BOROUGH OF BROOKLYN.

REPORT FOR THE QUARTER ENDING JUNE 30, 1906.

The City of New York,
Office of the President of the Borough of Brooklyn.
Brooklyn, August 23, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, The City of New York:

Dear Sir—In accordance with section 1544 of the Greater New York Charter, I forward to you herewith report of my office for the quarter ending June 30, 1906. The reports of the various bureaus, to which I refer you for the details of the work done, and which I forward to you attached hereto as part of my report, indicate that this section of the City is still growing with great rapidity.

During the quarter application was made to the Bureau of Buildings for permits for the erection of 2,546 new buildings, the estimated cost of which is \$19,076,689. Seven hundred and twenty-three of these buildings are to be dwelling houses, the estimated cost of which is less than \$20,000, and 636 of them are classified as tenement houses, costing less than \$20,000 each. Ninety-two are tenement houses costing more than \$20,000 each, and four are dwelling houses costing between \$20,000 and \$50,000 each. One hundred and fifty-three stores with living accommodations for two families are included in the total, and three office buildings and fifty-one factories are also noted in the list of buildings covered by the permit applications.

The report of the Commissioner of Public Works shows that in the Assistant Commissioner's office 160 contracts were entered into during the quarter, representing a total outlay of \$1,251,449.37. One hundred and thirteen of these contracts were for work done under the jurisdiction of the Bureau of Highways, forty for work done under the jurisdiction of the Bureau of Sewers, and seven for work done under the jurisdiction of the Bureau of Public Buildings and Offices. Seven and eighty-three one-hundredths miles of pavement were laid during the quarter, in addition to the pavement laid by the various railroad companies under the direction of this office, the last item representing 35,308 square yards.

During the quarter sixty-two contracts were entered into, covering an expenditure of \$811,535.70 chargeable against the Repaving Bond Fund. Two hundred and nine preliminary estimates were made by the Highways Bureau for use in the Local Boards upon original improvements which it is expected will cost \$2,543,600.

In the Repair Division of the Bureau of Highways 44,126 square yards of granite block, belgian and brick pavement were repaired during the three months, and 5,698 square yards of cobble were reset. As a result of the repaving work, the mileage of cobble pavement was reduced to 74.45 miles. The Repair Division during the quarter also laid and relaid 75,265 square feet of flagging and 5,545 square feet of cement walk. On the macadam roads repairs which are practically repaving were made to 36,021 square yards. The Topographical Bureau in the Bureau of Highways prepared 358 maps.

In the Bureau of Sewers during the quarter 4,447 miles of sewers were built, including vitrified stone ware pipe sewers, brick sewers and cast-iron pipe sewers, and thirty-five sewer basins were installed. During the quarter contracts were entered into by this Bureau representing an expenditure of \$240,900. Contracts representing an expenditure of \$330,263.60 were completed, and work was in progress on June 30 on contracts representing an expenditure of \$2,240,505.61. According to the report of this Bureau 362,850 feet of sewers were cleaned during the three months.

The Bureau of Public Buildings and Offices reports the retiling of the entire lower corridor of the Borough Hall, the letting of contracts for painting the walls and ceilings and installing new electric light fixtures there, and contracts for the repairs of various kinds in the Municipal Building, the Court House, the Hall of Records and other buildings under the jurisdiction of the Bureau. Ground was broken during the quarter at

Fourth avenue and President street for a new interior public bath, which is to be larger than any other in the Borough, a novel feature of which is to be a swimming pool. Plans and estimates for a wholesale public market, to cost \$2,057,282, were prepared during the three months.

Yours very truly,

BIRD S. COLER,

President of the Borough of Brooklyn.

Brooklyn, N. Y., August 4, 1906.

Hon. BIRD S. COLER, President, Borough of Brooklyn:

Dear Sir—I send you herewith report for the quarter ending June 30, 1906, together with detailed reports of the Assistant Commissioner of Public Works, Superintendent of Highways, Superintendent of Sewers, Superintendent of Public Buildings and Offices and the General Bookkeeper.

Assistant Commissioner.

The Assistant Commissioner's report shows that during the quarter one hundred and sixty (160) contracts were entered into, at a total cost of \$1,251,449.37, divided among the Bureaus as follows:

	Contracts.	Amount.
Bureau of Highways	113	\$1,048,185 36
Bureau of Sewers	40	144,509 93
Bureau of Public Buildings and Offices	7	58,754 08
	160	1,251,449 37

The Assistant Commissioner's report also includes the work performed by the Bureau of Incumbrances.

Bureau of Highways.

Only 7.83 miles of pavement were laid during the quarter, owing to the small amount of contracts carried out for last year.

In connection to repairs to their railroad lines the railroad companies have relaid 35,308 square yards of pavement.

During the quarter we have entered into 62 contracts, to the extent of \$811,535.70, out of the Repaving Fund, and show a grand total of contracts entered into for street improvements, Repaving Fund and Labor, Maintenance and Supplies, amounting to \$1,136,228.07.

The preliminary estimates made for use in the Local Board numbered 209 and amounted to \$2,543,600.

The Repair Division's report shows that 44,126 square yards of granite block, belgian and brick pavement were repaired, irrespective of 5,698 square yards of cobble.

As only 74.45 miles of cobble pavement remains, this will most likely be replaced with improved pavement within the next two years.

This division has also laid and relaid 75,265 square feet of flagging and 5,545 square feet of cement walk.

The work on macadam roads shows that 36,021 square yards were repaired and that from 11 to 23 sprinklers were used to care for macadam and dirt roads.

The work of the Topographical Bureau shows marked improvement. In addition to the regular field work 358 maps were prepared, together with certificates of dedication and statements.

The Chemical Laboratory report shows tests made of coal, tar paving pitch, creasote oil, creasoted wooden blocks and other materials for repaving.

Bureau of Sewers.

During the quarter 4,447 miles of sewers were built, including vitrified stoneware pipe sewers, brick sewers, castiron pipe sewers; 35 sewer basins were also constructed.

Total amount of contracts entered into during the quarter	\$240,900 00
Total amount of contracts completed during the quarter (accounts closed)	330,263 60
Total estimated cost of contracts uncompleted June 30, 1906	2,240,505 61
Total estimated amount of work done on uncompleted contracts June 30, 1906	892,692 55
Total estimated amount of contracts in course of execution or in Corporation Counsel's hands awaiting approval as to form of specifications, etc.	339,100 00
Total estimated amount of contracts, authorized plans and specifications in preparation June 30, 1906	2,451,850 00
	\$5,361,719 21

The Superintendent of Maintenance reports that 362,850 feet of sewers were cleaned and 1,294,240 feet of sewers examined during the quarter.

Bureau of Public Buildings and Offices.

A much-needed improvement has been started by this Bureau by retiling the entire lower corridor of the Borough Hall. Contracts for painting the walls and ceilings and installing new electric light fixtures are also under way.

Repairs of various kinds have been made in the Municipal Building, Court House, Hall of Records and other buildings under the jurisdiction of this Bureau.

The interior baths, open all year, show marked improvement in attendance and receipts for soap, use of towels and bathrooms.

Ground has been broken at Fourth avenue and President street for a new and larger bathhouse than any of the five now in use. A feature of this new bath will be a swimming pool. Sites have also been purchased for two additional baths—one on Nostrand avenue and Stockton street and one on Hamburg avenue, near Willoughby avenue.

The five floating baths were opened earlier this season than usual and are being well patronized.

Plans and estimates for the wholesale public market, to cost \$2,057,282, were prepared, and preliminary estimates for the new Sixth District Municipal Court, to be located at Flatbush avenue and Sterling place, are under way.

Bookkeeper.

The Bookkeeper's report shows in detail the financial transactions of the several bureaus under this Department.

Respectfully yours,

DESMOND DUNNE,

Commissioner of Public Works.

City of New York, Borough of Brooklyn,
Office of Commissioner of Public Works,
Municipal Building, August 3, 1906.

Hon. DESMOND DUNNE, Commissioner of Public Works:

Dear Sir—I transmit herewith the quarterly report of this Department for the months of April, May and June.

I take this opportunity to call attention to the fact that this office is being run now with a smaller force than ever before, there being but one Clerk and one Stenographer to handle all the business the transaction of which we are charged. So far we have been able to keep up with the work and have not yet fallen in arrears, but I think it no more than proper that I should call attention to the exceedingly small salaries paid to the employees who have this important work to do. The Clerk upon whom the responsibility rests for keeping the contracts moving from the time bids are opened until the same are registered and the proper bureau notified of that fact receives a salary of only \$750. In all fairness his salary should be increased as soon as possible.

Besides performing the duties of Stenographer in a highly efficient manner the incumbent of that position is a great assistance in the work of preparing contracts and in the general routine work of the office. Her salary, which is now \$1,200, might well be increased.

Trusting these recommendations may receive due consideration at the proper time, I am

Respectfully yours,

DURBIN VAN VLECK,
Assistant Commissioner of Public Works.

Miscellaneous samples	45
Total	637

The hydraulic cements used for street foundations and sidewalks have all given excellent results. The various brands used for several years past have maintained the same high standard of quality, and several new brands used during the quarter have given equal satisfaction. The plants of the several asphalt companies have been inspected from time to time whenever the asphalt mixture has shown irregularities, and the errors in formula, if any, have been located and corrected. The same high grade of asphalt mixture as laid in previous years has been maintained. The miscellaneous samples examined have included coal tar paving pitch, creasote oil, creasoted wooden blocks, etc., the results of the examinations of which have been made the subject of special reports.

TOPOGRAPHICAL BUREAU.

Since the middle of May this Bureau has been under the charge of Mr. C. R. Ward, Assistant Engineer, and I attach hereto his report for the quarter. You will see that a very large amount of work has been accomplished.

Topographical Bureau,
 Office of the Assistant Engineer in Charge,
 July 11, 1906.

Mr. George W. Tillson, Chief Engineer:

Sir—I transmit herewith the quarterly report for the three months ending June 30, 1906.

The duties of the Topographical Bureau are as follows:

1. To make topographical surveys and computations, and to prepare the necessary maps, plans and profiles, sketches, etc., for altering the map or plan of The City of New York, and for acquiring title to streets, avenues, public parks, places, etc.
2. To mark on the ground, by means of monument stones, etc., the lines of streets, etc., and to protect the monuments, etc., when improvements in streets are being made.
3. To prepare maps and technical descriptions for the Local Boards, the Board of Estimate and Apportionment, the Corporation Counsel's office and the Commissioners of Estimate and Assessment in the matter of altering the map or plan of The City of New York and of acquiring title to streets, avenues, etc.
4. To prepare certificates of dedication for streets in which the City has an easement for the use of the public; and also statements of facts for submission to the Corporation Counsel, in order that he can determine upon the facts presented whether improvements may be made without instituting condemnation proceedings in the streets for which the statements of facts are submitted.

5. To furnish when requested reports upon the legal status of all the streets in this Borough, not only for the other bureaus of this Department, but for the Department of Taxes and Assessments, Department of Bridges, Department of Street Cleaning, Department of Water Supply, Gas and Electricity, and also for the public generally.

6. To connect the traverse lines, monumented street lines, and monumented lines holding the triangulation stations to the several secondary stations or towers in this Borough.

The following report gives in as much detail as the nature of the work will permit the kind and the amount of work accomplished during this quarter. In this report neither the work started nor the work not yet completed is included. A great deal of the routine work of the office, which took considerable time, such as the care and preservation of monument stones, the keeping of the detail records of the office, the accumulation of records which had been missing, the numerous investigations necessary to make reports on the legal status of streets, the many replies, both oral and written, to inquiries as to the legal status of streets, etc., is not, and cannot well be, included in this report.

A—Field Work.

The field work, which was required for and which is included in the maps and reports under the head of "Office Work," consists of chaining, line work, angular measurement, leveling and damage survey work. The amount of this work, which was done as required, completed during this quarter is as follows:

- 228,000 feet of chaining (165,000 feet of precise chaining and 63,000 feet of approximate chaining).
- 121,000 feet of precise line work.
- 92 precise angles measured.
- 3,245 feet of leveling for profile maps.
- 63,820 feet for twenty-one damage map surveys for the following named streets:

 1. Otsego street, from Dwight street to Beard street.
 2. Bay Fourteenth street, from Eighty-sixth street to Cropsey avenue.
 3. Schenck avenue, from New Lots road to Stanley avenue.
 4. Church avenue, from Flatbush avenue to East Eleventh street.
 5. Fifth street, from Eighth avenue to Twelfth avenue.
 6. Forty-sixth street, from West street to Twelfth avenue.
 7. Fourteenth avenue, from Sixty-fifth street to Sixty-eighth street.
 8. Repose place, from Schenck avenue to Jerome street.
 9. Avenue T, from Ocean parkway to Coney Island avenue.
 10. Public park bounded by Classon avenue, Washington avenue and Eastern parkway.
 11. Fourteenth avenue, from West street to Sixty-fifth street.
 12. Forty-third street, from West street to New Utrecht avenue.
 13. Carroll street, from Albany avenue to East New York avenue.
 14. Crown street, from Albany avenue to East New York avenue.
 15. Sterling street, from Brooklyn avenue to Washington avenue.
 16. Foster avenue, from Coney Island avenue to Gravesend avenue.
 17. Benton street, from Kingsland avenue to Vandervoort avenue.
 18. Beadle street, from Kingsland avenue to Gardner avenue.
 19. Bedford avenue, from Pacific street to Dean street.
 20. Ralph avenue, from Remsen avenue to Avenue N.
 21. Senator street—Location of railroad tracks at Third avenue.

2—Triangulation of the Borough of Brooklyn.

In accordance with chapter 406 of the Laws of 1903, the Board of Estimate and Apportionment, in co-operation with the United States Coast and Geodetic Survey, is authorized to extend and complete the triangulation of The City of New York. The work, under the superintendence of the Chief Engineer of the Board of Estimate and Apportionment, is in charge of Mr. A. T. Mosman, Assistant, Coast and Geodetic Survey, who was assigned for that purpose by the Superintendent of the United States Coast and Geodetic Survey.

During this quarter the following triangulation points in and around Jamaica Bay have been set, in order permanently to retain the positions of the triangulation stations which were previously selected and whose relative positions have been accurately determined:

Duck Marsh, Ruffle Bar, Island Channel, Canarsie Pol, Mill Creek, Riches Point, Point Breeze, Rockaway Point, Spring Creek, Berriman, Fresh Creek.

In addition to the above-mentioned work, the field parties have been engaged in reducing the triangulation stations to the ground, or, in other words, tying each triangulation station to the street lines or the monument lines in its immediate neighborhood. This is the most difficult and tedious part of the triangulation and requires a great amount of work and of care, because the triangulation points, as a rule, are points upon high buildings, and therefore it is impossible to bring them down to the ground except by a small system of triangulation.

B—Office Work.

Maps were completed as follows:
 I. Maps forwarded for adoption.

V. Streets and street openings.

This work, in addition to furnishing a mass of oral information, consists in preparing certificates of dedication and statements of facts for submission to the Corporation Counsel. It requires an accurate search of all the records in this and the other public offices, besides a thorough examination on the ground of the physical condition of each street. As completed this work is divided as follows:

a—Certificates of Dedication to Public Use of Streets.

These certificates are prepared to prove that the public has an easement to the use of the street, thus avoiding street opening proceedings preliminary to needed improvements.

1. First avenue, between Fifty-eighth street and Sixtieth street.
2. Kingston avenue, between St. John's place and Eastern parkway.
3. Montauk avenue, between Liberty avenue and New Lots avenue.
4. Jefferson avenue, between Hamburg avenue and Knickerbocker avenue.
5. Stanhope street, between St. Nicholas avenue and the Borough line.
6. Eighteenth street, between Third avenue and a point 400 feet west of Third avenue.

b—Statements of Facts for Submission to Corporation Counsel.

In these statements of facts is included all obtainable information, documentary and physical, that tends to prove a dedication of each street to public use.

1. East Sixteenth street, between Beverley road (Avenue B) and Dorchester road (Avenue D).

VI. Maps prepared for the Corporation Counsel's office in condemnation proceedings.

This work comprises the preparation of the following maps:

- a—Rule maps in triplicate and technical descriptions of land to be taken in street opening proceedings.
- b—Rule maps and technical descriptions for acquiring easements in streets for sewer purposes.
- c—Draft damage maps, which give the dimensions of every plot of land to be taken, the encroachments on the streets, the names of the property owners, and any other information that will be of service to the Commissioners of Estimate and Assessment.
- d—Draft benefit maps, showing every lot included within the limits of the assessment for the opening, and giving dimensions and block and lot numbers.
- e—Final damage maps in duplicate and final benefit maps in triplicate.
- f—Rule maps and technical descriptions for closing avenues and streets.
- g—Profiles made in connection with street openings.
- h—Inspection and testimony.
- i—Amendments and additions to street opening maps.

JAMES DUNNE, Superintendent of Sewers.

Bureau of Sewers,
Chief Engineer's Office, Mechanics Bank Building,
Brooklyn, July 18, 1906.

Hon. JAMES DUNNE, Superintendent of Sewers:

Dear Sir—In submitting the second quarterly report for the year 1906 for the transaction of affairs in the Engineering Division of the Bureau of Sewers, I have the honor to state that during this period 4,447 miles of sewers were constructed, divided as follows:

	Linear Feet.	Miles.
Vitrified stoneware pipe sewers, 12-inch to 24-inch.....	21,036.3	3.984
Cast-iron pipe sewers, 16-inch to 24-inch.....	96.0	0.018
Brick sewers, 30-inch to 120-inch.....	2,350.8	0.445
	23,482.8	4.447

The increase in mileage, however, is 4.133 miles, for the reason that some of the sewers have been altered, replaced or reconstructed.

The mileage on March, 1906, was..... 767.715
Increase during this quarter..... 4.133

Total mileage June 30, 1906..... 771.848

Thirty-five sewer basins were constructed during the quarter under contract with the City, and one (1) was constructed by the Atlantic Avenue Improvement Commission at the northeast corner of Atlantic avenue and Nostrand avenue. These increase the total number of basins existing on March 31, 1906, viz., 8,906, to a total of 8,942.

You will find appended to this report tabular statements, setting forth in detail all the work performed.

The value of the work cared for under contract, including all contracts from the period of authorization when work tending towards their completion and construction is begun, such as contracts whose status is that of entered into, completed, in progress, advertised for bids, or in the hands of the Corporation Counsel for approval as to form, preceding advertisements and contracts authorized for which surveys are being made and plans and specifications prepared, amounts to \$5,361,719.21, which may be itemized as follows:

13 contracts completed.....	\$330,263 60
106 contracts uncompleted or in course of construction, at an estimated cost of.....	2,240,505 61
Total payments have been made on above uncompleted contracts to an extent of \$92,692.55.	
38 contracts are in course of execution, being in Corporation Counsel's hands for approval as to form or being advertised for the receipt of contractors' bids.....	339,100 00
53 contracts have been authorized by the Board of Estimate and Apportionment, for which surveys are being made and plans and specifications prepared, which are estimated to cost.....	2,451,850 00
Giving a total of.....	\$5,361,719 21

It is noted in the report of the Superintendent of Maintenance that the following principal items of work have been performed in maintaining the sewerage system as to repairs and cleaning:

Brick sewers examined, linear feet.....	334,240
Pipe sewers examined, linear feet.....	960,000
Pipe sewers cleaned, linear feet.....	354,700
Brick sewers cleaned, linear feet.....	8,150
Basins examined.....	12,050
Basins cleaned.....	6,853
Deposit removed from basins, cubic yards.....	9,389
Average cost of cleaning basins (per basin).....	\$1 69
Average cost of cleaning basins (per yard).....	\$1 23

The pumping performed at the Twenty-sixth Ward Disposal Works is 888,270,640 gallons of sewage clarified and pumped to outfall and 773,128 cubic feet of fluid sludge removed to spoil bank.

The pumping at the three Sewage Disposal Works situated in the Thirty-first Ward is 367,503,062 gallons of sewage clarified and pumped to the outfall and 696,086 cubic feet of fluid sludge removed to the spoil banks.

Yours respectfully,
H. R. ASSERSON,
Chief Engineer of Sewers.

BUREAU OF PUBLIC BUILDINGS AND OFFICES.

Brooklyn, July 9, 1906.

Hon. DESMOND DUNNE, Commissioner of Public Works, Borough Hall, Brooklyn:

Dear Sir—I desire to present herewith the report of the Bureau of Public Buildings and Offices for the quarter ending June 30, 1906, setting forth the number of orders issued, approximately the amount of money expended for the various classes of supplies for and repairs to the public buildings, and in the interest of the various bureaus within the jurisdiction of the President of the Borough; a brief statement of the principal repairs made to the different buildings within that time, a memorandum of the contracts entered into through this bureau during these three months; a statement of the contracts still pending, and a summary of the quarter's work on the several public buildings in the course of erection and under alterations.

Yours very respectfully,

JOSEPH M. LAWRENCE,
Superintendent.

Borough Hall.

During the quarter Otto Metz's contract for retiling the entire lower corridor of this building has been practically completed, resulting in a very desirable improvement, which seems to have been overlooked by previous administrations. This corridor of the principal office building in this Borough is used daily by countless people crossing from Joralemon street to Fulton street, and from Fulton street to Court street, and the improvement just perfected is, therefore, apparent to hundreds of citizens who perhaps never enter one of the other local buildings. The work was delayed some little time by reason of errors of the contractor, but as finally completed is one of the most satisfactory contracts thus far arranged by this administration. This contract, having come largely under your personal observation, has perhaps received more detail attention from the contractor than otherwise. As soon as the appropriations requested for other betterments for this building have been secured I expect to have this corridor, as well as other portions of the premises, placed throughout in first-class order, installing new lighting fixtures and kalsomining and painting ceilings and side walls.

Various repairs to the steam pipes throughout the building and to the roof leaders on the rear of the structure have been made, plumbing fixtures have been repaired as occasion required, and in the office of the Bureau of Buildings, on the top floor, partitions were erected to form small rooms for the Engineers, Plan Examiners, Chief Inspector and Assistant Superintendent—improvements that cost a fraction less than one thousand dollars.

Municipal Building.

Many of the offices in this building were repainted and redecorated, sections of the plumbing renewed, gutters in front of the building repaired and steam fixtures overhauled. The top floor rooms, which will have been entirely vacated by the Bureau of Sewers within a day or two, I expect to use largely for enlarged office accommodations for this Bureau. They will require considerable fixing up, but it is my purpose to have that work done by the Bureau employees, so that there will be no additional cost to the City.

Kings County Court House.

This building was the occasion of no very large expense during the quarter. The plumbing fixtures from time to time were repaired at nominal cost, and the extension roof was repainted.

Kings County Hall of Records.

The Van Dorn Iron Works Company, contractors for installing metal furniture in the headquarters of the County officers in this building, is still working on its contract, which should have been completed long ago. The firm has been generally slow in its operations and I am anxiously looking forward to the time when it will have finished its work and vacated the premises. All of the other contracts for this building, which have been pending for years, were completed shortly after the close of the year. I have been requested to install additional metal furniture in the County offices, and with an appropriation which I have every reason to believe will be accessible in the very near future I shall be able to comply with these requests. Minor repairs of different character have been done in this building during the past three months.

Kings County Jail.

The cost of plumbing repairs as usual has been the main expense chargeable against this building during the past quarter. The sewer pipes in the driveway have also been repaired and the walls of the dining-room have been cleaned off and repainted.

Brooklyn Disciplinary Training School.

I have honored very few requisitions this year for repairs to the old buildings occupied by this institution at Fifty-seventh street and Eighteenth avenue. The buildings do not seem to my mind to warrant extensive repairs. However, Borough President Coler thought it advisable to make repairs that are absolutely necessary for the safety of the young inmates, and I have recently forwarded to him a request to obtain an appropriation of \$7,000 for this purpose.

Municipal Courts.

Minor repairs of various character were made to the buildings occupied by the First, Second, Third, Fourth, Fifth and Seventh Municipal Courts, and the old Montauk Theatre building (which is owned by the City, and the upper floors of which were assigned to the Sixth District Municipal Court's use and placed in condition for court purposes early in the year), which was, during the past quarter, somewhat renovated to suit Judge Baylis's needs.

Magistrates' Courts.

The eight City Magistrates' Courts were also repaired as occasion demanded during the quarter.

Wallabout Market—Administration Building.

This building itself required no attention during the quarter, and the only expense to this Bureau in connection with its operations in Wallabout Market during the past three months has been the salaries of the Market street cleaning crew and repairs to street sweepers.

Firemen's Hall, Eastern District.

No expense whatever has been occasioned to this Bureau by this building during the quarter.

Interior Baths.

The interior public baths, open all the year, are steadily increasing in usefulness and in attendance, as indicated by the generally increased receipts for soap, use of towels and bathtubs. In the week ending June 10 \$353.90 were thus received, against \$109.01 for corresponding week in 1905, being more than the entire aggregate received during the first eleven weeks of the year 1905. If we deduct the receipts from Duffield Street Bath, which was not in operation a year ago, the comparison of the week in question was \$353.67 against \$109.01. That the increased use of the baths brings better health and better moral tone to the community is the testimony of one of the most efficient of the attendants in charge.

New Interior Baths.

Ground has been broken on the northeast corner of Fourth avenue and President street for a new and larger bathhouse than any of the five now in use. A swimming pool will be one of the features of this bath, which is a new feature in our Brooklyn system. Sites have been purchased for two additional bathhouses, one on Nostrand avenue, opposite Stockton street, and the other on Hamburg avenue, near Willoughby avenue.

Floating Baths.

The five floating baths have been opened earlier than on any previous season, the bath at Conover street having been towed to position on June 11, and the others within five days thereafter. They are located, as they have been for several years, at the foot of Dock street, foot of North First street, foot of Noble street, foot of Fifty-eighth street, foot of Conover street.

The development of the floating bath system has been checked by the fact that no other available locations can be found along the waterfront.

Public Comfort Stations.

The public comfort stations continue to be a great convenience to the people, especially those at Borough Hall, Lorimer street and Hamilton avenue. The Reid avenue station is by no means so useful as a station at Fulton street and Flatbush avenue would be, which was the location originally selected for Station 2; afterwards changed to Reid avenue because of the objections of the neighboring store keepers, who probably did not know how little it would discommode them, if, indeed, it did at all. A station at this point is more needed than anywhere else in Brooklyn.

Only slight repairs have been made recently to the stations, but the roof of Lorimer street station, owing to fault of its original construction, needs to be entirely rebuilt, which will necessitate an expenditure of several thousand dollars.

Proposed New Eighth Ward Market.

Plans and estimates for a wholesale public market in the Eighth Ward, to cost \$2,057,282, were prepared by this Bureau during the quarter and forwarded to the Borough President, who approved same.

Proposed New Municipal Court Building.

The city having acquired a parcel of land fronting on Flatbush avenue and Sterling place, preliminary estimates for a building on the site for the new Sixth District Municipal Court are being prepared by this Bureau, and will be ready to forward to the President of the Borough in about ten days.

No. 212. Garrison avenue, asphalt block paving, from Hunt's Point road to Whit-tier street. No opposition at hearing.

On motion, the Board adopted a resolution in favor of initiating proceedings for this improvement by the following vote:

Affirmative—Alderman O'Neill, Alderman Murphy, Alderman Kuntz, Alderman Morris and the President of the Borough of The Bronx.

Asked to be excused from voting—Alderman Harnischfeger, but with the understanding that all subsurface improvements were to be laid before paving was commenced Alderman Harnischfeger voted in favor.

No. 264. Paving with asphalt block on concrete foundation Prospect avenue, from Tremont avenue to East One Hundred and Eighty-ninth street, and setting curb where necessary. No opposition to petition.

Estimated cost, \$46,000. Assessed value of the real estate included within the probable area of assessment is \$1,130,092. Title vested May 9, 1898; sewer and water in street; no gas from One Hundred and Eighty-second street to Grote street, and from One Hundred and Eighty-seventh street to One Hundred and Eighty-ninth street.

On motion, the Board adopted a resolution in favor of initiating proceedings for this improvement, with the understanding that all subsurface improvements be laid before commencing the paving. Affirmative—President of the Borough of The Bronx, Alderman Murphy, Alderman O'Neill and Alderman Kuntz.

Negative—Alderman Morris. Not voting—Alderman Harnischfeger.

Adopted.

No. 268. Constructing sewers and appurtenances in East One Hundred and Eighty-ninth street, between Park avenue East and Third avenue.

Petition signed by William Stonebridge and three others was read. Three of the petitioners, it appeared, did not own any property on the line of the street. Referred to Alderman Murphy for report.

No. 279. Paving and repaving with asphalt blocks on concrete foundation and setting curb where necessary, Southern Boulevard from Boston road to the St. John's College grounds. Petition placed on file, as this avenue has been recommended by Board of Estimate and Apportionment for paving with wood blocks, and work has been let.

No. 299. Paving with asphalt blocks on concrete East One Hundred and Eighty-fifth street, from Park avenue to Third avenue, and setting curb where necessary. Estimated cost, \$7,000. Assessed value of land, \$233,500. Referred to Alderman Murphy.

No. 300. Paving with granite block on concrete foundation exterior street, from One Hundred and Forty-fourth street to One Hundred and Forty-ninth street, and setting curb where necessary. Petition of Pioneer Real Estate Company and others was read. Laid over awaiting report of the Chief Engineer.

No. 301. Regulating, grading, etc., Manida street from Lafayette avenue to Edgewater road. Petition of William M. Browne and others was read. Laid over awaiting report of the Chief Engineer.

No. 302. Regulating and grading, etc., Randall avenue, from Leggett avenue to the Bronx river. Laid over awaiting report of the Chief Engineer.

No. 304. Regulating, grading, etc., Kingsbridge road, between Bailey avenue and Spuyten Duyvil creek. Laid over awaiting report of the Chief Engineer.

No. 308. Regulating and grading, etc., Johnson avenue, between Kappock street and Spuyten Duyvil road at West Two Hundred and Twenty-seventh street, and in Spuyten Duyvil road, between Johnson avenue, at West Two Hundred and Twenty-seventh street and West Two Hundred and Thirtieth street. Petition of Thomas F. Burke and others was read.

Estimated cost, \$65,000. Assessed value of the real estate included within the probable area of assessment is \$88,580.

Title vested January 12, 1898, to Johnson avenue. Title vested January 14, 1898, to Spuyten Duyvil road.

The Engineer of Highways reported that "there is a very good reason why a certain part of the cost of this construction should be assessed upon the city at large, i. e., that it will be one of the approaches to the Henry Hudson Memorial Bridge, and will be of as much, or more, benefit to the general public than to the abutters."

"Again, the necessity for the excessive amount of rubble masonry on this contract is due to the junction of two roads in such a manner as to necessitate a heavy wall between the two, and this is a condition for which the property owners can hardly be held responsible."

"I submit these two matters to your attention as furnishing a reason why a portion of the cost should be assessed upon the city at large."

On motion, duly seconded, the Local Board adopted a resolution initiating proceedings for regulating and grading, setting curbstones and flagging sidewalks a space four feet wide, laying crosswalks, building approaches and erecting fences where necessary in Johnson avenue, between Kappock street and Spuyten Duyvil road, at West Two Hundred and Twenty-seventh street, and in Spuyten Duyvil road, between Johnson avenue at West Two Hundred and Twenty-seventh street and West Two Hundred and Thirtieth street; and it was further

Resolved, That the Local Board of Morrisania, Twenty-fourth District, hereby recommends to the Board of Estimate and Apportionment that 50 per cent. of the cost and expense of the said work be borne and paid for by The City of New York and the other 50 per cent. of the cost and expense of said work be assessed upon the property deemed to be benefited thereby.

Unanimously adopted.

No. 310. West One Hundred and Seventy-ninth street, regulating and grading, setting curbstones, flagging sidewalks a space four feet wide, laying crosswalks, building approaches and erecting fences where necessary from Cedar avenue to an exterior street.

No opposition at hearing.
On motion, duly seconded, the Board adopted a resolution initiating proceedings for the said local improvement.
It was also recommended to the Board of Estimate and Apportionment that a date be fixed for the vesting of title to said street.

No. 324. Acquiring title to exterior street, from West One Hundred and Seventy-ninth street to Fordham Heights bridge approach, and also public place adjoining an exterior street.

Petition of Fordham Dock Company and James K. Walter was read.
Three protests were presented, signed by New York University, John J. Amory, for Gas Engine and Power Company, and Charles L. Seabury & Co., and by John J. Amory individually.

Laid over and referred to Chief Engineer of the Borough and Alderman Morris.

No. 325. Regulating and grading, setting curbstones, flagging sidewalks, laying crosswalks, building approaches and erecting fences where necessary in an exterior street, from West One Hundred and Seventy-ninth street to Fordham Heights Bridge approach; also public place adjoining an exterior street.

Petition of Fordham Dock Company and James K. Walter was read.
Laid over awaiting report on the matter of acquiring title, which has been referred to the Chief Engineer, and the Alderman of that district.

No. 326. Paving with iron slag on concrete foundation Clay avenue, from East One Hundred and Sixty-sixth street to Wendover avenue, and setting curb where necessary.

Petition of Chas. Greite and others was read.
Estimated cost, \$62,000. Assessed value of the real estate included within the probable area of assessment is \$445,600.

On motion, the Board adopted a resolution in favor of initiating proceedings for this improvement, with the understanding that all subsurface improvements be laid before commencing the said work.

Affirmative—Alderman Kuntze, Alderman Morris, Alderman Murphy and President Haffen.

Negative—Alderman Harnischfeger and Alderman O'Neill.

Adopted.

No. 327. Jerome avenue, regulating, grading, etc., from Gun Hill road to the northern City line.

Laid over awaiting report of the Chief Engineer.

No. 328. Paving with sheet asphalt on a concrete foundation Concord avenue, from One Hundred and Forty-first street to One Hundred and Fifty-second street, and setting curb where necessary.

No opposition at hearing.
Estimated cost, \$32,000. Assessed value of the real estate included within the probable area of assessment is \$672,162.

On motion, duly seconded, the Board adopted a resolution to initiate proceedings for the said local improvement, with the recommendation that the work be not commenced until all subsurface improvements are laid.

Adopted.

No. 329. Paving with granite blocks on sand foundation Tiffany street, from Intervale avenue, and setting curb where necessary.

Estimated cost, \$17,000. Assessed value of the real estate included within the probable area of assessment is \$489,230.

Title vested January 6, 1897.

On motion, duly seconded, the Board unanimously adopted a resolution in favor of initiating proceedings for the said local improvement.

No. 330. Sewers and appurtenances in Bryant avenue, between East One Hundred and Seventy-seventh street and Boston road.

Petition of L. H. Pierce and others was read.
Estimated cost, \$6,200. Assessed value of the real estate, with improvements, included within the probable area of assessment is \$48,750.

On motion, duly seconded, the Board unanimously adopted a resolution in favor of initiating proceedings for the said improvement.

Miscellaneous matters laid over from meetings of June 14 and July 12, 1906:

Edgewater road discontinuance, from the centre of Tiffany street to what is known as the "Ship Basin." Relative to the closing and extending streets in the area bounded by Viele avenue, Bryant avenue and the East river.

Report of Chief Engineer of the Borough.

A petition and a map having been presented to the President of the Borough of The Bronx, signed by the East Bay Land and Improvement Company, to discontinue Edgewater road, from the centre of Tiffany street to the Ship Basin, or Bryant street, and to extend to the bulkhead line, Bryant street, Faile street, Coster street and Manida street, I wish to say that Edgewater road, between the above limits, is located at or near Barretto's Point, one of the prettiest points on the shores of the East river in the Hunt's Point section, and I would suggest, therefore, that that part be reserved for a public park.

There is no objection to extending to the bulkhead line, Bryant street, Faile street and Coster street; also to the closing of Edgewater road, from Coster street to Bryant street, or the Ship Basin.

Coster street, as far as it borders the park, could be made 100 feet, the same as the streets along the other border, namely, Viele avenue.

I beg to submit herewith for the consideration of the Local Board a sketch on which the above propositions are shown.

Respectfully,

F. GREIFFENBERG,
Principal Assistant Topographical Engineer.

Approved June 13, 1906:

Josiah A. Briggs,

Chief Engineer of the Borough of The Bronx.

On motion, duly seconded, the Local Board recommended to the Board of Estimate and Apportionment the laying out of a park as favorably reported upon in the above report of the Chief Engineer of the Borough of The Bronx.

East One Hundred and Sixty-first street, change of map showing a widening between Brook avenue and Third avenue.

On motion of Alderman Harnischfeger, seconded by Alderman Murphy, this matter was laid over, to be taken up in executive session.

By Alderman Morris—

Resolved, That the Local Board of Morrisania, Twenty-fourth District, hereby respectfully urges upon the Board of Rapid Transit Commissioners of The City of New York the necessity of immediately granting to the Interborough Rapid Transit Company permission to construct a third track on their Second and on their Third Avenue lines, in order that the residents of this Borough may get some relief from present congested conditions of traffic and thereby improve the express service to and from the Borough of The Bronx.

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Rapid Transit Commissioners, and to the Interborough Rapid Transit Company.

Adopted by the Local Board of Morrisania, Twenty-fourth District, on the 2d day of August, 1906.

Alderman O'Neill, Alderman Harnischfeger, Alderman Murphy, Alderman Morris and the President of the Borough of The Bronx voting in favor thereof.
Not voting—Alderman Kuntze.
Adopted.

In Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx.

Whereas, On June 14, 1906, the following preambles and resolution were presented to the Local Board of Morrisania, Twenty-fourth District, by Alderman Kuntze:

Whereas, There seems to be a public necessity that a park should be established in the section hereinafter described, and the land in said neighborhood is unimproved and the location is ideally fitted for the establishment of a public park, bathing beach and pavilion; and

Whereas, The assessments for improvements of this kind are levied upon the entire City, under the laws and statutes made and provided, and the people of the Borough of The Bronx have been assessed for improvements of like nature in the further parts of the Borough of Brooklyn, and it is proper and equitable that improvements of a like nature should be made in the Borough of The Bronx, where they will be accessible to the 350,000 inhabitants therein and thereby obviate the necessity of a long and tedious and oftentimes dangerous journey to the outlying parts of the Borough of Brooklyn; now therefore

Resolved, That a public park, bathing beach and pavilion be established, located and erected within the boundaries hereinafter described, to wit: All that land lying south of East One Hundred and Thirty-fourth street and east of Walnut avenue, bounded on the east and south by Long Island Sound and the Bronx Kills, and that immediate measures be adopted and proper recommendations be made for the carrying out of this work.

Whereas, At the meeting of June 14, 1906, after considering the foregoing preambles and resolution, the Board recommended that the Chief Engineer of the Borough of The Bronx submit a report and a map in connection with this proposed lay out; and

Whereas, Under date of July 31, 1906, the said Chief Engineer reported as follows: A resolution having been introduced in the Local Board of Morrisania by Alderman Kuntze as follows:

Resolved, That a public park, bathing beach and pavilion be established, located and erected within the boundaries hereinafter described, to wit:

All that land lying south of East One Hundred and Thirty-fourth street and east of Walnut avenue, bounded on the east and south by Long Island Sound and the Bronx Kills, and that immediate measures be adopted and proper recommendations be made for the carrying out of this work I beg to transmit herewith a map or plan showing the location of a proposed public park, lying southerly of East One Hundred and Thirty-fourth street and east of Walnut avenue, bounded on the east and south by the East river and the Bronx Kills.

The area of the proposed park is approximately twenty-five acres, and the assessed valuation, according to the tax records, is \$558,500.

At the meeting of the Local Board of Morrisania, Twenty-fourth District, held on August 2, 1906, the following resolutions were adopted:

Resolved, That the Local Board of Morrisania, Twenty-fourth District, hereby recommends to the Board of Estimate and Apportionment that a public park, bathing beach and pavilion be established, located and erected within the boundaries hereinafter described, to wit:

All that land lying south of East One Hundred and Thirty-fourth street and east of Walnut avenue, bounded on the east and south by the East river and the Bronx Kills, and that immediate measures be adopted and proper recommendations be made for the carrying out of this work; and be it further

Resolved, That the Local Board of Morrisania, Twenty-fourth District, hereby recommends to the Department of Docks and Ferries that a recreation pier be built at the foot of East One Hundred and Thirty-second street, East river, Borough of The Bronx, City of New York.

Adopted by the Local Board of Morrisania, Twenty-fourth District, on the 2d day of August, 1906.

Alderman Kuntze, Alderman O'Neill, Alderman Murphy, Alderman Morris, Alderman Harnischfeger and the President of the Borough voting in favor thereof.

Negative—None.

Electric light on Two Hundred and Thirty-first street, between Albany and Bailey avenues.

Recommended to the Department of Water Supply, Gas and Electricity.

Laying gas and water mains in Findlay avenue, Grant avenue, College avenue, Hull avenue and Decatur avenue where not already laid. Also in One Hundred and Sixty-fifth street, from Webster avenue to Sherman avenue; in One Hundred and Sixty-sixth street, between Webster avenue and Sherman avenue. Recommended to the Department of Water Supply, Gas and Electricity.

On motion, the Board adjourned until August 30, 1906.

(Signed.) HENRY A. GUMBLETON, Secretary.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE, August 29, 1906. 431,520

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF MANHATTAN:

FOURTH AND SEVENTH WARDS, SECTION 1.

CATHARINE SLIP—PAVING AND PLACING BRIDGE STONES, between South and Cherry streets. Area of assessment: Both sides of Catharine slip, from South to Cherry street and to the extent of half the block at the intersecting and terminating streets.

That the same was confirmed by the Board of Assessors on August 28, 1906, and entered on August 28, 1906, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for a period of sixty days after the date of entry thereof on the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room 85, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before October 27, 1906, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

HERMAN A. METZ,
Comptroller.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF THE BRONX:

TWENTY-FOURTH WARD, SECTION 11. EAST ONE HUNDRED AND SEVENTY-NINTH STREET—REGULATING, GRADING, SETTING CURBSTONES, FLAGGING THE SIDEWALKS, LAYING CROSSWALKS, BUILDING APPROACHES AND PLACING FENCES, from Third avenue to the Bronx river. Area of assessment: Both sides of East One Hundred and Seventy-ninth street, from Third avenue to the Bronx river, and to the extent of half the block at the intersecting and terminating streets and avenues.

That the same was confirmed by the Board of Assessors August 28, 1906, and entered on August 28, 1906, in the Record of Titles of Assessments kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or

property shall be paid within sixty days after the date of said entry of the assessments interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for a period of sixty days after the date of entry thereof on the said Record of Titles of Assessments it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before October 27, 1906, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessment became a lien to the date of payment.

COLLEGE OF THE CITY OF NEW YORK.

BOARD OF TRUSTEES OF THE COLLEGE OF THE CITY OF NEW YORK.

PROPOSALS FOR BIDS OR ESTIMATES FOR SUPPLIES.

SEALED BIDS OR ESTIMATES WILL BE received by the Chairman of the Board of Trustees of the College of The City of New York at the office of the Board, No. 17 Lexington avenue, in The City of New York, until 12 o'clock noon on

THURSDAY, SEPTEMBER 6, 1906.

FOR FURNISHING AND DELIVERING CHEMICALS, SUPPLIES, MATERIALS AND APPARATUS FOR THE DEPARTMENT OF NATURAL HISTORY OF THE COLLEGE OF THE CITY OF NEW YORK.

The time for the delivery of the articles, materials and supplies and the performance of the contract is between the 1st and 30th days of December, 1906, or thereafter from time to time, as may be directed by the Professor of Natural History, not later than July 1, 1907.

The amount of security will be fifty per cent. (50%) of the amount of the bid or estimate.

For particulars as to the quantity and quality of the supplies or the nature and the extent of the work required or of the materials to be furnished, bidders are referred to the specifications and the blank proposals and lists of articles, materials, supplies and apparatus to be furnished and delivered to the places designated.

Such work and materials must conform in every respect to the specifications and schedules. The quality of the articles, supplies, goods, wares and merchandise must conform to and must be the same or equal in quality, character, finish and design to the samples furnished, or to those described by the names of well-known dealers and manufacturers and referred to by catalogue numbers. Bidders are cautioned to examine the

specifications for particulars of the articles, etc., required before making their estimates, and are cautioned against referring to any samples or specifications other than those furnished by the Board of Trustees. Such references are cause for rejecting bids whereon they are written, and will in no case govern the action of the Board of Trustees in passing upon tenders. Bidders must state the price of each item. Awards will be made to the lowest bidder on each item whose goods are the same or equal to the samples furnished for inspection or referred to by catalogue number.

Bidders shall describe the various items by reference to the particular maker's catalogue or circular, or by the submission of a sample. Only one bid will be received from a bidder for each item.

Samples will be on exhibition at the College of The City of New York, No. 17 Lexington avenue, Room 15, until the bids are opened. All goods must be delivered as directed, in the original bottles or packages, at the Department of Natural History, the College of The City of New York, One Hundred and Fortieth street and Convent avenue, Borough of Manhattan (unless otherwise stated in the specifications). The weight, measure, etc., will be allowed as received at the institution.

No charge will be allowed for freight expenses, boxes or cartage, but boxes may be taken away by the contractor.

Contractors who fail to make prompt deliveries will be considered as in default and debarred from bidding in the future.

EDWARD M. SHEPARD,
Chairman Board of Trustees.
JAMES W. HYDE,
Secretary.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the widening of THIRD AVENUE, on its easterly side from Willis avenue to East One Hundred and Forty-ninth street, in the Twenty-third Ward, Borough of The Bronx, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS OF Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 17th day of September, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 18th day of September, 1906, at 1 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 24th day of September, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title to FORTY-SIXTH STREET, from Twelfth avenue to Seventeenth avenue, in the Thirtieth Ward, in the Borough of Brooklyn, The City of New York.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, were appointed by an order of the Supreme Court, made and entered herein on the 1st day of December, 1905, and

duly filed in the office of the Clerk of Kings County, a copy of which order was filed in the office of the Register of the County of Kings on the 13th day of December, 1905, and indexed in the Index of Conveyances in Section 17, Blocks 5616, 5617, 5618, 5622, 5623, 5624, 5433, 5434, 5436, 5437, Commissioners of Estimate and Assessment for the purpose of making a just and equitable estimate of the loss and damage, if any, to the respective owners, lessees, parties and persons entitled to or interested in the lands and premises to be taken for the purpose of opening the said street or avenue, as particularly described in the petition of The City of New York, filed with said order in the office of the Clerk of Kings County, and for the purpose of making a just and equitable assessment of the benefit of said street or avenue so to be opened to the respective owners, parties and persons respectively entitled to or interested in the lands and premises and not required for the purpose of opening said street or avenue, but benefited thereby, and of ascertaining and defining the district benefited by said assessment, and the extent and boundaries of the respective tracts and parcels of land participating in said benefit, and of performing the trusts and duties required of us by title 4 of chapter 17 of the Charter of The City of New York, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the lands and premises taken or to be taken for the purpose of opening said street or avenue, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office in the Bureau of Street Openings of the Law Department, No. 166 Montague street, Borough of Brooklyn, in The City of New York, with such affidavits or other proofs as the said owner or claimants may desire, within twenty days after date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 11th day of September, 1906, at 10 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto; and at such time and place, and at such further and other time and place as we may appoint, we will hear such owners in relation thereto and examine proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

Dated Borough of Brooklyn, The City of New York, August 16, 1906.

PETER P. HUBERTY,
JOHN J. BRENNAN,
Commissioners.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.

THE CITY RECORD.

OFFICIAL JOURNAL OF THE CITY OF NEW YORK.

There shall be published daily, Sundays and legal holidays excepted, under a contract to be made as hereinafter provided, a paper to be known as the CITY RECORD. And said CITY RECORD, and the newspapers now by law designated as corporation newspapers in the present City of Brooklyn, shall be the only papers to be included within the term corporation newspapers, as the same is used anywhere in this act; There shall be inserted in said CITY RECORD nothing aside from such official matters as are expressly authorized. . . . All advertising required to be done for the City, except as in this act otherwise specially provided, and all notices required by law or ordinance to be published in corporation papers, shall be inserted at the public expense only in the CITY RECORD, and the publication therein shall be a sufficient compliance with any law or ordinance requiring publication of such matters or notices. . . . The Comptroller shall cause a continuous series of the CITY RECORD to be bound as completed, quarterly, and to be deposited with his certificate thereon in the office of the Register of Deeds of the County of New York in the County Clerk's office of said County, and in the office of the City Clerk, and copies of the contents of any of the same, certified by such Register, County Clerk or City Clerk, shall be received in judicial proceedings as prima facie evidence of the truth of the contents thereof.—§1526. *Greater New York Charter.*
