Dr. W. H. Smith, the General Medical Superintendent, reported as follows:

From April 25 to May 1, inclusive, 49 operations were performed at Bellevue Hospital, 12 at Gouverneur Hospital, 15 at Harlem Hospital and 11 at Fordham Hospital, at all of which the attending Surgeons or their assistants were present.

A fire drill was held at Bellevue and Harlem Hospitals on April 26 and at Fordham Hospital on April 27, 1909.

Submitted herewith are the reports of the attendance of Visiting Physicians and Surgeons for the month of April, covering the various hospitals of this Department. Practically a full attendance is reported.

Mr. F. A. Ross reports on the results of his inspection of the new Nurses' residence, and recommends the installation of 75 chemical fire extinguishers, 24 sets of fire axes, 24 8-foot fire hooks and red lights at all exits.

In accordance with instructions at a previous meeting a list of men consisting of the higher grade of employees was made up and the individuals were informed that they were expected to serve on the local fire department. A letter was sent to each person on the list that he had been appointed a member of the local fire department and that he should meet Mr. Ross in the storeroom on Friday morning, April 30, at 9 o'clock. The old members of the local fire force were also asked to be present. Mr. Ross met the men at the time designated and reorganized the local fire force.

Submitted herewith is his report, together with the report from Mr. Rickard, who was requested to be present at the time and report all who refused to serve or did not attend in compliance with the notice.

Concerning the matter of moving the large refrigerator from the main kitchen at Harlem Hospital to an adjoining room, another bid has been obtained from the Bramhall-Deane Company, which firm originally installed the refrigerator (the Building Committee having previously obtained a bid from James McLean). It is believed that the Board wishes this refrigerator moved and the acceptance of Bramhall Deane's bid is therefore recommended.

Concerning the establishment of an emergency hospital on the west side, a house on West Fifth street is now being considered which is admirably suited to the requirements. It is estimated that the expense of alterations should be covered by \$12,000, which is the amount allowed by the owner. The rental stipulated is \$5,500 a year. As for equipment and running expenses for the balance of the year, dating from July 1, it is estimated that \$27,000 will be required, made up as follows: Seven thousand dollars for two automobile ambulances, \$5,000 for furnishings, \$7,497 for salaries and \$7,503 for supplies.

Submitted herewith is a note from the Contract Clerk, Mr. Eckstein, stating that transfers are needed in the appropriation of 1908 from Salaries and Wages, Harlem Hospital, \$1,500, to Supplies, Kitchen, Dining Rooms, Laundry and Housekeeping; Salaries and Wages, Fordham Hospital, \$750, to Stable and Ambulances, as per request of the Finance Department, so that invoices forwarded may be charged against contracts instead of Revenue Bond Funds.

On motion, duly seconded, it was

Resolved, To request the Board of Aldermen to authorize the issue of Special Revenue Bonds in an amount not to exceed \$32,300 for establishing a relief station on the west side of the City.

At a previous meeting your Board authorized the transfer of \$4,752 to the Department of Public Charities to cover the expense of 33 Nurses supplied by said Department to Gouverneur Hospital. Twenty-eight Nurses only were supplied for the first four months of the year, 33 being supplied only from May 1, leaving a credit to this Department of \$240 for five Nurses for four months.

At a previous meeting it was decided to prefer charges against a Fireman whom Mr. Ross reported as not responding properly to the fire call. On investigation it was found that the man in question was not a Civil Service employee, but merely a Hospital Helper acting as a coal passer. He has been severely reprimanded and warned.

Submitted herewith is a communication from Dr. Charles Norris, Director of Laboratories, outlining a plan for the organization of a Department of Pathological Chemistry for the new Pathological Building when completed. I have had some conversation with Dr. Norris on this subject, and the plan as outlined has my hearty endorsement.

Submitted herewith is a requisition from the General Superintendent of Training Schools to cover the expense incurred for the care of a Nurse who has been ill at the Minton Hospital for the last month. These expenses were formerly met by the training school. It is recommended that the requisition be approved.

A letter from Miss Goodrich suggesting salaries for the Nurses on the boat "Southfield" is herewith submitted with the recommendation that it be approved.

A letter from Miss Goodrich relating to vacations and leaves of absence in case of illness, etc., is submitted with the recommendation that the suggestions therein be approved.

On motion, duly seconded and carried, the General Medical Superintendent was directed to place in the new Nurses' residence 75 chemical fire extinguishers, 24 sets of fire axes, 24 8-foot fire hooks and red lights in all of the exits, as recommended by Mr. Ross.

On motion, duly seconded and carried, the bid of the Bramhall-Deane Company on moving the refrigerator at Harlem Hospital, was accepted.

On motion, duly seconded and carried, Mr. Farley was authorized to obtain for the Board of Trustees a refusal of the premises on the best terms possible and to arrange for the privilege of a renewal of the lease.

On motion, duly seconded, it was

Resolved, To apply to the Board of Estimate and Apportionment for the transfer of \$1,500 from the appropriation for Salaries and Wages, Harlem Hospital, to Supplies, Kitchens, Dining Rooms, Laundry and Housekeeping, and \$750 from Salaries and Wages, Fordham Hospital, to Stable and Ambulances, such transfers having been recommended by the Department of Finance.

On motion, duly seconded and carried, the action of the General Medical Superintendent in reprimanding the Hospital Helper who failed to properly respond to the fire drill was approved.

On motion, duly seconded, it was

Resolved, To send copies of Dr. Norris' plan for the organization of a Department of Pathological Chemistry to each member of the Board of Trustees.

On motion, duly seconded, it was

Resolved, To approve the requisition of the General Superintendent of Training Schools for the care of a Nurse ill at the Minton Hospital; to approve of the appointment of the Nurses on the boat "Southfield," at \$720 and \$600 a year; and to approve of three weeks' leave of absence for Graduate Nurses, with an additional day for each two years of service.

Dr. W. H. Smith, the General Medical Superintendent, reported as follows:

From May 2 to May 8, inclusive, 40 operations were performed at Bellevue Hospital, 13 at Gouverneur Hospital, 17 at Harlem Hospital and 11 at Fordham Hospital, at all of which the attending Surgeons or their assistants were present.

A fire drill was held at Harlem Hospital on May 3, and at Bellevue and Fordham hospitals on May 4.

Mr. Ross reported that on a recent test of the hose at Fordham Hospital 1,500 feet were condemned. It is recommended that 1,500 feet more of cotton rubber-lined hose be purchased for Fordham Hospital.

Several rooms have been vacated at Harlem Hospital by moving the Nurses into another house. A letter is submitted herewith from the Executive Committee of the Medical Board, recommending the disposition of these rooms.

A requisition has been received from Harlem Hospital calling for awnings for balconies and for five sitting room windows. Also a requisition asking that the words "Harlem Hospital" be cut in the stone over the entrances on Lenox avenue and One Hundred and Thirty-sixth street. It is recommended that awnings for the five sitting room windows be allowed. No recommendation is made at the present time regarding awnings for the patients' balconies. It is recommended that the requisition be approved calling for the words "Harlem Hospital" in the stone over the entrance to the hospital.

The proposed amendment of the Budget is not quite ready. It is recommended that the proposed revision of the Salaries and Wages Schedule be referred to the Finance Committee and the General Medical Superintendent, with power, in order that schedules may be transmitted to the Board of Estimate and Apportionment without delay. The changes contemplated are to be made entirely within the amount of the appropriation for the year.

It is recommended that the Board of Estimate and Apportionment be requested to establish the following grades: Laundryman at \$240, \$300, \$360, \$420, \$480, \$540, \$600; Housekeeper, Training School, \$600; Hospital Helper (Mechanic), \$480, \$540, \$600, \$720; Supervisor or Foreman at \$720. With the exception of the Supervisor or Foreman these places are all classified by the Civil Service Board as non-competitive and are filled by those who appear on our payroll as Hospital Helpers. The establishment of the proper titles will involve no increase in salary.

It is recommended, pending decision relative to granting request for a Chief Clerk in the Central Office, that an extra Clerk be employed, temporarily, at a salary not to exceed \$900.

On motion, duly seconded, it was

Resolved, To authorize the General Medical Superintendent to purchase 1,500 feet of cotton rubber-lined hose for Fordham Hospital.

Dr. W. H. Smith, the General Medical Superintendent, reported as follows:

From May 9 to May 15, inclusive, 61 operations were performed at Bellevue Hospital, 11 at Gouverneur Hospital, 22 at Fordham Hospital, at all of which the attending Surgeons or their assistants were present.

A fire drill was held at Harlem Hospital on May 10, at Fordham Hospital on May 12 and at Bellevue Hospital on May 17.

It is requested by the General Superintendent of Training Schools that, inasmuch as there will be three or four students at the Teachers' College desiring a little practical experience in hospital work, these students be allowed maintenance and board, in return for which they shall render a full day's service each day for as long as they may be here, these students to be used as may be deemed advisable, either as Nurses' Helpers or in the executive department of the training school. This plan will not take effect until the fall, and it is recommended that the General Superintendent of Training Schools be authorized to make such arrangement.

A letter from Dr. Gregory is presented herewith asking for permission to keep a small runabout motor car on the grounds of the hospital, the care of the car and all expense attached thereto to be met by Dr. Gregory.

Submitted herewith is a communication from the Supervising Nurse of Harlem Hospital, accompanied by an anonymous communication calling attention to the fact that in the summer time a great many persons are allowed to congregate on the sidewalk surrounding the hospital grounds with chairs, baby carriages, etc., and asking that the custom be stopped. The Supervising Nurse suggests that a policeman be detailed at Harlem Hospital to obviate this trouble, and her suggestion is approved.

It is recommended that as soon as possible after June 1 the Hospital Helpers employed in this Department as Oilers be replaced by Oilers at wages not to exceed \$3 a day, provision being made for Oilers in the Budget.

On motion, duly seconded, it was

Resolved, To approve of the recommendation of the General Superintendent of Training Schools that a small number of students of the Teachers' College desiring practical experience in hospital work be allowed maintenance and board in return for services rendered.

On motion, duly seconded, it was Resolved, To refer to Mr. Stern and the General Medical Superintendent the request of Dr. Gregory to keep on the grounds of Bellevue Hospital a small runabout motor car.

On motion, duly seconded, it was Resolved, To refer to Mr. O'Keefe the letter from the Supervising Nurse of Harlem Hospital and the anonymous letter regarding the assemblage of persons about the hospital grounds.

On motion, duly seconded, it was Resolved, To refer to the President to take up with the Police Commissioner the matter of policemen in charge of prisoners in the wards with a view of arranging some more economical system whereby one or more permanent policemen may be stationed at the several institutions.

On motion, duly seconded, the recommendation of the General Medical Superintendent regarding the replacing of Hospital Helpers with Oilers was approved.

Dr. W. H. Smith, the General Medical Superintendent, reported as follows:

From May 16 to May 22, inclusive, 39 operations were performed at Bellevue Hospital, 4 at Gouverneur Hospital, 25 at Harlem Hospital, and 11 at Fordham Hospital, at all of which the attending surgeons or their assistants were present.

A fire drill was held at Harlem and Fordham hospitals on May 19.

During the month of April it was found necessary to reject 109 pounds of pork, 40 pounds of lamb loins, 10 pounds of liver, 124 pounds of beef, 99 pounds of steak, 8 pounds of turkey, and 1,418 pounds of chicken.

Submitted herewith is a letter from the American Laundry Machinery Company stating that it is practically impossible for any one except the Troy Laundry Machinery Company to comply strictly with the specifications. The American Laundry Machinery Company claims that its machines are fully equal to those specified and is prepared to install the machines already delivered and allow the use of them until a special machine can be built to comply strictly with the specifications, or furnish at once and install a more expensive machine than the one specified.

It is recommended that the house at No. 223 East Twenty-sixth street, formerly use as the Emergency Hospital, be now used to furnish sleeping accommodations for the night force of male employees under Mr. McHale, who now sleep in dormitory 42, which is very dark, poorly ventilated, and unfit to be used for sleeping accommodations.

In view of the fact that a great deal of difficulty has been encountered in keeping track of the pay roll, as compared with the budget allowances; and, in view of the fact that after having looked into the matter carefully, it is found that there has not been any definite and well defined system for preparing and checking up the pay rolls, a clerk of the Central Office, Mr. Buckley, has been assigned to take charge hereafter of all pay rolls, as he seems to have a better knowledge of pay rolls than any one else in the office. This is believed to be absolutely necessary in order to handle properly the very important matter of pay rolls. Owing to the transfer of Mr. Buckley to this work, it will be necessary to appoint another clerk to do his work in the central book-keeping office, and it is recommended that one of the clerks now employed in that office, who has demonstrated his worth, be increased from \$600 to \$720, and that the new clerk be employed at \$540.

Considerable difficulty has been experienced with the contractors who are to furnish white duck suits for the doctors. On March 12 orders were given for 120 suits. Up to May 6 only three suits had been delivered, and these were not at all satisfactory. Siegel-Cooper were communicated with on May 4 and again on May 7.

In the letter of May 7 they were informed that they would be given two weeks in which to fill all orders which they had received up to that date, and if at the end of that time the suits were not delivered we would buy in the open market and charge against their contract. Up to the present time 27 suits have been delivered; 21 were delivered on the last day of the two weeks, which was Saturday last, May 22, and 6 more were delivered Monday, May 24. This matter is referred to the Board for further action.

On motion, duly seconded, it was

Resolved, To write a letter to the Comptroller reporting the rejections on the contract of Messrs. Conron Brothers and asking advice as to the proper steps to be taken by the Board in relieving the firm of its contract for poultry.

On motion, duly seconded, it was

Resolved, To accept the second proposal of the American Laundry Machinery Company on the understanding that there will be no additional expense to the Department.

On motion, duly seconded, it was

Resolved, To approve the recommendation of the General Medical Superintendent that the old emergency hospital be used as dormitory for the help now in dormitory 42.

On motion, duly seconded, it was

Resolved, To approve the action of the General Medical Superintendent in appointing Mr. Buckley in charge of the payrolls, promoting one of the Junior Clerks from \$600 to \$720, and appointing a new Clerk at \$540.

On motion, duly seconded, it was

Resolved, To refer to Mr. Stern for investigation and report the complaint regarding the uniforms supplied by Siegel-Cooper Company.

Bids will be received for the purchase of each building separately, or for the whole number of buildings offered as one parcel, or for groups of two or more adjoining buildings, and the

Comptroller reserves the right to dispose of the buildings by whichever method he may deem most advantageous to The City of New York.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to twenty-five per cent, of the amount of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for (2) the amount of the bid (3) the full name and address of the bidder.

All bids must be enclosed in properly sealed envelopes, marked "Proposals to be opened June 30, 1909," and must be delivered or mailed in time for their delivery prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for removal only, subject to the following

#### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings, extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed, in compliance with the directions of the Bureau of Sewers, Borough of The Bronx, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said building, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken

down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

#### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings, extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed, in compliance with the directions of the Bureau of Sewers, Borough of Richmond, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and

expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT OR TO BE BUILT ON PART OF THE BLACKWELL SECTION ON THE EAST RIVER, BOROUGH OF MANHATTAN.

### TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from the intersection of the southerly side of East Seventy-fourth street, prolonged outshore, and the bulkhead wall and extending southerly along the bulkhead wall a distance of about 320 feet.

The filling shall be brought to a grade level with the top of the coping of the bulkhead wall and shall extend inshore on a sloping grade to the level of the street adjacent.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to 2,400 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the void space behind the bulkhead wall, built or to be built, at the Blackwell section on the East River, Borough of Manhattan, as above more fully described.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer.

The intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Chief Engineer of the Department of Docks and Feries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, after which not less than 100 cubic yards per day shall be placed, and the whole amount of the filling called for to bring the above described basin up to grade shall be completed within twenty-four days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

#### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

##### NOTICE TO CONTRACTORS.

##### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application thereto at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
