

**Park Facilities That Have Completed Construction for Projects Including Accessibility Features in 2015**

| Park Name                                    | Location  | Short Description   | Contract Summary  | Status    |
|--|---|---|---|-----------|
| Van Nest Park                                | Van Nest Park bounded by Mead Street, White Plains Road, Union Port and Van Nest Avenues  | Van Nest Playground Reconstruction  | This project was to reconstruct the existing playground including new play equipment, spray shower, sitting area and the planting border. The work included construction of new colored concrete pavement, asphalt pavement with color seal coating, concrete curbs, perimeter 7 1/2" steel picket fence and 24" steel fence for planting border as well as benches and trash receptacles. In addition, new water supply and drainage systems was installed including a drinking fountain, ground hydrants, and spray bollards. | Completed |
| Multisite Citywide                           | Various locations, the Bronx, Brooklyn and Queens   | Bronx, Brooklyn, and Queens Sidewalk Reconstruction - FY13  | This multisite contract was to reconstruct damaged sidewalks in the Bronx, Brooklyn and Queens.   | Completed |
| Faber Pool and Park                          | Faber Street and Sharpe Avenue, Staten Island   | Faber Park Skate Park Construction  | This project was to construct a plaza-type skate park with reinforced colored concrete pavement and cast-in place skate-park components set into the sloping topography of the existing park landscape. The water run-off from the existing slopes and the additional pavement was captured by new drains which lead to leaching basins. Existing trees were pruned and fertilized and new native shade trees were planted at the edge of the lower open lawn.  | Completed |
| Multisite Citywide                           |   | 846 P-6BLDG9A,CITYWIDE - C.S. & FACILITIES  |   | Completed |
| Multisite in Manhattan                       | Tony Dapolito: Clarkson Street between 7th Avenue South and Hudson Street;John Jay Pool: Cherokee Place between East 76th and East 78th Streets, Manhattan Sprague Avenue to Loretto Street, Loretto Street to Rockaway Avenue and Brighton Avenue to Chelsea Street. | Tony Dapolito Recreation Center and John Jay Pool Sandy-Related Boiler Repair                     | This multisite contract was to reconstruct boiler components damaged by Hurricane Sandy at Tony Dapolito Recreation Center and John Jay Pool.   | Completed |
| Conference House Park                        |   | Conference House Park Beaches Emergency Temporary Protective Measures                             | This contract was to repair emergency protective measures along Conference House Park.  | Completed |
| Multisite in Staten Island                   | Various locations, Staten Island  | Staten Island General Site Work (RG-713M)   | This multisite contract was to reconstruct play equipment, safety surfacing, play fields, pavements, fencing, plantings and general site work at various sites in Staten Island.  | Completed |
| Multisite Citywide                           |   | 846 P-6WALK11,CITYWIDE - BDWLKS, ADA RAMPS, RAILINGS, STAIRS & BENCHES                            |   | Completed |
| L/CPL Thomas P. Noonan Jr. Playground Street | 47th Avenue, 43rd Street, Greenpoint Avenue, 42nd   | Noonan Playground Spray Shower and Playground Area Reconstruction                                 | This project was to reconstruct a portion of the playground, improving safety within the park and providing definitive circulation for park users. A new spray shower and new play equipment provides recreation for a wide range of children. The project also extends the green space, mitigates drainage issues and enhances the main entrance of the park.  | Completed |
| Multisite in Brooklyn                        | DiMattina Park: Hamilton Avenue, Hicks street and Rapelye Street; Dyker Beach Park: 7th Avenue and 86th Street; Owl's Head Park: Shore Road and 68th Street, Brooklyn   | DiMattina Park, Dyker Beach Park, and Owl's Head Park Dog Run Reconstruction                      | This project was to provide separate dog runs for both small and large dogs in Dimattina Park, Dyker Beach Park and Owl's Head Park. The dog runs encourage safe and open play while supplying proper drainage, safe lighting, and various plantings. New features include permeable surfaces, benches, fences, drinking fountains, and improved odor and dust control.   | Completed |
| Multisite in Brooklyn                        | Prospect Park, Brooklyn   | Prospect Park Long Meadow, Park Circle, and Parade Ground Drainage Reconstruction                 | This multisite contract was to reconstruct the drainage systems at the Long Meadow ballfields, the Park Circle entrance and the Parade Grounds as well as reconstruct the paths and install new site furnishings in Prospect Park.  | Completed |
| Coney Island Beach & Boardwalk               | Brighton 2nd and West 33rd Streets, Coney Island Beach and Boardwalk, Brooklyn  | Coney Island Beach Entrance Garden Construction at Brighton 2nd and West 33rd Streets (B169-210M) | This project was to create a new, attractive entrance to the beach and boardwalk at Brighton 2nd Street featuring new accessible ramps, stairs and seating areas. The project includes new paths, benches, fences, lighting, railing and plantings.   | Completed |
| Fort Tryon Park                              |   | Fort Tryon Park Path and Stair Reconstruction   | This project was to reconstruct the path and stairs in Fort Tryon Park that lead to the Cloisters. The fencing and lighting along the pathway were also reconstructed and upgraded.   | Completed |
| HOWARD VON DOHLEN PLAYGROUND                 |   | 846 P-4VANDOH,VON DOHLEN PARK - NEW COMFORT STATION & RECONSTR OF PLGD                            |   | Completed |
| St. John's Park                              | Prospect Place between Troy and Schenectady Avenues, Brooklyn   | St. John's Recreation Center Sitting Area Reconstruction  | This project was to reconstruct the outdoor sitting area adjacent to the recreation center in St. John's Park. The sitting area acts as the central hub for the many recreational activities the park offers, as well as a place for rest and passive recreation. In addition to views of the colorful mural on the center's wall, park goers enjoy new benches, fencing, picnic tables, game tables and chairs, a drinking fountain, flowering trees and various ornamental plantings.   | Completed |
| Multisite Citywide                           |   | 846 P-6GRST01,BROOKLYN & QUEENS - CONSTR OF GREENSTREETS DESIGNED FOR CAPTURING STORMWATER        |   | Completed |
| Hendrick I Lott House                        | 1940 East 36th Street, Brooklyn   | Lott House Landscape Reconstruction   | The intent of this project was to evoke the Lott family's farmstead landscape. It includes a vegetable garden, orchard, hedgerow, windbreak, ornamental plantings, a portion of the farm drive, an outhouse and a wellhouse. Custom seating and a drinking fountain were installed.   | Completed |
| Great Kills Park                             | Cedar Grove Beach Place in Great Kills Park, Staten Island  | Cedar Grove Beach Access Improvements   | This project was to reconstruct the roads/paths in Cedar Grove Park.  | Completed |

| Park Name                    | Location  | Short Description  | Contract Summary  | Status    |
