Synopsis of Proceedings.

A meeting of the Board of Trustees of Bellevue and Allied Hospitals was held on Tuesday, December 5, 1911. Present—Dr. Brannan, the President, in the chair; Messrs. O'Keefe, Paulding, Robbins, Sachs, and Stern, Trustees; and Mr. Drummond, Commissioner of Public Charities. Excused—Mr. Farley.

The minutes of the meeting of November 21, a copy of which had been sent to each member, were held as read and approved.

Bills, amounting to \$19,814.28, were presented for approval, and were authorized to be forwarded to the Comptroller for payment.

Dr. George O'Hanlon, the General Medical Superintendent, reported as follows: It is respectfully reported that Minnie Ransom, a pupil nurse, was transferred on November 22 to the Minton Hospital suffering from diphtheria.

It is respectfully recommended that Dr. Theron J. Vosburgh be appointed Resident Physician on the alcoholic service, as successor to Dr. Bishop, resigned, and that application be made to the Civil Service Commission for approval of this appointment without examination; also that of Dr. Miner C. Hill as Resident Physician on the children's service. Dr. Hill has been acting as Resident Physician for several months. Beginning on January 1, his name will appear upon the regular pay-roll, and the approval of his appointment by the Civil Service Commission will be necessary.

Further investigation has been made of the moorings of the boat "Westfield." A communication has been received from the Department of Docks and Ferries, and in their opinion it is unnecessary at the present time to replace the piling. Mr. Harkins visited the boat with a representative of that Department, who stated that with new ropes attached to the piles which are there at present the boat will be secure for such length of time as it will be in use. He further states that the hull of this boat is in such condition that the length of time that we will be able to use it is very uncertain, and that in his opinion it would not be wise to expend any further money upon the same. In view of this report, it is recommended that the condition of this boat be thoroughly examined, and that if it is unsafe and beyond repair some action be taken either to abandon it altogether or to replace it.

It has long been the custom for several of the departments, principally the psychopathic, alcoholic and prison wards, out patient department, and tuberculosis division of the social service bureau, to submit monthly reports directly to the Medical Board. It is recommended that in the future these reports be submitted to the General Medical Superintendent, and by him transmitted to the Medical Board.

It is requested that a revision of schedules be made to cover the employment of additional Nurses at Gouverneur Hospital for the month of December, in anticipation of the taking over of the nursing service at Gouverneur on January 1. This involves the transfer of \$348.32.

A communication has been received from Dr. Gregory, Resident Alienist in charge of the alcoholic service, in which he makes the following suggestions for the betterment of this service:

First—That the structural changes which are still under way in ward 34 be completed as soon as possible;

Second—That suitable provision be made for the care of the critically ill and delirious patients in ward 30 by providing for these patients and for those in ward 3 in some part of the hospital that is now used as a ward or for some other purpose;

Third—That a clerk be provided whose duty it shall be to keep the records and do such other work as may be assigned to him by the Physician in charge;

Fourth—That two additional Internes be provided for this service to serve for a period of six months;

Fifth—That an additional salaried Assistant be allowed for this service at the rate of \$600 per year;

Sixth—That a request be made to the Board of Magistrates, or the Chief Magistrates, to have one of their body visit the prison wards at stated periods and dispose of such cases as may be submitted for their consideration;

Seventh—That action be deferred in the matter of excluding so-called "rounders" pending a further report from Dr. Gregory, waiting action by the newly created Board of Inebriety in this matter.

Practically all of the matters contained in this communication have been discussed with Dr. Gregory, and the plans for the greater part of them have been definitely worked out.

The transfer of Miss Ransom to the Minton Hospital was approved.

The recommendations in regard to Dr. T. J. Vosburgh and Dr. M. C. Hill were approved.

The General Medical Superintendent was directed to arrange for a thorough examination of the day camp "Westfield" and to report at next meeting.

The recommendation of the General Medical Superintendent in regard to the reports to the Medical Board was adopted.

It was resolved, to request the Board of Estimate and Apportionment to revise the salary schedules as recommended by the General Medical Superintendent.

All the suggestions contained in the report in regard to the alcoholic service were approved, and the General Medical Superintendent was directed to take the necessary steps to put these into effect.

Reports of Committees.

The President reported the progress which had been made in regard to the preparation of the plans for the extension of Harlem Hospital, and stated that Dr. Goldwater had expressed a desire to resume his duties and his willingness to review these plans and any other plans before the Board, in addition to those of the new Bellevue Hospital.

It was resolved, to ask Dr. S. S. Goldwater to resume his duties as Expert on Hospital Construction, upon the same terms and conditions as before, on January 1, 1912, or as soon before that as possible, and to request his advice and assistance in the preparation of the plans for all the construction work now contemplated by the Board.

The President reported an interview which he had had with the Comptroller and Borough President of Manhattan in regard to the purchase of additional land as a site for a dispensary, power plant and Nurses' residence for Gouverneur Hospital, and stated that in accordance with the suggestion made by the Comptroller he had requested that the sum of \$50,000 be transferred from an unexpended balance in the appropriation for Pavilions L and M to a new fund to be established for the purchase of a site for the purpose referred to. This action was approved.

The Committee on Supplies submitted a list of bids received on November 28 for meats, fruits and vegetables, and surgical supplies required for the remainder of the year 1911. It was resolved that the lowest bid be accepted in each instance.

The President submitted a list of bids received on December 5 for the installation of machinery in the new laundry building at Bellevue Hospital, as follows:

	Removing Old		Total.
	Furnish- ing and In- stalling New Machinery.	Machinery and Setting Up in New Laundry.	
American Laundry Machinery Company.....	\$53,382 00	\$7,815 00	\$61,197 00
Troy Laundry Machinery Company.....	56,493 00	8,750 00	65,243 00

It was resolved to defer action on these bids until next meeting.

A communication, dated December 1, was received from Dr. Joseph W. Walsh, Dean of the Fordham University Medical School, embodying the points submitted by him verbally at last meeting in regard to the facilities for clinical instruction at Fordham Hospital. Dr. Healy, President of the Medical Board, together with Dr. Higgins

and Dr. Welch, appeared before the Board in regard to this communication, and stated that it was the desire of the Medical Board of Fordham Hospital that every possible facility for teaching should be granted the Fordham Medical College, but recommended that the power of appointment of members of the visiting staff should not be granted the college. These members of the Medical Board also referred to the duties and responsibilities of students who act as clinical clerks or surgical dressers, and Dr. Harry Moses, House Surgeon on the First Division, was called and reported the practice in regard to these clerks and dressers at Bellevue Hospital. It was resolved to defer action thereon until next meeting.

At this point the President left the meeting and the chair was occupied by Mr. O'Keeffe.

Communications.

Communications were received from McKim, Mead and White, dated November 23 and December 4, relative to the question of which section of the new Bellevue Hospital should be built next, in order that provision therefor could be made in the corporate stock budget. The communications indicated that there were many factors to be considered before a decision could be reached, and they were therefore referred to the Building Committee for recommendation.

Two communications, dated November 23 and 25, were received from R. F. Almirall, transmitting plans and specifications for the proposed Nurses' residence at Harlem Hospital. It was reported that these had been reviewed by the President, the Chairman of the Building Committee, and the various officers of the hospital, and that they had also been examined by Mr. Frees, Inspector of Construction. A report from Mr. Frees was received in regard thereto. It was resolved to approve the drawings and specifications, subject to amendments so as to include suggestions contained in Mr. Frees' report.

Communications dated December 1 and 4 were received from the H. C. Vogel Company, contractors for the installation of a sprinkler system in Bellevue Hospital, requesting an extension of time of thirty days on account of the delays occasioned by their desire to proceed with the contract with as little noise and inconvenience to the patients as possible. Granted.

The minutes of a meeting of the Board of Managers of the Bellevue Training School held on November 17 were presented. The resolution in regard to the instruction of Italian and German to Nurses was noted. It was resolved to reply that, while thanking the Board of Managers for the generous offer to defray the expenses of these classes, this would not seem to be necessary, in view of the resolution adopted by the Trustees on September 19, 1911, on this subject.

It was reported that the President, in accordance with a communication received from the Contract Clerk and Auditor on November 28, had requested the Comptroller to reduce the reserved balances on the six contracts named therein. The action of the President was approved.

A communication dated November 29 was received from the Contract Clerk and Auditor, transmitting a copy of specifications for Kasher meat required for the day camp "Westfield" during the year 1912. These specifications were approved, and authority was granted to advertise for bids.

A communication dated November 22 was received from Miss Blanche Potter, Chairman of the Women's Auxiliary of the Bellevue Tuberculosis Clinic, requesting permission to publish an advertisement for old clothing for tuberculosis patients. It was reported that the President, after reading this article, had approved the request. This was approved.

A communication dated November 29 was received from the Art Commission, transmitting certified copy of a resolution approving the designs for the extension of Harlem Hospital.

A communication dated November 29 was received from the Board of Estimate and Apportionment, transmitting certified copy of a resolution approving the plans and specifications for the construction of pavilions I and K of the new Bellevue Hospital. It was resolved to grant authority to advertise for bids for the construction of these pavilions.

A copy of a resolution adopted by the Board of Aldermen on November 14 was received, authorizing the purchase of an electric truck in the open market without public letting, at a cost not to exceed \$4,000. The General Medical Superintendent was authorized to arrange for the purchase of a truck accordingly.

The General Medical Superintendent presented a list of Special Nurses, who had been authorized at Bellevue Hospital from November 21 to December 4. The appointment of these Nurses was approved.

A communication dated December 4 was received from the Board of Estimate and Apportionment, transmitting certified copy of a resolution adopted by that Board on November 29, approving a report of the Chief Engineer of the Board of Estimate and Apportionment and the Superintendent of Buildings of the Borough of Manhattan dated November 23, relative to the changes recommended by the Fire Department, in order to secure better fire protection at Bellevue Hospital, referred to in the minutes of October 17, 1911. The report denied authority to make all the changes suggested by the Fire Department, particularly those affecting the old buildings. It was resolved not to ask for an appropriation with which to carry out the recommendations previously made by the Fire Department, and the General Medical Superintendent was directed to take the necessary steps at once to carry out the recommendations contained in the report of the Board of Estimate and Apportionment.

The General Medical Superintendent presented a communication dated December 5, received from the Contract Clerk and Auditor, stating that despite the appropriation of \$5,000 revenue bonds, provided by the Board of Aldermen to meet the deficit estimated in his communications of August 11 and 28, the books disclosed that there would still be a deficit of \$32,000 in the appropriations for the current year. The letter further recommended that a transfer of funds be requested as follows:

From		
241. Purchase of furniture and fittings, 1911.....	\$2,250 00	
246. Fuel, 1911.....	3,500 00	
	\$5,750 00	
To		
238. Materials for repair and replacement by departmental labor, 1911..	\$1,000 00	
242. Maintenance of auto ambulance, including equipment, care and storage, 1911.....	2,500 00	
244. Forage, shoeing and boarding horses, 1911.....	500 00	
245. Contingencies, 1911.....	1,000 00	
247. Telephone service, 1911.....	750 00	
	\$5,750 00	

This communication was referred to the Finance Committee, with power to request the transfer and an additional appropriation in Revenue Bonds in the amount which may be considered necessary after investigation.

The General Medical Superintendent also presented a communication dated December 5, from the Contract Clerk and Auditor, requesting a reduction in Contract No. 28,581 of \$1,350, and in Contract No. 30,546 of \$500. It was resolved to request the Comptroller to make the reductions referred to.

A communication dated November 27 was received from the Board of Managers of the Training School, in reply to the letter sent by the President on November 16, relative to the criticisms of the subjects discussed in the annual report of the Training School. This communication was referred to the President and Mr. O'Keeffe.

A communication dated December 4 was presented from the Anderson-Martin Electric Company, transmitting a sworn statement as to the fire in the factory of their sub-contractor, referred to at last meeting, and asking that an extension of time of five weeks be granted instead of three, as originally requested. It was resolved to grant the Anderson-Martin Electric Company an extension of time of thirty-five consecutive calendar days from the date set for the completion of their contract.

The minutes of the meeting of the Medical Board of Bellevue Hospital held on December 1 were presented. The reference to the loss of histories was referred to the General Medical Superintendent for his action; diplomas were authorized to be awarded to the retiring internes as recommended by the Medical Board.

A communication dated December 1 was received from McKim, Mead & White relative to the crooked trees planted at Bellevue Hospital by the Charles L. Doran Constructing Company. This communication was referred to Mr. Robbins with power.

Two communications dated November 23 were presented from the State Board of Charities, together with reports of inspections by that Board of the out patient departments at Harlem and Fordham hospitals. Copies of replies sent by the President on December 1 were presented and approved, and the reports were referred to the General Medical Superintendent with directions to take the necessary steps to correct the violations reported therein.

Unfinished Business.

Further consideration was given to the recommendation of the Medical Board of Gouverneur Hospital that an Interpreter be appointed at that hospital. It was resolved to deny this request, inasmuch as an investigation showed that there are now twenty-eight employees in Gouverneur Hospital who speak languages other than English and whose services as Interpreters could be secured at any time.

The recommendation of the Medical Board of Harlem Hospital that salaries be paid to the physicians in the out patient department was considered, and it was resolved to reply that, inasmuch as the Budget for 1912 has been established, it is impossible to do anything at the present time, and that the Trustees are not inclined to believe that it is necessary to pay salaries to men in the out patient department, and that the situation at Gouverneur Hospital, where salaries are paid, is very different from that in any of the other hospitals of the Department.

Mr. Paulding reported that since last meeting he had learned that the Medical Board of Bellevue Hospital as recently as August 1, 1911, sent to each member a copy of the rules regarding the admission of patients, and that therefore he had not taken action upon the resolution adopted at last meeting on this subject. The action of the Secretary was approved and it was resolved not to send the rules to the members of the Medical Board as was previously proposed.

Reference was made to the minutes of June 23, 1911, relative to the award of a contract to John T. Brady & Co., and it was reported that the architects had prepared and forwarded a form of agreement on August 31, 1911, and that the Corporation Counsel had advised that the correct procedure would be to write the contractors to the effect that the interpretations were as stated in the proposed supplemental agreement and to get an acknowledgment in writing from the contractors that they agreed to accept these interpretations. A copy of a communication sent to the contractors by the General Medical Superintendent on October 13 in accordance therewith was presented, together with a letter received from the contractors dated October 14, accepting this interpretation.

New Business.

It was resolved to request the Board of Estimate and Apportionment to transfer \$300 from an unexpended balance in the salary schedules to another fund, in order to provide an increase in salary for Mr. Dinwiddie, Investigator, as previously authorized.

Adjourned.

J. K. PAULDING, Secretary.

PUBLIC SERVICE COMMISSION.

INVITATION TO CONTRACTORS.

PART OF LEXINGTON AVENUE ROUTE.

The City of New York, acting by the Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct Section No. 2 of the Lexington Avenue Rapid Transit Railroad.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

SECTION No. 2. Beginning at a point under Broadway about seventy-five (75) feet south of the centre line of Park Place and extending thence northerly under Broadway to a point about ninety (90) feet north of the centre line of Walker Street; with a station at City Hall.

The general plan of construction calls for a subsurface railroad having four tracks. Turn-outs, cross-overs, connections and sidings, etc., will be constructed, all of which are more particularly indicated on the contract drawings. Bidders will not be required to do the station-finish work, nor to provide or lay tracks, ties or ballast.

The work of construction under the contract will include the construction of all necessary sewers and connections, along the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning where necessary, of all buildings, monuments, surface, subsurface and elevated railroads and other structures, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and the temporary paving and maintenance of roadways.

The method of construction will be by trench excavation (under cover, unless otherwise specified in the form of contract or permitted by the Commission). Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A full description of the work to be done is set forth and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders by payment of five dollars (\$5.00). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The Commission is informed by the Department of Docks and Ferries that docks and bulkheads along the East River may be available for dumping purposes. Information in regard thereto may be obtained by any intending bidder upon inquiry at the office of the Commission. Partial payments to the Contractor will be made monthly as the work proceeds as provided in the form of contract.

The Contractor will be required to complete the work as soon as practicable and within a period of forty (40) months. Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau Street, Borough of Manhattan, City of New York, until the 23d day of January, 1912, at twelve (12) o'clock noon, at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission. A statement, based upon the estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedules forming a part of the form of Contractor's Proposal. The quantities given in such schedules are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 5, Section No. 2," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in the City of New York, satisfactory to the Commission and payable to the order of the Comptroller of the City of New York for the sum of fifteen thousand (\$15,000) dollars. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the Contractor will be required to furnish security to the City by giving a bond for seventy-five thousand (\$75,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15%) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal the sum of Three Hundred Thousand Dollars (\$300,000). Thereafter there shall be so deducted and retained for such purpose ten (10%) per centum of the amounts certified from time to time to be due to the Contractor.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other Contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission, will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with. The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curbs in front of said buildings, extending within the described area buildings, shall be taken down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth. The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Depart-

ment of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
