BRANCH WORKHOUSE, RIKERS ISLAND.

New York, July 5, 1912.

Hon. PATRICK A. WHITNEY, Commissioner:

Dear Sir—I have the honor to submit the following report for the quarter ending June 30, 1912.

During the quarter white stone bowls, plates and mugs were installed to replace the old tinware then in use; this is a great improvement, not only in a sanitary, but also in an economical way.

Wire mosquito netting has been placed on the windows of the mess hall and dormitories for the first time, which was very essential.

We have started making shipments of green goods from the farm to the Storehouse, B. I., daily and will continue to do so. Very respectfully yours,

JOHN J. MURTHA, Head Keeper.

By Prisoners At Work At Outdoor Labor—15 acres have been cultivated and seed sown as follows: 2 acres tomatoes, 2½ acres cabbage, 2½ acres corn, 1½ acres butter beans, 1 acre peas, ¼-acre lettuce, ¼-acre onions, ⅛-acre leek, ¼-acre beets, ¼-acre parsley, ¼-acre carrots, ⅛-acre sprouts, ¼-acre celery, ½-acre turnips, ¼-acre cucumbers, ½-acre radishes, ⅛-acre pumpkins, ½-acre potatoes, ¼-acre peppers, ½-acre string beans, ½-acre lima beans, ⅛-acre rhubarb, and ⅛-acre spinach; the lawns cared for, the grass cut and 6 tons of hay gathered; a concrete walk, consisting of 1,487 feet, has been laid about the office and Head Keeper House, and a new brick retaining wall was built under front porch of same building. The foundation wall of the following buildings have been pointed up and reset wherever necessary, namely, Dormitories No. 1, No. 2, No. 3 and No. 4, mess hall, Doctors' quarters and hospital, Storehouse, Keepers' quarters, Head Keeper's house and office. A stone drain has been put in at the east end of the island to carry off rain water from the roads; this has been very necessary owing to the large amount of stagnant water which gathers at this point. A manhole has been built at the stable to allow access to all water and sewer connections at this point. Pointed up three chimneys on roof of Head Keepers' house, one on roof of Keepers' quarters and two on roof of mess hall; a concrete step has been set at the entrance to Dormitories No. 1, No. 2, No. 3 and No. 4. The concrete and masonry work reported above has taken 240 days' time. Both sides of the bank running from the office to the dock have been terraced and 100 loads of stone removed from the same; 22 lamp posts have been painted and the lower parts of 30 trees whitewashed along the road; hard pan has been spread over the roads and ashes and screenings over the walks, after which both have been carefully rolled. The words "Department of Correction, Rikers Island," have been removed from their location and relaid in 10-foot letters at the northeast end of the island, adding greatly to the beauty of this place. The beaches around the island have been cleared of all refuse regularly. During the quarter the dock has been repaired by the Department of Docks and Ferries. The materials used in the masonry work were 50 barrels of cement, 150 barrels of sand received from the beach, and 300 barrels of stone also received from the beach.

CITY PRISON, BOROUGH OF QUEENS.

Long Island City, N. Y., July 8, 1912.

Hon. PATRICK A. WHITNEY, Commissioner:

Dear Sir—I most respectfully transmit herewith quarterly report of the City Prison of Queens, ending June 30, 1912, showing the work done by paid or prison labor; a statement of prisoners received and disposed of; also the amount of fines collected from prisoners committed from the Magistrates' Courts and Court of Special Sessions of the Borough of Queens, respectively.

Respectfully submitted,
HENRY O. SCHLETH, Warden.

Statement Showing Work Done By Paid or Prison Labor.

I most respectfully report that since June 1, 1912, on which date you assumed authority and control over the City Prison of Queens (formerly the Queens County Jail), pursuant to the provisions of chapter 456, Laws of 1912, the prisoners convicted and sentenced to this institution have been required to work at a daily average of eight hour in either cooking, cleaning the jail, or making any changes or alterations in the jail, not included in a present contract. The prison was thoroughly cleaned and disinfected and is kept in as sanitary a condition as it possibly can, under the present conditions.

I have closed up the entrance to the jail on the first floor with brick, by prison labor received from the Workhouse. This entrance was hardly ever used, and, in fact, in a very inconvenient place for jail purposes, but in a very convenient place for any inmate desiring escape.

The large iron gate on the main driveway from the jail yard on the south side has been secured against almost possible escape.

A new telephone has been installed by the Department for official business and in order to comply with the provisions of section 112, chapter 659 of the Laws of 1910.

The jail buildings have been inspected by the Departmental Inspector on divers occasions, who has noted numerous defects in the layout and construction of the buildings, recommending immediate alterations in a good many instances, which in some cases have been remedied.

Under a contract awarded by the Sheriff of the County of Queens prior to June 1, 1912, to Messrs. McDermott and Robinson, the plumbing system in the entire jail has been thoroughly overhauled; entrance to the jail on the south side has been closed, substituting an iron barred window; alterations are in progress on first floor of Administration Building, making same suitable for living apartments for the Warden; alterations are also in progress on second floor, making same suitable for male and female hospital wards, Matrons' quarters, and the entire northwest part of this floor has been partitioned off and set aside for the exclusive use of the Sheriff of Queens County for a civil jail, which quarters he at present occupies.

The removal of numerous violations placed upon the buildings of this institution prior to June 1, 1912, by the Department of Water Supply, Gas and Electricity, is well under way.

The Grand Jury of the County of Queens, before closing its duties for the term, made an official inspection of the jail building, and from information received, I am informed that they made no unfavorable report.

Fines collected from prisoners committed from the Magistrates' Courts and Court of Special Sessions of the Borough of Queens, respectively, for the quarter ending June 30, 1912: First District Magistrate's Court, \$112; Second District Magistrate's Court, \$14; Third District Magistrate's Court, none; Fourth District Magistrate's Court, none; Court of Special Sessions, \$10—total amount, \$136.

Whereas, The Board of Health of the Department of Health of The City of New York has taken and filed among its records what it regards as sufficient proof to authorize its declaration that these conditions constitute a nuisance dangerous to life and detrimental to health, the said Board, under its general authority to preserve the public health and abate nuisances, does hereby enter in its records that the being or running loose or at large of dogs in the streets, avenues, highways or other public places in the Borough of Richmond, City of New York, is dangerous to life and detrimental to health and a public nuisance, and the said Board hereby orders the abatement of the aforesaid nuisance. It is hereby further

Ordered, That any and all dogs loose or at large in any of the public streets, avenues, highways or other public places in the said Borough of Richmond, City of New York, unless held by a leash or chain or muzzled in such manner as to protect persons from being bitten, shall be destroyed as directed by the Commissioner of Health. PUBLIC SERVICE COMMISSION.

INVITATION TO CONTRACTORS.

PART OF LEXINGTON AVENUE ROUTE.

THE CITY OF NEW YORK, ACTING BY the Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct Section No. 1-A of the Lexington Avenue Rapid Transit Railroad.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 1-A. Beginning at a point under Church street, in the Borough of Manhattan, about eighty (80) feet north of the centre line of Dey street and extending thence under Church street, private property, Vesey street and again under private property to Broadway between Vesey and Barclay streets, and thence under Broadway to a point about seventy-five (75) feet south of the centre line of Park place.

The general plan of construction calls for a subsurface railroad having two tracks. For the greater portion of the distance the construction consists of two single-track tunnels, which are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast.

The work of construction under the contract will include the construction of all necessary sewers and connections along the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning where necessary, of all buildings, monuments, surface, subsurface and elevated railroads and other structures, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and the temporary paving and maintenance of roadways.

The method of construction will be partly by trench excavation under cover, unless otherwise permitted by the Commission, and partly by tunnel as set forth in the form of contract.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of forty (40) months.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 31st day of July, 1912, at twelve (12) o'clock noon, at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute

or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 5, Section No. 1-A," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars (\$15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for fifty thousand dollars (\$50,000). At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen per centum (15%) of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal the sum of one hundred thousand dollars (\$100,000). Thereafter there shall be so deducted and retained for such purpose ten per centum (10%) of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in

the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
