DEPARTMENT OF CORRECTION.

REPORT FOR THE YEAR ENDING DECEMBER 31, 1905.

Department of Correction,
Commissioner's Office, No. 148 East Twentieth Street,
New York, April 30, 1906.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Dear Sir—I beg to transmit, herewith, a Report of the Department of Correction, for the year 1905.

In my frequent visits to the various Islands, as well as to the prisons in New York City, I have found that the strict attention paid to cleanliness and sanitation must have had its effect in maintaining the health and physical well being of our prison population, and, in this connection, I would call your attention to the very small number of deaths which have occurred in the correctional institutions during the year. Deaths have occurred chiefly among the very old and infirm inmates on Hart's Island, and even with these included, the list is still very small. Indeed the mortality is remarkably small when the physical condition of many of these prisoners, on entering the institutions, is taken into consideration.

It affords me pleasure to note the fact that the transactions and operations of the Department, during the past twelve months, have been carried on without friction or trouble of any kind, between those in authority, subordinate officers and inmates.

The good discipline prevailing and the strict enforcement of necessary rules, have made the overseeing and caring for so large a body of criminals and misdemeanants, a lighter task than would have been possible a few years ago. I trust sincerely that the attainment of this state of affairs may prove as gratifying to you as the Chief Magistrate of the great City, as it is to those appointed to carry out your wishes in this branch of the Municipal Government.

While special reports are herewith submitted from each institution of the Department, I beg to state briefly some of the changes and improvements which have been made during the year.

The large new building on Centre, Franklin and Leonard streets being completed, my earnest attention was given to the great need of improvement in the condition of the Annex and Women's Prison, these two forming a part of the group of buildings known as the City Prison. These two buildings have been almost entirely remodeled. New toilets, basins, etc., have been placed in each cell, while swinging cots, with wire spring mattresses have replaced the old canvas cots formerly in use. Electric lights have been placed in the corridors, and one in each cell also.

A new office building, with living quarters for the Matron, has been erected as an addition to the Women's Prison.

At the Second District (Jefferson Market) Prison, two new boilers have been installed, and new tanks, pumps, etc., put in. The heating apparatus at this prison has also been renovated.

A new salt water fire line has been furnished to the Penitentiary, Blackwell's Island, with a fire pump of 1,000 gallons' capacity. The boilers, steam pipes and water pipes are being overhauled, repaired, and replaced, where necessary.

A fireproof stone building is now in course of erection, the dimensions of which are 30 by 100 feet. The first floor will be used as a storehouse, and the second story for a keepers' dining room. It is hoped that this work will be completed early in the Spring of 1906. All the labor on this building is being done by inmates of the Penitentiary.

An improvement, which had been sorely needed for many years, has now been made at the Workhouse, Blackwell's Island, by the building of a new boiler house, the installation of a new boiler plant, and the completion of a new laundry. The

plant is of 450 horse power; and the laundry is provided with the newest and most approved appliances and machinery. Work done here by the female inmates of the Workhouse will now compare favorably with that of the best City laundries.

On the early morning (2.30 a. m.) of December 20, 1905, the north, or women's wing, of the Workhouse was greatly damaged by fire; the roof being entirely destroyed and the building rendered temporarily unfit for occupancy. Fortunately, not a life was lost, and no one was injured in any way, the five hundred and ninety women prisoners being safely removed from the burning building. The flames were confined to that portion of the structure where they originated, and the loss was only upon that wing. A survey was made, at once, with a view of repairing the prison, and it was found that the walls were in condition to allow the placing of a temporary roof over the north wing. The work is being pushed as rapidly as possible, and it is believed that the Workhouse will be ready for occupancy by January 6, 1906. The repairs are all being made by inmates of the institution.

The equipment of this prison with the patent lever-locking device (which had only been completed a short time before the fire occurred), was of untold value in this very serious emergency. With a single turn of the lever, a whole tier of cells was at once unlocked; the frightened inmates collected, and, in charge of matrons and female orderlies, were marched to a place of safety.

The fire corps, organized by the Warden, and composed of the male inmates of the Workhouse, did excellent service before outside aid could arrive.

At the Branch Workhouse, on Hart's Island, a large and well-appointed kitchen and laundry building has been erected, both kitchen and laundry being well equipped with modern machinery and appliances, while a fireproof drying room is an adjunct of the laundry.

The old boiler house has been remodeled and three new boilers of 475 horse power have been installed.

The electric engines, dynamos, etc., have been thoroughly overhauled and repaired, and the best and newest electrical devices substituted for the old ones.

Much work has been done on Hart's Island, in preparing for the New Reformatory for Misdemeanants.

A portion of the building known as the Protestant Chapel has been fitted up for living quarters for the Overseer of this Reformatory. New plumbing, cellars, brick piers, foundations, etc., have been built by the inmates, in order to adapt some of the pavilions for use as workshops for the Reformatory. The dormitories have been renovated and new plumbing put in.

The old buildings on the northern portion of Hart's Island, known as "The Hill," have been renovated and repaired and will be used for housing the women employed in the laundry, having been fitted up as kitchen, dormitory, and dining rooms.

A new stone coal bunker of 1,500 tons' capacity has been built on Hart's Island, and all the above-noted work has been done by labor of the inmates.

A new brick subway, for steam and fire lines, has been contracted for, and the work of construction has been commenced.

On Riker's Island, the filling in of the crib work, by depositing therein the ashes from the City, has steadily progressed, and acre after acre is being added to the surface of the Island. In this work the co-operation of the Department of Street Cleaning with the Department of Correction, is of great value to the City. The satisfactory and comparatively inexpensive disposal of immense quantities of ashes, the lessening of the risk and hazard to life by placing this material so near at hand and in the protected waters of the East River, when considered as taken against the danger, the length of time involved and the consequent expense incurred when these ashes were transported to sea, means a saving to the City in every regard. Adding this to the value of the land surface, which seems, in a sense, to be almost created out of the shoals around the Island, and it is shown to be a great public improvement worthy of attention and encouragement.

The Manufacturing Bureau at the Kings County Penitentiary is in constant operation, and supplies many of the City Departments with shoes, stockings (for the charitable institutions), brooms, brushes, iron bedsteads, wire springs, mattresses, pillows and many other manufactured articles.

The receipts for these goods, together with the board received for United States and County prisoners, have rendered this institution almost self-supporting.

Early in the session the State Legislature of 1905 passed an act providing for the sale of the lands of the Kings County Penitentiary and the removal of the inmates to one of the Islands under the jurisdiction of the Department of Correction. It is in contemplation, therefore, to begin, as soon as possible, the erection of a new Penitentiary on Riker's Island, East River, which will be large enough to house the imprisoned criminals of all the boroughs of the City, and which will, it is hoped, contain every known improvement in modern penal architecture and construction.

The Steamboats of the Department of Correction are in the best possible condition, all having been recently thoroughly repaired and improved by the installation of new machinery. All have been equipped with fire lines and all other necessary devices for the prevention of conflagration.

A new ferry, with regular scheduled trips, has been established between City Island and Hart's Island, the steamer "Gilroy" having been assigned to this route.

While all of these steamers are in excellent shape for present use, one of them, the "Minnahanonck," has been in commission for many years. The extended occupation of Hart's Island, and the placing there of a new and most valuable institution; the important building operations, which, it is hoped, may in the near future, be undertaken on Riker's Island, together with the rapid growth and increase in the work of the Department, will shortly render a new steamer of the larger class an imperative necessity.

In conclusion, permit me to respectfully submit to you the following reports, from each institution of the Department, which present in detail the statistics, the work accomplished and the census of inmates for the year.

With sincere thanks for all your courtesy and kindness, and for the support extended in enabling me to maintain the high standard in the conduct of the Department, which you require from all those whom you have placed in charge of the City's interests, this report is

Respectfully submitted,
FRANCIS J. LANTRY, Commissioner.

CITY PRISON.

Department of Correction—Office of City Prison,
Centre Street, between Leonard and Franklin Streets.
New York, January 16, 1906.

Hon. FRANCIS J. LANTRY, Commissioner, Department of Correction:

Dear Sir—I herewith respectfully transmit to your Honor the Annual Report of the City Prison, for the year ending December 31, 1905.

The appearance and sanitary condition of the City Prison and the health of the prisoners therein are excellent, there having been only five (5) under medical treatment in the Hospital during the year, and at the present time there are none sick.

In regard to the sanitary condition of the prisons, I would respectfully state that they are free from all obnoxious odors: in the accomplishment of this condition, I have made the following improvements to attain the same, viz:

There have been new wire spring cots put in the Female Prison, and a new office built for the use of the Matrons; also a new sentry house in the yard of the Prison, both being equipped with all modern improvements; all cells in both the Female and Annex Prisons are also equipped with flushometers, toilets and wash basins, and every cell is now lighted by electric light, making them up to date, and placing them on a par with the New Prison.

In both the Annex and Female Prisons numerous shower baths have been put in; also a new hospital for women in the Female Prison, furnished with a Sitz bath for them, to be used when sick.

I have had the New, Annex and Female Prisons scrubbed and cleaned from the cellars to the roofs; all the walls cleaned and painted. I have also had the cot bottoms removed from their iron frames and had them scrubbed and cleaned and new ones placed where needed; also the double blankets, of which we have a double supply in winter, I have had one pair from each cot sent to the Workhouse laundry to be washed, and when returned I had the other set sent for the same purpose.

I would further respectfully state that I have had male and female dormitories cleaned, by having the walls and ceilings scrubbed and painted, and have had all the cots removed and scrubbed and repaired. All the ventilators have been thoroughly cleaned, repaired and painted.

I have the sewer pipes flushed with fire hose once every twenty-four hours, thus abating any disagreeable odors which would emanate from foul sewer pipes.

I have all the cellars kept clear of any refuse matter; the floors, which are concreted are thoroughly cleaned and ventilated, which aids in keeping the Prisons in an excellent condition.

I hope to have, and respectfully recommend, that in the near future, the old beds and cots be removed from the Annex Prison and new wire spring cots replaced.

The classification of prisoners is strictly adhered to, boys under the age of twenty-one (21) years, who have been committed, being kept on tiers of the Prison by themselves.

The Female Prison is officered by Matrons only; young girls are kept in separate cells apart from those of an older age and under the strict and constant supervision of the Matrons.

I would further respectfully report that the meats, fish and vegetables and other foods supplied at the Prison were in good quality and in accordance with contract and specifications.

I would also state that the discipline, decorum and good behavior prevailing in the City Prison cannot be excelled in any similar institution. I would further state that in reference to the employees, they are courteous and gentlemanly in their manner

and pay strict attention to the performance of their duties, and the enforcement of the rules and regulations of the Department, which is highly commendable, and I am pleased to state that there has been no complaints made by either visitors or prisoners of any discourtesies or misconduct on the part of any of the present force of attaches.

I would further report that the religious wants of the prisoners, regardless of sect, have been faithfully attended to by the Chaplains of the City Prison.

The improvements and excellent condition of affairs existing at the City Prison are owing to your Honor's wise instructions and prompt action in all reasonable requests and recommendations made by me.

In conclusion, permit me to offer to you my sincere thanks and appreciation for the attention and assistance your Honor has rendered me in the discharge of my duties as Warden of the City Prison.

Very respectfully yours,

WILLIAM FLYNN, Warden.

WILLIAM FLYNN, Warden.

DISTRICT PRISONS.

Office of District Prisons,
One Hundred and Twenty-first Street and Sylvan Place,
New York, April 28, 1906.

Hon. FRANCIS J. LANTRY, Commissioner Department of Correction:

Dear Sir—I have the honor to transmit herewith the annual report of the District Prisons for the year 1905, and in doing so beg leave to point out such improvements which have been executed during last year and have proven beneficial to officers and inmates of this institution.

The installing of a new plumbing system, which has been inaugurated in the various District Prisons during the year, was very necessary. The work now completed has proven very successful, and the work unfinished, when completed, will make the several District Prisons a model institution.

The classification of prisoners has been strictly adhered to; boys of tender years and those over sixteen have been kept in cells by themselves. The female prisoners are officered by Matrons only; young girls are kept in separate cells apart from those of older age and under the constant observation of the Matron in charge.

The requisitions for food and supplies were regularly received. A plentiful supply of poultry, pies and eating apples was received for Thanksgiving and Christmas dinners and the prisoners appreciated the extra diet.

Since the last annual report a large amount of plastering, painting, plumbing, carpenters and miscellaneous work has been done, detailed reports of which I have transmitted to you quarterly. A summary of the work and improvement done I will attach to an annexed statement.

I am pleased to state that the general appearance of the interior of the prisons is good on account of the use of light colored paints, which are substituted in lieu of darker colors, which formerly gave the prisons such a gloomy appearance.

The Keepers, Matrons and other employees have performed their duties satisfactorily.

Department Physicians Jackson R. Campbell and Frank A. McGuire have been prompt and attentive to the wants of the prisoners and in making visits to employees.

The religious requirements have been fully attended to by the Rev. Clergymen and Lay Missionaries of the different religious denominations.

I respectfully beg leave to tender you my sincere thanks for your kind attention and assistance given me in the discharge of the duties imposed.

Respectfully submitted,

JULIUS J. BREMEL, Keeper.

Hon. FRANCIS J. LANTRY, Commissioner of Correction:

Dear Sir—I respectfully transmit herewith the statistical annual report of this institution for the year ending December 31, 1905, showing the number of prisoners received and disposed of at the different District Prisons, to wit: The Second, Third, Fourth, Fifth, Sixth, Seventh and Eighth District Prisons. I have also compiled a

PENITENTIARY, BLACKWELL'S ISLAND.

Department of Correction,
Office of New York Penitentiary—Blackwell's Island,
New York, April 27, 1906.

Hon. FRANCIS J. LANTRY, Commissioner:

Dear Sir—I have the honor to transmit herewith the annual report for the year ending December 31, 1905.

During the year eight hundred and ninety-six (896) prisoners were received, and one thousand and thirty-five (1,035) prisoners were discharged, leaving in confinement at the close of the year:

Males	474
Females	36

—making a decrease of one hundred and twenty-nine (129) males and ten (10) females.

The prisoners have been constantly employed, in addition to the labor performed in the work shops, quarry and stone shed, which is reported weekly to your Honor, for the benefit of the Department of Correction and the Department of Public Charities.

Religious services have been held by the Protestant and Catholic Chaplains, and they have also frequently made visits to the prisoners in their cells and in the hospitals.

The general health of the prisoners has been good; out of a total number of 1,545 prisoners only two deaths having occurred.

The medical wants of the inmates have been promptly attended to by the Prison Physician.

The following improvements and repairs have been made during the year by prison labor, without expense to the Department of Correction, except for the cost of material, in and around this Penitentiary:

For protection against fire, a Fire Underwriter's pump has been installed.

The construction of a large fireproof and substantial store house has been started and is progressing to completion.

A large dividing wall has been constructed in the attic between the Old and the West Prison for the purpose of protecting each prison from destruction by fire; and other measures have been introduced, which have not been provided heretofore, that place us in a position well equipped to fight a fire, should one occur.

The exterior grounds and lawns have been graded and put in good condition. New walks and roads have been made and old ones repaired.

The roofs of several buildings have been repaired and painted, and the walls and ceilings of the prison halls have been kalsomined and partly painted.

A number of cells in the Male and Female Prison have been repaired and painted, and lock bars for cell doors in the South Prison have been put up.

New floors have been put down on the tiers of the Female Prison, and a new floor has been laid in the Female Prison sewing room.

In conclusion I beg leave to tender my most sincere thanks to your Honor for the kind and courteous assistance which you have given me in the discharge of the duties imposed.

Very respectfully,
JOHN J. FALLON, Warden.

JOHN J. FALLON, Warden.

WORKHOUSE, BLACKWELL'S ISLAND.

Department of Correction,
Office of Workhouse, Blackwell's Island.
New York, April 27, 1906.

Hon. FRANCIS J. LANTRY, Commissioner of Correction:

Dear Sir—I have the honor to transmit herewith a report of the operations of the above named institution for the year ending December 31, 1905.

A series of tables hereto appended give in concise form the details of the institution's history during the year.

The year commenced with a population of 1,272 inmates, comprising 771 males and 501 females, and at the close of the year 995, comprising 563 males and 432 females. The daily average census for the year was 643 males and 543 females, total 1,186. The daily average number of prisoners admitted was 35 males and 16 females; total, 51; discharged, 28 males and 15 females; total, 43.

The institution has been kept clean and wholesome throughout the year, and every precaution has been taken by the officers and employees to keep the prison in good sanitary condition.

It affords me much pleasure to state that good discipline has been maintained in this institution throughout the year, and that the officers and employees generally have discharged their duties in a faithful and efficient manner.

Very respectfully,

FRANK W. FOX, Warden.

BRANCH WORKHOUSE, HART'S ISLAND.

Branch Workhouse,
Hart's Island, January 2, 1906. }

Hon. FRANCIS J. LANTRY, Commissioner of Correction:

Sir—I have the honor to transmit a report of the principal improvement, repairing and general work performed on this Island during the year ending December 31, 1905; likewise statistics of admissions, discharges, deaths, etc., labor, interments, disinterments, nationalities of prisoners, etc., and crops harvested during the same period.

The institution at Hart's Island, being a branch of the Workhouse on Blackwell's Island, and all our supplies being drawn from the latter, the statistics showing the daily and monthly per capita cost for maintenance and for bedding and clothing of inmates are furnished you in the report of the Warden of the Workhouse at Blackwell's Island.

In the early part of the year, the ice house underwent thorough repair, including complete relining and reshingling; an extension of 20 feet by 20 feet was also made to the blacksmith shop, in which increased facilities were required.

Much work was done in excavating earth, to increase the cellar capacity of Pavilion No. 3, and 1,538 cubic yards of the material was carted to the narrow part of the island. This earth, in addition to a large quantity of ashes which had accumulated on the island, has increased the area about four acres. About 200 feet of sewer pipe was also laid to relieve the cellar at Pavilion No. 5, and the south boiler house and prisoners' kitchen were reroofed.

The mechanics among our inmates, as well as other laborers, rendered much assistance in the work going on to make more secure the large brick building known as Pavilion No. 1, now occupied as a Reformatory for boys. This work included the provision of iron gates at the entrances and additional iron bars at the windows, besides which the windows of Pavilion No. 5 were similarly reinforced.

Much of the unskilled labor on the island was occupied in tearing down the ruins of the old laundry, boiler house and kitchen left after the fire, separating brick and clearing away debris; also in unloading brick, stone, lumber, etc., for the new structure. Work on water mains and sewers has been considerable. About 200 feet of 3-inch water main was laid to connect the croton water main with the new boiler house; 300 feet of trench dug for sewers and 140 feet of sewer pipe laid.

Various buildings on the island have received attention in the way of repairing, etc., where required. The stable has been reroofed with tin; the upper floor of Pavilion No. 1 repainted; the shingling on the Roman Catholic Church put in good condition and the former roof of the priest's room adjoining replaced with tin, besides which the internal arrangements, toilet room, etc., of the same apartment have been entirely refitted.

Much attention has been given throughout the year to roadmaking, and a road of broken stone built, extending 1,200 feet around Pavilion No. 5. A substantial sidewalk of broken stone has also been laid, extending from the stable to the "Hill." At the same time all of the roads and thoroughfares have been kept in order and are in good serviceable condition.

A feature which contributes much to neatness and good order around the different buildings in the vicinity of the engine room and boiler houses is the substantial stone wall erected around the coal yard.

Previous to the removal of the female prisoners to the north end of the island, a portion of the old barracks, formerly occupied by City Cemetery prisoners, underwent alteration, to provide suitable quarters for the inmates, also for Matrons and Orderlies. This work has been done in a very thorough manner by prisoners, and the occupants are housed as comfortably as could be wished.

Lately Pavilion No. 3 has been made suitable as a factory for the teaching of various industries to the inmates of the N. Y. C. Reformatory of Misdemeanants. The work included the laying of new floor and the rebuilding of the foundation walls for the entire length and breadth of the building, also, the repainting of the whole interior.

To provide quarters for the Overseer of the last named institution, a building has been partitioned, furnished with water and electric light connection and repainted throughout.

During the year 1905 there has been erected on the site of the old laundry and kitchen, which was destroyed by fire December 21, 1904, a new brick building, 92 feet by 72 feet 6 inches, two stories in height, in which has been installed the very latest improved machinery for laundry purposes; as also a fully equipped and commodious kitchen, from which the inmates and officers are supplied, and I can here say that these additions to the plant will compare favorably with any others in the several institutions throughout The City and State.

The recent additions and improvements to our steam plant, such as the installing of the three new 150-horse power boilers, the extension of our boiler house, the new switch board and the general overhauling of our dynamo and engine, have all added very materially to the betterment of the service in those lines, and the placing of the plant on a substantial and lasting basis.

A very necessary and important improvement, which was started early in October of the present year, and which is now nearing completion, will certainly add to the better service of our mechanical equipment. The new brick conduits running some 3,000 feet to the several buildings and pavilions on the island, in which will be placed all our steam, fire and electric lines, will give us much better service in the way of heat and light, and also that very much needed protection from fire, the lack of which has been so long so great a menace here in the numerous frame buildings on the island.

The erection of fire standpipes, located to the best advantage in the pavilions in which the inmates are housed, the connection for the same being directly made to the large fire pumps, thus giving us the means of meeting and battling at a moment's notice any disaster that might arise from fire—this addition fills a long felt want.

In addition to the above special features in the work of the year there remain the ordinary daily duties which have been performed as usual by the prisoners, such as burial of the dead, farm labor, work at the docks, in the unloading of ice, coal, building material and freight, stone breaking and the keeping of the buildings and grounds in order. At the City Cemetery ten new burial trenches have been dug, filled, sodded and trimmed, and seven extra ones dug in readiness for the winter season, the dimensions of each trench being 45 feet long, 15 feet wide, 7 feet deep.

About 5,000 cubic yards of stone has been broken in the stone shed by the less capable of the prisoners during the year.

The female prisoners have been employed in the regular cleaning out of the different halls occupied by the inmates, in the local work for employees' wash and latterly in the new laundry, in the general wash for prisoners.

The Reformatory boys, outside of school attendance, have been occupied principally on the farm, also in the hauling of stone, coal, ice, brick, etc.

The general health of the inmates has been good throughout the year, their physical condition being very ably attended to by the Resident Physician, Dr. C. F. Durning.

The religious and spiritual welfare of the inmates is cared for by the Rev. Father Finegan, Catholic Chaplain, the Rev. Henry St. George Young, Protestant Chaplain, and Dr. Adolph Radin, who has charge of the Hebrews. Religious services are conducted on Sunday morning at 8.30 for the Catholics, and on Sunday afternoon at 1.30 for the Protestants, while the Hebrews have a service on Saturday afternoon. The attendance on each of these occasions is very gratifying.

The average daily school attendance (for the boys) is 120, two classes being held in the morning and afternoon respectively, that in the morning session comprising boys who have passed the primary grade, and the afternoon class being made up of those in the primary grade and illiterates.

In submitting the foregoing, permit me to thank you for the hearty co-operation you have given to myself and the officers in the discharge of our duties here, thereby enabling us to render the best possible service for the Department of Correction in the institutions on Hart's Island.

Very respectfully,
THOMAS F. KANE, Head Keeper.

BRANCH WORKHOUSE, RIKER'S ISLAND.

Branch Workhouse,
Riker's Island, April 27, 1906.

Hon. FRANCIS J. LANTRY, Commissioner, Department of Correction:

Dear Sir—In compliance with your instructions, I have the honor to transmit herewith my report for the year ending December 31, 1905.

There was, at the beginning of the year, a population of 259 male prisoners.

During the year 1,064 prisoners were received from the Workhouse, 1,156 returned to said institution, 1 died and 2 escaped, leaving, on December 31, 1905, a census of 164 male prisoners.

The prisoners have been constantly employed during the year, and their general health has been good.

By prisoners employed at outdoor labor, 19,300 cubic feet of ground was graded, and the dirt removed from the bank was used for backing the sea wall.

New sea wall built 100 feet long by 12 feet wide, 8 feet 6 inches high, 552 tons of coal, 400 tons of manure and 5 barges of ashes unloaded.

The following amount of vegetables were raised:

9,676 ears of corn.	547 bushels tomatoes.
11,320 heads of cabbage.	512 bunches radishes.
66 bushels string beans.	62 bushels butter beans.
4 bushels lima beans.	30 bushels beets.
10 barrels parsnips.	10 barrels carrots.
8 barrels turnips.	75 barrels leeks.
50 bushels onions.	500 heads lettuce.
6 bushels green peas.	120 quarts strawberries.
900 bunches celery.	80 musk melons.
110 watermelons.	300 pumpkins.
150 barrels potatoes.	150 bunches parsley.
150 bunches asparagus.	

In the blacksmith shop there were made 6 slice bars, 6 scoops, 224 plugs and feathers, 194 bolts, 156 horse shoes put on, 5 wrenches, 2 iron keels for row boat, 8 awning frames, 6 lifters, 6 ash cans, 177 hooks, 24 staples, 17 chisels, 2 rakes, 8 pair ice tongs, 16 handles, 24 washers, 26 hinges, 4 wood axes, 2 hoes, 24 wedges, 6 hammers, 2 boat hooks, 1 pitchfork, repaired 29 wheelbarrows, 107 cot frames, 1,145 picks, 1,232 drills, 23 chisels, 12 dirt shovels, 6 sledges.

The carpenters made 1 porch 36 feet by 6 feet by 11 feet with stoop 12 feet long, 4 feet wide, 3 1/4 feet high, 1 bureau, 10 picture frames, 16 wooden spittoons, 6 stools, 2 tables, 40 signs, 2 closets, 2 clothes horses, 3 benches, 3 shelves, 3 water closet seats, 1 stone boat, 6 wheelbarrows, 36 stakes, 2 bread boxes, 1 swing, 1 desk, 2 doors, 1 shaft for cart, 1 frame building, 12 1/2 feet by 16 1/2 feet by 13 feet for washing garments, 1 coffin, 1 pig shed and 1 hot house.

Shoemakers repaired 625 pair men's shoes.

Harnessmaker made 6 breeching straps, 12 hame straps, 8 halter straps, 4 hip straps, 20 blanket straps, 4 bit straps, 4 shaft straps, 8 traces, 2 whip sockets, 4 belly bands.

Tinsmiths made 12 galvanized iron buckets, 24 water pails, 26 basins, 12 dish pans, 6 rivet sets, 13 funnels, 6 roasting pans, 5 fire pots, 1 foot tub, 1 roof for piazza, 11 feet long, 4 feet wide, with 12 foot gutter, 5 boxes for laundry, 1 smoke stack, 1 glue pot, new leaders put on dormitory, Nos. 1, 2, 3 and men's hall, besides all necessary repairs to utensils and roofs of buildings belonging to the institutions.

All the entire buildings have been painted with two coats of paint.

All the plumbing work which was necessary was done by prisoners.

During the summer months a gang of 29 prisoners in charge of an officer was daily employed sprinkling chloride of lime on the filled in grounds for the Street Cleaning Department.

Religious services have been held by the Protestant and Catholic Chaplains.

The medical wants of the inmates have been attended to by the Prison Physician.

In conclusion I beg to tender my thanks to your Honor for the kind assistance you have given me.

Very respectfully,

DANIEL D. TOOHER, Warden.

BOARD OF ESTIMATE AND APPORTIONMENT.

MINUTES OF MEETING OF BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK,
HELD IN ROOM 16, CITY HALL, FRIDAY, JUNE 15, 1906.

The Board met in pursuance of an adjournment.

Present—George B. McClellan, Mayor; Herman A. Metz, Comptroller; Elias Goodman, Acting President of the Board of Aldermen; John F. Ahearn, President of the Borough of Manhattan; Bird S. Coler, President of the Borough of Brooklyn; Louis F. Haffen, President of the Borough of The Bronx; Joseph Bermel, President of the Borough of Queens; George Cromwell, President of the Borough of Richmond.

Hon. George B. McClellan, Mayor, presided.

The Chair announced that the public hearing as fixed for this day by resolution duly adopted June 1, 1906, on the question of requesting the Board of Rapid Transit Railroad Commissioners to lay out an elevated railroad route in Delancey street from the terminus of the Williamsburg Bridge to the elevated railway in the Bowery, and to empower the Interborough Company to double deck its elevated structure from Delancey street to the Brooklyn Bridge, would be postponed until the completion of the calendar and would then be held in the Aldermanic Chamber.

Subsequently the Board met in the Aldermanic Chamber, the public hearing was opened and arguments were heard for and against the proposition.

The following communication was presented:

NEW YORK, June 12, 1906.

The Board of Estimate and Apportionment:

GENTLEMEN—It is now generally admitted that the rapid transit lines in Brooklyn should cross the East river and return by some other route, forming a loop in Manhattan with several stations, so as to distribute passengers at points beyond the present bridge terminals and relieve the congestion at these terminals. This idea is carried out in the proposition of the Rapid Transit Commission to construct subways over the Williamsburg and Manhattan Bridges through Centre street, returning by the Brooklyn Bridge or by a tunnel from Old Slip in Manhattan to Montague street in Brooklyn. By such a loop the rapid transit cars in the Eastern District of Brooklyn could reach downtown sections in Manhattan and return to Brooklyn over the Brooklyn Bridge or through the Old Slip tunnel. This subway loop when completed will form a good line for the distribution of Brooklyn passengers on the east side of Manhattan, but, unless the tunnel under the river is built and the Eastern District cars are permitted to move back again over the river, and the bridges and the tunnel are connected on the Brooklyn side, there may very easily be a congestion of trains at the Old Slip terminus, if one is created at this point, which would reduce the capacity of such a line so that it would not distribute or properly accommodate the passengers desiring to use it. The construction of a tunnel route through Delancey street, Centre street and William street may, too, require so long a time in construction that the relief promised will not be available for several years.

It is conceded that the Brooklyn Elevated Railroad cars would not be permitted to run in any subway in Manhattan; they are ten inches too high to run in the present subway and they are not fireproof, so that we must wait for subway loop connection through any portion of Manhattan not only till the subways are built, but until a complete equipment suitable for service in subways is constructed, and all this will, no doubt, come together with the complete construction of one of the long circulating loops in Brooklyn across the river and through downtown Manhattan. It must be borne in mind, too, that a subway line cannot be carried across the Brooklyn Bridge until it is reconstructed, which will not be less than six years hence.

The elevated railroads of Brooklyn extend over four principal routes from five to six miles into that borough, and connect with surface lines which reach Coney Island, Jamaica and other points more distant from the river. The only access these lines have to Manhattan is over the Brooklyn Bridge, where the congestion beggars description, grows more intense every day and should be relieved in any way possible at the earliest practicable moment.

The Third avenue line of the Manhattan Elevated Railway Company runs from Brooklyn Bridge along a route which at once suggests itself for a connection between the Brooklyn and Williamsburg Bridges, as far as Delancey street on the Bowery, and Delancey street has recently been widened for the express purpose of giving improved access to the bridge. Park row and the lower Bowery have been developed into elevated railway streets, on which the people have become accustomed to the operation of these railways and three important stations, at Chatham square, Canal and Grand streets, now exist on this route. Why, then, should not this route be utilized for bridge connecting purposes; why should not the Manhattan Railway Company be allowed to construct a second story for this portion of its structure, over which the Brooklyn trains could be run continuously from the Brooklyn Bridge to Delancey street and in Delancey street over a new structure, which the City could build to the Williamsburg Bridge? Such a route would inconvenience a comparatively few people.

I recently caused an examination to be made of the Registration Rolls of last year, and found that the number of registered voters living along the proposed route of the elevated connection to be 3,029, which was multiplied by 5 to approximate the population. This number may be excessive, because of the large number of lodging houses along the Bowery and Park row, but it is probably a fair approximation, the detail of which follows:

Street.	Voters.	Population.
Bowery	1,956	9,780
Park row	455	2,275
Chatham square	202	1,015
Delancey street	378	1,890
William street	4	20
North William street	9	45
Chambers street	1	5
New Chambers street	9	45
Corners	14	70
Total.....	3,029	15,145

The elevated railway tracks on the bridge now have a suitable height above the street to fit in on tracks placed above the existing tracks on the lower Bowery and Park row, and this structure can be economically and rapidly built.

Such an extension of the existing lines of the Brooklyn elevated railroads into Manhattan would instantly provide a broader distribution of their passengers and they could easily operate their trains so as to materially improve the service and the convenience of their passengers.

The loop now existing at East New York would permit the Fulton street and Broadway lines to exchange trains, a shorter loop route in Brooklyn would connect the Myrtle avenue and Broadway trains, and permit Ridgewood passengers to go over either bridge into Manhattan.

On such a circulating loop system, extending far into Brooklyn and a limited distance only into Manhattan, millions of people could be carried over the river annually with greater comfort and convenience than is now attainable. Any elevated train going in either direction on such a line would suit certain passengers and the travel would then be in both directions, and the capacity of the service would be increased thereby. A loop of this character would thus bring into immediate and efficient service two long loops into Brooklyn, and the trains on these loops would be able to carry many more passengers with greater comfort, and this result can be

secured by the construction of about half a mile of new elevated railway in Delancey street and the double decking of about a mile of the Third avenue line in Manhattan.

Just as soon as the subway loops into or through this district are constructed the necessity for a connection of the elevated railways in Manhattan will cease, and the connection now proposed can be removed, especially if the subway routes provide adequately for the same or a better service than that now suggested for the elevated railways, and they ought easily to do this within a reasonable period.

Although undoubtedly far more desirable in many respects, subways cannot be built rapidly through the busy sections of the City, as on Fulton street in Brooklyn, and the Bowery in Manhattan, and they are unquestionably far more costly to construct. There is no good reason why both systems should not be used for this connection between the Williamsburg and Brooklyn Bridges in Manhattan; the elevated for the immediate, economical and temporary relief of the serious situation now confronting us, and the subway for the future permanent development of the service.

Briefly stated, an elevated railway connection between the Williamsburg and Brooklyn Bridges can be constructed in half the time and at less than half the cost of a subway connection. It will at once put in operation a complete loop system through a portion of lower Manhattan and extending far into Brooklyn, and in doing this it will aid the development of the subway and facilitate its construction.

In proposing this elevated loop connection, as I stated recently in Brooklyn, I do not want to be considered an advocate of further elevated railroad extension. Every man who has studied present conditions must realize that New York will not tolerate any further disfigurement of its streets, except in an emergency, and then only until the emergency can be otherwise overcome.

The situation we have to meet now is such an emergency. We all know that the Brooklyn Bridge, however its terminal facilities may be improved to make travel more comfortable, cannot be expected to carry many more passengers than it does now. On the other hand, the Williamsburg Bridge is a giant doing the work of a dwarf. It is carrying 125,000 passengers daily, whereas it ought to carry 600,000. The Brooklyn Bridge is carrying 325,000 passengers daily.

I have not the fear of some—that a temporary elevated structure would never be removed. Every day we see big buildings being torn down to make way for bigger ones. The Plaza Hotel is a recent example. New York is no more afraid to destroy than it is to build on a gigantic scale. This road, being owned by the City, would come down when the need for it no longer existed—a result which can safely be left to the temper of the taxpayers when that time is reached. And do not forget, too, that the betterment of transportation facilities across the East river will be a boon to the East Side, as well as to those living on the other side of the river. It means the opening of a quick route to the seaside at all hours of the day, and would insure the creation of an ocean park.

Respectfully,

JAMES W. STEVENSON, Commissioner of Bridges.

Each side was granted forty minutes for argument, Charles B. Stover to be recognized to control the time of those in opposition, and the Hon. J. Edward Swanstrom to control the time of those in favor.

The matter was referred to a Select Committee, consisting of the Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens, and Richmond.

Bensonhurst, Bath Beach and Coney Island Revised Route.

Consideration of the communication from the Board of Rapid Transit Railroad Commissioners, transmitting resolutions as to route and general plan of a rapid transit railway along certain streets and avenues in the Borough of Brooklyn, and known as the "Bensonhurst, Bath Beach and Coney Island Revised Route," which by resolution duly adopted June 8, 1906, was fixed for this day.

The following was offered:

Whereas, The Board of Rapid Transit Railroad Commissioners for The City of New York, constituted pursuant to the provisions of chapter 4 of the Laws of 1891, and the acts amendatory thereof, has duly determined upon a route or routes and general plan of construction of a rapid transit railway, for the conveyance of persons and property, to be established in said city, in addition to the already existing lines, and did, by resolution of June 7, 1906, adopt such route or routes and general plan, being more particularly described as "Bensonhurst, Bath Beach and Coney Island Revised Route;" and

Whereas, Thereafter said Board of Rapid Transit Railroad Commissioners did transmit to the Board of Estimate and Apportionment of The City of New York, a copy of the plans and conclusions for said route or routes as adopted, which plans and conclusions were received by said Board of Estimate and Apportionment on the 8th day of June, 1906, at a meeting of said Board of Estimate and Apportionment, duly held on such day; and

Whereas, Said Board of Estimate and Apportionment by resolution duly adopted at said meeting, did appoint a day not less than one week nor more than ten days after the receipt thereof for the consideration of such plans and conclusions, to wit, the 15th day of June, 1906, at 10.30 o'clock a. m.; and has proceeded with such consideration; and

Whereas, The plans and conclusions are duly set forth in the resolutions of said Board of Rapid Transit Railroad Commissioners, adopted June 7, 1906, and which resolutions are as follows:

Bensonhurst, Bath Beach and Coney Island Revised Route.

Whereas, This Board has determined that a rapid transit railway for the convenience and transportation of persons and property in addition to those already existing, authorized or proposed, is necessary for the interest of the public and The City of New York, and should be established as hereinafter provided.

Now, therefore, this Board does hereby adopt the following route for a rapid transit railway in The City of New York, and does hereby determine and establish the said route thereof as follows, and does hereby adopt a general plan of construction of the said railway the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Board, in adopting the said route and general plans, expressly reserved all the powers in relation to the construction of the said road which are conferred upon it by section 34 of the Rapid Transit Act. In particular, it reserves the right to contract for the construction of the whole road provided for in the following plans in a single contract; or by separate contracts, executed from time to time, to provide for the construction of parts of said road or for the construction at first of two or more tracks over a part or parts of such road, and afterward of one or more additional tracks over a part or parts of such road, as the necessities of The City of New York and the increase of its population may in the judgment of this Board require; or to provide in a contract for any part of such railroad that, at a future time, upon the requirement of this Board, the contractor shall construct the remainder or any part of the remainder of said road as the growth of the population or the interests of the City may, in the judgment of this Board, require.

Route.

A route the centre line of which shall begin in the Borough of Brooklyn at a point at or near the intersection of Fourth avenue and Thirty-sixth street at which connections can conveniently be made with another subway or other subways to be hereafter constructed running southerly under Fourth avenue. The said centre line of the route hereby adopted shall thence run easterly and southeasterly, curving under Fourth avenue and private property, Thirty-ninth street and private property again, to a point in Fortieth street near the intersection of Fortieth street with the westerly line of Fifth avenue, running thence easterly under Fortieth street to a point at or near the intersection of Fortieth street with the easterly side of Ninth avenue; curving thence southeasterly and southerly under Fortieth street and private property to a point near the intersection of the westerly side of New Utrecht avenue with the northerly side of Forty-first street; thence running under and along New Utrecht avenue in a southerly direction to a point immediately south of its intersection with Eighty-first street; thence curving southeasterly and easterly under private property, Eighty-fourth street, private property again, Eighteenth avenue, Eighty-fifth street and private property again, to a point in Eighty-sixth street between Eighteenth and Nineteenth avenues; running thence southeasterly under and along Eighty-sixth street to a point about half way between Bay Thirty-fourth street and Bay Thirty-fifth street, where the said route will emerge from the surface and continue thence upon a viaduct structure; and from the said point running southeasterly along and over Eighty-sixth street to a point at or near the intersection of Eighty-sixth street with Bay Forty-first street; and then crossing southeasterly over private property, Twenty-sixth avenue and private property to a point in Stillwell avenue between its intersection with Eighty-sixth street and its intersection with Bay Forty-third street; and thence running southerly over and along Stillwell avenue and crossing the Gravesend Ship Canal on a bridge and continuing along Stillwell avenue to a point in Coney Island about half way between Neptune avenue and Mermaid avenue, where the tracks will diverge so as to form a loop. From the said point of divergence the centre line of said loop will run southerly over and along Stillwell avenue to Surf avenue; thence curving westerly and running over and along Surf avenue to West Fifteenth street; thence curving northerly and running over and along West Fifteenth street to a point in the easterly side thereof about half way between Surf avenue and Mermaid avenue; thence curving northeasterly and running over private property and over and across Mermaid avenue to a point at or near the intersection of the northerly line of Mermaid avenue with the westerly line of Stillwell avenue; and thence running northerly over and along Stillwell avenue to the point or place of beginning of the said loop.

Plan of Construction.

The general plan of construction hereby adopted is as follows:

For the whole of the route above described there shall be four tracks, except in the above described loop, where there shall be two tracks.

All the above-mentioned tracks shall be substantially parallel with each other and on substantially the same level except that between the easterly side of Fifth avenue and the point of connection with the subway or subways to be constructed in Fourth avenue the tracks shall be at such levels and on such alignments as to permit of proper connections; and except, also, that wherever else required by special necessities of surface or subsurface structures or other special or local necessities or for the purpose of avoiding grade crossings, any one or more of the tracks may be elevated above or depressed below the other track or tracks so far as necessary.

The tracks shall be placed in tunnels or subways, except that easterly and southerly from the point where the said route as above described emerges to the surface in Eighty-sixth street the tracks shall be carried upon a viaduct over and along the above-described route on Eighty-sixth street and Stillwell avenue. Near the said point of emergence the said railroad will be constructed partly in open cut and partly on an embankment. If and when all the four tracks herein provided for are constructed, the said open cut and embankment will occupy a space in Eighty-sixth street about sixty feet in width, extending from Twenty-third avenue to Twenty-fourth avenue. The open cut portion will extend southeasterly from Twenty-third avenue to about half way between Bay Thirty-fourth street and Bay Thirty-fifth street; and the embankment will extend southeasterly from the end of the open cut to Twenty-fourth avenue. The said open cut and embankment will therefore occupy all but about forty feet in width of said Eighty-sixth street, between Twenty-third avenue and Twenty-fourth avenue, leaving only about twenty feet on each side for a roadway and sidewalk and probably necessitating a widening of the said street between the said avenues by the legally constituted authorities of The City of New York.

The tracks shall be placed in general under or over the central part of the longitudinal streets and avenues forming a portion of the route above described so far as may be practicable and convenient, but wherever required by special or local necessities or for curves, the tracks or any one or more of them may be diverted as far as necessary to one side or the other of such streets or avenues, or any of them, and any part of said streets or avenues may be occupied so far as the purposes of this general plan require.

Wherever the tracks change from tunnel to viaduct or from viaduct to tunnel the change shall be made so as to involve the use of the surface to the least possible extent consistent with the proper gradient for the tracks.

Wherever necessary for the proper support of the surface of a street, the roof of the tunnels shall be of iron or steel with brick or concrete arches, supported when necessary by iron or steel or masonry columns and resting upon masonry walls; or the roof shall be a masonry structure; or the whole of the lining may be of metal.

The roof of the tunnels when under a street shall in general be as near the street surface as street conditions and grades will conveniently permit, the base of the rail under Sixth avenue being, however, about one hundred feet below the surface, at Seventh avenue about ninety-five feet below the surface, at Eighth avenue about sixty feet below the surface and at Ninth avenue about forty feet below the surface.

The tunnels shall in no case be less than thirteen feet in height in the clear.

There shall be a width in the tunnels not exceeding fifteen feet for each track in addition to the thickness of the supporting walls, except that at stations, switches, turn-outs, curves and cross-overs the width may be increased. Viaducts shall be built with a width of twelve and one-half feet for each track except on curves or where greater width is required for special construction, and with an additional width of three feet on each side for outside footways. Viaducts may be built of metal or of masonry or of both.

The tracks shall be of standard gauge, that is to say, of the width of four feet and eight and one-half inches between the rails.

Adjacent tracks shall be connected by necessary and suitable switches and connections, and an additional track for siding accommodations may be constructed not to exceed in length one-quarter of a mile for each mile of roadway.

The tracks wherever constructed below the surface may at any point of the route be placed in the same tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

Stations and station approaches shall in general be at the intersections of streets and shall be built under or, if the positions of the tracks so require, over the streets and immediately adjoining private abutting property or through private property to be acquired for the purpose, or both under or over streets and through private property as aforesaid. The streets under which stations or station approaches shall be built may include cross streets, but no part of any cross street shall be used for a station approach at a distance greater than seventy-five feet from the exterior line or side of the longitudinal street or avenue of the route.

Wherever along any part of the routes above described it shall be necessary for the proper maintenance or accommodation of pipes, wires, sewers or other subsurface structures, the removal, construction or reconstruction of which shall be rendered necessary by the construction of the railway, the width of any tunnel or subway may be enlarged on either or both sides by an additional width on each side of the route, not to exceed fifteen feet on either side, provided always that the limits hereinbefore provided as to certain longitudinal streets of the route shall be observed. All or any pipes, wires, sewers or other subsurface structures may be placed in suitable galleries to be constructed within the additional widths hereinbefore permitted. At each cross street where accommodation for pipes, wires, sewers and other subsurface structures shall be those provided within the tunnels or subways, such tunnels or subways, in order to provide convenient access to the same, may have, within the limit of the sides or exterior lines of such cross streets or such lines produced, an additional width on each side of the routes not to exceed fifteen feet.

Pipes, wires, sewers, street railway tracks, poles for electric wires and other surface and subsurface structures at any part of the said routes shall be removed or disturbed only when necessary for the construction and operation of the railway above referred to, and if removed or disturbed shall be placed upon, over or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration, or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction of subways shall be by tunneling or open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks all trees injured or destroyed in the course of construction shall be replaced under the direction and to the satisfaction of said Department.

Mode of Operation.

The general mode of operation of the route or routes above described shall be by electricity or some other power not requiring combustion within tunnels, and the motors shall be capable of moving trains at a speed of not less than forty miles per hour for long distances, exclusive of stops.

Definitions.

The word "streets" wherever used herein shall include an avenue or public place.

The words "Rapid Transit Act" wherever used herein shall be taken and held to mean chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railroads in cities of over one million inhabitants," as amended by chapter 752 of the Laws of 1894 and other acts of the Legislature.

Maps and Drawings.

It is further

Resolved, That the maps and drawings entitled "Board of Rapid Transit Railroad Commissioners of The City of New York—Routes and General Plan—Bensonhurst Route," one of the said drawings being marked "Key Map No. 4, Borough of Brooklyn, Revised May 31, 1906," and the other drawings being marked "Brooklyn No. 4, Sheet No. 1," "Brooklyn No. 4, Sheet No. 2, Revised April 4, 1906," "Brooklyn No. 4, Sheet No. 3," "Brooklyn No. 4, Sheet No. 4, Revised May 31, 1906," be and they are hereby adopted as showing the foregoing route and general plan for convenience merely, and that said maps and drawings are not to be deemed a part of the description of the routes or a part of the general plans for any purpose whatever.

Now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, by a majority vote according to the number of votes by law pertaining to each member of the Board, hereby approves such plans and conclusions and consents to the construction of a railway or railways in accordance therewith.

Which was adopted by the following vote:

Affirmative—The Mayor, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—12.
The Comptroller and the President of the Borough of Richmond appeared and took their places in the Board.

New York Telephone Company.

The Secretary presented the following:

NEW YORK TELEPHONE COMPANY,
No. 15 DEY STREET,
NEW YORK, May 25, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment, New York City:

SIR—The second report of the Bureau of Franchises upon the application of the Atlantic Telephone Company, dated April 24, 1906, contains certain references to this

company which, apart from the questions discussed in the arguments and briefs of counsel, call for special notice.

The serious disadvantages of dual telephone service are set forth in the report followed by the statement: "If it were possible for the authorities to control the rates and the kind of service of the New York Telephone Company, the present monopoly of New York City, there would seem to be no reason why another company should be allowed to enter the field."

We, therefore, restate two propositions substantially as heretofore publicly declared:

1. The company maintains its service at the highest attainable efficiency and restricts its gross earnings to the amount required to meet necessary operating expenses, including depreciation, and provide approximately ten per cent. per year on the actual and necessary investment (not including franchises), for dividends, interest and contingent reserves.

2. The company does not question the right of the public to subject it to regulation, if necessary to secure reasonable rates. As correct information is essential to intelligent action, a proper publicity of accounts under official direction would provide an adequate safeguard against excessive and unreasonable charges. It would also protect the company against misinformation and prejudice. A practicable plan of publicity, advantageous and satisfactory both to the company and the public, can doubtless be formulated and carried out. The company will be glad to discuss the matter, if desired, with any official or committee that may be designated by you for the purpose.

We desire to mention two other matters:

3. It is impossible to make an intelligent comparison between the incomplete and illogical schedules of rates proposed by the Atlantic Company and the present or proposed rates of the existing companies, regardless of the wide differences in scope and character of service. In January last the existing companies announced that, pursuant to the policy followed since 1894, a reduction in pay station rates would be made July 1, 1906. Other contemplated reductions were subsequently announced to take effect on the same date. These changes must, therefore, be made as announced, whatever action may be taken by your honorable body on the application of the Atlantic Company. The new rates will be published in detail within a few days, and in many respects will be lower and more advantageous to the public than the rates proposed by the Atlantic Company.

4. As compensation for the privileges to be granted, the proposed form of contract with the Atlantic Company provides, among other things, for certain annual payments to the City. If the City desires to derive a revenue from the telephone industry, we shall be glad to discuss the question with any official or committee that may be designated by you for the purpose.

This communication is submitted in behalf of the New York and New Jersey Telephone Company, by authority, as well as for ourselves.

Very respectfully,

NEW YORK TELEPHONE COMPANY.

By U. N. BETHELL, First Vice-President.

EDWARD M. GROUT, PAUL GROUT, JAMES F. MCKINNEY,
No. 111 BROADWAY, MANHATTAN,
June 4, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, City of New York, City Hall, New York:

DEAR SIR—I desire to call the attention of members of the Board of Estimate and Apportionment to the following by way of additional brief:

1. The New York Electric Lines Company, claiming the validity of an old and unlimited franchise, has taken the question into the courts.

The consideration of an application for an entirely new franchise presents, therefore, the possibilities of a triplicate rather than a duplicate system; and unless those who favor competition in telephony are willing to take the chance of involving the City in three rival systems, action on the pending application before the Board of Estimate should be withheld until the action of the courts in the New York Electric Lines franchise.

2. Chief Engineer Nichols, of the Bureau of Franchises, in his second report on the application of the Atlantic Telephone Company, page 16, specifically recommended that the Board should first seek from the New York Telephone Company a contract with the City on certain terms and conditions.

The Board has not followed this recommendation of Mr. Nichols, and has made no effort to open this question with the New York Telephone Company.

Notwithstanding the failure of the Board to make such effort, the New York Telephone Company has, in a formal communication, offered to confer with the Board, or with any officer or committee designated by it, as to regulation of its conduct and affairs, and as to compensation to the City.

No action has been taken by the Board upon that communication.

Finally, counsel for the Atlantic Telephone Company, at the bottom of page 2 and at the top of page 3 of his brief, specifically admits that service by a single telephone system, under ideal conditions, would render it "unnecessary and unwise to invite competition." He claims, of course, that the ideal conditions have not been established and will not be except by force of competition.

Yet no effort has been made by either State or City authorities to seek such ideal conditions by regulation.

It would seem to me that the logic of these facts would indicate that determined effort ought first to be made by the Board of Estimate to supervise and regulate the present service, and that only in case of failure so to do should consideration be given to the proposition of a competing system.

Very truly yours,

EDWARD M. GROUT.

Which were reported out of the Committee of the Whole, with a resolution for adoption.

The Chair stated that the resolution as reported made no reference to the New York and New Jersey Telephone Company, operating in the boroughs outside of Manhattan and The Bronx. The resolution was thereupon amended to include such company.

The following was offered:

Resolved, That the New York Telephone Company and the New York and New Jersey Telephone Company be and they are hereby requested to submit to this Board within thirty (30) days, petitions in writing, duly verified, praying for the consent of the local authorities for a franchise or right for the privileges which they now enjoy throughout The City of New York, together with instruments in writing duly executed by the president and secretary of each company, on behalf of their respective companies, wherein each company shall state the terms and conditions upon which it is willing to accept such franchise, right or privilege, with an additional proviso to the effect that the New York Telephone Company shall confess judgment in the proceedings instituted by the City and now pending, entitled "The City of New York against Empire City Subway Company, Limited," and agree that the City shall have the right to enter into possession of the subways, conduits and ducts controlled by the defendant in the aforesaid action, and it shall, subject to any valid mortgage or lien, then thereon outstanding, not exceeding fifty per cent. of the actual cost of such subways and by leases and contracts then existing for the use thereof, forfeit its interests in said subways, conduits and ducts, and quietly and peaceably surrender possession thereof to The City of New York, who, thereafter, shall own and hold the same; and be it further

Resolved, That the Secretary be directed to forward a copy of these resolutions to the New York Telephone Company and to the New York and New Jersey Telephone Company.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Atlantic Telephone Company.

In the matter of the petition of the Atlantic Telephone Company for a franchise to construct, maintain and operate all necessary appliances to transact a general telephone business throughout The City of New York.

This matter was reported out of the Committee of the Whole on June 8, 1906, with a recommendation that the same lie over pending a reply from the New York Telephone Company and the New York and New Jersey Telephone Company, in response to the resolution also reported by the Committee of the Whole, requesting said companies to submit petitions for a franchise, etc.

The Secretary presented the following:

THE ATLANTIC TELEPHONE COMPANY,
No. 60 WALL STREET,
New York, June 7, 1906.

Hon. GEORGE B. McCLELLAN, City Hall, New York City:

DEAR SIR—Inasmuch as the right of the City to guarantee to this company the right to enter the Empire City Subway Company, Limited, has been questioned, we are willing to withdraw our request for such guarantee and to accept the provision as made by the Bureau of Franchises. This question being out of the way, we respectfully ask for as early a consideration of the franchise as possible.

Very truly yours,

ATLANTIC TELEPHONE COMPANY,
By JOHN M. SHAW, President.

An additional communication was also received from John M. Shaw, president of the Atlantic Telephone Company, calling attention to section 1, chapter 690, of the Laws of 1899, relative to the creation of a monopoly and protesting against the postponement of action on the application of his company for a franchise.

The following was offered:

Resolved, That the application of the Atlantic Telephone Company for a franchise be and the same is hereby laid over pending a reply from the New York Telephone Company and the New York and New Jersey Telephone Company.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

New York, New Haven and Hartford Railroad Company.

In the matter of the petition of the New York, New Haven and Hartford Railroad Company for the sale of certain lands in the Bronx and Pelham parkway and Pelham Bay Park, under and pursuant to chapter 670 of the Laws of 1905, which was presented to the Board February 16, 1906, and referred to the Comptroller to appraise the value of the lands sought to be acquired and to the Bureau of Franchises to fix the terms and conditions.

The reports of the Comptroller and the Bureau of Franchises were printed in full in the Minutes of May 11, 1906, and the matter was on that date referred to the Committee of the Whole.

On June 8 the Committee of the Whole reported favorably on the petition and recommended that it be granted on the terms and conditions suggested by the Comptroller and the Bureau of Franchises in their separate reports.

The Secretary presented the following:

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The petition of the New York, New Haven and Hartford Railroad Company, lessee of the Harlem River and Port Chester Railroad Company, respectfully shows:

1. That pursuant to section 1 of chapter 670 of the Laws of 1905, entitled, "An Act authorizing The City of New York to grant to the Harlem River and Port Chester Railroad Company land in Pelham Bay Park and the Bronx and Pelham parkway for its corporate purpose," your petitioner hereby makes application to this Honorable Board for the grant and conveyance to the Harlem River and Port Chester Railroad Company, in fee simple for its corporate purposes, by proper instrument or instruments in writing, under the corporate seal of the City for such consideration and upon such other conditions as this Board shall deem proper.

(a) A strip of land not exceeding sixty feet in width contiguous to and on the easterly side of the existing right of way of said railroad company, where and as far as said right of way passes through the Bronx and Pelham parkway, and which said strip of land has an area of 42,250 square feet, and is shown upon a map or plan hereto annexed, entitled "Plan showing proposed six tracks, Harlem River Branch, New York, New Haven and Hartford Railroad, Harlem River and Port Chester Railroad, through territory of Park Department, New York City, Dated December 11, 1905"; and

(b) The several parcels of land shown upon the said map heretofore referred to, situated in Pelham Bay Park, which are necessary and required in addition to the land now owned by said railroad company in said park, to enable said railroad company to lay out its road not exceeding six rods in width, and for the purpose of cuttings and embankments for the proper construction and security of the road. The land in Pelham Bay Park required to widen the roadbed has an area of 218,000 square feet, while the land required for cuttings and embankments has an area of 69,000 square feet.

(II) That in accordance with the provisions of section 2 of chapter 670 of the Laws of 1905, a copy of which is hereto annexed, your petitioner has prepared the map or plan heretofore referred to showing the location, area and dimensions of the lands in said Bronx and Pelham parkway and in said Pelham Bay Park, by said act authorized to be granted and conveyed and for the grant and conveyance, whereof application is hereby made; and your petitioner, in further pursuance of section 2 of said Act, has obtained the approval of said map or plan to be endorsed thereon by the Commissioner of Parks of The City of New York having administrative jurisdiction of the public parks and parkways of the Borough of The Bronx, in The City of New York, on the 31st day of January, 1906.

Wherefore, your petitioner prays that this Honorable Board shall pass such resolution or resolutions as may be necessary.

1. To approve the aforesaid map or plan.

2. To cause an appraisal of the value of said lands to be made and the consideration and other conditions of the grant hereby applied for to be determined.

3. To request the Counsel to the Corporation to prepare a proper instrument or instruments of conveyance of the said lands in five parts, in the manner provided by said section 2 of chapter 670 of the Laws of 1905, said instrument or instruments to include such terms and conditions not inconsistent with the provisions of chapter 670 of the Laws of 1905, as shall be agreed upon by and between The City of New York and your petitioner.

4. To request the Mayor, under the corporate seal of The City of New York attested by the City Clerk to execute and deliver said instrument or instruments granting and conveying the said lands to the Harlem River and Port Chester Railroad Company, upon payment of the sum or sums of money which may be determined by this Honorable Board to be the proper consideration therefor.

Dated New York, February 1, 1906.

THE NEW YORK, NEW HAVEN AND HARTFORD RAILROAD COMPANY.

By WILLIAM GREENOUGH, its Attorney.

The following was offered:

Whereas, Chapter 670 of the Laws of 1905, entitled, "An Act authorizing The City of New York to grant to the Harlem River and Port Chester Railroad Company, land

in Pelham Bay Park and the Bronx and Pelham parkway, for its corporate purposes," provides as follows:

Section 1. The city of New York, acting by its board of estimate and apportionment, in furtherance of the general plan to eliminate grade crossings along the route of the Harlem River and Port Chester railroad company in said city, embodied in a certain agreement dated December twenty-first, nineteen hundred and four, made by the New York, New Haven and Hartford railroad company, lessee of the Harlem River and Port Chester railroad company, with the said city, is hereby authorized and empowered to grant and convey to the Harlem River and Port Chester railroad company, in fee simple, for its corporate purposes, by a proper instrument or instruments in writing, under the corporate seal of the city, for such consideration and upon such other conditions as the said board may deem proper, a strip of land not exceeding sixty feet in width contiguous to and on the easterly side of the existing right of way of the said railroad company, where and as far as said right of way passes through the Bronx and Pelham parkway, and also such land in Pelham bay park as may be necessary and required, in addition to the lands now owned by said railroad company in said park, to enable said railroad company to lay out its road not exceeding six rods in width, with such additional lands for the purpose of cuttings and embankments as may be necessary for the proper construction and security of the road.

Sec. 2. The Harlem River and Port Chester railroad company, or its lessee, the New York, New Haven and Hartford railroad company, shall prepare a map or plan showing the location, area and dimensions of the lands in said parkway and said park hereby authorized to be granted and conveyed; the said map or plan to be approved by an indorsement thereon by the commissioner of parks of the city of New York having administrative jurisdiction of the public parks and parkways in the borough of the Bronx in said city, subject to the further approval of said board of estimate and apportionment of the city of New York. If such map or plan shall be approved by said board, such approval shall be evidenced by resolution of the board, a copy of which duly certified by the mayor and secretary of said board, shall be indorsed upon or annexed to said map or plan, which said map or plan or copies thereof shall thereafter be annexed to and made a part of any instrument or instruments of conveyance of the lands shown thereon, which may be executed. Such instrument or instruments may include such terms and conditions, not inconsistent with the provisions of this act, as shall be agreed upon by and between said city and said railroad company, and shall be executed in five parts; on the part of the city by the mayor, under the corporate seal of the city of New York, attested by the city clerk, and on the part of the Harlem River and Port Chester railroad company under its corporate seal and by its proper officers, and after the execution thereof, the said instrument or instruments shall be filed or recorded at the expense of the railroad company as follows: One part in the office of the register of the county of New York, one part in the office of the corporation counsel, one part in the office of the comptroller, one part in the office of the park department and one part shall be delivered to the said railroad company. Upon the filing of said instrument or instruments as aforesaid, the map or plan of the city of New York shall be deemed to be changed by excluding from the said parkway and the said park, the lands so granted and conveyed, without any further act or proceeding by or on the part of said city or of any board or officer thereof.

Sec. 3. Nothing in this act contained shall have the effect of limiting or impairing in any manner or to any extent the existing rights, privileges or franchises of the Harlem River and Port Chester railroad company.

Sec. 4. The provisions of any acts or parts of acts, including the Greater New York charter, which are inconsistent with this act, and so far only as they are inconsistent with this act, shall have no application to the rights, powers and obligations conferred by and created under the authority of this act.

Sec. 5. This act shall take effect immediately.

And Whereas, The New York, New Haven and Hartford Railroad Company, lessee of the Harlem River and Port Chester Railroad Company, has made application to this Board by petition dated February 1, 1906, for the grant and conveyance to the Harlem River and Port Chester Railroad Company of the certain lands in the Bronx and Pelham parkway and Pelham Bay Park in said petition more particularly described and shown upon the map or plan showing the location, area and dimensions of the said lands, prepared as provided by section 2 of chapter 670 of the Laws of 1905, which said map or plan bears the approval by indorsement thereon of George M. Walgrove, Commissioner of Parks in the Borough of The Bronx, which said application was, by resolution of the Board of Estimate and Apportionment, passed at a meeting held on February 16, 1906, referred to the Comptroller for an appraisal of the value of the land sought to be acquired, and also referred to the Bureau of Franchises for a report upon the terms and conditions which might be deemed proper by the Board in granting the application; and

Whereas, The Comptroller has reported to this Board, appraising the value of the land sought to be acquired at the total sum of \$74,742.70, as the sum which the City should receive for the fee of the said land, and the Bureau of Franchises, in a report dated April 24, 1906, and signed by Harry P. Nichols, Assistant Engineer, has proposed certain terms and conditions for the grant of the said lands, which have been agreed to by the railroad company.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, and in furtherance of the general plan to eliminate grade crossings along the route of the Harlem River and Port Chester Railroad Company in The City of New York, embodied in a certain agreement dated December 21, 1904, made by the New York, New Haven and Hartford Railroad Company, lessee of the Harlem River and Port Chester Railroad Company, with the said City, hereby authorizes the grant and conveyance to the Harlem River and Port Chester Railroad Company, in fee simple, for its corporate purposes, in consideration of the payment of the sum of \$74,742.70, and upon the terms and conditions proposed by the Bureau of Franchises in its report, dated April 24, 1906, and signed by Harry P. Nichols, Assistant Engineer, which the Board deems proper, all those certain strips or parcels of land in the Bronx and Pelham parkway and Pelham Bay Park, described in the petition of the New York, New Haven and Hartford Railroad Company, dated February 1, 1906, and the location, area and dimensions of which are shown upon the map or plan entitled, "Plan showing proposed six tracks, Harlem River Branch, New York, New Haven and Hartford Railroad, Harlem River and Port Chester Railroad, through territory of Park Department, New York City, dated December 11, 1905," which has been approved by George M. Walgrove, as Commissioner of Parks for the Borough of The Bronx; and it is further

Resolved, That the said map or plan showing the location, area and dimensions of the lands in said parkway and said park hereby authorized to be granted and conveyed, be and the same hereby is approved, and that a copy of this resolution, certified by the Mayor and by the Secretary of this Board, shall be annexed to the said map or plan, and to each of four copies thereof, which copies shall be annexed to and made a part of an instrument of conveyance of the lands shown thereon, and hereby authorized to be granted, a form of which instrument is hereby approved and submitted to the

Corporation Counsel for his approval as to form, and such suggestions as he may deem for the best interests of the City, said instrument containing the terms and conditions proposed by the Bureau of Franchises in its report dated April 24, 1906, above referred to, which have been agreed to by the railroad company; and it is further

Resolved, That upon the approval as to form by the Corporation Counsel of such instrument and its execution on the part of the Harlem River and Port Chester Railroad Company and the New York, New Haven and Hartford Railroad Company under their corporate seals and by their proper officers, and upon payment by the railroad company of the sum of \$74,742.70 to The City of New York, the Mayor of The City of New York and the City Clerk are hereby authorized to execute the same in five parts, on the part of the City, under the corporate seal of The City of New York; and it is further

Resolved, That after the execution thereof the Secretary of this Board is hereby directed to file one part of said instrument in the office of the Register of the County of New York, at the expense of the railroad company, one part in the office of the Corporation Counsel, one part in the office of the Comptroller, one part in the office of the Park Department, and to deliver one part to the railroad company.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following form of agreement was offered:

This agreement, made and entered into this day of June, 1906, by and between The City of New York, a municipal corporation organized and existing under the laws of the State of New York (hereinafter referred to as the City), party of the first part, and the Harlem River and Port Chester Railroad Company, a steam surface railroad corporation organized and existing under and by virtue of the laws of the State of New York, and the New York, New Haven and Hartford Railroad Company, a steam surface railroad corporation created by the General Assembly and existing under the laws of the State of Connecticut, lessee of the Harlem River and Port Chester Railroad Company (hereinafter referred to as the Railroad Companies), parties of the second part, witnesseth that:

Whereas, The New York, New Haven and Hartford Railroad Company, as lessee of the Harlem River and Port Chester Railroad Company, heretofore submitted to the Board of Estimate and Apportionment a petition dated February 1, 1906, making application, pursuant to the provisions of chapter 670 of the Laws of 1905, for the grant and conveyance to the Harlem River and Port Chester Railroad Company of the certain lands in the Bronx and Pelham parkway and Pelham Bay Park in said petition more particularly described, and the location, area and dimensions of which are shown upon the map or plan hereunto annexed; and

Whereas, The Board of Estimate and Apportionment, acting on behalf of The City of New York, at a meeting held on the 15th day of June, 1906, duly adopted the following resolution:

[Here insert resolution as above.]

—and

Whereas, The said resolution was duly approved by the Mayor on the day of June, 1906;

Now, therefore, in consideration of the premises and of the mutual covenants hereinafter contained, and of the payment by the Railroad Companies to the City of the sum of seventy-four thousand seven hundred and forty-two dollars and seventy cents (\$74,742.70) lawful money of the United States, the receipt whereof is hereby acknowledged, the parties hereto hereby agree as follows:

1. The City doth hereby grant, bargain, sell, release and quit claim unto the Harlem River and Port Chester Railroad Company, and its successors and assigns forever all the right, title and interest of the City in and to the following described parcels of land in the Borough of The Bronx, City and County of New York:

First Parcel in Bronx and Pelham Parkway—All that certain lot, piece or parcel of land, situate, lying and being in The Bronx and Pelham parkway, bounded and described as follows:

Beginning at a point where the southwesterly line of said parkway intersects the southerly line of the land now of the Harlem River and Port Chester Railroad Company; running thence north 73 degrees 56 minutes east along said line 704.2 feet to the northeasterly line of said parkway; thence along said line north 71 degrees 72 minutes 24 seconds east 105.6 feet to a point; thence south 73 degrees 56 minutes west along a line parallel to and everywhere 60 feet distant easterly from the aforesaid southerly line of the land now of the Harlem River and Port Chester Railroad Company, 704.2 feet, to a point in the southwesterly line of said parkway; thence along said line north 71 degrees 27 minutes 24 seconds west 105.6 feet to the point or place of beginning, be said several distances and dimensions more or less, the said parcel containing 42,250 square feet.

First Parcel—All that certain lot, piece or parcel of land, situate, lying and being in Pelham bay park, bounded and described as follows:

Ninth Parcel—All that certain lot, piece or parcel of land situate, lying and being in Pelham Bay Park, bounded and described as follows: Beginning at a point in the northeasterly boundary line of the Bartow Station grounds, where the same is intersected by the southeasterly line of the right of way of the Harlem River and Port Chester Railroad Company; thence north 31 degrees 30 minutes east along said right of way line 5,882 feet to a point in the easterly boundary line of Pelham Bay Park; thence easterly along said boundary line about 9 feet; thence south 31 degrees 31 minutes west along a line parallel to and distant 9 feet southeasterly from said right of way line 5,883 feet to a point in the northeasterly boundary line of the Bartow Station grounds before mentioned; thence northwesterly along said boundary line 9 feet to

the point or place of beginning, be the said distances and dimensions more or less. Said parcel containing 52,950 square feet.

Tenth Parcel—All that certain lot, piece or parcel of land, situate, lying and being in Pelham Bay Park, bounded and described as follows: Beginning at a point in the line of high water on the easterly side of Pelham Bay, where the same is intersected by the southeasterly line of land now of the Harlem river and Port Chester Railroad Company, in Pelham Bay Park; thence north 31 degrees 30 seconds along said line 678 feet to the southwesterly boundary line of the Bartow Station grounds; thence southeasterly along said boundary line 9 feet; thence south 31 degrees 30 seconds west along a line parallel to and distant 9 feet southeasterly from the southeasterly line of land now of the Harlem River and Port Chester Railroad Company 694 feet to the line of high water on the easterly side of Pelham Bay; thence northerly along said line of high water 18 feet to the point or place of beginning, be the said several distances and dimensions more or less. The said parcel containing 6,180 square feet.

To have and to hold the above granted premises unto the said the Harlem River and Port Chester Railroad Company, its successors and assigns forever, for its corporate purposes.

Provided always, and the estate hereby granted is granted to and held by the said the Harlem River and Port Chester Railroad Company upon the express condition that the said railroad company, its successors, lessees and assigns will perform all of the covenants and conditions hereinafter contained, each and all of which the said the Harlem River and Port Chester Railroad Company hereby covenants and agrees to perform.

First—The said railroad company shall, at its own expense, construct the abutments and two central piers for the full width of the Bronx and Pelham parkway and erect thereon a plate girder bridge having a width of 80 feet. The abutments and central piers shall be so constructed as to permit of the erection thereon by the City and bear the load of a plate girder bridge covering the full width of the parkway.

Second—The said railroad company shall, at its own expense, construct a bridge with the necessary abutments and approaches thereto, over the property of the railroad company, east of Bartow Station, the width of such bridge and approaches to be 80 feet.

Third—The said railroad company shall, at its own expense, construct an undergrade crossing having a clearance of thirteen feet over the roadway and a width of 80 feet between the abutments at Split Rock road (Pelham lane), in Pelham Bay Park.

Fourth—The said railroad company shall, at its own expense, construct a bridge with abutments and approaches thereto, such bridge to have a clearance of 18 feet above the top of the rails of its tracks over and across the railroad in Pelham Bay Park. The width of such bridge and its approaches shall be 80 feet, and the centre line of such bridge shall be 275 feet south of the northerly line of Pelham Bay Park.

Fifth—The said railroad company shall, at its own expense, construct a bridge with the necessary abutments and masonry approaches over the property of the railroad company on the line of Baychester avenue, formerly Main street, the width of such structure and the approaches to be 60 feet.

Sixth—The said railroad company shall submit plans showing the character, design and details of construction of all bridges and their abutments and approaches within the limits of Pelham Bay Park and the Bronx and Pelham parkway to the Commissioner of Parks for the Borough of The Bronx for his approval, subject to the further approval of the Board of Estimate and Apportionment, and similar plans for the bridge at Baychester avenue shall be submitted to the President of the Borough of The Bronx for his approval, subject to the further approval of the Board of Estimate and Apportionment, and no work upon any of the said bridges shall be commenced until such plans shall be so approved in writing upon the face thereof. All of such structures shall be constructed of steel, concrete or masonry, or a combination of these materials.

Seventh—The said railroad company shall maintain and keep in repair at its own expense the bridges and abutments hereinbefore agreed to be constructed by it, except the pavement of such bridges.

Eighth—The said railroad company shall sod both sides of the embankment carrying its tracks within the limits of Pelham Bay Park, and shall keep the same so sodded to the satisfaction of the Commissioner of Parks for the Borough of The Bronx.

Ninth—Said railroad company shall pay to the City the cost of planting a screen or barrier of trees or shrubs on either side of its right of way through Pelham Bay Park. Such screen or barrier shall be composed of trees or shrubs similar in kind to those now planted on the easterly side of the right of way of the New York and Harlem Railroad Company through the Bronx Park opposite Bedford Park Station. The amount to be paid by the said railroad company to the City for such purpose shall, however, in no event exceed five thousand dollars (\$5,000). Payments of such amount shall be made from time to time by said company to the Commissioner of Parks on the presentation of proper bills therefor.

Tenth—That during the construction of the bridge across the railroad at the Bronx and Pelham parkway and of the bridge across the railroad at Baychester avenue and of the undergrade crossing at Split Rock road (Pelham lane) in Pelham Bay Park, the said railroad company shall at all times maintain a proper carriage way for vehicles and foot path for pedestrians, and shall provide at each of the said bridges during such construction a watchman to prevent accident, as may be required by the Commissioner of Parks for the Borough of The Bronx, and by the President of the Borough of The Bronx during the construction of the bridge at Baychester avenue.

Eleventh—The said railroad company shall maintain and protect the existing water main upon the present bridge over its tracks at The Bronx and Pelham parkway during the construction of the bridge hereinbefore provided at that point, and shall place the same upon the new structure in such manner as may be approved by the Commissioner of Water Supply, Gas and Electricity.

Twelfth—The said railroad company shall not oppose, but shall at any time, upon the request of the City, consent to the opening of additional highway crossings across its right of way within the limits of Pelham Bay Park, the necessity of which shall have been determined by the Board of Estimate and Apportionment.

Thirteenth—The said railroad company shall assume all liability by reason of the construction and operation of the railroad, and shall save the City harmless from any liability whatsoever to either persons or property by reason of such construction or operation.

Fourteenth—The said railroad company will at any future time permit the City to construct across its right of way within Pelham Bay Park, any subsurface structures for the conduction of water, sewage, drainage, electricity, or for similar purposes, which shall not interfere with the operation of the railroad.

Fifteenth—The said railroad company shall cause permanent rights of way or easements across its property at Baychester avenue of a width of one hundred (100) feet, at Bartow Station crossing of a width of eighty (80) feet, at Pelham lane (Split

Rock road) of a width of eighty (80) feet, and for the additional crossing in Pelham Bay Park to be located near the northerly boundary line thereof of a width of eighty (80) feet, to be conveyed by proper instruments in writing to The City of New York within ninety (90) days after the execution of this agreement.

Sixteenth—That in the event of the failure or refusal of the said railroad company to fulfill each and every of the conditions and covenants hereinbefore contained, the lands hereby granted shall be forfeited and shall revert to The City of New York.

Seventeenth—The said railroad company shall complete all work hereinbefore provided to be performed by it on or before April 1, 1909; provided, however, that the Board of Estimate and Apportionment may in its discretion extend such time for a period not exceeding two years.

2. The provisions of this agreement shall inure to the benefit of and shall be binding upon the parties hereto and their successors, lessees and assigns.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed, and the corporate seal of said City to be hereunto affixed; and the parties of the second part, by their officers, thereunto duly authorized, have caused their corporate names to be hereunto signed, and their corporate seals to be hereunto affixed, the day and year first above written.

Which was referred to the Corporation Counsel.

John Pirk Iron Works.

In the matter of the application of the John Pirk Iron Works for permission to construct, maintain and use a 3-inch iron pipe under and across Union avenue, for the purpose of conveying electric wires for power and light from its building in Union avenue to its building on North Tenth street, in the Borough of Brooklyn.

This matter was referred to the Committee of the Whole, May 11, 1906, and on June 8, 1906, the Committee reported favorably upon the application, with the recommendation that it be granted upon the terms and conditions as proposed in the report of the Bureau of Franchises, which is printed in full in the minutes of May 11, 1906.

The following was offered:

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the John Pirk Iron Works, a domestic corporation occupying premises on the southeasterly side of Union avenue, between Frost and Withers streets and on the southerly side of North Tenth street, between Union avenue and Roebling street, in the Borough of Brooklyn, City of New York, to lay a three (3) inch pipe under and across the roadway of Union avenue for the sole purpose of conducting light and power for the exclusive use of the grantee, from the premises on Union avenue across and under said Union avenue, as shown upon a map entitled "Plan showing proposed pipe for conveying electric wire connecting the buildings of the John Pirk Iron Works, from Union avenue to North Tenth street," dated March 28, 1906, and signed by John Pirk, president, a copy of which is annexed hereto and made a part hereof, upon the following terms and conditions:

1. Said consent shall be for a term not exceeding ten (10) years from the granting of said consent, provided, however, that the same may be canceled and annulled upon sixty (60) days' notice in writing to the said grantee, its successors or assigns, by the Board of Estimate and Apportionment, or its successors in authority, and thereupon all right of said grantee, its successors or assigns, in and upon said Union avenue shall cease and determine.

2. The said John Pirk Iron Works, its successors or assigns, shall pay into the Treasury of The City of New York the sum of ninety dollars (\$90) per annum on November 1 of each year, provided, however, that the first payment shall be only that portion of \$90 as the time between the approval of this consent and November 1 following shall bear to the whole year. The compensation herein proposed shall commence from the date of the approval hereof by the Mayor. Such compensation shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of The City of New York, or by any law of the State of New York.

3. Upon the revocation or termination by limitation of this consent, the said grantee, its successors or assigns, shall, at its own cost, cause the pipe to be removed and all that portion of Union avenue affected by this permission to be restored to its proper and original condition.

4. The consent hereby given shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by acts of said grantee, its successors or assigns, or by operation of law, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority.

5. The said grantee shall pay the entire cost of—

(a) The construction and maintenance of said pipe.
(b) The protection of all surface and subsurface structures which shall in any way be disturbed by the construction of said pipe.
(c) All changes in sewer or other subsurface structures made necessary by the construction of said pipe, including the laying or relaying of pipes, conduits, sewers or other structures.

(d) The replacing or restoring of the pavement in said Union avenue which may be disturbed during the construction of said pipe.

(e) Each and every item of the increased cost of any future subsurface structure caused by the presence of said pipe laid under this consent.

(f) The inspection of all work during construction or removal of said pipe, as herein provided, which may be required by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity.

6. Before the construction shall be commenced, the grantee shall obtain permits to do the work from the President of the Borough of Brooklyn and from the Commissioner of Water Supply, Gas and Electricity. Said grantee shall perform all the duties which may be imposed by these officials as conditions of said permits, provided such conditions are not inconsistent with the provisions of this consent. The grantee shall submit to these officials working plans, which shall include and show in detail the method of construction of said pipe line and the mode of protection, or changes in all subsurface structures required by the construction of the pipe.

7. The said pipe shall be constructed, maintained and operated subject to the supervision, control and inspection of the proper authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York.

8. This consent is subject to whatever right, title or interest the owners of abutting property or others may have in or to said Union avenue.

9. Said grantee shall be liable for all damages to persons or property, including the street and subsurface structures therein, by reason of the construction, maintenance or operation of said pipe. And it is a condition of this consent that The City

of New York assumes no liability to either person or property on account of this consent.

10. This consent is granted on the further and express condition that all laws and ordinances now in force, or which may hereafter be adopted, shall be strictly complied with.

11. Said grantee, its successors or assigns, shall commence the construction of said pipe under this consent and complete the same within ninety (90) days from the date of approval of this consent by the Mayor, otherwise this consent shall be forfeited forthwith, and without any proceedings, either by law or otherwise, for that purpose; provided, however, that such time may be extended by the Board of Estimate and Apportionment for a period not exceeding sixty (60) days.

12. This consent is also granted upon the express condition that the said grantee, within thirty (30) days after its approval by the Mayor and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of two hundred and fifty dollars (\$250), either in money or in securities, to be approved by him, which fund shall be security for the performance of the terms and conditions of this consent, especially those which relate to the payment of the annual charge and the repairs of the street pavement. In case of default in the performance by said grantee of any of such terms or conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for making the necessary changes or repairs, after ten (10) days' notice in writing, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or in case of default in the payment of the annual charges, shall collect the same, with interest, from such fund after ten (10) days' notice in writing to said grantee.

In case of any drafts so made upon the security fund, the said grantee shall, within thirty (30) days after the date of written notice, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of two hundred and fifty dollars (\$250), and in default of the payment thereof, the consent hereby given may be canceled and annulled at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceedings or rights under the provisions of this section shall affect any other legal rights or causes of action belonging to The City of New York.

13. Said grantee shall give notice to the President of the Borough of Brooklyn and to the Commissioner of Water Supply, Gas and Electricity, in writing, of its intention to begin construction of the work hereby authorized at least forty-eight (48) hours before such construction commences. The grantee shall also give to the Board of Estimate and Apportionment notice in writing of the date on which the work is commenced and also the date on which the same is completed.

14. This consent shall not become operative until said grantee shall duly execute an instrument in writing, wherein said grantee shall promise, covenant and agree on its part to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained and file the same in the office of the Comptroller of The City of New York within thirty (30) days after the approval by the Mayor.

And the said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons and property which may result from the construction, use, maintenance or operation of the pipe herein authorized.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Seaboard Refrigeration Company.

In the matter of the application of the Seaboard Refrigeration Company for a franchise to construct, maintain and operate a pipe line for the transportation of refrigerating material, under and along certain streets and avenues in Coney Island, Borough of Brooklyn, to supply consumers along the lines of its mains.

This matter was referred to the Committee of the Whole May 25, 1906, and was reported favorably by such committee June 8, 1906, with the recommendation that the application be granted upon the terms proposed in the report of the Bureau of Franchises.

The following was offered:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Seaboard Refrigeration Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

This contract made this _____ day of _____, 190_, by and between The City of New York, party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City, and the Seaboard Refrigeration Company, a domestic corporation of the State of New York, hereinafter called the Company, party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City of New York hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the franchise, right and privilege to construct, maintain and operate a conduit not to exceed eighteen inches in diameter, with the necessary branches and connections therefrom, leading directly into private property, for the sole purpose of supplying refrigeration to consumers, said conduit and branches to be beneath the surface of each of the following named streets, avenues and highways, between the points described as follows, all situate in the Borough of Brooklyn, City of New York, to wit:

In, under and along West Twenty-first street, West Twelfth street and West Eighth street, between Surf avenue and Neptune avenue; in, under and along Neptune avenue, between West Twenty-first street and West Eighth street, and in, under and along Surf avenue, between West Twenty-fifth street and West Fifth street, said routes being shown on a map entitled "Map to accompany the petition of the Seaboard Refrigeration Company to the Board of Estimate and Apportionment, dated November 2, 1905, for laying conduits along designated streets and avenues on Coney Island, Borough of Brooklyn, New York," signed by Charles E. Booth, President, and Henry Guttin, Engineer, copy of which is annexed hereto and made a part of this grant.

Sec. 2. The grant of this franchise, right and privilege is subject to the following conditions:

First—The said franchise, right and privilege to lay one conduit line in each of the streets, avenues or highways, and between the limits as hereinbefore described,

and the franchise, right and privilege to maintain and operate the same shall be held and enjoyed by the said Company, its lessees or successors, for a term of fifteen years from the date of the signing of this contract, with the privilege of renewal of said grant for a further period of ten years, upon a fair revaluation of said franchise, right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board of Estimate and Apportionment of The City of New York, or to any authority which shall be authorized by law to act for the City in place of the said Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this grant. The determination of the revaluation shall be sufficient, if agreed to in writing by the Company and by the Board of Estimate and Apportionment, or by such other authority in its place. If the Company and the Board, or such other authority in its place for the City, shall not reach such agreement on or before the day one year before the expiration of the original term of this grant, then the annual rate of compensation for such succeeding ten years shall be reasonable, and either the City (by the Board or by such other authority in its place) or the Company shall be bound upon request of the other to enter into a written agreement with such other authority, fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment, or its successors in authority; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the contract, and their report shall be filed with the Board of Estimate and Apportionment, or its successors in authority, within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last year of this original grant. If in any case the annual rate shall not be fixed prior to the termination of the original term of this grant, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—Upon the termination of this contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, all conduit lines and appurtenances thereto, constructed pursuant to this contract, shall be and become the property of The City of New York, without compensation therefor, and the same may be used by the City for any purpose whatsoever. If, however, at the termination of this grant, as above, the City by the Board of Estimate and Apportionment, or its successors in authority, shall so order by resolution, the said Company shall remove, at its own expense, said conduit line and all appurtenances thereto, and shall restore the streets and pavements to their original condition.

Third—The Company, its successors or assigns, shall pay for this privilege to The City of New York the following sums of money, to wit:

1. Five thousand dollars (\$5,000) in cash within thirty (30) days after the signing of the contract.
2. During the first five years of this contract an annual sum which shall in no case be less than eight hundred and fifty dollars (\$850), and which shall be equal to 4 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of eight hundred and fifty dollars (\$850).

During the second five years of this contract an annual sum which shall be in no case less than eleven hundred dollars (\$1,100), and which shall be equal to 5 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of eleven hundred dollars (\$1,100).

During the third and remaining five years of this contract an annual sum which shall in no case be less than fourteen hundred dollars (\$1,400), and which shall be equal to 6 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of fourteen hundred dollars (\$1,400).

3. An annual payment of ten (10) cents for each linear foot of conduit line and two dollars (\$2) for each manhole constructed within the limits of any street, avenue or highway. The sums due shall be calculated from the day when the permit is obtained to open the streets for any section of the work.

All sums herein provided for shall be paid into the Treasury of The City of New York on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Any and all payments made by the terms of this franchise to The City of New York by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of The City of New York or by any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any other company, providing for payments of refrigerating rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mortgagee or mere lienor, but shall apply to any purchaser upon foreclosure or under or by virtue of any provision of a mortgage or lien.

Fifth—The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person or corporation whatsoever,

either by the act of the Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage, but shall apply to a sale under foreclosure.

Sixth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways on the route heretofore described.

Seventh—If a conduit line as herein described shall not be constructed and in actual operation in all the streets and avenues, and upon all the routes hereby described, on May 1, 1911, all rights hereby given shall be thereupon forthwith and immediately forfeited without judicial or other proceedings, unless at least 50 per cent. of the conduit line shall then be constructed and in operation, when, in such case, the forfeiture shall affect only the Company's rights, privileges and franchises on the remaining portion of the conduit line hereby granted.

Eighth—All construction which shall be made under this grant shall be done in a manner solely upon the terms and conditions hereafter to be imposed by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, or their respective successors in authority. The said Company shall submit a working plan of construction to the said President and to the said Commissioner, which shall include and show in detail the method of construction of said conduit line, connections, manholes and other appurtenances, and the mode of protection of all sub-surface construction under the streets, avenues and highways described in the routes.

Ninth—The said Company shall bear the expense of keeping in repair for one year after it has been replaced, all pavement which may at any time be removed by said Company, either for the purpose of construction or for the repairing of the conduit line and its appurtenances.

Tenth—The said Company shall bear the expense of inspection, which may be required by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, of all the work of construction required, or removal of the said conduit line, which shall be done under this grant.

Eleventh—The Company shall cause a test to be made of the pipes laid under this grant before said pipes shall be used for the conveyance of gas or fluid under pressure for refrigerating purposes. The pipes so tested shall be submitted to a pressure of 450 pounds per square inch, and such test shall be made under the supervision of the Commissioner of Water Supply, Gas and Electricity. A certificate showing that such a test has been made, without injury to the pipes, shall be executed by an officer of the Company, indorsed by the Commissioner of Water Supply, Gas and Electricity, and filed with the Board of Estimate and Apportionment.

Twelfth—The Company, its successors or assigns, shall not charge consumers more than three dollars and fifty cents (\$3.50) for the same amount of refrigeration which is produced by one ton of ice. During the term of this contract the Board of Estimate and Apportionment shall have absolute power to regulate the maximum and minimum rates, provided that such rates shall be reasonable and fair. All refrigeration which may be required by The City of New York at any point along the routes herein described, shall be furnished by the Company without cost to the City.

The Company, upon the application for refrigeration of any person or corporation located along the routes herein authorized, shall extend its conduit to such premises and furnish to said applicant refrigeration at the prices which are herein prescribed, or at which such prices may be hereafter fixed in properly insulated compartments under contracts containing fair and reasonable regulations for such service, otherwise this contract shall cease and determine at the option of the Board of Estimate and Apportionment.

It is mutually understood and agreed by and between the parties hereto that in the event of any dispute arising between the Company and any consumer or user of its refrigeration, as to the fairness and reasonableness of the regulations contained in said contracts, the Board of Estimate and Apportionment on the application of either said consumer, user or the Company shall have the power to pass upon and decide as to the fairness and reasonableness of such regulations, and the Company hereby agrees to abide by such decision and conform such regulations thereto.

Thirteenth—A correct map shall be furnished to the Board of Estimate and Apportionment by the Company, showing the exact location of all the conduit lines and manholes laid with reference to the curb lines of the streets and the street surface, and the same shall be furnished on the first day of November of each year until all conduit lines which are authorized by this grant are constructed or until the right hereby authorized to construct conduit lines along the routes described, have ceased by limitation, as herein provided.

Fourteenth—The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

Fifteenth—The Company shall assume all liability by reason of the construction and operation of the conduit line and the City shall assume no liability whatsoever to either persons or property by reason of its construction.

As a condition of this grant, the company, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the company, its successor or assigns. Due notice of any such demand shall be given to the company.

Sixteenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited or avoided by The City of New York by a suit brought by the Corporation Counsel, on notice of ten days to the said Company.

Seventeenth—If the company has in position a conduit or pipe line in streets or avenues other than those herein described, then the company shall remove such conduit or pipe line at its own expense, within one year from the date of signing this contract. If the company owns a conduit or pipe line in the streets or avenues herein described, such conduit or pipe line shall be deemed to be a conduit line herein authorized, but no right is hereby given to lay or construct a conduit line in addition to that which the company already has in such streets or avenues.

Eighteenth—The conduit line hereby authorized shall be used only by the company and for no other purpose than for supplying refrigeration by the ammonia process or such other process as may be consented to by the Board of Estimate and Apportionment.

Nineteenth—The company hereby agrees not to issue stock or bonds other than have been heretofore issued, until a certificate of authority therefor has been issued by the Board of Estimate and Apportionment, or until such Board shall further certify in writing as to the amount of stock or bonds reasonably required for the purposes of

the company. The stock and bonds of the said company shall not be issued in excess of the amount so certified.

The company shall not increase its capital stock or its bonded indebtedness without the consent in writing of the Board of Estimate and Apportionment stating the amount of the authorized increase. For the purpose of making this determination as to the amount of stock and bonds to be issued, or the amount of the authorized increase of the capital stock and bonded indebtedness of the company, the Board of Estimate and Apportionment may take and hear testimony under oath and examine the books and papers of the company, and require verified statements from the officers thereof, pertaining to the value of the property and of the franchise owned or operated by the company. Such determination shall be made within sixty (60) days after the final submission of the papers or of final hearing on the application for the issue or increase of capital stock or bonds of indebtedness.

The company shall submit a report to the Board of Estimate and Apportionment not later than November 1 of each year, for the year ending September 30 next preceding, which shall state:

1. The amount of stock issued; for cash; for property;
2. The amount paid in as by last report;
3. The total amount of capital stock paid in;
4. The funded debt by last report;
5. The total amount of funded debt;
6. The floating debt as by last report;
7. The amount of floating debt;
8. The total amount of funded and floating debt;
9. The average rate per annum of interest on funded debt;
10. Statement of dividends paid during the year;
11. Number of feet of conduit now laid;
12. The total amount expended for same.
13. Amount, kind and capacity of machinery now in use and required for operation;
14. The total amount expended for same;
15. Number of tons of refrigeration furnished during the year;
16. Total receipts from refrigeration and the average price per ton received during the year;

17. Amounts paid by Company for damage to persons or property on account of construction and operation;

18. Total expenses for operation; including salaries;

19. An inventory of all the property of the Company;

—and such other information in regard to the business of the Company as may be required by the Board. For each failure to comply with the foregoing, the Company shall pay a penalty of one hundred dollars (\$100), which may be collected by the Comptroller without notice.

Twentieth—The Company shall at all times keep accurate books of accounts of the gross earnings from the privileges granted under this contract. The Company shall, on or before November 1 in each year, make a verified report to the Comptroller of The City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain the number of feet of conduit laid and the number of manholes constructed during the year, and also a statement of the gross receipts from all business of furnishing refrigeration to consumers, together with such other information and in such detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Twenty-first—If the said Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed, or fails to maintain its structures in good condition throughout the full term of its occupancy of such streets, the Board of Estimate and Apportionment of The City of New York may give written notice to the said Company specifying any default on the part of said Company, and requiring said Company to remedy the same within a reasonable time, and upon the failure of the Company to remedy said default within a reasonable time, said Company shall for each day thereafter during which the default or defect remains, pay to The City of New York a sum of fifty dollars (\$50) as fixed or liquidated damages, or the said City, in case such structures which may affect the surface of the streets, shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the said Company shall pay to the City the amount of the cost of such repairs with legal interest thereon, all of which sums may be deducted from the fund hereinbefore provided.

Twenty-second—This grant is upon the express condition that the Company, within thirty days after the execution of this contract and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of five thousand dollars (\$5,000), either in money or in securities to be approved by him, which fund shall be security for the performance by the Company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the privilege and the penalties herein provided, and in case of default in the performance by said Company of such terms and conditions, The City of New York shall have the right, after due notice, to collect the same from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same, with interest, from said fund after ten days' notice in writing to the said Company. In case of any drafts so made upon this security fund, the said Company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of five thousand dollars (\$5,000), and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect other legal rights, remedies or causes of action belonging to The City of New York.

Twenty-third—The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

Twenty-fourth—The Company agrees to assume and comply with any of the existing provisions of future amendments of Article V. of the Transportation Corporations Law, relating to pipe lines, imposing conditions, restrictions, or penalties, should the Board of Estimate and Apportionment, from time to time so require, in the same manner and to the same extent as if the Company had been incorporated under the said Transportation Corporations Law.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed, and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto

duly authorized, has caused its corporate name to be hereunto signed, and its corporate seal to be hereunto affixed, the day and year first above written.

Williams Terminal Railway Company.

In the matter of the application of the Williams Terminal Railway Company for a franchise to construct, maintain and operate a single track street surface railway upon and along the surface of Bowne street, in the Borough of Brooklyn.

On May 25, 1906, at the conclusion of the public hearing on this application the matter was referred to the Committee of the Whole together with a report from the Bureau of Franchises, suggesting that the application be denied.

On June 8, 1906, the application was reported out of the Committee of the Whole, with the recommendation that the request of the company for a franchise be denied, and the company be permitted to apply for a revocable permit.

The following was offered:

Whereas, On March 30, 1906, a petition was received from the Williams Terminal Railway Company for a franchise to construct, maintain and operate a single track street surface railway upon and along the surface of Bowne street, in the Borough of Brooklyn, beginning at a point southeast of Imlay street, where it will connect with the tracks of the New York Dock Company, and running southeasterly along Bowne street to and into the property of J. H. Williams & Co. on the easterly side of Richards street; and

Whereas, It appears to this Board that a vested right should not be granted for the privilege required and the interests of the City would be best protected by a consent in the form of a revocable permit; now therefore be it

Resolved, That the application for a franchise be and it hereby is denied.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, the Bronx, Queens and Richmond—16.

Upon disposing of the franchise matters above referred to, the Board proceeded to consider the Calendar for Public Improvements, after which the following financial matters were considered by unanimous consent:

The Comptroller presented the following communication from the Commissioner of Bridges requesting authority to award the contract for the construction of the Manhattan Bridge to other than the lowest bidder, submitting affidavits of M. Alvin Myers; copies of communications from the Ryan-Parker Construction Company; from Smith, Conway & Weed, on behalf of the John Peirce Company; copy of affidavit of Ernest C. Moore; communication of John C. Wait, attorney for the Ryan-Parker Construction Company, protesting against the award of the contract to any bidder other than the lowest; a communication from the Commissioner of Bridges to the Comptroller, under date of June 11, 1906; also report of Select Committee, signed by the Comptroller, the President of the Borough of Manhattan and the President of the Borough of Brooklyn, to whom this matter was referred at the meeting held June 8, 1906, recommending that the matter be referred back to the Bridge Commissioner for his action:

DEPARTMENT OF BRIDGES,
NOS. 13 TO 21 PARK ROW,
NEW YORK, June 7, 1906.

To the Honorable the Board of Estimate and Apportionment, The City of New York:

GENTLEMEN—A situation has arisen in the matter of the contract for the construction of the Manhattan bridge, which should be passed upon by the Board of Estimate and Apportionment before the contract is let.

In view of the necessity of having the construction of this bridge undertaken as early as possible, I request that your Board waive its rule concerning matters not on the calendar, and consider at once the following facts:

The bids for the construction of this bridge were opened on May 7, and were as follows:

Ryan-Parker Construction Company	\$6,493,223 00
John Peirce Company	6,596,638 00
General Erecting Company	6,769,983 00
Milliken Brothers	7,566,191 65
The American Bridge Company	8,312,146 00

Subsequently affidavits, of which copies are attached, were presented to me, tending to show that the sureties offered by the Ryan-Parker Construction Company were not responsible.

The first affidavit states that Wehrum, one of the sureties, lives at No. 1199 Park avenue; that the investigator found there a family consisting of a father and six sons, the father's name being Charles C. Wehrum, and owning the house; and that the investigator was there informed that the Wehrum who was offered as surety was thirty-two years of age, and at present was in Maine; that it was not known when he would return, and that he was not the owner of any property.

The second affidavit is to the effect that George W. Anderson, the other surety offered, could not be found at the address given, that is, No. 872 East One Hundred and Thirty-eighth street; that an apartment house was in course of construction on this property, and that no one was, or could be, a resident therein.

I brought these affidavits to the attention of the Ryan-Parker Construction Company, and their reply, a copy of which is inclosed, was to the effect that it was not the duty of the Department of Bridges, but of the Department of Finance, to pass upon sureties; that the sureties offered would be found to be qualified at the proper time, and that the giving of the address of Anderson as No. 872 East One Hundred and Thirty-eighth street was an error on the part of the notary public, and that the address should have been No. 732 East One Hundred and Thirty-eighth street.

The affidavit of each of the sureties was to the effect that he was worth the sum of one million five hundred thousand dollars (\$1,500,000) over and above all his debts; that he offered himself as surety in good faith and with an intention to execute the bond, if the contract should be awarded to the person for whom he consented to become surety.

Investigation by this Department was made after the filing of the affidavits referred to above, and indicates that neither of the sureties is in a financial condition to qualify for the amount required.

On June 3, 1906, an affidavit was submitted to me, a copy of which is inclosed, alleging that the bid of the Ryan-Parker Construction Company was unbalanced, and was made for the purpose of enabling that company, if awarded the contract, to secure large percentage payments at the outset of the contract entirely disproportionate to the value of the work done, and smaller payments toward the conclusion of the work, thus enabling the contractor to finance the undertaking at the expense of the City, and to practically annul the retained percentage clause.

It appears from examination that the schedule of prices submitted by the Ryan-Parker Construction Company with their bid for the work to be done was excessive, so far as the early part of the work is concerned, and low for the final work—the low estimate being submitted, of course, for the purpose of securing the proper average. It seems very clear that the Ryan-Parker Construction Company would, under its method of bidding, be paid a larger percentage during the first eighteen months than earned (if paid according to its own schedule of prices), the amount of such payments aggregating from \$350,000 to \$600,000. This should not be permitted.

I consider the irregularity in the method of estimating the cost of the items in this contract, and the serious informality in the matter of the sureties on the proposal bond, to be so grave as to warrant the determination by your Honorable Board, acting under the authority of section 419 of the Greater New York Charter, as to whether or not the contract should be awarded to the John Peirce Company, the next lowest bidder for this contract.

Respectfully,

J. W. STEVENSON, Commissioner of Bridges.

M. Alvin Myers, being duly sworn, says:

That he is a resident of The City of New York, and has an office at No. 1133 Broadway, in said city; that he is upwards of twenty-one years of age. That he is in the employment of the Manhattan Detective Agency, and was employed by one Ernest C. Moore of New York City to ascertain the residence and financial standing of Edward P. Wehrum, one of the sureties offered by the Ryan-Parker Construction Company, a bidder for the contract for furnishing the metal work for the anchorages and constructing the towers, cables, suspenders and suspended superstructure of the Manhattan Bridge over the East river, between the boroughs of Manhattan and Brooklyn. That he called at No. 1199 Park avenue, the residence given by said surety, as appears upon the bid of said Ryan-Parker Construction Company; that he found there a family consisting of a father and six sons, the father's name being Charles C. Wehrum, sixty-five years of age, and owning the house No. 1199 Park avenue. That he could not find there Edward P. Wehrum, and was informed by a Miss Wehrum living there that said Wehrum was thirty-two years of age and at present was in Maine, and she did not know when he would return; that he was not now employed and was not the owner of any property.

RYAN-PARKER CONSTRUCTION COMPANY,
PARK ROW BUILDING, NOS. 13 TO 21 PARK ROW,
NEW YORK, May 28, 1906.

Hon. JAMES W. STEVENSON, Commissioner of Bridges, The City of New York:

SIR—In reply to your communication of May 24 in regard to certain affidavits of one M. Alvin Myers, transmitted to us on May 15, we submit the following:

The affidavit purports to have been made by an employee of a detective agency at the request of one Ernest C. Moore, and is a statement of inquiry made by the said employee, a detective, of certain investigations that he made at residences designated as No. 1199 Park avenue and No. 872 East One Hundred and Thirty-eighth street in regard to one Edward P. Wehrum and George W. Anderson, who signed and executed the sureties' agreement attached to our bid for the Manhattan Bridge over the East river, between the boroughs of Manhattan and Brooklyn.

With every consideration for your communication and the Department which you represent, and as an officer of The City of New York, we feel required to state that we do not know said Ernest C. Moore in respect to this matter, nor is it set forth in your communication or in the said affidavits what interest he has in the surety proposed by us under our bid or estimate for the said Manhattan Bridge, nor how it or the affidavits which he has made can in any way effect or be the subject of consideration in either the award or execution of the said contract to or with us.

The fact that Mr. M. Alvin Myers has visited No. 872 East One Hundred and Thirty-eighth street and did not find or determine the whereabouts of Mr. George W. Anderson, we submit, has nothing to do with the validity of our bid or its reception and acceptance by The City of New York. Ryan-Parker Construction Company did not give or furnish the said address, and disclaim any knowledge of what address the said surety, George W. Anderson, gave in making the said sureties' agreement; but we believe that the said agreement was filled out and made by the notary before whom it was sworn to, and that it is a mere clerical error on the part of the said notary, and that the figures of the said number might very well have been misplaced or misunderstood, and that such a clerical error cannot in any way affect the validity of our bid, nor is it a subject, as it appears to us, for the consideration of your Department, but it is one which solely rests with the Comptroller, who, according to the Charter of The City of New York, has the sole determination of the adequacy and sufficiency of the surety and of the surety's agreement.

The position taken by the Ryan-Parker Construction Company is that the act of the proposed sureties was their own voluntary act, and the officers of the Ryan-Parker Construction Company have no doubt but that the bid was made in proper form and with the best of intentions on the part of the persons who signed the sureties' agreement, and the Ryan-Parker Construction Company and its officers disclaim any knowledge that the address given by Mr. Anderson was not the correct address, or that there was any intention upon his part to deceive anybody in the matter; and if the surety offered by the Ryan-Parker Construction Company be not acceptable to the Comptroller, that the Ryan-Parker Construction Company or its officers will forthwith offer and furnish other security, the adequacy and sufficiency of which will be entirely satisfactory and subject to the approval of the Comptroller, and they further believe that the surety offered by them in the sureties' agreement will be fully able to justify in the amount of the bond required by The City of New York for the performance and completion of the said contract.

The Ryan-Parker Construction Company further represents that while one of the persons who executed the surety agreement may have been in the past a man of moderate means, that he is, and upon information and belief was, able to qualify as surety for this contract at the time the said sureties' agreement was executed and delivered, and that when required by the Comptroller to justify upon the award of the said contract, that the said sureties will each and both promptly respond to any demands made upon them by the said Comptroller to qualify, as is required by the Ordinances and Charter of The City of New York.

It is further suggested that while the Ryan-Parker Construction Company and its officers are very glad to answer any inquiries founded upon any material questions to be considered in connection with our bid or the award of the contract for the Manhattan Bridge, we regret that we are made the subject of investigation at the instance or request of men whom we do not know in the matter, and who are the hired agents of our competitors. We would further represent that the communication and affidavits of Mr. Alvin Myers are wholly immaterial and irrelevant to the award of this contract of the Manhattan Bridge to us, as has been expressly held and determined by the Appellate Courts of this State in several cases, and even where it was confessed or proven that

the sureties were not worth the amount stated in the sureties' agreement, but were in fact practically worthless.

As officers of the Ryan-Parker Construction Company, we confess that we can not see anything in the affidavits presented by the said detective that should require any explanation or report from us in the matter. Mr. George W. Anderson is a resident of The City of New York, and, we believe, a householder or freeholder, and fulfills all the requirements of the Ordinances and Charter of The City of New York, as does also Mr. Edward P. Wehrum. His residence is on East One Hundred and Thirty-eighth street, at No. 732, and the whole matter appears to us a mere "mare's nest," arising from a misunderstanding on the part of the scrivener of the sureties' agreement, and is not a thing that deserves any notice, or that is in any way material to the award and execution of the contract for the Manhattan Bridge.

Very respectfully yours,

RYAN-PARKER CONSTRUCTION COMPANY.

By P. RYAN, President.

NEW YORK, June 3, 1906.

Hon. JAMES W. STEVENSON, Commissioner of Bridges, New York City:

DEAR SIR—The John Peirce Company, a bidder for the construction of Manhattan Bridge, respectfully submits the following reasons showing it is the lowest bidder and entitled to be awarded the contract and why the Ryan-Parker Construction Company is not:

1. It appears by an analysis of the bid submitted by the Ryan-Parker Company (see affidavit of Moore herewith submitted), that company is not the lowest bidder; or, at most, it cannot be ascertained at present whether it is or not. Uncertainty in this respect makes its bid illegal. (Brady vs. The Mayor, 20 N. Y., 312).

2. The unbalanced nature of the bid of said company, coupled with its failure to give sufficient sureties, makes it illegal. The case of McCord vs. Auterbach, 91 App. Div., 315, is not to the contrary. There the failure to give adequate sureties, the Court held, the Commissioner had power to waive, but that case differs from the present in the following particulars:

(a) It satisfactorily appeared that Dwyer "was a responsible bidder and had performed many extensive contracts for the City to its satisfaction." etc. Here as is well known, the contrary is the fact, and the Ryan-Parker Company is now litigating with the City for claims of hundreds of thousands of dollars for extras under a contract in regard to the construction of anchorages for the Williamsburg Bridge, and within a short time the City refused to enter into a contract with that company, and gave the same to a higher bidder, although the contract was, comparatively speaking, a small one. In the McCord case it clearly appeared that the City would be saved \$82,267. Here that does not appear, but on the contrary it is probably higher than the Peirce Company.

(b) As stated in the McCord case, "undoubtedly the City would have a right to reject the bid and refuse to enter into contract based upon it." It is very evident that if the other features appearing here, namely, that the bid was unbalanced in addition to lack of sureties and the uncertainty of what it will cost the City on account of the advance of money before it is earned, existed there, the Court would have held the bid illegal. Bids may be held to be illegal without showing a fraudulent collusion between City officials and the bidder. (Brady vs. The Mayor, 20 N. Y., 312).

(c) It is fundamental under the rules laid down in the Gage case that bids must be open and fair.

Again, speaking of unbalanced bids, the Court of Appeals say:

"This extraordinary unbalanced bid * * * is on its face suggestive of fraud." (Matter of Anderson 109 N. Y., 558-559).

This is especially so when taken in connection with failure to give adequate sureties (Ib.).

The unbalanced nature of this bid as figured out by independent parties, as, for instance, the Railroad Gazette, quoted in the Brooklyn Eagle, May 18, 1906, is to the following effect:

"The last bid of the Ryan-Parker Construction Company is unbalanced. The price quoted for over 5,000,000 pounds of simple steel work for the anchorages, merely delivered at the site, is nearly twice as great as that of the other bidders for the same work, and over sixty per cent. greater than their own price for more costly material to be erected in the main span over the river. This may be partly accounted for by the desire of this bidder to get ahead at the start. This material must be delivered first, within six months, and even if purchased from and delivered by one of the higher bidders would put the contractor in possession of nearly \$200,000 profit before the serious part of the work was begun."

On the other hand, the John Peirce Company bid is perfectly fair, ample surety is given and every facility possessed by that company for doing the work in strict accordance with the terms of the contract. It is open to attack from no direction, and thus the work may be prosecuted without any delay; whereas, if the contract should be awarded to the Ryan-Parker Company, attacks are invited and performance of the contract delayed thereby.

Respectfully yours,

JOHN PEIRCE COMPANY,

Its Attorneys.

In the Matter

of

The bid for the construction of the super-
structure of the new Manhattan bridge.

State of New York, County of New York, ss.:

Ernest C. Moore, being duly sworn, says that he is an engineer and had charge of making up the bid of the John Peirce Company. That the order in which the materials will be required is as follows: Anchorage material, material for towers, cables, suspenders, etc., and suspended superstructure.

That deponent has made a careful examination of the bid submitted by the Ryan-Parker Construction Company and found that they had bid 6 cents per pound for the nickel steel and 5 cents per pound for the medium carbon steel to be used in the suspended superstructure. These figures are less than the actual value of the material as offered to be furnished by the Crucible Steel Company and the Phoenix Bridge by about \$700,000. The value of said steel and its cost as given by both said Crucible Steel Company and the Phoenix Bridge Company is as follows:

Billets (crucible), per pound.....	0.055
Fabrication and freight (Phoenix).....	.025
Erection012
Incidentals009
Total101

Amount of nickel steel required—

16,247,400 pounds at .101 per pound.....	\$1,640,987 40
16,247,400 pounds at .06c. per pound.....	974,844 00
Difference	\$666,143 40

The medium steel in the suspended superstructure could not be contracted for at less than 5½ cents per pound, whereas the bid of the Ryan-Parker Company is 5 cents per pound, which is at least \$100,000 less than the actual value of this material. Adding this to the \$666,143.40, and deducting 10 per cent., retained percentage, there remains \$689,529.06, the amount of money the Ryan-Parker Company would receive under its bid before the City had received any value therefor, as it will be received by the contractor upon the completion of the first two items and long before the construction of the suspended superstructure is reached.

The value fixed on cables, suspenders, etc., is very close to, if not under, the actual cost value of these items, and the difference between the correct value of these items and the price bid by the Ryan-Parker Company has been added to the first two items of the bid, the anchorage material and the towers, the actual value of which, including proper allowances for profit, etc., is in the neighborhood of \$2,000,000, or a little less than one-third of the contract. So that by the time that one-third of the contract, and that the most simple part of the work, has been completed, not only all of the profits of the entire contract, but a considerable amount of the cost value of the material of the suspended superstructure will have been received by the contractor.

That the reason why the John Peirce Company was enabled to bid 8 cents for nickel steel instead of \$0.101 was by special arrangements whereby the manufacturer would make no profit or expect none thereon, it being employed to manufacture, fabricate and supply the medium steel required; otherwise the full amount of at least \$0.101 per pound would be charged.

Furthermore, if there should be default on the part of the contractors after receiving the excess aforesaid, and the balance of the contract had to be performed by the City, the entire contract would cost the City over \$7,200,000.

That deponent is an engineer accustomed to figure upon and determine the cost of performing contracts, and after a careful examination of the said bid submitted by the Ryan-Parker Construction Company, in his judgment the said bid is higher than the bid submitted by the John Peirce Company by considerable, taking into account the amounts of money which must be paid by the City under said contract in advance of the time they would be due under a balanced bid and upon the basis of the actual value of nickel steel at the price at which it can today be supplied by reputable manufacturers of steel.

JOHN C. WAIT,
No. 220 BROADWAY, NEW YORK,
June 8, 1906.

To the Honorable Board of Estimate and Apportionment, The City of New York:

GENTLEMEN—On behalf of Ryan-Parker Construction Company, and as its attorney, and on behalf of taxpayers of The City of New York, I hereby protest against the award of the contract for the Manhattan bridge (No. 3) over the East river, City of New York, and for which Ryan-Parker Construction Company is the lowest regular bidder, at the letting advertised for April 30, 1906, to any other bidder or bidders than the said lowest bidder, Ryan-Parker Construction Company.

The award to any other bidder, and particularly to one certain bidder, will bear out the public declarations generally that this work was "cut out" for one particular concern without regard to the cost to the public treasury, and the mandate of the Charter of The City of New York that public works should be advertised and awarded to the lowest bidder, and that the public funds should be conserved and not wasted.

On behalf of said taxpayers I declare that the award of this contract to any other than the lowest bidder, which is a reputable bidder doing large and important work for The City of New York, and who is known to the Departments of the City and to yourselves personally as responsible and capable contractors, will be a waste of public funds and an act against the best interests of The City of New York, and I protest against the award to any bidder except said Ryan-Parker Construction Company; and I further declare that an act of the Board of Estimate and Apportionment awarding this contract, or authorizing the Department of Bridges to award this contract, to any other than the lowest bidder, who has offered The City of New York a price for furnishing and erecting the bridge which is \$700,000 less than the lowest price bid at the former letting, will put a premium upon combinations to make exorbitant bids for public works and encourage public officials and their assistants to prepare contracts, specifications and plans especially for particular contractors, thus encouraging favoritism, to the great detriment of the public service and to the waste of public funds.

In this connection attention is called especially to the award of other contracts under conditions well known to you gentlemen, and which were the subject of like complaint, and in most instances of litigation, where contracts have been awarded by this Board to other than the lowest bidder, and your attention is respectfully called to the aggregate sum of money that has been diverted from the public treasury in excess of the aggregate of the lowest bid under such awards, and to the present condition of the work and structures so awarded, and especially to the following structures the subject of such awards, viz.: Jerome Park Reservoir, Hall of Records, New East River bridge (and the years' delay attending it), Blackwell's Island bridge, the stacks for the Public Library and the Cross River reservoir. Certainly the experience of The City of New York with the structures named has not been such as to encourage the award of public contracts to high bidders, nor have they been for the best interests of The City of New York or to its benefit.

Respectfully,

JOHN C. WAIT.

DEPARTMENT OF BRIDGES,
Nos. 13 to 21 PARK ROW,
NEW YORK, June 11, 1906.

Hon. HERMAN A. METZ, Chairman, Committee, Board of Estimate and Apportionment, The City of New York:

SIR—You asked me to-day why the clause:

"This schedule will be used by the Engineer for his information in the preparation of partial estimates made during the progress of the work, for partial payments to be made thereon,"

—was inserted in the proposed contract for the construction of the Manhattan Bridge. Since returning to my office I have consulted the Engineers of the Department and find that the clause was first used in the proposed contract for the Manhattan Bridge, bids for which were opened on August 10, 1905.

The Engineer who prepared it had in mind that the schedule referred to would be used only for the information of the Engineer of this Department and would not govern him in his determination as to the value of the work done. The clause was in the proposed contract, of course, when it was approved by the Corporation Counsel, but I do not know that its possible legal effect was called to his attention.

Yours very truly,

J. W. STEVENSON, Commissioner of Bridges.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,

To the Board of Estimate and Apportionment:

GENTLEMEN—Your committee, appointed for the purpose of considering the communication of the Commissioner of Bridges, dated June 7, 1906, begs to report that after further consultation with the Bridge Commissioner and the Corporation Counsel, it is recommended that the communication be referred back to the Bridge Commissioner for his action.

Respectfully,

H. A. METZ, Chairman.

In accordance with the recommendation contained in the report of the Select Committee, the matter was referred back to the Bridge Commissioner for his action.

The Comptroller presented the following communication from the President of the Board of Aldermen, tendering his resignation as a member of the Committee of the Board of Estimate and Apportionment, appointed March 16, 1906, to investigate the value of the plants of existing water companies on Staten Island, and to report as to the advisability of the purchase thereof by the City:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOARD OF ALDERMEN,
NEW YORK, June 14, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, City Hall, New York:

DEAR SIR—I beg to tender you my resignation as a member of the Committee of the Board of Estimate and Apportionment appointed by you on March 16, 1906, to

investigate the value of the plants of existing water companies on Staten Island, and to report as to the advisability of the purchase thereof by the City.

Respectfully yours,

P. F. McGOWAN, President, Board of Aldermen.

Which resignation was accepted.

The Comptroller presented a report of the Select Committee, appointed at the meeting held March 16, 1906, to investigate the value of the plants of existing water companies on Staten Island and recommending that the City purchase the plant of the Crystal Water Company, with all its property and rights, for the sum of \$720,563.44, which was referred to a Select Committee consisting of the Comptroller and the Corporation Counsel for consideration and report as to the form of contract.

The Comptroller presented the following communication from the Police Commissioner, requesting the establishment of the grade of Automobile Engineman, in his Department, with salary at the rate of \$1,200 per annum; and report of the Investigations Division Department of Finance, approved by the Comptroller, to whom this matter was referred at the meeting held June 8, 1906, recommending the establishment of said grade for three incumbents:

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
No. 300 MULBERRY STREET,
NEW YORK, May 28, 1906.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—Pursuant to the provisions of section 56 of the Greater New York Charter, I respectfully request that your honorable Board adopt the necessary resolution and forward the same to the Board of Aldermen, establishing the grade of Automobile Engineman, at a salary of \$1,200 per annum, in the Police Department of The City of New York.

Very respectfully,

THEO. A. BINGHAM, Police Commissioner.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
June 11, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the request of the Police Commissioner for the establishment of the position of Automobile Engineman in the Police Department, and at an annual salary of \$1,200, referred by the Board of Estimate and Apportionment to the Comptroller for report as to the number of Automobile Enginemen that will be required, and referred by you to the Investigations Division for examination, I beg to report as follows:

There is at the present time one automobile in use by the Police Department. The driver of this car is a Patrolman. The Department is about to purchase three additional automobiles, one for \$4,000 and two for \$2,500 each. Commissioner Bingham informed an examiner of this Division that the services of three Automobile Enginemen will be required. It is proposed to assign one of the new automobiles to each of the three Deputy Commissioners.

I would therefore recommend that the request of the Police Commissioner be granted to the extent of three Automobile Enginemen at \$1,200 per annum.

Respectfully,

R. B. MCINTYRE,
Auditor of Accounts, Investigations Division.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of the position of Automobile Engineman in the Police Department, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said position be fixed at the rate of twelve hundred dollars (\$1,200) per annum, for three incumbents.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented the following communication from the Commissioner of Docks and Ferries, requesting the establishment of an additional grade of the position of Pilot (captain) in the Department of Docks and Ferries at the rate of \$160 per month; together with report of the Investigations Division, Department of Finance, approved by the Comptroller, one of the Select Committee to whom this matter was referred at the meeting held March 30, 1906:

DEPARTMENT OF DOCKS AND FERRIES,
PIER "A," NORTH RIVER,
NEW YORK, March 22, 1906.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

SIR—The captains employed on the Municipal Ferry operated between the boroughs of Manhattan and Richmond recently appeared before me and submitted a brief, calling attention to the pay of men in positions on other boats running through this port which are nearly analogous to the positions held by them, and requesting an increase in pay from their present compensation of \$137.50 per month to \$2,000 per annum. I have investigated the matter of the compensation paid in such positions, and find as follows:

That the captain of the "Sandy Hook," a vessel of 1,700 tons, receives, including meals, compensation of \$168 per month; captains on the Sound boats, with tonnage of about 2,400 tons, receive, including meals, \$190 per month; on the ferryboats of the Central Railroad Company of New Jersey and the Pennsylvania Railroad Company captains receive \$135 per month, the boats having a tonnage of from 1,000 to 1,200 tons. The Municipal ferryboats have a tonnage of about 2,000 tons and develop about 4,000 horse power, putting them, in my opinion, in the class of boats represented by those operating under the name of Fall River and Providence lines. There are certain privileges also which are enjoyed by the captains and employees of the ferryboats of the railroads, such as the Pennsylvania and Jersey Central roads, which put them in a better position than is actually represented by their pay.

I am, therefore, of the opinion that to meet the prevailing rate of wages, the captains of the Municipal boats should receive compensation at the rate of \$160 per month, and I would therefore respectfully recommend that an additional grade be established for the position at that rate, viz., \$160 per month.

Yours respectfully,

J. A. BENSEL,
Commissioner.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
May 22, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—In regard to a communication from the Commissioner of Docks and Ferries, presented to the Board of Estimate and Apportionment on March 30, 1906, requesting the establishment of an additional grade of the position of Captain (pilot) for the Municipal ferryboats, operating between the boroughs of Manhattan and Richmond, with salary at the rate of \$160 a month, which communication was referred to the Comptroller and the President of the Board of Aldermen for report thereon,

and by you referred to the Investigations Division for examination, I beg to report as follows:

In December, 1905, about the time of the opening of the new Municipal Ferry, this Division reported favorably on the application of the Department of Docks and Ferries for the establishment of the position of Pilot at \$1,650 per annum, or \$137.50 a month; also, the position of Pilot, second grade, at \$1,200 per annum. The man who occupies the position of Pilot at \$1,650 per annum is known in the Dock Department as "master and pilot," or the captain of a ferryboat.

The general manager of United Harbor, No. 1, American Association of Masters and Pilots of Steam Vessels, stated to your representative that 90 per cent. of the men of his occupation are organized, and that the monthly rate of wages received by a man in the trade of master and pilot on passenger steamers is \$135 a month, which is considered the prevailing rate of wages.

The wages with which the Pilots on the Municipal Ferry started, \$137.50 a month, was about the rate prevailing on nearly all classes of passenger boats in New York Harbor.

Superintendent of Ferries John F. Ambrose stated to your representative:

"The Municipal boats are the largest and fastest boats in use at the present time, and the landing place at New York, being one of the most congested portions of the harbor, demands greater skill in handling than any other similar class of boats in New York. They are not comparable to any other ferryboats in use in the harbor of New York on account of their great tonnage. They exceed those of the Pennsylvania and Jersey Central ferryboats, as well as the boats of the Sandy Hook route, and practically equal the tonnage of the Sound boats.

"The Sound boats, when they approach New York Harbor in coming from outlying ports during foggy weather, do not run below Whitestone, where they anchor; while the Municipal ferryboats, no matter what the condition of the wind or weather, have to continue in service. The amount of tonnage of a boat should govern in fixing the compensation of Pilot or captain.

"The license held by the captain of a Municipal ferryboat is the highest granted by the Government to the master of a boat running in inland waters. In comparison with the wages paid to other employees of the Municipal Ferry, the pilots' compensation is not sufficient.

"The tonnage of a municipal ferryboat is nearly 2,000 tons. The tonnage of little steamer 'Manhattan,' belonging to the Dock Department, is 155 tons. The Captain of the 'Manhattan' receives \$137.50 a month, the salary now paid to the captain of a big municipal ferryboat. This is unfair to the latter, who is responsible for the safety of \$400,000 worth of the City's property."

The Superintendent presented the following comparison of rates of pay for captains and the tonnage of boats of five principal lines running in New York harbor:

Boats and Tonnage.	Rate of Pay.
"Sandy Hook," average, 1,691 tons.....	*\$168 00
Sound boats, 2,395 tons.....	*190 00
Municipal ferry, 1,954 tons.....	137 50
"Bound Brook," 1,016 tons (Jersey Central).....	135 00
"St. Louis," 1,273 tons (Pennsylvania).....	135 00

*Including meals.

Ferryboat captains in the employ of the Pennsylvania Railroad Company receive full pay while on sick leave and have free transportation for themselves and their families over the company's road.

It appears that the rate paid to master pilots in New York harbor on many boats of much smaller tonnage being \$135 a month, the largely increased responsibility of the captains of the municipal ferryboats should be taken into consideration when fixing their compensation. The great value of the property in their charge; the fact that at times they have in their care as many as 1,500 passengers; the further fact that, while these large ferryboats have a tonnage of nearly 2,000 tons, the captains are paid only about the same rate as received by the masters of boats of 200 tons; the difficulty of securing competent men to assume the great responsibility placed upon them; the requirement that schedule time between Manhattan and Richmond boroughs must be adhered to as closely as possible regardless of fog, ice or other weather obstructions; the skill required in handling these boats, all would seem to justify a substantial increase in salary over that paid to captains of inferior boats.

It is, therefore, recommended that the resolution hereto attached be approved.

Respectfully,

CHARLES S. HERVEY,

Auditor of Accounts, Investigations Division.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of an additional grade of the position of Pilot (captain) in the Department of Docks and Ferries, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said additional grade be fixed at the rate of one hundred and sixty dollars (\$160) per month.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented the following communication from the Commissioner of Docks and Ferries, requesting the establishment of two additional grades of the position of Engineer (marine) in said Department, with salary at the rate of \$1,650 and \$1,800 per annum, respectively; together with a report of the Investigations Division, Department of Finance, approved by the Comptroller, one of the Select Committee to whom this matter was referred at the meeting held March 16, 1906:

DEPARTMENT OF DOCKS AND FERRIES,
PIER "A," NORTH RIVER,
NEW YORK, March 7, 1906.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

SIR—Since the operation of the Staten Island ferry by the City, the engineers employed on the ferryboats have received compensation at the rate of \$1,500 per annum. I find upon investigation that engineers employed on other boats of similar and smaller power in this harbor receive compensation of \$1,800 per annum.

The Engineers of the Staten Island ferry have submitted a request for an increase in compensation to \$1,800 per annum, and in view of the fact that these men are employed upon boats of more than 4,000 horse power, much greater than that of any others in the harbor, I think it proper that two grades of Engineers should be established, the first grade at \$1,800 per annum and the second grade at \$1,650 per annum.

I therefore have this day fixed the salary of those acting as Chief Engineers on the boats at the rate of \$1,800 per annum, and of those acting as Assistant Engineers at the rate of \$1,650 per annum, subject to the establishment of the position, and respectfully request that the Board of Estimate and Apportionment recommend to the Board of Aldermen the establishment of the position of Marine Engineer for this Department with compensation at the rate of \$1,650 and \$1,800 per annum.

Yours respectfully,

J. A. BENSEL, Commissioner.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
May 21, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—In regard to a communication from the Commissioner of Docks and Ferries, presented to the Board of Estimate and Apportionment on March 16, 1906, requesting the establishment of two additional grades of the position of Engineer (marine) for the Municipal ferryboats, operating between the boroughs of Manhattan and Richmond, the first grade with salary of \$1,800 per annum, and the second grade at \$1,650 per annum, which communication was referred to the Comptroller and the President of the Board of Aldermen for consideration and report, and by you referred to the Investigations Division for examination, I beg to report as follows:

Superintendent of Ferries, John F. Ambrose, stated to your representative, as follows:

"The Engineers on the Municipal ferryboats are paid \$1,500 per annum. It is desired to establish two grades of Engineers on these boats, a Chief Engineer and an Assistant. The Municipal ferryboats are high-speed boats, carrying a steam pressure of 225 pounds. The average steam pressure on screw ferryboats in the harbor of New York, excepting the Twenty-third street ferryboats, is 150 pounds.

"The average horse-power on beam or side-wheelers in the harbor is 500, while on the screw boats of the Municipal Ferry the horse-power is 4,000. The horse-power on the 'Scranton,' of the Hoboken Ferry, is 1,400, and on the 'St. Louis,' of the Pennsylvania Twenty-third Street Ferry, 1,800.

"The compensation of the Engineer on the steamer 'Manhattan,' of the Dock Department, with a horse-power of only 780, is the same as that of an Engineer on the Municipal Ferry.

"The runs made by the Municipal boats during eight hours amount to 80 miles; and they make sixteen landings, while the Sound boats run 70 miles in eight hours, making but two landings in twenty-four hours. The engineer on the Sound steamer receives \$1,680 per annum, with an allowance for meal worth 60 cents a day. The engineer on a Long Branch boat receives \$1,620 per annum, and is allowed a meal worth 50 cents a day.

"The work performed by the Engineers and their responsibility are very much greater than under former conditions on the Staten Island Ferry. Then one ordinary engine was operated. Now the Engineer has in his care a much larger engine, besides donkey engines for pumping, dynamos for lighting, etc."

The rates per annum paid engineers of various ferry lines are as follows:

Thirty-ninth Street, Brooklyn	\$1,440 00
Williamsburg Ferry	1,325 00
Pennsylvania Railroad	1,440 00
Union Ferry	1,440 00
Central Railroad of New Jersey	1,440 00

It is recommended that, in view of the greatly increased horse-power of the Municipal ferryboat engines over other boats plying in the harbor, of the much more elaborate machinery in their charge, of the constant care and watchfulness required of an engineer employed on a boat of the value of \$400,000, the request of the Commissioner of Docks and Ferries for the creation of two additional grades of the position of Engineer, with salaries at \$1,800 and \$1,650 per annum, respectively, be granted as per the attached resolution.

Respectfully,

CHARLES S. HERVEY,

Auditor of Accounts, Investigations Division.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of two additional grades of the position of Engineer (marine) in the Department of Docks and Ferries, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salaries of said additional grades be fixed at the rates of eighteen hundred dollars (\$1,800) and sixteen hundred and fifty dollars (\$1,650) per annum, respectively.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens, and Richmond—16.

The Comptroller presented the following communication from the Secretary of the Board of Trustees of the Normal College of The City of New York, transmitting certified copy of report and resolution adopted by said Board of Trustees, requesting the Board of Estimate and Apportionment to approve the issue of Corporate Stock to the amount of \$10,000, for the purpose of improving, permanently bettering and equipping buildings of the Normal College; together with report of the Chief Engineer of the Department of Finance, approved by the Comptroller, to whom this matter was referred on June 8, 1906, recommending that the request be returned to the Board of Trustees of the Normal College, and that they be advised to apply to the Board of Aldermen for an issue of Special Revenue Bonds for this purpose:

NORMAL COLLEGE OF THE CITY OF NEW YORK,
PARK AVENUE AND FIFTY-NINTH STREET,
NEW YORK, May 24, 1906.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

DEAR SIR—I have the honor to transmit herewith a certified copy of report and resolution adopted by the Board of Trustees of the Normal College of The City of New York, at a meeting held on the 23d inst., requesting the Board of Estimate and Apportionment to approve the issue of Corporate Stock to the amount of \$10,000, for the purpose of improving, permanently bettering and equipping the buildings of the Normal College.

Respectfully yours,

A. EMERSON PALMER,

Secretary, Board of Trustees.

To the Board of Trustees of the Normal College:

The Executive Committee respectfully reports that it has carefully considered the matter of necessary improvements and repairs to the Normal College buildings and has received a report thereon from the Superintendent of School Buildings. In connection therewith consideration was given to two complaints received from the Department of Health regarding the unsanitary condition of the Normal College buildings and requiring that steps be taken to remedy the same immediately.

A report was also received from the Auditor showing that no money is available for the work above mentioned in the appropriation for current year, and it therefore becomes necessary to request the Board of Estimate and Apportionment to approve of the issue of Corporate Stock for the purpose of providing funds for said work.

The improvements and repairs deemed necessary comprise one new boiler; the completion of the new system of steam mains to replace the present complex system, to effect positive equalization of the boilers and the radiating system; new return mains in underground trenches to replace the present rusted out mains which are entirely too small; new steam and return risers, as the present ones are entirely too small; new radiation to the various parts of the building to replace that which is at present defective; new cases for drawing room, etc., etc.

The estimated cost of this work is about \$10,000.

The following resolution is submitted for adoption:

Resolved, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to approve the issue of Corporate Stock to the amount of ten thousand dollars (\$10,000), in pursuance of the provisions of section 47 of the Revised Charter, as amended by chapter 409 of the Laws of 1904, for the purpose of improving,

permanently bettering and equipping the buildings of the Normal College of The City of New York.

A true copy of report and resolution adopted by the Board of Trustees of the Normal College at a meeting held May 23, 1906.

A. EMERSON PALMER, Secretary, Board of Trustees.

June 12, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—At a meeting held May 23, 1906, of the Board of Trustees of Normal College, the following resolution was adopted:

"Resolved, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to approve the issue of Corporate Stock to the amount of ten thousand dollars (\$10,000), in pursuance of the provisions of section 47 of the Revised Charter, as amended by chapter 409 of the Laws of 1904, for the purpose of improving, permanently bettering and equipping the buildings of the Normal College of The City of New York."

I have had the matter looked up in detail, and it is found that the work consists in replacing a defective boiler and radiating system by a new boiler, new mains, risers and radiators.

I am of the opinion that, since this proposed work involves no new features or distinct improvements over that which it is to replace, that it would not be legal to issue Corporate Stock for the purpose intended.

The examination I have had made leads me to think that the repair work outlined is necessary, and I therefore suggest that the matter be returned to the Board of Trustees of Normal College, and that they be advised to apply to the Board of Aldermen for the issue of Special Revenue Bonds for this purpose, under subdivision 8 of section 188 of the Greater New York Charter.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. METZ, Comptroller.

In accordance with the recommendation contained in the report submitted the matter was accordingly referred back to the Trustees of the Normal College, with the suggestion that they apply to the Board of Aldermen for an issue of Special Revenue Bonds.

The Comptroller presented the following communication from the Board of Water Supply, requesting that an additional sum of \$1,500 be authorized for use as a Contingent Fund for said Board.

BOARD OF WATER SUPPLY,
No. 299 BROADWAY,
NEW YORK, June 12, 1906.

Board of Estimate and Apportionment, City of New York:

GENTLEMEN—On February 2, 1906, your Honorable Board, in response to our communication dated January 25, 1906, adopted a resolution (copy of which is hereto attached), creating a contingent fund amounting to \$500 for the purpose of defraying minor and incidental expenses. While the above amount was ample at the time the application was filed, the vast increase in the operations of the Board of Water Supply make it imperative that the amount be now increased, as the above amount is frequently insufficient to meet all the requirements.

We therefore respectfully make application for an additional sum of fifteen hundred dollars (\$1,500), to be used as the Contingent Fund of this Board, making in all \$2,000.

Respectfully,

BOARD OF WATER SUPPLY.

Per THOS. HASSETT, Secretary.

Resolved, That for the purpose of defraying any minor or incidental expenses contingent to the Board of Water Supply, City of New York, the Secretary may, by a requisition, draw upon the Comptroller for a sum not exceeding five hundred dollars (\$500), and may, in like manner, renew the draft as often as may by him be deemed necessary during each year, from the funds available in his hands from the sale of Corporate Stock for the use of said Board of Water Supply, City of New York, but no such renewal shall be made until the moneys paid upon the preceding draft shall be accounted for by the Secretary, by the transmittal of a voucher, or vouchers, certified to by the Chairman of said Board, covering the expenditure of money paid thereon.

A true copy of a resolution adopted by the Board of Estimate and Apportionment. February 2, 1906.

(Signed)

JOSEPH HAAG, Secretary.

The above is a true copy of a certified copy on file in this office.

J. M. S. MILLETTE, Chief Clerk.

The following resolution was offered:

Resolved, That for the purpose of defraying any minor or incidental expenses contingent to the Board of Water Supply, City of New York, the Secretary may, by a requisition, draw upon the Comptroller for a sum not exceeding fifteen hundred dollars (\$1,500), in addition to the sum heretofore authorized, and may, in like manner, renew the draft as often as may by him be deemed necessary during each year, from the funds available in his hands from the sale of Corporate Stock for the use of the said Board of Water Supply, City of New York, but no such renewal shall be made until the moneys paid upon the preceding draft shall be accounted for by the Secretary, by the transmittal of a voucher, or vouchers, certified to by the Chairman of said Board, covering the expenditures of money paid thereon.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented the following requisition of the Board of Rapid Transit Railroad Commissioners for an issue of Special Revenue Bonds to the amount of \$25,660, to pay the contract price for making certain diamond drill and wash borings under the Harlem and East rivers on Tenth and Eleventh avenues, Manhattan, and on the proposed Bensonhurst, Bath Beach and Coney Island route, Borough of Brooklyn:

To the Board of Estimate and Apportionment:

Requisition is hereby made upon you, in accordance with the terms of chapter 4 of the Laws of 1891, as amended, for the sum of twenty-five thousand six hundred and sixty dollars (\$25,660), the same being the contract price with the Healey Sewer Machine and Construction Company, the lowest bidder, for making certain diamond drill and wash borings, as follows:

Diamond drill borings on the lines of the proposed tunnels passing under the Harlem and East rivers.

Wash borings to be made on Tenth and Eleventh avenues, in the Borough of Manhattan, and on the proposed Bensonhurst, Bath Beach and Coney Island route in the Borough of Brooklyn.

This requisition is made pursuant to a resolution duly adopted by the Board of Rapid Transit Railroad Commissioners at its meeting held on the 7th day of June, 1906.

In witness whereof, the Board of Rapid Transit Railroad Commissioners has caused this requisition to be subscribed by its President and Secretary and its official seal to be affixed this 7th day of June, 1906.

[SEAL]

BION L. BURROWS, Secretary.

Resolution adopted by the Board of Rapid Transit Railroad Commissioners on the 7th day of June, 1906:

A. E. ORR, President.

Resolved, That the officers of this Board be and they hereby are authorized to make requisition under the seal and in the name of the Board upon the Board of Estimate and Apportionment for the sum of twenty-five thousand six hundred and sixty dollars (\$25,660), being the contract price for making certain diamond drill and wash borings under the Harlem and East rivers, on Tenth and Eleventh avenues, in Manhattan Borough, and on the proposed Bensonhurst, Bath Beach and Coney Island route, Borough of Brooklyn.

I hereby certify that the above is a true copy of resolution adopted by the Board of Rapid Transit Railroad Commissioners on the 7th day of June, 1906.

BION L. BURROWS, Secretary.

The following resolutions were offered:

Resolved, That, pursuant to the provisions of section 10 of chapter 4 of the Laws of 1891, as amended, the sum of twenty-five thousand six hundred and sixty dollars (\$25,660) be and hereby is provided for the purpose of paying the contract price for making certain diamond drill and wash borings under the Harlem and East rivers, on Tenth and Eleventh avenues, in the Borough of Manhattan, and on the proposed Bensonhurst, Bath Beach and Coney Island route, Borough of Brooklyn, contained in the requisition of the Board of Rapid Transit Railroad Commissioners, dated June 7, 1906, and that the unexpended balance of any previous appropriation made by this Board upon the requisition of said Commissioners be applied to the same purpose; and.

Resolved, That, for the purpose of providing for the payment of so much thereof as is in excess of said unexpended balance, the Comptroller be and hereby is authorized and directed to issue and sell Special Revenue Bonds of The City of New York to an amount not exceeding twenty-five thousand six hundred and sixty dollars (\$25,660), redeemable from the tax levy of the year succeeding the year of their issue.

Which were adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented a communication from the Department of Health, requesting an appropriation of \$100,000 Revenue Bonds for the purpose of employing additional Sanitary Inspectors in the Department of Health; also additional clerks, and to promote employees now in said Department to fill vacancies.

Referred to the Comptroller.

The Comptroller presented the following communication from the President of the Borough of Manhattan, and report of the Superintendent of Public Buildings and Offices, relative to an appropriation of \$50,000, for improving, permanently bettering and equipping the new County Court House in the Borough of Manhattan:

CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN,
CITY HALL, June 14, 1906.

JOSEPH HAAG, Esq., Secretary to the Board of Estimate and Apportionment:

DEAR SIR—Chapter 693 of the Laws of 1906 provides for eight additional Supreme Court Justices in the First Department. In order to accommodate these extra Judges it will be necessary to make some changes in the New York County Court House, the cost of which will approximate the sum of fifty thousand dollars (\$50,000).

Request is therefore made to the Board of Estimate and Apportionment for an issue of Corporate Stock in the above-mentioned amount to pay the cost of these necessary changes.

There is enclosed herewith a copy of the report of the Superintendent of Public Buildings and Offices of this Department showing the necessity for this work.

Yours respectfully,

JOHN F. AHEARN,

President of the Borough of Manhattan.

BUREAU OF PUBLIC BUILDINGS AND OFFICES,
SUPERINTENDENT'S OFFICE, NOS. 13 TO 21 PARK ROW,
NEW YORK, June 14, 1906.

Hon. JOHN F. AHEARN, President, Borough of Manhattan:

DEAR SIR—In order to make the necessary provisions for the accommodation of the additional court rooms required in the County Court House by reason of the enactment of the law adding eight new Justices of the Supreme Court, it will be necessary to make extensive changes in this building. New court rooms and Clerks' offices and Justices' private quarters must be established; the present heating, plumbing, gas fitting, ventilation and electrical systems must be extended to fit up these new quarters. New flooring must be installed, partitions erected and record rooms provided throughout the building to meet the demand. The new work must all be painted, and the necessary carpenter work done. In order to perform the work it will be necessary to appropriate from Corporate Stock an appropriation of at least fifty thousand dollars. This money is not only required for the extension of all the systems above mentioned, but it will be necessary for the completion and equipment of the building to suit the changes required.

Respectfully,
(Signed) WILLIAM H. WALKER, Superintendent.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding fifty thousand dollars (\$50,000), for improving, permanently bettering and equipping the New York County Court House, Borough of Manhattan, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding fifty thousand dollars (\$50,000), the proceeds whereof to be applied to the purposes aforesaid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens, and Richmond—16.

The President of the Borough of Manhattan presented a petition from the employees of the Bureau of Final Disposition, Department of Street Cleaning, relative to increases in the salaries of Dump Inspectors from \$1,200 to \$1,500 per annum; Assistant Dump Inspectors from \$900 to \$1,200 per annum, and Boardmen from \$720 to \$800 per annum.

Which was referred to the Commission appointed at the meeting held June 1, 1906, consisting of the Secretary of the Board of Estimate and Apportionment, the Assistant Deputy Comptroller, the Secretaries of the five Boroughs, the President of the Civil Service Commission, and the Commissioners of Accounts.

The Board adjourned, to meet at 2 o'clock p. m.

The Board met at 2 p. m., pursuant to adjournment.

No quorum being present the Board adjourned, to meet Friday, June 22, at 10.30 o'clock a. m.

BOARD OF ESTIMATE AND APPORTIONMENT.

EXTRACT FROM

MINUTES, BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, JUNE 29, 1906.

In the matter of the suggestion of the Commissioner of Bridges that this Board request the Board of Rapid Transit Railroad Commissioners to lay out an elevated railroad route in Delancey street, from the terminus of the Williamsburg Bridge to the elevated railway in the Bowery, and to empower the Interborough Company to double deck its elevated structure from Delancey street to the Brooklyn Bridge.

The Comptroller, as the Chairman of the Select Committee, to whom, on June 15, this matter was referred, presented the following resolutions for adoption:

Whereas, The Commissioner of Bridges, in a communication to this Board, dated May 25, 1906, has requested this Board as the local authorities of The City of New York, to make a request upon the Board of Rapid Transit Railroad Commissioners to consider and determine whether it is for the interest of the public and of the City that a rapid transit railway, or railways, should be established by means of an elevated railroad through a route in Delancey street, from the terminus of the Williamsburg Bridge to the Bowery, and thence along the Bowery to Park row, and thence along Park row to the entrance of the New York and Brooklyn Bridge; and

Whereas, It is the purpose of such route to provide a through line of transit by way of the New York and Brooklyn Bridge and the Williamsburg Bridge without terminus in the Borough of Manhattan, for Brooklyn elevated trains; and

Whereas, This Board did, on June 15, 1906, hold a public hearing upon the advisability of establishing such route; and

Whereas, It was pointed out that such route, if established and constructed, would be only temporary in character, and would only remain until such time as the completion of Manhattan Bridge and the construction of subway route No. 9-0, hereinbefore approved by this Board; and

Whereas, It is the desire of this Board that the congested conditions at the Manhattan end of the New York and Brooklyn Bridge be relieved at the earliest possible moment, and that the tracks designed and constructed for elevated trains on the Williamsburg Bridge be utilized; now therefore be it

Resolved, That, pursuant to the provisions of the Rapid Transit Act, as amended, the Board of Estimate and Apportionment hereby requests the Board of Rapid Transit Railroad Commissioners to consider and determine whether it is for the interest of the public and of the City that a rapid transit railway, or railways, for the conveyance and transportation of persons and property, should be established by an elevated railroad, on, upon and along the route hereinbefore described; and be it further

Resolved, That the Board of Estimate and Apportionment requests the Board of Rapid Transit Railroad Commissioners to direct the immediate preparation of plans and the form of contract for the construction of a rapid transit railroad for that part of Subway Route No. 9-0, being a part of the so-called "Brooklyn and Manhattan Loop Line," as consented to by the local authorities on July 14, 1905, and approved by the Mayor on July 28, 1905, in order that bids may be asked therefor at the earliest possible moment after the decision of the Appellate Division shall be rendered upon the report of the Commissioners appointed to determine whether or not such route should be constructed, and which report, the Board is advised, will shortly be presented to the Court for confirmation; and be it further

Resolved, That the Commissioner of Bridges be requested to present to this Board, on September 28, the preliminary plans for the alteration of the Manhattan end of the Brooklyn Bridge, so as to permit the trains of the Brooklyn Elevated Railroad, now operated upon this Bridge, to connect with the proposed Subway Route No. 9-0, previously referred to, together with an estimate of cost and of time required for such alteration. Plans to be in such detail as to show necessary changes in line and grade of existing streets.

The matter was laid over for one week.

Manhattan Refrigerating Company.

In the matter of the application of the Manhattan Refrigerating Company for a franchise to construct, maintain and operate a pipe line under and along certain streets in the Borough of Manhattan, and relative to the pipes which are at present illegally operated by the company, which was referred to the Committee of the Whole, June 22, 1906, and reported out without recommendation, and under the rule placed upon the calendar for this date.

Upon motion of the President of the Borough of Manhattan the matter was laid over for one week.

The Board met at 2.20 p. m., pursuant to adjournment, and upon motion of the Acting President of the Board of Aldermen resolved itself into a Committee of the Whole for the consideration of franchise matters which had heretofore been referred to the Committee.

The Acting President of the Board of Aldermen took the chair.

The Committee rose, and the Acting President of the Board of Aldermen reported that the Committee had considered the various matters relating to franchises which had been referred to the Committee of the Whole, and had reached no conclusions thereon, and that the Corporation Counsel had advised that the Board having formally rejected the application of the Williams Terminal Railway Company for a franchise could not at a later date reconsider or rescind its action, but that a new application must be filed with the Board and the proceedings begun de novo.

The Board then adjourned to meet Friday, July 6, at 10.30 o'clock a. m.

The full minutes of the meeting of this day will appear in the CITY RECORD at a later date.

BOARD OF ESTIMATE AND APPORTIONMENT.

PUBLIC NOTICE.

BOARD OF ESTIMATE AND APPORTIONMENT, No. 277 BROADWAY, NEW YORK CITY.

NOTICE IS HEREBY GIVEN THAT THE Board of Water Supply of The City of New York, pursuant to chapter 724 of the Laws of the State of New York enacted in the year 1905, has made such surveys, maps, plans, specifications, estimates and investigations as it deemed proper, in order to ascertain the facts as to what sources for an additional supply of pure and wholesome water for The City of New York exist and are most available, desirable and best for the said supply and has reported to the Board of Estimate and Apportionment with recommendation as to what action should, in its opinion, be taken with reference thereto, which report, with a map, plan and profile accompanying the same, bears the date of June 13, 1906, and is entitled "Map and profile showing manner of obtaining from Schoharie Creek an additional supply of water for The City of New York," which said map is on file in the office of the Board of Water Supply of The City of New York, at No. 299 Broadway, in New York City.

Notice is also given that the Board of Estimate and Apportionment of The City of New York has resolved that the 6th day of July, 1906, at 10:30 o'clock in the forenoon, and Room 16 in the City Hall, in The City of New York, be fixed as the time and place for a public hearing upon the said report and that notice be given on such public hearing by publication in the newspapers designated by the Board of City Record as official City papers, excluding all

borough papers, and in all papers published in the counties affected which are designated as "official papers" for the publication of official notices, if any, and if there be none such, then in any two papers published in the counties so affected, and that the Secretary of the said Board of Estimate and Apportionment be directed to give such notices as are provided for in said statute and as he may be advised by the Corporation Counsel.

Of all of the foregoing you are hereby duly notified.
Dated JUNE 22, 1906.

JOSEPH HAAG,
Secretary.

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to lay out Carroll street, between Rogers avenue and Nostrand avenue, in the Borough of Brooklyn, and that a meeting of said Board will be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on July 6, 1906, at 10:30 o'clock a. m., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions adopted by the Board on June 22, 1906, notice of the adoption of which is hereby given, viz:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by laying out Carroll street, between Rogers avenue and Nostrand avenue, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Beginning at a point on the easterly side of Rogers avenue distant 255 feet 7 inches southerly from the corner formed by the intersection of the easterly side of Rogers avenue with the southerly side of President street; thence easterly parallel with President street 700 feet to the westerly side of Nostrand avenue, which point is distant 255 feet 7 inches southerly from the corner formed by the intersection of the westerly side of Nostrand avenue with the southerly side of President street; thence southerly at right angles with the last mentioned line and along the westerly side of Nostrand avenue as now laid out 70 feet, which point is distant 255 feet 7 inches northerly from the corner formed by the intersection of the westerly side of Nostrand avenue and the northerly side of Crown street; thence westerly and parallel with Crown street 700 feet to a point 255 feet 7 inches from the corner formed by the intersection of the easterly side of Rogers avenue with the northerly side of Crown street; and thence northerly along the easterly side of Rogers avenue as now laid out 70 feet to the point or place of beginning.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 6th day of July, 1906, at 10:30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the City Record and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 6th day of July, 1906.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY, ROOM 1536, NOS. 13 TO 21 PARK ROW, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Water Supply, Gas and Electricity at the above office until 2 o'clock p. m., on

TUESDAY, JULY 3, 1906,

Borough of Brooklyn.

FOR FURNISHING AND DELIVERING 80,100 GROSS TONS OF ANTHRACITE COAL.

The time for the delivery of the articles, materials and supplies and the performance of the contract is until May 1, 1907.

The amount of security will be Fifty Thousand Dollars (\$50,000).

The bids will be compared on the basis of the Engineer's approximate estimate of the amount of coal required at each point of delivery, which is as follows:

One thousand one hundred (1,100) gross tons of broken coal to be delivered at the Norwood avenue yard, East New York, or alongside the Long Island Railroad Company's dock, Long Island City.

Five thousand five hundred (5,500) gross tons of No. 2 buckwheat coal, to be delivered at the Norwood avenue yard, East New York, or alongside the Long Island Railroad Company's dock, Long Island City.

Eleven thousand (11,000) gross tons of broken coal, to be delivered at the old or new Ridgewood Pumping Station, or alongside the Long Island Railroad Company's dock, Long Island City.

Thirty-six thousand five hundred (36,500) gross tons of No. 1 buckwheat coal, to be delivered at the old or new Ridgewood Pumping Station switch, or alongside the Long Island Railroad Company's dock, Long Island City.

Nineteen thousand five hundred (19,500) gross tons of No. 2 buckwheat coal, to be delivered at the old or new Ridgewood Pumping Station switch, or alongside the Long Island Railroad Company's dock, Long Island City.

Two thousand (2,000) gross tons of No. 1 buckwheat coal, to be delivered at the Gravesend Pumping Station, or alongside the Long Island Railroad Company's dock, Long Island City.

One thousand five hundred (1,500) gross tons of No. 1 buckwheat coal, to be delivered at the switch near New Utrecht Pumping Station, or alongside the Long Island Railroad Company's dock, Long Island City.

Three thousand (3,000) gross tons of pea coal, to be delivered alongside Wallabout dock, foot of Clinton avenue, Brooklyn.

In comparing bids, charges of the Long Island Railroad Company for freight and hoisting will be considered and added to the prices submitted by the bidders for broken and buckwheat coal, delivered alongside the Long Island Railroad Company's dock, Long Island City. Charges of the Long Island Railroad Company for freight and hoisting are as follows:

To Ridgewood Pumping Station, East New York, 55 cents.

To Norwood avenue yard, East New York, 55 cents.

To Gravesend Pumping Station, 60 cents.

To switch near New Utrecht Pumping Station, 60 cents.

All the anthracite coal required shall be from one of the companies specified in paragraph 5 of the specifications, and the contractor in his bid must specify the company or companies from which he proposes to furnish the coal.

The bidder will state the price of each item or article contained in the specifications, per ton, by which the bids will be tested.

The bids will be compared and a contract awarded to the lowest bidder for all the articles, materials or supplies specified and contained in the annexed specifications and schedule.

Delivery will be required to be made from time to time and in such quantities and places as may be directed by the Commissioner or the Chief Engineer.

Blank forms may be obtained at the office of the Department of Water Supply, Gas and Electricity, the Borough of Manhattan, Nos. 13 to 21 Park row, at Room 25, Municipal Building, Borough of Brooklyn.

WILLIAM B. ELLISON,
Commissioner.

DEPARTMENT OF FINANCE.

NOTICE OF SALE OF LANDS AND TENEMENTS WITHIN THAT PART OF THE CITY OF NEW YORK NOW KNOWN AS THE BOROUGH OF THE BRONX, FOR UNPAID TAXES AND WATER RENTS.

THE CITY OF NEW YORK, DEPARTMENT OF FINANCE, BUREAU FOR THE COLLECTION OF ASSESSMENTS AND ARREARS OF TAXES, ASSESSMENTS AND WATER RENTS, STEWART BUILDING, NO. 280 BROADWAY, BOROUGH OF MANHATTAN, NEW YORK CITY, JUNE 15, 1906.

UNDER THE DIRECTION OF HERMAN A. METZ, Comptroller of The City of New York, the undersigned hereby gives public notice, pursuant to the provisions of section 1027 of the Greater New York Charter:

That the respective owners of the lands and tenements within that part of The City of New York, now known as the Borough of The Bronx, on which taxes have been laid and confirmed according to law by The City of New York for the years 1886, 1887, 1888, 1889, 1890, 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900 and 1901, including taxes on the real estate of corporations for the said years, and taxes on the special franchises of corporations for the years 1900 and 1901, and which now remain due and unpaid;

And also the respective owners of all lands and tenements in The City of New York, situated in the borough aforesaid on which the water rents have been laid according to law by the said City of New York for the years 1885, 1886, 1887, 1888, 1889, 1890, 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899 and 1900, and which now remain due and unpaid, are required to pay the amount of the said taxes and water rents so remaining due and unpaid, with the interest thereon at the rate of seven (7) per centum per annum, from the time when the same became due to the time of payment, together with the charges of this notice and advertisement, to the Collector of Assessments and Arrears, at his office in the Municipal Building, Third and Tremont avenues, in the Borough of The Bronx, in The City of New York;

And that, if default shall be made in such payment, such lands and tenements will be sold at public auction in the Coroner's Court Room, Third and Tremont avenues, in the Borough of The Bronx, in The City of New York, on

WEDNESDAY, OCTOBER 3, 1906,

at ten o'clock in the forenoon of that day, for the lowest term of years at which any person shall offer to take the same, in consideration of advancing the said taxes or water rents, as the case may be, and the interest thereon as aforesaid, to the time of sale, together with the charges of this notice and advertisement, and all other costs and charges accrued thereon; and that such sale will be continued from time to time until all the lands and tenements so advertised for sale shall be sold.

Notice is hereby further given, that a detailed statement of such taxes and water rents, and the

ownership of the property taxed and on which such taxes and water rents remain unpaid, is published in a pamphlet, and that copies of the said pamphlet are deposited in the office of the Collector of Assessments and Arrears in the Boroughs of Manhattan and The Bronx, and will be delivered to any person applying for the same.

CORPORATION SALE OF REAL ESTATE.

D. & M. CHAUNCEY REAL ESTATE COMPANY, LIMITED, AUCTIONEERS.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction on

FRIDAY, JULY 20, 1906,

at 12 o'clock m. at the Brooklyn Real Estate Exchange, No. 189 Montague street, the following described real estate belonging to the Corporation of The City of New York, and located in the Borough of Brooklyn, viz:

Beginning at a point in the southerly side of Ridgewood avenue distant 56 feet 10 inches easterly from the intersection of the southerly line of Ridgewood avenue with the easterly line of Richmond street, and running thence easterly along the southerly side of Ridgewood avenue 94 feet 5 1/2 inches to the centre line of the block; thence southerly along the centre line of a straight line 93 feet 7 3/4 inches to the point or place of beginning, the said premises being known as Lot No. 28, in Block 4127, Section 13, on the Land Map of Brooklyn.

The minimum or upset price at which said property shall be sold is fixed at \$500, and the Comptroller is authorized to take the necessary steps to make such sale upon the following

TERMS AND CONDITIONS.

The highest bidder will be required to pay 10 per cent. of the amount of his bid, together with the auctioneer's fee at the time of sale, and the balance, 90 per cent., upon the delivery of the deed, the quit-claim for the premises to be delivered within thirty days from the date of sale.

The Comptroller may, at his option, resell the property if the successful bidder shall fail to comply with the terms of sale, and the person failing to comply therewith will be held liable for any deficiency which may result from any such resale.

The right to reject any bid is reserved. By order of the Commissioners of the Sinking Fund under resolution adopted at a meeting of the Board held June 20, 1906.

(Signed) H. A. METZ,

Comptroller.

WILLIAM H. SMITH, AUCTIONEER.

CORPORATION SALE OF REAL ESTATE AND APPURTENANCES THEREON OWNED BY THE CITY OF NEW YORK.

PUBLIC NOTICE IS HEREBY GIVEN that the Comptroller of The City of New York, by virtue of the powers vested in him, pursuant to the provisions of chapter 173 of the Laws of 1905 will offer for sale at public auction the land, with the buildings thereon situate, being the property known as the Kings County Penitentiary, owned by The City of New York, in the

Borough of Brooklyn.
The said property is more particularly described on a map on file in the office of the Bureau of Real Estate, Department of Finance, Room 155, No. 280 Broadway, Borough of Manhattan, and known by the

Sale Nos. 1 to 74, in the Block No. 1282, bounded by President street, Nostrand avenue, Carroll street, as to be laid out, and Rogers avenue; also

Sale Nos. 1 to 74, in the Block No. 1289, bounded by Carroll street, as to be laid out, Nostrand avenue, Crown street and Rogers avenue; also

Sale Nos. 1 to 74, in the Block No. 1296, bounded by Crown street, Nostrand avenue, Montgomery street and Rogers avenue; also

Sale Nos. 1 to 42, in the Block No. 1305, bounded by Montgomery street, Nostrand avenue, Sullivan street and Rogers avenue. —the appraised value of each lot, in accordance with the act, being written thereon, which will be the minimum or upset price at which each lot is sold.

By direction of the Comptroller, the sale of the property, which is within the area of Sullivan street, Rogers avenue, President street and Nostrand avenue, in the Borough of Brooklyn, will take place on

TUESDAY, JULY 17, 1906,
at 12 m., at the Real Estate Exchange Salesroom, situated at No. 189 Montague street, in the Borough of Brooklyn, and will be sold for the highest marketable price at public auction on the following

TERMS AND CONDITIONS.
The highest bidder will be required to pay ten per cent. of the amount of his bid, together with the auctioneer's fees, at the time of the sale; the balance of the purchase price to be paid upon the delivery of the deed, which shall be thirty (30) days from the date of the sale. The purchaser may, at his option, have remain on the property two-thirds of the purchase price on bond and mortgage for five years, with interest at the rate of five per cent. per annum, payable semi-annually, the mortgage to contain the customary thirty days' interest and ninety days' tax and assessment and insurance clauses. The bond and mortgage may be paid off at any time within the term thereof on giving thirty days' notice to the Comptroller. The bond and mortgage will be prepared by the Corporation Counsel, and the sum of \$12.50 will be charged for drawing, acknowledging and recording the same.

The Comptroller may, at his option, resell the property if the successful bidder shall fail to comply with the terms of the sale, and the person failing to comply therewith will be held liable for any deficiency which may result from such resale. The right is reserved to reject any and all bids.

Said land, with buildings thereon, is sold subject to the use by the Kings County Penitentiary free of rental or other charges of any nature until April 11, 1907.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the

buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for school purposes, in the

Borough of Manhattan.

All the buildings, parts of buildings, etc., situate and erected upon property owned by The City of New York and acquired for school purposes, bounded and described as follows:

Beginning at a point on the southerly line of West Forty-eighth street distant 325 feet westerly from the westerly line of Eighth avenue, and running thence southerly and parallel with Eighth avenue 100 feet 5 inches to the northerly line of the lands of Public School 17; thence westerly along the northerly line of the lands of Public School 17 150 feet; thence northerly and again parallel with Eighth avenue 100 feet 5 inches to the southerly line of West Forty-eighth street; thence easterly along the southerly line of West Forty-eighth street 150 feet to the point or place of beginning.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance. The sale will take place on

MONDAY, JULY 16, 1906,

at 11 a. m., on the premises, and will be sold for the highest marketable price at public auction on the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description, within the described area, are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances, or portion, as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against any and from all damages and costs to which it, they or any of them, be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears of the assessment for OPENING AND ACQUIRING TITLE to the following-named avenue in the BOROUGH OF THE BRONX:

TWENTY-FOURTH WARD, SECTIONS 11 AND 12.

BRIGGS AVENUE—OPENING. from East One Hundred and Ninety-fourth street to Kingsbridge road. Confirmed January 15, 1906; entered June 19, 1906. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the northwesterly line of Webster avenue with the northeasterly line of East One Hundred and Eighty-ninth street; running thence northwesterly along said last-mentioned line to its intersection with the southeasterly line of the Grand Boulevard and Concourse; thence northeasterly along said last-mentioned line to its intersection with the southwesterly line of Kingsbridge road; thence easterly in a straight line to a point formed by the intersection of the northwesterly line of East One Hundred and Ninety-fourth street with a line parallel to and 100 feet northwesterly from the northwesterly line of Valentine avenue; thence northeasterly along said parallel line to its intersection with a line parallel to and 100 feet northeasterly from the northwesterly line of East One Hundred and Ninety-eighth street; thence southeasterly along said last-mentioned parallel line to its intersection with a line parallel to and 100 feet southeasterly from the southeasterly line of Bainbridge avenue; thence southwesterly along said last-mentioned parallel line to its intersection with a line parallel to and 100 feet northeasterly from the northwesterly line of East One Hundred and Ninety-fourth street; thence southeasterly along said last-mentioned parallel line to its intersection with the northwesterly line of Webster avenue; thence southwesterly along said northwesterly line to the point or place of beginning.

The above-entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments interest will be collected thereon, as provided in section 1906 of the Greater New York Charter.

Said section provides that "any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 18, 1906, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for school purposes, in the

Borough of Manhattan.

All the buildings, parts of buildings, etc., situated and erected upon property owned by The City of New York, acquired for school purposes, and bounded and described as follows:

Beginning at a point formed by the intersection of the southerly side of East Eighty-second street and the westerly side of Avenue A; thence easterly along the southerly side of East Eighty-second street 98 feet; thence southerly and parallel with Avenue A 25 feet 8 inches; thence westerly and parallel with East Eighty-second street 98 feet, to the westerly side of Avenue A; thence northerly along the westerly side of Avenue A 25 feet 8 inches to the point or place of beginning, said property being known as No. 1546 Avenue A, Borough of Manhattan, City of New York.

By direction of the Comptroller the sale of the above-described building and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance. The sale will take place on

FRIDAY, JULY 13, 1906,

at 11 a. m., on the premises, and will be sold for the highest marketable price at public auction on the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description, within the described area, are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoves and area walls shall be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances, or portion as shall

then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal shall be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them, be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said successful bidder, and the bidder's assent to the above conditions are understood to be implied by the act of bidding.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down or removed. The walls shall be made permanently self-supporting, without the aid of braces, the beam holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

SUPREME COURT—FIRST DEPARTMENT.

FIRST DEPARTMENT.

In the matter of the application of the Mayor, Aldermen and Commonalty of The City of New York, by the Counsel to the Corporation, relative to acquiring title, wherever the same has not been heretofore acquired, to all the lands, tenements, hereditaments, property rights, terms, easements and privileges not owned by the Mayor, Aldermen and Commonalty of The City of New York, or any rights, titles and interests therein, not extinguishable by public authority, embraced within the lines of the GRAND BOULEVARD AND CON-COURSE AND NINE TRANSVERSE ROADS, from a point on East One Hundred and Sixty-first street, in said city, at the intersection of said street and Mott avenue, northerly to Moshulu Parkway, as laid out and established by the Commissioner of Street Improvement of the Twenty-third and Twenty-fourth Wards of The City of New York, pursuant to the provisions of chapter 130 of the Laws of 1895.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our last partial and separate report, estimate of assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 21st day of July, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 25th day of July, 1906, at 3 o'clock p. m.

Second—That the abstracts of our said estimate of assessment, together with our benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said city, there to remain until the 31st day of July, 1906.

Third—That, pursuant to the notice heretofore given when we filed our estimate of damage, the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows: viz:

Commencing on the southwest at the intersection of Third avenue and the southeasterly bulkhead line of the Harlem river; thence continuing northerly, northerly and northeasterly along said bulkhead line of the Harlem river to the northerly side of the bridge across Spuyten Duyvil Creek; thence northeasterly along Broadway, including 100 feet westerly thereof to the southerly line of West Two Hundred and Fortieth street; thence easterly along the southerly line of West Two Hundred and Fortieth street and of Van Cortlandt Park South, and continuing easterly along the southerly line of Gun Hill road to the westerly side of the Bronx river; thence southerly along the westerly side of the Bronx river to Pelham avenue; thence westerly along Pelham avenue to the Southern Boulevard; thence southerly along the westerly line of the Southern Boulevard to East One Hundred and Eighty-ninth street; thence westerly along the northerly line of East One Hundred and Eighty-ninth street to Prospect avenue; thence southerly along Prospect avenue, including 100 feet easterly thereof to Crotona Park; thence southerly on a straight line in continuation of said Prospect avenue, including 100 feet easterly thereof, through Crotona Park, and connecting with the easterly line of Prospect avenue, including 100 feet easterly thereof to the southerly side of said Crotona Park; thence southerly along the easterly side of Prospect avenue, including 100 feet easterly thereof to the Southern Boulevard at its intersection with the southwesterly corner of One Hundred and Forty-ninth street; thence southerly along the Southern Boulevard, including 100 feet easterly thereof to St. Ann's avenue; thence southerly along St. Ann's avenue, including 100 feet easterly thereof to the northerly bulkhead line of the Bronx Kills; thence westerly along said northerly bulkhead line of the Bronx Kills, and continuing along the northerly bulkhead line of the Harlem river to Third avenue, the point and place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to our last partial and separate report, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 22nd day of November, 1906, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to our last partial and separate report, estimate of assessment, the notice of motion to confirm our final report herein will stand, adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated BOROUGH OF MANHATTAN, NEW YORK, June 26, 1906.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND SIXTY-THIRD STREET (although not yet named by proper authority), from Broadway to Fort Washington avenue, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 19th day of July, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 20th day of July, 1906, at 4 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our maps, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Opening, in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said city, there to remain until the 20th day of July, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in the City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at the point of intersection of the easterly prolongation of a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Sixty-third street with the westerly line of Amsterdam avenue; running thence northerly along the westerly line of Amsterdam avenue to its intersection with the easterly prolongation of a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Sixty-third street; thence westerly along the last-mentioned prolongation and parallel line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Broadway; thence northerly along said line parallel to Broadway to its intersection with a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Sixty-fourth street; thence westerly along said line parallel to West One Hundred and Sixty-fourth street and its westerly prolongation to its intersection with a line parallel to and distant 100 feet westerly from the westerly line of Fort Washington avenue; thence southerly along said line parallel to Fort Washington avenue to its intersection with the westerly prolongation of a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Sixty-second street; thence easterly along said prolongation and parallel line to its intersection with a line parallel to Broadway; thence northerly along said line parallel to Broadway to its intersection with a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Sixty-third street; thence easterly along said line parallel to West One Hundred and Sixty-third street and its easterly prolongation to the point or place of beginning; excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a special term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in the City of New York, on the 11th day of October, 1906, at the opening of the court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

In the matter of the application of The City of New York, relative to acquiring title wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND SIXTY-FOURTH STREET (although not yet named by proper authority), from Broadway to Fort Washington avenue, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 17th day of July, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 18th day of July, 1906, at 3 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 18th day of July, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the westerly prolongation of a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Sixty-third street with a line parallel to and distant 100 feet westerly from the westerly line of Fort Washington avenue; running thence northerly along said last mentioned parallel line to its intersection with a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Sixty-fifth street; thence easterly along said line parallel to West One Hundred and Sixty-fifth street to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Broadway; thence southerly along said line parallel to Broadway to its intersection with a line parallel to and distant 100 feet easterly from the southerly line of West One Hundred and Sixty-fourth street; thence westerly along said prolongation and line parallel to West One Hundred and Sixty-fourth street to its intersection with a line parallel to and distant 100 feet easterly from the southerly line of West One Hundred and Sixty-third street; thence westerly along said line parallel to West One Hundred and Sixty-third street and its westerly prolongation to the point or place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 11th day of October, 1906, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND EIGHTY-SIXTH STREET (although not yet named by proper authority), from Amsterdam avenue to the new street west of High Bridge Park, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 12th day of July, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 16th day of July, 1906, at 4 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 13th day of July, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the easterly prolongation of the middle line of the block between West One Hundred and Eighty-

fifth street and West One Hundred and Eighty-sixth street with a line parallel to and distant 100 feet easterly from the easterly line of the new avenue west of High Bridge Park; running thence northerly along said parallel line to its intersection with the easterly prolongation of the middle line of the block between West One Hundred and Eighty-sixth street and West One Hundred and Eighty-seventh street; thence westerly along the last mentioned prolongation and middle line and its westerly prolongation to its intersection with a line parallel to and distant 100 feet westerly from the westerly line of Wadsworth avenue; thence southerly along said parallel line to its intersection with the westerly prolongation of the middle line of the block between West One Hundred and Eighty-fifth street and West One Hundred and Eighty-sixth street; thence easterly along said last mentioned prolongation and middle line of the block and its easterly prolongation to the point or place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 11th day of October, 1906, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated BOROUGH OF MANHATTAN, NEW YORK, May 31, 1906.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to the lands, tenements and hereditaments required for the purpose of opening of the PUBLIC PARK, bounded by Avenue I, Avenue J, East Thirty-eighth Street and East Thirty-ninth Street, in the Thirty-second Ward, in the Borough of Brooklyn, of The City of New York, as the same has been heretofore laid out.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objection thereto, do present their said objections in writing, duly verified, to us at our office, in the office of the Law Department, No. 166 Montague Street, in the Borough of Brooklyn, in The City of New York, on or before the 16th day of July, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 17th day of July, 1906, at 3 o'clock p. m.

Second—That the abstract of our said estimate of damage, together with our damage maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings of the Law Department of The City of New York, in the Borough of Brooklyn, No. 166 Montague Street, in the Borough of Brooklyn, in The City of New York, there to remain until the 27th day of July, 1906.

Third—That, provided there be no objections to our abstract of damage, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 17th day of September, 1906, at the opening of the court on that day.

Fourth—In case, however, objections are filed to said abstract of damage, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD and the corporation newspapers printed and published in the Borough of Brooklyn, in The City of New York, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 638 of the Laws of 1906.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of SECOND STREET (although not yet named by proper authority), between York and Franklin Avenues, in the First Ward, Borough of Richmond, City of New York.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 14th day of July, 1906, and that we, the said Commissioners, will hear parties on objecting, and for that purpose will be in attendance at our said

office on the 17th day of July, 1906, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said city, there to remain until the 16th day of July, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Richmond, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the southerly line of the Staten Island Rapid Transit Railroad and a line parallel to and distant one hundred (100) feet west of the westerly line of Franklin Avenue; running thence easterly along said southerly line of the Staten Island Rapid Transit Railroad to its intersection with the northerly prolongation of a line parallel to and distant one hundred (100) feet east of the easterly line of York Avenue; thence southerly along said northerly prolongation and parallel line to its intersection with the easterly prolongation of a line parallel to and distant one hundred (100) feet south of the southerly line of Third Street; thence westerly along said easterly prolongation and parallel line and its westerly prolongation to its intersection with a line parallel to and distant one hundred (100) feet west of the westerly line of Franklin Avenue; thence northerly along said last mentioned parallel line to the point or place of beginning, as such streets are shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court-house in the Borough of Brooklyn, in The City of New York, on the 10th day of October, 1906, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York City, May 25, 1906.

In the matter of the application of The City of New York, relative to acquiring title to SIXTY-THIRD STREET, from Seventh avenue to New Utrecht avenue, in the Thirtieth Ward in the Borough of Brooklyn, The City of New York.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, were appointed by an order of the Supreme Court made and entered herein on the 13th day of June, 1905, and duly filed in the office of the Clerk of Kings County, a copy of which order was filed in the office of the Register of the County of Kings on the 14th day of June, 1905, and indexed in the Index of Conveyances in Section 17, Blocks 5728, 5729, 5730, 5731, 5732, 5733, 5734, 5735, 5736, 5737, 5738, 5739, 5740 and 5741, Section 18, Blocks 5803 and 5812, Commissioners of Estimate and Assessment, for the purpose of making a just and equitable estimate of the loss or damage, if any, to the respective owners, lessees, parties and persons entitled to or interested in the lands and premises to be taken for the purpose of opening the said street or avenue, as particularly described in the petition of The City of New York, filed with said order in the office of the Clerk of Kings County, and for the purpose of making a just and equitable assessment of the benefit of said street or avenue so to be opened, to the respective owners, parties and persons respectively entitled to or interested in the lands and premises and not required for the purpose of opening said street or avenue, but benefited thereby, and of ascertaining and defining the district benefited by said assessment, and the extent and boundaries of the respective tracts and parcels of land participating in said benefit, and of performing the trusts and duties required of us by title 4 of chapter 17 of the Charter of The City of New York, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the lands and premises taken or to be taken for the purpose of opening said street or avenue, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office in the Bureau of Street Openings of the Law Department, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, with such affidavits or other proofs as the said owner or claimants may desire, within twenty days after date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 9th day of July, 1906, at 11 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto; and at such further or other time and place as we may appoint, we will hear such owners in relation thereto, and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner or on behalf of The City of New York.

and allegations as may then be offered by such owner or on behalf of The City of New York.
Dated BOROUGH OF BROOKLYN, THE CITY OF NEW YORK, June 11, 1906.

JOHN S. BENNETT,
JOHN A. WARREN,
HARRY L. LEGGATT,
Commissioners.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Council, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
