Mr. JOHN H. MOONEY, *Secretary, Board of Public Improvements*:

SIR—In reply to the action taken by the Board of Public Improvements, referring for report a communication from the President of the Borough of Queens, recommending the legal opening of Ridge street, from Academy street to the Boulevard, First Ward, Long Island City, Borough of Queens, I have to state as follows:

Ridge street is laid out on the Commissioners' Map of Long Island City, filed April 25, 1873, for the full length, from Academy street to the Boulevard. It is a 60-foot street, except two blocks, from Crescent to Van Alst avenue, which are 50 feet.

On the street system as adopted by the Board of Public Improvements May 23, 1900, the 60-foot portions of street are narrowed to 50 feet, making the entire street uniform width of 50 feet. The modified plan of the street system is not approved as yet by the Municipal Assembly, and I recommend, therefore, that no action be taken in this matter until said map is approved and filed.

Paper in the matter is herewith returned.

Mr. JOHN H. MOONEY, *Secretary, Board of Public Improvements*:

SIR—In reply to the action taken by the Board of Public Improvements, referring for report a communication from the President of the Borough of Queens, recommending the legal opening of St. Nicholas avenue, from Cornelia street to the dividing line between the boroughs of Brooklyn and Queens, Second Ward, Borough of Queens, I have to state as follows:

St. Nicholas avenue and Cornelia street are continuations of an avenue and street in the Borough of Brooklyn, and St. Nicholas avenue runs only as far as Myrtle avenue, as shown on the tentative plan of the street system of the Second Ward (Newtown).

From Myrtle avenue to Cornelia street it is not laid out, and I recommend that the matter be referred back to the Local Board of the Borough of Queens for a reconsideration and decision, whether the opening shall extend from the borough line of Brooklyn to Myrtle or to Cornelia street.

Papers in the matter are herewith returned.

The following report from the Chief Topographical Engineer was referred to the President of Richmond:

TOPOGRAPHICAL BUREAU, August 26, 1901.

Mr. JOHN H. MOONEY, *Secretary, Board of Public Improvements*:

SIR—In reply to the action taken by the Board of Public Improvements, referring for report a communication from the President of the Borough of Richmond recommending that proceedings be initiated to acquire title to the property needed for the extension of John street to Franklin street, in the First Ward, Borough of Richmond, the extension of which was recommended by the Local Board October 4, 1895, I have to state that the Board of Public Improvements on August 1, 1901, filed a map showing the laying out of John street, from Richmond terrace to Franklin street, which includes the extension requested to be opened.

The filed map shows, however, a widening of John street which is in existence for a certain distance and is not legally opened as yet.

I recommend therefore that the matter be referred back to the Local Board of the Borough of Richmond with the request to pass a new resolution to open John street, from Richmond terrace to Franklin street.

Papers in the matter are herewith returned.

Respectfully,  
LOUIS A. RISSE,  
Chief Topographical Engineer and Engineer of Concourse.

Mr. JOHN H. MOONEY, *Secretary, Board of Public Improvements*:

SIR—In reply to the action taken by the Board of Public Improvements, referring for report a communication from the President of the Borough of Queens recommending that proceedings be initiated to flag the sidewalk on the west side of Whitestone avenue, between Broadway and State street, in the Third Ward (Flushing), Borough of Queens, I have to state that Whitestone avenue, from Broadway to State street, is laid out on the map of the Trustees of the Village of Flushing, adopted October 5, 1875. The avenue is not legally opened although having been in use for over twenty years.

Assessable improvements can therefore not be made at the present time, and I recommend that the Department of Highways lay the flagging and charge the cost to the regular appropriations for maintenance.

Papers in the matter are herewith returned.

Respectfully,  
LOUIS A. RISSE,  
Chief Topographical Engineer and Engineer of Concourse.

#### MISCELLANEOUS COMMUNICATIONS.

The following communication from the Rapid Transit Commissioners was referred to the Chief Topographical Engineer:

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS, August 22, 1901.

Hon. MAURICE F. HOLAHAN, *President of the Board of Public Improvements*:

DEAR SIR—Upon the instruction and in behalf of the Board of Rapid Transit Railroad Commissioners for The City of New York, and in pursuance of section 40 of the Rapid Transit Act, chapter 4 of the Laws of 1891 as amended by section 16 of chapter 519 of the Laws of 1895, I herewith deliver to you, to be filed in your Department, a map with the plans and memoranda showing map, survey and plan of lands and property necessary to be acquired, easements or privileges necessary to be acquired or extinguished by The City of New York, for the construction and operation of the Rapid Transit Railroad, described in the routes and general plan thereof adopted by the said Board on the 14th day of January and the 4th day of February, 1897.

Yours respectfully,

A. E. OKR, President of the Board of Rapid Transit Railroad  
Commissioners of The City of New York.

The following communication was referred to the Chief Topographical Engineer:  
*To the Honorable the Board of Public Improvements of The City of New York:*

The undersigned owners and occupants of lands situated in East One Hundred and Seventy-fifth street east of Prospect avenue and vicinity in the proposed opening in the above-entitled matter, respectfully represent that the contemplated change to lower the grade over two feet in said street, between Prospect avenue and a point 200 feet east of Marmion avenue, will cause the destruction of some 47 shade trees from 10 inches to 30 inches in diameter; that by a former survey and map made for a proposed opening of said street, from Rider avenue on the west to Boston road on the east, over one mile, the natural grade at the summit between Prospect avenue and a point east of Vineyard place was not materially lowered but ran for over 100 feet along

the present summit of the hill, thereby doing no material damage to the growing shade trees in said street.

Wherefore your petitioners respectfully ask that the change of grade between Prospect avenue and 200 hundred feet east of Marmion avenue, denied by said Board May 24, 1899, after the same had been approved by the Local Board of the Borough of the Bronx, be reconsidered and that the contract in the above-entitled matter, which is already let, be suspended, and that the proposed grade of the former survey between Prospect avenue and a point 200 feet east of Marmion avenue be substituted and thereby preserve to the residents of said street the shade trees between those two points.

Dated NEW YORK, BOROUGH OF THE BRONX, August 22, 1901.

JAMES E. DOUGHERTY,  
And others.
