NEW YORK, TUESDAY, AUGUST 6, 1901.

NUMBER 8,589.

DEPARTMENT OF HIGHWAYS.

Report for the Quarter ending March 31, 1901.

DEPARTMENT OF HIGHWAYS—COMMISSIONER'S DEFICE, I NOS. 17 TO 21 PARK ROW, NEW YORK, May 15, 1901.

How. ROBBET A. VAN WYCK, Mayor :

DEAR SIE-In accordance with section 1544 of the Greater New York Charter I submit the following report of the operations of the Department of Highways for the quarter ended March 31, 1001 :

HOROUGH OF MANI TAN.

Constrains were entered into as follows: 35 for flag
5 for fencing at an estimated cost of \$1,111,10, making a
pate estimated cost of \$0,131,74.

The contracts were completed as follows: 12 for paving and repaving, cost, \$401,890.62; 3
for regulating, grading, etc., cost, \$95,246.68, and 19 for fencing, cost, \$1,070.68, being a total
of fit contracts completed at an actual cost of \$500,052.60.

New presences were laid as follows: Asphalt, 2.97 miles, and asphalt blocks, 0.23 of a mile,
publicate total of 2.20 miles.

New pavements were laid as follows: Asphalt, 2.97 miles, and asphalt blocks, 0.23 of a mile, making a total of 3.20 miles.

The repair force took up and relaid 30.031 square yards of stone pavement and relaid and repaired a number of crosswalks at street intersections throughout the borough.

The following permits were issued: 34 to construct vaults, 49 to repair vaults, 9 to place guy posts, 159 to place tax kettles, 112 to place boilers on streets, and 5 to repair pavements at the expense of the applicants.

Work was in progress under 3 contracts for regulating, grading, curbing and flagging, ander 4 contracts for flagging, reflagging, curbing and recurring, and under 19 contracts for fencing vacant lots. The principal items of work done under these contracts were: 4,303 cubic yards with excavated, 11.118 cubic yards rock excavated, 27,802 square test flagging laid, 2,522 square test of flagging relaid, 6,054 linear feet of curb set, 115 linear feet curb reser, 3,102 linear feet fence built, 3,803 linear feet gutter paved, 1,457 cubic yards dry rubble masonry built, 1,582 linear feet guard rail placed, 1,080 linear feet from railing set, and 3,220 square yards of macadam pavement laid.

feet fence boilt, 3,893 linear feet gutter paved, 1,457 cubic yards dry rubble masonry boilt, 1,582 linear feet guard rail placed, 1,080 linear feet iron railing set, and 3,220 square yards of macadan pavement laid.

The Bureau of Streets and Roads has kept in fairly good order the 11.60 miles of macadan mixed and gravel roadways and the 33,26 miles of unpaved or dist roads under its charge. The numerous washouts caused by storms were repaired as promptly as possible, gutters were repaved, curbing reset and flagging laid where necessary, and snow and ice were removed from the roadways and sidewalks during the winter months.

The principal items of work done were : 12,124 square yards of macadam roadways repaired, 15,810 square yards of dirt roadways repaired, 15,810 square yards of crosswalks tormed with steam ashes, 795 miles of roadways cleaned, 776 miles of gutters cleaned, 245 ¼ miles of crosswalks cleaned, 91 basins cleaned, and 27 miles of sidewalks cleared of snow.

During the quarter 336 openings were made to lay and overhaul mains for electricity, gas, steam, water and sewerage, and 4,852 to lay and repair services. In addition to these, 371 openings were made to constitut and repair railways, making a toral of 5,619, which does not include openings made in the surfaces of pavements by the Department of Highways and by aspiralt parting companies.

The Bureau of Incumbrances received and attended to 598 complaints of obstructions, made 211 seizures and removals at incumbrances, issued 769 permits to place building material on attents, 163 permits to cross sidewalks, 125 permits to erect temporary sheds over sidewalks, and 4 notices to repair defective vault covers.

BOROUGH OF THE BRONX.

Three contracts for regulating and paving and 1 contract for regulating and grading were entered into at an estimated cost of \$45,299.72, and 2 contracts for regulating and grading were completed at a total cost of \$70,565.52.

At the close of the quarter work was in progress under 27 contracts for regulating and gradient, to contracts for regulating and paving, 2 contracts for viadacts or bridges and 2 miscellaneous contracts.

The principal items of work done under the regulating and grading contracts were: 9,252 cubic yards earth excavated, 10,984 cubic yards rock excavated, 76,948 cubic yards filling placed, 4,031 linear feet new curbstone set, 15,547 square feet new flagging laid, 724 square feet new bridgestone set, 1,286 cubic yards dry rubble masonry placed, 1,504 square yards macadam pavement and 100 cubic yards of concrete laid.

ment and 100 cubic yards of concrete laid.

The work done by the Bureau of Maintenance comprises the repairing, scraping and cleaning 301,785 square yards of macadamized streets, the repairing of 7,164 square yards of paved streets, the repairing, surfacing and scraping of 35,554 square yards of unpaved streets, the forming and cleaning of 361,057 linear feet of gutters, the resetting of 92 linear feet of curbstone, the relaying and repairing of 1,088 square feet of flagging on sidewalks, the repairing and surfacing with ashes of 250,011 square feet of sidewalks, the replaining and repairing of 21,760 square feet of sidewalks, the relaying, repairing and cleaning of 13,400,327 square feet of crosswalks, the building of 214 cubic yards of retaining-walls, and the building and repairing of 7,065 linear feet of guard rails; also the replanking of two bridges, representing an area of 4,500 square feet, the repairing of eight bridges, representing an area of 121,000 square feet, and the cleaning of thirty bridges, representing an area of 121,000 square feet.

Permits to open streets were issued as follows: 182 to make sewer connections, 25 to repair sewers, 4 to lay drains, 156 to make water connections, 169 to repair water connections, 8 to lay gas-mains, 179 to put in gas services, 55 to make repairs to gas-mains, 57 to make repairs to gas services, 7 to construct vault, 2 to construct areas, and 34 for miscellaneous

The figreau of Incumbrances received and attended to 154 complaints, made 106 seigures and removals of obstructions, issued 121 permits to place building material on streets, and 117 permits for miscellaneous purposes.

BORGUGH OF BROOKLYN.

Two contracts were made for grading lots at an estimated cost of \$850, and 1 contract for slagging sidewalks at an estimated cost of \$5,87.

Contracts were completed as follows: I for grading lots at a cost of \$1,108, and 6 for flagging sidewalks at a cost of \$447.

Work will be begun at an early date under contracts 4 for repaying, 6 contracts for grading and paying, and 1 contract for grading and magadamizing, these contracts having been awarded too late last season to have the work undertaken before winter set in.

The repair force kept in repair and relaid 2,000 square yards of sobble-stone payment, 1,133 square yards of granite-block payement, 256 square yards of belgian-block payement, and 9 square yards of brick payement. Among the other items of work done were the following 183 linear feet of curb and gutter repaired and reset, 338 square feet of bridging relaid, 16,350 square yards of roadway graded, 8,925 granite blocks bauled and piles, 462 dangerous holes repaired and made safe with 671 cobic yards of filling, 2,621 cubic yards of sand, dirt and ashes bauled and used for filling, and 197 cubic yards of rubbich removed to the dump.

On macadamized and unpaved streets work was done as follows: 373 quare park-macadam roadway repaired, 12.9 miles macadam roadway cleaned, 8,350 square yards of dirt roadway repaired, 6.1 miles of dirt roadway cleaned and raked over, 31,5 miles of gutters formed and cleaned, 1,584 cubic yards of dirt hauled and used as filling, 1,051 cubic yards of rubbish removed from gutters and roadways, 2,856 square feet of sidewaiks graded, 29 cubic yards broken stone hauled and used, 40 cubic yards of sand and screenings hauled and used, 30 linear feet of dram-pipe relaid and 119 dangerous holes and washous in sidewaiks and roadways filled.

The following openings were made to repair all mains except water-mains and sewers, and to insert service connections: 87 in asphalt pavements, 350 in granite pavements, 44 in belgian-block pavements, 642 in colable-stone pavements, 7 in brick pavements, 6 in macadam pavements, 255 in sidewalks and 185 in unpaved roadways.

Permits and notices were issued as follows: 246 permits to relay damping, 66 notices to copair sidewalks and 353 notices to change house numbers.

Inspections and reports were made on 318 complaints and new numbers were assigned to 75

Under the supervision of this Department 22,020 square feet of coment sidewalks were laid, 10,373 square feet of bluestone flagging were laid and 12 driveways across sidewalks were laid and relaid.

The Burgan of Incumbrances received and attended to the complaints, issued to a permits to place building material on streets, 169 permits to cross sidewalks, 138 permits to cut down trees and 1,537 permits for adscellanceous purposes.

BOROUGH OF QUIERNS.

The heavy rainstorms during the quarter caused much damage to the manufactured street, which have been repaired by the laboring force, the principal items of work done being as follows: 589,844 square yards of roadways resanded, 32,230 square yards of coadways honed and clemest, 1,591 square yards of manadam pavement repaired, 195 square yards of granite-block pavement repaired, 273 square yards of roadways repaired, pavement repaired, 273 square yards of cobblessions guittes repaired and orbid, 14,301 square yards of earth roadways repaired, crowsed and honed, 725 square yards earth roadways graded, 210,598 linear feet of guitters formed and cleaned, 308 linear foot of curbstones reset, 449 square feet flagstones relaid, 261 linear feet of crosswalks relaid, 32 dead trees removed, 154 loads of dead hurbs landed away, 11 dead and dangerous poles removed, 500 linear feet of wooden univers constructed, and 31,220 square yards of large out from space alongside roadways.

In repairing and maintaining viaduets and bridges 936 square feet of planking woo robust and repaired, 270 linear feet of beams replaced, 54 linear feet of yellow pine gatters replaced, 40 chestnut posts erected and 220 linear feet of railing constructed and repaired.

Permits to make openings in streets were totalled as follows: 150 to ap water-opens, by to repair water connections, 55 to make sewer connections, 15 to repair sewer connections, 18 to place building material on streets 6 to trass sidewalks, 36 to repair selevalks. This selevals are transmissed and various connections, 7 for railway construction and repairs and 170 by special and miscellaneous purposes.

BOROUGH OF RICHMOND.

One contract for macadamizing roads in the Village of Totteneille was completed at a cost of \$10,972.50, and 2 contracts for repaying streets were completed, at a total cost of

The repair force repaired 433 square yards of macadam pavement and surfaced with sand 12,500 square yards of macadam pavement.

Permits were issued as follows: 30 to open streets to mp water-pipes 265-to open streets to repair water connections, 31 to open streets to make sewer connections, 11 to open streets to repair sewer connections. S to place building material on streets, and 187 for miscellaneous purposes, making a total of 535.

For information in detail regarding the operations of this Department in the various horoughs. I refer you to the following documents hereto attached:

CITY OF NEW YORK—DEPARTMENT OF HIGHWAYS.

BOROUGH OF THE BRONK, DEFETY COMMUNIONER'S OFFICE,

THERO AVENUE AND ONE HUNDRED AND SEVENCE—EVENUE SCREET,

NEW YORK, May 3, 1901.

How, JAMES P. Kraverse, Commissioner of Highways, New York City:

These Size—I beg to report as follows the work done under my jurisdiction in the Borough of The Brons during the quarter ending March \$1, 1921: There have been in progress 29 regulating and grading contracts, of which s have been

oridge contracts; 3 miscellaneous contracts, of which one has been completed.	4.000
Earth excavation, cubic saids	0.952
Rock exervation, cubic yards.	10,084
Pilling, cultic yards	76,948
New curbstone, linear lost	4,031
New dagging, square feet.	10,547
New bridgestone, square feet	
Dry rubble masonry, cubic yards	1,280
Wasselson and the same of the	
Macadam pavement, square yards	1,504
Concrete, enbic yards	100

Under the regulating and paving contracts there was no work down, as all contracts are our pended during the winter season.

The vindice and bridge contracts thow results as follows: Massney, cubic yards

The following has been done by the Engineering Borgus:

Forty-four preliminary surveys, 15 plans completed, 30 tracing completed, 7 records completed, 11 field books completed, a assessment lists completed, 5 assessment lists completed, 5 assessment lists completed. seventy per cent payments, 2 payments on acceptance.

The week done by the Maintenance lineau shows the following result	
Macadamized stream repaired, scraped and cleaned, square varils	391,785
Paved streets repaired with granife and trap black, square vanis.	7,164
Unpayed streets repaired, surfaced and scraped, square yards	35,054
Gutters formed and cleaned, Ilacar feet	301,057
Curbetone reset and formed with native stone	
Sidewalks flagged, relaid and repaired, square lest	1,088
Sidewalks repaired and surfaced with ashes, square teet	250,011
Sidewalks planked and repaired, spore lest	31,750
Crosswalks relaid, rejournd and chranel, square feet	13-4(W) 327

Uny year out mass, are redinably		Attacker	1

While werel common were remotered last year, it was considered very improduct to commone work on them at the beginning of winter, and no attempt was many to do so, although the only part of the contert was so mild that some of these contacts could have been in least pareally carried out. If a see, in my independ, however, better not to take the risk of beginning thous.

I outside already much and upon which work will be commenced early in the next quatter are as trabous:

Keparing.

Grid street, from Juliu to Water street; from Front to Frespect street; from Sands to Ful-ton array, granite-black pavenum.

Adams street, from Sands times in East river, granite-block pavement.

Bustord avenue, from Puller street to Eastern parkway, asphalt-block pavement.

St. Mark's place, from United to Fourth avenue, asphalt pavement.

Grading and Paring.

Mecker avenue, from Kingsland avenue to Mecker Avenue Bridge (nearly completed), granite-black pavenuent.

Schoolk avenue, from Atlantic to Livenia avenue, trap-block pavenuent.

Second avenue, from Thirty-ninth to Fifty-eighth street; from Fifty-ninth to Sixty-bifth street, asphalt pavenuent.

Watkins street, from East New York avenue to New Lots road (partially done), asphalt pavenuent.

Hintral street, from Irving to Wyckoff avenue, cobble-stone pavement.

Grading and Macadamizing.

Utica avenue, in the Twenty-ninth Ward (nearly completed).

A number of new contracts will probably be used during the coming quarter. Specifications and forms of contracts have already been torwarded for advertising for the following original improvements authorized by the Municipal Assembly, the entire expense of which is to be assessed upon the property benefited:

Grading and Paving,

Chauncey street, from Ruckaway avenue to Broadway, asphalt pavement.

Stankape street, from Ruckaway avenue to Broadway, asphalt pavement.

Hawtherne street, from Flathush to Rogers avenue, asphalt pavement.

Osborne street, from Elake in Livonia avenue, asphalt pavement.

Thatford avenue, from Lakerty to Riverdale avenue, asphalt pavement.

Humboldt sto et, from Macker to Engert avenue, asphalt pavement.

Vermont street, from Pikkin avenue to 75 feet south of Belmont avenue, asphalt pavement.

Park place, from Afhany in Tray avenue, asphalt pavement.

Linden street, from Hamburg to Knickerbocker avenue, granite block.

McKliban street, from Hamburg to Knickerbocker avenue, granite block.

One other original improvement has also been authorized, viz.:

Grading and javing in Caton avenue, Flatbush avenue to Brighton Beach Railroad, with asphalt, but plane have not been for warded, as a resolution is pending in the Municipal Assembly changing the width of addewalks on this street. As soon as this ordinance has been adopted plane will be forwarded.

Plans have also been prepared and specifications forwarded for repaying the following streets.

Plans have also been prepared and specifications forwarded for repaying the following streets with granite-block payament, in accordance with resolutions adopted by the Board of Public

Granits on Concrete Foundation,

Amity street, from Hicks to Columbia street. Clay street, from Manhattan avenue to Oakland street. John street, from Pearl to Aslams street.

61,54h 48

Grante-block Parement Lora on Sand.

Fark agence, from Hudson to Clawon avenue.

Bushwick place, from Meserole to Bosrum street.

Bushwick place, from Meserole to Bosrum street.

Bushwick place, from Meserole to Bushwick avenue.

The last-named improvements are to be paid for out of the bond is me of \$700,000 authorized by the Municipal Assembly. December 29, 1900. A considerable amount of repairing with rephalt to be paid for from the same bond issue, has been authorized by the Board of Pohije Improvements, and plans have been prepared, but as the form of specification and contract has not yet been finally decided upon, no steps have been taken toward making contracts.

The streets selected for repaying with asphalt are as follows:

Aughalt.

Olive stract, from Devoe to Fawers street.

Mileon street, from Franklin to Manhatique avenue.
Bainbridge street, from Summer to Lewis avenue.
Debevoice street, from Summer to Estab avenue.
Debevoice street, from Summer to Endon avenue.
Debevoice street, from Vanderbilt to Grand name.

Hen. June J. Scanning. Fire Communicates.

Dean Siz.—I have the honor in report that I am this day in receipt of a communication from the Chief of Conservation and Kepaira to Apparatus, Parrick F. Ryan, relative to the condition of the fire-book "New Yorker" (Kugine 52) and "Zuphar Mills" (Engine 51), as

*At the less annual imposition to the United States Government of the fire-boat "New Yorker," held in November 21, food, the address a work was ordered to be done before the next imposition, which will take prove not later than the 21-1 day of November, 1901:

Remove Scarregard formation and holler, and replace same with new ones; replace for defective framewing the wake of the surplus-rooms. It such works is not done by the allower date the stems pressure now carried on home will be sudmed to such a low figure as to rander the boat practically motion.

It conduct to do the foregoine work it would be not easy to remove the forward bulkfood, storring engine, there is because of the water drick house in action to make room to put the termines in buller. This work would not about \$15,000, and taking into condition the condition and age of the bullers (botters being ten years all [] I consider this approximate would be a round of many, as the present bullers would have to be replaced in about two years.

have to be replaced in about two years.

At the stow the fludger was being considered by you for the year 1901. I reported relative to the condition of the fire beat to Euphar Mills' (Rugnes 31), and requested new fire pumps, new composition of the fire beat to Euphar Mills' (Rugnes 31), and requested new fire pumps, new composition of the fire beat of European and the state of the market of the market beat on the state of the market requests to make the two continuous and the state of the market requests to make the request when the state of the market of the fire pumps we two small old one to a cory dancerous condition, and liable to lears any time, thereby beatstraing the beat multiple scales in case of five. I would also tail your amount on the market on the 6th mount, was the beat was working at a tree of Scam Lighter No. 11, owned by the New York Commal and Tudon River Rathroad Company, the case two notion chooses on fire pumps, which were already determine, because more so after working for a door that one one pump, which were already determine, because more so after working for a door that our more pumps and the the small and liary pumps which it comes gave no better or cause of the ore.

In view of the above condition of after a community of a size.

In view of the above condition of affore control of the rice.

In view of the above condition of affore control on a rice is absolutely necessary that there bears to kept in verview to protect property on river fromts in this city, I would recommend that you make application to the bload of Estimate and Applicationment, without delay, but a special appropriation to the sum of actomy-five theorem delibers (\$75,000) for the purpose of making the following repairs to the above minuted are-hierar:

Africana of Again Street " (dingene Company 57).

Two new hollers, stray new trance, necessary work in removing old hollers, and

replacing some with new men 140,000 00

Whichail " Sylar dille" (Single Contain 5th

New marine thinkin rugine, new fire pourse and pipour (2 paret, new house on deck, and a second seco 35,000-00

In conclusion, permit no to action that two anothing organize came is to arged with the presenting in making the foregoing repairs and absorbers without decay, so the same are absolutely necessary in order that the plane in retribution a refer to without such repairs being made we will be compathed to plane the incomment of a review to a very short space of those.

Votes responsibly, the CHOKEN, Chief of Department. (Signest)

How, Black S. Coming Completeller:

Now, then S. Comes, traper flow:

Still The Manningal Assembly, by resolution of the Connecil dated May 28, 1001, adopted by the Roard of Aldernen June 2, 1001, received from his Human the Mayor June 18, 1001, without his approach of disapproval thereof; therefore, as provided in action as of the Greater New York Charter, the same took effect as it he bod appropriat. It:

"Resolved That pure sout to the provisions of abolivision 8, section 188 of the Greater New York Charter, the same took effect as it he bod appropriat. It:

"Resolved That pure sout to the provisions of abolivision 8, section 188 of the Greater New York Charter, the flow of Fermale and Appendicament is border reported to authorize the exponditure of the sound as every-five transland dollars (\$75,000) to definy the extracted cost of reporting and replacing in proper condition for service the inst-boats 'Zophar Mills,' Engine Company 51, and 'The New Yorker, 'Lugine Company 32,'"

In reply, I would refer to the attached communication, dated April 27, 1001, from Edward F. Croker, Chief of Fire Department, to Tion, John J. Scannell, Fire Commissioner, in which the ailth attention to and incorporates in its communication a report from Patrick F, Ryan, Chief of Canstruction and Repairs to Apparatus, in a tich his says that at the last inspection by the United Scanse Government of the fire-hoat." New Yorker, "Indid on November 21, 1900, certain work was required in be done to the boders. Mr. Kyan says this work would cost at least \$15,000, but as the holders are all (about ten years all) he considers it would be more economical to put in new boffers now instead of patching up the old unes.

The report also states that the fire pumps and engine of the "Zophar Mills." (Engine Com-

The report also states that the fire pumps and engine of the "Zophar Mills" (Engine Company 51) are in a poor condition and should immediately be replaced by new fire pumps and a marine dauble engine; also a new boase is needed on the deak of the lovat, used as desping apariments for the men. Chief Croker makes the following estimate for the purpose of making the repairs to the above-named fire-hears:

Fire-boat " New Yorker" (Engine Company 37). Two new boilers, 60 new frames, necessary work in removing old builers and replac-... 540,000 00

Pire-Sout " Zophar Mills" (Engine Company 51). New marine double engine, new fire pumps and piping, new house on deck . . . \$35,000 00

\$75,000 DO

In view of the requirements of the United States Government Inspectors, and the report of Patrick F. Ryan, I think the Board of Estimate and Apportionment can properly authorize the Issue of Special Rovenne Bonds, in pursuance of subdivision 8 of section 188 of the Greater New York Chatter, to the amount of \$75,000, to dotray the estimated cost of repairing and replacing in proper condition for service the fire heats "Zophar Mills" (Engine 51) and "The New Yorker" (Engine 57).

Respectfully, E.U.G. E. McL.EAN, Engineer.

And offered the following ;

Resulved, That, pursuant to the provisions of subdivision S of section 188 of the Greater New York Charter, the Reard of Estimate and Apportionment, by the concurrent vote of all its members, hereby authorizes the expenditure of the sam of seventy-five thousand dollars (\$75,000) for the purpose of defraying the expenses connected with repairing and replacing in proper condition for service the fire-boats "Zuphar Mills," and "New Yorker," as requested by resolution of the Municipal Assembly, which became adopted without the approval or disapproval of the Mayor on June 18, 1901, and that for the purpose of supplying means therefor the Comptroller be and is hereby requested to issue Special Revenue Bonds of The City of New York to the

amount of several diversarial deltars (\$75,000), i-aring others at a sate has an other confidence per sent, per amount and redecomple from the tax less at the year time.

Which was adopted by the following cole:

Alternative—The Mayor, Comptedies, Corposition Counsel, President of the Council and Provident of the Operation of Taxes and the ments—3.

The Compttollir presented the following a

Hon. Bird S. Coler, Complication

How, Birn S, Colley, Completeller

Six—Hon. George C. Charleso, Commissioner of Paris, bosonate of Manhatine and Richmond, in communication june 12, 1921, to the bounded between Apon tension, about a "set at plans showing the proposed top revenue and completion of Lemma Indice on Pirk, in the Twellish Ward, Bernegh of Manhatine, and request of the earth of proposed of construction, amending to \$245, bits js." and request the hearth of approve of the proposed improvement and actionse a word togeth of the amount manel, present to the proposed improvement and actionse a word togeth of the amount manel, present to the proposed improvement at the Charles, to provide to the oath shown by thus plans.

He bodies a report of the Londard of tributer, point the meaning of consideration employed in designing a park of the charles a with a comparison of construction of the proposed proposed proposed of constructions of the charles and argue and a set of charles, but I will only observe their generally. I remainer a line of manhating the array of the proposed proposed of the part alignity architecture.

I do not agree with him in the introduction of an arthonial lake In the reason that can be feature, though together words him to be Plansant overnor optimate. I thus that the square could be more profitably devoted in lawns.

more profitably devoted to lawns.
I see no reason for removing the Recreation Pier, as the entrance to it could be well come.

I see no reason for removing the Recreation Pier, as the intrance to it could be well combined as a favorable feature of the park.

I do not agree with the idea of petting a two-railed feater around all the lawns, as shown in the estimate, insurance of I think these lawns abound he open to all, being only restricted by such police regulation as an ay troot time to time be necessary.

I consider that there is no accessity for so expensive a building as that which he has designed, to be built assetly at marklet, the dome, an expensive testore, is collectly necless and of doubtful architectural beauty in such a locality.

I would recommend an artistic frame building, with lavatories in the becament or first story, one end for men and the other for women, and the centre section arranged for tools and storage purposes. The appear of second story to be need at a playroom for children, a partition, giving a fine outlook on the river, and to be so constructed that a perion of it can be used for a music stand on certain days.

The location of this haid ling should be back from the river, so as not to interfere with the explanate on the river front and to give space to the crowd congregated to be not the music.

The plans presented show a picture-one line on the river front, formed apparently by planting dip-rap outside of the established buildened-ince. The build-anal-sine music to preserved, and the only work that can be done on it is its completion by exerting buildmands where they do not now exist.

the only work that can be done on it is its completion by creating initializate where they in not now exist.

The river front being the most attractive portion of this park, there should be directly back of the bulkhead-line a broad explanate, forming a playsround for children and location for seats for those wishing to copy the river views.

I consider the width of walks recommended to be sufficient.

The entire park, except the river front, as shown on the plans, will be taclocal by a rabble missing wall, as explained by the Landscape Gardense, about three for high, with heavy repling, surmounted by an iron fence four feet in height. There appears to make objection to this construction.

It the views I have given above meet the approval of the Board of Estimate and Apportismment the estimate submitted must be considerably changed.

I would recommend that the whole matter he returned to the Department of Parks for each

consideration as it may consider advisable,

Respectfully, EUG. E. McLEAN, Engineer.

A true copy of possible and resolution adopted by the Committee on Finance of the Board of Truore: of the College of The City of New York on July 11, 1901, CHAS. PUTZEL, Secretary, Board of Trustees.

And offered the following :

And offered the following:

Resolved, That, pursuant in the provisions of chapter 168 of the Laws of 1895 and section 170 of the Greater New York Charter, the Comptroller he and is hereby authorized to issue Curporate Stock of The Caty of New York, in the manner provided by section 169 of the Greater New York Charter, to the amount of fourteen thousand eight hundred and sixty dollars and seventy-three sents (\$14,600.73), the proceeds whereaf shall be applied to the purchase of land regulard for a size for the College of The City of New York, as specified in a resolution adopted by the Board of Trustees of the College of The City of New York on July 11, 1901, the amount of bonds required to be issued under the authority of said chapter 168 of the Laws of 1895 during the year 1901 being less than one hundred thousand dollars (\$100,000), and the consent and approval of the Mandeipal Assembly being therefore innecessary.

Which was adopted by the following vote:

Alignative—The Mayor, Comptroller, Corporation Counsel, President of the Council and President of the Department of Taxes and Assessments—5.

The Comptroller offered the following:

STATE OF NEW YORK,
STATE BOARD OF CHARITIES, OFFICE AT THE CAPITOL.
ALBANY, N. Y., July 12, 1901.

Hon. Bini S. Coles, Comptroller of The City of New York, Member of the Board of Estimate and Apportionment, Broadway and Chambers street, New York City:

Estimate and Apportionment, Broadway and Chambers street, New York City:

Dean Six—Inclosed, for your consideration, please to find copy of a report with relation to betterments required at the Kings County Hospital and the Kings County Almshouse, made by Hon. John Notman, Commissioner of this Board from Kings County, which was presented to and adopted by the Board at its meeting of the roth inst., and the following resolutions adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York is hereby requested to consider favorably the application for the betterment of the heat and power plants connected with the Kings County Hospital and the Almshouse at Flathush.

Resolved, That a copy of this report be sent to the Board of Estimate and Apportionment of the City of New York, the President of the Department of Public Charities at The City of New York, and the Commissioner of Charities at the Borough of Brooklyn.

Respectfully yours, ROBT. W. HEBBERD, Secretary.

ALBANY, N. V., June 6, 1901.

To the State Board of Charities :

Under date of June 4, 1991, Mrs. Tunis G. Bergen, President of the Kings County Visiting Committee of the State Charities Aid Association, wrote a letter to the State Board of Charities in reference to the needs at the Kings County Hospital and Almshouse located at Flatbush, in The City of New York. This latter was referred to Commissioner Notman, of the Second Judicial District, that he might, after examination, prepare a suitable report. Mrs. Bergen's letter is as follows :

" To the State Boant of Charities :

The Kings County Visiting Committee of the State Charities Aid Association asks your acceptance of its Annual Report and other items relating to the plant situated at Flathush, under charge of the local Department of Charities for Brooklyn and Queens.

The conditions at Hospital are very encouraging, and management efficient, overcrowding at Almahouse being in a measure relieved by rearrangement of inmates, and census always less at this season of the year.

at Almshouse being in a measure relieved by rearrangement of inmates, and census always less at this season of the year.

Greatest need is for a general heating and lighting plant. The heating plants now in use are inadequate and to a degree unsafe, and the cost of maintaining them, with current repairs, very high.

Light is supplied by an electric company. Bill for past quarter, 1901, was \$2,237, and annual would probably be \$10,000.

The City ought to provide for these needs by constructing a proper heating and lighting plant. First outbay, as estimated, wholis be about \$125,000. Annual saving in salaries of engineers (only one set being required under new souldiness), coal and repairs would be \$19,000 per annual.

Attention is especially called to Idiot Pavilion, and the removal of immates from these to State institutions as fast as possible, and to this end additional accommodation at such institutions as those at Syracuse, Newark and Rome cannot be too strongly urged.

All of which is respectfully submitted.

(Sigued) CAROLINE Mcir. BERGEN, No, rat Willow Street.

BROOKLYN, June the 4th.
From Mrs. Tunis Bergen, President, Kings County Committee, S. C. A. A."

From this latter it appears that the Visiting Committee of the State Charities Aid Association is convinced of the necessity for improving the power plant which supplies the Flatbush institution with its heat and power. The fact that the light required in the institution is furnished by an electric-light company at a heavy expense to the City is set forth, and the statement is made that the greatest need of the Flatbush miditation is a general heating and lighting plant. Attention is also directed to the Idiot Pavillon, and the removal of immates to Statements in great.

plant. Attention is also directed to the Idiot Pavillon, and the removal of immates to State matitutions is arged.

In the report for the year 1899 of the State Board of Charities, on pages 648, 649 and 674, the necessity of an increase of the power plant, and a centralization of the units of this power was set forth and the statement made that the plant at that time was tardly adequate to the requirements of the institution. Since that time the power plant has not increased in efficiency, but has become more worn and less able to do the work required by the needs of the institution. Since that time a number of new buildings have been added to the group of 1890. Each of the additional buildings requires power and hear, and the plant which was barsly sufficient to supply beat and power in 1890 is altogether unable to meet the increased demands of 1901. Even were it possible to maintain such plants without the wear resulting from continued asc, a plant intended to supply the institution as it existed in 1899 cannot be expected to infall the requirements of the greatly enlarged institution of 1901. It was stated then fund the same statement was made in the report for 1900) that it would become necessary to renew the main parts of the heat and power plant in a short time, and a centralization of such power plant, on the grounds of efficiency and economy, has been constantly advocates; the same grounds which form the hasis for the recommendations in regard to lighting. It was stated in the grounds of efficiency and economy, has been constantly advocates; the same grounds which form the hasis for the recommendations in regard to lighting. It was stated in the ground exact will hold true of the recommendations concerning the plant for tarnishing list at an appear of the light was furnished the Hospital and Almshouse by a private corporation, and that the cannot expense for illumination was a reason why the power plant should be enlarged as that the City might be able to provide electric lighting for all the buildings

tions.

The two hearing plants now in use (they are operated separately, one for the Almshouse and one for the Hospitaly cannot last much more than another season in any event. During the severe weather of last winter the one at the Hospital was driven to its atmost capacity, and the beating was not satisfactory. Yet this heating plant had been temperarily increased last summer by the addition of a locomotive boiler, and were it not for this increase the patients in the Hospital would have suffered for lack of heat.

During the year 1900 the bill for electric lighting was \$5,674.54, but a number of buildings at that time under construction (and hence then making me denanted for illumination) have been since put into service, and the electric light full for the first quarter of 1901 was \$2,257, almost double what it cast the first quarter of 1900. It is safe to say that the full for electric lighting during the year 1901 will be not less than \$10,000. Were an electric-light plant installed for operation independently of the other power, its cost rould be paid for in ten years by the saving of this \$10,000 per annum remiered necessary by the present system of lighting; but if all the power required by the institutions be combined in one plant, it could be constructed for less than \$15,000, and the City save not only this \$10,000 per annum, but at least \$5,000 in salaries, and probably 25 per cent, of the amount of coal required onder present conditions, so that it is estimated by the Superintendent that a total saving of not less than \$10,000 per annum would be effected.

Work mean such a plant should be started as a precible, as its countering will amount of the effected.

effected.

Work upon such a plant should be started as soon as possible, as its construction will consume at least a year after actual work begins, and until such power plant be catablished there is little chance that the patients in the Hospital, the inneares of the Alushouse, and ather dependents of the Platforsh charities will be properly cared for so far as warmth is concerned.

One other matter in this connection seems to have been omitted in the letter of the Committee of the State Charities Aid Association: that is the annecessary expense for the supply of water nor the institution. At the present time the water supply for Flatbash comes from the reservoir of a private corporation, and the quarterly bill for water is a heavy item in the expense account at the institution. As The City of New York has its own water system, it appears not only expensive, but inexpedient and unnecessary, to purchase water from a private corporation for its charitable institutions. Some steps should be taken whereby the Hospital and Almshouse may be made, in this respect, independent of private corporations.

THOTS.

The large number of defectives who are kept in Flathush is due to the fact that the State institutions for the reception of such persons are overcrowded. Until the Legislature makes sufficient appropriation to enlarge the various State institutions there is little hope that these sufficient appropriation to enlarge the various State institutions there is little hope that these sidiots, feeble-minded persons and epileptics can be removed from the care of the City to that of the State. But until such time as the State provides accomplation for all those whose care it intends to undertake, it is possible for the City to make better provision for them than it has made up to the present. New York City is now so large that county boundaries are no longer factors to be considered in the management of the City institutions. The mere fact that Brooklyn is in Kings County is not a sufficient reason why the idiots and feeble-minded should not be removed to Randall's Island, where there is a greater measure of seclusion, and where, too, the City may provide for a greater measure of humane and scientific care than it is possible to give these unfortunates under present distribution.

It has been suggested heretofore that there is a great opportunity for The City of New York to classify its dependents in a humane and scientific manner. It has three almshauses, Blackwell's Island, Flatbush and Richmond, buside numerous other public institutions intended for its needly and dependent people. By a proper use of these institutions and a distribution of the wards of the City there may be brought about such classification as will conduce not only to economy in administration, but to the welfare and happiness of the immates and the general benefit of society. In such a redistribution all the idiots and feeble-minided could be removed from Flatbush, and many of the people who are now in the Almhouse and whose proper place is in the wards of a hospital for incurables, could also be removed. It is to be hoped that whatever may be the o

Certainly the State Board of Charities one by to insist mon the rapid enlargement of the Certainty the State Board of Charities ought to mast upon the rapid enlargement of the State institutions at Newark, Syracuse and Rome, as well as of the Craig Colony at Sonyen. There are 109 of the feeble minded and idiotic class cared for by the Kings County Hospital, of whom 40 receive some measure of school instruction, but it will be apparent that it is wrong to keep so many of these defective beings crowded together under conditions prejudicial to their health and mural and mental development. Therefore, whatever can be done to better their condition by removal to other institutions should be done as soon as possible.

In view of these facts it is respectfully suggested that the State Board of Charities adopt the following resolution :

Resolved, That the Board of Estimate and Apportionment of The City of New York is hereby requested to consider favorably the application for the betterment of the heat and power plants connected with the Kings County Hospital and the Almshouse at Flabush.

Resolved, That a copy of this report be sent to the Board of Estimate and Apportionment of The City of New York, the President of the Department of Public Charities of The City of New York and the Commissioner of Charities of the Borough of Brooklyn.

Respectfully submitted, qued) JOHN NOTMAN, Commissioner from Kings County. (Signed) Which was ordered on file.

The Comparable presented a communication from the Department of Water Supply, dated July 11, 1901, in relation to the dredging of navigable areams in Long Island and calling attention to the provisions of chapter 209, Laws of 1901.

The Mayor moved that it be referred to the Corporation Counsel.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, Corporation Counsel, President of the Council and President of the Department of Taxes and Assessments—5.

The Comptroller presented the following:
THE TRESTEES OF THE NEW YORK PUBLIC LIBRARY, ASTOR, LENOX AND TILDEN FORMATIONS, OFFICE OF THE SECRETARY, No. 32 NASHAI STREET, NEW YORK, July 11, 1901.

How. ROBERT A. VAN WYCK, Major, etc.:

DEAR Siz.—I have the honor to hand you herewith a form of agreement between The City of New York and this Library which it is proposed to be entered into under the authority of chapter 580 of the Laws of 1001 relative to the acceptance of the gift of Mr. Andrew Carnegic. The draft agreement, which I understand has been informally approved by the City authorities, has also been submitted to Mr. Carnegie, and I have just received his approval. The draft contract sent you herewith hears at the foot a copy of Mr. Carnegle's approval, the original of which is in respection.

which is in ray possession.

The draft contract now sent is intended for the files of the Board of Estimate and

Apportionment. Apportionment.

I also inclose certified copies of resolutions adopted by the Board of Trustees of this coporation on May 29, 1901, approving the contract. When notified that the draft is satisfactory to the Board of Estimate and Apportionment I will send to you copies in duplicate only executed by the proper officers of this corporation, to which may be added the signatures of the City officials.

Very respectfully yours.

G. L. RIVES, Secretary.

THE TRUSTERS OF THE NEW YORK PUBLIC LIBRARY, ASTOR, LENGY AND THEORY POONDATIONS, OFFICE OF THE SECRETARY, NO. 32 NASSAU STREET, NEW YORK, July 11, 1901.

At a meeting of the Board of Trusters of The New York Public Library, Astor, Lemox and Tilden Foundations, held on Wednesday, May 29, 1904, the following action was taken:

"Resolved. That the contract, now salmouted, between The City of New York and The New York Public Library, in order to avail of the offer of Mr. Carnegle, and for the erection of libraries in the boroughs of Manhattan, The Broax and Richmond, and their support by the City, be and the same is hereby approved.

**Resolved, That the said contract be forwarded to Mr. Carnegle, with a due explanation of the surrounding facts, and that be be informed of the readiness of this Board to undertake and corry on the work subject to his approval of the forms of this contract.

**Resolved, That, on approval of the forms of this contract, "Resolved, In the formal execution and delivery of the nontract, with such changes therein, if any, as may be necessary, from any suggestions of Mr. Carnegle, or otherwise, and that the proper officers are hereby directed in excent the same on behalf of this Carporation, and allik the Corporate Scal thereto."

A true copy.

the proper officers are hereby directed to execute the same on behalf of this Carporation, and affir the Corporate Seal thereto."

A true copy.

This Agreement, made and concluded this the proper of the proper of

Estimate and Apportionment, be used as a site for the erection and maintenance of such branch public libraries as aforesaid.

Second—The New York Public Library, Astor, Lenox and Tilden Foundations, shall, upon the acquisition of title to any site so approved as aforesaid, or upon the passage of resolutions as aforesaid by the unanimous vote of the members of the Board of Estimate and Apportionment and of the said Commissioners of the Sinking Fund, authorizing the use of any real extate of The City of New York, not required for other public purposes, or upon the approval of the Board of Estimate and Apportionment of any site now possessed or which may hereafter be possessed or acquired by the party of the second part, proceed with the erection and equipment of library buildings thereon, without cost to The City of New York, and shall complete the same with funds so to be contributed by Andrew Carnegic as aforesaid; provided, however, that the said The New York Public Library, Astor, Lenox and Tilden Foundations, shall not be required to, nor shall it, without the consent of the said Board of Estimate and Apportionment, commence the erection and equipment of a larger number than ten library buildings upon sites furnished by The City of New York in the boroughs of Manhattan, The Bronx and Richmond in any single calendar year under the provisions hereof, and not to exceed forty-two branch library buildings

mail in the brought of Markatan, The Brown and Richmond. Such sets and each of the same are imported that the Browner Liu in managements of fire ispacing public discussions, and the same and each of the same are longing and the last party of the fire you be including a literate and realing-rooms, and the same and each of the same are longing party again, themse and let not the said The New York Pobble Library, Asro, Lemos and Thiele houndations, and its user-costs, on each case, they are the public discussions of the including in each case, they are the public and the same and the sa

appartenances.

Ninth—It is further agreed that this agreement may be wholly canceled or annuled, or from time to time attened or modified, as to any one or more of the library lumblings becaute to be constructed or owned or for which nationance is provided under the provious at this agreement, as may be agreed upon in writing between the parties hereof or their successors, arything herein to the contrary notwithstanding.

Tenth—That the said party of the second part shall on or before the first day of May in every year during the continuance of this agreement submit to the party of the test part, its outcessor or successors, a detailed report of the transactions of the party of the second part to and including the 31st day of December of the year preceding.

In witness whereof, the party of the first part has caused this agreement to be executed by the Board of Estimate and Apportionance parts to a resolution adopted at a meeting held on the day of the party of the second part has caused this agreement as he executed by in Pregdent and its official seal to be hereto affixed pursuant to resolutions of the Transiers of the New York Public Library, Astor, Lenox and Tilden Foundations, and adopted at a meeting held on the 29th day of May, 1901.

This contract seems to me in every respect admirable, and is heartily approved.

(Signed) ANDREW CARNEGIE.

SKIBO CASTLE, June 24, 1901.

And offered the following:

Resolved, That, pursuant to the provisions of chapter 580 of the Laws of 1900, the Board of Estimate and Apportionment heroby approves of the form and terms and conditions of the proposed contract between The City of New York and the New York Public Library, Astor, Lenox and Tilden Foundations designed to carry into effect the offer of Andrew Carraegie of The City of New York to formish the tumb necessary for the execution of buildings for the branch libraries for circulation in The City of New York, so far as the said offer applies to the boroughs of Manhattan, The Bronx and Richmond, and that said contract be executed by the members of the Board of Estimate and Apportionment on behalf of the City, upon its execution by the Executive Committee of the Board of Trustees of the New York Public Library, Astor, Lenox and Tilden Foundations.

and Tilden Foundations.
Which was adopted by the following vote Affirmative.—The Mayor, Comptroller, Corporation Counsel, President of the Council and President of the Department of Taxes and Assessments.—5.

The Comptroller affered the following:

Resolved, That, pursuant to the provisions of chapter 580 of the Laws of 1901, the board of Estimate and Apportionment hereby authorizes the execution of contracts between The City of New York and duly designated representatives of Andrew Carnegic of The City of New York, for the crection of buildings for free branch libraries for circulation in the Boroughs of Brooklyn and Queens, similar in form and substance to that heretotore analysized to be entered into between The City of New York and the New York Public Library, Astor, Lenox and Tilden Foundations for the boroughs of Manhartan, The Brook and Richamond, whenever such contracts shall be presented to it for execution, after execution by the stuly authorized representatives of Mr. Andrew Carnegie, the administration of such forance library buildings to be in the Brooklyn Public Library for the Borough of Brooklyn and in the Queens; and

Resolved, That the Comptroller be and hereby is requested to communicate with Mr.
 Andrew Carmegic in repart thereto.
 Which was adopted by the following core:

 Affirmative—The Mayor, Comptroller, Corporation Counsel, President of the Council and President of the Department of Taxes and Assessments—5.
