W. F. HAVEMEYER,  
Mayor.

CITY OF NEW YORK, DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
August 22, 1874.

Hon. WILLIAM F. HAVEMEYER,  
Mayor.

SIR—I have the honor to transmit herewith a detailed statement of all accounts audited and allowed by this Department on account of the City of New York, and for which warrants have been drawn upon the Chamberlain, for the quarter ending June 30, 1874.

MAYOR'S OFFICE,  
NEW YORK, September 3, 1874.

#### To the Honorable the Board of Aldermen:

GENTLEMEN—I return herewith a resolution passed by your Honorable Body, granting permission to the Law Telegraph Company "to place in each of the Court-houses in this city, and in the office of the Register, a telegraph instrument to occupy a space therein not exceeding four square

feet," under the direction and supervision of the Commissioner of Public Works.

The permission proposed to be given to the Law Telegraph Company is in my opinion not sufficiently definite. It does not appear whether the privilege is intended to embrace every building in the city limits where court is held, or whether only the buildings known as the County Court-houses are included in the resolutions, and I therefore return the same for such consideration as will relieve the resolution from the ambiguity which I have suggested.

W. F. HAVEMEYER,  
Mayor.

Which was laid on the table and ordered to be printed in the minutes.

#### Also the following:

MAYOR'S OFFICE,  
NEW YORK, September 3, 1874.

#### To the Honorable the Common Council:

GENTLEMEN—I return herewith, without my approval, the accompanying resolution, to curb, gutter, and flag both sides of Eighty-fourth street, from Eighth to Tenth avenue, for the reason that the street in question, between the avenues named, has been once curbed, guttered, and flagged, with a four-foot flag, and as there is no petition from the property-owners on the line of the proposed improvement asking to have this work done, I withhold my approval from the same.

W. F. HAVEMEYER,  
Mayor.

Alderman McCafferty moved to refer to the Committee on Law Department.

The President put the question whether the Board would agree with said motion.  
Which was decided in the negative.

Alderman Cooper moved that the message be received, laid on the table, printed at length in the minutes, and published in full in the CITY RECORD.

The President put the question whether the Board would agree with said motion.  
Which was decided in the affirmative.

#### COMMUNICATIONS FROM DEPARTMENTS AND CORPORATION OFFICERS.

The President laid before the Board the following communication from the Department of Parks:

DEPARTMENT OF PUBLIC PARKS,  
OFFICE OF DESIGN AND SUPERINTENDENCE,  
NEW YORK, September 1, 1874.

To the Hon. HENRY G. STEBBINS,  
President of the Board:

SIR—I lay before you a communication from the Engineer of Parks and Places in regard to the Battery sea-wall. The Department has an appropriation for the purpose of its repair, which will not be available after this year, and the injury to the wall is constantly, though not rapidly, increasing. It therefore appears to me desirable that the work should be begun as soon as possible. I am reluctant to advise work to be done otherwise than by contract, while the Department pays for its labor at a much higher rate than contractors find to be necessary, but this work is of such a character that it cannot be let to good advantage, and I recommend an application to the Common Council for authority to undertake it by days' work.

Respectfully,  
(Signed) FRED. LAW OLMSTED,  
Landscape Architect.

CITY OF NEW YORK,  
DEPARTMENT OF PUBLIC PARKS,  
August 31, 1874.

FRED. LAW OLMSTED, Esq., L. A.:

SIR—Under direction of the Board, a short piece of the Battery wall (about 150 feet in length) was under-pinned, pointed, and repaired about July 1. Since that time I have made frequent examinations of the wall, and the effects of the action of the water upon it, and find that the repaired portion promises to stand fairly, although there has been no storm or other unfavorable circumstances which would be a trying test. A full test cannot be made until winter arrives, and the action of frost and high seas is observed. However, I believe that the wall can be repaired in accordance with the accompanying specifications, and that if these specifications are fully complied with, the life of the wall will be prolonged sufficiently to repay for a fair price for the repairs. It is very difficult to estimate what such a price should be, because the amount of mortar and concrete to be used in the innumerable interstices of the wall can only be known when the work is done. If the work is done by contract, the most thorough supervision by officers of the commission must be provided. Inspection will be necessary of all the work in its progress, because the greater portion of the new work will not be visible when complete. It must be understood that, after the work embraced in these specifications is finished, additional necessities may arise for other repairs to the wall, developed by the progress of these.

Respectfully,  
JOHN BOGART,  
Engineer D. P. P.

DEPARTMENT OF PUBLIC PARKS,  
GENERAL OFFICE,  
36 UNION SQUARE, N. Y., cor. Sixteenth st.,  
September 3, 1874.

To the Honorable the Board of Aldermen of the City of New York:

GENTLEMEN—The Board of Estimate and Ap-

portionment have given to this Department the sum of \$7,500 for the repair of the Battery sea-wall, which is in a very dangerous state at present. It was originally built by contract, and the repairs now needed are the consequence of the very imperfect manner in which the work was done.

A small portion of the work has been done by this Department within the last two months, at a cost of about \$250. The result of this experiment shows, as you will see by the inclosed copies of the communications of the Landscape Architect (Mr. Olmsted) and the Engineer (Mr. Bogart), that it will not be practicable or to the interests of the city to contract the work.

I am therefore instructed by the Board governing this Department to request that your Honorable Body will adopt the necessary ordinance under section 91, Chapter 335, Laws of 1873, to enable this Department to have the work of repairing the wall executed by days' work by employees under its own supervision.

It is necessary that this ordinance should be passed as soon as possible, as the appropriation of \$7,500 will lapse at the close of the present year. I inclose a form of resolution, which I respectfully submit to your consideration.

I remain, gentlemen,  
Yours, very respectfully,

HENRY G. STEBBINS,  
President Department of Public Parks.

Which was referred to the Committee on Public Works.

The President laid before the Board the following communication from the Department of Public Works:

DEPARTMENT OF PUBLIC WORKS,  
COMMISSIONER'S OFFICE,  
(ROOM NO. 19) CITY HALL,  
NEW YORK, July 21, 1874.

To the Honorable the Common Council of the City of New York:

GENTLEMEN—I am in receipt of a resolution adopted by your Honorable Body, and approved by his Honor the Mayor, on the 18th instant, directing "a permit to be issued to one Thomas W. Gager, to use the public hydrants in Grand street for the purpose of obtaining water to sprinkle the carriage-way of all that portion of Grand street east of the Bowery, upon payment of the usual fee, as provided by ordinance of the Common Council.

While desirous of complying with any request or direction of the Common Council, and without implying that due weight and consideration was not given to the subject of the resolution by your Honorable Body, it may not have occurred to you that the Commissioner of Public Works is bound by contract, through license granted to one David Johnson, for the season of 1874, to sprinkle with Croton water said Grand street, at the section named, and that the said Johnson has complied with the rules and regulations of the Department in prepaying his license fee for the use of the water. The granting of a license to a second party will naturally and justly involve the Commissioner of Public Works in litigation, which he would trust and hope to avoid. I have at present before me a communication from the Police Department, complaining of the nuisance created in Grand street by the excess of sprinkling the street, and preventing thereby the proper cleansing of the same, as in addition to the legitimate business of sprinkling by Mr. Johnson, who pays his revenue to the city, and who should be protected in his rights, Mr. Gager draws water from the river, and thereby creates a nuisance; how much greater would this be were he allowed to open the hydrants?

I would, with great respect, refer your Honorable Body to a communication addressed to the Committee on Public Works of the Board of Aldermen, dated June 13, 1874, wherein the facts of this case are fully set forth.

If Mr. Gager has a claim to sprinkle Grand street, because he held the license in 1873, then the claim might be made by Mr. McKnight, who held the privilege in 1872, or Mr. Colton, who held it in 1871—confusion would follow, or a monopoly be established, and the control of the water be materially interfered with.

Mr. Gager has been violating the ordinances of the city for several months (section 26, Chapter 45, Revised Ordinances of 1866), and it would be questionable policy to now reward him by granting him the means of creating a nuisance, and of leading the city authorities into litigation.

With all due deference, I would suggest that the subject be reconsidered.

Respectfully submitted,

GEO. M. VAN NORT,  
Commissioner of Public Works.

Alderman Gilon moved that the communication be referred to the Committee on Public Works.

Alderman Morris moved to amend by referring the communication to the Committee on Law Department.

The President put the question whether the Board would agree with said motion.  
Which was decided in the negative.

The President put the question whether the Board would agree with the motion of Alderman Gilon.

Which was decided in the affirmative.

#### Also the following:

DEPARTMENT OF PUBLIC WORKS,  
COMMISSIONER'S OFFICE, ROOM 19, CITY HALL,  
NEW YORK, July 25, 1874.

To the Honorable the Board of Aldermen of the City of New York:

GENTLEMEN—Upon reference to the proceedings of your Honorable Board on the 21st inst., as published in the CITY RECORD, I find that a petition was presented from "the members of the German Saloon-keepers' Association, requesting the repeal of the ordinance imposing a special tax for Croton water used at the various business places of the same," and that the petition was referred to the Committee on Public Works.

In consideration of the great importance of this subject, I have communicated with your Committee on Public Works, giving such information in relation to the same as might assist them to arrive at a proper decision in the matter, and as it will again come up in your Honorable Board for further or final disposition, I have the honor to submit herewith a statement of the facts communicated to your Committee, and to ask your earnest consideration of the same.

Under the provisions of the Law of April 11, 1849, the Revised Ordinances of the City provide as follows: "Porter-houses, taverns, and groceries shall be charged an extra rate of from three to thirty dollars, leaving it discretionary with the late Croton Aqueduct Board, or with its successor, the Commissioner of Public Works, to charge any rate within those amounts. In order to avoid the constant importunities of saloon-keepers to reduce the rates charged to them to the lowest amount fixed by the ordinance, the Commissioner of Public Works, in 1870, definitely established the two rates of ten and fifteen dollars for all saloons according to the amount and nature of the business transacted in them. It is needless for me to say that no discrimination is made for or against any "class" or "nationality" of saloon-keepers. The quantity of Croton water consumed by them is enormous, and if meters could be applied to them and they were charged by the quantity at the rates established by ordinance, they would undoubtedly have to pay a larger tax than they now pay. The revenue from this source amounts to from seventy-five thousand (\$75,000) to one hundred thousand (\$100,000) dollars annually, lessening to that amount the tax on real and personal property. Other kinds of business—manufactories, stables, hotels, barber shops, etc.—are charged extra water rent, amounting in the aggregate to over six hundred thousand (\$600,000) dollars annually, they could with at least equal propriety ask for a release from this tax, but the loss of it would have to be made up by direct taxation on real and personal property.

It remains for your Honorable Board to decide whether it would be prudent and proper to lessen the revenue from Croton water by releasing one class of consumers from a tax which is necessarily imposed upon others. In my opinion, the establishment of such a precedent would involve the ultimate loss of the entire revenue from Croton water rents, by the granting of similar exemptions. This revenue has nearly reached the amount \$1,500,000 annually, and is increasing; the rents have not hitherto been considered oppressive, and compare favorably with the rates charged in other large cities, where pure water is furnished with equal convenience to consumers.

Very respectfully,

GEO. M. VAN NORT,  
Commissioner of Public Works.

Which was referred to the Committee on Public Works.

The President laid before the Board the following communication from the Department of Finance:

CITY OF NEW YORK,  
DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
August 22, 1874.

#### To the Honorable the Board of Aldermen:

GENTLEMEN—The Receiver of Taxes has made requisition for additional room in which to transact the business of his bureau, rendered necessary in the collection of the Tax of 1874, by the annexation of the adjacent towns in Westchester County.

His communication to this Department on the subject is herewith submitted in order that such action may be taken as the circumstances of the case require.

I avail myself of this opportunity to state that the collection of the Tax of 1874 will commence within a few days.

Respectfully submitted,

ANDREW H. GREEN,  
Comptroller.

DEPARTMENT OF FINANCE,  
BUREAU OF THE RECEIVER OF TAXES,  
Court House, Park, 32 Chambers street,  
NEW YORK, August, 1874.

HON. ANDREW H. GREEN,  
Comptroller:

SIR—I respectfully request that additional room and proper facilities for the transaction of the increased business, made necessary for the annexation of the Westchester territory, be furnished for the use of this office. The desk room of the office is insufficient at this moment for the old twenty-two wards of the city, and great inconvenience will result to tax-payers unless immediate measures are

taken by the proper authorities to furnish the additional space and fixtures.

The present arrangement of this building will admit of such alterations as will accomplish this purpose without depriving other departments or offices of room at any time required for the public service, or the convenience of officials while in the performance of public duty.

It is necessary that the alterations, if ordered, should be commenced at once, and completed before the opening of the tax books.

I have the honor to be,

Very respectfully, etc.,

M. T. McMAHON,

Receiver of Taxes.

Which was ordered on file.

When, on the 24th day of January last, I commenced the examination of the Department, I found that, at the central office, the books were not in a condition in which any examination of them could be made. None of the books were written up to January 1, 1874, and the cash-book had not been written up since May 31, 1873. None of the Commissioners were apparently aware of the condition of their books, and could afford no information as to the accounts of the Department. The only explanation given for the neglect, in not keeping the books written up, was the statement of the book-keeper, who, at the time, received a salary of \$3,000, that he could not make a balance which would agree with the books of the Finance Department.

A partial investigation, which I then made into the affairs of the Department, led to a discovery by me that there was a cash balance in the Third National Bank of this city, to the credit of the Department, of \$8,819.67. Although this balance had been in bank since the month of May, 1873, I found that the Commissioners were not aware of its existence. As this money could not be drawn upon by the Department, the Charter requiring that the finances should be managed through the Department of Finance, I requested that the balance in bank should at once be handed over to the City Chamberlain, and this was accordingly done.

Before the investigation was little more than entered upon by me, I was requested by Messrs. Laimbeer and Stern, Commissioners, to adjourn the same for one week, by the end of which time they stated that the Book-keeper promised to have his book written up, and then the affairs of the Department could be readily enquired into. The delay asked for this purpose was accordingly granted by me, and at the end of the week allowed I again called at the central office of the Department to proceed with the investigation, when I found that no progress whatever had been made in writing up the books. Still further time was allowed for this purpose, the Commissioners undertaking to communicate with me whenever they had got entered the transactions of the Department in their books. No further information was received from the Commissioners on the subject until receipt of a resolution adopted by the Board of Charities and Correction on April 25, 1874. This resolution, a copy of which was forwarded to and received by the Commissioners of Accounts, is in the following terms:

"Resolved, That the Commissioners of Accounts are hereby respectfully requested to commence on or about the first day of May next, a thorough examination of all accounts of this Department, and especially ascertain the correctness or otherwise of the balance sheet: that will be submitted to them by the cashier of this office on the part of this Board."

As requested by this resolution, and as further instructed and directed by the resolution of the Board of Aldermen above set forth, I have made an examination into the books and accounts of the Department of Charities and Correction, and of the transactions of the Department, so far as these can be traced through the books and accounts examined. The books, such as are kept at the central office, I found written up, but not balanced. As the result of this examination and investigation I have to report:

First—That although the present Commissioners entered upon their duties, as explained, on the 19th day of May, 1873, no inventory was then made of the stock or property on hand belonging to the Department, and received over by the present from the old Commissioners. No evidence exists as to what quantities or of what value the dry goods or supplies were, in the store or on hand, on the 19th day of May, 1873, and it is impossible, therefore, to make any just or fair comparison between the material or supplies used by the present Board of Commissioners for the year they have held office with that of their predecessors for the year preceding.

Second—That at the central office nor in any other office of the Department are accounts kept with the various parties from whom purchases are made for the use of the Department.

Third—That the balance-sheets referred to in the resolution of the Board of April 25, 1874, were not correct. They were not made from any books kept in the office of the Commissioners, but chiefly from figures supplied by the Store-keeper on Blackwell's Island, and from an examination made of the books on Blackwell's Island. I found that, with the exception of the salary account and a few minor items, the only books at the central office were duplicates of those of the Store-keeper on Blackwell's Island; that they were in fact mere copies entered in books of returns made by the Store-keeper.

Fourth—The storehouse of the Department is situated on Blackwell's Island. The theory of the Department is, that purchases (except drugs and supplies for out-door poor) made for the Department are delivered to and received by the Store-keeper in charge of the store, and that

the same are examined and receipted for by him, and thereupon entered into his books. In reality, only a portion of the supplies of the Department ever pass through the hands of the Store-keeper, and although entered by him upon his books, are never examined or seen by him at all. For instance: All the flour ordered for the Department was delivered direct at the bakery (with the exception of 1,200 barrels hereafter referred to), which is situated on the opposite side of the island from where the store is, and is receipted for by the baker. No books prior to January 1, 1874, were kept at the bakery, containing a record of the goods received there. The bills for the flour delivered are received by the Baker, and transmitted by him to the Store-keeper, who thereupon enters the same upon the books kept at the store, and at the same time an entry is made in these books, charging the bakery with the goods specified in the bills. These goods are never seen or handled by the Store-keeper. Other goods ordered in specific quantities are, in the same way as the flour, sent to other institutions where they are received and receipted for by the officers in charge, and the bills for which, as in the case of the flour, are transmitted to the Store-keeper, who enters the same on his books, and charges the goods to the institutions from which he received the bills.

Fifth—The goods received by the Store-keeper are distributed by him upon his own responsibility. The Wardens or officers in charge of the several institutions make out semi-monthly requisitions upon the Store-keeper for the estimated quantities of supplies for the coming two weeks. These requisitions are transmitted direct to the Store-keeper, who, upon the requisition so made, furnishes from his stock what goods he has on hand in store, and embraces, in a general requisition upon the Commissioners, the supplies he requires to make up the deficiency, with such additions as he thinks proper to add for the general stock of the store.

Sixth—Upon the requisitions made by the Store-keeper, the Commissioners, in their discretion, order the supplies therein specified to be purchased. In making these purchases it appears no regard is paid by the Commissioners to the provision of the 91st section of chapter 335, Laws of 1873, which declares that "whenever any work is necessary to be done to complete or perfect a particular job, or any supply is needful for any particular purpose, which work or job is to be undertaken, or supply furnished for the Corporation, and the several parts of the said work or supply shall together involve the expenditure of more than one thousand dollars, the same shall be done by contract bids or proposals." This provision of the law, designed to secure economy in the purchases of supplies for the city, has been continuously evaded by the Commissioners of the Department of Charities and Correction in the supplies purchased by them. Instead of advertising for proposals for the supplies required, the Commissioners either purchased the same personally themselves or through purchasing clerks. The supplies so purchased or the invoices or bills for the same endorsed by the officials who receive the goods are delivered to the Store-keeper. The goods received by the Store-keeper are placed by him in stock and when delivered on the requisitions received by him from the officers of the respective institutions, are charged against such institutions by the Store-keeper in his books. All the invoices received by the Store-keeper—those for the goods delivered direct to the store, as well as those delivered at the different institutions and bakery, are certified to by the Store-keeper and returned by him to the central office. The invoices so transmitted to the Central Office are in duplicate; one duplicate is retained at the central office, and the other is supposed to be transmitted to the Department of Finance.

Seventh—In a number of instances the books kept by the Store-keeper, in which the goods either received or specified in the invoices transmitted from other institutions are entered, have been altered with the evident intent of evading the provisions of the 91st section of the Charter. This has been done where invoices of goods received by the Store-keeper are entered in the Store-keeper's books as received exceeded in value one thousand dollars. The original entries, showing the correct nature of the transaction, the date upon which the goods were received, the quantity received and the value thereof have been erased, and substituted entries made of different quantities of goods as received upon different dates. So numerous have these erasures been, that from the Store-keeper's books, which are the only record in the Department of the Supplies furnished and received, it is not possible to make up a true and correct statement as to goods actually furnished to the Department, and the dates upon which the same were received. As illustrative of the manner in which this system has been carried out, I cite the following instances: On July 14, 1873, a requisition was made up by the Store-keeper on the Board for brown sheetings and awning stripes; these were purchased from or through one Louis Sternbach, commission merchant, 36 Church street, who delivered the goods on July 31, 1873, when they were received and receipted for by the Store-keeper. The invoice which accompanied the goods was certified to by the Store-keeper; the charge for the goods, as stated in the invoice, being \$2,125.02. The bill so certified was transmitted in duplicate to the Commissioners and subsequently thereto, as stated by the Store-keeper in terms of instructions from the central office, he erased the entry in his books, under date of July 31, 1873, and made new entries as for July 30, July 31, and August 1, and the new bills which were made up to correspond with these entries. The Store-keeper certified that the goods therein specified were received by him on said respective dates, which was not true in point of fact, and these new certified bills were also transmitted in duplicate to the central office. Each of the three new bills were under one thousand dol-

lars. On June 16, 1873, another requisition was made by the Store-keeper on the Commissioners for 9,000 yards Melton gray cloth. These goods were also purchased through the same Louis Sternbach, and furnished in two quantities, viz., 4,369 yards on August 7, and 4,631 yards on August 11. The value of the first invoice, according to Sternbach's rate of charge, was \$1,868.07, and the value of the second invoice was \$1,979.86. The goods specified in these respective invoices were received on the dates stated by the Store-keeper, and entered by him on his books. These entries stand upon the Store-keeper's books as the correct record of the transaction, but instead of the two original invoices, each of which as shown was above one thousand dollars, five bills were substituted, each of which were less than one thousand dollars, and those bills which represented that the goods therein stated were received by the Store-keeper on August 4, 5, 6, 7, and 8, were certified to by the Store-keeper, transmitted to the central office, and are the bills on file in the Department of Finance, and paid by that Department. The transaction as to the purchase of Melton gray cloth was the subject of investigation before the Grand Jury, and the evidence, on this investigation, was published in the New York Herald of June 7, 1874. From that evidence it appears that the facts were not brought to the attention of the Grand Jury, that the purchase of the goods exceeded in value one thousand dollars, and that the provisions of the Charter were evaded by making up five different bills for the two transactions. But it is in the purchases of flour that this system of evasion, of the provisions of the Charter, has been most extensively carried out. Thus, between November 12 and 22, 1873, the following quantities of flour, of the following brands, were delivered at the bakery: On November 12, 1,000 barrels of the Banner, 100 barrels of the Clinton, 78 barrels of the Tontine, and 22 barrels of the Iowa City; on November 17, 175 barrels of Clinton, 100 barrels of Monroe; on November 21, 466 barrels Monroe. And there was delivered at the Store-house, on November 19, 600 barrels of Clinton; November 21, 466 barrels Monroe; and on November 22, 134 barrels of the Monroe; being a total delivery of 3,141 barrels. As this purchase exceeded \$20,000, an attempt was made to overcome the objection to which it was evidently exposed under the Charter, and, accordingly, entries were made by the Store-keeper, in his books, as if he had received on each of the dates, November 3, 5, 6, 7, 8, 10, 11, 12, 13 and 14, 150 barrels, being 50 of each of the brands, Banner, Clinton, and Monroe. All these entries were subsequently erased and new entries substituted; that the 3,141 barrels of flour referred to had not been received, as I have explained they were in fact, but that they had been received upon the following dates, and in the following quantities, viz.:

November 3	140 barrels of Banner.

3,141  
From January 1 to July 1, 1874, there was received at the Bakery, on specific dates, 7,916 barrels of flour. This flour was received on the dates and the quantities following, and the bills of the same were cut up or subdivided in the manner explained in the following table:

Date	No. of Bils. received.	SUBDIVISION OF BILLS.
January 17	270	
20	235	Store-keeper's invoice book has 5 bills for 135 barrels each.
24	170	
31	690	Store-keeper's invoice book has 5 bills for 138 barrels each, January 29th, 30th, 31st; February 2d, 3d.

20	478	Store-keeper's invoice book has 4 bills, February 16th, 17th, and 18th, 120 each; 19th 119 barrels.
March 6	467	Store-keeper's invoice book has 4 bills, March 5th, 11th, 17th, 11th, 17th, 9th, 116 barrels.
13	533	Store-keeper's invoice book has 4 bills, March 4th, 5th, and 6th, 133 barrels each; 7th, 134 barrels.
30	300	Store-keeper's invoice book has 3 bills, March 28th, 30th, 31st, 100 barrels.
31	399	Store-keeper's invoice book has 6 bills, March 30th, 100, 125, 100, 100, 125, and 125 barrels.
April 2	270	

21	550	Store-keeper's invoice book has 5 bills, April 17th, 18th, 20th, 21st, 125 barrels; and 22d, 50 barrels.
24	300	Store-keeper's invoice book has 3 bills, April 24th, 23d, and 25th, 100 barrels each.
May 4	200	Store-keeper's invoice book has 2 bills, April 29th and 30th 100 barrels each.
11	500	Store-keeper's invoice book has 5 bills, May 7th, 9th; 8th, 10th; 9th, 10th; 11th, 10th; 12th, 99 barrels.
13	475	Store-keeper's invoice book has 4 bills, May 8th, 11th; 9th, 120; 11th and 12th, 120 barrels each.
30	263	Store-keeper's invoice book has 2 bills, May 29th, 131; 30th, 132 barrels.
June 3	300	Store-keeper's invoice book has 3 bills, June 1st, 2d, and 3d, 100 barrels each.
8	500	Store-keeper's invoice book has 5 bills, June 1st, 50; 2d, 3d, and 4th, 110 each; 5th, 120 barrels.
July 1	200	Store-keeper's invoice book has 2 bills, June 29th and 30th, 100 barrels each.

It will be thus seen that the entries in the Store-keeper's books were not made showing correctly these various purchases, the quantities, dates, and amounts, but were made to conform to the altered bills, and these altered bills, certified by the Store-keeper, were transmitted in duplicate to the central office, and were subsequently paid by the Department of Finance. In the confusion created by this irregular mode of conducting the business of the Department, I find that in one instance, at least, both the original and the substituted bills, certified by the Store-keeper and by the Commissioners of Charities and Correction, and were transmitted for payment to the Department of Finance, and the creditors who furnished the flour, Messrs. E. W. Coleman & Co., were paid by the Finance Department the amount specified in both the original and substituted bills. This double payment was not discovered by any of the officials in the Department of Charities and Correction. Messrs. E. W. Coleman & Co. made known that on a balance of their accounts they found that they had been overpaid \$1,980, being for 300 barrels of flour purporting to have been delivered by them on November 3 and 11, 1873, and upon January 23, 1874, they paid to the Department of Charities and Correction this amount of \$1,980, and this sum was handed over by the latter Department to the Department of Finance. Subsequent to this repayment Messrs. Coleman & Co. further represented to the Department of Charities and Correction that they had made a mistake in repaying \$1,980 as for an overpayment on 300 barrels of flour, and that the amount that ought to have been repaid was only \$990. Whether this representation was correct in point of fact or otherwise the Commissioners had no means of testing, in so far as any books in the Department could afford information. The Store-keeper undertook to make an investigation, not in the books and papers of the Department, but in the books of Messrs. Coleman & Co.; and he, upon such investigation and comparison with his books, represented that he was satisfied that the overpayment to Messrs. Coleman & Co., in the first instance, had amounted to only \$990, and that they had repaid, instead of this sum, \$1,980. The Store-keeper, in his report on this subject to the Commissioners, under date January 26, 1874, says: "The discrepancy has arisen in this way: Two bills, each for \$990, which, in the transfer of invoices should have been destroyed, were (being already in the hands of the Comptroller) paid, and a bill of November 7 for 150 barrels flour, bought during the time between the purchase of the 3,000 barrels and its delivery, remain unpaid. In the adjustment of the account, and before it was ascertained just what the balance was, E. W. Coleman & Co. repaid the sum of \$1,980, for which they are credited in the account submitted. In the early part of the transaction it was discovered E. W. Coleman & Co. were overpaid \$506.63, which was afterwards corrected in this way:

"The bills of November 11, for	\$1,072 00
" " " " 12, " "	1,310 00
"Amounting to	\$2,382 00
"Were paid for	\$900 37
" " " " " "	975 00
	1,875 37
"Being short	\$506 63

"the amount paid in error."

I also find that in the supplies of groceries, and such like, the entries in the books have been altered, and a system similar to that which I have explained as to the purchase of flour, has been in practice, for the evident purpose of evading, if possible, the provisions of the 91st section of the Charter.

Eighth—I find bills for purchases of supplies, exceeding upon their face in value one thousand dollars, were certified by the Commissioners, transmitted to the Department of Finance, and most of which were paid as follows: Goods furnished in June, 1873, by H. K. Thurber & Co. and H. Wallach's Sons; in August, 1873, by Hollister & Chamberlain; in October, 1873, by Spencer & Havemeyer, Woodruff & Robinson, and H. K. Thurber & Co.; in November, 1873, by Armstrong & Morrison; in February, 1874, by Tefft, Griswold & Co. and H. K. Thurber & Co.; in March, 1874, by H. K. Thurber & Co. and Tefft, Griswold & Co.; in May, 1874, by H. K. Thurber & Co.; in June, 1874, by Spencer & Havemeyer.

Ninth—Section 116 of the Charter provides that "No subordinate, in any Department, shall

receive a greater salary than the salary paid to the head of the Department."

The highest salary paid to the head of the Department of Charities and Correction is to the President of the Department, whose salary, by the same section of the Charter, is fixed at \$6,500. On October 14, 1873, the Commissioners of the Department, by resolution adopted at the meeting of that date, appointed Charles G. Cornell Purchasing Clerk of Meats for the Board, and fixed his compensation at one-half cent per pound upon the purchases made by him. I find that between November 10, 1873, and June 26, 1874, being a little over seven months, Mr. Cornell's purchases of meats for the Department amounted to \$90,595.85, and that he has been paid as compensation or salary, as Purchasing Clerk during this period, the sum of \$8,749.47, being equal to a salary of more than double the amount paid to the President of the Department.

Tenth—As a result of that system of evasion of the provisions of the Charter carried on by this Department, and the impossibility of accurately determining the position of the Department in reference to the appropriation made by law for conducting it, I found that purchases made in the latter part of 1873, by the Department under its present administration, were found to be in excess of the appropriation remaining for that year. The Charter, section 89, provides that "no expenses shall be incurred by any of the Departments, Bureaus, or officers thereof, unless an appropriation shall have been previously made covering such expense." Finding that the purchases referred to were in excess of the appropriations remaining of 1873, the bills therefor were not transmitted by the Commissioners to the Department of Finance in 1873, but were altered so as to make it appear upon the face of the bills as if the purchases were made in 1874, and to be paid out of the appropriation of that year. It is impossible, on account of the alterations that have been made, to specify the amount of the bills so altered, but the same will exceed many thousand dollars. From the foregoing particulars it is evident that the system pursued in administering the affairs of the Department of Charities and Correction is one susceptible of considerable improvement, and it is to be hoped that with a view to the public interests such improvement will not be delayed.

Respectfully submitted,

LINDSAY J. HOWE.

**LAW DEPARTMENT.**

The Law Department declines to permit further litigation upon the question of the legal compensation of the Aldermen of the city, acting as Supervisors of the County of New York.

LAW DEPARTMENT—OFFICE OF THE  
COUNSEL TO THE CORPORATION,  
NEW YORK, September 2, 1874.

Hon. ANDREW H. GREEN, Comptroller,

SIR—I herewith return to you all papers in suits instituted against the city by the Aldermen, to recover compensation for the performance of the duties of Supervisors of the county, in addition to the salaries allowed them by law as Aldermen.

The question involved is one of law; and it has been determined against the city by several eminent judges. It is true, it lies within my official power to take this litigation to the highest court of the state; but this I decline to do, because I am satisfied that further litigation would be useless and expensive to the city, as well as unjust and vexatious toward the claimants. In my judgment the decision on this subject cannot and ought not to be reversed. The people do not object to the payment to public officers of such compensation as may be allowed them by a just and fair construction of the statutes so long as official powers are exercised in good faith for the protection of the city and the advancement of its interests.

This office can be of no further service in this litigation, and the matter must be remitted to the Finance Department for immediate adjustment.

I am, sir,

Very respectfully yours,  
E. DELAFIELD SMITH,  
Counsel to the Corporation.

LAW DEPARTMENT—OFFICE OF THE  
COUNSEL TO THE CORPORATION,  
NEW YORK, September 2, 1874.

Messrs. BROWN, HALL & VANDERPOEL,

GENTLEMEN—As attorneys of the plaintiffs in the several actions commenced by the Aldermen of the city to recover compensation for the performance of their duties as Supervisors, I have to inform you that I have written to the Department of Finance, declining to permit further litigation, and have transmitted to the Comptroller for his action all papers in these suits.

I have no doubt that both yourselves and your clients will reasonably await the action which the Comptroller must now take, to the end that further costs and expenses may be saved to the city.

I am, gentlemen,

Very respectfully yours,  
E. DELAFIELD SMITH,  
Counsel to the Corporation.
