NEW YORK, TUESDAY, JANUARY 25, 1898.

NUMBER 7,516.

MUNICIPAL ASSEMBLY OF THE CITY OF NEW YORK.

[From Proceedings of the Council of January 18, 1898.]

COMMUNICATIONS FROM DEPARTMENTS AND CORPORATION OFFICERS RESUMED.

The President laid before the Council the following communication from the Board of Education :

No. 59.
HALL OF THE BOARD OF EDUCATION,
No. 146 GRAND STREET,
NEW YORK, January 13, 1898.

To the Honorable the Municipal Council of the City of New York :

I have the honor to transmit herewith a certified copy of a report and resolution adopted by the Board of Education on January 12, 1898, containing the budget for 1898 of that part of the school system contained within the Boroughs of Manhattan and the Bronx.

There is also transmitted the original estimate for 1898, as adopted by the Board of Education on September 15, 1897, which contains the substantial details of the requirements of the school system.

There is also transmitted a revised estimate for 1898, adopted by the Board of Education November 29, 1897, containing amendments, increases and further explanations relative thereto.

Very respectfully,

ARTHUR McMULLIN, Clerk of the Board of Education.

BOARD OF EDUCATION, CLERK'S OFFICE,
No. 146 GRAND STREET,
NEW YORK, January 13, 1898.

To the Board of Education :

The Finance Committee respectfully reports that a communication has been received from the Comptroller, together with a resolution of the Board of Estimate and Apportionment adopted on January 7, 1898, relative to a revision of the Budget for 1898, for the City of New York, as now constituted.

Particular attention is called by the Comptroller, in his communication, to the directory provision of section 10 of the Greater New York Charter, that "such funds shall be used as nearly as may be for the purpose for which they were raised."

Attention is also directed by the Comptroller to copies of certain budgets of the several municipal or public corporations now included within the limits of the City of New York, with a view of ascertaining what appropriations therein made are applicable for reapportionment to the purposes of this Department.

Under the provisions of the Charter, the City of New York as constituted prior to the enactment of said Charter, has become the Boroughs of Manhattan and the Bronx of the greater city. The Board of Education (of the City of New York as formerly constituted) will

shortly become merged in and constituted as the School Board for the Boroughs of Manhattan and the Bronx.

In accordance with the provisions of law and the request of the Board of Estimate and Apportionment, a budget was prepared of the financial requirements for the year 1898 of the school system, then contained in the City of New York as formerly constituted and now comprising the Boroughs of Manhattan and the Bronx.

Said estimate was duly considered and adopted by the Board of Estimate and Apportionment in its Final Estimate of December 23, 1897. The amount of the apportionment for school purposes was \$6,962,145.92.

The Committee would suggest that in the case of the school funds, the amount apportioned by the Board of Estimate and Apportionment last December, be again adopted, as the Budget for 1898, as the requirements of the school system now contained in the Boroughs of Manhattan and the Bronx, and that there be transmitted to the Board of Estimate and Apportionment, for its information, such printed matter and details as were presented to the late Board of Estimate and Apportionment, in connection with the estimate heretofore submitted and adopted :

Resolved, That the following estimate of the moneys that will be required for the support of the school system of the Boroughs of Manhattan and the Bronx, in the City of New York, during the year one thousand eight hundred and ninety-eight (1898), amounting in the aggregate to the sum of six million nine hundred and sixty-two thousand one hundred and forty-five dollars and ninety-two cents (\$6,962,145.92) be duly authenticated, and submitted to the Board of Estimate and Apportionment, and duplicates thereof furnished to the Municipal Council and Board of Aldermen.

		16 primary classes, 45 to a room, 720 pupils, at \$1.35.....	972 00																																																												
		NOTE—Above is supposed to take the place of the present Grammar School No. 20, which contains as many class-rooms, each room having 60 to 90 pupils, as well as half-day classes, while the new building will admit of only 40 grammar and 45 primary pupils: therefore it is fair to infer that both schools will be in operation during 1898.

		NOTE.—This school is supposed to take the place of the present Grammar School No. 42, which is much larger than the new structure will be, besides having from 60 to 80 pupils in a room in the old building, also half-day classes, while the rooms in the new building will only admit of 40 to 45 pupils. It is therefore reasonable to suppose both buildings will be continued in this thickly populated neighborhood.

		23 primary classes, 45 to a room, 1,035 pupils, at \$1.35.....	1,397 25
		NOTE.—The above is supposed to replace the present Grammar School No. 4, which has 57 rooms, 60 to 80 pupils to a room, as well as half-day classes, it is therefore fair to infer that the present attendance of No. 4 cannot be accommodated in the new building, and both will have to be kept running.	
		New school between 108th and 109th streets and Amsterdam avenue to be opened October, 1898, and have 45 class-rooms, divided as follows : 22 grammar classes, 40 to a room, 880 pupils, at \$4.50.....	3,960 00

		Amount required for the introduction of sewing into all the schools is based upon the following : Sewing was introduced as a branch of the Manual Training Course of Study, in a few schools, in 1887. The success of the work having been clearly proven, sewing is now taught in fifty departments, with every prospect of its speedy introduction in many more schools. Instruction begins in the third primary grade, and continues through the fourth grammar grade ; making a course of four years. The lesson of one hour a week is given by special teachers. There are at present twenty-two special teachers, and about ten thousand children receiving instruction. The necessary materials are supplied by the Board of Education, and the cost is about twenty-five cents for each pupil. Superintendent Jasper's report shows that there are 99,191 female pupils attending the public schools ; deducting the 10,000 at present studying this course leaves 89,191 pupils for which sewing materials will have to be provided in 1898. 89,191 pupils at 25 cents per pupil.....	22,297 75

REVISED ESTIMATE FOR 1898, ADOPTED BY THE BOARD OF EDUCATION NOVEMBER 29, 1897.

To the Board of Education:

The Finance Committee would respectfully report, that it has had under consideration the fact that the original estimate, as adopted by the Board of Education on September 15, 1897, has been materially changed since that time, and in order that such changes should be presented to the Board of Estimate and Apportionment in clear and compact form, submits herewith statements showing the original estimate, the amendments thereto, the reasons therefor, the items of increase and decrease relative thereto, and finally, the estimate for 1898, as it stands this day, together with comments and explanations relative to each item.

The following is the statement referred to:

The Committee would call special attention to the fact that the amounts allowed by the Board of Estimate and Apportionment in the Provisional Estimate adopted by that Board are practically the same as those contained in the original appropriation to this Board for the year 1897, with certain exceptions, viz.:

Biennial School Census.....	\$3,000 00
Libraries.....	8,000 00
Total.....	\$11,000 00

The appropriation for Biennial School Census is not required in the year 1898, and is, therefore, eliminated. The appropriation for Libraries was erroneously computed and certified by the State authorities in 1897, as amounting to \$20,438.06 instead of \$12,438.06, hence a surplus of \$8,000 of appropriation of 1897, which has not been repeated for 1898 by the Board of Estimate and Apportionment in the Provisional Estimate. In column two of the next succeeding statement (Schedule B), the amounts provisionally named by the Board of Estimate and Apportionment may be found, excepting the funds concerning which the foregoing explanation applies.

The following comparative statement is herewith submitted, showing the Estimate of the Board of Education (as amended to date), together with a comparison with net appropriations for the year 1897, with differences of transfer, increases and decreases, noted:

SCHEDULE B.

Statement Showing by Comparison the Estimate of the Board of Education for 1898 (as amended) and the Appropriations by the Board of Estimate and Apportionment for the Year 1897—Differences Noted.

The Committee believes that the present is an opportune time to present reasons in support of the allowances requested and therefore submits herewith, in consecutive form, its views and explanations on the various items of the estimate.

No. 1. Salaries of Teachers in Public Schools and of Supervisors of Special Branches:
Required..... \$4,594,488 90
Provisional Estimate..... \$3,965,460 80
Being same amount as allowed in 1897.

Transfers, 1897..... 37,000 00

Appropriation in 1897..... 3,928,460 80

Increase..... \$666,028 10

On July 14, 1897, this Board adopted an entirely new plan or schedule of salaries, which plan combines both the features of length of service and merit and fitness in its component parts.

The salaries heretofore paid to teachers had been based mainly on the attendance of pupils, and not so much on merit, fitness and long service. The new scheme of salaries is believed to be destined to prove of much benefit to the school system, and to practically eradicate any injustice which the old plan of salaries has, in some instances, effected. Briefly speaking, the schedule and plan is as follows, so far as effects the year 1898:

Principals—Men, minimum.....	\$2,750 00
Increasing by length of service and enlarged supervision to.....	3,500 00
Principals—Women, minimum.....	1,800 00
Increasing by length of service and enlarged supervision to.....	2,700 00
<i>Teachers—Men.</i>	
Probationary year.....	720 00
Grade 1, minimum salary.....	1,080 00
Grade 2, after three years in Grade 1.....	1,350 00
Grade 3, after two years in Grade 2.....	1,620 00
Grade 4, after two years in Grade 3.....	1,890 00
Grade 5, after two years in Grade 4.....	2,250 00
<i>Teachers—Women.</i>	
Probationary year.....	504 00
Grade 1, minimum salary.....	576 00
Grade 2, after three years in Grade 1.....	756 00
Grade 3, after two years in Grade 2.....	936 00
Grade 4, after two years in Grade 3.....	1,116 00
Grade 5, after two years in Grade 4.....	1,350 00

All women teaching boys' classes or mixed Grammar classes, \$72 per annum to be added to the grade salary.

All women teaching mixed Primary classes, \$36 per annum to be added to the grade salary.

The main features of the new scheme are indicated above, except that it should be stated that such teachers as are now in the system and receiving less than \$576 per annum will be advanced to \$576 without examination, and such teachers as are now receiving \$933 per annum will be placed in the \$936 grade without examination. All others will be subjected to such examination, as to their merit and fitness, as the Board may in its wisdom in the future deem requisite under the circumstances.

Any teachers whose salaries on January 1, 1898, shall in amount come between the salaries fixed for any two of the said five grades, and who shall have served at that salary for at least the length of time specified as applicable thereto, may apply for and receive the salary in the schedule which is next above his or her present salary, upon passing the examination to be hereafter prescribed.

The necessity of a readjustment of salaries has long been obvious, and the matter is recommended to the care and consideration of the Board of Estimate and Apportionment, in the belief that, all things considered, if carried out in its entirety, it will prove of great benefit to the school system and school teachers alike.

The change is equivalent to an all-round increase of about 73 1/4 per cent.

The total increase in the item for salaries for 1898 over the appropriation for 1897 is explained as follows in round figures:

New Schools and increased attendance	\$207,000 00
High Schools—	
For schools established and for salaries of teachers in three annexes to be opened in 1898	\$183,333 00
Changes in salary schedule incidental to new plan	309,000 00
Vacation schools	10,000 00
	\$709,333 00
Deduct probable surplus of the 1897 appropriation	43,000 00
	\$666,333 00

No. 2. Salaries of Janitors in Public Schools:

Required, \$318,608; net appropriation for 1897, \$278,250; increase, \$40,358.

The increase of \$40,358 is explained as follows:

New schools, etc., to be opened in 1898	\$26,521 00
New schools, etc., opened between time of presentation of Budget and end of 1897 ..	10,753 00
New Annexes (3) for High schools	1,484 00
Watchmen	1,600 00
	\$40,358 00

No. 3. Salaries of Teachers and Janitors in Evening Schools:

Required, \$204,440; net appropriation for 1897, \$182,542.03; increase, \$21,897.97.

During the year 1897 five additional Evening Schools have been opened, comprising two for males, two for females, and one High School for females. In addition to these schools being opened, the subjects of Cooking and Sewing have been introduced into the Evening Schools for females, with excellent results. The attendance at the commencement of the fall term in 1897 was a considerable increase over that of 1896. The changes and improvements during the year 1897 have rendered it necessary to obtain two large transfers through the Board of Estimate and Apportionment with which to augment the fund.

No. 4. Salaries of Officers and Clerks, and other employees of the Board of Education:

Required, \$72,500; net appropriation for 1897, \$63,000; increase, \$9,500.

Explained as follows:

Present pay-roll (annual rate)	\$66,144 00
Additional assistance in office of Superintendent of School Buildings	1,600 00
Increase the salary of Deputy Superintendent of School Buildings from \$2,500 to \$3,000	500 00
Increase the salary of Sanitary Assistant from \$2,000 to \$2,500	500 00
Additional assistance in office of City Superintendent	2,600 00
Additional assistance in office of Clerk of the Board	1,156 00
	\$72,500 00

The changes in the school system incidental to the abolition of the Trustee System, and the carrying into effect of the new school act, has rendered necessary the employment of additional help. The enlargement of the general expenditures and business of the Board incidental to the acquisition of new sites, the erection of new buildings and the additions and repairs thereto, the new method of appointment of Teachers, etc., has taxed the energies and time of the managing and clerical force of the Board to a great extent, and it is strongly recommended that the additional allowance asked for be made by the Board of Estimate and Apportionment.

No. 5. Salaries of the Board of School Superintendents:

Required, \$92,500; net appropriation for 1897, \$72,500; increase of \$20,000.

The Board of Superintendents has applied to the Committee on Instruction, and also to the Committee on Finance, for an increase of \$1,500 for each of the Assistant Superintendents and \$2,500 for the City Superintendent. The sum of \$20,000 will be sufficient for this purpose providing the increased salaries go into effect March 1, 1898. The Board of Education sees no objection in making this request in order that there may be the necessary funds in case the School Board of the Boroughs of Manhattan and Bronx should grant the increase in salaries asked for.

No. 6. Enforcement of the Act, chapter 671, Laws of 1894, etc.:

Required, \$33,000; appropriation for 1897, \$25,025; increase, \$8,775.

The salaries of 20 Attendance Officers amount to

The cost of support of maintenance of the Truant School, established in 1897, at No. 215 East Twenty-first street, amounts to	\$9,800 00
	\$33,800 00

The establishment of the Truant School has been attended with beneficial results, and fully warrants the expenditure of the small sum necessary to maintain the institution.

No. 7. Support of Nautical School, etc.:

Required, \$31,810; no increase is asked.

No. 8. Supplies, Books, Maps, Stationery, etc.:

Required, \$542,691.78; net appropriation for 1897, \$320,616; increase, \$222,075.78.

The following figures show the objects for which this money is to be expended, together with the items of increase over the appropriation for the year 1897:

The register attendance for the year 1898 is estimated at 236,864—219,000 Grammar and Primary; 14,364 Evening School and 3,500 High School pupils, at an average cost of about \$2.29 per pupil, which includes the following items:

Estimated amount of supplies required for schools now in operation for the year 1898:	
Text books for Grammar and Primary and Evening Schools	\$150,989 00
Copy books	22,815 00
Stationery, which includes all kinds of blanks, pads, manila paper as a substitute for slates, bookkeeping blanks, pens, pencils, etc., etc.	51,888 00
Supplies for Manual Training Schools, Kitchens, and Kindergartens as established in 1897 and now in operation	55,422 00
Miscellaneous supplies, which include basins, blackboards, compasses, sponges, rulers, pitchers, thermometers, etc., etc., etc.	8,333 00
Salaries and cartage at present paid	9,169 00
Janitors' supplies	22,000 00

Total as expended in 1897

Eighteen new schools and additions, with 420 class-rooms to accommodate 17,775 pupils, at an average cost of \$2.94 1/2 per pupil	\$52,346 25
Five new Evening Schools to accommodate 2,500 pupils, at an average cost of \$2 per pupil	5,000 00
Twenty-five new Kindergartens, at \$250 each	6,250 00
Eight new Work-hops, at \$550 each	4,400 00
Eight new Kitchens, at \$350 each	2,800 00
Books, laboratories, stationery, etc., for High Schools	\$42,000 00
Books, laboratories, stationery, etc., for three annexes to High Schools	34,000 00
	76,000 00
To complete the introduction of Manual training into all the schools ..	66,352 78
To complete the introduction of Sewing into all the schools	5,086 75
Extra help and cartage on account of new schools, etc	3,840 00
	222,075 78

Total for 1898

Attention is called to the fact that a large proportion of the increase is occasioned by the establishment of manual training in all schools, also the organization of three High Schools in the year 1897, and the necessity for the establishment of three annexes additional thereto, provision for which last mentioned is also made in the estimate.

No. 9. Rents of school premises, etc.:

Required, \$115,707; net appropriation for 1897, \$89,062.97; difference, \$26,644.03.

The rentals now paid amount to

Additional:	
For rent of three annexes for High schools	9,000 00
For additional temporary school accommodations in 1898	10,920 00

Required for 1898

Net appropriation for 1897

Increase

In connection with the rent appropriation, the Committee would specially call attention to the fact that a large decrease will occur in the next request of the kind to the Board of Estimate and Apportionment, owing to the fact of the opening of new school buildings and the relinquishing at the end of 1898 of the annexes to the Hall of the Board of Education, which now cost \$9,550 annually.

No. 10. Fuel for all the schools and the Hall of the Board of Education:

Required, \$137,323; net appropriation for 1897, \$118,475; increase of \$18,848.

It is estimated that about four thousand tons of coal and one hundred cords of wood will be required for 1898, additional to the quantity now being annually used, or a total of about 30,000 tons. The introduction of improved heating apparatus affects considerable saving in the quantity of wood being used, about forty cords. The prices have been approximately placed at \$4.28 per ton of coal and \$7.68 per cord of wood. The rates placed in the estimates are as low as will be safe to figure on. The prices paid during the last six years for coal were as follows:

1892 to 1893	\$4.64	per ton of 2,240 lbs. delivered at school buildings into bunkers.
1893 to 1894	4.76	"
1894 to 1895	4.41	"
1895 to 1896	3.96	"
1896 to 1897	4.23	"
1897 to 1898	4.28	"

No. 11. Gas for all the schools and Hall of the Board of Education:

Required, \$50,000; allowed, \$45,000; increase, \$5,000.

The amount, \$5,000, is little more than 11 per cent. over the 1897 appropriation, and covers new schools and additional expense incidental to the free lecture course which it is proposed to extend.

No. 12. Incidental Expenses of the Board of Education:

Required, \$25,800; net appropriation for 1897, \$22,500; increase \$3,300.

The increase is occasioned as follows:

To meet the increasing demands upon the fund for printing and incidental expenses of the Board, owing to enlargement of business	\$2,500 00
For a team of horses, wagon, harness, etc., to replace	800 00
Total	\$3,300 00

No. 13. Incidental Expenses of Evening Schools:

Required, \$1,500; net appropriations for 1897, \$1,500; no increase is asked.

No. 14. General Repair Fund.

Required, \$501,121.99; net appropriations for 1897 aggregated \$477,427; increase of \$23,694.99.

The increase is practically incidental to the establishment of the High Schools, and the three annexes thereto. The items of expenditure applicable to the Grammar and Primary Schools are about the same in the aggregate. It is believed that the consolidation of all the repair funds under one head will result in considerable benefit, both in simplicity of administration as well as in some saving of money. It will now be possible to let contracts applicable to one building, which may contain all manner of repair work, and in this way it is anticipated some saving will occur.

No. 15. Pianos and repairs of:

Required, \$7,000, which amount is the same as allowed in 1897.

This money is intended to be expended as under:

Twenty upright pianos for kindergartens	\$5,000 00
New square pianos for old schools	1,500 00
Repairs to old pianos	500 00
Total	\$7,000 00

No. 16. Furniture and repairs of:

Required, \$48,445; appropriation for 1897, \$50,000; a decrease of \$1,555.

The items of expenditure are fully set forth in the printed estimate heretofore submitted, the only item of change being an amount recently inserted (\$9,000) for fitting up three annexes to the High Schools to be opened in 1898.

No. 17. Corporate Schools:

Required, \$125,000; appropriated for 1897, \$120,033.03; increase of \$4,966.97.

At the time of the first presentation of the Budget, it was explained that the correct computation of the amount of this fund is based upon the State Apportionment of school moneys, and the declaration of the taxable value of real and personal estate in New York City. The necessary information has not yet been received from the State Superintendent; it is therefore impossible at this time to present other than a nominal amount. It is recommended that the amount asked for (\$125,000) be allowed in order to preclude any complication which might arise in the matter of a transfer in the early part of 1898, the first payment to the Corporate Schools becoming due at the end of the month of April.

No. 18. Lectures to Workingmen and Workingwomen—Free:

Required, \$60,200; appropriation for 1897, \$40,000; increase of \$20,200.

The sum of \$20,200 (additional to the amount of the former appropriation, \$40,000) is requested to meet the rapidly growing demands for extension of the popular lecture course, and while the granting of an increased appropriation is not a peremptory necessity, the expediency and usefulness of this form of education is demonstrated by the desire of the people to attend these lectures and the fact that numbers have often to be refused admission through lack of room.

No. 19. Transportation of pupils in the Twenty-third and Twenty-fourth Wards:

Required, \$6,400.

No increase is asked over the appropriation for 1897, which is still necessary, owing to the distances between school buildings in the large territory north of the Harlem.

No. 20. Libraries:

Required, \$12,438.06.

The amount inserted in the estimate is nominal, and is the same as allowed for 1897. The correct figure is based upon the amount allowed by the State (pursuant to the provisions of chapter 573 of the Laws of 1892 as amended. In the absence of an apportionment by the State Superintendent, it is impossible to do otherwise than insert an amount tentatively.

No. 21. Placing fire-alarm telegraph wires in the subways:

Required, \$5,000; net appropriation for 1897, \$24,200; decrease of \$19,200.

The amount inserted in the estimate—\$5,000—is a nominal one, placed there in order to comply with any direction which may be made by the Fire Department during the year 1898 requiring changes and additions to the fire-alarm service. The sum is not based upon any actual facts known at this time.

In general conclusion, the Committee would call attention to certain facts:

Estimate for 1898, as first submitted	\$6,843,450 73
Estimate for 1898, amended to date	6,986,773 73
Appropriations for last year (1897)	5,931,239 89
Increase of estimate for 1898 over appropriation for 1897	1,055,533 84

Comparison with former years:

The following statement is an exhibit for six years of the annual net increase in the funds required for school purposes:

1893 over 1892	\$76,474 59
1894 over 1893	109,304 04
1895 over 1894	328,288 87
1896 over 1895	716,879 45
1897 over 1896	361,248 30
1898 over 1897	1,055,533 84

The following table from 1891, inclusive, exhibits the average attendance and increase, together with the percentage of increase, to which is added the money apportioned annually to the schools and the per capita result:

YEAR.	AVERAGE ATTENDANCE.	INCREASE OF ATTENDANCE.	PER CENT OF INCREASE.	SCHOOL MONIES.	PER CAPITA.
1891.....	137,849	1,223	1.25	\$4,267,367 00	\$30 95
1892.....	141,508	3,659	2.59	4,448,355 00	31 43
1893.....	146,070	4,562	3.22	4,524,830 00	30 98

1896.....	175,000	11,661	7.14	5,670,302 00	32 45
1897.....	*183,000	8,000	4.57	5,931,239 89	32 41
1898.....	*195,000	12,000	6.55	6,986,773 73	35 83

* Estimated.

The Committee would state in connection with the insertion of estimated figures for the years 1897 and 1898, that so far as 1897 is concerned, results will fully equal expectations, as the average attendance for October, 1897, was about 186,000.

The following resolution is submitted for adoption:

Resolved, That the Estimate of the Board of Education, being the amount of money required to be expended for school purposes during the year 1898, be amended, by increasing the amount thereof from six million eight hundred and forty-three thousand four hundred and fifty 73-100 dollars (\$6,843,450.73) to six million nine hundred and eighty-six thousand seven hundred and seventy-three 73-100 dollars (\$6,986,773.73), and that a printed copy of the foregoing report be transmitted to the Board of Estimate and Apportionment.

GAS COMMISSION.

WEDNESDAY, December 29, 1897.

The officers designated in section 69 of the New York City Consolidation Act met in the office of the Mayor at 12.30 P. M., Wednesday, December 29, 1897.

All were present, viz.:

Hon. William L. Strong, Mayor; Ashbel P. Fitch, Comptroller, and Charles H. T. Collis, Commissioner of Public Works.

The Secretary presented an affidavit of Henry McMillen, Supervisor of the City Record, that an advertisement inviting bids or estimates for the lighting and maintenance of the public lamps of the City of New York for the period of one year, commencing on January 1, 1898, and ending on December 31, 1898, has been regularly published in the CITY RECORD ten consecutive days, commencing on the 16th day of December, 1897.

Which was ordered on file.

The Secretary reported that certified checks and cash had been received from sixteen bidders. The estimate box was then opened, and eight bids for electric lighting and eight bids for gas lighting were found there in which were read by the Comptroller, as follows:

The Brush Electric Illuminating Company of New York bid for 975 lamps at 40 cents each per night, and 91 lamps at 45 cents each per night.

Mount Morris Electric-light Company bid for 630 lamps at 40 cents each per night, and 194 lamps at 45 cents.

Manhattan Electric-light Company of the City of New York bid for 840 lamps at 40 cents each per night; 10 lamps at 50 cents each per night, and 100 incandescent lamps on Park avenue at \$22.50 each per year.

The Harlem Lighting Company of the City of New York bid for 66 lamps at 40 cents each per night, and 19 lamps at 50 cents each per night.

Edison Electric Illuminating Company of New York bid for 363 lamp-posts, with two lamps on each post, at 50 cents per night, and 524 lamps at 40 cents each per night.

North River Electric-light and Power Company bid for 1,052 lamps at 45 cents each per night.

The Pelham Electric-light and Power Company bid for 30 lamps on the Pelham or Shore road and 65 lamps on City Island, and on the road to Bartow, a total of 95 lamps, at 40 cents each per night, and if incandescent lamps were desired in East Chester or Wakefield districts, which are now lighted by naphtha lamps, they would furnish 25 candle power lamps at \$22.50 per year, or if arc lamps are desired there they will furnish them at 40 cents each per night.

The Bronx Gas and Electric Company bid for 65 lamps on City Island and the road to Bartow and for 30 lamps on the Pelham or Shore road at twenty-five cents for each lamp per night.

Mr. Joseph I. Green, of No. 280 Broadway, N. Y. City, attorney for the Pelham Electric-light and Power Company, then addressed the Board and made a protest against the consideration of any bid of the Bronx Gas and Electric Company for the reason, as stated by him, that the company had been enjoined by the Supreme Court from erecting poles or wires in the section bid for.

Mr. George E. P. Howard, attorney for the Bronx Gas and Electric Company, then addressed the Board in behalf of the said company, and stated that the injunction referred to by Mr. Greene had been appealed from and was to be argued before the Appellate Division, and he also read extracts from the rules and regulations of the Board of Electrical Control by which an electric light company was bound to transfer to any other company who should receive a contract from the City the poles and wires on payment being rendered for the same. The Board then considered the matter, and

On motion of the Comptroller, the bid of the Bronx Gas and Electric Company was rejected, the Mayor, Comptroller and Commissioner of Public Works voting in the affirmative.

The several envelopes for gas lighting were then opened, and the Comptroller read the following bids:

THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with sufficient sureties, each in the penal amount of fifty (\$50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for his faithful performance, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract.

Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and let as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department, or, in the absence of samples, to the printed specifications. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the Department, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.
