## BOARD OF EXAMINERS.

JUNE 21, 1904.

Present—Messrs. Walter Cook, Warren A. Conover, William C. Smith, Charles G. Smith, Edward F. Croker, Charles Brendon and William J. Fryer (Chairman).

Meeting called to order at 2 P. M.

On motion, minutes approved as read.

Mr. Charles G. Smith announced that he had been reappointed as representative of the New York Board of Fire Underwriters.

Appeal 61-96 N. B. of 1904, premises, West Eighth street, Thirty-first Ward, Coney Island.

On motion, laid over until plans are submitted.

Appeal 78-2911 N. B. of 1904, premises, south side of Third street, 285 feet east of Third avenue, Brooklyn, George Haiss Manufacturing Company, appellant.

Application denied on account of being a frame building within the fire limits.

The Code makes no direct provisions for such structures, the nearest reference thereto being for grain elevators on tide-water or adjacent to the river front.

That the rules and regulations of the President of the Borough and the provisions of the law do not apply.

That the provisions of the Code may be so modified as to allow the erection of this, practically one story, heavily timbered coal pocket.

The location of this pocket is in a place wholly devoted to similar uses and is isolated from any residences.

That it is located in close proximity to Gowanus canal an artificial waterway, constructed for the sole purpose of commerce and manufacture, and that it is designed for the expeditious handling of the coarse and heavy freights, such as coal, lime, cement, brick, stone and lumber.

That the construction of other than wood coal pockets is practically prohibitive, and this fact taken into consideration, that competition is sharp and keen from adjacent cities where there are no restrictions, and that coal is handled at a close margin, makes it important to grant this permit.

On motion, laid over for one week, pending appearance of appellant.

Adjourned.

THOMAS F. DONOHUE, Clerk.

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution, adopted by the Board of Estimate and Apportionment May 13, 1904, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding six hundred and forty thousand dollars (\$640,000), to provide means for expenses in connection with the construction of the new Fordham Hospital at the junction of Crotona avenue and Southern Boulevard, Borough of The Bronx, and the acquisition of land therefor, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding six hundred and forty thousand dollars (\$640,000), the proceeds whereof to be applied to the purposes aforesaid."

Received, in the Board of Aldermen, May 17, 1904, and referred to the Committee on Finance, June 14, 1904, by said Committee reported to the Board and laid over under the rule.

June 29, 1904, the Board of Aldermen having failed to pass upon the proposition within six weeks after the same was received, either by an affirmative vote or by a failure of a majority of all the members of the Board of Aldermen to vote against the same, therefore, in accordance with the provisions of section 48 of the amended Greater New York Charter, the proposition is deemed to be passed.

Dated June 29, 1904.

#### BOARD OF ALDERMEN.

AN ORDINANCE GRANTING TO THE NEW YORK, WESTCHESTER AND BOSTON RAILWAY COMPANY THE RIGHT TO CROSS CERTAIN STREETS AND HIGHWAYS AND TO CONSTRUCT AND OPERATE A FOUR-TRACK RAILWAY ABOVE OR BELOW SAID STREETS OR HIGHWAYS OF THE CITY OF NEW YORK.

BE IT ORDAINED BY THE BOARD OF ALDERMEN OF THE CITY OF NEW YORK, AS FOLLOWS:

Section 1. The Board of Aldermen of The City of New York hereby grants to the New York, Westchester and Boston Railway Company, subject to the conditions and provisions hereinafter set forth, the right to cross certain streets and highways and the privilege to construct and operate a four-track railway, with all connections, turnouts, switches and cross-overs necessary for the accommodation and operation of said railway, by means of electricity, except the overhead trolley system, or by any other mechanical motive power which may be lawfully employed upon the same, except steam locomotive power; in, upon and across the following-named streets, avenues, parkways, highways and public places, and upon the following route, all situated in the Borough of The Bronx, City, County and State of New York, namely:

First—Main Line: Beginning at a point on the main line of the New York, Westchester and Boston Railway at or near One Hundred and Eightieth street and running southerly, crossing One Hundred and Eightieth street, Lebanon street, West Farms road, One Hundred and Seventy-eighth street and One Hundred and Seventy-seventh street, between Morris Park avenue and Bronx Park avenue (with a curved connection also joining the main line near One Hundred and Seventy-seventh street which crosses One Hundred and Seventy-seventh street and Bronx Park avenue at or near their intersection); then crossing the New York, New Haven and Hartford Railroad and running southerly crossing Westchester avenue; thence running southerly, crossing the Clason Point road near Clason's Point and running substantially parallel with the United States bulkhead-lines, in the vicinity of Clason's Point; thence crossing Pugsley's creek and Westchester creek and Laxter creek, and thence running easterly along Throggs Neck and crossing Throggs Neck road with a terminal near the lines of the United States Reservation property. All as shown on a map entitled "Map and Profile of the Amended Route of the New York, Westchester and Boston Railway Company, Section 1," adopted by the Board of Directors of said company on the twentieth day of May, 1904, and signed by Wm. L. Bull, President; John Bogart, Engineer, and H. C. Winchester, Secretary, under seal, and "Map and Profile of the Amended Route of the New York, Westchester and Boston Railway Company, Section 2," adopted by the Board of Directors of said company on the seventh day of April, 1904, and signed by Wm. L. Bull, President; John Bogart, Engineer, and Thomas W. Baker, Secretary, under seal, and which maps and profiles were filed in the office of the County Clerk of the City and County of New York on the 23d day of June, 1904, or any lawful amendment thereof consented to by the Board of Estimate and Apportionment.

Second—Branch Line: Beginning at a point on the main line of the New York, Westchester and Boston Railway at or near One Hundred and Eightieth street and running southerly, crossing One Hundred and Eightieth street, Lebanon street, West Farms road, One Hundred and Seventy-eighth street and One Hundred and Seventy-seventh street, between Morris Park avenue and Bronx Park avenue (with a curved connection also joining the main line near One Hundred and Seventy-seventh street which crosses One Hundred and Seventy-seventh street and Bronx Park avenue at or near their intersection); then crossing the New York, New Haven and Hartford Railroad and running southerly crossing Westchester avenue; thence running southerly, crossing the Clason Point road near Clason's Point and running substantially parallel with the United States bulkhead-lines, in the vicinity of Clason's Point; thence crossing Pugsley's creek and Westchester creek and Laxter creek, and thence running easterly along Throggs Neck and crossing Throggs Neck road with a terminal near the lines of the United States Reservation property. All as shown on a map entitled "Map and Profile of the Amended Route of the New York, Westchester and Boston Railway Company, Section 3," adopted by the Board of Directors of said company on the 5th day of May, 1904, and signed by Wm. L. Bull, President; John Bogart, Engineer, and H. C. Winchester, Secretary, under seal, and which maps and profiles were filed in the office of the County Clerk of the City and County of New York on the 23d day of June, 1904, or any lawful amendment thereof consented to by the Board of Estimate and Apportionment.

Third—General: And such other streets, avenues, highways, public places, etc. (named and unnamed), as may be hereafter opened or encountered in such routes or amended routes; and also such other streets, avenues, highways, public places, etc. (named and unnamed), now open or in use, or as may be hereafter opened or put in use, which it may be necessary for said railway to cross in order to make connections with any other railway within one thousand (1,000) feet of said routes; provided that the Board of Estimate and Apportionment shall first have given permission for such connection or connections,

and provided further that such connections shall be limited to two in number.

Sec. 2. The grant of this privilege is subject to the following conditions:

First—The provisions of section 6 of the Railroad Law shall be fully complied with, and in addition to the maps required to be filed with the Railroad Commissioners, it shall be incumbent upon the grantee to file with the Comptroller of The City of New York, and also with the President of the Borough of The Bronx, a map or maps showing the number of tracks and the length and direction of each crossing of all streets legally open, in use, or for which proceedings have been initiated to open, accurately determined by measurements to be taken after the commencement of the operation of any portion of the railway.

Second—The said right to cross the streets and the privilege to construct and operate said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years from the date when this ordinance is approved by the Mayor, with the privilege of renewal of said grant for a further period of twenty-five years upon a fair revaluation of said right and privilege. Such revaluation shall be of the right and privilege to maintain and operate said railway across the said streets by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successor or assigns.

If the railway company shall determine to exercise its privilege of renewal, it shall make application to the Board of Estimate and Apportionment of The City of New York, or any authority which shall be authorized by law to act for the City in place of the said Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this grant. The determination of the revaluation shall be sufficient, if agreed to in writing by the railway company and the Board of Estimate and Apportionment or such other authority in its place. If the railway company and the Board, or such other authority in its place for the City, shall not reach such agreement on or before the day one year before the expiration of the original term of this grant, then the annual rate of compensation for such succeeding twenty-five years shall be reasonable; and either the City (by the Board, or such other authority in its place) or the railway company shall be bound upon request of the other to enter into a written agreement with such other authority fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successors in authority; one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder; and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railway company. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last year of the original grant. If in any case the annual rate shall not be fixed prior to the termination of the original term of this grant, then the railway company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate.

Third—Upon the termination of this grant, whether original or renewal, all rights and privileges hereby granted to cross the said street shall cease and determine, unless the said railway company, its successor or assigns, shall have previously procured a new grant for the same from The City of New York.

Fourth—The New York, Westchester and Boston Railway Company, its successor or assigns, shall pay for this privilege to The City of New York the following sums of money: During the first ten years, commencing upon the day when this ordinance shall be approved by the Mayor, an annual sum of eight thousand (\$8,000) dollars, and during the succeeding fifteen years an annual sum of sixteen thousand (\$16,000) dollars. From the date of the commencement of the operation of any portion of the railway until the end of the first ten years of this grant, an additional sum of forty (40) cents per linear foot per annum for each line of single track railway within the lines of all streets in use, legally opened streets, or streets for which proceedings to open have been initiated, and for the succeeding fifteen years an additional sum of eighty (80) cents per linear foot per annum, in lieu of said sum of forty (40) cents. Such payments shall likewise apply to all streets hereafter opened during the terms of this grant, unless the land required for the opening of such street across the right of way of the railway company shall have been ceded free of cost to The City of New York. All such payments shall be made to the Comptroller of The City in equal payments at the end of each quarter year on the 1st day of January, April, July and October in each year. The terms hereafter to be fixed for any renewal term of this grant shall not in any event be less than the minimum amount fixed as the sum to be paid annually during the last year of the original grant, and no renewal of such grant shall provide for a further renewal.

Fifth—The said annual charge or payment shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any other railway company providing for payments for railway rights or franchises at a different rate, and no assignment, lease or sub-lease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sub-lease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payment, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mort-

gagee or mere lienor, but shall apply to any purchaser upon foreclosure or under or by virtue of any provision of a mortgage or lien.

Sixth—The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sub-let in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the New York, Westchester and Boston Railway Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage, but shall apply to a sale under foreclosure.

Seventh—No street shall be crossed by the railway at grade, and all streets now open or in use, or streets hereafter opened crossing the line of said railway shall be carried over or under said railway by the grantee, at the sole cost and expense of the grantee. The costs of all approaches to said crossings and any damages to property incurred by such change of grade shall likewise be borne and paid by the grantee.

Eighth—All viaducts over streets and all tunnels under streets and all bridges necessary to carry the streets over an open cut, shall be constructed at the expense of the grantee, and in such manner as shall not interfere with the ordinary use of the street as a public highway. All viaducts over streets shall have a height of at least sixteen feet in the clear throughout, and in the case of arch construction not less than sixteen feet in the clear at the centre and ten feet in the clear on the building or side line of said street. In the case of tunnel construction under a street, there shall be at least four feet between the grade of the street and the exterior surface of the arch of said tunnel.

Ninth—Any superstructure of the railway crossing a street and having a length of seventy-five (75) feet or less, shall be constructed in a single span; if more than seventy-five (75) feet in length, intermediate columns to support the structure may be placed in the street in such manner as may be approved. The width of such superstructure of the railway shall not exceed sixty (60) feet when measured over all.

Tenth—The plans for all structures over or under any street must first be submitted to and approved by the Board of Estimate and Apportionment, and all such structures shall be constructed of either steel, concrete or masonry, or a combination of these materials.

Eleventh—The railway shall be constructed in the most modern and approved manner of railway construction. The roadbed shall be ballasted throughout its entire length within the limits of The City of New York, with a sufficient quantity of either blast furnace slag or broken trap rock of a hard and durable quality, and no dirt, sand, gravel or cinders shall be used in such ballast.

Twelfth—The roadbed within the limits of The City of New York shall be watered daily whenever the thermometer is above 35 degrees Fahrenheit. For any failure to comply herewith, the railway company shall be liable for a penalty of fifty dollars (\$50) per day.

Thirteenth—The entire right of way of the company within the City limits shall be fenced throughout.

Fourteenth—All abutments or foundations for bridges, viaducts and stations and the stations proper, except intermediate supports for viaducts, as hereinbefore provided, shall be placed on the land of the company. There shall be constructed along the line of the route of the main line of the railway as proposed, for the accommodation of local passenger traffic, at least six (6) stations between the Harlem river and the Bronx river, and at least four (4) stations between the Bronx river and the northerly line of The City of New York as now fixed; provided, however, that if the railway is constructed only as far south as the intersection of the Southern Boulevard and Westchester avenue, then there shall be at least three (3) stations west of the Bronx river. On the branch line there shall be constructed at least three (3) stations east of Westchester avenue.

Fifteenth—The said railway may be operated by electrical power, except the overhead trolley system, or by any other mechanical motive power which may be lawfully employed upon the same, except locomotive steam power; provided, however, that steam locomotive power may be used for switching and shunting trains when specifically authorized by the Board of Estimate and Apportionment; such permission to continue only during the pleasure of the said Board.

Sixteenth—No wires for the transmission of power shall be permitted except they be placed in conduits, and in any conduits laid by the company for the transmission of power for its own use, provision shall be made to carry three (3) cables for the use of the police, fire and ambulance service of the City without charge therefor.

Seventeenth—The railway company shall not carry power along its structure for any purpose except the operation of its railway, except as provided above.

Eighteenth—The railway company shall operate a train schedule on the main line of at least sixty (60) trains in either direction daily, stopping at all of the stations within the City limits, and at no time either day or night shall there be greater headway between such trains than thirty (30) minutes; provided, however, that said railway company during the first five years after the commencement of the operation of any portion of the railway shall not be required to operate its trains within the City limits between the hours of 1 o'clock and 4 o'clock A. M., each day, unless the Board of Estimate and Apportionment shall determine, after a hearing had thereon, that public convenience requires the operation of its cars during such hours.

Nineteenth—All cars on said railway shall be heated during the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and any failure to keep the temperature of any of the cars of the company liable for a penalty of fifty (50) dollars per car per day for each offense.

Twentieth—All cars operated by the company shall be vestibuled and the system of lighting same shall be adequate and be made satisfactory to the Board of Estimate and Apportionment.

Twenty-first—During the first twenty-five (25) years of this grant the rate of fare upon said railway within the limits of The City of New York as now fixed shall not exceed five (5) cents for any passenger. The said company shall not charge any passenger more than such sum for one continuous ride from any point on said railway or a line or branch operated in connection therewith and controlled by it

senger within the City limits, as they may then be constituted, shall not exceed five (5) cents. The rates for the carrying of property upon the routes of the grantee within the limits of The City of New York shall in all cases be reasonable in amount and shall be subject to the control of the Board of Estimate and Apportionment, or its successor in authority, and may be fixed by such Board after notice and hearing to the grantee, and when so fixed such rate shall be binding upon said grantee, its successor or assigns, and no greater sum shall be charged for such service than provided for by it.

Twenty-second—The said railway company shall carry free within the limits of The City of New York during the existence of this grant or its renewal, all letter carriers of the United States Government, and members of the Police and Fire Departments of The City of New York, when such employees are in full uniform.

Twenty-third—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of the City.

Sec. 3. In case of any violation or breach or failure to comply with any of the provisions herein contained this grant may be forfeited and avoided by The City of New York by a suit brought by the Corporation Counsel, provided, that in case of any such violation, breach or failure to comply with any of said provisions the said City shall cause notice in writing thereof to be served upon said company, and said company shall remedy such violation, breach or failure within ten (10) days thereafter, and in default thereof then, and not otherwise, said right of forfeiture shall accrue and may be enforced by the said City; provided, further, that if the said railway company, grantee hereunder, shall within said ten (10) days commence to remedy said violation, breach or failure and shall prosecute the work of completing such remedy with diligence and with the utmost practicable dispatch until the same shall be completed, then no right of forfeiture shall accrue.

Sec. 4. The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

Sec. 5. Said railway company shall commence actual construction within one year from the date of the signing of this ordinance by the Mayor, and shall complete a four-track railway upon the main line, from the northerly line of the City as far south as the intersection of the Southern Boulevard and Westchester avenue, within five years from such date, otherwise this grant shall cease and determine.

Said railway company shall expend the sum of at least one million dollars (\$1,000,000) for construction within the limits of The City of New York within two years from the date of the signing of this ordinance, which sum shall be exclusive of any monies expended for right of way.

A statement of the monies so expended for construction shall be submitted to the Comptroller of The City of New York, who shall, after investigation, report to the Board of Estimate and Apportionment his opinion as to whether such sums have been actually expended, and if in the opinion of the said Board the grantee has not proven an expenditure of the said sum within the time given, then said Board may declare that this grant has ceased and determined, and the said action of said Board shall be *prima facie* evidence of said forfeiture.

Any portion of the route covered by this grant which shall not be completed and in full operation within seven years from the date of the signing of this ordinance shall be deemed to have been abandoned, and all rights hereby granted in and to such portions of said railway shall cease and determine.

And in the event that the said railway company shall not, within the said seven years, construct its main line south of the intersection of the Southern Boulevard and Westchester avenue and to the Harlem river, the Board of Estimate and Apportionment, or its successors in office, may fix and finally determine such additional compensation as shall be imposed upon said railway company because of such failure.

A majority vote of the members of the Board of Estimate and Apportionment shall be *prima facie* evidence in regard to the forfeiture of any or all the rights under this grant, as provided for in this section. Before action is taken by the Board of Estimate and Apportionment, under the provisions of this section, the grantee shall have at least thirty (30) days' notice of the intention of said Board to take action, and at such time as is appointed, shall be allowed a hearing. In case any or all of the rights hereby granted are forfeited, it is a condition of this grant that all sums theretofore paid to The City of New York, together with the deposit of \$20,000 as provided for in section 14 of this ordinance, and all structures erected by said grantee, its successor or assigns, within the lines of any street, shall be forfeited to and become the property of The City of New York.

The Board of Estimate and Apportionment shall have power to extend the time provided for in this section for the completion of the railway and for the work to be performed and expenditure to be made, as above, for a period or periods not exceeding in the aggregate two years, but such extension shall not be made unless the reasons given by the grantee for non-fulfillment are, in the opinion of the Board of Estimate and Apportionment, for causes over which the grantee had no control and was in nowise responsible.

Sec. 6. The grantee shall assume all liability by reason of the construction and operation of the railway and the City shall assume no liability whatsoever to either persons or property by reason of its construction or operation.

As a condition of this grant, the grantee, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the railway company, its successor or assigns.

Sec. 7. Any portion of the right of way of the said railway company falling within the lines of a street now shown on the map of The City of New York, which it may be necessary for the City to subsequently acquire, shall be ceded to the City, without cost to it, subject to the company's easement therein.

Sec. 8. In case the City shall acquire the land necessary for a street across the grantee's right of way and such land for the street is not ceded by the said grantee, then the railway company shall pay the same rates for the privilege of crossing said street as are provided for in paragraph fourth of section 2 of this ordinance.

Sec. 9. In case any of the streets as now shown on the map of The City of New York and crossed by the said railway above grade are altered or widened after the grantee has completed its railway, and such widening requires the alteration of the superstructure of the railway, the grantee and The City of New York shall each pay one-half of the cost of such alteration as may be necessary.

Sec. 10. In case the route as laid out shall make it necessary in the opinion of the Board of Estimate and Apportionment to change the map of The City of New York in order to avoid unnecessary or undesirable crossings or for other reasons purely on account of the location of the railway, and by such change or alteration addi-

tional streets bounding the grantee's right of way are determined upon, then the grantee shall acquire such streets at its own expense.

Sec. 11. Any alterations which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, etc., laid in the streets, on account of the construction or operation of the railway, shall be made at the sole cost of the railway company, and in such manner as the proper City officials may prescribe.

Sec. 12. All construction of railway crossings shall be done in such manner as shall not substantially interfere with the ordinary use of any street as a public highway, and all streets in any way disturbed by such construction shall be restored to their original condition. In case of failure on the part of the grantee to restore such streets within a reasonable length of time, The City of New York shall have the right, under resolution of the Board of Estimate and Apportionment, to cause the work to be done and the materials to be furnished after due notice and shall collect the reasonable cost thereof from the fund herein provided.

Sec. 13. The company's property and structures shall not be used for advertising purposes in any way, under a penalty of fifty (50) dollars per day for each offense. Such restriction shall not apply to the interior of stations or cars.

Sec. 14. This grant is upon the express condition that the New York Westchester and Boston Railway Company, within thirty days after the said company has been duly authorized to operate its railway and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of twenty thousand dollars (\$20,000), either in money or in securities, to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the privilege and the penalties herein provided, and in case of default in the performance by said company of such terms and conditions, The City of New York shall have the right, after due notice, to collect the same from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same, with interest, from such fund after ten days' notice in writing to the said company. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of twenty thousand dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect other legal rights, remedies or causes of action belonging to The City of New York.

Sec. 15. That if the said New York, Westchester and Boston Railway Company, its successor and assigns, shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and all street crossings in good condition throughout the full term of its occupancy of said streets, the Board of Estimate and Apportionment of the City may give written notice to said company, specifying any default on the part of said company and requiring said company to remedy the same within a reasonable time, and upon the failure of said company to remedy its said default within a reasonable time, said company shall, for each day thereafter during which the default or defect remains, pay to The City of New York the sum of two hundred and fifty dollars (\$250) as fixed and liquidated damages, or the said City in case said structures over or under streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the company, in which case the said company shall pay to the City the amount of the cost of such repairs, with legal interest thereon; all of which sums may be deducted from the fund hereinbefore provided.

Sec. 16. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York, within ten days after the adoption of this ordinance.

Sec. 17. This ordinance shall take effect immediately.
