Which were adopted by the following vote:

Afternative—The Mayor, Comparable, Corporation Coursel, President of the Council and President of the Department of Taxes and Assessments—5.

The Comptroller presented the following :

DEPARTMENT OF CORRECTION OF THE CUTY OF NEW YORK, COMMISSIONER'S OFFICE, NO. 148 EAST TWENTIETH STREET, NEW YORK, June 3, 1901.

Hon. ROBERT A. VAR WYCE, Mayor, and Chairman, Board of Estimate and Apportionment :

Hon. Robert A. Van Wycz, Mapov, and Charleman, Beard of Estimate and Apportionment:

Dam Size—I would respectfully ask that your Honorable Board will transfer the sum of one
showand seven hundred and fifty dollars (\$1,750) from the appropriation for "Salaries, Borough
of Brooklyn," to the appropriation for "Solaries, Borough of Manhattan," both for the year 1901.

The reason for making the above request is that I desire to transfer for the remainder of
this year three Keepers, or an annual salary of \$1,000 cach, from the Kings County Pealtentiary
to the City Prison (Tombs), where during the alterations and additions being made it will be
necessary to have an increased number of Keepers in order to assure the safety of the prisonera.

Trusting that your Honorable Board will grant this request, I remain,

Very respectfully,

FRANCIS J. LANTRY, Commissioner.

And offered the following:

Resolved, That the sum of one thousand seven hundred and fifty dollars (\$1,750) be and hereby is transferred from the appropriation made to the Department of Correction for the year 1901, entitled "Salaries, Borough of Brooklyn," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the said Department for 1901, entitled "Salaries, Borough of Manhattan," the amount of said appropriation being insufficient.

DEPARTMENT OF WATER SUPPLY—COMMISSIONER'S OFFICE, NOS. 13 TO 21 PARE ROW, CITY OF NEW YORE, May 21, 1901.

Hon. ROBERT A. VAN WYCK, Mayor, Chairman, Board of Estimate and Apportionment.

DEAR SIR—Chapter 570 of the Laws of 1901 empowers the Board of Estimate and Apportionment:

DEAR SIR—Chapter 570 of the Laws of 1901 empowers the Board of Estimate and Apportionment to set apart for a storage reservoir, for the use of this Department in the Borough of Brooklyn, a certain area of land, not exceeding 70 acres, in Forest Park, Borough of Queens, as ashown and described on a map on file in the Brooklyn offices of this Department, and directs that the Commissioner of Water Supply shall, when authorized by your Board, deliver a certified copy of such map to the Commissioner of Parks for the Borough of Brooklyn, by whom such certified copy of the map shall be filed to the office of the Department of Parks of the City.

The act further authorizes the Commissioner of Water Supply, upon such filing of the certified copy of the map, to enter upon and use such land for the purpose of constructing and maintaining a storage reservoir.

ing a storage reservoir. It further authorizes the construction of the reservoir by contract or contracts and the issue

of Corporate Stock to pay for the same.

In pursuance of this set I berewith submit to your Board, for approval and for anthority to

file, as required by the set, a certified copy of the map thursin referred to, and respectfully ask the early and favorable action of the Board in the premises.

Very respectfully,

WILLIAM DALTON, Commissiones of Water Supply.

CITY OF NEW YORK—DEFARTMENT OF FINANCE, COMPTROLLER'S OFFICE, May 31, 1901.

Hon. BIRD S. COLER, Comptroller;

May 31, 1902.

**More Blad S. Coler, Completeller :

Sir.—Hos. William Dalton, Commissioner of the Department of Water Supply, in communication to the Board of Estimate and Apportionment May 21, 1901, says:

"Chapter 570 of the Laws of 1901, empowers the Board of Estimate and Apportionment to set apart for a storage reservoir, for the use of this Department in the Borough of Brooklyn, a certain area of land, not exceeding 70 acres, in Forest Park, Borough of Queens, as is shown and described on a map on file in the Brooklyn offices of this Department, and directs that the Commissioner of Water Supply shall, when authorized by your Board, deliver a certified copy of the map shall be filed in the office of the Department of Parks of the City.

"The art further authorizes the Commissioner of Water Supply, upon such filing of the certified copy of the map, to enter upon and use such land for the purpose of constructing and maintaining a storage reservoir.

"It mether authorizes the construction of the reservoir, by contract or contracts, and the issue of Corporate Stock to pay for the same.

"In pursuance of this act I berewith submit to your Board, for approval and for authority to file, as required by the act, a certified copy of the map therein referred to, and respectfully ask the early and favorable action of the Board in the premises."

There appears full evidence that this additional reservoir is an absolute necessity for the water supply of the Borough of Brooklyn, and there appears to me no reason why the land shown on the map described in section to of the law should not be set apart by the Board of Estimate and Apportionment and devoted for a reservoir for the Department of Water Supply of The City of New York for the storage and supply of water for the Borough of Brooklyn, in said City of New York and for dams, chambers, gate-houses, keeper's house, mains, pipes and property appurtenant to such reservoir.

I see no objection to the Board of Estimate and Apportionment authorizing the Commis-

New York, and for dams, chambers, gate-houses, keeper's house, mains, pipes and property appurtenant to such reservoir.

I see no objection to the Board of Estimate and Apportionment authorizing the Commissioner of Water Supply to deliver the certified copy of the map referred to to the Commissioner of Parks for the Borough of Brooklyn, as designated in section 2 of the law.

The Board of Estimate and Apportionment receives no further mention in the law.

By section 3 the Commissioner of Water Supply is authorized to cause forms of contract, plans and specifications to be made for the work to be done, and mid Commissioner is also authorized, as soon as such contract, plans and specifications shall have been completed, to take the necessary steps, as provided by law, to secure the authorization of said work, and of an issue of bonds as Corporate Stock of The City of New York in payment. Perhaps the Board of Estimate and Apportionment may again appear there, though not mentioned in the law,

No estimate is given as to the cost of this reservoir, but I am informed by Mr. Birdsall, the Chief Engineer of the Department of Water Supply, that it may amount to \$1,500,000.

The certified copy of the map referred to is berewith torloaded.

Respectfully,

Respectfully, EUG. E. McLEAN, Engineer.

Copy of the law is inclosed, also brief submitted by the Joint Committee of Manufacturers' Association, Brooklyn Committee of Fifty and Brooklyn League, is favor of the passage of the law by the Assembly.

EUG. E. McLEAN, Engineer.

And offered the following:

Resolved, That, pursuant to the provisions of chapter 570 of the Laws of 1901, the Board of Estimate and Apportionment hereby sets apart and devotes for a storage reservoir for the Department of Water Supply of The City of New York, for storage and supply of water for the Borough of Brooklyn, and for dams, chambers, gate-houses, keeper's house, mains, pipes and property appurtment to such reservoir, so much of the land, not exceeding seventy (70) acres, lying in Forest Park, Queens County, Borough of Queens, as is shown and described upon a map on file in the branch office of the Department of Water Supply, located in the Borough of Brooklyn, entitled "Map Showing Boundary Lines and Area of Land Required for Proposed Storage Reservoir at Forest Park, Queens County, Borough of Queens, New York," and designated as Plate No. 2115A, which map is dated December, 1900, and signal by Robert Van Buren, Engineer-in-Charge, and I. M. DeVarona, Engineer of Water Supply: and

Resolved, That the Commissioner of Water Supply of The City of New York be and hereby is authorized to deliver a certified copy of said map to the Commissioner of Parks for the Borough of Brooklyn, and to take such other steps as may be necessary to carry out the provisions of said chapter 170 of the Laws of 1901.

Public School 22, Stanton and Sheriff Streets, Borough of Manhattan.

The new addition to Public School 22 will be erected on Sheriff street, at the northerly end of the present building. It will have a frontage of 75 feet, with an ell 100 feet deep, and he five stories and cellar in height.

stories and cellar in height.

The exterior will be of red brick and granite, following as closely as possible the design of the present structure. The cellar is to be used for heating apparatus and coal storage.

The first story, which is on a level with the street, will contain indoor playrooms, in which the old building is sadly deficient.

The second, third and fourth stories are divided into five class-rooms each, and the fifth story is so laid out that it may be used for manual training purposes or afford five additional class-rooms.

The plans also provide for the removal of the casterly wing of the present building, which at present has three class-rooms on a floor, each of which is 16 by 18 feet in size, unprovided with any form of ventilation, the balance of the space being occupied by a dargerous stairway, unsanitary teachers' rooms, etc.

Additional exit facilities are required on this side of the building, and it is found impossible to make proper alterations to improve either the stairs or to increase the size of the class-rooms. Insanuch as this can never be done after the new wing has been erected, it was thought best to incorporate it in the present plans and specifications.

The present scating capacity of the class-rooms is from 24 to 30 pupils, with but one or two aisle spaces, each seat being placed close to the adjoining one.

The new wing will provide for three class-rooms of the proper size, with a scating capacity of 50 children each; also a safe and proper stairway, affording the additional exit facilities required.

required.

The new wing will be connected with the old building on each floor.

Siz.—The Board of Education, by resolution adopted May 22, 1901, appropriated, subject to the approval of the Board of Estimate and Apportionment, the sum of twenty-five thousand aine hundred and eighteen dollars (\$25,918) from premiums derived from the sale of Corporate Stock, heretofore issued by the Comptroller pursuant to section 48 of the Greater New York Charter; said sum to be applied in payment of the contracts to be entered into by the Committee on Buildings, for and on behalf of the Ecard of Education, with the undermentioned contractors for the autopasses attentioned. for the purposes mentioned :

NEW PUBLIC SCHOOL 178, BOROUGH OF THE BRONX. Electric Lighting Plant, Fixtures and Electric Bell System. Frederick Pearon \$4,520 00 Heating and Ventilating Apparatus.

Proposals were invited for this work, on carefully prepared plans and specifications, and by advertisements in the City Rucogo, and for electric ligating plant, fixtures and electric bell system, four bids were received, ranging from \$4,520 to \$5,780; and for the heating and ventilating apparatus, eleven (11) bids were received, ranging from \$21,308 to \$25,677. Award was made to the lowest hidder in each case, as above.

The first contract with Frederick Peace is for the complete wiring of the building for electric light and electric bells, together with the formishing of all fixtures for the same. The electricity will be taken from an outside source.

The second contract with the New York Steam Fitting Company comprises the entire heating and ventilating of the building by the Plenum system, reinforced by direct radiation, hot water being used in place of steam in the radiators and colls.

Two boilers are to be furnished, which will run two stationary engines, the exhaust from which heats the water. The circulation of the water through the pipes is obtained by means of a pump run by an electric motor.

In extremely cold weather, the exhaust from the engines may not be sufficient to heat the water to the required temperature, and for this emergency an annihilary heater is supplied, where by means of live steam from the hoilers the temperature is further raised to the required degree.

I see no reason why the appropriation as made may not receive the approval of the Board of Estimate and Apportionment.

How. Binn S. Colen, Comptroller:

Sir.—The Board of Education by resolution adopted May 22, 1901, appropriated, subject to the approval of the Board of Estimate and Apportfonment, the num of one hundred and two thousand one hundred and fifty-seven dollars (\$102,137), from premiums derived from the sale of Corporate Stock of The City of New York, heretointe issued by the Comptroller, pursuant to section 48 of the Greater New York Charter; said sam to be applied in payment of the contract to be entered into by the Committee on Buildings, for and on behalf of the Board of Education, with Rusan & Heningham, contractors, for erecting new Public School 132, Borough of Brooklyn.

Proposals were invited for the above work on carefully prepared plans and specifications and by advertisements in the CITY RECORD, and fourteen (1a) bids were received, ranging from \$102,157 to \$114,000. Contract was awarded to the lowest bidder, Rutan & Heningham, at their bid of \$102,157.

I submit herewith a description of the building as furnished me by Superintendent of School Buildings Snyder as follows:

"New Public School 132 is to be erected on Manhattan avenue, between Metropolitan avenue

and Conselves street.

"The structure will be 152 feet long by 65 fest deep, three stories and basement in height.

"The structure will be 152 feet long by 65 fest deep, three stories and basement in height.

The exterior will be of red sandstone, red brick and terra-cutia, with a sing or gravel roof. The trasement will contain indoor play-rooms with space for heating and ventilating apparatus.

"The first and second stories each have eight class-rooms, the third story four class-rooms and massibly room. Total, twenty rooms and assembly.

"The structure is fireproof throughout, and is so laid out as to provide for the erection of additions at the sides thereof as the demands of the neighborhood may require additional school facilities.

"The contract is for general construction."

There is no reason why the appropriation as made may not receive the approval of the Board of Estimate and Apportionment.

Respectfully, EUG. E. McLEAN, Engineer.

And offered the following:

Resolved, That the Board of Estimate and Apportionment hereby approves of the appropriation of one hundred and two thousand one hundred and fifty-seven dollars (\$102,157) from premiums derived from the sale of Corporate Stock of The City of New York, pursuant to section 48 of the Greater New York Charter; said sum to be applied in payment of the contract to be entered into by the Committee on Buildings, for and an behalf of the Board of Education, with Rutan & Heningham, contractors, for creeting new Public School 132, Borough of Brooklyn, as specified in the resolution relating thereto, adopted by the Board of Education May 22, 1901.

In explanation of the above resolution I quote from the minutes of the Board of Education of May S, 1301, page 509:

" To the Board of Education :

"The Committee on Buildings respectfully reports that it has been advised by the Corpora-tion Counsel that the case of Singer against the City, in which it is alleged that the City wrong-fully took possession of a strip of land belonging to said Singer, and located on the northerly side of the site of Public School 66, Borough of The Bronx, has been decided by the Court of Appeals in favor of the staints." in favor of the plaintiff,

The encreachment occurred through an error in the condemnation proceedings, the facts

in favor of the plaintiff.

"The encorachment occurred through an error in the condemnation proceedings, the facts being as follows:

"In 1892 the Board of Education decided to secure for school purposes a plot of ground on the northwest corner of Church street and Weber's lane, being 200 feet front on the street and 150 feet on the lane.

"The survey made for purposes of condemnation proceedings, and dated June to, 1892, places the southerly line of the property on the "present line of Weber's lane."

"The description drawn by a former counsel to the Board of Education omits the words present line of Weber's lane, simply placing the line on "Weber's lane."

"It appears that the lane was laid out on the maps of 1877 as widened 13 feet 6 inches on its sortherty side, but no proceedings had ever been instituted to carry the widening into actual effect, and therefore the omission to state in the description whether the southerly line was present line of Weber's lane, or Weber's lane as widened, was a vital defect when the case came to trial, although not noticed and latter the school premises had been improved.

"In the making of a building survey by a City Surveyor, the description as recorded in the minutes of the Board of Education was used, and he therefore placed the southerly line on Weber's lane as appearing on the city maps, thus throwing the plot 13 feet 6 inches further north than shown on the original condemnation map on file in the stegister's office.

"The improvements placed upon the plot in 1894 consisted of a school building, which is not affected by these proceedings, and a story-and-a half frame house for the Janitor, a portion of which falls within the new boundary line.

"The decision restores the strip of land 13 feet 6 inches by 150 feet deep in the original owner, carrying with at whatever improvements the Board may have placed thereon. It therefore becomes necessary to either relinquish the strip in question or acquire the same at once.

"Veur Committee theoryters offers the following resol

In accordance with the above resolution the Corporation Counsel made an offer of settlement to the plaintiff in the case and the terms which were accepted are embodied in the resolution as quoted above. A copy of the communication from the Corporation Counsel to the Board of Education informing the Board of such settlement is as follows: " NEW YORK, May 15, 1901.

Hon. MILES M. O'BRIEN, President, Board of Education :

"Hon. Miles M. O'Brien, President, Board of Education:

"Sir - I am in receipt of a communication from Mr. Palmer, Secretary of the Board, under date of May 9, enclosing certified copy of a report and resolution adopted by the Board of Education at a meeting held on May 8, 1901, relative to the action of Singer vs. The City of New York, in the matter of the encroachment of school premises, Public School 66, Borough of The Bronx, which resolution reads as follows:

"Resolved, That the Corporation Counsel he requested to make such settlement of the rase of Singer vs. The City of New York in the matter of encroachment of school premises, Public School 66, Borough of The Bronx, as may in his judgment seem advisable."

"Under the discretion vested in me by this resolution, after considerable negotiation, I made an offer to Mr. Ordway, the counsel for Singer, of \$2,500, together with interest from July 1, 1893, the date when the City took passession of the property, down to the date of payment, and am just in receipt of a letter from Mr. Ordway, in which he says:

"I have consulted Mr. Singer in regard to the suggestions made by you at our conference with you the other day, and am authorized by hun to say that Mrs. Singer will give a deed of the strip of property in question to the City on payment of \$2,500 with interest thereon at 6 per cent, per annum from July 1, 1892, the date when the City took possession of the property, down to the date of payment,

"We shall be ready to deliver the deed of the property whenever the City in ready to make payment therefor.

"Under all the circumstances I regard this as a favorable settlement. It is practically paying \$2,500 for a sixtp of 13 feet 6 inches by 150 feet and so much of the building as stands thereon, because, as I stated in conversation, Mrs. Singer would own the building.

"The interest being nearly eight years unfortunately swells the sum to be paid.

"I feet myself free to reply to Mr. Ordway that the proposition may be considered as accepted; at the same time I

"Respectfully yours, (Signed) "JOHN WHALEN, Corporation Counsel."

Although this is a settlement made under a decision of the Court of Appeals, the transaction is that of the purchase of real property, and pursuant to section 149 of the Greater New York Charter the assent of the Comptroller must be given.

Under the circumstances, I am of the opinion that you may properly give such assent to the purchase of this property at the price agreed upon, and that the Board of Estimate and Apportionment may approve the appropriation as made by the Board of Education.

I give below a diagram showing the property acquired in the condemnation proceedings June 29, 1893, and also the strip of land to the north of the same upon which the City encroached, and which it is now proposed to pay for and receive a deed in fee.

Respectfully,

E.U.G. E. McLEAN, Engineer.

Mrs. Isabelia Moore, owaer of the premises, No. 206 South Fifth street, in a communication under date of April 19, 1901, addressed the Comptroller as follows:

"In tearing down the house No. 204 South Fifth street (which is next to mine), for bridge purposes, my hame has been damaged to such an extent that it is now unsafe to live in it. It is a total wreck. The party wall has been knocked in, the ceilings and windows broken, and it is very dangerous for my family to live in. I cannot afford to move until the house is bought, and I appeal to you as the only one who can help me in this matter, as the Commissioners inform me they are powerless to do anything without your permission."

—and in a report made by me, under date of April 26, 1901, I stated in part as follows:

"I have caused an examination to be made of the premises, No. 206 South Fifth street, Horough of Brooklyn, and find the facts to be substantially true as stated in Mrs. Isabella Moore's communication.

communication.

"The building is a two-and a-half story frame structure, with a party-wall on the side next to No. 204. In demolishing the latter, this party-wall has been so injured as to cause serious damage, from exposure to the weather, to the interior of No. 206, as well as possible risk and langer to the stability of the entire building. The roof, also, of No. 206 has been so broken and damaged as to permut the free entrance of water into the building, and already considerable

damage has been sustained thereby.

The premises are known on the Assessment Map of the Thirteenth Ward of the Borough of Brooklyn as Lot No. 12 on Block No. 60. The assessed valuation for 1901, is \$2.500.

reason of the present condition of the property, and held liable in an action at law, it would seem to me to be for the City's best interest to acquire this property at once by purchase.

'' If acquired, the building should be allowed to stand to protect the adjoining property, and thus prevent a similar cause of damage to No. 208 South Fifth street.

'' It will be necessary for the New East River Bridge Commission to enter into a contract for the purchase of this property with the owner; such contract should be submitted to the Board of Estimate and Apportionment for approval.''

The Compression, ander date of April 25, 1901, addressed the New East River Bridge Commission in relation to the premises, in which he stated:

'' Under the peculiar circumstances in this case, I beg to advise you that should the Commission enter into negotiations with the owner for the purchase of this property, at a reasonable price, I would be willing to recommend that the Board of Estimate and Apportionment approve of such purchase, but it is only under the exceptional circumstances surrounding this case that I would recommend such approval, and would not consider such recommendation to establish a precedent for any further purchases of property, at private sale, not included within the lines of the condemnation proceedings now under way.''

The size of the lot is 20 feet by Ico feet.

From the assantination proviously made, I epasider that the price, upon which the property is now offered to the Commission, to be reasonable and fair, and that the Board of Estimate and Apportionment may properly approve of the purchase at the price named.

MUNICIPAL CIVIL SERVICE COMMISSION OF THE CITY OF NEW YORK, NEW YORK LIFE BUILDING, NO. 346 BROADWAY, NEW YORK, June 6, 1901.

Michael T. Dalv, Esq., Deputy Comptroller, City of New York;

Dear Ste-Replying to your communication of the 4th instant, in the matter of the adjustment of claim of Emil Kunali, as Interpreter in the Magiarantes Court, First Division, I desire to inform you that our records show that he was appointed I annary 17, 1898, under Regulation 34 of the Rules of 1898, in the absence of an eligible list for that position, and that his term expired by the operation of the White Law on August 11, 1899.

That on July 28, 1899, I informed the Hon-Joseph M. Denel, President of the Board of City Magistrates, that I would be snable to attach the certificate of the Municipal Commission to the pay-roll of said Kunzli from and after August 10, 1899, in conformity with the law above relerved to.

Respectfully yours, LEE PHILLIPS, Secretary.

CITY OF NEW YORK-DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE, June 12, 1901.

In the Matter

The Claim of Emil Kunzii for compensation for services as "Interpreter" in the City Magistrates Court, First Division, presented pursuant is the provisions of chapter 318, Laws 1501, for audit and allowance by the Board of Estimate and Apportionment of The City of New York.

Hon. BIRD 5. COLER. Comptraller :

Ste—Said claim as presented by Emil Kunzil is as follows: "From August 11 to 31, 21 days	\$86 28 125 00 73 96
_	\$28¢ 24

"Rate \$1,500 per annum."

Correctly calculated and stated, said claim should be as follows:

From August 11 to 31, 21-31 month.

September, 1 month.

Erum October 1 to 18, 18-31 month. \$84 68 125 00 72 58

With the exception of some erroseous statements of dates, the facts as stated in the certificate made by Justice Benel, President Board of City Magistrates, would seem to be correct.

It is manifest that the statement made therein that said Emil Kunzli "was certified for payment at the rate of fifteen handred dollars per year for the entire month of July, 1899, he having served during cock month, but the said Commitmed to state the month of the tenth of that month "is erromeous and that the Justice must have intended to state the month as Aogest and not July, 1890.

In a communication addressed to the Comptroller under date of June 6, 1981, Lee Phillips, Esq., Secretary, Municipal Civil Service Commission, states as follows:

"Replying to your communication of the 4th link, in the matter of the adjustment of claim of Emil Kunzli, as Interpreter in the Magistrates Court, First Division, I desire to inform you that our records show that he was appointed January 17, 1893, under Regulation 34 of the Rules of 1898, in the absence of an eligible list for that position, and that his term expired by the operation of the White Law on August 11, 1899.

"That on July 28, 1899, I informed the Hon, Joseph M. Deuel, President of the Board of City Magistrates, that I would be unable to uttach the certificate of the Municipal Commission to the pay-roll of said Kunzli from and after August 10, 1899, in conformity with the law above referred to."

Emil Kunzli was paid his salary at the rate of \$1,500 per annum for the manth of July and up to and including August 10, 1809. The pay-rolls covering said periods were duly certified by the Municipal Civil Service Commission, and it appears from the act itself (chap 318, Laws 1901), that the period enverse by the claim is from August 11 to October 18, 1899, both inclusive.

The rates as to the appointment and service of claimant as they appear from the records are that said Emil Kunzli was first appointed on January 10, 1898, as Interpreter, at \$1,500 per annum; that said Emil Kunzli w

qualified for the duties of such office.

If further appears that, with the approval of said Commission, said Emil Kunzli was continued as such interpreter pending the preparation of a new eligible list of interpreters by said Commission, but that, under the provisions of the White Civil Service Law and of the regulations promulgated by the said Commission pur-aunt to said act, no compensation could be paid to said Emil Kunzli subsequent to August 10, 1899.

It would further appear that it was deemed by the Board of City Magistrates as absolutely necessary in continue the services of said Interpreter until such time as there could be an eligible list prepared from which an appointment could be regularly made; that said Emil Kunzli was examined by said Commission on September 27, 1899; that his name was placed upon the eligible list; and that he was duly certified to and appointed by said Board of City Magistrates from said eligible list on October 19, 1899.

It further appears that the rate of compensation, \$1,500 per annum, is the same as that paid to other interpreters employed in the Magistrates' Coprt, First Division. At such rate of compensation, the amount which would be allowable for the period from August 11 to October 18, 1899, both inclusive, would be the sum of \$282,26.

Respectfully,

WILLIAM J. LYON, Anditor of Accounts.

NEW YORK, June 12, 1901.

I hereby certify that I have examined the records of the Department of Finance and that no other claims for the same compensation as that covered by Emil Kunzli, Interpreter, Magistrates' Court, First Division, or for any portion thereof, has heretofore been presented to or paid by the Department of Finance, and no assignment to or lien or claim against said claim has been filed in the Department of Finance.

H. V. BROCKWAY, Examiner.

It appears by a careful examination of the records of the Department of Finance that for the periods claimed and to date no payments have been made in part or in whole of the above claim. PHILIP J. McEVOY, Anditor of Accounts.

And offered the following :

Resolved. That pursuant to the provisions of chapter 3/8 of the Laws of 1901, the Board of Estimate and Apportionment hereby audits and allows the claim of Emil Kunzli for services rendered as Interpreter in the City Magnetiates' Court, in the year 1809, at the sum of two hundred and eighty-two twenty-six one hundredlin dallars (\$282.26), and that for the payment thereof the Comptroller he and hereby is authorized to issue revenue bonds of The City of New York, bearing interest at a rate not exceeding three per cent. per annum and redomnable from the tax levy of the year 1902, to the amount of two hundred and eighty-two twenty-six one hundredth dollars (\$282.26). Hon, ROBERT A. VAN Week, Mayor and Chairman of the Board of Estimate and Apparticument:

Six—This Board desires to acquire title to the private interests bereinsiter described. A statement of the assessed valuation thereof was received from the Department of Taxes and Assessments, under that of January 16, 1901, and transmitted to you in a communication addressed to your Honorable Board under date of January 18, 1901.

The property is described as follows:

The property is described as follows;

Beginning at a point on the northerly side of West Fifteenth street distant 183.24 feet westerly from the westerly line of Tenth avenue; running thence westerly along the northerly line of Fifteenth street to the easterly line of Eleventh avenue; thence northerly along the northerly line of Fifteenth street to the easterly line of Sixteenth street; thence easterly along the southerly line of Sixteenth street; thence easterly along the southerly line of Sixteenth street; thence easterly from the westerly line of Tenth avenue; thence southerly along the casterly line of the marginal street, wharf or place established by the Board of Docks January 14, 1898, and approved by the Commissioners of the Sinking Fund March 11, 1898, 221,37 feet to the northerly side of Pitteenth street to the point or place of beginning, together with the bulkhead on the westerly side of Thirteenth avenue opposite thereto, between the northerly line of Fitteenth street and the southerly line at Sixteenth street, extended, a distance at 217.83 feet, together with all rights of wharfage, cranage, advantages, emoinments and appuremances connected therewith, and amount on the Tax Maps, as part of Lot No. 1, on Block 687, assessed at \$325,000, and Lots Nos. 5 and 6, on Block 662, assessed at \$65,000.

I have been directed by the Board governing this Department to respectfully request the Board of Estimate and Apportionment to authorize the institution by the Corporation Connael of proceedings for the condemnation of the above-described property, the necessity for which was made apparent to your Honorable Board, and approved at a saccting held February 7, 1901.

Yours respectfully.

Hon. Harn S. Corza, Comptroller:

Six—The Board of Estimate and Apportionment, by resolution passed February 7 last, approved the condemnation of the property and water rights between Filtrenth and Sixteenth streets, North river. This resolution was subsequently rescinded.

The Department of Docks and Ferries has renewed the application to the Board of Estimate and Apportionment for consent to the condemnation of said property and water rights. Unless this consent is obtained the improvement now under way between Bloomfield and West Twenty-third streets will be cut into two sections, and two of the five proposed large piers rannot be built.

I enclose memorandom from the Engineer-in-Chief of this Department as to the effect of the omission of the black in question from the area of the proposed improvement; also a diagram of the improvement, the two piers which cannot be built until the property referred to is condemned being marked in red.

being marked in red.

Vours respectfully, J. SERGEANT CRAM, President.

DEPARTMENT OF DUCKS AND FERRIES, PIER "A," FOUT OF BATTERY PLACE, NORTH RIVER, OFFICE OF THE REGINEER-IN-CHIEF, NEW YORK, June 5, 1901.

MEMORANDUM FOR PRESEDENT CRAM.

Noting your question a few days since relative to the manit of leaving out the property between Friteenth and Sixteenth streets, North river, from the condemnation proceedings pending for the improvement between Bloumfield street and West whenty-third street, I beg to call your attention to the attached map, in which you will note that the leaving out of this block will prevent connection between the improvement already made by the Department stretched of the New West Washington Market and this improvement now contemplated lying north of West Washington Market.

The development and use of the marginal street in a commercial way is, to a considerable extent, dependent upon its uninterrepted length, an that ready socies may be had from one pier to another.

As you are aware the Trans-Atlantic lines using the pers which are of about the same length and width in the section of the North river improved between West Eleventh street and West Washington Market, have in many cases leased two piers adjacent to one another for their particular line of business—this applies to the White Star Line and the Conard Line.

If the property between Fitteenth and Sixteenth streets, North river, is not acquired by the City, it will be practically impossible to build two piers between Fitteenth and Sixteenth streets, the most southerly pier of which, as you may note on the plan, intersects the build-line at about the northerly line of Fifteenth street, could not be used owing to the fact that it would be impossible to dredge out and make the proper depth of water along the northerly side of the pier. The pier immediately north of this marked "B" on the plan, could not be built owing to the fact (fast the pier, as planess), occupies a certain portion of the block in question between Fifteenth and Sixteenth streets. In other words, the omission of the block between Fifteenth and Sixteenth streets from City ownership will not only interfere with the use of the piers immediately north of Sixteenth street, owing to the fact that the marginal street cannot be carried through Fifteenth and Sixteenth streets, but it will also render it impossible to build two of the largest contemplated piers in this proposed improvement.

Von will cote by the plan that order the plan proposed it is only possible to build a total of two piers unliable for the largest Trans-Atlante illners and out of these five, two cannot be built unless the block between Fifteenth and Sixteenth streets is acquired.

Respectfully submitted.

L. A. RENESEL Engineer.

Respectfully submitte

J. A. BENSEL, Engineer-in-Chief.

chase of three additional horses, it is hereby.

Ordered, That the First Deputy Commissioner be and is hereby authorized and directed to
purchase three additional horses for the Mounted Service in this Department, and that requisition
be made therefor.

Oedered, That paragraph C of Rule 31, relative to "Buttons," be amended so as to read

as follows;
Buttons—Cost of arms of The City of New York, made to conform with the great seal of The City of New York now used and approved at the City Hall. This cost of arms is surrounded by a highly burnished, bright flat ring. Between this and the burnished outer rim of the button are the words, "New York City Police," surmousted by a five-pointed star, all brought out in the highest artistic relief. The shell of these buttons is made of the best gilding metal, known as Prince's Metal Creide. These shells are extra heavy, double plated by the fire gilding or atmalgamating process, with 24-cats fine gold, and they will not change color or become tarnished when exposed to the air. The backs are of good brazing brazes, known as French gilt, and burnished to preserve the cloth they come in contact with un the coats. The fastening of the buttons shall be a patented two-prouged wire with spring attachment and inside securing plate, as per sample in cloth room.

THE CITY OF NEW YORK—DEPARTMENT OF FENANCE, COMPTROLLER'S OFFICE.

To the Helders of Six Per Cent. Gold Consolidated Slock of the County of New York, Payable July

THE FOLLOWING IS AN EXTRACT FROM
the precedings of the Commissioners of the
Sinking Fund at a meeting held Tuesday, February

19, 1931;
The Comptroller presented the following report and accompanying resolution relative to the redemption of six per cent, Gold Considilated Stock of the County of New York, maturing July 1, 1901;

City of New York, Department of Finance | Computation's Office, February 15, 1981. | the Commissioners of the Scaling Fund:

Generalization General, Fabruary 15, 1920.

To the Considerances of the Scaling Familians.

Generalization of the Scaling Familians are considered Storic amounting to eight million eight heart of the thousand free hundred dollars [82,855,500], which has exceed by the County of New York process or July 1, 1920.

The said stock is all held by the public and is payable from the Sinking Fund for the Redemption of the City Dent (No. 1), under the provisions of section 21 of chapter 378 of the Laws of 1807.

Under an amendment to the Constitution of the State of New York adopted at the general election held in the year 1809, the Said stock is exempted, for the deliverent receive purposes of section to of article VIII. of the Constitution, from classification as a City debt.

In view of the present heavy demands upon the City's debt incurring capacity, respecially for sayil transat and bridge construction, it is desirable to retain the advantage gained by such exemption. This advantage wome to practically lost as to the amount of said stock if it were to be redeemed out of the Sinking Fund, or if it were restanded by the issue of Corporation, if it were stoned by the issue of Corporation of the City of New York.

I therefore propose to extend the maturity of a considerable propertion, if not the whole of such stock, for periods not exceeding twenty years, under the antinority conferred upon me by chapter 6,00 of the Laws of 1900 upon the best obtainable terms for the City.

It is not unbicely, however, that it may prove impossible to extend certain portions of said stock.

Respectively.

Signed. ELED S. COLER.

Respectfully, (Signed) BIRD S, COLER, Companiller,

Whereas, Six per cent. Gold Consolidated Stratissued by the County of New York prior to its consolidation with the former City of New York, amounting to eight million eight hundred and eighty-five thousand five fundred dollars (83,85,30), manues july 1, 1901, and is payable from the Sinking Fund for the Redemption of the City Debt (No. 2), under the previsions of section 213 of chapter 138 of the Laws of 1807;

Whereas, the Comptroller purposes, under the authority of chapter 630 of the Laws of 1300, to extend for periods not exceeding twenty years the maintiry of as much of said stock as he may be able to so extend apon serins advantageous to the City: therefore.

Resolved, That the Comptroller be and is terreby surboursed to pay out of the Sinking Fond for the Redmintion of the City Debt (No. 1), such portion of the six por cent. Gold Consolidated Stock of the County of New York, payable July 1, 1901, as the may be unable to extend upon terms deemed by him to be advantageous to the City.

The report was accepted and the resolution unantomously adopted.

For the reasons set forth in the forceoing report to the Commissioners of the Sinking Fond, the Compiroller of The City of New York will avail himself of the provisions of chapter 630.
