AQUEDUCT COMMISSION.

Minutes of Stated Meeting of the Aqueduct Commissioners, held at their Office, No. 209 Stewart Building, on Wednesday, June 4, 1890, at 3 o'clock P. M.

Present—The Comptroller, the Commissioner of Public Works, and Commissioners Duane, Tucker, Scott and Howe.

The minutes of adjourned meeting of May 16, and of stated meeting of May 28, 1890, were read and approved.

The Committee of Finance and Audit reported their examination and audit of bills contained in Vouchers Nos. 5937 to 5952 inclusive, amounting to \$1,503.98.

On motion of Commissioner Howe, the same were approved and ordered certified to the Comptroller for payment.

The Construction or Executive Committee reported that at a meeting of the Committee held this day, the following resolution was adopted:

Resolved, That the Chief Engineer of this Commission be and he is hereby requested to report at the next regular meeting of the Board the present status of the work on the New Aqueduct and its connections; the work which remains to be done, and the obstacles to be overcome in order to bring the Aqueduct into operation so as to deliver in the City reservoirs the water from the Croton watershed; and, as near as possible, the time required to complete such work, and overcome such obstacles, and the date when the Aqueduct may be brought into use for the City's water supply.

On motion of Commissioner Scott, the action of the Committee was approved.

The Committee also presented the following communication received from the Chief Engineer in answer thereto:

NEW YORK, June 4, 1890.

To the Honorable the Aqueduct Commissioners:

GENTLEMEN—In obedience to the resolution of the Committee on Construction of the Aqueduct Commission passed this day, I beg to report as follows as to the condition of the New Aqueduct.

No work of importance remains to be done from Croton Dam to South Yonkers. Below that point, on Section 9 (O'Brien & Clark, contractors), extensive repairs are now going on with a large force of men.

At the present rate of progress, the work can be so far completed that the Aqueduct would be ready for partial flow of water on July 10, next; six weeks more work would remain to be done after the Aqueduct is emptied again, when the condition of the reservoir in the city can allow of the flow being interrupted.

On Section 10 (Heman Clark, contractor), near Shaft 19½, the work of repairs has been conducted in a very unsatisfactory manner; the number of men has been insufficient, and, at times, the work has been interrupted mainly owing to the failure of the contractor to pay his men. Without mentioning numerous warnings previously given to the contractor by the Division Engineer and by myself, I may refer you to my communications of January 22, February 19, April 23 and May 14, 1890, in which I mention the interruption of the work or the small progress made.

In the last communication I repeated my statement that the work was unnecessarily and unreasonably delayed, and requested the Commission to take hold of the work. After that date work was resumed with larger but still insufficient force, but the number of men employed is now too small and so inadequate that unless energetic action be taken, this work cannot be finished before three months.

With a proper force it could be completed by July 10 next.

Shaft 21 in the same section can be so prepared (with such force as is now at work), that on the same date, July 10, it can be ready for service, leaving the upper part to be completed afterwards.

From that point to Harlem river the small amount of work remaining to be done can be made ready at the same time. The same statement can be made in regard to the Harlem Crossing, and at Shaft 25, where the pumping appliances will be at work within a few days. The rest of the Aqueduct, from Harlem river to its end at One Hundred and Thirty-fifth street, will be ready next week. Direct communication will be established before the end of the month with the Central Park Reservoir; it exists now indirectly through a few of the large mains of the city distribution.

In conclusion, I may say that if the work is conducted in a proper manner, water can be turned into the New Aqueduct on July 15 next, but it must be understood that this result can be achieved only if the work is pushed with energy. This end cannot be attained if a radical change in the conduct of the work at Shaft 19½ is not made. Your Chief Engineer has exhausted his powers under the contract as regards this part of the work, and must look to your Commission for action if the work is to be finished at the time indicated.

I am, very respectfully,

A. FTELEY, Chief Engineer.

On motion of Commissioner Scott, the same was ordered spread on the minutes and filed.

The Committee also reported in favor of the adoption of the following preambles and resolution:

Whereas, The Commissioner of Public Works has informed the Aqueduct Commission that there is a great public necessity for the immediate completion of the New Aqueduct to an extent sufficient to permit of running a reasonable quantity of water through it into the distributing reservoirs; and,

Whereas, It appears by a report this day presented to the Aqueduct Commission by the Chief Engineer, that the only matters that now stand seriously in the way of the use of the Aqueduct for this purpose in the immediate future is the completion of certain work now being performed on Section 9, and at Shafts 19½ and 21, on Section B; and

Whereas, Heman Clark, the contractor for Section B, has represented to the members of the Commission that he can so far complete the work on said section as to permit running water through the Aqueduct within thirty days from this date if he can be furnished with a reasonable amount of money wherewith to pay his employees; and

Whereas, In the opinion of this Commission, the necessities of the city are pressing, and the exigency an extraordinary one; and

Whereas, The Commission are convinced that the final estimate upon said Section B, when completed, will show an amount due to the contractor of not less than \$100,000;

Resolved, That the Commission hereby request and advise the Comptroller to release and pay to Heman Clark, contractor for said Section B, out of the ten per cent. retained for work done on said section, the sum of \$15,000, upon receiving from said Heman Clark a consent that the same shall be considered as having been paid on account of work done on said section, and upon receiving also the consent of the sureties of said Heman Clark to said payment; provided that said sum shall be paid by the Comptroller from time to time, and only upon the receipt of evidence satisfactory to him that the same will be used to complete the work of repairs at Shaft 19½, and to expedite the original work and work of repairs at Shaft 21, and to pay the wages of the workmen employed at said shafts, and for the material used; and upon the certificate of the Chief Engineer of this Commission, that the work is being prosecuted to his satisfaction, and that in his judgment it is being so prosecuted, that it will be completed within thirty days from the date of the first payment under this resolution; and provided, also, that said Heman Clark shall give a bond to the Mayor, Aldermen and Commonalty of the City of New York, with sureties to be approved by the Comptroller, and in the penal sum of \$30,000, conditioned that said work at Shaft 19½ shall be completed, and that Shaft 21 will be so far prosecuted as to permit of running water through the Aqueduct within said thirty days.

The same were adopted by the following vote:

Affirmative—The Comptroller, the Commissioner of Public Works, and Commissioners Duane, Tucker, Scott and Howe—6.

The Committee also presented the following:

The Construction or Executive Committee report:

That at a meeting of the Aqueduct Commissioners, held on May 21 last, Frederick Wanaker was appointed to the position of Laborer. It now appears that the name of said party is Frederick Manaker, and we recommend that the proper correction be made.

On motion of Commissioner Howe, the report was adopted.

The Committee also presented the following report:

The Construction or Executive Committee present the following communication:

NEW YORK, June 3, 1890.

To the Commissioners of the New Croton Aqueduct, Stewart Building, 280 Broadway, N. Y. City:

GENTLEMEN—After conferring with the Chief Engineer, I offer to do the work of repairing the Aqueduct tunnel from top of incline at Shaft No. 24 northward, for applying the cement coating to its interior surface, and of applying the said coating on the following terms:

I will supply the labor at the rate of two dollars and seventy cents per day. This is to cover the work of setting up and running the machinery and labor of all kinds. I will supply tram labor at the rate of five dollars per day.

For all masons and other special men that the Engineer may require in the tunnel, I will require ten per cent on the value of their wages, for furnishing tools, appliances, etc.

In consideration of the above payments, I will furnish all hoisting machinery, tools, brushes, appliances, scaffolding and everything necessary to conduct the work under the supervision of the Chief Engineer, including lighting, superintendent, risks of accidents and repairs of all kinds, the Aqueduct Commissioners to have the privilege of stopping the work at their will at any time. Estimates to be returned every two weeks.

Yours truly,

CHARLES PETERSON.

— and report in favor of the adoption of the following resolution:

Resolved, That the Chief Engineer be and he is hereby authorized to have a coating of Portland cement applied to the interior of section A of the New Aqueduct on the terms and conditions proposed in the foregoing communication of Charles Peterson, which is hereby accepted, and at an expense of not to exceed the sum of \$5,000.

The report was adopted by the following vote:

Affirmative—Commissioners Duane, Tucker, Scott and Howe—4.

The Comptroller and the Commissioner of Public Works having been excused from further attendance.

The Committee also presented the following:

The Construction or Executive Committee present herewith the evidence produced on the hearing of the charges against Inspector of Masonry Edward O'Shea, as follows:

In re. charges preferred by the Chief Engineer of New Croton Aqueduct against Edward O'Shea, Inspector of Masonry.

NEW YORK, May 28, 1890.

Before the Aqueduct Commissioners, viz.—Commissioners Duane, Tucker, Scott and Howe.

The Secretary read the following notice:

NEW YORK, May 24, 1890.

EDWARD O'SHEA, ESQ., Inspector of Masonry, Care of Division Engineer Craven, Yonkers, N. Y.:

SIR—Take notice that charges have been preferred against you by the Aqueduct Commissioners of the City of New York, which charges are now on file in the office of the Secretary of the Aqueduct Commissioners, No. 280 Broadway, New York City, and a copy of the same is hereto annexed.

You are, therefore, hereby notified and required to answer said charges, and that a hearing will be given you on the same at a meeting of said Commissioners to be held on Wednesday next, May 28, 1890, at 3 o'clock P. M.

JOHN C. SHEEHAN, Secretary.

Said charges are as follows:

CHIEF ENGINEER'S OFFICE—AQUEDUCT COMMISSIONERS,
ROOM 213, STEWART BUILDING,
NEW YORK, May 21, 1890.

To the Honorable the Aqueduct Commissioners:

GENTLEMEN—I hereby charge Inspector Edward O'Shea with disobedience of orders in this, to wit:

1st. That on the 11th day of April, 1890, he was absent from the work without leave.

2d. That on the 18th day of April, 1890, at 4.45 A. M., he had left the work under his supervision and absented himself the remainder of his shift, until 6 A. M., without leave.

3d. That on the 19th day of April, Superintending Inspector P. J. Moynihan, on visiting the work under O'Shea's charge, found the said O'Shea prepared to leave his work at 5 A. M. His report had been made up, signed and turned over to an employee of the contractors to be handed to his, O'Shea's, relief. Moynihan had to return the report to O'Shea to have entered thereon eight barrels of cement mixture, which had been mixed after the report was made and signed.

4th. That on April 21st he did not reach his work until 7.40 A. M. He was then instructed by Superintending Inspector Moynihan to remain at No. 18½ as Assistant Engineer Thompson wished to see him. That in violation of this order, he left the work; and four barrels of cement were mixed, also twenty barrels of cement and loads of sand were received on the work and no Inspector to record them.

5th. That on April 22d, he arrived at the work at 10.10 A. M., over three hours late.

6th. That on May 3d he asked Superintending Inspector Moynihan for leave of absence, the following Monday, May 5th. Moynihan instructed him to report for duty Monday, and if there were a sufficient number of Inspectors on hand, O'Shea might be excused. He failed to report as ordered on the 5th of May, and also absented himself from duty on the 6th, 7th and 8th days of May without leave.

That, in thus acting, Inspector Edward O'Shea violated his agreement with the Aqueduct Commissioners, dated December 18, 1888, and signed by himself, a copy of which is herewith attached. By this agreement the said O'Shea bound himself to faithfully and diligently perform the duties assigned to him as Inspector of Masonry, and to in all things conform to the rules and regulations of the Aqueduct Commissioners defining the duties of Inspectors, and obey the orders and instructions given him by the Chief Engineer and his assistants in charge of the work of construction. Also that he has disregarded a certain notice (herewith attached) from the Division Engineer, which was posted at Shaft 19, where said O'Shea was on duty. Also that he has violated Clause 10 of the Rules and Regulations to this effect: that "each Inspector will be present daily upon the work to which he has been assigned, and not leave until relieved by another Inspector or the Supervising Inspector."

In accordance with Rule 21 of the Regulations, I have suspended Inspector Edward O'Shea from duty, and I hereby report the said Edward O'Shea to the Commissioners for dismissal.

I am, very respectfully,

A. FTELEY, Chief Engineer.

Mr. Meyer S. Schloss appeared as counsel for said Edward O'Shea, and presented and read the following:

Answers to Charges made by the Chief Engineer of the New Aqueduct.

1st. That on the 11th day of April, 1890, there was no work for me to do; that I went to the office at Shaft 19 to so report and afterwards returned to Shaft 18½, where I remained until 3 P. M. with no work doing.

2d. All mixing of cement had ceased at 4.45 A. M., I having sent into the tunnel all that was needed to finish the shift. I did not have to remain on the work when there was nothing to do. I found this the rule at Shaft 19.

3d. My report was handed by me to Inspector Moynihan who waited for it. An unusual demand for more mixture had been made after half-past 5 o'clock; this was the first occurrence that ever took place with me in which cement was required to be mixed after 5 o'clock. However, I was there to mix it, and did not leave until all cement had been mixed and made out my report accordingly.

4th. On April 18, P. J. Moynihan had agreed to let me off on the 21st, but asked me to be there in the morning to turn over the correct report of cement to the Inspector that relieved me. I complied with that, and was there by the first train on the Northern road at 7.30. Had he not so arranged to let me off I would have returned to Shaft 18½ on Sunday evening to be at the shaft at 7 A. M. sharp. Inspector Quinn was in charge before I left at 7.45.

5th. On April 22d I was on a grout pump and went on duty when ordered.

6th. On May 3d, at 12 P. M., in trying to climb the ladder at Shaft 18½, which had four broken rungs in it, I fell down to the bottom, straining my ankle and cutting my instep and could not put on my boot. I sent doctor's certificate covering that.

General charge—I have never seen or read Clause 10 of the Rules and Regulations of the New Croton Aqueduct; was never furnished with a copy of them.

I have never seen or read such notice of the Division Engineer dated November 25, 1889, and signed Alfred Craven.

I further say my journal of events while on duty having been turned into the Engineer's office by order of A. Craven, I have no other notes with which to refresh my memory; I therefore have to give my answers from memory, and should I confound events with wrong dates, I claim the right to have reference to my notes now in possession of A. Craven; also to correct answers to correspond with dates. If I am right as to events or dates on April 22, I had permission on Saturday to remain away on Monday, and on Tuesday to come up to Shaft 18½ on Northern road. First train arrived at Dunwoodie at 7.25 on that morning; the train failed to make time, and had to switch off at Van Cortlandt to allow the down train to pass; this brought me to Dunwoodie after 9 o'clock; P. J. Moynihan gave me permission to come up on that train.

I further say that Alfred Craven is influenced by malignant feelings towards me, and for five years past; that he suspended me in December, 1885, for no other reason than that the thermometer was below zero, and that upon the order of the Chief Engineer to continue me on duty, he refused to comply; that his enmity towards me commenced at that time, and furiously increased afterwards when he heard that I said, in referring to the reports of his trying to borrow money from contractors and asking Contractor McBean to indorse a note of his in a Tarrytown Bank, "that had an Inspector so acted, he would be summarily discharged;" also that P. J. Moynihan, believing that he was pleasing Craven, had hounded me on into misrepresenting circumstances, so as to get up charges against me to effect my dismissal, and that after my return to duty to Craven after my second suspension, I had suffered an unrelenting persecution by placing me in the worst and wettest parts of the tunnel, and that all Inspectors under said Moynihan were habitually half an hour or more late in going into the tunnel every morning; and that he himself has often been an hour late; and that for four or five months I have not known him to be more than one hour each day in the tunnel; and that Inspectors that were personal friends of his had a good many days off, while I was kept continually under ground.

I further say that my rubber boots becoming leaky on or about April, 1890, I applied to said Supervising Inspector Moynihan for new boots, that he failed to furnish them, but furnished other Inspectors with new boots who did not need them, and that I did duty with wet feet, several days standing half knee deep in water, knowing that if I refused to do said duty that charges would be preferred against me.

I further say that the agreement dated December 18, 1888, was by me signed hurriedly without giving it proper consideration; that I thus unknowingly signed away vested preferences without receiving any consideration therefor; that I had been appointed an Inspector of Masonry years previous, 1885, and am only subject to dismissal for bad work performed and passed under my inspection which never occurred.

EDWARD O'SHEA.

OFFICE OF C. R. ELLISON, M. D.,
No. 209 EAST ONE HUNDRED AND TWELFTH STREET,
NEW YORK, May 27, 1890.

This is to certify that from May 5 to May 8, 1890, Edward O'Shea, Inspector of Masonry on New Aqueduct, was laid up with a sore instep and swollen ankle and could not get on a boot to enable him to perform duty that required walking.

C. R. ELLISON, M. D.

Sworn to, before me, this 27th day of May, 1890,

[SEAL]

JAMES A. KEHOE,
Notary Public (10), N. Y. Co.

PATRICK G. MOYNIHAN, being duly sworn, testified as follows:

By Commissioner SCOTT:

Q. What is your name? A. Patrick G. Moynihan.

Q. What is your position on the Aqueduct? A. Superintending Inspector.

Q. On what division? A. On the Fourth division.

Q. You know Mr. O'Shea? A. Yes, sir.

Q. What is his position? A. Inspector, sir.

Q. On the same division? A. Yes, sir.

Q. What do you know about Mr. O'Shea on the 11th of April, 1890? A. When I got to the work at Shaft 18½ he was not there.

Q. Was that the place where he was working? A. Yes, sir.

Q. What time did you get there? A. Between 10 and 3 o'clock.

Q. And he was not there? A. No, sir.

Q. Was any work being done there? A. Nobody could inform me what was being done there, so I returned to Shaft 19, and there I met Mr. O'Shea; he had come back to the work and he had his report all made out; I asked him the reason why he had left his work without leave; he said he went to his dinner; it was about 12 o'clock when I got there—about 11 o'clock; I found him at 19 at 3 o'clock.

Q. How far is 19 from 18½? A. I should say it is about a mile.

Q. And his tour of duty was at 18½? A. Yes, sir; 18½ is about a mile from 19.

Q. What do you know about Mr. O'Shea's movements on the 18th of April? A. At a quarter to five in the morning I got to 18½, and he had left his work; the shift ended at 6 o'clock.

Q. And at a quarter to five he had already left? A. Yes, sir.

Q. Was any work being done there? A. The men were walking around; there was no cement mixing.

Q. The contractors' men? A. Yes, sir.

Q. And was there anybody to take his place there? A. No, sir.

Q. The work was left without any Inspector at all? A. Yes, sir.

Q. You did not see him at all that morning when you got there? A. No, sir.

Q. What do you know about the 19th of April? A. I got to 18½ at 5 A. M. on the 19th, and O'Shea had his report all made out and signed and had handed it to one of the contractors' men to give to me to bring it to Shaft 19, where he was supposed to file his report.

Q. The shift ended at 6. A. Yes, sir.

Q. The report was all made out and signed at 5? A. Yes, sir; he handed me the report, and I waited there for about ten or fifteen minutes when a car came along with four barrels of cement mixture; I gave him the report and went in the tunnel about 20 minutes after 5, and when I got down in the tunnel there was another car coming back with four more barrels, and I had to have it put on his report.

Q. Those eight barrels came after 5 o'clock? Yes, sir.

Q. And you say that this report of his that was made up at that time was in the hands of one of the contractor's men? A. Yes, sir; he afterwards accused me of putting up a job on him.

Q. He did not accuse you of giving his report to any of the contractor's men? A. No, sir.

Q. How about the 21st of April? A. At 7 o'clock I got to Shaft 18½; Mr. Thompson left word for me to meet him at 18½.

Q. Who is he? A. The Assistant Engineer; I got to 18½ at 7 o'clock, and Mr. O'Shea had asked me previous to the 21st to leave off work on that day; I was informed that he was going to see about a place with the Street Cleaning Department; I told him I could not do it unless he was sick; I told him that I could give him no leave off, and that he would have to see Mr. Thompson himself, at 18½; I told him to wait for Mr. Thompson; I went to 18 for Mr. Thompson and returned with him, but Mr. O'Shea had gone.

Q. He did not wait to see Mr. Thompson, and did not wait to get any leave? A. No, sir.

Q. Was any work done after he left? A. Yes, sir; I had an opinion of him that he was not reliable, and had notified Inspector Quinn to be on the work that day, because I had heard that he was going away that day.

Q. You took the precaution to have Quinn there? A. Yes, Sir; Quinn had to go to 19 to get his clothes, and that was the reason that O'Shea did not know that Quinn was there.

Q. There was some work done after O'Shea left? A. Yes, sir; there was 20 barrels of cement received and 2 loads of sand.

Q. And if you had not taken the precaution to have Quinn there, there would have been no Inspector there that day? A. No, sir; O'Shea did not come there with the intention of staying there; Quinn came there after O'Shea arrived there.

Q. You did not give him permission to go away on that day? A. No, sir.

Q. How about the 22d of April? There was some work going on in the tunnel, and I knew that I could not rely on his being there, so I took an Inspector from 19½ and put him into the tunnel at 19; O'Shea came to Shaft 19 and relieved this Inspector at 10.10 A. M.

Q. When did the shift begin? A. 7 A. M.

By Commissioner Tucker:

Q. What date was this? A. 22d of April.

By Commissioner Scott:

Q. How about the 3d of May? A. It was Saturday night, and he told me that he wanted to be off on Monday. I told him to report for duty on Monday, and if there were Inspectors enough he could go. He did not report either Monday, Tuesday, Wednesday or Thursday.

Q. Did you hear anything about his having had an accident in the tunnel? A. No, sir.

Q. When did he come back—on the 9th? A. Yes, sir.

Q. Did you see him? A. Yes, sir.

Q. Did he make any explanation of his offense? A. No, sir.

Q. He did not say anything about being away then? A. No, sir.

By Mr. Schloss:

Q. Mr. Moynihan, you stated that Mr. O'Shea did not go to work with the intention of staying; was it true that there was no cement mixing, and no work to do?

Commissioner Scott—Which day do you mean?

Mr. Schloss—Any one of these days; the 11th of April?

A. According to the orders of the Division Engineer, no Inspector shall leave his work without leave.

Q. Mr. O'Shea informs me that he never received such orders? A. I accused him of leaving the work without leave several times.

Q. What is customary in your department about where to leave the reports? A. It is customary to leave the reports in the office at the shaft where the work is going on.

Q. Why do you look for reports? A. It is my duty to look for the reports and keep such reports.

Q. Do you remember in the spring and summer of 1888? A. Yes, sir.

Q. Were you at work on the Aqueduct? A. I worked in the Aqueduct since 1887.

Q. Were ever charges preferred against you? A. No, sir.

Q. In the month of April, were you present during that month? A. Of what year?

Q. This year? A. Yes, sir.

Q. Do you know Mr. Wegmann? A. I know Mr. Wegmann; he is a Division Engineer.

Q. Were you ever under the influence of liquor?

Objected to; objection sustained.

Q. Were you ever under the influence of liquor when at Mr. Wegmann's division?

Objected to; objection sustained.

Q. Did you ever go to sleep under the arch when the masons were working?

Objected to; objection sustained.

Q. To whom do you owe your appointment in this Department? A. I owe my appointment in this Department to the knowledge that I possess of the work.

Q. Are you a married man? A. Yes, sir.

Q. Do you know Mayor Grant? A. Yes, sir.

Q. Are you related to Mayor Grant?

Objected to; objection sustained.

Q. You have heard the answers of Mr. O'Shea that I have read in reference to these charges? A. Yes, sir.

Q. And you are still under the impression that your charges ought to be maintained? A. I am not under the impression that these are my charges; I only do the duty that the Division Engineer tells me to.

TO CONTRACTORS.

PROPOSALS FOR ESTIMATES.

SEALED ESTIMATES FOR SUPPLYING THE Police Department with two thousand tons of best quality of Lehigh Coal will be received at the Central Office of the Department of Police in the City of New York, until 11 o'clock A. M. of Tuesday, the 24th day of June, 1890.

The person or persons making an estimate shall furnish the same in a sealed envelope, indorsed "Estimate for Furnishing Coal," and with his or their name or names, and the date of presentation to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the estimates received will be publicly opened by the head of said Department and read.

For particulars as to the quality, kind and quantity of each size of coal required, reference must be made to the specifications, blank forms of which may be obtained at the office of the Chief Clerk in the Central Department.

The attention of bidders is called to the following provision of the contract: "And it is hereby expressly agreed by and between the parties to this contract that the said parties of the second part may, and they are hereby authorized to increase or diminish the amounts of coal required to be furnished herein, by an amount not to exceed ten per cent., without compensation to the said party of the first part, other than the prices per ton herein agreed upon to be paid for the amount actually furnished under this agreement."

Bidders will state a price per ton of two thousand pounds for the coal to be delivered. The price must be written in the bid and stated in figures. Permission will not be given for the withdrawal of any bid or estimate, and the right is expressly reserved by the head of said Department to reject any or all bids which may be deemed prejudicial to the public interests.

No estimates will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The entire quantity of coal is to be delivered within thirty days from the date of the execution and delivery of the contract.

The person or persons to whom the contract may be awarded will be required to give security for the performance of the contract in the manner prescribed by law, in the sum of five thousand dollars.

Each estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose; and is in all respects fair, and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract and herein stated, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required

by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, and that the adequacy and sufficiency of the security offered has been approved by the Comptroller, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk, and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Blank forms for estimates may be obtained by application to the undersigned, at his office in the Central Department.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail surety, or otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the National or State banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

N. B.—The prices must be written in the estimate and also stated in figures, and all estimates will be considered as informal which do not contain bids for all items for which bids are herein called, or which contain bids for items for which bids are not herewith called for. Permission will not be given for the withdrawal of any bid or estimate. No bid will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The amount in which security will be required for the performance of the several contracts is as follows:

Nor Number 1, above-mentioned..... \$700 00

" 2, " " "..... 3,000 00

The Department of Public Parks reserves the right to reject any or all the bids received in response to this advertisement if it should deem it for the interest of the City so to do, and to readvertise until satisfactory bids or proposals shall be received. But the contracts when awarded will in each case be awarded to the lowest bidder.

DEPARTMENT OF DOCKS.

(Work of Construction under New Plan.)

DEPARTMENT OF DOCKS,
PIER "A," NORTH RIVER.

TO CONTRACTORS.

(No. 338.)

PROPOSALS FOR ESTIMATES FOR FURNISHING GRANITE STONES FOR BULKHEAD OR RIVER WALL.

ESTIMATES FOR FURNISHING GRANITE Stones for Bulkhead or River Wall will be received by the Board of Commissioners at the head of the Department of Docks, at the office of said Department, on Pier "A," foot of Battery place, North river, in the City of New York, until 12 o'clock M. of

THURSDAY, JULY 3, 1890,

at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of Seven Thousand Dollars.

The Engineer's estimate of the work to be done is as follows:

To be furnished, cut in accordance with specifications. 670 pieces of Granite, consisting of:

Class 1.—258 Headers and 284 Stretchers, containing about 11,000 cubic feet.

Class 2.—128 Coping-stones, containing about 10,240 cubic feet.

For further particulars, see the drawings referred to in the specifications forming part of the contract.

N.B.—As the above-mentioned quantities of cubic feet, though stated with as much accuracy as is possible, in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of similar stones now owned by the Department of Docks, and of the plans, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefore, per cubic foot, to be specified by the lowest bidder, shall be due or payable for the entire work.

The first delivery of granite under this contract will be made as soon as practicable after the date of the execution of this contract, and will proceed thereafter with reasonable dispatch, and all the work to be done under this contract is to be fully completed on or before the 15th day of October, 1890, and the amounts in each delivery are to be divided between the several classes, as ordered by the Engineer-in-Chief. The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates the prices per cubic foot for the stones to be furnished, in each class, in conformity with the approved form of agreement and the specifications therein set forth, by which prices the bids will be tested. These prices are to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be required to attend at this office, with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done in each class by which the bids are tested; the consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the

officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Groceries, Dry Goods, Lumber, etc.," with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications, and showing the manner of payment, will be furnished at the office of the Department; and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities and Correction will insist upon its absolute enforcement in every particular.

FIRE DEPARTMENT.

HEADQUARTERS FIRE DEPARTMENT,
157 AND 159 EAST SIXTY-SEVENTH STREET,
NEW YORK, June 7, 1890.

TO CONTRACTORS.

SEALED PROPOSALS FOR FURNISHING THE materials and labor and doing the work required in repairing and altering the building of this Department, used as Quarters for Engine Company No. 38, on Amsterdam avenue, between One Hundred and Fifty-fourth and One Hundred and Fifty-fifth streets, will be received by the Board of Commissioners at the head of the Fire Department, at the office of said Department, Nos. 157 and 159 East Sixty-seventh street, in the City of New York, until 10 o'clock A. M. Wednesday, June 25, 1890, at which time and place they will be publicly opened by the head of said Department and read.

No estimate will be received or considered after the hour named.

For information as to the amount and kind of work to be done, bidders are referred to the specifications which form part of these proposals.

The form of the agreement and the specifications, showing the manner of payment for the work and forms of proposals, may be obtained at the office of the Department.

Bidders must write out the amount of their estimate in addition to inserting the same in figures.

The work is to be completed and delivered within thirty (30) days after the execution of the contract.

The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time specified for the completion thereof shall have expired are fixed and liquidated at ten (10) dollars.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall present the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation and a statement of the work to which it relates.

The Fire Department reserves the right to decline any and all bids or estimates, if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance in the sum of one thousand and two hundred (1,200) dollars; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of sixty (60) dollars. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept, but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

TO CONTRACTORS.

SEALED PROPOSALS FOR FURNISHING THE materials and labor and doing the work required for constructing and erecting building for temporary quarters at No. 1280 Fulton avenue for Engine Company No. 42 of this Department, will be received by the Board of Commissioners at the head of the Fire Department, at the office of said Department, Nos. 157 and 159 East

Sixty-seventh street, in the City of New York, until 10 o'clock A. M. Wednesday, June 25, 1890, at which time and place they will be publicly opened by the head of said Department and read.

No estimate will be received or considered after the hour named.

For information as to the amount and kind of work to be done, bidders are referred to the specifications, and drawings which form part of these proposals.

The form of the agreement and the specifications, showing the manner of payment for the work, and forms of proposals, may be obtained and the plans may be seen at the office of the Department.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

The work is to be completed and delivered within thirty (30) days after the execution of the contract.

The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time specified for the completion thereof shall have expired are fixed and liquidated at ten (10) dollars.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall present the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation and a statement of the work to which it relates.

The Fire Department reserves the right to decline any and all bids or estimates if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a Department, chief of a Bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance in the sum of six hundred (600) dollars; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of thirty (30) dollars. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

THOMAS F. GILROY,

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, June 2, 1890.

TO THE PEOPLE OF THE CITY OF NEW YORK:

It becomes my duty as Commissioner of Public Works and custodian of the many and immense interests involved in the City's water supply, to briefly present to the people of the City the present condition of the supply, and the extreme necessity for care and economy in the use of the water.

For a number of years past and up to the present time, the old Aqueduct and the Bronx river conduit have delivered in the City all the water which they are capable of carrying, the supply thus remaining stationary when the City has been constantly growing in population, buildings, manufactures and commerce, creating new and additional demands upon the water service. The consequence is that at certain seasons of the year, notably in extreme cold weather, when the habit of wasting water from faucets to prevent freezing in the pipes prevails, and in warm and dry weather, when various methods of waste are in vogue, the daily consumption exceeds the supply which can by any possibility be received through the old Aqueduct and the Bronx river conduit, the excess of consumption being drawn from the city reservoirs, diminishing the depth of water and the pressure in the distributing mains. There is no possibility of increasing the water supply received in the City until the new Aqueduct is brought into operation, and in the meantime the only reliance for a fair and equal distribution of water throughout the city is care and economy in its use on the part of the people. Already the depth of water in the reservoirs is being diminished at the rate of one inch per day, and if this should continue for any length of time, the pressure in the distributing mains would be so reduced that it would be impossible to deliver water in thousands of houses located on high ground, and in some other locations even in the basements or cellars.

I, therefore, most earnestly appeal to all citizens, residents and people carrying on business in this city to be careful and economical in the use of water, in justice to themselves, to the people at large, and especially to those who are so located as to be already suffering inconvenience from insufficient supply of water.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, August 14, 1889.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty, containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot, that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereafter liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act:

When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.
