Whereas, In the sudden and unexpected death of Hon. Randolph Guggenheimer The City of New York and the nation at large have been deprived of a virile, upright and progressive man, a type of the best citizenship of the country, a profound lawyer, a deep thinker. With a kindly, modest nature underlying a calm, dignified exterior, he took an active and a patriotic interest in the affairs of his adopted city for nearly forty years. Foremost in good works, with a hand ever open to charity, which he sought to conceal, his abrupt taking away casts a deep gloom over the metropolis. He leaves behind him an honored name, and his career will be an incentive to struggling youth all over this land. His deep and continuously active interest in the educational affairs of The City of New York has borne fruit in many improved facilities for the young. His four years' service as President of the First Council of Greater New York was marked by dignity, ability, tact and a thorough familiarity with the requirements of that high office. As Acting Mayor of The City of New York from time to time he brought to the discharge of his duties the fruits of a scholarly mind. His broad, liberal disposition won for him friends among all creeds and all races. He was alert, manly, brave and simple. His name will long be honored, venerated and preserved as one of the greatest citizens of this metropolis; therefore be it

Resolved, That we, the members of the Board of Aldermen of The City of New York, mindful of the great loss sustained by our people in the death of Hon. Ran-

dolph Guggenheimer, herein and hereby record our profound grief at his death and tender to his surviving relatives our sincerest sympathy in their bereavement; that a copy of these resolutions, suitably engrossed and duly authenticated by the City Clerk, be transmitted to the family of the deceased; and be it further

Resolved, That, as an additional mark of respect, this Board do now adjourn.

Adopted by the Board of Aldermen, September 17, 1907.

Approved by the Mayor, September 24, 1907.

On motion, the following resolution was unanimously adopted:

Resolved, That the Art Commission hereby disapproves the designs for drinking fountains represented by Exhibits "289-A," "289-B" and "289-C," of record in this matter; and that the action of the Commission be certified, with return of duplicates of exhibits herein noted, to Hon. Submission 609.

The Committee on Mott Avenue Bridge presented the following report upon designs submitted (on request of the Mayor) by the New York Central and Hudson River Railroad Company:

"Your Committee on Mott Avenue Bridge, Submission 609, begs to report that it does not seem advisable to criticize the iron trusses of this bridge as there are others of somewhat similar construction in close proximity. The upper part of the structure, however, may properly be considered a feature of the landscape and the iron railing is not acceptable.

Submission 610.

The Committee on Police Headquarters Interior Decoration presented the following report upon designs submitted (on request of the Mayor) by Mr. F. L. V. Hoppin, architect:

"Your Committee on Police Headquarters Interior Decoration, Submission 610, begs to report that the color scheme asked for at the last meeting of the Art Commission has not been submitted. The various colors are simply marked in ink upon the drawings and indicate a too great variety of color. It is important that a color scheme showing the exact colors to be used should be submitted to the Art Commission before final action is taken.

"Your committee, therefore, recommends disapproval of the designs submitted."

The report was received and ordered placed on file.

On motion, the following resolution was unanimously adopted:

Certificate 614.

Resolved, That the Art Commission hereby disapproves the designs for the interior decoration of the Police Headquarters Building, Manhattan, represented by Exhibits "108-Z," "108-AA," "108-AB," "108-AC," "108-AD," "108-AE," "108-AF," "108-AG" and "108-AH," of record in this matter; and that the action of the Commission be certified, with return of duplicates of exhibits herein noted, to Hon. Whereas, Each of said buildings can be constructed more cheaply and completed in less time under agreement than by formal contract, for the reason that the time necessarily involved in printing, advertising and awarding said contracts in the customary method will delay the time for commencing the work in each case, which time should be used to better advantage; and

Whereas, The work contemplated in the case of each building will not cost over \$5,000; and

Whereas, It is the judgment of this Board that it is for the public interest that such work shall be done; therefore

Resolved, That this Board, pursuant to the recommendation of the Chief Engineer in his communication No. 1100, August 19, 1907, and under and by virtue of the power vested in this Board by section 34 of chapter 724 of the Laws of 1905, authorize the making of an agreement without public letting for the construction of an office building for Section 1, Esopus Division, Northern Aqueduct Department, in Davis Corners, Olive Township, Ulster County, New York, and an agreement for the construction of an office building for Section 2 of said Division and Department, near Atwood, Marletown Township, Ulster County, New York, and an agreement for the construction of an office building for Section 3 of said Division and Department, near Stone Ridge, Marletown Township, Ulster County, New York; and that the Chief Engineer be instructed to secure bids for each of said agreements and to submit the same to this Board, inclosed in the original envelopes, sealed and unopened, in which the same are submitted, together with form of agreement in triplicate.

Whereas, It is necessary to establish field forces in the Esopus Division, Northern Aqueduct Department, on the line of the Catskill Aqueduct, and to erect temporarily, for use until a permanent building is constructed, an office building for the use of such forces at the earliest possible date; and

Whereas, Such temporary building can be constructed more cheaply and completed in less time under agreement than by formal contract, for the reason that the time necessarily involved in printing, advertising and awarding the contract in the customary method will delay the time for commencing the work, which time should be used to better advantage; and

Whereas, The work contemplated will not cost over \$5,000; and

Whereas, It is the judgment of this Board that it is for the public interest that such work shall be done; therefore

Contract No. 3.

The Chief Engineer, to whom, on August 7, 1907, the matter of the qualifications of the various bidders for this contract had been referred for report, submitted his communication No. 1117, dated August 21, 1907. The Committee of the Whole, to whom, on August 7, 1907, the award of this contract was referred, reported as follows:

"Contract No. 3.

"The Commissioners of the Board of Water Supply, as a committee of the whole, to which was referred the proposals submitted for Contract No. 3, after carefully considering all phases of this matter, report as follows:

"The question regards the construction of a dam which shall hold water, which involves a special form of construction requiring expert knowledge and experience and the details of which must be rigidly insisted upon.

"The cost of the work, as separately and independently estimated by the Chief Engineer, two designing Engineers and an Assistant Engineer, is shown to be over \$2,000,000 more than the bid of the lowest bidder. These estimates of the engineering department are confirmed by the bids of four of the five bidders, each one of whom has had more or less experience in this particular kind of work. In an analysis of the bid of the lowest bidder, his figures on masonry work, with which he is familiar, are approximately correct, according to the best evidence obtainable, but in the items of excavation and embankment his figures are over \$2,000,000 less than the next lowest bidder.

"In regard to their bid, Mr. Pierce, of the John Pierce Company (the lowest bidder), states that in the matter of excavation and embankment for reservoir construction, his company has had no experience, that they were dependent upon others for their figures; that upon investigation he can procure no figures on these items to protect their proposal, and that upon rechecking his figures he finds that the estimate is too low to do satisfactory work for himself or the City. Therefore, the estimate of the Engineering Department and four bidders out of five is practically confirmed by the statement of Mr. Pierce himself, and there is no other conclusion to be reached, in the light of this evidence, than that the bid of the lowest bidder is much below the necessary cost, besides being concededly based upon lack of knowledge and experience as to excavation and embankment items.

"Chapter 724, Laws of 1905, section 29, says:

"* * * the said bids or proposals shall be publicly opened by the said board of water supply and it may select the bid or proposal, the acceptance of which will, in their judgment, best secure the efficient performance of the work."

"To best secure the efficient performance of this work it is necessary that the Board of Water Supply should take into consideration every phase of the question, the elements of which are: Financial standing, knowledge, experience and such a margin for profit as will secure willingness and ability to continue the work to its conclusion with essential speed, the absence of any one or more of these elements being vital. Therefore, in the case of the lowest bidder, the absence of the elements of knowledge and experience in the matters of excavation and embankment for reservoir construction, and the evidence showing lack of margin for legitimate profit, is deemed sufficient, in the interests of the City, to recommend the rejection of that bid.

"Your committee therefore recommends, in view of the report of the Chief Engineer and the reasons set forth therein, and the answers to questions submitted to each one of the three Consulting Engineers, Messrs. Freeman, Burr and Stearns, which are herewith submitted and which concur, supported by such additional thought and judgment as it itself has been able to bring to bear upon this subject, that Contract No. 3, for the construction of the Ashokan Dam be awarded to MacArthur Brothers Company and Winston & Co., at their bid, which on the assumed basis of quantities amounts to \$12,669,775, the committee having satisfied itself as to the financial standing, knowledge, experience and ability of said company to do the work.

Respectfully submitted,
