### CITYWIDE

No. 1
CITY OF YES FOR HOUSING OPPORTUNITY
CITYWIDE N 240290 ZRY

IN THE MATTER OF an application submitted by New York City Department of City Planning, pursuant to Section 201 of the New York City Charter, for an amendment of the Zoning Resolution of the City of New York, modifying multiple Sections to expand opportunities for housing within all zoning districts, and across all 59 of the City's Community Districts.

#### NOTICE

On Wednesday, July 10, 2024, a public hearing is being held by the City Planning Commission (CPC), accessible in-person and remotely, in conjunction with the above hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by the New York City Department of City Planning (DCP). DCP is proposing a package of zoning text amendments with citywide applicability to provide a broader range of housing opportunities across the city. The Proposed Action seeks to enable more housing and wider variety of housing types in all neighborhoods citywide, from the lowest-density districts to the highest, to address the housing shortage and high cost of housing in New York City. Incremental changes across a wide geography can create a significant amount of housing and affordable housing without resulting in dramatic change to neighborhoods. To create more housing and more types of housing, the Proposed Action comprises project components in four broad categories: Medium- and High-Density proposals in R6-R10 districts and equivalents; Low-Density proposals in R1-R5 districts and equivalents; Parking proposals, which span the full range of districts and densities; and assorted other changes in line with project goals. In general, the Proposed Action would apply in underlying zoning districts, Special Districts, and other geographies that modify underlying zoning, with limited adjustments to reflect planning goals in specific areas. As such, the Proposed Action would affect all 59 community districts in the City. The analysis year is 2039.

Written comments on the DEIS are requested and will be received and considered by the Lead Agency through 5:00 P.M. on Monday, July 22, 2024.

For instructions on how to submit comments and participate, both in-person and remotely, please refer to the instructions at the beginning of this agenda.

This hearing is being held pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 24DCP033Y.

12 MONTH NEGOTIATED ACQUISITION EXTENSION -Negotiated Acquisition - Other - PIN# 02524N0041001 - AMT: \$945,000.00 - TO: Jurisolutions Inc., 33 Queens Street, Suite 201, Syosset, NY 11791.

Juris Solutions NAE #2 for IME, IMR Services in support of various litigation for the Torts and Workers' Compensation divisions. PIN 02524X001946.

We would like to do a second Negotiated Acquisition Extension contract for 12 months each as the current extension for IME, IMR and Related services expire on 10/31/2023 and a new RFP with new awardees to replace the current pool of vendors is not yet in place. The Department is utilizing the Negotiated Acquisition Extension procurement method in order to continue to provide uninterrupted IME, IMR and related services because of the need to maintain continuity of services. This will allow the service to still be available while we continue to finalize awards from the current RFP to have in place for 2024. The contracts resulting from these negotiated acquisition extension procurements will be terminated if the new contract awards are registered prior to the end date of the negotiated acquisition contracts.

The Department needs to enter into an extension contract with the current contractor because of the need to maintain continuity of services while the Department completes the procurement of a new contract for these services. The contract resulting from this negotiated acquisition extension procurement will be terminated if the new contract awards are registered prior to the end date of the negotiated acquisition contract.

A few days after the hearing, copies of all comments submitted online, copies of all written comments, and a summary of oral comments concerning the proposed rule will be available to the public at 125 Worth Street, Room 710, New York, NY 10013 and on DSNY's website.

What authorizes DSNY to make this rule? Sections 753 and 1043(a) of the New York City Charter and section 16-120 of the New York City Administrative Code Section authorize DSNY to make this proposed rule. This proposed rule was not included in DSNY's regulatory agenda for this Fiscal Year because it was not contemplated when DSNY published the agenda.

Where can I find the DSNY's rules? DSNY's rules are in Title 16 of the Rules of the City of New York.

What laws govern the rulemaking process? DSNY must meet the requirements of Section 1043 of the City Charter when creating or changing rules. This notice is made according to the requirements of Section 1043 of the City Charter.

#### **Statement of Basis and Purpose**

DSNY rules currently allow for all commercial establishments that receive curbside collection from a private carter to set out their waste and recyclable materials within one hour of closing, provided that the scheduled collection occurs before the establishment next reopens for business and only if such materials are placed out for collection in receptacles with tight-fitting lids. Those establishments that place materials out for collection in bags, regardless of the time they close, may place such materials at the curb no earlier than 8:00 p.m.

DSNY rules currently require that all commercial establishments set out any putrescible solid waste at the curb for private carter collection in rigid containers with tight-fitting lids. This new proposed rule would amend this rule and expand this requirement to include any entity, and not just commercial establishments, that receives private carter collection. Non-commercial establishments that receive private carter collection may request a waiver from the Department from such requirements if compliance would create a public safety hazard for pedestrians or pose an unreasonable hardship. Examples of such noncommercial establishments include office buildings and hospitals. A waiver would be available to non-commercial establishments receiving private carter collection but not to commercial establishments because commercial establishments were already subject to containerization requirements before the adoption of this rule without being eligible for a waiver and the non-commercial establishments receiving private carter collection include very large buildings which are more likely to struggle with existing container solutions. Instructions relating to such waiver requests would be outlined on the Department's website. There will also be an appeals process for those buildings or entities that are denied such waiver request. The proposed rule also eliminates the category of "chain stores" as it no longer applies since all commercial establishments are now covered.

These changes are a part of the City's commitment to cleaning up New York City streets and reducing food sources for rats. All entities that receive private carter collection, other than commercial establishments, are generators of putrescible waste, including organics, and bags of waste set out for collection on the curb, even when in compliance with existing waste set out requirements, attract rats and vermin and are unsightly. Requiring everyone receiving private carter collection who

produces any amount of food waste to place their putrescible waste in sealed containers will meaningfully limit potential food sources for vermin while also helping to keep our sidewalks free of unattractive piles of black bags.

These changes align with other City initiatives to increase the use of containers for waste storage and collection, creating cleaner, more livable, and more vibrant streets and neighborhoods across New York City.

Such entity will not be required to comply with the requirements of this section until a final determination is made by the Department; and

4. Such temporary waiver will only be in effect until the Department implements a containerization solution that can accommodate the volume of refuse that such entity regularly produces without creating a public safety hazard for pedestrians or an unreasonable hardship.

Sections 753 and 1043(a) of the New York City Charter and section 16-120 of the New York City Administrative Code Section authorize DSNY to make this proposed rule. This proposed rule was not included in DSNY's regulatory agenda for this Fiscal Year because it was not contemplated when DSNY published the agenda.

Where can I find the DSNY's rules? DSNY's rules are in Title 16 of the Rules of the City of New York.

What laws govern the rulemaking process? DSNY must meet the requirements of Section 1043 of the City Charter when creating or changing rules. This notice is made according to the requirements of Section 1043 of the City Charter.

#### Statement of Basis and Purpose

This proposed rule would require that all buildings that receive Department collection, other than residential buildings containing ten or more dwelling units, set out any refuse at the curb for DSNY collection in rigid containers with tight-fitting lids. This requirement would go into effect on November 13, 2024. By June 1, 2026, the proposed rule would require that such rigid containers with tight fitting lids be purchased from an authorized vendor. Such authorized vendor would be chosen through a competitive procurement process and such receptacles would be available for purchase from a retail outlet or online platform.

This rule would allow all buildings and entities that receive Department collection, or are applying for collection service, to apply for and receive a waiver if compliance would create a public safety hazard for pedestrians or would pose an unreasonable hardship. Instructions relating to such waiver requests would be outlined on the

Department's website. There will also be an appeals process for those buildings or entities that are denied such waiver request.

These changes are a part of the City's commitment to cleaning up New York City streets and reducing food sources for rats. Residences and other buildings that receive Department collection are generators of refuse, and bags of waste set out for collection on the curb, even when in compliance with existing waste setout requirements, attract rats and vermin. Requiring such buildings to utilize a specific City approved receptacle for the disposal of refuse will allow DSNY to streamline collections and further limit potential food sources for vermin.

These changes align with other City initiatives to increase the use of containers for waste storage and collection, creating cleaner, more livable, and more vibrant streets and neighborhoods across New York City.

- 1. Except as provided in paragraph (2) of this subdivision, and in accordance with section 1-02.5 of this chapter, materials must be placed out at the curb no earlier than 8:00 p.m. on the day before scheduled collection and no later than 12:00 a.m. on the scheduled collection day;
- 2. The following materials must be placed out at the curb no earlier than 6:00 p.m. on the day before scheduled collection and no later than 12:00 a.m. on the scheduled collection day: (i) materials placed out for collection in receptacles with a tight-fitting lid; and (ii) designated recyclable paper that is tied and bundled securely without a container and set out in accordance with the requirements found in 16 RCNY § 1-08(h);
- 3. Receptacles containing solid waste that are set out at the curb must not exceed fifty-five gallons in size, except for those receptacles that are authorized for use pursuant to section 1-02.5 of this chapter;

- § 2. Chapter 1 of Title 16 of the rules of the city of New York is amended by adding a new Section 1-02.5, to read as follows:
- § 1-02.5 Receptacles Required for Certain Buildings that Receive Department Collection
- (a) For purposes of this section, the term "authorized vendor" means any vendor selected by the Department through a competitive procurement process to produce New York City standardized receptacles, with the approval of the Department of Health and Mental Hygiene and the Department of Housing Preservation and Development.
- (b) No later than November 13, 2024, all buildings and entities that receive Department collection, other than residential buildings containing ten or more dwelling units, must set out any refuse at the curb for collection by the Department in rigid receptacles with tight fitting lids.

- (d) Buildings and entities that receive Department collection, or are applying for collection service, may request a waiver from the Department of the requirements set forth in subdivisions (b) and (c) of this section if compliance would create a public safety hazard for pedestrians, or if compliance with these requirements would pose an unreasonable hardship, provided that:

- 1. Buildings and entities must submit a waiver request using a form available on the Department's website;
- 2. The Department will notify such building or entity within 60 days if such temporary waiver has been granted or denied;
- 3. Buildings or entities denied a temporary waiver have 30 days to submit an appeal in writing to the Commissioner. The Commissioner will issue a decision on such appeal in a reasonable time, and such decision will be deemed a final determination. Such building or entity will not be required to comply with the requirements of this section until a final determination is made by the Department; and
- 4. Such temporary waiver will only be in effect until the Department implements a containerization solution that can accommodate the volume of refuse that such building or entity regularly produces without creating a public safety hazard for pedestrians or an unreasonable hardship.
