COMMISSIONERS OF THE SINKING FUND.

Abstract of the Proceedings of the Commissioners of the Sinking Fund at the meeting held June 12, 1879.

Present—Hon. Edward Cooper, Mayor (Chairman); Hon. John K. Hackett, Recorder ; Hon. John Kelly, Comptroller ; J. Nelson Tappan, Esq., Chamberlain ; and Nicholas Haughton, Esq., Chairman Finance Committee Board of Aldermen.

The minutes of the last meeting were read and approved.

The subject of introducing steam into the city by Francis B. Spinola and his associates, under the "Holly Combination system," was taken up for consideration.

Edwards Pierrepont, Esq., in response to the resolution of the Board, adopted at the last meeting, submitted the following statement :

To the Honorable the Commissioners of the Sinking Fund of the City of New York :

On or about the 3d day of December last the Legislative Department of this city adopted a resolution (which on the 11th of December was signed by the Mayor) and which reads as follows :

Resolved, That permission be and the same is hereby given to Francis B. Spinola and his associates, subject to such terms, limitations, restrictions, and conditions as may be fixed by the Commissioners of the Sinking Fund, to lay mains and pipes within the lines of the streets, avenues, and public places in this city, with such connections as may be necessary, for the purpose of supplying steam under "The Holly Combination System," to the city and its inhabitants, for heating, cooking, and all other domestic purposes, as well as for any and all uses for which steam can be employed.

On the 28th day of the same month, the Commissioners of the Sinking Fund passed the following :

The Committee (Comptroller and Chamberlain) to whom was referred the resolution of the Common Council, approved by the Mayor, December 11, 1878, in relation to supplying steam under "The Holly Combination System," to the city and its inhabitants, for heating, cooking, and other domestic purposes, submitted their report, together with the following resolution, viz. :

"Resolved, That the Commissioners of the Sinking Fund do hereby fix the terms, limitations, restrictions, and conditions upon which Francis B. Spinola and his associates may lay mains and pipes within the lines of the streets, avenues, and public places in the City of New York, with such connections as may be necessary, for the purpose of supplying steam under the Holly Combination System, to the city and its inhabitants, for heating, cooking, and all other domestic purposes, as well as for any and all uses for which steam can be employed, as follows :

1st. That said Francis B. Spinola, for himself and his associates, shall enter into an agreement with the Mayor, Aldermen, and Commonalty of the City of New York, that they will furnish a bond in the sum of $50,000, with sufficient and adequate security, that they will replace the pavement in any street, avenue, or public place, in which the mains or pipes for furnishing steam, under the Holly Combination System, shall be laid ; and that such work and repairs shall be done to the satisfaction of the Commissioner of Public Works ; also that the mains and pipes shall be used only for the transmission of steam and water, and not for petroleum, or other oils, or any other purpose.

2d. That said Francis B. Spinola, for himself and his associates, shall agree to heat the City Hall, County Court-house, and all the School-houses, Station-houses, Engine-houses, Police and Civil Justices Court-houses, together with all other buildings owned or leased by the city or county, and used for public purposes, and fronting on any street, avenue, or public place, in which their mains have been laid, within the district bounded as follows, and all streets and lanes within said described district :

Beginning at the point of intersection of the northerly line of State street, with the westerly line of Whitehall street, thence along State street to Battery place ; thence along Battery place to West street ; thence along West street to Chambers street ; thence through Chambers street, in an easterly direction, to James slip; thence through James slip to South street; thence along South street to Whitehall street ; and thence through Whitehall street to State street, at the point of beginning, for at least one-third less than the average cost to the city for the years 1876, 1877, and 1878 ; and that all the appliances connected with the introduction of steam-heating in any of said buildings, above referred to, shall be furnished by the said Francis B. Spinola and his associates at the actual cost thereof to them.

3d. That the said Francis B. Spinola, for himself and his associates, whenever requested by the proper authorities having charge of such matters, shall furnish steam for the purpose of cleaning the principal streets, public places, and avenues within such district from snow or ice, and also to supply steam for the use of the fire engines, at reasonable rates, wherever their mains and pipes shall be laid.

4th. That said Francis B. Spinola, for himself and his associates, shall pay into the Sinking Fund, for the benefit of the City of New York, the sum of three cents for each lineal foot of mains and pipes laid by them, beneath the carriage or roadway of any street, avenue, or public place in the city within said district, until such payments shall have amounted to one hundred and fifty thousand dollars, after which the said payments shall cease and terminate.

5th. That the said Francis B. Spinola, for himself and his associates, be authorized to lay mains or pipes within the district bounded as follows : Beginning at the point of intersection of the northerly line of State street with the westerly line of Whitehall street, thence along State street to Battery place ; thence along Battery place to West street ; thence along West street to Chambers street ; thence through Chambers street, in an easterly direction, to James slip ; thence through James slip to South street ; thence along South street to Whitehall street ; and thence through Whitehall street to State street, *at the point of beginning, and all streets and lanes lying within such district.*

The report was accepted and approved, and on motion, the resolution was adopted—the Mayor, Comptroller, Chamberlain, and Chairman Finance Committee of the Board of Aldermen voting in the affirmative, and the Recorder in the negative."

The undersigned and his associates, under a special amendment to the Manufacturing Act, passed at the last session of the Legislature, propose to form a corporation, with a large capital, for the purpose of conveying steam through the streets of the city, to be used as a motive power, and for heating such public and private buildings as may be desired, for cooking, and also for cleaning the streets of snow. Those only who desire to avail themselves of such use can be asked to contribute to the expense, and no public building or street will be asked to contribute, save only as the municipal authorities may desire, and upon such terms as such authorities may agree.

It is proposed to erect boiler-houses in different parts of the city, in which steam may be generated and carried in pipes to every public and private house in the city when it may be requested, precisely as gas is now conducted, except the conducting pipes are of different construction from gas-pipes.

The introduction of the steam into buildings for every purpose, after the pipes are laid, is by simply turning a cock in the same manner as gas is now let in.

The system has been thoroughly tested in Detroit, Springfield, Lockport, Auburn, and other places, and the boilers are so constructed with valves of safety that explosion is impossible. The boiler-houses are to be placed not less than a mile apart in every direction. For each boiler station from twelve to fifteen lots of land are required for the coal, boilers, etc.

That part south of Chambers street, is a portion of the city where but comparatively few private dwellings are situated.

The first outlay is very large ; the profit of the enterprise is, as yet, uncertain, and unless we can extend it over the city in case of a demand by the citizens—there is so much hazard that we are not willing to embark in an enterprise so costly—it cannot succeed unless the steam can be delivered cheap ; it cannot be delivered at a cheap rate unless the customers are numerous. The risk is large, and prudent men will not take the risk by which the public are to be greatly benefitted, unless the individuals can see reasonable security or reasonable profit in the future.

As mentioned in the communication of the Corporation Counsel of yesterday, Mr. Spinola has given the Bond required and filed the same in the Department of Finance.

We ask your Honorable Body to adopt the following :

Resolved, That a resolution of the Commissioners of the Sinking Fund relating to the "terms, limitations, restrictions, and conditions upon which Francis B. Spinola and his associates may lay mains and pipes within the lines of the streets, avenues, and public places in the City of New York," and passed December 28, 1878, be so amended as to read as follows :

Resolved, That the Commissioners of the Sinking Fund do hereby fix the terms, limitations, restrictions, and conditions upon which Francis B. Spinola and his associates may lay mains and pipes within the lines of the streets, avenues, and public places in the City of New York, with such connections as may be necessary, for the purpose of supplying steam under the Holly Combination System, to the city and its inhabitants, for heating, cooking, and all other domestic purposes, as well as for any and all uses for which steam can be employed, as follows :

1st. That said Francis B. Spinola, for himself and his associates, shall enter into an agreement with the Mayor, Aldermen, and Commonalty of the City of New York, that they will furnish a bond in the sum of $50,000, with sufficient and adequate security, that they will replace the pavement in any street, avenue, or public place, in which the mains or pipes for furnishing steam, under the Holly Combination System, shall be laid ; and that such work and repairs shall be done to the satisfaction of the Commissioner of Public Works ; also that the mains and pipes shall be used only for the transmission of steam and water, and not for petroleum, or other oils, or any other purpose.

2d. That said Francis B. Spinola, for himself and his associates, shall agree, if desired by the city authorities, to heat the City Hall, County Court-house, and all the School-houses, Station-houses, Engine-houses, Police and Civil Justices Court-houses, together with all other buildings owned or leased by the city and county, and used for public purposes, and fronting on any street, avenue, or public place in which their mains shall have been laid, for at least one-third less than the average cost to the city for the last three years, and that all the appliances connected with the introduction of steam-heating in any of said buildings, above referred to, shall be furnished by the said Francis B. Spinola and his associates at the actual cost thereof to them.

3d. That the said Francis B. Spinola, for himself and his associates, whenever requested by the proper authorities having charge of such matters, shall furnish steam for the purpose of cleaning the principal streets, public places, and avenues of said city from snow or ice, and also to supply steam for the use of the fire engines, at reasonable rates, wherever their mains and pipes shall be laid.

4th. That said Francis B. Spinola, for himself and his associates, shall pay into the Sinking Fund, for the benefit of the City of New York, the sum of three cents for each lineal foot of mains and pipes laid by them, beneath the carriage or roadway of any street, avenue, or public place in the city, until such payments shall have amounted to one hundred and fifty thousand dollars, after which the said payment shall cease and terminate.

5th. That the said Francis B. Spinola, for himself and his associates, be authorized to lay mains or pipes in the streets, avenues, and public places of said city, but they shall first commence the work within the district bounded as follows : Beginning at the point of intersection of the northerly line of State street with the westerly line of Whitehall street ; thence along State street to Battery place ; thence along Battery place to West street ; thence along West street to Chambers street ; thence through Chambers street, in an easterly direction, to James slip ; thence through James slip to South street ; thence along South street to Whitehall street ; and thence through Whitehall street to State street, at the point of beginning, and all streets and lanes lying within such district.

6th. That in case at any time the steam pipes interfere with the Croton pipes and for that reason need to be removed to another part of the street, such removal shall be made at the cost of the said Spinola and his associates.

From estimates of competent persons, carefully made, the undersigned believe that the saving to the city in heating all the public buildings, in the removal of ashes, and in clearing the streets of snow will be not less than from $300,000 to $400,000 a year, after the steam system is extended over the city.

We call the attention of your Honorable Body to the fact that all the real estate and all the stock of the company is to be burdened with taxation, and to the fact also that insurance risks of loss by fire will be very largely diminished, and that the public will be immensely benefitted if the plan is a success.

Which is respectfully submitted,

EDWARDS PIERREPONT, for himself and associates.

July 11, 1879.

Mr. Pierrepont addressed the Commissioners in further explanation of the question under consideration.

After a brief discussion of the subject by the Recorder, Comptroller, and Mayor, the Comptroller submitted the following resolution :

Resolved, That this grant be made upon the condition that, after the said Francis B. Spinola and his associates shall have received at the rate of seven per cent. per annum, upon the capital invested, they shall pay to the city three per cent. per annum upon any and all profits above that amount.

On motion, it was resolved that the subject be laid over to Tuesday next, 17th inst., at four o'clock, P. M.

IN RELATION TO JURORS FOR STATE COURTS

OFFICE OF THE COMMISSIONER OF JURORS,
NEW COUNTY COURT-HOUSE,
NEW YORK, June 1, 1879.

APPLICATIONS FOR EXEMPTIONS WILL BE heard here, from 9 to 4 daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible, and at this office only) under severe penalties. If exempt, the party must bring proof of exemption; if liable, he must also answer in person, giving full and correct name, residence, etc., etc. No attention paid to letters.

Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or interference permitted. The fines, received from those who, for business or other reasons, are unable to serve at the time selected, pay the expenses of this office, and if unpaid will be entered as judgments upon the property of the delinquents.

All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States and District Court jurors are not exempt

Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. It is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold any paper or make any false statement, and every case will be fully prosecuted.
