportionment, from the surveys made and information furnished to it that there are buildings upon the lands that shall or may be required for the purpose of opening and extending said Christopher avenue; and

"Whereas, The said Board has received written notice from the Corporation Counsel that Commissioners of Estimate and Assessment have been appointed by the Supreme Court, in proceedings to acquire title to said Christopher avenue, and that the oaths of said Commissioners of Estimate and Assessment were duly filed, as required by law, on the 3d day of June, 1903; therefore be it

"Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 15th day of August, 1904, the title to each and every piece or parcel of land lying within the lines of said Christopher avenue, between the northerly side of Riverdale avenue and New Lots road, in the Borough of Brooklyn, City of New York, so required, shall be vested in The City of New York."

Affirmative—The President of the Board of Aldermen, the Comptroller, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—13.

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Bushwick District, duly adopted by said Board on the 27th day of April, 1904, and approved by the President of the Borough of Brooklyn on the 13th day of May, 1904, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To regulate and grade Christopher avenue, between Riverdale avenue and New Lots road, in the Borough of Brooklyn, and to set or reset curb of said street where not already done,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$6,200, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$22,000, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The President of the Board of Aldermen, the Comptroller, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—13.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bushwick District, Borough of Brooklyn, adopted on April 27, 1904, initiating proceedings for the construction of sewer-basins on Christopher avenue at the northeast and northwest corners of Newport street, at the northeast and northwest corners of Lott avenue and at the northeast and northwest corners of New Lots road.

On this date a resolution providing for grading Christopher avenue has been favorably reported, and in connection with the same a recommendation was made that title to the street, under pending opening proceedings, be vested in the City on August 15, 1904.

The basins proposed will remove drainage from Christopher avenue through the block immediately north of the locations described for each; they are requested primarily as being necessary before paving the street, a resolution for which is now before the Local Board.

The approval of the resolution is recommended, the estimated cost of construction being \$1,200 and the assessed valuation of the property to be benefited is \$35,840.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 1503.

MAY 31, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on May 5, 1904, initiating proceedings for grading, curbing and flagging Leggett avenue, between Dawson street and the Southern Boulevard.

Title to these four blocks was acquired under regular proceedings on July 1, 1897. The street as laid out upon the map of the City includes what was formerly Leggett's lane, a road which has been in use for a great many years. The property abutting upon the street has been improved by the erection of a few buildings near Dawson street, where there has been a considerable development; other than here there are no improvements on the street.

I see no reason why this work should not be authorized, and would recommend such action.

The work to be done comprises the following:

3,560 cubic yards earth and rock excavation.

2,400 linear feet curbing.

8,700 square feet flagging.

The estimated cost of the improvement is \$8,000, and the assessed valuation of the property to be benefited is \$215,990.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 2039.

JUNE 4, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution, adopted by the Local Board of the Flatbush District, Borough of Brooklyn, on April 25, 1904, initiates proceedings to replace the sewers on the southerly side of Atlantic avenue, between Howard and Stone avenues. Accompanying the resolution are reports from the Superintendent and the Chief Engineer of Sewers of the borough, calling attention to the fact that the Board for the Atlantic Avenue Improvement, when they constructed their subway in this part of Atlantic avenue, endeavored to save the sewer pipes on the southerly side of the street, but owing to the close proximity of the construction a portion of the sewer was destroyed. By direction of the Board, a drain was laid under the sidewalk for about a half-block east of Howard avenue, and also between Stone and Rockaway avenues. The house drainage, however, has been greatly interfered with, cellars in the neighborhood have been flooded, and the sanitary conditions are so bad that they have been made the subject of a complaint by the Board of Health. It is stated that every effort was made by the Borough authorities to induce the Atlantic Avenue Improvement Commission to build a new sewer, but that they have not done so. It is also stated that, to relieve the situation, a drain was built between Saratoga and Hopkinson avenues, but, owing to the irregularity in the elevation of the house connection pipes, several of the houses were not given proper drainage. The temporary tracks of the Long Island Railroad, which are used during the construction of the subway, will interfere with the building of a new sewer at the present time, but the Engineer of the Sewer Department recommends that the proceeding be initiated at the present time, as concurrent action will have to be taken by the Atlantic Avenue Improvement Commission.

The people on this street have once been assessed for an adequate house sewer; the reconstruction now required is no fault of their own, but is caused by the Atlantic Avenue Improvement, and it would not seem proper to levy any assessment for the work. It is assumed that the expense of building the new sewer will be shared equally by the City and the Long Island Railroad Company.

Authorization is recommended, none of the expense to be assessed upon the abutting property owners.

The approximate amount of work involved is as follows:

50 linear feet 15-inch pipe sewer.

2,800 linear feet 12-inch pipe sewer.

30 manholes.

150 houses to be reconnected.

Total estimated cost of construction is \$15,000. No assessed value is given, as it is not anticipated that there will be any area of assessment.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

On motion of the President of the Borough of Brooklyn, the following resolution was adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Flatbush District, duly adopted by said Board on the 25th day of April, 1904, and approved by the President of the Borough of Brooklyn on the 30th day of April, 1904, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To replace sewers on the southerly side of Atlantic avenue, from Howard avenue to Stone avenue, in the Borough of Brooklyn,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$15,000; it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby request the Board for the Atlantic Avenue Improvement to put one-half the expense of the said local improvement on The City of New York and one-half upon the Long Island Railroad Company.

Affirmative—The President of the Board of Aldermen, the Comptroller, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—13.

REPORT No. 2053.

JUNE 13, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is submitted a resolution adopted by the Local Board of the Flatbush District, Borough of Brooklyn, on October 8, 1903:

It is one of a large number of resolutions adopted by the different Local Boards of the Borough of Brooklyn last year, upon some of which reports were prepared by your Engineer, but they were not taken up for consideration, owing to a lack of time. The President of the Borough of Brooklyn has recently transmitted to the Board some of these old resolutions without comment of any kind to indicate his own approval or that of the present Local Board. They are all signed by his predecessor as President of the Borough of Brooklyn. This action is said to have been taken as a result of a recent decision of the Court of Appeals to the effect that these old resolutions are still alive and before the Board of Estimate and Apportionment, although the papers in all similar resolutions were returned to the Presidents of the Boroughs to which they relate early in the present year. About fifteen similar resolutions have been received from the Borough of Brooklyn, and it has been stated that two hundred or more of them have been or are about to be forwarded.

The resolution now presented provides for the regulating, grading and paving of East Fourteenth street, between Avenues C and D, with asphalt pavement on concrete foundation, including the setting of the curbing. A report was written under date of October 23, 1903, in which it was shown that while title to the block had not been acquired under formal proceedings, the dedication of the street to public use was satisfactorily shown by affidavits. Sewer, water and gas mains have been introduced, and it was recommended that the improvement be authorized. The former report is herewith submitted, together with the original papers, and I beg to ask for instructions from the Board as to whether in similar cases, where resolutions adopted by the Local Boards prior to January 1, 1904, are again forwarded to the Board of Estimate and Apportionment without the written approval of the present borough authorities, and reports have been prepared, such resolutions with the reports already written shall be placed before the Board for action, or whether they shall be considered as new projects having the tacit approval of the present borough authorities, and new reports addressed to the present Board of Estimate and Apportionment shall be prepared.

The estimated amount of work and the cost of the improvement, together with the assessed value of the property to be benefited, were given in the report of October 23, 1903.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The President of the Borough of Brooklyn offered the following resolution:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Flatbush District, duly adopted by said Board on the 8th day of October, 1903, and approved by the President of the Borough of Brooklyn on the 13th day of October, 1903, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That the Local Board of the Flatbush District, Borough of Brooklyn, after hearing had this 8th day of October, 1903, hereby determines to initiate proceedings to regulate, grade and pave East Fourteenth street with asphalt pavement, between Avenue C and Avenue D, in the Borough of Brooklyn, and to set or reset curb of said street where not already done,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$8,900; and a statement of the assessed value according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$25,600, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

The vote resulted as follows:

Affirmative—The President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—10.

Negative—The Comptroller—3.

Affirmative—The President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—10.

GEORGE CROMWELL,
President of the Borough of Richmond.

REPORT No. 2055.

JUNE 13, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution adopted by the Local Board of the Staten Island District, Borough of Richmond, on March 22, 1904, initiates proceedings to regulate, grade and macadamize College avenue, from Jewett avenue to the second proposed street easterly, including the laying of brick gutters and such drains as are necessary.

College avenue is one of the streets laid down upon the map of the Prohibition Park section, which was approved by the Board of Estimate and Apportionment on September 30, 1903. The portion of the street to be improved will include what was formerly a circular park containing an auditorium. The streets surrounding this park had been deeded to the village authorities before consolidation. Owing to the destruction of the auditorium by fire the new plan discontinued this circular park and the streets surrounding it, and extended College avenue directly through the park. The present owners have prepared deeds conveying to the City the land lying within the lines of College avenue as now laid down on the map, and I am informed that these deeds are in the possession of the Corporation Counsel, but have not yet been formally approved by him. In the case of Willard avenue, where a portion of the street was likewise to be conveyed by a deed from the present owner, which has also been presented to the Corporation Counsel, the Board of Estimate and Apportionment on May 20 authorized the improvement of the street with the understanding that a contract for the work be not made until the Borough President shall have been advised of the acceptance of the deed. The report on the improvement of College avenue is now presented at the request of the borough authorities, with the hope on their part that the Board will be willing to authorize the contract for this work under the same conditions, and such action is recommended.

It will be noted that this resolution also calls for the use of macadam, and, as has already been explained, no other pavement can well be considered at the present time, the assessed value of the property being such that it will not stand an assessment for a more permanent pavement, while the district being entirely a residential one and the traffic light macadam will undoubtedly last for many years.

The approximate amount of work involved in the improvement is as follows:

2,400 cubic yards grading.
100 linear feet curbing.
600 square yards brick gutter pavement.
3,300 square yards macadam.
500 linear feet 4-inch underdrain.

The total estimated cost is \$7,100, and the assessed value of the property within the probable area of assessment is \$36,725.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 2021.

JUNE 9, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on April 25, 1904, initiating proceedings for macadamizing Bay Fifteenth street, between Cropsey avenue and Eighty-sixth street.

On June 3 last the grading of Bay Fifteenth street, between the limits named in this resolution, the same comprising a length of four blocks, was authorized by the Board of Estimate and Apportionment. The water and gas mains have been laid, but the report of the Sewer Bureau accompanying the resolution indicates that, while the sewer has been built, alterations will be required in the same to adapt it to the new outlet sewer which is under construction.

The abutting property has been improved by the erection of a large number of frame dwellings. The value of this property indicates that it is sufficiently able to withstand the cost of a more permanent paving than the one proposed, and I would recommend that the resolution be returned to the President of the Borough for amendment in this particular, and that it be withheld until after all the alterations required in the sewer have been completed.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

PARK AT EAST ONE HUNDRED AND TWENTY-FIFTH STREET AND EAST RIVER, MANHATTAN.

The following communication was presented:

YONKERS, June 3, 1904.

To the Chairman and Members of the Board of Estimate and Apportionment:

GENTLEMEN—I beg to call to the attention of this Honorable Board a case of peculiar hardship, and to ask its aid therein.

It concerns the proposition to lay out a park at One Hundred and Twenty-fifth street and the Harlem river, now pending before the Board.

Two ladies of my family own some forty lots of land between One Hundred and Twenty-fifth and One Hundred and Twenty-fourth streets, First avenue and the Harlem river, affected by this proceeding.

This proceeding has been pending before the Board for at least a year.

Last fall a proposition was made to us with a view to having a factory erected on this property, but certainty of tenure was essential, and in view of this proceeding before this Board nothing could then be accomplished, and the proposition fell through. The taxes on the property amount to between \$2,500 and \$3,000 a year, and they have been paid all but about \$500 for the past year, which has not been paid for lack of funds.

On account of the pendency of this proceeding the entire cost of the property has been lost for one year at least.

The Park Commissioner for 1903 reported adversely on this project to the Board and the present Park Commissioner also reported adversely some two months ago.

To-day I have received a renewal of the former proposition for a factory on this property, under a lease for a long term of years, provided there can be certainty of tenure. The party making the proposition sails for Europe in a short time and must have his answer before he sails. He will not take the premises while this uncertainty of seizure by the City for park purposes is hanging over them. We cannot borrow the money needed to make the required improvements unless we know definitely that there will be no park.

Not only have the Park Commissioners for the past two years reported adversely to this project, but the Harlem Board of Commerce has also filed a protest against the taking of this property for park purposes, and the owners whom I represent have also filed protests.

We now ask that at the next meeting of the Board this matter be brought up and finally passed upon.

It was laid on the table on May 6, a month after the adverse report of the Park Commissioner, and no action has been had since.

The present state of things in effect imposes a cloud upon the title, and is working great hardship upon these parties.

As above set forth, we respectfully ask that the Board will bring the matter forward and act upon it at the next meeting.

Very respectfully yours,
WM. S. ROGERS.

After hearing Congressman Gulden and Assemblyman Ellis in support of the proposition, and Mr. William S. Rogers in opposition, the President of the Borough of Manhattan offered the following resolution:

Whereas, At a meeting of this Board, held on the 11th day of March, 1904, resolutions were adopted proposing to change the map or plan of The City of New York so as to lay out a public park, bounded by East One Hundred and Twenty-third, East One Hundred and Twenty-fifth street, First avenue and the marginal street or wharf along the water front, in the Borough of Manhattan, City of New York, and appointing a hearing at a meeting of this Board to be held on the 8th day of April, 1904, at 10.30 o'clock A. M., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby of the aforesaid time and place at which such proposed action would be considered, to be published in the CITY RECORD for ten days prior to the 8th day of April 1904; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that the aforesaid resolutions and notice have been published in the CITY RECORD for ten days prior to the 8th day of April, 1904; and

To the Board of Estimate and Apportionment:

GENTLEMEN—At a meeting of the East Side Tax Payers' League held at No. 215 East Broadway, Mr. Harry Fischel in the chair, the following resolution was unanimously adopted and ordered to be presented to your Honorable Board:

GEORGE CROMWELL,
President of the Borough of Richmond.

REPORT No. 2052.

JUNE 11, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution adopted by the Local Board of the Staten Island District, Borough of Richmond, on February 16, 1904, provides for regulating, grading and macadamizing Grace Church place, from Simonson place westerly to the former terminus of Grace Church place.

This street, known as Grace Church place, was extended by a map adopted by the Board of Estimate and Apportionment on July 11, 1902. It has a width of 50 feet. The old portion of the street, which extends from Heberton avenue in a south-easterly direction about 530 feet, is well built up and has already been improved. Proceedings to acquire title to the extension which was laid out on July 11, 1902, were instituted by the former Board of Estimate and Apportionment on December 19, 1902, and these proceedings are approaching completion, the Commissioners having filed their oaths on August 24, 1903. There are, of course, no subsurface structures in the street, but the President of the Borough, to whose attention this fact has been brought, states that the lots are so located that the property-owners will obtain the necessary subsurface connections from Simonson place, and that it will not be necessary to build a sewer or to lay water or gas-mains.

Under these circumstances it is recommended that the improvement be authorized, the approximate amount of work involved being as follows:

400 cubic yards grading.
280 linear feet curbing.
90 square yards gutter paving.
240 square yards macadam.
1,340 square feet flagging.
100 square feet crosswalk.

The total estimated cost is \$1,580, while the assessed value of the property within the probable area of assessment is \$13,200.

It is also recommended that title to the portion of Grace Church place now being opened by the Commissioners appointed for the purpose be vested in the City on August 15, 1904.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

"Whereas, The Board of Estimate and Apportionment on the 19th day of December, 1902, adopted a resolution requesting the Corporation Counsel to acquire title, whenever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Grace Church place, from Simonson place westerly about 130 feet, in the Borough of Richmond, City of New York; and

"Whereas, It appears to the Board of Estimate and Apportionment, from the surveys made and information furnished to it, that there are buildings upon the lands that shall or may be required for the purpose of opening and extending said Grace Church place; and

"Whereas, The said Board has received written notice from the Corporation Counsel that Commissioners of Estimate and Assessment have been appointed by the Supreme Court, in proceedings to acquire title to said Grace Church place, and that the oaths of said Commissioners of Estimate and Assessment were duly filed, as required by law, on the 24th day of August, 1903; therefore be it

"Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 15th day of August, 1904, the title to each and every piece or parcel of land lying within the lines of said Grace Church place, from Simonson place westerly about 130 feet, in the Borough of Richmond, City of New York, so required, shall be vested in The City of New York."

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Staten Island District, duly adopted by said Board on the 16th day of February, 1904, and approved by the President of the Borough of Richmond on the 16th day of February, 1904, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To regulate and grade Grace Church place, in the Third Ward of the Borough of Richmond, from Simonson place for about 120 to 130 feet, more or less, in a westerly direction to the former terminus of Grace Church place, according to lines shown on a map or plan showing an extension of Grace Church place to Simonson place, approved by the Board of Estimate and Apportionment July 11, 1902; and to pave the roadway thereof with macadam pavement, and to lay stone gutters and set curbs, and to pave the sidewalks with stone flagging, and to do such other work as may be necessary to the completion of the work described,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$1,580; and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$13,200, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

REPORT No. 2049.

JUNE 9, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

DEAR SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on March 16, 1904, initiating proceedings for the construction of sewers in the following streets:

Grand Boulevard and Concourse (both sides), between East One Hundred and Ninety-eighth street and East Two Hundredth street.

Valentine avenue, between East One Hundred and Ninety-eighth street and East One Hundred and Ninety-ninth street.

East One Hundred and Ninety-ninth street, between the Grand Boulevard and Concourse and Valentine avenue.

Title to the Grand Boulevard and Concourse and to Valentine avenue has been formally acquired. Proceedings to open East One Hundred and Ninety-ninth street, between Bainbridge and Jerome avenues, were authorized September 30, 1903, and the oaths of the Commissioners of Estimate and Assessment were filed June 2, 1904. There are no buildings within the lines of the street.

Anthony avenue is in use approximately along the line of the Concourse, and four buildings have been erected upon the abutting property. A roadway is in use in Valentine avenue at the southerly end of the block, between East One Hundred and Ninety-eighth and East One Hundred and Ninety-ninth streets, and one house has been erected upon the abutting property. The road has not been graded and is practically impassable at the northerly end. A roadway is in use through East One Hundred and Ninety-ninth street, and two houses have been erected upon the abutting property.

The outlet sewers have been constructed, and I see no reason why the resolution now offered should not be approved, such action being recommended.

The work to be done comprises the following:

1,320 linear feet 15-inch pipe sewer.

1,620 linear feet 12-inch pipe sewer.

32 manholes.

3 receiving-basins.

The estimated cost of construction is \$21,900 and the assessed value of the property to be benefited is \$113,585.

I would recommend that title to East One Hundred and Ninety-ninth street, between the easterly side of Valentine avenue and the westerly side of the Grand Boulevard and Concourse, be vested in the City on August 15, 1904.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment on September 30, 1903, adopted a resolution requesting the Corporation Counsel to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending East One Hundred and Ninety-ninth street, between Bainbridge and Jerome avenues, in the Borough of The Bronx, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court, in proceedings to acquire title to said East One Hundred and Ninety-ninth street, and the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law on June 2, 1904; and

Whereas It appears to the Board of Estimate and Apportionment from the surveys made and information furnished to it that there are no buildings upon the lands that shall or may be required for the purpose of opening and extending said East One Hundred and Ninety-ninth street; therefore be it

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$21,900; and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$113,585, having also been presented, it is

REPORT No. 2048.

JUNE 9, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on May 5, 1904, initiating proceedings for grading, curbing and flagging East One Hundred and Eighty-fifth street, between Washington and Third avenues.

This street was laid out upon the map of the City in 1903, and on July 31 of the same year a resolution was adopted providing for the acquisition of title. The street as laid out and for which the improvement described in the resolution is now proposed, has a width of 50 feet and a length of two blocks. It is not in use or marked in any way upon the ground, and the land at the Third avenue end is partly occupied by a stable and a three-story frame building.

The oaths of the Commissioners of Estimate and Assessment under opening proceedings were filed November 20, 1903.

I see no reason why the work proposed under this resolution should not be authorized, and would recommend such action, the work to be done comprising the following:

825 cubic yards earth and rock excavation.

820 linear feet new and old curbing.

2,830 square feet new and old flagging.

The estimated cost of construction is \$3,100 and the assessed valuation of the property to be benefited is \$60,745.

I would recommend that title to East One Hundred and Eighty-fifth street, between Washington and Third avenues, be vested in the City on August 15, 1904.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment on the 31st day of July, 1903, adopted a resolution requesting the Corporation Counsel to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending East One Hundred and Eighty-fifth street, from Washington avenue to Third avenue, in the Borough of The Bronx, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court, in proceedings to acquire title to said East One Hundred and Eighty-fifth street, and the oaths of said Commissioners of Estimate and Assessment were duly filed, as required by law, on November 20, 1903; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 15th day of August, 1904, the title to each and every piece or parcel of land lying within the lines of said East One Hundred and Eighty-fifth street, from Washington avenue to Third avenue, in the Borough of The Bronx, City of New York, so required, shall be vested in The City of New York.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$3,100; and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$60,745, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on April 21, 1904, initiating proceedings for the construction of receiving basins at the following locations:

Northeast and southeast corners of East One Hundred and Thirty-third street and Locust avenue.

The construction of these basins is recommended by the Chief Engineer of the Borough, the same being necessary for the drainage of the adjoining sections. All the streets of the locality from which the drainage is to be removed have been graded or paved, with the exception of Locust avenue, south of East One Hundred and Thirty-second street, and East One Hundred and Thirty-third street, east of Locust avenue, neither of which have been marked upon the ground; the basins proposed for the corners of each of these two streets will, however, remove drainage from the street at right angles to the one not improved.

The approval of this resolution is recommended, the estimated cost of construction being \$2,200, while the assessed value of the property to be benefited is \$223,825.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 2042.

JUNE 10, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on May 24, 1904, initiating proceedings for the construction of a sewer in St. Nicholas avenue, west side, between West One Hundred and Eighty-third and West One Hundred and Eighty-fourth streets.

St. Nicholas avenue has been macadamized, and although there is only one frame dwelling on the westerly side of the street on the block described in the resolution, I believe there is no question but that there will be a rapid development of this property. The sewer has not yet been placed upon the map of the City, but the approval of the resolution is recommended, with the understanding that before construction is undertaken a drainage map be submitted for approval.

The work to be done comprises the following:

130 linear feet 15-inch pipe sewer.

2 manholes.

The estimated cost of construction is \$1,600, and the assessed value of the property to be benefited is \$84,400.

REPORT No. 2033.

JUNE 4, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board, Bushwick District, of Brooklyn, adopted on March 2, 1904, initiates proceedings for the regulating and grading of Granite street, between Bushwick avenue and the tracks of the Long Island Railroad at or near Evergreen avenue.

A similar resolution was presented to the last Board of Estimate and Apportionment, but it was not thought that title could be shown to the street, and proceedings were instituted to open it between the points named. At the meeting of the Board of Estimate and Apportionment held on December 29, 1903, the President of the Borough of Brooklyn requested that the opening proceedings be discontinued on the ground that complete dedication of the street could undoubtedly be shown.

The present resolution is accompanied by a certificate in the form recommended by the Chief Engineer of your Board, which shows that there are no encroachments upon the street; that it is in general use; that the water-main and sewers have been provided; that there are four houses on the easterly side of the street; that the said street is laid down upon a property map filed in the Register's office of Kings County as "Map of property situated in the Eighteenth Ward, belonging to John Nostrand and Estate of Robert Adair, Deceased," said map having been filed June 11, 1883, as Map No. 736. I am further advised that the property has been sold in accordance with the lines of the street so laid down. The neighborhood is developing rapidly, and the improvement is undoubtedly a desirable one, and it being believed that the dedication has been shown to be complete, the approval of the resolution of the Local Board is recommended.

The approximate amount of work involved is as follows:

2,000 cubic yards grading.

1,034 linear feet curbing.

Total estimated cost of construction is \$1,700, and the assessed value of the property within the probable area of assessment is \$32,100.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 2034.

JUNE 6, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board of the Bushwick District, Borough of Brooklyn, adopted March 2, 1904, initiates proceedings to pave with asphalt on concrete foundation Granite street, between Bushwick avenue and the tracks of the Long Island Railroad at Evergreen avenue.

On this date a report has been submitted, recommending the regulating and grading of this street. The amount of grading is small, and there seems no reason why the laying of an asphalt pavement should not immediately follow the regulating and grading of the street. The dedication of Granite street was shown by affidavit and certificate from the Bureau of Highways in connection with the resolution for regulating and grading. The subsurface structures have been provided, and it is recommended that the resolution herewith submitted be approved.

The amount of work involved is the laying of 1,730 cubic yards of asphalt pavement on concrete foundation, —at an estimated cost of \$4,000, while the assessed value of the property within the probable area of assessment is \$32,100.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

LAND FOR HIGHWAY DEPARTMENT, BROOKLYN.

The following protest was presented and was referred to the President of the Borough of Brooklyn:

In the Matter

of

Acquiring title by The City of New York to certain lands situate in the block bounded by Chauncey street, Marion street, Hopkinson avenue and Rockaway avenue, in the Borough of Brooklyn, duly selected according to law, for use as a storage yard for the Department of Highways.

To the Board of Estimate and Apportionment:

GENTLEMEN—Please take notice that I am the owner of certain land upon which I am erecting new buildings of the value of upwards of fifty thousand dollars, which land and buildings are situate on the north side of Chauncey street, eighty-eight feet east of Hopkinson avenue, in the Borough of Brooklyn, and do hereby protest against the proceedings herein, to acquire the title to land located in what was formerly known as part of the Brooklyn and Jamaica Plank road, comprised within the block of land bounded northerly by Chauncey street, southerly by Marion street, westerly by Hopkinson avenue and easterly by Rockaway avenue, as a storage yard for the Department of Highways, for the reasons that:

1. There is no such Department of The City of New York as the Department of Highways and has not been since the Charter of The City of New York went into effect.

2. That the condemnation of lands for a storage yard is not such a public use or purpose as is provided for by the said Charter.

3. That the condemnation of these lands for the purpose of a storage yard and the use thereof as such is a nuisance per se, in the vicinity and a detriment to the surrounding property and the owners and occupants thereof and to the public health.

4. That the proceedings pending to acquire such land for the purposes indicated are irregular and void, and if continued will necessarily lead to actions by property-owners in the neighborhood thereof as a nuisance per se.

Respectfully,

CHARLES E. AUSTIN.

JOS. CASSIDY,

President of the Borough of Queens.

REPORT NO. 2102.

JUNE 21, 1904.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is submitted a resolution adopted by the Local Board of the Newtown District, Borough of Queens, on January 28, 1904, and readopted on June 8, 1904, providing for the construction of twenty-nine sewer-basins on the line of Jamaica avenue, between Sherman street and Eighth avenue.

This is the third resolution which has been submitted by the Local Board for the building of these basins, the first two submitted being defective, in that they included a number of basins which had already been built and others which would not receive any drainage.

The paving of this street with asphalt pavement was authorized by the Board of Estimate on May 1, 1903, and the improvement is being delayed for lack of sewer-basins.

It is therefore recommended that the resolution now submitted be approved, and the construction of the twenty-nine basins therein called for be authorized. Title to the street has already been vested in the City, and the sewer with which the basins will connect has been built.

The estimated cost of the improvement is \$9,000, and the assessed valuation of the property within the probable area of assessment is \$555,325.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Newtown District, duly adopted by said Board on the 28th day of January, 1904, and approved by the President of the Borough of Queens on the 8th day of June, 1904, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To construct the following catch-basins to connect with the sewer in Jamaica avenue, between the Boulevard and Steinway avenue, in the First Ward of the Borough of Queens, on the corners of the following streets and avenues:

One on the northwest corner of Sherman street, one on the northwest corner of Hopkins avenue, one on the southwest corner of Hopkins avenue, one on the southeast corner of Hopkins avenue, one on the southwest corner of Van Alst avenue, one on the northeast corner of Van Alst avenue, one on the southeast corner of Van Alst avenue, one on the southeast corner of Ely avenue, one on the southeast corner of Crescent street, one on the northeast corner of Academy street, one on the southeast corner of Academy street, one on the southeast corner of First avenue, one on the southwest corner of Second avenue, one on the southeast corner of Second avenue, one on the southwest corner of Third avenue, one on the southeast corner of Third avenue, one on the southwest corner of Fourth avenue, one on the northeast corner of Fourth avenue, one on the southeast corner of Fourth avenue, one on the southwest corner of Fifth avenue, one on the northeast corner of Fifth avenue, one on the southeast corner of Fifth avenue, one on the southwest corner of Sixth avenue, one on the northeast corner of Sixth avenue, one on the southeast corner of Sixth avenue, one on the northeast corner of Seventh avenue, one on the southeast corner of Seventh avenue, one on the northeast corner of Eighth avenue, one on the southeast corner of Eighth avenue,

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$9,000; and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$555,325, having also been presented, it is

Resolved That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof

shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—14.

On motion of the Comptroller, the Board then adjourned.

Second—The said right to cross the streets and the privilege to construct and operate said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years from the date when this ordinance is approved by the Mayor, with the privilege of renewal of said grant for a further period of twenty-five years upon a fair revaluation of said right and privilege. Such revaluation shall be of the right and privilege to maintain and operate said railway across the said streets by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successor or assigns.

If the railway company shall determine to exercise its privilege of renewal, it shall make application to the Board of Estimate and Apportionment of the City of New York, or any authority which shall be authorized by law to act for the City in place of the said Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this grant. The determination of the revaluation shall be sufficient, if agreed to in writing by the railway company and the Board of Estimate and Apportionment or such other authority in its place. If the railway company and the Board, or such other authority in its place for the City, shall not reach such agreement on or before the day one year before the expiration of the original term of this grant, then the annual rate of compensation for such succeeding twenty-five years shall be reasonable; and either the City (by the Board, or such other authority in its place) or the railway company shall be bound upon request of the other to enter into a written agreement with such other authority fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successors in authority; one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder; and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railway company. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last year of the original grant. If in any case the annual rate shall not be fixed prior to the termination of the original term of this grant, then the railway company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate.

Third—Upon the termination of this grant, whether original or renewal, all rights and privileges hereby granted to cross the said street shall cease and determine, unless the said railway company, its successor or assigns, shall have previously procured a new grant for the same from The City of New York.

Fourth—The New York, Westchester and Boston Railway Company, its successor or assigns, shall pay for this privilege to The City of New York the following sums of money: During the first ten years, commencing upon the day when this ordinance shall be approved by the Mayor, an annual sum of eight thousand (\$8,000) dollars, and during the succeeding fifteen years an annual sum of sixteen thousand (\$16,000) dollars. From the date of the commencement of the operation of any portion of the railway until the end of the first ten years of this grant, an additional sum of forty (40) cents per linear foot per annum for each line of single track railway within the lines of all streets in use, legally opened streets, or streets for which proceedings to open have been initiated, and for the succeeding fifteen years an additional sum of eighty (80) cents per linear foot per annum, in lieu of said sum of forty (40) cents. Such payments shall likewise apply to all streets hereafter opened during the term of this grant, unless the land required for the opening of such street across the right of way of the railway company shall have been ceded free of cost to The City of New York. All such payments shall be made to the Comptroller of the City in equal payments at the end of each quarter year on the 1st day of January, April, July and October in each year. The terms hereafter to be fixed for any renewal term of this grant shall not in any event be less than the minimum amount fixed as the sum to be paid annually during the last year of the original grant, and no renewal of such grant shall provide for a further renewal.

Fifth—The said annual charge or payment shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any other railway company providing for payments for railway rights or franchises at a different rate, and no assignment, lease or sub-lease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sub-lease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payment, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mortgage or mere lien, but shall apply to any purchaser upon foreclosure or under or by virtue of any provision of a mortgage or lien.

Sixth—The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sub-let in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the New York, Westchester and Boston Railway Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof

in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage, but shall apply to a sale under foreclosure.

Seventh—No street shall be crossed by the railway at grade, and all streets now open or in use, or streets hereafter opened crossing the line of said railway shall be carried over or under said railway by the grantee, at the sole cost and expense of the grantee. The costs of all approaches to said crossings and any damages to property incurred by such change of grade shall likewise be borne and paid by the grantee.

Eighth—All viaducts over streets and all tunnels under streets and all bridges necessary to carry the streets over an open cut, shall be constructed at the expense of the grantee, and in such manner as shall not interfere with the ordinary use of the street as a public highway. All viaducts over streets shall have a height of at least sixteen feet in the clear throughout, and in the case of arch construction not less than sixteen feet in the clear at the centre and ten feet in the clear on the building or side line of said street. In the case of tunnel construction under a street, there shall be at least four feet between the grade of the street and the exterior surface of the arch of said tunnel.

Ninth—Any superstructure of the railway crossing a street and having a length of seventy-five (75) feet or less, shall be constructed in a single span; if more than seventy-five (75) feet in length, intermediate columns to support the structure may be placed in the street in such manner as may be approved. The width of such superstructure of the railway shall not exceed sixty (60) feet when measured over all.

Tenth—The plans for all structures over or under any street must first be submitted to and approved by the Board of Estimate and Apportionment, and all such structures shall be constructed of either steel, concrete or masonry, or a combination of these materials.

Eleventh—The railway shall be constructed in the most modern and approved manner of railway construction. The roadbed shall be ballasted throughout its entire length within the limits of The City of New York, with a sufficient quantity of either blast furnace slag or broken trap rock of a hard and durable quality, and no dirt, sand, gravel or cinders shall be used in such ballast.

Twelfth—The roadbed within the limits of The City of New York shall be watered daily whenever the thermometer is above 35 degrees Fahrenheit. For any failure to comply herewith, the railway company shall be liable for a penalty of fifty dollars (\$50) per day.

Thirteenth—The entire right of way of the company within the City limits shall be fenced throughout.

Fourteenth—All abutments or foundations for bridges, viaducts and stations and the stations proper, except intermediate supports for viaducts, as hereinbefore provided, shall be placed on the land of the company. There shall be constructed along the line of the route of the main line of the railway as proposed, for the accommodation of local passenger traffic, at least six (6) stations between the Harlem river and the Bronx river, and at least four (4) stations between the Bronx river and the northern line of The City of New York, as now fixed; provided, however, that if the railway is constructed only as far south as the intersection of the Southern Boulevard and Westchester avenue, then there shall be at least three (3) stations west of the Bronx river. On the branch line there shall be constructed at least three (3) stations east of Westchester avenue.

Fifteenth—The said railway may be operated by electrical power, except the overhead trolley system, or by any other mechanical motive power which may be lawfully employed upon the same, except locomotive steam power; provided, however, that steam locomotive power may be used for switching and shunting trains when specifically authorized by the Board of Estimate and Apportionment; such permission to continue only during the pleasure of the said Board.

Sixteenth—No wires for the transmission of power shall be permitted except they be placed in conduits, and in any conduits laid by the company for the transmission of power for its own use, provision shall be made to carry three (3) cables for the use of the police, fire and ambulance service of the City without charge therefor.

Seventeenth—The railway company shall not carry power along its structure for any purpose except the operation of its railway, except as provided above.

Eighteenth—The railway company shall operate a train schedule on the main line of at least sixty (60) trains in either direction daily, stopping at all of the stations within the City limits, and at no time either day or night shall there be greater headway between such trains than thirty (30) minutes; provided, however, that said railway company during the first five years after the commencement of the operation of any portion of the railway shall not be required to operate its trains within the City limits between the hours of 1 o'clock and 4 o'clock A. M., each day, unless the Board of Estimate and Apportionment shall determine after a hearing had thereon, that public convenience requires the operation of its cars during such hours.

Nineteenth—All cars on said railway shall be heated during the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and any failure to keep the temperature of any of the cars of the company above 50 degrees Fahrenheit, shall make the company liable for a penalty of fifty (50) dollars per car per day for each offense.

Twentieth—All cars operated by the company shall be vestibuled and the system of lighting same shall be adequate and be made satisfactory to the Board of Estimate and Apportionment.

Twenty-first—During the first twenty-five (25) years of this grant the rate of fare upon said railway within the limits of The City of New York as now fixed shall not exceed five (5) cents for any passenger. The said company shall not charge any passenger more than such sum for one continuous ride from any point on said railway or a line or branch operated in connection therewith and controlled by it, to any point thereof or of any such connecting line or branch thereof, within the limits of The City of New York, as such limits now exist, during such term.

At the expiration of twenty-five years the Board of Estimate and Apportionment shall be entitled, after due hearing and determination of the reasonableness hereof, to require for the term of the renewal of said grant that the fare for each passenger within the City limits, as they may then be constituted, shall not exceed five (5) cents.

The rates for the carrying of property upon the routes of the grantee within the limits of The City of New York shall in all cases be reasonable in amount and shall be subject to the control of the Board of Estimate and Apportionment, or its successor in authority, and may be fixed by such Board after notice and hearing to the grantee, and when so fixed such rate shall be binding upon said grantee, its successor or assigns, and no greater sums shall be charged for such service than provided for by it.

Twenty-second—The said railway company shall carry free within the limits of The City of New York during the existence of this grant or its renewal, all letter carriers of the United States Government, and members of the Police and Fire

Departments of The City of New York, when such employees are in full uniform.

Twenty-third—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of the City.

Sec. 3. In case of any violation or breach or failure to comply with any of the provisions herein contained this grant may be forfeited and avoided by The City of New York by a suit brought by the Corporation Counsel, provided, that in case of any such violation, breach or failure to comply with any of said provisions the said City shall cause notice in writing thereof to be served upon said company, and said company shall remedy such violation, breach or failure within ten (10) days thereafter, and in default thereof then, and not otherwise, said right of forfeiture shall accrue and may be enforced by the said City; provided, further, that if the said railway company, grantee hereunder, shall within said ten (10) days commence to remedy said violation, breach or failure and shall prosecute the work of completing such remedy with diligence and with the utmost practicable dispatch until the same shall be completed, then no right of forfeiture shall accrue.

Sec. 4. The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

Sec. 5. Said railway company shall commence actual construction within one year from the date of the signing of this ordinance by the Mayor, and shall complete a four-track railway upon the main line, from the northern line of the City as far south as the intersection of the Southern Boulevard and Westchester avenue, within five years from such date, otherwise this grant shall cease and determine.

Said railway company shall expend the sum of at least one million dollars (\$1,000,000) for construction within the limits of The City of New York within two years from the date of the signing of this ordinance, which sum shall be exclusive of any moneys expended for right of way.

A statement of the moneys so expended for construction shall be submitted to the Comptroller of The City of New York, who shall, after investigation, report to the Board of Estimate and Apportionment his opinion as to whether such sums have been actually expended, and if in the opinion of the said Board the grantee has not proven an expenditure of the said sum within the time given, then said Board may declare that this grant has ceased and determined, and the said action of said Board shall be prima facie evidence of said forfeiture.

Any portion of the route covered by this grant which shall not be completed and in full operation within seven years from the date of the signing of this ordinance shall be deemed to have been abandoned, and all rights hereby granted in and to such portions of said railway shall cease and determine.

And in the event that the said railway company shall not, within the said seven years, construct its main line south of the intersection of the Southern Boulevard and Westchester avenue and to the Harlem river, the Board of Estimate and Apportionment, or its successors in office, may fix and finally determine such additional compensation as shall be imposed upon said railway company because of such failure.

A majority vote of the members of the Board of Estimate and Apportionment shall be prima facie evidence in regard to the forfeiture of any or all the rights under this grant, as provided for in this section. Before action is taken by the Board of Estimate and Apportionment, under the provisions of this section, the grantee shall have at least thirty (30) days' notice of the intention of said Board to take action, and at such time as is appointed, shall be allowed a hearing. In case any or all of the rights hereby granted are forfeited, it is a condition of this grant that all sums theretofore paid to The City of New York, together with the deposit of \$20,000 as provided for in section 14 of this ordinance, and all structures erected by said grantee, its successor or assigns, within the lines of any street, shall be forfeited to and become the property of The City of New York.

The Board of Estimate and Apportionment shall have power to extend the time provided for in this section for the completion of the railway and for the work to be performed and expenditure to be made, as above, for a period or periods not exceeding in the aggregate two years, but such extension shall not be made unless the reasons given by the grantee for non-fulfillment are, in the opinion of the Board of Estimate and Apportionment, for causes over which the grantee had no control and was in no wise responsible.

Sec. 6. The grantee shall assume all liability by reason of the construction and operation of the railway and the City shall assume no liability whatsoever to either persons or property by reason of its construction or operation.

As a condition of this grant, the grantee, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the railway company, its successor or assigns.

Sec. 7. Any portion of the right of way of the said railway company falling within the lines of a street now shown on the map of The City of New York, which it may be necessary for the City to subsequently acquire, shall be ceded to the City, without cost to it, subject to the company's easement therein.

Sec. 8. In case the City shall acquire the land necessary for a street across the grantee's right of way and such land for the street is not ceded by the said grantee, then the railway company shall pay the same rates for the privilege of crossing said street as are provided for in paragraph fourth of section 2 of this ordinance.

Sec. 9. In case any of the streets as now shown on the map of The City of New York and crossed by the said railway above grade are altered or widened after the grantee has completed its railway, and such widening requires the alteration of the superstructure of the railway, the grantee and The City of New York shall each pay one-half of the cost of such alteration as may be necessary.

Sec. 10. In case the route as laid out shall make it necessary in the opinion of the Board of Estimate and Apportionment to change the map of The City of New York, in order to avoid unnecessary or undesirable crossings or for other reasons purely on account of the location of the railway, and by such change or alteration additional streets bounding the grantee's right of way are determined upon, then the grantee shall acquire such streets at its own expense.

Sec. 11. Any alterations which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, etc., laid in the streets, on account of the construction or operation of the railway, shall be made at the sole cost of the railway company, and in such manner as the proper City officials may prescribe.

Sec. 12. All construction of railway crossings shall be done in such manner as shall not substantially interfere with the ordinary use of any street as a public highway, and all streets in any way disturbed by such construction shall be restored to their original condition. In case of failure on the part of the grantee to restore

such streets within a reasonable length of time, The City of New York shall have the right, under resolution of the Board of Estimate and Apportionment, to cause the work to be done and the materials to be furnished after due notice and shall collect the reasonable cost thereof from the fund herein provided.

Sec. 13. The company's property and structures shall not be used for advertising purposes in any way, under a penalty of fifty (50) dollars per day for each offense. Such restriction shall not apply to the interior of stations or cars.

Sec. 14. This grant is upon the express condition that the New York Westchester and Boston Railway Company, within thirty days after the said company has been duly authorized to operate its railway and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of twenty thousand dollars (\$20,000), either in money or in securities, to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the privilege and the penalties herein provided, and in case of default in the performance by said company of such terms and conditions, The City of New York shall have the right, after due notice, to collect the same from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same, with interest, from such fund after ten days' notice in writing to the said company. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice in writing pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of twenty thousand dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect other legal rights, remedies or causes of action belonging to The City of New York.

Sec. 15. That if the said New York, Westchester and Boston Railway Company, its successor and assigns, shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and all street crossings in good condition throughout the full term of its occupancy of said streets, the Board of Estimate and Apportionment of the City may give written notice to said company, specifying any default on the part of said company and requiring said company to remedy the same within a reasonable time, and upon the failure of said company to remedy its said default within a reasonable time, said company shall, for each day thereafter during which the default or defect remains, pay to The City of New York the sum of two hundred and fifty dollars (\$250) as fixed and liquidated damages, or the said City in case said structures over or under streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the company, in which case the said company shall pay to the City the amount of the cost of such repairs, with legal interest thereon; all of which sums may be deducted from the fund hereinbefore provided.

Sec. 16. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York, within ten days after the adoption of this ordinance.

Sec. 17. This ordinance shall take effect immediately.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application thereto at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there
