## MAYOR'S COMMITTEE ON LIBERTY LOAN.

### SUBSCRIPTIONS BY CITY AND COUNTY OFFICIALS AND EMPLOYEES.

#### STANDING OF THE CITY AND COUNTY DEPARTMENTS.

The figures below are based upon subscriptions received up to 2 o'clock P. M. yesterday at the Comptroller's office, Room 851, Municipal Building, having been in the first instance turned in to the heads of the respective departments and by them transmitted to the Comptroller, as the Chairman of the Mayor's Committee. The Comptroller files a summary statement daily with the Commissioner of Accounts, as Chairman of the Executive Committee of the Mayor's Committee, and the latter calculates the departmental percentages upon the basis of one \$50 bond to the total payroll of each department, as provided in the 1917 budget, thereby fixing the base percentage for each department. In the interest of fairness the smaller boards, commissions, etc., have been grouped together for scoring purposes. Similarly certain county offices of each county have likewise been combined.

## PUBLIC HEARINGS.

## On Changes in the City Map.

## Borough of Manhattan.

Hearing in the Matter of Changing the Map or Plan of The City of New York by Changing the Grades of Tompkins Street, from East 3rd Street to East 4th Street, and East 4th Street, from Lewis Street to Tompkins Street, Borough of Manhattan (Cal. No. 2).

Establishing Roadway and Sidewalk Widths; Removing Encroachments; and Establishing Bulkhead Line.

The Secretary presented affidavit of publication showing that the matter had been duly advertised in accordance with a resolution adopted April 27, 1917 (Cal. No. 141).

No one appearing in opposition to or in favor of the proposed change, the hearing was closed.

The following was offered:

Whereas, at a meeting of this Board held on the 27th day of April, 1917, a resolution was adopted proposing to change the map or plan of The City of New York so as to change the grade of Tompkins Street from East 3rd Street to East 4th Street, and of East 4th Street from Tompkins Street to Lewis Street, in the Borough of Manhattan, City of New York, and appointing a hearing at a meeting of this Board to be held on the 25th day of May, 1917, at 10.30 o'clock a. m., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby, of the aforesaid time and place at which such proposed action would be considered, to be published in the CITY RECORD for ten days prior to the 25th day of May, 1917; and

Whereas, it appears from the affidavit of the Supervisor of the City Record that the aforesaid resolution and notice have been published in the CITY RECORD for ten days prior to the 25th day of May, 1917; and

Whereas, all persons interested in such proposed change were afforded an opportunity to be heard thereon, and such proposed change was duly considered by this Board; now, therefore, be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of Section 442 of the Greater New York Charter, as amended, deeming it for the public interest to change the map or plan of The City of New York by changing the grade of Tompkins Street from East 3rd Street to East 4th Street, and of East 4th Street from Tompkins Street to Lewis Street, in the Borough of Manhattan, City of New York, does hereby favor the same so as to make the aforesaid change in accordance with a map or plan bearing the signature of the President of the Borough and dated January 16, 1917.

Which was adopted by the following vote:

Affirmative—The Mayor, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx and the Acting President of the Borough of Richmond—12.

The following resolution was offered:

Resolved, by the Board of Estimate and Apportionment, that the widths of the roadway and sidewalk of Tompkins Street, from the northerly curb line of East Third Street to the southerly curb line of East Fourth Street, Borough of Manhattan, be and are hereby established as follows:

The roadway shall have a width of fifty-three (53) feet, and shall be located so that the easterly line thereof coincides with the easterly house line of the said Tompkins Street. There shall be but one sidewalk, along the westerly side of the street, with a width of seventeen (17) feet.

—and be it further

Resolved, That all ordinances, permits or licenses heretofore adopted or granted by the City of New York, or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which interfere with the proper support of the roadway, curb and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments in accordance with the foregoing resolution.

Which was adopted by the following vote:

Affirmative—The Mayor, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx and the Acting President of the Borough of Richmond—12.

The following resolution was offered:

Resolved, by the Board of Estimate and Apportionment, that the widths of the roadway and sidewalk of East Fourth Street, from the easterly side of Tompkins Street to a point five hundred and twenty-five (525) feet east of the east house line of Lewis Street, Borough of Manhattan, be and are hereby established as follows:

The roadway shall have a width of forty-five (45) feet, and shall be located so that the northerly line thereof coincides with the northerly house line of the said East Fourth Street. There shall be but one sidewalk, along the southerly side of the street, with a width of fifteen (15) feet.

—and be it further

Resolved, That all ordinances, permits or licenses heretofore adopted or granted by the City of New York, or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which interfere with the proper support of the roadway, curb and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments in accordance with the foregoing resolution.

Which was adopted by the following vote:

Affirmative—The Mayor, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx and the Acting President of the Borough of Richmond—12.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of the City of New York hereby makes application to the Secretary of War for a change in the bulkhead line of the East River of such a character as to make said line harmonize with the northerly line of East Fourth Street and the easterly line of Tompkins Street, Borough of Manhattan, where necessary, in order to avoid any encroachment of these streets upon area reserved to navigation; which proposed change is shown upon the accompanying map, entitled "Map showing a suggested change in the Bulkhead Line of the East River, designed to make it conform with the outshore line of E. 4th St. and Tompkins St., Borough of Manhattan," bearing date April 16, 1917, and signed by the Chief Engineer of the said Board.

Which was adopted by the following vote:

Affirmative—The Mayor, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx and the Acting President of the Borough of Richmond—12.

The Secretary was directed to forward copies of the application and plan to the Commissioner of Docks; and to request the Corporation Counsel to advise the Board as to its power to carry out the grading and paving under assessment.

Hearing in the Matter of Changing the Map or Plan of The City of New York by Closing and Discontinuing Exterior Street, Between East 118th Street and East 119th Street, Borough of Manhattan (Cal. No. 3).

(The hearing in this matter was fixed for May 11, 1917, by resolution adopted April 13, 1917 (Cal. No. 206).)

(In accordance with instructions received at the meeting on April 13, 1917 (Cal. No. 206), the Secretary has requested the Corporation Counsel to advise the Board as to the effect of the change upon the City's title to the land within that portion of the street which falls back of the present bulkhead line.)

(On May 11, 1917 (Cal. No. 2), the hearing was continued to this meeting, awaiting the receipt of the opinion of the Corporation Counsel.)

The Secretary presented affidavit of publication showing that the matter had been duly advertised.

No one appeared in opposition to or in favor of the proposed change. The hearing was continued two weeks (June 8, 1917).

## Borough of Brooklyn.

Hearing in the Matter of Changing the Map or Plan of The City of New York by Closing and Discontinuing the Portion of Albemarle Terrace, Between a Line Distant About 210 Feet and a Line Distant About 211 Feet East of East 21st Street, Borough of Brooklyn (Cal. No. 4).

The Secretary presented affidavit of publication showing that the matter had been duly advertised in accordance with a resolution adopted April 27, 1917 (Cal. No. 142).

No one appearing in opposition to or in favor of the proposed change, the hearing was closed.

The following was offered:

Whereas, At a meeting of this Board, held on the 27th day of April, 1917, a resolution was adopted proposing to change the map or plan of The City of New York so as to close and discontinue Albemarle Terrace for a distance of one foot at its easterly end, in the Borough of Brooklyn, City of New York, and appointing a hearing at a meeting of this Board to be held on the 25th day of May, 1917, at 10.30 o'clock a. m., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby, of the aforesaid time and place at which such proposed action would be considered, to be published in the CITY RECORD and in the corporation newspapers for ten days prior to the 25th day of May, 1917; and

Whereas, It appears from the affidavits of the Supervisor of the City Record and the publishers of the corporation newspapers that the aforesaid resolution and notice have been published in the CITY RECORD and in the corporation newspapers for ten days prior to the 25th day of May, 1917; and

Whereas, All persons interested in such proposed change were afforded an opportunity to be heard thereon, and such proposed change was duly considered by this Board; now, therefore, be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest to change the map or plan of The City of New York by closing and discontinuing Albemarle Terrace for a distance of one foot at its easterly end, in the Borough of Brooklyn, City of New York, does hereby favor the same so as to make the aforesaid change in accordance with a map or plan bearing the signature of the Commissioner of Public Works of the Borough and dated December 8, 1916.

Which was adopted by the following vote:

Affirmative—The Mayor, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx and the Acting President of the Borough of Richmond—12.

#### **On Areas of Assessment for Benefit in Condemnation Proceedings.**

#### *Borough of Queens.*

**Hearing on the Proposed Area of Assessment in the Matter of Acquiring Title to Schurz Avenue, from Astoria (Flushing) Avenue to Berrian Avenue, Borough of Queens (Cal. No. 10).**

The Secretary presented affidavit of publication showing that the matter had been duly advertised in accordance with a resolution adopted April 27, 1917 (Cal. No. 148).

M. J. Howell appeared in opposition to the proposed area of assessment.

No one else appearing the hearing was closed.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the real property required for the opening and extending of Schurz Avenue, from Astoria (Flushing) Avenue to Berrian Avenue, in the Borough of Queens, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the compensation to be made to the owners of the real property to be acquired shall be ascertained and determined by the Supreme Court without a jury;

Resolved, That the Board of Estimate and Apportionment hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court to have the compensation, which should justly be made to the respective owners of the real property proposed to be taken, ascertained and determined by the Supreme Court without a jury, and to have the said Court assess the cost and expenses of the proceedings upon the real property within the area of assessment hereinafter determined, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public for the same purpose, to the real property that shall or may be required for the purpose of opening and extending Schurz Avenue, from Astoria (Flushing) Avenue to Berrian Avenue, in the Borough of Queens, City of New York, upon the receipt by him of a rule map and damage map, certified as having been approved by this Board.

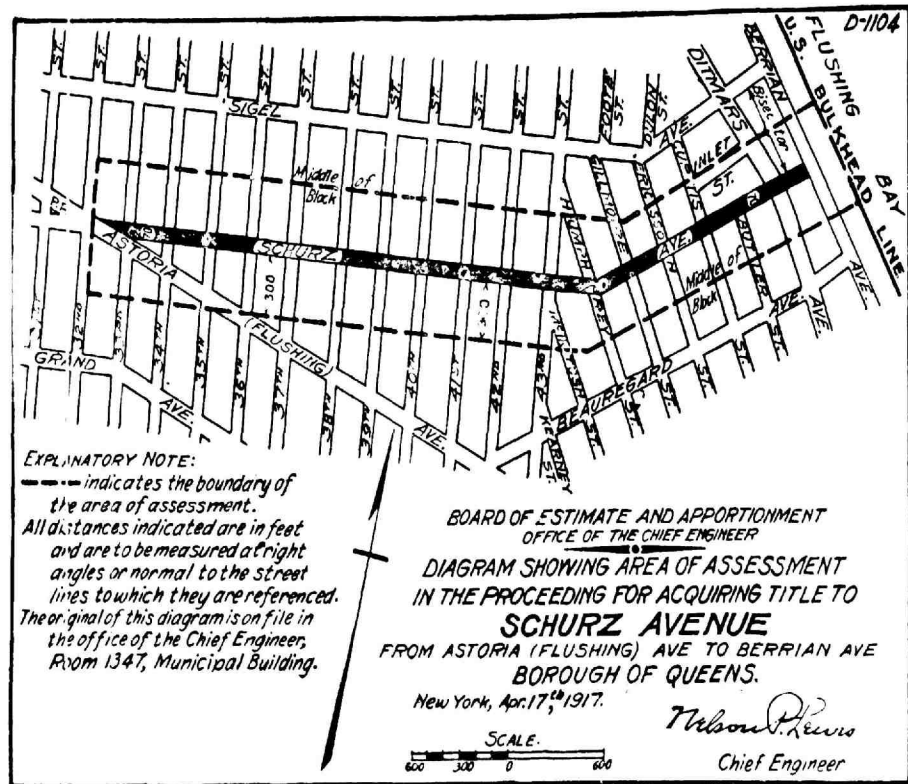

Resolved, That no portion of the cost and expense of said proceedings, incurred by reason of the provisions of title 4, chapter 17 of the Greater New York Charter, as amended, shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the expense of the Bureau of Street Openings, the cost and expense incurred by the President of the Borough of Queens, in the preparation of rule, damage and benefit maps for the use thereof; and all other expenses and disbursements authorized by section 977 of said title, as amended, shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that due notice was given therein that at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the real property required for this improvement that the Board of Estimate and Apportionment would consider a proposed area of assessment as therein described and would give a public hearing thereon upon the 25th day of May, 1917; and

Whereas, At the aforesaid time a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board;

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as shown on the following diagram:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx and the Acting President of the Borough of Richmond—15.

#### FIXING ROADWAY AND SIDEWALK WIDTHS.

Borough of Manhattan.

#### West 26th Street, from 7th Avenue to Broadway, Borough of Manhattan—Removal of Encroachments and Establishing Roadway Width (Cal. No. 11).

The Secretary presented a communication, dated March 8, 1917, from the President of the Borough of Manhattan, requesting widening of the roadway and removal of encroachments on West 26th Street, from 7th Avenue to Broadway; and the following report of the Chief Engineer:

Report No. 16763. May 16th, 1917.  
Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the President of the Borough of Manhattan, bearing date of March 8, 1917, requesting the adoption of resolutions providing for widening the roadway and for removing encroachments on West 26th Street, from 7th Avenue to Broadway.

West 26th Street has been assigned a width of 60 feet, of which 30 feet are devoted to roadway purposes and 15 feet to each sidewalk. It is proposed to widen the roadway to 34 feet, the resulting sidewalks being each 13 feet wide. In order to make available for pedestrian use, the sidewalk widths contemplated, it will be necessary to remove all encumbrances extending beyond the building line.

An inspection of the ground shows that this portion of West 26th Street is almost entirely devoted to business purposes, and that a large number of modern loft buildings have been erected, opposite which in nearly every case the sidewalks are unobstructed. Opposite buildings of the older type steps and areaway fences generally occupy about one-third of the sidewalk space. There are also located on the sidewalks adjoining the building lines a number of storm doors, fruit stands and other miscellaneous encroachments. The extent and character of the business development along this street necessitate its being used to a considerable degree by express and delivery wagons and the roadway is congested by reason of these vehicles standing at the curb lines.

The necessity of making available for public use more adequate roadway and sidewalk widths for a number of streets in this vicinity has been recognized by the Board and it is believed that the conditions existing on the street now under consideration justify similar action in this case.

It is accordingly recommended that the resolutions presented by the President of the Borough of Manhattan be approved.

Respectfully, NELSON P. LEWIS, Chief Engineer.

Mrs. George A. Wheelock appeared in favor.

The following resolution was offered:

Resolved by the Board of Estimate and Apportionment, That the widths of the roadway and sidewalks on Twenty-sixth Street, from the westerly curb line of Broadway to the easterly curb line of Seventh Avenue, Borough of Manhattan, be and hereby are established as follows:

The roadway shall be centrally located and shall have a width of thirty-four (34) feet.

The width of the sidewalks on each side of the roadway shall be thirteen feet. —and be it further

Resolved, That all ordinances, permits or licenses heretofore adopted or granted by the City of New York, or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which interfere with the proper support for the roadway, curb and necessary and proper subsurface structures be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove, or cause to be removed, all said encroachments in accordance with the foregoing resolutions.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx and the Acting President of the Borough of Richmond—15.

The following was offered:

Whereas, The entire width of Twenty-sixth Street, between Broadway and Seventh Avenue, in the Borough of Manhattan, is required for public purposes.

Resolved, By the Board of Estimate and Apportionment that all ordinances, permits or licenses heretofore adopted or granted by the City of New York, or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which project beyond the building line of Twenty-sixth Street, between Broadway and Seventh Avenue, in the Borough of Manhattan, between levels ten feet above the curb grade and a sufficient depth below said curb to provide for the proper support of the structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove, or cause to be removed, all said encroachments or encumbrances in accordance with the foregoing resolution.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx and the Acting President of the Borough of Richmond—15.

#### APPROVAL OF MAPS AND PLANS.

##### Rule, Damage and Profile Maps.

Borough of Brooklyn.

#### Bay 43d Street, from Benson Avenue to Harway Avenue, Excluding the Right of Way of the West End Division of the Nassau Electric Railway Company, Borough of Brooklyn—Rule and Damage Maps in the Proceeding for Acquiring Title (Cal. No. 12).

The Secretary presented a communication, dated May 9, 1917, from the Com-

missioner of Public Works, Borough of Brooklyn, transmitting rule and damage maps for approval; and the following report of the Chief Engineer:

Report No. 16754.

May 16th, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Commissioner of Public Works, Borough of Brooklyn, bearing date of May 9th, 1917, presenting for consideration the rule map and damage map prepared for the court record in the proceeding for acquiring title to Bay 43rd Street, from Benson Avenue to Harway Avenue, excluding the right-of-way of the West End Division of the Nassau Electric Railway Company.

This proceeding was instituted under the provisions of a resolution adopted by the Board of Estimate and Apportionment on March 16th, 1917.

The property to be acquired, as shown on the maps now presented, appears to be identical with that needed for the street as laid out upon the City Plan and comprises an area of 122,508.66 square feet. Of this area 9,600 square feet is included in opening proceedings now in progress relating to Cropsey Avenue and to Bath Avenue, leaving a net area of 112,908.66 square feet to be acquired under the new proceeding. The street is in use through the greater portion of the distance and a number of buildings have been erected upon the abutting property. Just south of the West End Railroad a house and three outbuildings encroach upon the land to be acquired. Of the net area 97,465.88 square feet falls within the lines of existing streets which are probably fully dedicated to public use.

Portions of the street are shown on maps filed by the property owners between September 30th, 1857, and January 28th, 1901, and also upon a property map not filed.

I would recommend the approval of the maps and that after certification they be forwarded to the Corporation Counsel.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves the rule map and damage map, submitted by the President of the Borough of Brooklyn, for the use of the Supreme Court in the proceeding authorized by said Board on March 16, 1917, for acquiring title to Bay 43d Street, from Benson Avenue to Harway Avenue, excluding the right of way of the West End Division of the Nassau Electric Railway Company, Borough of Brooklyn.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx and the Acting President of the Borough of Richmond—15.

#### Sewerage and Drainage Plans.

Borough of Brooklyn.

#### Map Z, District No. 46, Borough of Brooklyn—Modification in Drainage Plan (Cal. No. 13).

The Secretary presented a communication dated March 13, 1916, from the Acting President, Borough of Brooklyn, transmitting for approval map showing modification in drainage plan for territory designated as Map Z, Drainage District No. 46; and the following report of the Chief Engineer:

Report No. 16775.

May 22, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Acting President of the Borough of Brooklyn, bearing date of March 13, 1916, requesting the approval of a modification in the drainage plan for Map Z, District 46.

This plan relates to the territory bounded approximately by Gravesend Avenue, Avenue N, Ocean Parkway, Ryder Avenue, East 3rd Street and Avenue O; and to Woodside Avenue from East 2nd Street to Gravesend Avenue.

These changes include provision for lateral sewers in Ryder Avenue and in Woodside Avenue, both of which streets were placed upon the City Map at a date subsequent to that on which the drainage plan was originally approved, and for such incidental adjustments as are needed in the plan for the adjoining streets in order to adjust them to the new conditions.

Advantage also seems to have been taken of the opportunity to modify the plan for the sewer in Avenue N between Gravesend Avenue and East 4th Street by the provision of an increased depth below the surface.

I see no reason why the plan should not be approved, and would recommend such action. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves the modified drainage plan for Map Z, District 46, Borough of Brooklyn, showing the location, sizes and grades of sewers in the territory bounded approximately by Gravesend Avenue, Avenue N, Ocean Parkway, Ryder Avenue, East 3rd Street and Avenue O, and in Woodside Avenue, from Gravesend Avenue to East 2nd Street, bearing the signature of the President of the Borough and dated January 5, 1916.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx and the Acting President of the Borough of Richmond—15.

Borough of The Bronx.

#### Sewerage Districts Nos. 37-M-2 and 31-G-2, Borough of The Bronx—Modification in Drainage Plan (Cal. No. 14).

The Secretary presented a communication dated March 11, 1916, from the Commissioner of Public Works, Borough of The Bronx, transmitting for approval, map showing modification in drainage plans for Sewerage Districts Nos. 37-M-2 and 31-G-2; and the following report of the Chief Engineer:

Report No. 16779.

May 22, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Commissioner of Public Works, Borough of The Bronx, bearing date of March 11, 1916, requesting the approval of a modification in the drainage plan for Sewerage Districts Nos. 37-M-2 and 31-G-2.

This plan is designed to provide high level sewers in East 161st Street, from Morris Avenue to Sheridan Avenue; in Sherman Avenue, from East 161st Street to East 162nd Street; in Grant Avenue, from East 161st Street to East 162nd Street; and in Walton Avenue, from East 158th Street to a point about 200 feet north of East 161st Street.

This change is desired to conform with radical modifications recently made in the grade of the street system of the territory, which provided for giving some of the streets an elevation so high above the existing sewers that the construction of house connections would involve an expense which it is now proposed to avoid through the provision of new sewers at a higher level and at the usual depth.

The plan, in my judgment, is a proper one, and its approval is recommended. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves the modified drainage plan for Sewerage Districts Nos. 37-M-2 and 31-G-2, Borough of The Bronx, showing the location, sizes and grades of sewers in East 161st Street, between Morris Avenue and Sheridan Avenue; in Sherman Avenue and Grant Avenue, between East 161st Street and East 162nd Street, and in Walton Avenue, between East 158th Street and a point about 200 feet north of East 161st Street, bearing the signature of the President of the Borough and dated September 29, 1915.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx and the Acting President of the Borough of Richmond—15.

#### Sewerage District No. 41, Borough of Queens—Tentative Drainage Plan (Cal. No. 15).

The Secretary presented a communication dated June 13, 1916, from the Acting

President, Borough of Queens, transmitting for approval a tentative drainage plan for Sewerage District No. 41; and a report of the Chief Engineer, recommending that the plan be referred back to said Borough President without approval, and with certain definite suggestions as to revision along lines designated to meet the present needs, and at the same time conform with the future requirements; these suggestions including one to the effect that the existing sewers of the Jamaica district be retained in so far as practicable.

The matter was laid over two weeks (June 8, 1917).

The Secretary presented petition dated December 27, 1916, from the Detroit-Cadillac Motor Car Realty Company of New York; petition dated January 22, 1917, from property owners on Columbus Avenue, between 60th and 63rd Streets, Manhattan, and a petition dated March 29, 1917, from owners of property on West 63rd Street, between Columbus and Amsterdam Avenues, Manhattan, submitted by Phillips, Mahony & Wagner, attorneys, requesting amendment of Building Zone resolution by changing above area from a business to an unrestricted district.

The Secretary also presented a communication dated May 18, 1917, from the First Vice-President, Realty Notice Corporation, in opposition to the proposed amendment; and the following report of the Committee on the City Plan:

April 18, 1917.

##### Board of Estimate and Apportionment:

Gentlemen—On December 28, 1916, the Board received and referred to the Committee on the City Plan the petition of the Detroit Cadillac Motor Car Realty Company of New York requesting an amendment to Use District Map, Section No. 8, so as to change from a business district to an unrestricted district the property at the northwest corner of 62nd Street and Columbus Avenue, Borough of Manhattan.

On March 2, 1917, the Board received and referred to the Committee on the City Plan a petition of owners of property on Columbus Avenue between 60th Street and 63rd Street requesting a similar amendment to the use district map covering the property on both sides of Columbus Avenue between 60th Street and 63d Street.

On March 30, 1917, the Board received and referred to the Committee on the City Plan a petition of owners of property on West 63rd Street between Columbus Avenue and Amsterdam Avenue, requesting a similar change to unrestricted use.

At the request of the Committee the President of the Borough of Manhattan has held two public hearings on the above three petitions. At the first of these hearings the first two petitions were considered covering property on both sides of Columbus Avenue from 60th Street to 63rd Street. The only protest made was that of an owner on 63rd Street immediately in the rear of the area proposed to be changed. This owner stated that he would have no objection to the proposed change if his property were also included in an unrestricted district. As a result of this hearing the third petition was filed to include in an unrestricted district both sides of 63rd Street between Columbus Avenue and Amsterdam Avenue. At the hearing held on this proposed change there was no opposition.

The petition for the change on both Columbus Avenue and 63rd Street was signed by a large proportion of the property owners. The area in question adjoins the chief automobile section of the city and the petitioners feel that the highest values for their property can be obtained for garages, repair shops, service stations, light manufacturing and similar uses in connection with the motor car industry. The side streets between Broadway and Columbus Avenue are already largely used for such purposes, and on April 13, 1917, the Board adopted an amendment to the Zone Plan changing 60th Street from 100 feet west of Broadway to within 100 feet of Columbus Avenue to an unrestricted district. If Columbus Avenue and 63rd Street are made unrestricted, the short blocks on 61st Street and 62nd Street from Columbus Avenue to within 100 feet of Broadway should be included in an unrestricted area.

Your Committee recommends that the Board fix a day for a public hearing on a proposed amendment to Use District Map, Section No. 8, so as to include within an unrestricted district the areas fronting on West 60th Street, West 61st Street, West 62nd Street, West 63rd Street and Columbus Avenue, bounded as follows: Beginning at a point on the easterly side of Amsterdam Avenue, 100 feet northerly from West 63rd Street, measured at right angles thereto; thence easterly on a line parallel to West 63rd Street to the westerly side of Broadway; thence southerly on the westerly side of Broadway to its intersection with a line parallel to Columbus Avenue and 100 feet easterly therefrom, measured at right angles; thence southerly on said line parallel to Broadway to its intersection with a line parallel to West 60th Street and 100 feet northerly therefrom, measured at right angles; thence westerly on said line parallel to West 60th Street to its intersection with a line parallel to Columbus Avenue and 100 feet easterly therefrom, measured at right angles; thence southerly on said line parallel to Columbus Avenue to the northerly side of West 60th Street; thence westerly on the northerly side of West 60th Street to its intersection with a line parallel to Columbus Avenue and 100 feet westerly therefrom, measured at right angles; thence northerly on said line parallel to Columbus Avenue to its intersection with a line parallel to West 63rd Street and 100 feet southerly therefrom, measured at right angles; thence westerly on said line parallel to West 63rd Street to the easterly side of Amsterdam Avenue; thence northerly on said easterly side of Amsterdam Avenue to the point of beginning, except such areas within the above described area as are governed by the use district designation in Broadway according to use district designation rule j, and including such additional areas as are governed by the use district designation as now determined in those parts of Columbus Avenue and West 63rd Street within the above described area, according to said rule j.

Respectfully submitted, JOHN PURROY MITCHEL, Mayor, Chairman; MARCUS M. MARKS, President, Borough of Manhattan; LEWIS H. POUNDS, President, Borough of Brooklyn; ..... President, Borough of The Bronx; MAURICE E. CONNOLLY, President, Borough of Queens; CALVIN D. VAN NAME, President, Borough of Richmond; Committee on the City Plan.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby fixes Friday, June 22, 1917, at 10.30 o'clock a. m., and Room 16, City Hall, Borough of Manhattan, City of New York, as the time and place for a public hearing on a proposed amendment to Use District Map, Section No. 8, so as to include within an unrestricted district the areas fronting on West 60th Street, West 61st Street, West 62nd Street, West 63rd Street and Columbus Avenue, Borough of Manhattan, bounded as follows:

Beginning at a point on the easterly side of Amsterdam Avenue, 100 feet northerly from West 63rd Street, measured at right angles thereto; thence easterly on a line parallel to West 63rd Street to the westerly side of Broadway; thence southerly on the westerly side of Broadway to its intersection with a line parallel to Columbus Avenue and 100 feet easterly therefrom, measured at right angles; thence southerly on said line parallel to Broadway to its intersection with a line parallel to West 60th Street and 100 feet northerly therefrom, measured at right angles; thence westerly on said line parallel to West 60th Street to its intersection with a line parallel to Columbus Avenue and 100 feet easterly therefrom, measured at right angles; thence southerly on said line parallel to Columbus Avenue to the northerly side of West 60th Street; thence westerly on the northerly side of West 60th Street to its intersection with a line parallel to Columbus Avenue and 100 feet westerly therefrom, measured at right angles; thence northerly on said line parallel to Columbus Avenue to its intersection with a line parallel to West 63rd Street and 100 feet southerly therefrom, measured at right angles; thence westerly on said line parallel to West 63rd Street to the easterly side of Amsterdam Avenue; thence northerly on said easterly side of Amsterdam Avenue to the point of beginning; except such areas within the above described area as are governed by the use district designation in Broadway according to use district designation

rule "j," and including such additional areas as are governed by the use district designation as now determined in those parts of Columbus Avenue and West 63rd Street within the above described area according to said rule "j," as shown upon a map bearing the signature of the Secretary of the Committee on the City Plan and dated April 18, 1917.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan and Brooklyn and the Acting President of the Borough of Richmond—14.

Negative—The President of the Borough of The Bronx—1.

**Van Nest Avenue, East Tremont Avenue and East 180th Street, Borough of The Bronx—Amendment of Building Zone Resolution (Cal. No. 17).**

(On December 15, 1916 (Cal. No. 103), the petition of Charles Schaefer, Jr., requesting a change from a Business to an Unrestricted District of the block bounded by Van Nest Avenue, East 180th Street, Tremont Avenue and Adams Street, The Bronx, was referred to the Committee on the City Plan.)

The Secretary presented a petition dated December 7, 1916, from Charles Schaefer, Jr., requesting that premises on the northeast corner of Van Nest Avenue and East 180th Street, The Bronx, be changed from a business to an unrestricted district, so as to permit the erection of a two-story brick garage thereon; and the following report of the Committee on the City Plan.

May 7, 1917.

##### Board of Estimate and Apportionment:

Gentlemen—On December 15, 1916, the Board received and referred to the Committee on the City Plan a petition from Charles Schaefer, Jr., requesting a change from a business district to an unrestricted district of the block bounded by Van Nest Avenue, East 180th Street, Tremont Avenue and Adams Street, Borough of The Bronx.

The Local Board of Chester held a public hearing on this proposed change. On March 22, 1917, the President of the Borough of The Bronx, transmitted to the Committee on the City Plan a resolution of the Local Board recommending a modification of Use District Map Section No. 3 so as to change from a business district to an unrestricted district the area on the north side of East 180th Street, between Van Nest Avenue and East Tremont Avenue (West Farms Road). At the local hearing certain owners of property on the opposite side of Adams Street opposed the proposed change. The change as recommended by the Local Board would extend into the block one-half the distance between 180th Street and Adams Street. The right-of-way of the New York, New Haven and Hartford Railroad passes opposite the easterly end of this block. The easterly side of the railroad right-of-way is at present in an unrestricted district as is also the westerly side south of a point 100 feet south of Tremont Avenue. There is at present an industrial use of a portion of Adams Street opposite the block proposed to be changed.

Your Committee believes that if this block or a part of it is changed to an unrestricted district it should be connected with the existing unrestricted district to the east and south. This will necessitate including within the unrestricted district the southerly frontage on Tremont Avenue (West Farms Road), between Van Nest Avenue and a point 100 feet west of Bronx River Avenue, and the westerly frontage of Van Nest Avenue from a point 100 feet south of Tremont Avenue to a point 100 feet north of 180th Street.

In making the recommendation that the change requested by the petitioner be restricted so as not to include in the unrestricted district any of the Adams Street frontage the Local Board apparently wished to protect the owners on the opposite side of Adams Street by requiring the petitioner to secure the approval of the Board of Appeals before permitting a garage or other industrial use of the petitioner's property. The block is so narrow within 100 feet or more of its easterly end that both the Adams Street and the 180th Street frontages must be developed as a unit. If the 180th Street frontage is made unrestricted the owner can then go to the Board of Appeals and request permission to extend a public garage or other use back to Adams Street and the Board, if it sees fit to grant such request, can attach appropriate conditions to safeguard the rights of owners on the opposite side of Adams Street.

About the same situation will be brought about in a way that conforms more closely to the methods of mapping used in other cases by including in the unrestricted district the area at the northeast corner of Van Nest Avenue and 180th Street and the northwest corner of 180th Street and Tremont Avenue. The property of the petitioner would then be within an unrestricted district with the exception of a narrow strip through the middle running from 180th Street to Adams Street, and he would have to secure the approval of the Board of Appeals before he could improve his entire plot with a public garage or other industrial use.

Your Committee recommends that the Board fix a day for a public hearing on a proposed amendment to Use District Map Section No. 3 so as to include within an unrestricted district the area on the north side of East 180th Street within 100 feet thereof, between Van Nest Avenue and a line parallel to Van Nest Avenue and 100 feet easterly therefrom measured at right angles to said avenue; and so as to include in an unrestricted district the area on the west side of East Tremont Avenue (West Farms Road), within 100 feet thereof, between East 180th Street and Adams Street; and so as to include in an unrestricted district the area on the south side of East Tremont Avenue within 100 feet thereof between Van Nest Avenue and a line parallel to Bronx River Avenue, and 100 feet westerly therefrom measured at right angles to said Bronx River Avenue; also so as to include in an unrestricted district the area on the west side of Van Nest Avenue within 100 feet thereof between a line parallel to East Tremont Avenue (West Farms Road) and 100 feet southerly therefrom measured at right angles to said avenue, and a line parallel to East 180th Street and 100 feet northerly therefrom measured at right angles to said street. Respectfully submitted.

##### Committee on Corporate Stock Budget.

**President, Borough of Queens—Appropriation for Additional Land for Disposal Works (Cal. No. 18).**

The Secretary presented a report of the Committee on Corporate Stock Budget on the request of the Acting President of the Borough of Queens for issue of corporate stock in the amount of \$10,000 to provide for the acquisition of additional land surrounding the disposal works under the jurisdiction of the Bureau of Sewers located at South Jamaica, Borough of Queens; recommending that the Board determine the whole cost and expense of same shall be borne and paid by The City of New York and that the Comptroller be authorized to negotiate with the owners of the land

with the object of its acquisition at private sale, the price to be submitted to the Board in accordance with section 1434 of the Charter; and that for the purpose of providing means therefor the Commissioners of the Sinking Fund be requested to authorize the Comptroller to pay for the above mentioned property from the fund known as "S-109L, Sales of City Property."

The matter was laid over one week (June 1, 1917), and referred to the Chief Engineer of the Board, for report meanwhile, under Rule 35.

**Department of Parks, Borough of Queens—Appropriation for Construction of Pavement in Jacob Riis Park (Cal. No. 19).**

The Secretary presented a report of the Committee on Corporate Stock Budget recommending an authorization of \$25,000 Corporate Stock, pursuant to the provisions of section 169 of the Charter, for the construction of an eight-inch concrete surface, 30 feet in width and 5,000 feet in length, to be laid on top of the present macadam road which extends across Jacob Riis Park, from the easterly to the westerly boundary, connecting the present Rockaway Beach Boulevard with government property recently acquired at Rockaway Point, under the jurisdiction of the Department of Parks, Borough of Queens.

The matter was laid over one week (June 1, 1917), under Rule 19.

**Department of Parks, Borough of Brooklyn—Appropriation for Repaving Fort Hamilton Parkway, Between Ocean Parkway and 72d Street (Cal. No. 20).**

The Secretary presented a communication, dated May 3, 1917, from the Commissioner of Parks, Borough of Brooklyn, amending request of February 19, 1917, for an appropriation of \$90,000 for repaving a portion of the roadway of Fort Hamilton Parkway, between Ocean Parkway and 72d Street, by increasing the amount to \$110,000; and the following report of the Committee on Corporate Stock Budget recommending approval thereof:

May 5, 1917.

*To the Board of Estimate and Apportionment:*

Gentlemen—On May 3, 1917, the Commissioner of Parks, Borough of Brooklyn, amended his request of February 19, 1917, for an issue of corporate stock to the amount of \$90,000 for the purpose of repaving a portion of the roadway of Fort Hamilton Parkway, between Ocean Parkway and 72d Street, by increasing the amount to \$110,000. On May 4, 1917, this request was referred to the Bureau of Contract Supervision, which Bureau reports thereon as follows:

"The original request contemplated the paving of a strip twenty feet in the width in the centre of this roadway for the entire distance with asphaltic concrete on a six-inch concrete base and the resurfacing of the remaining width with tar macadam.

"Since making the February request, the Commissioner has succeeded in obtaining an offer from the Board of Trustees of Greenwood Cemetery which has a frontage of about 2,700 feet on this parkway by which the Trustees agree to contribute \$25,000 toward paving the roadway. This offer was contingent, however, on the paving of the roadway with asphaltic concrete, on a six-inch base, from curb to curb, a width of 40 feet, between Ocean Parkway and the lower end of Greenwood Cemetery at 36th Street, a distance of about 4,200 feet. This change from the original plan would increase the cost by about \$35,000, as the curb would have to be reconstructed and provision made for drainage if the roadway is paved full width. The class of improvement under this scheme would, however, be much superior, the maintenance less for the future, and it would appear decidedly to the advantage of the City to accept the \$25,000 contribution under the conditions imposed.

"Since the first request bids received in the Borough of Brooklyn for work of this nature indicate that the estimate on which the request was based was about ten per cent. too low. In consideration of this fact and of the additional cost of the full width paving mentioned above, the Commissioner on May 3, 1917, increased his request to \$110,000.

"The expenditure of this sum will provide an asphaltic concrete pavement on a six-inch concrete base, full width, between Ocean Parkway and 36th Street, together with necessary curb readjustment and drainage; a similar pavement on a central strip, twenty feet in width, from 36th Street to 72d Street, and for the resurfacing of the macadam intersections and strips between the central paved strip and the curbs. The entire work will cost about \$135,000, of which Greenwood Cemetery will pay \$25,000 and the City the balance.

"This street is under the jurisdiction of the Park Department and the Board of Estimate and Apportionment recommended some time ago that it be transferred to the Borough President, so that the permanent pavement could be assessed. Concurrent action on this recommendation having failed in the Board of Aldermen, the proposal to assess could not be legally carried out.

"The work, because of the existing poor condition of the road and the immediate need of a good road leading to Fort Hamilton, should be started at once.

"The work, as proposed, is about as economical and satisfactory as could be provided.

"The amount requested is reasonable for the quantities to be provided which will approximate the following: 42,000 square yards of asphaltic concrete on six-inch concrete base; 40,000 square yards macadam to be resurfaced; 8,500 linear feet curb (new and old reset); 20,000 linear feet of concrete edging along sides of central strip of asphaltic concrete; 10,000 cubic yards of grading, and about \$11,000 for drainage and miscellaneous engineering."

We recommend the adoption of the attached resolution granting the request as amended. Respectfully,

WM. A. PRENDERGAST, Comptroller; FRANK L. DOWLING, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; \_\_\_\_\_, President, Borough of The Bronx; Corporate Stock Budget Committee.

On motion, Rule 19 was waived in this matter, and the following resolution offered:

Resolved, By the Board of Estimate and Apportionment, that, pursuant to the provisions of section 169 of the Greater New York Charter, the sum of one hundred and ten thousand dollars (\$110,000) is hereby appropriated for the purpose of repaving and resurfacing the roadway of Fort Hamilton Parkway between Ocean Parkway and 72d Street, Borough of Brooklyn, together with all work incidental thereto, under the jurisdiction of the Commissioner of Parks, Borough of Brooklyn, as follows:

For construction work ..... \$106,000 00  
For engineering and surveying ..... 4,000 00

—and that the Comptroller be and is hereby authorized to issue, pursuant to section 169 of the Greater New York Charter, serial bonds of The City of New York to the amount of twenty-seven thousand five hundred dollars (\$27,500), redeemable in fifteen equal annual installments, being one-quarter of such total authorization, and that the remaining three-quarters thereof, viz., eighty-two thousand five hundred dollars (\$82,500), shall be included in the annual tax levies in the manner provided by section 189 of the Greater New York Charter, provided, however, that no encumbrance or expenditure by contract shall be made against said sums nor shall bids upon such contracts be advertised for until after approval by the Board of Estimate and Apportionment of the plans, specifications, estimates of cost and forms of such contracts, which shall be submitted to said Board by the Commissioner of Parks, Borough of Brooklyn, nor shall any architect, engineer, expert or departmental employee be engaged or employed as a charge against such sums, except after approval by said Board of such employment and of the fee or wage to be paid by preliminary and final contract, voucher or budget schedule, which are to be similarly submitted, unless, in the case of departmental employees, such employment is in accordance with schedules approved by said Board.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and Queens and the Acting President of the Borough of Richmond—13.

Negative—The President of the Borough of The Bronx—1.

Present and not voting—The President of the Borough of Manhattan.

**Department of Water Supply, Gas and Electricity—Acquisition of Property of the South Shore Water Works Company of Staten Island and Issue of Corporate Stock Therefor (Cal. No. 21).**

The Secretary presented a report of the Committee on Corporate Stock Budget recommending the purchase of the entire plant of the South Shore Water Works

Company of Staten Island at a cost of \$10,000, and the appropriation of the necessary funds therefor.

(The President of the Borough of The Bronx dissents from the recommendation in the report.)

(On March 16, 1917 (Cal. No. 141), and March 30, 1917 (Cal. No. 171), the above matter was referred to said Committee.)

The matter was laid over one week (June 1, 1917), under Rule 19.

*Committee on Salaries and Grades.*

**President, Borough of Manhattan—Retirement of John J. Feehan, Watchman (Cal. No. 22).**

(On April 20, 1917 (Cal. No. 93), the request of the President, Borough of Manhattan in this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication, dated April 9, 1917, from the President, Borough of Manhattan, requesting the retirement of John J. Feehan, Watchman, Bureau of Public Buildings and Offices; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 15, 1917.

*To the Board of Estimate and Apportionment, The City of New York:*

Gentlemen—At a meeting of your Board held April 20, 1917, there was submitted a communication from the President of the Borough of Manhattan, dated April 9, 1917, recommending the retirement of John J. Feehan, a Watchman in the Bureau of Public Buildings and Offices, in the office of the President of the Borough of Manhattan.

The President's communication was as follows:

"I hereby recommend the retirement, under the existing pension laws, of John J. Feehan, 2149 Third Avenue, New York City, a Watchman, \$900 per annum, in the Bureau of Public Buildings and Offices.

"Mr. Feehan is sixty-eight years of age and has been continuously employed in this department since August 31, 1884, a period of more than thirty-two years. In addition, he has been employed in the Bureau of Buildings from January 4, 1876, to May 4, 1876; in the Department of Water Supply from January 24, 1881, to July 10, 1882, and under the President of the Board of Aldermen from January 1, 1883, to December 31, 1883, making a total of more than thirty-five years' service.

"Owing to his advanced age and physical condition Mr. Feehan has been incapacitated for work and is at present confined to his home through illness.

"I recommend favorable action upon this application as soon as possible."

On May 1st, 1917, Mr. Feehan was examined by the Board of Medical Examiners. The report of the said Board is attached hereto and states in conclusion:

"In our opinion applicant is permanently unfit for duty, and we therefore suggest that you recommend his retirement."

Mr. Feehan's original appointment in the Department of Public Works and subsequent changes in title and rate of compensation were as follows:

August 31, 1884, appointed Watchman, Department of Public Works, at \$800 per annum.

May 1, 1902, compensation changed to \$900 per annum.

An examination of the payrolls and time sheets has been made sufficient to establish over thirty years of service, as follows:

January 1, 1887, to April 15, 1917, aggregating a period of 30 years and 4 months.

In an affidavit dated May 4, 1917, submitted herewith, Mr. Feehan stated that he had never filed a claim nor brought suit against the City of New York for the payment of salary or wages or for any other claim, except that some time in the year 1884 he retained Eugene Durnin as attorney to bring an action in his name for salary due him as Engrossing Clerk in the office of the Board of Aldermen for the month of January, 1884; that he has been informed that a claim was filed in the Department of Finance for the salary due him, but that no action was brought thereon; that he never received any money in settlement of said claim, and waives any right he may have to said salary.

A search of the records in the Law Department discloses the fact that a claim was transmitted from the Finance Department on January 15, 1885, in favor of John J. Feehan for salary as an Engrossing Clerk of the Board of Aldermen from January 8 to 24, 1884, amounting to \$58.07; that the claimant was examined, but that no action was commenced on the claim.

An examination of the records of the Department of Finance shows that John J. Feehan filed a claim through Eugene Durnin, his attorney, for \$58.07 for salary as Engrossing Clerk of the Board of Aldermen from January 8 to 24, 1884, and that the claim was referred to the Law Department for examination, in accordance with the provisions of section 123 of the New York Consolidated Act of 1882.

For the period from April 15, 1914, to April 15, 1917, Mr. Feehan's compensation as provided for in the budget and the compensation which he actually received was at the rate of \$900 per annum.

Mr. Feehan has been on leave of absence without pay since April 16, 1917.

We recommend the adoption of the accompanying resolution retiring John J. Feehan from active service and awarding and granting him an annuity of \$450.00, being 50 per centum of his average annual rate of compensation for the past three years. Respectfully submitted,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following was offered:

Whereas, John J. Feehan, employed as a Watchman in the office of the President of the Borough of Manhattan, has been in the employ of the City of New York or of one of the municipalities, counties or parts thereof which have been incorporated into The City of New York, for a period of thirty years and upward, and is physically incapacitated for the further performance of the duties of his position; therefore, be it

Resolved, That the interest of the public service requires his retirement, and that the Board of Estimate and Apportionment, pursuant to the provisions of sections 165, 166 and 167 of the Greater New York Charter, as amended by chapter 669 of the Laws of 1911 and chapter 479 of the Laws of 1912, hereby does retire from active service John J. Feehan, employed as a Watchman in the office of the President of the Borough of Manhattan, and hereby awards and grants to said John J. Feehan an annual sum or annuity of Four hundred fifty dollars (\$450), being fifty per centum of his average annual rate of compensation for the three years immediately preceding the taking effect of this resolution; this resolution to take effect upon the first day of the month following its adoption, subject to the execution by the annuitant of a general release; and be it further

Resolved, That the Comptroller of The City of New York be and he is hereby directed to pay said annuity to said John J. Feehan during his lifetime in equal monthly installments out of the receipts of excise moneys or liquor taxes belonging to The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

**Department of Plant and Structures—Retirement of Herman Prager, Clerk (Cal. No. 23).**

(On April 20, 1917 (Cal. No. 94), the request of the Commissioner of Plant and Structures in this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated April 13, 1917, from the Commissioner of Plant and Structures, transmitting request for retirement of Herman Prager, Clerk; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 15, 1917.

*To the Board of Estimate and Apportionment, The City of New York:*

Gentlemen—At a meeting of your Board held April 20, 1917, there was submitted a communication from the Commissioner of the Department of Plant and Structures, dated April 13, 1917, recommending the retirement of Herman Prager, a Clerk in the Department of Plant and Structures.

The Commissioner's communication was as follows:

"I transmit herewith application of Mr. Herman Prager, of 2551 Bedford Avenue, Brooklyn, a Clerk in the employ of this department, for retirement on

a pension, pursuant to the provisions of chapter 669 of the Laws of 1911, as amended by chapter 479 of the Laws of 1912.

Mr. Prager was appointed on the New York and Brooklyn Bridge on October 1, 1886, and has continued in the service of the trustees of the said bridge and their successors, the Department of Bridges and the Department of Plant and Structures, since that date. He is about sixty years of age.

Mr. Prager was examined by the Board of Medical Examiners appointed by the Committee on Salaries and Grades of the Board of Estimate and Apportionment, and in their certificate, dated April 10, 1917, which is hereto annexed, they state that, in their opinion, he is unfit for the duties of his position, and suggest that his retirement be recommended.

Mr. Prager's record in this department is excellent and he is well spoken of by all the men under whom he has served.

In view of his application for retirement and the opinion of the Board of Examiners, I respectfully request your Honorable Board to act favorably upon the application of Herman Prager, for retirement on a pension.

On April 10, 1917, Mr. Prager was examined by the Board of Medical Examiners. The report of the said board is attached hereto and states in conclusion:

"In our opinion applicant is permanently unfit for duty and we therefore suggest that you recommend his retirement."

Mr. Prager's original appointment and subsequent changes in title and rate of compensation were as follows:

October 1, 1886—Appointed Clerk, Trustees, New York and Brooklyn Bridge, at \$1,000 per annum.

January 1, 1887—Compensation changed to \$1,200 per annum.

January 1, 1889—Compensation changed to \$1,500 per annum.

July 1, 1890—Compensation changed to \$1,800 per annum.

March 1, 1891—Compensation changed to \$2,000 per annum.

May 1, 1891—Compensation changed to \$1,800 per annum.

April 1, 1892—Compensation changed to \$2,000 per annum.

January 1, 1898—Title changed to Chief Clerk.

January 1, 1899—Compensation changed to \$2,500 per annum.

May 1, 1902—Compensation changed to \$2,400 per annum.

January 18, 1905—Compensation changed to \$2,550 per annum.

December 1, 1907—Compensation changed to \$3,000 per annum.

January 1, 1916—Title changed to Clerk at \$1,500 per annum.

In an affidavit dated April 25, 1917, submitted herewith, Mr. Prager stated that he had never filed a claim nor brought suit against The City of New York for the payment of salary or wages or for any other claim.

A search of the records in the Law Department discloses no evidence of any action brought by Mr. Prager.

An examination of the Register of Claims in the Division of Law and Adjustment of the Department of Finance for the past six years shows that he has filed no claim during that period.

For the period from May 1, 1914, to April 30, 1917, Mr. Prager's compensation as provided for in the Budget and the compensation which he actually received was as follows:

May 1 to December 31, 1914, at \$3,000 per annum.....	\$2,000 00
January 1 to December 31, 1915, at \$3,000 per annum.....	3,000 00
January 1 to December 31, 1916, at \$1,500 per annum.....	1,500 00
January 1 to April 30, 1917, at \$1,500 per annum.....	500 00
	<hr/>
	\$7,000 00

—an average annual rate of \$2,333.33.

An examination of the payrolls and time sheets has been made sufficient to establish over thirty years of service, as follows: October 1, 1886, to April 30, 1917, aggregating a total service of 30 years and 7 months.

We recommend the adoption of the accompanying resolution retiring Herman Prager from active service and awarding and granting him an annuity of \$1,050, being less than 50 per centum of his average annual rate of compensation for the past three years. Respectfully submitted,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following was offered:

Whereas, Herman Prager, employed as a Clerk in the Department of Plant and Structures, has been in the employ of The City of New York or of one of the municipalities, counties or parts thereof which have been incorporated into The City of New York, for a period of thirty years and upward, and is physically incapacitated for the further performance of the duties of his position; therefore be it

Resolved, That the interest of the public service requires his retirement, and that the Board of Estimate and Apportionment, pursuant to the provisions of sections 165, 166 and 167 of the Greater New York Charter, as amended by chapter 669 of the Laws of 1911 and chapter 479 of the Laws of 1912, hereby does retire from active service Herman Prager, employed as a Clerk in the Department of Plant and Structures, and hereby awards and grants to said Herman Prager an annual sum or annuity of one thousand and fifty dollars (\$1,050), being less than fifty per centum of his average annual rate of compensation for the three years immediately preceding the taking effect of this resolution; this resolution to take effect upon the first day of the month following its adoption, subject to the execution by the annuitant of a general release; and be it further

Resolved, That the Comptroller of The City of New York be and he is hereby directed to pay said annuity to said Herman Prager during his lifetime in equal monthly installments out of the receipts of excise moneys or liquor taxes belonging to The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

#### President, Borough of Richmond—Modification of Schedule (Cal. No. 24).

The Secretary presented a communication dated May 5, 1917, from the President, Borough of Richmond, requesting modification of schedule for 1917; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 22, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On May 5, 1917, the PRESIDENT OF THE BOROUGH OF RICHMOND requested modification of Code No. 759TC for 1917. The Bureau of Personal Service reports thereon as follows:

"Purpose—To change a line Junior Topographical Draftsman at \$1,200 to Topographical Draftsman at the same rate.

"Reason—In order to permit of the increase in compensation of the present incumbent, who was not previously eligible by reason of Civil Service rules, from \$1,140 to \$1,200 per annum, as provided in the Budget for 1917.

"Finding—The request is proper and reasonable."

Recommendation—In view of the above report, the Committee recommends that the request be granted by the adoption of the attached resolution.

Respectfully, ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor, LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following was offered:

#### Department of Taxes and Assessments—Modification of Schedule (Cal. No. 25).

The Secretary presented a communication dated April 25, 1917, from the Secretary, Department of Taxes and Assessments, requesting modification of schedule for 1917; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 15, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On April 25, 1917, the DEPARTMENT OF TAXES AND ASSESSMENTS requested modification of Code 151 for the year 1917. The Bureau of Personal Service reports thereon as follows:

"Purpose—To reduce two positions of Deputy Tax Commissioner from \$3,250 to \$1,650 and from \$2,520 to \$2,400, respectively, the latter now being vacant, and to increase two positions of Deputy Tax Commissioner from \$1,650 to \$2,400 and from \$1,200 to \$1,650, respectively, placing \$520 in balance unassigned.

"Reason—To allow of organization adjustment.

"Finding—Samuel A. Moore, a Deputy Tax Commissioner at \$3,250 in the Borough of Richmond, is unable to perform the duties of the position by reason of impaired health and has been assigned to office work. The department desires to make a reduction in his salary commensurate with the decreased responsibilities and it is intended to fix his compensation at \$1,650. It is proposed to assign to George T. Watson, at present a Deputy Tax Commissioner at \$1,650 to the assessment work of Mr. Moore, and, on account of the enlarged duties and responsibilities which will devolve upon him, to increase his salary to \$2,400, the minimum standard rate for such employment. It is further intended to use \$430 of the money made available by such adjustment to restore in part the former salary of Frank Uihlein, a Deputy Tax Commissioner, whose salary was reduced from \$2,700 to \$1,200 on January 1, 1916. At that time Mr. Uihlein was assigned to the office and unable to assume assessment work because of poor health. He has since recovered sufficiently to allow of his performing more responsible work, and it is deemed just to increase his salary to \$1,650 per annum, restoring in part his former compensation. The department also wishes to reduce a vacant position of Deputy Tax Commissioner from \$2,520 to \$2,400. Authorization has already been given to fill the position from an eligible list at the lower rate and it is intended to place the remaining \$120, together with the \$400 made available by the other changes above proposed, in balance unassigned. As the request contemplates an equitable adjustment of rates, it is reasonable and proper."

Recommendation—In view of the above report, the Committee recommends granting the request by the modification of the schedule. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

#### Fund for Salary and Wage Accruals; Department of Licenses—Transfer of Appropriation and Modification of Schedules (Cal. No. 26).

The Secretary presented a communication dated March 15, 1917, from the Commissioner of Licenses, requesting modification of schedules for 1917, involving transfer

from Fund for Salary and Wage Accruals; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 16, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On March 15, 1917, the COMMISSIONER OF LICENSES requested modification of Codes Nos. 259 and 262 for 1917. The Bureau of Personal Service reports thereon as follows:

"Purpose—(1) In Code No. 262 to increase the rate of Auto Machinist from \$4.50 to \$5 per day, the funds to be made available by a transfer from the General Accrual Fund.

"(2) In Code No. 259 to increase the salary of a Stenographer and Typewriter from \$1,020 to \$1,200 per annum by a corresponding reduction in an unassigned balance in the same schedule.

"Reason—(1) On February 16, 1917, the Board of Estimate and Apportionment passed a resolution requesting the Board of Aldermen to establish the position of Machinist at \$5 per day for an unlimited number of incumbents. At the same time a resolution was passed requesting departments to provide for the compensation of such workmen from January 1, 1917, to the end of the year at the proposed rate. On February 27, 1917, the Board of Aldermen established the positions as requested.

"(2) The incumbent, Daniel Lipsky, in addition to taking testimony at hearings of complaints against licensees, acts as Jewish interpreter for the Brooklyn office, where more than one-third of the applicants are unable to speak English. In addition to this work, he initiates a great amount of the replies to correspondence and in the absence of the chief of the office is in responsible charge.

"Finding—(1) The request is proper and necessary.

"(2) The request is reasonable. A specific appraisal of the work fixes the salary at the rate of \$1,200. No increase in appropriation is involved."

Recommendation—In view of the above report the Committee recommends that the request be granted by the adoption of the attached resolutions. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor, LEWIS H. POUNDS, President, Borough of Brooklyn, Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, and in accordance with the terms and conditions of resolution Second (f) of the 1917 Budget, approves of the transfer of funds as follows:

**Police Department—Modification of Schedules (Cal. No. 27).**

The Secretary presented a communication, dated April 16, 1917, from the Police Commissioner, requesting modification of schedules for 1917; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 11, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On April 16, 1917, the POLICE COMMISSIONER requested modification of one salary and two wage schedules for 1917, involving a cash transfer of \$60,165. The Bureau of Personal Service reports thereon as follows:

"Purpose—In No. 1603 to eliminate 32 Caretakers at \$840, 29 Caretakers at \$780, 26 Hostlers at \$840, and 24 Laborers at \$780, transferring the funds to No. 1606 to provide for 43 Caretakers at \$2.50 per day (365 days), 26 Hostlers at \$2.50 per day (365 days), 9 Laborers at \$3 per day (313 days) and 22 Laborers at \$2.50 per day (313 days).

"In No. 1606 to increase the rate and time for two Laborers from \$2.50 per day (303 days) to \$3 per day (313 days) and to increase the time for 24 Laborers at \$2.50 per day and 1 Driver at \$2.50 per day from 303 to 313 days.

"In No. 1607 to reduce the allowance for Laborer at \$2.50 per day from 252 days to 24 3-5 days.

"These changes involve a cash transfer of \$59,596.50 from No. 1603, Salaries Regular Employees, and \$568.50 from No. 1607, Wages Temporary Employees, to No. 1606, Wages Regular Employees.

"Reason—For the purpose of equalizing the rates of pay of employees performing unskilled laboring work, to provide increased compensation for 9 employees performing skilled laboring work and to provide for the actual number of days for each employee on a per diem basis. At the present time employees working the same number of days are receiving different rates of compensation, while others are receiving less. For example, employees under the title of Caretaker are receiving \$840 for six days' work, while Hostlers receive the same rate for seven days' work. Other employees receive \$780 per year and \$2.50 per day for six days' work, although they perform the same kind of work as the \$840 Caretaker. Prior to 1916 the Hostlers received \$2.50 per day, as also did the majority of the other employees.

"Finding—The discrepancy in rates has not been conducive to good organization, as those employees whom it is necessary to keep on duty seven days a week cannot see why they should work one day a week more than others, yet receive only the same pay and in some cases less. The title of Caretaker is misleading. Some of those holding this title should be called Laborers, but on account of civil service rules this cannot be done just now in all cases. Seven of them, however, are to have their title changed to Laborer. The per diem rate for Caretaker, Hostler and Laborer is \$2.50 per day. The proposition to change the rates is reasonable in view of the existing conditions, as well as the fact that nearly all of the employees affected were receiving more on a per diem basis than they are now receiving on a per annum basis. The request for a \$3 rate for 11 Laborers, to provide for a slight increase for men employed as stores laborers and those doing minor plumbing, carpentry, painting, etc., work, is reasonable. The changes requested also involve provisions for the employees for the actual number of days required for their class of work. The positions eliminated are vacant and not required. A floating force of cleaners will take care of the cleaning of houses where a regular attendant is not required."

Recommendation—In view of the above report the Committee recommends that the request be granted by the adoption of the attached resolution. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

**Department of Health—Modification of Schedules (Cal. No. 28).**

The Secretary presented a communication dated March 12, 1917, from the Secretary, Department of Health, requesting modification of schedules for 1917; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 15, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On March 12, 1917, the DEPARTMENT OF HEALTH requested modification of Codes Nos. 1823 and 1824 for the year 1917. The Bureau of Personal Service reports thereon as follows:

"Purpose—(1) To increase the salary of Shirley Wynne, Assistant Registrar of Records, from \$3,000 to \$3,780 per annum.

"Reason—(1) When the proposed increase to \$3,780 for Dr. Wynne was under consideration by the Budget Committee in 1916 objection was made that the Division of Statistical Research had not then taken over the actual administration of the statistical work of the bureaus of the department. Since the first of the year the tabulation and preparation of statistical reports from the records of the Bureaus of Child Hygiene and Preventable Diseases have been taken up by the Division of Statistical Research, under Dr. Wynne. Six Clerks have been transferred from those two Bureaus to the Bureau of Vital Statistics for the purpose. Upon the transfer of those Clerks Dr. Wynne devised a system to take the place of those used in the Bureaus of Child Hygiene and Preventable Diseases which has received the approval of the Bureau heads. Under the system devised there will be a material reduction in the clerical work now performed at the milk stations, and at the same time give accurate evidence of the results attending the work at each station. A system of reports devised for the Bureau of Preventable Diseases will furnish the department with statistical information of the diseases handled by the Bureau of Vital Statistics that has not been heretofore available. Other new studies that enhance the importance of the position occupied by Dr. Wynne are the mortality from cancer, securing better statistics of autopsies, birth tabulation by sanitary areas, and census dealing with the morbidity and the social and economic conditions of 80,000 of our colored population. Necessary funds will be provided within the appropriation.

"Finding—The other Assistant Registrars of the Bureau of Vital Statistics receive the same salary as Dr. Wynne, viz. \$3,000 per annum, and with less responsibility. As Assistant Director of the Bureau he acts for the Director in his absence. Dr. Wynne has received an urgent offer from the State Department of Health at a higher salary than the proposed rate of \$3,780. The duties of the position fall within Grade 5 of the Physician Group of the specifications, with a

range of compensation from \$3,780 to \$4,680 per annum. The rate requested is the minimum of the grade. The request is reasonable."

Recommendation—In view of the above report the Committee recommends that the request be granted by the adoption of the attached resolution. Respectfully,  
ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

**Tenement House Department—Transfer of Appropriation and Modification of Schedules (Cal. No. 29).**

The Secretary presented a communication dated May 9, 1917, from the First Deputy and Acting Tenement House Commissioner, requesting modification of schedules, involving transfer of funds within appropriation for 1917; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 15, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On May 9, 1917, the TENEMENT HOUSE DEPARTMENT requested modification of Codes 2126, 2127 and 2130A for 1917. The Bureau of Personal Service reports thereon as follows:

"Purpose—To increase two positions of Stenographer and Typewriter from \$90 to \$960 per annum in Codes 2126 and 2130A, respectively, and to transfer \$60 from Balance Unassigned in Code 2127 to Code 2126.

"Reason—To provide increases of salaries for Mary C. Cronin and Madeline Raub, who are now employed at \$900 per annum.

"Finding—The duties of the positions fall within Grade 2 of the Stenographer Group of the specifications, with the minimum rate of \$960 per annum. The request is reasonable."

Recommendation—In view of the foregoing, the committee recommends granting the request by the modification of the schedules. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves of the transfer of funds appropriated to the Tenement House Department for the year 1917, as follows:

**Tenement House Department—Modification of Schedule (Cal. No. 30).**

The Secretary presented a communication dated May 4, 1917, from the Tenement House Commissioner, requesting modification of schedule for 1917; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 11, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On May 4, 1917, the TENEMENT HOUSE DEPARTMENT requested modification of Code 2128 for the year 1917. The Bureau of Personal Service reports thereon as follows:

"Purpose—To increase a position of Inspector from \$1,350 to \$1,500, by taking \$150 from Balance Unassigned.

"Reason—To provide a salary increase to minimum of grade.

"Finding—Alfred J. Coveny, an Inspector, at \$1,350, is now performing the duties of a Supervising Inspector. It is proposed to increase his salary to \$1,500, the minimum rate for Grade 2 of the Building Inspector Group, in which his duties fall. The request is proper."

Recommendation—In view of the above report, the Committee recommends granting the request by the modification of the schedule. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

**Department of Water Supply, Gas and Electricity—Modification of Schedule (Cal. No. 31).**

The Secretary presented a communication dated January 17, 1917, from the Commissioner of Water Supply, Gas and Electricity, requesting modification of schedule for 1917; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 24, 1917.

**To the Board of Estimate and Apportionment:**

Gentlemen—On January 17, 1917, the COMMISSIONER OF WATER SUPPLY, GAS AND ELECTRICITY requested modification of Code No. 2163 for 1917. The Bureau of Personal Service reports thereon as follows:

"Purpose—To increase a position of Clerk from \$1,650 to \$1,800, the funds to be made available by a reduction in an existing unassigned balance in the same schedule.

"Reason—To increase the salary of John Langel from \$1,650 to \$1,800. Mr. Langel entered the City service on December 1, 1906, as a Clerk at \$1,500, and was successively increased in salary until December 28, 1909, when he received \$2,700. Subsequently, his compensation was reduced to \$1,800 and again in 1915, when it was fixed at \$1,650.

"Finding—Mr. Langel is now Assistant to the Cashier of the Water Register's office of Manhattan from 9 until 2 o'clock each day and from 2 to 4 o'clock acts as Cashier, the duties of which position fall within Grade 1 of the Cashier Group, with a salary range from \$1,320 to \$1,800 per annum. The position is of importance, in view of the fact that the office handles considerable sums of money, sometimes to the extent of \$6,000,000 a year. The increase requested is one within grade and consequently contrary to the general policy of the Board. However, had sufficient funds been available in the department for more increases in salary in the 1917 Budget his compensation would have been fixed at \$1,800. In view of Mr. Langel's length of service and the fact that money is now available for the change, it is proper to consider his case at this time."

Recommendation—In view of the above report, the Committee recommends that the request be granted by the adoption of the attached resolution. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn. Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the schedule, as revised, for the Department of Water Supply, Gas and Electricity for the year 1917, effective as of May 15, 1917, as follows:

**Department of Plant and Structures—Establishment of Grade of Position of Attendant (Cal. No. 32).**

The Secretary presented a communication dated May 3, 1917, from the Commissioner of Plant and Structures, requesting establishment of grade of position of Attendant at \$3 per day for one incumbent; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 17, 1917.

**To the Board of Estimate and Apportionment:**

Gentlemen—On May 3, 1917, the COMMISSIONER OF PLANT AND STRUCTURES requested the establishment, under section 56 of the Charter, of the grade of position of Attendant at \$3 per day for one incumbent. The Bureau of Personal Service reports thereon as follows:

"Purpose—To change the title of Philip R. Hennessey, now a Laborer at \$3 per day.

"Reason—The employee involved has passed a promotion examination to the position of Attendant. Mr. Hennessey's present title of Laborer is an improper one, as his duties are those of an Attendant.

"Finding—The request is proper and reasonable. No increase in compensation is involved."

Recommendation—In view of the above report the Committee recommends the adoption of the attached resolution requesting the Board of Aldermen to establish the position in accordance with the request of the Commissioner. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Plant and Structures of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Diem.	Number of Incumbents.
Attendant .....	\$3 00	1

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

**City Magistrates' Court—Modification of Schedule (Cal. No. 33).**

The Secretary presented a communication dated May 2, 1917, from the Chief City Magistrate, requesting modification of schedule for 1917; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 10, 1917.

**To the Board of Estimate and Apportionment:**

Gentlemen—On May 2, 1917, the CHIEF CITY MAGISTRATE requested modification of a 1917 salary schedule for the City Magistrate's Court. The Bureau of Personal Service reports thereon as follows:

"Purpose—(1) To reduce a line of six Interpreters at \$1,380 per annum, to 3 at \$1,380 per annum.

"(2) To change a line of four General Interpreters at \$1,200 per annum, to three at \$1,380 per annum, and one at \$1,200 per annum.

"Reason—To permit increases of salary of three General Interpreters from \$1,200 to \$1,380 per annum each.

"Finding—In the 1917 Budget provision was made for the increase in salary of six Interpreters, from \$1,200 to \$1,380 per annum each, in Code No. 2905. The General Interpreters, who are employed in and are under the jurisdiction of the court, at the time of the preparation of the Budget were not granted increases by reason of the fact that they were paid from another code, which did not have funds available for increases. In the 1917 Budget, the separate account for General Interpreters was abolished and all the positions were transferred to Code No. 2905, where they properly belong. Under the Budget preparation rules, if the General Interpreters' salaries had at the time been incorporated in Code No. 2905, three of the General Interpreters would have been eligible for increases from \$1,200 to \$1,380 per annum each, by reason of seniority and efficiency. The minimum salary for the position is \$1,380.

"The Board of Justices have requested that, in view of the consolidation of the accounts, the schedule be modified so that the three General Interpreters may be given the increases which they were eligible to receive at the time of the preparation of the Budget. No increase in appropriation is involved by reason of the request."

Recommendation—In view of the facts stated in the report of the Bureau of Personal Service, the Committee recommends the adoption of the attached resolution modifying Code No. 2905 as requested. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

**Fund for Salary and Wage Accruals; Children's Court—Establishment of Grade of Position, Transfer of Appropriation and Modification of Schedule (Cal. No. 34).**

The Secretary presented a communication, dated February 2, 1917, from the Presiding Justice of the Children's Court, requesting an issue of \$1,600 Special Revenue Bonds for payment of salaries of two Stenographers at the rate of \$960 per annum from March 1 to December 31, 1917; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 11, 1917.

**To the Board of Estimate and Apportionment:**

Gentlemen—On February 2, 1917, the Children's Court requested an issue of special revenue bonds. The Bureau of Personal Service reports thereon as follows:

"Purpose—To provide for an issue of \$1,600 in special revenue bonds for the payment of two Stenographers at the rate of \$960 per annum, from March 1 to December 31, 1917.

"Reason—The Presiding Justice of the Children's Court requested in his Budget estimate for 1917 the establishment of three positions of Stenographer and Typewriter at \$960 per annum. It was proposed to provide for a sufficient stenographic force to take care of the numerous Probation Officers' reports in the Children's Courts. One of these Stenographers was to be detailed to the

Borough of Manhattan, one to the Borough of Brooklyn and one to the circuit part of the Court. The Bureau of Personal Service at that time recommended the establishment of these three positions. The sub-committee and main committee on tax budget allowed but one.

"Finding—There is necessity for the establishment of the two additional positions at this time, owing to the fact that during the month of January the ten new Probation Officers which were allowed in the 1917 Budget were appointed, and for the reason that the Children's Court staff of Probation Officers recently took over a large amount of probation work in connection with improper guardianship cases which heretofore had been performed by the Children's Society."

Recommendation—In view of the above report the Committee recommends the establishment of the two positions as requested, and further recommends the transfer of the necessary amount of \$1,120 from Account No. 3039, General Accrual Fund, to Account No. 2895, Salaries Regular Employees, Children's Court, in order to avoid an issue of special revenue bonds, as requested, and that the attached resolution be adopted.

Respectfully, ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Court of Special Sessions, Children's Court, of the grade of position, in addition to those heretofore established, as follows:

#### Board of Estimate and Apportionment; Bureau of Contract Supervision—Modification of Schedule (Cal. No. 35).

The Secretary presented a communication dated May 12, 1917, from the Director, Bureau of Contract Supervision, requesting modification of schedule for 1917; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 16, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On May 12, 1917, the DIRECTOR OF THE BUREAU OF CONTRACT SUPERVISION requested modification of salary schedule No. 24 for 1917. The Bureau of Personal Service reports thereon as follows:

"Purpose—(1) To change a position of Fuel Engineering Chemist at \$1,500 to Junior Chemist at \$900 per annum.

"(2) To reduce a position of Assistant Engineer at \$3,420 to \$2,280 per annum.

"(3) To change a position of Stenographer and Typewriter at \$1,200 to Clerk at \$1,200 per annum.

"(4) To add a new position of Architectural Draftsman at \$1,740 per annum.

"Reason—(1) There is work in the laboratory which can be performed satisfactorily by a young Chemist, and which does not require the higher grade of position now provided.

"(2) To provide for the transfer of an Assistant Engineer at \$2,280 from another City department.

"(3) This change is requested without increase in compensation in order to provide a title conforming more accurately to the work performed by the incumbent.

"(4) To provide for the position as established by the Board of Aldermen on May 1, 1917.

"Finding—(1) The request is proper. The \$900 rate requested is the minimum of the grade.

"(2) The request is proper. The \$2,280 rate requested is the minimum of the grade.

"(3) The request is proper. The incumbent has passed a Civil Service examination for the proposed change in title.

"(4) The request is proper."

Recommendation—In view of the above report, the Committee recommends that the request be granted by the adoption of the attached resolution. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn, Committee on Salaries and Grades.

#### Committee on Education.

#### Department of Education—Appropriation for Summer Night School Classes for Adult Foreigners (Cal. No. 36).

(On April 27, 1917 (Cal. No. 172), and May 11, 1917 (Cal. Nos. 166 and 246), requests in this matter were referred to the Committee on Education.)

The Secretary presented a communication, dated April 25, 1917, from Richard K. Campbell, Commissioner of Naturalization, U. S. Department of Labor, relative to the necessity of maintaining summer night school classes, between the closing and opening of the regular night classes, for the education of the adult foreigners who are prospective citizens of this country, and urging that the Board appropriate sufficient funds for this purpose; also a communication dated April 30, 1917, from Hon. H. Snowden Marshall, U. S. District Attorney, and a resolution adopted May 8, 1917, by the Board of Aldermen in favor thereof; and the following report of the Committee on Education; which was ordered printed in the Minutes, filed and copy sent to Mr. Campbell:

May 15, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On April 27, 1917, there was referred to the Committee on Education a photostat copy of a circular letter from Mr. Richard K. Campbell, Commissioner of Naturalization of the United States Department of Labor, setting forth the necessity of maintaining summer night school classes for the education of adult foreigners who are prospective citizens, and urging all recipients of the letter to commend the project to the Board of Estimate and Apportionment, with a view to having funds appropriated to enable the summer night school classes to be maintained from the closing of the regular night school term in March until the opening of the succeeding term in October. On May 11, 1917, there was referred to the same Committee a communication from Hon. H. Snowden Marshall, United States District Attorney, enclosing a copy of Mr. Campbell's letter, and endorsing the views contained therein, also a resolution adopted by the Board of Aldermen May 8, 1917, recommending to your Board that sufficient funds be appropriated to maintain the summer night school classes between the time of the closing of the regular night

school classes in March to the opening of such classes in October. In connection therewith, we report as follows:

The circular letter in question, bearing date of April 24, 1917, was also sent to his Honor the Mayor, the Comptroller, other city officials and many prominent citizens. For the purposes of this report, Mr. Henry E. Jenkins, District Superintendent in charge of evening schools, has submitted the following statement showing that ample funds are and have been available for the work proposed by Mr. Campbell, but owing to the small number of foreigners applying for such instruction a considerable portion of the appropriations have been unused. Mr. Jenkins says:

"There is evidently some misunderstanding in the second paragraph of the letter, in which the Commissioner states that heretofore, until last year, summer night schools had been conducted in certain selected schools for two months—July and August—but that as a result of the efforts of the Bureau of Naturalization to have the night schools opened in March this instruction was begun a month earlier and extended through August. As a matter of fact, summer evening schools in the City of New York, when organized, have always been opened on or before June 15 and continued for ten weeks, three nights per week, through the months of June, July and August. The Bureau of Naturalization unquestionably wrote to every one of educational prominence in the city last year, urging the opening of the summer evening schools, but so did many other organizations and individuals. The District Superintendent in charge of Evening Schools had already requested such opening, and the Board of Education established these schools last summer, not because of any outside pressure but because it believed that such action was proper and necessary.

"In the statistical part of the letter a statement is made, referring to the \$11,600 appropriated by the Board of Estimate and Apportionment as a small sum. I am pained to say that the attendance at our evening summer schools was very disappointing, being only about 50 per cent. of what it has been in the last season during which the summer evening schools were in session; and a considerable amount of this appropriation of \$11,600 was not used. Had twice as much been needed it would have been available.

"This department has had under consideration for some time the matter of summer schools for this season, and several weeks ago decided to recommend that the Board of Education open six schools for English to foreigners for thirty sessions from June 15th to and including August 31st. When the evening elementary schools closed on March 28th of this year the Board of Education gave permission to keep ten selected schools open until May 2nd in order that classes in English to foreigners might be maintained for a month longer. These schools were well advertised, information being sent to every one of the other 74 evening schools to the effect that the pupils could attend any one of these schools, which had been located in buildings convenient to the various sections of the city. The attendance was very disappointing, and far below what we had a right to expect.

"The Commissioner of Naturalization shows in the third paragraph of his letter that his reason for recommending that the evening elementary schools be kept open continuously from March until October is the fact that such a very large number apply for naturalization and, therefore, it would seem necessary to have schools opened to help these applicants towards the preparation of their application for citizenship. I do not consider the argument a good one, judging from our past experience. If these applicants would actually come, and had shown in the past that they would so come, I have no hesitation in saying that the Board of Education would see that the schools were open and ready and funds would be supplied.

"During the season of 1915-16 the Bureau of Naturalization sent to this office 48,000 cards, each card representing an applicant for citizenship, either a declarant or a petitioner. Every effort in time, labor and money was made by this department and by the principals of the evening schools, yet the net results in the reaching and keeping of those represented by the cards of the Bureau of Naturalization were practically negligible. It was less than 2 per cent. of the number.

"This department has formed, during the past year, a large number of citizenship classes, but it was with great difficulty that we could get the attendance of any reasonable number, and our experience of the year proved to the principals and to this department that only a small number of these applicants for citizenship could be brought into our schools, and there is therefore no necessity of opening our schools for any more sessions than we are giving. The Board of Education has been offering freely splendid opportunities that in no way have been fully used.

"The National Bureau of Education has also done a tremendous amount of publicity work to arouse the interest of our citizens in its 'America First' campaign. Both of these National Bureaus have been indefatigable in their efforts in this direction, but the Department of Education and the Board of Estimate and Apportionment of the City of New York need no spur to increase their willingness to further this work, and there has been no lack of money on their part or effort looking to 'Americanization' through education.

"The experience of many years shows that a resting point is needed for pupils after a long period of intensive work, continuing from October 1st to April 1st. The pupils, both native born and foreign, but particularly the foreign born, drop off in great numbers after the middle of February, and the close of each season, towards the end of March, is a struggle on our part to keep enough pupils in each class to warrant the employment of a teacher. There is need for vacation, a rest between April 1st and June 15th, when the work will be taken up with renewed interest and vigor.

"Finally, there is no need whatever for addressing any request to the Board of Estimate and Apportionment for money, as that Board has more than amply provided for all needs of the evening schools for the current year."

From the facts stated in Mr. Jenkins' report, it is evident that no action in the way of providing additional funds is necessary on the part of the Board of Estimate and Apportionment. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Education.

From the Department of Finance.

Department of Education—Issue of Special Revenue Bonds (Cal. No. 37).

The Secretary presented a report of the Deputy and Acting Comptroller recommending that the Board concur in the resolution of the Board of Aldermen requesting an issue of \$7,200 special revenue bonds, the proceeds whereof to be used by the Board of Education to defray the cost of removing and re-erecting Public School 13, Borough of Queens.

Which was laid over one week (June 1, 1917), under Rule 19.

Fund for Salary and Wage Accruals; Department of Parks, Boroughs of Manhattan and Richmond—Transfer of Appropriation (Cal. No. 38).

The Secretary presented a communication, dated May 11, 1917, from the Commissioner of Parks, Boroughs of Manhattan and Richmond, requesting transfer of appropriation from Fund for Salary and Wage Accruals for 1917 to Account No. 1149, Department of Finance; and the following report of the Deputy and Acting Comptroller recommending approval thereof:

May 18, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On May 17, 1917, the Commissioner of Parks, Boroughs of Manhattan and Richmond, requested a transfer of \$2,919.91 from Code 3039, City Fund for Salary and Wage Accruals, to Code 1149, Repairs and Replacements, of his Department for the year 1917.

The Bureau of Contract Supervision, to which this request was referred on May 14, 1917, reports thereon as follows:

"The purpose of the proposed transfer is to reimburse Code No. 1149, against which it was found necessary to charge a portion of the cost of a contract for plumbing and gasfitting in connection with the construction of a comfort station in Madison Square Park.

"Owing to an increase in market prices of labor and materials between the date of authorization of funds and the date of advertising the work the lowest of several bids received for the work exceeded the amount of corporate stock funds appropriated and available for the work by \$2,919.91.

"As this comfort station was urgently needed and it seemed probable that if

readvertised the bids would be higher rather than lower, the Board of Estimate and Apportionment on May 11, 1917, approved an increased estimate of cost, with the understanding that the excess cost over the corporate stock funds available was to be charged to the budget allowance for Repairs and Replacements and that such budget account was to be reimbursed as soon as practicable from the fund for salary and wage accruals.

"The unencumbered balance in Code 1149 is now only \$1.33, and as there are several repairs still to be made for which allowances were included in the budget, and as it is necessary to keep a small balance in this account at all times to provide for emergencies, this transfer should be approved."

I recommend the adoption of the attached resolution granting the request, which requires the unanimous vote of your Board.

Respectfully, ALBERT E. HADLOCK, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves of the transfer of funds appropriated for the year 1917, as follows:

FROM	
MISCELLANEOUS.	
3039 City Fund for Salary and Wage Accruals from Schedule-Supported Appropriations, to be expended as provided in the budget resolutions herewith .....	\$2,919 91

Law Department—Transfer of Appropriation (Cal. No. 39).

The Secretary presented a communication dated May 17, 1917, from the Corporation Counsel, requesting transfer of funds within appropriation for 1917; and the following report of the Deputy and Acting Comptroller recommending approval thereof:

May 23, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On May 17, 1917, the Corporation Counsel requested transfer of funds within appropriations made to the Law Department. The Bureau of Contract Supervision, to which this request was referred on May 17, 1917, reports thereon as follows:

"It is proposed to transfer the sum of \$4,000 from Code 134, Carfares, to Code 130, Food Supplies (Meal Money).

"The Corporation Counsel, in his departmental estimate for the year 1917, requested \$46,270 for contingencies. This amount was allowed, but was segregated as follows: Carfare, \$10,205; Food Supplies (Meal Money), \$4,360; Postage, \$1,250; Telegrams and Messenger Service, \$100; General Plant Service, \$3,425, and Contingencies, \$26,930.

"From the information furnished at the time the budget was prepared, it appears that the amount provided for carfares was overestimated to the extent of \$4,000, and the amount for meal money was underestimated to the same extent. Up to May 7, 1917, the expenditures for carfares amounted to \$2,553.11, which would indicate a need for the entire year of about \$6,000, and the expenditures for supper money, meals for witnesses and meals for departmental employees sent out of town, amounted for the same period to \$3,447.26, which would indicate a need for the year of approximately \$9,000. The transfer is to permit of this adjustment."

I recommend the adoption of the attached resolution granting the request.

Respectfully, ALBERT E. HADLOCK, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves of the transfer of funds appropriated to the Law Department for the year 1917, as follows:

Consolidated Gas Company and Northern Union Gas Company—Claims of (Cal. No. 40).

The Secretary presented the following report of the Deputy and Acting Comptroller:

May 15, 1917.

To the Honorable Board of Estimate and Apportionment:

Under and pursuant to the provisions of section 246 of the Greater New York Charter, as amended, I hereby certify that the following claims have been presented against The City of New York for labor performed and materials furnished in repairing lampposts and restoring asphalt pavements over cuts made to repair lampposts during the years 1914 and 1915, upon orders issued by the Engineer of Light and Power of the Department of Water Supply, Gas and Electricity, and subsequently ratified by the Commissioner of said Department; that at the time of the issuance of the orders for the performance of work and furnishing materials no contract was in existence between The City of New York and the respective claimant companies and the requirements of section 419 of the Charter of The City of New York were not fulfilled. Because of the aforesaid and the opinion of the Corporation Counsel, addressed to the Comptroller under date of May 18, 1915, wherein he advised:

"That the orders issued to the claimant (Consolidated Gas Co., claim No. 77763) have no legal force and that the claim should be rejected. In my opinion this is a claim that can be adjusted only by the Board of Estimate and Apportionment under the provisions of section 246 of the Charter";

—the claims originally filed by claimants were disallowed as being illegal and invalid claims against the City, but, notwithstanding the said illegality and invalidity, it is, in my opinion, equitable and proper for the City to pay the money value of the benefit which it has received by reason of the performance of the work and furnishing materials; that the names of the claimants, the amounts claimed, the nature of the claim, the alleged actual cost thereof and the amounts at which said claims are adjusted, which do not include interest or profit, are as follows:

Application and Name of Applicant.	Amount Claimed.	Alleged Actual Cost.	Proposed Adjustment.
No. 79890, index No. 22304, amending claim No. 77763, index No. 12319—Consolidated Gas Co., for repairs made to lampposts in Borough of Manhattan from Jan. 1, 1914, to Dec. 31, 1914 .....	\$26,250 68	\$26,250 68	\$19,493 10

No. 77707, index No. 12143—Northern Union Gas Co., for restoring asphalt pavement over cuts made to repair lampposts in the Borough of Bronx, from Jan. 1, 1914, to Dec. 31, 1914 .....	79 35	79 35	79 35

\*\$1,868.29, corrected amount.

That the value of the benefit which The City of New York has received by reason of the performance of the work and furnishing the materials is the sum at which it is proposed to adjust the several claims and which, for the purpose of the adjustment is deemed to be the actual cost to claimants, and that the aforesaid sums should be paid from an appropriate fund to the respective applicants, in full satisfaction of the claims presented, upon the execution by the duly authorized officers of said companies of full releases in favor of The City of New York, in such form as shall be approved by the Corporation Counsel.

Respectfully, ALBERT E. HADLOCK, Deputy and Acting Comptroller.  
The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 246 of the Greater New York Charter, being chapter 601 of the Laws of 1907, as amended, hereby determines that The City of New York has received a benefit and is justly and equitably obligated to pay the following named claimants the sums set opposite their names, respectively, without interest or profit, for repairing lampposts and restoring asphalt pavement over the cuts made to repair lampposts in the City of New York, during the years 1914 and 1915.

—that the sums shall be paid in full satisfaction of the claims which have been presented by the said applicants; that the interests of the City will be best subserved by the adjustment of said claims in said sums; that payment thereof shall only be made upon the execution by duly authorized officers of said claimant companies of full releases in favor of the City, in such form as shall be approved by the Corporation Counsel, and the Comptroller is hereby authorized to pay said sums from an appropriate fund.

#### Department of Plant and Structures—Issue of Special Revenue Bonds and Modification of Schedule (Cal. No. 41).

The Secretary presented a report of the Deputy and Acting Comptroller, recommending that the Board concur in the resolution of the Board of Aldermen requesting issue of \$4,000 special revenue bonds to meet a deficiency in the appropriation for coal made to the Department of Plant and Structures for 1917; also modification of Schedule No. 2764TB.

Which was laid over one week (June 1, 1917), under Rule 19.

#### Sheriff, Bronx County—Transfer of Appropriation (Cal. No. 42).

The Secretary presented a communication, dated May 15, 1917, from the Sheriff, Bronx County, requesting transfer of funds within appropriation for 1917; and the following report of the Deputy and Acting Comptroller recommending approval thereof:

May 2, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On May 15, 1917, the Sheriff of Bronx County requested transfer of funds within appropriations to his office for the year 1917. The Bureau of Contract Supervision reports as follows:

"It is proposed to transfer the sum of \$75 from Code 3302, Household Equipment, to Code 3303, Motor Vehicle Equipment.

"The allowance made in the 1917 budget for Motor Vehicles and Equipment is \$75 as requested by the Sheriff in his departmental estimate. Of the amount so provided there is at present a balance of \$17.49 with a bill outstanding and unpaid of \$26.90 for tires and tubes. Early last year a new Ford motor van was purchased by the Sheriff to be used in taking prisoners to and from the County Jail. The estimate of the Sheriff, referred to above was therefore based upon an experience of only four months. Up to May 1, 1917, about \$57 was required for the purchase of tires, tubes and small accessories; and as it appears that this van is used very intensively, the transfer of \$75 to meet the present deficit and to provide for necessary equipment for the balance of the year, is not unreasonable.

"There appear to be a sufficient excess balance in the appropriation for Household Equipment to permit of the transfer."

I recommend the adoption of the attached resolution granting the request.

Respectfully, ALBERT E. HADLOCK, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves transfer of funds appropriated to the Sheriff, Bronx County, for the year 1917, as follows:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

#### Public Service Commission for the First District—Purchase of Award in Proceeding for Acquisition of Property Situated at or Near 37th Street, Between 10th Avenue and Gravesend Avenue, Borough of Brooklyn, for Rapid Transit Purposes (Cal. No. 43).

The Secretary presented the following report of the Comptroller:

May 22, 1917.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—The City is acquiring, in condemnation for rapid transit purposes, certain property situated near 37th Street, between the northwesterly line of 10th Avenue and the westerly line of Gravesend Avenue, Brooklyn.

The owner of parcel No. 6 in this proceeding has offered to sell the premises owned by him for \$450. These premises have a frontage on 38th Street of 20 feet and a depth of 150 feet. The City in the above proceeding acquired the rear 45 feet of the lot for the purposes of the construction, maintenance and operation of the Gravesend Avenue Rapid Transit Route.

The Corporation Counsel, in a communication dated April 23, 1917, states that he is of the opinion that the interests of the City will be best served by accepting this offer.

I therefore respectfully recommend that a resolution be adopted authorizing the purchase, under the provisions of section 1434 of the Greater New York Charter, as amended, of all the right, title and interest in and to the award to be made for Parcel No. 6 in the proceeding entitled, "In re Application of the Public Service Commission for the First District to acquire an estate in fee simple, absolute and certain easements in property situated at or near 37th Street, between the northwesterly line of Tenth Avenue and the westerly line of Gravesend Avenue, Borough of Brooklyn, City of New York, for rapid transit purposes, more particularly bounded and described as follows:

All that certain piece or parcel of land situate, lying and being in the Borough of Brooklyn, City and State of New York, bounded and described as follows:

Beginning at a point in a line parallel with and distant 50 feet southwestwardly at right angles from the southwesterly line of 37th Street, which point is distant 160 feet southeastwardly from the southeasterly line of Tenth Avenue, measured along said line; and running thence southwestwardly parallel with the southeasterly line of Tenth Avenue 45 feet; thence southeastwardly parallel with the southwesterly line of 37th Street 20 feet; thence northeastwardly parallel

with the southeasterly line of Tenth Avenue 45 feet; and thence northwestwardly parallel with the southwesterly line of 37th Street 20 feet to the point or place of beginning,

—at a price not exceeding \$450, and that the Corporation Counsel be requested to prepare the papers necessary in connection therewith.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Whereas, the Corporation Counsel of the City of New York, by direction of the Public Service Commission for the First District, instituted a proceeding in the Supreme Court, Second Judicial District, to acquire on behalf of the City of New York certain property situated at or near 37th Street, between the northwesterly line of 10th Avenue and the westerly line of Gravesend Avenue, in the Borough of Brooklyn, City of New York, in fee simple, for rapid transit purposes, which proceeding is pending and undetermined, and

Whereas, under section 47 of chapter 4 of the Laws of 1891, as amended, the title to said property vested in the City of New York on July 31, 1916, upon the filing of the order of the Special Term of the Supreme Court, granting the petition of the Public Service Commission to have the compensation to be made the owners and all persons interested in the property sought to be acquired, ascertained and determined by the court without a jury, and

Whereas, Kate B. Sweeney claims to have been the owner of Damage Parcel No. 6 in said proceeding on the date of vesting of title thereto in the City of New York and claims to be entitled to the award to be made for said Damage Parcel No. 6, and

Whereas, Kate B. Sweeney has offered to sell the award to which she is entitled, free and clear of all liens and encumbrances for said Damage Parcel No. 6, to the City for New York for the sum of Four hundred and fifty (\$450) Dollars, without interest; now, therefore, be it

Resolved, that the Comptroller of the City of New York be and is hereby authorized to purchase, free and clear of all liens and encumbrances of any nature whatsoever, for the sum of Four hundred and fifty (\$450) Dollars, without interest, on behalf of the City of New York, under the provisions of section 1434 of the Greater New York Charter, as amended, from Kate B. Sweeney, the award to which she is or may become entitled for said Damage Parcel No. 6 in a certain proceeding now pending and undetermined in the Supreme Court, Second Judicial District, entitled "in re application of the Public Service Commission for the First District, acting for and on behalf of the City of New York, to acquire certain estates, rights, terms, privileges, franchises or easements in certain parcels of property situated at or near 37th Street or 37th Street produced, between the northwesterly line of 10th Avenue and the westerly line of Gravesend Avenue, Borough of Brooklyn, City of New York, required for the purpose of the construction, maintenance and operation of a portion of a rapid transit railroad, known as the Gravesend Avenue route," said Damage Parcel No. 6 being more particularly bounded and described as follows:

All that certain piece or parcel of land, situate, lying and being in the Borough of Brooklyn, City and State of New York, bounded and described as follows:

The Secretary presented the following report of the Comptroller:

May 22, 1917.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—The City is acquiring in condemnation for rapid transit purposes certain property situated near 37th Street, between the northwesterly line of 10th Avenue and the westerly line of Gravesend Avenue, Brooklyn.

The owner of Parcel No. 10 in this proceeding has offered to sell premises owned by him for \$1,050, with interest from July 31, 1916, the date title vested in the City of New York. These premises have a frontage of 40 feet on 38th Street and a depth of 150 feet. The rear abuts on the right-of-way of the Prospect Park and South Brooklyn Railroad, which is adjacent to and parallel with 37th Street.

The Corporation Counsel, in a communication dated March 24, 1917, states that he is of the opinion that the interests of the City will be best served by accepting this offer.

**Public Service Commission for the First District—Rescission of Unused Corporate Stock Authorization and Appropriation for Other Purposes Under Contract No. 4 (Cal. No. 45).**

The Secretary presented the following requisition of the Public Service Commission for the First District; and report of the Comptroller:

State of New York, Public Service Commission for the First District, No. 120 Broadway, New York, April 27, 1917.

To the Board of Estimate and Apportionment of The City of New York:

The Public Service Commission for the First District, March 28, 1917, transmitted to your Honorable Board a communication requesting that there be rescinded the sum of four thousand four hundred sixty dollars and 65 cents (\$4,460.65) out of the additional appropriation of sixty-seven thousand dollars (\$67,000) provided by your Board for the construction of Section 4 of Route No. 5, a part of the Broadway-Fourth Avenue Rapid Transit Railroad, so that the total of this additional appropriation would be sixty-two thousand five hundred thirty-nine dollars and thirty-five cents (\$62,539.35), and also requesting that the said sum of four thousand four hundred sixty dollars and sixty-five cents (\$4,460.65) be added to appropriations theretofore made by your Honorable Board for the purpose of carrying out the obligations of the City under the contract between The City of New York, acting by the Commission, and the New York Municipal Railway Corporation for the construction of rapid transit railroads known as Contract No. 4.

The Commission is advised by the Department of Finance that the unexpended balance of the additional appropriation of sixty-seven thousand dollars (\$67,000) is four thousand five hundred seventeen dollars and five cents (\$4,517.05), and not four thousand four hundred sixty dollars and sixty-five cents (\$4,460.65). Therefore, in view of this information, the Commission does hereby modify its said communication of March 28, 1917, by substituting the amount of four thousand five hundred seventeen dollars and five cents (\$4,517.05), in place of four thousand four hundred sixty dollars and sixty-five cents (\$4,460.65), and requests that your Honorable Board rescind from the additional appropriation of sixty-seven thousand dollars (\$67,000) the larger sum here stated, to wit, four thousand five hundred seventeen dollars and five cents (\$4,517.05), so that the total of this additional appropriation will be sixty-two thousand four hundred eighty-two dollars and ninety-five cents (\$62,482.95). The Commission also requests that the said sum of four thousand five hundred seventeen dollars and five cents (\$4,517.05), the unexpended balance out of the said appropriation of sixty-seven thousand dollars (\$67,000), be added to the appropriations made by your Honorable Board for purposes of Contract No. 4.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, by JAMES B. WALKER, Secretary.  
(Seal.)

May 22, 1917.

Subject: Rescission of \$4,517.05 Corporate Stock Authorization for Rapid Transit.  
To the Board of Estimate and Apportionment:

Gentlemen—On July 31, 1913, the Board of Estimate and Apportionment, acting on a formal requisition of the Public Service Commission for the First District, duly approved a contract to be made by and between the City of New York and the Dock Contractor Company for the construction of Section 4, Route 5, of the Broadway Route, Broadway-Fourth Avenue Rapid Transit Railroad (Broadway from Bleecker Street to Union Square, Manhattan), and the Comptroller was authorized to issue corporate stock to an amount not exceeding \$2,578,078 for the purpose of meeting the bid price of said contract.

On December 23, 1915, the Board of Estimate and Apportionment, acting on a formal request of the Public Service Commission, dated November 9, 1915, adopted a resolution authorizing the Comptroller to issue corporate stock in the additional amount of \$8,691 for the purposes of the above contract.

On December 27, 1916, the Board of Estimate and Apportionment, acting on a formal requisition of the Commission, dated December 6, 1916, adopted a resolution authorizing the Comptroller to issue corporate stock in a further additional amount of \$67,000 for the purposes of the said contract with the Dock Contractor Company.

The total amount of corporate stock authorized by the Board of Estimate and Apportionment for the purposes of the contract with the Dock Contractor Company aggregates \$2,653,769.

The final certificate of the Engineer of the Commission for work done under the contract was forwarded by the Commission under date of February 7, 1917, in the amount of \$67,135.06, leaving a balance unearned of \$4,517.05 of the total estimated contract price of \$2,653,769 as approved and authorized by the Board of Estimate on July 31, 1913, December 23, 1915, and December 27, 1916.

At a meeting of the Public Service Commission held on April 27, 1917, a resolution was adopted by said Commission, amending, as per a communication from the Department of Finance, a resolution adopted on March 28, 1917, requesting the Board of Estimate and Apportionment to rescind \$4,517.05 of the original amount authorized to carry out the contract with the Dock Contractor Company for the construction of Section 4, Route 5, of the Broadway Route, Broadway-Fourth Avenue Rapid Transit Railroad, and to set aside and reserve said amount to meet other commitments of the City in carrying out its obligations under Contract No. 4.

I recommend the adoption of the attached resolution, which will rescind the

sum of \$4,517.05 and make available the said amount to meet other obligations under rapid transit Contract No. 4.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following was offered:

Whereas, On July 31, 1913, the Board of Estimate and Apportionment, pursuant to a formal request of the Public Service Commission for the First District, approved a contract to be made by and between The City of New York, acting by the Public Service Commission for the First District, and the Dock Contractor Company, for the construction of Section 4, Route 5, being a part of the Broadway-Fourth Avenue Rapid Transit Railroad (Broadway from Bleecker Street to Union Square, Manhattan), and the Comptroller was duly authorized to issue corporate stock to an amount not exceeding two million five hundred and seventy-eight thousand and seventy-eight dollars (\$2,578,078), for the purpose of providing funds to meet the bid price of said contract; and

Whereas, On December 23, 1915, the Board of Estimate and Apportionment, pursuant to a formal request of the Public Service Commission for the First District, adopted a resolution amending the resolution of July 31, 1913, by adding thereto the amount of eight thousand six hundred and ninety-one dollars (\$8,691), and authorized the Comptroller to issue corporate stock of The City of New York to the additional amount of eight thousand six hundred and ninety-one dollars (\$8,691), and

Whereas, On December 27, 1916, the Board of Estimate and Apportionment, pursuant to a formal request of the Public Service Commission for the First District, adopted a resolution further amending the resolution of July 31, 1913, by adding thereto the amount of sixty-seven thousand dollars (\$67,000), and authorized the Comptroller to issue corporate stock of The City of New York to the additional amount of sixty-seven thousand dollars (\$67,000); and

Whereas, The work on said contract is substantially completed and the final estimate of the Chief Engineer of said Public Service Commission certifies that all of the work has been done and that of the two million six hundred and fifty-three thousand seven hundred and sixty-nine dollars (\$2,653,769), there is an unneeded remainder of four thousand five hundred and seventeen dollars and five cents (\$4,517.05); and

Whereas, The Public Service Commission, at a meeting held on March 28, 1917, as amended on April 27, 1917, duly adopted a resolution whereby the Commission requests the Board of Estimate and Apportionment to rescind the unneeded balance and to apply such to the unexpended sum remaining under the general appropriation of sixty million dollars (\$60,000,000), made by this Board on March 18, 1913, and the supplemental or additional authorizations thereto, for the purposes of Contract No. 4; therefore be it

Resolved, That, in accordance with said resolution of the Public Service Commission adopted on March 28, 1917, as amended on April 27, 1917, the Comptroller is hereby authorized to rescind the unearned amount of four thousand five hundred and seventeen dollars and five cents (\$4,517.05), out of the sum of two million six hundred and fifty-three thousand seven hundred and sixty-nine dollars (\$2,653,769) of corporate stock authorized by the Board on July 31, 1913, December 23, 1915, and December 27, 1916, for the purpose of providing funds to meet the estimated contract cost of the construction, by the Dock Contractor Company, of Section 4, Route 5, of the Broadway Route of the Broadway-Fourth Avenue Rapid Transit Railroad, and the amount of the authorization thus rescinded, four thousand five hundred and seventeen dollars and five cents (\$4,517.05), be reserved for the purpose of meeting other commitments of the City in carrying out its obligations under rapid transit Contract No. 4.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

**Public Service Commission for the First District—Approval of Agreement with Interborough Rapid Transit Company Modifying Contract No. 1, Relative to Performance of Additional Work or Supplying Additional Material for Purpose of Rapid Transit Railroads Operated Under Contract No. 1 (Cal. No. 46).**

The Secretary presented the following requisition, resolution and agreement of the Public Service Commission for the First District; and report of the Deputy and Acting Comptroller:

Public Service Commission for the First District, No. 120 Broadway, New York, January 2, 1917.

To the Board of Estimate and Apportionment:

The Public Service Commission for the First District transmits herewith for the approval of your Honorable Board a proposed agreement between The City of New York, acting by this Commission, and Interborough Rapid Transit Company, modifying the contract dated February 21, 1900, for the construction, maintenance and operation of the Manhattan-Bronx Rapid Transit Railroad, known as Contract No. 1, so as to provide for the performance of the work of constructing an additional entrance to the 168th Street Station of said rapid transit railroad, under a separate contract, to be let after competitive bidding, pursuant to the provisions of the Rapid Transit Act, instead of under the extra work provisions of Contract No. 1. The Interborough Rapid Transit Company has consented to this procedure and the Commission is preparing a form of contract and plans and specifications for the prosecution of the work.

Under date of July 29, 1910, the Board of Estimate and Apportionment appropriated the sum of Four hundred and ninety thousand dollars (\$490,000) for additional entrances and exits for the Manhattan-Bronx Rapid Transit Railroad, under the provisions of Contract No. 1. The requisition of the Commission included an allowance of One hundred and sixty-three thousand dollars (\$163,000) for the necessary exits and entrances at the 168th Street Station.

The Public Service Commission for the First District, therefore, requests your Honorable Board to consent to the proposed agreement herewith transmitted.

The proposed contract for the prosecution of the work of constructing the additional entrance to the 168th Street Station, as aforesaid will, of course, also be submitted to your Honorable Board, in accordance with the requirements of the Rapid Transit Act.

In witness whereof, the Public Service Commission for the First District has caused its official seal to be hereto affixed and these presents to be signed by its Secretary, this 2nd day of January, 1917.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, by JAMES B. WALKER, Secretary.  
(Seal.)

Resolved, That this Commission do and hereby does approve the proposed agreement now submitted to this Commission modifying the contract for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad (Contract No. 1) so as to permit The City of New York, acting by this Commission, to enter into a contract, pursuant to the provisions of the Rapid Transit Act, for the performance of all work and the supply of all labor and materials necessary or proper for the purpose of constructing an additional entrance to the 168th Street Station of said rapid transit railroad, and that the Secretary of this Commission be and hereby is authorized and directed to transmit said proposed agreement to the Board of Estimate and Apportionment for the consent of that Board, and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said proposed agreement in such form when consented to by said Board and approved as to form by the Corporation Counsel.

State of New York, County of New York, ss.:

I, James B. Walker, Secretary of the Public Service Commission for the First District, do hereby certify, that I have compared the above with the original adopted by said Commission on January 2, 1917, and that it is a correct transcript therefrom and of the whole of the original.

In testimony whereof, I have hereunto subscribed my hand and affixed the seal of the Commission this 2nd day of January, 1917.

(Seal.)

JAMES B. WALKER, Secretary.

Agreement made this day of , 1916, between The City of New York (hereinafter referred to as the "City"), acting by the Public Service Commission for the First District (hereinafter referred to as the "Commission"), and Interborough Rapid Transit Company, a domestic corporation (hereinafter referred to as the "Contractor"), witnesseth:

Whereas, heretofore and on or about the 21st day of February, 1900, the City, acting by the Board of Rapid Transit Railroad Commissioners for The City of New York (hereinafter referred to as the "Board"), entered into a contract with John B.

McDonald for the construction, equipment and operation of the Manhattan-Bronx Rapid Transit Railroad (which railroad is hereinafter referred to as the "Railroad") and which contract as modified and supplemented from time to time is hereinafter referred to as the "Contract"; and

Whereas, The Contractor is the assignee of the Contract; and

Whereas, The Contractor has given and there is now outstanding as security for the performance of the Contract a bond in the sum of five hundred thousand dollars (\$500,000) and upon which bond there are now sureties as follows: The United States Fidelity and Guaranty Company and Fidelity and Deposit Company of Maryland; and

Whereas, The Commission has succeeded to all the powers and duties of the Board; and

Whereas, It is provided in the Contract that the Board or its successors shall have the right to require the Contractor to perform additional work or supply additional materials or both within the general purview of the rapid transit railroad as therein described the reasonable value of which shall be additionally paid to the Contractor, which sums are to be added to the cost of construction of the Railroad upon which the rental to be paid by the Contractor is based; and

Whereas, The Contract provides that no change shall be made therein except by written instrument duly authorized by the Board or its successors and consented to by the Contractor and by the sureties upon its bond; and

Whereas, The Commission and the Contractor desire to construct an additional entrance to the 168th Street Station of the Railroad, and believe it to be desirable to have such work performed by another contractor under a separate contract; and

Whereas, The Board of Estimate and Apportionment has consented to this agreement.

Now, therefore, in consideration of the premises, but subject to the consents hereinafter provided, it is agreed that the Contract be and hereby is modified as follows:

First—The City shall enter into a contract or contracts, pursuant to the provisions of the Rapid Transit Act, for the performance of all work and the supply of all labor and material necessary or proper for the purpose of constructing an additional entrance to the 168th Street Station of the Railroad, including all work of constructing or reconstructing sewer or water pipes or other surface or subsurface structures that may be interfered with during the progress of the work and all work of changing or rearranging wires, ways and other equipment of the Railroad and all other incidental work of whatsoever character that may in the opinion of the Commission be necessary or proper for the construction and completion of said additional entrance. The said additional entrance shall be constructed generally in accordance with the drawing hereto annexed entitled "State of New York, Public Service Commission for the First District, Engineering Department, Contract No. 1, 168th St. & B'way Station, Proposed Additional Entrance," dated September 30, 1916, signed by Alfred Craven, Chief Engineer, and numbered File No. 1, Drawing No. 10239. The said contract or contracts shall be in such form and shall contain such conditions, covenants and requirements and such specifications for the work as the Commission may in its discretion approve.

Second—The said additional entrance shall be a part of the Railroad and the cost of constructing and completing said additional entrance shall be deemed a part of the cost of constructing the Railroad and such cost shall be included in the total cost of the construction of the Railroad in determining the amount of rental to be paid under the Contract in like manner as if the construction of said additional entrance had been originally required by or authorized in the Contract and had been performed by the Contractor pursuant to the terms of the Contract; and all bonds issued for the construction of said additional entrance shall be deemed for all the purposes of the Contract to have been issued by the City in order to provide means for construction under the Contract. In computing the rental payable under the Contract the interest actually paid by the City on the bonds issued for the construction of said additional entrance shall be the basis of said computation notwithstanding the rate of interest so paid may exceed three and one-half (3½) per centum, the rate which was limited by law at the time when the Contract was made.

And it is further agreed that nothing herein contained shall in anywise affect the obligations of the Contractor under the contract with respect to additional work, which obligations shall remain the same as though this agreement had not been made.

And it is further agreed that the stipulations aforesaid shall bind the parties hereto and their respective successors and assigns.

And it is further agreed that no member of the Commission shall be liable personally under or by reason of this agreement or any of its provisions.

Provided, however, that this agreement shall not take effect unless and until it shall be consented to by United States Fidelity and Guaranty Company, Fidelity and Deposit Company of Maryland, National Surety Company, American Surety Company of New York, and Globe Indemnity Company in the form subjoined.

In witness whereof, the Commission has caused its official seal to be hereunto affixed and attested by its Secretary and these presents to be signed by its Chairman and the Contractor has caused its corporate seal to be hereunto affixed and attested by its Secretary and these presents to be signed by its President all the day and year first above written.

To the Board of Estimate and Apportionment:

May 21, 1917.

Gentlemen—On January 2, 1917, the Public Service Commission for the First District transmitted for approval of the Board a proposed agreement, in modification of Contract No. 1, which provides for the construction, equipment and operation of the present Manhattan-Bronx subway system. The agreement will authorize the construction of an additional entrance to the 168th Street station on Broadway, through the medium of open competitive bidding, instead of following the past practice of having such work done by the Interborough Company as an extra under the contract, on the basis of its reasonable value.

The section of Contract No. 1 which has been interpreted to permit the Interborough Company alone to undertake work of changing or adding to the present system occurs in the "Agreement for Construction" and reads as follows:

"The Board shall have the right, during the progress of the work, to amplify the plans, to add explanatory specifications and to furnish additional specifications and drawings within the limits of the general purview of the work. The Board shall also have the right for any section of the Railroad to require additional work to be done or additional materials to be furnished, or both, within the general purview of a rapid transit railroad as described in the copy of the routes and general plan hereto appended or to require work or materials herein specified or provided for to be omitted. If such additional work or materials shall be required, then the reasonable value thereof shall be additionally paid to the Contractor. If work or materials herein specified or provided for shall be required to be omitted, then a reasonable deduction shall be made in the manner hereinafter provided from the amount to be paid to the Contractor for construction. Provided, however, that the amount of work and materials called for by this contract upon any Section shall not be diminished without the consent of the Contractor so as substantially to alter the general character or extent of the work as proposed."

It is intended under the proposed amendment to open up for competitive bidding the work of constructing a new station entrance on the west side of Broadway between 167th Street and 168th Street. This entrance will be outside the building line with four elevator shafts extending to a depth of about 127 feet below the sidewalk level. There are also included in the proposed work a set of emergency stairs, extending from the upper mezzanine level, which contains ticket booths and toilets and which is about 16 feet below the sidewalk, to the lower mezzanine, a vertical distance of about 74 feet, and a bridge across the tracks to the north bound platform. Subsequently two elevators will be installed, leaving two shafts in reserve.

The present 168th Street station is inadequately served now by an entrance to the north bound platform on the east side of Broadway, which contains two elevators. These land at the lower mezzanine and discharge passengers for both platforms, those south bound crossing the tracks to the south bound platform and those north bound descending stairs to that platform. These elevators have a lower landing at the platform level, but it is never used.

The old station entrance at the 181st Street station is similarly constructed and operated. At the time the additional elevator facilities were provided there, the original plans left unexcavated the lower portion of the work which was intended to provide a lower landing for the elevators direct from the platform without climbing the stairs to the lower mezzanine. These plans were modified at the suggestion of this Board, due to protests of residents there, to permit such operation to the lower platform, but it has, up to the present, proven to be money wasted, since no such operation was ever undertaken.

The preliminary plans presented as those on which bidding is to be based for this proposed construction shows a station differing in elevator layout from those at 168th and 181st streets and leaves unexcavated that portion of the lower level which would give access from platform to elevators on the same level, and provides for the same system of operation now ensuing at both the stations above noted, although these stations have double landings available for loading at both platform and mezzanine levels.

The approval now requested does not carry with it approval of the plans, but only the contract modification necessary to permit the work to be bid on competitively. The estimated cost of the work is about \$225,000, with about \$40,000 additional for the two elevators to be installed.

The agreement provides that the cost of the work shall be chargeable against the cost of construction, the annual rental of the road being correspondingly increased to cover the charges on the bonds to be issued for the purpose.

I recommend the adoption of the attached resolution consenting to the agreement submitted. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby consents to the agreement submitted by the Public Service Commission for the First District under date of January 2, 1917, between the City of New York, acting by said Commission and the Interborough Rapid Transit Company in modification of the contract known as No. 1, dated February 21, 1900, for the construction, maintenance and operation of the Manhattan-Bronx Rapid Transit Railroad, said modification providing that the performance of work of constructing an additional station entrance to the 168th Street station of said railroad shall be let under a separate contract after competitive bidding, instead of under the extra work provisions of Contract No. 1, the cost to be charged against the cost of construction and included in determining the amount of annual rental to be paid the City, the terms of said agreement being as more fully set forth in the certified copy thereof on file in the office of the Secretary of the Board of Estimate and Apportionment.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

**Public Service Commission for the First District—Issue of Corporate Stock (Cal. No. 47).**

The Secretary presented a report of the Comptroller recommending approval of a requisition of the Public Service Commission for the First District, for an issue of \$35,000 of corporate stock for the purpose of providing funds to meet and pay the awards, inclusive of interest and expenses and costs as taxed, together with fees and expenses of the Commissioners of Appraisal, in the acquirement of rights, terms and easements in property known as 165-167 William street, Manhattan, acquired for rapid transit purposes.

Which was laid over one week (June 1, 1917), under Rule 19.

**Public Service Commission for the First District—Payment to Thomas Crimmins Contracting Company Under Contracts Nos. 3 and 4, Rapid Transit Railroad (Cal. No. 48).**

The Secretary presented a report of the Comptroller, recommending the adoption of a resolution predicated upon a communication of the Public Service Commission for the First District, requesting the Board of Estimate and Apportionment to authorize the payment to the Thomas Crimmins Contracting Company the sum of \$924.88, chargeable against the appropriation made by this Board on November 24, 1916, in the amount of \$2,900, the balance of said appropriation to be rescinded and reserved to meet other commitments of the City under Contracts No. 3 and No. 4.

Which was laid over one week (June 1, 1917).

A comparison of the estimated cost of physical improvements for which final authorization has been given since January 1, 1917, and of all outstanding preliminary authorizations, with the value of assessment lists relating to improvements authorized since January 1, 1902, returned in 1917 and with the 1917 collections up to and including May 16, in each case, shows the following:

Richmond .....	42,000 00	74,300 00
Total.....	\$3,657,800 00	\$5,307,800 00

The following table shows the additional amounts for which preliminary authorization may now be outstanding, as deduced from the resolution of July 30, 1914, the value of the preliminary authorizations now outstanding which the Borough Presidents desire to have converted into final authorization during 1917, and the balance available for final authorization, as determined under the interpretation of the July 30, 1914, resolution as submitted on April 27, 1917:

Borough.	Additional Preliminary Authorizations Which May Be Outstanding on the Basis of the Resolution of July 30, 1914, as Interpreted on April 27, 1917.		Preliminary Authorizations Now Outstanding the Urgency of Which Has Been Established or Which It Is Expected to Establish in 1917.		Balance Available for Final Authorization as Provided by the Resolution of July 30, 1914, as Interpreted on April 27, 1917.	
Manhattan .....	-\$312,900 00		\$585,900 00		\$345,500 00	
Brooklyn .....	195,000 00		1,065,000 00		245,100 00	
The Bronx .....	203,400 00		579,600 00		1,056,000 00

Total .....	\$44,600 00		\$2,955,400 00		\$2,374,200 00	

From the above table it will be noted that the limit placed upon the total value of preliminary authorizations which may be outstanding in the Boroughs of Manhattan and Queens has been exceeded by \$312,900 and \$81,300, respectively.

The value of the authorizations given in this report does not include an item of \$15,700 representing the probable expense of planting shade trees in the Borough of Manhattan, for which authorization was granted by the Board at its meeting of May 18. Respectfully,

NELSON P. LEWIS, Chief Engineer.

East 19th Street, from Church Avenue to Tennis Court, Borough of Brooklyn—Closing and Discontinuing (Cal. No. 50).

The Secretary presented a resolution adopted March 12, 1917, by the Local Board of the Flatbush District, Borough of Brooklyn, initiating proceedings for this improvement; and a report of the Chief Engineer recommending disapproval thereof. The matter was laid over two weeks (June 8, 1917).

Allerton Avenue and Mace Avenue, Borough of The Bronx—Vesting Title to Damage Parcels Nos. 13, 14, 15 and 53, in the Proceeding for Acquiring Title (Cal. No. 51).

The Secretary presented a communication dated May 21, 1917, from the Trustees of the Estate of Lorillard Spencer, requesting that provision be made for vesting title to Allerton Avenue and Mace Avenue, Borough of The Bronx, and the following assignment of award for damages and report of the Chief Engineer:

Know all men by these presents, that we, Lorillard Spencer, 3rd, and Wolcott G. Lane, as Trustees under the Last Will and Testament of Lorillard Spencer, deceased, The New York Public Library, Astor, Lenox and Tilden Foundations, Donald Harper and United States Trust Company of New York, as Trustees under the Last Will and Testament of Eleanor Lorillard Spencer Cenci, deceased, and Lorillard Spencer, 3rd, parties of the first part, in consideration of one dollar, the receipt of which is hereby acknowledged, and other good and valuable consideration, have sold, assigned, transferred and set over and by these presents do sell, assign, transfer and set over to The City of New York, party of the second part, and to its assigns, any and all sums of money now due or to become due by way of awards made to the parties of the first part, as successors in interest of the Lorillard Spencer Estate, from the opening and extending of Allerton Avenue and Mace Avenue, in the Borough of The Bronx, City of New York, Damage Parcels 13, 14, 15 and 53, to an amount required to pay the assessments levied against the present said L. Spencer Estate lands. And we do hereby give the said City of New York and its assigns full power and authority for its or their use and benefit, but at its or their own cost, to ask, demand, collect, receive, compound and give acquittance for the same, or any part thereof, and in our name or otherwise to prosecute and withdraw any suits or proceedings at law or in equity therefor.

This assignment, however, is made as collateral security only, for the purpose of securing to the said The City of New York that the assessments for benefits laid in the pending proceedings for the opening of Mace Avenue, between White Plains Road and Williamsbridge Road, and Allerton Avenue, between Boston Post Road and the easterly side of Lurting Avenue, against the property in said area assessed against the L. Spencer Estate and shown on the sales map dated April 27, 1917, will be paid by us out of said award, on condition that the balance of said award remaining after the payment of said assessments is to be paid to the Lorillard Spencer Estate.

And we, the said Lorillard Spencer, 3rd, Wolcott G. Lane, Donald Harper and Edward W. Sheldon, jointly and severally, do hereby personally covenant and agree that said assessment against said lands will be paid within six months after date of confirmation.

In witness whereof we have hereunto set our hands and seals this 24th day of May, 1917.

Report No. 16784. May 22, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment.

Sir—Herewith is transmitted a communication from the Trustees of the Estate of Lorillard Spencer, bearing date of May 21, 1917, requesting that title to Damage Parcels Nos. 13, 14, 15 and 53, in the proceeding for acquiring title to Allerton Avenue and Mace Avenue, Borough of The Bronx, be vested in the City on or before June 1, 1917.

A proceeding for acquiring title to Allerton Avenue, from Bronx Park East to Hutchinson Avenue; and to Mace Avenue, from Bronx Park East to Baychester Avenue, was instituted under a resolution adopted by the Board of Estimate and Apportionment on June 13, 1912. The oaths of the Commissioners in this proceeding were filed on November 3, 1913, and I am informally advised that their report is to be presented to the Court for confirmation on May 24th.

The proceeding relates to the entire length or about 13,000 feet of Allerton Avenue, and to about 11,000 feet of Mace Avenue. The former street has a width of 100 feet in the section west of Gun Hill Road and of 80 feet easterly therefrom, while Mace Avenue has a uniform width of 80 feet. The petitioners are the owners of a large tract adjoining these streets and including the damage parcels described by them, these comprising a length of about 1,300 feet of Allerton Avenue and of about 2,000 feet of Mace Avenue. Their property has been subdivided into city lots and advertised for sale at auction beginning on June 2, 1917.

The petitioners state that in consideration of the vesting they will waive interest on all awards in the proceeding and will pay all assessments against their present holdings resulting from the proceeding. The public notice of the sale includes an announcement to the effect that the estate will pay all assessments arising from so much of the proceeding as relates to the acquisition of Allerton Avenue. Nearly all of the district of assessment adjoining the parcels described by the petitioners is now owned by them, and it would appear that the course suggested by the Trustees of the Estate, if it could be enforced, might properly be followed, it being understood

that this has been proposed in order to avoid the necessity of re-opening the proceeding in case it is not confirmed on May 24th and the auction sale is construed to bring about a dedication of the street area.

There seems to be no question as to the practicability of enforcing the terms in so far as the Allerton Avenue parcels are concerned as the conditions proposed are identical with those upon which the auction sale is to be based, but in the case of Mace Avenue it would appear that the communication submitted could not be construed as binding the petitioners to the course suggested.

I would recommend that a resolution be adopted making provision for vesting title in the City to the Damage Parcels located in Allerton Avenue and designated as Nos. 13, 14 and 15, on June 1, 1917. Pending the result of negotiations as to the method under which the carrying out of the proposed terms in so far as they relate to Mace Avenue can be insured, no recommendation is made, but it is hoped that before the next meeting of the Board a further report can be submitted in the matter. Respectfully,

NELSON P. LEWIS, Chief Engineer.

Henry Bellinger appeared and requested that title vest to parcels in both streets. The following was offered:

Whereas, The Board of Estimate and Apportionment on the 13th day of June, 1912, adopted a resolution requesting the Corporation Counsel to institute proceedings to acquire title in fee, wherever the same has not heretofore been acquired, for the use of the public, to the real property required for the opening and extending of Allerton Avenue, from Bronx Park East to Hutchinson Avenue, and Mace Avenue, from Bronx Park East to Baychester Avenue, in the Borough of The Bronx, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court in the proceedings to acquire title to said real property, and the oaths of the said Commissioners of Estimate and Assessment were duly filed, as required by law on the 3rd day of November, 1913; and

Whereas, Lorillard Spencer and Wolcott G. Lane, as Trustees of Lorillard Spencer, deceased; the New York Public Library, Astor, Lenox and Tilden Foundations; Dorald Harper and United States Trust Company of New York, as Trustees of Eleanor Spencer Lorillard Cenci; and Lorillard Spencer, 3d, have petitioned the Board to vest title in the City on or before the 1st day of June, 1917, to parcels 13, 14, 15 and 58 on the Damage Maps in the said proceedings; and

Whereas, The said petitioners have duly executed and delivered to the City of New York an assignment of the awards for said damage parcels, for the purpose of securing to said City the payment of the assessments for benefit against the property described in said assignment; be it

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest and in pursuance of the provisions of the Greater New York Charter, as amended, directs that upon the 1st day of June, 1917, the title in fee to the real property lying within the lines of Damage Parcels 13, 14 and 15, located in Allerton Avenue, and to the real property lying within lines of Damage Parcel 53, located in Mace Avenue, and which parcels are being acquired under said resolution of the 13th day of June, 1912, so required, shall become vested in The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

**East 178th Street, from Bronx Park Avenue to Morris Park Avenue, Borough of The Bronx—Vesting Title (Cal. No. 52).**

(On May 11, 1917 (Cal. No. 135), the Board adopted a resolution vesting title in this proceeding.)

The Secretary presented the following report of the Chief Engineer:

Report No. 16755.

May 14, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of the Board held on May 11, and in order to clear the way for carrying out a proposed regulating and grading improvement in East 178th street, between Bronx Park avenue and Morris Park avenue, Borough of The Bronx, a resolution was adopted on the recommendation of your Engineer providing for vesting title to this street between the limits named on the date of the entry of the order of the court granting the application to carry out the proceeding.

On May 7th when this recommendation was made the application was before the court, and I am now informed that it was granted on May 9, 1917. It would therefore appear that the action of the Board was ineffective, inasmuch as the court order had been entered two days prior to the date of the vesting resolution.

I would recommend that the resolution of May 11th, providing for vesting title to East 178th street, be rescinded, and that a new resolution be adopted making provision for vesting title on July 2, 1917.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby rescinds the resolution adopted by said Board on May 11, 1917, directing that title shall become vested in The City of New York to East 178th Street, from Bronx Park Avenue to Morris Park Avenue, Borough of The Bronx, upon the date of the entry of the order of the Supreme Court granting the application to condemn the real property required for this improvement.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

The following was offered:

Whereas, The Board of Estimate and Apportionment on the 19th day of January, 1917, adopted a resolution requesting the Corporation Counsel to institute proceedings to acquire title in fee wherever the same has not heretofore been acquired, for the use of the public, to the real property required for the opening and extending of East 178th Street, from Bronx Park Avenue to Morris Park Avenue (Watsons Lane), subject to the easements of the New York, Westchester and Boston Railroad Company, in the Borough of The Bronx, City of New York; and

Whereas, The order of the Supreme Court granting the application to condemn the real property required for this improvement was entered on the 9th day of May, 1917, be it

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest and in pursuance of the provisions of section 976 of the Greater New York Charter, as amended, directs that upon the 2nd day of July, 1917, the title in fee to the real property lying within the lines of said East 178th Street, from Bronx Park Avenue to Morris Park Avenue, in the Borough of The Bronx, City of New York, so required, shall become vested in The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

**President, Borough of The Bronx—Bridge at Morris Avenue (156th Street) Over the Tracks of the New York and Harlem Railroad Company (Cal. No. 53).**

The Secretary presented a communication dated April 6, 1917, from the President of the Borough of The Bronx, calling attention to the unsatisfactory condition of the bridge by which Morris avenue (156th street), in the Borough of The Bronx, is carried over the tracks of the New York and Harlem Railroad Company, and requesting that the Board petition the Public Service Commission for the First District to issue an order requiring that the bridge be replaced by a suitable structure; and a report of the Chief Engineer, recommending that the Board apply to the Public Service Commission for the First District for a determination as to the manner in which the bridge should be improved and for the issuance of an order requiring its reconstruction.

The matter was laid over one week (June 1, 1917), and the Secretary directed to request the Corporation Counsel to advise the Board whether the bridge in question comes under the Park Department agreement of 1888.

**Board of Estimate and Apportionment; Borough Presidents; Department of Plant and Structures; Department of Docks and Ferries—Rules Relative to Waterway Improvements (Cal. No. 54).**

(On February 18, 1916 (Cal. No. 45), certain tentative rules were presented and

referred to the Presidents of the several boroughs, the Commissioner of Docks, the Commissioner of Bridges, and the Committee on Port and Terminal Facilities in order that their views might be obtained before definite action was taken.)

(On March 16, 1917 (Cal. No. 81), a report of the Chief Engineer was presented and the matter was laid over until March 30, 1917. On March 30, 1917 (Cal. No. 154), and April 13, 1917 (Cal. No. 223), the matter was laid over; on the latter date until April 20, 1917.)

(On April 20, 1917 (Cal. No. 130), this matter was referred back to the Chief Engineer, with instructions to define what was intended by the words "natural conditions" in proposed Rule No. 1.)

The Secretary presented the following report of the Chief Engineer:

Report No. 16786.

May 22nd, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Under date of February 14th, 1916, I submitted to the Board of Estimate and Apportionment a report relative to the adoption of some standard rules governing the treatment of waterways in the City of New York, recommending some general principles for the determination of minimum widths, the location of crossings, the clearance of bridges, with width and position of main channels, both for draw and fixed spans, and the general treatment of the waterfront in so far as it would be affected by the location of the nearest parallel street. This report was on February 18th, 1916, referred by the Board to the Borough Presidents, the Commissioner of Docks, the Commissioner of Bridges and the Committee on Port and Terminal Facilities.

Following this reference there were conferences and correspondence with the city officers above referred to or their representatives, and, after the receipt of reports from each of them, the matter was again presented to the Board under date of March 6th, 1917, the proposed rules having been amended in a number of particulars as a result of the conferences and correspondence above referred to, the rules in their amended form being apparently satisfactory to all of the departments interested. On April 20th, 1917, the matter was, on motion of the President of the Borough of Richmond, referred to the Chief Engineer, with instructions to define what was meant by the words "natural conditions," as used in proposed Rule No. 1, which reads as follows:

"For all waterway improvements where the navigable channels have not heretofore been definitely fixed or are not controlled by natural conditions, a minimum width of 200 feet shall be provided, and, in cases where the use of the waterway is likely to be of an intensive character, either by reason of its length or peculiar advantages due to location, a greater width, up to, say, 300 feet, might be fixed."

The President and the Commissioner of Public Works of the Borough of Richmond both referred to Fresh Kills in that Borough as an instance of a waterway which should probably be given a width even greater than 300 feet, owing to the fact that it includes a broad natural channel having an exceptional depth of water. This is precisely the sort of condition which was had in mind in the framing of the rule above referred to, and it is not unlikely that other instances could be found in the City where similar conditions would justify the fixation of bulkhead lines to provide a waterway greater than 300 feet in width. I would suggest, then, that in the adoption of these rules the words "natural conditions" referred to in Rule No. 1 are intended to apply in cases where existing channels of ample depth and a width greater than 300 feet or where the probability of intensive use, owing to peculiarly advantageous location, render it desirable to take advantage of present conditions or to make ample provision for waterborne commerce. I am given to understand by the Commissioner of Public Works of the Borough of Richmond that, if this interpretation of "natural conditions" is made a matter of record, there will be no objection on the part of that Borough to the adoption of the rules as submitted.

I, therefore, recommend that the rules be adopted and that this report be printed in the minutes of the Board immediately preceding or following the rules, in order that the record may be easily available.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, By the Board of Estimate and Apportionment that the following rules designed to govern the width of waterways, the height and width of bridges crossing same, and the treatment to be assigned to the streets in the immediate vicinity thereof be and the same hereby are approved:

**Rules Relative to Waterway Improvements.**

1. For all waterway improvements where the navigable channels have not heretofore been definitely fixed or are not controlled by natural conditions, a minimum width of 200 feet shall be provided, and in cases where the use of the waterway is likely to be of an intensive character, either by reason of its length or peculiar advantages, due to location, a greater width up to say about 300 feet might be fixed.

2. Provision shall generally be made for carrying streets over waterways at intervals of from 2,000 feet to 2,500 feet, except in locations where an intensive development may reasonably be anticipated, when the interval may be fixed at 1,500 feet as a minimum.

3. For all fixed and draw spans provision shall be made for a uniform clearance at the central span of 24 feet above high water of spring tide. The street elevation at the crossing shall be five feet higher than the elevation required to secure the stipulated clearance, which latter shall be determined from the accompanying diagram, with an allowance of one-quarter the range of mean high tide, to represent the difference between mean high water and high water of spring tide. The approach spans may have a grade not greater than that fixed for the land approach.

4. For draw spans over channels having a width of 200 feet the space assigned to the draw shall be centrally located with a clear span of 70 feet; the balance of the channel is to be crossed by fixed spans. For waterways where a width of more than 200 feet is provided, in order to meet the needs of navigation, a somewhat greater span for the draw may be used or a center pier with a channel on either side thereof may be provided.

5. For fixed spans a 70-foot channel width shall be provided in the center of the waterway.

6. The laying out of streets across waterways shall form a part of plans for such improvements and shall be duly incorporated upon the City Map as soon as the required legislation is secured, and in this connection provision shall, where practicable, be made for a definite determination as to whether the crossing is to be effected by fixed or by draw spans. In order that all of the property needed for bridge construction purposes may be acquired, a street laid out across a waterway shall be designated as of the same width as the approaches.

7. For streets having a width of less than 65 feet a bridge width of 50 feet shall be provided, of which 36 feet shall be assigned to the roadway. For streets having a width of from 65 feet to 80 feet, inclusive, a bridge width of 53 feet shall be provided, of which 36 feet shall be assigned to the roadway. For streets having a width of over 80 feet a bridge width of 70 feet shall be provided, of which 53 feet shall be assigned to the roadway.

8. Approaches to bridges shall have a grade at a rate not greater than 5 per cent.

9. In order that benefit may be established to a degree at least sufficient to permit of assessing the cost of acquiring land needed for waterway purposes, provision shall be made on the City Plan for leaving a depth between the bulkhead line and the nearest exterior street of at least one and one-half times the width of the waterway, and, where practicable, of at least twice the width of the waterway, with an increased depth in sections where intensive development may reasonably be anticipated, except where the width of the waterway is controlled by natural conditions, when the width intervening between the bulkhead and the nearest exterior street, shall be fixed on the basis of what would otherwise have been the normal waterway width.

10. The area between the exterior street and the bulkhead line shall not be subdivided by the laying out of streets other than those serving as approaches to bridges unless such additional subdivision is essential to the giving of access to what would otherwise be interior property holdings without street frontage.

11. The character of span to be provided for waterways shall be as follows:

Borough.	Waterway.	Number of Fixed Spans to Be Provided.
The Bronx....	Eastchester Creek .....	None.
	Givans Basin .....	No crossings required.
	Westchester Creek .....	To be determined at a later date.
	Pugsleys Creek .....	All.
	Bronx River .....	At and above East 174th Street.

Borough.	Waterway.	Number of Fixed Spans to Be Provided.
Brooklyn.....	Newtown Creek .....	None.
	Gerritsen Basin .....	To be determined at a later date.
	Deep Creek Basin.....	All.
	Mill Basin .....	None.
	Paerdegat Basin .....	All.
	Fresh Creek Basin.....	None.
	Spring Creek Basin.....	All.
Queens.....	Sheepshead Bay .....	None.
	Spring Creek Basin.....	To be determined at a later date.
	Shell Bank Basin.....	To be determined at a later date.
	Hawtree Basin .....	To be determined at a later date.
	Bergen Basin .....	To be determined at a later date.
	Cornell Basin .....	To be determined at a later date.
	Norton Basin .....	To be determined at a later date.
	Barbadoes Basin .....	None required.
	Newtown Creek .....	None.
	Flushing River .....	To be determined at a later date.
	Little Neck Bay.....	None.

Which was adopted by the following vote:  
Affirmative—The Mayor, the Comptroller, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—13.  
Negative—The President of the Board of Aldermen—3.

Bureau of Contract Supervision.

**President, Borough of Richmond—Repaving of Amboy Road (Cal. No. 55).**  
(On February 9, 1917 (Cal. No. 7), the Board allotted to the Borough of Richmond \$100,000 of the \$2,000,000 authorized December 28, 1916 (Cal. No. 1), for repaving in all Boroughs during 1917, with the stipulation that \$80,000 of the amount be devoted to the repaving of Amboy Road, north from Huguenot Crossing.)  
The Secretary presented the following report of the Bureau of Contract Supervision:

May 21, 1917.

*To the Board of Estimate and Apportionment:*  
Gentlemen—On May 18, 1917, the President, Borough of Richmond, made verbal request that the resolution adopted by your Board on February 9, 1917, approving an appropriation which included \$80,000 for repaving "Amboy Road, north from Huguenot Crossing," be amended by eliminating therefrom as to the above road the restriction referring to the necessity before expenditure of filing proof of the original paving of the said thoroughfare.

On December 28, 1916, the Board of Estimate and Apportionment approved of an appropriation of \$2,000,000 for repaving in all Boroughs during 1917, and in a resolution adopted on February 9, 1917, the sum of \$100,000 was allotted to the Borough of Richmond, the stipulation being made that \$80,000 of the amount should be devoted to the repaving of the "Amboy Road, north from Huguenot Crossing."

In the resolution authorizing this fund the usual provision was included as follows:

"\* \* \* that no contract shall be made for repaving any street or avenue unless the President of the Borough submits to the Comptroller with such contract evidence showing that the original pavement on such street or avenue was laid at the expense of the abutting property owners or by local taxation or by bond issues paid by the locality before consolidation unless the Board of Estimate and Apportionment shall otherwise determine upon presentation of the facts and circumstances affecting such street or avenue."

On June 30, 1916, your Board approved an authorization of \$90,000 for the repaving of "Amboy Road, from Bentley Street to Huguenot Crossing," and at that time upon presentation of the "facts and circumstances" in a report by the Committee on Corporate Stock Budget dated June 29, 1916, the policy of repaving the said thoroughfare without reference to the manner in which the original cost was paid, was established and the above quoted clause omitted in the authorizing resolution.

The report of the Committee on Corporate Stock recommending this appropriation reads, in part, as follows:

"\* \* \* Amboy Road is mainly through a territory that has not been developed sufficiently to warrant assessing on the abutting property the regulating, grading and paving of the permanent roadway, but as it is a very important highway, connecting the Municipal Ferry at St. George to the Perth Amboy Ferry at Tottenville, it is believed to be to the best general interest of the traveling public as well as to the consideration of the annual expenditure for maintenance out of Tax Levy that Amboy Road be paved with a permanent pavement." I recommend the adoption of the attached resolution which will waive, as to said Amboy Road, the usual restriction on appropriations for repaving streets.

Respectfully,  
TILDEN ADAMSON, Director.

The following resolution was offered:  
Resolved, That the Board of Estimate and Apportionment, in view of the facts and circumstances presented affecting the repaving of Amboy Road, Borough of Richmond, hereby determines and consents to waive as to said road, the ordinary restriction on appropriation for repaving streets, which requires that the President of the Borough of Richmond shall submit proof to the Comptroller, with any contract: that may be made for repaving the said thoroughfare, that the original pavement was laid at the expense of the abutting property owners or by local taxation or by bond issues paid by the locality before consolidation.

Which was adopted by the following vote:  
Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

Department of Education—Approval of Contract, Specifications, Plans, Etc. (Cal. No. 56).

The Secretary presented communications dated April 27, May 1, 11 and 15, 1917, from the Secretary, Board of Education, transmitting for approval forms of contract, specifications, plans and estimates of cost for work at public schools in the various Boroughs; and the following report of the Bureau of Contract Supervision recommending approval thereof:

May 22, 1917.

*To the Board of Estimate and Apportionment:*  
Gentlemen—Communications were referred by you to the Bureau of Contract Supervision as follows:

Date of Communication and Purpose of Request.

- April 27, 1917 (Two Communications)—  
(1) Approval of specifications for furnishing and delivering materials for use of Mechanics (Heating Division, Building Bureau), in Public Schools, All Boroughs, at an estimated cost of \$6,025.  
The materials consist of small parts for valves, thermostats and pumps, small fittings for pipes, tools, pipe coverings, gauge glasses, gaskets, paints and stove repair parts which are required to replace worn out parts and which are installed by the Mechanics or Engineer-Janitors of the various buildings.  
(2) Approval of the form of contract, specifications, plans and estimates of cost for equipment of Manhattan Trade School for Girls, Borough of Manhattan, as follows:

	Estimated Cost.
Item 1—Installing heating and ventilating apparatus.....	\$75,000 00
Item 2—Installing temperature regulation .....	5,000 00
Item 3—Installing electric elevator equipment.....	20,000 00

Total estimated cost ..... \$100,000 00  
The cost is to be charged to the corporate stock fund entitled "C. D. E.—100K, School Buildings, Construction and Equipment, Manhattan, Sub-Title 10," in which sufficient funds are available.

It is necessary that these contracts be proceeded with now in order that the work may keep pace with the construction work now under way.

May 1, 1917—

Approval of the form of contract, specifications, plans and estimates of cost for alterations and repairs at Public Schools 1, 28, 51, 58, 159, 179 and Washington Irving High School in the Borough of Manhattan, at an aggregate estimate of cost of \$11,337.

The work consists of painting and general repair work.  
An appropriation of \$226,500 was approved by your Board on May 18, 1917, for the alteration of Public School 179, to provide accommodations for Julia Richmond High School. This alteration will render unnecessary the expenditure of \$1,164, which is included in this contract. This work has been eliminated from the contract.

May 11, 1917 (Two Communications)—

- (1) Approval of the form of contract, specifications, plans and estimate of cost, \$30,000, for electric equipment in Manhattan Trade School for Girls, Borough of Manhattan.

The cost is to be charged to the corporate stock fund entitled "C. D. E. 100K, School Buildings, Construction and Equipment, Manhattan, Sub-Title 10," in which there is a sufficient balance for the purpose.

It is necessary that the work be proceeded with coincident with the construction contract now under way.

The specifications include electric conduits, wiring and fixtures necessary for lighting and power equipment.

- (2) Approval of the form of contract, specifications, plans and estimates of cost for alterations and repairs at various Public Schools in the Borough of The Bronx, at an estimated cost of \$14,159.

The work to be done consists of painting and items of general repair and alterations properly chargeable to the annual budget.

May 15, 1917 (Two Communications)—

- (1) Approval of the form of contract and specifications for furnishing and delivering materials for use of Mechanics (Furniture Division, Building Bureau), in Public Schools in the Borough of Brooklyn, at an estimated cost of \$3,500.

The materials consist of bolts, screws, hardware, tools, lumber, paint, clock materials and window shade materials which are to be used by the Mechanics of the Department for repairs at the various school buildings.

- (2) Approval of the form of contract, specifications, plans and estimates of cost for alterations and repairs at various public schools in the Borough of Brooklyn, at an estimated cost of \$18,080.

The work consists of items of necessary painting, general repairs and alterations such as are paid for out of the annual repair budget.

Except where otherwise noted, the costs are to be paid from 1917 budget funds, in which provision was made for the various items. The contracts, plans and specifications, except as to Public School 179, Borough of Manhattan, are satisfactory, and the estimate of cost reasonable.

I recommend the adoption of the attached resolutions (two) granting the requests.

Respectfully,  
TILDEN ADAMSON, Director.

The following resolution was offered:  
Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of the 1917 Budget, hereby approves the forms of contracts, plans, specifications and estimates of cost for the work under the jurisdiction of the Department of Education, as follows:

One.

Form of contract, specifications and estimates of cost, six thousand and twenty-five dollars (\$6,025) for materials for the use of mechanics (Heating Division, Building Bureau) in Public Schools, All Boroughs, in approximate amounts as follows:

Borough.	Estimated Cost.	1917 Budget Code.
Manhattan .....	\$1,000 00	No. 870
The Bronx .....	350 00	No. 871
Brooklyn .....	4,000 00	No. 872
Queens .....	500 00	No. 873
Richmond .....	175 00	No. 874

Two.

Materials for use of mechanics (Furniture Division, Building Bureau) in Public Schools of the Borough of Brooklyn; estimated cost, three thousand five hundred dollars (\$3,500), to be charged to the 1917 budget appropriation, Code No. 872.

Forms of contract, specifications, plans and estimates of cost for alterations and repairs at Public Schools as follows:

Three.

Public Schools 1, 28, 51, 58, 159 and Washington Irving High School, Borough of Manhattan; total estimated cost, ten thousand one hundred and seventy-three dollars (\$10,173), to be charged to the 1917 budget appropriation, Code No. 870.

Four.

Public Schools 2, 4, 11, 16, 28, 33, 34, 37, 39, 43 and Morris High School, Borough of The Bronx; total estimated cost, fourteen thousand one hundred and fifty-nine dollars (\$14,159), to be charged to the 1917 budget appropriation, Code No. 871.

Five.

Public Schools 3, 5, 10, 32, 54, 58, 84, 130, 146, 156, 160 and Manual Training High School, Borough of Brooklyn; total estimated cost, eighteen thousand and eighty dollars (\$18,080), to be charged to the 1917 budget appropriation, Code No. 872.

—provided that, in the event that the aggregate sum of the lowest bids received for all items of materials for mechanics, or the aggregate sum of the lowest bids received for the alterations and repairs chargeable to each code account, is equal to or less than the said aggregate sums herein approved (although the amount of the lowest bid for one or more items may exceed the amount approved for said item or items), then the awards for the several items within such aggregate, provided all are awarded, may be made without further approval by the Board of Estimate and Apportionment, and further provided that in the event that the said aggregate sum of the lowest bids received for the several items exceeds the said aggregate sum of the several items herein approved, no award for any item within such aggregate shall be made and the amount of such estimated cost upon the bids so received may be reconsidered, in its discretion, by the Board of Estimate and Apportionment, or by any official designated by the Board, provided that the aggregate of the bids is within the amount authorized and available for said work.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and the Acting President of the Borough of Richmond—16.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, hereby approves the form of contract, plans, specifications and estimates of cost for work and equipment at the Manhattan Trade School for Girls, Borough of Manhattan, under the jurisdiction of the Department of Education as follows:

- Item 1—Installing heating and ventilating apparatus; estimated cost, seventy-five thousand dollars (\$75,000).  
Item 2—Installing temperature regulation; estimated cost, five thousand dollars (\$5,000).  
Item 3—Installing electric elevator equipment; estimated cost, twenty thousand dollars (\$20,000).  
Installing electric equipment; estimated cost, thirty thousand dollars (\$30,000.)

—the cost to be charged to the corporate stock fund entitled "C. D. E.—100K, School Buildings, Construction and Equipment, Manhattan, Sub-title 10," provided that in the event that the aggregate sum of the lowest bids received for the four items is equal to or less than the aggregate sum of the four items herein approved (although the amount of the lowest bid for one or more items may exceed the amount approved for said item or items), then the award for the four items, provided all are awarded, may be made without further approval by the Board of Estimate and Apportionment, and further provided that in the event that the aggregate sum of the lowest bids re-

ceived for the four items exceeds the aggregate sum of the four items herein approved, no award for any item shall be made and the amount of such estimated cost upon the bids so received may be reconsidered, in its discretion, by the Board of Estimate and Apportionment, or by any official designated by the Board, provided that the aggregate of the bids is within the amount authorized and available for said work.

Which was adopted by the following vote:  
Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and the Acting President of the Borough of Richmond—16.

**Department of Parks, Borough of Brooklyn—Approval of Contract, Plans and Specifications, Etc. (Cal. No. 57).**

The Secretary presented a communication dated May 8, 1917, from the Commissioner of Parks, Borough of Brooklyn, transmitting for approval form of contract, plans and specifications, as amended, and estimate of cost (\$51,363.50) for repaving and improving the main plaza of Prospect Park; and the following report of the Bureau of Contract Supervision recommending approval thereof:

May 22, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On May 12, 1917, you referred to the Bureau of Contract Supervision a communication from the Commissioner of Parks, Borough of Brooklyn, dated May 8, 1917, requesting approval of the form of contract, plans and specifications and an estimate of cost, \$51,363.50, for repaving and improving the main plaza of Prospect Park the cost to be charged to the corporate stock fund entitled "C.D.P.217C, Repaving and Improving Prospect Park Plaza," for which you appropriated \$55,000 on April 20, 1917.

The proposed work consists of repaving to the extent of about 15,200 square yards with asphaltic concrete (Topeka) on a six-inch cement concrete base, together with about 7,000 cubic yards of grading, 4,000 linear feet of curbing, 5,000 square feet of cement sidewalk, 600 cubic yards of topsoil and 73,000 square feet of sod furnished and laid.

The form of contract and plans and the specifications, as slightly amended, are satisfactory. The estimate of cost is reasonable.

I recommend the adoption of the attached resolution approving the contract form, plans and specifications, as amended, at an estimated cost of \$51,363.50. Respectfully,  
TILDEN ADAMSON, Director.

The following resolution was offered:  
Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, hereby approves the contract form, plans and specifications, as amended, for the improvement of the main plaza of Prospect Park, at an estimated cost of fifty-one thousand three hundred and sixty-three dollars and fifty cents (\$51,363.50), said work to be done under the jurisdiction of the Commissioner of Parks, Borough of Brooklyn, and the cost to be charged to the corporate stock fund entitled "C.D.P.217C, Repaving and Improving Prospect Park Plaza"; provided, that if no bids are received for such work within such estimated cost the amount of such estimated cost upon the bids so received may be reconsidered in its discretion by the Board of Estimate and Apportionment, or any official designated by the Board, provided that any of such bids is within the amount authorized and available for such work.

Which was adopted by the following vote:  
Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and the Acting President of the Borough of Richmond—16.

**Fire Department—Approval of Increased Estimates of Cost (Cal. No. 58).**

(On April 20, 1917 (Cal. No. 49), the Board approved an estimate of cost in this matter at \$6,425.)

The Secretary presented a communication dated May 16, 1917, from the Fire Commissioner, requesting approval of increased estimates of cost aggregating \$7,380 for all labor and materials necessary for repairs and alterations at company quarters in the Boroughs of Manhattan and Brooklyn; and the following report of the Bureau of Contract Supervision recommending approval thereof:

May 21, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On April 20, 1917, the Board of Estimate and Apportionment approved the plans, specifications and estimates of cost in the sum of \$6,425 for all labor and materials necessary for repairs and alterations at the following company quarters in the Boroughs of Manhattan and Brooklyn, under the jurisdiction of the Fire Department:

Hook and Ladder Company 13.....	\$2,200 00
Hook and Ladder Company 122.....	2,200 00
Engine Company 207 .....	2,025 00

Total..... \$6,425 00

Hook and Ladder Company 13, General Repairs and Alterations—The lowest of five bids received after advertising is \$2,240 and the highest \$4,787.

Hook and Ladder Company 122, General Repairs and Alterations—Nine bids were received for this work, ranging from \$2,110 to \$4,483.

Engine Company 207, General Repairs and Alterations; Plumbing Work—Nine bids were received for the general alteration, ranging in cost from \$1,840 to \$3,447. For the plumbing work there were seven bids received, ranging from \$1,190 to \$2,180. The excess of the bids over the original estimate is probably due, in addition to the increased cost of materials and labor, to the difficulty of construction, due to the location of the work.

The amount of the lowest bids, which aggregate \$7,380 for all the work proposed, is reasonable. There is a sufficient balance in "Code 1694, Repairs and Replacements," to meet the increased cost.

I recommend the adoption of the attached resolution approving the increased estimate of cost, \$7,380. Respectfully,  
TILDEN ADAMSON, Director.

The following resolution was offered:  
Resolved, That the Board of Estimate and Apportionment hereby amends a resolution adopted on April 20, 1917, by substituting the sum of seven thousand three hundred and eighty dollars (\$7,380) in place of the sum of six thousand four hundred and twenty-five dollars (\$6,425), as estimated cost for all labor and materials necessary for repairs and alterations at the following company quarters of the Fire Department in the Boroughs of Manhattan and Brooklyn:

Hook and Ladder Company 13, 159 East 87th Street.....	\$2,240 00
Hook and Ladder Company 122, 532 Eleventh Street.....	2,110 00
Engine Company 207, 247 Pearl Street.....	3,030 00

Total..... \$7,380 00

—the cost to be paid from the appropriation "Fire Department, Code 1694, Repairs and Replacements, 1917."

Which was adopted by the following vote:  
Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and the Acting President of the Borough of Richmond—16.

**Department of Health—Expenditure of Special Revenue Bond Funds (Cal. No. 59).**

The Secretary presented a communication dated May 18, 1917, from the Secretary, Department of Health, requesting approval of the expenditure of a sum not to exceed \$750 for mosquito extermination purposes; and the following report of the Bureau of Contract Supervision recommending approval thereof:

May 22, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On May 18, 1917, the Department of Health requested approval of the expenditure of \$750 for additional shoring in connection with the construction of the drainage canal in the Kissena Park and Flushing section of the Borough of Queens, to be charged to the fund entitled "R. D. H. 1A, Department of Health, Mosquito Extermination, 1917."

A contract for the construction of a drainage canal or ditch in the Kissena Park and Flushing sections is now almost completed. The contract provides for the placing of shoring or sheet-piling to the extent of 3,500 linear feet. This is placed in those parts of the ditch where the soil is of such a character that it will be washed out and will cave in from the action of the water. The estimate of 3,500 feet was made before the contract was let. In the progress of the work there has been found

approximately 1,000 additional linear feet of ditch which require sheet-piling on account of the sandy soil encountered.

The contractor will perform this work at the unit price of 75 cents per linear foot of ditch which is the price stated in the contract. This is a reasonable price. The additional work is necessary for the preservation of the sides of the canal.

I recommend the adoption of the attached resolution granting the request. Respectfully,  
TILDEN ADAMSON, Director.

The following resolution was offered:  
Resolved, That the Board of Estimate and Apportionment hereby approves the expenditure of a sum not to exceed seven hundred and fifty dollars (\$750), to provide for additional shoring or sheet piling in connection with the construction of a drainage ditch or canal, in the Kissena Park and Flushing sections of the Borough of Queens, under the jurisdiction of the Department of Health, the cost to be charged to the special revenue bond fund entitled "R. D. H.—1A, Department of Health, Mosquito Extermination, 1917."

Which was adopted by the following vote:  
Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and the Acting President of the Borough of Richmond—16.

**Department of Health—Approval of Plans, Specifications, Etc. (Cal. No. 60).**

The Secretary presented a communication dated April 28, 1917, from the Secretary, Department of Health, transmitting for approval plans, specifications and estimates of cost, \$10,424, as amended, for the construction of the Staff House, Municipal Sanatorium, Otisville, New York; and the following report of the Bureau of Contract Supervision relative thereto:

May 21, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On April 30, 1917, you referred to the Bureau of Contract Supervision a communication from the Department of Health, dated April 28, 1917, requesting approval of plans, specifications and estimates of cost of \$10,424 for the construction of the Staff House, Municipal Sanatorium, Otisville, New York.

The cost of the proposed work is to be paid from the corporate stock fund entitled "C. D. H.—7X, Sanatorium at Otisville, New York, Construction of Staff House and Nurses' Home," in which there is an unencumbered balance of \$22,279.22.

The proposed work consists of the reconstruction of an old farmhouse by adding two extensions thereto, a sleeping porch, a bathroom and the necessary heating and lighting work. The old building consists of a two-story structure, about 25 feet square, a one-story extension on the west, which, including the porch, measures about 25 feet by 22 feet, and a frame shed in the rear thereof, used as a kitchen. This building houses from 6 to 8 doctors and the necessary help and is totally inadequate for the purpose. The alterations as proposed will provide an L-shaped two-story and attic building, the main portion about 50 feet by 24 feet and the extension about 27 feet by 25 feet, with a two-story sleeping porch on the front of the main building.

The plans and specifications are satisfactory. The work is to be done by departmental labor. An itemized schedule of materials and labor necessary for this work was submitted, in which the cost of the materials was estimated at \$5,854 and the labor \$4,570.

With the co-operation of the Bureau of Personal Service, the Bureau of Contract Supervision made a study of both the material and labor necessary for this work and reached an agreement with the Department of Health, as follows: For all materials necessary, \$5,854, and for labor, \$3,990, a total of \$9,844. This will be sufficient for the purpose.

I recommend the adoption of the attached resolutions, granting the request as amended, one approving schedules for materials and the other amending the labor schedule to include the necessary labor force.

Respectfully,  
TILDEN ADAMSON, Director.

The following resolution was offered:  
Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution adopted July 11, 1912, hereby approves the plans and specifications for the reconstruction of the Staff House, Municipal Sanatorium, Otisville, Orange County, New York, under the jurisdiction of the Department of Health, at an estimated cost of nine thousand eight hundred and forty-four dollars (\$9,844), of which the sum of five thousand eight hundred and fifty-four dollars (\$5,854) is for materials, the expenditures of the latter amount, subject to the provision of section 419 of the Charter, to be in accordance with the schedule and at approximate cost for each item, as follows:

Lumber .....	\$2,400 00
Nails .....	132 00
Asbestos shingles .....	420 00
Metal lath .....	141 00

**Department of Public Charities—Approval of Specifications, Etc. (Cal. No. 61).**

The Secretary presented a communication dated May 8, 1917, from the Commissioner of Public Charities, transmitting for approval specifications for repainting

the steamboat "Thomas S. Brennan" at an estimated cost of \$2,500; and the following report of the Bureau of Contract Supervision relative thereto:

May 22, 1917.

*To the Board of Estimate and Apportionment:*

Gentlemen—On May 14, 1917, you referred to the Bureau of Contract Supervision a request of the Commissioner of Public Charities, dated May 8, 1917, for the approval of the specifications for repainting the steamboat "Thomas S. Brennan," at an estimated cost of \$2,500, to be charged against Code 1977 of the 1917 budget.

The sum of \$1,000 was allowed, as requested by the Department of Charities, in the budget for this work, and it is reported to me that, while the cost of labor and material has risen since the adoption of the budget, the cost should not now exceed \$2,000. The painting is badly needed. At the suggestion of this bureau, some minor changes have been made in the specification to make its meaning clear and to allow competition among paint manufacturers.

I recommend that the specifications, as amended, be approved at the revised estimate of cost by the adoption of the attached resolution.

Respectfully,

TILDEN ADAMSON, Director.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of the 1917 Budget, hereby approves the specifications and estimate of cost, two thousand dollars (\$2,000), for repainting the exterior of the steamboat "Thomas S. Brennan," under the jurisdiction of the Department of Public Charities, the cost to be charged against Code 1977 of the 1917 budget, provided that, if no bids are received for said work within the estimated cost, the amount of such estimated cost upon the bids so received may be reconsidered in its discretion by the Board of Estimate and Apportionment or any official authorized to act in its behalf, provided that any of the bids is within the amount authorized and available for said work.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

**Department of Public Charities—Expenditure of Corporate Stock Funds (Cal. No. 62).**

The Secretary presented a communication dated April 24, 1917, from the Commissioner of Public Charities, requesting permission to expend the sum of \$663 for certain alterations in the drainage system and plumbing fixtures in Jacobi Pavilion, Randall's Island; and the following report of the Bureau of Contract Supervision, recommending approval thereof:

May 21, 1917.

*To the Board of Estimate and Apportionment:*

Gentlemen—On April 26, 1917, you referred to the Bureau of Contract Supervision a communication from the Department of Public Charities, dated April 24, 1917, requesting approval of an expenditure in the sum of \$663 for labor and material to make certain alterations in the drainage system and plumbing fixtures in Jacobi Pavilion, Randall's Island, the cost to be charged to the corporate stock fund CCH-57E.

It is proposed to expose all soil and waste lines now concealed between the floors and ceilings and in partitions, from the second floor of the building to the cellar, by running the lines exposed on the first floor ceiling and against the south wall of the rooms.

These new lines to be equipped with clean-outs at every change of direction making the pipes accessible for cleaning any obstructions that might stop the flow.

The specifications also include the providing and installation of one new water-closet and one new urinal.

On account of the irresponsibility of the inmates who are feeble-minded, it is practically impossible to restrain them from dropping pieces of rags and other articles into the plumbing fixtures, causing the soil lines to choke, and, as no provision was made when the building was constructed to take care of such an emergency, the pipe lines are only made accessible by tearing up the floor or cutting into the partition. The work of periodically cleaning out the soil and waste lines is costly and not entirely satisfactory, and, if the work was performed according to the specifications submitted, this objectionable condition would be eliminated.

Furthermore, the plumbing contracts for the new cottage dormitories now under construction on the island provide for exposed cleanout traps at every change of direction in the soil lines, thereby eliminating the possibility of a repetition of this nuisance.

The specifications are satisfactory, the estimate of cost is based upon seven bids received, the lowest of which was for the amount requested. The cost of the work is properly chargeable to the fund CCH-57E, in which sufficient unencumbered balance remains.

I recommend the adoption of the attached resolution, granting the request, subject to audit of the bills by the Department of Finance.

Respectfully,

TILDEN ADAMSON, Director.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution adopted July 11, 1912, hereby approves the expenditure of an amount not to exceed six hundred and sixty-three dollars (\$663) for labor and materials to make certain alterations in the drainage system and plumbing fixtures in Jacobi Pavilion, Randall's Island, under the jurisdiction of the Department of Public Charities, the cost to be charged to the corporate stock fund entitled "CCH-57E, Construction, Alteration and Equipment of Buildings on Randall's Island," subject to audit of the bills by the Department of Finance.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

**Department of Public Charities—Approval of Contract, Plans, Specifications, Etc. (Cal. No. 63).**

The Secretary presented a communication dated May 2, 1917, from the First Deputy and Acting Commissioner of Public Charities, transmitting for approval contract, plans, specifications and estimates of cost aggregating \$108,000 for installation of heating mains and electric equipment at the Sea View Hospital, Borough of Richmond; and the following report of the Bureau of Contract Supervision, recommending approval thereof:

May 22, 1917.

*To the Board of Estimate and Apportionment:*

Gentlemen—On May 3, 1917, you referred to the Bureau of Contract Supervision a communication from the Department of Public Charities dated May 2, 1917, requesting approval of the contract, plans, specifications and estimates of cost, \$108,000, for work at the Sea View Hospital, Borough of Richmond, as follows:

Contract 1—Installation of heating mains and equipment ..... \$90,000 00  
Contract 2—Installation of electric equipment ..... 18,000 00

The cost of the work is chargeable, in part, against the corporate stock fund of \$800,000 entitled "C. C. H.—55, Additional Land and Buildings at Sea View Hospital" approved by the Board of Estimate and Apportionment on July 9, 1914, and against the corporate stock fund of \$105,000 entitled "C. C. H.—48B, Sea View Hospital Additional Buildings," approved by the Board of Estimate and Apportionment on December 29, 1916. On May 21, 1917, there was an unencumbered balance of \$46,397.12 in the fund "C. C. H.—55" and the fund "C. C. H.—48B" was intact.

Contract 1 provides for the installation of two forced hot water heating distribution system, one for heating the buildings and one for supplying hot water for domestic purposes, also steam mains for heating the dining hall and for heating water.

The piping will be carried underground in conduits and through the basement of the twelve buildings of the male group and nine of the female group and connected to the heating system in each individual building.

The hot water will be generated in heaters located in pavilions 4 and 15, and circulated through the systems by motor driven centrifugal pumps. Steam for the generation of hot water will be furnished by the main boiler plant.

The installation will include all necessary piping, conduits, covering, heaters, circulating pumps and other apparatus to make a complete installation.

Contract 2 provides for the installation of a complete underground electrical distribution system, including light, power, telephone, telegraph and fire alarm ducts, and the wiring for light and power service for the twenty-three buildings, also the

installation of electric equipment in pavilions 4 and 15 for the motor driven pumps, including panels, feeders, conduits and wiring.

After an informal submission of this work at an estimated cost, \$102,500, the Department at the suggestion of the Bureau of Contract Supervision and after consulting with the Engineers of the Department of Public Charities, simplified the original arrangement of the system by relocating the pumping and heating apparatus, which permitted the reduction in the number and sizes of the steam and hot water mains, valves and fittings and a consequent reduction of \$12,500 in the original estimated cost.

The plans and specifications, as modified, are believed to be complete, definite and competitive and have been approved as to the electrical work by the Department of Water Supply, Gas and Electricity.

The present estimates of cost are reasonable.

It is necessary that this work be proceeded with at once so that it will coordinate with that of the building work now under construction.

I recommend the adoption of the attached resolution granting the request.

Respectfully,

TILDEN ADAMSON, Director.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, hereby approves the form of contract, subject to the approval of the Corporation Counsel, plans, specifications and estimates of cost, aggregating one hundred and eight thousand dollars (\$108,000), for the installation of heating mains and electric equipment at the Sea View Hospital, Borough of Richmond, under the jurisdiction of the Department of Public Charities, as follows:

Contract 1—Installation of heating mains and equipment ..... \$90,000 00  
Contract 2—Installation of electric equipment ..... 18,000 00

—the cost to be charged to the corporate stock funds entitled "C. C. H.—55, Additional Land and Buildings at Sea View Hospital," to the extent of the available unencumbered balance, and to "C. C. H.—48B, Sea View Hospital, Additional Buildings," for the balance of the cost; provided, however, if no bids are received for said work within the estimated cost, the amount of such estimated cost upon the bids so received may be reconsidered in its discretion by the Board of Estimate and Apportionment or any official designated by said Board, provided that any of the bids is within the amount authorized and available for said work.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

**Department of Water Supply, Gas and Electricity—Approval of Contract, Specifications, Etc. (Cal. No. 64).**

The Secretary presented a communication dated May 11, 1917, from the Commissioner of Water Supply, Gas and Electricity transmitting for approval form of contract, specifications and estimate of cost (\$23,500) for furnishing and delivering cast iron special castings in the Boroughs of Manhattan and The Bronx; and the following report of the Bureau of Contract Supervision recommending approval thereof:

May 21, 1917.

*To the Board of Estimate and Apportionment:*

Gentlemen—On May 14, 1917, you referred to the Bureau of Contract Supervision a communication from the Commissioner of Water Supply, Gas and Electricity, dated May 11, 1917, requesting approval of form of contract, specifications and estimate of cost in an amount of \$23,500 for furnishing and delivering in the Boroughs of Manhattan and The Bronx, cast iron special castings as follows:

Section 1—Estimated cost ..... \$18,000 00  
Section 2—Estimated cost ..... 5,500 00

\$23,500 00

The cost of these materials is to be charged against the corporate stock fund "C. D. W.—43, Water Supply System, Connecting Distribution Mains with Catskill Pressure Shafts," which was authorized by your Board in an amount of \$235,000 on November 25, 1914, and in which there is an unencumbered balance of approximately \$43,000.

These supplies, which are to be used in making new connections with the Catskill shafts and making certain changes in the distribution mains in order to provide for increased pressures in Manhattan below 34th Street, were included in a contract approved by your Board on April 13, 1917. The bid price received for the supplies under this approval seemed excessive and the department believes that better prices can be obtained by letting the work in two sections, as some of the bidders could not furnish all of the castings required.

The total original bid price for the work was \$24,840, but it is probable that the materials can be obtained by readvertising within the cost now estimated, \$23,500.

I recommend the adoption of the attached resolution approving the request.

Respectfully,

TILDEN ADAMSON, Director.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, hereby approves the form of contract, specifications and estimates of cost in an amount of twenty-three thousand five hundred dollars (\$23,500) for furnishing and delivering in the Boroughs of Manhattan and The Bronx, cast iron special castings for use of the Department of Water Supply, Gas and Electricity, as follows:

Item 1—Estimated cost ..... \$18,000 00  
Item 2—Estimated cost ..... 5,500 00

\$23,500 00

—the cost to be charged against the corporate stock fund "C. D. W.—43, Water Supply System, Connecting Distribution Mains with Catskill Pressure Shafts"; this approval being in substitution for the approval of item one in contract approved by the Board on April 13, 1917.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and the Acting President of the Borough of Richmond—16.

**Department of Water Supply, Gas and Electricity—Expenditure of Corporate Stock Funds (Cal. No. 65).**

The Secretary presented a communication dated March 15, 1917, from the Commissioner of Water Supply, Gas and Electricity, requesting permission to expend \$225 for furnishing and delivering one eight-inch water pressure regulator for use at the Clove Pumping Station, Borough of Richmond; and the following report of the Bureau of Contract Supervision recommending approval thereof:

May 16, 1917.

*To the Board of Estimate and Apportionment:*

Gentlemen—On March 16, 1917, you referred to the Bureau of Contract Supervision a communication from the Commissioner of Water Supply, Gas and Electricity, dated March 16, 1917, requesting permission to make an expenditure of \$225 for furnishing and delivering one eight-inch water pressure regulator for use in the Borough of Richmond.

This pressure regulator is to be used to reduce the Clove Pumping Station high pressure, rather than to install an additional pump, in order to serve certain districts which are too high for the Silver Lake Service and not high enough to require the high pressure pumped service.

The estimate of cost is reasonable and is properly chargeable against the corporate stock fund "C. D. W.—15."

I recommend the adoption of the attached resolution approving the request.

Respectfully,

TILDEN ADAMSON, Director.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, and subject to the provisions of section 419 of the Greater New York Charter, hereby grants permission to the Commissioner of Water Supply, Gas and Electricity, to make an expenditure of two hundred and twenty-five dollars (\$225) for furnishing and delivering one eight-inch water pressure regulator in the Borough of Richmond, the cost to be charged against the corporate stock fund "C. D. W.—15, Water Fund, Borough of Richmond."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and the Acting President of the Borough of Richmond—16.

**Department of Street Cleaning—Expenditure of Corporate Stock Funds (Cal. No. 66).**

The Secretary presented a communication dated May 8, 1917, from the Commissioner of Street Cleaning, requesting permission to expend \$985 for the purchase of a light service truck; and the following report of the Bureau of Contract Supervision recommending approval thereof:

May 22, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On May 22, 1917, the Commissioner of Street Cleaning requested authority to expend the sum of \$985 from the corporate stock fund entitled "C.D.S. 15, Department of Street Cleaning, Construction and Equipment of a Model District" for the purchase of one auto service truck.

The purpose of the proposed expenditure is to provide the model district with a light truck of 1,500 pounds capacity to distribute equipment and supplies to the offices of the four sections comprising the district; to transport broken parts of automobile apparatus to the city or manufacturers' repair shops and for use as a wrecking wagon for the district.

Such a truck was not included in the original estimate upon which the appropriation was based, but is included within the general purpose of the appropriation. There is a sufficient unencumbered balance in the appropriation to provide for the proposed expenditure. The price to be paid is reasonable.

I recommend that the request be approved by the adoption of the attached resolution. Respectfully,

TILDEN ADAMSON, Director.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution adopted on July 11, 1912, hereby approves the purchase by the Commissioner of Street Cleaning of one auto service truck at a cost not to exceed nine hundred and eighty-five dollars (\$985) to be charged against the corporate stock fund entitled "C. D. S. 15, Department of Street Cleaning, Construction and Equipment of a Model District."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and the Acting President of the Borough of Richmond—16.

**Department of Plant and Structures—Approval of Corporate Stock Schedules (Cal. No. 67).**

The Secretary presented a communication dated May 14, 1917, from the Commissioner of Plant and Structures, requesting approval of schedules totaling \$80,000, for the repavement and reconstruction of the roadway of the Brooklyn Bridge; and a report of the Bureau of Contract Supervision recommending approval thereof.

(On December 29, 1916 (Cal. No. 3), the Board appropriated \$80,000 for the repavement of Brooklyn Bridge, and for any necessary reconstruction of roadway in connection therewith.)

The matter was laid over to June 1, 1917.

May 22, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—I beg to inform you that on May 18, 1917, his Honor the Mayor approved a resolution adopted by the Board of Estimate and Apportionment on the same date, changing the map or plan of The City of New York by

524. Changing the lines of Kings Highway, from Ocean Avenue to Flatbush Avenue, Borough of Brooklyn. Respectfully,

JOSEPH HAAG, Secretary.

**LOCAL IMPROVEMENTS.****Preliminary Authorization.**

Borough of Brooklyn.

**Montgomery Street, from Bedford Avenue to Rogers Avenue, Borough of Brooklyn—Sewer (Cal. No. 69).**

The Secretary presented a resolution adopted June 2, 1913, by the Local Board of the Flatbush District, Borough of Brooklyn, initiating proceedings for this improvement; and the following report of the Chief Engineer:

May 12, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on June 2, 1913, initiating proceedings for constructing a sewer in Montgomery street, from Bedford avenue to Rogers avenue. This resolution affects three blocks or about 800 feet of Montgomery street, title to which has been legally acquired.

The improvement is petitioned for by three property owners, representing a little more than 60 per cent. of the frontage which, in the interior lots, is assessed as having a value, excluding buildings, of \$60 per linear foot.

The work is estimated to cost about \$2,800, on which basis the assessment will amount to about \$3 per front foot. The assessed valuation of the property to be benefited is reported to be \$85,925.

An inspection of the ground shows that the street is graded, curbed and flagged, and that, with the exception of a large building at the northwesterly corner of Rogers avenue, the abutting property is entirely unimproved. The sewer is particularly desired in order to clear the way for carrying out a paving improvement, which has been made the subject of a Local Board resolution now awaiting consideration and is deemed to be of an urgent nature. The outlet sewers are built.

From the conditions above outlined it would appear that, in conformity with the rules of the Board, preliminary authorization of this improvement might properly be now given, such action being recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Whereas, The President of the Borough of Brooklyn has transmitted to the Board of Estimate and Apportionment a copy of a resolution of the Local Board of the Flatbush District duly adopted by said Board on the 2d day of June, 1913, and approved by the President of the Borough of Brooklyn on the 18th day of June, 1913 as follows, to wit:

"Resolved, That the Local Board of the Flatbush District hereby initiates proceedings to construct a sewer in Montgomery street, between Bedford and Rogers avenues."

—and which resolution is accompanied with an approximate estimate of the cost of the work and the assessed value of the property benefited.

Resolved, That the Board of Estimate and Apportionment hereby authorizes the President of the Borough of Brooklyn to prepare plans, specifications and an estimate

of cost based on actual survey, and also to secure a determination of the boundary of the district of assessment; the entire expense of the work done subsequent to the date of this authorization to be charged against the Street Improvement Fund and later included in the assessment.

Resolved, That the Board of Estimate and Apportionment will consider the authorization of the construction of the said proposed improvement after the President of the Borough of Brooklyn has submitted a statement showing that all of the above described work has been done, that he has secured the approval of the form of contract by the Corporation Counsel, that he is prepared to place the improvement under contract as soon as he receives the consent of the Board, and that the assessment map will be completed on or before the date of payment on acceptance; this report to be accompanied by a further statement showing the quantity of work to be performed under each item and the unit price thereof, the expense incurred for preliminary work, the allowance to be made for additional engineering and contingencies, the total probable cost, and the number of working days to be allowed the contractor for carrying out the work.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

**Avenue H, from Ocean Avenue to a Point About 150 Feet Westerly Therefrom, Borough of Brooklyn—Sewer (Cal. No. 70).**

The Secretary presented a resolution adopted March 26, 1917, by the Local Board of the Flatbush District, Borough of Brooklyn, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16753.

May 21, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on March 26, 1917, initiating proceedings for constructing a sewer in Avenue H, from Ocean Avenue to a point about 150 feet westerly therefrom.

This resolution affects a little less than one short block of Avenue H. The street is curbed and flagged, and has a paved roadway with a mall along the center. There is a building on the northerly side and the southerly frontage is fully improved. I am informally advised that it is the intention of the Borough authorities to give the sewer a position along the center of the street so that it will be necessary to enter upon the mall for the purpose of carrying out the construction. The outlet sewer is built.

The improvement is petitioned for by two property owners representing 50 per cent. of the frontage, which, in the interior lots, is assessed as having a value, excluding buildings, of \$110 per linear foot.

The work is estimated to cost about \$700, on which basis the assessment will amount to about \$3.50 per front foot. The assessed valuation of the property to be benefited is reported to be \$48,400.

This improvement is clearly urgently needed, and in a recent communication the Commissioner of Public Works has requested that a report upon the matter be placed on the calendar at as early a date as possible. There is, however, no available record to establish the City's title to the street, although in a communication accompanying the papers the Topographical Engineer states that "it is in use and has all improvements, so that its dedication to public use is undoubtedly complete," and also that "a statement of facts for the entire block from Ocean Avenue to East 19th Street is submitted herewith in case it is deemed necessary to ask the Corporation Counsel for an opinion as to its dedication to public use." The statement of facts referred to has not been forwarded to this office, and in view of the uncertainty that exists concerning the ownership of the mall, which is attractively planted with shrubbery and apparently is cared for by private interests, I am unable to determine what rights can be claimed by the City in other than the paved areas on each side.

In my judgment, and in accordance with the procedure usually observed, authorization of this improvement should be deferred until any question as to the dedication of the street has been removed. I would therefore recommend that the resolution be referred back to the Borough President to be withheld until the advice of the Corporation Counsel as to the evidences of dedication has been obtained.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

**64th Street, from 4th Avenue to 5th Avenue, Borough of Brooklyn—Paving (Cal. No. 71).**

The Secretary presented a resolution adopted July 6, 1916, by the Local Board of the Bay Ridge District, Borough of Brooklyn, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16745.

May 12, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on July 6, 1916, initiating proceedings for paving with asphalt (permanent pavement) 64th street, from 4th avenue to 5th avenue.

This resolution affects one block or about 700 feet of 64th street, title to which has been legally acquired.

The improvement is petitioned for by nineteen property owners, representing about 70 per cent. of the northerly frontage which comprises all of the abutting property that is available for private development, and is assessed as having a value, excluding buildings, of \$75 per linear foot.

The work is estimated to cost about \$6,100, on which basis the assessment will amount to about \$5 per front foot. The assessed valuation of the land to be benefited is reported to be \$115,000.

An inspection of the ground shows that the street is graded, curbed and flagged, and that the property abutting on the northerly side is almost fully improved. The entire southerly frontage comprises property of the Long Island Railroad. All of the subsurface structures have been provided. The street becomes discontinuous in the block between 5th avenue and 6th avenue, but in the adjoining section on the west it is paved, which condition also obtains in each of the intersecting streets.

From the conditions above outlined it would appear that, in conformity with the rules of the Board, preliminary authorization of this improvement might properly be now given, such action being recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

#### 7th Avenue, from 60th Street to the Sea Beach Railroad, Borough of Brooklyn—Paving (Cal. No. 72).

The Secretary presented a resolution adopted March 26, 1917, by the Local Board of the Bay Ridge District, Borough of Brooklyn, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16739.

May 12th, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on March 26th, 1917, initiating proceedings for paving with asphalt (permanent pavement), where not already paved, 7th Avenue from 60th Street to the Sea Beach Railroad.

This resolution affects a little more than two blocks, or about 600 feet, of 7th Avenue, title to which has been legally acquired.

The improvement is petitioned for by twelve property owners, representing about 75 per cent. of the frontage, which, in the interior lots, is assessed as having a value, excluding buildings, of \$100 per linear foot.

The work is estimated to cost about \$2,900, on which basis the assessment will amount to about \$4 per front foot. The assessed valuation of the land to be benefited is reported to be \$159,000.

An inspection of the ground shows that the street is graded, curbed and flagged, and that the roadway is paved with macadam for a width of about 24 feet, centrally located. Information is presented to show that this pavement was paid for by assessment against the benefited property and will be replaced from funds available in the Repaving Account when the improvement of the remaining portion of the roadway is undertaken. Nineteen houses have been erected upon the abutting property, and it appears that the erection of additional buildings is contemplated, these, together, involving the development of about 90 per cent. of the frontage. The Engineer of Sewers advises that it is probable that no sewer will be needed in the section south of 62nd Street, but, with this exception, all of the subsurface structures have been provided.

From the conditions above outlined, it would appear that, in conformity with the rules of the Board, preliminary authorization of this improvement might properly be now given, such action being recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Sir—Herewith is transmitted a resolution of the Local Board of the Chester District, Borough of The Bronx, adopted on May 1st, 1917, initiating proceedings for grading, curbing and flagging Purdy Street, from Westchester Avenue to Starling Avenue.

This resolution affects one block or about 700 feet of Purdy Street, title to which has been legally acquired.

The petition for this improvement bears twelve signatures, and in a recent communication the Borough President advises that a canvass made by his office indicates that it is desired by a number of other property owners, these together representing more than 60 per cent. of the entire frontage. In the interior lots this

property is assessed as having a value, excluding buildings, ranging from \$44 to \$48 per linear foot.

The work is estimated to cost about \$5,800, on which basis the assessment will amount to about \$4 per front foot. The assessed valuation of the property to be benefited is reported to be \$95,350.

An inspection of the ground shows that an approximately graded roadway is in use, without curbing or flagging, and that twelve buildings have been erected upon the abutting property, these, on the basis of the present lot subdivisions, involving the development of about 50 per cent. of the frontage.

From the conditions above outlined it would appear that, in conformity with the rules of the Board, preliminary authorization of this improvement might properly be now given, such action being recommended.

Report No. 16759. May 16, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Van Courtlandt District, Borough of The Bronx, adopted on April 17, 1917, initiating proceedings for paving with bituminous concrete (preliminary pavement) Morris avenue, from Teller Avenue to East 173d street, and adjusting the curbing where necessary.

This resolution affects two blocks or about 900 feet of Morris avenue, title to which has been legally acquired.

The petition for this improvement bears four signatures, and in a recent communication the Borough President has advised that it is desired by a number of other property owners, these together representing more than 50 per cent. of the frontage; that is in private ownership. In the interior lots this property is assessed as having a value, excluding buildings, of \$80 per linear foot.

The work is estimated to cost about \$13,100, on which basis the assessment will amount to about \$8 per front foot. The assessed valuation of the property to be benefited is reported to be \$188,300.

An inspection of the ground shows that the street is graded, curbed and flagged, and that sixteen houses have been erected upon the abutting property, these involving the development of about 70 per cent. of the frontage excepting that on the easterly side in the southerly block which comprises a portion of Clermont Park. By reason of its ownership of this latter property the City will be subject to an assessment of about \$4,000. All of the subsurface structures have been provided.

From the conditions above outlined it would appear that, in conformity with the rules of the Board, preliminary authorization of this improvement might properly be now given, such action being recommended.

#### **West 232d Street, from Broadway to Corlear Avenue, Borough of The Bronx—Regulating and Grading (Cal. No. 77).**

The Secretary presented a resolution adopted December 19, 1916, by the Local Board of the Van Courtlandt District, Borough of The Bronx, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16620.

April 6th, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Van Courtlandt District, Borough of The Bronx, adopted on December 19th, 1916, initiating proceedings for grading, curbing and flagging West 232nd Street from Broadway to Corlear Avenue.

This resolution affects two blocks or about 800 feet of West 232nd Street, title to which has been legally acquired.

In a recent communication the Borough President has requested that a report upon this matter be presented for the consideration of the Board at an early date, stating that the present condition of the street in the easterly block is such as to have occasioned complaints on the part of persons seeking access to Kingsbridge Avenue, and that although attempts have been made to provide a suitable access, the safety of public travel is by no means insured.

The improvement is requested by the Secretary of the Board of Education and by the authorities of a convent, the properties thus represented comprising respectively about 150 feet on the northerly side and the entire southerly frontage on the westerly block. The petition bears one additional signature, but the location and extent of the property represented is not specified.

The work is estimated to cost about \$25,100, on which basis the assessment will amount to about \$17 per front foot. The frontage is assessed as having a value, excluding buildings, ranging from \$40 to \$68 per linear foot, and the assessed valuation of all of the property deemed to be benefited is reported to be \$421,000.

An inspection of the ground shows that between Kingsbridge Avenue and Broadway the street is very roughly graded for a width of about 16 feet, the roadway at a point near Kingsbridge Avenue attaining an elevation of approximately eight feet above the established grade and descending abruptly to a junction with Kingsbridge Avenue, in which street a paved roadway is in use. In the westerly block the street is not in use for vehicular traffic, but a boardwalk has been laid for the convenience of pedestrians, this connecting into Kingsbridge Avenue by means of steps. A convent and school are located respectively at the southwesterly and northwesterly intersection with Kingsbridge Avenue, and the former property will probably be exempted from its proportional share of the expense, amounting to about \$6,000, while, by reason of its ownership of the school property, the City will probably be subject to an assessment of about \$3,000.

In the block between Kingsbridge Avenue and Broadway a surplus of excavation amounting to over 10,000 cubic yards will be available, and the Borough President has indicated his intention of advertising for alternate bids under one of which this excess material could be deposited within the lines of West 232nd Street west of Corlear Avenue where an improvement for grading the street to a part of its legal elevation is now in progress, and of here depositing this fill and assessing the cost thereof against the property benefited under the provisions of Section 955 of the Charter, if such a course is found to be advantageous to all of the interests concerned.

In my judgment this improvement can clearly be construed as of an urgent nature under the Board rules, inasmuch as the petitioners represent more than 50 per cent. of the frontage in the westerly block, and that in the easterly block a condition detrimental to the safety of public travel may be deemed to exist. I would accordingly recommend that authorization of the preliminary work be now given.

Respectfully, NELSON P. LEWIS, Chief Engineer.

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, in part, as follows:

"For regulating, grading, setting curb, laying sidewalks and crosswalks, building inlets, receiving basins, drains, culverts, approaches and guard rails where necessary in West 232nd street, from Broadway to Corlear Avenue, together with all work incidental thereto; and be it further

"Resolved, That the foregoing be and the same is hereby considered as one of two resolutions providing for the regulating, grading, setting curb, laying sidewalks and crosswalks, building inlets, receiving basins, drains, culverts, approaches and guard rails where necessary in West 232nd street, from Broadway to Riverdale Avenue; also constructing steps and appurtenances in West 232nd street, between Spuyten Duyvil Road and Riverdale Avenue, together with all work incidental thereto, in the Borough of The Bronx, City of New York."

—and which resolution is accompanied with an approximate estimate of the cost of the work and the assessed value of the property benefited.

Resolved, That the Board of Estimate and Apportionment hereby authorizes the President of the Borough of The Bronx to prepare plans, specifications and an estimate of cost based on actual survey; and also to secure a determination of the boundary of the district of assessment; the entire expense of the work done subsequent to the date of this authorization to be charged against the Street Improvement Fund and later included in the assessment.

Resolved, That the Board of Estimate and Apportionment will consider the authorization of the construction of the said proposed improvement after the President of the Borough of The Bronx has submitted a statement showing that all of the above described work has been done, that he has secured the approval of the form of contract by the Corporation Counsel, that he is prepared to place the improvement under contract as soon as he receives the consent of the Board, and that the assessment map will be completed on or before the date of payment on acceptance; this report to be accompanied by a further statement showing the quantity of work to be performed under each item and the unit price thereof, the expense incurred for preliminary work, the allowance to be made for additional engineering and contingencies, the total probable cost, and the number of working days to be allowed the contractor for carrying out the work.

The Secretary presented a resolution adopted February 28, 1913, by the Local Board of the Jamaica District, Borough of Queens, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16717.

April 30, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Jamaica District, Borough of Queens, adopted on February 28, 1913, initiating proceedings for constructing sewers in the following streets:

Matthew place (Depot road), from Forbes (158th) street to Dunsing (156th) street; Dunsing (156th) street, from Matthew place (Depot road) to Marston (41st) Avenue; Marston (41st) Avenue, from Dunsing (156th) street to Beekman (154th) street; Beekman (154th) street, from Marston (41st) Avenue to Jackson Avenue (Northern Boulevard); Jackson Avenue (Northern Boulevard), from Beekman (154th) street to Murray street; Aspinwall (153d) street, from Jackson Avenue (Northern Boulevard) to State street (35th Avenue).

This resolution affects lengths varying from one block or about 100 feet of Dunsing street to two blocks or about 600 feet of Marston Avenue, with an aggregate length of a little more than one-half mile. Title to Jackson Avenue has been legally acquired, and the Corporation Counsel has advised that Beekman street and Aspinwall street are dedicated to public use. A proceeding for acquiring title to Marston Avenue, from Murray street to Dunsing street; to Dunsing street, from Marston Avenue to Matthew place, and to Matthew place, from Dunsing street to Hoogland street, was instituted under the provisions of a resolution adopted by the Board of Estimate and Apportionment on October 23, 1913, and to make it conform with the requirements of the new Street Opening Law was reinstituted on October 22, 1915. The oaths of

the Commissioners of Estimate and Assessment were filed on March 15, 1916, and title to the land can be vested in the City at any time.

The improvement is petitioned for by nine property owners, representing a little more than 20 per cent. of the frontage and a small proportion of the property in the remaining tributary area. In the former case the frontage is assessed as having a value, excluding buildings, ranging from \$20 to \$80, and in the latter, from \$20 to \$100 per linear foot.

The work is estimated to cost about \$28,000, on which basis the assessment, excluding the charge to be made for house connecting drains, will amount to about \$3 and to about \$1.25 per front foot in the areas, respectively, directly and indirectly affected. The assessed valuation of the land to be benefited is reported to be \$370,166.

An inspection of the ground shows that, with the exception of Matthew place and Dunsing street, where the sewer is needed as the continuing outlet, the streets are in use, and that a number of buildings have been erected upon the abutting property. In the area indirectly affected there are approximately eighty houses, and certain tributary sewers are said to have been constructed which are being temporarily outletted into the Amity street sewer, which is surcharged and should be relieved. In order to permit of the proper sanitation of this area, the Board on May 26, 1916, authorized the construction of the downstream section of the main trunk sewer, and the work has now been placed under contract and has advanced to such a point that it is believed it can be made available about the time the tributaries now under consideration are completed, so that the cost of the entire project can be made the subject of a single assessment.

Although this improvement would be a desirable one to carry out, I am unable to recommend its favorable consideration for the reason that from the financial statement it appears that the allotment of funds for preliminary authorizations in this borough has been exceeded by a substantial amount. At the request of the Acting Borough President, however, the matter is placed upon the Calendar for such action as may be deemed proper.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

#### North Wickes (127th) Street and North Villa (126th) Street, from Fulton Place (91st Avenue) to Ridgewood (89th) Avenue, Borough of Queens—Sewers (Cal. No. 79).

The Secretary presented a resolution adopted September 25, 1914, by the Local Board of the Jamaica District, Borough of Queens, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16747.

May 12th, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Jamaica District, Borough of Queens, adopted on September 25th, 1914, initiating proceedings for constructing sewers in the following streets:

North Wickes (127th) Street, from Fulton Place (91st Avenue) to Ridgewood (89th) Avenue; North Villa (126th) Street, from Fulton Place (91st Avenue) to Ridgewood (89th) Avenue.

This resolution affects one block or about 500 feet of each of these streets, which the Corporation Counsel has advised are dedicated to public use.

The improvement is petitioned for by six property owners, representing about 12½ per cent. of the frontage, which, in the interior lots, is assessed as having a value, excluding buildings, of \$20 per linear foot.

The work is estimated to cost about \$2,300, on which basis the assessment, excluding house connections, will amount to about \$2.50 per front foot. The assessed valuation of the land to be benefited is reported to be \$32,800.

An inspection of the ground shows that the streets are in use and that they serve as frontage for twenty-three houses, these involving the development of more than 50 per cent. of the abutting property. The outlet sewer in Fulton Place was given preliminary authorization on April 27th, 1917.

Although this improvement clearly falls within the rules of the Board defining urgency I am unable to recommend its favorable consideration, for the reason that from the financial statement it appears that the allotment of funds for preliminary authorizations in this borough has been exceeded by a substantial amount. At the request of the Acting Borough President, however, the matter is placed on the calendar for such action as may be deemed proper. If preliminary authorization is given it should be with the understanding that the authorization of the construction will be deferred until the outlet sewer is provided for.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

#### Beaver Ditch, Extending from Beaver Street to South Street, Borough of Queens—Temporary Box Drain and Approval of Drainage Plan (Cal. No. 80).

The Secretary presented a communication dated April 9, 1917, from the Secretary to the President of the Borough of Queens transmitting for approval a tentative map for what is designated as Beaver Ditch Drain, together with the area tributary thereto; also a resolution adopted December 22, 1915, by the Local Board of the Jamaica District, Borough of Queens, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16746.

May 14, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith are transmitted a communication from the Secretary to the President of the Borough of Queens, bearing date of April 9, 1917, presenting for approval a tentative map for what is designated as the Beaver Ditch Drain, together with the area tributary thereto, and a resolution adopted by the Local Board of the Jamaica District on December 22, 1915, initiating proceedings for the construction of the drain which is described as intended to provide for the flow of Beaver Creek, and to extend along the line of the present Beaver Ditch from Beaver Street to South Street.

From a copy of an opinion rendered by the Corporation Counsel submitted with the Local Board resolution, it appears that Beaver Creek, draining an area of about 900 acres within the limits of the former village of Jamaica, originally traversed a route approximately coinciding with what is now known as Water Street, and that in order to protect from pollution an ice pond located just above its intersection with Catherine Street, permission was given for the construction of the Beaver Ditch along its present route, in connection with which the right of the public to use the land for drainage purposes was established. The Board is informed that the ditch is now used as a general dumping ground for refuse of all kinds, with the result of creating an unsanitary condition, which the Board of Health has declared constitutes a public nuisance. It is now proposed to construct within the lines of the ditch a temporary covered concrete drain with maximum dimensions of 5 feet 6 inches by 3 feet, at a cost which was originally estimated at \$19,700, but which under the plan now presented, owing to changes in size and in the method of construction, would amount to considerably more than that figure, in the evident belief that the objectionable conditions will then cease to exist.

On inquiry at the office of the Health Commissioner, I find that as a result of an inspection made by representatives of that Department on May 2, 1913, the entire ditch from Beaver Street to Baisley's Pond was, on May 20th, of that year, declared to be a public nuisance, and notice to this effect was served on the Borough President the day following. To abate this condition it appears that the ditch was cleaned out, graded and otherwise improved, and the bringing about of the restoration of satisfactory conditions was certified to in a report from one of the Department Inspectors dated November 18, 1914, as a result of a recommendation in which the order relative to the abatement of the nuisance was rescinded. Subsequent inspections have also failed to show that the Department has any objection to present against the conditions which were brought about through the work done and which has since been maintained.

From an inspection made by this office, it would appear that the carrying out of the Local Board resolution would not insure any material improvement in the present conditions which, in so far as drainage is concerned, seem to have been amply taken care of as a temporary expedient. It would appear, however, that an area of about two acres within the site of the old Remsen's Pond has an elevation too low to outlet into the ditch, and that this area serves to collect water from an adjoining territory which becomes stagnant, thereby menacing the health of the community. This condition, it would appear, might best be met by requiring the owners of the land to grade their holdings to such an elevation as to insure drainage into the existing ditch. A report has recently been presented from this office relative to the general problem of meeting the drainage needs for the Jamaica section of the Borough, a plan for which has already been prepared by the Borough President. It is clear that the temporary expedient now proposed cannot be merged into the general storm water sewers for the territory, and that the expenditure, if made now, would be lost when the permanent plan is carried out.

Under these conditions, and notwithstanding that it will probably be necessary to maintain a continuous inspection of the ditch and to expend money for its maintenance until suitable sewers can be provided, the adoption of the latter course would seem to be the wiser one. I am also of the opinion that the use of the areas adjoining the ditch as a general dumping ground for waste material, would be materially altered by carrying out the improvement now suggested.

I would, therefore, recommend that the drainage plan and the Local Board resolution be referred back to the Borough President without approval, and with the suggestion that the use of the present ditch be continued until storm water sewers can be installed; that the owners of adjoining lands be required to do such filling in as may be needed in order to insure drainage; and that suitable steps be taken by the Borough President to prevent the use of the ditch and of the adjoining lands as a general dumping ground.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The President of the Borough of Queens offered the following:

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves the plan entitled "Plan of a Temporary Drain in the line of Beaver Ditch, from Beaver Street to South Street, Fourth Ward, Borough of Queens, for the purpose of abating a nuisance and to prevent damage to property," dated September 26, 1916, together with plan accompanying said plan entitled "Tentative Plan for the Beaver Ditch Drain Drainage Area, showing territory which it is deemed will be benefited by the Drain and which may properly be assessed for the cost of its construction, Fourth Ward, Borough of Queens," and dated September 2, 1916.

Which was adopted by the following vote:

The President of the Borough of Queens offered the following:

Whereas, The President of the Borough of Queens has transmitted to the Board of Estimate and Apportionment a copy of a resolution of the Local Board of the Jamaica District, duly adopted by said Board on the 22nd day of December, 1915, and approved by the President of the Borough of Queens on the 14th day of August, 1916, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To construct a temporary wood and concrete drain to provide for the flow in Beaver Creek, from Beaver Street to the culvert under the Long Island Railroad, about 730 feet south of Beaver Street; thence westerly a distance of about 240 feet; thence southerly for a distance of about 370 feet; thence westerly in Catherine Street for a distance of about 350 feet; thence southerly through Water Street for a distance of about 700 feet to South Street; including the reconstruction of the inverted siphon in South Street, Fourth Ward of the Borough of Queens";

—and which resolution is accompanied with an approximate estimate of the cost of the work and the assessed value of the property benefited.

Resolved, That the Board of Estimate and Apportionment hereby authorizes the President of the Borough of Queens to prepare plans, specifications and an estimate of cost, based on actual survey, and also to secure a determination of the boundary of the district of assessment; the entire expense of the work done subsequent to the date of this authorization to be charged against the Street Improvement Fund and later included in the assessment.

**Bodine Street, from Vernon Avenue to Sherman Street, Borough of Queens—Regulating and Grading (Cal. No. 81).**

Report No. 16723.

May 3rd, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on September 23rd, 1915, initiating proceedings for grading, curbing and flagging where necessary Bodine Street, from Vernon Avenue to Sherman Street.

This resolution affects four blocks or about 1,000 feet, comprising the entire length of Bodine Street, which the Corporation Counsel advises is dedicated to public use.

The improvement is petitioned for by eight property owners, representing about 22 per cent. of the frontage, which, in the interior lots, is assessed as having a value excluding buildings, ranging from \$48 to \$52 per linear foot.

The work is estimated to cost about \$6,000, on which basis the assessment will amount to about \$4 per front foot. The assessed valuation of the property to be benefited is reported to be \$54,000.

An inspection of the ground shows that the street is roughly graded, with an elevation approximately three feet below the established grade, and that the curbing and flagging are lacking. A number of buildings have been erected upon the abutting property, these including several factories, and involving the development of a little more than 50 per cent. of the frontage.

Although this improvement clearly falls within the rules of the Board defining urgency I am unable to recommend its favorable consideration, for the reason that from the financial statement it appears that the allotment of funds for preliminary authorizations in this borough has been exceeded by a substantial amount. At the request of the Acting Borough President, however, the matter is placed upon the calendar for such action as may be deemed proper.

**Hamilton Street, from Bodine Street to Harris Avenue, Borough of Queens—Grading (Cal. No. 82).**

The Secretary presented a resolution adopted October 14, 1915, by the Local Board of the Newtown District, Borough of Queens, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16724.

May 3rd, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on October 14th, 1915, initiating proceedings for grading Hamilton Street from Bodine Street to Harris Avenue.

This resolution affects one block or about 200 feet of Hamilton Street, title to which has been legally acquired.

An ungraded dirt roadway is in use, without curbing or flagging, and a house, together with a number of sheds, have been erected upon the abutting property. The work is petitioned for by two property owners, but it does not appear that their holdings will be subject to any assessment. The improvement is particularly desired in order to avoid the creation of a water pocket at the Bodine Street intersection when the latter street is brought to grade.

The work is estimated to cost about \$800, on which basis the assessment will amount to about \$2 per front foot. The frontage is assessed as having a value excluding buildings, of \$48 per linear foot, and the assessed valuation of all of the property within the benefited area is reported to be \$22,000.

A report concerning the related grading improvement in Bodine Street is now before the Board for consideration, and in case favorable action is accorded, it would seem essential to also approve the resolution now presented.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The Secretary presented a resolution adopted April 12, 1917, by the Local Board of the Newtown District, Borough of Queens, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16765.

May 17, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on April 12, 1917, initiating proceedings for grading and flagging Medina Place, from Parcell Street to Corona Avenue.

This resolution affects one block or a little more than 200 feet of Medina Place. A proceeding for acquiring title to the street from Gerry Avenue to Corona Avenue, together with a number of other streets, was instituted under the provisions of a resolution adopted by the Board of Estimate and Apportionment on May 4, 1911, and amended on October 20, 1916. The oaths of the Commissioners of Estimate and Assessment were filed on February 18, 1913, and inasmuch as the court order ratifying the amendment was entered on February 15, 1917, title to the land can be vested in the City at any time.

The improvement is petitioned for by the owner of about 85 per cent. of the frontage, which is assessed as having a value, excluding buildings, of \$36 per linear foot.

The work is estimated to cost about \$1,300, on which basis the assessment will amount to about \$3 per front foot. The assessed valuation of the property to be benefited is reported to be \$17,000.

An inspection of the ground shows that the street is not in use and that a number of buildings fall within its lines. The street leads almost directly into Hampton Street, which is carried over the Flushing and North Side Division of the Long Island Railroad, and the improvement is more particularly desired in order to open up a direct connection between the well developed territories located on each side of the railroad tracks.

Although this improvement clearly falls within the rules of the Board defining urgency, I am unable to recommend its favorable consideration for the reason that from the financial statement it appears that the allotment of funds for preliminary authorizations in this Borough has been exceeded by a substantial amount. At the request of the Acting Borough President, however, the matter is placed upon the calendar for such action as may be deemed proper.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following was offered:

Whereas, The President of the Borough of Queens has transmitted to the Board of Estimate and Apportionment a copy of a resolution of the Local Board of the Newtown District, duly adopted by said Board on the 12th day April, 1917, and approved by the President of the Borough of Queens on the 18th day of April, 1917, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"For regulating, grading and laying sidewalks where necessary, together with all work incidental thereto, in Medina Place from Parcell street to Corona Avenue, Second Ward of the Borough of Queens;"

—and which resolution is accompanied with an approximate estimate of the cost of the work and the assessed value of the property benefited.

Resolved, That the Board of Estimate and Apportionment hereby authorizes the President of the Borough of Queens to prepare plans, specifications and an estimate of cost based on actual survey, and also to secure a determination of the boundary of the district of assessment; the entire expense of the work done subsequent to the date of this authorization to be charged against the Street Improvement Fund and later included in the assessment.

Resolved, That the Board of Estimate and Apportionment will consider the authorization of the construction of the said proposed improvement after the President of the Borough of Queens has submitted a statement showing that all of the above described work has been done, that he has secured the approval of the form of contract by the Corporation Counsel, that he is prepared to place the improvement under contract as soon as he receives the consent of the Board, and that the assessment map will be completed on or before the date of payment on acceptance; this report to be accompanied by a further statement showing the quantity of work to be performed under each item and the unit price thereof, the expense incurred for preliminary work, the allowance to be made for additional engineering and contingencies, the total probable cost, and the number of working days to be allowed the contractor for carrying out the work.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

**Madison Street, from Fremont Street to a Line About 10 Feet East of Doubleday Street, Borough of Queens—Paving (Cal. No. 84).**

The Secretary presented a resolution adopted October 19, 1916, by the Local Board of the Newtown District, Borough of Queens, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16751.

May 12, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on October 19th, 1916, initiating proceedings for paving with asphalt (permanent pavement) Madison Street, from Fremont Street to a line about 10 feet east of Doubleday Street.

This resolution affects a little less than one block, or about 600 feet at the easterly end of Madison Street. From Doubleday Street to a point about 260 feet easterly therefrom, title to the land has been ceded to the City by the property owners, and from information at hand it appears that in the opinion of the Corporation Counsel the street, through the remaining portion of the distance affected, may be deemed to be dedicated to public use.

The improvement is petitioned for by sixteen property owners, representing a little more than 50 per cent. of the frontage, which, in the interior lots, is assessed as having a value, excluding buildings, ranging from \$40 to \$55 per linear foot.

The work is estimated to cost about \$4,100, on which basis the assessment will

amount to about \$4.50 per front foot. The assessed valuation of the property to be benefited is reported to be \$57,500.

An inspection of the ground shows that the street is graded, curbed and flagged, and that thirty-two buildings have been erected upon the abutting property, these including the development of about 70 per cent. of the frontage. All of the sub-surface structures have been provided.

Although this improvement clearly falls within the rules of the Board defining urgency, I am unable to recommend its favorable consideration for the reason that from the financial statement it appears that the allotment of funds for preliminary authorizations in this Borough has been exceeded by a substantial amount. At the request of the Acting Borough President, however, the matter is placed upon the calendar for such action as may be deemed proper.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

#### 80th Street (Shaw Avenue), from Jamaica Avenue to 88th Street (Syosset Street), Borough of Queens—Paving (Cal. No. 85).

The Secretary presented a joint resolution adopted March 22, 1917, by the Local Boards of the Newtown and Jamaica Districts, Borough of Queens, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16718.

May 2nd, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a joint resolution of the Local Boards of the Newtown and Jamaica Districts, adopted on March 22nd, 1917, initiating proceedings for paving with bituminous macadam (preliminary pavement) 80th Street (Shaw Avenue), from Jamaica Avenue to 88th Avenue (Syosset Street).

This resolution affects three blocks, or about 700 feet, of 80th Street, title to which has been acquired by deed of cession.

The improvement is petitioned for by eleven property owners, representing about 20 per cent. of the frontage, which, in the interior lots, is assessed as having a value, excluding buildings, of \$50 per linear foot.

The work is estimated to cost about \$3,700, on which basis the assessment will amount to about \$3 per front foot. The assessed valuation of the property to be benefited is reported to be \$62,000.

An inspection of the ground shows that the street is graded, curbed and flagged, and that the abutting property is almost fully improved with buildings of a substantial character, these including a church, which will probably be exempted from its proportional share of the cost, amounting to about \$300. The water main and gas main have been completed, and, although the sewer is built, in the absence of the continuing storm water outlet, it has been necessary to exclude surface drainage, so that receiving basins are lacking at each of the intersecting streets. The type of the surfacing now proposed does not, however, involve the construction of a concrete foundation, and, under these conditions, it would not appear that the cost of later completing the drainage system will be materially increased if the pavement is laid at this time.

Although this improvement clearly falls within the rules of the Board defining urgency, I am unable to recommend its favorable consideration for the reason that from the financial statement it appears that the allotment of funds for preliminary authorizations in this borough has been exceeded by a substantial amount. At the request of the Acting Borough President, however, the matter is placed upon the calendar for such action as may be deemed proper.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The Secretary presented a report of the Chief Engineer, stating that a communication has been received from the President of the Borough of Manhattan showing that the preliminary work has been authorized and has been performed, and that all of the conditions imposed by the Board have been complied with in connection with this improvement, and recommending the construction thereof and the vesting of title therein.

The matter was laid over two weeks (June 8, 1917).

Borough of Brooklyn.

The Secretary presented the following report of the Chief Engineer relative to Calendar Nos. 87 to 90, inclusive:

Report No. 16768.

May 21, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith are transmitted communications from the President of the Borough of Brooklyn, advising that all of the conditions imposed by the Board prior to the authorization of the following local improvements have been complied with:

1. Paving with asphalt (permanent pavement) and curbing Avenue I, from Ocean Avenue to East 22nd Street (Elmore Place).

The preliminary work for this improvement was authorized by the Board of Estimate and Apportionment on April 27, 1917, at which time information was presented to show that its probable cost would be about \$5,600. The Borough President states that the time to be allowed for the completion of the improvement is 30 days and that the expense incurred for the preliminary work amounts to \$50.39.

The work to be done comprises the following: 2,485 sq. yds. asphalt pavement, 990 lin. ft. cement curbing. The cost of the improvement is now estimated to be \$6,900.

2. Sewers in the following streets: Kenmore Place, from a point about 240 ft. north of Avenue J to Avenue K; Elmore Place, from a point about 240 ft. north of Avenue J to Avenue K; Delamere Place, from Avenue J to Avenue K; Mansfield Place, from Avenue J to Avenue K.

The preliminary work for this improvement was authorized by the Board of Estimate and Apportionment on April 13, 1917, at which time information was presented to show that its probable cost would be about \$11,000. The Borough President states that the time to be allowed for the completion of the improvement is 90 days and that the expense incurred for the preliminary work amounts to \$107.81.

The work to be done comprises the following: 160 lin. ft. of 15-inch pipe sewer, 3,670 lin. ft. 12-inch pipe sewer, 32 manholes. The cost of the improvement is now estimated to be \$12,500.

3. Grading, curbing, flagging and paving with asphalt (permanent pavement) East 40th Street, from Avenue I to the unnamed street located about 665 ft. north-easterly therefrom.

The preliminary work for this improvement was authorized by the Board of Estimate and Apportionment on April 27, 1917, at which time information was presented to show that its probable cost would be about \$8,600. The Borough President states that the time to be allowed for the completion of the improvement is 40 days and that the expense incurred for the preliminary work amounts to \$85.05.

The work to be done comprises the following: 330 cu. yds. excavation, 590 cu. yds. filling, 1,410 lin. ft. cement curbing, 6,400 sq. ft. cement sidewalk, 2,560 sq. yds. asphalt pavement. The cost of the improvement is now estimated to be \$8,800.

4. Grading, curbing, flagging where necessary and paving with asphalt (permanent pavement) 20th Avenue, from 79th Street to 80th Street.

The preliminary work for this improvement was authorized by the Board of Estimate and Apportionment on April 27, 1917, at which time information was presented to show that its probable cost would be about \$3,200. The Borough President states that the time to be allowed for the completion of the improvement is 30 days and that the expense incurred for the preliminary work amounts to \$34.92.

The work to be done comprises the following: 300 cu. yds. excavation, 520 lin. ft. cement curbing, 1,120 sq. ft. cement sidewalk, 1,325 sq. yds. asphalt pavement. The cost of the improvement is now estimated to be \$4,100.

The urgency of these improvements was established at the time when the preliminary authorizations were given and it is recommended that the construction work be now authorized.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

#### **Borough of Queens.**

The Secretary presented the following report of the Chief Engineer relative to Calendar Nos. 91 to 98, inclusive:

Report No. 16769.

May 21, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith are transmitted communications from the President of the Borough of Queens, advising that all of the conditions imposed by the Board prior to the authorization of the following local improvements have been complied with.

1. Grading, curbing and flagging where necessary, McPherson Street from Cornelia Street (Chaffee Place) to Catalpa (Elm) Avenue.

The preliminary work for this improvement was authorized by the Board of Estimate and Apportionment on November 24, 1916, at which time information was presented to show that its probable cost would be about \$3,500. The Borough President states that the time to be allowed for the completion of the improvement is 30 days, and that the expense incurred for the preliminary work amounts to \$106.36.

The work to be done comprises the following: 1,550 cu. yds. excavation, 1,390 lin. ft. cement curbing, 3,500 sq. ft. cement sidewalk. The cost of the improvement is now estimated to be \$3,100.

2. Grading, curbing and flagging 12th Avenue from Wilson Avenue to Vandeventer Avenue.

The preliminary work for this improvement was authorized by the Board of Estimate and Apportionment on October 27, 1916, at which time information was presented to show that its probable cost would be about \$4,700. The Borough President states that the time to be allowed for the completion of the improvement is 40 days, and that the expense incurred for the preliminary work amounts to \$146.43.

The work to be done comprises the following: 3,020 cu. yds. excavation, 2,000 lin. ft. cement curbing, 11,700 sq. ft. cement sidewalk. The cost of the improvement is now estimated to be \$6,400.

3. Grading, curbing and flagging Fairview Avenue from Stanhope Street to Greene Avenue.

The preliminary work for this improvement was authorized by the Board of Estimate and Apportionment on September 29, 1916, at which time information was presented to show that its probable cost would be about \$2,500. The Borough President states that the time to be allowed for the completion of the improvement is 40 days, and that the expense incurred for the preliminary work amounts to \$138.86.

The work to be done comprises the following: 450 cu. yds. excavation, 1,250 lin. ft. bluestone curbing, 30 lin. ft. cement curbing, 7,200 sq. ft. cement sidewalk. The cost of the improvement is now estimated to be \$3,800.

4. Curbing and paving with asphalt (permanent pavement) Van Cortlandt Avenue from Myrtle Avenue to Anthon Avenue.

The preliminary work for this improvement was authorized by the Board of Estimate and Apportionment on November 10, 1916, at which time information was presented to show that its probable cost would be about \$2,300. The Borough President states that the time to be allowed for the completion of the improvement is 30 days, and that the expense incurred for the preliminary work amounts to \$124.22.

The work to be done comprises the following: 300 lin. ft. cement curbing, 1,100 sq. yds. asphalt pavement. The cost of the improvement is now estimated to be \$5,200.

5. Recurbing Wyckoff Avenue, from Halsey Street to a line about 158 feet southeast of Cody Street, curbing from the latter point to Cooper Avenue, and paving with asphalt (permanent pavement), from Halsey Street to Cooper Avenue.

The preliminary work for this improvement was authorized by the Board of Estimate and Apportionment on September 29, 1916, at which time information was presented to show that its probable cost would be about \$13,200. The Borough President states that the time to be allowed for the completion of the improvement is 50 days, and that the expense incurred for the preliminary work amounts to \$501.23.

The work to be done comprises the following: 320 cubic yards excavation, 320 cubic yards filling (excess), 800 linear feet cement curbing, 1,500 linear feet cement curbing reset, 6,100 square yards asphalt pavement. The cost of the improvement is now estimated to be \$16,800.

6. Sewers in the following streets: Kimball (103d) Avenue, from South Curtis Avenue (124th Street) to South Cochran Avenue (125th Street); South Cochran Avenue (125th Street), from Liberty Avenue to the crown about 350 feet north of Kimball (103d) Avenue.

The preliminary work for this improvement was authorized by the Board of Estimate and Apportionment on March 16, 1917, at which time information was presented to show that its probable cost would be about \$4,800. The Borough President states that the time to be allowed for the completion of the improvement is 50 days, and that the expense incurred for the preliminary work amounts to \$63.27.

The work to be done comprises the following: 270 linear feet 2-foot 6-inch concrete sewer, 892 linear feet 12-inch pipe sewer, 8 manholes. The cost of the improvement is now estimated to be \$6,100.

7. Grading, curbing and flagging Purves Street from Jackson Avenue to Thomson Avenue.

The preliminary work for this improvement was authorized by the Board of Estimate and Apportionment on September 15, 1916, at which time information was presented to show that its probable cost would be about \$2,100. The Borough President states that the time to be allowed for the completion of the improvement is 35 days, and that the expense incurred for the preliminary work amounts to \$135.60.

The work to be done comprises the following: 1,300 cubic yards excavation, 1,000 linear feet cement curbing, 550 square feet new and old flagging, 4,500 square feet cement sidewalk. The cost of the improvement is now estimated to be \$3,200.

8. Grading to a width of 60 feet, centrally located, and curbing and flagging Kingsland Avenue, from Luydig (Irving) Place to 51st Street (Central Avenue).

The preliminary work for this improvement was authorized by the Board of Estimate and Apportionment on March 30, 1917, at which time information was presented to show that its probable cost would be about \$13,000. The Borough President states that the time to be allowed for the completion of the improvement is 60 days, and that the expense incurred for the preliminary work amounts to \$253.53.

The work to be done comprises the following: 4,500 cubic yards earth excavation, 50 linear feet bluestone curbing, reset, 50 linear feet granite curbing, reset, 4,900 linear feet new cement curbing, 27,100 square feet cement sidewalk. The cost of the improvement is now estimated to be \$17,300.

The urgency of these improvements was established at the time when the preliminary authorizations were given and it is recommended that the construction work be now authorized. Respectfully,

NELSON P. LEWIS, Chief Engineer.

#### Borough of Richmond.

#### Northcote Avenue, from Richmond Road to a Point About 240 Feet Westerly Therefrom, Richmond—Temporary Sanitary Sewer (Cal. No. 99).

The Secretary presented the following report of the Chief Engineer:  
Report No. 16770. May 21, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the President of the Borough of Richmond, advising that all of the conditions imposed by the Board prior to the authorization of the following local improvement have been complied with:

Temporary sanitary sewer in Northcote Avenue from Richmond Road to a point about 240 ft. westerly therefrom.

The preliminary work for this improvement was authorized by the Board of Estimate and Apportionment on April 13, 1917, at which time information was presented to show that its probable cost would be about \$600. The Borough President states that the time to be allowed for the completion of the improvement is 8 days and that the expense incurred for the preliminary work amounts to \$13.75.

The work to be done comprises the following: 255 lin. ft. 8-inch pipe sewer, 1 manhole. The cost of the improvement is now estimated to be \$700.

The urgency of this improvement was established at the time when the preliminary authorization was given and it is recommended that the construction work be now authorized. Respectfully,  
NELSON P. LEWIS, Chief Engineer.

The following was offered:

A copy of a resolution of the Local Board of the Staten Island District, duly adopted by said Board on the 12th day of December, 1916, and approved by the President of the Borough of Richmond on the 14th day of December, 1916, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To construct a temporary sanitary sewer with the necessary appurtenances in Northcote Avenue, from Richmond Road to a point about 240 feet westerly therefrom, in the Second Ward, Borough of Richmond, The City of New York."

—and thereupon, on the 13th day of April, 1917, resolution having been adopted by the Board of Estimate and Apportionment authorizing the President of the Borough of Richmond to prepare the necessary plans, specifications and an estimate of the cost of the proposed improvement based on actual survey and further resolving that the Board of Estimate and Apportionment will consider the authorization of the construction of the proposed improvement after the President of the Borough of Richmond had submitted certain statements as provided in the said resolution, and the said resolution having been duly complied with by the President of the Borough of Richmond, as appears by papers and documents on the files of the Board of Estimate and Apportionment, and there having been presented to the Board of Estimate and Apportionment an estimate in writing in such detail as the Board has directed that the cost of the proposed work or improvement, together with the preliminary expenses, will be the sum of \$700 and a statement of the assessed value according to the last preceding tax roll of the real estate included within the probable area of assessment, to wit, the sum of \$2,500, having also been presented, it is

Resolved, That the said resolution of the Local Board be and the same is hereby approved and the construction of the Local Improvement therein provided for is hereby authorized. This Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the aforesaid preliminary expenses, shall be assessed upon the property deemed to be benefited by the said Local Improvement.

No. 105).

(Title vested to Avenue O, between the limits above mentioned, on July 1, 1913, in pursuance of resolution adopted by the Board May 5, 1913 (Cal. No. 106).

The Secretary presented the following:

Brooklyn, May 21, 1917.

#### Board of Estimate and Apportionment:

Gentlemen—As attorney for Daniel Whalen and Julia Whalen, owners of premises formerly known as Lots Nos. 1 and 25, Block 6772, Section 20, and Lot No. 95, Block 7678, Section 23, in the Borough of Brooklyn, City of New York, and being situate at the easterly side of Old Ocean Avenue and the northerly side of Kings Highway, I hereby make application to your Board, pursuant to Chapter 606 of the Laws of 1915, for advanced payment of part of the prospective award in the street opening proceeding now pending and affecting said property.

The above mentioned property is included in an omnibus proceeding for the opening of East 25th Street, from Avenue M to Kings Highway, and for the opening of Avenue O, from the westerly line of the former village of South Greenfield at the intersection of East 23d Street to East 26th Street, the portion of land being acquired in such proceeding being designated as Damage Parcels Nos. 320, 321, 322, 323, 324, 325, 326, 328 and 329 in East 25th Street and Damage Parcels Nos. 628, 631, 632 and 633 in Avenue O. Title became vested in The City of New York to Avenue O, from the westerly line of the former village of South Greenfield at the intersection of East 23d Street to East 25th Street, on July 1, 1913. Damage Parcels Nos. 321, 322 and 325 in East 25th Street and Damage Parcels Nos. 628, 631, 632 and 633 in Avenue O are located in the bed of Avenue O. While the resolution vesting the title did not mention East 25th Street, the City actually took possession under the vesting resolution of the property in the bed of East 25th Street where same crosses Avenue O.

In this proceeding I make application for an advanced payment of \$2,500. While the Charter provision authorizes an application for 60 per cent. of the prospective award, we are asking in this application less than 50 per cent. of the amount testified to by the City's witness. In the trial of this proceeding, the City offered proof of the value of all of these damage parcels and the value placed upon said damage parcels, according to such testimony, was \$5,610. The Commissioners have made a preliminary award of \$7,012.50 damages for the taking of Damage Parcels Nos. 320, 321, 322, 323, 324, 325, 326, 328 and 329 in East 25th Street and Damage Parcels Nos. 628, 631, 632 and 633 in Avenue O.

The owners of the property affected by this proceeding are very much in need of money to pay interest on the mortgage and taxes, which the mortgagee insists must be paid, and, as this proceeding has been pending since 1912, it has been impossible for the owners to realize any money on same to pay the necessary carrying charges. The present status of this matter has caused great hardship to these parties and if any relief can be granted it is very much deserved. Respectfully yours,  
JAS. F. QUIGLEY, Attorney for Daniel Whalen and Julia Whalen.

Whereas, Section 981 of Title 4 of Chapter XVII of the Greater New York Charter, as amended by Chapter 606 of the Laws of 1915, provides that

"in any proceeding instituted pursuant to the provisions of this title for the acquisition of title to real property by The City of New York, in which title thereto shall have become vested in said City by virtue of a resolution of the Board of Estimate and Apportionment, the said Board may authorize the Comptroller of said City to pay to a person entitled to an award for real property acquired in a proceeding, in advance of the final determination of his damages, a sum to be determined by the Board of Estimate and Apportionment, not exceeding sixty per centum of the amount estimated as damages by the expert or experts employed by the Corporation Counsel in said proceedings, which amount shall be certified to the Comptroller by the Corporation Counsel;"

—and

Whereas, The Board of Estimate and Apportionment, acting under and pursuant to the provisions of Title 4 of Chapter XVII of the Greater New York Charter, and under resolutions adopted on January 15, 1909, and April 18, 1912, authorized a proceeding for acquiring title to the real property required for the opening and extending of East 21st Street from Avenue M to a point about 70 feet south of Avenue O; East 22d Street from Avenue M to Kings Highway; East 23d Street from Avenue M to Kings Highway; East 24th Street from a point 640 feet south of Avenue L to Kings Highway; East 25th Street from Avenue M to Kings Highway; Avenue O from the westerly line of the former village of South Greenfield at the intersection of East 23d Street to East 26th Street; and Avenue N from Gravesend Avenue to Flatlands Avenue, Borough of Brooklyn; and directed the Corporation Counsel to apply to the Supreme Court for the appointment of Commissioners to ascertain and determine the compensation to be made by said City to the owners and persons interested in the real property required therefor; and

Whereas, The Corporation Counsel made application to the Supreme Court for the appointment of three Commissioners of Estimate, and such Commissioners were duly appointed by an order of said Court entered in the office of the Clerk of the County of Kings, and said Commissioners, so appointed, duly qualified and filed their oaths as such Commissioners in the office of the Clerk of said County of Kings on February 3, 1913; and

Whereas, Pursuant to resolutions adopted by the Board, title became vested in The City of New York to Avenue O, East 21st Street and East 22nd Street on July 1st, August 1st and September 2, 1913, respectively, and to several sections of the remaining streets on various dates between June 2, 1913, and September 1st, 1914.

Resolved, That the Comptroller be and he hereby is authorized to pay to any person entitled to an award for property acquired by the City of New York under the said resolutions vesting title in the City to said real property required in the proceeding authorized by the Board under resolutions of January 15, 1909, and April 18, 1912, to acquire title to the real property required for said improvement, in advance of the final determination of his damages, a sum not to exceed sixty per centum of the amount of any such person's damages, as estimated by the expert or experts employed by the Corporation Counsel in said proceeding; such payment to be made in accordance with the provisions of section 981 of the Charter and in compliance with the terms of the resolutions of this Board adopted on the 14th day of January, 1916, with respect to such advance payments.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

#### From City, Borough and County Officials.

#### Board of Estimate and Apportionment; Committee on Tax Budget—Expenditure from Contingent Fund (Cal. No. 106).

The Secretary presented the following communication from the Comptroller:

May 15, 1917.

#### Board of Estimate and Apportionment, City of New York:

Gentlemen—Conformity with the custom adopted by the Board of Estimate and Apportionment in previous years, of issuing to the public a series of "Budget News Bulletins," containing summarized statements of the departmental estimates for the next ensuing year, and a comparison of them with the current year's allowances, together with other significant budget information, is considered desirable. I therefore submit herewith for adoption a resolution authorizing the expenditure from the 1917 contingencies appropriation of your Board of a sum not exceeding one thousand five hundred dollars (\$1,500) to pay the expenses of publication of the bulletins referred to. Very truly yours,

WM. A. PRENDERGAST, Comptroller, Chairman, Tax Budget Committee.

F. P. Doyle, representing the Real Estate Board, appeared in favor.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby authorizes the expenditure of one thousand five hundred dollars (\$1,500) by the Tax Budget Committee for the issuance of bulletins containing information relative to the Departmental Estimates received from the various city departments for the budget of 1918,

said sum to be chargeable to the Contingent Fund of the Board of Estimate and Apportionment for the year 1917, Code No. 52.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

#### Board of Estimate and Apportionment—Amendment of Section 24(a) of the Building Zone Resolution (Cal. No. 107).

The Secretary presented a communication, dated May 23, 1917, from the President, Board of Aldermen, presenting, either for the purpose of having a time fixed for public hearing, or for proper reference, resolution amending section 24 (a) of the Building Zone resolution, adopted by the Board July 25, 1916, so as to extend for one year the time allowed for constructing buildings under the provisions of said resolutions.

(On May 18, 1917 (Cal. No. 80), a communication from the Taxpayers' Alliance, Borough of The Bronx, requesting that all permits issued prior to December 25, 1916, for the erection of buildings be continued in full effect, up to and including December 25, 1918, was referred to the Committee on the City Plan.)

The communication was referred to the Committee on the City Plan for report as soon as possible.

#### The Mayorality—Legislation Affecting County Offices (Cal. No. 108).

The Secretary presented the following:

City of New York, Office of the Mayor, May 22, 1917.

To the Honorable the Board of Estimate and Apportionment, New York City:

Gentlemen—There have been transmitted to me from Albany the following legislative bills affecting county offices:

Senate Bill No. 1910, Int. No. 1242, entitled:

"An act to amend chapter one hundred and ninety-one of the laws of nineteen hundred and twelve, entitled 'An act to amend chapter four hundred and ten of the laws of eighteen hundred and eighty-two, entitled 'An act to consolidate into one act and to declare the special and local laws affecting public interests in the city of New York,' in relation to the salaries of process servers in the office of the district attorney of the county of New York.'"

This bill would increase the salaries of Process Servers in the District Attorney's office, New York County, from \$1,200 to \$1,500 per annum, and raise the salary of the Chief Process Server from \$2,000 to \$3,000 per annum. This proposed legislation is mandatory in form.

Senate Bill No. 2123, S. Rec. 360, Assembly 1522, Int. No. 1290, entitled:

"An act to amend chapter five hundred and thirty-one of the laws of nineteen hundred and twelve, entitled 'An act in relation to the equalization of the salaries of clerks in grades six, seven, eight, nine and ten of the district attorney's office in the county of New York,' in relation to salaries of clerks and stenographers."

This bill would, in a mandatory way, order an increase of salary to the Stenographers in grades six and seven, and the Chief Law Stenographer in the District Attorney's office of this county.

Senate Bill 1307, Int. 1097, entitled:

"An act to amend chapter seven hundred and seventy-two of the laws of eighteen hundred and ninety-six, entitled 'An act in relation to the office of the district attorney of the county of Kings, providing for the election of district attorney and the appointment of clerks, stenographers and county detectives for said office,' in relation to the appointment of a medical assistant by the district attorney of the county of Kings."

This bill would authorize the District Attorney for the County of Kings to appoint a Medical Assistant to act in murder cases. It would conflict with the general bill for medical examinations in criminal cases that goes into effect January 1, 1918. The system established by that bill supersedes the old Coroners' system, which terminates on the first of January next.

Senate Bill No. 2153, Assembly 1000, Int. 895, entitled:

"An act to amend the judiciary law, in relation to salaries of confidential clerks to county judges of Kings and Queens counties."

This bill is to increase the salaries of Confidential Clerks to County Judges of Kings and Queens Counties.

Assembly Bill No. 2303, Int. 1712, entitled:

"An act to amend chapter five hundred and seventy-two of the laws of nineteen hundred and eleven, entitled 'An act in relation to the office of the district attorney of the county of Queens,' in relation to the appointment of a special investigator."

This bill would authorize the District Attorney of Queens to appoint a Special Investigator from a particular list, and was evidently intended to further the appointment of a particular individual.

There has always been a question as to the propriety of the submission of bills affecting county offices to the Mayor for acceptance or rejection by the City. I have been in conference with the Governor, and learn that it is his desire that these bills be submitted to the Board of Estimate and Apportionment for an expression of its opinion, which he desires as a guide to his own action thereon. This, it seems to me, is a highly desirable course to pursue in dealing with legislation of this kind, and I, therefore, submit these bills and request that the Board now give an expression of its opinion thereon.

May I point out that immediate action is essential as the Governor is constrained to act upon these bills within thirty days of their passage, and but a short time remains for his consideration. Very truly yours,

JOHN PURROY MITCHEL, Mayor.

Benjamin Cohn, representing Confidential Clerks to County Judges of Kings County, appeared and urged approval of Senate Bill 2153.

The Secretary also presented a communication, dated May 24, 1917, from the Register of New York County, recording his objection to this kind of special mandatory legislation for the reason that the success of the standard rules depends upon their universal application, and stating that in his opinion the decision on these matters should rest solely with the Board of Estimate and Apportionment.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby disapproves of the following legislation now before his Excellency, the Governor, for action, viz.:

Senate Bill No. 1910, Int. No. 1242, entitled:

"An act to amend chapter one hundred and ninety-one of the laws of nineteen hundred and twelve, entitled 'An act to amend chapter four hundred and ten of the laws of eighteen hundred and eighty-two, entitled 'An act to consolidate into one act and to declare the special and local laws affecting public interests in the city of New York,' in relation to the salaries of process servers in the office of the district attorney of the county of New York.'"

Senate Bill No. 2123, S. Rec. 360, Assembly 1522, Int. No. 1290, entitled:

"An act to amend chapter five hundred and thirty-one of the laws of nineteen hundred and twelve, entitled 'An act in relation to the equalization of the salaries of clerks in grades six, seven, eight, nine and ten of the district attorney's office in the county of New York,' in relation to salaries of clerks and stenographers."

Senate Bill 1307, Int. No. 1097, entitled:

"An act to amend chapter seven hundred and seventy-two of the laws of eighteen hundred and ninety-six, entitled 'An act in relation to the office of the district attorney of the county of Kings, providing for the election of district attorneys and the appointment of clerks, stenographers and county detectives for said office,' in relation to the appointment of a medical assistant by the district attorney of the county of Kings."

Assembly Bill No. 2303, Int. 1712, entitled:

"An act to amend chapter five hundred and seventy-two of the laws of nineteen hundred and eleven, entitled 'An act in relation to the office of the district attorney of the county of Queens,' in relation to the appointment of a special investigator."

—and respectfully requests that said bills be vetoed by the Governor on the ground that they are mandatory and unnecessary legislation.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

Action on Senate Bill 2153, Assembly 1000, Int. 895, which provides for increasing the salaries of Confidential Clerks to County Judges of Kings and Queens

Counties, was deferred one week (June 1, 1917), and the Bureau of Personal Service was directed to report on the latter date on the merits of all of these measures.

The Secretary was directed to advise his Excellency, the Governor, that a special examination into the merits involved in each of these measures has been ordered, the result of which will be submitted to, and acted upon by, the Board June 1, 1917; and the Board's action on the report will be communicated to him for his information.

#### Department of Parks, Boroughs of Manhattan and Richmond—Modification of Schedule (Cal. No. 109).

(On May 4, 1917 (Cal. No. 9), the resolution modifying Schedule 1121 for the Department of Parks, Boroughs of Manhattan and Richmond, for the year 1917 was lost through lack of affirmative votes.) (Report of the Committee on Salaries and Grades printed in the Minutes of said meeting.)

The Secretary presented a communication, dated May 11, 1917, from the Secretary, Municipal Civil Service Commission, referring to the action taken by the Board on May 4, 1917 (Cal. No. 9), and stating that this proposed modification was for the purpose of changing a vacant position of Blacksmith (Horseshoer) to Horseshoer (Fireman), as the title is obsolete and is not included in the present Civil Service schedule, and submitting a statement showing the actual facts in this case as apparently there was a misunderstanding at the meeting of May 4, 1917, and concludes that the request does not in any way involve any proposed new classification recommended by the Bureau of Personal Service, but if the modification is approved, to be effective as of some date prior to May 7, 1917, the Commission can approve the payroll of Mr. Keegan, the employee affected, and he will continue to serve under the title which he has always had since his employment in the Park Department in 1911.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the schedule, as revised, for the Department of Parks, Manhattan and Richmond, for the year 1917, effective as of April 28, 1917, as follows:

Schedule Total ..... \$362,190 10

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Presidents of the Boroughs of Manhattan, Brooklyn and Queens and the Acting President of the Borough of Richmond—12.

Negative—The President of the Board of Aldermen and the President of the Borough of The Bronx—4.

#### President, Borough of The Bronx—Retirement of Thomas F. Coleman, Inspector (Cal. No. 110).

The Secretary presented a communication, dated May 17, 1917, from the President, Borough of The Bronx, recommending the retirement of Thomas F. Coleman, an Inspector of Regulating, Grading and Paving.

Which was referred to the Committee on Salaries and Grades.

#### Fire Department—Application of Alexander Ungerer, Fireman, for Allowance of Time and Salary While on Military Duty (Cal. No. 111).

The Secretary presented a petition of Alexander Ungerer, a Fireman in the Fire Department, for allowance of time and salary while on military duty at the Mexican Border.

Which was referred to the Comptroller.

#### Board of Estimate and Apportionment—Data Relative to Assessable Physical Improvements for First Quarter of 1917 (Cal. No. 112).

The Secretary presented a communication, dated May 16, 1917, from the President, Borough of Manhattan, submitting data in response to communication from the Secretary of the Board calling attention to the delay in transmitting assessment lists for Local Improvements.

(On April 27, 1917 (Cal. No. 66), the report of the Chief Engineer of the Board containing review of the progress made in completing assessable physical improvements up to the end of the first quarter of 1917, was presented to the Board, and in accordance with the suggestions contained therein the Secretary was directed to call the attention of the Borough Presidents to uncompleted improvements.)

The communication was referred to the Chief Engineer of the Board.

#### Department of Parks, Boroughs of Manhattan and Richmond—Issue of Special Revenue Bonds (Cal. No. 113).

The Secretary presented a resolution adopted May 8, 1917, by the Board of Aldermen and approved by the Mayor, May 18, 1917, requesting issue of \$36,000 special revenue bonds, the proceeds whereof to be used by the Commissioner of Parks, Manhattan and Richmond, for the purpose of improving the site at First avenue, between 67th and 68th streets, Manhattan, for use as a playground.

(On April 13, 1917 (Cal. No. 237), the Committee on Corporate Stock Budget in reporting on requests of various departments for issues of corporate stock stated that the sums requested are necessary and should be provided, but from the proceeds of special revenue bonds rather than from corporate stock, and recommended, therefore, to the Board of Aldermen the authorizations of special revenue bonds for various purposes, among which was included an item of \$36,000 for the above purpose.)

The Secretary of the Board was directed to present the resolution of the Board of Aldermen, when received, to the Board for concurrence without further report on the subject.

The matter was laid over one week (June 1, 1917), under Rule 19.

#### FIXING DATES FOR FUTURE HEARINGS.

##### On Changes in the City Map.

##### Borough of Brooklyn.

#### Street System Within the Territory Bounded by Gravesend Avenue, Foster Avenue, Ocean Parkway and Elmwood Avenue, Borough of Brooklyn—Changing Lines and Grades (Cal. No. 114).

The Secretary presented a resolution adopted March 12, 1917, by the Local

Board of the Flatbush District, Borough of Brooklyn, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16774. May 22, 1917.  
Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on March 12, 1917, recommending a modification in the street plan of the territory bounded by Gravesend Avenue, Foster Avenue, Ocean Parkway and Elmwood Avenue, this consisting of the discontinuance of East 4th Street from Foster Avenue to the right-of-way of the Long Island Railroad, a change in the lines of East 3rd Street from Foster Avenue to a line distant about 124 feet southerly therefrom, the laying out of Walsh Court to extend from East 3rd Street to East 5th Street, and the grade adjustments incidental to these changes.

The discontinuance of East 4th Street and the substitution of Walsh Court with a position parallel to the Long Island Railroad right-of-way will have the effect of removing a cul-de-sac now existing on the line of the former street. Neither of these streets is in use, and the modification is requested by the owners of nearly all of the property affected. The change proposed in the lines of East 3rd Street is designed to give it a position conforming with that which has been recognized by the property owners.

I see no reason why the plan should not be approved, and would recommend such action after a public hearing. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by changing the lines and grades of the street system within the territory bounded by Gravesend Avenue, Foster Avenue, Ocean Parkway and Elmwood Avenue, Borough of Brooklyn, which proposed change is more particularly shown upon a map or plan bearing the signature of the Commissioner of Public Works of the Borough, and dated March 10, 1917.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on Friday, the 22nd day of June, 1917, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 22nd day of June, 1917.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and the Acting President of the Borough of Richmond—16.

#### Borough of The Bronx.

**Street System Within the Territory Bounded by East River, Yznaga Avenue, Evans Avenue, Dewey Avenue, Bagley Avenue, Causeway Place, Ferris Avenue, Foote Avenue and Baxter Creek Inlet, Borough of The Bronx—Changing Lines and Grades (Cal. No. 115).**

The Secretary presented a communication dated March 12, 1917, from the Commissioner of Public Works, Borough of The Bronx, transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 16777. May 22, 1917.  
Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of the Board of Estimate and Apportionment held on April 14, 1916, a plan for the old Ferry Point section of the Borough of The Bronx, designated as Final Map of Section No. 58, was adopted upon the recommendation of your Engineer, at which time, however, it was suggested that provision be made for modifying the plan by extending a street across the unsubdivided area south of Yznaga Avenue to serve as a route for a trunk sewer, which treatment it was pointed out would make it practicable to acquire title to the fee to so much of the land as will be traversed, it being understood that the plan had been prepared with the intention of ultimately acquiring all of the property at this Point for use as a Public Park. It was also pointed out in the report that the proposed extension of Dewey Avenue and Hale Avenue to the bulkhead line was inconsistent with the general suggestions which had been made for the treatment of waterfront property, and that a more rational plan would result if a width of 80 feet were to be provided for Ferris Avenue between Dewey Avenue and Randall Avenue in place of a width of 100 feet shown on the plan for the portion of the street north of Hale Avenue and of 60 feet for the section to the south.

Under date of March 12, 1917, the Commissioner of Public Works has forwarded a map showing a change proposed in the lines and grades of the street system within the territory bounded by the East River, Yznaga Avenue, Evans Avenue, Dewey Avenue, Bagley Avenue, Causeway Place, Ferris Avenue, Foote Avenue and Baxter Creek Inlet, this providing the modifications previously suggested with the exception of the discontinuance of that portion of Dewey Avenue between Brush Avenue and the bulkhead line. At the same time it provides for decreasing the width of Hale Avenue from 80 feet to 60 feet in the three blocks between Ferris Avenue and Dewey Avenue, the latter change evidently having been occasioned by reason of the discontinuance of the portion adjoining the waterfront. The map also shows a few grade adjustments of a minor character.

I see no reason why the plan should not be approved, and would recommend such action after a public hearing. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by changing the lines and grades of the street system within the territory bounded by the East River, Yznaga Avenue, Evans Avenue, Dewey Avenue, Bagley Avenue, Causeway Place, Ferris Avenue, Foote Avenue and Baxter Creek Inlet, Borough of The Bronx, which proposed change is more particularly shown upon a map or plan bearing the signature of the President of the Borough, and dated January 16, 1917.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on Friday, June 22, 1917, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions, and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 22nd day of June, 1917.

No. 116).**

The Secretary presented a communication dated November 22, 1916, from the Commissioner of Public Works, Borough of The Bronx, transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 16778. May 22, 1917.  
Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Commissioner of Public Works, Borough of The Bronx, bearing date November 22, 1916, requesting approval of a map providing for changes in the grades of the street system within the territory bounded by East 174th Street, Vyse Avenue, Boston Road, Vyse Avenue, East

177th Street, Boston Road, East 179th Street and its prolongation, Bronx River, East 177th Street, West Farms Road, East 176th Street and Longfellow Avenue.

This plan provides for fixing grades at intersections where not heretofore definitely supplied other than by interpolation, for more definitely fixing the platform grade at street intersections, and for general slight adjustments in elevation. All of the streets affected by the plan have been graded and most of them have been paved. Information is presented to show that the elevations now proposed are designed to legalize the grade to which surface improvements have been carried out.

I see no reason why the plan should not be approved, and would recommend such action after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Report No. 16749. May 9, 1917.  
Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of the Board of Estimate and Apportionment held on April 28, 1916, a map showing the lines and grades proposed for Union Hall street, between South street and Brinkerhoff avenue, and a change in the lines of South street, between Union Hall street and New York avenue, Borough of Queens, was referred back to the Borough President on the recommendation of your Engineer, to be amended by increasing the width of Union Hall street, from 50 feet to 60 feet.

Under date of October 11, 1916, the Secretary to the President has forwarded a revised plan which has been prepared along the lines suggested.

From such information as is at hand it would appear that the widening of Union Hall street, through the four blocks affected, could be accomplished with damage to only one building which is valued at \$4,000 on the books of the Department of Taxes and Assessments. The grades proposed for the street differ from those shown on the tentative plan of the territory by a maximum of a few feet, but it is understood that the elevations now fixed are designed to more closely conform with the existing conditions than did those originally proposed.

The South street changes consist of the introduction of an angle at a point about 70 feet west of New York avenue in order that the street may include within its lines an existing highway which is understood to have been dedicated to public use.

I see no reason why the plan should not be approved, and would recommend such action after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by establishing lines and grades for Union Hall Street, from South Street to Brinkerhoff Avenue; and by changing the lines of South Street, from Union Hall Street to New York Avenue, Borough of Queens, which proposed change is more particularly shown upon a map or plan bearing the signature of the President of the Borough, and dated September 27, 1916.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on Friday, June 22, 1917, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions, and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 22nd day of June, 1917.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

**Street System Within the Territory Bounded by Beach 35th Street, Brookhaven Avenue, Beach 30th Street, Deerfield Road, Beach 25th Street, Camp Road, Dune Street, Sea Girt Avenue, Beach 32d Street and Sprayview Avenue, Borough of Queens—Establishing Lines and Grades (Cal. No. 118).**

The Secretary presented a communication, dated March 8, 1917, from the Secretary to the President, Borough of Queens, transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 16781. May 22, 1917.  
Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary to the President of the Borough of Queens, bearing date of March 8, 1917, presenting for consideration a map showing the lines and grades proposed for the street system within the territory bounded by Beach 35th Street, Brookhaven Avenue, Beach 30th Street, Deerfield Road, Beach 25th Street, Camp Road, Dune Street, Sea Girt Avenue, Beach 32nd Street and Sprayview Avenue.

This plan relates to an area of about 62 acres in the Far Rockaway section of the Borough, including an area of about 16 acres in the northerly portion comprised within the limits of the Final Map of Section No. 231, which was adopted on January 8, 1915.

Lines and grades have also been fixed for Sea Girt Avenue, between Beach 30th Street and Beach 26th Street, while the treatment proposed for the remaining area is indicated on the tentative plan of the Far Rockaway section approved on June 27, 1912. Information is presented to show that the extension of Sea Girt Avenue to Brookhaven Avenue, as proposed on the tentative plans, is deemed inadvisable, owing to the building damage which would result, for which reason it is now planned to make Beach 32nd Street its westerly terminal. To adequately replace this connection provision is now made for increasing the width of Edgemere Avenue, as shown on both tentative and final maps, from 60 feet to 70 feet, and to make a similar change in the width of that portion of Dune Street between Edgemere Avenue and Sea Girt Avenue, as laid out to the east of Beach 25th Street. The Board is informed that, in case this change is approved, it is proposed to decrease the width of Sea Girt Avenue between Beach 26th Street and Beach 32nd Street, in recognition of the fact that its use will thereupon become limited to the local needs only. To conform with the lines of the street as now in use, it is proposed to decrease the width of Beach 32nd Street from 60 feet, as shown on the tentative plans, to 56.43 feet. With these exceptions and a few minor grade changes, the plans here-

tofore approved by the Board are ratified. Nearly all of the streets shown on the plan are in use at a width of 50 feet, the widening of which to 70 feet or to 80 feet is provided for in the cases of those deemed to be of a more important character. By reason of recent erosion, the greater portion of Sprayview Avenue is now under water, but it is understood that plans are being formulated to bring about its reclamation.

I see no reason why the map should not be adopted and would recommend such action after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by establishing lines and grades for the street system, where not heretofore established, and by changing the lines of the street system, where heretofore established, within the territory bounded by Beach 35th Street, Brookhaven Avenue, Beach 30th Street, Deerfield Road, Beach 25th Street, Camp Road, Dune Street, Sea Girt Avenue, Beach 32nd Street and Sprayview Avenue, Borough of Queens, which proposed change is more particularly shown upon a map or plan bearing the signature of the President of the Borough, and dated February 9, 1917.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on Friday, June 22, 1917, at 10.30 o'clock a. m.

No. 119).**

The Secretary presented a communication, dated April 17, 1917, from the Secretary to the President, Borough of Queens, transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 16780.

May 22, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary to the President of the Borough of Queens, bearing date of April 17, 1917, presenting for approval a map showing a change proposed in the lines and grades of the street system within the territory bounded by 76th Street (Center Avenue), 88th Road, 88th Avenue (Grand Street, 3d Street), 80th Street (Shaw Avenue), 90th Road (7th Street), 84th (John) Street, 91st Avenue (8th Street), 78th Street (Snedeker Avenue), and Rockaway Boulevard.

From information presented with this communication it appears that there has been a disagreement between some of the Title Companies and the local surveyors with respect to the exact position to be assigned to 91st Avenue (8th Street), in the section east of 78th Street, with the result of a final agreement based upon here assigning to this street a width of 50 feet instead of 49 feet, as shown upon the plan to be superseded. The changes as thus agreed upon are shown upon the plan now submitted.

To conform with the lines to which property has been subdivided provision is also made in the plan for giving 90th Avenue (Clinton Place) and 91st Avenue (8th Street), in the two blocks between 76th Street (Center Avenue) and 78th Street (Snedeker Avenue), positions about three feet north of those heretofore assigned to them. Advantage is also taken of the opportunity to introduce a crown in the block of 88th Road, between 76th Street and 77th Street (Johnson Avenue), in order to make adequate provision for the removal of drainage.

I see no reason why the plan should not be approved, and would recommend such action after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

**Hughes Street, from Forest Avenue to Anthon Avenue, Borough of Queens—Changing Grades (Cal. No. 120).**

The Secretary presented a communication, dated October 2, 1916, from the Secretary to the President, Borough of Queens, transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 16782.

May 22, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Secretary to the President of the Borough of Queens, bearing date of October 2, 1916, requesting approval of a plan showing a change proposed in the grade of Hughes Street in the block between Forest Avenue and Anthon Avenue.

This change consists of the insertion of a break in the grade of Hughes Street at a point distant 270 feet east of Forest Avenue with the effect of here raising the elevation about one foot. The street has been paved and serves as frontage for a large number of buildings, and the elevation now proposed is designed to conform with the grade to which these improvements have been carried out.

I see no reason why the plan should not be approved, and would recommend such action after a public hearing. Respectfully,

NELSON P. LEWIS, Chief Engineer.

**Cary Avenue, from North Burgher Avenue to Bement Avenue, Borough of Richmond—Establishing Lines and Grades (Cal. No. 121).**

The Secretary presented a communication, dated March 6, 1917, from the Commissioner of Public Works, Borough of Richmond, transmitting map showing proposed change; and the following report of the Chief Engineer:

Report No. 16783.

May 22, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the Commissioner of Public Works, Borough of Richmond, bearing date of March 6, 1917, presenting for approval a map showing the lines and grades proposed for Cary Avenue from North Burgher Avenue to Bement Avenue.

This plan relates to two short blocks of Cary Avenue which were shown on a tentative plan approved on July 2, 1909, affecting a large adjoining area, this being based upon giving the street a width of 60 feet, which width apparently harmonizes with that to which the street is in use.

The map now submitted ratifies the tentative plan in so far as the street width is concerned, but makes provision for a slight adjustment in street grade, this providing for closer conformity with existing conditions than did the grade originally proposed. The Board is informed that the adoption of the plan is desired in order to clear the way for carrying out a physical improvement designed to improve drainage conditions.

I see no reason why the plan should not be approved, and would recommend such action after a public hearing. Respectfully,

NELSON P. LEWIS, Chief Engineer.

**25th Street, from Sigel Avenue to the Bulkhead Line of the East River, Sigel Avenue, from Astoria Avenue to 12th Street, and Riker Avenue, from 12th Street to 25th Street, Borough of Queens—Acquiring Title (Cal. No. 122).**

The Secretary presented a resolution adopted October 19, 1916, by the Local Board of the Newtown District, Borough of Queens, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16748.

May 12, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on October 19, 1916, initiating proceedings for acquiring title to the following streets: 25th Street, from Sigel Avenue to the bulkhead line of the East River; Sigel Avenue, from Astoria Avenue to 12th Street; Riker Avenue, from 12th Street to 25th Street.

This resolution affects three blocks or about 700 feet of Riker Avenue, nine blocks or about 2,100 feet of Sigel Avenue, and six blocks or about 3,600 feet of 25th Street. The street last named has been laid out upon the City Map to have a width of 60 feet; Sigel Avenue has been given a width of 70 feet, and Riker Avenue one of 80 feet.

Riker Avenue is in use for a portion of its width and comprises the route of a double track trolley railroad, but neither of the remaining streets is on the ground excepting in the block between Riker Avenue and Walcott Avenue, where old Ehret Avenue is partially included within the lines of 25th Street. This old street is paved and has a double track trolley railroad along the center, but from information at hand it appears that the fee to the land resides in the abutting owners and that there are no easements of any kind other than those enjoyed by the Railroad Company, so that it seems practicable to close the old street and to develop the adjoining territory along the lines contemplated under the City Plan. The area traversed by these streets is generally unimproved, but Riker Avenue and 25th Street at its northerly end cross the North Beach amusement resort and a number of buildings here encroach upon the land to be acquired. It is understood, however, that North Beach has been discontinued as a pleasure resort, and that the owners are contemplating the advisability of ceding their holdings. At the intersection with Astoria Avenue a building also falls within the lines of Sigel Avenue.

In a communication bearing date of December 18, 1916, the Borough President has requested that a proceeding for acquiring title to these streets be immediately instituted, stating it to be necessary to enter upon the land at the earliest opportunity for the purpose of constructing the main outlet for the system designed to drain the Woodside and Winfield sections, as well as a large adjoining territory. The related drainage plan has not as yet been adopted by the Board, but a map embodying its design is under consideration in this office and it would seem necessary to take such steps as are needed to clear the way for the construction of the main trunk following the lines of the streets to which the resolution relates.

I would recommend the approval of the resolution: that title to the land be acquired in fee, the title in the case of Riker Avenue to be subject to any easement or right that may be owned by the New York and Queens County Railway Company; that all of the cost and expense of the proceeding be assessed against the property benefited, and that a district of assessment be laid out to include the territory shown on the accompanying diagram.

It should be noted that in the case of Riker Avenue the suggested district of assessment is made to include territory west of the westerly limit named by the Local Board in order to harmonize with the treatment accorded the street in the section west of 12th Street, an opening proceeding relating to which is now in progress. Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following was offered:

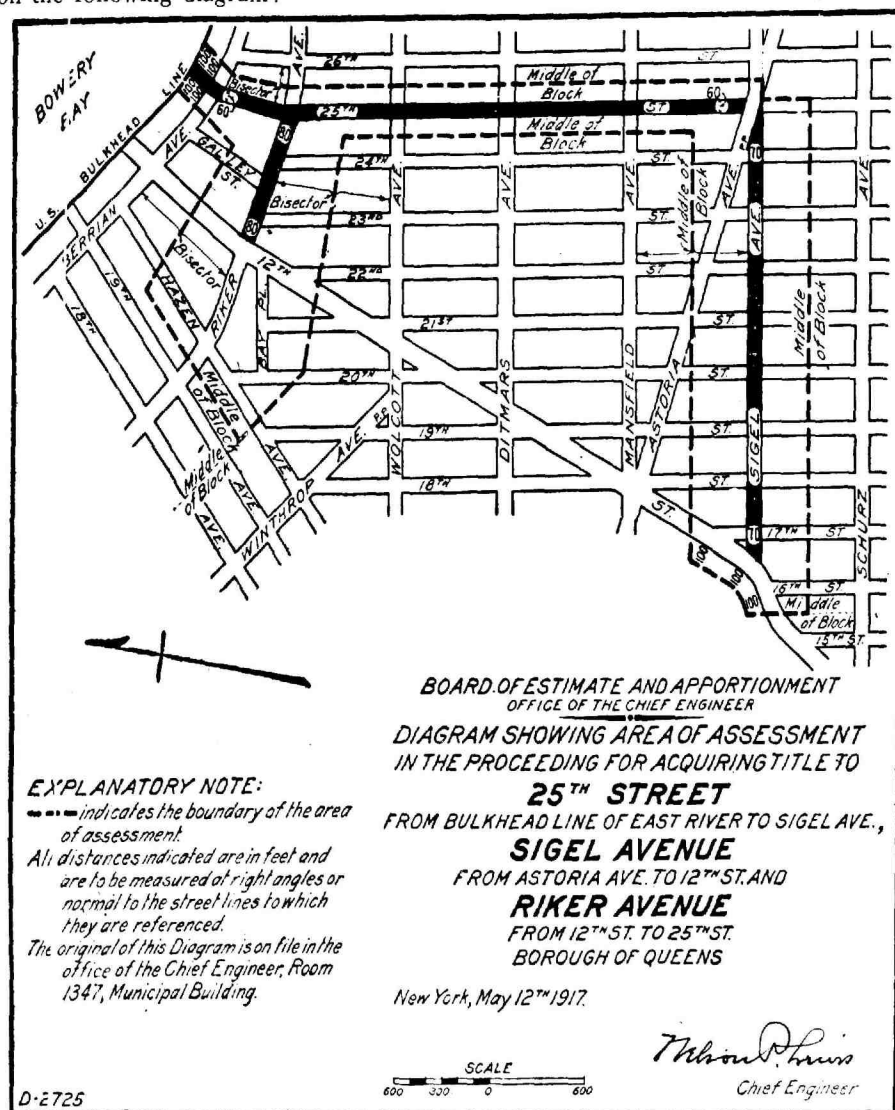

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the real property required for the opening and extending of 25th Street, from Sigel Avenue to the bulkhead line of the East River; Sigel Avenue, from Astoria Avenue to 12th Street; Riker Avenue, from 12th Street to 25th Street, subject to any easement or right that may be owned by the New York and Queens County Railway Company, in the Borough of Queens, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the real property required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceedings.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 973 of the Greater New York Charter, as amended, hereby gives

notice that the proposed area of assessment for benefit in these proceedings is as shown on the following diagram:

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on Friday, June 22, 1917, at 10.30 o'clock a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD for ten days, exclusive of Sundays and legal holidays, prior to Friday, June 22, 1917.

#### 37th Street, from Berrian Avenue to Hunt Street, Borough of Queens—Acquiring Title (Cal. No. 123).

The Secretary presented a resolution adopted February 1, 1917, by the Local Board of the Newtown District, Borough of Queens, initiating proceedings for this improvement; and the following report of the Chief Engineer:

Report No. 16752. April 12th, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on February 1st, 1917, initiating proceedings for acquiring title to 37th Street, from Berrian Avenue to Hunt Street.

This resolution affects twenty blocks, or a little more than two miles, comprising the entire length of 37th Street. From Berrian Avenue to Jackson Avenue the street has been laid out upon the City Map to have a width of 80 feet and through the remaining portion of its length a width of 60 feet has been provided.

An inspection of the ground shows that the street is roughly graded and that the abutting property is largely improved from Roosevelt Avenue to a point about 160 feet south of Banta Street, but that it is not otherwise in use, excepting in short sections in the vicinity of Burnside Avenue and of Ditmars Avenue, where it is crossed by or partially includes old Junction Avenue and old Jacksons Mill Road. These old roads comprise a portion of the route of a double track trolley railroad, but, from information at hand, it appears to be the opinion of the Corporation Counsel that the fee to the land resides in the City, and, under these circumstances, it would appear to be practicable to carry out a closing proceeding and to substitute the streets laid down on the City Map in the adjoining territory. It is believed that a number of buildings encroach upon the land to be acquired, some of these at the northerly end comprising amusement resorts formerly operated in connection with North Beach.

In a recent communication the Acting Borough President has requested that the opening proceeding be immediately instituted in order that certain improvements contemplated by the property owners may be carried out.

I would recommend the approval of the resolution; that title to the land be acquired in fee; that all of the cost and expense of the proceeding be assessed against the property benefited, and that a district of assessment be laid out to include the territory shown on the accompanying diagram.

Respectfully, NELSON P. LEWIS, Chief Engineer.

#### MATTERS LAID OVER FROM PREVIOUS MEETINGS.

##### Fund for Salary and Wage Accruals; Department of Finance—Transfer of Appropriation (Cal. No. 124).

(On May 18, 1917 (Cal. No. 26), the matter was laid over until this meeting.)

The Secretary presented the following report of the Comptroller:

May 12, 1917.

To the Board of Estimate and Apportionment, the City of New York:

Gentlemen—By resolution of the Board of Estimate and Apportionment of February 23, 1917, \$5,250.00 was transferred from Code 3039 (salary and wage accruals) to Code 88, Department of Finance, Salaries of Temporary Employees, to provide for the sal-

(Cal. No. 123).

DIAGRAM A.

aries of ten additional temporary accountants, in the Bureau of Municipal Investigation and Statistics, for a period of three months.

As explained in the report of the Comptroller of February 10, 1917, upon which the resolution referred to was based, these men were needed to install in the city departments necessary systems of accounts and records, to follow up such systems, and to analyze and report upon the departmental statements submitted to the Department of Finance, as contemplated by section 149-a and subdivision 6 of section 151 of the charter, this work having been delayed because of the diversion of the staff of the Bureau mentioned to other necessary and urgent work.

During the period of their employment the temporary accountants have been principally engaged in installing in the city departments forms, procedures, codes, etc., for the proper control of equipment and stores, and in revising the cost system in the Department of Parks, Manhattan and Richmond.

The ten temporary accountants will be needed for at least three months after the expiration of the three months for which the original transfer of \$5,250 was provided, and a resolution to effect a transfer of a like amount is therefore submitted herewith for your consideration. Respectfully, WM. A. PRENDERGAST, Comptroller.

The following was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves of the transfer of funds appropriated for the year 1917, as follows:

FROM	
MISCELLANEOUS	
3039 City Fund for Salary and Wage Accruals from Schedule-Supported Appropriations to be expended as provided in the Budget Resolutions Herewith	\$5,250 00
DEPARTMENT OF FINANCE	
Personal Service	
88 Salaries, Temporary Employees	\$5,250 00

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

##### President, Borough of Manhattan—Issue of Special Revenue Bonds (Cal. No. 125).

(On May 18, 1917 (Cal. No. 27), the matter was laid over until this meeting, under Rule 19.)

The Secretary presented a resolution adopted April 24, 1917, by the Board of Aldermen, requesting an issue of \$2,300 special revenue bonds, to be used by the Presi-

dent of the Borough of Manhattan to meet the expense of furnishing flags and erecting flag poles required for public buildings in the Borough of Manhattan, to comply with the provisions of an ordinance of the Board of Aldermen effective February 27, 1917; and the following report of the Comptroller recommending approval thereof:

May 11, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On May 8, 1917, the Board of Aldermen requested \$2,300 in special revenue bonds "the proceeds whereof to be used by the President, Borough of Manhattan for the purpose of meeting the expense of furnishing and erecting flag poles and furnishing flags for said poles that are required for the public buildings of the Borough of Manhattan, to comply with the provision of an ordinance which became effective February 27, 1917."

On May 9, 1917, this request was referred to the Bureau of Contract Supervision, which Bureau reports thereon as follows:

"The ordinance referred to in the request provides that the 'American flag shall be displayed on all City owned or other buildings occupied by City Departments or Institutions of whatever character on all days of the week excepting Sunday.'"

"The Bureau of Public Buildings and Offices of the Borough of Manhattan prepared a list of twenty-nine buildings occupied by City Departments, on which it was proposed to provide poles and American Flags. These buildings were all inspected by this Bureau and found to be without flags and poles."

"The estimate of cost of \$2,300 for the erection of poles and for providing flags for these buildings is reasonable."

I recommend the adoption of the attached resolution approving the request.

Respectfully,  
WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Aldermen on April 24, 1917, requesting an issue of special revenue bonds in the sum of two thousand three hundred dollars (\$2,300), the proceeds whereof to be used by the President of the Borough of Manhattan for meeting the expense of furnishing and erecting flag poles and furnishing flags for said poles that are required for the public buildings of the Borough of Manhattan, to comply with provisions of an ordinance which became effective February 27, 1917, be and the same is hereby approved of and concurred in by the Board of Estimate and Apportionment, and for the purpose of providing means therefor, the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue special revenue bonds of The City of New York to an amount not exceeding two thousand three hundred dollars (\$2,300), redeemable from the tax levy of the year succeeding the year of their issue; provided, however, that all obligations against the proceeds of bonds herein authorized shall be incurred on or before December 31, 1917.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

Department of Water Supply, Gas and Electricity—Issue of Special Revenue Bonds (Cal. No. 126).

(On May 18, 1917 (Cal. No. 36), the matter was laid over until this meeting, under Rule 19.)

The Secretary presented a resolution adopted by the Board of Aldermen on April 17, 1917, requesting issue of \$300,000 Special Revenue Bonds to be used by the Commissioner of Water Supply, Gas and Electricity for the purpose of providing for expenses on the Catskill and Croton Watersheds and Manhattan Pumping Stations; and the following report of the Deputy and Acting Comptroller recommending approval thereof:

May 14, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On April 17, 1917, the Board of Aldermen requested an issue of special revenue bonds to the amount of \$300,000, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the proceeds whereof to be used by the Commissioner of Water Supply, Gas and Electricity.

"For the purpose of enabling his department to meet the expenses of operation and maintenance and to assume the control of the Catskill water supply system, funds for which were not wholly provided in the budget for 1917."

The Bureau of Contract Supervision, to which this request was referred on May 3, 1917, reports thereon, as follows, the data on "Personal Service" items having been furnished by the Bureau of Personal Service:

"The Commissioner of Water Supply, Gas and Electricity in his departmental budget estimate for 1917 requested that the estimated cost of the maintenance and operation of the Catskill watershed and a certain portion of the estimated cost of operation and maintenance of the Croton watershed and Manhattan pumping stations be charged to Brooklyn water revenue appropriations on the basis that the estimated saving in pumping the Brooklyn water supply, due to the introduction of Catskill water, might properly be used to reduce the tax levy charges of the Bureau of Water Supply for the year 1917."

"The proposed apportionment was approved by the Sub-Committee of the 1917 Tax Budget Committee of the Board of Estimate and Apportionment, and the 1917 budget allowance made upon the basis proposed by the Commissioner."

"The Tax Budget Committee of the Board of Estimate and Apportionment has recently given special consideration to this subject. As a result thereof it has been found to be impracticable to use the Brooklyn water revenues to fund the cost of the operation and maintenance of the Catskill and Croton systems, as was intended when the budget was approved. The provisions of the charter of the former City of Brooklyn, pledging to the Brooklyn Water Sinking Fund the revenues from the sale of water in Brooklyn after the payment of all interest, operating and maintenance charges, has been held by the Comptroller to be a legal bar to the using of any of these revenues for the supply of water to any part of the City other than the Borough of Brooklyn. Even if this were not so, section 242 of the City Charter, in its present form, seems to make such a course as contemplated by the 1917 budget allotments of doubtful legality."

"It therefore becomes necessary to correct the action taken at the time the budget was made, and to otherwise provide, in part at least, through the issuance of special revenue bonds, to be authorized pursuant to subdivision 8 of section 188, for those expenses of maintenance and operation of the Department of Water Supply, Gas and Electricity for 1917 which it was proposed to finance out of Brooklyn water revenues."

"The Tax Budget Committee suggested to the Commissioner of Water Supply, Gas and Electricity to ask the Board of Aldermen to approve a resolution requesting the Board of Estimate and Apportionment to authorize the issuance of special revenue bonds at this time to the extent of \$300,000 for the purposes herein previously referred to."

"In view of the use in the Borough of Brooklyn of approximately one-half of the present Catskill supply, one-half of the cost of maintenance and operation of the Catskill watershed is considered a proper water revenue charge."

"The following table shows the amounts appropriated from the 1917 Brooklyn water revenues for the purposes noted. No allowance for 'Personal Service' for the Catskill watershed was included in the budget allowances, and this item has since been provided for by transfer from salary and wage accruals."

	Personal Service Items.	Other Than Personal Service Items.	Total.
Manhattan Pumping .....	\$70,673 78	\$28,802 50	\$99,476 28
Croton Watershed .....	113,202 66	239,912 50	353,115 16
Catskill Watershed (one-half of allowance) .....		42,532 25	42,532 25
	\$183,876 44	\$311,247 25	\$495,123 69

"From this total of \$495,123 deductions may be made as follows:

Taxes (which may be provided for under the provisions of subdivision 7 of section 188 of the Charter), Croton Watershed.....	\$172,477 00
Catskill Watershed (½) .....	18,750 00
	\$191,227 00

leaving an apparent balance of \$303,896.69 to be met by the \$300,000 special revenue bonds requested.

"It is recommended that the request of the Board of Aldermen be approved and that the \$300,000 additional allowance be apportioned to the several accounts as set forth in the attached resolution."

"It is also recommended that the Commissioner of Water Supply, Gas and Electricity be advised to take the proper procedure for the charging of all 1917 expenditures and liabilities incurred for the maintenance and operation of Manhattan pumping stations and the Croton watersheds against the special revenue bond funds thus created and the cancellation of all such charges as have been made against 1917 water revenue allowances. It is also recommended that all charges for maintenance and operation of the Catskill watershed, other than for personal service, in excess of fifty per centum of the original water revenue allowances be recharged against the special revenue bonds allowances and the water revenue charges be cancelled in a similar amount."

"When all such expenditures and liabilities have been properly charged and the water revenue allowances relieved of these encumbrances the necessary adjustments may be made between the several water revenue budget allowances and the 1917 Brooklyn water revenue account, thus refunding the amounts appropriated through error."

"At the time these adjustments are made the several supporting schedules may be modified to reflect the changes."

I recommend the adoption of the attached resolution, approving an issue of special revenue bonds in the sum of \$300,000 apportioned as therein stated, and further recommend that the Commissioner of Water Supply, Gas and Electricity be furnished with a copy of this report for his information.

Respectfully,  
ALBERT E. HADLOCK, Deputy and Acting Comptroller.

The following resolution was adopted:

Resolved, That the resolution adopted by the Board of Aldermen on April 17, 1917, requesting an issue of special revenue bonds in the sum of three hundred thousand dollars (\$300,000), the proceeds whereof to be used by the Commissioner of Water Supply, Gas and Electricity to meet the expenses of operation and maintenance of his department, and to assume the control of the Catskill water supply system, funds for which were not wholly provided in the budget for 1917, is hereby approved of and concurred in by the Board of Estimate and Apportionment and for the purpose of providing means therefor, the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue special revenue bonds of The City of New York to an amount not exceeding three hundred thousand dollars (\$300,000), redeemable from the tax levy of the year succeeding the year of their issue, said appropriation to be apportioned as follows:

The Secretary was directed to forward copy of report to the Commissioner of Water Supply, Gas and Electricity.

President, Borough of Manhattan—Appropriation for Strengthening Roof and Supports of Subway at Southeast Corner of Madison Avenue and 42nd Street, Borough of Manhattan (Cal. No. 127).

(On May 11, 1917 (Cal. No. 25), the matter was laid over until May 18, 1917, under Rule 19. On May 18, 1917 (Cal. No. 90), it was laid over until this meeting.)

The Secretary presented a communication, dated March 20, 1917, from the President, Borough of Manhattan, requesting an issue of \$45,000 corporate stock for the purpose of strengthening the roof and supports of the subway at the southeast corner of Madison Avenue and 42d Street in order that 42d Street may be widened; and the following report of the Committee on Corporate Stock Budget relative thereto:

May 5, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On March 20, 1917, the President of the Borough of Manhattan requested an authorization of corporate stock to the amount of \$45,000 for the purpose of strengthening the roof and supports of the subway at the southeast corner of Madison Avenue and 42nd Street in order that 42nd street may be widened by moving back the curb about ten feet. The Bureau of Contract Supervision, to which this request was referred on March 21, 1917, reports thereon as follows:

"Owing to the presence of a subway kiosk on the southeast corner of Madison Avenue and 42nd street, and to the location of ventilators and vault lights directly to the eastward and in line with this kiosk, the roadway, for a distance of 185 feet at this point is ten feet narrower than the remainder of this block to the eastward."

"Arrangements have been made, however, for removing this kiosk and constructing an entrance through the new Hecksher Building, which is now under

construction on this corner. This new entrance will probably be open to the public about July 1st, after which the present kiosk can be removed. In order to widen the roadway, in addition to the curb, it will be necessary to move the ventilators and vault lights back toward the south building line of 42d street, and to strengthen the substructure to enable it to carry heavy street traffic.

"The actual cost of the construction work, including administration and engineering, will be about \$18,000, which, however, will have to be increased by \$3,300 for insurance and miscellaneous items, if the work is not to be done under operating conditions, or by \$11,500, if the work is to be done under operating conditions. In addition to the above an item of \$15,000 has been added to the request to provide for the care of two large pipes with necessary excavation, waterproofing and other work, etc. It is impossible to ascertain whether these pipes will require care until the work is under way.

"The request is, therefore, made up as follows:

Construction work and engineering .....	\$18,000 00
Insurance, liability, etc., work to be done under operating conditions. ....	11,500 00
Probable necessity for taking care of pipes.....	15,000 00
	<b>\$44,500 00</b>

"The traffic at this point is heavy, and as a similar condition regarding curb lines obtains on the north side of Forty-second street at this point, this work should be done as soon as convenient. It is impossible to get a definite assurance that the work can be done in the reasonably near future, except under operating conditions.

"It appears, owing to the variable items and the location of the work that, if possible, the work should be done on a basis of cost of the construction work plus ten per cent. for profit. In contracting for the work on this basis, the contract should provide for a definite maximum cost to the City for the completion of the work including profit."

We recommend the adoption of the attached resolution granting the request under conditions outlined above. Respectfully,  
WM. A. PRENDERGAST, Comptroller; FRANK L. DOWLING, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; ....., President, Borough of The Bronx; Corporate Stock Budget Committee.

The Secretary also presented the following communication from the Acting President, Borough of Manhattan:

City of New York, Borough of Manhattan, Office of the President, Municipal Building, May 22, 1917.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, Municipal Building, New York City:

Dear Sir—A further investigation of the conditions attending the setting back of the curb on the south side of 42d Street, between Madison and Park Avenues, seems to indicate that a considerable amount of money could be saved if the necessary changes in the subway structure could be postponed until after the beginning of the operation of the Lexington Avenue and the 7th Avenue Subways, when possibly operation of the south bound local track at the Grand Central Station can be abandoned, at least temporarily, while the structural changes under the sidewalk are being made.

It is believed that this saving of money is greater than the value of the widened roadway a few months prior to the opening of the new subways.

I respectfully request therefore that an appropriation of \$1,000 be made for the purpose of preparing plans. In the course of a month or two I shall probably ask the Board for a sufficient appropriation to award a contract for the structural steel which will be necessary so that delivery may be made as soon as the new subways are opened. Your very truly,

RALPH FOLKS, Acting President, Borough of Manhattan.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 169 of the Greater New York Charter, the sum of one thousand dollars (\$1,000) is hereby appropriated for the purpose of preparing plans for strengthening the roof and supports of the subway at the southeast corner of Madison Avenue and 42nd Street, Borough of Manhattan, under the jurisdiction of the President of the Borough of Manhattan, to be expended in accordance with existing personal service schedules, and that the Comptroller be and hereby is authorized to issue, pursuant to section 169 of the Greater New York Charter, serial bonds of The City of New York to the amount of two hundred and fifty dollars (\$250), redeemable in fifteen equal annual installments, being one-quarter of such total authorization, and that the remaining three-quarters thereof, viz., seven hundred and fifty dollars (\$750), shall be included in the annual tax levies in the manner provided by section 189 of the Greater New York Charter.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

#### President, Borough of Queens—Appropriation for Equipment for Bureau of Street Cleaning (Cal. No. 128).

(On May 11, 1917 (Cal. No. 27), the matter was laid over until May 18, 1917, under Rule 19; on the latter date (Cal. No. 92) it was laid over until this meeting.)

The Secretary presented a communication, dated January 25, 1917, from the President, Borough of Queens, requesting an issue of \$26,500 corporate stock for the purchase of equipment for Bureau of Street Cleaning in connection with collection of garbage, ashes and refuse in Ridgewood section of Borough of Queens; and the following report of the Committee on Corporate Stock Budget relative thereto:

May 3, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On January 25, 1917, the President of the Borough of Queens requested an authorization of corporate stock in the amount of \$26,500 to provide funds for the purchase of necessary equipment for the Bureau of Street Cleaning to be used in connection with the collection of garbage, ashes and refuse in the Ridgewood section of the Borough of Queens.

The Bureau of Contract Supervision, to which this request was referred on January 27, 1917, reports thereon as follows:

"On July 17, 1911, your Board adopted a resolution approving of the issue of corporate stock in the amount of \$202,000 to provide means for the cost of acquiring land and the construction of a refuse destructor, stable and section house at Ridgewood. The destructor is now in operation and the stable and section house are approximately 98 per cent. complete. The purpose of this request is to provide funds for the purchase of necessary equipment of the stable.

"In the departmental estimate for the year 1917 for the President of the Borough of Queens, various amounts were requested for the purchase of live stock, carts, trucks, harness, blankets, and other equipment to be used in connection with the operation of the Ridgewood stable in the collection and disposal of garbage, refuse and ashes. This portion of the request was denied by your Board, on the grounds that inasmuch as this was original equipment, the purchase of same should be provided for by an issue of corporate stock. This denial was based on the provisions of section 546 of the Greater New York Charter, that the Borough President of Queens may, with the approval of the Board of Estimate and Apportionment, purchase or construct stock or plant to be paid for by the issue and sale of bonds."

We recommend the adoption of the attached resolution granting the appropriation in accordance with sections 169 and 546 of the Charter. Respectfully,

WM. A. PRENDERGAST, Comptroller; FRANK L. DOWLING, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; DOUGLAS MATHEWSON, President, Borough of The Bronx; Corporate Stock Budget Committee.

The following resolution was offered:

Resolved, By the Board of Estimate and Apportionment, that, pursuant to the provisions of sections 169 and 546 of the Greater New York Charter, the sum of twenty-six thousand five hundred dollars (\$26,500) is hereby appropriated for the purchase of necessary equipment for the stable at the Ridgewood Refuse Destructor in the Borough of Queens, under the jurisdiction of the President of the Borough of Queens, and that the Comptroller be and hereby is authorized to issue, pursuant to section 169 of the Greater New York Charter, serial bonds of The City of New York to the amount of six thousand six hundred and twenty-five dollars (\$6,625), redeemable in fifteen equal annual installments, being one-quarter of such total

authorization, and that the remaining three-quarters thereof, viz., nineteen thousand and eight hundred and seventy-five dollars (\$19,875), shall be included in annual tax levies in the manner provided by section 189 of the Greater New York Charter; provided, however, that no encumbrance or expenditure by contract shall be made against this authorization, nor shall bids upon such contracts be advertised for, until after approval by the Board of Estimate and Apportionment of the plans, specifications, estimates of cost and forms of such contracts which shall be submitted to said Board by the President of the Borough of Queens, nor shall any architect, engineer, expert or departmental employee be engaged or employed as a charge against such authorization except after approval by said Board of such employment and of the fee or wage to be paid by preliminary and final contract, voucher, or budget schedule, which are to be similarly submitted, unless in the case of departmental employees, such employment is in accordance with schedules approved by said Board.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

#### Department of Correction—Appropriation for Reconstruction of Buildings (Cal. No. 129).

(On May 18, 1917 (Cal. No. 11), the matter was laid over until this meeting, under Rule 19.)

The Secretary presented a communication dated April 17, 1917, from the Commissioner of Correction, requesting an issue of \$75,000 Corporate Stock to provide means for reconstruction of the center pavilion of Workhouse on Blackwell's Island; and the following report of the Committee on Corporate Stock Budget relative thereto:

April 30, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On April 17, 1917, the Commissioner of Correction requested approval of an issue of corporate stock in the sum of \$75,000 to provide means for the reconstruction of that section of the center pavilion of the Workhouse on Blackwell's Island, which was partially destroyed by fire on March 17, 1917.

The Bureau of Contract Supervision, to which this request was referred, reports thereon as follows:

"The request of the Commissioner of Correction is based upon sketches submitted by an architect and contemplates the proposed reconstruction of fireproof materials and the substitution of an extra story with a flat roof for the former peaked roof.

"The main portion of the building as it now stands is practically useless, due to the fire damage, and as both the north and south wings are fireproof it would be inadvisable to consider its reconstruction as originally built.

"Plans for structural changes in the south wing of the Workhouse are now being prepared for the purpose of making it available as a clearing house and hospital institution for women.

"This will necessitate enlarging the present staff and it is intended that a new subdivision of the floor space in the centre pavilion will adequately accommodate the increased force.

"It is proposed to locate the chapel, with the necessary vestry rooms, on the additional floor. This will release more than 3,000 square feet of floor space at a comparatively small increase of cost, as a new roof has to be built on the main portion of the building in any event, and the additional floor can be provided by extending the existing walls about 17 feet.

"It is anticipated that this building will be used sometime in the future either as an almshouse or a central drug hospital, and in that event the additional quarters planned for could be utilized to good advantage.

"An examination of the sketches indicates that the sum requested is reasonable."

We recommend the adoption of the attached resolution approving an authorization in the sum of \$75,000 for the reconstruction and fireproofing of that section of the centre pavilion of the Workhouse on Blackwell's Island which was destroyed by fire. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller; FRANK L. DOWLING, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; DOUGLAS MATHEWSON, President, Borough of The Bronx; Corporate Stock Budget Committee.

The following resolution was offered:

Resolved, By the Board of Estimate and Apportionment that, pursuant to the provisions of section 169 of the Greater New York Charter, the sum of seventy-five thousand dollars (\$75,000) is hereby appropriated for the reconstruction of the centre pavilion of the Workhouse, Blackwell's Island, under the jurisdiction of the Department of Correction, and that the Comptroller be and hereby is authorized to issue, pursuant to section 169 of the Greater New York Charter, serial bonds of The City of New York to the amount of eighteen thousand seven hundred and fifty dollars (\$18,750), redeemable in fifteen equal annual installments, being one-quarter of such total authorization, and that the remaining three-quarters thereof, viz., fifty-six thousand two hundred and fifty dollars (\$56,250), shall be included in annual tax levies in the manner provided by section 189 of the Greater New York Charter; provided, however, that no encumbrance or expenditure by contract shall be made against this authorization, nor shall bids upon such contracts be advertised for, until after approval by the Board of Estimate and Apportionment of the plans, specifications, estimates of cost and forms of such contracts which shall be submitted to said Board by the Department of Correction, nor shall any architect, engineer, expert or departmental employee be engaged or employed as a charge against such authorization except after approval by said Board of such employment and of the fee or wage to be paid by preliminary and final contract, voucher or budget schedule, which are to be similarly submitted, unless in the case of departmental employees, such employment is in accordance with schedules approved by said Board.

#### Fund for Salary and Wage Accruals—President, Borough of Manhattan—Transfer of Appropriation and Modification of Schedules (Cal. No. 130).

(On May 11, 1917 (Cal. No. 39), the matter was laid over until May 18, 1917; on the latter date (Cal. No. 101) until this meeting.)

The Secretary presented a communication dated March 21, 1917, from the President, Borough of Manhattan, requesting modification of schedules for 1917, involving transfer of appropriation from Fund for Salary and Wage Accruals; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 3, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On March 21, 1917, the PRESIDENT OF THE BOROUGH OF MANHATTAN requested modification of Codes Nos. 373, 380 and 382 for 1917. The Bureau of Personal Service reports thereon as follows:

"Purpose—(1) Code 373, to change schedule lines as follows: Electrician, 2 at \$4.80 per day (303 days), to Electrician, 2 at \$5 per day (303 days); Marble-setter's Helper, 1 at \$3.25 per day (303 days), to Marble-setter's Helper, 1 at \$3.50 per day.

"(2) Code 380, Varnisher, \$4 per day (900 days), to Varnisher, \$5 per day (900 days); Wireman, \$4.80 per day (900 days), to Wireman, \$4.80 per day (600 days); Electrician, \$4.80 per day (900 days), to Electrician, \$5 per day (1,200 days); Painter, \$4 per day (2,850 days), to Painter, \$5 per day (2,850 days). The time allowance for Wireman is decreased and that for Electrician is increased by 300 days, due to change of title of a Wireman.

"(3) Code 382, Painter, \$4 per day (600 days), to Painter, \$5 per day (600 days).

"(4) Code 380, Foreman Varnisher, \$5 per day (300 days), to Foreman Varnisher, \$5.50 per day (300 days), on the ground that Foremen receive a higher rate than workmen.

"Reason—(1), (2), (3) The request is made in order that the increased rates of pay in skilled trades recently authorized by resolution of your Board, may be made effective for this office.

"Finding—(1), (2), (3) The request is proper and necessary. The funds

required, amounting to \$4,886.95, are to be obtained by transfer of (1) \$1,642.50 from Code 381, available by reason of a vacant position of stationary engineer, no longer required on account of the change in one of the Court Houses from a high to a low pressure system, and (2) from the General Accrual Fund of the balance.

"(4) This employee had been working as a journeyman, but on April 30 he was put in charge of the Painting Squad. The increase of 50 cents over the regular rate for Painter is reasonable from the time he actually assumed the work of a Foreman."

Recommendation—In view of the above report, the Committee recommends the adoption of the attached resolution granting the request. Respectfully,  
ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, and in accordance with the terms and conditions of Resolution Second (f) of the Budget for 1917, hereby approves of the transfer of funds as follows:

(On May 11, 1917 (Cal. No. 223), the matter was referred back to the Committee on Salaries and Grades and laid over until May 18, 1917; on the latter date (Cal. No. 108) until this meeting.)

The Secretary presented a communication dated January 19, 1917, from Defender Union No. 1, American Brotherhood of Blacksmiths, requesting an increase

of wages for Blacksmiths and Blacksmiths' Helpers in City Departments; and the following report of the Committee on Salaries and Grades recommending approval thereof:

May 15, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On January 19, 1917, Defender Union No. 1, American Brotherhood of Blacksmiths and Helpers, requested increases of wages from \$4.50 for Blacksmiths and from \$3 for Blacksmiths' Helpers, paid at present in City departments. The Bureau of Personal Service reports thereon as follows:

"The approximate annual cost for increase in wages from \$4.50 to \$5 per diem for Blacksmiths and from \$3 to \$3.50 per diem for Blacksmiths' Helpers, based upon the wage schedules as of January 1, 1917, would be as follows:

	Blacksmiths.	Blacksmiths' Helpers.
Borough President, Manhattan	\$154 00	\$154 00
Borough President, The Bronx	290 00	290 00
Borough President, Brooklyn	303 00	303 00
Borough President, Queens	534 00	138 50
Parks, Manhattan and Richmond	416 00	
Parks, The Bronx	151 50	290 00
Parks, Brooklyn	300 00	300 00
Parks, Queens	138 50

Street Cleaning	2,676 00	4,866 00
Plant and Structures	1,717 50	1,806 50
Docks and Ferries	439 00	409 50
	\$7,654 00	\$9,072 00

"Mr. H. C. Hunter, Secretary of the Metal Trades Association, exhibited reports from seventeen large shops, ten of which are marine concerns, showing rates paid to Blacksmiths and Blacksmiths' Helpers. A total of 116 Blacksmiths and 151 Helpers are employed in those shops. The rates paid the Blacksmiths range from \$3.25 to \$6.50 per diem and the Helpers \$2.25 to \$3.50. The majority are on marine work. The men are employed on an hourly basis. Overtime is paid at double the hourly rates. There is no overtime in City employ.

"Other employers of Blacksmiths stated as follows:

"Thomas Watson & Sons, Thirty-fifth street, Manhattan—

"We pay \$6 a day to a first fire Blacksmith; \$4.50 to two others. Helpers are paid \$3 and \$3.25. We employ three Blacksmiths and three Helpers."

"Glasgow Iron Works, West street, Manhattan—

"We employ three Blacksmiths and three Blacksmiths' Helpers. We pay the Blacksmiths \$5.75, \$4.75 and \$4.25, and the Helpers \$3.10, \$2.95 and \$2.75."

"William J. Brady, Watts street, Manhattan—

"I employ one Helper and pay him \$3.25 a day."

"W. S. Dorethy, West street, Manhattan—

"I pay Blacksmiths \$5.25, \$5 and \$4.75. Helpers receive \$3, \$2.90 and \$2.85 a day. I employ four or five Blacksmiths and the same number of Helpers."

"Terry & Tench, 129th street, Manhattan—

"We pay a first fire Blacksmith \$40 a week; second men, \$4.45 and \$4.05. Helpers are paid \$3.35, \$3 and \$2.75. We employ five Blacksmiths and the same number of Helpers."

"Simplex Automobile Company, East Eighty-third street, Manhattan—

"We pay two Blacksmiths \$4 and \$3.50. We have no Helpers."

"P. H. Gill & Son, Lorraine street, Brooklyn—

"We pay \$7.75, \$7.34, \$6 and two men \$4.65 a day to Blacksmiths; Heaters, \$3.55 and \$3.22; Helpers \$3. We have five Blacksmiths, two Heaters and 15 Helpers."

"Samuel Martin Company, Adams street, Brooklyn—

"I pay one Blacksmith \$6 a day; one man \$5.50; one man \$4.75; four men \$4.50 a day; Heater \$3.50; eight Helpers, \$3 a day."

"William Gaskell & Son, Freeman street, Brooklyn—

"We pay one Blacksmith \$5 a day and another \$4.25. One Helper is paid \$3 a day, one \$2.80 and one \$2.65."

"Alexander B. Martin, West Broadway, Manhattan—

"I employ one Blacksmith and pay him \$4.50 a day. I pay one Helper \$3 a day."

"Atlantic Basin Iron Works, Summit street, Brooklyn—

"We pay one Blacksmith, at first fire, \$6.50; two men \$6; two men \$5.50; 4 men \$5; two men \$4.90; four men \$4.50. Helpers are paid \$3.35, \$3.15, \$3.08 and \$3. We have 15 Blacksmiths and 25 Blacksmiths' Helpers."

"The various rates paid by members of the Metal Trades Association and other concerns quoted above, with the number of men employed, are as follows:

Blacksmiths.		Blacksmiths' Helpers.	
1 man	\$7 75	10 men	\$3 50
1 man	7 34	9 men	3 35
1 man	6 75	42 men	3 25
2 men	6 50	7 men	3 15
5 men	6 00	1 man	3 10
5 men	5 75	6 men	3 08
3 men	5 50	120 men	3 00
11 men	5 25	1 man	2 95
12 men	5 00	2 men	2 90
2 men	4 90	2 men	2 85
22 men	4 75	1 man	2 80
2 men	4 65	12 men	2 75
39 men	4 50	1 man	2 65
40 men	4 25	7 men	2 50
2 men	4 05	3 men	2 25
5 men	4 00		
6 men	3 75		
2 men	3 50		
1 man	3 25		

"Of the 162 Blacksmiths 67 are paid a rate above the wage paid by the City. Of the 214 Blacksmiths' Helpers, 75 are paid a rate above that now generally paid in City departments."

"Blacksmiths' Helpers are now paid \$3.50 per diem in the Departments of Parks, Manhattan and Richmond; Parks, Brooklyn, and Parks, Queens."

"At a recent Civil Service examination held at the Fire Department repair shop, the men worked from a drawing in doing the forging. The three applicants failed to pass. The Examiner stated:

"A successful applicant would be regarded as an all around Blacksmith. Blacksmiths in the Street Cleaning Department are employed at repairing carts and wagons in connection with wheelwright work. Those in the Department of Plant and Structures repair structural iron. Those in the Fire Department the fire fighting apparatus, and so on through the departments the work varies."

"Men working at the first fire do the heavy forging and those at the other fires the lighter forging. First fire men are paid a higher rate because of the heavy work rather than on account of their proficiency as Blacksmiths."

"The wide range of rates paid Blacksmiths in private employ of from \$3.25 to \$7 a day, would indicate that there are many workmen at the lower rates who would fail to pass the examination required by the Civil Service Commission."

"The rate paid Blacksmiths in City Departments for several years has been \$4.50 per diem. It would appear that a majority of men in the trade competent to pass the Civil Service examination are paid more than \$4.50 per diem. A rate of \$5 per diem for Blacksmiths is therefore recommended."

"On July 25, 1913, the Blacksmiths' Helpers Union requested an increase in rate from \$3 to \$3.50 per diem, which was denied. A comparison between the rates then paid and now paid in private employ would show an increase of probably 25 per cent. in wages. The lower rates quoted in the above table are in many cases paid to Laborers, while the higher rates are paid to Blacksmiths' Helpers, who have qualified by experience for the work."

"As 75 of the 214 Helpers included in the above table are paid over \$3 per diem, the elimination in the computation of a small percentage of the low-priced Laborers would justify an increase for Blacksmiths' Helpers from \$3 to \$3.50 per diem."

In view of the above facts, while the \$5 rate does not appear to prevail in private employ, we recommend that the attached resolutions, approving as fair rates the \$5 per diem rate for Blacksmiths and the \$3.50 per diem rate for Blacksmiths' Helpers in City employ, and requesting the heads of City Departments to provide for the increase, be adopted. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

John M. Ryan appeared in support of the request.

The President of the Borough of The Bronx moved that the fixation of wages of Blacksmiths and Blacksmiths' Helpers be made as a matter of discretion and fair compensation, and not as a matter of prevailing rate of wages.

**Department of Public Charities—Additional Appropriation for Installing Water Mains and Appurtenances (Cal. No. 132).**

(On May 18, 1917 (Cal. No. 10), the matter was laid over until this meeting under Rule 19.)

The Secretary presented a communication, dated April 16, 1917, from the Commissioner of Public Charities, requesting an issue of \$6,551 corporate stock in addition to an issue of \$9,180 previously authorized for furnishing and installing water mains and appurtenances in and about the grounds of the City Farm Colony and Sea View Hospital; and the following report of the Committee on Corporate Stock Budget relative thereto:

April 28, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On April 16, 1917, the Commissioner of Public Charities requested approval of an issue of corporate stock in the sum of \$6,551, in addition to an amount of \$9,180, authorized by the Board of Estimate and Apportionment on July 27, 1916, for furnishing and installing water mains and appurtenances in and about the grounds of the City Farm Colony and the Sea View Hospital, under the jurisdiction of the Department of Public Charities.

The Bureau of Contract Supervision, to which this request was referred on April 23, 1917, reports thereon as follows:

"An estimate of cost of the work for which this request is made was recently prepared by the Department of Water Supply, Gas and Electricity to an amount of \$15,731, which, under present market conditions, is reasonably estimated. It is possible that by the time contracts are approved and bids advertised for the cost of the work will exceed this estimate.

"It is urgent that the work be completed in order that the 21 new pavilions, administration building and dining hall, now under construction at Sea View Hospital, may be supplied from this system when they are completed.

"As only \$9,180 is available, the additional appropriation appears necessary."

We recommend the adoption of the attached resolution authorizing the additional sum in accordance with section 169 of the Charter. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller; FRANK L. DOWLING, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; DOUGLAS MATHEWSON, President, Borough of The Bronx; Corporate Stock Budget Committee.

Hon. John A. Kingsbury, Commissioner of Public Charities, appeared in favor.

The following resolution was offered:

Resolved, By the Board of Estimate and Apportionment, pursuant to the provisions of section 169 of the Greater New York Charter, the sum of six thousand five hundred and fifty-one dollars (\$6,551) additional is hereby appropriated for furnishing and installing water mains and appurtenances in and about the grounds of the City Farm Colony and the Sea View Hospital, under the jurisdiction of the Department of Public Charities, and that the Comptroller be and hereby is authorized to issue, pursuant to section 169 of the Greater New York Charter, serial bonds of The City of New York to the amount of one thousand six hundred and thirty-seven dollars and seventy-five cents (\$1,637.75), redeemable in fifteen equal annual installments, being one-quarter of such total authorization, and that the remaining three-quarters thereof, viz., four thousand nine hundred and thirteen dollars and twenty-five cents (\$4,913.25), shall be included in annual tax levies in the manner provided by section 189 of the Greater New York Charter; provided, however, that no encumbrance or expenditure by contract shall be made against this authorization nor shall bids upon such contracts be advertised for, until after approval by the Board of Estimate and Apportionment of the plans, specifications, estimates of cost and forms of such contracts which shall be submitted to said Board by the Department of Public Charities, nor shall any architect, engineer, expert or departmental employee be engaged or employed as a charge against such authorization except after approval by said Board of such employment and of the fee or wage to be paid by preliminary and final contract, voucher or budget schedule, which are to be similarly submitted, unless in the case of departmental employees, such employment is in accordance with schedules approved by said Board.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

Negative—The Acting President of the Borough of Richmond—1.

**Department of Public Charities—Expenditure of Corporate Stock Funds (Cal. No. 133).**

(On May 18, 1917 (Cal. No. 56), the resolution to carry the recommendation of the Bureau of Contract Supervision into effect, failed of adoption through lack of affirmative votes, and the matter was then laid over until this meeting.) (The report of the Bureau of Contract Supervision is printed in the Minutes of said meeting.)

The Secretary presented a communication, dated March 31, 1917, from the Commissioner of Public Charities, requesting permission to expend corporate stock funds for furniture and fittings for the Director's residence at Sea View Hospital; and a report of the Bureau of Contract Supervision relative thereto:

Hon. John A. Kingsbury, Commissioner of Public Charities, appeared in favor.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, and subject to the provisions of section 419 of the Greater New York Charter, hereby grants permission to the Commissioner of Public Charities to make an expenditure of eighteen hundred and sixty-eight dollars and eighty cents (\$1,868.80) for furniture and fixtures of the Director's residence at Sea View Hospital, apportioned as follows:

Negative—The President of the Board of Aldermen, the President of the Borough of The Bronx and the Acting President of the Borough of Richmond—5.

**Fire Department—Acquisition of Property as a Site for an Engine House, Borough of Queens (Cal. No. 134).**

The Secretary presented a report, dated December 1, 1916, of the Comptroller recommending the authorization of condemnation proceedings for the acquisition of property located at Bergen Avenue, opposite North First Street, Jamaica, Borough of Queens, as a site for the erection of a building for the fire companies in the Jamaica section, which site was recommended by the Fire Commissioner; also a report, dated December 5, 1916, from the Chief Engineer, under Rule 35, stating that this parcel has a frontage of 100 feet on Bergen Avenue with a depth of about 277 feet. Bergen Avenue forms the main connecting link between Hillside Avenue and Merrick Road. It has been fully improved, but its lines have not yet been laid out upon the City Map. The tentative plans for the territory show that it is proposed to retain this street with a width of 60 feet and that it is also planned to lay out Puntine Street with a width of 50 feet and a position such as to absorb a strip 50 feet wide from the westerly portion of the site to be taken. It would, therefore, appear that for improvement purposes the area available would be limited to about 100 feet by about 227 feet.

The Secretary also presented a communication, dated January 20, 1917, from the Jamaica Citizens' Association in opposition to the present plan, but favoring the use of City owned property for this purpose.

(On December 8, 1916 (Cal. No. 73); December 15, 1916 (Cal. No. 77); January 5, 1917 (Cal. No. 72); January 12, 1917 (Cal. No. 85); January 26, 1917 (Cal. No. 89); February 9, 1917 (Cal. No. 232), the matter was laid over; on the latter date until this meeting.)

Clarence H. Fay, Deputy Fire Commissioner, appeared and requested that the matter be laid over.

The matter was laid over two weeks (June 8, 1917).

**Unionport Road, Cruger Avenue and Bear Swamp Road, Borough of The Bronx—Acceptance of Deeds of Cession (Cal. No. 135).**

The Secretary presented a communication, dated April 29, 1914, from Ralph Polk Buell, Esq., transmitting deeds executed by the New York, Westchester and Boston Railway Company and the Millbrook Company, conveying to the City land within and adjoining the railroad right-of-way at its intersection with Unionport Road, Cruger Avenue and Bear Swamp Road, Borough of The Bronx; and a report of the Chief Engineer recommending that the deeds be forwarded to the Corporation Counsel with the request that he accept those relating to Cruger Avenue and Bear Swamp Road after such amendments as may be needed in order to meet the legal requirements and to conform with the City Map, and that the parcels within the railroad right-of-way be accepted, pursuant to contract provisions, and the remaining parcels under the terms fixed by the rules adopted by the Board on September 17, 1915.

(On May 11, 1917 (Cal. No. 85), the matter was laid over until May 18, 1917; on the latter date (Cal. No. 114) until this meeting.)

The matter was laid over two weeks (June 8, 1917).

**Department of Street Cleaning—Acquisition of Property in the Borough of The Bronx for Street Cleaning Purposes (Cal. No. 136).**

(On April 27, 1917 (Cal. No. 63), the report of the Comptroller recommending the acquisition of property at 174th street and West Farms road, at a price not exceeding \$37,500, and at the foot of Depot place and the Harlem River, at a price not exceeding \$5,500, was referred to the Chief Engineer for report under Rule 35.)

(On May 11, 1917 (Cal. No. 88), a resolution was adopted authorizing the acquisition at private sale of the Depot place site and the East 174th street site was then laid over until May 18, 1917, and on the latter date (Cal. No. 121), it was laid over until this meeting.)

The Secretary presented reports of the Comptroller and Deputy Chief Engineer relative to the selection of these two sites (Reports printed in Minutes of Meeting held May 11, 1917) (Cal. No. 88.)

The Secretary also presented a communication dated May 10, 1917, and two communications dated May 11, 1917, from the Chester Taxpayers' Alliance, the Taxpayers' Alliance of the Borough of The Bronx and the Property Owners' Association of Vyse Estate and Vicinity, Borough of The Bronx, respectively, protesting against the acquisition of property for a refuse dump at 174th street and the Bronx River.

The matter of the acquisition of the site at East 174th Street was referred to the President of the Borough of The Bronx and the Commissioner of Street Cleaning.

**Metropolitan Avenue, Between Jamaica Avenue and Brooklyn Borough Line, Borough of Queens—Establishing Width (Cal. No. 137).**

(On April 27, 1917 (Cal. No. 71), the matter was laid over until this meeting.)

The Secretary presented a communication, dated March 11, 1915, from the President, Borough of Queens, requesting the Board to express its views as to the pro-

pricty of decreasing the width of this street from 100 feet to 66 feet; and the following report of the Chief Engineer:

Report No. 16653.

April 12, 1917.

Hon. JOHN PURROY MITCHEL, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—Herewith is transmitted a communication from the President of the Borough of Queens, bearing date of March 11, 1915, advising that the Local Board of the Newtown District at its meeting of June 25, 1914, adopted a resolution recommending a change in the lines of Metropolitan Avenue between Dry Harbor Road and Jamaica Avenue, of such a character as to decrease its width from 100 feet to 66 feet.

Prior to incurring the expense of preparing a map showing this change, the Board is asked to informally express its views in the matter, in connection with which it is pointed out that the determination should also include the treatment of the section between Dry Harbor Road and the Brooklyn Borough Line, where it is believed that a similar change will be proposed.

Upon the presentation of this communication the Borough President was asked to submit information to show the probable expense of acquiring title to the street at its present width, which information, in sufficient detail to permit of analysis, has recently been received.

Metropolitan Avenue as now in use, extends from Jamaica Avenue to the East River with a total length of about 7.5 miles, of which 5.5 miles fall within the limits of the Borough of Queens and the remainder within the Borough of Brooklyn. In the former Borough the street is in use at a width of 66 feet, while in the latter its width appears to range from 65 feet to 66 feet in the section between the Borough Line and Bushwick Avenue and from Bushwick Avenue to the East River it has a width of 80 feet. The final maps heretofore adopted for the territory traversed in the Borough of Queens made provision for increasing the street width to 100 feet.

Myrtle Avenue, as originally planned, was designed to serve as a connection between Jamaica and the heart of Brooklyn, while Metropolitan Avenue seems to have been designed to provide an arterial street leading from Jamaica to the Williamsburg section, here connecting with Grand Street which affords a direct outlet into lower Manhattan by way of the Williamsburg Bridge, while the Flushing Avenue connection affords a direct artery to lower Brooklyn. By reason of objections raised to the proposed widening of Myrtle Avenue, the width of this street has been decreased to 70 feet, and the change now suggested in Metropolitan Avenue would, if approved, remove the only remaining arterial street having an adequate width to connect lower Brooklyn and Williamsburg with Jamaica.

From information now presented by the Borough President it appears that the probable cost of widening that portion of the street within the limits of the Borough of Queens to 100 feet as now mapped, would exceed \$1,000,000, but that a width of 80 feet could probably be provided at a cost of about \$620,000. The street has a position which would apparently justify the recognition of benefit over a large adjoining area. Assuming that the assessment district to be fixed in acquiring it might be made to include all the territory within a distance of one-half mile, it should be practicable to keep the assessments on the frontage at a rate averaging about \$100 per lot 20x100 feet, which rate however, would be substantially decreased if the benefit area were extended to include the additional territory which might be considered as tributary to it. In making this estimate it has been assumed that the widening would not include areas devoted to cemetery use, through which, however, it should be practicable to secure the full roadway width provided under the ordinances; it would seem reasonable to here assume that the cemetery corporations affected would ultimately be placed under obligation to give up a suitable area for sidewalk use.

The street crosses the Bushwick Branch, the Montauk Division, the Glendale cut-off, and the Main Line of the Long Island Railroad as well as the New York Connecting Railroad. The separation of grades has already been effected at all of these points excepting the Bushwick Branch, and the work done has apparently been based upon the provision of a street 100 feet wide. In my judgment, the present width of 66 feet is inadequate and provision should be made for insuring a width of at least 80 feet, which treatment it would seem clear should also be extended to that portion of the street in the Borough of Brooklyn between the Borough Line and Grand Street where the widening, if undertaken now, could probably be carried out at a reasonable expense.

I would recommend that the President of the Borough of Queens be advised that a map fixing the width of Metropolitan Avenue at 80 feet would receive favorable consideration, and that the President of the Borough of Brooklyn be requested to submit a plan making provision for a similar widening of that portion of the street between the Borough Line and Grand Street. Respectfully,

NELSON P. LEWIS, Chief Engineer.

Louis I. Cherry, representing Allied Civic Bodies; S. C. Masters, representing the Metropolitan Avenue Property Owners' Association; Eugene Ruoff, representing the 13th Assembly District Taxpayers' Association, and Alrick H. Man appeared in opposition to the widening.

The following resolution was offered:

Resolved, By the Board of Estimate and Apportionment that the Secretary advise the President of the Borough of Queens that a map establishing the width of Metropolitan Avenue, between Jamaica Avenue and the Brooklyn Borough Line at 66 feet, if presented, will receive favorable consideration by the Board.

Which was adopted by the following vote:

Affirmative—The Mayor, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and Queens, and the Acting President of the Borough of Richmond—12.

Negative—The Comptroller and the President of the Borough of The Bronx—4.

(On March 16, 1917 (Cal. No. 150), this matter was referred to the Committee of the Whole.)

(On April 13, 1917 (Cal. No. 246), the Board adopted a resolution fixing May 11, 1917, as the date for an Informal Hearing in this matter. On May 11, 1917 (Cal. No. 11), at the close of the Informal Hearing, the matter was laid over for two weeks, and the question of widening Woodhaven Avenue was referred to the President of the Borough of Queens for further study.)

The Secretary presented a communication, dated September 9, 1915, from the Secretary to the President, Borough of Queens, transmitting tentative map showing the proposed change; and a report of the Chief Engineer relative thereto. (Report printed in Minutes of Meeting held March 16, 1917) (Cal. No. 150.)

The Secretary also presented a communication, dated May 10, 1917, from Hon. William H. O'Hare in favor of the improvement.

T. R. McKennie, President, Rockaway Board of Trade, appeared in favor of the report of the Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, after an informal hearing held on May 11, 1917, hereby approves the tentative plan indicating the proposed lines and grades of Jamaica Bay Boulevard, from Sheridan Avenue, near Ramblersville, to Rockaway Beach Boulevard, in the Borough of Queens; the said tentative plan bearing the signature of the President of the Borough and dated August 16, 1915.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

The Secretary was directed, in accordance with the recommendation contained in the report of the Chief Engineer, to request the Corporation Counsel to take the necessary steps to secure any legislation that may be required in order to permit of placing that portion of the proposed street outside of the bulkhead lines under the jurisdiction of the Borough President, and to permit of assessing the cost of constructing it upon the area or areas deemed benefited.

#### **Lafayette Avenue, from Flatbush Avenue to Fulton Street, Borough of Brooklyn—Acquiring Title (Cal. No. 139).**

The Secretary presented a report of the Committee on the City Plan relative to the question of acquiring title to Lafayette Avenue, from Flatbush Avenue to Fulton Street, Borough of Brooklyn, and determining the area of assessment therefor, and

recommending that a proceeding be instituted to acquire title to the real property required for the opening and extending of this avenue, and that the cost be assessed on a local area of benefit as recommended in a joint report of the President of the Borough of Brooklyn and the Chief Engineer of the Board, presented to the Board on June 16, 1916 (Cal. No. 97).

(After a public hearing on July 7, 1916 (Cal. No. 3), on the area of assessment recommended by the President of the Borough of Brooklyn and the Chief Engineer of the Board, this matter was laid over until September 15, 1916, and was subsequently laid over at various meetings until February 16, 1917, when (Cal. No. 121) it was referred to the Committee on the City Plan.)

(On April 20, 1917 (Cal. No. 10), the report of the Committee on the City Plan was presented and the matter was then referred to the Committee on Assessments for report to the Board in one week (April 27, 1917); on the latter date (Cal. No. 165), the matter was laid over until May 4, 1917; on said latter date (Cal. No. 120), this matter appeared on the Calendar, but no action was taken thereon.)

(On May 11, 1917 (Cal. No. 231), the matter was laid over until this meeting.)

Frank Fox, representing the Realty Associates, appeared in favor of immediate action.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the real property required for the opening and extending of Lafayette Avenue, from Flatbush Avenue to Fulton Street, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the compensation to be made to the owners of the real property to be acquired shall be ascertained and determined by the Supreme Court without a jury;

Resolved, That the Board of Estimate and Apportionment hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court to have the compensation, which should justly be made to the respective owners of the real property proposed to be taken, ascertained and determined by the Supreme Court without a jury, and to have the said Court assess the cost and expense of the proceedings upon the real property within the area of assessment hereinafter determined, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public for the same purpose, to the real property that shall or may be required for the purpose of opening and extending Lafayette Avenue, from Flatbush Avenue to Fulton Street in the Borough of Brooklyn, City of New York, upon the receipt by him of a rule map and damage map certified as having been approved by this Board.

Resolved, That no portion of the cost and expense of said proceedings, incurred by reason of the provisions of title 4, chapter 17 of the Greater New York Charter, as amended, shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the expense of the Bureau of Street Openings, the cost and expense incurred by the President of the Borough of Brooklyn in the preparation of rule, damage and benefit maps for the use thereof; and all other expenses and disbursements authorized by section 977 of said title, as amended, shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavits of the Supervisor of the City Record and the publishers of the Corporation newspapers, that due notice was given therein; that at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the real property required for this improvement that the Board of Estimate and Apportionment would consider a proposed area of assessment as therein described, and would give a public hearing thereon upon the 7th day of July, 1916; and

Whereas, At the aforesaid time a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board;

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as follows:

Beginning at a point on the northeasterly line of Flatbush Avenue, where it is intersected by the prolongation of a line distant 100 feet westerly from and parallel with the westerly line of 3rd Avenue, the said distance being measured at right angles to 3rd Avenue, and running thence eastwardly and parallel with Lafayette Avenue to the intersection with a line midway between Fort Greene place and South Elliott place; thence southwardly along the said line midway between Fort Greene place and South Elliott place to the intersection with a line distant 100 feet northerly from and parallel with the northerly line of Lafayette Avenue, the said distance being measured at right angles to Lafayette Avenue; thence eastwardly along the said line parallel with Lafayette Avenue to the intersection with a line midway between South Elliott place and South Portland Avenue; thence southwardly along the said line midway between South Elliott place and South Portland Avenue to the intersection with a line midway between Lafayette Avenue and Hanson place; thence westwardly along the said line midway between Lafayette Avenue and Hanson place to the intersection with the northeasterly line of Flatbush Avenue; thence southwestwardly at right angles to Flatbush Avenue to a point distant 100 feet southwestwardly from its southwestwardly side; thence northwestwardly and parallel with Flatbush Avenue to the intersection with a line midway between State Street and Schermerhorn Street; thence westwardly along the said line midway between State Street and Schermerhorn Street to the intersection with a line parallel with 3rd Avenue and passing through the point of beginning; thence northwardly along the said line parallel with 3rd Avenue to the point or place of beginning.

Which was adopted by the following vote:

Affirmative—The Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—13.

The question of the review of the area of assessment determined by the Board is left with the Committee on Assessments for consideration.

#### **Borough Presidents—Classification of Preliminary and Permanent Pavements (Cal. No. 140).**

(On May 26, 1916 (Cal. No. 185), the general subject of the classification of pavements was referred to the Committee on Assessments.)

(On April 27, 1917 (Cal. No. 22), the report of the Committee on Assessments was presented and the matter laid over until this meeting.)

The Secretary presented the following report of the Committee on Assessments:

April 11, 1917.

To the Board of Estimate and Apportionment, City of New York:

Gentlemen—At the meeting of the Board of Estimate and Apportionment, held on May 26, 1916, the general subject of the classification of pavements was, on motion of the President of the Borough of The Bronx, referred to the Committee on Assessments. On the same date there had been presented to the Board a report recommending an amendment of the classification of pavements adopted by the Board on June 6, 1912, by including in the list of preliminary pavements waterbound macadam of a thickness of not less than 6 inches when compacted and Portland cement concrete not less than 6 inches in thickness. It was believed, however, that the general question of pavement classification should receive further consideration, and the matter was referred to the Committee on Assessments for this purpose.

The Committee on Assessments, at a meeting held on June 20, 1916, referred this entire question to a special committee consisting of the Chief Engineer of the Board of Estimate and Apportionment, the five Borough Consulting Engineers, Messrs. Adamson and Sullivan of the Bureau of Contract Supervision, and President Ormond of the Board of Assessors. As the time of several members of this special committee was fully taken up with the preparation of the Budget for 1917, the committee was unable to give the matter serious consideration until after the adoption of the Budget. Since that time the subject has been carefully considered by this special committee, a report from which committee has been presented to your committee, and the whole question has been further discussed by your committee and several of the members of the special committee. The conclusions reached, as embodied in the recommendations hereinafter made, are almost identical with the recommendations of the special committee, the only differences being that this committee has included a provision

limiting the width or the proportion of the roadway upon which preliminary pavements shall be laid and has also provided for a thickness of less than 6 inches of concrete in the case of permanent pavements when so directed by the Board of Estimate and Apportionment.

Your committee concurs in the belief of the members of the special committee that preliminary pavements should be of low cost, and such pavements as asphalt block, sheet asphalt and bituminous concrete or any pavement requiring a concrete foundation have been omitted from the classification of preliminary pavements. The committee believes it desirable that such changes as are made should not involve an amendment of the present law and the action recommended to the Board can be taken under the present charter provision.

The classification decided upon by your committee and hereby recommended is as follows:

**Preliminary pavements:**  
Granite block on sand;  
Bituminous macadam not less than 6 inches thick (penetration method);  
Waterbound macadam not less than 6 inches thick, with bituminous treatment.  
(Each of the above pavements to be laid at a width equivalent to 60 per cent. of the total width of the roadway, but not to exceed 20 feet, except when the Board of Estimate and Apportionment shall otherwise direct. Except that when there are railway tracks in the street the width of the pavement shall not be more than 10 feet outside of the track or tracks on either side thereof, unless the Board of Estimate and Apportionment otherwise directs.)

Portland cement concrete not less than 6 inches thick to be laid only under such conditions and at such width as may be prescribed by the Board of Estimate and Apportionment in each case.

**Permanent Pavements:**  
Granite block, laid with joints not exceeding 1/2 inch in width.  
Wood block not less than 4 inches in depth, treated with a waterproofing and preserving material.  
Vitrified brick, not less than 3 1/2 inches in depth.  
Asphalt block, not less than 2 1/2 inches thick.  
Sheet asphalt, with a wearing surface not less than 2 inches thick and binder not less than 1 inch thick.  
Bituminous concrete not less than 2 inches thick.

All permanent pavements to be laid on a Portland cement concrete foundation not less than 6 inches thick, unless the Board of Estimate and Apportionment otherwise directs as to streets which are essentially residential.

A resolution providing for an amendment of the classification of pavements as above proposed is submitted herewith. In order to avoid confusion and the necessity of the amendment of the resolutions already adopted by the Local Boards, the resolution submitted provides that it shall apply to all paving improvements which may be initiated by the Local Boards after the date of its adoption. Respectfully submitted.

DOUGLAS MATHEWSON, President of the Borough of The Bronx; JOHN PURROY MITCHEL, Mayor; ALBERT E. HADLOCK, Deputy and Acting Comptroller; MARCUS M. MARKS, President of the Borough of Manhattan; Committee on Assessments.

The President of the Borough of The Bronx moved that the Committee on Assessments be discharged from further consideration of the matter and that the papers be placed on file.

Which motion was agreed to by the following vote:  
Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Brooklyn, The Bronx and Queens—10.

Negative—The President of the Borough of Manhattan and the Acting President of the Borough of Richmond—3.

#### MATTERS CONSIDERED BY UNANIMOUS CONSENT.

The following matters not on the Calendar for this day were considered by unanimous consent:

**New York Central and Hudson River Railroad Company—Alteration and Improvement of Tracks and Structures on the West Side of the City (Cal. No. 141).**

Laurence McGuire, President, Real Estate Board of New York, presented the following report of the Special Committee on Appraisal of the Real Estate Board of New York; which was ordered printed in the minutes and filed:

*Report of the Special Committee of Appraisal of the Real Estate Board of New York on the Lands and Easements Involved in the Proposed Agreement Between The City of New York and the New York Central Railroad Company Relating to the West Side Improvement.*

Real Estate Board of New York, 217 Broadway, New York, May 24, 1917.

Honorable JOHN PURROY MITCHEL, Chairman, Board of Estimate and Apportionment:

In accordance with your approval of the proposal of the Real Estate Board of New York communicated to the Board of Estimate and Apportionment on February 14th and March 1, 1917, the undersigned, a Committee appointed on behalf of the Real Estate Board, has undertaken to value the lands and easements involved in the proposed agreement between the City of New York and the New York Central Railroad Company relating to the West Side Improvement, as shown in Appendix "B" attached to the Report of the Committee on Port and Terminal Facilities of the Board of Estimate and Apportionment dated April 22, 1916.

The Committee has held thirty sessions.

Messrs. William A. Prendergast, Comptroller; Charles A. O'Malley, of the Real Estate Bureau of the Finance Department; John F. Sullivan, of the Bureau of Contract Supervision of the Board of Estimate and Apportionment; William H. Allen and Robert Rosenbluth, of the Institute of Municipal Research; R. C. Harrison, Deputy Dock Commissioner; Marcus M. Marks, President of the Borough of Manhattan; Travis H. Whitney, Public Service Commissioner; Lawson Purdy, President of the Department of Taxes and Assessments; Martin McHale, Thomas B. Graham, William J. Van Pelt and Sig. Cederstrom, have appeared before the Committee and have been heard.

Every member of the Committee has examined each parcel of land specified in said Appendix "B."

The Committee has limited itself to the valuation of such lands and easements and values the same as severally stated in the schedule hereto annexed, except that it is not informed as to the matters included in the item "For a release of the City's record title in and to premises over which the Railroad Company has a perpetual right of user," and, therefore, without valuing the same, and for purposes of comparison only, it restates the valuation given to this item in Appendix "B," viz., \$500,000.

The Committee has assumed that the statements in Appendix "B" in respect of titles and dimensions are correct. Respectfully submitted,

LAURENCE MCGUIRE, Chairman; WILLIAM L. DE BOST, WALTER STABLER, ALFRED E. MARLING, FRANK D. AMES, ROBERT R. RAINEY, JOSEPH H. WARD, WALDRON P. BELKNAP, FRANCIS K. STEVENS, Committee.

FRANCIS S. BANGS, Counsel to the Committee.

J. Blecker Miller, Secretary, League to End Death Avenue, addressed the Board in the matter.

The Comptroller offered the following resolution:

Resolved, That the Board of Estimate and Apportionment hereby expresses its appreciation and thanks to the Real Estate Board of New York for the work done by its Committee in connection with the valuation of the lands and easements involved in the proposed agreement between The City of New York and the New York Central Railroad Company relative to the West Side Improvement and extends its congratulations upon the completion of an undertaking of such importance in so short a space of time.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

#### President, Borough of Queens—Expenditure of Corporate Stock Funds (Cal. No. 142).

The Secretary presented the following communication from the President of the Borough of Queens:

May 24, 1917.

To the Board of Estimate and Apportionment, Municipal Building, N. Y. City:

Sirs—On July 11, 1911, your Board approved of an issue of Corporate Stock amounting to \$101,600, to provide funds for the acquisition of a site and the construction of a refuse destructor and appurtenances in the Rockaway section of the Fifth Ward, this Borough.

A site has been acquired and preliminary plans submitted for the construction of the same, final plans for which will soon be submitted to your Board for approval.

It is necessary that a dump board be constructed on the property in order that a place may be provided whereby scows may be loaded with the collections from this section during the coming summer, the contract for which is about to be advertised. In previous contracts for the removal of garbage and refuse the contractor was obligated to furnish a dock. In view of the fact that the City owns an available site for such dock it is my judgment that the contract bid, without the requirement on the part of the contractor to furnish a dock, would result in a substantial saving to the City.

In accordance with a procedure prescribed by your Board I therefore request that you adopt a resolution authorizing an expenditure of a sum not exceeding two thousand dollars (\$2,000) from the Corporate Stock Fund entitled 6-C, Acquisition of a Site and the Construction of a Refuse Destructor, etc., at Rockaway, for the purpose of constructing a dock and dump board. Very truly yours,

MAURICE E. CONNOLLY, President of the Borough of Queens.

The following was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, hereby approves the expenditure, in accordance with the provision of section 419 of the Greater New York Charter, of two thousand dollars (\$2,000) for the purpose of constructing a dock and dump board to be used in connection with the operation of the Rockaway refuse destructor, under the jurisdiction of the President of the Borough of Queens, the cost to be charged to the corporate stock fund entitled "CPQ 6c—President of the Borough of Queens, Acquisition of Land and Construction of Refuse Destructor at Rockaway, Queens."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

#### New York Central and Hudson River Railroad Company—Alteration and Improvement of Tracks and Structures on the West Side of the City (Cal. No. 143).

The President of the Borough of The Bronx offered the following:

Whereas, Senate bill, Int. No. 9, Pr. No. 2057, introduced by Senator Ottinger, entitled:

An act to amend chapter seven hundred and seventy-seven of the laws of nineteen hundred and eleven, entitled "An act to provide for the regulation and improvement of the railroad, terminals and approaches thereto, and of the motive power to be used thereon, of the New York Central and Hudson River Railroad Company in the city of New York, and for such purpose for discontinuing the use at grade by said company of certain streets, avenues, public parks or places in said city, and also for such purpose, to authorize the city of New York to grant real property and rights to said railroad company and to acquire real property and rights from said railroad company," to provide for approval of the agreement between the city and such railroad company by the public service commission for the first district, and in default of such agreement being made for adoption by said commission of a general plan and drawings for said regulation and improvement of the said railroad and of the motive power to be used thereon,

—has been duly passed by both houses of the Legislature of the State of New York, and after a disapproval thereof by the Mayor of the City of New York, has been repassed by the Legislature, notwithstanding such disapproval, and is now pending before the Governor of the State of New York for his approval or disapproval; and

Whereas, It is the opinion of the Board of Estimate and Apportionment of the City of New York that if such legislation become a law it will place upon the statute books an act subversive of those principles of home rule, considered by the enlightened public opinion of the day, essential to efficient municipal administration and government, placing, as it does, a veto power upon the action of the governing body of the City in the hands of a State board, and providing, as it does, in certain contingencies, for the exercise by a State board of functions of city planning that are essentially municipal and not State functions; and

Whereas, The said Board is further of the opinion that the placing of such act upon the statute books of the State will indefinitely postpone the solution of the so-called West Side problem, for so many years a vexing one, with much consequent detriment to the interests of the City of New York, both as concerns the development of its commercial interests and the comfort and safety of its people; now therefore be it

Resolved, That the Board of Estimate and Apportionment of the City of New York does respectfully request that the Governor of the State of New York refuse his official approval to such legislation.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Presidents of the Boroughs of Brooklyn and The Bronx and the Acting President of the Borough of Richmond—10.

Negative—The President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan and Queens—6.

#### Presidents of the Boroughs of The Bronx and Queens; Department of Street Cleaning—Amendment of Resolution for Transfers of Appropriations (Cal. No. 144).

(On May 18, 1917 (Cal. No. 39), the Board adopted a resolution approving of certain transfers within appropriations made to various offices and departments for years 1915 and 1916.)

The Comptroller offered the following resolution:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment on May 18, 1917 (Calendar No. 39), transferring certain amounts within the appropriations made to various offices and departments for the years 1915 and 1916, be amended by the substitution in three items new amounts for the amounts therein stated, as follows:

PRESIDENT, BOROUGH OF THE BRONX.

Personal Service, Wages Regular Employees, Administration and Public Works.

465 Care of Sewers and Highways, \$2,987, to read..... \$2,987 12

PRESIDENT, BOROUGH OF QUEENS.

DEPARTMENT OF STREET CLEANING.

Contract or Open Order Service, General Repairs, Maintenance of Buildings and Equipment.

2366 Manhattan, \$239.07, to read ..... 239 70

Which was adopted by the following vote:

Affirmative—The Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—13.

#### Park Avenue, Both Sides, from East 58th Street to East 60th Street, Borough of Manhattan—Amendment of Building Zone Resolution (Cal. No. 145).

(On May 11, 1917 (Cal. No. 243), the petition in this matter was referred to the Committee on the City Plan.)

The Secretary presented the following report of the Committee on the City Plan:

May 21, 1917.

Board of Estimate and Apportionment:

Gentlemen—On May 11, 1917, the Board received and referred to the Committee on the City Plan the petition of George Ehret, requesting an amendment to Use District Map, Section No. 8, so as to change from a residence district to a business district the property at the southeast corner of 59th Street and Park Avenue, Borough of Manhattan.

At the request of the Committee the President of the Borough of Manhattan held a public hearing on the proposed change. No one appeared in opposition.

Under the Zone plan, Park Avenue from 51st Street to 95th Street, with the single exception of the 57th Street corners, is in a residence district. Fifty-ninth Street is in a business district between Fifth Avenue and Second Avenue with the exception of the four corners at Park Avenue. The southeast corner of 59th Street and Park Avenue is the property of the petitioner and is at present used as a club house of the Arion Society. It is now about to become vacant, and the petitioner wishes to lease it for studios and art exhibition purposes. The southwest corner of 59th Street and Park Avenue is occupied by offices of the Board of Education. The northwest corner is occupied by stores and dwellings and the northeast corner by a four-story garage and repair shop. Fifty-ninth Street is distinctly a business street, and in view of the existing uses and tendencies your Committee believes that the business district should be extended across Park Avenue so as to include within the business district the property on Park Avenue to within 100 feet of the parallel cross streets (60th Street and 58th Street).

Your Committee recommends that the Board fix a day for a public hearing on the proposed amendment to Use District Map Section No. 8 so as to include within a business district the areas on both sides of Park Avenue within 100 feet thereof, between a line parallel to East 60th Street and 100 feet southerly therefrom measured at right angles and a line parallel to East 58th Street and 100 feet northerly therefrom measured at right angles to said street, Borough of Manhattan.

Respectfully submitted, JOHN PURROY MITCHEL, Mayor, Chairman; MARCUS M. MARKS, President, Borough of Manhattan; LEWIS H. POUNDS, President, Borough of Brooklyn; DOUGLAS MATHEWSON, President, Borough of The Bronx; MAURICE E. CONNOLLY, President, Borough of Queens; HENRY P. MORRISON, Acting President, Borough of Richmond; Committee on the City Plan.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby fixes Friday, June 22, 1917, at 10.30 o'clock a. m., and Room 16, City Hall, Borough of Manhattan, City of New York, as the time and place for a public hearing on a proposed amendment to Use District Map, Section No. 8, so as to include within a business district the areas on both sides of Park Avenue within 100 feet thereof, between a line parallel to East 60th Street and 100 feet southerly therefrom, measured at right angles, and a line parallel to East 58th Street and 100 feet northerly therefrom, measured at right angles to said street, Borough of Manhattan.

Which was adopted by the following vote:

Affirmative—The Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—13.

#### Eighth Coast Defense Command, N. G., N. M.—Approval of Specifications, Etc. (Cal. No. 146).

Clark D. Rhinehart, Secretary, Armory Board, appeared in favor.

The Comptroller offered the following resolution:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, hereby approves specifications and estimates of cost, as modified, not including architects' fees, for work at the new Eighth Coast Defense Command Armory, as follows:

1B. Wood desks, cases, shelves, etc..... \$10,002 00

1C. Standard furniture ..... 18,432 00

4. Kitchen equipment ..... 7,250 00

Lighting fixtures ..... 15,000 00

—the cost to be charged to the corporate stock fund entitled "C. A. B.—2B, Armory Fund, Eighth Coast Artillery District, Erection of Completed Armory, Including Architects' Fees"; provided that in the event that the aggregate sum of the lowest bids received for items 1B, 1C and 4 is equal to or less than the aggregate sum of the same items herein approved (although the amount of the lowest bid for one or more items may exceed the amount approved for said item or items), then the awards of

items B, 1C and 4 may be made without further approval by the Commissioners of the Sinking Fund, and further provided that if the aggregate of the lowest bids for items B, 1C and 4 exceed the aggregate of those items herein approved, or if the lowest bid for the item of lighting fixtures exceeds the sum herein approved, then the sum herein approved may be reconsidered by the Commissioners of the Sinking Fund, or its duly authorized representative, provided the aggregate of such bids is within the amount available in the fund.

Which was adopted by the following vote:

Affirmative—The Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—13.

#### Fire Department—Approval of Contract, Plans, Specifications, Etc. (Cal. No. 147).

The Secretary presented the following communication from the Fire Commissioner:

February 19, 1917.

Subject: Contract 113. Approval of Contract.

Hon. JOHN PURROY MITCHEL, Mayor, and Chairman, Board of Estimate and Apportionment, City of New York:

Sir—I have the honor to submit to you herewith, for approval of your Board, proposed Contract 113, including specifications and plans for reconstruction of subway manholes and construction of drains and sewer manholes on Transverse Road No. 2, Central Park, and in the vicinity of 79th Street, in the Borough of Manhattan.

The reconstruction of the subway manholes is necessary, as the existing manholes are of sufficient size to safely accommodate the main feeder cables entering the Central Office Building.

The construction of drains and sewer manholes is necessary, as the Central Office Building is so located that seepage cannot be drained without the use of a pump, the cellar floor being below the elevation of the sewer in front of the building. Due to the danger from water in the Central Office Building, it is essential that the drainage system should be reliable.

It is requested that prompt action be taken on this contract in order that the completion of the fire alarm system may not be unnecessarily delayed.

The estimated cost of this contract is \$23,000. Yours very truly,

ROBERT ADAMSON, Fire Commissioner.

Clarence H. Fay, Deputy Fire Commissioner, appeared in favor.

The Comptroller offered the following resolution:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, hereby approves the form of contract, modified plans and specifications and estimate of cost in the amount of eight thousand dollars (\$8,000) for rebuilding 38 subway manholes in Transverse Road No. 2, Central Park (79th street), and in adjacent streets east and west, along the lines of the concentrating subway, under the jurisdiction of the Fire Commissioner; the cost to be charged to the corporate stock fund, "CFD-3B, Construction of Fire Alarm Telegraph System, Borough of Manhattan," provided that if no bids are received for said work within the estimated cost, the amount of such estimated cost upon the bids so received may be reconsidered in its discretion by the Board of Estimate and Apportionment, or any official acting in its behalf, provided any of the bids is within the amount authorized or available for said work.

Which was adopted by the following vote:

Affirmative—The Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—13.

#### Territory Bounded by Beach, Wright, Van Duzer and Water Streets, Borough of Richmond—Amendment of Building Zone Resolution (Cal. No. 148).

The Secretary presented a petition dated May 24, 1917, from Charles H. Moses and Irving D. Johnson, for amendment of Area District Map, Section No. 21, so as to change from a "B" to an "A" district, the area bounded by Beach, Wright, Van Duzer and Water Streets, Borough of Richmond.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby fixes Friday, June 15, 1917, at 10.30 o'clock a. m. and Room 16, City Hall, Borough of Manhattan, as the time and place for a public hearing on a proposed amendment to Area District Map, Section No. 21, so as to include in an A district the area bounded as follows: Beginning at the northeasterly corner of Wright Street and Van Duzer Street, thence northerly on the easterly line of Van Duzer Street to the easterly side of Bay Street; thence southerly on the easterly side of Bay Street to the northerly line of Broad Street; thence westerly on the northerly line of Broad Street to the easterly side of Brook Street; thence northerly on the easterly line of Brook Street to the northerly line of Wright Street; thence westerly on the northerly line of Wright Street to the point of beginning, Borough of Richmond.

Which was adopted by the following vote:

DEPARTMENT OF FINANCE.

WARRANTS MADE READY FOR PAYMENT IN DEPARTMENT OF FINANCE  
TUESDAY, JUNE 5, 1917.

Below is a statement of warrants made ready for payment on the above date, showing therein the Department of Finance voucher number, the dates of the invoices or the registered number of the contract, the date the voucher was filed in the Department of Finance, the name of the payee and the amount of the warrant.

Where two or more bills are embraced in the warrant, the dates of the earliest and latest are given, excepting that, when such payments are made under a contract, the registered number of the contract is shown in the place of the second invoice date.

Where the word "final" is shown after the name of the payee, payment will not be made until thirty days after the completion and acceptance of the work, but all

of the other warrants mentioned will be forwarded through the mail unless some reason exists why payment is to be made in person, in which event written notice will be promptly given to the claimant.

In making a written or verbal inquiry at this office for any of the above mentioned warrants, it is requested that reference be made by the Department of Finance voucher number.

WILLIAM A. PRENDERGAST, Comptroller.

Cable Tester, Fire Department: Report C-190, Adolph M. Jensen.

Upon the recommendation of the Committee on Appeals, the appeals of the following named candidates in the examinations specified for re-ratings of certain of their papers were denied: James F. Degnan, promotion to Lieutenant, Fire Department; John J. Quinn, Electrician; Sullivan A. S. Paterno, Mechanical Draftsman (Heating and Ventilating).

The Commission denied the appeal of Samuel Keyburn, 201 E. 118th st., Manhattan, for a re-rating on his efficiency record, letter and duties paper in the examination for promotion to Assistant Court Clerk, Grade 2, City Magistrates' Courts, and then considered the question of removing his name from the promotion list for having written certain new matter in his papers on an occasion when he had called at the office of the Commission to inspect the same. It appearing that the candidate had been given an opportunity to make an explanation of his action to the Committee on Appeals on March 26, 1917, and had not made a satisfactory explanation, on motion, it was

Resolved, That the name of Samuel Keyburn, 201 E. 118th st., Manhattan, be and the same hereby is removed from the list of promotion to Assistant Court Clerk, Grade 2, City Magistrates' Courts, under the provisions of clause 14 of Rule VII.

A report dated April 17 was presented from the Acting Chief Examiner, submitting a statement of examinations held during the month of March, 1917. The report was ordered filed.

Upon the recommendation of the Acting Chief Examiner in reports (3) dated April 17 it was

Resolved, That the following promotion eligible lists be and the same hereby are promulgated:

Clerk, Fourth Grade, office of the Mayor.

Stenographer and Typewriter, Third Grade, office of the Mayor.

Assistant Engineer, Grade E, office of the President of the Borough of Richmond.

A report dated April 13 was presented from the Acting Chief Examiner recommending in accordance with the request of the Director of the Bureau of Contract Supervision, Board of Estimate and Apportionment, that the name of Joseph F. Neil be certified from the promotion list of Clerk, Second Grade, Bureau of Standards, to fill a vacancy in the position of Clerk, Second Grade, in the Bureau of Contract Supervision, there being no list for the Bureau of Contract Supervision and the

said employee having been continuously employed in the Supplies Division, which was part of the Bureau of Standards before said Bureau was transferred to the Bureau of Contract Supervision, also recommending that the order for a special examination for promotion to Clerk, Second Grade, Bureau of Contract Supervision for Mr. Neil be cancelled. The recommendations were adopted.

A report dated April 11 was presented from the Acting Chief Examiner stating that he had been informed that in the physical examination for Court Attendant on that date seven candidates had been rejected because they were under five feet seven inches and one-half in height while the printed advertisement for the position called for a minimum height of five feet seven inches. The action of the Acting Chief Examiner in arranging a physical re-examination of the seven candidates rejected was approved and it was ordered that all candidates who were rejected for short height be re-examined, the Commission being of the opinion that perhaps more than seven candidates might have been affected by the error.

The following reports were presented from the Acting Chief Examiner:

Report dated April 13, recommending that the preferred list of Transitman, Grade C, be certified to the Commissioner of Street Cleaning as an appropriate list from which to appoint one Engineer-Inspector, Borough of Manhattan, at \$1,200 per annum for a period not to exceed six months.

Report dated April 13, recommending that an examination be ordered for promotion to the position of Librarian, City Court, to be open to all Assistant Clerks and Deputy Clerks serving not less than one year and that pending the result of the examination the assignment of Louis Schaefer, an Assistant Court Clerk, as Librarian, be authorized, under clause 3 of Rule XII, effective as of April 16, 1917.

Report dated April 14, recommending that an examination be ordered for promotion to the position of Electrician in the Bureau of Fire Prevention, Fire Department, to be open to all wiremen, linemen and battery men serving not less than three years in their respective positions.

The recommendations were adopted.

The following reports were presented from the Examiner in Charge of the Bureau of Investigation:

Report dated April 16 recommending that certification of the names of Ida M. Gaskell and Anna F. Cronin from the eligible list of Probation Officer be withheld and that the five other candidates named in the report be marked "Qualified" on said list.

Report dated April 16 recommending that George H. Ewans, a candidate on the eligible list of Patrolman, be summoned before the Commission.

Report dated April 16 recommending that Frank Girardi, a candidate on the eligible list of Elevatorman, be summoned before the Commission.

Report dated April 16 recommending that the disqualification appearing against the name of Arthur W. Christoffersen on the eligible list of Patrolman be removed.

Report dated April 11 recommending that the disqualification appearing against the name of Joseph P. McMahon on the eligible list of Patrolman be removed.

Report dated April 16 recommending that the papers in the case of Mary F. Sweney, a candidate for employment as Trained Nurse in the Department of Health, under clause 11 of Rule XVIII, be filed, she having resigned from that position.

Report dated April 16 recommending that John R. Hebe, a candidate on the eligible list of Fireman, be summoned before the Commission.

The recommendations were adopted.

A report dated April 16 was presented from the Examiner in Charge of the Bureau of Investigation relative to George J. Prince, a candidate for employment as Caretaker, Department of Education, under the provisions of clause 11 of Rule XVIII. The Secretary was instructed to mark the candidate "Qualified" for the desired employment.

Reports (2) dated April 16 were presented from the Examiner in Charge of the Bureau of Investigation relative to Edward Hulpritt and Charles S. D. Holliday, candidates on the eligible list of Patrolman, whose cases had been considered at previous meetings of the Commission, and referred back to him for further investigation. On motion, it was

Resolved, That the disqualification appearing against the following-named candidates on the eligible list of Patrolman be and the same hereby is removed: Edward Hulpritt, 47 Sutton st., Brooklyn; Charles S. D. Holliday, 223 Stuben st., Brooklyn.

Reports dated April 12 and 14, respectively, were presented from the Examiner in Charge of the Bureau of Investigation, recommending that Emmie J. Howard and Matilda K. Foster, candidates on the eligible list of Probation Officer, be marked "Qualified." The recommendation was adopted and the action of the Secretary on April 10, in directing that the names of the said candidates be certified from the eligible list, pending future investigation, was approved.

Upon the recommendation of the Advisory Board, in a report dated April 17, it was

Resolved, That the Secretary be and he hereby is instructed to proceed with an open competitive examination for the position of Nurse, Female.

Upon the recommendation of the Acting Chief Examiner, in the same report, the following form of advertisement for the examination for Nurse, Female, was approved:

Applicants must be citizens of the United States and residents of the State of New York.

The subjects and weights of the examination are: Experience, 3; Duties, 4; 70 per cent. required. Practical test, 3; 70 per cent. required. 70 per cent. general average required.

A qualifying physical examination will be given.

Applications for this examination must be filed on a special blank, Form D.

Duties: The duties of this position include field nursing and medical social service work in connection with the supervision of the health of school children, the investigation and reporting of cases of communicable diseases, baby health station and infant welfare work, and the visiting of the homes of the sick to demonstrate nursing care or to provide for their social betterment.

Requirements: Candidates must be registered nurses of the State of New York and must furnish proof of registration when filing applications. It is desirable that they should have had experience in connection with social service departments of hospitals, visiting nurse associations or other forms of public health nursing.

Certifications will be made from the list to the Health Department for public school work, baby health stations, communicable diseases, and similar assignments.

Candidates must be at least 21 years of age and not more than 45 years of age on or before the closing date for the receipt of applications.

The compensation rates proposed by the Board of Estimate and Apportionment for this position are from \$900 to \$1,080. Under the terms and conditions of the budget for the year 1917 appointments will, as a rule, be made at the lowest compensation rate.

There are frequent vacancies in the Department of Health.

The term of the eligibility of the list resulting from this examination is fixed at not less than one year nor more than four years.

A report dated April 14 was presented from the Examiner in Charge of Service Records, recommending that the Commission accept the service ratings submitted by the Board of Elections for the period ending Dec. 31, 1916. The recommendation was adopted.

Reports dated April 12, 13 (2), 14, 16 and 17 (2) were presented from the Certification Clerk, requesting approval of his action in certifying from the eligible lists of Clerk, Second Grade, Male; Telephone Operator, Grade 1, Male; Stenographer and Typewriter, Grade 2, Male; Prison Keeper; Dentist, Grade 2; Tabulating Machine Operator (Hollerith) and Clerk, First Grade, Female, the names of candidates not reported upon by the Bureau of Investigation. The action of the Certification Clerk was approved.

Upon the recommendation of the Certification Clerk in reports dated April 10, 11, 17 and 17, respectively, it was

Resolved, that the Secretary be and he hereby is instructed to proceed with examinations for the following positions: Laborer, Borough of Brooklyn; Marine Stoker, Deckhand, Part IV; Carpenter, Part IV.

Reports (2) dated April 12 were presented from the Payroll Bureau relative to Llewellyn MacNeil, serving as Chief Trained Nurse in the Board of Inebriety, and John McCabe, serving as Deckhand in the Department of Public Charities. The Secretary was instructed to note on the records the appointments of the said persons in the capacities specified, under clause 11 of Rule XVIII, effective as of March 26, 1917, subject to future investigation.

A communication dated April 13 was presented from the Assistant Secretary to the Mayor, returning, duly approved by the Mayor, the resolution of the Municipal Commission, waiving the requirement of residence in the State of New York in the case of Alfred O. Doane, 1 Ashburton pl., Boston, Mass., to permit his employment as Mechanical Expert by the Board of Water Supply. On motion, it was

Resolved, that, under authority of clause 6a of Rule XII of the Rules of the Municipal Civil Service Commission, Alfred O. Doane, 1 Ashburton pl., Boston, Mass., be and he hereby is excepted from examination, to be employed as Mechanical Expert by the Board of Water Supply from time to time for a period of one year, provided, however, that his total compensation shall not exceed \$750.

The Secretary was instructed to note on the records the following reassignments to duty in accordance with notifications from the departments concerned, under the dates specified:

A communication dated April 13 was presented from the Secretary of the Department of Public Works, Borough of Manhattan, stating that employees appearing upon the payrolls of his department under the title of Mason (Sewer Repair) who formerly held the titles of Bricklayer, Mason, Foreman Bricklayer and Foreman Mason were in future appear under their former titles, the request for the classification of the position of Mason (Sewer Repair) having been disapproved. The Secretary was instructed to note the fact on the records.

A communication dated April 14 was presented from the Deputy Commissioner of the Mayor's Bureau of Weights and Measures calling to the attention of the Commission Assembly Bill Printed No. 1897, Introductory No. 1526, being "An Act to amend the General Business Law in relation to temporary Sealers." The Secretary was instructed to inform the Assistant Corporation Counsel in Charge at Albany that the Commission was opposed to the passage of the Bill.

Communications dated April 4 and April 9, respectively, were presented from the Department of Public Charities relative to the employment of Mrs. Benton E. Wells and Lewis C. Fisher. The Secretary was instructed to amend the records to show the appointment of Mrs. Wells on March 31 as Social Investigator at \$1,080 per annum instead of as Clerk at that salary, and the appointment of Lewis C. Fisher as Clerk at \$720 per annum instead of at \$600 per annum.

A communication dated April 10 was presented from the Chief of Staff of the office of the Commissioner of Accounts forwarding at the request of George C. Raines, an Accountant in his office, a transcript of the record of the said employee therein. The Secretary was instructed to amend the records by noting thereon the following facts in connection with the employment of Mr. Raines in the office of the Commissioner of Accounts: June 19, 1895, appointed as Clerk at \$720 per annum; Nov. 1, 1895, salary fixed at \$900 per annum; May 1, 1897, salary fixed at \$1,100 per annum; Nov. 1, 1897, salary fixed at \$1,200 per annum; March 19, 1898, Examiner at \$1,200 per annum.

A communication dated April 16 was presented from the Secretary to the Commissioner of Public Works, Borough of Manhattan stating that the notice to the effect that Joseph T. Smith, Laborer, had been dismissed was in error and requesting that the Commission's records be amended accordingly. The request was granted.

A communication dated April 17 was presented from the Chief Engineer of the Board of Estimate and Apportionment stating that the person certified to him from the preferred list of Stenographer and Typewriter, 3d Grade, for temporary appointment as Stenographer and Typewriter at \$1,200 per annum had declined appointment on account of salary. The Secretary was instructed to certify for temporary appointment the competitive eligible list of Stenographer and Typewriter, Grade 3, Male.

A communication dated April 11 was presented from the President of the Borough of Richmond requesting certification of the promotion list of Topographical Draughtsman, Grade C, Bureau of Engineering, from which to make one promotion at \$1,200 per annum. The request was denied, there being a preferred list for the position.

A communication dated April 10 was presented from the Secretary of the Committee on Care of Buildings of the Board of Education relative to William F. Farrell, Peter Reilly, Cornelius Flynn, James M. Reilly, Henry Murphy, Gustavus Dela Motta, Charles F. Shading and John J. O'Neill, Janitor Engineers, whose names had been deducted from the payrolls. The request for approval of the payrolls of Messrs. Murphy and Dela Motta was denied, they being ineligible under clause 4 of Rule XI, for the salaries appearing opposite their names and the payrolls of the other employees named were approved.

The following reports of departmental boards of examiners for positions in the Non-Competitive Class were approved upon the recommendation of the Acting Chief Examiner: Department of Public Charities, March 3, 29 (2), April 3 (2), 4, 5 (2), 9, 11, 13 and 14.

A report dated April 18 was presented from the Certification Clerk, submitting a statement of certifications of names in excess of the number prescribed by the rules. The certifications were approved, the additional names having been certified to anticipate declinations on account of salary, location, etc.

The Certification Clerk, in his calendar of matters pertaining to certifications called attention to the fact that a card addressed to the Chief Clerk of the Department of Finance, in reply to a notice regarding appointment from the eligible list of Bookkeeper, Third Grade, was signed "Alfred H. Brundage, 1717 Westchester ave., Bronx," and stated that such name did not appear upon the eligible list, but that the name of "Abraham" H. Brundage, 1226 Evergreen ave., Bronx, did appear thereon; that he had communicated with said Abraham H. Brundage, requesting to be informed whether he was the person who signed the card referred to and if so the reason for the use of the name "Alfred" and that he had received no reply to said communication. The Secretary was instructed to mark the candidate "Not Qualified" on the eligible list.

The declinations of appointment of the following-named candidates from the eligible list specified on account of illness, impracticability of leaving other employment, etc., were approved: Playground Attendant, Preferred: Jeanette Moskowitz, Mary L. Johnson. Coal Sampler: William H. Kershaw. Laborer, Brooklyn: William Tabb, Domenico Cavallo, Giacomo Lodato, Hyman Ger, Giovanni Mignone, Carmello Lampariello, Carmine Cirolia, Salvatore Nardone, Michele Puglia, Henry McCormick, Harry Ginsburg, Jeremiah Ward, John Dempsey. Attendant, John Healy; Carpenter, Preferred, William H. Blatchford; Clerk, Second Grade, Female, Kathleen E. Murphy; Fireman, Brooklyn, Frank Smith; Clerk, Second Grade, Male, Arthur Isaacs; School Farm Attendant, Preferred, Robert C. Hatch; Playground and Gymnasium Attendant, Henry Waldman; Plumber, Preferred, William Moylett.

The declinations of appointment of the following-named candidates from the eligible lists specified, for the reasons above set forth, were also approved, and the Secretary was instructed to withhold certification of their names until further notice: Timothy M. Ladden, Fireman, Uniformed Force; Sam Schneider, Clerk, Second Grade; Gabriel Cohen, Stenographer and Typewriter, Second Grade, Preferred; Charles A. Ferrin, Health Inspector, Food; Estelle J. Ellisson, Civil Service Examiner; David L. Nogel, Clerk, Second Grade.

The requests of the following-named candidates for restoration to the eligible lists specified were granted, their failure to reply to notices regarding appointment, declinations of appointment, etc., having been satisfactorily explained to the Commission: George J. Foerster, William Goldstein, Attendants; Josephine M. Larkin,

Annie Mann, Stenographer and Typewriter, Second Grade; Harry Sumner, Laborer, Preferred; Charles Andres, Laborer, Preferred, Queens; Katherine E. Rourke, Clerk, Second Grade, Female; Evelyn G. Gumprecht, William Goldstein, Veronica M. Tumbirdy, Clerk, First Grade; Benjamin M. Weatherwax, Clerk, Second Grade, Preferred; Harry B. Simon, Laborer, Brooklyn; Alice M. Duffan, Nurse, Temporary Service; Thomas F. Lee, Climber and Pruner, Preferred.

The declinations of appointment of the following-named candidates from the eligible lists specified were disapproved and the Secretary was instructed to record them as ineligible for further certification therefrom: Jacob I. Polstein, Attendance Officer; Hans Tradelius, Topographical Draftsman, Grade C, Preferred.

The Secretary was instructed to note on the records that the following-named candidates did not desire certification from the eligible lists specified for appointment: at less than the amounts specified: Mary V. Collins, Telephone Operator, Grades 1 and 2, \$900 per annum; Eva Rosenberg, Stenographer and Typewriter, Grade 2, \$900 per annum; Abraham Brown, Attendant, \$840 per annum.

The requests of the following-named persons for rehearings in connection with the removal of their names from the eligible list of Patrolman were denied: Anthony F. Spicariich, 3910 Bailey ave., Bronx; George J. Eisentraut, 125 Manhattan st., Manhattan; Harry Else, 8 Worthington st., Winfield, L. I.

The request of S. A. Schneidman, 70 W. 47th st., Manhattan, for a rehearing in connection with the removal of his name from the eligible list of Veterinarian, was denied.

The request of Max Lutkewitz, 144 Monroe st., Manhattan, that his name be removed from the list of persons disqualified for employment in the City service, was denied.

The Commission denied the request, under date of April 9, of Virginia MacMackin, 265 Henry st., Manhattan, that it accept her application for the position of Probation Officer, which had been rejected for the reason that the vouchers signing the same had not known the candidate for a year, as required by the rules. The request was denied.

The Secretary was instructed to summon August Blum, 205 Meserole st., Brooklyn, before the Commission, in connection with his request that his name be removed from the list of persons disqualified for employment in the City service.

A communication dated April 9 was presented from Frank Nearing, 114 W. 84th st., Manhattan, requesting that his name be restored to the eligible list of Inspector of Public Works, Grade 2, from which he had been appointed to the position of Inspector of Regulating, Grading and Paving, from which position he had subsequently been suspended for lack of work. The request was granted, in accordance with an opinion of the Corporation Counsel dated Jan. 17, 1916, in a similar case.

The requests of the following named persons for permission to amend their statements as to date of birth where in error in their papers in the examinations specified were granted: Charles F. Lynch, Watchman; Edward W. Kelly, Stenographer and Typewriter.

#### Matters Not Upon the Calendar Considered by Unanimous Consent.

The following reports were presented from the Examiner in Charge of Service Records:

Report dated April 12 recommending that the Commission accept the service ratings of the office of the Mayor for the periods ending March 31, June 30 and Sept. 30, 1916.

Report dated April 17 recommending that the Commission accept the service ratings of the Board of Water Supply for the period ending Dec. 31, 1916.

Report dated April 17 recommending that the Commission accept the service ratings of the Police Department for the period ending Sept. 30, 1916.

The recommendations were adopted. Upon the recommendation of the Certification Clerk in a report dated April 18, it was

Resolved, That the Secretary be and he hereby is instructed to proceed with an examination for the position of Laborer, Borough of Richmond.

After consideration of the future status of a number of Stationary Engineers suspended, or about to be suspended, from the Department of Water Supply, Gas and Electricity because of the closing of several pumping stations due to the introduction of water from the Catskill water supply, the Commission ordered that the preferred list of Stationary Engineer be certified for the position of Janitor Engineer at a salary of less than \$1,620 per annum, provided

1st: That there is no preferred list for the position of Janitor Engineer; and

2d: That Stationary Engineers appointed from the preferred list to the position of Janitor Engineer shall not be eligible to receive a salary of \$1,620 per annum or more within one year of appointment as Janitor Engineer.

The proviso that such Janitor Engineers shall not receive a salary of \$1,620 per annum or over within one year of appointment as Janitor Engineer was based on the fact that the title of Janitor Engineer was to be placed in the graded service either under the title of Janitor Engineer or some other appropriate title in the near future.

The request of John P. Stenner, 522 W. 161st st., Manhattan, that his name be restored to the eligible list of Patrolman was denied.

The Commission then adjourned to meet Wednesday, April 25, 1917, at 10.30 a. m.

ROBERT W. BELCHER, Secretary.

#### Minutes of Special Meeting of the Municipal Civil Service Commission of New York, Held Monday, April 23, 1917, at 11 A. M.

Present: Dr. Henry Moskowitz, President, and Alexander Keogh, Commissioner. The President presided.

Upon the recommendation of the Acting Chief Examiner in reports (4) dated April 23, it was

Resolved, That the following promotion eligible lists be and the same hereby are promulgated: Bridge Tender, Department of Plant and Structures; Clerk, Second Grade, office of the City Chamberlain; Attendant, Grade 1, College of The City of New York; Clerk, Second Grade, Police Department.

Upon the recommendation of the Acting Chief Examiner in a report dated April 23, it was

Resolved, That the eligible list of Superintendent of Mortuary be and the same hereby is promulgated, subject to future investigation of the candidates thereon.

The Commission then took up the request of Mary F. Hogan, 220 W. 69th st., Manhattan, that her name be removed from the list of persons disqualified for employment in the City service, which request had been considered at a previous meeting of the Commission. On motion, it was

Resolved, That the application for the position of Nurse's Assistant of Mary F. Hogan, 220 W. 69th st., Manhattan, whose name appears upon the list of persons disqualified for employment in the City service, be and the same hereby is accepted, her name, however, to remain upon said disqualified list for all other positions in the City service.

The Commission then adjourned to meet Wednesday, April 25, 1917, at 10.30 a. m.

ROBERT W. BELCHER, Secretary.

**Proposals.**

SEALED BIDS WILL BE RECEIVED BY the Police Commissioner at the Bookkeeper's Office, Headquarters of the Police Department, 240 Centre st., until 12 noon on

FRIDAY, JUNE 8, 1917.

NO. 1. FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED IN MAKING AND COMPLETING REPAIRS AT THE 7TH, 21ST AND 149TH PRECINCT STATION HOUSES.

NO. 2. FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED IN THE INSTALLATION OF NEW PLUMBING WORK AND FIXTURES AT THE 7TH, 21ST AND 149TH PRECINCT STATION HOUSES.

The time allowed for the performance of each contract is Seventy-five (75) consecutive calendar days.

The amount of security for the performance of the contract shall be thirty (30) per cent. of the total amount for which the contract is awarded.

The bidder will state the price for which he will do all the work and provide, furnish, and deliver all the labor and materials mentioned and described in said contract and specifications, on each Precinct Station House for which he desires to bid.

The bids will be compared and award made to the lowest bidder on each contract for each precinct.

No bid will be considered unless it is accompanied by a deposit, which shall be in an amount not less than one and one-half (1½) per cent. of the total amount of the bid.

For particulars as to the nature and extent of the work required or of the materials to be furnished, bidders are referred to the specifications, and to the plans on file in the office of the Bureau of Repairs and Supplies, Headquarters of the Police Department, 240 Centre st., Manhattan.

Bidders are requested to make their bids upon the blank form prepared by the Commissioner, a copy of which with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, can be obtained upon application therefor at the office of the Bureau of Repairs and Supplies, Headquarters of the Police Department, 240 Centre st., Manhattan.

A. WOODS, Police Commissioner.

**Corporation Sale by Sealed Bids of Permits for Stands in the West Washington Market.**

SEALED BIDS FOR THE PERMITS TO OCCUPY the stands, No. 3, No. 4, No. 5 and No. 6, 13th ave., in the West Washington Market, in the Borough of Manhattan, will be received by the Comptroller on

WEDNESDAY, JUNE 6, 1917,

at 11 a. m., at the office of the Collector of City Revenue, Department of Finance, Room 368, Municipal Building, Borough of Manhattan, upon the following

**TERMS AND CONDITIONS:**

Each bid must be accompanied by cash or certified check in the amount of \$50, which will be returned to the unsuccessful bidders within twenty-four hours after the sale, and to the successful bidder upon the issuance of the permits and the payment of the first two weeks' rental.

Bids may be made for each stand separately or for the four stands collectively, and the four stands will be allotted to one bidder if any bid for all of the stands is greater than the total of the highest amounts bid for each stand separately.

The upset or minimum prices which will be considered are the present rentals of the stands, which are as follows:

No. 3, 13th ave., \$7.50 per week; No. 4, 13th ave., \$7 per week; No. 5, 13th ave., \$7 per week; No. 6, 13th ave., \$7.50 per week.

No bids will be received from any former permit holder whose permit has been revoked for cause.

The Comptroller reserves the right to reject any or all bids if deemed to be to the interest of The City of New York.

**Corporation Sale of the Lease of Certain City Real Estate.**

UPON THE AUTHORIZATION OF THE Commissioners of the Sinking Fund, and pursuant to a resolution adopted by them at a meeting held May 24, 1917, the Comptroller of The City of New York will sell at public auction on

TUESDAY, JUNE 12, 1917,

at 12 noon, in Room 368, Municipal Building, Borough of Manhattan, the lease of premises in the Borough of The Bronx fronting 50.01 feet on the westerly side of the Grand Boulevard and Concourse and 100.02 feet southerly from the southerly side of East 164th street, formerly known on the tax maps of The City of New York, Borough of The Bronx, as Lot 37, Block 2470, Section 9, also known as Damage Parcel No. 17, "In the matter of acquiring title to an extension of and approaches to the southerly end of the Grand Boulevard and Concourse from E. 158th st. to E. 164th st." for a period of three years from June 15, 1917.

The minimum or upset rental at which said lease shall be sold is hereby fixed at the sum of Three Hundred Dollars (\$300) per annum, payable quarterly in advance, and the said sale will be made upon the following

**TERMS AND CONDITIONS:**

The successful bidder to expend not less than \$800 in putting the building in good condition.

The highest bidder will be required to pay twenty-five (25) per cent. of the amount of the yearly rental bid at the time and place of sale; the amount so paid for one quarter's rent shall be forfeited if the successful bidder does not execute the lease when notified it is ready for execution.

No person shall be received as lessee who is a delinquent on any former lease from the corporation, and no bid shall be accepted from any person who is in arrears to the corporation upon debt or contract, or who is a defaulter as surety or otherwise upon any obligation to the City, as provided by law.

The lease will be in the usual form of leases of like property, and will contain, in addition to other terms, covenants and conditions, as follows:

First—A clause providing that the lessee shall pay the usual rates for water per meter measurements and comply with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Second—A clause providing that the lessee shall not make any alterations or improvements on the property except with the consent and approval of the Comptroller.

Third—A clause providing that during the term of the lease, or any renewal thereof, the lessee shall keep the building in proper repair, both inside and outside, at his own cost and expense, and shall comply with all the laws and ordinances of the State and City of New York.

Fourth—A clause providing that all repairs, alterations and improvements made on or to the property by the lessee during the period of the lease, or any renewal thereof, shall become the property of the City of New York at the expiration of the lease.

Fifth—A clause providing that the rent thereof shall not commence until June 15, 1917, but that the lessee may take possession of the premises immediately upon execution of the lease, and shall be liable for any damages which may occur in and to the premises to be demised from the date thereof.

The Comptroller shall have the right to reject any and all bids, if deemed to be in the interest of the City of New York.

ALBERT E. HADLOCK, Deputy and Acting Comptroller, City of New York.

Entered May 21, 1917. Area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Brooklyn, in the City of New York, which, taken together, are bounded and described as follows, viz.:

1. Beginning at a point on a line midway between Troy ave. and Albany ave., distant 160 feet northerly from the northerly line of Crown st., and running thence eastwardly and parallel with Crown st. to a point midway between Schenectady ave. and Utica ave.; thence southwardly and always midway between Schenectady ave. and Utica ave. to the intersection with the southerly line of Canarsie Lane as this street is in use and commonly recognized; thence westwardly along the southerly line of Canarsie Lane to the intersection with a line midway between Troy

ave. and Schenectady ave.; thence northwardly along the said line midway between Troy ave. and Schenectady ave. and along the prolongation of the said line to a point distant 100 feet southerly from the northerly property line of Holy Cross Cemetery, the said distance being measured at right angles to the said property line; thence westwardly along a line parallel with the northerly property line of Holy Cross Cemetery to the intersection with the prolongation of a line midway between Albany ave. and Troy ave. as these streets are laid out south of Vernon ave.; thence northwardly along a line always midway between Albany ave. and Troy ave. and the prolongation thereof to the point or place of beginning.

2. Bounded on the north by a line distant 321.58 feet southerly from and parallel with the southerly line of Avenue F, the said distance being measured at right angles to Avenue F on the east by a line midway between Schenectady ave. and Utica ave. and by the prolongation of the said line; on the south by the centre line of the right of way of the Long Island Railroad, and on the west by a line midway between Troy ave. and Schenectady ave. and by the prolongation of the said line.

The above entitled assessment was entered on the day hereinafter given in the Record of Titles of Assessments kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid on or before July 20, 1917, which is sixty days after the date of said entry of the assessments, interest will be collected thereon at the rate of seven per centum per annum, to be calculated from ten days after the date of entry to the date of payment, as provided by Sections 159 and 987 of the Greater New York Charter.

The above assessment is payable to the Collector of Assessments and Arrears at his office in the Office of the Collector of City Revenue, Department of Finance, Room 368, Municipal Building, Borough of Manhattan.

PURSUANT to a resolution adopted by the Commissioners of the Sinking Fund, adopted at a meeting held May 31, 1917, the sale by sealed bids at the upset or minimum prices named in the description of each parcel of the above buildings and appurtenances thereto, will be held by direction of the Comptroller on

WEDNESDAY, JUNE 20, 1917, at 11 a. m., in lots and parcels, and in manner and form, and at upset prices as follows:

Parcel No. 123—Part of two-story frame house and one and one-half story extension, 2058 Blackrock ave. Cut 8.1 feet on east side of house by 3.1 feet on west side of extension. Upset price, \$50.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 368, Municipal Building, Borough of Manhattan, until 11 a. m. on the 20th day of June, 1917, and then publicly opened for the sale for removal of the above described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to the City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened June 20, 1917," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 368, Municipal Building, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

THE BUILDINGS WILL BE SOLD FOR IMMEDIATE REMOVAL ONLY, SUBJECT TO THE TERMS AND CONDITIONS PRINTED ON THE LAST PAGE OF THIS ISSUE OF THE "CITY RECORD."

EDMUND D. FISHER, Deputy and Acting Comptroller.  
City of New York, Department of Finance, Comptroller's Office, June 2, 1917. j6,20

City of New York, Department of Finance, Comptroller's Office, May 18, 1917. m22.21

**AT THE REQUEST OF THE COMMISSIONER OF WATER SUPPLY, GAS AND ELECTRICITY,** public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale by sealed bids certain buildings standing upon property owned by The City of New York, formerly used for water supply purposes, in the

#### Borough of Richmond.

BEING the buildings, etc., situated at the Steam Pumping Plant located on the Southfield Boulevard, between Evergreen ave. and Old Town rd., in the Borough of Richmond, which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room 368, Municipal Building, Borough of Manhattan.

PURSUANT to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held April 19, 1917, the sale by sealed bids of the above buildings and the appurtenances thereto will be held by direction of the Comptroller on

MONDAY, JUNE 11, 1917.

at 11 a. m., in lots and parcels and in manner and form as follows:

Parcel No. 1—Steam Pumping Plant located on the Southfield Boulevard between Evergreen ave. and Old Town rd., Linden Park, Staten Island, consisting of one-story frame building about 25 feet by 60 feet, containing two horizontal tubular boilers and appurtenances (one boiler 100 H. P. and the other 150 H. P.), set in brick work and equipped with independent steel stacks; two horizontal compound duplex engines and appurtenances (one of 1 M. G. D. capacity and the other of 2 M. G. D. capacity), equipped with surface condensers and capable of pumping against high pressure.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 368, Municipal Building, Borough of Manhattan, until 11 a. m. on the 11th day of June, 1917, and then publicly opened for the sale for removal of the above described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened June 11, 1917," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 368, Municipal Building, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidders assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions, shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

### NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS ON WORK TO BE DONE FOR, OR SUPPLIES TO BE FURNISHED TO THE CITY OF NEW YORK.

The person or persons making a bid for any service, work, materials or supplies for The City of New York, or for any of its departments, bureaus or officers, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the bids will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid shall contain the name and place of residence of the person making the same, and the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making a bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer or employee of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid must be verified by the oath, in writing, of the party or parties making the bid that the several matters stated therein are in all respects true.

No bid will be considered unless as a condition precedent to the reception or consideration of such bid, it be accompanied by a certified check upon one of the State or National banks or trust companies of The City of New York, or a check of such bank or trust company signed by a duly authorized officer thereof, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

All bids for supplies must be submitted in duplicate.

The certified check or money should not be inclosed in the envelope containing the bid, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid.

For particulars as to the quantity or quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter as surety or otherwise, upon any obligation of the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids in addition to inserting the same in figures.

Bidders are requested to make their bids upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done or the supplies are to be furnished. Plans and drawings of construction work may be seen there.
