The Chairman presented and read report from Chief Croker, under date of October 1, 1906, as follows:

## BOARD OF EXAMINERS.

October 9, 1906.

Present—Messrs. Warren A. Conover, Charles Buek, Lewis Harding, Charles G. Smith, Edward F. Croker, Henry R. Marshall and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Messrs. Smith and Croker were excused by the Chairman.

Appeal 35 of 1906, Alteration 2611 of 1906, premises No. 69 East Eighty-second street, Manhattan; Luis J. Phelps, appellant and owner.

"No. 1. The 8-inch walls are of unlawful thickness. Section 31 of the Code."

"No. 2. The terra-cotta block walls are of unlawful construction for outside walls. Sections 27 and 31 of the Code."

The mode, manner of construction and materials proposed to be followed or used in this alteration having been rejected and refused, and that an equally good and more desirable form of construction can be employed than the strict letter of the Code required.

1. To allow the side walls of the playroom or upper story to be 8 inches in thickness, laid up in Portland cement mortar.

2. To allow the cross wall of the playroom or upper story to be constructed of a framework of angle and tee irons filled in with 4 inches burnt clay blocks and plastered on the outside with cement mortar and plastered on the inside; this partition to be supported on a girder spanning across the present roof and resting at the ends on the opposite walls. The sizes of the girder and angle and tee irons in respect to strength to be made satisfactory to the Superintendent of Buildings.

This dwelling house is only a little over 20 feet in width and only 50 feet in depth, and 42 feet above the curb. The party walls are 12 inches in thickness, and it is desirable that as little weight as possible be added to same, and therefore it is proposed to make the side walls of the playroom 8 inches in thickness, laid up in Portland cement mortar, and to make the cross walls of iron and burnt clay blocks carried on an iron girder, in order to place no greater load on the party walls than is necessary.

Mr. Fryer announced that he waived any contingent interest personal or otherwise in this appeal.

On motion, approved.

Appeal 36 of 1906, New Building 764 of 1906, premises northwest corner of Broadway and One Hundred and Sixteenth street, Manhattan; Charles A. Rich, architect and appellant.

"Fire escapes must be provided for."

All, that are equally good and more desirable form of construction can be provided.

That we may not be compelled to add fire escapes.

That building is fireproof.

That there are two flights of stairs through the building.

That the elevator is entirely inclosed in fireproof material.

Mr. Chas. A. Rich appeared before the Board.

On motion, laid over for one week.

Mr. K. L. Martin, representing the Department of Bridges, appeared before the Board, requesting permission to file appeal affecting proposed structure in bridge yard, Washington and Tillary streets, Brooklyn; whereupon appeal was accepted and, on motion, laid over for one week.

Adjourned.

EDWARD V. BARTON, Clerk.

## BOARD OF EXAMINERS.

October 16, 1906.

Present—Messrs. Warren A. Conover, Charles Buek, Lewis Harding, Charles G. Smith, Edward F. Croker, Henry R. Marshall and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion minutes approved as read.

Mr. Harding was excused by the Chairman.

Appeal 36, new building 764 of 1906, premises northwest corner Broadway and One Hundred and Sixteenth street, Manhattan; Charles A. Rich, architect and appellant.

Laid over at last meeting.

The Chairman presented and read a letter from the appellant dated the 15th inst., whereupon, on motion, Appeal 36 was dismissed in accordance with appellant's request.

Appeal 37, new building, of 1906, premises Tillary and Washington streets, Brooklyn Bridge railroad yard; J. W. Stevenson, Commissioner of Bridges, appellant.

"That the construction of said building will be in direct violation of section 144 of the Building Code."

An equally good and more desirable form of construction can be employed.

The appellant desires to be allowed to erect on the steel deck of the Brooklyn Bridge yard a wooden frame building, sheathed with corrugated iron, as shown on accompanying plans. Size 35 feet 6 inches by 102 feet 6 inches by 15 feet high, of shed construction.

The proposed building is to be used as a small repair shop for bridge cars, and is of a temporary nature. The building will be located on the fireproof bridge deck and stands in the centre of an area where no other buildings can be constructed and is accessible from all sides.

On motion approved.

Appeal 38, new building 1349, of 1905, premises Nos. 321 to 337 East Thirty-first street, Manhattan; Grosvenor Atterbury, architect and appellant.

"Fireproof wood or wood covered entirely with metal should be used."

1. Provisions of law or ordinance do not apply.

2. Equally good form of construction can be employed.

Whether wood painted with fireproof paint or natural wood can be used in place of fireproof wood, the roof in either case being covered on top with metal tile.

1. Expense practically penalizes the construction of this roof garden for these tenements, which are being built as models and with a view of stimulating other owners to improve their tenements over present structures.

2. As supports to roof and trellis are either of steel angles, encased with brick or brick piers, roof could not fall by the burning of the supports. Should roofs or trellis catch fire no damage could be done to other parts of building, as the main roof is of concrete, covered with Akron tile and entire structure fireproofed.

Mr. Grosvenor Atterbury appeared before the Board.

On motion denied.

Appeal 39, alteration 2310, of 1906, premises No. 500 Madison avenue, Manhattan; Edward S. Hewitt, architect and appellant.

"Proposed construction of pent house is unlawful."

An equally good and more desirable form of construction can be employed.

A pent house to be built on roof, to be constructed on two sides of angles and trees and filled in with Bell's fireproof blocks. The remaining two sides are to be of brick. Floors to be constructed of reinforced concrete between 9-inch beams spaced about 5 feet on centres, all as shown.

Exterior covering to be of galvanized iron.

Is that it is not practicable to carry up a brick wall on the south side of pent house, as the roof slopes for water to drain to the north, and so it is asked that brick piers be allowed to support each of the steel floor beams with stone templates and constructed of angles and tees with fireproof blocks.

On the west side it is impracticable to use a brick wall, as there is no brick wall below, the wall on this side is framed as on the south side with angle irons and tees and rests on a 9-inch beam.

Mr. Edward S. Hewitt appeared before the Board.

On motion, laid over for one week.

The Chairman presented and read a communication from the President of the Assurance Company of America anent the desirability of incorporating in the Building Code a provision for fireproof roofs; which was ordered on file.

The Chairman directed the Clerk to purchase one copy of the new (third) edition of the Greater New York Charter.

Adjourned.

EDWARD V. BARTON, Clerk.

Advised that this Department does not believe it will have a pier suitable and convenient for the Department of Correction's use, and it was suggested that said Department secure an appropriation from the Board of Estimate and Apportionment so that it may rent a pier for its purposes.

From the Commissioner of Public Works of the Borough of Manhattan (69209)—Stating that the Thomas Crimmins Contracting Company has been notified to remove from the foot of Seventy-seventh street, East river, the fence complained of by this Department. Filed.

From Harry P. Nichols, Chief Engineer of the Board of Estimate and Apportionment (68956)—Transmitting copy of opinion of the Corporation Counsel, in which it is stated that there is no authority for the construction, maintenance or operation of tracks on Twelfth avenue, between Fifty-eighth and Sixtieth streets, by the New York Central and Hudson River Railroad Company, and further, that the Commissioner of Docks has no authority to execute a lease of lands under water between the bulkhead line and the pier line over which to erect a trestle along the northerly side of the West Fifty-ninth Street Pier by the said company. Corporation Counsel notified that under date of September 18, 1905, upon request from this Department, he submitted a form of agreement covering that portion of the track trestle lying over land under water owned by the company, and extending from the bulkhead line to the easterly line of Thirteenth avenue, and providing that in the event of the City acquiring the land under water no additional item of value would be claimed or allowed to the company by reason of the erection of the temporary track trestle, and that upon the expiration or sooner termination of the lease of the West Fifty-ninth Street Pier, the company would remove the track trestle and restore the pier and land under water to their original condition; with the submission of this form he also gave it as his opinion that a lease of the land under water owned by the City should be executed by the respective parties, when the terms and conditions thereof should have been approved by the Commissioners of the Sinking Fund, and that in view of the fact that the structure is to be temporary in its character, and is to be removed upon the expiration or sooner termination of the lease of the pier to the said company, it was not necessary to determine upon a plan for the improvement of the water front at that point, widening the pier on its northerly side; in view of the conflicting opinions, the Corporation Counsel was requested to advise this Department anew as to the questions involved. Notice was served upon the New York Central and Hudson River Railroad Company that the Department proposes to revoke the permit for the portion of trestle located along the northerly side of the pier, outshore of the easterly line of Thirteenth avenue, within ten days from September 7, 1907, unless an agreement is arrived at with the Bureau of Franchises of the Board of Estimate and Apportionment, by which the Legal Department of the City is satisfied of the right of the company to maintain the trestle and tracks.

From Louise Henkelmann (69280)—Requesting permission to occupy space at the Raunt, Jamaica Bay, Borough of Queens. Privilege granted to occupy Lot No. 124, an area of about 2,000 square feet (premises heretofore held by Alfred L. Jacobson under permit from this Department), to begin as of May 1, 1906, to continue during the pleasure of the Commissioner, and to terminate by limitation of time on April 30, 1907, compensation to be at the rate of \$25 per annum, payable in advance to the Cashier.

From Matthew J. Sullivan (69425)—Requesting permission to occupy plot of ground at the Raunt, Jamaica Bay, Borough of Queens. From John Fleming (69144)—Requesting the Department to dredge at the bulkhead between Twenty-eighth and Twenty-ninth streets, East river, held by him under lease, the shoaling thereat being caused by the loss of sand overboard from sand boats discharging at the bulkhead under permits from this Department. Notified that the lease provides for dredging to be done entirely by the lessee of the premises.

From the Central Railroad Company of New Jersey (69145)—Requesting that the rental charged by this Department for the use of land under water southerly of Pier (old) 8, North river, be terminated upon the completion of the removal of the platform and shed thereon. Permit revoked, to take effect as of August 27, 1906.

From the United Electric Light and Power Company (69163)—Stating that a misunderstanding exists between the employees of this Department and their company as to the turning on and off of the arc lamps on the pier foot of West One Hundred and Twenty-ninth street, North river, and asking that the Department give the matter its consideration. Filed, the matter having been attended to.

From the American Line (69168)—Requesting that dredging be done in the half slip adjoining the southerly side of Pier 14, North river. Advised that although the work of dredging has been going on from time to time, it could not be completed owing to the fact that possession of the slip could not be had for a sufficient length of time, but that arrangements have been made whereby the dredging can now be finished.

Bill sent as recommended.

3 (69240).—Reporting that the work of furnishing and delivering granite stone under Contract No. 978, by the John Peirce Company, contractors, was completed on September 4, 1906. Comptroller notified.

4 (69256). Reporting that nothing has been done toward the removal of the small pier immediately north of Forty-eighth street, North river, despite the fact that the Bradish Johnson Estate, owner, and the E. H. Ogden Company, permittee, were notified by the Department to proceed with such removal, and recommending that the said parties be again notified to remove the lumber from the pier and fence the pier off from public use pending its removal. Johnson Estate and Ogden Lumber Company notified to cause the removal of the lumber and to have the pier fenced off pending its removal.

5 (69257). Recommending the issuance of an order for the placing of new rangers and caps on the pier foot of West Forty-seventh street, North river, together with whatever repairs may be necessary, in order to prepare the pier for the installation of a new incinerator thereon by the Department of Street Cleaning. All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. Failure to remove said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against any and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

### NOTICE TO CONTRACTORS.

#### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks or The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
