PURCHASE OF A TEST BENCH FOR DEP'S METER FACILITIES - Sole Source - Available only from a single source - PIN# 82623Y0312 - Due 3-7-23 at 4:00 P.M.

DEP, intends to enter into a sole source agreement with MARS Company, for the Purchase of a Test Bench for DEP Meter Facilities, in the amount of \$165,719.00. The DEP Meter Testing Facility contains three benches used to test the accuracy and efficiency of water meters for our entire system. Each bench is designed to test a specific sized meter ranging from Small (5/8" - 1") - Medium (1 1/2" - 2") - Large (3" - 12"). The meters are tested when we receive billing complaints from

customers that have a discrepancy with their water bill. We also respond and provide test results when local elected officials make an inquiry on accuracy charges for their constituents. The bench assists in letting DEP know when meters should be removed from the system by using data of meters tested each day vs. the meter age and type in our system. We are able to determine failure rate of meters and can gauge meter removal needs based on our findings. This bench can only be obtained from MARS Company since they are the only manufacturer who produces computer driven high-speed water meter test equipment and turnkey installation packages in the United States. JCCGCI WORKFORCE DEVELOPMENT PROJECT - Negotiated Acquisition - Other - PIN# 06923N0009 - Due 2-24-23 at 3:00 P.M.

The Human Resources Administration (HRA), is requesting a one year Negotiated Acquisition (NA) under Sections 3-04 (b)(2)(i)(d) and 3-04(b)(2)(ii) of the New York City Procurement Policy Board Rules, with the Jewish Community Council of Greater Coney Island Workforce Development Project (JCCGCI WDP), developed to provide unique low-income, underserved clients of Williamsburg, Borough Park, Gravesend, and Far Rockaway communities, to voluntarily explore their interest in employment, participate in job readiness, literacy, and training opportunities, and potentially gain and retain sustainable employment.

The Human Resources Administration (HRA), is requesting the NA with the single vendor to continue the program into the next calendar year as a bridge until agency can complete a competitive solicitation for these services. The current demonstration project ended December 31, 2022. This will leave the hard to employ and underserved adults residing in the five targeted communities with no services until a new RfX is awarded. Most adults in these communities leave school/yeshiva with little or no knowledge of how to prepare for work, find employment, or select a career that will enable them to find economic independence. In turn, the goal is to help clients to compete for and secure jobs with better career and wage growth potential than they would be able to find on their own. The program indirectly has an economic impact on the families of the individuals served and increases the overall economic health and tax base of the communities being served by this project. This NA will ensure continuity of services while assisting client to obtain and maintain employment for the betterment of the individuals, families and communities being served.

BOARD OF HEALTH

Notice of Adoption of Amendments to Article 207 of the New York City Health Code

In compliance with section 1043(b) of the New York City Charter ("the Charter") and pursuant to the authority granted to the New York City Board of Health ("Board of Health") by section 558 of the Charter, a notice of intention ("NOI") to amend Article 207 of the New York City Health Code ("the Health Code") was published in the New York City Record on November 4, 2022, and a public hearing was held on December 6, 2022. No one testified at the hearing and two written comments were received. There were comments made by members of the Board of Health when the NOI was introduced at the Board meeting on October 25, 2022, regarding the documentation required to make birth certificate changes. For the reasons discussed below, no changes have been made to the proposed amendment to Article 207 based on these comments and at its meeting on February 9, 2023, the Board of Health adopted the following resolution.

Statement of Basis and Purpose of Proposed Rule

Section 207.01 of the Health Code allows the Department to correct or amend birth certificates of minors upon application of their parents, surviving parent, or legal guardians in limited instances. Pursuant to Section 207.01, all applications must be accompanied by supporting documentation and no application may be approved unless the Department is satisfied that the evidence submitted shows the true facts and that an error or omission was made at the time of preparing and filing of the certificate or confidential medical report of birth or that the name of a person named in a birth certificate has been changed pursuant to court order. New corrected birth certificates are issued when the change is made within one year of birth.

This seemingly simple process for a name change does not work for the roughly 75 to 80 child welfare cases a year where parental rights have not been terminated and a child has been placed in the care and custody of the Administration for Children's Services (ACS), such as when a child has been placed in foster care. Currently, Section 207.01 does not allow ACS or any other social services agency to apply for a name change in these circumstances. The need for a birth certificate correction is most pressing when a placeholder such as "Baby Boy," "Girl," or "No Name Given," is on a birth certificate, because without an actual first name, it is difficult to establish the child's identity for services, including Social Security and Medicaid coverage. Social services agencies must therefore obtain a court order to permit the Department to correct a birth certificate, which adds time and expense to an already lengthy process of placing children in foster care families, while also delaying the children's access to social services.

To address this issue, at the October 25, 2022 Board of Health meeting the Department proposed amending Section 207.01(a) to allow a government agency — ACS in New York City, the Office of Children and Family Services in the rest of New York State, and social services agencies of other states and localities — to apply for corrections to a birth certificate, on behalf of a child, when a court has granted care and custody of that child to the agency. During this meeting, Board of Health members expressed concern that these changes might be made without appropriate documentation of the child's name. In response, the Department notes that Health Code section 207.01(b) currently requires that "[e]very application shall be accompanied by supporting documentary evidence," which requires the requesting agency to provide evidence as to why the name requested is the proper one to use, and the Department reviews this documentation to ensure its accuracy. In response to another Board member's query, the Department notes that this amendment will apply to children

already in foster care. Therefore, the Board of Health is adopting the amendments as proposed so that the needs of children in the foster care system will more readily and seamlessly be met.

Statutory Authority

Section 558(b) and (c) of the Charter empower the Board to amend the Health Code and to include in the Health Code all matters to which the Department's authority extends. Section 558(c) of the Charter authorizes the Board to include in the Health Code provisions related to maintaining a registry of births and deaths. Section 556(c)(1) of the Charter authorizes the Department to supervise and control the registration of births and deaths. Section 1043(a) of the Charter grants rulemaking powers to the Department.

The amendments are as follows:

New material is underlined.

[Deleted material is in brackets.]

Asterisks (***) indicate unamended text.

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

RESOLVED, that subdivision (a) of section 207.01 of Article 207 of the New York City Health Code, set forth in Title 24 of the Rules of the City of New York, is amended to read as follows:

- (a) The Commissioner or the Commissioner's designee may approve the amendment of a birth, termination of pregnancy or death certificate, or of a confidential medical report of birth, spontaneous termination of pregnancy or death. Application shall be made on a form furnished by the Department. Application for amendment of a birth certificate [shall] may be made only by the person whose birth certificate is to be corrected if such person is 18 years of age or over, or by the parents or surviving parent of a child that is deceased, [or] by the legal guardian of the person whose birth certificate is to be corrected, or by an agency in accordance with subdivision (e) of this section [or by the person] if such person is under 18 years of age [or over]. Application for amendment of a spontaneous termination of pregnancy shall be made by the parents or surviving parent. Application for amendment of a death certificate, or of a confidential medical report of death shall be made by the person in control of disposition as defined in Article 205 of this Code or by the person identified on the death certificate as providing the personal particulars pursuant to Article 205 of this Code.

RESOLVED, that a new subdivision (e) be added to section 207.01 of Article 207 of the New York City Health Code, set forth in Title 24 of the Rules of the City of New York, to read as follows:

(e) When a court of competent jurisdiction has remanded or placed a child to the care and custody of the Administration for Children's Services or an authorized government social services agency outside of the City of New York responsible for the welfare of a child, as determined by the department, such agency may make an application for correction of a first name when none or a placeholder was provided on the original birth certificate.

What are we proposing? The New York City Department of Health and Mental Hygiene ("Department" or "DOHMH") is proposing that the Board of Health ("Board") amend Article 203 of the New York City Health Code ("Health Code") to align it with recently adopted New York State and New York City legislation to provide the same strong level of protection for confidential medical information about spontaneous terminations of pregnancy reported to the Department as that provided to induced terminations of pregnancy.

Statement of Basis and Purpose of Proposed Rule

Since 2019, the New York State ("NYS") Reproductive Health Act (NYS Public Health Law Article 25-a) has protected the right to an abortion throughout the State. The Act permits abortions when the patient is within twenty-four weeks from the commencement of pregnancy, there is an absence of fetal viability, or the abortion is necessary to protect the patient's life or health. NYS Public Health Law § 2599-bb(1).

In contrast and as a result of the U.S. Supreme Court's decision in *Dobbs v. Jackson Women's Health Organization*, No. 19-1392, 597 U.S. ___ (2022), abortions are mostly banned in 12 states and have been severely restricted in many other states.¹ Some of these anti-abortion laws make it more difficult to receive standard surgical procedures or medication for the loss of desired pregnancies. There are reports of providers in the affected states refusing to perform procedures needed to fully evacuate the uterus after a spontaneous termination of pregnancy, e.g., a dilation and curettage ("D&C"), lest they be accused of performing an abortion. Women have faced life-threatening infections and other complications as a result.² In addition, some lawmakers in states that have mostly banned abortions have considered targeting people traveling to other states to seek abortion care.³ Whether state abortion-restricting laws can apply extraterritorially is an open constitutional question.⁴

In anticipation of the *Dobbs* decision, New York State and New York City took legislative action in 2022 to protect abortion patients

and those helping patients access abortions. The State adopted laws generally prohibiting (1) courts and county clerks from issuing subpoenas in connection with out-of-state proceedings related to abortions lawfully performed in New York;⁵ and (2) State and local law enforcement agencies from cooperating with, or providing information to, any individual or out-of-state agency or department regarding abortions lawfully performed in New York.⁶ The City separately adopted a law prohibiting the use of City resources to cooperate with, or provide information to, any individual or out-of-state agency or department that would confirm, deny, or identify any person associated with an abortion that has been lawfully performed.⁷ This local law defines "abortion" as "the procedure to terminate a pregnancy for purposes other than producing a live birth, including a termination using pharmacological agents, and any services related to such procedure, including pre-procedure and post-procedure counseling."

In New York City, fetal deaths must be reported to the Department as part of its vital records-keeping function.⁸ The Department is not permitted to include the name or any identifying information about an individual whose termination of pregnancy was induced unless the individual requests it to be collected.⁹ Rather, the Department uses unique, confidential identifiers to "monitor the quality of care provided by any individual or entity licensed to perform an abortion in this state and to permit coordination of data concerning the medical history of the woman for purposes of conducting surveillance scientific studies and research."¹⁰ In addition, the City's Administrative Code provides that records of fetal death "shall be issued upon request unless it does not appear to be necessary or required for a proper purpose."¹¹

In New York City, Health Code Section 203.03(a) requires that all terminations of pregnancy be reported to the Department. "Termination of pregnancy" ("TOP") is defined in Health Code § 203.01(a) as "the expulsion or extraction of a conceptus, regardless of the duration of pregnancy, other than a live birth . . . , and includes fetal death." Section 203.01(b) defines "spontaneous termination of pregnancy," commonly referred to as a miscarriage, as the "unplanned termination of a pregnancy," while section 203.01(c) defines "induced termination of pregnancy," commonly referred to as an abortion, as "the purposeful interruption of an intrauterine pregnancy with the intention other than to produce a live-born infant and which does not result in a live birth." Health Code § 203.07(c) requires that the certificate of induced TOP "be confidential and not subject to compelled disclosure or to inspection by persons other than the Commissioner or authorized personnel of the Department." In contrast, Health Code § 203.07(a) offers *less protection* to confidential medical reports of spontaneous TOPs by allowing disclosure of the records "in a criminal action or criminal proceeding, or for official purposes by a federal, State, county or municipal agency charged by law with the duty of detecting or prosecuting crime. The Commissioner may, however, approve the inspection of such medical reports for scientific purposes."

The lesser protections afforded spontaneous TOPs by Health Code § 203.07(a) are no longer in sync with the State and City laws enacted in 2022 and described above: under the current Code provisions, it is possible that an out-of-state law enforcement agency could try to access spontaneous TOP records of an out-of-state resident in order to commence an action against an alleged "illegal abortion" under that state's laws. The Department therefore proposes amending Health Code § 203.07 to afford both induced and spontaneous TOPs the same level of protection and to allow the Department to assess any subpoenas or other requests for spontaneous TOP records to determine whether the underlying use is permitted by State and City law.

The proposed amendment is as follows:

RESOLVED, that section 203.07 of Article 203 of the New York City Health Code, set forth in Title 24 of the Rules of the City of New York, be amended to read as follows:

§ 203.07 Confidential medical report of spontaneous termination of pregnancy and certificate of induced termination of pregnancy; not subject to [compelled disclosure or] inspection.

- (a) The confidential medical report of a spontaneous termination of pregnancy and the certificate of induced termination of pregnancy shall be confidential and not subject to [compelled] disclosure or to inspection by persons other than the Commissioner or authorized personnel of the Department[, except in a criminal action or criminal proceeding, or for official purposes by a federal, State, county or municipal agency charged by law with the duty of detecting or prosecuting crime]. The Commissioner or the Commissioner's designee may, however, approve the inspection by others of such medical reports and certificates for scientific or lawful purposes.
- (b) Within the context of this section, scientific purposes shall mean epidemiologic surveillance and investigation by a governmental public health agency, research, or the compilation of statistics relating factors bearing on disease incidence, prevalence, mortality or treatment.
- [(c) The certificate of induced termination of pregnancy shall be confidential and not subject to compelled disclosure or to inspection by persons other than the Commissioner or authorized personnel of the Department.]
