The object of the resolution can be achieved by the party interested making an agreement with the contractor, subject to my approval, and which shall release the City from payment for flagging in front of the premises mentioned."

Yours, respectfully,

W. L. STRONG, Mayor.

Resolved, That permission be and the same is hereby given to Rufus R. Randall to lay a cement or concrete sidewalk from house to curb, and a space of about twenty feet in front of his premises, No. 721 Tremont avenue, said materials to be furnished and work done at his own expense, under the direction of the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards.

UNFINISHED BUSINESS.

Alderman Olcott called up G. O. 405, being a report of the Committee on Finance and an ordinance, as follows:

NEW YORK, August 20, 1895.

To the Honorable the Board of Aldermen:

The Committee on Finance, to whom was referred the assessment rolls of the estates, real and personal, subject to taxation, of and within the City and County of New York, for the year 1895, together with communications from the Comptroller of the City of New York, transmitting to the Board of Aldermen the Final Estimate made and adopted by the Board of Estimate and Apportionment for said year 1895, accompanied by his certificate of the amount of the appropriations authorized by law to be raised by tax in and for the said year 1895, and a statement of the amount required to be inserted in the tax levy for 1895, pursuant to chapter 1003 of the Laws of 1895, respectfully submits the following

REPORT:

The assessed valuation of the real and personal estates subject to taxation within the City and County of New York for the year 1895, as shown by the assessment rolls submitted to the Board of Aldermen by the Commissioners of Taxes and Assessments and referred on July 1, 1895, amounts to the sum of two thousand and sixteen million nine hundred and forty-seven thousand six hundred and sixty-two dollars (\$2,016,947,662), which sum is a net increase of thirteen million six hundred and fifteen thousand six hundred and twenty-five dollars (\$13,615,625) over the amount of the assessed valuation for the preceding year, 1894.

As shown by the Comptroller's certificate, submitted to the Board of Aldermen and referred on May 28, 1895, the aggregate amount of the appropriations included in the Final Estimate for the year 1895, made and adopted by the Board of Estimate and Apportionment on the 31st day of December, 1894, is thirty-nine million nine hundred and seventy-six thousand nine hundred and sixty dollars and four cents (\$39,976,960.04), from which sum is deducted the sum of two million five hundred thousand dollars (\$2,500,000) for and on account of the estimated revenues of the General Fund available for the reduction of taxation in said year 1895, leaving the sum of thirty-seven million four hundred and seventy-six thousand nine hundred and sixty dollars and four cents

(\$37,476,960.04) as the amount to be raised by tax under the Final Estimate, as adopted by the Board of Estimate and Apportionment on said December 31, 1894. To this amount, however, must be added the sum of one hundred thousand dollars (\$100,000), being the amount added by the Board of Estimate and Apportionment on June 28, 1895, to the appropriation for the Commissioners of Accounts, pursuant to chapter 1003 of the Laws of 1895, making the total of the Final Estimate as thus amended thirty-seven million five hundred and seventy-six thousand nine hundred and sixty dollars and four cents (\$37,576,960.04).

By section 830 of the New York City Consolidation Act of 1882, the Board of Aldermen is directed to provide for deficiencies in the actual product of taxes that may arise from insolvencies, discounts or rebates, for prompt payment, errors in assessed valuations, etc., as follows:

"Section 830. It shall be the duty of the said Board of Aldermen to include in any and every ordinance or resolution passed by them, imposing and levying taxes for any purpose or purposes authorized by law, such sum in addition to the aggregate amount required for such purposes as they shall deem necessary, not exceeding three per cent. of said aggregate amount, to provide for deficiencies in the actual product of the amount imposed and levied therefor."

Your Committee has conferred with the Comptroller in regard to the amount that will be required to provide for and meet such deficiencies as may occur in the actual product of the taxes to be imposed and levied in and for the year 1895, and it has concluded to recommend that the sum of eight hundred and twenty-six thousand eight hundred and one dollars and fourteen cents (\$826,801.14) be added to and included in the sum necessary to be raised by tax for the support of the Government of the City and County of New York, and for other purposes, as authorized and provided by law, which sum is less than three per centum of the amount so required to be raised by tax, after deducting the estimated amount of the revenues of the General Fund for the reduction of taxation, the addition of which sum makes the total amount of taxes to be imposed and levied upon the real and personal estate subject to taxation within the City and County of New York in and for the said year 1895, the sum of thirty-eight million four hundred and three thousand seven hundred and sixty-one dollars and eighteen cents (\$38,403,761.18).

Section 10 of Article VIII. of the Constitution of the State of New York provides as follows:

"* * * The amount hereafter to be raised by tax for county or city purposes in any county containing a city of over one thousand inhabitants, or any such city of this State, in addition to providing for the principal and interest of existing debt, shall not in the aggregate exceed in any one year two per centum of the assessed valuation of the real and personal estate of such county or city, to be ascertained as prescribed in this section in respect to county or city debt."

As the assessed valuation of the real and personal estate of and within the City and County of New York for the year 1895 is two thousand and sixteen million nine hundred and forty-seven thousand six hundred and sixty-two dollars (\$2,016,947,662), and two per centum of this sum is \$40,338,953.24, the total amount of the tax to be raised for city and county purposes for the year 1895, after providing for the principal and interest of existing city and county debt, and deducting also the amount of the State tax to be raised in said year 1895, is less than the limit prescribed by the State Constitution, as shown in the following statement:

Amount of Taxes to be raised as per Final Estimate, adopted December 31, 1894,
and pursuant to chapter 1003, Laws of 1895 \$37,576,960 04
Amount added for deficiencies 826,801 14

Total \$38,403,761 18

Deduct:

State Taxes	\$3,554,319 24
Principal of the City Debt and Installments on account of Redemption of Water Bonds, as per Final Estimate for 1895	1,974,143 31
Interest on the City Debt, as per Final Estimate of 1895	5,087,141 63
	10,615,604 18

Remainder \$27,788,157 00

This sum is less than two per centum of the said assessed valuation of the real and personal estate of the City and County of New York, subject to taxation for the year 1895, which percentage amounts, as above stated, to the sum of \$40,338,953.24, leaving a very large margin within the limitation of taxes prescribed by the provisions of the State Constitution above cited.

Sections 3 and 8 of chapter 361 of the Laws of 1881 provide, as follows:

"Section 3. Every corporation, joint stock company or association whatever, now or hereafter incorporated or organized under any law of this State, or now or hereafter incorporated or organized by or under the laws of any other State or country, and doing business in this State, except savings banks and institutions for savings, life insurance companies, banks and manufacturing corporations carrying on manufacture within this State, which exception shall not be taken to include gas companies or trust companies, shall be subject to and pay a tax, as a tax upon its corporate franchise or business, into the treasury of the State, annually, etc."

"Section 8. The corporations, joint stock companies and associations mentioned in this act as taxable shall hereafter be exempt from assessment and taxation for State purposes, except upon their real estate, and as herein provided, but they shall in other respects be liable to assessment and taxation as heretofore."

The total amount of the assessed valuation of the personal estate of corporations, joint stock companies or associations doing business in the City of New York, which are found to be exempt under this statute from assessment and taxation on their personal estate for "State purposes" in the year 1895, as appears by a detailed statement thereof on file in the Finance Department, is sixty-five million eight hundred and twenty-eight thousand three hundred and three dollars (\$65,828,303).

The above-cited provision of the law requires, therefore, a special rate of tax to be imposed upon the personal estates of corporations which are exempt from taxation for State purposes, differing from and less than the general tax rate upon real and personal estate subject to taxation for City and County purposes.

The total amount of taxes to be raised in 1895 is as follows:

Total appropriation as per Final Estimate, December 31, 1894 \$39,976,976 04
Deduct amount of Estimated Revenues of General Fund, as per Final Estimate,
December 31, 1894 2,500,000 00

Amount to be added under chapter 1003, Laws of 1895 \$37,476,950 04
100,000 00

Amount to be added for deficiencies, as above stated \$37,576,960 04
826,801 14

Total amount of tax \$38,403,761 18

The rates of taxation which will produce this sum are a general rate upon the valuation of real and personal estate, subject to taxation for all City and County purposes, and a special rate upon the valuation of the personal estate of corporations exempt from taxation thereon for State purposes as follows:

General rate for City and County purposes:
Valuation, \$1,951,119,359, at 1.91 per cent. \$37,266,379 76
Special rate for corporations:
Valuation, \$65,828,303, at 1.7278 per cent. 1,137,381 42

Total tax \$38,403,761 18

An ordinance to impose the taxes and fix the rates of taxation which will produce the total amount of taxes required to be raised in and for the year 1895, for the objects and purposes therein set forth, is respectfully submitted herewith for the approval and adoption of the Board of Aldermen.

WILLIAM M. K. OLCOTT, Chairman, JOHN P. WINDOLPH, FRANK J. GOODWIN, ROBERT MUH, FREDERICK L. MARSHALL, Committee on Finance.

AN ORDINANCE to provide the necessary means for the support of the Government of the City of New York and the Board of Education, and for the payment of the quota of the State taxes, and for other purposes, pursuant to the provisions of law, in and for the year 1895.

The Mayor, Aldermen and Commonalty of the City of New York do ordain as follows:

Section 1. There shall be and is hereby imposed and levied upon the estates, real and personal, subject to taxation of and within the City and County of New York, the sum of thirty-seven million five hundred and seventy-six thousand nine hundred and sixty dollars and four cents (\$37,576,960.04), to pay the expenses of conducting the public business of the said city and county, in each department and branch thereof, and of the Board of Education, for the year 1895, also such sum as is necessary to be raised by tax to pay the principal of any bonds and stocks which become due and payable during the said year, which is not otherwise provided for; also the amount to be raised by tax annually, which, with the accumulations of interest thereon, will be sufficient to redeem the stocks and bonds issued to provide for the supply of water, pursuant to the provisions of section 10 of article VIII. of the Constitution of the State of New York, and also so much as may be necessary to pay the proportion of the State tax required to be paid by the City and County of New York in said year 1895, as provided by the Board of Estimate and Apportionment, which sum of thirty-seven million five hundred and seventy-six thousand nine hundred and sixty dollars and four cents (\$37,576,960.04), so imposed and levied by this ordinance, is that portion of the amount appropriated for such purposes as estimated by the Board of Estimate and Apportionment of said city and county in its Final Estimate for the fiscal year 1895, made and adopted on Monday, December 31, 1894, amounting in the aggregate to thirty-nine million nine hundred and seventy-six thousand nine hundred and sixty dollars and four cents (\$39,976,960.04), remaining after

deducting therefrom the sum of two million five hundred thousand dollars (\$2,500,000) supplied by the General Fund for the reduction of taxation, and adding one hundred thousand dollars (\$100,000) pursuant to chapter 1003 of the Laws of 1895, as stated by the Comptroller of the City of New York, in a communication dated May 27, 1895, submitted to the Board of Aldermen May 28, 1895, together with his certificate of the amount of the appropriations made in the Final Estimate for the said year 1895, and in a communication from the Deputy Comptroller, dated August 6, 1895, copies of which communications and certificate and of the said Final Estimate are as follows:

COMPTROLLER'S OFFICE, May 27, 1895.

To the Honorable the Board of Aldermen of the City of New York:

The attention of your Honorable Body is respectfully called to the provisions of section 213 of the New York City Consolidation Act of 1882, as follows:

"Section 213. It shall be the duty of the board or body authorized to levy taxes to include in any and every ordinance or resolution passed by them, imposing or levying taxes for any purpose or purposes authorized by law, such sum, in addition to the aggregate amount required for such purposes, as they shall deem necessary, not exceeding three per cent. of said aggregate, to provide for deficiencies in the actual product of the amount imposed and levied therefor."

Your attention is also specially called to the provisions of section 831 of the same act, prescribing the method of preparing and disposing of the assessment rolls, and also to the provisions of section 833 of the same act, designating the first day of September as the date when the assessment roll for each ward shall be finally completed, to be delivered to the Receiver of Taxes in and for the City of New York, with the proper warrant or warrants annexed thereto, directing him to collect the several sums mentioned in said rolls, and to pay the same, from time to time, when so collected, to the Chamberlain of said city.

Respectfully, ASHBEL P. FITCH, Comptroller.

CITY OF NEW YORK—FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE, May 27, 1895.

Certificate of the Comptroller of the City of New York of the Aggregate Amount of the Final Estimate for the Year 1895.

I, Ashbel P. Fitch, Comptroller of the City of New York, in compliance with the provisions of section 214 of the New York City Consolidation Act of 1882, do hereby certify to the Board of Aldermen of the City of New York that the aggregate amount estimated by the Board of Estimate and Apportionment of said City, in its Final Estimate for the fiscal year 1895, made and adopted on Monday, December 31, 1894, and herewith submitted, is thirty-nine million nine hundred and seventy-six thousand nine hundred and sixty dollars and four cents (\$39,976,960.04), which is the total sum of the appropriations included therein to pay the expenses of conducting the public business of the City and County of New York, in each department and branch thereof, and the Board of Education, for the fiscal year 1895, including the sums necessary to be raised by tax to pay the principal and interest of stocks and bonds becoming due and payable by said City during said fiscal year not otherwise provided for; also the amount to be raised by tax annually, which, with the accumulations of interest thereon, will be sufficient to redeem the stocks and bonds issued, as provided by section 11 of article VIII. of the Constitution of the State of New York, as amended in 1884; also the amount required by law to be appropriated to various charitable institutions, and also so much as may be necessary to pay the proportion of the State tax required to be paid by the City and County of New York in said year 1895, a copy of which said Final Estimate, made and adopted by the said Board of Estimate and Apportionment the 31st day of December, 1894, is hereto annexed.

I further certify that the estimated amount of the revenues derived from all sources of the General Fund in the year 1895 is two million six hundred and twenty-two thousand and thirteen dollars and ninety-three cents (\$2,622,013.93), as stated in detail in a communication to your Honorable Body herewith submitted, setting forth the amounts by law authorized to be imposed and raised by tax in and for the said year 1895, and that by a resolution of the Board of Estimate and Apportionment, adopted on December 31, 1894, it was determined that two million five hundred thousand dollars (\$2,500,000) should be the estimated amount of the revenues of the General Fund to be applied to the reduction of taxation by deducting the same from the aggregate of the Final Estimate.

ASHBEL P. FITCH, Comptroller.
FINAL ESTIMATE FOR THE YEAR 1895,

Made by the Board of Estimate and Apportionment on December 31, 1894, Pursuant to Section 189 of the New York City Consolidation Act of 1882.

Whereas, The Board of Estimate and Apportionment, on the 30th day of October, 1894, adopted the Provisional Estimate for the year eighteen hundred and ninety-five (1895), and have

MINORITY REPORT—COMMITTEE ON RAILROADS.

The Committee on Railroads, to which was referred the application of the Metropolitan Street Railway Company, bearing date June 29, 1895, for the consent of the Common Council to the construction, maintenance and operation of a street railroad upon, through and along Manhattan avenue, St. Nicholas avenue, Kingsbridge road, the Boulevard and other streets and highways, particularly described in said company's petition, do respectfully report:

That the Common Council gave public notice of such application and of the time and place when the same would be first considered, by causing the said notice to be published daily for at least fourteen (14) days prior to the hearing in two daily newspapers in the City of New York, to wit, in the "Press" and in the "Times," which papers were first designated for that purpose by his Honor the Mayor of the city, and that, pursuant to such public notice, given as aforesaid, on August 7, 1895, and at public meetings held in pursuance thereof, whereat all persons so desiring were given an opportunity to be heard and were heard, said application was first duly considered by the Railroad Committee of the Common Council.

That your Committee is of opinion that the construction, maintenance and operation of the railroad applied for by the Metropolitan Street Railway Company will furnish much needed facilities for travel, and will be of great value generally to the public of the upper portions of the

City of New York, by furnishing additional means of railroad transportation in a locality which is at present without street railroads, and by such construction and the subsequent improvement of abutting property, adding to the taxable value of property along the route of the proposed railroad.

The franchise sought being for a new railroad, instead of a branch or extension, the objections to other applications made on account of the inequality and uncertainty of the division of joint business and the percentages are avoided, and at the same time it secures for the City the payment of the whole of the percentages on receipts required by law, and by offering some beneficial return from its operation, it will induce more active competition at the sale at public auction, and thereby increase the compensation to be paid the City.

That the proposed route of the petitioners is through and along the same streets and avenues with but slight exception, the most notable of which is the application for the use of a portion of St. Nicholas avenue below One Hundred and Forty-fifth street by the Metropolitan Street Railway Company. Objection cannot properly be made to the occupation of such portion of St. Nicholas avenue, for the reason that more than one half of the property-owners of such portion have consented in legal form to the location of a railroad thereon, the strenuous opposition which has appeared at the hearing being from the property-owners and residents of St. Nicholas avenue above One Hundred and Forty-fifth street.

That the route proposed will be more advantageous for the public than the restricted extension of the Third Avenue Railroad as presented to your Board, and better adapted for an extended transfer system which will enable passengers to reach any part of the city for one fare.

The route connects with the Union Railroad on Broadway with the easterly and westerly lines of the Metropolitan Railroad system, and also connects with the Third Avenue Railroad routes at One Hundred and Forty-fifth street and Amsterdam avenue, at Manhattan street and the Boulevard, and at One Hundred and Twenty-fifth street and St. Nicholas avenue, thereby offering to that company, if it should acquire the franchise, a more extended and better connected route than the one proposed by it, while any third party desiring to purchase, can secure a franchise complete in itself, and so located as will enable it to transfer with the Metropolitan, Union and Third Avenue companies where their lines intersect or connect with the route of the proposed railroad.

That at the various public hearings on these rival applications, the sentiment of the district locally affected very largely preponderated in favor of the Metropolitan Street Railway Company. This fact, however, has not been of sufficient weight within itself to cause your Committee to report in favor of said company. Your Committee believes that, other things being equal, the preference of the residents of the district through which the proposed road is to run and who are to be its constant patrons, should be given great consideration. This preference is markedly in favor of the Metropolitan Street Railway company, and your Committee believes that the advantages to the city at large are overwhelmingly in favor of the Metropolitan Street Railway Company, for the reason that that company would then operate two continuous routes down the west side of the city, over which passengers could ride for one fare, and in addition thereto has, or will have, a more thoroughly equipped and serviceable line on the east side of the city for the relief of the citizens of the congested districts thereof. The present facilities of the Third Avenue Company are now taxed to their utmost, and your Committee believes that the great east side would be better served by the Lexington Avenue line of the Metropolitan Company for through traffic into these upper districts than is possible by the overcrowded Third Avenue line. If the Metropolitan Company had not furnished an outlet to these outlying districts for the residents of the east side as well as the west, your Committee would certainly have favored the application of the Third Avenue Company.

That the facilities for travel to and from the new railroad depot at One Hundred and Twenty-fifth street and Park avenue are greater on the lines of the Metropolitan Street Railway Company than are those of the Third Avenue, especially in view of the offer of the latter company to allow the former to use its tracks on One Hundred and Twenty-fifth street.

That the numerous ramifications of the Metropolitan Company's lines throughout the east side will enable many more persons to take a car at their doors, and ride into these upper districts, than would be possible on the Third Avenue line with its few transfer connections with existing roads on the east side of the city. Again, the Metropolitan Company can deliver its patrons to any one of about twenty-five ferries, while the Third Avenue Company connects with but four.

Your Committee therefore respectfully report that the application of the Metropolitan Street Railway Company should be granted, and therefore submit the accompanying preamble and resolution for adoption.

Whereas, The Metropolitan Street Railway Company, pursuant to the provisions of the railroad law, heretofore, and by petition bearing date June 29, 1895, made application in writing to the Common Council of the City of New York for its consent to the construction, operation and maintenance of a street surface railroad in the City of New York, on the streets, avenues, boulevards and highways in the said City of New York, mentioned in said application, presented the 2d day of July, 1895, which application is in words and figures as follows, to wit:

The petition of the Metropolitan Street Railway Company respectfully shows to your Honorable Body:

1. Your petitioner is a street surface railroad corporation organized and incorporated under the Laws of the State of New York on the 28th day of May, 1894, and operates the railroad lines in the City of New York on Sixth, Seventh, Ninth, Tenth, Amsterdam, Columbus avenues, West street, and on numerous crosstown lines, notably, Chambers, Duane, Spring, Prince, Houston, Fourteenth, Twenty-third, Thirty-fourth and Fifty-ninth streets, and is the owner of and operates the existing cable railroad on Broadway below Fifteenth street and the railroads and routes which were formerly owned by the Houston, West Street and Pavia Ferry Railroad Company, the Chambers Street and Grand Street Ferry Railroad Company, the Metropolitan Crosstown Railroad Company.

It is the owner also of the railroad upon Lexington avenue in the City of New York, between Twenty-seventh street and the Harlem river, and extensions thereof through One Hundred and Sixteenth street, between Harlem river and Morningside Park, and leases a connection thereof with the Broadway Cable Line in Twenty-third street and Lexington avenue.

2. Your petitioner hereby makes application for the consent of the Common Council to the construction, maintenance and operation of a street surface railroad, for public use, in the City of New York, upon and along the surface of the following streets, avenues and highways, that is to say: Commencing at the junction of One Hundred and Sixteenth street and Manhattan avenue, and there intersecting or joining your petitioner's existing railroad upon the said street and avenue; running thence northerly in or upon Manhattan avenue to the junction of said avenue with St. Nicholas avenue; running thence northerly in or upon St. Nicholas avenue to One Hundred and Forty-fifth street; thence westerly along One Hundred and Forty-fifth street to the Boulevard; thence northerly in or upon the Boulevard, or Eleventh avenue, to the junction thereof with Fort George avenue.

Also from the junction of the Boulevard or Eleventh avenue at or near One Hundred and Sixty-ninth street, running thence northerly and northwesterly in or upon Kingsbridge road or Broadway to and across the new bridge over the Ship Canal; thence northerly through, upon or along Kingsbridge road or Broadway, from the said new bridge over the Ship Canal to and across the bridge over Spuyten Duyvil creek at Broadway, in or upon Broadway to the northerly line of the City of New York.

Also from the junction of One Hundred and Forty-fifth street and the Boulevard or Eleventh avenue, running thence southerly in or upon the Boulevard or Eleventh avenue to One Hundred and Twenty-fifth street, and running thence easterly in or upon One Hundred and Twenty-fifth street to Amsterdam avenue, there intersecting or joining your petitioner's existing railroad upon Amsterdam avenue.

Also from the junction of One Hundred and Forty-fifth street and St. Nicholas avenue, running thence easterly in or upon One Hundred and Forty-fifth street to the Harlem river.

Such railroad to be constructed with double tracks, through, upon and along each of the streets, avenues, boulevards and highways above mentioned, together with such connections, switches, turn-outs, cross-overs, turn-tables, sidings and suitable stands as shall be necessary for the convenient working of the road and for the accommodation of the cars which may be run over the same.

Such railroad, below One Hundred and Forty-fifth street, to be operated by cable power or an underground electric current, or by any motive power which is now or may hereafter be lawfully used or employed on such road, excluding, however, horse or animal power, locomotive steam power and the over-head trolley system of electric traction, and above One Hundred and Forty-fifth street to be operated by the over-head trolley system of electric traction.

Dated New York, June 29, 1895.

THE METROPOLITAN STREET RAILWAY COMPANY,

By H. H. VREELAND, President.

Whereas, The Common Council gave public notice of such application, and of the time and place when the same would be first considered, by causing the said notice to be published daily for at least fourteen (14) days prior to the hearing, in two daily newspapers in the City of New York, to wit, in the "Press" and in the "Times," which papers were first designated by the Mayor of said city; and

Whereas, After public notice given as aforesaid, and at public meetings duly held in pursuance of such notice, where all persons so desiring were given an opportunity to be heard and were heard, such application has been first duly considered by the Railroad Committee of the Common Council, and which has reported in favor of granting this petitioner's application; it is therefore

Resolved, That the consent of the Common Council of the City of New York be and it hereby is given to the construction, maintenance and operation of a double track street surface railroad for public use in or upon the following streets, avenues, boulevards and highways in the City of New York mentioned in said application, as follows:

Commencing at the junction of One Hundred and Sixteenth street and Manhattan avenue, and connecting there by suitable curves, switches and appliances with the existing railroad upon the said street and avenue; running thence northerly in or upon Manhattan avenue to the junction of said avenue with St. Nicholas avenue; running thence northerly in or upon St. Nicholas avenue to One Hundred and Forty-fifth street; thence westerly along One Hundred and Forty-fifth street to the Boulevard; thence northerly in or upon the Boulevard or Eleventh avenue to the junction thereof with Fort George avenue.

Also from the junction of the Boulevard or Eleventh avenue at or near One Hundred and Sixty-ninth street; running thence northerly and northeasterly in or upon Kingsbridge road or Broadway to and across the new bridge over the Ship Canal; thence northerly through, upon or along Kingsbridge road or Broadway, from the said new bridge over the Ship Canal to and across the bridge over Spuyten Duyvil creek at Broadway, and thence northerly from the said bridge over the Spuyten Duyvil creek at Broadway in or upon Broadway to the northerly line of the City of New York.

Also from the junction of One Hundred and Forty-fifth street and the Boulevard running thence southerly in or upon the Boulevard or Eleventh avenue, to One Hundred and Twenty-fifth street, and running thence easterly in or upon One Hundred and Twenty-fifth street to Amsterdam avenue, there to connect by suitable curves, switches and appliances with the existing road upon Amsterdam avenue.

Also from the junction of One Hundred and Forty-fifth street and St. Nicholas avenue running thence easterly in or upon One Hundred and Forty-fifth street to the Harlem river, with double tracks in each of said streets, avenues, boulevards and highways.

Together with all such necessary connections, switches, sidings, turnouts, iron tables, cross-overs and suitable stands as shall be necessary for the convenient working of the said railroad and for the accommodation of the cars which may be run over the same.

Resolved, also, that the conditions upon which this consent is given, and not otherwise, shall be and are as follows:

First—That this consent of the Common Council to the construction, maintenance and operation of said street surface railroad, shall be sold at public auction to the bidder which shall be a duly incorporated railroad corporation of this State, organized to construct, maintain and operate a street surface railroad in the City of New York, for which this consent may be given and which shall agree to give the City the largest percentage per annum of the gross receipts of such corporation, with a bond or undertaking in such form and amount and with such conditions and sureties as may be required and approved by the Comptroller or other chief fiscal officer of the City, for the fulfillment of such agreement and for the commencement and completion of its railroad within the times hereinafter designated, according to the plan or plans and on the route or routes fixed for its construction within the time prescribed and designated by law applicable thereto.

Second—That cars shall be run upon such railroad as frequently as the ordinances of the City of New York may require, and no passenger shall be charged more than five cents for a continuous ride from any one point on such railroad to any other point thereon, or on any branch or extension thereof or on any other railroad leased or operated in connection therewith or controlled by the company securing this franchise, and in making returns of its gross receipts, the said company shall include and be liable for five cents for each and every passenger carried in any and all cars over its route, whether belonging to said Company or any other company using its tracks or any part thereof.

Third—This consent is also given upon the condition that the company acquiring said franchise shall receive passengers transferred from any connecting or intersecting railroad, and carry them without charge, provided the company operating such other railroad will grant the same privilege to passengers transferred to it, so that any passenger can have a continuous ride for one fare from any point on the proposed railroad to any point on any other railroad connecting with or intersecting the same under such transfer agreement.

Fourth—This consent is also given upon the condition that the bidder to which the said sale shall be made shall construct and put in operation a street railroad upon said routes, with all the necessary equipments and fixtures, the motive power to be used thereon to be horse or cable power, or any other power other than steam locomotive power, which other power may be consented to by the State Board of Railroad Commissioners, but no overhead trolley shall be used south of One Hundred and Sixty-ninth street; said company may use the overhead trolley north of said street only until such time as the Board of Aldermen shall require some other form of traction to be substituted, and such company shall be allowed two years after it shall be given permission for such change of power by the Railroad Commissioners or other proper authority to make the substitution of power required by the Common Council. The material to be of the best possible character, and the plans of street construction, turn-tables and turn-outs to be subject to the approval of the Commissioner of Public Works and the Commissioner of Street Improvements for the Twenty-third and Twenty-fourth Wards of said city.

Fifth—That the company receiving the franchise and operating said railroad shall, at all times, keep the street between its tracks, and two feet beyond the outer rail at each side of the street, clean and free and clear from dirt and snow, which must be removed by said railroad company within such period of time as may be required by the Commissioner of Street Cleaning; and if not so removed the same may be taken away by the said Commissioner of Street Cleaning, and the expense involved shall be charged to the Railroad Company and collected by the Comptroller in the manner moneys due the City are collected under the law.

Sixth—That the Commissioner of Street Cleaning shall be permitted to use the tracks of the Railroad Company along the entire line of the road, with its connections, between the hours of 1 o'clock A. M. and 5 o'clock A. M., running on said road proper vehicles to points along the line, or to the end of the route, if deemed necessary; such use of track not to interfere, however, with the operation of the cars of the said Railroad Company, or its schedule of time for the running of cars.

Seventh—That the said Railroad Company shall pave the streets along the route between the rails of its tracks, and two feet in width outside of its tracks, to conform in all respects to the character of the pavement laid down on said street or streets, and keep the same in proper condition and repair; and if not so done the Commissioner of Public Works may have it done at the expense of the Railroad Company, the amount to be collected by the Comptroller under process of law.

Eighth—That the said Railroad Company shall apply to each car a proper fender and wheel guard, which shall conform to such laws and ordinances as may hereafter be enacted or adopted by the City authorities.

Ninth—That the cars of said Railroad Company will be properly and sufficiently lighted and heated in such manner as may be required by the ordinances of the City of New York; for failure to comply with the requirements of this provision the company operating such cars shall be liable to such penalty as may be prescribed by the ordinances of the City of New York.

Tenth—That all laws of ordinances now in force, or which may be adopted, affecting the surface railroads operating in this city, shall be strictly complied with, and especially Article IV. of the General Railroad Law.

Eleventh—This consent is given upon the further conditions that the successful bidder at said sale to whom this consent for the construction and operation of said railroad shall be awarded, shall deposit at the time of said sale, with the Comptroller of said city, conducting the sale, to the order of the Mayor the sum of \$250,000, which shall be by the said Mayor deposited in a trust company or national bank of the City of New York, to be selected by the said Mayor, as a special deposit subject to the conditions following:

Said money to be held as security that the said railroad, to the construction of which consent is hereby given, shall be in good faith built and put in operation, as contemplated by this consent, within the time or times fixed by law, and, as expenditures upon said railroad for property, fixtures, machinery, street work, equipment and franchises shall progress, said deposit shall be subject to drafts of the corporation engaged in said work, upon certificates of the Commissioner of Public Works, that an amount equal to the amount drawn from time to time from said funds has been expended in good faith upon or for the purpose of said railroad, as herein in this section provided; and if, within the time prescribed by law from the time of said sale, said road shall not have been constructed and be in operation, over the entire line or route, the said fund then on deposit shall be forfeited to said city, and, in case of failure on the part of any successful bidder at said sale to make such deposit at the time of such sale, a resale shall be immediately made upon the terms and conditions herein provided.

Twelfth—This consent is also given upon the further condition that in addition to the other bonds required by law, any company desiring to bid at the sale of this consent, shall execute and deposit with the Comptroller, within five days prior to the sale, a bond in such form and penal sum as he may designate, and with such sureties as may be approved by him conditioned for the payment of such company, if the successful bidder, into the Treasury of the City, for the benefit of the City, \$250,000, within sixty (60) days after it has fully acquired the right to construct and operate said railroad, which payment shall be as further compensation to the City for its consent, in addition to the percentage on gross receipts to be paid by said company, and no bid shall be accepted from any company failing to deposit such bond as herein required.

Thirteenth—And this consent is given upon the condition that no bid shall be given or accepted at the said sale for less than two per cent. of the gross receipts to be paid annually in addition to the percentages now required by law to be paid under section 95 of the Railroad Law.

PETITIONS.

By Alderman O'Brien—

To the Common Council of the City of New York:

The petition of the Webster Free Library, and of citizens of New York interested in it, respectfully sheweth:

That this library was established in the City of New York at the foot of East Seventy-sixth street, in January, 1894; that it was built on land belonging to a corporation known as the East Side House, and was supplied with books chiefly by the gift of Mr. Edward Clarence Spofford. That the building, the land on which it is situated, and the books themselves, belong to the said corporation, which maintains the said library for the welfare and free use of the public. That besides the actual circulation of books, and lending the same to persons to be used in their houses, it maintains a free reading-room for the use of the public. That all the expenses thereof have been and are maintained by the gifts of private citizens except that during the year 1894 it received two hundred (200) dollars from the Library Fund managed by the Board of Regents of the University of the State of New York, and was awarded, in December, 1894, by a vote of the Board of Estimate and Apportionment of the City of New York, a grant of fifteen hundred (1,500) dollars, pursuant to a previous resolution of the Common Council of the City of New York, and of section 37, chapter 378, of the State of New York of 1892.

The said library was named the Webster Free Library, because the money for the erection of its building was given by Mr. Charles B. Webster, of the firm of Macy & Co.

A separate account is kept of all expenses and disbursements of every kind connected with the Library, and the moneys received from the State have been used wholly for the purchase of books, as directed by the Regents. The money received from the City, under the grant aforesaid, has been appropriated solely for the support of said library, the expenses of which amount to about three thousand (3,000) dollars per annum.

In consequence of the grant made, as aforesaid, by your Honorable Body, and by the Board of Estimate and Apportionment, and the whole extension of facilities which said library has been able to make and has made, in consequence thereof, the circulation of books during the current year has very largely increased, and will undoubtedly amount to considerably over 20,000 volumes, besides the books and periodicals that are used in the reading room. There is no other free and general library of any sort in that section of the City east of Central Park, in which said library is situated. The population of this part of the City numbers over 250,000, and the circulation of good books among them is both useful and acceptable to our citizens.

Wherefore, your petitioners pray that your Honorable Body would appropriate for the use of said library during the year 1896 the sum of two thousand dollars, and we request the Board of Estimate and Apportionment to appropriate said sum to the support of said library and purchase of books for the same.

By Alderman Wund—

NEW YORK, August 21, 1895.

To the Honorable Board of Aldermen of the City of New York:

GENTLEMEN—We, the undersigned citizens of the United States and members of the Congregation Adereth El, having a Synagogue at No. 135 East Twenty-ninth street, have been deprived of the gas in the city lamps in front of our premises, an electric-light having been placed over a hundred feet away from the Synagogue instead. We keep early morning and late evening services, at which hours a number of people congregate, and, consequently, the lights are an absolute necessity to us.

We therefore respectfully petition your Honorable Body to grant us the above request, viz., to allow us the gas in the two city lamps in question in front of our Synagogue.

Trusting you will consider our petition favorably and accede with the request of the undersigned, we have the honor to subscribe ourselves, gentlemen,

Yours, very respectfully,

L. A. BLUMENTHAL, President; L. COHN, Vice-President; JULIUS MEYER, Secretary; A. HYAMS, Treasurer; L. ABRAHAM, G. ISAACS, J. RADLER, Trustees; M. BENJAMIN, J. B. STRICH, H. MONDAY, Members.

In connection herewith Alderman Wund offered the following:

Resolved, That the Commissioner of Public Works be and he is hereby respectfully requested to cause the two lamps in front of the synagogue of the Congregation Adereth El, No. 135 East Twenty-ninth street, to be lighted during the hours of the public lamps.

The President put the question whether the Board would agree with said resolution. Which was decided in the affirmative.

By Aldermen Parker, Wines and Goodman—

NEW YORK, August 27, 1895.

To the Honorable the Board of Aldermen:

Pursuant to an invitation, extended to the members of the Board on July 2d ultimo, "to attend an exhibition of a new street sweeping machine (see Journal, page 35 of minutes, July 2, 1895), the undersigned availed themselves of the opportunity, witnessed the operations of said machine, and were favorably impressed with its construction and its efficiency.

Believing it possesses sufficient merit to justify a thorough test of its practicability by the Street Cleaning Department, we offer the following:

Resolved, That the Commissioner of Street Cleaning be and he is hereby requested to accept from the Gordon Street Sweeping Company one of their street sweeping machines, for the purpose of making a thorough test of its utility and efficiency; provided the said machine is furnished without any cost whatever to the City, and can be used for the purpose indicated, for a period of one month at least.

CHARLES A. PARKER, CHARLES WINES, ELIAS GOODMAN.

Alderman Lantry moved that the resolution be laid on the table.

The President put the question whether the Board would agree with said motion. Which was decided in the negative.

The President then put the question whether the Board would agree with said resolution. Which was decided in the negative by the following vote, a majority of the members elected failing to vote in favor thereof:

Affirmative—The President, the Vice-President, Aldermen Clancy, Goetz, Goodman, Hall, Kennefick, Marshall, Olcott, Parker, Randall, Schilling, School, Wines, and Woodward—15.

Negative—Aldermen Brown, Burke, Campbell, Dwyer, Goodwin, Hackett, Lantry, Muh, Murphy, Noonan, Oakley, Robinson, Tait, and Wund—14.

By Alderman Goodman—

I have interposed a return to the alternative writ of mandamus so that every question in regard thereto may be properly litigated.

I have made every effort since the service of these papers to obtain satisfactory proof of the basis of population adopted by your Honorable Body in making the apportionment of the three assembly districts in question.

I have been, however, unable to procure the necessary evidence, and as the matter is one of the most pressing nature, I now respectfully ask your Honorable Board to furnish me, at your earliest convenience, with the facts upon which the apportionment of the assembly districts comprised within the Thirteenth Senate District was made.

Respectfully asking your Honorable Body to give this matter your immediate attention, I am, Yours,

(G. O. 423.)

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,

To the Honorable the Board of Aldermen:

GENTLEMEN—In accordance with the provisions of section 321 of the New York City Consolidation Act of 1882, as amended by chapter 569 of the Laws of 1887, I hereby certify and report to your Honorable Board that the safety, health and convenience of the public require that a crosswalk of two courses, with a row of new specification stone blocks between the courses, be laid across One Hundred and Fifty-first street at its intersection with the westerly side of the Western Boulevard; the materials to be used for said work to be bridge stone of North river blue stone of the dimensions and according to the specifications now used in the Department of Public Works.

The President laid before the Board the following communication from the Clerk of the Common Council:

To the Honorable the Board of Aldermen:

GENTLEMEN—Pursuant to letter of instructions received by me from the Comptroller's Office, calling for Departmental Estimate for the year 1896, I herewith respectfully inclose duplicate of the same to your Honorable Body. Yours, respectfully,

WILLIAM H. TEN EYCK, Clerk of the Common Council.

OFFICE OF THE BOARD OF ALDERMEN, NO. 8 CITY HALL—NEW YORK, August 20, 1895.

Hon. ASHBEL P. FITCH, Comptroller:

DEAR SIR—In reply to your circular letter of July 20, requesting me to prepare and transmit to the Board of Estimate and Apportionment on or before the fifth day of September, 1895, estimate in writing of the amounts required to pay the expenses of conducting the public business in this office in and for the year 1896, together with other information, I have the honor to state the salaries fixed by law are as follows:

President of the Board of Aldermen \$3,000 00
Thirty members of the Board, other than the President, at \$2,000 each per annum... 60,000 00

—(Section 52, New York City Consolidation Act of 1882; chapter 74, Laws of 1884; chapter 292, Laws of 1887; chapters 397 and 408, Laws of 1892.)

By section 79 of the New York City Consolidation Act of 1882, the sum to be appropriated for salaries for clerks and other officers of the Board of Aldermen, including the Clerk, is limited to \$25,000. That Board of Estimate and Apportionment in 1888, 1889, 1890, 1891 and 1892, specified the officers and fixed their salaries at \$22,100. In making their final estimate for 1893, however, they added the sum of \$1,200, to be applied to the payment of the salary of a Stenographer and Typewriter in the office of the Clerk of the Common Council, making the amount \$23,300. In January, 1895, the offices of the Stenographer and Typewriter, at \$1,200, and one Messenger, at \$900, were abolished by resolution of the Board of Aldermen, approved by the Mayor and subsequently ratified by resolution of the Board of Estimate and Apportionment, and the office of Special Assistant Clerk was created at a salary of \$2,100 per annum, which still left the total amount for salaries at \$23,300, the list is as follows:

Clerk of the Board and ex-officio Clerk of the Common Council \$5,000 00
Deputy Clerk Board of Aldermen 2,500 00
Special Assistant Clerk 2,100 00
Five Clerks at \$1,200 each 6,000 00
Four Clerks at \$1,000 each 4,000 00
Librarian for City Library 1,000 00
Sergeant-at-Arms Board of Aldermen 900 00
Two Messengers at \$900 each 1,800 00
City Contingencies 2,000 00
Contingencies, Clerk of Common Council 500 00

Total for the year 1896 \$88,800 00

—and is similar, both as to the objects and amount of expenditures asked for and allowed in each of the past five years, save the five additional Aldermen as provided by the Laws of 1892, with the exception that an additional appropriation was made for an extra messenger in 1891, and \$1,200 for a stenographer and typewriter in 1892. The office of Stenographer and Typewriter and one of the three Messengers were abolished this year and a special Assistant Clerk appointed at \$2,100, the combined salaries attached to the offices abolished. The City contingencies have been increased from \$1,500 to \$2,000, owing to the increased expenditures for engrossing resolutions and other matters, and the Clerk's contingencies have been increased from \$200 to \$500 on account of the increased demand for postage and other incidental expenses of the Clerk. As all the appropriations are made to pay fixed salaries, with the exception of the items for contingencies, it is more than probable they will all be expended. The balance unexpended from the appropriation for contingencies at the expiration of the present year cannot, with any degree of certainty, be estimated at this time.

Which was referred to the Committee on Law Department.

WILLIAM H. TEN EYCK, Clerk of the Common Council.

UNFINISHED BUSINESS RESUMED.

Alderman Goodman called up Special Order 11, being the majority report of the Committee on Railroads, as follows:

The Committee on Railroads, to whom was referred the applications heretofore presented to the Common Council of the City of New York by the Third Avenue Railroad Company and the Metropolitan Street Railway Company, respectively, for consent to the construction, maintenance and operation of branches or extensions of their existing railroads upon, through and along Kingsbridge road and various other streets and highways described in said applications, respectfully

REPORT:

That, pursuant to notices published according to law, hearings were had on said applications, at which all persons desirous of being heard were heard.

That your Committee is of the opinion that the construction and operation of such branches or extensions as proposed will furnish much-needed facilities for travel and will be of great value generally to the people of the city, by adding to the taxable value of the property along the route of said extensions or branches.

That the proposed route of the petitioners is through and along the same streets and avenues, with but slight exceptions, the most notable of which is the application for the use of a portion of St. Nicholas avenue by the Metropolitan Street Railway Company.

That, upon careful investigation, we find that St. Nicholas avenue can be readily abandoned without injury to the petitioner, and thus the said avenue be free from the presence thereupon of street surface railways, it being adapted to driving, and the only practical method of reaching the proposed Speedway, upon which the City is about to spend millions of dollars.

That, while reporting in favor of granting the application of the Third Avenue Railroad Company, for reasons hereinafter assigned, we feel and recommend that the petition of the Metropolitan Street Railway Company should not be laid aside or the interests of that corporation be prejudiced because of the fact that the use of St. Nicholas avenue for railroad purposes is asked for. If, for sufficient cause, the Board of Aldermen believes the franchise should be given to the Metropolitan Street Railway Company—concurring with the Railroad Committee in its views as to St. Nicholas avenue—said company should not be denied because of the present desire to include St. Nicholas avenue in its proposed route.

That, at the public hearings on this application, the sentiment of the citizens who expressed themselves preponderated in favor of the Third Avenue Railroad Company. This fact, however, has not been of sufficient weight in itself to cause the Committee to report in favor of said company. The expression of those attending previous hearings on the applications before this Board for the same extensions, and which predominated in favor of the Metropolitan Street Railway Company, have been duly considered in connection herewith.

With due and proper regard for the expressed views of all who appeared before us, and with a sense of appreciation of the demands of the residents and property-owners of the territory through which the proposed road is to be operated, and of citizens from all parts of the city who have appeared before us, we feel that it would be for the greatest good to the largest number to grant the application of the Third Avenue Railroad Company. It does not seem just to the people of the city at large to consider the wishes of those only directly interested in the growth of the locality in and through which the new line of street surface railroad is to traverse. We consider that the existing line of the Third Avenue Railroad Company passing upon the east side of the city to One Hundred and Twenty-fifth street, and across One Hundred and Twenty-fifth street to the west side of the city, will enable a much larger number of people to obtain access to the territory along the line of such branches or extensions than would be enabled to obtain access thereto by means of any other line of railway operating principally upon the west side of the city.

About two-thirds of the population of this city are residents of the east side, and the most thickly-populated districts are located along the line of the Third Avenue Railroad Company. We believe that the greatest good is, therefore, accomplished by providing railroad facility for the largest number, and especially those who are compelled to be crowded into the densely populated tenement-house districts, to travel when time and opportunity permit, to that portion of our city where the open fields and invigorating air will promote the health and extend the life of the many thousands who are in need of such facility as is now offered to them. We also believe that by granting to the Third Avenue Railroad Company the privilege asked for that in the near future the congested east side will be largely relieved. That capital will be induced to provide residential accommodation in the newly traversed territory, and because of the line of railroad down the east side of the city many of those now located down-town will be tempted to follow the march of time and move northward to the newly-opened and growing territory.

That the existing line of the Third Avenue Railroad Company also connects with the line of the Union Railway Company of New York City, at One Hundred and Thirtieth street, thus enabling people from the northwesterly part of the city, including the entire annexed district, to obtain access to the territory along the line of such branches or extensions.

That the Third Avenue Railroad Company and the Metropolitan Street Railway Company have each made public offers to said Union Company to transfer passengers with one another and transport the same for a single fare in case their respective applications may be granted.

That the upper east end of Manhattan Island, known as Harlem, is to-day a great commercial centre, and is destined to become one of the most, if not the most, important shopping district in the city. The Third Avenue Railroad Company has contributed materially to the present importance of that locality; and, by giving to said company the franchise now asked for,

the commercial growth of that territory is insured; while the reverse would be the fact if the application were denied.

That there is now being built corner One Hundred and Twenty-fifth street and Park avenue a large railroad station, occupying nearly four blocks of space, at which all trains going from or coming into the Grand Central Railroad Depot will stop. This, when completed, will become a great railroad centre, and hundreds of thousands of passengers will go to and from this point. The advantages afforded those who will make use of this station by the Third Avenue Railroad Company far exceeds those which can be offered by any other surface road. On this improvement the City is expending large sums of money, and is therefore directly interested.

That the contention, oft repeated, that the Metropolitan Street Railway Company would enable passengers to travel to the Battery on both the east and the west sides of the city is not in all respects true. The west side branch turns at Fifty-third street and reaches the Battery via Broadway. The east side line turns at Twenty-third street and also reaches the Battery via Broadway.

That along a goodly portion of the line of the Metropolitan Street Railway Company's route business is comparatively suspended early in the evening, and the travel at such points is consequently light, while travel at the east side of the city is almost as extensive, all along the line, long after nightfall as it is during the entire day.

That the large number who may desire to connect with the elevated railroads, east and west, in order to travel to and from business by the quickest means of transit, would be best accommodated by the Third Avenue Railroad Company.

That the great and extraordinary large number of people which utilize the Third Avenue Railroad at the present time on Sundays and holidays is a clear and unmistakable indication that from and to the east side of the city does the multitude travel when seeking opportunity for outings, etc.

That the Third Avenue Railroad Company has for many years been in occupation of a large portion of the territory to be affected by the granting of said application; and the facilities for transportation which it has thus afforded have contributed materially to build up that portion of the city.

That said company has heretofore presented, within the last three years, three other applications to this Board, which have been duly considered, requesting the granting of extensions and branches, and was the first to ask for the franchise now sought.

That it is the opinion of your Committee that the application of the Third Avenue Railroad Company should be granted for the reason, also, that at any sale which may take the proportion of gross receipts for joint business which the Third Avenue Railroad Company must needs pay under the provisions of existing law to the successful bidder, if other than itself, is such as would admit of opposition and competition from the Metropolitan Street Railway Company, or other companies, but that if the application of the Metropolitan Street Railway Company should be granted, the proportion of receipts for joint business which it would necessarily receive from the successful bidder, if other than itself, would be so excessive that no other company could afford to become a bidder at such sale, and the object of the statute under which this consent is to be sold, and which is to secure additional revenue to the City, would thereby be defeated.

That the percentages which the successful bidder is required by law to pay into the City Treasury would be greater in case the application of the Third Avenue Railroad Company were granted, than would be paid to the City in case that of the Metropolitan Street Railway Company were granted.

That when resolutions were previously passed by the Board of Aldermen granting the application of the Third Avenue Railroad Company, his Honor the Mayor, returned the resolutions without approval, to this Board, with the suggestion that provisions should be made by the Third Avenue Railroad Company in respect to its application, which would enable any bidder other than itself, to operate the two branches of the extension applied for as a continuous route.

That the Third Avenue Railroad Company has complied with this suggestion, by stipulating that it will deliver to the successful bidder at said sale, if other than itself, a conveyance granting for one dollar per annum, as rental, the right and privilege of using perpetually the tracks of the Third Avenue Railroad Company, upon One Hundred and Twenty-fifth street, and Manhattan street, between Eleventh avenue or Boulevard and St. Nicholas avenue, for the purpose of enabling cars of said bidder to be operated, and the right to operate such cars by any motive power which such successful bidder may be lawfully authorized to employ, and to make track connections which may be requisite and necessary to connect such extension with the tracks of the Third Avenue Railroad Company, at the junction of Manhattan street and Eleventh avenue or Boulevard, and at the junction of St. Nicholas avenue with One Hundred and Twenty-fifth street. That the Third Avenue Railroad Company have also offered as a condition by which it shall be bound, in case its application is granted and the sale of said franchise is made, that it will execute and deliver to the Comptroller of the City of New York, a bond in the penal sum of fifty thousand dollars, and of such form as the Corporation Counsel of the City of New York shall approve, whereby the Third Avenue Railroad Company shall be obligated to perform each and every of the provisions of its offers, agreements and stipulations above stated.

That the Third Avenue Railroad Company has also offered as part of its application and as a consideration by which it is to be bound, in case the same is granted, that it will bid upon the public sale of said franchise, and in addition to the three per cent. of its gross receipts required by statute to be paid the first five years after construction and operation of said extension, and in addition to the five per cent. in like manner required to be paid after said five years, not less than two per cent. of its gross receipts per annum. That said Third Avenue Railroad Company has further stipulated as part of its application, in case it shall be the successful bidder at such sale and acquire the right to build said extension, to pay into the City Treasury the sum of \$250,000 in cash, or \$150,000 more than the Metropolitan Street Railway Company has offered in its agreement to pay into the City Treasury, viz.: the sum of \$100,000 in cash, under like conditions.

That, while your Committee believe that monetary offers of this character should have due consideration, yet they should not be regarded as of sufficient importance to outweigh those considerations which are due the traveling public, the needs of special locality, the general benefits to be derived, the necessities of the city, etc.

It also seems to your Committee that offers of this kind are not in touch with the spirit of the Railroad Act, and have a tendency to limit competition at the sale which takes place under direction of the Comptroller, preventing to a large extent free and open competition to all who might desire to bid for the franchise.

If, however, this monetary offer is to have the influence intended, it is quite obvious that the Third Avenue Railroad Company is entitled to first consideration.

Your Committee respectfully present for adoption the following preamble and resolution:

Whereas, The Third Avenue Railroad Company, a corporation duly organized and existing under and by virtue of the laws of the State of New York, for the purpose of providing street railroad facilities for compensation, in the City of New York, has heretofore made application, in writing, to the Common Council of the City of New York for consent to the construction, maintenance, use and operation of a street railway upon and through streets and avenues in said city, mentioned in said application presented the 2d day of July, 1895, which application is in words and figures as follows, to wit:

"To the Honorable the Common Council of the City of New York:

The petition of the Third Avenue Railroad Company respectfully shows:

That your petitioner is a corporation duly organized and incorporated under the laws of the State of New York and has constructed and now operates a line of railroad extending, among other streets, upon the Bowery, Third avenue, One Hundred and Twenty-fifth street, Manhattan street, and Tenth avenue, in the City of New York.

That your petitioner proposes to construct, maintain and operate a street surface railroad for public use in the City of New York, with double tracks, connecting with the tracks of said company already constructed, and as branches or extensions thereof, upon and along the surface of streets, avenues and highways in the City of New York, as follows:

From the junction of Kingsbridge road or Broadway and West One Hundred and Sixty-second street, connecting there by suitable curves, switches and appliances with this company's railroad upon Amsterdam avenue; running thence northerly and northeasterly through and along Kingsbridge road or Broadway to and across the proposed new bridge over the Ship Canal; thence northerly through and along Kingsbridge road to Broadway from the proposed new bridge over the Ship Canal to and across the bridge over Spuyten Duyvil creek at Broadway; thence northerly from the bridge over Spuyten Duyvil creek at Broadway; through and along Broadway to the city line.

Also from the junction of West One Hundred and Twenty-fifth street and St. Nicholas avenue, connecting there by suitable curves, switches and appliances with the company's railroad upon West One Hundred and Twenty-fifth street; running thence southerly on St. Nicholas avenue to a junction of said avenue with Manhattan avenue; thence southerly and over and along Manhattan avenue to West One Hundred and Sixteenth street, with all the necessary connections, switches, turn-outs and cross-overs, sidings, turn-tables and suitable stands for the convenient working of said road and for the accommodation of the company's cars which may run over the same.

Also from the junction of Kingsbridge road or Broadway and Riverdale avenue, running thence northwesterly and northerly, through, upon and along Riverdale avenue to the city line.

Also from the junction of Manhattan street and Eleventh avenue or Boulevard, connecting there by suitable curves, switches and appliances with this company's railroad upon Manhattan street, running thence northerly through, upon and along Eleventh avenue or Boulevard to the junction of Kingsbridge road or Broadway, at or near One Hundred and Sixty-ninth street, with all the necessary connections, switches, turn-outs, cross-overs, sidings, turn-tables and suitable stands for the convenient working of said road and for the accommodation of the company's cars which may run over the same.

That your petitioner now owns and is operating in the City of New York, as part of one system, fourteen miles of railroad or thereabouts.

That said proposed extensions and branches will be about eleven miles or thereabouts in length, and will become and be a part of said system and connected therewith.

That the construction of said railroad will greatly accommodate the public and promote the convenience thereof, and will afford additional and much-needed facilities for travel to the territory through which said railroad will extend and will enable your petitioner to transport persons from all points on its system over this extension as a part of a continuous line to their destination for one fare.

That the railroad proposed to be constructed, extended and maintained and operated by your petitioner, as hereinbefore set forth, is intended to be operated by any motive power other than steam locomotive power, which now or hereafter may be lawfully used or employed on its route.

Your petitioner further shows that, pursuant to the laws of this State, it is necessary for it to obtain the consent of the Common Council of the City of New York to enable it to construct, maintain and operate the railroad aforesaid, and, accordingly, your petitioner now applies to your Honorable Body for such consent.

Your petitioner further states and stipulates as a part of this petition, inasmuch as the portion of the route hereinbefore described which lies north of One Hundred and Twenty-fifth street and Manhattan street is separated from the portion of said route which lies south of said streets by those portions of One Hundred and Twenty-fifth street and Manhattan street which lie between Eleventh avenue, or the Boulevard, and St. Nicholas avenue, upon which your petitioner already owns and operates a street surface railroad, that, in case this petition is granted and a sale is made of the franchises therein described, the petitioner will deliver to the successful bidder at said sale a conveyance granting, for one dollar per annum as rental, the right and privilege of using perpetually the tracks of the Third Avenue Railroad Company upon One Hundred and Twenty-fifth street and Manhattan street, between Eleventh avenue, or Boulevard, and St. Nicholas avenue, for the purpose of operating its cars, and the right to operate such tracks by any motive power which said successful bidder may lawfully be authorized to employ, and to make all track connections which may be requisite and necessary to connect said extension with the tracks of the Third Avenue Railroad Company at the junction of Manhattan street and Eleventh avenue, or Boulevard, and at the junction of St. Nicholas avenue with One Hundred and Twenty-fifth street.

And your petitioner further stipulates and agrees as a part of this petition and as a condition by which it shall be bound in case this petition is granted and the sale of said franchises is accordingly made, that it will execute and deliver to the Comptroller of the City of New York a bond in the penal sum of fifty thousand dollars, and of such form as the Corporation Counsel of the City of New York shall approve, whereby your petitioner shall be obligated to fully perform each and every of the provisions of each and every of its foregoing and following offers, agreements and stipulations.

And your petitioner further stipulates and agrees as a part of this petition and as a condition by which it shall be bound in case the same is granted, that it will bid upon the public sale of said franchises, and in addition to the three per cent. of its gross receipts required by statute to be annually paid for the first five years after the construction and operation of said extension, and in addition to the five per cent. in like manner required to be paid after said five years, not less than two per cent. of its gross receipts per annum.

And your petitioner further stipulates, in case it shall be the successful bidder at said sale and acquire the right to build said extension, to pay into the City Treasury the sum of two hundred and fifty thousand dollars in cash.

Wherefore your petitioner prays and makes application to the Common Council of the City of New York for its consent and permission to be granted to your petitioner, its successors, successor, lessees and assigns, to construct, maintain and operate a street surface railroad for public use through, upon and along the avenues, streets and highways above set forth and described, together with all necessary connections, switches, sidings, turn-outs, turn-tables, cross-overs and suitable stands for the convenient working of said railroad and for the accommodation of the company's cars which may be run over said railroad by your petitioner, its successors, lessees or assigns.

The material to be of the best possible character, and the plans of street construction, turn-tables and turn-outs to be subject to the approval of the Commissioner of Public Works of said city.

Third—That the cars shall be run upon said branches or extensions at least as frequently as required by the ordinances of the City of New York, and if the right to construct or operate such branches or extensions shall be purchased at said sale by the company applying for this consent, the same shall be operated as a part of a continuous line of the applicant, so as to enable any passenger, by transfer, tickets or otherwise, to obtain the benefit of a continuous ride for one fare to or from any point on said branches or extensions, and any point on the lines of railroad of the company applying for this consent, whether the same be owned or leased by said company. And if the right to construct said branches or extensions shall be purchased at said sale by any corporation other than the applicant for this consent, the said purchaser shall deliver and receive passengers at the point of junction with the road of the applicant upon a division of earnings from such joint business, in the proportion that the length of the extensions or branches sold shall bear to the entire length of the road of the company applying for this consent, whether owned or leased, together with the mileage of such branch or extension. And if the right to construct or

operate such branches or extensions shall be purchased by the company applying for this consent, the percentage to be paid upon the gross receipts on behalf of said branches or extensions shall be calculated on such portion of the gross receipts of the applicants as shall bear the same proportion to the whole amount thereof as the length of such extensions or branches shall be to the entire length of its road, owned or leased.

Fourth—That no passenger shall be charged more than five cents for a continuous ride, from or to the above branch or extension, under the condition as to connections hereinbefore provided.

Sixth—That the Commissioner of Street Cleaning, for the purpose of removing snow, shall be permitted to use the tracks of the railroad company along the entire line of the road, with its connections, between the hours of one o'clock A. M. and five o'clock A. M., using on said roads proper vehicles, running on said tracks to points along the line or to the end of the route, if deemed necessary; such use of tracks not to interfere, however, with the operation of the cars of the said railroad company or its schedule of time for the running of cars.

Seventh—That said railroad company shall pave the streets along the route between the rails of its tracks and two feet in width outside of its tracks, to conform in all respects to the character of the pavement laid down on said street or streets, and keep the same in proper condition and repair; and if not so done the Commissioner of Public Works to have it done at the expense of the said railroad company, the amount to be collected by the Comptroller under due process of law.

Eighth—That the said railroad company shall apply to each car a proper fender and wheel guard, conformably to such laws and ordinances as may hereafter be enacted or adopted by the State or City authorities.

Ninth—That all cars of said railroad company shall be properly and sufficiently heated during cold weather, a failure to so heat the cars to subject the company to a penalty of ten dollars (\$10) per day for each car not so heated.

Tenth—That all laws or ordinances now in force, or which may be modified or adopted, affecting the surface railroads operating in this city, shall be strictly complied with, and especially Article IV. of the General Railroad Law.

Eleventh—This consent is given upon the further conditions that the successful bidder at said sale, to whom this consent for the construction and operation of said branches or extensions shall be awarded, shall deposit at the time of said sale, with the Comptroller of said city conducting the sale, to the order of the Mayor, the sum of \$250,000, which shall be by the said Mayor deposited in a trust company or national bank of the City of New York, to be selected by the said Mayor, as a special deposit subject to the following conditions:

Said money to be held as security that the said railroad, to construction of which consent is hereby given, shall be in good faith built and put in operation as contemplated by this consent within the time or times fixed by law, and as expenditure upon said railroad for property, fixtures, machinery, street-work, equipment and franchises shall progress, said special deposit shall be subject to drafts of the corporation engaged in said work upon certificate of the Commissioner of Public Works that an amount equal to the amount drawn from time to time from said funds has been expended in good faith upon or for the purposes of said railroad as herein in this section provided, and if, within the time prescribed by law from the time of said sale, said road shall not have been constructed and be in operation, over the entire line or route, the said fund then on deposit shall be forfeited to said city, and in case of failure on the part of any successful bidder at said sale to make such deposit at the time of such sale a resale shall be immediately made upon the terms and conditions herein provided.

Twelfth—This consent is given upon the further condition that the Third Avenue Railroad Company shall deliver to the successful bidder, if other than itself, at said sale a conveyance granting, for one dollar per annum as rental, the right and privilege of using perpetually the tracks of the Third Avenue Railroad Company upon One Hundred and Twenty-fifth street and Manhattan street, between Eleventh avenue, or Boulevard, and St. Nicholas avenue, for the purpose of operating its cars, and the right to operate such tracks by any motive power which said successful bidder may lawfully be authorized to employ, and to make all track connections which may be requisite and necessary to connect said extension with the tracks of the Third Avenue Railroad Company at the junction of Manhattan street and Eleventh avenue, or Boulevard, and at the junction of St. Nicholas avenue with One Hundred and Twenty-fifth street.

That the Third Avenue Railroad Company shall be obligated to bid, as a condition of the granting of these resolutions, in addition to the three per cent. of its gross receipts required by statute to be annually paid for the first five years after the construction and operation of said branches or extensions and in addition to the five per cent. in like manner required to be paid after said five years, not less than two per cent. of the gross receipts per annum upon said extension.

That the Third Avenue Railroad Company, as a further condition of the granting of these resolutions, shall be obligated, in case it shall be the successful bidder at said sale, to pay into the city treasury the sum of \$250,000, in cash, within thirty days from the date when it shall have acquired the right to build said extension and branches as aforesaid.

That the Third Avenue Railroad Company, within thirty days from the granting of these resolutions, shall execute and deliver to the Comptroller of the City of New York a bond in the penal sum of \$50,000, obligating said Third Avenue Railroad Company to fully perform each and every of the provisions and conditions on its part to be performed, and in this subdivision of these resolutions set forth, otherwise the resolutions shall be wholly inoperative and without effect.

Also the following wharf property, viz., the whole of Pier 53 north of the south line, with the bulkhead, with the privilege of shedding Pier 53; also bulkhead between Piers 53 and 54 and land under water from Pier 53 north one hundred and forty feet, the annual rental of which is hereby appraised and fixed at not less than twenty-two thousand five hundred (\$22,500) dollars, payable quarterly in advance.

The lease will contain the usual covenants and conditions, in conformity with the provisions of law and the ordinances of the Common Council relative to ferries, and shall provide that the lessees will maintain and operate the ferry during the whole term, and will provide ample accommodations in the way of safe and capacious boats and sufficiency of trips, as to the sufficiency of which accommodations the decision of the Mayor and Comptroller shall be final; also conditions that the lessees shall dredge the ferry slips, as required by the Department of Docks, and that during the term of the lease they will erect and build, at their own expense, and will, at all times, well and sufficiently repair, maintain and keep in good order all and singular the floats, racks, fenders, bridges and other fixtures at the landing places; and in the event of any damage to the bulkhead or piers, from collision by the ferry-boats or otherwise, from any accident or negligence on their part, they will immediately repair and restore said wharf property to its previous condition, free of cost to the City of New York; also, that if at any time during the term of the lease, the Department of Docks shall require any of the wharf property used for ferry purposes in order to proceed with the water-front improvements in the vicinity of the ferry landings, the said lessees shall surrender and vacate the premises, without any claim upon the City for any damages whatever, upon written notice being given to the lessees three months in advance, of the intention of said Department; also that the rates of ferrage and charges for vehicles and freight shall not exceed the rates heretofore charged by the Pavana Ferry, of which schedule is attached to the form of proposed lease now on file in the Comptroller's Office; also that sworn returns of the amounts of ferry receipts shall be made to the Comptroller, when required by him, and the books of account of the ferry shall be subject to his inspection.

The lease shall also contain a covenant providing for the purchase, at a fair valuation, of the boats, buildings and other property of the lessees used in and actually necessary for the operation of said ferry, upon the termination of the lease and the surrender and delivery up of the premises by the lessees if the lessees shall not become the purchasers for another term; but The Mayor, Aldermen and Commonality of the City of New York shall not be deemed thereby to covenant to purchase said property in any event.

The right to reject any bid is reserved if it is deemed for the interest of the City.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, *with their respective places of business or residence*, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount, in each case, to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract over and above all his debts of every nature, *and over and above his liabilities as bail, surety and otherwise*; and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of *five per centum* of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested in making their bids or estimates to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security or the performance of the contract by his or her bond, with two sufficient sureties, each in the penal amount of **FIVE THOUSAND (\$5,000) DOLLARS**.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities, as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or her bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.
