Whereupon the Comptroller presented the following report:

To the Board of Estimate and Apportionment:

An estimate for work done in improving and constructing Riverside avenue up to August 21, 1879, in favor of Nicholas H. Decker and George W. Quintard, contractors, for the sum of \$37,234.67, has been received by the Finance Department from the Department of Public Parks. The estimate has been examined and allowed as correct by the Auditor of Accounts, who has made a special report to the Comptroller, herewith submitted, in relation to his audit, explaining the reasons why certain items of work done have been suspended, and are not included in the present estimate, in accordance with a report and recommendation made by a Commission of Civil Engineers appointed by the Mayor, the Comptroller, and the Department of Public Parks.

The bonds heretofore authorized to pay the expense of improving and constructing Riverside avenue have been all issued and the amount expended, and the authority of the Board of Estimate and Apportionment is required for a further issue of bonds to pay said estimate of \$37,234.67, and also for the payment of the salaries of Engineers employed on said work, which fall due on the 1st of November proximo, amounting to nearly two thousand dollars.

A resolution is submitted for that purpose.

Respectfully,

JOHN KELLY, Comptroller.

FINANCE DEPARTMENT—COMPTROLLER'S OFFICE,
October 30, 1879.

FINANCE DEPARTMENT—COMPTROLLER'S OFFICE,
October 28, 1879.

Hon. JOHN KELLY, Comptroller:

SIR—I herewith submit an estimate in favor of Nicholas H. Decker and George W. Quintard, transmitted by the Department of Parks, August 21, 1879, amounting to \$37,234.67, being for work done in improving and constructing Riverside avenue, up to August 1st, last.

On the 30th of October, 1878, an estimate for work done under this contract was transmitted to this Department, accompanied by a protest against its payment of Mr. Smith E. Lane, one of the Commissioners of the Department of Parks.

His reasons for the protest were very fully set forth in a communication to you of the 15th November, but on the 20th November he withdrew his protest, for the reasons, as stated in his letter, that a Commission of Civil Engineers had been appointed to examine and report upon the work, and

also in view of the fact that thirty per centum of the amount earned is reserved, which he considered as ample to indemnify the City against all loss and claims, also that the withholding the warrant from the contractors would prevent the payment of wages due a large number of laborers.

This estimate was paid by this Department November 27, 1878.

The Commission of Civil Engineers consisted of Mr. Charles H. Haswell, nominated by you, Mr. Wm. E. Worthen, nominated by the Mayor, and Mr. John Bogart, nominated by the Department of Parks.

They submitted a report of their examination December 26, 1878, which condemned the following described portions of the work:

Parapet wall.
Coping (a portion of it).
The refilling over drain pipes.
Pavement of wheelway.
Foundation stone of drive.
Gutters.
Blue-stone curb and edging.
Flagging.

Also that about 25,500 cubic yards of earth had been allowed for as excavation, at 30 cents per cubic yard, instead of being allowed as embankment at 5 cents per cubic yard.

An estimate, amounting to \$5,099.48, was transmitted to this Department January 10, 1879, but as it included the work reported against by the commission, it was not audited and remains unpaid.

The work on the avenue was resumed in the spring of this year, and Mr. Wm. J. McAlpine, as Superintending Engineer, under whose direction the greater portion of the Drive was reconstructed, and the faulty portions of the work remedied, excepting the parapet wall.

During the summer several examinations were made by the commission, and in August a statement of quantities of materials delivered and work performed up to August 1 was submitted to them, upon which it was proposed that an estimate should be based.

The commission addressed you the following:

NEW YORK, August 15, 1879.

Hon. JOHN KELLY, Comptroller:

The Commission of Engineers appointed by you in the matter of the construction of Riverside avenue submitted the following, in reference to a statement of quantities of materials and work submitted this day to them, by the Auditor of the Finance Department, giving an estimate of the materials delivered and work done up to the 1st inst., on Riverside avenue.

We suggest that the item of 25,437 16-100 cubic yards of excavation earth should for the present be deducted from the estimate, until a decision is arrived at with reference to the propriety for paying for excavation exterior to the boundary line of the avenue.

Also that for the present the item of parapet wall be reduced to the 238 cubic yards erected in 1879, and that an immediate and careful examination be had of the remainder; also, that as regards the coping for parapet wall, the sum of \$2 per lineal foot be paid for all the coping on which the draft has been cut, and the sum of \$1.96 per lineal foot be paid for all coping delivered upon which the draft has not been cut.

I have the honor to be very respectfully,

CHAS. H. HASWELL, Chairman.

On the 21st August, the accompanying estimate was transmitted to this Department, based upon the statement of quantities which had been submitted, and from which the Superintending Engineer has deducted the items as suggested by the Commission in their note to you.

This estimate would have been before submitted to you with my audit, but for the filing of a protest by John McEncroe, Jr. (who claims to be a partner in the contract), against the payment to Decker & Quintard of any further money.

The Corporation Counsel having advised this Department as to whom and under what circumstances the estimate can legally be paid, that question is removed, and I have affixed my audit.

It is proper to state that on the 21st August, a communication was received from Commissioner Lane, informing you that as a member of the Auditing Committee he had refused to audit this estimate, for the reason that his personal examination of the work satisfied him that it had not been performed according to the contract, and that he claimed that the certificate of Superintending Engineer McAlpine, affixed to the approximate estimate of work claimed to be performed and material furnished, is incorrect.

I have not considered the protest of Mr. Lane, in view of the report of the Commission of Engineers, as of sufficient weight to be at all regarded.

The amount of material furnished and the quantity of work done cannot be determined by a personal examination of an inexperienced, and the Engineer's certificate as to quantities is, by the terms of the contract, to be accepted as final, besides, a sufficient time has elapsed since he filed his protest (August 21st) to have enabled him to explain in detail in what the certificate of the Superintending Engineer is incorrect, and if he had any personal knowledge or otherwise that the certificate had been fraudulently made, it became his duty as an officer of the Corporation to have so informed this Department.

In regard to the items which have been deducted, being for the parapet wall and the earth excavation, a final examination will be made by the Commission to determine whether the wall can be reconstructed so as to conform to the specification, and whether the excavation should be paid for as such or as embankment.

Until this determination, these items of work will be regarded by this Department as having not been performed, and will not be audited and allowed on any estimate.

Respectfully,

D. JACKSON, Auditor of Accounts.

—and offered for adoption the following resolution:

Resolved, That the Comptroller be and he is hereby authorized to issue at such rate of interest as he may determine, not exceeding five per cent. per annum, "Assessment Bonds," for the sum of forty thousand dollars, in pursuance of chapter 447 of the Laws of 1876, for improving and constructing Riverside avenue.

Which was laid over.

The Comptroller moved that when the Board adjourn, it do so to meet on Friday, October 31, 1879, at 11 o'clock A. M.

Which was agreed to.

On motion, the Board adjourned.

JOHN WHEELER, Secretary.

DEPARTMENT OF
PUBLIC CHARITIES AND CORRECTION,
No. 66 THIRD AVENUE.

TO CONTRACTORS.

SEALED BIDS OR ESTIMATES FOR REMOVING two (2) boilers from Bellevue Hospital, and one (1) from Randall's Island, will be received at the office of the Department of Public Charities and Correction, in the City of New York, until 9 o'clock A. M. of Saturday the 15th day of November, 1879. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate" for removing three boilers, and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the head of said Department and read.

The Department of Public Charities and Correction reserves the right to decline any and all bids or estimates it deemed to be for the public interest. No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt, or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

The entire work will be required to be completed on or before thirty (30) days after the date of the contract.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal sum of one thousand dollars.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; and the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; and also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for his faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; and the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept to contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Bidders are cautioned to examine the specifications for particulars of the work, etc., required, before making their estimates.

Bidders will state the price for removing the boilers by which the bids will be tested.

Bidders will write out the amount of their estimate, in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, issued on the completion of the contract, or from time to time as the Commissioners may determine.
