Resolutions.

By Commissioner Bowen—Resolved, That the Surgeon-in-Chief be requested to report the general condition of the Reception Hospitals, the number of visits made by him since 1st April, and such suggestions in regard to the Hospitals as in his opinion will be of benefit to the patients.

Adopted by the Board April 15, 1874.

NEW YORK, April 16, 1874.

Hon. Wm. Laimbeer, President Board of Commissioners of the Department of Public Charities and Correction:

SIR:—To a resolution adopted by your Board April 15, 1874, I have the honor to reply.

First. It is my practice whenever I visit the Reception Hospitals to go through each of the wards and enquire into the condition of each patient, and also to enquire of the surgeon in charge whether anything is needed. So far as I can ascertain from these and other sources, the present condition of these Hospitals is excellent.

Second. Since April 1, I have visited 99th st. Hospital four times, namely—on the 2d, 8th,

12th and 15th; and the Park Hospital four times, namely—on the 3d, 6th, 12th and 14th.

On Sunday the 12th inst., having returned from my visit to the 99th street hospital, I found messages both from Bellevue and the Park Hospitals. I first visited Bellevue and performed a critical and capital operation, and then went directly to Park Hospital.

Fortunately, the case at this latter hospital was not so serious as was first apprehended, and no surgical operation was required. I mention this circumstance to explain an unusual delay in responding to the call from Park Hospital.

Third. I have at present no suggestions to make, but I shall not fail to recommend improvements and alterations whenever they seem to be demanded.

Having replied to the questions contained in the resolutions referred to, and believing that they were dictated by a desire, on the part of the Board, to acquaint itself more fully with the present system of management, I will add, that the number of visits made by me to the Reception Hospitals during the year ending January 1, 1874, was 122. (See my annual report, also the Hospital Records.) These visits include many prolonged detentions, for the purpose of applying dressings and making surgical operations. Since Jan. 1st, I have made 16 visits to the Park Hospital, and, I believe, the same number to the 99th Street Hospital. (The Records of the latter are not before me.) During the time that I have held this office, no call has been received at my house to which I have not responded as promptly as possible and generally immediately. As my services in these hospitals dates from their first organization, (first as a member of the Bellevue Staff, and later as Surgeon-in-Chief), I am prepared to say that they have undergone a steady improvement, and especially since the adoption of the present system inaugurated a year ago, but not fully completed until the present time. In the early part of my experience serious errors in diagnosis were not unfrequent, and such as, if they had not been corrected, must have entailed permanent maiming, if not actual loss of life; errors in diagnosis have become less frequent. The care and management of cases have been of late more satisfactory, and the discipline of the hospitals has improved.

From the moment that I was asked by your Board to accept of my present position, I urged the necessity of competitive examinations as an essential measure of reform, and I am happy to answer you that the event has justified my convictions of their utility.

With undiminished interest in the successful administration of this, not the least important of the many charities under your charge,

I remain, yours truly,
FRANK H. HAMILTON,
Surgeon-in-Chief of the Reception Hospitals.

By Commissioner Laimbeer:

Resolved, That Doctor Macdonald send to this Board a full history of the so called small-pox cases, presented by his communication of the 16th instant, namely:

Time of coming to the Penitentiary Hospital. Cause of coming to the Penitentiary Hospital. How soon thereafter was the Croton Oil applied.

The date of removal from Penitentiary Hospital to Pavilion.

Upon whose order they were removed.

What is the condition of the three prisoners this day.

Is there any danger in the Penitentiary Hospital now from any cause.

And such other information as may present the officers who have so imposed upon the confidence of this Board.

Adopted by the Board, April 17, 1874.

By Commission Laimbeer:

Resolved, That Warden Liscomb of the Penitentiary be directed to send to this Board, all information in relation to the material for a sail boat now in the basement of his dwelling, and lately removed from the carpenter shop thereto, by whom the labor has been done, by whom the materials have been furnished and by whose order the boat is being built.

Also how many tables or other pieces of furniture or wood work that was made on the Island he has sent to New York, and where he has sent the same.

Adopted by the Board, April 17th, 1874.
