Sworn to before me, this

WM. E. GILHOOLY,

Notary Public,

N. Y. Co.

The circumstances under which the foregoing claim arose, are as follows:

In pursuance of a demand or requisition of the officers of the Twenty-second Regiment made about May 15, 1884, the Armory Board of the City of New York recommended the building of an Armory (and Division and Brigade Headquarters) for said Regiment. Application was then made to the Commissioners of the Sinking Fund for their approval and for an appropriation for the purpose. On July 28, 1884, the said Commissioners of the Sinking Fund appropriated \$2,000,000 for the building of armories, including the armory of said Regiment, but no part thereof to be paid until an estimate of the probable cost of the several armories should be presented to the Board. Under the advice of the Corporation Counsel, that before any further action could be lawfully taken by the Sinking Fund Commissioners, the Armory Board should cause specific plans and specifications and estimates to be made from which the probable cost and character of the buildings could be determined (see Opinion September 10, 1884), the said Armory Board, on or about October 11, 1884, invited certain architects, including the undersigned, to prepare competitive plans for the building, upon the condition that the architect of the plans accepted and adopted by it on such competition should be the architect of the building and receive the usual compensation.

From several plans submitted by said architects the plans of the undersigned were finally selected and adopted by the said Armory Board by resolution on the 5th day of December, 1884, and the undersigned was thereupon employed by said Armory Board as such architect.

The plans were then submitted to the Commissioners of the Sinking Fund, who, on the same day, by resolution, adopted and approved of the same with such modifications as had been suggested by the Armory Board, and appropriated specifically the sum of \$300,000 for the erection of the building (to include the compensation of the architect) to be raised by the sale of bonds to be issued by the City.

Considerable time and labor were occupied in perfecting the plans submitted and in preparing additional plans in accordance with the modifications directed by the Armory Board and the Regiment, and in other necessary services.

When the said bonds were about to be issued, a question was raised as to whether the constitutional limit for the issue of bonds, fixed by the amendment of the Constitution which went into effect January 1, 1885, had not been reached, and a test case was presented and taken to the Court of Appeals, which eventually decided that said limit had not been reached.

In the meantime, about July, 1885, the Mayor applied to the Corporation Counsel for his opinion, among other things as to the liability of the City for the fees of the undersigned as architect of the building for the plans already made, in view of the action which had been taken by the Armory Board and Sinking Fund Commissioners and the constitutional amendment above referred to.

The Corporation Counsel reported as follows:

"The action of the Armory Board in connection with that of the Commissioners of the Sinking Fund constitutes a contract for the payment of whatever sum, within the \$300,000 appropriated, might have been actually earned, provided the amount can be turned into a bonded indebtedness. If, therefore, the courts should hold that the City has not reached the limit of its indebtedness and has power to issue bonds, the contract is good to the extent of that power, and the issue of the bonds could probably be compelled by the architect entitled to the fees."

See opinion of E. H. Lacombe, July 3, 1885.

The Court of Appeals having decided that such limit had not been reached, it follows, in accordance with the Corporation Counsel's opinion, that the claim of the undersigned as architect is a just and valid one against the City.

Since then the Armory Board has adopted other plans and employed another architect who had submitted plans on the competition above mentioned, which were rejected, and has declined to avail itself of the plans or services of the undersigned, although he has at all times been ready and willing and offered to carry out the contract made with him, and render all services which might be required of him as such architect.

The fees charged for are according to the usual and customary rate of compensation to architects for similar services, viz.: five per cent. upon the estimated cost of the building and in accordance with the contract made with the Armory Board.

The undersigned therefore requests that said claim be allowed and paid as being both just and equitable.

Respectfully,  
HENRY F. KILBURN.

Bills were received from Messrs. Mahony Brothers, for work done on Twelfth Regiment Armory building for \$729, and \$430 for carpentering work ordered at different times by the Board. They were duly certified by the architect, and Commissioner Coleman offered the following:

Resolved, That vouchers be drawn for the amounts, and that the Sinking Fund Commissioners be requested to concur in their payment.

Which was unanimously passed.

The architect's certificate was received, stating that the work of Mahony Brothers, carpenters, in the Twelfth Regiment Armory was entirely completed, entitling them to the payments due them on their contracts of November 13, 1885, and August 20, 1886, viz.: \$200, balance of last payment on the former contract, and \$9,582, being the first and only payment and in full on the latter contract.

Vouchers were ordered to be drawn for the amounts, and forwarded to the Comptroller for payment.

Commissioner Coleman offered the following:

Resolved, That the time for the completion of the contracts of Mahony Brothers, for carpentry work on the Twelfth Regiment Armory Building, dated December 29, 1884, November 13, 1885, and August 20, 1886, be and are hereby extended to May 10, 1887, prior to which time the architect certified that the work was entirely completed.

Which was unanimously adopted.

A certificate was received from the architect stating that the last payment in full was due to Mahony Brothers on their contract dated December 29, 1884 (the work being entirely completed), for carpentry work on the Twelfth Regiment Armory. The amount being \$11,398.92.

A voucher was ordered to be drawn for the amount and forwarded to the Comptroller for payment.

A bill was received from Messrs. Brown & Bliss for furniture, as ordered by the Board for the Twelfth Regiment Armory, duly certified as correct by the architect.

Colonel Clark offered the following:

Resolved, That a voucher be drawn for the amount and the Sinking Fund Commissioners be asked to concur in the payment of the same.

Which was unanimously adopted.

A certificate was received from the architect, stating that the Manly & Cooper Manufacturing Company had entirely finished their contract for iron gates, and finishing iron work on the Twelfth Regiment Armory, and were entitled to their payment in full, \$2,300.

A voucher was ordered to be drawn for the amount and forwarded to the Comptroller for payment.

Commissioner Coleman offered the following:

Resolved, That the time for the completion of the contract of the Manly & Cooper Manufacturing Company for iron gates and finishing iron work on the Twelfth Regiment Armory, dated August 20, 1886, be and is hereby extended to May 10, 1887, at which time the architect testified the work was entirely completed.

Which was unanimously adopted.

A certificate having been received from the architect that the work on the contract of John Renehan, plumbing contractor for the Twelfth Regiment Armory, was entirely finished prior to February 1, 1887, and that the full amount of contract was due him.

The contract was dated November 16, 1885, and the balance due him is \$415.

A voucher was ordered to be drawn for the amount and forwarded to the Comptroller for payment.

A communication was received, dated May 10th, from the architect of the Twelfth Regiment Armory, stating that the contractors, Messrs. Moran & Armstrong, have straightened the parapet walls on Ninth avenue and Sixty-first street, and built the counterbalancing brickwork as per plans and specifications of said work. It was referred to the Commissioner of the Public Works Department.

The following communication was received from the Corporation Counsel, and was ordered on file and a copy directed to be forwarded to the Comptroller.

LAW DEPARTMENT,  
OFFICE OF THE COUNSEL TO THE CORPORATION,  
NEW YORK, April 26, 1887.

Hon. M. COLEMAN, Secretary, Armory Board:

SIR—I am in receipt of a communication from you, dated April 15, 1887, in which are stated the following matters, namely:

That on January 15, 1887, your Board ordered the printing of certain letter heads and sheets from the Evening Post Job Printing Office, which were duly furnished for general office work, in connection with the business of your Board.

That on March 9, 1887, at a meeting of your Board, the bill for the same amounting to \$7.85 was presented and duly passed upon, and a voucher therefor was signed by all the members of the Board, which was then forwarded to the Sinking Fund Commissioners for their concurrence, and was marked chargeable to "Contingency Account;" that at the same meeting a resolution was passed to appropriate \$1,000 from the "General Armory Fund," for a contingency fund from which to pay such bills, which was also forwarded to the Sinking Fund Commissioners for their concurrence.

That you understand that no action has been taken by the Sinking Fund Commissioners in relation thereto, and that the bill remains unpaid.

You desire my opinion as to the right of your Board to appropriate funds from the "General Armory Fund" for the payment of such bills as may be rendered necessary in the workings of your Board, and which are not properly chargeable to any particular armory, which expenses may include printing, stationery, office supplies, and possibly, the salary of a secretary.

If, in my opinion, money cannot thus be appropriated as above outlined, you desire my opinion as to how such expenses shall be paid.

With the communication in question you have enclosed to me a statement of the ledger account entitled "General Armory Fund," showing that \$1,172,129.40 in bonds have been issued and sold to date by the Commissioners of the Sinking Fund, and that in the purchase of sites for armories and bills for searching titles thereto, and in the building of armories, there has been expended all except about \$55,000 of the proceeds of the bonds so sold.

I am also in receipt of another communication from you, dated in the current month, in which it is stated, that your Board has incurred some expense for surveying, printing and typewriting, all necessary in forwarding the work of erecting armory buildings on the sites purchased for that purpose, in accordance with plans and provisions adopted by your Board and concurred in by the Sinking Fund Commissioners.

That such preliminary expense has been incurred with the full expectation that bonds would be sold within the provisions of the acts providing for such expense and sale of bonds to carry out the project of building such armories, but not however, depending on such sale of bonds to meet this expense already incurred, but with the belief that this Board has the power, with the concurrence of the Sinking Fund Commissioners, to appropriate all or any part of any money on hand in the General Armory Fund, to the payment of such expenses.

And you state that you desire my opinion as to whether your Board has such power.

The matters in regard to which you ask my opinion in these several communications, are of the same general character, and I will answer them in one communication.

On September 10, 1884, I addressed a communication to the Hon. Franklin Edson, then Mayor of the City of New York, in reply to a request from him for my interpretation of section 62 of the Military Code, as amended by Chapter 91 of the Laws of 1884, respecting the powers and duties of the Armory Board and the Commissioners of the Sinking Fund under that law. In that communication I had occasion to advise generally, as to the respective functions of the various military organizations of the National Guard, the Armory Board, and the Commissioners of the Sinking Fund, in performing the duties and incurring the expense that they were authorized to incur, and in providing for the payment of the same. At that time the impression prevailed among the members of the Board, that it was the duty of the Commissioners of the Sinking Fund, and that they had the power to make a general appropriation of money for the general expense of providing armories, and to sell bonds to meet the same, and to place the proceeds of such bonds in the hands of the Armory Board, with general authority to them to expend the same for the various purposes of the act.

Pursuant to this notion a general appropriation of two millions of dollars had, I believe, been made by the Commissioners of the Sinking Fund at the request of the Armory Board, and bonds had been or were subsequently issued and sold for a part of such amount, but the proceeds thereof still remained in the hands of the Sinking Fund Commissioners. In the communication in question I had occasion to advise your Board, generally, that the proper construction and intent of the act, was that it was the duty of the Armory Board, either directly or upon the application of the various military organizations, to determine upon the specific objects of expenditure contemplated by the act, either the acquisition of particular armory sites upon which they should decide, the erection of buildings upon particular plans and specifications upon which they should determine, or the repairing and furnishing of particular armories. That these specific objects of expenditure should be reported to the Commissioners of the Sinking Fund, who should determine whether or not, they would concur in the recommendations. If they did so they were to specify the sum or sums to be appropriated, and the money was to be raised either by including it in the final estimate for the tax levy for the next ensuing year, or by the issuing of bonds by the Commissioners of the Sinking Fund from time to time.

No provision is, however, made for the issuing of bonds in advance of the particular object of expenditure that should have been determined upon and reported, or for the expenditure of money when raised by either of the methods provided for in the statute, for any purposes except those specifically directed. It is to be regretted that the terms of the act are not more comprehensive in this respect, as it would be eminently proper that it should have contained a provision for the payment of the necessary, incidental expenses of your Board. I do not, however, see how it is possible to go beyond what is written, or to imply the power or expend money for other purposes than those designated.

I am inclined to advise that section 68, of the Consolidation Act of 1882, furnishes a means by which all printing and stationery which your Board may require can be supplied to you. This would, of course, include letter heads and sheets such as you refer to in your communication.

The item of surveying, if incurred with respect to some particular lot purchased by you for armory purposes, is, I think, a necessary incidental expense to the purchase of the lot or the erection of the building thereon. I think the Commissioners of the Sinking Fund may appropriate an amount sufficient to cover the same out of the proceeds of bonds heretofore sold remaining in their hands. While, as may be inferred from what I have heretofore said, I am inclined to advise that the Commissioners of the Sinking Fund were not entitled to proceed to sell bonds in advance of a requisition therefor from your Board for some one of the particular purposes mentioned in the act, in which expenditure they should concur, yet the bonds having been sold and the money remaining in their hands, I think they have the power, upon concurrence, for some particular expenditure made, or to be made by them and within the purposes of the act, to appropriate from such proceeds an amount sufficient to cover it.

I do not see any authority for expenditure for the salary of a secretary, or for type-writing, or for office supplies other than printing and stationery.

Neither do I find any authority for making an appropriation of a General Contingency Fund, to be expended under the direction of your Board for general expenses.

As I before said, the act is defective in these respects, and requires some amendment.

I am, sir, very respectfully yours,

E. HENRY LACOMBE, Counsel to the Corporation.

The meeting then adjourned.

M. COLEMAN, Secretary.

## NOTICE TO CROTON WATER CONSUMERS.

NUMEROUS APPLICATIONS HAVE BEEN made to this Department by citizens claiming reductions or rebates on bills for water supplied through meters, on the alleged ground of leakage caused by defective plumbing and worn-out service pipes, or by willful waste of water by tenants allowing the faucets to be turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premises.

The main object of the use of water-meters is to enable this Department to detect and check the useless and unwarrantable waste of an element so valuable and essential to the health and comfort of all the citizens, and this object can only be accomplished by enforcing payment for the water wasted.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises responsible for the amount of water used or wasted.

Notice is therefore given to all householders that, in all further applications for reduction of water rents, no allowance will be made on account of waste of water occurring through leaks, from defective service pipes or plumbing, or wasteful use of water by tenants or occupants of buildings, though such leakage or waste may have occurred without the knowledge or consent of the owners of the buildings.

House-owners are further notified that whenever their premises become vacant, and are likely to remain vacant, they must notify this Department in writing, and that unless this requirement is complied with no deductions in extra water rents will be allowed for any portion of one year.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, or surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of the persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and in all respects true and correct, and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be

entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to be surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after notice that the same has been awarded to his or their bid or proposal, or if he or they accept, but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as failing to execute the contract; and the contract will be re-advertised and let as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the same of the same on exhibit at the office of the said Department. IN RELATION TO JURORS FOR STATE COURTS.

OFFICE OF THE COMMISSIONERS OF JURORS,  
ROOM 127, STEWART BUILDING,  
CHAMBERS STREET AND BROADWAY,  
NEW YORK, June 1, 1886.

APPLICATIONS FOR EXEMPTIONS WILL BE heard here, from 10 to 3 daily, from all persons who are liable or recently liable to have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible, and at this office only) under severe penalties. If exempt, the party must bring proof of exemption; if liable, he must also answer in person, giving full and correct name, residence, etc. No attention paid to letters.

Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or tolerance permitted. The fines if unpaid will be entered as judgments upon the property of the delinquents.

All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States and District Court jurors are not exempt. Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. It is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to jury service, or to withhold any paper from any false statement, and every case will be fully prosecuted.
