402	

It will be observed that of the pending proceedings 7,487, or more than one-half, are actions against the City brought by laborers, mechanics or other employees.

The "prevailing rate of wages" actions number more than 4,000, and are all brought by laboring men and mechanics who have been paid their fixed wages, but who seek to recover the difference between that sum and the alleged wages prevailing for similar services in The City of New York, outside the City's work, under the provisions of section 3 of the Labor Law. At the request of counsel for a large number of the plaintiffs, who also represent certain labor organizations both of the State and of the City, I have arranged a method by which an authoritative decision on the point may be speedily obtained from the courts. One of these matters has been argued and submitted to the Supreme Court, in New York County, and awaits decision.

The so-called "suspension" cases number nearly 3,000, and are brought by City employees who have been from time to time "laid off" or discharged for lack of work or other causes. The so-called "overtime" cases are brought to recover wages for work claimed to have been done in excess of the period of eight hours, the labor day prescribed by the Labor Law. In many respects the same questions arise in these "overtime" cases as in the "prevailing rate of wages" group. They involve, as well, important questions of statutory construction. A large number of other cases are concerned with questions regarding the proper construction of the Civil Service Law, and especially the sections referring to the rights of veteran soldiers, sailors and firemen. In all of these cases there is, of course, a considerable diversity as to the facts, but they may be readily classified into a small number of groups, in each of which the same principles will govern. I have selected typical cases from each of these groups for trial, in order that the existing uncertainty regarding the rules of law may be settled.

In these actions for wages, the amount sued for by each individual is usually not large, but the whole amount claimed from the City in the 7,487 cases now reported aggregates more than \$10,000,000. It is thus evident that the benefits from this course will be very great, both to the claimants and to the City. In the case of the City, not only will it result in disposing of a great mass of litigation and the saving of a large sum for interest, costs and expense, but a greater effect will follow in the quieting of the controversies over the questions of wages, which have disturbed and embarrassed the administration of municipal business in many of the important departments of the City.

Further comment on the work of the department, so far as it has to do with the subjects referred to in the schedules above mentioned, may properly be deferred until later in the year, when the results of the policy outlined above will be more evident.

I submit, however, the following comparative statement, taken from Schedules 1, 2, 3, 4, 7 and 8, above referred to, which shows the number of actions and proceedings begun and ended during the quarter, appeals argued, trials and hearings, orders entered, contracts, etc., examined, and opinions rendered, during the first quarter of the year, as compared with the same figures for the corresponding period in 1901. Such statistics, in respect to the general work of a law office, are not conclusive and may easily be misleading; but they will at least serve to illustrate the constant growth of the business with which the Law Department has to deal:

In the Bureau of Street Openings thirty-four reports were confirmed or submitted for confirmation during the first quarter of this year. The awards made in these reports aggregated \$3,037,433.27, the assessments \$2,520,529.38, and the linear feet of street acquired amounted to 69,467.32, or 13.16 miles.

During the first quarter of the year 1901 twenty-two reports were confirmed or submitted for confirmation, in which the awards aggregated \$1,190,579.97, the assessments \$1,250,580.19, and the linear feet of street under acquisition 22,553, or 4.27 miles. The first quarter of this year shows, therefore, that, as compared with 1901, more than double the amount of work in importance was completed.

In addition to the foregoing, 61 preliminary reports in street opening proceedings were prepared and filed, in which the awards aggregated \$2,379,353.77 and the assessments \$3,287,571.82, as against 7 preliminary reports filed during the same period of last year, in which the awards amounted to \$761,056.42 and the assessments to \$226,932.98.

It is apparent from the foregoing that if the same rate of progress is continued more than one-half of all the pending proceedings in the Bureau will be completed by the close of this year.

In the Bureau for the Collection of Arrears of Personal Taxes the collections for the quarter amount to \$126,542.07. Almost as large an amount will be collected in the second quarter of the year.

The total collections for the four years previous, being the years 1898, 1899, 1900 and 1901, only amounted to \$157,316.86. The collections of the Bureau for 1902 exceed this figure by the end of the first three weeks of April.

In detail the figures up to the last mentioned date are as follows:

Year 1898	\$26,680 41
Year 1899	29,745 00
Year 1900	30,180 71
Year 1901	70,710 74
	\$157,316 86
January, 1902	\$53,080 83
February, 1902	30,928 30
March, 1902	35,623 94
April, 1902 (to 21st only).....	32,146 70
	\$158,688 83

It will thus be seen that the collections by this Bureau in less than four months since the first of January, 1902, exceed the total collections for the past four years.

The statistics of the Bureau for the Collection of Penalties may be compared with the corresponding figures for last year as follows:

------------------------------	------------	------------

It will be observed that while there is, in almost every branch of this work, a large increase in the number of complaints received, there has been a still greater increase in the efficiency of the Bureau. For example, in 1901, out of 911 actions brought for violation of Corporation Ordinances, 709 were dismissed, or nearly 78 per cent. In 1902, out of 1,304 actions brought in the same class of cases, 355 were dismissed, or less than 24 per cent.

A great deal of attention was given, during the first quarter of the year, to the subject of violations of the fire laws. An effort has been made to inaugurate a new system of procedure with respect to drawing and serving notices of violations. It is hoped that this will lead to much more thorough enforcement of the laws, and will do away with much criticism, based on supposed favoritism, by the officers of the Fire Department.

I regret to say that the statistics in reference to Health Department matters and matters relating to the Bureaus of Buildings in the several boroughs are not as complete or trustworthy as they should be. The matter is receiving my careful attention and I hope in time to have these important subjects put upon a much more satisfactory footing than ever before.

This report (following the custom in previous years) contains no reference to the proceedings conducted by the Law Department for condemnation of property in the watersheds of Westchester and Putnam Counties. This subject I intend to include in a subsequent report.

In my letter transmitting the annual report of this Department for the year 1901 I stated that it was my purpose to try to devise means of condensing some of the schedules. That report, when printed, covered 1,150 pages, and I have succeeded in cutting down the present report to 307 pages, and have done so without omitting anything which seems to be useful or necessary. This will result in a considerable saving of expense to the City for printing.

The labor involved in recasting the form of the report accounts in large part for the delay in its preparation.

Respectfully yours,

G. L. RIVES, Corporation Counsel.

Two communications were received from the Secretary of the Commissioners of the Sinking Fund, under date of June 28 and July 8, transmitting certified copies of resolutions adopted by that body, as follows:

(1) Approving of the bid of Cappiello & Hazell for materials and labor required in the erection and completion of the proposed bulkhead for the Second Naval Battalion.

(2) Authorizing the issue of Corporate Stock to pay awards and interest in the matter of acquiring title to certain lands in Lexington avenue for the Sixty-ninth Regiment Armory.

(4) Authorizing the Comptroller to issue Corporate Stock to the amount of \$850, for clearing up Thirty-fourth street front of the site of the Seventy-first Regiment Armory.

Ordered filed.

A communication was received from Perez M. Stewart, Superintendent of Buildings, under date of June 27, and also one of June 30, in relation to the ruins of the Seventy-first Regiment Armory.

A report from J. Hollis Wells, Engineer, on the same subject, under date of July 8, was also received.

A communication from Contractor Murphy, giving estimates for removing the debris on the site of the Seventy-first Regiment Armory.

An Inspector from the Department of Buildings made a statement in regard to the dangerous condition of the ruins.

After a discussion relative to the present condition of the walls and the construction of a new Armory, Brigadier-General George Moore Smith offered the following:

Resolved, That Messrs. Clinton & Russell, architects, be appointed to prepare plans and specifications for a new Armory for the Seventy-first Regiment, to be located on the site of the present ruins, and that they be directed to confer with the Superintendent of Buildings as to the destruction of the present walls and the disposition of the debris necessary for making everything in connection therewith safe to the public.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

The Chairman directed the President of the Department of Taxes and Assessments to arrange with the Architects as to their charges, the preparation and execution of a contract for services, and also as to the care of the ruins.

Colonel Wells, representing the Architects, stated that the plans for this work had been prepared by their firm and that the estimated cost was \$11,500. The Secretary stated that after making a suitable allowance for cost of inspection and deducting the amount which was available from the appropriation for repairs and supplies to that Armory, \$4,000 would be needed.

The Mayor offered the following:

Resolved, That four thousand dollars be appropriated for alterations and repairs to the steam heating plant in the Seventh Regiment Armory, in accordance with the plans and specifications already drawn by Messrs. Clinton & Russell, Architects, and when the Corporation Counsel has approved said specifications, the Secretary be directed to advertise for bids and estimates for the same, and that the Sinking Fund Commissioners be requested to concur in said action, and authorize the Comptroller to issue bonds for the payment thereof.
