PETITIONS AND COMMUNICATIONS.

No. 5080.

The Merchants' Association of New York, 233 Broadway, Woolworth Building, New York, December 6, 1913.

Hon O. GRANT ESTERBROOK, 51 Chambers Street, New York City:

Dear Sir—There is now pending before the Laws and Legislation Committee an ordinance to prevent unreasonable noises, copy of which we enclose herewith.

This ordinance was introduced by Hon. Courtlandt Nicoll at the request of the association.

As you are doubtless aware, building construction is now frequently carried on at night in residential districts, under conditions that make sleep practically impossible, thereby inflicting great discomfort and injury to health upon numerous people.

This association has had many complaints upon this subject, for which reason the ordinance has been prepared. It has the approval of the Department of Health, and we earnestly hope that you will give it your support.

Very truly yours, THE MERCHANTS' ASSOCIATION OF NEW YORK,
By F. B. De Berard.

AN ORDINANCE to prevent noises between the hours of eleven p. m. and seven a. m. in other than purely manufacturing districts.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. Except in a purely manufacturing district no corporation, partnership or person shall so conduct its or his business between the hours of eleven p. m. and seven a. m. as to cause any loud or sharp noises or concussion, unless such corporation, partnership or person shall have first obtained a permit from the Board of Health. Such permit shall be issued by the Board of Health only when it appears to the satisfaction of said Board that the conduct of such business between such hours will not be injurious to the health of those residing in the vicinity of the place where such business is being conducted. Provided, however, that the said Board may grant such permit, when it appears to its satisfaction that the work proposed during the hours prohibited, is a necessity. Such permit shall not in any way impair any right of action, civil or criminal, against the corporation, partnership or person holding such permit.

Section 2. Every corporation, partnership or person violating any of the provisions of this ordinance shall, upon conviction thereof before any City Magistrate be punishable: for a first offense, by a fine not exceeding ten dollars, or in default of payment of such fine, by imprisonment in the City Prison for a period not exceeding ten days, and for a second offense, or subsequent offenses, be punishable by a fine not exceeding one hundred dollars or imprisonment in the City Prison for a period not exceeding ninety days, or both, in the discretion of such Magistrate.

Section 3. This ordinance shall take effect immediately.

Which was referred to the Committee on Laws and Legislation.

Milton Weber, Inc., Men's Attire, 7 Wall Street, corner New, December 5, 1913.

President of Board of Aldermen, 51 Chambers st., New York:

Dear Sir—We again enter a vigorous protest against the issuing of any more permits for the use of Wall st. by sandwich men, to parade up and down with their oilcloth signs.

It is high time that a stop was put to this nuisance.

Respectfully yours, MILTON WEBER, President.

Milton Weber, Inc., Men's Attire, 7 Wall Street, corner New, December 6, 1913.

President of Board of Aldermen, 51 Chambers st., New York:

Dear Sir—There are three and sometimes four sandwich men parading up and down Wall st. continually. When is this nuisance going to stop. We cannot understand why your Board should continue issuing permits for a condition of this kind.

Very truly yours, MILTON WEBER, INC.

Which was ordered on file.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The Vice-Chairman laid before the Board the following communication from the Commissioner of Water Supply, Gas and Electricity:

No. 5082.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, December 1, 1913.

Hon O. GRANT ESTERBROK, Acting President, Board of Aldermen:

Dear Sir—No provision is made in the budget for next year for the expense of moving this department from its present quarters in this building to the Municipal Building. The floors intended for this department are being rapidly completed and apparently will be ready for occupancy very early next year, probably too early to permit the authorization of revenue bonds after January 1.

I therefore respectfully request that the present Board of Aldermen ask, by resolution, that the Board of Estimate and Apportionment authorize the issue of revenue bonds for this purpose to the amount of $2,500.

The actual cost of moving will approximate $2,000. The expense of taking apart and reassembling the many large filing cases and cabinets will be $500 more, making necessary a total authorization as above.

Yours very truly, HENRY S. THOMPSON, Commissioner.

In connection herewith Alderman Downing offered the following resolution, and moved its adoption:

Resolved, That, in pursuance of the provisions of Subdivision 8 of Section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of fifteen hundred dollars ($1,500), the proceeds whereof to be used by the Commissioner of Water Supply, Gas and Electricity for the purpose of moving his department into the new municipal building. All obligations contracted for hereunder must be incurred on or before March 1, 1914.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Boschen, Bosse, Brush, Carberry, Cole, Cummuskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixson, Doherty, Dowling, Downing, Donnelly, Dujat, Eagan, Eichhorn, Fink, Folks, Gaynor, Gelbke, Hannon, Herbst, Kenneally, Kenney, Lieberman, McCann, McCourt, McGarry, McGrath, Marks, Martyn, Molen, Moore, Morrison, Muhlbauer, Nicoll, O'Neil, O'Rourke, Pendry, Post, Reardon, Schmidt, Shipley, Smith, Stapleton, Stevenson, Velten, Walsh, Weil, Wendel, Weston, Wilmot; President Cromwell; President Miller, by Thomas W. Whittle, Commissioner of Public Works; President McAneny; the Vice-Chairman—61.

The Vice-Chairman laid before the Board the following communication from the Chief Clerk, Court of Special Sessions:

No. 5083.

Chief Clerk's Office, Court of Special Sessions of the City of New York, corner Franklin and Centre Streets, New York, December 3, 1913.

The Honorable Board of Aldermen, City of New York:

Dear Sirs—Request is hereby made for the issue of special revenue bonds in the sum of twenty-one hundred ($2,100) dollars for the equipment of new quarters of the Court of Special Sessions to be located in the County Court House, 161st and 3d ave., Borough of The Bronx. The necessity for quick action on this request is apparent, inasmuch as the Court must be in session by January 1 next.

Respectfully, F. W. SMITH, Chief Clerk.

In connection herewith Alderman Curran offered the following resolution, and moved its adoption:

Resolved, That, in pursuance of the provisions of Subdivision 8 of Section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of two thousand one hundred dollars ($2,100), the proceeds whereof to be used by the Chief Clerk, Court of Special Sessions, for the purpose of equipping the new quarters of the Court of Special Sessions in the County Court House, Borough of The Bronx.

All obligations contracted for hereunder must be incurred on or before February 1, 1914.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Boschen, Bosse, Brush, Carberry, Cummuskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixson, Doherty, Dowling, Downing, Donnelly, Dunn, Dujat, Eagan, Eichhorn, Fink, Folks, Gaynor, Gelbke, Hannon, Herbst, Kenneally, Kenney, Lieberman, McCann, McCourt, McGarry, McGrath, Marks, Martyn, Molen, Moore, Morrison, Muhlbauer, Mulligan, Nicoll, O'Neil, O'Rourke, Pendry, Post, Pouker, Reardon, Schmidt, Shipley, Smith, Stapleton, Stevenson, Walsh, Wendel, Weston, Wilmot; President Cromwell, President Miller, by Thomas W. Whittle, Commissioner of Public Works; President McAneny; the Vice-Chairman—61.

The Vice-Chairman laid before the Board the following communication from the Sheriff of Queens County:

No. 5084.

Office of the Sheriff, Queens County, County Court House, Long Island City, November 24, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—An examination of the schedule of salaries and wages for the office of Sheriff, Queens County, for the year 1914, discloses the fact that the position of Auditor at $1,500 per annum, has been omitted. The position is now occupied by James T. Kelly. His duties are important and I regard him as a very essential element in the administration of my department.

In order that he may be continued after January 1, 1914, it is necessary that provision be made whereby he may be paid from that date.

I therefore respectfully request that your board approve of an issue of revenue bonds, in accordance with the provisions of subdivision 8 of Section 188 of the Charter, to the extent of $1,500.

Respectfully yours, GEORGE EMENER, Sheriff of Queens County.

Which was ordered on file.

The Vice-Chairman laid before the Board the following communication from the Clerk of Kings County:

No. 5085.

County Clerk's Office, County of Kings, Hall of Records, Brooklyn, N. Y., December 3, 1913.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—The county seal now in use in the Chief Clerk's office in the County Court is in such poor condition that the impression is almost illegible. I would therefore ask your honorable body, as provided in section 245 of the County Law to cause a new county seal of the County of Kings to be made for the use of the Clerk of the county of Kings, and the expense thereof to be a charge to the said County of Kings. By putting through this resolution, you will facilitate the work of the County. Very sincerely yours, CHARLES S. DEVOY, Clerk.

Which was referred to the Committee on Laws and Legislation.

The Vice-Chairman laid before the Board the following communications from the Board of Estimate and Apportionment:

No. 5086.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, December 8, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment December 4, 1913, recommending the amendment of resolution adopted by the Board of Aldermen on January 23, 1912, which requested an issue of $113,000 special revenue bonds, the proceeds whereof to be used by the President, Borough of Manhattan, to repair street pavements in the Borough of Manhattan where the period of maintenance covered by contracts has not expired, by providing that $103,000 of said authorization shall be expended for repairing street pavements where the period of maintenance has not expired, and $10,000 where the period of maintenance has expired.

Yours respectfully,

GEORGE McANENY, President, Borough of Manhattan.

Resolved, That the Board of Estimate and Apportionment hereby recommends that the Board of Aldermen amend its resolution adopted January 23, 1912, which reads as follows:

"Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one hundred and thirteen thousand dollars ($113,000), the proceeds whereof to be used by the President of the Borough of Manhattan for the purpose of repairing street pavements in the Borough of Manhattan, where the period of maintenance covered by contracts has not expired, and where the contractors have failed to meet the contract requirements."

No. 5087.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, December 8, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copies of two resolutions adopted by the Board of Estimate and Apportionment December 4, 1913, as follows:

Amending resolution adopted June 26, 1913 (amending previous resolutions) which authorized the issue of $164,246.81 corporate stock for the erection, equipment and furnishing of an addition to East Tuberculosis Infirmary, Metropolitan Hospital, Blackwells Island, under the jurisdiction of the Department of Public Charities, by reducing said amount to $158,246.81.

Amending resolution adopted July 17, 1911, which authorized the issue of $50,000 corporate stock for the construction and equipment of a dormitory for female employees, City Hospital, Blackwells Island, under the jurisdiction of the Department of Public Charities, by increasing said amount to $56,000.

I transmit herewith copy of report of the Corporate Stock Budget Committee relative thereto. Yours very truly, JOSEPH HAAG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 12, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On October 9, 1913, the Commissioner of Public Charities requested the amendment of two resolutions approving the issue of corporate stock for the construction of two buildings on Blackwells Island. In connection therewith we report as follows:

On July 17, 1911, corporate stock to the amount of $50,000 was authorized by the Board of Estimate and Apportionment for the construction and equipment of a dormitory for female employees at City Hospital, Blackwells Island. The contract awarded for the construction of the building called for an expenditure of $47,200; the architects' fees were $2,270.96, leaving an unencumbered balance of $529.04. The plans and specifications on which the contract was awarded contained the following provisions:

"After the excavation has been made to the levels shown on plans, should there be found to exist soft earth, holes, fill, previous excavations or other obstacles to the securing of a good solid foundation, the architect shall be notified forthwith in writing, and he will cause an examination to be made of the conditions as they exist. Should he decide that there is necessity for greater width, depth or extent of foundation work than is provided for by the plans and specifications, he shall so notify the contractor in writing. * * * The contractor shall forthwith proceed with the performance of the work, which shall be done under the conditions governing the same or similar work as contained in the specifications, plans and contract."

The specifications also provide that such additional work shall be paid for at stated prices per cubic foot or yard for excavating and concrete work.

After the work of construction had been started, it was found that, because of bad foundation conditions, the foundation would have to be carried from four to seventeen feet, and the piers for columns from five to twelve feet, lower than called for in the original plans and specifications. The cost of this additional work was $5,985.27, and a bill for that amount has been approved by the architect. To provide funds for the increased cost, the Commissioner requests that $6,000 be transferred from corporate stock authorized for the construction of an addition to East Tuberculosis Infirmary, Metropolitan Hospital, Blackwells Island. The status of this account is as follows:

Amount of authorization		$164,246 81
Contract liability	$134,800 00	
Architects' fees, etc	10,889 30	
		145,689 30
Available balance		$18,557 51

It is stated that the balance remaining after the transfer of $6,000 is made will be sufficient to meet all the requirements of the account.

We recommend the adoption of the attached resolutions approving the request. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller; E. V. FROTHINGHAM, Acting President, Borough of Manhattan; L. H. POUNDS, President, Borough of Brooklyn; CYRUS C. MILLER, President, Borough of The Bronx, Corporate Stock Budget Committee.

Resolved, That, subject to the concurrence herewith by the Board of Aldermen, the resolution adopted by the Board of Estimate and Apportionment on July 17, 1911, as amended on Novembef 7, 1912, December 19, 1912, and June 26, 1913, and concurred in by the Board of Aldermen on July 25, 1911, November 19, 1912, January 14, 1913, and July 15, 1913, respectively, as follows:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding *one hundred and sixty-four thousand two hundred and forty-six dollars and eighty-one cents* ($164,246.81) to provide means for the erection, equipment and furnishing of an addition to East Tuberculosis Infirmary, Metropolitan Hospital, Blackwells Island, under the jurisdiction of the Department of Public Charities, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid."

—be and the same is hereby *amended to make the amount read one hundred and fifty-eight thousand two hundred and forty-six dollars and eighty-one cents* ($158,246.81).

No. 5089.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, December 8, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copies of two resolutions adopted by the Board of Estimate and Apportionment December 4, 1913, as follows:

Rescinding resolution adopted July 31, 1913, which established the position of Division Engineer in the Department of Water Supply, Gas and Electricity, with compensation at $4,000 per annum, for one incumbent.

Establishing the grade of position of Division Engineer in the Department of Water Supply, Gas and Electricity, with compensation at the rate of $3,500 per annum, for one incumbent.

I transmit herewith copy of report of the Committee on Salaries and Grades relative thereto.

Yours very truly, JOSEPH HAAG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 20, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 12, 1913, the Commissioner of Water Supply, Gas and Electricity requested the establishment in his department, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of the position of Division Engineer, at $3,500 per annum, for one incumbent. In connection therewith we report as follows:

The requested establishment is to provide for the transfer of Thomas C. Atwood, a Division Engineer at $4,500, now attached to the Designing Division, to the Construction Division at the lower rate. Mr. Atwood was transferred from the Board of Water Supply to the Department of Water Supply, Gas and Electricity in 1911, and at the time of his transfer was Division Engineer on the construction of the Catskill system within the City limits. Upon the abolishment of the Filtration Division of the Department, he was transferred to the Designing Division. The 1913 schedule for this division provides for two Division Engneers, one at $5,000 and one at $4,500.

The 1914 budget schedules as approved by your Board provides for only one Division Engineer in the Designing Division with compensation at the rate of $4,500 per annum. A position of Assistant Engineer at $3,500 was, however, included in the schedule for the Construction Division. This latter position, the Commissioner states, will probably soon be vacant by the resignation of the present incumbent.

The Commissioner proposes to reduce Mr. Atwood's rate of compensation from $4,500 to $3,500 and transfer him to the Construction Division when the requested new grade of Division Engineer at $3,500 has been established and the necessary schedule modification approved.

On July 31, 1913, your Board approved a previous request of the Commissioner relating to the compensation of Mr. Atwood, and adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Water Supply, Gas and Electricity of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Division Engineer	$4,000 00	1

No action on this recommendation has thus been taken by the Board of Aldermen.

We recommend, therefore, the adoption of the attached resolutions rescinding the resolution adopted by your Board on July 31, 1913, and approving of the establishment of the requested grade of the position of Division Engineer at $3,500. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller; O. GRANT ESTERBROOK, Acting President, Board of Aldermen, Committee on Salaries and Grades.

Resolved, That the following resolution, adopted by the Board of Estimate and Apportionment, on July 31, 1913:

"Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 58 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Water Supply, Gas and Electricity of the grade of position, in addition to those heretofore established, as follows:

Title of Position.	Compensation Per Annum.	Number of Incumbents.
Division Engineer	$4,000 00	1"

—be and the same is hereby rescinded.

The Vice-Chairman laid before the Board the following communication from the Trustees of Bellevue and Allied Hospitals.

No. 5091.

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st Avenue and 26th Street, New York, December 5, 1913.

Hon. O. GRANT ESTERBROOK, Acting President, Board of Aldermen, New York City:

Sir—The Board of Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Aldermen to authorize the issue of special revenue bonds in an amount not exceeding $7,000 to provide funds for the construction of a provisional dock in front of the City Park at Rockaway Beach, Jamaica Bay. This pier is required for the purpose of landing building material for the proposed Sea Breeze Hospital, the plans for which are in course of preparation. The Dock Department has no objection to furnishing the site and constructing the pier, providing this Department obtains the necessary funds to build it. Special revenue bonds are requested for the reason that the pier will only be a temporary landing and will not be needed for more than five years. It is assumed that the permanent docks for the Rockaway property will have been constructed within that time.

Respectfully, JAMES K. PAULDING, Secretary, Board of Trustees.

Which was ordered on file.

The Vice-Chairman laid before the Board the following communication from the Public Administrator:

Reports of Committee on Finance—

Alderman Curran moved that all of these reports be given immediate consideration. There being no objection such course was pursued in each instance.

No. 4684.

The Committee on Finance, to which was referred on October 14, 1913 (Minutes, page 9), the annexed resolution in favor of rescinding $18,000 corporate stock for water main under East River to North Brother's Island, respectfully

REPORTS:

That it has held several hearings on this matter, at which representatives of the Department of Health and Water Supply, Gas and Electricity appeared and represented to the committee that, owing to the tendency of the present direct 6-inch main to freeze, it was a wise precaution to establish this parallel 12-inch main. With this the Engineer from the Finance Department disagrees, and in order to bring the matter to the attention of the Board of Estimate and Apportionment and its engineering force, the committee recommends that the said resolution be rejected.

City of New York, President of the Borough of the Bronx, 3d Avenue and 177th Street, Office of the President, October 9, 1913.

Hon. O. GRANT ESTERBROOK, Vice-Chairman and Acting President, Board of Aldermen, 51 Chambers Street, City:

Dear Sir—I have to request that the Board of Aldermen recommend that the Board of Estimate and Apportionment authorize the Comptroller to issue special revenue bonds to the amount of twelve thousand dollars ($12,000), the proceeds whereof to be used by me for the purpose of completing the repairs to the pavement on White Plains road, between Morris st. and the City line.

On June 29, 1911, the Board of Estimate and Apportionment authorized the issue of special revenue bonds to the amount of thirty thousand dollars ($30,000) to cover necessary repairs to the pavement on White Plains road between the above-named limits, these repairs being made necessary by failure on the part of the Interstate Paving Company (who contracted to lay and maintain the pavement in good condition up to October 14, 1913), to make such repairs.

The estimate which served as the basis for my request of thirty thousand dollars ($30,000) was made in 1910, and at the time this estimate was prepared it was pointed out that it held good at that time only and that if the pavement was not repaired promptly the area necessary to be repaired would rapidly increase. A contract for this work was entered into in August, 1913, and covered repairs practically to the full extent of the thirty thousand dollars ($30,000) appropriated.

Between the date when the estimate was made and the date when the contract was entered into, the pavement had been wearing very rapidly and the area upon which the former estimate was based, where repairs were required, was largely increased. Some minor repairs were made meanwhile at points where the pavement had worn into dangerous holes, but these in total amounted to comparatively little. The contract now in force is nearly completed and there still remains a considerable area to be repaired. I have had an estimate made and find that in order to put this street in a condition satisfactory for final acceptance under the contract, 5,310 square yards of pavement repairs at $2.12 per yard, and 100 cubic yards of concrete at $6 per yard will be necessary after the completion of the present repair contract. The price per yard above given is the price submitted by the lowest bidder for the repairs now in progress.

In view of the lateness of the season I hope that the money required will be appropriated without delay.

As soon as the entire pavement repairs are made and the street put in a condition for final acceptance, in accordance with the terms of the contract between the City and the Interstate Paving Company, the total cost of making the repairs will be submitted to the Corporation Counsel for collection from the sureties on the contract in question.

Respectfully, CYRUS C. MILLER, President of the Borough of The Bronx.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

The City of New York, Department of Parks, Borough of Queens, The Overlook, Forest Park, November 14, 1913.

Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—Request is hereby made for the issue of special revenue bonds to the amount of $1,000, proceeds thereof to be used in making necessary repairs to the Barclay Mansion, located in Gaynor Park, Astoria, Borough of Queens.

This park, formerly known as the East River Park, has recently been acquired by the City and contains a building which is of very considerable value and will be useful for park purposes.

The roof is in bad condition and with every rain the water enters freely. Serious damage can only be avoided by the prompt expenditure of the amount hereby asked for. Respectfully, W. G. ELIOT, Commissioner of Parks, Borough of Queens.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of three hundred and fifty dollars ($350), the proceeds whereof to be used by the Court of Special Sessions of The City of New York for the purpose of reimbursing 1913 Account known as No. 2381, Office Supplies.

REPORTS:

That, having carefully examined the subject, it believes an allowance of $3,100 for the Special Sessions Court, and of $3,000 for the Children's Court, will be sufficient to provide these courts with proper furniture and equipment.

The Committee on Finance, to which was referred on November 18, 1913 (Minutes, page 258), the annexed request from the Commissioner of Street Cleaning for $10,000 special revenue bonds for hire of trucks, horses and Drivers for collection of ashes, street sweepings and rubbish in the Borough of The Bronx, respectfully

REPORTS:

That, having thoroughly examined the subject, it believes an additional allowance is necessary for this purpose, but upon estimating the amount needed it calculates that the sum of $5,500 will be entirely sufficient to supplement the budgetary grant for the year 1913.

It therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of five thousand five hundred dollars ($5,500), the proceeds whereof to be used by the Department of Street Cleaning for the purpose of hiring trucks, horses and Drivers in the collection of ashes, street sweepings and rubbish in the Borough of The Bronx. Hon. O. GRANT ESTERBROOK, President, Board of Aldermen, City of New York:

Sir—Pursuant to section 188, sub-division 8, of the Greater New York Charter, I respectfully request that your Honorable Board authorize the issue of revenue bonds of The City of New York in the sum of ten thousand dollars ($10,000), the proceeds thereof to be used for the hire of trucks, horses and drivers in the collection of ashes, street sweepings and rubbish, etc., in the Borough of The Bronx.

The reason for making this request is that the balance remaining in the appropriation for hired trucks is insufficient, due to the increased output of material during the winter months and the present force being insufficient to cope with the situation. Respectfully, WM. H. EDWARDS, Commissioner.

The Committee on Finance, to which was referred on November 18, 1913 (Minutes, page 312), the annexed resolution in favor of an issue of $300 special revenue bonds for the purpose of extending relief to poor or indigent women who served as nurses with the army or Navy of the United States during certain wars, respectfully

REPORTS:

That, having examined the subject, it believes the proposed appropriation to be necessary. Chapter 595 of the Laws of 1913 gives such persons authority to apply for financial relief, if they so elect, and as no budget allowance was made for this purpose some amount should be provided in case any such demand is made.

It therefore recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of three hundred dollars ($300), the proceeds whereof to be used by the Commissioner of Public Charities for the purpose of extending relief to any poor or indigent woman who served not less than ninety days as a nurse in hospital, field or camp with the military or naval service of the United States, the War of the Rebellion, the Spanish-American War, or the War of the Philippines Insurrection, in accordance with the provisions of chapter 595 of the Laws of 1913.

The Committee on Finance, to which was referred on November 25, 1913 (Minutes, page 321), the annexed request from the President of the Borough of Queens for an amendment of an issue of $740 special revenue bonds for ceilings in Town Hall, Jamaica, respectfully

REPORTS:

That the purpose of the proposed amendement is fully set forth in the letter of request. The Committee believes the $160 saved on the first job may be well spent on the ceiling of the Town Hall, Flushing, and it therefore recommends that the accompanying resolution be adopted.

HENRY H. CURRAN, JOHN DIEMER, C. AUGUSTUS POST, ROBERT F. DOWNING, JOHN S. GAYNOR, FRANK L. DOWLING, FRANCIS P. KENNEY, Committee on Finance.

The City of New York, Office of the President of the Borough of Queens, Long Island City, November 21, 1913.

Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—On July 15, 1913, your Board adopted a resolution requesting an issue of $740 special revenue bonds for the use of the Office of the President of the Borough of Queens, for the purpose of replacing plaster ceilings with metal in the Town Hall, Jamaica, Borough of Queens, which resolution was concurred in by the Board of Estimate and Apportionment on October 2, 1913.

Your approval of $740 was based upon an estimate for the replacing of a plaster ceiling with that of metal in the rooms of the Coroner's Court, Court of Special Sessions, Coroner's Office, Clerk's Office of the Court of Special Sessions, Magistrates' Court, Police Station, Police Sitting Room, Rear Hall of the First Floor and Main Hall of the Basement in the Town Hall, Jamaica.

The work has been undertaken, and it has been found that there is an excess in this allowance for the particular work, amounting to about $160. Since the application above referred to was made, a plaster ceiling in the Town Hall, Flushing, has fallen, and it is necessary that the same be replaced. It is stated that this can be done within the balance of $160 now available from the original resolution.

Request is therefore made for an amendment to your original resolution, which will provide for the expenditure of $480 for the replacing of ceilings in the Jamaica Town Hall, and $160 for the replacing of ceilings in the Town Hall, Flushing. This does not increase the amount available, but makes possible the performance of work not contemplated in the original resolution. Yours respectfully,

JOSEPH FLANAGAN, Commissioner of Public Works and Acting President of the Borough of Queens.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Boschen, Bosse, Brush, Carberry, Cummuskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixson, Doherty, Dowling, Downing, Donnelly, Dunn, Dujat, Eagan, Eichhorn, Fink, Folks, Gaynor, Gelbke, Hannon, Herbst, Kenneally, Kenney, Lieberman, McCann, McCourt, McGarry, McGrath, Marks, Martyn, Molen, Moore, Morrison, Muhlbauer, Mulligan, Nicoll, O'Neil, O'Rourke, Pendry, Post, Pouker, Reardon, Schmidt, Shipley, Smith, Stapleton, Stevenson, Walsh, Wendel, Weston, Wilmot; President Cromwell; President Miller, by Thomas W. JOHN S. GAYNOR, JAMES R. WESTON, NATHAN LIEBERMAN, F. H. STEVENSON, D. M. BEDELL, OSCAR IGSTAEDTER, Committee on Water Supply, Gas and Electricity.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's office, 13-21 Park row, New York, June 16, 1913.

Hon. ARDOLPH L. KLINE, President, Board of Aldermen:

Dear Sir—The Hersey Manufacturing Company submitted to the Department some for some years throughout the United States and Canada. It is made in sizes from 2 inches to 12 inches and is adapted for the quick delivery of water. This meter was tested in one of the public baths and at the power plant of the New York Edison Company.

During this period of service about 800,000 cubic feet of water passed through the meter and at stated intervals it was tested for accuracy and taken apart for the purpose of observing evidence of wear or looseness in the gearing. During a period of about six months the meter was tested about twenty times, and in almost every instance these tests indicated that the meter was nearly perfect, so far as recording exactly the quantity of water passing through it is concerned. The department makes allowance for certain variations of flows and the meter always tested within these allowances.

The City is now using several meters of other types made by the Hersey Manufacturing Company. They have been found to be equal to the meters of other manufacturers, and the torrent meter, which they now ask the City to adopt, is specially constructed for use in large manufacturing plants and other establishments where the consumption of water is great.

In my opinion, this meter is a proper and suitable instrument for the registration of water, which registration serves as a basis for the establishment of charges, and I recommend its adoption by the Board of Aldermen, both as to pattern and price, pursuant to the requirements of section 475 of the Charter. The sizes and prices are as follows:

2-inch Hersey torrent water meter	$40 00
3-inch Hersey torrent water meter	80 00
4-inch Hersey torrent water meter	160 00
6-inch Hersey torrent water meter	350 00
8-inch Hersey torrent water meter	600 00
10-inch Hersey torrent water meter	750 00
12-inch Hersey torrent water meter	900 00

Very truly yours, J. W. F. BENNETT, Deputy and Acting Commissioner.

The Chairman pro-tem. put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the negative by the following vote, a majority of all the members failing to vote in favor thereof:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Curran, Diemer, Dixson, Doherty, Eichhorn, Folks, Gaynor, McCourt, McGarry Martyn, Moore, Morrison, Nicoll, O'Neil, Weston, Wilmot—20.

Negative—Aldermen Dowling, Donnelly, Kenneally, Nugent, O'Rourke and Stapleton—6.

On motion of Alderman McCourt the vote on General Orders 624, 625 and 626 were reconsidered, and the papers were restored to the list of General Orders.

BROOKLYN DISCIPLINARY TRAINING SCHOOL FOR BOYS.

To the Honorable ARDOLPH L. KLINE, Mayor of The City of New York:

Sir—Pursuant to the statutes governing the Brooklyn Disciplinary Training School for Boys, its Board of Managers herewith present to your Honor their report on the school for the year ending October 31, 1913. The report of the Superintendent to the Board of Managers for the same period is attached hereto and made a part hereof.

The crying need of our school is new buildings, a fit place for the care of boys. This great city cannot afford to house its wards in buildings which are dilapidated, fire-traps, ill-arranged. This is not economy. It is the worst form of extravagance.

We have sought earnestly and persistently for a change. All that could be done to secure a new site, or new buildings on the old site, we have done and stand ready to do. The responsibility of carrying on a city institution in buildings which are unsafe and unfit is greater than we can justly be called upon to bear. The responsibility is now squarely upon the Board of Estimate and Apportionment—the body having power to relieve the situation.

If the members of the Board of Estimate would give their attention to this problem it would be solved and rightly. The trouble is that they have not the time, or will not give the time.

The Brooklyn Disciplinary Training School is an independent department under the direct control of the Board of Estimate. It is the smallest department of the city government. Therefore it is difficult to secure attention to our needs when city-wide problems of transit, docks, schools, and health are pressing for solution.

But though we are the "baby" department the situation is acute. Something must be done now to place the school in proper quarters or to combine it with some other institution, able to carry on the work.

The Board of Managers can be held responsible only for the maintenance and control of the institution and for any defect or mistake or wrong in such maintenance or control. If any serious accident happens, due solely or mainly to the condition of the buildings, the responsibility rests not upon us who are powerless to alter the situation, but upon those who have the power and use it not.

The Way Out.

April 10, 1913, the Commissioner of Accounts made a report to the Mayor, in which he stated that our plant is unfit and advised four alternative plans:

First—The consolidation of the institution with the Parental School, located between Jamaica and Flushing, under the jurisdiction of the Board of Education.

Second—A partial consolidation with the Parental School by acquiring additional land adjoining the latter school, and maintaining a distinct institution, but utilizing the power plant, kitchen, bakery, laundry, etc., of the Parental School for the institutions.

Third—The abolishment of the Brooklyn Disciplinary Training School for Boys, and the assignment of the boys committed for juvenile delinquency to the various denominational institutions, following the practice now adopted by the various judges for boroughs other than Brooklyn.

Fourth—The abolishment of the Brooklyn Disciplinary Training School for Boys, and the assignment of boys now committed to this institution to the State Training School for Boys at Yorktown Heights.

The Board of Managers immediately called an open meeting which was attended by the Commissioner of Accounts; Charles D. Hilles, President of the Juvenile Asylum; Emanuel D. Bloomingdale and Gordon M. Bell, Managers of the House of Refuge; Franklin H. Briggs, Superintendent of the New York State Training School for Boys; Justice Robert J. Wilkin; Edward B. Shallow, Superintendent of Schools; and other experts in the boy problem. Correspondence was had with all of the judges of the Children's Court and with Superintendents and Managers of other institutions for delinquent boys. Our purpose was to decide whether the continuance of our institution is necessary and if so the most effective and the least expensive way out.

June 16, 1913, the President, with the approval of the entire Board of Managers, submitted to the Mayor and the Board of Estimate a report entitled "The Way Out," stating that there is need for a city institution to care for the younger boys from the Children's Courts, for less hardened offenders, and for short term commitments, which all of the judges of the juvenile courts think desirable and necessary, and which our institution alone will accept.

Our conclusions then reported and still held are:

It is not material to this Board whether a new institution, if established, is called the Brooklyn Disciplinary Training School, or whether the same Board of Managers is retained.

There is need for a City Institution to care for boys committed for short terms, and for younger boys of from seven to twelve years of age, who as a rule should not be held in an institution longer than a year and a half.

Most of the boys committed to the Brooklyn Disciplinary Training School are unfortunate rather than criminal. Often it is the parents who are the real offenders. Older boys who are hardened should not be sent to our institution. They should be committed to the private institutions or the House of Refuge.

It would be most unfortunate to send the majority of our children to a distinctly correctional institution where they would come in contact with hardened characters and where they would be confined at least a year and a half if sent to the private institutions, and during their minority if committed to the State Training Schools.

A City Institution Is Necessary to Supplement the Private Institutions:

1. Because the State Training School for Boys will not be in operation for at least a year, and when it is ready to take commitments, cannot accept short term commitments. It is required to keep the boys till they reach their majority.

2. Because the private institutions will not accept short term commitments and the judges of the Children's Courts are unanimous in their opinion that they are wise and necessary.

3. Because there is provision only for part of the Jewish boys from Brooklyn and no provision at all for Jewish boys from Queens and Richmond at the Jewish Protectory.

4. Because the House of Refuge has an antiquated plant on the congregate plan; cannot accept boys under twelve and will probably be discontinued when the State Training School at Yorktown Heights is completed. It is for older boys and hardened offenders.

The best solution would be the establishment of the Brooklyn Disciplinary Training School upon from twenty to forty acres of the land occupied by the Parental School north of Jamaica as a separate institution, and under a Board of Managers appointed by the Mayor.

We do not consider it feasible to consolidate the Parental School and the Disciplinary Training School under the same management, for the reason that the Superintendent of Schools, Mr. William H. Maxwell, and many other experts in educational and correctional work are opposed to the mingling of truants and delinquents.

While the difference between the boys at the Parental School and the Brooklyn Disciplinary Training School is more a theory than a fact, yet we believe that opposition to the mingling of the two classes of children is so strong and so well founded, that an attempt to combine delinquents and truants in one institution would result in disaster.

We can see no sound objection to placing the schools side by side. The boys of the Training School could be kept entirely separate from the truants, and the two schools would use only the administration building, gymnasium, school rooms and shops in common.

It would be a great advantage to have the educational work of the Training School under the jurisdiction of the Board of Education.

The care of delinquents is a specialty and individual treatment is necessary. The machinery of the Board of Education is so vast and its present duties are so extended that it should not be called upon to assume this added function. The saving in expense of this plan over all others is large.

The only buildings necessary to be constructed for the accommodations of the Training School upon this site would be:

Ten cottages accommodating twenty boys each, at an estimate cost of $15,000 per cottage	$150,000 00
A cottage providing offices for the Superintendent and his staff, and living quarters for the Superintendent and his family, estimated cost	20,000 00
Connection of heat, water, sewerage and other common service for the cottages, estimated cost	10,000 00
Preparing recreation grounds, laying out the property and incidentals, estimated cost	5,000 00
Architect's Fees	5,000 00
	$190,000 00

The present site and buildings occupied by the Brooklyn Disciplinary Training School if sold would bring from $75,000 to $100,000. Taking the minimum figure as a conservative estimate, the actual cash outlay to the city would be only $115,000 and of this amount $75,000 had already been appropriated for the purchase of a site, leaving a balance of new funds of but $40,000. The cottages could be completed and the school installed in its new quarters within a year.

The only formality necessary to carry the recommendation into effect is the adoption of a resolution by the Board of Education, setting off a certain specified number of acres for the use of our institution, and the appropriation of the money for the buildings and improvements by the Board of Estimate and Apportionment. No legislation is necessary.

If it is impossible to secure the consent of the Board of Education to this plan, we advocate as a last resort that the land now occupied by the Training School be utilized. There would be sufficient ground for the erection of ten cottages to house twenty boys each.

The brick building could be used as an administration building. The present dormitories should be converted into class rooms, shops, recreation rooms, etc. A gymnasium is a vital necessity and should be erected.

The estimate cost of using part of the land of the Parental School is $190,000. But from this latter figure must be deducted at least $75,000, the value of the present site of the Training School, which could be sold.

We requested the Mayor to appoint a Special Committee of the Board of Estimate to work out the future of the institution with the Board of Managers and the Board of Education. July 31, 1913, a committee consisting of Deputy Comptroller Douglas Mathewson, the present Mayor, Ardolph L. Kline, and Borough President Lewis H. Pounds, was appointed. To date it has not found opportunity to meet.

There is some opposition to the continuance of our school, because it is a borough institution. But it is not. The word Brooklyn should be stricken from the title if it is objectionable. We receive commitments from all the boroughs. We do not compete with the House of Refuge or the private institutions, but supplement them. We do the work they cannot or will not do. We alone care for short term commitments and our effort is for the younger boys rather than hardened offenders. We are not equipped to handle hardened cases. As a rule our boys are not bad. They have parents who cannot or will not look after them and so drift to the children's courts. Ours is a school, a home, rather than a prison. There is need for such a place in this great city of 5,000,000 souls.

Reformatories often do not reform. They are sometimes schools for crime. We want the cottage system so that we can separate our boys, give individual treatment, prevent contamination of the good by the bad. Are not our boys entitled to it?

Why We Need New Buildings Now.

"The buildings are of the congregate type of construction and are not suitably planned for the training of delinquent boys. * * * The dormitories are too large to afford facilities for the proper classification of the inmates. * * * Both buildings are very combustible."—Report of State Board of Charities, February 23, 1911.

"The buildings are old and are not well planned for the work undertaken. The recreation rooms in the basement of the frame building are unfurnished, gloomy and poorly ventilated. The bathing and day toilet facilities in this basement are badly worn."—Report of the State Board of Charities, October 17, 1912.

"The premises of the Brooklyn Disciplinary Training School were found in a condition dangerous to life and health, in violation of section....of the Sanitary Code, constituting a nuisance."—From report of Joseph M. Lonergan, Sanitary Inspector of the Department of Health, February 26, 1913.

"The Brooklyn Disciplinary Training School is at present operated on what is known as the congregate plan, all the boys being congregated in one or two dormitories in a single building, which permits them to associate together without distinction as to their moral or physical fitness. There is no argument necessary as to the relative merits of the two systems. The cottage plan is conceded to be far superior by the greatest authorities."

"The plant of the Brooklyn Disciplinary Training School consists of two buildings, one a frame building about 150 years old, which was formerly the Convent of Villa de Sales, and the other a brick building, which was erected about forty years ago. The other building is a veritable fire trap. It can readily be seen that these buildings are unfit and inadequate for the housing of the boys committed to this institution." From report of the Commissioners of Accounts, April 10, 1913.

The Grand Jury "having made a careful investigation into the condition of its buildings and grounds, hereby unanimously condemn the property as unfit for human habitation. They (the buildings) are absolutely inadequate, insufficient, unsanitary and dangerous." Report of the Grand Jury for the month of February, 1913.

"I do not think your buildings are such as to permit of any modification or leniency from the Fire Department." From letter of Joseph Johnson, Fire Commissioner, dated August 8, 1913.

What the Judges Say.

"I have your favor of May 23 in which you ask my opinion on a matter of very great importance, namely, the establishment of some City institution that will take care of boys committed for short terms. I can only say that, after much reflection, I believe there should be some such institution, and I have often felt the need of it, in view of the fact that short term commitments seem to me to be wise in certain special classes of our cases." Isaac Franklin Russell, Chief Justice, Court of Special Sessions.

"I do not know of any institution at the present time, nor have I heard of any institution in the City that will be able to take care of short term commitments, and, as I stated at the meeting yesterday, and have stated on a great many occasions for the last ten years, I do believe that there are cases where short term commitments can have a beneficial effect. The New York State Training School for Boys will not fill the bill, even when it is opened, in regard to such cases." Justice Robert J. Wilkin.

"As you point out, none of the private institutions is willing to accept boys for such terms. I think therefore that the City should unquestionably provide some institution to which children could be committed for definite periods. Whether such an institution should be an independent one governed directly by the City or some kind of a correctional school under the direction of the Board of Education, I am in doubt." Justice Franklin C. Hoyt.

"It is my opinion it is impossible for the Children's Court to do all that they should do in the way of reforming children unless a detention home or some institution either public or private is provided to which children may be committed for short terms. If the private institutions will not accept children for short terms the City should by all means make provision for such cases." Justice Morgan M. L. Ryan.

"I feel that there should be some City institution to take care of boys for short terms." Justice John B. Mayo.

New Members of the Board.

May 1 Mayor Gaynor appointed three new members to the Board of Managers—Mr. Ernest K. Coulter, Mr. Bert M. Cole and Mr. James J. Reynolds.

The appointments are admirable. Each has something definite to contribute to the school. Mr. Coulter was formerly Chief Clerk of the Children's Court in Manhattan. He was one of the founders of the Big Brother movement and has written extensively on delinquent children. Mr. Cole is one of the Examiners in the office of the Commissioners of Accounts and has brought to us system and thoroughness in addition to enthusiastic personal attention to the school and the boys. James J. Reynolds is Principal of Public School 122. His supervision of the class work and the shops will "jack up" the work. We have needed a practical schoolman on the Board.

The Employees.

The employees of the institution deserve praise. They are efficient and loyal and are interested in the school and in the individual boys. Considering the low rate of pay and the lack of opportunity of advancement, we have an unusually high type of employee. For their faithfulness in sticking to the ship during stress and storm they are entitled to the thanks of the Board of Managers.

Corporal Punishment.

Seldom is an annual report printed without some reference to this subject. Discipline is one of our most difficult problems. We have no facilities for solitary confinement and if a boy is determined to be unruly, corporal punishment is our last resort. The Board of Managers has decreed that only the Superintendent shall inflict corporal punishment. Any other rule must lead to grave abuse, and even as it is, caretakers sometimes, under great provocation, lose their temper and slap or strike the boys. If we had a more adequate plant the maintenance of discipline would be less difficult. The objection to frequent corporal punishment is not only that it is brutal, but that it is ineffective. The suggestions upon which we are now working to maintain discipline and do away with the necessity for frequent bodily punishment are these:

The transfer of hardened offenders to the House of Refuge on Randalls Island, where adequate provision for such cases is made. All serious cases of misconduct to be brought before a Committee of the Board of Managers acting with the Superintendent. Heretofore, the Superintendent has been entirely free to decide what punishment should be meted out, arranging commitments with the Judges so that the short term boys who are unruly may be returned to the institution.

Education and Shops.

Our Teachers are Civil Service employees and receive but $60 a month, with no chance for advancement. An efficient Superintendent is not always a good school Principal. Despite these handicaps the class work has, on the whole, been efficient. The Teachers deserve credit for their interest in the institution despite inadequate supervision and lack of opportunity to advance. We favor placing the school work entirely under the care of the Board of Education. The educational work at the Training School should be an annex of the nearest Public School under the supervision of the Principal. The Teachers should be supplied by the Board of Education. It would also be advisable to turn over the shop work, so far as possible, to the Board of Education. Our shoe shop and tailor shop are necessary to the upkeep of the institution. We make all of the shoes and clothes used by the boys and do the repairing. There is a demand for cutters, fitters and operators and we feel that the tailor shop is useful to the boy as well as to the institution. This is not true of the shoe shop. We make our shoes largely by hand and the boys in this shop are not qualified to go out to seek employment in the shoe factories where modern methods are used. If we could get the necessary allowance in the budget, it would be advisable to purchase shoes rather than make them, and teach the boys trades which would be more useful after they leave the institution. We also have a carpenter shop, which is to be reorganized, and a printing shop.

Carpentry is a live trade and should be taught. Our printing shop is subject to the same criticism as the shoe shop. It is valuable to the institution, but hand printing is almost a lost art in the business world and the experience our boys gain is of little use in seeking a position in an up-to-date shop. Dated November 29, 1913.

Respectfully submitted, LOUIS HEATON PINK, President of the Board of Managers.

SUPERINTENDENT'S REPORT FOR THE YEAR.

To the Board of Managers of the Brooklyn Disciplinary Training School for Boys:

Ladies and Gentlemen—At the close of each year it is customary for the Superintendent to report to your honorable body such facts and figures as may illustrate the workings of the school.

As the name of our institution implies, discipline should be of paramount consideration. Here a difficulty, however, arises in regard to the administration of discipline. Some advocate a strict while others a mild discipline. We prefer the latter. We have no cage or dark room nor impassable walls surrounding our buildings. In a word, our main dependence is moral suasion. Such questions are constantly repeated to the boys: What brought you here? What are you doing to correct the fault that brought you here? What do you intend to do when you leave the school? These and like questions constantly repeated have the most excellent effect on the boy. Soon a change is noticed in the face of the child. This, I may add, has been remarked by visitors, and many of them could hardly believe that our boys were juvenile delinquents.

It is generally agreed that religion should play an important part in the reformation of delinquent boys. In this connection I venture to say that the religious wants of the boys are well attended to by the Rev. Father John P. Rohlder for the Catholic boys, of the Rev. Dr. Robert Rein for the Protestant boys, and of the Rev. Dr. Nathan Krass for the Hebrew boys.

During the year we have had visits from the members of the State Prison Association, also from Mr. Bernard J. Fagan, Parole Officer of the New York Children's Court. We feel that if some of our public officers visited the school that our work would be more approved, for, I am sorry to say, there is a lamentable amount of ignorance existing throughout the city in regard to our institution.

As the buildings are considered unsafe in case of fire, every precaution is taken in anticipation of such a catastrophy. We have made a number of requisitions for fire hose, to wit: October 19, 1912, February 7 and 20, 1913, March 21, 1913, and June 6, 1913, but owing to the lack of available funds on the part of the Bureau of Public Buildings and Offices, our requisitions have not been filled.

It may be remarked that the number of long term commitments has gradually grown less during the past year. The effect of this is that our per capita tax appears somewhat larger than formerly.

Several so-called Mother's Days were observed during the year which were greatly appreciated by the parents. These gatherings not only afford amusement to the boys, but also give the parents an opportunity to witness the drills and other exercises which are practiced in the school.

During the past year many improvements have been made throughout the buildings. The usefulness of the shed which adjoins the frame building would be greatly enhanced if it had a concrete floor and was supplied with steam to keep the building warm in winter. In this connection it may be remarked that there is a great need for a proper bathing pavilion as the present one in use is in a most dilapidated condition. Much praise is due Mr. Howard L. Woody, Superintendent of the Bureau of Public Buildings and Offices, for the efficient manner in which he has tried to serve the institution despite lack of available funds.

The following reports and schedules show the condition of the various departments and some of the results accomplished in each:

Education.

As was stated last year in our annual report, our school is modelled upon that of the public schools and a strong effort is made to keep the boys up to this high standard. We have difficulties, however, to overcome such as the lower mental calibre of the boys and the bad environments from which the majority of them come. Our mode of procedure is as follows: When a boy leaves the quarantine, which consists of two weeks' isolation, he is examined by two of our teachers and then assigned to that class which his examination discloses he is fitted for.

The classes of the fourth, fifth, six and seventh year attend school one-half day. All those in the lower grades (and these comprise the backward and over-age children) attend school for the full day. It may be added that this extended time gives them all the individual attention they need and the results and general improvement are marked. The school day is divided into two sessions, three hours in the morning and two and one-half hours in the afternoon. The classes are reversed weekly, giving a boy a week in class during the morning and a week during the afternoon. The change is found to be very beneficial. Satisfactory work is accomplished in the lower grades in raffia weaving and basketry. The boys, by careful training, are able to weave many of the intricate designs found in ancient basketry. The work of drawing and music is excellent. Free hand and map drawing is the work of the fifth, sixth and seventh years, while the colored crayon and object drawing is the work of the lower grades. The music consists of chorus singing by the entire school of simple school songs and a number of patriotic songs.

It is generally admitted that the juvenile delinquent is sadly in need of moral training. In our morning assembly, therefore, the boys are addressed on some topic touching on ethics, that is, on conduct and the formation of character. No religion is discussed or mentioned.

As an encouragement to proficiency there has been introduced into the school a Lincoln Improvement Medal System. It may be remarked that this medal has proved a great incentive and has worked wonders in the way of making the boys more studious in their habits and more careful in their deportment. The medals are awarded monthly for general excellence, manliness, cleanliness, studies, self-control, military and deportment.

Trades.

Every effort is made to have the trades taught on a practical working basis. No boy is assigned to a trade shop unless he expresses a liking and shows an aptitude for that particular trade. After a reasonable time has elapsed a boy may change to another shop if there seems to be good reason for doing so.

Only a limited number of boys can be accommodated in the trades. Preference is given to the older boys in the higher grades. The younger boys in the lower grades are taught raffia weaving and basketry. The trades taught at present are music, printing, shoemaking, tailoring and carpentry.

Band.

We have reason to be proud of our band. This is due, in a great measure to Mr. John Nash. It must be understood many difficulties are met in teaching these boys. In the first place, the boys do not remain any longer on the average than the other boys. In the second place, they start without any knowledge of music, but simply a desire to acquire that knowledge. The short term and parole system has made it necessary to bring the band boys to a certain standard of efficiency in a much shorter time than was available when the long term and discharge system was in effect. It may be added that with the improved mental and physical condition of the boys it is found possible to produce excellent results in a comparatively short time.

The first band numbers thirty-three pieces and receives fourteen hours of practice each week. Of this time ten hours are under the direction of the resident band-master, and four hours under the direction of the visiting band-master, who calls twice each week. The second band numbers fourteen boys and receives eight hours' instruction each week under the direction of the resident band-master. It may be remarked the second band provides members for vacancies in the first band. We may also add that when the boys are paroled they procure instruments similar to those used in the school, and thus are able to keep up their studies. Several of them at present have places in regimental bands in this city.

Printing.

The boys in the printing shop have done a great deal of work during the past year in typesetting and press work. This has been of much benefit to the school. The records for the year show an average of five boys in the morning and seven boys in the afternoon session. The amount of type set by the boys during the past year was 90,330 lines. There were 89,620 sheets printed, which consisted in a large measure of material used in the school. Part of this work, it may be added consisted of printing the annual report.

Shoemaking.

In the shoe shop practical and theoretical work are combined advantageously. There is an average of sixteen boys employed during the day, eight during the morning and eight in the afternoon session. They are employed at the following processes: Making shoes, cutting, operating, stock cutting, lasting and finishing During the past two years several pairs of physical culture shoes were made by the boys, and much improvement gained by those for whom the shoes were made. The number of shoes made from October 1, 1912, to September 30, 1913, was 837 pairs. The number of shoes repaired during the same period was 2,991 pairs.

Tailoring.

In the tailor shop the boys are instructed in the use of power machines, also in measuring and cutting. The following work has been done by the boys in the department:

Winter uniforms: coats made, 150; pants made, 300; caps made, 200; coats repaired, 375; pants repaired, 825.

Uniform khaki coats made, 235; pants made, 225; caps made, 200; pants repaired, 150; leggins made, 200 pair.

Kentucky Jean summer pants made, 425; caps made, 450; pants repaired, 900.

In this department there is an average of ten boys employed during the morning and ten during the afternoon session, alternating weekly.

Seamstress.

In the seamstress' department there are five boys employed in the morning and five in the afternoon. The following is the work accomplished in this department during the past year:

Handkerchiefs made, 1,083; blouses made, 574; night shirts made, 445; sheets made, 212; pillow cases made, 257; curtains made, 5; laundry bags made, 16; bureau covers made, 21; tablecloths made, 10; mattress covers made, 4; hospital bags made, 4; towels made, 792; towels (bath) made, 299; aprons made, 62; garters made, 190 pair, iron holders made, 47; hospital tray covers made, 15; pillow cases mended, 657; sheets mended, 603; spreads mended, 172; curtains mended, 16; damask towels mended, 20; Turkish towels mended, 25; boys' towels mended. 158; roller towels mended, 12; bureau covers mended, 10; table cloths mended, 158; blouses mended, 589; shirts mended, 1,870; drawers mended, 1,979; night shirts mended, 235; laundry bags mended, 20; aprons mended, 179; handkerchiefs mended, 40; stockings mended, 50 pair weekly.

Carpentry.

The report of the carpenter shows that he has been kept busy in repairing the buildings, which are in a very dilapidated condition. They, however, afford ample opportunity to the boys to learn the names and use of the tools needed in the art of carpentry. A few of the improvements made may be mentioned. A double floor was laid in the stable and also in the stalls for the horses. A room was fitted up for the engineers for the care of their tools and working materials. Several doors in the dormitories and shops were changed so that they would open out and thus be of use in case of fire. Screens were fitted to all the windows of the school.

January 1 regular classes will be formed for the purpose of teaching bench work, wood carving, scrolling and wood turning. I may say that the present educational committee is especially interested in introducing manual training.

Engineers' Report.

The fire escapes which were completed last year are in need of electric lights. This matter, however, is in the hands of the Superintendent of Public Buildings. The automatic sprinklers which were installed last year have given so far entire satisfaction. The boys' toilet in the yard is out of repair for some time and in spite of many protests still remains in the same unsanitary condition. The plumbing throughout the institution is in very bad shape and calls for immediate attention.

Four boys are assigned to assist the engineers, of whom two are employed in the morning and two in the afternoon. These boys are taught and instructed as to the care and management of steam boilers. We may add that the boys are willing and quick to learn, and they are a great help to the engineers in the performance of their duties. There is no doubt that the training they receive in this department will be of great help to them when they leave the school.

Physical and Military Training.

It is generally agreed among educators that physical culture is as important as that of intellectual training. It is for this reason that twenty-five minutes is devoted to calesthenics every morning immediately after rising from bed. This exercise is accompanied by music furnished by our band. In the afternoon we have a regular military drill and parade which not only afford amusement to the boys, but an unsurpassed exercise. With this morning and evening exercise, together with training the boys how to walk, to sit and stand properly, I find entirely sufficient for all practical purposes.

We receive many boys in broken health, due to vicious habits or improper food, or both, and it is surprising what a change takes place after a few weeks' residence in the school.

Fire Drill.

This important part of the schedule has been carefully carried out. Three night drills and four day drills have been held each month. The average time required to assemble the boys in the yard during the day has been fifty seconds. The average time to empty the dormitories at night has been two minutes and fifteen seconds.

The day alarms are rung at various intervals between nine and three o'clock. The night alarms are rung between nine o'clock and ten o'clock.

At the day alarms the boys assemble in the yard and are assigned to places in groups of fifteen in regular formation. Each group immediately reports any absentees, so that any missing boys may be detected. There are four fire squads, each consisting of six reliable boys and a caretaker. One of these squads reports with a hose reel at the fire hydrant in the front yard, and one reports with the other hose reel at the fire hydrant in the rear yard. The other two squads handle the standpipe fire lines inside the buildings.

There are five exits from each dormitory in the main building, i. e., an interior stairway in each of the three corners and two outside fire escapes. There are two standpipes through the building with two fifty foot lengths of hose on each floor.

There are four exits from the frame building, i. e., two interior stairways, one interior iron fire escape and one exit on second floor communicating with the other building. There is one standpipe in the building with fifty feet of hose on each floor. Pails, axes, fire hooks, electric and hand gongs are all provided where needed.

All dormitories are open throughout the night with access to the yard. Two night men are awake all night, one in the dormitories and one patrolling the buildings.

With these conditions efficiently established, the main consideration in case a fire should occur is possible panic. This is provided for as far as it is possible to do so by making the boys feel a sense of responsibility and by numerous fire drills. In night drills there is one caretaker stationed at the head and one at the foot of each stairway to guard against panic. In case of actual fire, the man at the head of the stairway would go into the dormitory and the man below would go to the top of the stairway. No boy is allowed to go from the dormitory till the boy on each side of him is out of bed. When all of the boys are assembled, the dormitories are searched. If any boy has been left behind, his companion on either side of him is then held responsible. To their credit it must be said that it is many months since any boy has been left behind.

Quarantine.

When a boy comes to the school he is first weighed and his height taken. He is next assigned to a certain portion of the building with other boys who like himself are new arrivals. He remains in these quarters for a period of two weeks before he is allowed to mingle with the other boys. The special aim of this procedure is to prevent the propagation of contagious diseases. The doctor is notified of the new arrival and the boy is subject to a thorough medical examination. If his eyes, ears or throat need treatment he is sent to the hospital. In case of a surgical operation, the consent of the parents is always obtained. It may be remarked the nurse is on constant guard caring for minor ailments and bringing to the notice of the physician those of a serious nature. The investigator is notified as soon as a new boy is admitted. The investigator then visits his home to see if there is an illness of a serious nature or whether there is a contagious disease in any other family in the same house.

At the end of the quarantine period each boy is assigned to his class, trade shop and working squad. An additional safeguard is thrown around the boys by having the investigator visit their homes in order to acquaint himself with the general surroundings.

Parole.

Excellent results have ensued since the establishment of the short term and parole system. This, of course, is in line with the advanced thought of penologists. The rule is that each parole boy must report to the school once a month, either in person or by letter, and by this means, together with the report of the investigator, the Superintendent is kept well informed as to the exact status of the boy. It may be remarked that for very good reasons the period of parole is extended to two years instead of one as formerly. There are a few boys detained longer than they should, owing to the fact that they have no parents or guardians. In these cases a strong effort is made to place them with respectable people. It is gratifying to say that fifteen boys without parents or proper guardians have been placed with responsible parties during the past year. Only sixteen per cent. of the paroled boys have been returned to the school during the past year. The following is the report of the investigator for the year ending September 30, 1913:

Received during the year, 288 boys; paroled during the year, 138 boys; number of boys placed out to employment, 15; number of boys returned to court, 155; number of boys discharged to parents, 7; number of boys transferred to hospital (defective children), 5; escaped during the year, 19; returned from escape, 15; returned for violation of parole, 39; on parole during the year, 241.

Report of the Dentist.

During a boy's stay in quarantine the Dentist makes a thorough examination of his teeth. Useless roots are extracted and all teeth that can possibly be saved are treated and filled. At the expiration of six months his mouth is again examined and any further necessary work is performed. The Dentist pays one visit to the school weekly, at which time any boy needing his services is attended. The work of the Dentist is carefully supplemented by that of the caretakers who see that the boys use their tooth brushes every morning and evening. It may be added that the teachers take pains to instruct the boys while in classes as to the care of their teeth. The following list shows the work for the year:

Number of extractions, 203; number of fillings, 557; number of cleanings, 324.

Medical Report.

The Physician reports no grave disease in the institution during the past year. Acute tonsilitis appears to be the most prevalent disease, dependent on conditions not connected with our institution. There were five cases of mastoiditis, one of which required operation. A number of boys were examined by the Doctor as to their mentality and all doubtful cases were sent to Dr. Schlapp of the Post Graduate Hospital. Special attention is given to any ailment that may in any way affect the general mentality of the boy. I may say that the Doctor has been attentive to his duties and always responds to calls at any time of the day or night. In this connection I would say that the Housemother is a trained nurse and is in constant attention day and night.

The following is a list of ailmentts treated during the year:

Appendicitis, 1; anaemia, 5; abscesses, 4; bronchitis, 8; bruises, 5; burns, 2; contusions, 5; conjunctivitis, 7; frost bite, 1; gastritis, 2; iritis, 1; infected glands, 3; infected wounds, 35; incised wounds, 5; la grippe, 1; mastoiditis, 5; circumcisions, 3; colitis, 1; cardiac trouble, 1; crushed finger, 1; dermatitis, 3; discharge from ear, 2; dog bite, 1; defective speech, 1; furunculosis, 2; fractured finger, 1; fractured elbow, 1; diphtheria, 1; malaria, 1; otitis media, 5; pneumonia, 2; rheumatism, 5; stomatitis, 7; sprained wrist, 2; sprained knee, 1; sprained ankle, 2; tonsilitis, acute, 33; tonsilitis, chronic, 4; ulcerated legs, 2; scarlet fever, 1.

Sent to the hospital for operation: For removal of adenoids, 1; for removal of tonsils, 5; operation on eyes, 2.

Inspections.

The Grand Jury has visited the school each month and found conditions satisfactory. As far as can be learned no criticism has been made by them with the exception of the dilapidated condition of the buildings. The accounts are audited each month by the Department of Finance of The City of New York and found accurate.

The Examiner of the State Board of Charities spent two days, October 17 and 18, 1912, and thoroughly examined every department in the institution. His report placed the institution in Class B. This is the same rating that we received the previous year.

Dietary.

As the growth and even height of a child depend largely upon the kind of food supplied, much care is exercised in this respect. I would remark that the food provided for this institution is under the special jurisdiction of the Department of Finance and I may add it is well attended. I venture to say that there is no public institution in which a greater abundance of good wholesome food is furnished than in our institution.

PUBLIC SERVICE COMMISSION.

Proposals.

INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called the "Commission") invites proposals to construct Section No. 6 of Routes 4 and 38, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 6—Beginning at a point under 7th ave., in the Borough of Manhattan, about seventy-five (75) feet north of the northerly building line of W. 30th st., and extending thence northerly under 7th ave. to a point about one hundred (100) feet south of the southerly building line of W. 43d st.

The general plan of construction calls for a subsurface railroad having four and five tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing, where necessary, of all buidings, monuments, surface and subsurface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission, as set forth in the form of contract.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per centum of the aggregate sum arrived at by multiplying the estimated approximate quantities by the unit prices, as contained in the schedule of unit prices in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract, and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

The Commission is informed by the Department of Docks and Ferries that docks and bulkheads along the East River or along the North River may be available for dumping purposes. Information in regard thereto may be obtained by any intending bidder upon inquiry at the office of the Department of Docks and Ferries with whom all arrangements must be made with respect to utilizing such docks and bulkheads as may be available.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of thirty-six (36) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 29th day of December, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer of the quantities of the various classes of work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "*Proposal for Constructing Part of Rapid Transit Railroad —Routes Nos. 4 and 38, Section No. 6*," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box, in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of Fifteen Thousand Dollars ($15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the contractor will be required to furnish security to the City by giving a bond for two hundred thousand dollars ($200,000). At the option of the successful bidder, cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security, fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices, as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amount certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board

of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a Department, chief of a Bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement, to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
