

Give food scraps new life!

Get a free brown bin for your apartment building.

NYC Sanitation is turning food scraps, food-soiled paper and plant trimmings into clean energy and compost to build healthy soil.

Plus, putting organics into a brown bin — instead of a garbage bag — helps keep rodents and pests away.

Live in a building with at least 10 apartments? **Let us know you want to join the program!**

1 Provide your building's information at on.nyc.gov/request-organics.

2 We'll schedule a visit with building management to create a plan that works for you.

Learn more at nyc.gov/organics.

New Collection Service Available!

Request curbside organics collection for your building.
