### BOARD OF EXAMINERS.

June 23, 1903.

Present—Messrs. William J. Fryer, Warren A. Conover, William C. Smith, Charles D. Purroy, Charles Buek and Walter Cook (Chairman).

Meeting called to order at 2 p. m.  
Minutes of meeting of the 16th instant on motion approved as read.

Appeal No. 121 of 1903, amendment filed 22d instant.

To inclose the proposed elevator shaft with 8-inch brick walls from basement to under side of second tier beams, and fill in the space between same with fireproof blocks. Also to leave opening on the east wall in basement and first floor 5 feet by 8 feet and inclose same with tin-covered door, as required by Board of Fire Underwriters.

On motion, approved.

Appeal No. 131 of 1903 (laid over at last meeting).

Mr. G. L. Wills appeared before the Board.

On motion, referred to Chief Purroy for examination and report on the location.

Appeal No. 133 of 1903 (laid over at last meeting).

No appearance.

On motion, appellant not having appeared, appeal dismissed.

Appeal No. 134 of 1903, new building No. 100 of 1903—East side Lenox avenue, One Hundred and Thirty-sixth street to One Hundred and Thirty-seventh street, Manhattan; Horgan & Slattery, architects and appellants.

It is requested that the omission of the tierods between the floor beams be allowed, as the floor filling will be of Portland cement concrete, reinforced by expanded metal running over the beams.

No appearance.

On motion, laid over.

Appeal No. 135 of 1903, new building No. 434 of 1903—East side Avenue C, about 70 feet 6 inches from corner East Eighth street, Manhattan; A. E. Badt, architect and appellant.

It is respectfully requested that the provisions of the Building Code be modified so far as to allow the omission of the brick partition bearing wall in centre of the building on the second and upper floors, and to provide instead of brick-filled fireproof partitions separating each apartment, formed by filling in between the studs with brick and covering both sides of said partitions with 3/8-inch metal lath securely fastened to each stud with long staples, said partitions to be plastered three good coats of plaster on both sides and partitions resting on iron girders in first floor of sufficient strength to carry same.

On motion, dismissed, the Superintendent of Buildings having approved the proposed construction.

Appeal No. 136 of 1903, new building No. 442 of 1903—West side Pleasant avenue, about 42 feet from corner East One Hundred and Tenth street, Manhattan; George Haiss, architect and appellant.

The Superintendent of Buildings for the Borough of Manhattan having disapproved the application for this coal pocket with the following objections, viz.:

"1. Frame building of this size is prohibited by section 142 of the Code."

I respectfully ask that the provisions of the Code may be modified so as to allow the construction of this one-story heavily timbered coal pocket for the following reasons:

(a). The Code makes no direct provisions for such a structure, the nearest reference thereto being for grain elevators on tide water or adjacent to the river front.

(b). A number of similar frame coal pockets have been erected in this City during the past few years. The location for this pocket and the surroundings are such that in case of this pocket burning, which is not very likely, it could do no damage to buildings in the neighborhood, nor could the burning of buildings in the neighborhood do damage to the coal pocket.

(c). It is impracticable to construct a coal pocket of material other than timber, because the dampness and water from the coal generally affects iron and destroys it by rust.

(d). The cost of an iron coal pocket is also prohibited as to first cost, because the hauling of coal in this City has to be in competition with Jersey City and other surrounding places where coal pockets of iron are unknown, and where the land is cheaper, the wood pockets built in a far less substantial manner than is proposed by your petitioner's filed application. Competition has also to be met with other

frame coal pockets in this City, and as coal has to be handled on a close margin of profits the first cost of the structure is of great importance.

On motion, referred to Chief Purroy for examination and report.

Appeal No. 137 of 1903, alteration No. 259 of 1903—North side East One Hundred and Fifty-seventh street, about 93 feet from corner Melrose avenue, The Bronx; Pauline L. Fajans, appellant.

I respectfully ask that the provision of law may be modified so far as to allow me to extend the extension about 6 by 6 beyond side of present building for the reason that if extension is built the same size as present building it would practically be of no use, as the room would be very small. As the building is on the rear of lot there is little chance or no chance of fire from neighboring house.

This improvement is intended to be merely temporary for not more than two or three years. The value of the land and character of the neighborhood warranting the erection of an apartment house as soon as the owner is in funds.

The entire block being of frame houses with the exception of five houses which face the avenues.

Mr. Wm. Lavelle and Mr. J. Fajans, Jr., appeared before the Board.

On motion, approved on condition that the outside walls of the new extension, together with the rear wall between it and the old building, be brick filled between the studs.

Appeal No. 138 of 1903, fireproof shutter case No. 19 of 1903—Nos. 1615-1617 Second avenue, Manhattan; Frank P. Sheehy, appellant.

On motion, referred to Chief Purroy for examination and report with recommendation.

Adjourned.

JAMES GAFFNEY, Clerk.

I beg to report that the materials were furnished and the work was done in accordance with a resolution of the Aqueduct Commissioners adopted March 17, 1903. I have compared the prices with the proposals and checked the footing. I believe the bills to be reasonable.

Yours respectfully,

The Construction or Executive Committee also referred to the Commissioners the following report of the Chief Engineer:

REPORT No. 602 C. C. NEW YORK, JUNE 1, 1903.

To the Construction Committee:

GENTLEMEN—I herewith return to you a communication from N. S. Hill, Jr., Chief Engineer of the Department of Water Supply, Gas and Electricity, dated May 19, 1903, addressed to Mr. William H. Ten Eyck, President, Aqueduct Commission, and a copy of a proposal and a bill of \$125, in triplicate, of Albert E. Wheeler for services in connection with test well at Jerome Park Reservoir, which you referred to me at your meeting of May 22. I beg to report that the work was done in accordance with a resolution of the Aqueduct Commission adopted March 17, 1903. I believe the bill to be reasonable.

Yours respectfully,  
W. R. HILL, Chief Engineer.

—with a recommendation that the Secretary be directed to prepare a voucher for the payment of said bill and the report ordered filed.

The recommendation of the Committee was adopted and it was so ordered by the following vote:

Affirmative—Deputy and Acting Comptroller Phillips, Commissioners Ten Eyck, Ryan, Windolph and Curtis—5.

The Chief Engineer submitted progress report for the week ending May 29, 1903. Which was referred to the Construction or Executive Committee.

The President presented joint report of Messrs. Nelson P. Lewis, Chief Engineer of the Board of Estimate and Apportionment, and Eugene E. McLean, Engineer of the Department of Finance, dated May 21, 1903, in relation to the plans for the concrete flooring, outlet and drain pipes in the westerly section of the Jerome Park Reservoir, etc.

Whereupon, after consideration and discussion, the matter was made a special order for the next stated meeting of the Commissioners, when a public hearing would be held thereon, and the President and Secretary were directed to publish notice thereof in the "City Record."

The Commissioners also had under consideration and discussion the work upon the Jerome Park Reservoir, and the President was directed to request the contractors for said reservoir, Messrs. McDonald & Onderdonk, to be present at the next stated meeting of the Commissioners for the purpose of explaining the delay in the prosecution of their work.

At this point the Mayor and Deputy and Acting Comptroller Phillips retired from the meeting.

The Chief Engineer presented Report No. 596, dated June 1, 1903, transmitting copy of a letter of W. J. Flanagan, contractor for highways and appurtenances on the Croton River Division, asking that he be allowed to locate buildings upon the City's property, and also transmitting copy of a letter of Division Engineer Wegmann thereon, dated May 26, 1903.

Whereupon, after discussion, the report was ordered filed, and the Chief Engineer was directed to decline the request of Mr. Flanagan.

The Chief Engineer also presented Report No. 597, dated May 28, 1903, transmitting copy of a letter of Division Engineer Wegmann, dated May 26, 1903, in reference to Parcel No. 566, which is about to be vacated by Mr. Louis Ettlinger.

The report was ordered filed and the Chief Engineer was directed to request the Division Engineer to notify the local authorities to protect the property, and to ascertain from Special Counsel Dykman as to whether or not said property had been included in the condemnation proceedings, and if so, to request him to take any ordinary course to protect it.

The Chief Engineer also presented Report No. 598, dated May 28, 1903, transmitting a copy of a letter of Assistant Engineer A. S. Nye, Jr., dated May 20, 1903, requesting an increase of salary from \$1,800 to \$2,200 per annum.

Which was referred to the Construction or Executive Committee.

The Chief Engineer also presented Report No. 599, dated June 1, 1903, which was withdrawn.

The Chief Engineer also presented Report No. 600, dated June 1, 1903, transmitting copy of a letter addressed to him by Williams & Gerstle, contractors, Muscott Dam, dated May 14, 1903, complaining of the methods of Division Engineer Wegmann, stating that he had transmitted a copy thereof to Mr. Wegmann, and also transmitting a copy of his reply, dated May 22, 1903.

Which was ordered filed.  
The Chief Engineer also presented the following report:

REPORT No. 603. NEW YORK, JUNE 1, 1903.

The Aqueduct Commissioners:

GENTLEMEN—At your meeting of May 15, 1903, you passed the following resolution: "Resolved, That in the opinion of the Aqueduct Commissioners, it is advisable to contract with the New York Central and Hudson River Railroad Company, lessor of the New York and Putnam Railroad, on the terms mentioned in Report No. 571, for the sum of \$3,500, and that the Chief Engineer be requested to obtain the form of contract proposed by said railroad company therefor."

This refers to the construction of a bridge (a plan of which is on file in this office), through which a 48-inch pipe can be laid under the railroad tracks. The pipe is to act as a blow-off from gate house No. 2 of Jerome Park Reservoir.

In conversation with Mr. H. Fernstrom, Chief Engineer of the New York Central and Hudson River Railroad, I learn that the railroad company do not consider it necessary to make any contract for doing the work above mentioned, and that they will accept your order for the same. They desire, however, that the Aqueduct Commissioners should make application to them for permission to carry the pipe under their right of way, which being granted, the Commissioners might then write to the railroad company, accepting their offer of \$3,500 for constructing the bridge, as per letter of Mr. Fernstrom, April 20, 1903.

Yours respectfully,  
W. R. HILL, Chief Engineer.

The report was ordered filed and the President was requested to communicate with the railroad company on the line suggested therein.

The Chief Engineer also presented the following report:

REPORT No. 604. NEW YORK, JUNE 1, 1903.

To the Aqueduct Commissioners:

GENTLEMEN—I herewith transmit to you Report No. 4 of Professors Kemp and Stevenson, dated May 28, 1903, upon the character of the material underlying the base of the core wall of the southerly end of the New Croton Dam that was removed to be replaced by the extension of the main stone dam.

Yours respectfully,  
W. R. HILL, Chief Engineer.

Which was referred to the Chief Engineer and Professor William H. Burr, Expert Engineer, for their information.

The Chief Engineer also presented Report No. 605, dated June 1, 1903, recommending the appointment of Michael R. Ryan as Inspector of Masonry, at a salary of \$4.50 per day.

The report was ordered filed, and in connection therewith the following resolution was offered:

Resolved, That, upon the recommendation of the Chief Engineer, Michael R. Ryan be and hereby is appointed as an Inspector of Masonry, at a salary of \$4.50 per day, his compensation to commence when he is assigned to duty by the Chief Engineer.

Which was adopted by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The Chief Engineer also presented Report No. 606, dated June 1, 1903, requesting authority to ask for proposals for furnishing one 20-inch, one 36-inch and five 48-inch valves and necessary connecting castings for the Jerome Park Reservoir.

The report was ordered filed and the authority asked for by the Chief Engineer was granted.

The Chief Engineer also presented the following report:

REPORT No. 607.

June 1, 1903.

To the Aqueduct Commissioners:

GENTLEMEN—I herewith return to you my Report No. 590, dated May 25, 1903, concerning the claim of the New York Central and Hudson River Railroad Company, due to the impounding of the water behind the New Croton Dam, which you referred back to me at your meeting of May 26, 1903, for a report on the prices of the work necessary to be done. In regard thereto, I beg to submit the following comparison of the prices asked by the railroad company and the prices we are now paying for work under contract:

The price asked for earth excavation is \$0.35 per cubic yard. For this class of work the Commissioners are paying for the aqueduct north of Jerome Park Reservoir \$0.312; for the New Croton Dam, \$0.695; for the Muscoot Dam, \$0.30, and for highways, \$0.28.

Of the above, except the New Croton Dam, the railroad work is more or less expensive and difficult on account of interference by train service.

The price asked for earth embankment is \$0.35 per cubic yard. The price of this work is governed principally by the cost of earth excavation and the long distance the material must be hauled. The quantity of embankment estimated does not include that taken from a necessary excavation. I consider the price reasonable.

The price asked for rock excavation is \$1.75 per cubic yard. For this class of work the Commissioners are paying for the aqueduct north of Jerome Park Reservoir \$1.86; for the New Croton Dam, \$2.22; for the Muscoot Dam, \$1.10, and for highways, \$1.50.

The price asked for loose rock excavation is \$0.75 per cubic yard. There is no such item of work under contract, but from my experience I believe the price to be reasonable.

The price asked for paving is \$3.00 per cubic yard. For this class of work the Commissioners are now paying for the New Croton Dam, \$3.031; for the Muscoot Dam \$1.95.

The price asked for ballast is \$0.75 per cubic yard. There is no similar item of work under contract; the price, however, is reasonable.

The price asked for first-class masonry is \$11 per cubic yard. There is no work under contract thus classified. However, it is similar to the facing-stone masonry of the New Croton Dam for which the Commissioners pay \$16.185, or to the pier and abutment masonry for highways for which we pay \$12.

The price asked for rubble stone masonry is \$6 per cubic yard. For this class of work the Commissioners are paying for Jerome Park Reservoir, \$4.445; for New Croton Dam, \$5.546; for Muscoot Dam, \$3.50; for highways, \$5.50. The price, \$6 per cubic yard, is seemingly high, but I believe it to be reasonable, considering the difficulties of building masonry under railroad tracks while the train service is maintained.

The price asked for cut-stone masonry is \$40 per cubic yard. For this class of work the Commissioners are paying for Jerome Park Reservoir \$36.125; for the New Croton Dam, \$39.89; for the Muscoot Dam, \$22; for highways, \$35. But 13 cubic yards of cut-stone masonry will be required, hence the price would necessarily be higher for such a small quantity.

The price for concrete masonry is \$7 per cubic yard. For concrete the Commissioners are now paying for Jerome Park Reservoir \$5.262; for the New Croton Dam, \$6.774; for highways, \$7.50.

The price asked for dimension-stone masonry is \$30 per cubic yard. For this class of work the Commissioners are paying for Jerome Park Reservoir \$36.125; for the New Croton Dam, \$39.89; for Muscoot Dam, \$22, and for highways, \$35.

The price asked for ashlar masonry is \$11 per cubic yard. This item is for the abutments of the bridge on the New York and Putnam Railroad over Croton lake. There is no price for similar work under contract. I believe the price to be reasonable.

The price asked for brick masonry is \$12 per cubic yard. For this class of work the Commissioners are paying for Jerome Park Reservoir \$10.625; for the New Croton Dam, \$11.148; for Muscoot Dam, \$9.50, and for highways, \$12. But 62 cubic yards of brick masonry will be required.

The price asked for piling is \$0.35 per linear foot. For this class of work the Commissioners are paying for the Muscoot Dam \$0.15 and for highways \$0.50.

The price for 900 tons bridge superstructure is \$100 per ton. With the American Bridge Company we have a contract based on \$120 per ton.

There are no similar items of work under contract to cover the remaining items of the estimate, which are for raising a station building, raising four railroad bridges, supporting the approaching tracks while the bridges are being raised, laying, raising and resurfacing tracks, for track material and fences. I have examined the prices of these and I believe them to be reasonable.

Ten per cent. upon the cost of all the above work and material is added to cover engineering expenses and contingencies, which is usual in such cases.

Yours respectfully,

W. R. HILL, Chief Engineer.

In connection therewith the Commissioners also had under consideration the following report of the Chief Engineer:

REPORT No. 590.

May 25, 1903.

To the Aqueduct Commissioners:

GENTLEMEN—At your meeting of May 5, after your conference with Mr. W. J. Wilgus, Fifth Vice-President, and Messrs. Ira A. Place and Robert L. Luce, Counsel, New York Central and Hudson River Railroad Company, I was authorized to confer with the officials of the company in regard to the increased claim for the cost of certain changes in the railroad system affected by the filling of the New Croton Reservoir and directed to report thereon. At that time I was handed by Mr. Wilgus the accompanying tables referring to the estimated increased cost of reconstruction. I have examined these tables and found the computation to be correct with the exception of certain slight inaccuracies, amounting in all to \$3.96 excess in favor of the railroad company; these are noted in pencil on the tables herewith returned.

I give below a synopsis of the tables, showing a comparison of the prices for the different items of work and material previously submitted and those now asked for by the railroad company:

I have conferred, as authorized, with Messrs. W. J. Wilgus, Fifth Vice-President; H. Fernstrom, Chief Engineer, and Robert L. Luce, counsel, in relation to the increase of \$63,031.90 over the original claim of \$364,992.85, as stated in the letter of Mr. Ira A. Place, general attorney, to President William H. Ten Eyck, dated April 24, 1903. This makes the present claim of the road amount to \$428,024.75. Messrs. Wilgus and Fernstrom state that they cannot modify this proposed increase, and contend that it is fully justified by the difference in cost of labor and materials since their original proposition was made.

I am of the opinion that the prices of the original estimate were low and that those at present submitted are reasonable and fair.

In the original claim there is a special charge of \$45,000 on which no increase is asked. This was to cover, among other items, the extra cost of labor and materials. In my interview with Mr. Luce, on my inquiry as regards this item, he stated that it does not include increased prices of labor and material in the present claim. Declining to give me details, he informed me that it represented the expense to the road for extra watching, renewal of slope walls every 30 years, extra painting of bridges every three years, also installing and maintaining electric signals for train protection at the new bridge. He stated that the estimate of Mr. Harding, the engineer of maintenance of way of the railroad company, showed that the cost to the road for the above, represented by the capital set aside at 5 per cent. interest, would be \$110,536, instead of the \$45,000 asked for.

In regard to the cost of land, \$4,162.75, that of course does not change.

In view of all the above I would report that I consider the claim of the New York Central and Hudson River Railroad for \$428,024.75 both reasonable and fair.

Yours respectfully,

W. R. HILL, Chief Engineer.

Whereupon, after discussion, the reports were referred to the Construction or Executive Committee.

Which was adopted.

The President verbally stated that on June 3, 1903, he had transmitted to the Mayor the following report of the Chief Engineer in regard to the work done on the New Croton Dam:

NEW YORK, June 3, 1903.

Hon. WILLIAM H. TEN EYCK, President, Aqueduct Commission:

DEAR SIR—In regard to the work done on the New Croton Dam for the week ending Friday, May 29, I would report as follows:

The river flow was low during the week.

Rock excavation continued as usual in the lower spillway channel slope.

Rock excavation also continued in the bottom of the proposed dam extension, where the cut has been somewhat deepened, and excavation still continues from the end of the main dam to Station 2-|-80 on the downstream side of the core-wall. South of Station 2-|-80, work of excavation of the remaining parts of the core-wall was in progress and some work of deepening the bottom cut in the rock to Station 1-|-50 has been done. The work of widening the cut to the proposed toe line also progressed between these stations. From Station 1-|-50 toward Gatehouse No. 1, the steam shovel worked in the rock cut until Wednesday, May 27, when it was stopped temporarily until preparations are completed for it to start in along the lower side of the dam foundation cut, in order to excavate a cut which will enable it to lower the bottom between Station 1-|-50 and Gatehouse No. 1 to elevation 65±.

A test adit or tunnel was started on Sunday, May 23, in the face of the slope below Gatehouse No. 1. A depth of about 24 feet has been reached and the rock shows more or less hard, but very seamy and blocky in the heading.

Earth excavation has continued on the upstream side in widening the deep cut between about Stations 2-|-75± and 5±, and on the slopes above, and on the downstream side it has been confined chiefly to the slopes above the bed rock. Station 2-|-75± to 3-|-50±, and to the necessary cut for the new track bed for the steam shovel.

Some work has been done flattening the slopes of the aqueduct cut immediately below Gatehouse No. 1.

Masonry work has continued with three gangs as follows:

One gang on north abutment.

One gang on spillway, 150 to 200 right, and on Gatehouse No. 2.

One gang on main dam, Station 9-|-25, to 9-|-70.

Pointing work has continued on main dam and spillway.

The Chief Engineer presented Report No. 610, dated June 4, 1903, requesting that the Municipal Civil Service Commission be requested to furnish a list from which one Clerk, eighth grade, could be appointed, at a salary of \$1,800 per annum.

The report was ordered filed and the Secretary was directed to obtain the list desired.

The Chief Engineer also presented the following report:

REPORT No. 611. NEW YORK, June 4, 1903.

To the Aqueduct Commissioners:

GENTLEMEN—In accordance with the authority granted me at your meeting of May 22 to ask for proposals for certain drilling work to be done at the New Croton Dam, the cost of which to be under \$5,000, I would state that I requested bids from four firms. In answer thereto two of the firms stated that they could not undertake the work at the present time, and the remaining two made proposals for doing the work, copies of which I transmit herewith.

The Preslar-Crawley Manufacturing Company of Cincinnati, Ohio, state in their proposal that they may be obliged under certain conditions to diminish the diameter of the hole drilled, from 8 inches (the size required) to 6 inches. This would be unsatisfactory and would not answer the requirements.

The bid of Mr. Roy S. Barker, on the other hand, is a straightforward proposition, not containing any uncertain conditions, and I recommend that I be authorized to order the work done by Mr. Barker, and that payment be made to him on the completion of each hole drilled.

Yours respectfully,  
W. R. HILL, Chief Engineer.

The report was ordered filed, and in connection therewith the following resolution was offered:

Resolved, That the recommendation contained in Report No. 611 of the Chief Engineer be and hereby is approved, and he is hereby authorized to order the work of drilling certain test holes at the New Croton Dam done by Roy S. Barker, at the proposition submitted by him under date of June 1, 1903, as set forth in said report; provided, however, that the expense thereof shall not, in any event, exceed the sum of \$5,000.

Which was adopted by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

A communication was received from the Mayor, dated June 2, 1903, requesting a statement of the things that need to be done in order to complete the work of the Aqueduct Commission, etc.

Which was referred to the Chief Engineer for report, and the President was requested to acknowledge its receipt.

A communication was received from H. T. Dykman, dated at White Plains, N. Y., June 3, 1903, stating that The City of New York was vested with the title to a strip of land owned by the New York Central and Hudson River Railroad Company and the Harlem Railroad Company, in the town of Lewisboro, required for the change of highway system near Main street.

Which was referred to the Chief Engineer.

A communication was received from Ira A. Place, General Attorney of the New York Central and Hudson River Railroad Company, dated June 3, 1903, referring to a previous communication of April 24, 1903, and to the conference had with the Aqueduct Commissioners on May 5, 1903, in relation to the claims of said railroad company for damages due to the construction of the New Croton Dam Reservoir, and referring to certain bids received by said railroad company in connection with the removal of its tracks from within the limits of said reservoir.

Whereupon, after discussion, the letter was referred to the Chief Engineer.

A communication was received from G. L. Duval, Chairman, Committee on Revision of City Records and Accounts, and Water Supply, The Merchants' Association of New York, dated June 3, 1903, in reference to the meetings of the Commissioners and of the public hearing to be held on Tuesday, June 9, 1903.

Which was referred to the President for reply.

The Commissioners then adjourned.

HARRY W. WALKER, Secretary.

BOARD OF ESTIMATE AND APPORTIONMENT.

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by

Changing the lines of White Plains road, between Morris Park avenue and West Farms road, and by laying out Unionport road, from White Plains road to West Farms road, —in the Borough of The Bronx, City of New York, and that a meeting of said Board will be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 8th day of July, 1903, at 10.30 o'clock a. m., at which such proposed change will be considered by said Board, all of which is more particularly set forth and described in the following resolutions, adopted by the Board on the 12th day of June, 1903, notice of the adoption of which is hereby given, viz: Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the lines of White Plains road, between Morris Park avenue and West Farms road, and by laying out Unionport road, from White Plains road to West Farms road, in the Borough of The Bronx, City of New York, more particularly described as follows: This change consists in excluding from the land formerly required for White Plains road, the portions between White Plains road and Unionport road, as hereafter described, and also the portion lying northerly of Unionport road, as hereafter described, between West Farms road and White Plains road.

Beginning at the intersection of Pomeroy street and Broadway, elevation to be 53.00 feet as heretofore, thence northerly 400 feet, the elevation to be 61.00 feet, thence northerly 200 feet, the elevation to be 62.00 feet, thence to the intersection of Pomeroy street and Jamaica avenue, the elevation to be 57.00 feet.

JAMAICA AVENUE. Beginning at the intersection of Blackwell street and Jamaica avenue, the elevation to be 49.65 feet, as heretofore, thence easterly to the intersection of Jamaica avenue and Pomeroy street, the elevation to be 57.00 feet, thence easterly to the intersection of Kowenhoven street and Jamaica avenue, the elevation to be 63.72 feet as heretofore.

The change in lines of White Plains road consists in laying out White Plains road 100 feet in width from West Farms road to Unionport road, the northern line of the present road, (to be parallel and 100 feet north of the southern line of White Plains road, as formerly laid out), and to extend from West Farms road to a point about 200 feet southeast of Jackson avenue, to extend thence northeasterly 11.809 feet parallel to Jackson avenue to the southern line of Unionport road as now in use.

The laying out of Unionport road consists in retaining the southern line of said road (as now laid out) from White Plains road to West Farms road, and to laying out the northern line of Unionport road 60 feet north and parallel to the western portion of said road, and extending said northern line in both directions and in a straight line from White Plains road to West Farms road.

This change discontinues and excludes from the former White Plains road a triangular plot between White Plains road, and also a strip of land about 55 feet in width and about 570 feet in length, lying north of Unionport road, from White Plains road to West Farms road, an area of about 21 city lots.

Resolved, That the President of the Borough of The Bronx cause to be prepared for submission to this Board three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed changes and the location of the immediate adjacent or of intersecting open or established streets, roads, squares or places sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed changes at a meeting of this Board, to be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 8th day of July, 1903, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed changes will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the "City Record" for ten days continuously, Sundays and legal holidays excepted, prior to the 8th day of July, 1903.

S. WILLIAM BRISCOE, Secretary.

BOARD OF ALDERMEN.

AN ORDINANCE GRANTING TO THE Erie Railroad Company the right or franchise to construct and operate a railroad in and upon Thirteenth avenue and the marginal wharf or way lying between Thirteenth avenue and the waters of the Hudson river, between Twenty-seventh and Twenty-ninth streets, in the Borough of Manhattan, City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen of The City of New York hereby grants to the Erie Railroad Company, subject to the conditions and provisions hereinafter set forth, the franchise, right and privilege to construct and operate a double-track surface railroad, with a single switch connecting the two tracks, to be operated by steam locomotives or other motive power which may be lawfully employed, except horses or the overhead system of electricity, across Thirteenth avenue and the marginal wharf or way extending from the westerly side of Thirteenth avenue to the waters of the Hudson river, between Twenty-seventh and Twenty-ninth streets, in the Borough of Manhattan, City, County and State of New York.

Sec. 2. The grant of this franchise is subject to the following conditions:

First—This ordinance as to the marginal wharf which extends from the westerly line of Thirteenth avenue to the waters of the Hudson river shall not be operative and no rights thereunder shall vest in the grantee, its successors or assigns until the Commissioner of Dock, under the provisions of section 819 of the Charter of The City of New York, shall approve by resolution, license or otherwise, the use of such marginal wharf by the grantee in the manner herein provided, or in such other manner as he may prescribe, not inconsistent with the terms of this ordinance.

Second—The said right, privilege and franchise to construct and operate such railroad shall be held and enjoyed by the grantee, its successors or assigns, for the term of twenty-five years from the date when this ordinance is signed by the Mayor, unless sooner terminated as hereinafter provided, with the privilege of renewal of the grant for a further period of twenty-five years, upon a fair revaluation of said right, privilege and franchise, but such renewal shall not provide for any further renewal. Such revaluation shall be of the right, privilege and franchise to maintain and operate said railroad by itself, and is not to include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successors or assigns. It shall be made in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successor in authority; one disinterested freeholder shall be chosen by the railroad company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railroad company. The valuation so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last five years of the original franchise.

Provided, however, and this grant is upon the express condition that the right, privilege and franchise conferred by this ordinance may be cancelled and annulled upon one year's notice in writing to the grantee, its successors and assigns, by the joint act of the Commissioner of Docks of The City of New York and of the Board of Estimate and Apportionment, or their respective successors in authority, and thereupon all the rights of the grantee, its successors or assigns in and upon the street and marginal wharf or way aforesaid shall cease, and the railroad and its structures thereon shall be forthwith removed and the pavement of the street or wharf restored under the same conditions and covenants as are contained in the following paragraph of this section, designated third:

Third—Upon the termination of such franchise, right or privilege, whether original or by way of renewal, the plant and property, with its appurtenances, of the Erie Railroad Company, its successors or assigns, in the street and upon the marginal wharf or way aforesaid, shall be forthwith removed by the grantee, its successors or assigns, and the surface of the said street or marginal wharf or way upon which such railroad was laid shall be restored to a condition equal to that of the surrounding surface and pavement of such street and wharf. In default of the performance of this condition by the grantee, its successors or assigns, the proper legal authorities may cause such property and plant to be removed from the street and wharf aforesaid and the surface thereof to be restored in the manner above described at the expense of the grantee, its successors or assigns, and such expense shall be recovered by The City of New York by action or otherwise.

Fourth—The grantee, its successors or assigns shall pay for this franchise to The City of New York the following sums of money:

During the first term of five years the annual sum of \$675.

During the second term of five years the annual sum of \$700.

During the third term of five years the annual sum of \$725.

During the fourth term of five years the annual sum of \$750.

During the fifth term of five years the annual sum of \$800.

Such sums shall be paid into the Treasury of The City of New York on November 1 in each year.

Fifth—The rights and franchises granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Erie Railroad Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Sixth—The said railroad may be operated by locomotive steam power or by any other motive power which may be approved by the Board of Railroad Commissioners in accordance with the provisions of the Railroad Law, excepting overhead electrical power and horse power, provided, however, that the locomotive steam engines used shall be housed or boxed so as to conform to the type commonly known as the dummy engine.

The number of cars to be included in any train operated upon the railroad shall be limited to ten, and the speed of the engines and cars shall never exceed six miles per hour. No car or engine shall be permitted to remain stationary within the limits of Thirtieth avenue, or upon the marginal wharf or street at any time.

Seventh—The railroad constructed under this ordinance shall be maintained and operated solely for the purpose of the transportation of goods, wares and merchandise and for no other purpose, and especially for no purpose in connection with the passenger traffic as commonly understood.

Eighth—Such railroad shall be constructed and operated in the latest improved manner of street railroad construction and operation, and solely upon the terms and according to the lines and surveys and of the character of the rails and other parts of the construction approved by the Commissioner of Docks of The City of New York and the President of the Borough of Manhattan. Such railroad of the grantee, its successors or assigns shall be maintained in good condition throughout the term of this grant.

Ninth—Said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York, and especially shall in all respects be subject to the power and authority of the Commissioner of Docks to regulate and control the uses of the marginal wharf or way above described, and the transportation of property thereon.

Tenth—The grantee, its successors or assigns, shall at all times keep the distance between the tracks, and for a distance of two feet beyond the rails on either side thereof, free and clear from ice and snow.

Eleventh—The grantee, its successors or assigns, shall keep in permanent repair the portion of the surface of the street and of the marginal wharf or way between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
