For any electronic recycler utilized by the manufacturer, the certification must include copies of all federal and state transportation, operation and disposal permits. Such certification shall be issued by an officer or management plan that meets all of the requirements of §16-423 of the Administrative Code unless a waiver pursuant to §16-423(e) of the Administrative Code is approved by the department. Such waiver shall only be approved upon a detailed showing of good cause by the manufacturer why it is unable to comply with any such requirement.

(b) A manufacturer's request for a waiver must be submitted prior to or with the submission of the manufacturer's proposed electronic waste management plan, or any proposed plan modification to which such request relates, by letter to the department. Should the department disapprove a manufacturer's waiver request, such manufacturer will be notified in writing of the reasons for such disapproval. Such manufacturer shall then submit the required information with its electronic waste management plan or proposed modification thereof, if such request for a waiver was submitted prior to the submission of such plan or modification, or 30 days after notification of the Department's disapproval, if such request for a waiver was submitted with such plan or modification.

(3) A waiver pursuant to paragraph one or two of this subdivision shall only be approved upon a detailed showing of good cause in accordance with subdivision (a) of this section and the submission of the alternative pro rated sales data as required by such paragraph.

(d) Except as provided in \$17-08(h) of this chapter, the approval of any waiver pursuant to this section shall not affect the manufacturer's obligation to comply with any other requirement of Chapter 4-A of Title 16 of the Administrative Code or this chapter, including without limitation any reporting requirement contained in \$17-08 of this Chapter and/or \$16-428 of the Administrative Code.

§17-05 Department Audits.

The Department will review the manufacturer's explanation and determine whether such requirement must be complied with, in whole or in part, or need not be complied with.

§17-09 Additional Clarification.

(a) A manufacturer seeking clarification whether any of its products are covered electronic equipment may send a letter explaining in detail such product to: Deputy Commissioner for Legal Affairs, New York City Department of Sanitation, 125 Worth Street, Room 710, New York, NY 10013.

(b) Any person who requires clarification whether it is a manufacturer may send a detailed letter explaining its operations in New York City to: Deputy Commissioner for Legal Affairs, New York City Department of Sanitation, 125 Worth Street, Room 710, New York, NY 10013.

\$17-10 Applicability. In addition to the rules set forth in this

currently or previously sold under the brand name of such manufacturer. For example, pursuant to the collection requirements set forth in Administrative Code § 16-422(b)-(d), a cathode ray tube television must be accepted with the purchase of a liquid crystal display or plasma screen television. A printer with multiple functions, such as scan, fax and copy functions, must be accepted with the purchase of a printer with only a printing function. A computer that includes a monitor and central processing unit in one device (including, but not limited to, a laptop computer) shall be considered the same as a desktop computer with separate $% \left({{{\bf{n}}_{{\rm{s}}}}} \right)$ monitor and central processing unit components. However, a manufacturer of only televisions will not be made to accept a computer monitor or a desktop computer. These rules set forth procedures for a manufacturer to submit its electronic waste management plans to the Department. Every such plan must be submitted to the Department on an electronic waste management plan

submission form provided by the Department. This form will be available on the Department's website and or in hard copy by mail after the rules are published as final. Additionally, these rules establish specific information for mandatory inclusion in a manufacturer's electronic waste

mandatory inclusion in a manufacturer's electronic waste management plan. Every manufacturer must submit a \$1,500.00 fee with its proposed plan as required by Local Law 13.

The Department's rules also define the term "convenient collection". Because of the unique characteristics of New York City, including the low percentage of citizens with access to vehicles, it is critical that convenient collection be defined in a manner that makes disposing of unwanted covered electronic equipment as easy as possible for the citizens of New York City.

The rules set forth a procedure that allows a manufacturer to apply for a waiver of any of the required elements of an electronic waste management plan submitted to the Department. Should a manufacturer be unable to meet any of the enumerated requirements, a waiver must be requested from the Department and any such waiver may only be granted upon a showing of good cause.

The rules also establish labeling requirements for covered electronic equipment. Local Law 13 requires the manufacturer to provide information on how a person can return covered electronic equipment pursuant to such manufacturer's electronic waste management plan at the point of sale. These rules clarify that such information must be provided in writing and may be included on the receipt of purchase, on or inside the product box, in any equipment manual accompanying the product, or in any other manner at the point of sale that is reasonably accessible to the buyer of such equipment.

Finally, these rules establish the data that every manufacturer must include in its annual report as required by Local Law 13. The submission of such report must be accompanied by a \$1,250.00 fee. These rules clarify that such annual report must include detailed information on the quantity of covered electronic equipment collected under a manufacturer's electronic waste management plan, as well as information on the collectors, transporters and end markets utilized by the manufacturer.

These final rules have been modified to reflect the comments received by the Department during the public comment period. In response to these comments, the Department has changed the standards for convenient collection for City residents (defined as individuals who reside within the City of New York). For any item that is designed to be portable or fifteen pounds or less in weight, convenient collection shall mean a mail-back program, whereby any resident in the City can return covered electronic equipment to the manufacturer by mail (or similarly convenient delivery service), and/or a drop off program, whereby such person may return covered electronic equipment to the manufacturer at drop-off locations throughout the City.

For all other items, convenient collection shall mean an option whereby the covered electronic equipment is collected directly from a resident's home in the City. Such collection may utilize a postal or parcel collection service and not need be made directly from inside a person's home. A direct collection program may not include collection of electronic equipment left for collection at the curbside. Because the Department has modified the convenient collection to a standard that depends on the weight and design of the covered electronic equipment to be collected, the Department has added a provision whereby it may now ask a manufacturer to describe its covered electronic equipment, including the weight, size, and individual components of such covered electronic equipment.

(5) the quantity of covered electronic equipment collected for recycling or reuse in the City during the previous calendar year pursuant to the manufacturer's electronic waste management plan expressed both in terms of the of the total weight of collected covered electronic equipment and as a percentage of the average annual sales of the manufacturer's covered electronic equipment in the City, reported by weight, during the previous three calendar years. Such collected covered electronic equipment shall be categorized by the type of covered electronic equipment collected, and further categorized, to the extent possible, by the quantity of covered electronic equipment collected from individuals and government entities.

(6) the weight of orphan waste collected during the previous calendar year pursuant to the manufacturer's electronic waste management plan, categorized by the type of covered electronic equipment collected.

(7) a description of the actual disposition of the manufacturer's covered electronic equipment collected pursuant to the manufacturer's electronic waste management plan during the previous calendar year, including information on any electronic recycler, end markets and resale or donation opportunities utilized by the manufacturer. Such description shall include:

(i) a description of the processes and methods used by any

chapter, all manufacturers and other persons subject to Chapter 4-A of title 16 of the Administrative Code also shall comply with, and are subject to, any and all provisions relating to such manufacturers and other persons contained in such Chapter 4-A.

Statement of Basis and Purpose

Pursuant to §753 of the New York City Charter and Local Law No. 13 of 2008 ("Local Law 13"), the Sanitation Commissioner is authorized to adopt rules relating to the collection for recycling or reuse of electronic equipment in the City of New York.

These rules clarify the definition of covered electronic equipment and expressly exclude certain electronic products that do not fall within that definition, such as video game systems, GPS devices, automobile parts or components, marine equipment, digital video recorders, point of sale devices, portable DVD players, digital picture frames, audio equipment other than covered portable battery powered digital music players, and USB devices. In addition, these rules further define other terms set forth in Local Law 13 and define additional terms, including computer central processing unit, desktop computer, laptop computer and printer.

The rules make clear that no manufacturer shall be required to accept covered electronic equipment that is of a different type than that currently or previously assembled, manufactured or imported by such manufacturer, or The Department further added the requirement that each manufacturer describe how it intends to meet the performance standard requirements contained in Local Law 21 of 2008 in its electronic waste management plan. The manufacturer must also include information on its compliance with Local Law 21 of 2008 in its annual report. Lastly, the Department has clarified that either the manufacturer or its electronic recycler may issue the certification that the collection, handling and recycling or reuse of covered electronic equipment will comply and has complied with all applicable local, state, federal and international laws and regulations for purposes of both the manufacturer's electronic waste management plan and its annual report.

Due to the short amount of time between the passage of Local Law 13 and the required submission date for electronic waste management plans, the Department is granting manufacturers a grace period before assessing fines for the late submission of plans. Electronic waste management plans will not be due until June 15 which is 60 days after the final publication date of these rules.
