District Resource Statement

Human Resources Administration

Fiscal and Service Reports
For Fiscal Years 2013 and 2014

The City of New York
Michael R. Bloomberg, Mayor

INTRODUCTION

The District Resource Statement (DRS) is prepared annually by the Office of Management and Budget. Sections 2707 and 2708 of the New York City Charter require that agencies report to the City's 59 community boards expense budget and service information at the agency's service district level. The reporting levels vary by agency and by program. Service districts range from police precincts which can be smaller than community districts to multi-borough offices.

This edition of the DRS gives information for both FY 2013 and FY 2014. The current edition reports on agencies that deliver services directly to community districts and boroughs. These agencies manually generate the information in the DRS, except for the fiscal data which is provided by the Financial Information Services Agency. The agencies also provide performance indicators for a variety of services. An explanation of agency programs and performance indicators is included.

Personnel headcounts and corresponding fiscal data, equipment information, performance indicators, and contractual services are organized as follows:

- **Personnel Report** - FY 2013 headcounts and fiscal data are as of June 30, 2013. FY 2014 Adopted Budget data is as of the Budget Adoption in June.
- **Equipment Report** - Unless otherwise noted, FY 2013 information is as of June 30, 2013. FY 2014 information indicates proposed equipment levels.
- **Performance Report** - Once again, community boards will be able to compare select measures of agency

performance within their district to a borough-wide and/or citywide average of the agency's performance. Except where indicated, the performance figures are full year figures for FY 2013. Section 12(c)6 of the New York City Charter states that "for agencies with local service districts or programs within community districts and boroughs, the mayor's preliminary management report and management report insofar as practicable shall include schedules of agency service goals, performance measures and actual performance relative to goals for each such local service district or program." Indicator information in the DRS supplements the Mayor's Management Report by providing measures of performance at the local level. Totals for all the districts reporting in the DRS will be consistent with the citywide numbers reported in the MMR except where otherwise noted.

- **Contract Report** - Data on contractual services varies somewhat from program to program, but includes at least the time period of the contract, the cost of the contract, the kind of service provided and some measure of the service.

For each agency program, all pages for a particular local service district are grouped together in the following order: Personnel, Equipment, Performance, and Contract Reports. The Personnel Reports give a complete description of the service and the address of the local service district headquarters. The contract pages provide the names and addresses of vendors, and sometimes the location where the service is provided.

The District Resource Statement is useful to the community boards at all stages of the budget participation process. Community boards can use the DRS to monitor service delivery throughout the year. It provides a common data base which the agencies and community boards can use to discuss service delivery and to formulate specific budget requests. The Performance Reports can help the boards assess the quality of the service in relation to the resources which are deployed in or budgeted for the community district. By comparing this year's DRS with previous editions, community boards can also use the DRS to analyze trends in funding levels, resource allocation, and service delivery. Using the Mayor's Management Report, boards are able to compare service performance indicators in their district with citywide findings.

Caution must be used in interpreting the information contained in this document. Agencies often need to move personnel or equipment from one district to another or employ seasonal workers depending on the time of the year. These changes are not reflected in the DRS. A reduction in staffing levels does not necessarily signal a corresponding reduction in services. Where necessary agencies provide explanatory footnotes. Also, Financial Plan Savings are not reflected in the local district reports because these amounts are budgeted at the Unit of Appropriation level. It is not possible to predict the impact of financial savings on an individual service district level.

OMB publishes District Resource Statements for the following agencies:

- Department for the Aging
- Department of Buildings
- Department of Cultural Affairs
- Department of Small Business Services
- Department of Environmental Protection
- Fire Department
- Department of Health & Mental Hygiene
- Department of Housing Preservation & Development
- Human Resources Administration
- Libraries
- Department of Parks and Recreation
- Police Department
- Department of Sanitation
- Department of Transportation
- Department of Youth and Community Development

DISTRICT RESOURCE STATEMENT

Fiscal Year 2014

HUMAN RESOURCES ADMINISTRATION

Agency Overview

The New York City Human Resources Administration (HRA) serves more than 3 million New Yorkers through essential and diverse programs and services that include cash assistance, public health insurance, SNAP benefits (formally known as food stamps), emergency food programs, child support, home care for seniors and persons with disabilities, adult protective services, shelter and non-residential programs for domestic violence victims, and housing and supportive services for those living with HIV/AIDS.

Cash Assistance

Cash Assistance includes payments for housing, energy assistance, and additional grants for emergency needs, including eviction prevention. Eligibility is based on factors such as income and resources, household composition and immigration status. Assistance with applications and eligibility is provided at 26 offices in the five boroughs. In addition to providing cash benefits, HRA refers clients to programs that are designed to provide assistance with job search, job training and placement, and education. Support services include specialized programs for clients with barriers to traditional employment and referrals and subsidies for child care.

Supplemental Nutrition Assistance Program (SNAP)

The Supplemental Nutrition Assistance Program (formerly known as food stamps) provides federally funded benefits for nearly 1.8 million low-income New Yorkers including families with children, the elderly and the disabled. HRA accepts applications at 16 borough offices and online, primarily through ACCESSNYC, the New York City Health and Human Services internet portal. SNAP benefits are used to purchase food at grocery stores and markets, and are accepted at all New York City Farmer's Markets.

Emergency Food Assistance Program (EFAP)

The Emergency Food Assistance Program is a vital source of support for the city's most vulnerable residents. EFAP funding supports nearly 500 food pantries and community kitchens that provide food and serve meals to millions of New Yorkers in need every year throughout the City.

Medical Assistance Program

HRA's Medical Assistance Program enrolls eligible New Yorkers in Medicaid and other public health insurance programs such as Child Health Plus. The Medical Assistance program operates community based offices and centralized application and renewal process and accepts applications from community based facilitated enrollers, hospitals and health care providers. Starting January 1, 2014, changes as a result of the Affordable Care Act will mean that many applicants will be served by the New York State Health Care Exchange and that HRA will

primarily accept applications from residents who are age 65 or over, disabled or blind, or who are in receipt of Medicare.

Child Support Enforcement (OCSE)

The Office of Child Support Enforcement works with New York City families to ensure that noncustodial parents provide financial support for their children. Child Support offices are located in all five boroughs. OCSE also offers programs to help non-custodial parents obtain employment, reduce their arrears and adjust child support payments when appropriate. OCSE also provides mediation services to parents through community-based service providers to help with issues of custody and visitation.

Adult Protective Services (APS)

Adult Protective Services helps New York City's adults who cannot meet their essential needs because of age or disability, or who are victims of abuse or neglect and have no one who can provide appropriate care. APS provides heavy duty cleaning and eviction prevention services and helps clients apply for other programs, including Medicaid, Home Care, and federal Supplemental Security Income or Disability benefits. When necessary, APS can manage social security benefits and petition the courts for guardians to manage domestic or financial affairs and to help prevent evictions.

HIV/AIDS Services (HASA)

New York City's HASA program provides a range of services to financially and clinically eligible people living with HIV/AIDS. HASA case managers help clients coordinate medical services, apply for SNAP, Supplemental Security Income (SSI) and other benefits and provide counseling and links to community-based services. HASA provides emergency and transitional housing, permanent supportive housing, and rental assistance to help clients remain in their community.

Domestic Violence Support Services (ODV)

The Office of Domestic Violence provides victims of abuse and their children with emergency shelter, temporary housing and a network of community-based support services. Project NoVA (No Violence Again) works with domestic violence victims applying for shelter and the Alternative to Shelter program works with clients in their homes, outfitting them with a high-tech safety alarm system and providing counseling services.

Home Energy Assistance Program (HEAP)

HRA administers the federally funded HEAP program, which helps eligible low-income homeowners and renters pay bills for heating costs, fuel, equipment and repairs. HEAP eligibility is determined by income, household size and household energy costs. If someone has a medical condition that is exacerbated by extreme heat, HEAP can also help purchase air conditioners in the summer months.

Home Care Services Program (HCSP)

HCSP offers a range of Medicaid-funded, non-institutional long-term care programs that enable the frail, the aged and the disabled to remain in the community. HCSP assists with the initial Medicaid application and renewal of Medicaid eligibility for all long term care clients. Under New York State law, most clients must enroll in Managed Long Term Care plans but HRA is responsible for programs for those who are exempt or excluded from Managed Long Term Care.

Explanation of Indicators

Census Data

The source for the 2010 Census demographic and socioeconomic data is from New York City's Department of City Planning.

Program Data

Included for New York City, each borough and each community district is the data relating to Cash Assistance, SNAP benefits, Medicaid, and SSI programs as of October 2013. The geographic breakdowns are based on address information provided by clients. Child Support Case with Orders and Child Support Collected (millions) are now included in the Program Data section. As of October 2005, the methodology for calculating the Community data has changed and should not be used to compare data from prior years.

Direct Service Offices

The direct service offices operated by HRA program areas are broken down by borough and community district. Identified is the community district of their location although many of the direct service offices serve multiple community districts and/or multiple boroughs.

Contract Services - Planned for fiscal year 2014 (As of October 2013)

The DRS includes a list of human service contracts. Information for these contracts includes types of service, contractual dates, contractor's name and address and contract amount. Contract addresses may not represent the areas served by the contract since the address may only be an administrative address and many contracts serve multiple community districts, as well as multiple boroughs.
