October 30, 1908.

Hon. BIRD S. COLER, President of the Borough:

Dear Sir—I submit herewith the report of the operations of the several Bureaus under the Department of Public Works, for the third quarter, ending September 30, 1908, consisting of reports of the Assistant Commissioner of Public Works, Bureau of Highways, Bureau of Sewers, Bureau of Public Buildings and Offices, Bureau of Incumbrances, Topographical Bureau and General Bookkeeper.

Assistant Commissioner.

During the third quarter the report of the Assistant Commissioner of Public Works shows that 50 contracts were entered into, at a total amount of \$609,551.23, apportioned among the Bureaus as follows:

	No. of Contracts.	Amount.
Bureau of Highways.....	43	\$256,917 62
Bureau of Sewers.....	6	351,370 61
Bureau of Public Buildings and Offices.....	1	1,263 00
Total.....	50	\$609,551 23

—as compared with one hundred and thirty-two (132) contracts, aggregating \$954,812.94, let during the second quarter of the current year.

Bureau of Highways.

The total mileage of street pavements in the Borough of Brooklyn on September 30, 1908, was 669.27, as compared with 667.34 on June 30, and 664.28 on March 31, 1908. The Chief Engineer reports that during the third quarter there were laid 5,714 miles of asphalt pavement, 0.55 mile of asphalt block, 0.478 mile of granite block, and 0.135 mile of medina block.

There was a total of forty-two (42) contracts registered during the quarter, amounting to \$280,023.40. Of this number 12 were for repaving streets, aggregating \$132,396.55; 30 contracts were chargeable against the Street Improvement Fund, at a total amount of \$147,626.85. This Bureau completed and forwarded to the Board of Assessors for confirmation, 29 assessment lists, of which 21 were for regulating, grading, paving, etc., and 8 for laying sidewalks, fencing lots and grading lots.

Fifty-two preliminary estimates for action by the Local Board for original improvements have been prepared, aggregating \$568,000, of which 26 were for asphalt paving, amounting to \$324,000. A summary of the number of samples examined in the Laboratory is as follows:

Hydraulic cements	360
Asphaltic mixtures.....	213
Miscellaneous samples	113
Total.....	686

Repair Division.

The report of the Repair Division shows work performed by the connection and repair gangs, as follows:

Connection Gangs—	
Granite pavement, square yards.....	3,617
Belgian block pavement, square yards.....	2,342
T. & G. pavement, square yards.....	1,856
Cobble pavement, square yards.....	555
—and various other kinds of pavements.	

Street Repair Gangs—	
Granite pavement, square yards.....	39,453
Belgian block, square yards.....	10,990
Cobble pavement, square yards.....	6,304
T. & G. pavement, square yards.....	2,788

—in addition to repairs on several other kinds of street pavement.

The sidewalk gang laid 171,000 square feet of flagging, 18,407 square feet cement walks, and 3,783 square feet of brick walks. The emergency gang made repairs and rendered safe 2,984 dangerous holes, and used 1,409 loads of filling in connection therewith.

Considerable work was done by the country gangs to macadam and unimproved roadways, they having made repairs to 56,349 square yards of macadam roads, covered 18,600 square yards of macadam roads with tar, repaired and cleaned 13,680 linear feet of crosswalks and sidewalks, sprinkled 8,159 miles of streets, in addition to other work of repairs in the country districts.

Asphalt Plant.

The street repair gangs attached to this plant laid 48,201.84 cubic feet of wearing surface, 8,156 cubic feet of binder and 697.02 square yards of concrete. The total plant product was 6,039 boxes wear surface mixture, and 1,086 boxes binder mixture. In addition to this the Chief Engineer sets forth the work performed by the gangs on street openings connected with the plant. Also the average force employed there in various capacities, with the total cost of same during the quarter.

Corporation Bureau.

The report of the operations of this Division is in detail, showing the number of openings in street pavements made by the various corporations for the purpose of installing gas mains, electric and telephone service and the repairs to tracks and connecting curves of the railroad companies.

The report of the work of the Bureau of Incumbrances shows the number of complaints received from various sources, their classification and distribution, the number of permits issued for building material on street, construction of vaults, repairs to walks, driveways, etc., also the number of street incumbrances seized, with the number of redemptions.

Bureau of Sewers.

From the report of the Chief Engineer of this Bureau, you will note that 16,917 linear feet of sewers of all sizes, or the equivalent of 3.204 miles, were laid during the quarter; but inasmuch as 1,282 linear feet or 0.243 miles of sewers have been aban-

doned, reconstructed or replaced, the mileage of the Borough has not been increased by that amount, the increased mileage being 2.963 miles.

The total mileage of the Borough at the end of the quarter June 30, 1908, was 809,335 miles, and this added to the increased mileage at the end of the third quarter, makes the mileage of the system at this date 812,298 miles.

Following is a tabular statement which shows the total amount of sewers built during the quarter, divided among the various kinds and sizes:

	Diameter.	Miles.
Pipe sewers.....	12 inches to 24 inches	2.327
Brick sewers	30 inches to 180 inches	0.288
Concrete sewers	150 inches to 162 inches	0.238
Reinforced concrete sewers.....	42 inches to 102 inches	0.353
Total.....		3.206

During the quarter, 12,191 linear feet, or 2.309 miles of 6-inch house connection drains have been built, which makes the total amount of 6-inch drain built under the jurisdiction of this Bureau, 21,787 miles at the close of September, 1908.

Twenty-nine sewer basins have been constructed, and now the total number connected with the sewerage system is 10,067.

The following table shows work under way and completed during the quarter:

Total amount of contracts entered into during quarter.....	\$10,230 75
Total amount of contracts completed during quarter (accounts closed)	\$99,740 47
Total estimated cost of contracts uncompleted during quarter.....	2,341,909 02
Total estimated amount of work done on uncompleted contracts ending September 30, 1908.....	\$1,455,942 32
Total estimated amount of contracts in course of execution, or in Corporation Counsel's office awaiting approval as to form, etc.....	715,437 05
Total estimated amount of contracts authorized, plans and specifications in preparation	334,600 00
Total.....	\$3,491,786 54

During the quarter 54 reports were made upon sewer improvements. Of this number 11 were to precede the work of paving, estimated amount being \$900. The remaining 43 were for sewers upon petition, estimating \$680,320.

Fourteen sewer improvements have been petitioned for to be built by private contract, the work to be performed under the supervision of this Bureau. The plans and specifications have been prepared for the above and submitted.

The report of the Superintendent of Maintenance is in detail, and shows work done and material used in maintaining the sewerage system of this Borough, during the quarter.

Bureau of Public Buildings and Offices.

In the report of transactions of this Bureau for the third quarter, the Superintendent sets forth in detail the number of orders issued for the various Bureaus, statement of moneys expended for supplies and repairs, and the number and amount of contracts for repairs to the various public buildings, court houses, baths, etc., under his jurisdiction.

Topographical Bureau.

The work of this Bureau consists of matters relating to the determination, preservation and the changes in the established lines and the established elevations of public streets, avenues, etc. The preparation of maps for the legal opening of streets to be used by the Corporation Counsel's office in the appointment of Commissioners of Estimate and Assessment. This Bureau performs work for use in the Board of Estimate and Apportionment, Local Boards, and for various other Departments of the City.

In detail is set forth the number of surveys made in the preparation of plans and profiles for all original work to be undertaken by the Bureau of Highways; to determine, for contracts let by the said Bureau, the amount of excavation, fill, number of linear feet of curbing, etc.

The Topographical Bureau is now preparing a map of the Borough of Brooklyn, on a uniform scale of 200 feet to the inch, showing all changes in the street lines that were made in the past, and also such changes in the map of the City as may hereafter be adopted.

Heretofore such a map has not existed in this Borough, so that upon the completion of this work there will be in the Topographical Bureau a map which will be complete and always up to date.

Office of the Bookkeeper.

The report of the General Bookkeeper shows, in detail, the financial transactions of the several Bureaus of the Department of Public Works, and includes the Bureau of Buildings. It shows the salaries and wages chargeable against each Bureau, the amount of supplies ordered during the quarter, and for the purposes intended.

Also statement of contracts entered into for public improvements and sets forth the proper accounts to which each contract is to be charged.

Very truly yours,

T. R. FARRELL, Commissioner of Public Works.

Bureau of Sewers, Borough of Brooklyn, } Chief Engineer's Office, Brooklyn, N. Y., October 20, 1908. }		
Hon. JAMES DUNNE, Superintendent of Sewers:		
Dear Sir—I transmit herewith report of the operations of the Engineering Division of the Bureau for the third quarter ending September 30, 1908.		
As you will note from tabular statement next attached, 16,917 linear feet of sewers of all sizes were laid during the quarter, or the equivalent of 3.204 miles; but the mileage of the Borough has not been increased by this amount, as 1,282 linear feet, or 0.243 mile, of sewers have been replaced, abandoned or reconstructed, the increase in mileage being 2.963 miles. This added to the mileage of the sewerage system on June 30, 1908 (809.335 miles), makes the mileage of the system at this date 812.298 miles.		
The total amount of sewers built during the quarter, divided among the various sizes, is as follows:		
	Diameter.	Linear Feet. Miles.
Pipe sewers	12-inch to 24-inch	12,284 2.327
Brick sewers	30-inch to 180-inch	1,522 0.288
Concrete sewers	150-inch to 162-inch	1,259 0.238
Reinforced concrete sewers.....	42-inch to 102-inch	1,864 0.353
Total.....		16,929 3.206
The length of the 12-foot flushing tunnel for the improvement of the sanitary condition of Gowanus Canal has been increased during the quarter 1,097 linear feet, making the total length now built 6,013 linear feet.		
Of 6-inch house connection drains there have been built during the quarter 12,191 linear feet, or 2.309 miles, which makes the total amount of 6-inch house connection drain built under the jurisdiction of the Bureau at the close of this quarter 21,787 miles.		
The number of basins built during the quarter has been 29, making the total number now connected with the sewerage system 10,067.		
On July 1, 1908, there remained nine resolutions for sewer improvements authorized by the Board of Estimate and Apportionment prior to that date, for which plans and specifications had not been prepared. These are:		
1. Sewer in Bath avenue, from Twenty-first to Twenty-third avenue; authorized November 3, 1905.....		\$194,800 00
2. Sewer basins at West Fifteenth street and Neptune avenue, etc., and sewer in West Fifteenth street, from Mermaid to Canal avenue; authorized January 11, 1907.....		20,000 00
3. Sewer basins at Ocean parkway and Sea Breeze avenue, and sewer in Ocean parkway, etc.; authorized March 22, 1907.....		6,100 00
4. Sewer in Bay Thirty-fifth street, between Benson avenue and Eighty-sixth street; authorized March 22, 1907.....		4,600 00
5. Sewer in Prospect place, between Hopkinson avenue and Eastern parkway; authorized June 12, 1908.....		1,800 00
6. Sewer in East Ninety-eighth street, between East New York avenue and Hegeman avenue, etc.; authorized June 26, 1908.....		410,300 00
7. Sewer in Eighty-fifth street, from Bay Sixteenth street to Eighteenth avenue, etc.; authorized June 26, 1908.....		11,700 00
8. Sewer basins on Ditmas avenue, northwest corner East Eleventh street, northeast corner East Thirteenth street and northeast corner East Fourteenth street; authorized June 26, 1908.....		530 00
9. Sewer basins on Ditmas avenue, at northeast corner East Eleventh street, etc.; authorized June 26, 1908.....		1,250 00
Total amount.....		\$651,080 00
Items No. 1 and No. 4 are held pending the adoption of the change of plan for sewers in Map "Z," which has been before the Board of Estimate and Apportionment for adoption for some months.		
Items No. 2 and No. 3 are held pending changes necessitated by the change of plan for sewers in those districts.		
Plans and specifications have been prepared and submitted for items No. 5, No. 6, No. 7, No. 8 and No. 9. The preliminary estimate of cost of these five sewer improvements was \$425,580.		
On July 1, 1908, there remained on hand three (3) petitions for the construction of sewers by private contract. They were:		
1. Sewer in Lawrence street, between First street and Coney Island avenue.		
2. Sewer in Stockholm street, between Borough line and St. Nicholas avenue.		
3. Sewers in Rockaway parkway, from East New York avenue southerly for a distance of 1,500 feet, etc.		
No change has occurred in the status of these items since the second quarterly report, when I said that "plans that were prepared for items No. 1 and No. 2 in the first quarter of the present year are still held awaiting the petitioners' convenience. There are no outlet sewers called for in item No. 3 and the matter remains in suspension."		
Between July 1 and September 30, 1908, the Board of Estimate and Apportionment authorized the construction of twenty-seven sewer improvements, viz.:		
1. Sewer in Forty-sixth street, between Twelfth and Fifteenth avenues, with outlet sewers in Forty-sixth street, between Fifteenth and Seventeenth avenues; in Seventeenth avenue, between Forty-sixth and Forty-seventh streets; in Forty-seventh street, between Seventeenth avenue and West street; in West street, between Forty-seventh street and Nineteenth avenue, and in Thirteenth avenue, between Forty-sixth and Forty-seventh streets.....		\$41,400 00
2. Sewer in Twelfth avenue, between Forty-third and Forty-ninth streets, with outlet sewers in Forty-fifth street, between Twelfth and Thirteenth avenues; in Thirteenth avenue, between Forty-fifth and Forty-sixth streets, and in Forty-eighth street, between Twelfth and Thirteenth avenues.....		14,900 00
3. Sewer in Sterling place, between Schenectady avenue and Utica avenue		3,000 00
4. Sewer in Seventy-fifth street, both sides, between Tenth and Eleventh avenues		6,600 00
5. Sewer in Sixtieth street, between Sixteenth and Seventeenth avenues.		2,800 00
6. Sewer in Seventy-third street, from Thirtieth to Fourteenth avenue.		8,600 00
7. Sewer in Central avenue, between Moffat and Chauncey street.....		1,600 00
8. Sewer in Fort Hamilton avenue, between Thirty-eighth and Thirty-ninth streets		1,900 00
9. Sewer in Hinckley place, between Coney Island avenue and East Eleventh street		1,800 00
10. Sewer in Cornelia street, from Knickerbocker avenue to the boundary line between the Boroughs of Brooklyn and Queens.....		5,400 00
11. Sewer in Fifty-second street, between Fourteenth and Fifteenth avenues, with outlet sewers in Fifty-second street, between Fifteenth and Sixteenth avenues, and in Sixteenth avenue, between Fifty-second and Fifty-third streets.....		10,800 00
12. Sewer in East Fourth street, between Church avenue and Albemarle road, and in Albemarle road, between East Third street and East Fifth street		5,400 00
13. Sewer basin at southeast corner Eighth avenue and Second street....		200 00
14. Sewer basin at southwest corner Forty-eighth street and Second avenue		200 00
15. Sewer basin at easterly corner of Third avenue and Thirtieth street..		200 00
16. Sewer basin at westerly corner of New Utrecht avenue and Eighty-fourth street		200 00
17. Sewer basin at southwest corner Van Dam street and Bridgewater street		200 00

18. Sewer basin at southwest corner Harrison place and Porter avenue..	200 00
19. Sewer basins at northeast, southeast and northwest corners Twentieth avenue and Benson avenue.....	600 00
20. Sewer basins at easterly and southerly corners of First avenue and Seventy-third street	500 00
21. Sewer basins on Hopkinson avenue, at northeast corner of Riverdale avenue; at northeast corner of Livonia avenue, and at the southwest corner of Chester street and Dumont avenue.....	600 00
22. Sewer basins at northwest and southwest corners Dekoven Court and Brighton Beach Railroad.....	400 00
23. Sewer basins at northwest and southwest corners Winthrop street and Nostrand avenue	400 00
24. Sewer basins at south and west corners of Bay Thirteenth street and Eighty-sixth street	400 00
25. Sewer basins on Third avenue, at northeast corner Thirty-first street and at southeast corner of Twenty-ninth street.....	400 00
26. Sewer basin at northerly corner of Fifty-ninth street and Sixth avenue	200 00
27. Sewer basin at the northwest corner of Nichols avenue and Wood street	200 00
Total.....	\$109,100 00

During the quarter fourteen (14) sewer improvements were petitioned for to be built by private contract. They are:

1. Sewer in East Fifth street, from 540 feet south of Avenue J to Twenty-second avenue.
2. Sewer in East Fourth street, from 340 feet south of Twenty-second avenue to Twenty-second avenue.
3. Sewer in Avenue J, between Twenty-second avenue and Ocean parkway.
4. Sewer in East Tenth street, from 450 feet north of Avenue I to 60 feet south of Avenue K.
5. Sewer in East Ninth street, from 450 feet north of Avenue I to 150 feet south of Avenue K.
6. Sewer in Avenue J, from Ocean parkway to Coney Island avenue.

11. Sewer in Georgia avenue, between New Lots road and Hegeman avenue.
12. Sewer in Sterling place, from 100 feet east of Rogers avenue to Nostrand avenue.
13. Sewer basin at northeast corner Sackman street and Newport avenue.
14. Sewer in Lott avenue, between Powell and Junius streets.

Plans and specifications have been prepared for all of the above and submitted. There were made during the quarter, fifty-four reports upon sewer improvements to precede paving, and in response to petitions for sewers. Of these fifty-four reports, eleven were to precede paving, estimated cost of sewer improvements \$900, and forty-three were for sewers petitioned for, estimated cost \$680,320.

The total mileage of sewers called for in these reports is 4.74 miles. In addition to the above, there were made twenty (20) miscellaneous reports. The extension of the drainage system of Map "N" is still in preparation. The layout of the streets has been furnished by the Department of Docks and the design can now be completed.

- Plans and specifications have been prepared for dredging in
1. The various basins of Gowanus Canal.
 2. The main channel of Gowanus Canal.
 3. Basins in Newtown Creek.

Plans and specifications for the reconstruction of the sewer in Stewart street have been prepared; bids for same advertised for—the lowest bid being \$1,510.65.

Plans for reconstructing the sewer in Benson avenue, between Bay Thirty-fourth street and Bay Thirty-sixth street are partially completed but are held until an appropriation is available.

Plans for the power plant for the flushing tunnel for the sanitary improvement of Gowanus Canal have been completed, but bids have not yet been requested.

Plans and specifications for the main gates of the flushing tunnel have been completed, and the contract for same awarded, the price being \$10,400.

Plans have been prepared for the reconstruction of the following sewers: Flushing avenue, near St. Edwards street, and Johnson avenue at old Vandervoort avenue.

The change of plan for the western portion of Map "X," and the eastern portion of Map "Y," constituting the new map of "DD" has been completed and forwarded for adoption.

Plans for the relief of Map "S" are still under study.

Yours respectfully,
E. J. FORT, Chief Engineer of Sewers.

TOPOGRAPHICAL BUREAU.

President of the Borough of Brooklyn,
Topographical Bureau, Office of the Chief Engineer,
September 30, 1908.

Hon. THOMAS R. FARRELL, Commissioner of Public Works:

Dear Sir—I transmit herewith the quarterly report for the three (3) months ending September 30, 1908.

The work of the Topographical Bureau consists of matters relating to the determination, the preservation and the changes in the established lines and the established elevation of public streets, parks, etc.; the preparation of maps for the legal opening of streets, etc.; the making of reports on the legal status of streets, etc.; the preservation and maintenance of lines, monuments, records, etc.; and connecting to the several secondary stations in this Borough the traverse lines, monumented street lines, and the monumented lines holding the triangulation stations.

The work of this Bureau is directly for the use of the Local Boards, for the Board of Estimate and Apportionment, for the Corporation Counsel's office in the matter of condemnation proceedings for street openings, and for the various other departments of the City. Hence it affects the map of the City, which is the basis of all City improvements; and, therefore, not only the local improvements, such as highways, sewers, etc., but in a greater or less degree the work of all the other departments of the Borough depend upon the work of the Topographical Bureau.

To make surveys and to prepare plans and profiles for all original improvements that are made by the Bureau of Highways; to determine for all contracts let by the Bureau of Highways the amount of excavation, the amount of fill, the number of linear feet of curbing, the number of square feet of sidewalks, the number of cubic yards of concrete and the number of square yards of asphalt; and to furnish the contractors with line stakes, grade stakes and monthly estimates.

There has never existed a map of the Borough of Brooklyn showing all the changes that have been made in the street system of the various sections of the Borough since the original Commissioners' maps were adopted. I am now preparing such a map on a uniform scale of two hundred feet to the inch. Upon this map it is intended to note all the changes in street lines that were made in the past, and also such changes in the map of the City as may be hereafter adopted. As a result of this work there will be in this office a map which will be complete and always up to date.

A—FIELD WORK.

The field work, which was required for and which is included in the maps and reports under the head of "Office Work," consists of chaining, line work, angular measurement, leveling and damage survey work. The amount of this work, which was done as required, completed during this quarter, is as follows:

339,673 feet of chaining (\$8,400 feet of precise chaining, and 281,273 feet of approximate chaining).

104,640 feet of precise line work.

141 precise angles measured.

30,722 feet of leveling for profile maps.

49,899 feet for profile for damage maps for 26 streets.

3,190 feet for profile for regulating, grading, etc. (original improvements), for 3 streets.

34,259 feet of line and grade stakes set (original improvements) for 17 streets.

49,899 feet for damage surveys for 26 streets.

2. Triangulation of the Borough of Brooklyn.

In accordance with chapter 406 of the Laws of 1903, the Board of Estimate and Apportionment, in co-operation with the United States Coast and Geodetic Survey, is authorized to extend and complete the triangulation of The City of New York. We have during the present quarter completed a secondary system of triangulation throughout the older sections of the Borough.

The object of this work was to provide data to correctly map the Borough of Brooklyn, and the adjoining Boroughs, as no accurate map and no accurate data could be obtained to do the work as a unit.

The problem of correctly plotting the street system of this Borough is, at best, a difficult one when the complex location of the several systems is considered. Brooklyn grew, as the present City of New York has grown, by annexation, each section being absorbed as a unit. A glance at existing maps shows at least thirty (30) different street systems in the northern half alone, these all being very loosely and roughly tied together on existing maps and forming only a picture at best.

The United States Coast and Geodetic Survey has given us the geographical positions and the linear rectangular co-ordinates of the prominent points throughout the City, and the computation of these triangulation points was made as if the survey was upon a plane, not upon a spheroid. To tie these triangulation points down accurately to the local street system would be an endless job, exceedingly difficult of execution, and practically worthless for the mapping process, after being so determined for the reason that these points were selected by the government engineers because of their prominence in the horizon, not because of their position relative to the street system or to each other.

In order to rigidly control each system, and have it plotted in its correct position relatively to the adjoining system and to the whole map, we occupied at least three governing points in each street system and read angles to the three triangulation stations best available. The angles were carefully turned and read six times, and the average angles are used in computing the co-ordinate of the point occupied. The expenditure was not turned on account of the limited time available. The position of the available buildings occupied was accepted, in every instance, as being accurately located by the City Surveyor, and the point chosen and occupied upon the roof was at a known position from the adjoining street lines. This was all the field work necessary.

The following summary consists in a brief and general way the amount of field work which was necessary to complete the secondary system of triangulation:

Points occupied, but not available.....	14
Available points occupied, and angles read.....	69
Available points occupied twice, and angles read.....	3
Total points visited.....	86
Total number of angles turned and recorded.....	864

By means of the three point problem we are now computing the co-ordinates of the points occupied.

This work was performed by Mr. J. Calvin Locke, Assistant Engineer, with the help of one man. Mr. Locke has taken a conscientious interest in this triangulation, and I feel he should receive great credit for the extreme accuracy obtained, as he occupied these 86 positions and turned 864 angles in about thirty days.

D—OFFICE WORK.

Maps were completed as follows:

I. Maps Forwarded for Adoption.

1. Maps affecting changes in lines of streets and closing and laying out streets:
 1. Closing and discontinuing East Eleventh street, from Ditmas avenue to Avenue H.
 2. Closing and discontinuing the unnamed streets in block bounded by Montgomery street, New York avenue, Malbone street and Nostrand avenue.
 3. Reduction in width of Lincoln road, from Nostrand avenue to west line of Clove road; of East New York avenue, from the west line of Clove road to Remsen avenue, and the widening of Lefferts avenue, from a point 373 feet west of Utica avenue to Utica avenue, and the change in the lines of East New York avenue and Remsen avenue, at the southeast intersection thereof.
 4. Locating and laying out Bay Tenth street, from Cropsey avenue to United States bulkhead line, and establishing grades therefor.
 5. Locating and laying out Twenty-third avenue, from its present terminus to United States bulkhead line, and establishing grades therefor.
 6. Locating and laying out Sullivan street, from Nostrand avenue to New York avenue, and establishing grades therefor.
 7. Locating and laying out Maple street, from Troy avenue to Remsen avenue, and establishing the grades therefor.
 8. Locating and laying out Hampton place, from Sterling place to St. Johns place, and establishing the grades therefor.
 9. Showing Van Sinderen avenue to be widened 10 feet on the east side, from Blake avenue to Hegeman avenue, and 15 feet on the east side, from Hegeman avenue to bulkhead line of Fresh Creek, excepting land occupied by the Canarsie Railroad between New Lots avenue and Vienna avenue, and fixing the grades therefor.
 10. Closing and discontinuing Banker street, from Franklin street to Meserole avenue, and the locating and laying out Banker street, from Meserole avenue to Calyer street, and establishing the grades therefor.

11. Locating and laying out public park bounded by Avenue D, Ralph avenue, East Eightieth street, Avenue J, Paerdegat avenue and East Fifty-fourth street.
12. Locating and laying out public places bounded by Highland boulevard, Fanchon place, Bushwick avenue and Gillen place, and by Highland boulevard, Gillen place and Bushwick avenue.
13. Closing and discontinuing two old lanes lying west of Harway avenue, between Twenty-seventh avenue and Bay Forty-seventh street.
14. Locating and laying out Whitwell place, from First street to Carroll street, and Denton place, from First street to Carroll street, and establishing the grades therefor.
15. Locating and laying out Crown street, between Rogers and Nostrand avenues.
16. Closing and discontinuing Ten Eyck street, from Stewart avenue to Newtown Creek, and of Stewart avenue, from Grand street to English Kills.

(b) Maps affecting changes of the established elevation of streets:

1. Change of grade, Seventy-second street, from Thirteenth avenue to Fourteenth avenue.
2. Establish the grades of Ovington avenue, from Tenth avenue to New Utrecht avenue, and to change the grades in Tenth avenue, from Bay Ridge avenue to Sixty-eighth street, and Eleventh avenue, Twelfth avenue, Thirteenth avenue, Fourteenth avenue and Fifteenth avenue, from Sixty-seventh street to Bay Ridge avenue.
3. Change of grade, Eighth avenue, from Thirty-seventh street to Thirty-ninth street.

II. Maps Forwarded for Filing.

(a) Maps affecting changes in lines of streets and closing and laying out streets:

1. Locating and laying out of a public place bounded on the north by Metropolitan avenue, on the southeast by Meadow street and on the southwest by Scott avenue.
2. Closing and discontinuing of Sixty-sixth street, from Fourth avenue to the bulkhead line; Narrows avenue, from Sixty-first street to Wakeman place; Wakeman place, from Narrows avenue to the bulkhead line, and Lating place, from Shore road to the bulkhead line, and showing the change of grades in First avenue, from Sixty-second street to Sixty-seventh street; Sixty-third street, from a point distant 740 feet westerly from the westerly line of First avenue to Second avenue; Wakeman place, from First avenue to Second avenue, and Shore road, from Second avenue to a point distant 472 feet westerly from the westerly line of First avenue.

(b) Maps affecting changes of the established elevation of streets:

1. Establishing grades for streets within the area bounded by Ocean parkway, Coney Island avenue and Avenue C where grades have not heretofore been adopted, and changing the grades in East Seventh street, East Eighth street, Albemarle road and Beverly road within the same limits.
2. Change of grade in Kenmore place, from Woodruff avenue to Caton avenue; East Twenty-first street, from Caton avenue to Church avenue, and in Caton avenue, from Ocean avenue to Flatbush avenue.
3. Change of grade in Metropolitan avenue, from the bridge over Newtown Creek to Scott avenue, and in Scott avenue, from Metropolitan avenue to Troutman street.
4. Change of grade in Seventy-fourth street, from Thirteenth avenue to Fourteenth avenue.

III. Miscellaneous Maps.

These comprise maps, or general sketches, for special reports, and copies of maps previously prepared and forwarded.

1. Map or plan showing the locating and laying out of Shore boulevard.
2. Map or plan showing the closing and discontinuing of Canal avenue, etc., etc.
3. Draft damage map in the matter of the construction of the bridge over Newtown Creek at Manhattan avenue.
4. Map or plan showing the closing and discontinuing of Ryder avenue, from Kings highway to Gravesend Neck road.
5. Sketch showing the approximate position of the railroad tracks in the vicinity of Atlantic and Montauk avenues.
6. Sketch showing the streets in the vicinity of Avenue N and Ralph avenue.
7. Map or plan showing the closing and discontinuing of Thirteenth street, from the southerly side of First avenue to the Gowanus Canal.
8. Sketch showing location of Cowenhoven lane, from Seventh avenue to Eighth avenue.
9. Map of the Borough of Brooklyn, City of New York, showing streets legally open, streets ceded, and street opening proceedings pending, 1908.
10. Map of the Borough of Brooklyn, City of New York, showing streets legally open, streets ceded, and street opening proceedings pending for the district comprising the former towns of Kings County up to January 1, 1902.
11. Map of the Borough of Brooklyn, City of New York, showing streets legally open, streets ceded, and street opening proceedings pending for the district comprising the former towns of Kings County up to September 1, 1908.
12. Map showing sections of the Borough of Brooklyn which have been monumented or remonumented, and block dimensions calculated and mapped at a scale of 200 feet to one inch. The above work was started January 1, 1907.
13. Map showing former cities and towns which now comprise the Borough of Brooklyn, City of New York.
14. Chart showing the relations between appropriations and work performed.
15. Chart showing street opening proceedings initiated and work completed each year, from 1902 to 1908.
16. Chart showing population, assessed valuations, total appropriations and bureau appropriations for the Borough of Brooklyn, from 1902 to 1908.

IV. Maps Showing Encroachments on Streets Prepared for Bureau of Incumbrances.

None during this quarter.

V. Streets and Street Openings.

This work, in addition to furnishing a mass of oral information, consists in preparing certificates of dedication and statements of facts for submission to the Corporation Counsel. It requires an accurate search of all records in this and the other public offices, besides a thorough examination on the ground of the physical condition of each street. As completed, this work is divided as follows:

A—Certificates of Dedication to Public use of Streets.

These certificates are prepared to prove that the public has an easement to the use of the street, thus avoiding street opening proceedings preliminary to needed improvements.

None during this quarter.

B—Statements of Facts for Submission to Corporation Counsel.

In these statements of facts is included all obtainable information, documentary and physical, that tends to prove a dedication of each street to public use.

None during this quarter.

VI. Maps Prepared for the Corporation Counsel's Office in Condemnation Proceedings.

This work comprises the preparation of the following maps:

- (a) Rule maps in triplicate and technical descriptions of land to be taken in street opening proceedings.
- (b) Profile maps showing physical elevation of the property on the side lines and centre of the street, and the manner in which lands and buildings not taken but affected will be injured or benefited by the intended regulation of the streets.
- (c) Draft damage maps, which give the dimensions of every plot of land to be taken, the encroachments on the streets, the names of the property owners and any other information that will be of service to the Commissioners of Estimate and Assessment.
- (d) Draft benefit maps, showing lot included within the limits of assessment for the opening, and giving dimensions and block and lot numbers.
- (e) Final damage maps in duplicate and final benefit maps in triplicate.

(f) Rule maps and technical descriptions for acquiring easements in streets for sewer purposes.

(g) Rule maps and technical descriptions for closing avenues and streets.

(h) Profiles made in connection with street openings.

(i) Inspection and testimony.

(j) Amendments and additions to street opening maps.

A—Rule Maps and Technical Descriptions.

These maps are sent in triplicate, and technical descriptions, showing the land taken in street opening proceedings.

BELLEVUE AND ALLIED HOSPITALS.

A regular meeting of the Board of Trustees of Bellevue and Allied Hospitals was held in the staff room of Bellevue Hospital on Tuesday, October 27, 1908, at half past 2 o'clock.

Present—Dr. Brannan, the President, in the chair; Messrs. Barry, Sachs, Stern, O'Keeffe, Robbins and Paulding, Trustees, and Mr. Heberd, Commissioner of Public Charities.

The list of appointments, dismissals, resignations, increases in salaries, transfers, promotions, etc., was approved and placed on file.

Mr. M. J. Rickard, the Acting Superintendent, reported as follows:

From October 18 to October 24, inclusive, 28 operations were performed at Bellevue Hospital, 3 at Gouverneur Hospital, 10 at Harlem Hospital, and 13 at Fordham Hospital, at all of which the attending surgeons or their assistants were present.

In accordance with the rules a fire drill was held at Harlem and Fordham Hospitals on October 23, and at Bellevue and Gouverneur Hospitals on October 24.

An estimate has been received from the John H. Parker Company for replacing broken glass in Pavilions A and B of the new Bellevue Hospital for \$120.

Miss Goodrich, the General Superintendent of Training Schools, requests permission to engage a substitute waitress for two weeks from October 22 at \$180 a year in place of Margaret Kunath, who is absent on vacation.

Dr. Sternberger requests the services of two special nurses to care for a uraemic patient for about a week, and Dr. Bissell requests a day nurse and a night nurse for two or three days for a patient in Ward 40 suffering from typhoid fever with perforation. Dr. A. A. Smith recommends that a day nurse and a night nurse be allowed to care for Dr. L. C. Lang, Junior on the Third Medical Division, who is ill with typhoid fever.

Miss McCullough, of Boston, has declined the appointment as Dietitian of Bellevue Hospital and it is recommended that the Municipal Civil Service Commission be requested to hold a new examination for the position of Dietitian.

A communication from Dr. Frank S. Fielder, Chairman of the Supervisory Committee of the Out-patient Department, is herewith submitted. As Dr. Fielder sees no objection to placing this laboratory in the toilet room, and as it can be done with little expense to the Department, it is recommended that the work be done.

A statement from Dr. Thomas MacRae regarding the loss of clothing is herewith submitted and it is recommended that the matter be referred to the Bureau of Claims, Department of Finance.

The Supervising Nurse of Harlem Hospital reports that the physicians who visit the hospital to witness operations carry their coats and hats with them to the operating room and usually place them on the sterilizing tables, and that they do not sit in the stand erected for them but cluster about the patient.

Attention is called to the telephone system in Pavilions A and B. The telephones are in the hall and when used at night the ringing of the bell will disturb the patient. A better system would be to place the telephones in the centre of the ward on a table and use a red light to call the nurse.

The electric light system might be improved by carrying a wire to the centre of the ward. The ward could be divided into sections, and, with an index on the Nurses' desks for these sections, the light could be turned on at any point without affecting the other sections.

Regarding the complaint of the payment of bills, the Bookkeeping Department has been instructed to report upon all bills which have not been forwarded to the Department of Finance within 30 days after their receipt in order that an investigation may be made regarding the cause of the delay.

Specifications are submitted for converting Wards 18 and 25 into rooms for the house staff, and Ward 31 into an isolation pavilion, and authority is requested to advertise for bids on this work.

The Manhattan Supply Company and John Wanamaker both ask to be relieved of their contracts to supply infants' bath tubs on account of errors in the bids and instructions from the Board are requested in the matter.

The Foreman of Drivers reports two of the horses unfit for service, and it is recommended that permission be requested from the Commissioners of the Sinking Fund to transfer them to the City Farm on Staten Island.

Authority to purchase the following is requested:

Permission is requested to have the New York Window Cleaning Company clean the windows and floors of Pavilions A and B for the sum of \$80.

Dr. King, No. 216 West One Hundred and Thirty-fifth street, has donated to Harlem Hospital several large solution bottles, a very good pair of apothecary's scales and a large number of small bottles.

The Supervising Nurse of Harlem Hospital reports that on October 14 a child was run over by a Harlem Hospital ambulance. The wheel passed over the boy's left leg, causing compound fracture of the tibia. Statements have been received from the Doctor and the Driver, and it does not appear that either is to blame in the matter.

On motion, duly seconded, it was

Resolved, To place a notice in Pavilions A and B, that employees breaking windows or doing other damage to the building will have the amount of such damage deducted from their wages.

On motion, duly seconded, it was further

Resolved, To obtain an additional estimate on the work of replacing the broken glass in these buildings.

On motion, duly seconded, it was
Resolved, To authorize the appointment of a temporary Waitress for the Doctors' dining room for a period of two weeks; two special Nurses for two weeks to care for a uræmic patient in Dr. Sternberger's service; a day Nurse and a night Nurse for two or three days to care for a typhoid fever patient in Ward 40, Dr. Bissell's service; and a day Nurse and a night Nurse to care for Dr. C. L. Lang, Junior on the Third Medical Division, who is ill with typhoid fever.

On motion, duly seconded, it was
Resolved, To request the Civil Service Commission to hold an examination for the position of Dietitian.

On motion, duly seconded, it was
Resolved, To approve the recommendation of Dr. Fielder in the matter of a laboratory for the Out-Patient Department.

On motion, duly seconded, it was
Resolved, To approve of referring the loss of property by Dr. Thomas MacRae to the Bureau of Claims, Department of Finance.

On motion, duly seconded, it was
Resolved, To place a notice in the operating room of Harlem Hospital, forbidding the placing of clothing on the sterilizing tables, etc., and requesting visitors to use the stand provided for that purpose.

On motion, duly seconded, it was
Resolved, To refer the suggestions of the Acting Superintendent regarding the telephone service and the electric light service in Pavilions A and B to the Building Committee for investigation and report

On motion, duly seconded, it was
Resolved, To request the Acting Superintendent to have all bills audited and passed in the month in which the articles are received, if possible.

On motion, duly seconded, it was
Resolved, To authorize an advertisement for bids on converting Wards 18 and 25 into rooms for the house staff, and Ward 31 into an isolating pavilion.

On motion, duly seconded, it was
Resolved, To relieve the Manhattan Supply Company and John Wanamaker of their bids to supply infants' bath tubs, and to obtain new bids on this item.

On motion, duly seconded, it was
Resolved, To make arrangements to have the two horses, Willie, at Bellevue, and Baby, at Gouverneur, transferred to the City Farm on Staten Island.

On motion, duly seconded, it was
Resolved, To refer the request of the Acting Superintendent for authority to purchase certain articles to the Committee on Supplies for recommendation.

On motion of Mr. O'Keeffe, duly seconded, it was
Resolved, To send a vote of thanks to Dr. King for the articles presented to Harlem Hospital.

Reports of Committees.

The Building Committee, to which had been referred the bids on furniture, etc., for the Bellevue Training School for Women Nurses, recommended that, with the exception of Line 11 (285 oak desks), the contracts be given to the lowest bidders on the individual items. In the case of Line 52 (30 ash chairs for servants' dining-room) the Committee recommended that the bid of W. R. Thompson be accepted, it being as low as that of the Manhattan Supply Company.

On motion, duly seconded, it was
Resolved, To approve the recommendation of the Building Committee in this matter.

The Building Committee, to which had been referred the matter of an additional elevator for Bellevue Hospital, reported progress.

The Building Committee, to which had been referred the matter of the excessive heat in the operating room at Harlem Hospital, reported progress.

BOARD OF ESTIMATE AND APPORTIONMENT.

PUBLIC NOTICE.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment held this day,

FRIDAY, DECEMBER 11, 1908,

at 10.30 o'clock a. m., was fixed as the time, and the Old Council Chamber, Room 16, City Hall, Borough of Manhattan, as the place, for a public hearing on the application of the One Hundred and Forty-fifth Street Railway Company for a franchise to construct, maintain and operate a double track street surface railway upon and along West One Hundred and Forty-fifth street, from Lenox avenue to Broadway, Borough of Manhattan, at which time citizens shall be entitled to appear and be heard.

Dated New York, November 20, 1908.

JOSEPH HAAG, Secretary.

d2,11

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held June 26, 1908, the following petition was received:

To the Honorable, the Board of Estimate and Apportionment of The City of New York:

The petition of the New York City Interborough Railway Company respectfully shows:

1. Your petitioner is a street surface railway corporation, duly organized on or about the 24th day of March, 1902, under the laws of the State of New York.

2. The Board of Aldermen of The City of New York has heretofore, to wit, on the 16th day of March, 1903, granted to the said New York City Interborough Railway Company the franchise, right and privilege to construct and operate a double track surface railway with all connections, turnouts, switches, crossovers and stands necessary for the accommodation and operation of the said railroad by an overhead system of electricity, or any other motive power which may be lawfully employed upon the same, in and upon and along certain streets, avenues, parkways, highways, public places, bridges and viaducts, all situated in the Boroughs of Manhattan and The Bronx, City, County and State of New York, and more particularly specified in the said ordinance of the Board of Aldermen adopted March 16, 1903, and approved by the Mayor, March 31, 1903, a copy of which is hereto annexed, the total mileage authorized by said resolution being about 22.8 miles.

3. The Board of Estimate and Apportionment of The City of New York, by a resolution adopted the 25th day of June, 1907, a copy of which is hereto annexed, granted the franchise or right to use certain streets, roads, avenues, highways or public grounds within or belonging to The City of New York for the construction and operation in and upon the surface thereof of a double or single track surface railway as alterations or changes of the route granted to it by virtue of the aforesaid ordinance of the Board of Aldermen, approved by the Mayor.

4. Pursuant to the franchise and right granted by virtue of the said ordinance of the Board of Aldermen and resolution of the Board of Estimate and Apportionment, your petitioner promptly commenced and diligently constructed and completed its road upon the following streets: One Hundred and Eighty-first street, from St. Nicholas avenue to Amsterdam avenue, in the Borough of Manhattan, across Washington Bridge to the Borough of The Bronx; on Aqueduct avenue, from the east end of Washington Bridge to Kingsbridge road; Kingsbridge road, from Aqueduct avenue to Creston avenue; One Hundred and Eighty-ninth street, from Third avenue to the Southern boulevard; Southern boulevard, from One Hundred and Eighty-ninth street to One Hundred and Eightieth street; One Hundred and Eightieth street, from Southern boulevard to Third avenue. This construction is four and eighty-six one-hundredths (4.86) miles in length, and was operated as a system until on or about September 1, 1907, when there was added one and fifteen one-hundredths (1.15) miles in length of operation on Ogden avenue, from Aqueduct avenue to Jerome avenue. These routes continued to be operated on or about February 15, 1908, when there was added hereto additional routes operated on the following streets: Tremont avenue, from Aqueduct avenue to Webster avenue; One Hundred and Eightieth street, from Webster avenue to Third avenue; One Hundred and Eightieth street, from the Southern boulevard to Boston road; Boston road, from One Hundred and Eightieth street to One Hundred and Seventy-eighth street, of one and seventy-three one-hundredths (1.73) miles in length, making a total system at as present operated of seven and seventy-four one-hundredths (7.74) miles in length. The portions of the routes of your petitioner upon which its road is partially or wholly constructed but not operated are: Kingsbridge road, from Aqueduct avenue to Heath avenue; Sedgwick avenue, from Kingsbridge road to Fort Independence street; Fort Independence street to Two Hundred and Thirty-eighth street; Two Hundred and Thirty-eighth street to Broadway; Kingsbridge road, from Valentine avenue to Fordham road; One Hundred and Forty-ninth street, from Gerard avenue to St. Ann's avenue; One Hundred and Fifty-sixth street, from Eagle avenue to Westchester avenue; Wilkins place, from Boston road to Intervale avenue; Intervale avenue to Dongan street; Dongan street to Southern boulevard, making a total mileage, partially or wholly constructed, but not operated, of four and twenty-five one-hundredths (4.25) miles.

The routes embraced within the franchise of your petitioner are shown upon a map hereto annexed, upon which the portions of said route which are operated appear in red, and those upon which the road is wholly or partially constructed, but not operated, are shown in blue.

5. The routes of the New York City Interborough Railway Company are almost entirely located in the Borough of The Bronx, and the streets in that Borough upon which the further construction of your petitioner's lines must be effected are in the course of reconstruction, the

City being engaged in opening and grading streets and constructing sewers therein, all of which work it was necessary to complete before the lines of the Company could be laid in place and cars operated thereover. Among the public works which have interfered with the construction or operation of the Company's roads are the construction of the Grand Concourse across the Company's lines at Tremont avenue and at Kingsbridge road. This large public work absolutely prevented the operation and connection of the Company's lines between the east and west sides of the City through these streets, and the franchise during this time of operation was without any earning power whatsoever. This work was completed during the month of February, 1908, which permitted the partial operation of one of the Company's crosstown lines. One of the lines in your petitioner's franchise is a road upon the new Tremont avenue, or East One Hundred and Seventy-seventh street, east of the Bronx River. This street is being opened and the Company is unable to make any construction thereon. The streets and highways in the so-called Hunts Point section, in the southeastern part of the Borough of The Bronx, are in course of construction, and it is now impossible for the Company to complete its railroad thereon sufficiently to enable the operation of cars over the same.

The portions of the Company's roads not operated are wholly disconnected from the portions which are in operation, and have been made so by the character of the City construction above referred to. Such disconnected portions have been wholly valueless and worthless to the Company, as they have not produced any income whatsoever, and have not been of any value to the public, as the Company has been unable to operate any cars over the same.

For interest on First Mortgage 4 per cent. Sinking Fund Gold Bonds..... 117,000 00

Total obligations as of June 30, 1908..... \$284,535 54

In addition to the foregoing items of indebtedness, there are certain sums not yet determined, claimed to be due the Union Railway Company, either in the form of capital payment or an annual rental charge for the privilege of operating on the tracks of the said Union Railway Company over the Macombs Dam Bridge.

9. The income of your petitioner from the operation of its street surface railway or railways is wholly inadequate to meet the necessary expenses of operating said railways and make the payments to the City required by its franchises aforesaid, as more fully appears by the statement of the receipts and expenditures of your petitioner during the year ending on the 31st day of December, 1907, a copy of which is hereto annexed, and by its current quarterly report to the Public Service Commission, a copy of which is annexed hereto.

10. Your petitioner has been and is wholly unable to discharge its obligations under a certain mortgage to the United States Mortgage and Trust Company, dated the first day of May, 1905, and there is now due and unpaid, as of the first day of May, 1908, as accrued interest upon the outstanding bonds issued under said mortgage, the sum of \$117,000, and your petitioner is further unable to discharge its obligations under and by virtue of certain contracts heretofore entered into by it for the power necessary to its operation, and for the further construction of its said railways.

11. The financial condition of your petitioner is such that it is and will in an increasing measure be embarrassed and crippled in its desire and effort to afford satisfactory and efficient service to the public; and unless it be materially relieved in respect to its financial obligations, it will be difficult, if not impossible, to discharge its obligations to the City and to the public within the intent and purpose of its said franchise.

12. The portions of the routes embraced within the franchise granted to your petitioner as aforesaid which command relatively the greatest volume of traffic per mile of operation, are those upon which the railway of your petitioner is now constructed and in operation, and in respect to which there has resulted from said operation a large and increasing deficit. A large portion of the route or routes granted as aforesaid to your petitioner, and more especially the routes in the so-called Hunts Point section in the southeastern part of the Borough of The Bronx, cannot, as your petitioner is advised and believes, in the light of its experience in the operation of its present system, be constructed and operated without incurring not only a present deficit and a continuing loss during the term of your petitioner's franchise, but possible jeopardy of all or the greater part of any of the capital expenditures necessary to the completion of said routes.

Your petitioner, although unable, as aforesaid, to meet its contract and other obligations, is earnestly endeavoring to effect such arrangements as will enable it to continue not only the operation, but the further construction of its road,

6. In and by said franchise, and more particularly by the fourth paragraph of section two of said ordinance, adopted by the Board of Aldermen March 16, 1903, your petitioner is obligated to make certain payments to the City, to wit, as follows: During the first term of five years an annual sum which shall in no case be less than \$15,000, and which shall be equal to 3 per cent. of its gross annual receipts if such percentage shall exceed the sum of \$15,000; during the remaining twenty years of the term an annual sum which shall not be less than \$30,000, and which shall be equal to 5 per cent. of its gross annual receipts, if such percentage shall exceed the sum of \$30,000; and for the use of four bridges described in the said ordinance of the Board of Aldermen constituting the franchise of your petitioner, during the first term of five years the annual sum of \$4,000 for each bridge; during the second term of five years, the annual sum of \$4,500 for each bridge; during the third term of five years, the annual sum of \$5,000 for each bridge; during the fourth term of five years the annual sum of \$5,500 for each bridge, and during the last term of five years, the annual sum of \$6,000 for each bridge.

That your petitioner has, during the year ending September 30, 1907, or a portion thereof, made use of two of the bridges specified in its franchise, to wit, the Central or Macombs Dam Bridge and the Washington Bridge.

7. That in said ordinance it was provided that said payments should be made on November 1 in each year after the commencement of the operation of any portion of the railroad, and that The City of New York has claimed that there has become due and payable to it by reason of the said provisions of said franchise the following sums, none of which have been paid:

For the use of the Central Bridge..... \$333 00
For the use of the Washington Bridge..... 4,000 00
Franchise payments to the City..... 15,000 00

Total..... \$19,333 33

8. In and by virtue of the construction of its street surface railway or railways, your petitioner has incurred as of June 30, 1908, certain debts, none of which has been paid, as follows:
Outstanding Obligations as of June 30, 1908 (Estimated from June 19 to June 30). \$842 23

State taxes on earnings claimed to have accrued to April 30, 1908, inclusive..... \$842 23

In addition to the foregoing items of indebtedness, there are certain sums not yet determined, claimed to be due the Union Railway Company, either in the form of capital payment or an annual rental charge for the privilege of operating on the tracks of the said Union Railway Company over the Macombs Dam Bridge.

9. The income of your petitioner from the operation of its street surface railway or railways is wholly inadequate to meet the necessary expenses of operating said railways and make the payments to the City required by its franchises aforesaid, as more fully appears by the statement of the receipts and expenditures of your petitioner during the year ending on the 31st day of December, 1907, a copy of which is hereto annexed, and by its current quarterly report to the Public Service Commission, a copy of which is annexed hereto.

10. Your petitioner has been and is wholly unable to discharge its obligations under a certain mortgage to the United States Mortgage and Trust Company, dated the first day of May, 1905, and there is now due and unpaid, as of the first day of May, 1908, as accrued interest upon the outstanding bonds issued under said mortgage, the sum of \$117,000, and your petitioner is further unable to discharge its obligations under and by virtue of certain contracts heretofore entered into by it for the power necessary to its operation, and for the further construction of its said railways.

11. The financial condition of your petitioner is such that it is and will in an increasing measure be embarrassed and crippled in its desire and effort to afford satisfactory and efficient service to the public; and unless it be materially relieved in respect to its financial obligations, it will be difficult, if not impossible, to discharge its obligations to the City and to the public within the intent and purpose of its said franchise.

12. The portions of the routes embraced within the franchise granted to your petitioner as aforesaid which command relatively the greatest volume of traffic per mile of operation, are those upon which the railway of your petitioner is now constructed and in operation, and in respect to which there has resulted from said operation a large and increasing deficit. A large portion of the route or routes granted as aforesaid to your petitioner, and more especially the routes in the so-called Hunts Point section in the southeastern part of the Borough of The Bronx, cannot, as your petitioner is advised and believes, in the light of its experience in the operation of its present system, be constructed and operated without incurring not only a present deficit and a continuing loss during the term of your petitioner's franchise, but possible jeopardy of all or the greater part of any of the capital expenditures necessary to the completion of said routes.

Your petitioner, although unable, as aforesaid, to meet its contract and other obligations, is earnestly endeavoring to effect such arrangements as will enable it to continue not only the operation, but the further construction of its road,

with a view to affording the largest accommodation and service to the traveling public within its power, and the relief for which your petitioner respectfully prays is, in view of the financial embarrassment of your petitioner, essential, as your petitioner believes and respectfully shows herein, to the accomplishment of this purpose.

Wherefore, Your petitioner prays that it be relieved from each and every of its said obligations to make the payments in and for the use of the bridges specified in its franchise, and more particularly in the fourth paragraph of section 2 of the ordinance of the Board of Aldermen, approved by the Mayor as aforesaid, March 31, 1903, and from the payments for the aforesaid franchises specified in said fourth paragraph of section 2 of said ordinance, except such annual sums which shall be equal to three per cent. of its gross annual receipts during the first term of five years specified in said paragraph fourth, and which shall be equal to five per cent. of its gross annual receipts thereafter. And your petitioner prays that public notice be given of the time and place when and where this application shall be held, and that the desired consent or grant herein applied for be embodied in the form of a contract, and otherwise in accordance with the provisions of the Greater New York Charter.

Dated at The City of New York June 23, 1908.
NEW YORK CITY INTERBOROUGH RAILWAY COMPANY.

[SEAL] By ALFRED SKITT, President.
Attest:
H. M. FISHER, Secretary.

State of New York, County of New York, ss.:
Alfred Skitt, being duly sworn, deposes and says that he is the President of New York City Interborough Railway Company, the petitioner named in the foregoing petition; that he has read the foregoing petition and knows the contents thereof; that the same is true of his own knowledge, except as to the matters therein stated to be alleged upon information and belief, and that as to those matters he believes it to be true; that the reason why this verification is not made by the petitioner is that it is a corporation; that the deponent is an officer of said corporation, to wit, its president, and that the grounds of his information in regard to the matters stated in the foregoing petition, so far as the same are not within his personal knowledge, are statements made by officers or agents of the corporation to him as president thereof.

ALFRED SKITT.
Sworn to before me this 23d day of June, 1908.
JOSEPH W. MASON, Commissioner of Deeds,
New York City.

State of New York, County of New York, ss.:
On this 23d day of June, in the year one thousand nine hundred and eight, before me personally came Alfred Skitt, to me known, who, being by me duly sworn, did depose and say that he resided in the City of Yonkers, N. Y.; that he is president of the New York City Interborough Railway Company, the corporation described in and which executed the foregoing instrument; that he knew the seal of said corporation; that the seal affixed to said instrument was such corporate seal; that it was so affixed by

order of the Board of Directors of said corporation, and that he signed his name thereto by like order.

JOSEPH W. MASON,
Commissioner of Deeds, New York City.

And at the meeting held November 20, 1908, the following resolutions were adopted:
Whereas, The foregoing petition from New York City Interborough Railway Company, dated June 23, 1908, was presented to the Board of Estimate and Apportionment at a meeting held June 26, 1908; and

Whereas, A second petition, dated November 12, 1908, was presented to the Board at the meeting held November 13, 1908, requesting an extension of time until December 27, 1909, in which to complete the construction of twenty-four miles of the petitioner's double-track street railway.

Resolved, That, in pursuance of law, this Board sets Friday, the 11th day of December, 1908, at 10:30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least two (2) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the City Record, immediately prior to such date of public hearing, the expense of such publication to be borne by the petitioner.

JOSEPH HAAG, Secretary.
New York, November 20, 1908.

n30,d11

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held this day, the following proceedings were had:

Whereas, The Bronx Traction Company has, under date of July 28, 1908, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate a street surface railway upon and along Clasons Point road, from Westchester avenue to Long Island Sound, in the Borough of The Bronx; and

Whereas, Section 92 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapter 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on October 2, 1908, fixing the date for public hearing thereon as October 30, 1908, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in the "New York Sun" and the "New York Tribune," newspapers designated by the Mayor, and in the City Record for ten days immediately prior to the date of hearing, and the public hearing was duly had on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the Bronx Traction Company, and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Bronx Traction Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Bronx Traction Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

BRONX TRACTION COMPANY.
Proposed Form of Contract.

This contract, made this day of 1908, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Bronx Traction Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the terms and conditions herein-after set forth, the right and privilege to construct, maintain and operate a double track extension to its present street surface railway, with the necessary wires and equipment for the purpose of conveying passengers in the Borough of The Bronx, City of New York, upon the following route:

Beginning at and connecting with the existing double track street surface railway on Westchester avenue, at the intersection of said avenue with Clasons Point road, and running thence easterly in, upon and along said Clasons Point road to the public place at the easterly terminus thereof, and running thence, with a loop, in, upon and along said public place. The said route, with turnouts, switches and crossovers hereby authorized is shown upon a map entitled:

"Map showing proposed railway of Bronx Traction Co. in the Borough of The Bronx, City of New York, to accompany petition to the Board of Estimate and Apportionment, dated July 28, 1908."

—and signed by Edward A. Maher, President, and T. F. Mullaney, Chief Engineer, a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed; provided, that deviations therefrom and additional turnouts, switches and crossover which are consistent with the foregoing description and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within six months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within one month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed, otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company for the term of fifteen (15) years from the date upon which this con-

tract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty (20) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty (20) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for this privilege the following sums of money: The sum of three thousand five hundred dollars (\$3,500), in cash, within thirty (30) days after the date on which this contract is signed by the Mayor.

During the first term of five years an annual sum, which shall in no case be less than three hundred and seventy-five dollars (\$375), and which shall be equal to three per cent. of its gross annual receipts if such percentage shall exceed the sum of three hundred and seventy-five dollars (\$375).

During the second term of five years an annual sum which shall in no case be less than six hundred and eighty-seven dollars (\$687), and which shall be equal to five per cent. of its gross annual receipts if such percentage shall exceed the sum of six hundred and eighty-seven dollars (\$687).

During the third term of five years an annual sum which shall in no case be less than seven hundred and fifty-six dollars (\$756), and which shall be equal to five per cent. of its gross annual receipts if such percentage shall exceed the sum of seven hundred and fifty-six dollars (\$756).

The gross annual receipts mentioned above shall be that portion of the gross receipts of the Company as shall bear the same proportion to its whole gross receipts as the length of the extension hereby granted shall bear to the entire length of the line in operation.

The payment of such minimum sums shall begin from the date on which this contract is signed by the Mayor.

All such sums as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above, such sum over and above such minimum shall be paid to the said Comptroller on or before November 1 in each year for the year ending September 30 next preceding. The fiscal year shall end on September 30 next preceding said date of payment, and provisions of the Railroad Law as it now exists, or as it may hereafter be amended, relating to the manner of payments and statements of percentages of gross receipts of street railway companies not inconsistent with this contract, shall be strictly complied with.

The intention of this paragraph is to fix an annual charge to be paid by the Company, its successors or assigns, to The City of New York for the rights and franchises hereby granted, and it shall not be construed as providing for the payment by the Company, its successors or assigns, of a percentage of gross receipts within the meaning of any general or special statute, referring particularly to chapter 340 of the Laws of 1902.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or by any Law of the State of New York.

Fourth—Upon the termination of this original contract, or if the same be renewed, then, at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks and equipment of the Company constructed pursuant to this contract within the streets, avenues and highways shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this grant as above the City (by the Board) shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract, and the said streets, avenues and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The annual charges or payments shall continue throughout the whole term of this contract, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payments for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways herein above described in section 1.

The use of said railway which shall be constructed by the Company under this contract, including the tracks, wires and other equipment, or any structures in public streets and avenues owned by the Company and used in connection therewith, shall be permitted by the Company to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways herein above described in section 1, for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall be equal to the legal interest on such proportion of the whole cost of the construction of such railway and structures and of the cost of keeping the tracks and track equipment in repair, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract, in connection with the maintenance or the operation of the said railway so used. Provided, however, that if in the opinion of the Company the legal rate of interest on the cost of such railway shall be an insufficient sum to pay for the use of such tracks, it may appeal to the Board, and the Board may fix a percentage of the cost to be paid to the Company at a sum in excess of the legal rate of interest, if in its opinion such action is justified. The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company pursuant to this contract.

Eighth—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of The Bronx, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission of the First District of the State of New York.

Ninth—The Company shall commence construction of the railway herein authorized within six months from the date upon which the consents of the property owners are obtained, or from the date upon which the decision of the Appellate Division of the Supreme Court that such railway ought to be constructed is rendered in lieu of such consents, and shall complete the construction and place the same in full operation within one year from the date of obtaining such consents or such decision, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided, that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Tenth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

Eleventh—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Twelfth—The rate of fare for any passenger upon such railway shall not exceed five (5) cents, and the Company shall not charge any passenger more than five (5) cents for one continuous ride

from any point on said railway, or a line or branch operated in connection therewith, to any point thereof, or any connecting line or branch thereof, within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

The rate for the carrying of property over the said railway upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board, or its successors in authority, and may be fixed by such Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, its successors or assigns, and no greater sums shall be charged for such service than provided for by it.

Thirteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars, cars for the transportation of express matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway; and the tracks hereby authorized shall not be used for the storage of cars.

Fourteenth—Cars on the said railway shall run at intervals of not more than thirty minutes both day and night, and as much oftener as reasonable convenience of the public may require or as may be directed by the Board.

Provided, however, that the Company, during the first five years of this contract, shall not be required to operate its cars between the hours of 1 o'clock a. m. and 5 o'clock a. m., each day, unless the Board shall determine after a hearing had thereon that public convenience requires the operation of cars during said hours.

Fifteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Sixteenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Seventeenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway shall be constructed, shall cause to be watered, at least three times every twenty-four hours when the temperature is above 35 degrees Fahrenheit, the entire width of the streets and avenues, except when the width of such streets and avenues shall exceed 60 feet between curb lines, in which case the Company shall cause to be watered only 60 feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Eighteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Nineteenth—The Company shall at all times keep the streets, avenues or highways upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of 2 feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twentieth—The Company shall cause to be paved that portion of the street between its tracks, the rails of its tracks and two feet in width outside of its tracks upon and along the streets, avenues and highways of the routes hereby authorized, which are now either unpaved or paved with macadam. The work of such paving shall be done under the supervision of the Municipal authorities having jurisdiction in such matters. Such authorities shall designate the character of the pavement to be laid.

As long as the said railway, or any portion thereof, remains in the street, avenue or highway, the Company shall have and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railway is constructed, between its tracks, the rails of its tracks, and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And the City shall have the right to change the material or character of the pavement of any street, avenue or highway, and in that event the Company, its successors or assigns, shall be bound to replace such pavement in the manner directed by the proper City officer, at its own expense, and the provision as to repairs herein contained shall apply to such renewal or altered pavement.

Twenty-first—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-second—Before any construction shall be commenced upon any portion of the route, written permits shall be obtained from the President of the Borough of The Bronx and the Commissioner of Water Supply, Gas and Electricity, and the Company shall comply with any conditions which those officials may impose, as a condition upon which such permit is granted, provided such conditions are imposed for the purpose of protecting the structures over which those officials have jurisdiction.

Twenty-third—The Company agrees to comply with any and all of the rules which may be made by the Commissioner of Water Supply, Gas and Electricity for the purpose of preventing the destruction of the pipes or structures in the street by electrolysis, which may be caused by the electric current used by the Company, whether such rules affect the method of the original construction of said railway or any reconstruction, maintenance or repairs upon such railway at any time during the term of this contract.

Twenty-fourth—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in a manner as directed by the President of the Borough of The Bronx.

Twenty-fifth—Should the grades or lines of the streets in which franchises are herein granted be changed at any time during the term of this contract, the Company shall, at its own expense, change its tracks to conform with such new grades and lines, and during the construction of any public improvement upon said street the Company shall take care of and protect the track at its own expense, all to be done subject to the direction of the President of the Borough of The Bronx.

Twenty-sixth—Upon one year's notice from the Board, the Company shall make application

to said Board for the right or privilege to lay its tracks upon other streets hereafter to be opened, adjacent to the public place at the easterly terminus of Clason's Point road, the same to be in substitution for the loop terminal hereby authorized in the public place, and within six months after such right or privilege is obtained, shall, at its own expense, remove all of its tracks and appurtenances from said public place.

Twenty-seventh—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding or at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number of passengers carried during the year.
16. Total receipts of Company for each class of business.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries.

and such other information in regard to the business of the Company as may be required by the Board.

Twenty-eighth—The Company shall at all times keep accurate books of account of the gross earnings from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of the gross earnings from all railway lines owned or operated by the Company, the total miles owned by the Company and in operation and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-ninth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Thirtieth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars (\$100) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided.

Thirty-first—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirty-second—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of six thousand dollars (\$6,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railway, and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the roadway, heating and lighting of cars, fenders, wheel-guards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel-guards, in case of the violation of the provisions relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows: The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its President, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing

provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of six thousand dollars (\$6,000), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-third—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways in which the Company is authorized to operate.

Thirty-fourth—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-fifth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This contract is also upon the further and express condition that the provisions of the Railroad Law, applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the surface railways operating in the City, not inconsistent with the terms and conditions herebefore fixed, shall be strictly complied with by the Company.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

(Here add acknowledgments.)

Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted and the adequacy of the compensation proposed to be paid therefor, and of the terms and conditions, including the provision as to rates, fares and charges, are as herebefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right.

Resolved, That these preambles and resolutions, including the said resolution for the grant of a franchise or right applied for by the Bronx Traction Company, and the said form of proposed contract for the grant of such franchise or right containing said results of such inquiry, after the same shall be entered in the minutes of this Board, shall be published for at least twenty (20) days immediately prior to Friday, December 18, 1908, in the CITY RECORD, and at least twice during the ten days immediately prior to December 18, 1908, in two daily newspapers to be designated by the Mayor therefor and published in The City of New York, at the expense of the Bronx Traction Company, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment, before authorizing any contract for the grant of the franchise or right applied for by the Bronx Traction Company, and fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right, and before adopting any resolution authorizing any such contract, will, at a meeting of said Board, to be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on Friday, December 18, 1908, at 10:30 o'clock a. m., hold a public hearing thereon, at which citizens shall be entitled to appear and be heard.

JOSEPH HAAG, Secretary.

Dated New York, November 13, 1908.

PUBLIC NOTICE.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment held this day the following proceedings were had:

Whereas, The Union Railway Company of New York City has under date of July 28, 1908, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate a street surface railway upon and along Fordham road and West One Hundred and Eighty-fourth street, in the Borough of The Bronx, and over and along the University Heights Bridge and the approaches thereto, and upon and along West Two Hundred and Seventh street and other streets and avenues in the Borough of Manhattan; and

Whereas, Section 92 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on October 2, 1908, fixing the date for public hearing thereon as October 30, 1908, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in the "New York Sun" and the "New York Tribune," newspapers designated by the Mayor, and in the CITY RECORD for ten days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for, and proposed to be granted to the Union Railway Company of New York City, and the adequacy of the compensation proposed to be paid therefor; now therefore, it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Union Railway Company of New York City, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced, and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Union Railway Company of New York City the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

UNION RAILWAY COMPANY OF NEW YORK CITY.

Proposed Form of Contract.

This contract made this _____ day of _____, 190____ by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Union Railway Company of New York City (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double-track extension to its present street surface railway, with the necessary wires and equipment, for the purpose of conveying persons and property in the Boroughs of The Bronx and Manhattan, in The City of New York, upon the following route:

Beginning at and connecting with the existing tracks of the Company at or near the intersection of Sedgwick avenue and Fordham road, in the Borough of The Bronx, and running thence southwesterly in, upon and along said Fordham road and Hampden place to West One Hundred and Eighty-fourth street, and thence southwesterly and westerly in, upon and along said West One Hundred and Eighty-fourth street to its intersection with the easterly approach to the University Heights Bridge; thence westerly upon and over said bridge, and the easterly and westerly approaches thereto, to West Two Hundred and Seventh street, in the Borough of Manhattan, and thence westerly in, upon and along said West Two Hundred and Seventh street to Amsterdam or Tenth avenue; thence southerly in, upon and along said Amsterdam or Tenth avenue to Emerson street; thence westerly in, upon and along said Emerson street to Broadway, and connecting with the existing double-track railway in said Broadway. The said route with turnouts, switches and crossovers hereby authorized is shown upon a map entitled:

"Map showing proposed railway of the Union Railway Company in the Boroughs of The Bronx and Manhattan, City of New York, to accompany petition to the Board of Estimate and Apportionment, dated July 28, 1908,"—and signed by F. W. Whitridge, Receiver; T. F. Mullaney, Chief Engineer, and Edward A. Maher, President, a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within six months of the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained, the Company shall, within two months thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company for the term of fifteen (15) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty (20) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than that sum required to be paid during the last year of this original contract.

If the Company and the Board shall not reach such an agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty (20) years shall be reasonable, and either the City (by the Board) or the Company shall be bound, upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation at such amounts as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate, and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last

year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for this privilege the following sums of money:

(a) The sum of three thousand five hundred dollars (\$3,500) in cash within thirty (30) days after the date on which this contract is signed by the Mayor.

(b) During the first term of five years an annual sum which shall in no case be less than seven hundred and fifty dollars (\$750), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of seven hundred and fifty dollars (\$750).

During the second term of five years an annual sum which shall in no case be less than fourteen hundred dollars (\$1,400), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of four hundred dollars (\$400).

During the third term of five years an annual sum which shall in no case be less than fifteen hundred and fifty dollars (\$1,550), and which shall be equal to five (5) per cent. of its gross annual receipts if such percentage shall exceed the sum of fifteen hundred and fifty dollars (\$1,550).

The gross annual receipts mentioned above shall be that portion of the gross receipts of the company as shall bear the same proportion to its whole gross receipts as the length of the extension hereby granted shall bear to the entire length of the line of the company in operation.

The payment of such minimum sums shall begin from the day on which this contract is signed by the Mayor.

(c) For the use of the University Heights Bridge during the first term of five years the annual sum of \$2,000, during the second term of five years the annual sum of \$2,250, and during the third term of five years the annual sum of \$2,500. The compensation herein reserved shall commence from the date of the signing of this contract by the Mayor.

All such sums as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above, such sum over and above such minimum shall be paid to the said Comptroller on or before November 1 in each year for the year ending September 30 next preceding. The fiscal year shall end on September 30 next preceding said date of payment, and provisions of the Railroad Law as it now exists, or as it may hereafter be amended, relating to the matter of payments and statements of percentages of gross receipts of street railway companies not inconsistent with this contract, shall be strictly complied with.

The intention of this paragraph is to fix an annual charge to be paid by the Company, its successors or assigns, to The City of New York for the rights and franchises hereby granted, and it shall not be construed as providing for the payment by the Company, its successors or assigns, of a percentage of gross receipts within the meaning of any general or special statute, referring particularly to chapter 340 of the Laws of 1892.

Before any rights hereby conferred are exercised by the Company, and within three (3) months from the date on which this contract is signed by the Mayor, the Company shall pay to The City of New York the sum of twenty thousand three hundred and eighty-five dollars and eight cents (\$20,385.08) and within three (3) months thereafter the further sum of thirty-one thousand seven hundred and fifty-eight dollars and eighty-seven cents (\$31,758.87); said amounts being due under the franchise of the Company granted to it by the Legislature by chapter 340 of the Laws of 1892.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or by any law of the State of New York.

Fourth—Upon the termination of this original contract, or if the same is renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks and equipment of the Company constructed pursuant to this contract, within the streets, avenues and highways and upon the bridge, shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual. If, however, at the termination of this grant as above the City (by the Board or its successors in authority) shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of the tracks and other equipment constructed pursuant to this contract, and the said streets, avenues and highways and the bridge shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The annual charges or payments shall continue throughout the whole term of the contract, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payments for railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of the route mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Nothing in this contract shall be deemed to affect in any way the rights of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions over the same streets, avenues, highways or bridge, hereinabove described in section 1.

The use of said railway, which shall be constructed by the Company under this contract, including the tracks, wires and other equipment, or any structures in public streets and avenues owned by the Company and used in connection therewith, shall be permitted by the Company to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways, hereinabove described in section 1 for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railway and structures and of the cost of keeping the tracks and track equipment in repair, as the number of cars operated by such company or individual shall bear to the number of cars operated by the company then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract, in connection with the maintenance or the operation of the said railway so used. Provided, however, that if in the opinion of the Company the legal rate of interest of the cost of such railway shall be an insufficient sum to pay for the use of such tracks, it may appeal to the Board, and the Board may fix a percentage of the cost to be paid to the Company at a sum in excess of the legal rate of interest, if in its opinion such action is justified.

The Company shall not at any time oppose, but shall upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company pursuant to this contract.

Eighth—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of The Bronx, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board and consented to by owners of property, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York.

Ninth—The Company shall commence construction of the extension herein authorized within six (6) months from the date upon which the consents of the property owners are obtained for such extension, or from the date of the decision of the Appellate Division of the Supreme Court that such extension ought to be constructed, and shall complete the construction of the same within six (6) months from the same date, otherwise this grant shall cease and determine, and all sums which may be deposited with the Comptroller of the City, as hereinafter provided, shall be forfeited to the City. Provided that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each; and provided further that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further that in no case shall such delay be deemed to begin until the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Tenth—Said railway shall be constructed, maintained, and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided in the Charter of the City.

Eleventh—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appliances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the written direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Twelfth—The rate of fare for any passenger upon such railway shall not exceed five (5) cents, and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on said railway, or a line or branch operated in connection therewith, to any point thereof, or any connecting line or branch thereof, within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract, all members of the Police and Fire Departments of the City when such employees are in full uniform.

The rate for the carrying of property over the said railway upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board, or its successors in authority, and may be fixed by such Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, its successors or assigns, and no greater sums shall be charged for such service than provided for by it.

Thirteenth—No cars shall be operated upon the railway hereby authorized other than passenger cars, cars for the transportation of express matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway; and the tracks hereby authorized shall not be used for the storage of cars.

Fourteenth—Cars on the said railway shall run at intervals of not more than thirty minutes both day and night, and as much oftener as reasonable convenience of the public may require or as may be directed by the Board.

Provided, however, that the Company, during the first five years of this contract, shall not be required to operate its cars between the hours of 1 o'clock a. m. and 5 o'clock a. m. each day, unless the Board shall determine after a hearing had thereon that public convenience requires the operation of cars during said hours.

Fifteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Sixteenth—All cars which are operated on said railway shall be heated during the cold weather in conformity with such laws and ordinances as

are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Seventeenth—The Company, so long as it shall continue to use any of the tracks upon the streets, avenues or bridge, in or upon which said railway shall be constructed, shall cause to be watered at least three times every twenty-four hours when the temperature is above 35 degrees Fahrenheit, the entire width of the streets, avenues and bridge, except when the width of such streets, avenues or bridge shall exceed 60 feet between curb lines, in which case the Company shall cause to be watered only 60 feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets, avenues and bridge in a satisfactory manner.

Eighteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Nineteenth—The Company shall at all times keep the streets, avenues or highways and bridge upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twentieth—The Company shall cause to be paved that portion of the street between its tracks, the rails of its tracks and two feet in width outside of its tracks, upon and along the streets, avenues and highways of the routes hereby authorized, which are now unpaved. The work of such paving shall be done under the supervision of the municipal authorities having jurisdiction in such matters, and such authorities shall designate the character of the pavement to be laid.

As long as the said railway, or any portion thereof, remains in the streets, avenues, highways or upon the bridge, the Company shall pave and keep in permanent repair that portion of the surface of the street, avenue, highway or bridge in which said railway is constructed, between its tracks, the rails of its tracks, and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And the City shall have the right to change the material or character of the pavement of any street, avenue, highway or upon the bridge, and in that event the Company, its successors or assigns, shall be bound to replace such pavements in the manner directed by the proper City officer, at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-first—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets required on account of the construction or operation of the railway, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Twenty-second—Before any construction shall be commenced upon any portion of the route, written permits shall be obtained from the Presidents of the Boroughs of Manhattan and The Bronx, and the Commissioners of Water Supply, Gas and Electricity and Bridges, and the Company shall comply with any conditions which those officials may impose as a condition upon which such permit is granted, provided such conditions are imposed for the purpose of protecting the structures over which those officials have jurisdiction.

Twenty-third—The Company agrees to comply with any and all the rules which may be made by the Commissioner of Water Supply, Gas and Electricity for the purpose of preventing the destruction of the pipes or structures in the street by electrolysis, which may be caused by the electric current used by the Company, whether such rules affect the method of the original construction of said railway or any reconstruction, maintenance or repairs upon such railway at any time during the term of this contract.

Twenty-fourth—It is agreed that the right hereby given to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets, or upon the bridge, whether the same is done by the City directly or by a contractor for the City, the Company shall at its own expense protect or move the tracks and appurtenances in a manner as directed by the President of the Borough in which said tracks are situated, or by the Commissioner of Bridges.

Twenty-fifth—Should the grades or lines of the streets in which franchises are herein granted be changed at any time during the term of this contract, the Company shall change its tracks to conform with such new grades and lines, and during the construction of any public improvement upon said streets the Company shall take care of and protect the track and appurtenances at its own expense; all to be done subject to the direction of the President of the Borough in which such change is made or work done.

Twenty-sixth—The Board may at any time require the Company to remove one track from the University Heights Bridge and approaches thereto, and to place the remaining track in the centre of the roadway of said bridge and operate the railway by means of said single track upon said bridge and its approaches.

Twenty-seventh—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, or at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number of passengers carried during the year.
16. Total receipts of Company for each class of business.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries, and such other information in regard to the business of the Company as may be required by the Board.

Twenty-eighth—The Company shall at all times keep accurate books of account of the gross earnings from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross earnings, the total miles in operation and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-ninth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day, not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Thirtieth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars (\$100) as fixed or liquidated damages, or the Board, in case such structures which may affect the surface of the streets or of the bridge shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs with legal interest thereon, all of which sums may be deducted from the fund herein-after provided.

Thirty-first—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to renounce to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirty-second—This grant upon the express condition that the Company within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City of New York the sum of three thousand five hundred dollars (\$3,500), either in money or securities to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the removal of snow and ice and the quality of construction of the railroad; and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same with interest from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the headway, heating and lighting of cars, fenders, wheelguards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of the violation of the provisions relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its president, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of three thousand five hundred dollars (\$3,500), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-third—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways in which the Company is authorized to operate.

Thirty-fourth—The word "notice" or "direction" wherever used in this contract shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction and shall be deemed to have been given at the time of delivery or mailing.

Thirty-fifth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This contract is also upon the further and express condition that the provisions of the Railroad Law, applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the surface railways operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

(Here add acknowledgments.)

Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted and the adequacy of the compensation proposed to be paid therefor, and of the terms and conditions, including the provision as to rates, fares and charges, are as hereinbefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right.

Resolved, That these preambles and resolutions, including the said resolution for the grant of a franchise or right applied for by the Union Railway Company of New York City, and the said form of a proposed contract for the grant of such franchise or right containing said results of such inquiry, after the same shall be entered in the minutes of this Board, shall be published for at least twenty (20) days immediately prior to Friday, December 18, 1908, in the City Record, and at least twice during the ten days immediately prior to December 18, 1908, in two daily newspapers to be designated by the Mayor therefor, and published in The City of New York, at the expense of the Union Railway Company of New York City, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment, before authorizing any contract for the grant of the franchise or right applied for by the Union Railway Company of New York City, and fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right, and before adopting any resolution authorizing any such contract, will, at a meeting of said Board, to be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on Friday, December 18, 1908, at 10:30 o'clock a. m., hold a public hearing thereon, at which citizens shall be entitled to appear and be heard.

JOSEPH HAAG, Secretary.

Dated New York, November 13, 1908.

PUBLIC NOTICE.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment held this day the following proceedings were had:

Whereas, The Union Railway Company of New York City has, under date of July 28, 1908, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate a street surface railway upon and along Pelham avenue, from Third avenue to the Southern boulevard, in the Borough of The Bronx; and

Whereas, Section 92 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance to such laws, this Board adopted a resolution on October 2, 1908, fixing the date for public hearings thereon as October 30, 1908, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in the "New York Sun" and the "New York Tribune," newspapers designated by the Mayor, and in the City Record for ten days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to money value of the franchise or right applied for, and proposed to be granted to the Union Railway Company of New York City, and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Union Railway Company of New York City, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced, and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Union Railway Company of New York City the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

UNION RAILWAY COMPANY OF NEW YORK CITY.

Proposed Form of Contract.

This Contract made this day of 190 , by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Union Railway Company of New York City (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions herein-after set forth, the right and privilege to construct, maintain and operate a double track extension to its present street surface railway, with the necessary wires and equipment, for the purpose of conveying passengers in the Borough of The Bronx, in The City of New York, upon the following route:

Beginning at and connecting with the existing double track road of the Company in Third avenue at the intersection of said avenue with Pelham avenue, and running thence easterly in,

upon and along said Pelham avenue to the Southern boulevard. The said route, with turn-outs, switches and crossovers, hereby authorized is shown upon a map entitled:

"Map showing proposed railway of the Union Railway Company, in the Borough of The Bronx, City of New York, to accompany petition to the Board of Estimate and Apportionment, dated July 28, 1908."

—and signed by F. W. Whitridge, Receiver, T. F. Mullaney, Chief Engineer, and Edward A. Maher, President, a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2. The grant of this right or privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within six months of the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within one month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company for the term of fifteen (15) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty (20) years upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year of this original contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty (20) years shall be reasonable, and either the City (by the Board) or the Company shall be bound, upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate, and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall in any event be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for this privilege the following sums of money:

(a) The sum of three thousand dollars (\$3,000) in cash within thirty (30) days after the date on which this contract is signed by the Mayor.

(b) During the first term of five years an annual sum which shall in no case be less than five hundred dollars (\$500), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of five hundred dollars (\$500).

During the second term of five years an annual sum which shall in no case be less than nine hundred dollars (\$900), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of nine hundred dollars (\$900).

During the third term of five years, an annual sum which shall in no case be less than one thousand dollars (\$1,000), and which shall be equal to five (5) per cent. of its gross annual receipts if such percentage shall exceed the sum of one thousand dollars (\$1,000).

The gross annual receipts mentioned above shall be that portion of the gross receipts of the company as shall bear the same proportion to its whole gross receipts as the length of the extension hereby granted shall bear to the entire length of the line of the company in operation.

The payment of such minimum sums shall begin from the day on which this contract is signed by the Mayor.

All such sums as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above, such sum over and above such minimum shall be paid to the said Comptroller on or before November 1 in each year for the year ending September 30 next preceding. The fiscal year shall end on September 30 next preceding said date of payment, and provisions of the Railroad Law as it now exists, or as it may hereafter be amended, relating to the matter of payments and statements of percentages of gross receipts of street railway companies not inconsistent with this contract shall be strictly complied with.

The intention of this paragraph is to fix an annual charge to be paid by the Company, its successors or assigns, to The City of New York for the rights and franchises hereby granted, and

it shall not be construed as providing for the payment by the Company, its successors or assigns, of a percentage of gross receipts within the meaning of any general or special statute, referring particularly to chapter 340 of the Laws of 1892.

Before any rights hereby conferred are exercised by the Company, and within three (3) months from the date on which this contract is signed by the Mayor, the Company shall pay to The City of New York the sum of twenty thousand three hundred and eighty-five dollars and eight cents (\$20,385.08) and within three (3) months thereafter the further sum of thirty-one thousand seven hundred and fifty-eight dollars and eighty-seven cents (\$31,758.87), said amounts being due under the franchise of the Company granted to it by the Legislature by chapter 340 of the Laws of 1892.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or by any law of the State of New York.

Fourth—Upon the termination of this original contract, or if the same is renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks and equipment of the Company constructed pursuant to this contract, within the streets, avenues and highways shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this grant as above the City (by the Board) shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of the tracks and other equipment constructed pursuant to this contract, and the said streets, avenues and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The annual charges or payment shall continue throughout the whole term of this contract, whether original or renewal, notwithstanding any cause in any statute or in the charter of any other railway or railroad company providing for payments for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of the route mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statute relating to the consolidation or merger of corporations, or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways hereinabove described in section 1.

The use of said railway which shall be constructed by the Company under this contract, including the tracks, wires and other equipment or any structure in public streets and avenues owned by the Company and used in connection therewith, shall be permitted by the Company, to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways hereinabove described in section 1, for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railway and structures, and of the cost of keeping the tracks and track equipment in repair, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract, in connection with the maintenance or the operation of the said railway so used. Provided, however, that if in the opinion of the Company the legal rate of interest of the cost of such railway shall be an insufficient sum to pay for the use of such tracks, it may appeal to the Board, and the Board may fix a percentage of the cost to be paid to the Company at a sum in excess of the legal rate of interest, if in its opinion such action is justified.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company pursuant to this contract.

Eighth—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of The Bronx, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by the abutting property owners in accordance with the provisions of law, and by the Public Service Commission of the First District of the State of New York.

Ninth—The Company shall commence construction of the railway herein authorized within six months from the date upon which the consents of the property owners are obtained, or from the date upon which the decision of the Appellate Division of the Supreme Court that such railway ought to be constructed is rendered in lieu of such consents, and shall complete the construction and place the same in full operation within six months from the date of obtaining such consents or such decision, otherwise this grant shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City as hereinafter provided, shall thereupon be forfeited to the City; provided, that such periods may be

extended by the Board for a period or periods not exceeding in the aggregate six months each; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company; and provided, further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall in writing consent that the Board, either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Tenth—Such railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City. Before any construction shall be commenced upon any portion of the route, written permits shall be obtained from the President of the Borough of The Bronx and the Commissioner of Water Supply, Gas and Electricity, and the Company shall comply with any conditions which those officials may impose as a condition upon which such permit is granted, provided such conditions are imposed for the purpose of protecting the structures over which those officials have jurisdiction.

Eleventh—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Twelfth—The rate of fare for any passenger upon such railway shall not exceed five (5) cents, and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on said railway, or a line or branch operated in connection therewith, to any point thereof, or any connecting line or branch thereof, within the limits of the City.

The Company shall carry free upon the railway hereby authorized, during the term of this contract, all members of the Police and Fire Department of the City, when such employees are in full uniform.

The rate for the carrying of property over the railway hereby authorized shall in all cases be reasonable in amount, subject to the control of the Board, or its successor in authority, and may be fixed by such Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, its successors or assigns, and no greater sums shall be charged for such service than provided for by it.

Thirteenth—No car shall be operated upon the railway hereby authorized, other than passenger cars, cars for the transportation of express matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway; and the tracks hereby authorized shall not be used for the storage of cars.

Fourteenth—Cars on the said railway shall run at intervals of not more than thirty minutes both day and night, and as much oftener as reasonable convenience of the public may require or as may be directed by the Board.

Provided, however, that the Company, during the first five years of this contract, shall not be required to operate its cars between the hours of 1 o'clock a. m. and 5 o'clock a. m., each day, unless the Board shall determine after a hearing had thereon that public convenience requires the operation of cars during said hours.

Fifteenth—The Company shall attach to each car run over the said railway hereby authorized proper fenders and wheel guards in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Sixteenth—All cars which are operated on said railway shall be heated during the cold weather in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Seventeenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in or upon which the said railway shall be constructed, shall cause to be watered at least three times every twenty-four hours, when the temperature is above 35 degrees Fahrenheit, the entire width of the streets and avenues, except when the width of said streets and avenues shall exceed 60 feet between the curb lines, in which case the Company shall cause to be watered only 60 feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Eighteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Nineteenth—The Company shall at all times keep the streets, avenues and highways upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twentieth—The Company shall cause to be paved that portion of the street between its tracks, the rails of its tracks and two feet in width outside of its tracks, upon and along the streets, avenues and highways of the routes hereby authorized, which are now unpaved. The work of such paving shall be done under the supervision of the municipal authorities having jurisdiction in such matters, and such authorities shall designate the character of the pavement to be laid.

Twenty-first—As long as the said railway, or any portion thereof, remains in the streets, avenues or highways, the Company shall have and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railway is constructed, between its tracks, the rails of its tracks, and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And the City shall have the right to change the material or character of the pavement of any street, avenue or highway, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City officer, at its own expense, and

the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-second—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public work in the streets, whether the same is done by the City directly or by a contractor for the City, the Company shall at its own expense protect or move the tracks and appurtenances in a manner as directed by the President of the Borough of The Bronx.

Twenty-third—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Twenty-fourth—The Company agrees to comply with any and all the rules which may be made by the Commissioner of Water Supply, Gas and Electricity for the purpose of preventing the destruction of the pipes or structures in the street by electrolysis, which may be caused by the electric current used by the Company, whether such rules affect the method of the original construction of said railway or any reconstruction, maintenance or repairs upon such railway at any time during the term of this contract.

Twenty-fifth—Should the grades or lines of the streets in which franchises are herein granted be changed at any time during the term of this contract, the Company shall, at its own expense, change its tracks to conform with such new grades and lines, and during the construction of any public improvement upon said street the Company shall take care of and protect the track at its own expense, all to be done subject to the direction of the President of the Borough of The Bronx.

Twenty-sixth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, or at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for s.s.m.e.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number of passengers carried during the year.
16. Total receipts of Company for each class of business.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-seventh—The Company shall at all times keep accurate books of account of the gross earnings from all sources, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross earnings, total miles in operation and the miles of railway constructed and operated under this contract and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-eighth—In case of any violation or breach of failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity.

Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contracts forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-ninth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structure in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall for each day thereafter during which the default or defect remains pay to the City the sum of one hundred dollars (\$100) as fixed or liquidated damages, or the Board, in case such structures which may affect the surface of the streets, shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the costs of such repairs with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Thirtieth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirty-first—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of three thousand five hundred dollars (\$3,500), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the

privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railway; and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the roadway, heating and lighting of cars, fenders, wheel guards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of the violation of the provisions relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its president, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of three thousand five hundred dollars (\$3,500), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-second—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways in which the Company is authorized to operate.

Thirty-third—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-fourth—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board, or other authorities, officer or officers.

Sec. 3. This contract is also upon the further and express condition that the provisions of the Railroad Law applicable thereto, and all laws or ordinances now in force, or which may be adopted, affecting the surface railways operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the widening of THIRD AVENUE, opposite East One Hundred and Fifty-ninth street, in the Twenty-third Ward, Borough of The Bronx, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 17th day of December, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 18th day of December, 1908, at 11 o'clock a. m.

Second—That the abstracts of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 18th day of December, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and

being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the northerly line of East One Hundred and Fifty-sixth street with the easterly line of Melrose avenue; running thence northerly along the easterly line of Melrose avenue to its intersection with the southerly line of East One Hundred and Sixty-third street; thence easterly along the southerly line of East One Hundred and Sixty-third street to its intersection with the westerly line of Eagle avenue; thence southerly along the westerly line of Eagle avenue to its intersection with the northerly line of East One Hundred and Fifty-sixth street; thence westerly along the northerly line of East One Hundred and Fifty-sixth street to the point or place of beginning, as such streets are shown upon the final maps and profiles of the Twenty-third and Twenty-fourth Wards of The City of New York, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said supplemental and amended abstracts, our supplemental and amended final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in the City of New York, on the 5th day of January, 1909, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said supplemental and amended abstracts of estimate and assessment, the notice of motion to confirm our supplemental and amended final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of FORTY-FIRST STREET, from Thirteenth avenue to West street, in the Twenty-ninth and Thirtieth Wards, Borough of Brooklyn, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 22d day of December, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 23d day of December, 1908, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said City, there to remain until the 2d day of January, 1909.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on the southerly side of Thirteenth avenue, where the same is intersected by the centre line of the block between Forty-first street and Fortieth street; running thence southerly and parallel with Forty-first street to the westerly side of West street; running thence southerly and along the westerly side of West street to the intersection of the centre line of the block between Forty-first street and Forty-second street; running thence northerly, parallel with Forty-first street and always along the centre line of the blocks between Forty-first street and Forty-second street, to the southerly side of Thirteenth avenue; running thence easterly along the southerly side of Thirteenth avenue to the place of beginning.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn in The City of New York, on the 15th day of February, 1909, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD and in the corporation newspapers, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Brooklyn, New York, December 3, 1908.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose, in fee, to the lands, tenements and hereditaments required for the opening and extending of MIDWOOD STREET, between Nostrand avenue and Kingston avenue, in the Twenty-ninth Ward, Borough of Brooklyn, City of New York.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, No. 166 Montague street, in the Borough of Brooklyn, in the City of New York, on or before the 21st day of December, 1908, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 22d day of December, 1908, at 3.30 o'clock p. m.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, No. 166 Montague street, in the Borough of Brooklyn, in the City of New York, on or before the 21st day of December, 1908, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 23d day of December, 1908, at 3.30 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 10th day of April, 1907, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Brooklyn, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Bounded on the north by a line midway between Midwood street and Maple street; on the east by a line 100 feet east of and parallel with the easterly line of Kingston avenue, the said distance being measured at right angles to the line of Kingston avenue; on the south by a line midway between Midwood street and Rutland road, and on the west by a line 100 feet westerly from and parallel with the westerly line of Nostrand avenue, the said distance being measured at right angles to the line of Nostrand avenue.

Fourth—That the abstracts of said estimate of damage and of said assessment, together with the damage and benefit maps and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said City, there to remain until the 2d day of January, 1909.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof, to be held in the County Court House, in the Borough of Brooklyn, in the City of New York, on the 20th day of January, 1909, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Brooklyn, New York, December 2, 1908.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the purpose of opening and extending AVENUE J, from Ocean parkway to East Sixteenth street, excepting the property occupied by the tracks of the Long Island Railroad and of the Brook-

lyn and Brighton Beach Railroad, in the Thirty-first Ward, Borough of Brooklyn, City of New York.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, Second Department, at a Special Term of said Court, to be held for the hearing of motions, in the County Court House, in the County of Kings, in the Borough of Brooklyn, The City of New York, on the 7th day of December, 1908, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of Commissioners of Estimate and of one Commissioner of Assessment in the above-entitled matter. The nature and extent of the improvement hereby intended is the acquisition of title by The City of New York, for the use of the public, to all the lands and premises, with the buildings thereon and the appurtenances thereto belonging, required for the opening and extending of Avenue J, from Ocean parkway to East Sixteenth street, excepting the property occupied by the tracks of the Long Island Railroad and of the Brooklyn and Brighton Beach Railroad, in the Thirty-first Ward, Borough of Brooklyn, City of New York, being the following described lots, pieces or parcels of land, viz.:

Parcel A.

Beginning at the intersection of the eastern line of Ocean parkway with the southern line of Avenue J, as the same are laid out on the map of the City;

1. Thence northerly along the eastern line of Ocean parkway 80 feet;
2. Thence easterly, deflecting 90 degrees to the right, 2546 feet, to the western line of the property of the Brooklyn and Brighton Beach Railroad;
3. Thence southerly, deflecting 90 degrees to the right, 80 feet;
4. Thence westerly 2546 feet to the point of beginning.

Parcel B.

Beginning at the intersection of the eastern line of East Sixteenth street with the northern line of Avenue J, as the same are laid out on the map of the City;

1. Thence southerly along the eastern line of East Sixteenth street 80 feet;
2. Thence westerly, deflecting 90 degrees to the right, 60 feet;
3. Thence northerly, deflecting 90 degrees to the right, 80 feet;
4. Thence easterly 60 feet to the point of beginning.

The Board of Estimate and Apportionment, on the 5th day of June, 1908, duly fixed and determined the area of assessment for benefit in this proceeding as follows:

Bounded on the north by a line midway between Avenue I and Avenue J; on the east by a line midway between East Sixteenth street and East Seventeenth street; on the south by a line midway between Avenue J and Avenue K, and on the west by a line midway between East Fifth street and Ocean parkway.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of HATFIELD PLACE (although not yet named by proper authority), from Richmond avenue to Nicholas avenue, in the Third Ward, Borough of Richmond, City of New York.

WE, THE UNDERSIGNED COMMIS- sioners of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 11th day of December, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 14th day of December, 1908, at 3 o'clock p. m.

Second—That the abstracts of our said supplemental and amended estimate and assessment, together with all our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 20th day of December, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Richmond, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of a line parallel to and distant 100 feet westerly from the westerly line of John street with the westerly prolongation of the middle line of the blocks between Harrison avenue and Charles avenue; running thence easterly along said prolongation and middle line and its easterly prolongation to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Nicholas avenue; thence southerly along said parallel line to its intersection with the middle line of the blocks between Charles avenue and Hatfield place; thence easterly along said middle line to its intersection with the westerly line of Richmond avenue; thence on a line at right angles to Richmond avenue to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Richmond avenue; thence southerly along said parallel line to its intersection with the easterly prolongation of the middle line of the blocks between Hatfield place and Blackford avenue; thence westerly along said prolongation and middle line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Nicholas avenue; thence southerly along said parallel line to its intersection with the easterly prolongation of a line parallel to and distant 100 feet southerly from the southerly line of that portion of Innis street lying between John street and Grant street; thence westerly along said prolongation and parallel line and its westerly prolongation to its intersection with a line parallel to and distant 100 feet westerly from the westerly line of John street; thence northerly along said parallel line to the point or place of beginning; excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such are shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said supplemental and amended abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof, for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in the City of New York, on the 4th day of February, 1909, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said supplemental and amended abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
