NEW YORK, FRIDAY, SEPTEMBER 25, 1885.

NUMBER 3,753

DEPARTMENT OF DOCKS.

Fifteenth Annual Report, for the Year Ending April 30, 1885.

CITY OF NEW YORK-DEPARTMENT OF DOCKS,) Nos. 117 AND 119 DUANE STREET, NEW YORK, September 10, 1885.

Hon. WILLIAM R. GRACE, Mayor of the City of New York:

SIR—By the direction of the Board governing this Department, and in accordance with the provisions of section 719, chapter 410, Laws of 1882, I transmit herewith the annual report of the operations of this Department for the fiscal year ending April 30, 1885.

Very respectfully, JOSEPH KOCH, President.

DEPARTMENT OF DOCKS, Nos. 117 AND 119 DUANE STREET, NEW YORK, September 10, 1885.

To the Honorable WILLIAM R. GRACE, Mayor of the City of New York :

SIR- Pursuant to the provisions of section 719 of chapter 410, Laws of 1882, the Board of Commissioners governing the Department of Docks submits this report of its transactions from the Ist day of May, 1884, to the 30th day of April, 1885, being its Fifteenth Annual Report. The following-named Commissioners composed the Board on the 30th day of April, 1885 : Lucius J. N. Stark, William Laimbeer, John R. Voorhis. The law provides that the annual report shall contain : First—The name, occupation and compensation of all persons appointed and employed by said

Department.

Second-A statement of the action of the Board for the past year, classified with reference to

the various subjects and duties which have engaged its attention. Third—A list of the orders and rules, a description of the contracts, the payments, and the pur-poses and amounts thereof; and the leases made by said Board, for what term, at what rent, to whom, and for what property.

FIRST.

The following is a list of all persons employed by the Board during the year ending April 30, 1885, showing the name, occupation and compensation of each, respectively :

Commissioners' Office.

SECOND.

The Board submits the following statement of the subjects and duties which have engaged its attention during the year ending April 30, 1885:

I.-ORGANIZATION.

June 4, 1884.—Commissioner Stark re-elected President for the year ending April 30, 1885. June 4, 1884.—Commissioner Voorhis re-elected Treasurer of the Board.

II.-GENERAL DUTIES.

The duties which this Department is authorized by the provisions of law to perform are varied, and comprise, among others, the following, many of which are purely legislative, and were exer-cised by the State Legislature prior to the creation of this Board : The management and supervision of all the piers and entire water-front of the city, and the duty of seeing that the whole of this property, both public and private, is kept properly dredged, and in suitable condition and repair for general use. The making of rules and regulations as to the use of all the water-front, and the setting aside of parts of it for such special kinds of commerce as may be best calculated to promote the general busi-ness interests of our city.

ness interests of our such special raines of commerce us may be best excluded to promote the general basis ress interests of our city. The duty of examining into and passing upon all erections, structures and superstructures, and upon every proposed modification or increase of terminal facility on the water-front. The duty of carrying out the reconstruction, on the new plan, of the whole water-front property. And, generally, the obligation to watch over and promote the commercial growth of the city by introducing, from time to time, every practicable improvement into its wharf and dock system.

III .- OPERATIONS ON THE WATER FRONT.

The Commissioners governing this Department have to report that they have succeeded during the year in arranging for and completing the purchase of several pieces of private wharf property on the North river water-front, negotiations for which have been carried on during the past two years, and the acquisition of which was necessary for the prosecution and continuation of the work of the permanent improvement along West street, south of Canal street. The following is the description of the several pieces of bulkhead property so acquired, from whom purchased, the price paid, the date of contract, and when the deeds of conveyance were executed and delivered respectively : Ist. The bulkhead and wharf property on West street, commencing at the southerly line of

whom purchased, the price paid, the date of contract, and when the decus of conveyance were executed and delivered respectively: 1st. The bulkhead and wharf property on West street, commencing at the southerly line of Warren street extended, and running thence southerly 26 feet 6 mches to a point distant about 161 feet northerly of the north line of Murray street extended, the said premises being purchased subject to an existing lease thereon, which, by its terms, is to expire May 1, 1890, without any covenant of renewal or provision for payment for any improvements or betterments which may have been made by the lessee to the said wharf premises; and it being also agreed that the said annual rental to be paid to the city by the said lessor or his legal representative, for the said wharf property be fixed and apportioned at the sum of one dollar per annum, until the expiration or sooner termination of the said existing lease thereon, from Charles Drake, for the sum of \$14,250. Contract dated November 13, 1884. Deed dated November 20, 1884. Purchase money paid and deed delivered March 7, 1885. 2d. The bulkhead and wharf property on West street, commencing at the northerly line of Franklin street extended, and running thence northerly 87 feet 6 inches to the centre line of the block between Franklin and North Moore streets, the said premises being agreed to be purchased subject to the existing lease thereon to W. S. Tompkuns, which, by its terms, expires on March 1, 1885, from Wm. L. Skidmore and others, for the sum of \$52,500. Contract dated November 20, 1884. Deed dated December 11, 1884. Purchase money paid and deed delivered December 23, 1884.

1884.

1884. 3d. The bulkhead and wharf property on West street, commencing at the northerly line of North Moore street extended, and running thence northerly 50 feet to a point about 125 feet distant from the southerly line of Beach street extended, the said premises being purchased subject to the existing lease thereon to Morgan's Louisiana and Texas Railroad and Steamship Company, which, by its terms, expires on May I, 1886, from the Southern Development Company, for the sum of \$32,500. Contract dated December I, 1884. Deed dated December I2, 1884. Purchase money by its terms, expires on May I, 1886, from the Southern Development Company, for the sum of \$32,500. Contract dated December I, 1884. Deed dated December 12, 1884. Purchase money paid and deed delivered February II, 1885. 4th. The bulkhead and wharf property on West street, commencing at the southerly line of Hubert street extended, and running thence southerly 50 feet to a point distant about 150 feet from the northerly line of Beach street extended, the said premises being agreed to be purchased subject to the existing lease thereon to James D. Wynkoop, which, by its term, expires on May I, 1888, from John Lefoy Brower and Abraham T. H. Bower, executors and trustees, for the sum of \$30,000. Contract dated November 20, 1884. Deed dated December 13, 1884. Purchase money paid and deed delivered January 19, 1885. 5th. The bulkhead and wharf property on West street, commencing at a point 50 feet to southerly from the southerly line of Hubert street extended, and running thence southerly 50 feet to about the centre line of the block between Beach and Hubert streets, the said premises being agreed to be purchased subject to the existing lease thereon to James G. Wynkoop, which, by its terms, expires The pierhead line, as stated above separates from the bulkhead line at a point 75 feet northerly in the order bulkhead line, as stated above separates from the bulkhead line at a point 75 feet northerly in the order bulkhead line, as stated above separates from the bulkhead line at a point 75 feet northerly in the order bulkhead line, as stated above separates from the bulkhead line at a point 75 feet northerly in the order bulkhead line, as stated above separates from the bulkhead line at a point 75 feet northerly in the order bulkhead line, as stated above separates from the bulkhead line at a point 75 feet northerly in the order bulkhead line, as stated above separates from the bulkhead line at a point 75 feet northerly in the order bulkhead line, as stated above separates from the bulkhead line at a point 75 feet northerly in the order bulkhead line, as stated above separates from the bulkhead line at a point 75 feet northerly in the order bulkhead line, as stated above separates from the bulkhead line at a point 75 feet northerly in the order bulk depth it is very expensive to build piers, and fourth street, at a point 75 feet northerly in advisible to do so), to One Hundred and Fourth street, and One Hundred and Fourth street, and One Hundred and Fourth street, as will be seen by the map, outside the line of the said of the water-grant, in order to obtain room for length of piers and wharfage room. In doing this it has been assumed that whenever it is necessary to build the piers outside the line of the water-grant, in order to obtain room for length of piers and wharfage room. In doing this it has been assumed that whenever it is necessary to build the piers outside the said of the water-grant, in order to of the piers. See section 720 Consolidation Act, and section 712 of same as amended by chapter 517, Laws of 1884. The bulkhead and wharf property on West street, commencing at the southerly line of the said out and fourthead and pierhead lines, between One Hundred and Fourthead and pierhead lines, betw

from the northerly line of Harrison street extended, the said premises being agreed to be purchased subject to the terms and conditions of the existing lease thereon to Reuben M. Van Sicklen, John R. Hunt and James W. Donaldson, which expires on May 1, 1885, from Emlly V. Clarkson and others, for the sum of \$60,000. Contract dated November 29, 1884. Deed dated December 20, 1884. Purchase money paid and deed delivered April 14, 1885. 8th. The bulkhead property and wharf rights on the North river, commencing at a point 242 feet 11 inches south of the southerly line of Charlton street extended, and running thence southerly 45 feet 3 inches to a point about 182 feet 1 inch northerly from the north line of Spring street ex-tended, for the sum of \$550 per lineal foot, and agreeing to release and discharge the Corporation of the City of New York of and from all claims for damages sustained by reason of the taking of the said premises for the work of the permanent improvement of the water-front, and expressly waiving and releasing the Corporation of the City of New York from any liability for or by reason of the same, from Mary T. and Elizabeth V. Cockcroft and others, for the sum of \$24,880.50. Contract dated January 31, 1884. Deed dated February 26, 1885. Purchase money paid and deed delivered March 21, 1885.

same, from Mary T. and Elizabeth V. Cockcroft and others, for the sum of \$24,889,50. Contract dated January 31, 1884. Deed dated February 26, 1885. Purchase money paid and deed delivered March 21, 1885. 9th. The buikhead property and wharf rights on the North river, commencing at a point 104 feet 2 inches south of the southerly line of Charlton street extended, and running thence southerly 50 feet to a point about 316 feet 1 inch northerly from the north line of Spring street extended, for the sum of \$550 per lineal foot, and agreeing to release and discharge the Corporation of the City of New York of and from all claums for damages sustained by reason of the taking of the suid premises for the work of the permanent improvement of the water-front, and expressly waiving and releasing the Corporation of the City of New York from any lability for or by reason of the same, from D. Willis James and Wm. E. Dodge, Jr., for the sum of \$27,500. Contract dated February 26, 1855. Purchase money paid and deed delivered March 24, 1885. The purchase of these several pieces of wharf property has, it is believed by the Commissioners, been made at prices fair and reasonable, and the Board expected that by the acquisition of this property it would have been enabled to carry on the work of the permanent inprovement in the section between Chambers and Canal streets, North river, and that the public would have been con-sequently afforded increased and better wharfage facilities, which are so much needed in that particu-lar section to accommodate the wants of the business community, and for the assessed valuation of the property contained therein, this Board, on December 3, 1884, made requisition on the Board of the Commissioners of the Sinking Fund for the issue of dock bonds to the amount of no me million nine hundred thousand dollars, the proceeds thereof to be applied for the uses and purposes of this Department, that amount being within the limit of the amount athorized by law to bissuel in any one year ; but the then Commiss

the by the public without experiancy any position of the univalit upon any first of permission work. The Board of Commissioners regret exceedingly that the action taken by the Sinking Fur d Com-missioners has compelled them to defer the work of the continuation of the improvement of the water-front south of Canal street, on the North river, a work much needed to provide improved wharfage facilities for the large business interests centering in that section of the city ; as it is, much valuable property capable of being improved, and of paying large dividends to the city on the cost of the same, and of the improvements intended to be made thereat, remains unimproved and incapable of producing the revenue which the city ought to expect, and which it should derive from its property. The Board have also during the year been engaged in the consideration of plans for the improve-ment of the East river water-front from the foot of Eighty-sixth street. East river, to the east rely side Third avenue, Harlem river. And on the 27th day of April, 1885, adopted a resolution approving of the plans so made and prepared pursuant to the provisions of chapter 517, Laws of 1884, and trans-mitted the plans so adopted to the Commissioners of the Sinking for their consideration and action, as required by law, with the following communication, explanatory of and giving full details of the advantages to be derived from the adoption of the proposed plan : MAX 2, 1885.

MAY 2, 1885.

Hon. WILLIAM R. GRACE, Mayor and Chairman of the Commissioners of the Sinking Fund of the City of New York :

City of New York: SIR—At a meeting of the Board governing this Department, held April 27th ultimo, the follow-ing resolutions were adopted: "Resolved, That the plans for the water-front on the westerly side of the East and Harlem rivers, extending from the northerly side of Eighty-sixth street, East river, to the easterly side of the Third avenue, Harlem river, made and prepared pursuant to the provisions of chapter 517, Laws of 1884, be and the same are hereby approved, adopted and declared to be the sole plan determined upon by the Department of Docks, for the section of territory embraced therein, subject to the approval of the Commissioners of the Sinking Fund, as required by law. "Resolved, that the Secretary be and hereby is directed to transmit the said plans to the Com-missioners of the Sinking Fund, and to respectfully request their approval of and adoption of the same, in accordance with the requirements of chapter 517 of the Laws of 1884." In accordance with the foregoing resolutions, I beg leave to transmit herewith the plans referred to therein to the Commissioners of the Sinking Fund for their action. The plans submitted are in four sheets.

sheets. The first, extending from the northerly side of Eighty-sixth street to the northerly side of Ninetyeighth street.

The second, from the northerly side of Ninety-eighth street to the northerly side of One Hundred and Eleventh street.

The third, from the northerly side of One Hundred and Eleventh street to the northerly side of One Hundred and Twenty third street.

And the fourth, from the northerly side of One Hundred and Twenty-third street to the east-erly line of Third avenue. These plans show, in black lines with a blue shading, the existing water-front, and the present established lines of bulkheads and pierheads of 1857, and the line of the water-grant to the City, of 1871

established lines of bulkheads and pierheads of 1857, and the line of the water-grant to the City, of 1871. In red, there are shown the proposed improvements, consisting of a new bulkhead line and a new pierhead line, and also the line of forty (40) new piers. A marginal street, 125 feet in width and parallel to the bulkhead line, is shown upon the plans, its westerly line being drawn in red, except when it would come upon a street already laid out, it is proposed that the outer fifty feet of the width of this street next to and adjoining the proposed bulk-head line shall be reserved for bulkhead and wharfage purposes. The depth of water at mean low tide, and the depth from mean low water to rock or other hard bottom as obtained by borings and test piles, are also shown, expressed in feet. In general, the bulkhead line has been kept as far inshore as practicable, while the pierhead line has been placed as far outshore as practicable. Beginning at the northerly side of Eighty-ninth street, the bulkhead and pierhead lines are coincident, as far as the southerly line of Eighty-ninth street, and the line being 730 feet long, has been placed where there is about 20 feet depth of water at mean low water. Thenee the line extends to a point in a line 75 feet north of the northerly line of Eighty-ninth street, as shown on the map or plan. At the point 75 feet northerly of the northerly line of Eighty-ninth street, the lines diverge,

At the point 75 feet northerly of the northerly line of Eighty-ninth street, the lines diverge, the bulkhead line running westerly and parallel to Eighty-ninth street, and distant 75 feet northerly from it, until a depth of 10 feet at mean low water to the rock is reached; thence having regard to the depth of the rock below mean low water in a straight line to the southerly line of Ninety-first street, and thence to the existing bulkhead at Ninety-third street, and along the existing bulkhead to Ninety fourth street Ninety-fourth street.

The bulkhead line is placed along the existing line of solid filling between Ninety-fifth and

The bulkhead line is placed along the existing line of solid filling between Ninety-nith and Ninety-sixth streets. Following similar general methods and principles, the bulkhead line is similarly placed through-out the entire distance to the Third Avenue Bridge, as is shown on the map. The pierhead line, as stated above separates from the bulkhead line at a point 75 feet northerly of the north side of Eighty-ninth street, and is laid out as shown on the map, it being generally in from about 30 to 50 feet depth of water (beyond which depth it is very expensive to build piers, and consequently unadvisible to do so), to One Hundred and Fourth street, keeping on or inside the line of the water-grant to the city ; but between One Hundred and Fourth street and One Hundred and Fifteenth street, it has been placed, as will be seen by the map, outside the line of the said water-grant, in order to obtain room for length of piers and wharfage room. In doing this it has been assumed that whenever it is necessary to build the piers outside the line of the water-grant of 1871 that the State would convey the land under water to the City, or in

THE CITY RECORD.

is from 700 to 900 feet wide, but the clear channel width is reduced by this proposed pierhead line and the line of 1857, along Ward's Island to an uniform width of about 600 feet, which it is consid-ered sufficient for passageway of vessels, and also for the movement of the tides. The bulkhead lines remain as they were, or are further apart than before. Between One Hundred and Seventeenth street and One Hundred and Twenty-second street, in

2086

Between One Hundred and Seventeenth street and One Hundred and Twenty-second street, in order to give room for small piers, the pierhead line is placed outside the existing bulkhead and pier-head line of 1857, as far as the water grant line of 1871, and in order to do this and maintain the width of channel at about 420 feet, the bulkhead and pierhead lines on Randall's Island, opposite, have been placed further to the eastward, and nearer the shore of Randall's Island, as shown on the map. While it is not certain that the Board of Docks is vested with authority to make or propose this change of the line on Randall's Island, it has the control of any filling to be done about Ran-dall's Island, and can limit it to the line proposed, so that the channel would not be improperly paramad narrowed.

Randall's Island is owned by the City of New York, and no record of any water-grants abou it have been found.

It have been found. It is proper to further state that the Board of Docks in 1871 determined and sent plans for the improvement of this portion of the water-front of the City, to the Commissioners of the Sinking Fund, for adoption, but these plans have never been acted upon, and it would seem that under chapter 517, Laws of 1884, it is not necessary to act upon them.

Laws of 1884, it is not necessary to act upon them. The wharfage room upon the lines as now established within the district embraced in these plans is about 14,000 feet, while upon the plan proposed it is about 30,000 feet. As it is very desirable to have the lines for the permanent improvement of this section established as soon as possible, in order to enable private owners, as well as the city, to improve the wharf property within the territory embraced therein, this Board would respectfully request your Honor-able Body to take action upon the same as soon as practicable, and should any further information he desired in reference to the matter, or additional explanations of the advantages to be derived by the adoption of the plans submitted, the Commissioners will be pleased to promptly furnish the same. same.

Very respectfully, JOHN T. CUMING, Secretary. (Signed)

(Signed) JOHN T. CUMING, Secretary. It is confidently hoped by the Commissioners that prompt action will be taken on these plans, so as to enable the owners of private property along the water-front affected thereby, who are desirous of improving their premises by the erection of proper wharf structures, to proceed with the work of such improvement without unnecessary delay. Many owners of water-front property in the section mentioned, have made applications for permission to erect bulkheads and other struc-tures; but until the establishment of the permanent bulkhead lines, this Board have deemed it unwise to grant permits for proceeding with any work which would be likely to interfere with or prove an obstruction on the permanent bulkhead line of this section, when the same should be determined and finally fixed and established, and in justice to the interests of private owners, action should be taken on the plans submitted with all possible dispatch, and thereby afford to such owners the opportunity to improve to the utmost the water-front property which belongs to them, which would correspondingly increase in value the property belonging to the Corporation of the city, as well as materially benefit the commercial interests of the city generally.

REVENUES, EXPENSES, ETC.

The total revenues of the Department which have accrued within the year amount to \$1,187,-217.14. In addition to the above, there was collected by the Finance Department for rent of slips for ferry purposes, all under the care of this Department, the sum of \$2\$4,2\$0.26. The Department deposited during the year with the City Chamberlain, for the redemption of the city debt \$1.1\$5, 102, 22.

the city debt, 51,185,403.22.

The audited expenses during the year amount to \$1,020,207.51, being for new work; construc-tion, \$470,754.70; for repairs to piers, etc., not built on the new plan, \$178,493.66; for office rent, clerk hire and general expenses of principal office, \$42,796.40; for addition to floating plant, \$100, and for purchase of wharf property, \$328,062.75.

THIRD.

In compliance with the third provision of the law, as previously cited, the following information is submitted:

I. - ORDERS AND RULES MADE BY THE BOARD.

July 2, 1884.-Resolution adopted directing the Engineer-in-Chief to cause the dumping of al dredged material hereafter excavated to be done only during the hours between sunrise and sunset

II.-DESCRIPTION OF CONTRACTS MADE BY THE BOARD.

May 14, 1884.—Awarded James D. Leary, No. 73 William street, for building a new wooden pier at Twenty-sixth street, East river; No. 205, dated May 20, 1884; expiration, October 17, 1884.

May 14, 1004. — Awarded planter planter, Decardy Automation, 2005. And May 20, 1884; expiration, October 17, 1884.
Contract price, \$32,390.
June 16, 1884. — Awarded Charles DuBois, 119 South street, for dredging at foot of Twenty-second street, East river, at foot of Nineteenth street, North river, and north side of Pier, old 34, North river; No. 206, dated June 19, 1884; expiration, July 23, 1884. Contract price, \$2,668, and No. 207, dated June 19, 1884; expiration, July 15, 1884. Contract price \$2,000.
July 2, 1884. — Awarded Union Dredging Company, No. 34 Pine street, for dredging at bulkhead south of Pier, old 54, North river; Pier foot of Jane street, North river; Pier foot of Horatio street, North river; Pier at Little West Twelfth street; Pier at West Fifteenth street; Pier at West Forty-sixth street; North river; Pier 60, East river, and bulkhead north side of Rivington street, East river; No. 208, dated July 10, 1884; expiration, September 30, 1884. — Awarded Flaherty & O'Connell, No. 41 Peck Slip, for repairing Piers at Bethune street, Jane street, and north of Bloomfield street, North river; No. 209 A, dated July 28, 1884. ; expiration, August 30 and October 15, 1884. Contract price, \$8,950.
July 23, 1884. — Awarded William P. Kelly, No. 187 West street, for repairing Pier at Horatio street, North rive; No. 209 B, dated July 21, 1884; expiration, October 15, 1884. Contract price, \$8,950.
July 23, 1884. — Awarded William P. Kelly, No. 187 West street, for repairing Pier at Horatio street, North rive; No. 209 B, dated July 1, 1884; expiration, October 15, 1884. Contract price, \$1,084. Contract price, \$2,090.
July 23, 1884. — Awarded William P. Kelly, No. 187 West street, for repairing Pier at Horatio street, North river; No. 209 B, dated July 1, 1884; expiration, October 15, 1884. Contract price, \$2,090.
July 23, 1884. — Awarded William

Contract price, \$7,255. October 15, 1884.—Awarded James D. Leary, No. 73 William street, for repairing Pier No. 44, East river; No. 215, "B," dated October 17, 1884; expiration, December 20, 1884. Contract price, \$2,490. October 20, 1884.—Awarded James D. Leary, No. 73 William street, for repairing and extend-

-Awarded James D. Learv. No. 73 William street, for repairing and extend

February 18, 1885.—Awarded John D. Walsh, No. 159 Second street, Brooklyn, for repairing Pier and approach, foot West Twenty-first street; No. 223 "B," dated March 18, 1885; expira-tion, April 22, 1885. Contract price, \$2,447. February 18, 1885.—Awarded Morris & Cumings Dredging Company, No. 45 Duane street, for dredging half slip south of Pier, new 43, North river; No. 224, dated March 18, 1885; expira-tion, April 22, 1885. Contract price, \$2,145.

III.—PAYMENTS MADE BY THE BOARD.

The Commissioners of Docks have made requisitions upon the Finance Department for pay-ments, in satisfaction of liabilities incurred, from May 1, 1884, to April 30, 1885, amounting in all to the sum of \$1,020,207.51, and herewith submit, annexed to the Statement of the Revenues and Disbursements, a full showing of said payments, and for what purposes.

IV.-LEASES MADE BY THE BOARD.

IV.-LEASES MADE BY THE BOARD.
I.-All leases made during the year, both at public sales and by resolution of the Board, of wharf property owned by the Corporation, including land under water, and all permits issued by the Board during that period to occupy such property, are shown in the rent-roll accompanying this report, which fully expresses the time, rental, to whom, and for what property each of said leases was respectively made, and permits granted.
The rent-roll herewith submitted shows fully, as required by law, all leases made during the year. It also gives the termination of all leases during said period, and all leases and permits in force on the first day of May, 1884.
II.-Leases or permits for the following-named premises have been terminated by the Board : May 15, 1884. —North half Pier 56, south half Pier 57, East river, and bulkhead between, to Wm. H. Wood, revoked.
February 11, 1855.—For Float at Fifty-second street, East river, to Patrick Murray, revoked.
April 28, 1885.—Pier at Thirty-seventh street, East river, to Morris Wasel, surrendered from May 1, 1885.

May 1,

1, 1885. All of which is very respectfully submitted.

JOHN T. CUMING, Secretary.

L. J. N. STARK,) Commissioners
WM. LAIMBEER,	> of

REPORT OF THE ENGINEER-IN-CHIEF.

DEPARTMENT OF DOCKS,	117 AND 119 DUANE STREET
OFFICE OF THE	ENGINEER-IN-CHIEF,
	NEW VORK May I 188r

To the Board of Docks :

GENTLEMEN-I have the honor to submit for your consideration the following report of the several works under my supervision during the year ending April 30, 1885.

NORTH RIVER-WORK UNDER NEW PLAN.

the Treasurer's order, the granite was to have been all delivered between 10th September, 1884, and 19th November, 1884, but the first cargo was not delivered until 3d November, 1884, and the last

At this date sub-piers 4, 5, 6, 7 and 8 are completed. The iron girders are set on the spans from sub-piers 4 to 8, and the concrete arches built between sub-piers 6 and 7, and partially built between sub-piers 5 and 6 and 7 and 8. The concrete foundation of sub-pier No. 1 is finished, and also those of sub-piers 2 and 3, except the top courses of concrete blocks. The granite is partially set on sub-pier No. 1. The granite being now delivered the work will proceed to completion.

Chambers Street Section-Extending from the north side of Pier, old 29 to 91.70 feet north of the north side of Pier, new 21, a distance of 651.70 feet.

670.50 feet. 603.42 " Levels have been taken on the newly-made land to ascertain its rate of settling. repairs have been made to Department office and to old shed south of Pier, old No. 33. Some small

Sections South of Canal Street. Battery Section.—Embracing the boat landing, Pier, new 1, North river, and about 80 feet of bulkhead north of Pier, new 1. Some small repairs have been made on this section during the past year. On the 3d July, 1884, it was directed, by unanimous resolution of the Board, to proceed with the construction of a pier for the uses of this Department, and also of the Police Department, in accord-ance with a plan submitted to the Board on that day. This pier is to be 45 feet wide and 285 feet long. It springs from the corner of the bulkhead or river wall south of new Pier 1, North river, at an angle with the main length of the wall of 116½ degrees. The pier consists of eight sub-piers outside of the wall, supporting a deck or floor of iron girders with concrete arches between them, and is known as "Pier A, foot of Battery place, North River."

River." As the borings and soundings showed the rock to be only about 18 feet below mean low water, as a minimum, with soft mud on top of the rock, affording no holding ground for piles of either wood or iron, the foundations were made by clearing the mud off the rock, then sinking a box or crib of cheap timber on the site of the sub-pier foundation, and filling the same up to a certain height with concrete in bags carefully laid by submarine divers under water. Mass concrete was then placed over the bags and leveled off, to form a seat or bed for the concrete blocks made in air, which extend from the above-described foundation to a height two feet below mean low water-mark. Above these concrete base blocks the sub-piers were built of granite to a level two feet above mean, high these concrete base blocks the sub-piers were built of granite to a level two feet above mean high water mark.

water mark. The top of the pier resting on these sub-piers consists of six main girders and two side girders, extending from sub-pier to sub-pier, each girder being 3 feet in depth, and a concrete arch being sprung between each two girders; the top of the arches forming a deck or floor of the pier, which is to be covered with an asphalt pavement two inches in thickness. The deck of the pier is 5 feet 3 inches above mean high water at its sides, and has a camber of a inches in its centre.

3 inches in its centre.

3 inches in its centre. Work was vigorously pushed and the pier could have been completed by January 1, 1885, if the furnishers of the granite had delivered it at the time they agreed to. By the specification of

North Moore Street Section-Extending from a point 21 feet south of the south side of Pier, new 26, North river, to a point half way between North Moore street and Franklin street, a distance of about 340 feet.

Dredging to date	190.00	feet.
Stone filling to date	160.00	
Equivalent length of completed wall.	34.66	**
Nothing has been done on this section, the injunction of 7th July, 1881, being still	in force.	

Beach Street Section-Extending from 21 feet south of the south side of Pier, new 26 to 95 feet north of the north side of Pier, new 26, a distance of 196 feet.

-	Length of piling to date	172.00 feet.
1	" base blocks to date	168.83 "
	" " E" course of granite to date	121.02 "
	Equivalent length of completed wall to date	167.90 "

Some repairs were made in the early part of the year upon the temporary cobble pavement approach to Pier, new 26, North river, and in April last the cobble stones were replaced with Belgian blocks.

A cluster of guard piles has been maintained at the northerly end of the section to protect the unfinished work

It is very desirable that the gap between this section of the wall and the Laight street section should be closed.

THE CITY RECORD.

Laight Street Section-Extending from 95 feet north of the north side of Pier, new 26, North River, to the southerly side of Pier, old 39, a distance of about 500 feet.

Length of piling for the year..... o.co feet ; to date 344.5 feet.

Piers, new 27 and 28.

The building of the wall to the northward of Pier, new 28, was stopped by injunction of the United States Circuit Court on 11th March, 1884, and no work has been done upon it since.

* Pier, new 27.—This pier has been completed, under for work has been done upon it succ.
* Pier, new 27.—This pier has been completed, under Contract No. 193, Mr. Joseph Walsh, contractor, and the Pennsylvania Railroad Company, lessee, put in possession of it; a temporary approach having been built to it where filling could not be put in. A shed similar to that on Pier, new 28, has been built upon this pier by the lessees.
* The filling in rear of the wall between Piers, new 26 and new 27, has been completed to such extent as was practicable under the condition of unfinished wall at each end of the section.

Sections North of Canal Street.

The sections north of Canal street on which the bulkhead or river wall has been completed, are as follows :

	SECTION.	LENGTH ON "E" OR TOP COURSE OF GRANITE, UNDER COPING.	EQUIVALENT LEVGTH OF COM- PLETED WALL

Total lengt		3.317.83	3,373.06

The paving between Piers, new 35 and new 38, having been carried down by the settlement of the newly-made ground upon which it was faid, it was decided to take up the pavement, raise the filling and replace the pavement. This work was begun in November, but was stopped by the severe winter weather, and resound in April last. In order not to interrupt travel, the area is taken up in sections, and the work will be completed in field and

The area of the newly made land lying between the yard of the Hudson River Tunnel Company and the bulkhead has been temporarily paved with cobble-stone in order to afford a better

The Hudson River Tunnel Company have done no work of consequence during the year.

First, new 45. — The repairs to understructure of Pler, new 45, under Contract No. 199, described in last annual report, have been fully completed.
Some repairs to water pipes supplying Plers, new 45, new 46 and new 47, have been made. Plet, new 46, and the shed upon it, are in need of extensive repairs to put them in good order for heavy and steady use.

West Twenty-tokind Street Section, South End,-Extending from 10 feet south of the north-erly side of West Twenty-third street to 43.27 feet north of Pier, new 57, a distance of 1,238.2

the necessary racking or slope at its northerly end.

Thirty-fourth Street, North River.—Under Secretary's Order No. 3459, January 16th, 1885, plans and specifications were submitted for extending the existing pier out to the "Established Pier Head Line," a distance of about 70 feet. Under Secretary's Order No. 4115, January 26th, 1885, plans and specifications were begun for building a new pier, and for repairing a portion of the old pier to be used as an approach. Their preparation has been temporarily suspended.

plans, specificat and the p The offices and clerks, etc., were moved to this yard on 5th January, 1885, and all the black-smith work has been done there since that date; 7,955 barrels of cement have been received and submitted The pier was repaired and extended for the full width of sixty feet to the "Established Pier Head Line," a distance of about 70 feet beyond original end of the pier, making the length of the pier beyond the established bulkhead line 500 feet, and its total length, measured from the present bulkhead, 527.9 feet on the north side, and 536.2 feet on the south side, and increasing the deck area by about 4,200 square feet. The work was done by Mr. J. D. Leary, contractor. tested. The centres for concrete arches at Pier "A" were made at the yard, and 97 concrete base blocks for the sub-piers of Pier "A" were also made here. East Seventcenth Street Yard.—This yard been kept in order and used for the storage of granite and other materials, which have been issued to the work as required. Fortieth Street. North River.—Under Secretary's order No. 3551, plans and specifications were submitted September 27, 1884, for removing the old pier and for building a new pier and approach, and for dredging its site and the half slip on each side. I herewith submit an appendix, containing— A summary of the work of construction under the "new plan." Forty-First Street, North River.—Plans and specifications were submitted September 24, 1884, for building a pier and approach at the foot of West Forty-first street, and for dredging its site and the half slips on each side. A summary of the work of construction not under the "new plan." A table of new wharfage room made by the Department of Docks during the year. A summary of work at the Department yards. A summary of work of "General Repairs." A summary of the work of "General Repairs." A summary of the work on "Floating Property." A list of the contracts under which work has been done during the year. A list of the forms of contracts and spefications submitted to the Board of Docks during the Forty-fourth Street, North River.—The new pier at this street, begun last year under Contract No. 200 by Mr. John Gillies, has been completed and put in use. year

NORTH RIVER- WORK OF CONSTRUCTION NOT UNDER NEW PLAN.

Seventy-ninth Street, North River .-- The crib bulkhead begun last year under Contract No. 201, Mr. Joseph Walsh, contractor, has been completed and put m use. It extends from the northerly side of Seventy-ninth street to the northerly side of Eightieth street. The pier at this street has been repaired and put m good order under same contract.

One Hundred and Freen'y-ninth Street, North River.—A crib-work bulkhead, from One Hundred and Twenty-ninth street to One Hundred and Thirtieth street, North river, has been built and put in use during the past year.

The work was done under Contract No. 212 and Secretary's Order No. 3922, by Mr. William

P. Kelly, contractor. The Pier at this street, the outer end of which had been carried away by ice, is being repaired by Mr. William P. Kelly, contractor, under Contract No. 219.

EAST RIVER - WORK OF CONSTRUCTION NOT UNDER THE NEW PLAN.

Twenty-stath Street, East River. - The old pier at this street has been removed, and a new pier, averaging 643 feet 6 inches long by 65 feet wide, has been built, under Contract No. 205, by Mr. James D. Leary, contractor. The sewer outlet has been extended under the pier to its outer end.

One Hundred and Fifth Street, Harlem River. - A bulkhead platform has been built across the foot of this street, under Contract No. 210, Class I, by Messrs. Walls and Van Riper, contractors.

One Hundred and Sixth Street, Harlem River.-A bulkhead platform has been built across the foot of this street, under Contract No. 210, Class 2, by Messrs, Walls and Van Riper, contractors.

One Hundred and Seventh Street, Harlem River.—The bulkhead at the foot of this street has been repaired and bailt up by the Department's force, making, with the work done by private parties, a continuous wharf from the southerly side of One Hundred and Fourth street to the north-erly side of One Hundred and Seventh street.

Ward's Island.-The Homeopathic Hospital Pier on the easterly side of Ward's Island has been repaired and enlarged, under Contract No. 221, by Mr. John Kelly, contractor.

Hart's Island.—The Branch Workhouse Pier at Hart's Island has been rebuilt, under Contract No. 214, by Messrs, Walls & Van Riper, contractors.

General Repairs .- The repairs to piers and bulkheads, etc., have been more extensive than

General Repairs.—The repairs to piers and bulkheads, etc., have been more extensive than during either of the past two years.
Among the larger pieces of work have been—
Repairing the understructure of Pier, new 45, North river.
Repairing Pier at Seventy-ninth street, North river.
Repairing Pier foot of Twenty-fifth street, East river.
Repairing Pier foot of One Hundred and Twenty-ninth street, North river.
Repairing Pier foot of One Hundred and Twenty-ninth street, North river.
Repairing Pier foot of One Hundred and Twenty-ninth street, North river.
Repairing and extending Homeopathic Hospital Pier, Ward's Island, East river.
In the appendix a detailed statement of all the repairs is given.
There has been made by the various works above enumerated during the year, 4175.8 lineal feet of wharfage room on the North river, by work under the new plan, and on the North river, by work not under the plan, 508 feet; on the East river, by work not under the new plan, 2,015 feet, or a grand total of 6,190.8 feet, equal to over 1½ niles.
Floating Property — The schedule of floating property remains the same as last year, with the

Floating Property - The schedule of floating property remains the same as last year, with the exception of two mud-scows. No. 8 and No. 9, which have been sold, one old diver's scow broken

exception of two mud-scows, No. 8 and No. 9, which have been sold, one old diver's scow broken up and sold, and one yawl boat broken up. The too-ton Derrick "City of New York" has handled and set the concrete base blocks for Laight street section and West Thirty-first street section of the wall, and for the sub-piers at Pier A, and also those moved from Gausevoort Street Yard to West Fifty-seventh Street Yard, besides handling various pile drivers and other pieces of floating property for repairs. The Tug "Manhattan" has done nearly all the towing of the Department and has had an additional life boat placed upon her. The hull of this tug will need, before long, to be extensively repaired. The IO-ton derrick has been used in setting granite on the wall and on the sub-piers of Pier "A."

Pier "A.

Pier "A." The Borer "Woodcock" has made a large number of borings on North river, from Pier 2 to Pier S, and on the East river, and from Eighty-sixth street to Harlem Bridge, for the new plan of that section of the water front. The other pieces of floating property have been used as occasion required. The two dredges remain bired to the Union Dredging Company.

Surveying Party-Base lines and bench marks have been verified from time to time in connection with the construction of the bulkhead wall and of piers at the different sections of the North river, and from them lines and levels have been given during the progress of the work.

the North river, and from them lines and levels have been given during the progress of the work. Lines and levels have also been given for contract work on general repairs. The quantities of sand, broken stone for concrete, rip-rap and cobblestone delivered at the various sections have been measured and calculated.
Surveys and examinations have been made over \$2,200 linear feet of water front. These surveys have been plotted and put on file in this office, and tracings have been prepared therefrom. 467 rod soundings, to ascertain the depth of soft mud, have been taken, of which 391 were on the North River, and 76 on the East and Harlem Rivers.
107,832 disc soundings, to ascertain the depth of water, have been taken on the North, East and Harlem Rivers.
278 rod soundings and 3,301 disc soundings were for construction and 189 rod soundings and 99,530 disc soundings for general repairs, examinations, etc., taken before and after dredging, all of which have been reduced, plotted and placed on record in this office.
The dredging done by the Department, excepting that at Pier A, North river, under resolution of Board of 3d July, 1884, and that at Storehouse Dock, Blackwell's Island, under Secretary's Order No. 4214, and the dumping of all dredged material, have been supervised.
The accounts of all dredging done by the Department have been supervised.
The accounts of all dredging done by the Department have been supervised.
Gansevoort Street Yard—The usual work of this yard was done up to 5th January, 1885.

Gansevoort Strict Yard—The usual work of this yard was done up to 5th January, 1885. Ironwork was done at the blacksmith's shop at this yard and other work for the sections, and 1,045 barrels were received and tested up to 5th January, 1885, when, in accordance with resolution of Board passed 21st November, 1883, the stores, offices and shops were all removed to West Fifty-seventh Street Yard. The old buildings and condemned material were sold at auction on 27th January, 1885, and the Gansevoort Street Yard abolished.

27th January, 1885, and the Gansevoort Street Yard aboushed. West Fifty-seventh Street Yard.—In accordance with resolution of the Board passed 21st November, 1883, the Pier at West Fifty-seventh street has been repaired and strengthened and fitted for a general supply and repair station for the Department uses. A cement shed, 40'x80', with capacity of 2,500 barrels, has been built on outer end of pier, and also a shed 20'x120' for store-rooms, offices, etc., and a carpenters' and blacksmiths' shop 20'x70' on the southerly side of the pier. The Bloomfield street office and a small office, 15 feet square, were moved from the old Gansevoort Street Yard to this yard. A platform and other facilities for building base blocks, have been built on the north side of

Thirty-fifth Street, North River .-- Under Secretary's Order No. 3550, September 2, 1884. A platform and other facilities for building base blocks, have been built on the north side of

EAST RIVER-WORK UNDER NEW PLAN.

No work of construction has been done under the new plan on the East river. The soundings and borings on the site of the bulkhead or river wall and new piers, begun last year, have been completed between Pier No. 2 and Pier No. 11.

Under Resolution of Board of 3d July, 1884.

Borings and soundings have been taken from Eighty-sixth street, East river, to the Third avenue Bridge on Harlem river, and plans have been made for the improvement of the water front between the above-mentioned points. These plans were submitted to the Board on 25th April, 1885, and were on 27th April, 1885, approved and determined by the Board.

A statement in detail of the dredging done by the Department of Docks during the year. A table of the dredging done by lessees or owners during the year by order or under permit of the Board of Docks.

A statement of stock on hand, purchased, fabricated and issued at Gansevoort Street Yard and at West Fifty-seventh Street Yard.

A statement of granite on hand, received and issued at East Seventeenth Street Yard. A statement of the work done by owners and lesses of piers and bulkheads, and by others, by order or under permit of the Board of Docks, and under my general supervision. A table of new wharfage room made by private owners during the year.

Very respectfully, your obedient servant,

G. S. GREENE, JR., Engineer-in-Chief.

THE CITY RECORD.

APPENDIX.

Summary of the Journal of the Work for the Year ending April 30, 1885.

WORK OF CONSTRUCTION UNDER THE NEW PLAN. NORTH RIVER WATER FRONT.

BATTERY SECTION.

Fir A.

Resolution of the Board, July 15, 1884.

BORINGS.

June 2, 7 to 18, and July 1 to 5, 1884.—Borings were taken over the site of the proposed pier with the borer "Woodcock."

DREDGING.

July 23 to August 15, 1884.—The Union Dredging Company (under Treasurer's Order No. 11016) excavated and removed 3,516 cubic yards of mud, and (under Treasurer's Order No. 11067) removed 598 cubic yards of boulders, stone, etc., from the site of the proposed pier. The divers assisted in the latter work.

August 15, 1884 .- The diver examined the sites for the sub-piers.

ABUTMENT.

October 13 to 26, 1884.—Recesses to receive the inner ends of the girders were cut in the coping of the bulkhead wall by Department stone-cutters, who wedged out the pieces of granite after the holes had been drilled by the steam drill. October 14 to 23, 1884.—100 holes, 2 inches in diameter and 30 inches deep, were drilled in the coping, for the recesses, with a steam drill, by T. E. Crimmins, under Treasurer's Order No.

11187.

EXTRA FOUNDATION NEAR THE ABUTMENT.

November 17 to December 2. 1884.—The rip-rap was removed by the divers from the footing of the bulkhead wall, on the line of the southerly side of the pier, to prepare for placing the foundation for a structure to support the corner of the proposed building on the pier. December 10, 15, 16 and 22, 1884.—A survey and examination was made of the area cleared of the diverse the diverse for the dive

rip-rap, the divers assisting.

SUB-STRUCTURE.

Sub-Fier No. 1.

PILING.

July 22 to August 2, 1884.—82 piles were driven for the foundation. October 14 to 16, 1884.—The mud was removed from between the piles by means of a water-iet, the divers assisting.

October 21 to November 1, 1884.—82 piles were cut off at 21.8 feet below mean low water-mark, with the circular saw, the divers assisting. November 17, 1884.—The piles were located by the diver by means of a wire-netting frame-

work

November 19 and 20, 1884.—9 extra piles were driven in the foundation. November 21 an | 22, 1854.—9 extra piles were cut off at 21.8 feet below mean low water-

mark, with the circular saw. November 25, 1884.—The diver located the extra piles driven in the foundation. 91 piles in all were driven in the foundation to an average depth of about 30 feet below mean low water and sawed off at a depth of about 21.8 feet below mean low water.

STONE FILLING.

November 7 and 8, 1884.—The mud was removed from between the piles by means of a water-jet, the diver assisting. November 11 to 13, 1884.—144 cubic yards of cobbles were deposited by Christopher Havican, under Treasurer's Order No. 11049. November 17 to 29, 1884.—The divers cleared the tops of the piles from the rip-rap and cob-bles among them.

bles among them. CONCRETE BLOCKS.

November 12 to 17, 1884 .- Sights were placed and preparations made for setting concrete blocks November 18 to 29, 1884 .- 9 concrete blocks were set by the derrick "City of New York,"

March 6 and 7, 1885.—Guides for setting blocks were placed. March 13 and 14, 1885.—3 concrete blocks were set by the derrick "City of New York," the

divers assisting. March 13 and 14, 1885 —Recesses were cut in the blocks for keying the granite to the

March 16, 1885.—Levels were taken on the blocks set. In all, 12 concrete blocks, containing 219_{0}^{1} cubic yards of concrete were placed in this subpier.

GRANITE.

April 24 to 29, 1885.—16 pieces of granite, containg 815.45 cubic feet, were set with 8 batches of mortar, and backed with 10 batches of concrete, 6.3 cubic yards. The masons were also dressing the granite and caulking the joints. The granite for this pier is not yet completed.

Sub-Pier No. 2.

SOUNDINGS.

August 27, 1884.—Rod soundings were taken by the surveyors, assisted by the crew of the derrick "City of New York," over the site of sub-pier.

CRIB.

August 30 to September 4, 1884.—The crib, 15 feet by 50 feet in area and 5 feet in height (average dimensions), was set, taken up and reset by the derick "City of New York." The crib was loaded with rip-rap to sink it, and guided to place by spuds. Guide pieces were placed on it to guide the divers in placing the concrete. September I to 4, and 18 to 22, 1884.—The mud, sand, etc., were removed from the crib by a water-jet operated from the pile driver No. 5 and a steam-pump, the divers assisting. September 23 to 30, 1884.—Io8 batches of concrete in bags (68.04 cubic yards), and 69 batches (43.47 cubic yards), loose, in buckets, were placed in the crib, the divers assisting and leveling up.

leveling up.

CONCRETE BLOCKS.

October 2, 1884.—The surveyors, assisted by the crew of the derrick "City of New York," gave points for guides for setting the concrete blocks. October 3 to 9, 1884.—9 concrete blocks (192 cubic yards) were set on the crib foundation by the derrick "City of New York," the divers assisting. October 10 and 11, 1884.—Levels were taken on the blocks by the surveyors, assisted by the diverse diverse.

GRANITE.

2093

April 22 and 23, 1885.-The granite was cut and preparations made for setting it.

Sub-Pier No. 4.

SOUNDINGS.

August 27, 1884.—Rod soundings were taken by the surveyors assisted by the crew of the derrick "City of New York," over the site of the sub-pier.

CRIE.

September 18, 1884.—The crib, 15 feet by 50 feet in area and 5 feet in height ((average dimen-sions), was placed by the derrick "City of New York," and loaded with rip-rap to sink it to place,

sions), was placed by the derrick "City of New York," and loaded with rip-rap to sink it to place, the divers assisting.
September 20, 1884.—The sights were removed by the divers.
September 30 to October 6, 1884.—The mud, sand, etc., were removed from the crib by the water-jet and steam-pump, the divers assisting.
October 7, 1884.—Levels were taken on the crib, the divers assisting.
October 9 to 18, 1884.—To batches (44.1 cubic yards) of concrete in bags, and 94 batches (59.29 cubic yards) loose, in buckets, were placed in the crib, the divers assisting.
October 27 to 30, 1884.—Go concrete blocks were set on the crib foundation by the derrick "City of New York," the divers assisting.
October 30 to 31, 1884.—Levels were taken on the blocks.
March 12, 1885.—Guides for setting concrete blocks placed in position, the divers assisting.
March 13, 1885.—Levels taken on the blocks.

March 13, 1885 .- Levels taken on the blocks.

GRANITE.

March 23 to April 10, 1885-36 pieces (1,765.87 cubic feet) of granite were dressed, and set with 14½ batches of mortar and 7½ batches of grout, and backed with 18 batches (12.34 cubic yards) of concrete, completing the granite for the sub-pier.

April 6 to 15, 1885.—Seats for the girders were cut in the granite.

Sub-Pier No. 5.

SOUNDINGS

August 28, 1884.--Rod soundings were taken by the surveyors, assisted by the crew of the derrick "City of New York." over the site of the sub-pier.

September 23, 1884. — The crib, 15 feet by 50 feet in area, and 5 feet in height (average dimen-sions), was placed by the derrick "City of New York," the divers assisting, and loaded with rip-rap to sink it in place. September 24, 1884. —The sights were removed by the divers. September 29 and 30, 1884. —Mud, sand, etc., were removed from the crib by the water-jet and steam-pump, the divers assisting October 1 to 8, 1884. —96 batches (60.48 cubic yards) of concrete in bags, and 79 batches (47.88 cubic yards) loose, in buckets, were placed in the crib, the divers assisting.

CONCRÈTE BLOCKS.

October 14, 1884,-Points were given and guiles placed on crib, and preparations made for

October 14, 1584.—roms were given and gurles placed on the crib by the derrick "City of October 15 and 17, 1884.—9 concrete blocks were placed on the crib by the derrick "City of New York," the divers assisting.
December 4 and 5, 1884.—3 concrete blocks were placed on the crib by the derrick "City of New York," the divers assisting.
December 8 and 9, 1884.—Levels were taken on the blocks, the divers assisting. In all, 12 concrete blocks (238.23 cable yards), were placed in this sub-pier.

GRANITE.

January 14 and 15 and 30 to February 2, 1885.-The granite was dressed and prepared for

January 14 and 15 and 35
 Setting.
 February 3 to March 6, 1885.—34 pieces of granite were dressed and set, and backed with 17½ batches (11.025 cubic yards) of concrete.
 March 7 to 11, 1885.—Seats for the girders were cut in the granite.
 March 17 to 19, 1885.—The joints in the blocks were located by the surveyors, the divers

assisting. March 26 and 27, 1885.—2 pieces of granite were dressed and set in place. During the year, 36 pieces (1,697.56 cubic feet) of granite were set in 18½ batches of mortar and 4 batches of grout, and backed with 17½ batches (11.025 cubic yards) of concrete, completing the granite for this pier

March 26 and 27, 1885.-Seats for the girders were cut in the granite.

Sub-Pier No. 6.

CRIB.

CRIB. August 4 and 5, 1884.—Preparing to sink the crib. August 7, 1884.—The crib, 15 feet by 50 feet in area and 5 feet in height (average dimensions), was placed in position by the derrick "City of New York," the divers assisting, and Ioaded with rip-rap to sink it to place. August 8, 1884.—The north end of the crib was blocked up by the diver, and mud was removed from the crib by the water-jet and steam-pump, the divers assisting. August 9, 1884.—The position of the crib was shifted about one foot by the derrick "City of New York," the divers assisting. August 11, 1884.—Guides for placing the concrete bags were set. August 12 and 13, 1884.—The mud, sand, etc., were removed from the crib by the water-jet and steam-pump, the divers assisting. August 14 to 25, and September 5 to 10, 1884.—179 batches (112.77 cubic yards) of concrete in bags, and 79 batches (44.73 cubic yards) of concrete loose, in buckets, were placed in the crib, the divers assisting in placing and leveling off for the blocks.

CONCRETE BLOCKS.

September 11 and 12.—Points were given, and guides placed on the crib, and preparations made for setting the blocks. September 13 to 15, 1884.—5 concrete blocks were placed on the crib by the derrick "City of New York," the divers assisting. September 24, 25, 29, and 30, 1884.—Points were given and guides placed, and preparations made for setting the balance of the blocks. October 1, 1884.—3 concrete blocks, making a total of 8 blocks for this sub-pier, were placed on the second course by the derrick "City of New York," the divers assisting. October 15, 1884.—Levels were taken on the blocks, the divers assisting.

divers.

Sub-Pier No. 3.

SOUNDINGS.

August 27, 1884.—Rod soundings were taken by the surveyors over the site of the sub-pier, the derrick "City of New York," being used, the divers assisting.

CRIB.

September 5, 1884.—The crib, 15 feet by 50 feet in area and 5 feet in height (average dimen-sions), was placed by the derrick "City of New York," and loaded with rip-rap to sink it to place. September 6, 1884.—Guide planks were placed by the diver on the crib to guide divers in plac-

September 9, 193,....Onde plants were placed by the order on the crib to guide divers in placing the concrete.
September 8 and 22 to October 18, 1884....The mud, sand, etc., were removed from the site of the sub-pier by a water-jet, operated from pile driver No. 5, and a steam-pump, the divers assisting. October 18 to 27, 1884....118 batches (74.34 cubic yards) of concrete in bags, and 78 batches (49.14 cubic yards) loose, in buckets, were placed in the crib, the divers assisting.

CONCRETE BLOCKS.

October 31 to November 3, 1884.—Points were given, and the crib foundation prepared by the divers for setting the base blocks. November 5 to 10, 1884.—12 concrete blocks (200.7 cubic yards) were set on the crib foundation by the derrick "City of New York," the divers assisting, and holes drilled in the blocks to receive dowels.

November 1 to December 1, 1884.-36 pieces (1,781.92 cubic feet) of granite were dressed and set by the 10-ton derrick, with $11\frac{1}{2}$ batches of mortar and 5 batches of grout, and backed with $15\frac{1}{2}$ batches (9.765 cubic yards) of concrete, completing the granite for this sub-pier. The joints were caulked by the diver. December 2 to 5, 13 to 26, 1884, and January 3, 1885.—The top course of granite was dressed down and seats for the girders cut in the granite.

GRANITE.

Sub-Pier No. 7.

CRIB.

August 11 and 12, 1884 .- The site for the crib was examined, the derrick "City of New York "

August 17 and 12, 1004.— The site of the crib was examined, the deriver only of New 1014 being employed, and the divers assisting. August 13 to 15, 1884.—The crib, 15 feet by 50 feet, in place by 5 feet in height (average dimensions) was placed in position by the deriver "City of New York," weighted with rip-rap to sink it, and wedged into position, the divers assisting. August 25 to September 15, 1884.—351 batches (221.13 cubic yards) of concrete in bags, and 63 batches (39.69 cubic yards) of concrete loose, in buckets, were placed in the crib, the divers solution in placing and leveling off.

assisting in placing and leveling off.

CONCRETE BLOCKS.

September 17 and 18, 1884.-Points were given and sights placed for setting blocks, the divers assisting

assisting.
September 19 and 20, 1884.—5 concrete blocks were set on the crib by the derrick "City of New York," the divers assisting.
September 20, 1884.—Levels were taken on the blocks set, the divers assisting.
October 10 and 11, 1884.—3 concrete blocks were set on the top course, making a total of 8
blocks (168.5 cubic yards) in this sub-pier, by the derrick "City of New York," the divers assisting.
October 13, 1884.—Levels were taken on the top course of blocks, the divers assisting.
October 14, 1884.—The guide-planks were removed by the divers.

THE CITY RECORD.

SEPTEMBER 25, 1885.

GRANITE.

November 8 to December 13, 1884.—36 pieces (1,809.90 cubic feet) of granite were dressed and set, with 12 batches of mortar and $20\frac{1}{2}$ batches of grout, and backed with 16 batches (10.08 cubic yards) of concrete. The derrick "City of New York" was employed in setting 5 pieces, the divers assisting.

December 16, 1884, to January 3 and March 13, 1885.—Seats for the girders were cut in the granite and the top surface of the sub-pier dressed down to the required grade.

Sub-Pier No. 8.

SOUNDINGS.

August 11, 1884 .- The site for the crib was examined, the derrick "City of New York" being

August 17, 1804.— The for the for the for the data examined, the defined only of 1804 role role only employed, the divers assisting. August 18, 1884.—Rod soundings were taken by the surveyors over the site of the sub-pier, the derrick "City of New York" being used, and the divers assisting.

CRIB.

August 19 to 23, 1884.—The crib, 20 feet by 50 feet in area by 5 feet in height (average dimen-sions), was placed in position by the derrick "City of New York," weighted with rip-rap to sink it, reset, its location tested, and the sights removed, the divers assisting. August 28 to September 1, 1884.—The mud, sand, etc., were removed from crib by the water-jet operated from pile-driver No. 5, and a steam-pump, the divers assisting. September 2, 1884.—The crib was located by the surveyors, the derrick "City of New York" being used, the divers assisting.

being used, the divers assisting. September 5 to 23, 1884.—191 batches (120.33 cubic yards) of concrete in bags, and 69 batches (43.47 cubic yards) of concrete loose, in buckets, were placed in the crib, the divers assisting and leaveling off. leveling off.

CONCRETE BLOCKS.

September 24, 1884,-Points were given and guides for setting blocks were placed on the crib, the diver assisting.

September 27 and 29, 1884.-5 concrete blocks were placed on the crib by the derrick "City of New York," the divers assisting. October 20 to 23, 1884 .- 6 concrete blocks were placed by the derrick "City of New York,"

the divers assisting. October 23, 1884.—Levels were taken on the blocks. October 27, 1884.—I concrete block was set by the derrick "City of New York" and levels

taken thereon, the divers assisting. December 11 to 13, 1884.—3 concrete blocks—a total for the sub-pier of 15 (393.5 cubic yards)— were placed by the derrick "City of New York," and levels were taken on the blocks, the divers assisting.

GRANITE.

November 29, December 16 to 18, 1884, and January 7 to 9, 1885 .- Cutting and preparing to

January 13 to February 15 and 26, to March 3, 1885.—50 pieces (2,116.85 cubic feet) of granite were set with 28½ batches of mortar and 18½ batches of grout, and backed with 42 (17.955 cubic yards) batches of concrete, the diver assisting. set granite.

March 14 and 15, 1885 .- 9 pieces (581.31 cubic feet) of coping were set, using 51/2 batches of

mortar and 3 batches of grout. March 12 to April 22, 1885.—Seats for the girders were cut in the granite, and the granite and coping dressed. 2 pieces of granite were brought from the East Seventeenth Street Yard, and cut to fit as closing pieces between the coping and the ends of the side girders.

April 21, 1885.-The 2 extra pieces (190.2 cubic feet) of granite were set as closers, with I

batch of mortar.

STONE FILLING.

July 29, 1884.—A load of rip-rap was delivered by Christopher Havican, and discharged by him, on the pier at Bogart street, and afterwards placed around the foundations of the sub-piers by the Department forces.

October 4 to November 16, 1884.--2,011 cubic yards of rip-rap were deposited by Christopher Havican (under Treasurer's Orders Nos. 11048 and 11158) around and between the sub-piers. The divers leveled off the rip-rap. October 17 to 19, 1884.-The rip-rap deposited on the pier at Bogart street was transferred to Pier "A" by Department forces.

December 3 and 6 and 19, 1884 .- Levels were taken on the rip-rap between the sub-piers, the divers assisting.

December 9, 1884.-Rip-rap was removed from Sub-Pier No. 4 by the divers.

Delivery of Granite.

October 30 to November 3, 1884.—The first load of granite was delivered and discharged by Christopher Binder's Sons, under Treasurer's Order No. 11068. November 5 to 8, 1884.—The second load of granite was delivered and discharged by Chris-topher Binder's Sons, under Treasurer's Order No. 11068. December 6, 1884.—Some of the granite delivered by C. Binder's Sons was dressed by the Department stone-cutters, to make them conform to the specifications, at the expense of C. Binder's Source Sons

January 16 to 21, 1885.—The third load of granite was delivered and discharged by C. Binder's Sons, under Treasurer's Order No. 11068. March 11 to 19, 1885.—The fourth load of granite was delivered and discharged by C. Binder's Sons, under Treasurer's Order No. 11068.

Sons, under Treasurer's Order No. 11005. March 25 and 26, 1885.—Several of the pieces of granite delivered by C. Binder's Sons were recut by the Department stone-cutters, to make them conform to the specifications, the expense to be charged to C. Binder's Sons. April 17 to 21, 1885.—The fifth load of granite was delivered and discharged by C. Binder's April 17 to 21, 1885.—The fifth load of granite was delivered and discharged by C. Binder's Sons.

Sons, under Treasurer's Order No. 11068.

SUPERSTRUCTURE.

Span No. 5.

GIRDERS.

April 11, 13, and 17 to 20, 1885.—The girders were placed in position by the 10-ton derrick, and extra holes were drilled in them in which to place tie-rods to hold them in line.

CENTRES.

April 14 to 18, 1885 .- The centres were placed in position by the 10-ton derrick.

Span No. 6. GIRDERS.

March 17 to 19, and 26 to 28, 1885.—The girders were placed in position between Sub-Piers divers assisting. 5 and 6 by the 10-ton derrick. June 10 to July 20, 1884.—1,081 cubic yards of cobbles (to date, 10.452), and 1,808 cubic yards Nos. 5 and 6 by the 10-ton derrick. March 31, 1885.—Extra holes were drilled in the girders in which to place tie-rods to hold

CENTRES.

March 7 to 16, 1885 .- The centres were placed in position by the 10-ton derrick.

CONCRETE.

March 16 to April 1, and 25 to 28 1885.—The centers were oiled, and the centers and girders were coated with 16½ batches of mortar. 141 batches (93.24 cubic yards) of concrete were placed between the girders.

RECEIVING GIRDERS.

December 17 to 19, 1884.—The piles south of the boat landing were cut off and capped, and rangers placed thereon, and decked with 4" plank to form a platform to receive the iron girders when delivered. December 13, 1884.—The first load of iron girders was delivered on the site of the work by A.

R. Whitney & Co., under Treasurer's Order No. 11131. January 3 to 12, 1885.—The rest of the iron girders, tie-rods, etc., were delivered by A. R. Whitney & Co., under Treasurer's Order No. 11131.

Janury 16 to 25, 1885.—The iron girders were weighed by A. R. Whitney & Co. February 6, 1885.—The girders on the platform were wedged up and the tie-rods oiled.

Mooring Piles and Buoys.

July 31 and August 1, 1884 .- Six mooring piles were driven and fastened south of the boat landing.

August 2, 1884.-Two concrete blocks were placed for mooring purposes by the derrick "City of New York," the divers assisting.

August 18, 1884.—The above-mentioned blocks were shifted by the derrick "City of New York," the divers assisting. Angust 25, 1884.—The mooring piles on the south side of the boat landing were staylathed

and rebraced. August 27, 1884.—Two spar-buoys were placed south of the pier, for mooring purposes, by the derrick "City of New York," the divers assisting.

September 15 to 18, 1884,-Seven mooring piles were driven south of the boat landing and a

spar-buoy placed. November 26 to 29, 1884.—Five mooring piles were driven. January 24, 1885.—The staylathing of the mooring piles south of the boat landing was repaired.

March 13, 1885.-The position of the anchors and blocks used as buoys were located by the diver.

Miscellaneous.

September 29, 1884.—The iron railing along the bulkhead wall was removed. November 25, 1884.—Piles were bunched, floats repaired, etc. January 26 to 31, 1885 .- Float-stages were made

Office, Tool-house, etc.

August 30 to September 2, 1884.—The office was moved, and a fence was built to enclose a portion of the bulkhead at the inner end of the pier.

September 9 to 12, 1884.—The office was painted and a flagstaff erected. November 19, 1884.—A tool-house was built. December 1 and 2, 1884.—The fence was extended to enlarge the enclosure.

CHAMBERS STREET SECTION.

Resolutions of the Board, November 24, 1877, and November 21, 1878.

Filling in Rear of the Wall.

May 13, 1884.-A trench was dug in the new-made land to drain off the stagnant water.

June 10, 1884.—Levels were taken over the newly-made land to measure the settlement. July 14, 1884.—The filling was leveled off between Duane and Jay streets, after the relaying of the approach to the New York, Lake Erie and Western Railroad freight shed.

Pier, old 33, N. R.

September 11 and 12, 1884.-The old shed south of the pier was shored up, the filling south of it having settled away.

Section Office.

June 16, 1884.—The windows of the office were repaired. January 5 to 30, and February 10 to 17, 1885.-The office was repaired and painted.

BEACH STREET SECTION.

Resolution of the Board, July 16, 1879.

Bulkhead Wall Proper.

GUARD FILING.

September 13 and 15, 1884 .- Five piles were driven at the north end of the section to protect the unfinished work

March 25, 1885.—Five spruce piles, about 65 feet in length, were driven in a cluster, and fastened with chains, at the north end of the section, and west of the bulkhead wall, to replace the five guard piles previously driven there. The work was done under Secretary's Order No. 4197.

Temporary Roadway to Pier, new 26, N. R.

October 29, November 17 and 29 to December I, 1884.—The cobble roadway was repaired under Secretary's Order No. 3992. April 9 to 11, 1885.—The cobble pavement leading to the pier was taken up by the Department forces under Secretary's Order No. 4247. April 10 to 13, 1885.—The roadway was paved with Belgian pavement by George Doak, under Secretary's Order No. 4247 and Treasurer's Order No. 11436. The portion paved was about 181.8 feet in length and about 30 feet in width, with an area of 596.7 square yards.

LAIGHT STREET SECTION.

Resolutions of the Board, July 30 and November 3, 1880.

Bulkhead Wall Proper.

STONE FILLING.

June 10 to 14, 1884 .- The south end of the piling was bulkheaded, to retain stone filling, the

them in line.

CENTRES.

March 31 to April 4, 1885 .- The centres were placed in position by the 10-ton derrick.

CONCRETE.

April 6 to 8, 1885.—The centres were oiled, and coated with 2 batches of mortar, and 14 batches (8.82 cubic yards) of concrete were placed on them.

Span No. 7

GIRDERS.

December 18 and 22, 1884.—The girders were placed in position between Sub-Piers Nos. 6 and 7 by the derrick "City of New York."

January 3 and 4, 1885 .- Holes were drilled in girders in which to place tie-rods to hold them in place.

CENTRES.

December 23, 1884, to January 2, 5, and 13, 1885.-The centres were placed by the 10-ton derrick.

CONCRETE.

January 2 to 13, 1885.—The centres were oiled and the centres and girders were coated with 19 batches of mortar. 167 batches of concrete were placed between the girders. January 14 and 15, 1885 .- The concrete was floated with 6 batches of mortar.

Span No. 8.

GIRDERS.

March 6, 9 and 14 to 16, 1885 .- The girders were placed in position between Sub-Piers Nos. 7 and 8, by the 10-ton derrick.

Inte To to July 20, 1864.—1,081 cubic yards of cobbles (to date, 16,452), and 1,808 cubic yards of rip-rap (to date, 14,963), were deposited by Christopher Havican. This material was placed over a length of 181.67 feet of wall, extending from about 100 feet south of Pier, new 28, to 61.67 feet south of Pier, new 27, and completing the stone filling for a length of 112 feet, extending from 100 feet south of Pier, new 28, to 8 feet north of the south side of Pier, new 27. To date, the stone filling has been placed over a length of 446.67 feet of wall, extending from 90 feet north of Pier, new 28, to 61.67 feet south of Pier, new 27, and has been completed for a length of 297 feet of wall, extending from 10 feet north of Pier, new 28, to 8 feet north of the south side of Pier, new 27.

PILING AND WOODWORK.

Pile Driving.

May 27 and 29, 1884.—3 extra vertical piles were driven in the foundation (total to date 1,112 vertical and 171 bracing piles). The length of piling remains the same as was given in the last annual report.

July 19, 24 and 25, 1884.—The piles remaining on hand were rafted and secured. August 11 to 15, 1884.—The piles were counted, rafted and taken to the West Fifty-seventh street basin.

Binding Frame.

May 27 and 28, and June 7 and 9, 1884 .- The binding frame was keyed by the diver.

Capping.

May I to June 17, 1884.—28 cross-caps (to date, 111) and 269 lineal feet of longitudinal caps (to date, 1,025 feet) were placed, using 232 2-inch tree-nails (to date, 1,008), and 84 3-inch tree-nails (to date, 341), on a length of 91.65 feet of wall, extending from 139.75 feet south of Pier, new 38, to 11.4 feet south of Pier, new 37, and completing the capping on a length of 87.21 feet of wall, extending from 139.75 feet south of Pier, new 28, to 6.96 feet south of Pier, new 27. The total length of completed capping to date is 335.85 feet, extending from 33.89 feet north of Pier, new 28, to 6.96 feet south of Pier, new 28, to 6.96 feet south of Pier, new 27. to 6.96 feet south of Pier, new 27.

Decking.

June 21 to July 21, 1884.—924 square feet of 4-inch spruce planking were placed on the caps' on a length of 77 feet of wall, extending from 134 feet south of Pier, new 38, to 9 feet north of the south line of Pier, new 37. The total length of cap-planking to date is 298 feet, extending from 12 feet north of Pier, new 28, to 8 feet north of the south line of Pier, new 27.

MASONRY. Base Blocks.

May 1 to 5, 1884.—7 base blocks (to date, 28) were set, and the chain holes filled on a length of 84.73 feet of wall, extending from 142.75 feet south of Pier, new 28, to 7.48 feet south of Pier, new 27. The total length of blocks set to date is 339.37 feet, extending from 36.39 feet north of Pier, new 28, to 7.48 feet south of Pier, new 27.

Granite and Backing.

June 17 to July 12, 1884.—105 pieces of granite (to date, 329) were set, and 318 batches of concrete (to date, 1,024¹/₂) were placed, on a length of 105.26 feet of wall, extending from 119.93 feet south of Pier, new 28, to 5.19 feet south of Pier, new 27. The total length of granite set extends, on the "A B" course, from 11.00 feet north of Pier, new 28, to 5.19 feet south of Pier, new 27, a distance of 311.19 feet, and on the "E" course, from 231 feet north of Pier, new 28, to 4.64 feet south of Pier are 27 a distance of 311.19 feet. south of Pier, new 27, a distance of 301.95 feet.

Coping.

July 12 to 24, 1884.—The beds of 4 pieces of coping were cut. July 22, 23, 1884.—4 pieces of coping (to date, 18) were set on a length of 29.46 feet of wall north of Pier, new 27. The total length of coping set to date is 145 feet, extending from Pier, new 28, to Pier, new 27.

Filling in Rear of Wall.

July 7, 1884, to January 25, 1885.—4,802 loads of earth filling were received on tickets, in rear of the wall at and near Piers, new 28 and 27. Total to date, 28,871 loads on tickets and 461 loads free.

Temporary Backing Log.

April 25, 1885.—A temporary backing-log, of old material, was placed between Piers, new 27 and 28, under Secretary's Order No. 4283.

Temporary Roadway.

TO PIER, NEW 27, N. R.

July 24 to August 6, 1884 .- An approach was built on piles, 70 feet long by 75 feet wide.

Guard Piling.

September 11 to 15, 1884.—4 piles were driven at the south end of the section to protect the unfinished end of the wall, under Secretary's Order No. 3920.

Pier, new 27, N. R.

CONTRACT NO. 193.

May 1 to 3, 1884.—The contractor, Joseph Walsh, finished all except the inner about 100 feet in length of the pier. May 15 to 20, 1884.—The column injured by the contractor in driving, was repaired by the Department forces, the divers assisting, under a resolution of the Board dated May 14, 1884. July 16, 1884.—Seats were cut by the Department forces in the face of the granite to receive the ends of the side caps of Pier, new 27. July 12 to Angust 2, 1884.—The inner, about 100 feet of the pier, was completed by the con-tractor. The pier, as completed, measures 547 feet 6 inches in length by 75 feet in width. August 6 to 30, 1884.—31 iron cleats were placed on the sides of the pier by the Department forces.

forces.

Miscellaneous.

November 8, 10, 1884.-Tools, stores, etc., were removed from the section to the East Seven-teenth Street Yard.

Paving Temporarily the Newly-made Land between Piers, new 41 and new 42.

Resolution of the Board, May 28, 1884.

July 15 to 26, 1884.—An area of about 708 square yards of the newly-made land south of Pier, new 42, and included between the premises occupied by the Hudson River Tunnel Company, and the coping of the new bulkhead wall, was temporarily paved with cobble stones by George Doak, under Treasurer's Order No. 10957. July 19, 21, 1884.—Logs were placed by the Department forces for paving up to.

Taking up and Relaying Pavement between Hoboken Street and Morton Street, N. R.

Under Resolution of the Board of August 20, 1884.

Under Resolution of the Board of August 20, 1884. November 1, 1884, to February 1, 1885.—A portion of the granite pavement where settlement had taken place, on the newly-filled land between Piers, new 35 and new 36, North river, and between Piers, new 36 and new 37, North river, was taken up by the Department force, the paving sand was gathered for use again, and the gravel and the tar were removed from the paving blocks, and this refuse material was loaded on a scow, and was towed up to the rear of the wall on West Thirty-first Street Section, where it was discharged as earth filling. 2,690 free loads of earth for raising the sunken filling to grade, and 585 loads by tickets, were received and placed between Piers, new 35 and new 37; 877 free loads of earth were received and stored for the same purpose between Piers, new 40 and new 41, and 294 free loads between piers new 39 and 40. Total number of loads received February 1, 1885, 4,156. The Department force replaced the sand as a bed for the paving blocks, and Michael Ryan repaved and rammed to grade an area of about 440 square yards of the removed pavement, under Treasurer's Order No. 11270, and the Department force filled the joints of this area of paving with coal tar and gravel, using the firewood brought from East Seventeenth Street Yard for the necessary heating. Drains were made by the force of the Department to connect with the sewer to keep surface water from accumulating in the low areas. March 12 to March 13, 1885.—The Department force completed the grading of the newly-filled land where the pavement had been removed, between Piers, new 35 and new 37, replaced the bed of sand thereon, and Michael Ryan repaved and rammed to grade an area about 700 square yards, and thereon, and Michael Ryan repaved and rammed to grade an area about 700 square yards, and piers, new 40 and 41 was carted and deposited on the low filling between Piers, new 35 and new 37, under Treasurer's Order No. 11451. CHRISTOPHER STREET SECTION.

October 29 to November 3, 1884.—The pavement temporarily relaid was taken up and relaid in sand by the Department forces. November 6, 1884.—The joints in the above-mentioned pavement were filled with coal tar, pitch and gravel by T. New, under Treasurer's Order No. 10986.

REPAIRING UNDER SECRETARY'S ORDER NO. 3782.

June 16 and 17, 1884.—A leak in the pipe near the approach to Pier, new 45, was repaired by the Department forces, and the pavement relaid. November 6, 1884.—The joints in the above-mentioned pavement were filled with coal tar and gravel by T. New, under Treasurer's Order No. 10986. October 27 to November 28, 1884.—The use of the pipe under the newly-paved approach to Pier, new 45, was discontinued, and a connection was made with the pipe laid in 1882 north of the north crosswalk to Pier, new 45. The connection was made by L. L. Goodnich, under Treasurer's Order No. 10998, the excavation and filling being done by the Department forces.

WEST TWENTY-THIRD STREET SECTION, SOUTH END.

Resolution of the Board, November 5, 1880.

Bulkhead Wall Proper.

MASONRY.

Pointing.

May 1, 1884.-The joints in the granite north of Pier, new 57, were pointed.

Temporary Mooring Post.

October 17 to 18, 1884.—A temporary wooden mooring-post was placed in rear of the new bulkhead wall, north of Pier, new 54, under Secretary's order No. 3976.

Temporary Roadways.

TO PIER, NEW 54, N. R.

May 14, 1884.—A hole in the plank roadway was repaired. August 27, 1884.—The plank roadway was repaired. October 11 to November 3, 1884.—The roadway was raised, graded, and planked, and a backing-log placed thereon.

TO PIER, NEW 55, N. R.

May 8, 1884.—The plank roadway was repaired. November 1, 7 and 8, 1884.—The plank roadway was repaired. April 3, 1884.—The plank roadway was repaired.

Miscellaneous.

August 5, 1884.—Three holes in the platform in front of the West Twenty-fourth street boat-landing were repaired.

Pier, new 54, N. R.

CHRISTOPHER STREET SECTION.

Water-Pipe to Piers, new 46 and new 47, North River.

REPAIRING UNDER SECRETARY'S ORDER NO. 3747.

May 13 to 17, 1884.—A trench was dug north of the crosswalk leading to Pier, new 45, to locate the leak in the water-pipe leading to Piers, new 46 and new 47. The leak was repaired by L. L. Goodrich, under Treasurer's Order No. 10933. The pavement was then temporarily relaid.

August 12 to September 6, 1884.—The inshore end of the pier was raised by wedging, jack-ing, blocking, etc., the settlement having been caused by the settlement of the wall.

Bulkhead between Piers, new 56, and new 57, N. R.

February 20, 1885 .-- Placed temporary backing-log on bulkhead wall between Piers, new 56,

and new 57. March 31, 1885.—Placed temporary backing-logs on the bulkhead to replace the temporary backing-logs that had been carried away by the high tide. April 3, 1885.—Removed some good plank placed as temporary backing-log, and put some second-hand timber in its place.

WEST TWENTY-THIRD STREET SECTION, NORTH END.

Resolution of the Board, June 28, 1882.

Bulkhead Wall Proper.

MASONRY.

Pointing.

May 2 to 9, 1884.—The joints in the wall north of Pier, new 57, were pointed. May 10 to 22, 1884.—The joints in the wall south of Pier, new 59, were pointed. May 23 to 31, 1884.—The joints in the wall between the lines of Pier, new 59, were June 2 to 18, 1884.—The joints in the wall between Piers, new 59 and new 60, were pointed.

July 24 to 30, 1884 .- The joints in the wall between the lines of Pier, new 60, were pointed.

Earth Filling.

May 1, 1884, to January 6, 1885–37,876 loads of earth-filling, on tickets, and 90 loads of earth (free) were received at the foot of West Thirtieth street, and in rear of the wall at Pier, new 60. May 31, 1884–70 cubic yards of earth (equivalent to about 100 loads) were received (free) from the pier at West Fifty-fifth street and placed by Department forces in rear of the wall between Piers,

new 59 and new 60. August 1, 5 and 14, 1884—598 cubic yards of boulders, etc., equivalent to about 850 loads, from Pier A, were deposited by the Union Dredging Company in rear of the wall between Piers, new 59 and new 60.

December 12 and 18, 1884—The backing-log was shifted, and planks were laid on the dump. During the year, 37,876 loads of filling were received on tickets, and 950 loads received free; total to date being 57,052 loads on tickets, and 978 loads free.

the total to The cubic yards are reduced to equivalent loads on the basis of the load being equal to 0.7 cubic yards

Cleats.

July 1 and 2, 1884-Three cleats were made and placed on the backing-log between Piers, new 59 and 60.

Removal of Old Work.

PIER AT WEST TWENTY-EIGHTH STREET, N. R.

June 24 to August 9, 1884 .- The sheathing, decking, fenders, etc., of the old pier were removed.

September 11, 1884 .- A temporary backing-log and fence were placed at the foot of West Twenty-eighth street September 18 to 22, 1884 .- 138 piles at the inshore end of the pier were cut off at the mud

level. December 31, 1884.-Backing-log was replaced and a fence put up at the foot of West Twentyeighth street.

PIER AT WEST THIRTIETH STREET, N. R.

May 9 to June 24, 1884 .- The inner end of the old pier was removed to make room for the filling. September 17, 1884 .- The piles of the southerly side of the old pier were cut off at the mud

level.

Temporary Roadways to Pier, new 59, N. R.

May 5 to 17, 1884.—5-inch plank was laid on the approach to the pier. June 27, 1884.—A temporary backing-log was laid on the approach to the pier.

TO PIER, NEW 60, N. R.

May 15 to 26, June 3, 13, 18 to 27, July 2, 8, 18 to 23, August 18, and October 9 and 10, 1884. —The approach to the pier was shored up and strengthened. August 19 and October 6, 1884.—A temporary backing-log was placed on the approach. March 16 to April 8, 1885.—125 feet in length of approach was taken up, raised and relaid, under Secretary's Order No. 4198.

Pier, new 60, N. R.

May 24, 1884.—The ends of sheathing plank, which had sprung, were respiked. September 6 to 9, 1884.—The inshore end of the pier was blocked up. October 7, 1884.—Chocks between fenders, which had beeen displaced, were refastened.

WEST THIRTY-FIRST STREET SECTION.

Resolutions of the Board, August 8 and September 19, 1883.

Bulkhead Wall Proper.

STONE FILLING.

May 15 to 26, 1884.—610 cubic yards of cobbles and 757 cubic yards of rip-rap were delivered and placed on the site of the wall northwards from Pier, new 60, by C. Havican, under Treasurer's orders.

June 30 to July 3, 1884.—The mud was washed from among the foundation piles with a water-jet operated by the pump on pile-driver No. 5, the divers assisting. July 8 to 11, and 21 to 23, 1884.—The cobbles were leveled off for the base blocks by the

divers

July 8, 9, 21, 26 and 28, 1884.—460 cubic yards of rip-rap and 381 cubic yards of cobbles were delivered and placed by C. Havican, under Treasurer's orders. August 7 to 13, 1884.—The mud was washed from among the piles by a water-jet, the divers

assisting.

SEPTEMBER 25, 1885.

Binding Frames.

May 5 to 8, 1884.—The binding frames previously placed were keyed by the divers. June 2 to 5, 1884.—The 9th binding frame was sunk between 8 feet south of and 16 feet north of the south line of West Thirty-first street, the divers assisting. June 10 to 18, 1884.—The 10th binding frame was made and sunk between 16 feet north of, and 40 feet north of the south line of West Thirty-first street, the divers assisting.

June 28, 1884.—The binding frames were keyed by the divers. July 17 to 19, 1884.—The 11th binding frame was made and sunk between 40 feet north of the south side and 0.5 feet north of the north side of West Thirty-first street. July 26, August 9 to 12, October 4 and 7, 1884.—The binding frames were keyed by the

divers

During the year, 3 binding frames (to date 11) were made, placed and keyed on a length of 68.5 feet of wall, extending from 8 feet south of to 0.5 feet north of West Thirty-first street, completing the binding frames for the section on a total length of 258 feet north of West Thirty-first street.

Cutting Piles.

May I to October 4, 1884.-The vertical and bracing piles were cut off by hand at the level for the caps, at various times between these dates. June 19 and 20, 1884.-71 foundation piles and 9 platform piles were sawed off by the pile

cutter

cutter. July 8, 22 and 23, 1884.—33 foundation piles sawed off by the pile cutter. July 28, August 1 to 4, 1884.—Several piles were cut off for the base blocks by the divers. August 9, 1884.—2 extra foundation piles sawed off by the pile cutter. October 4, 1884.—2 foundation piles cut off by the diver. During the year, 115 piles (to date 288) were sawed off by the pile-cutting machine, on a length of Ioo feet of wall, extending from about 37.5 feet south of West Thirty-first street to about 2.5 feet south of the north side of West Thirty-first street, making the total length of wall on which the piles are cut, to date. 260 feet. are cut, to date, 260 feet.

Capping.

May 1 to September 17, 1884.—15 longitudinal caps were placed between 139 feet north of West Thirtieth street and 6 feet north of West Thirty-first street, a distance of 124.5 feet, and 41 cross caps were placed between 106 feet north of West Thirty-first street and 28 feet south of the

cross caps were placed between 106 teet north of West Thirty-first street and 28 feet south of the north side of West Thirty-first street, a distance of 123.5 feet. September 24 to 30, 1884.—The ends of the cross caps projecting in the line of the granite were cut off, and dovetails and chock pieces were secured in place. October 1 to 31, 1884.—To cross caps were placed between 28 feet south of and 2 feet north of the north line of West Thirty-first street, a distance of 30 feet. During the year 15 longitudinal caps (to date, 33½) were placed on a length of 124.5 feet of wall, and 51 cross caps (to date, 87) were placed on a length of 153 feet of wall, completing the capping for the section on an entire length of 259 feet.

Decking.

August 5 to December 18, 1884.—2,880 square feet of 4-inch planking was placed on the caps, on a length of 240 feet of wall, extending from the north line of West Thirtieth street to 17.5 feet south of the north line of West Thirty-first Street Section.

MASONRY.

Base Blocks.

July 12, 1884.-6 blocks were loaded at the Gansevoort Street Yard for this section.

July 12, 1004. — O DIOCKS were loaded at the Gansevoort Street Vard for this section. July 23 to 25, 1884.—6 base blocks were set on a length of 72.57 feet of wall, extending from 157.68 feet north of West Thirtieth street to 27.25 feet south of the north side of West Thirty-first street.

July 31, 1884.—The 6 chain holes of the above-mentioned blocks were filled. September 20, 1884.—A cluster of 4 mooring piles was driven. September 29, 30, 1884.—Preparations were made for setting the rest of the blocks for this section

section.
October 4, 1884.—2 blocks were loaded at the West Fifty-seventh Street Yard.
October 6, 1884.—2 base blocks were set on a length of 24.25 feet of wall, extending from 27.25
feet south of to 3 feet south of the north line of West Thirty-first street.
October 7, 1884.—The two chain holes of the above mentioned blocks were filled.
During the year 8 concrete blocks (to date, 21) were set on a length of 96.82 feet of wall, extending from 157.68 feet north of West Thirtieth street to 3 feet south of the north line of West Thirty-first street, and making a total length of blocks set, to date, of 254.5 feet measured in the wall. wall.

Granite.

Granite. July 29 to September 27, 1884.—193 pieces of granite were set and backed with 581 batches of concrete on a length, measured on the "A B" course, of 197.21 feet of wall, extending from 10.98 feet north of West Thirtieth street to 40.31 feet south of the north line of West Thirty-first street, and on a length, measured on the "E" course, of 154 feet, extending from 2. 10 feet north of West Thirtieth street to 41.40 feet south of West Thirty-first street. September 29 to October 22, 1884.—Granite was cut, joints caulked and the wall pointed. October 23 to November 6, 1884.—Granite was cut, joints caulked and the wall pointed. October 23 to November 6, 1884.—44 pieces of granite were set and backed with 159 batches of concrete on a length, measured on the "A B" course, of 45.45 feet of wall, extending from 49.31 feet south of to 3.86 feet south of the north line of West Thirty-first street, and on a length, measured on the "E" course of 54.31 feet of wall, extending from 41.40 feet south of to 12.91 feet north of the south line of West Thirty-first street. December 9 to 15, 1884.—23 pieces of granite were set, and backed with 80 batches of con-crete on a length, measured on the "E" course, of 34.32 feet of wall, extending from 12.91 feet north of the south line, to 12.77 feet south of the north line of West Thirty-first street. During the year 260 pieces of granite (to date, 268) were set and backed with 820 batches of concrete (to date, 857), on a length of wall, measured on the "A B" course, of 242.66 feet, extending from 10.98 feet north of West Thirtieth street to 3.86 feet south of the north line of West Thirty-first street, and a length, measured on the "E" course, of 242.63 feet, extending from 2.10 feet north of West Thirtieth street, to 12.77 feet south of the north line of West Thirty-first street. The total length of granite on "E" course (exclusive of coping) completed to date, is 244.73 feet.

feet.

assisting.
August 9, 1884.—The cobbles were leveled off for the base blocks by the divers.
August 11 to September 4, 1884.—869 cubic yards of cobbles and 1,135 cubic yards of rip-rap were delivered and placed by C. Havican, under Treasurer's orders.
October 4 to 6, 1884.—The cobbles were leveled off for the base blocks by the divers.
October 7 to 13 and 21, 1884.—The piles at the northerly end of the section were bulkheaded to retain the cobbles, the divers assisting.
October 4 to 22, 1884.—The cubic yards of cobbles and 604 cubic yards of rip-rap were

October 11 to 23, 1884.—419 cubic yards of cobbles and 694 cubic yards of rip-rap were delivered and discharged by C. Havican, under Treasurer's orders. January 10 12, 1885.—205 cubic yards of rip-rap were delivered and placed by C. Havican, under Treasurer's orders

under Treasurer's orders

During the year, 2,358 cubic yards of cobbles (to date 8,274) and 3,172 cubic yards of rip-rap (to date 9,382) were deposited over the site of the wall, extending from the north line of West Thir-tieth street to the north line of West Thirty-first street, a distance of 257 feet, and completing the stone filling for a distance of 203 feet from the north side of West Thirtieth street.

PILING AND WOODWORK.

Pile Driving.

May 1 to 3, 1884 .- 16 vertical and 3 bracing piles were driven between the lines of West

Thirty-first street. May 19 to June 18, 1884.—95 vertical and 18 bracing piles were driven between the lines of West Thirty-first street

June 21 to 27, 1884 .- Foundation piles were located by the divers by means of wire screens.

July 7 to 16, 1884.-53 vertical and 6 bracing piles were driven between the lines of and north

of West Thirty-first street. August 5, 6, 1884.—Foundation piles were located by the divers. August 9, 1884.—Z extra foundation piles were driven, the points being guided by the divers. During the year, 166 vertical piles (to date 820) and 27 bracing piles (to date 133) were driven in a length of 52 feet of wall, extending from 13.5 feet north of the southerly side of, to 5.5 feet north of the northerly side of West Thirty-first street, and completing the pile driving for the section on a total length of 263 feet.

Temporary Backing-Log.

November 7, December 16, 17, 1884.-5 temporary backing-logs were placed on the "E" course of granite north of Pier, new 60, North river.

Earth Filling.

January 6 to May 1, 1885.—13,062 loads of filling were received by tickets, and were put in place as earth filling in rear of wall. February 9, 1885.—Removed temporary backing-log along approach to Pier, new 60, to admit

of earth filling.

Temporary Mooring Posts.

December 24 to 30, 1884.—Excavations were dug for temporary mooring posts in rear of the wall between West Thirtieth and West Thirty-first streets, North river.

THE CITY RECORD.

West Twenty-seventh Street Office.

January 16, 1885.—The automatic tide gauge was removed and placed on storage at West Fifty-seventh Street Yard.

Store house of West Twenty-third and West Thirty-first Street Sections.

December 22, 23, 1884.-The tools, planks, mould-boards, etc., were removed to the West Fifty-seventh Street Yard.

West Twenty-seventh Street Basin.

Pile-butts and boom-logs were received at various dates. Pier at West Thirty-fifth Street, N. R.

EXTENDING THE PIER UNDER CONTRACT NO. 216, CLASS 2.

November 3 to March 4, 1885.—The pier was extended for its full width of 60 feet, to the "Established Pier Head Line," a distance of about 70 feet beyond original end of the pier, making the length of the pier beyond the established bulkhead line 500 feet and its total length, measured from the present bulkhead, 527.9 feet on the north side, and 536.2 feet on the south side, and increasing the deck area by about 4,200 square feet. The work was done by J. Leary, contractor.

New Pier at West Thirty-sixth Street, N. R.

BUILDING A NEW PIER AND APPROACH UNDER CONTRACT NO. 203.

May I to October 4, 1884.—John Gillies, contractor, finished building a new pier, 475 feet long by 50 feet wide, having an area of 23,750 square feet, and a temporary approach thereto, 49 feet long on the centre line by 50 feet wide, having an area of 2,800 square feet. The crib bulkhead at the inner end of the approach was repaired.

New Pier at West Forty-fourth Street, N. R.

BUILDING A NEW PIER UNDER CONTRACT NO. 200.

May I to July 22, 1884 .- John Gillies, contractor, finished building a new pier, 60 feet wide and 474 feet 31/2 inches long, having an area of about 28,500 square feet, with a temporary approach, 60 feet wide by 275 feet 81/2 inches long, and a return crib along the south side of West Forty-fourth street to the solid filling, with a sewer-box carried through the filling to the face of the front crib.

EAST RIVER.

Pier 2 to Pier 12, E. R.

BORINGS.

May 1 to June 6, 19 to 30, and July 7 to 15, 1884.—Borings were taken with the borer "Woodcock" over the site of the proposed bulkhead wall.

Coenties Slip (Piers 6 to 8), E. R.

May 5, 1884.—The fence on the east side of South street was repaired by the carpenter under Secretary's Order No. 3633. May 9, 1884.—The fence was painted where it had been repaired, under Secretary's Order No.

3633.

WORK OF CONSTRUCTION NOT UNDER NEW PLAN. NORTH RIVER.

New Crib-Bulkhead from West Seventy-ninth Street to West Eightieth Street, N.R.

BUILDING A NEW CRIB-BULKHEAD UNDER CONTRACT NO 201, CLASS 2.

May 1 to July 2, 1884.—T. & A. Walsh, contractors, finished building a new crib-bulkhead, extend-ing from the northerly side of the Pier at the foot of West Seventy-ninth street to the northerly line, extended, of West Eightieth street, a distance of about 292 feet, with a width of 21 feet on top, 27 feet on bottom, and a depth of about 40 feet. At the northerly end is a wing in rear, about 25 feet along the crib, and about 10 feet long easterly from the rear of the crib.

Newly-filled Land from West Seventy-eighth Street to West Eightieth Street, N. R.

RESOLUTION OF BOARD, JANUARY 30, 1884.

At the dump, between West Seventy-eighth street to West Seventy-ninth street, the following material was received free and deposited :

1,200	truck	loads	10	stone chips.	
2,011		**		small stone.	
388				earth.	
596		**		large stone.	
62	cart 1	oads o	of	small stone.	
200		46		stone chins	

earth.

RESOLUTION OF BOARD, JANUARY 30, 1884.

At the dump, from West Seventy-ninth street to West Eightieth street, the following material

was received free and deposited : 7,728 truck loads of stone chips. 4,670 " small stone. 2,305 " earth. 336 cart loads of small stone. 1,251 " stone chips. **

42

1,351 17 gravel. .. 213 earth.

On the 6th of April, 1885, the earth filling from West Seventy-eighth street to West Eightieth street was practically finished. Since that date, a Laborer, acting as Watchman, has been kept there by day to prevent people from dumping. The following material has been received free and spread by him to fill up low places as they

occurred :

185 truck loads of stone chips.

16 cart loads of stone chips. The total amount of material received and deposited at these premises, as above detailed, during the year, was 19,171 truck loads and 2,246 cart loads.

New Crib-Bulkhead from West One Hundred and Twenty-ninth to West One Hundred and Thirtieth Street, N. R.

BUILDING A NEW CRIB-BULKHEAD UNDER CONTRACT NO. 212.

August 7 to November 8, 1884.—William P. Kelly, contractor, dredged for and built a new crib-bulkhead, and filled in behind the same, extending from the northerly side of the Pier at the foot of West One Hundred and Twenty-ninth street to the southerly side of the Pier at the foot of West One Hundred and Thirtieth street, with its face on a line connecting the ends of the front face of the old bulkhead platform previously existing at the above-mentioned places. The bulkhead is built on piles, capped at mean low water, is about 216 feet long, about 15 feet wide on top, and about 16 feet wide on bottom.

BUILDING A NEW BULKHEAD PLATFORM UNDER CONTRACT NO. 210, CLASS I, "C."

August 12 to September 27, 1884.-Walls and Van Riper, contractors, removed the old cribbulkhead and built a timber platform, supported on piles, and having in its rear a close row of retaining piles, secured to anchor piles and backed with rip-rap. The platform is 60 feet long by 20 feet wide, with a deck area of about 1,200 square feet.

New Bulkhead Platform at East One Hundred and Sixth Street, H. R.

DREDGING UNDER CONTRACT NO. 210, CLASS 2, "A" AND "B."

August 8 to 9, 1884.—Walls and Van Riper, contractors, excavated and removed 599 cubic yards of mud and 412 cubic yards of crib from the site of the bulkhead platform, obtaining a depth of about 10 feet below mean low water.

BUILDING A NEW BULKHEAD PLATFORM UNDER CONTRACT 210, CLASS 2, "C."

August 11 to September 27, 1884.—Walls and Van Riper, contractors, removed the old pier and built a timber platform, supported on piles, and having in its rear a close row of retaining piles secured to anchor piles and backed with rip-rap. The platform is 100 feet long by 20 feet wide, with a deck area of about 2,000 square feet. A wooden sewer-box 7 feet wide by 5 feet 6 inches high, internal dimensions, and about 85 feet in length, was built from the end of the brick sewer to the close row of pules. the close row of piles.

Plans for the Permanent Improvement of the Water-front from East Eighty-sixth Street, East River, to One Hundred and Thirtieth Street, Harlem River.

UNDER RESOLUTION OF THE BOARD OF JULY 3, 1884.

November 10, 1884, to January 14, 1885 .- 195 borings to rock bottom were made with the borer "Woodcock.

March 12 to March 25, 1885.—71 borings were made with the borer "Woodcock." All of the above-mentioned borings were recorded for future use.

DEPARTMENT YARDS.

Gansevoort Street Yard, N. R.

May 1, 1884, to January 5, 1885.—Ironwork was made and repaired by the blacksmiths for the work on Construction, General Repairs, West Fifty-seventh Street Yard, Floating Property, and for the Surveying Party. 1,045 barrels of Portland cement were received and stored and samples tested.

January 14 to April 24, 1885.—The old platform on which the concrete blocks were made was torn up, and the material rafted and turned over to the account of General Repairs. January 27, 1885.—The storehouse, cement shed, blacksmith's shops, fence and gates were sold

by auction.

by auction. December 19, 1884, to January 15, 1885.—Took up flooring and timber in cement shed on Bloomfield street, North river, and transferred it to West Fifty-seventh Street Yard. January 22 to March 31, 1885.—Removed the Bloomfield Street Office to inner end of the West Fifty-seventh street Pier. January 5, 1885.—The Gansevoort street property ceased to be used as a Department Yard, the West Fifty-seventh street Pier being used as a yard from this date.

WORK DONE FOR PIER "A."

July 18 to August 28, 1884 .- Seven cribs were made for use in the sub-piers at Pier A.

WORK DONE FOR WEST FIFTY-SEVENTH STREET YARD.

December 16, 1884, to January 24, 1885 .- The stores and materials used at the Gansevoort

2097

LAYING ON EXTRA FLOOR IN REAR OF NEW CRIB UNDER SECRETARY'S ORDER NO. 3922.

September 20 to October 1, 1884 .- A floor of round logs was placed in rear of the new cribbulkhead, to retain the filling in the rear, by Wm. P. Kelly, under Treasurer's Order No. 11157.

EAST RIVER.

New Wooden Pier at East Twenty-sixth Street, E. R.

DREDGING UNDER CONTRACT NO. 205. CLASSES I AND 2.

May 29 to July 3, 1884.—J. D. Leary, contractor, excavated and removed 15,430 cubic yards of mud and 5,718 cubic yards of crib from the site of the pier, obtaining a depth of from about 20 feet to about 26 feet of water.

BUILDING A NEW PIER UNDER CONTRACT NO. 205, CLASS 3.

May 24 to October 24, 1884.—J. D. Leary, contractor, completely removed the old pier at East Twenty-sixth street, and built a new wooden pier on piles, 60 feet wide, 628 feet long on the southerly side and 659 feet long on the northerly side, and having an area of about 38,850 square feet. A crossoted wooden sewer, oval in section, extends the full length of the pier, and a tempor-ary sewer-box was laid in the street about 70 feet westwardly from the bulkhead.

New Bulkhead Platform at East One Hundred and Fifth Street, H. R.

DREDGING UNDER CONTRACT NO. 210, CLASS I, "A" AND "B."

August 12 to 13, 1884.—Walls and Van Riper, contractors, excavated and removed 300 cubic yards of mud and 203 cubic yards of crib from the site of the bulkhead platform, obtaining a depth of about 10 feet below mean low water.

Street Yard were transferred by scows to the West Fifty-seventh Street Yard.

West Fifty-seventh Street Yard, N. R.

PREPARING THE PIER UNDER RESOLUTION OF THE BOARD, NOVEMBER 21, 1883.

May 1 to October 31, 1884.—The repairing and extending of the pier was completed, a platform for making the concrete blocks upon was made, sand and stone bins erected, and backing-logs placed in front of the offices and shops.

June 14 to July 16, 1884.—22,492 cubic yards of mud were dredged from the slips adjoining the pier by the Union Dredging Company, under Treasurer's Order No. 11011. July 17 to September 5,\$1884.—A frame building, 20 feet by 120 feet, to be used for offices and storerooms; a frame building, 20 feet by 70 feet, to be used as a blacksmith shop and carpenter shop, and a cement shed, 40 feet by 80 feet, were built by Joseph Richardson, under Treasurer's Order No. 11020.

Order No. 11020. August 1 to October 31, 1884.—A railroad track was laid between the block platform and the sand and stone bins, and the water-pipe was boxed in. September 18 to November 5, 1884.—Water-pipes were laid on the pier, and connections made with the offices and hydrants under Treasurer's Order No. 11139; and steam pipes were laid, under Treasurer's Order No. 11153, by Messrs. Muller & Wood. December 28, 1884, to January 13, 1885.—Removed timber and piles from West Twenty-seventh street basin to West Fifty-seventh street basin. January 28 to February 5, 1885.—Laid the yellow pine flooring removed from Gansevoort Street Yard cement shed, along the southerly side of the new buildings on West Fifty-seventh street pier, as a deck sheathing.

pier, as a deck sheathing. April 24 to April 27, 1885.—Set cylinder-box and placed automatic tide gauge in office on the pier.

THE CITY RECORD

RECORD OF WORK DONE AT THE YARD.

January 5, 1885.—The pier was first used as a Department Yard, and the offices occupied. May 5 to April 10, 1085.—Ironwork was made and repaired by the blacksmiths for the work on Construction, General Repairs, Floating Property, and for the Surveying Party. 7,955 barrels of Portland cement were received and stored, and samples tested. February 1 to February 15, 1885.—The cement shed was partitioned off to receive material transferred from West Thirty-first Street Section.

WORK DONE FOR PIER "A."

July 10, 1884, to April 25, 1885.—The centres for six spans of Pier "A" and 971/2 concrete blocks, containing 1,523 cubic yards of concrete, were made.

GENERAL CARE OF FLOATING PROPERTY.

September 5, 1884 .- Second-hand piles were driven for mooring purposes to secure mud-scows.

AUTOMATIC TIDE GAUGES.

April 9, to April 17, 1885 .- The cylinder and automatic tide gauge on Pier, new 43, North river were repaired.

East Seventeenth Street Yard, E. R.

May, 1884.—The low places in the yard were filled in with material left over from moving building in the yard. June 12 and 13, 1884.—Granite was loaded on a scow for Laight Street Section. July 21, 1884.—Granite was loaded on a scow for Laight Street Section. Concrete blocks and wooden buoys were loaded on derrick for use at Pier "A," North river. August 26, 1884.—Granite was loaded on a scow for West Thirty-first Street Section, and an anchor was transferred to derrick for use at Pier "A," North river. September 15, 1884.—Granite was loaded for West Thirty-first Street Section, and two pieces of granite were transferred to ten-ton derrick for use at Pier "A," North river. December 2 to 24, 1884.—Refuse lumber was split up for fire-wood and loaded on a scow for use in heating coal tar and gravel for paving newly-filled land betweed Hoboken street and Morton street, North river.

street, North river.

December 27 and 29, 1884.—Old stores, tools, etc., which were not liable to be often used, were received from floating property and Gansevoort Street Yard, and sand heaters were transferred to the paving of newly-filled land between Hoboken street and Morton Street, North river. January, 1885.-Refuse lumber split up during the month at various times for use of hoisting

engine at this yard.

February 5, 1885.—Bolts sent fom Floating Property to this yard for storage were weighed. February 18, 1885.—Wooden buoys sent back from Pier "A," North river, were received for storage

March 17, 1885.—Granite was transferred to ten-ton derrick for use at Pier "A," North river. April 25, 1885.—Fire-wood previously made was loaded on a scow for use on paving newly-filled between Hoboken street and Morton street, North river, under resolution of Board, August land 20, 1884.

STATEMENT OF GENERAL REPAIRS FOR THE YEAR ENDING APRIL 30, 1885.

NORTH RIVER.

Battery Boat-Landing, at Pier, new 1, N. R.

Secretary's Order No. 3591 .- Asphalt walk repaired ; began April 22, finished May 16, 1884. Pier, new I, N. R.

Engineer's Order.-Hanging fender placed on north side of pier; begun February 6 and fin-ished February 10, 1885.

Bulkhead North of Pier, new I, N.R.

Secretary's Order No. 4157.-2 wooden cleats put on, one on each corner of bulkhead ; begun February 14 and finished February 19, 1885.

Pier, old 20, N. R.

Secretary's Order No. 4011.-28 new fender-piles and 22 new bearing-piles driven, fastened and chocked; 328 linear feet 12" x 12" side cap and 200 linear feet 10" x 10" chocking placed and fastened; begun November 17 and finished December 16, 1884.

Bulkhead between Piers, old 20 and 21, N. R.

Secretary's Order No. 3984. -7 new bearing-piles, and four spring fender-piles driven; about 22 linear feet of $12'' \ge 12''$ backing-log, and about 87 linear feet of $12'' \ge 12''$ ranging timbers put on; about 230 square feet of new 5'' deck plank laid, and sprung several piles underside cap; begun November 7 and finished November 17, 1884.

Pier, old 21, N. R.

Secretary's Order No. 4011.--11 fender-piles driven, fastened and chocked, and old fender piles refastened and chocked; begun November 17 and finished December 16, 1884.

Fier, old 23, N. R.

Secretary's Order No. 4079.—Chocks and spring-piles refastened on outer end south side of pier ; begun and finished December 31, 1884.

Pier, old 23 (South Side), N. R.

Secretary's Order No. 4136.—1 white oak fender pile driven, chocked and fastened, and 3 old fender piles refastened; begun March 26 and finished March 27, 1885.

Bulkhead Platform South of Pier, old 33, N. R.

Secretary's Order No. 3991.-54 linear feet of backing-log placed about holes; begun January 8 and finished January 9, 1885.

Approach to Pier, old 33 (South Side), N. R.

Secretary's Order No. 4158.-1 bearing pile pulled under side cap and 240 feet, B. M., of 6" x 8" yellow pine fenders put on; begun March 27 and finished March 28, 1885.

Pier, old 33 (South Half), N. R.

Secretary's Order No. 3791.—New horizontal and "A" bracing placed on thirteen rows of piles, repaired and chocked the heads of six bearing piles, replaced the old deck with new 5-inch plank at two gangways, and at the outer end of the pier, making, in all, about 2,000 square feet of deck replaced; the close fendering at the end of the pier refastened where found loose; begun August 18 and finished August 30, 1884.

Pier, old 34 (North Half), N. R.

Secretary's Order No. 3811 .- Outer end fenced off with 270 feet. B. M., of 3-inch and 126 feet.

Bulkhead between Piers, old 41 and 42, N. R.

Secretary's Order No. 3430.—Crib excavated to a depth of 6 feet and rebuilt for a distance of 76 feet, beginning 20 feet north of Pier 41; begun April 17 and finished May 3, 1884.

Pier, old 42, N. R.

Secretary's Order No. 3616.—6 old spring piles pulled and 11 second-hand spring piles driven, chocked and fastened on outer southerly corner of pier; begun May 10, and finished May 12, 1884. Secretary's Order No. 3732.—272 linear feet of new 12" x 12" yellow pine timber and 140 linear feet of second-hand timber put down for backing-log; spring piles chocked and fastened, backing-log built up with 1,322 feet, B. M., of 4-inch and 345 feet, B. M., of 3-inch spruce plank; begun June 12 and finished July 3, 1884. Secretary's Order No. 3616.—Spring piles fastened and chained; begun and finished August 6, 1884.

1884

Secretary's Order No. 3616.—2 old fender piles pulled and redriven; new spruce fender piles driven, chocked and fastened; begun and finished September 2, 1884. Secretary's Order No. 3616.—Deck and sheathing patched with 3,112 feet, B. M., of 3-inch spruce plank, and with 250 feet, B. M., of second-hand plank; begun December 3 and finished December 5, 1884.

December 5, 1884. Secretary's Order No. 4123.—Sewer-box underneath pier repaired with 300 feet, B. M., of second-hand plank; begun and finished February 2, 1885. Secretary's Order No. 4143.—14 long pile butts driven for bearing piles; 1 new spruce bearing pile driven; piles cut off at low water; cross-caps put on with second-hand yellow pine timber; deck patched with 3,360 feet, B. M., of 4-inch spruce plank on outer end of pier; 12 new spruce fender piles driven, chocked and fastened on each side of pier; spring piles refastened on each outer corner; begun March 2 and finished March 14, 1885.

Paving New-made Land between Spring and West Tenth Streets, N. R.

Secretary's Order No. 4094 .- 11 silt basins cleaned ; begun January 14 and finished January 23, 1885.

Paving New-made Land between Piers, new 35 and 38, N.R.

Secretary's Order No. 4034.—2 silt basin covers placed, one opposite Pier, new 35 and one opposite Pier, new 38, N. R.; begun January 5 and finished March 13, 1885.

Bulkhead between Piers, new 41 and 42, N. R.

Secretary's Order No. 4055. - Cobble pavement relaid ; begun April 20, 1885 ; in progress.

Bulkhead between Piers, new 42 and 43, N. R.

Engineer's Order-1 iron cleat replaced and fastened; begun June 7 and finished June 8, 1885.

Pier, new 43, N. R.

Secretary's Order No. 3208.—Metal on gate posts of shed resoldered and straightened, by Muller and Wood, under Treasurer's Order No. 11251; begun and finished November 7, 1884. Secretary's Order No. 3733.—Mooring post set in place of one decayed; begun June 2 and Geiched Luces - 289.

Secretary's Order No. 3733.—Mooring post set in place of one decayed; begun June 2 and finished June 7, 1884. Secretary's Order No. 3774.—Water pipe leading to pier repaired under Treasurer's Order No. 10992, and pavement repaired; begun June 13 and finished November 5, 1884. Secretary's Order No. 3914.—Water pipe and valve repaired, by Muller and Wood, under Treasurer's Order No. 3914.—Water pipe and valve repaired, by Muller and Wood, under Treasurer's Order No. 3914.—Water pipe and valve repaired, by Muller and Wood, under Treasurer's Order No. 3914.—Water pipe and valve repaired, by Muller and Wood, under Treasurer's Order No. 3915.—Galvanized iron sheathing of shed repaired, by Muller and Wood, under Treasurer's Order No. 11232. Two oak fenders placed and fastened, and one bearing pile repaired; begun November 6, 1884 and finished February 13, 1885. Secretary's Order No. 4058.—2 new mooring posts placed and fastened on south side, and spring fender piles chocked and fastened; begun January 3 and finished January 10, 1885. Secretary's Order No. 4092.—Sliding doors on south side of shed repaired; begun January 13 and finished June 15, 1885.—Broken mooring post replaced with a new one, on south side of pier; begun April 21 and finished April 24, 1885. Secretary's Order No. 4253.—Water pipes repaired, by Muller and Wood, under Treasurer's Order No. 11442; begun April 2 and finished April 28, 1885.

Slip between Piers, new 44 and 45, N. R.

Secretary's Order No. 3951 .-- 5 old piles pulled up ; begun November 3 and finished Novem.

ber 7, 1884. Contract No. 224.—11,554 cubic yards of material excavated and removed from the half-slip, on the south side of the pier, to a depth of 25 feet of water at mean low water-mark, by the Morris and Cumings Dredging Company, contractors; begun March 28 and finished April 10, 1885.

Pier, new 45, N.R.

Contract No. 199.—Warren Rosevelt, contractor, repaired the understructure of the pier, cutting off the worm-eaten portions of the 52 columns at the outer end, excavating and removing 4,384 cubic yards of mud from around the columns to a depth of 30 feet of water below mean low water; adding new lengths of creosoted columns to the old columns, and building the outer end of the pier thereon, and driving 22 bracing piles and 8 extra vertical piles, and making other minor repairs; begun, December 26, 1883, and finished June 9, 1884. Engineer's Order.—Bolt removed from pile, outer northerly corner, and straightened and replaced; begun and finished April 25, 1885.

Pier, new 46, N. R.

Secretary's Order No. 3852. —12 new spring piles driven, chocked and fastened, 6 on outer end and 6 on north side of pier; begun August 4 and finished August 8, 1884. Secretary's Order No. 3965.—Temporary shed in front of pier removed; begun October 11 and finished October 13, 1884. Secretary's Order No. 3949.—Sheathing patched with 19,185 feet, B. M., of 4-inch spruce plank and with second-hand plank; begun October 10 and finished October 14, 1884. Secretary's Order No. 4021.—Spring piles chained, chocked and fastened; deck patched with 200 feet, B. M., of second-hand plank, and sliding doors repaired; begun November 26 and finished December 1, 1884.

200 feet, B. M., of second-hand plank, and sliding doors repaired; begun November 26 and finished December 1, 1884.
Secretary's Order No. 4010. —Sliding door blown off, secured in place; begun and finished January 2, 1885.
Secretary's Order No. 4052. —Sliding doors on shed repaired and replaced, I new door made; begun December 15 and finished January 13, 1885.
Secretary's Order No. 4056. —3 new side reflectors and I new 30-inch reflector put up, and 2
20-inch reflectors reglazed and repaired, gas pipes and fixtures cleaned out by Muller and Wood, under Treasurer's Order No. 11346; leaks in leaders repaired by John Nicholson, under Treasurer's Order No. 4021. —Spring piles refastened on outer end, south side of pier; begun and finished March 6, 1885.
Secretary's Order No. 4122. —Shed repaired by John Nicholson, under Treasurer's Order No.
11377; begun February 9 and finished May I, 1885.
Secretary's Order No. 4124. —4,486 cubic yards of material excavated and removed from the half slip south of the pier to a depth of 25 feet of water at mean low water-mark, by the Union Dredging Company, under Treasurer's order; begun January 30 and finished Febuary 4, 1885.

Secretary's Order No. 3811.—Outer end fenced off with 270 feet, B. M., of 3-inch and 126 feet,
B. M., of 4-inch spruce plank; begun and finished June 28, 1884.
Contract No. 207.—11,887 cubic yards of material excavated and removed from the half slip on the north side of the pier to a depth of 15 feet of water at mean low water-mark, by Charles Dubois, contract No. 211.—Joseph Walsh, contractor, drove 43 new bearing piles and blocked and shimmed about the heads of old, made thorough repairs to superstructure and put on 8 new oak fenders, and drove 5 new spring piles; begun August I and finished August 18, 1884.
Secretary's Order No. 3890.—Old platform taken up and 6 new spruce spring piles driven and fastened; 2, 190 feet, B. M., of second-hand timber put in for backing-log. and backing-log

fastened; 2,190 feet, B. M., of second-hand plank and 240 feet, B. M., of 3-inch spruce plank, laid on platform; 92 linear feet of 12" x 12" second-hand timber put in for backing-log, and backing-log repaired with 350 feet, B. M., of 5" x 12" second-hand plank; piles braced with 160 feet, B. M., of 3-inch spruce plank, and deck repaired with second-hand plank; begun August 29 and finished September 5, 1884. Engineer's Order.—Deck patched with 250 feet, B. M., of 3-inch spruce plank and with second-hand plank; begun and finished October 15, 1884. Secretary's Order No. 4017.—2 spring piles and 1 new oak fender pile driven and piles chocked and fastened; deck patched with 1,895 feet, B. M., of 3-inch spruce plank; 2 rangers of second-hand timber put in; begun November 28 and finished December 5, 1884. Secretary's Order No. 4135.—I oak fender pile driven and chocked on outer end; begun and finished March 26, 1885.

finished March 26, 1885.

Bulkhead between Piers. new 27 and 28. N. R.

Secretary's Order No. 4283.—Backing-log repaired with second-hand material; begun and finished April 25, 1885.

Bulkhead between Piers, new 28 and old 39, N. R.

Secretary's Order No. 3842.—Backing-log raised with 78 linear feet of second-hand 10" x 12' yellow pine timber ; begun and finished August 1, 1884.

Approach to Piers, new 46 and 47, N. R.

Secretary's Order No. 3357 .- Deck patched with second-hand plank ; begun May 3 and finished May 13, 1884.

Secretary's Order No. 3357.—Deck patched with 171 feet, B. M., of 3-inch spruce plank ; begun and finished May 26, 1884. Secretary's Order No. 3357.—Deck patched with 140 feet, B. M., of 4-inch spruce plank ; begun

and finished June 4, 1884.

and finished June 4, 1884. Secretary's Order No. 3357.—Deck and sheating patched with 63 feet, B. M., of 3-inch spruce plank; begun June 26 and finished June 27, 1884. Secretary's Order No. 3357.—Deck and sheathing patched with 40 feet, B. M., of 4-inch spruce plank; begun and finished July 3, 1884. Secretary's Order No. 3357.—Deck and sheathing patched with 1,187 feet, B. M., of 3-inch spruce plank and with second-hand plank; begun July 16 and finished July 21, 1884. Secretary's Order No. 3357.—Deck patched with 849 feet, B. M., of 3-inch spruce plank; begun August 12 and finished August 13, 1884. Secretary's Order No. 3357.—Deck and sheathing patched with 8,980 feet, B. M., of 3-inch spruce plank; begun August 23 and finished September 1, 1884. Secretary's Order No. 3357.—Deck and sheathing patched with 8,980 feet, B. M., of 3-inch spruce plank; begun August 23 and finished September 1, 1884. Secretary's Order No. 3357.—12,683 feet, B. M., of 3-inch white pine laid for sheathing; begun September 13 and finished September 17, 1884. Secretary's Order No. 3357.—Sheathing patched with 2,000 feet, B. M., of 3-inch spruce plank, and 1,500 feet, B. M., of 357.—Deck and plank; begun September 22 and finished September 23, 1884. 1884.

Secretary's Order No. 3357.—Deck patched with 207 feet, B. M., of 3-inch spruce plank ; begun and finished October 17, 1884.

THE CITY RECORD.

Secretary's Order No. 3357.—Deck patched with 95 feet, B. M., of 3 inch spruce plank ; begun and finished November 5, 1884. Engineer's Order.—Deck and sheathing patched with 234 feet, B. M., of 3-inch spruce plank ;

begun and finished December 3, 1884. Contract No. 223.—Flaherty & O'Connell, contractors, blocking and shimming substructure and sheathing deck; begun March 27, 1885; in progress.

Bulkhead between Piers, new 46 and 47. N. R.

Secretary's Order No. 3917.-Two second-hand iron cleats put on and fastened; begun and finished September 30, 1884.

Piers, new 46 and 47, N. R.

Secretary's Order No. 3747.—Pavement removed and leak in pipes repaired under Treasurer's Order No. 10933, and pavement relaid under Treasurer's Order No. 10936; begun May 13 and finished November 6, 1884.

Secretary's Order No. 3782.—Water-pipes repaired and changed by L. L. Goodrich, under Treasurer's Order No. 10998, and pavement relaid by Tobias New, under Treasurer's Order No. 10986; begun June 16 and finished November 28, 1884.

Pier, old 54, N. R.

Fier, old 54, N. R.
Secretary's Order No. 3204.—Deck patched with 86 feet, B. M., of second-hand plank; begun and finished May 9, 1884.
Secretary's Order No. 3204.—Deck patched with 57 feet, B. M., of 4-inch spruce plank; begun and finished May 21, 1884.

R. July 16, towed to East

Laight Street Section, and 8 concrete base blocks in the bulkhead wall at West Thirty-first Street Section, and shifted 28 pieces of granite from scow to Pier, new 60, N. R. July 16, towed to East Seventeenth Street Yard, and loaded 2 anchor blocks and buoys for use at Pier "A." Set 7 cribs, 88 concrete blocks, granite girders and centres, and working at Pier "A." July 31, shifted ways from pile driver No. I to pile driver No. 2. November 10, hoisted out pile driver No. 9, and placed on bulkhead at Gansevoort Street Yard and placed same in the water December 24. March 11, hoisted out pile driver No. 6, and placed on deck of West Fifty-seventh street Pier, and placed same in the water March 18, and placed 2 concrete base blocks and one small block on West Fifty-seventh street Pier, these blocks were loaded on scow at Gansevoort Street Yard on March 16, and towed to West Fifty-seventh street on the 17th. November 11, Police Department inspected boiler, and on April 28 placed borer "Woodcock"

November 11, Police Department inspected boiler, and on April 28 placed borer "Woodcock" on deck of West Fifty-seventh street pier. E. Imhauser furnished watchman's detector, under Treasurer's Order No. 11222. Cleaned boiler, machinery, engines, piston rods, tank, gauge-cocks, drip-pipe, paint-work and

hold

Repaired iron blocks, oil cups and cans, tin pumps, steam and suction pipes, capstan gear, screw bolts, mooring buoys, cover on tanks, corner posts, beams, boiler, engine, tower and platform, deck beams, sides, corner machinery, floor in coal bunker, fender pieces in corner, chains, etc. The four corners of scow are now finished, also the sides and ends and lower wearing pieces.

The four corners of scow are now finished, also the sides and ends and lower wearing pieces. Cut out part of old deck and relaid with new, and put in new deck beams where decayed. Tug "Manhattan," has done all the towing required by the Department, except on September 30, 1884, when laid up for inspection by United States Inspectors, and December 5 to 11, inclusive, when laid up for repairs at Red Hook Point, and February 11 to 19, 1885, when laid up to clean and scrape inside of boiler and repair rudder stock. Messrs. Cobanks and Theall, under Treasurer's Orders Nos. 11088, 11262, 11249 and 11323 repaired overflow pipe of circulating pump, finished 4 iron baskets to hold zinc plates in boiler, fur-nished 4 davits and steps for working life boats, and furnished copper pipe for suction of hand fire-pump.

pump. Horace Theall, under Treasurer's Order No. 11452, furnished 2 cast-iron ash pans for furnaces

The Gutta Percha and Rubber Manufacturing Company furnished, under Treasurer's Orders Nos. 11070 and 11418, 100 feet 2½-inch fire hose and 6¾ pounds fibrous gaskets for manhole covers, and

15¹/₄ pounds of gum strips. W. B. Douglas, under Treasurer's Order No. 11227, furnished 1-4-inch fig. 236, horizontal double acting suction and force pump.

L. H. Baymond, under Treasurer's Order No. 11246, furnished one 14-foot metallic life boat. John Morris, under Treasurer's Order No. 11261, furnished 8 double blocks, 6' inside, iron

strapped and patent bushed for davits. Messrs. Pollock and Van Wagenen, under Treasurer's Order No. 11263, furnished 6 zinc plates for boiler.

Robert M. Gillmore, under Treasurer's Order No. 11355, furnished 6 United States Reg. solid cork life preservers.

Messrs. Patterson Bros., under Treasurer's Orders Nos. 11391 and 11419, furnished 17½ pounds 34' copper for rudder stock, and 27 pounds hemp packing. A. J. Murray, under Treasurer's Order No. 11381, furnished 1 piece white oak for rudder

stock.

McNab and Harlin Manufacturing Company, under Treasurer's Order No. 11401, furnished 8 feet 7 inches of 21/2" iron pipe for suction of donkey pump. William H. Gildersleeve, under Treasurer's Order No. 11424, furnished 2 feet 8" of locust

timber for tiller.

S. A. Suydam, under Treasurer's Order No. 11435, furnished new bell crank and wire and overhauled cranks, wire and bell pulls of signal bell. John Walsh, under Treasurer's Orders Nos. 11300 and 11307, docked, caulked and painted bot-tom and unshipped rudder, put in 3 new knees in propeller space, put on one new oak shoe about 18" x 13" x 7", straightened and repaired old shoe strap and plate for gland of stem stuffing-box, made and put on two under-shoe irons 16" x 6" x 1', and patched plank on port and starboard side for about 2 feet for about 2 feet.

for about 2 feet. Cleaned boiler on June 8, July 27, September 8, November 17, and December 10, 1884, and January 19, February 11, March 23, and April 20, 1885. Cleaned condenser, engine and machinery. Repaired tiller-bands, blocks, hole under counter, grating, doors, sashes, house, flooring in lower engine-room, condenser, canvas on upper deck, bow-rope fenders, rudder stock, top rail, stem guard, suction-pipe for donkey-pump, and brick floor under furnace of boiler. Fitted up the davits and steps, hand-fire pump and all necessary pipe and new rudder stock and tiller.

tiller. Put on sheathing on sides for protection of bow from ice, and put 2 new cast-iron ash-pans

under furnace of boiler. ainted sides, canvas on boiler, small boats, fenders, canvas on upper deck and ho

Secretary's Order No. 4116.—2,242 cubic yards of material excavated and 'removed, to a depth of 15 feet of water at mean low water-mark, by the Union Dredging Company, under Treasurer's order ; begun February 2, and finished February 5, 1885.

Dumping Board at East Twenty-seeond Street, E. R.

Contract No. 206 .- 4,003 cubic yards of material excavated and removed from half slips on each side of the dumping pier, to a depth of 15 feet of water at mean low water-mark, by Charles Dubois, contractor; begun June 21, 1884, and finished July 1, 1884. Secretary's Order No. 4060.—17 new fender piles driven, chocked and fastened; begun Decem-

ber 20, 1884, and finished January 2, 1885.

Dumping Board at East Thirty-eighth Street, E. R.

Secretary's Order No. 4207.—791 cubic yards of material dredged and removed from under dumping board, by the Union Dredging Company, under Treasurer's Order No. 11411; begun March 30 and finished March 31, 1885.

Dumping Board at East One Hundred and Tenth Street, H. R.

Secretary's Order No. 4235 .- Understructure repaired and extended ; begun March 25 and

finished April 13, 1885. Secretary's Order No. 4236.—1,624 cubic yards of material excavated and removed in front of dumping board, to a depth of 15 feet of water at mean low water-mark, made by the Union Dredg-ing Company, under Treasurer's order ; begun April 1 and finished April 2, 1885.

WORK DONE FOR THE COMMISSIONERS OF EMIGRATION.

Passenger Pier at Randall's Island. E. R.

Secretary's Order No. 3801.—New ranges placed and blocked up, and deck sheathed with 7,685 feet, B. M., of 3-inch spruce plank; begun July 7 and finished July 14, 1884.

repaired.

Caulked deck, seams, hull above water-line, and around stanchions. Made rope fenders, bracket for hose, chocks and canvas cover for life-boats. While on dry-dock, engineers took condenser apart and overhauled machinery and engines. Unshipped and reshipped rudder and pla. ed chocks on deck for stop to tiller.

January 13, 1885.-United States Inspectors inspected tug for passenger license. License

granted to carry 15 passengers. Ten-ton Derrick set 2,131726 cubic feet of granite (headers and stretchers), and 330766 cubic feet of coping stone in bulkhead wall at Laight Street Section. Set granite and concrete in the bulkhead wall at West Thirty-first Street Section, and now at

work on Pier " A,"

Messrs. Cobanks & Theall, under Treasurer's Order No. 10965, put in new head and tubes in boiler

Delamater & Co., under Treasurer's Order No. 11217, furnished new pinion for centrifugal pump

Repaired house, deck, rigging and engine. Laid brick floor under boiler. Painted house and s. Cleaned boiler and machinery. Stripped and removed boiler, and placed boiler in enginesides. June 16, 1884. June 16, 1884.—Police Department tested boiler. Made large boom and fenders. Fitted up centrifugal pump, machinery, new boom and steam

ejector. Expanded tubes, tarred deck, overhauled engine, pipe and machinery, and oiled chains, mast and booms.

mast and booms. Boring Machine "Woodcock" has been in commission as follows: Work of construction under new plan. Borings on the East river from May I to June 6, 1884; from June 19 to June 30, 1884, and from July 8 to July 15, 1884. Borings for proposed Pier "A," from June 7 to June 18, 1884, and from July 1 to July 7, 1884. Resolution of Board, July 3, 1884. Examination of Harlem river water front from July 16 to July 22, 1884; from November 10, 1884, to January 14, 1885; from March 5 to 7, and from March 12 to 25, 1885. Under Treasurer's Orders No. 10934, No. 10974, No. 10928, No. 11036 and No. 11235, were furnished one pair of wrought iron clamps, one steel auger, 15" x $3\frac{1}{2}$ " diameter; two augers, $3\frac{1}{2}$ " x 15", and overhauled one 400-pound pressure gauge and repaired steam pump.

Stripped and removed machinery, etc., and placed on West Fifty-seventh street Pier for repairs on April 28, 1885. June 20, 1884.—Police Department inspected boiler.

Pile Driver No. 1.-Engineers worked at and cleaved boiler and machinery, and put in set of grate bars. Painted and lettered house, ways, etc. Small divers' scow was removed from deck new

Pile Driver No. 2.—Cleaned machinery, boiler and water tank. Repaired house, ways, roof, hatch covers and machinery. Lettered and painted outside and inside of house, ways and scale on ways. Made hatch covers and closet for cans, etc. Calked deck and hatches. Put in new grate bars and hand hole, and fitted plate to boiler. Scraped and tested boiler. Fitted up boom for use at Pier "A." May 20, 1884.—Police Department inspected boiler.

Pile Driver No. 3.—Cleaned machinery and boiler. Repaired machinery, steam piping, house, deck, ways, hatch covers, sill pieces, cleats, etc. Painted inside and outside of house. Lettered scale on ways, etc. Made and put in new smoke stack. Removed old and put in new friction wheel and steel pinion. Put in new grate bars. Stripped pipes and machinery. Laid brick floor under boiler. Shifted house. Overhauled engine. Reset steam valves. Put in steam ejector, and fitted up pipe for same. June 2. 1884 — Polica Department inspected boiler.

3, 1884.—Police Department inspected boiler. June

Pile Cutter No. 5.—Repaired machinery, boiler, engine, smoke stack, house, cleats and pipes. Cleaned machinery, boiler, engine, etc. Made new sill pieces and frame under engine. Fitted up ejector, steam and discharge pipes and saw shaft. Painted house. Put in new grate bars. Expanded tubes. Changed steam gauge. Laid new deck and brick floor under boiler, and lengthened saw shaft.

May 20, 1884.—Police Department inspected boiler.

Pile Driver No. 6.—Repaired cleats, ways, house, deck, windlass, hood and machinery. Cleaned boiler, engine, pipe and machinery. Painted house and ways. Calked bottom deck, ends and sides. March 11, was placed on deck of West Fifty-seventh street Pier, and on March 18, 1885, placed in the water. Stripped sides and ends. Put on wearing pieces, and coated same with coal tar. Put in new grate bars. Laid brick floor under boiler. Expanded tubes. Fitted up steam ejector, steam and discharge pipes for same, and on September 15, 1884, Police Department inspected boiler. inspected boiler.

Pile Driver No. 8.—Repaired machinery, house, hull, ways, coal-bunkers, deck and doors.
Painted house, engine, ways, scale, etc. Cleaned boiler and machinery. Under Treasurer's Order Nos. 10965 and 10973, Messrs. Cobanks and Theall put in new boiler-head, extended shell and tubes in boiler, and rebored cylinder; bushed cross head stocks, and furnished new packing, rings and new brasses for crank-pins, and faced off valves and seats.
July 24, 1884.—Police Department inspected boiler.
Made hatch-covers. Fitted up ejector, piping and machinery. Laid new deck under house and brick floor under boiler. Calked and bolted down engine, and put in new grate-bars.
Pile Driver No. 8.

Pile Driver No. 8.—Repaired ways, house, engine, boiler and pipes. Cleaned machinery and boiler. Painted house, ways, engine, etc. Calked deck, filled up ejector and steam-pipes, etc. Police Department inspected boiler on May 20, 1884. Under Treasurer's Order No. 10993, Messrs. Cobanks and Theall furnished new man-hole

plates, etc.

Pile Driver No.9.—Repaired house, deck, ways, roof, engine and boiler. Cleaned boiler machinery, etc. Painted house and ways. November 11, 1884. placed on bulkhead at Gansevoort Street Yard for repairs. Calked deck and sides and paid same with pitch, and placed in the water on December 24, 1884. Fitted up steam ejector and necessary piping for same. Expanded tubes. Put in new manhole plate and new wearing pieces on sides. Fitted up boom for work at Pier "A." Laid new deck under house. Tarred sides, deck and bottom. Fitted up closet, etc. August 21, 1884.—Police Department inspected boiler.

Pile Driver No. 10.—Repaired machinery and blocks, cleaned tank, boiler and machinery. Painted house, engine, frames, etc. Expanded tubes, fitted steam-pipes, scraped boiler, tarred deck, and put in new grate-bars. May 20, 1884, and April 11, 1885.—Police Department inspected boiler. Pile Driver No. 11.—Repaired friction on engine-house, ways, hood, hatch-covers and machinery. Cleaned boiler and machinery. Painted boiler, machinery, house, etc., put in grate-bars. Cut out and put in new pieces of oak in frames, and overhauled and set up all bolts in same. April 11, 1885.-Police Department inspected boiler. Scow "B," in use at Pier "A."—No repairs made during year. Scow "C," in use at Pier "A."—No repairs made during year. Scow "C," in use at Pier "A."—No repairs made during year. Scow "E," made and repaired windlass and timber-head. Scow "E," had sides and ends calked, and bits repaired. Scow "Joe," had ends and deck calked and repaired. Scow "Joe," had ends and deck calked and repaired. made during year. Scow "May," now laid up at West Fifty-seventh street, North river. No repairs made during Scow " May," now laid up at West Filty-seventh street, North fiver. No repairs made during year.
Scow " Willie," had wearing pieces, etc., repaired.
Scow " G," (divers'), now in use at Pier "A." No repairs made during year.
Large Divers' Scow and Dredging-machine Mud-scows, Nos 8 and 9, were sold at auction 27th
January, 1885, at Gansevoort Street Yard.
Sound State and Painted, repaired, calked, made ladder, finished repairs, and placed in the water on September 11, 1884.
Yawl boats have been painted, repaired and calked.
Bateaux have been repaired, calked and painted.
Sounding Boats.—Repaired, calked and painted.
Sounding Boats.—Repaired, calked and painted.
Two Dredges Nos. 3 and 4, remain in the possession of the Union Dredging Company.
Six Dredging-machine mud-scows, Nos. 4, 6, 7, 8, 9 and 10, were repaired and calked by the
Union Dredging Company and returned to the Department at Gansevoort Street Yard on January 26, 1885, and Nos. 8 and 9 were sold at public auction on January 27, 1885; Nos. 4, 6, 7, and 10, have been pumped out and looked after, and are now laid up at Gansevoort Street Yard. The other six mud-scows, Nos. 1, 2, 3, 5, 11 and 12, are laid up at West Fifty-seventh street, N. R.
Miscellaneous.—Repaired blue process frame and pump.
Made drawers and shelves for, and varnished floor of, the Engineer-in-Chief's office.
Oiled wire falls of derrick, and overhauled and repaired machinery and boiler at East Seventeenth Street Yard. year. 216 (2 Messrs. Donegan & Reilly, under Treasurer's Order No. 11116, furnished 3-4" galvanized pumps for use on floating property. Made 3 bolts for iron tests for contract work. Made 3 bolts for iron tests for contract work. Made straight edge for use of Diver at Pier "A." Made ide-gauge, fenders, etc., for use of Floating-Property. Made mattress frame for use at Pier "A." Made box for scrap-iron at West Fifty-seventh Street Yard. Put in and spliced fenders for pile-drivers. Fitted up closets for West Fifty-seventh Street Offices. Repaired patterns of grate-bars for pile-drivers. December 16, 1884.—Commenced and moved all properties appertaining to Floating Property account from Gansevoort Street Yard to West Fifty-seventh Street Yard. Fitted up office for Surveyors at Pier, new 43, N. R. The old Bloomfield Street Office (now at West Fifty-seventh street pier), has been fitted up as a storehouse for general repairs, tools, etc., and a paint room for the use of Floating Property. The old shanty used by surveying party at Gansevoort Street Yard is now at West Fifty-seventh Street Yard, and has been fitted up as a pipe-room for use of Floating Property. More of the old yawl boats that was reported on the last annual report, was broken up at Ganse-voort Street Yard, it not being worth repairs.

Secretary's Order No. 3495.—Erected platform on piles about 30 feet long and 49 feet wide, with a wing about 15 feet long and 11 feet wide at its southwesterly corner, by James Gillies, under resolution of the Board of February 28, 1884; begun June 16, 1884, and finished August 8, 1884.

Pier at West Fifty-first Street, N.R.

Secretary's Order No. 3504.—Deck repaired by lessee, Andrew Dettenger, by order of the Board ; begun April 26, 1884, and finished April 30, 1884.

Bulkhead South of Pier at West Fifty-minth Street, N. R.

Secretary's Order No. 3775. A float and bridge, constructed by T. C. Eastman, under permit of the Board ; begun June 25, 1884, and finished July 26, 1884.

Pier at West Fifty-ninth Street, N. R.

Secretary's Order No. 3775.—Additional horizontal planking placed on south side of pier by T. C. Eastman, under permit of the Board ; begun June 25, 1884, and finished July 26, 1884.

West Seventy-second Street to West Seventy-sixth Street, N. R.

Secretary's Order No. 2349.—Filling along the water front by the New York Central and Hud-son River Railroad Company, under permit of the Board; begun in June, 1882, and finished in September, 1884.

Bulkhead between West Ninty-fifth Street and West Ninety-sixth Street, N.R.

Secretary's Order No. 4012.—Dredging for and building a crib bulkhead about 198 feet long, with wings, south side of pier at West Ninety-sixth street, by Elias S. Higgins, under permit of the Board ; begun on or about April 1, 1885 ; in progress.

Bulkhead Platform at West One Hundred and Thirtieth Street, N. R.

Secretary's Order No. 3921.—Deck mast removed by Theodore F. Tone, by order of the Board ; begun and finished September 17, 1884.

Bulkhead North of West One Hundred and Thirty first Street, N. R.

Secretary's Order No. 3848.—Shed, scales and building removed from bulkhead by John Mul-ford, by order of the Board ; begun August 9, 1884, and finished October 18th, 1884.

EAST RIVER.

Pier 2, E. R.

Secretary's Order No. 3155.—The westerly half repaired by the lessee, by driving 6 new bear-ing piles. The easterly half repaired by the alleged owners, by driving 24 new bearing piles and 38 fender piles, by sphcing 10 cross-caps, by placing 210 linear feet of new rangers, and 112 linear feet of new backing-log, by laying 3.000 feet, board measure, of new 4-inch yellow pine deck, and by patching old deck and deck sheathing, by order of the Board ; begun June 13, 1884, and finished June 23, 1884.

Pier 3, E. R.

Pier 13, E. R.

Secretary's Order No. 3613.—The half-slip on each side dredged to about 20 feet of water at mean low water-mark by the alleged owners, by order of the Board ; begun August 14, 1884, and finished August 20, 1884.

Bulkhead between Piers 13 and 14, E. R.

Secretary's Order No. 4270.—Rebuilding bulkhead from low water up by alleged owners, by order of the Board ; begun April 27, 1885 ; in progress.

Pier 14, E. R.

Secretary's Order No. 4224.—Half slip westerly dredged to 20 feet of water at mean low water-mark by alleged owners, by order of the Board ; begun March 30, 1885, and finished April 7, 1885.

Pier 15, E. R.

Secretary's Order No. 4148.-3 fender piles driven on outer westerly corner of pier by alleged owners, by order of the Board ; begun and finished March 6, 1885.

Ferry Ship between Piers 15 and 16, E.R.

Secretary's Order No. 4219.—Dredging the ferry slip to 20 feet of water at mean low water-mark by the Union Ferry Company, by order of the Board ; begun April 13, 1885 ; in progress.

Pier 17, E. R.

Secretary's Order No. 3499.—Outer 16 feet of outer crib rebuilt on piles from low water up, and 16 oak lender piles driven at outer end by S. A. Frost, under permit of the Board ; begun April 12, 1884 and finished May 3, 1884. Secretary's Order No. 4204.—Bridge near bulkhead repaired by S. A. Frost, under permit of the Board ; begun March 14, 1885, and finished March 23, 1885.

Pier 18, E.R.

Secretary's Order No. 4244.—Resheathing west half of pier by alleged owners, by order of the Board : begun April 26, 1885 ; in progress.

Bulkhead Platform between Piers 18 and 19, E.R. Secretary's Order No. 3962.—Shed removed from bulkhead platform by the alleged owners, by order of the Board; begun October 17, 1884, and finished October 18, 1884.

Pier 19, E. R.

Secretary's Order No. 2972.—A story added to the shed by John H. Starin, under permit of the Board ; begun February 18, 1884, and finished June 9, 1884. Secretary's Order No. 3803.—Deck sheathing on casterly half of pier repaired by the alleged owners, by order of the Board ; begun and finished July 7, 1884. Secretary's Order No. 4049.—Deck sheathing on casterly half of pier repaired by S. A. Frost, agent, by order of the Board ; begun January 3, 1885, and finished January 15, 1885.

Pier 20, E. R.

Secretary's Order No. 4220.—Half slip easterly dredged to from 20 to 25 feet of water at mean low water-mark by alleged owners, by order of the Board ; begun April 8, 1885, and finished April 17, 1885.

Pier 21, E. R.

Secretary's Order No. 3415.—Erection of temporary posts for canvas awnings, by C. H. Mallory & Co., under permit of the Board ; begun October 15, 1884 ; in progress. Secretary's Order No. 4220.—Half slip westerly dredged to from 20 to 25 feet of water at mean low water-mark by alleged owners, by order of the Board ; begun April 8, 1885, and finished

April 17, 1885.

Pier 22, E. R.

Secretary's Order No. 3836. -3 spring piles and 5 fender piles driven on easterly side of pier by J. W. Campbell, under permit of the Board; begun July 22, 1884, and finished July 23, 1884.

Pier 23, E. R.

Secretary's Order No. 3556.—Outer crib rebuilt on piles from low water up, and about 14,000 feet of 3-inch deck sheathing patched, by S. L. Stors, lessee of west half, and by the alleged owners of east half, by order of the Board; begun June 23, 1884, and finished July 19, 1884.

Bulkhead Platform between Piers 24 and 25, E. R.

Secretary's Order No. 3650.-5 old piles removed and 10 new bearing piles driven, and 30 linear feet of side cap and 6 rangers placed, by the New Haven Steamboat Company, under permit of the Board; begun May 6, 1884, and finished May 12, 1884.

Pier 25, E. R.

Secretary's Order No. 3830.-6 piles driven by the New Haven Steamboat Company, under permit of the Board ; begun and finished July 21, 1884.

Pier 26, E. R.

Secretary's Order No. 4162.—Rangers over cribs of west-half of the pier blocked up ; 5 oak fender piles driven at outer end, and old fender piles refastened, by the alleged owners, by order of the Board ; begun March 24, 1885, and finished March 31, 1885.

Bulkhead between Piers 26 and 27, E. R.

Secretary's Order No. 3858.—A 6-inch sewer-pipe carried through the bulkhead from 156 South street, by William Bishop, under permit of the Board; begun September 5, 1884, and finished September 10, 1884.

Pier 27, E. R.

Secretary's Order No. 3835.-2 fender piles driven on westerly side of pier, by S. A. Frost, under permit of the Board ; begun and finished July 24, 1884.

Pier 28, E. R.

Secretary's Order No. 3683.—Outer 108 feet in length removed and rebuilt from mean low water up, by S. A. Frost, under permit of the Board ; begun May 20, 1884, and finished June 16, 1884.

Bulkhead Easterly Side of Pier 28, E. R.

Secretary's Order No. 4246.—Repaired by S. A. Frost, under permit of the Board ; begun April 4, 1885, and fimshed April 7, 1885.

Bulkhead South of Pier 29, E. R.

Secretary's Order No. 3885.—A 6-inch sewer-pipe carried through the bulkhead by the New York and Brooklyn Bridge Trustees, under permit of the Board; begun September 15, 1884, and finished September 16, 1884.

Bridge Street Ferry Premises near James Slip, E. R.

Secretary's Order No. 3772.—Platform westerly of ferry buildings, and the unused ferry-house nired temporarily to make them safe, by the alleged owners, by order of the Board ; begun June

Secretary's Order No. 4082.—8 fender and 3 bracing piles driven at outer end, and new back-ing-log on outer end and for about 15 feet on each side of the outer end, placed by James Cruik-shank, under permit of the Board ; begun January 26, 1885, and finished January 29, 1885.

Pier 8, E. R.

Secretary's Order No. 3540.—Bulkhead under the pier rebuilt from low water up for the width of the pier, by the alleged owners of the east half of the pier, and by the New York, Lake Erie and Western Railway Company, lessees of the west half of the pier, by order of the Board; begun June 11, 1884, and finished July 11, 1884.

Pier 10, E. R.

Secretary's Order No. 4202.—Dredging the half slip east of the pier to about 20 feet of water at mean low water-mark by the alleged owners, by order of the Board; begun March 25, 1885, and finished April 7, 1885.

Pier II, E. R.

Secretary's Order No. 4202.-Dredged the half slip west of the pier to about 20 feet of water at mean low water-mark by the alleged owners, by order of the Board; begun March 25, 1885, and finished April 7, 1885.

Pier 12, E. R.

Secretary's Order No. 3802.—Deck sheathing renewed on the entire easterly half of the pier by the alleged owners, by order of the Board; begun July 14, 1884, and finished July 17, 1884. Secretary's Order No. 4147.—New iron armature plates and 3 new oak fender piles placed on easterly corner, and 2 fender piles on east side of pier refastened, by alleged owners, under permit of the Board; begun March 20, 1885, and finished April 6, 1885.

10, 1884, and finished June 14, 1884.

Piers 32 and 33, E. R., and Bulkhead between.

Secretary's Order No. 4075.—Building a platform about 74 feet wide in front of the bulkhead, rebuilding the bulkhead above mean low water, erecting a ferry-house on said platform, and rebuilding Pier 32, and driving fender piles on the westerly side and southwest corner of Pier 33, for ferry purposes, and dredging the slip between Piers 32 and 33 to a depth of about 15 feet below mean low water, by the Long Island Railroad Company, under resolution of the Board of Decem-ber 34, 1854 - because February 100, 1855 - in progress ber 24, 1884 ; begun February 10, 1885 ; in progress.

Pier 33, E.R.

Secretary's Order No. 4294.—125 linear feet of backing-log placed on west half of pier, west-erly corner timbers repaired, and 10 oak fender piles driven at outer end of west half of the pier, by the Long Island Railroad Company, in connection with their ferry improvements westerly of the pier, by order of the Board ; begun April 13, 1885, and finished April 18, 1885.

Slips between Piers 33 and 34, E. R.

Secretary's Order No. 3878.—Dredged the area of the slip not covered by the platforms to a depth of 15 feet of water at mean low-water mark, by the lessees, by order of the Board ; begun April 7, 1885 and finished April 14, 1885 ; the work of dredging under the platforms not yet done.

Pier 35, E. R.

Secretary's Order No. 3970.—21 bearing piles driven underneath the pier at the outer end by the Bridgeport Steamboat Company, under permit of the Board ; begun October 14, 1884, and fin-ished October 24, 1884.

THE CITY RECORD.

SEPTEMBER 25 1885.

Bulkhead between Piers 36 and 37, E. R.

Secretary's Order No. 3325.—Filled in and repaved by alleged owner, by order of the Board ; begun October 25, 1883, and finished June 9, 1884.

Pier 38, E. R.

Secretary's Order No. 4155.—Outer end of pier, where damaged by the ice, repaired by the Maine Steamship Company, by order of the Board ; begun March 2. 1885, and finished March 7, 1885.

Pier 39, E. R.

Secretary's Order No. 3582.—140 feet in width of the slip east of the pier dredged, by the Screw Dock Company, under permit of the Board; begun April 15, 1884, and finished December 13,

1884. Secretary's Order No. 4321.—10 piles driven by the Old Colony Steamboat Company, under permit of the Board ; begun April 25, 1885, and finished April 26, 1885.

Slip between Piers 39 and 40, E. R.

Secretary's Order No. 3973.—11 spruce fender piles driven at the four corners of the screw docks, by the Screw Dock Company, under permit of the Board ; begun October 22, 1884, and finished October 24, 1884.

Pier 40, E. R.

Secretary's Order No. 3645.—Repaired by the lessees, by order of the Board ; begun May 12, 1884, and finished May 13, 1884.

Pier 43, E.R.

Secretary's Order No. 4024.—A 1½-inch water pipe placed under pier by F. W. Wright, Super-intendent Elevator "Croton," under permit of the Board; begun December 8, 1884, and finished December 9, 1884.

Bulkhead between Piers 44 and 45, E.R.

Secretary's Order No. 3742.—Dredged to 15 feet of water at mean low water-mark in front of the bulkhead, by the alleged owners, by order of the Board ; begun June 14, 1884, and finished July 3, 1884.

Pier 45, E.R.

Secretary's Order No. 3712.—The half slips on each side of the pier dredged to 15 feet of water at mean low water-mark, by the alleged owner, by order of the Board; begun June 13, 1884, and

finished July 10, 1884. Secretary's Order No. 4166.—Excavated outer crib to 25 feet below mean low water-mark, and rebuilding the outer 90 feet in length of the pier on piles, by the alleged owners, by order of the Board ; begun March 12, 1885 ; in progress.

Bulkhead between Piers 45 and 46, E.R.

Secretary's Order No. 3743.—Dredged to 15 feet of water at mean low water-mark, in front of the bulkhead, by the alleged owners, by order of the Board; begun June 13, 1884, and finished July 10, 1884.

Bulkhead between Piers 46 and 47, E.R.

Secretary's Order No. 3744.—Dredged to 15 feet of water at mean low water in front of the bulkhead, by alleged owners, by order of the Board; begun June 13, 1884, and finished July 10, 1884.

Pier 47, E. R.

Secretary's Order No. 3713.—The half slips on each side of the pier dredged to 15 feet of water at mean low water-mark, by the alleged owners, by order of the Board; begun June 5, 1884,

and finished July 9, 1884. Secretary's Order No. 4275.—Dangerous hole in the street at the entrance to the pier repaired by the alleged owners, by order of the Board ; begun April 16, 1885, and finished April 18, 1885.

Bulkhead between Piers 47 and 48, E. R.

Secretary's Order No. 3745.—Dredged in front of bulkhead to about 15 feet of water at mean low water-mark for about 30 feet easterly of Pier 47, E. R., by the alleged owners, by order of the Board ; the remainder not yet begun.

Pier 48, E. R.

Secretary's Order No. 3471.—A structure about 6 feet square, for the use of telegraph apparatus to connect the fire-boat "Havemeyer" with the fire-alarm system, placed on outer end of the west side of the pier by the Fire Department, under permit of the Board ; begun and finished June 28, 1884.

Pier 49, E. R.

Secretary's Order No. 4254.—Small repairs made to the pier by the alleged owners, by order of the Board ; begun and finished April 11, 1885.

Bulkhead between Piers 49 and 50, E. R.

Secretary's Order No. 4006.—10 fender piles driven by the Glen Cove Manufacturing Company, under permit of the Board ; begun November 19, 1884, and finished November 20, 1884.

Pier 51 E. R.

Secretary's Order No. 3450.—10 bearing piles, 8 spruce fender piles, and 30 oak fender piles, driven on west side and outer end, $6,\infty0$ feet, board measure, of 4-inch spruce deck sheathing; 12,000 feet, board measure, 12-inch by 12-inch yellow pine timber; backing logs, caps and rangers, placed on westerly half of pier, and about 8,000 feet, board measure, of oak plank placed as hori-zontal fendering on west side of pier, by the New York, New Haven and Hartford Railroad Com-pany, under permit of the Board; begun January 28, 1884, and finished June 9, 1884.

Bulkhead North of Pier 52 E. R.

Secretary's Order No. 3714.—The slip for about 369 feet northerly of pier dredged to about 10 feet of water at low water-mark by the alleged owners, by order of the Board; begun in June, 1884, and finished in July, 1884.

Bulkhead South of Pier 53, E. R.

Secretary's Order No. 3714.—The slip for about 70 feet southerly of pier dredged to about 10 feet of water at low water-mark by the alleged owners, by order of the Board ; begun in June 1884, and finished in July, 1884.

Bulkhead opposite Nos. 745, 748, 750 and 755 Water Street, E. R.

Secretary's Order No. 3612 .- Rebuilt and straightened from low-water up and dredged along

Pier 62, E. R.

Secretary's Order No. 3860.—Deck patched and 3 bearing piles and 7 fender piles driven on southerly half of pier by the alleged owners, by order of the Board ; begun August 25, 1884, and finished December 15, 1884.

Houston Street Ferry Premises, E.R.

Secretary's Order No. 3762.—6 fender piles driven within existing lines by the Nassau Ferry Company, under permit of the Board ; begun June 9, 1884, and finished June 10, 1884.

Pier at East Houston Street, E. R.

Secretary's Order No. 3960.—7 fender piles replaced on the north side of pier by the Nassau Ferry Company, under permit of the Board; begun October 7, 1884, and finished October 10, 1884.

Bulkhead between Houston Street and East Third Street, E. R.

Secretary's Order No. 2729.—A row of fender piles driven in front of the bulkhead by I. W. & W. F. Smith, under permit of the Board ; begun May 29, 1884, and finished June 9, 1884.

Bulkhead North of East Fourth Street, E. R.

Secretary's Order No. 3996.—Bulkhead excavated down about 4 feet and rebuilt, and new 4-inch yellow pine fenders and 6 new mooring posts placed by Reverend C. H. Fay, under permit of the Board ; begun November 25, 1884, and hnished December 15, 1884.

Pier at East Fifth Street, E. R.

Secretary's Order No. 4081.—4 spring piles driven on south side of pier by the New Haven Steamboat Company, under permit of the Board ; begun and finished December 31, 1884.

Bulkhead at foot of East Thirteenth Street, E. R.

Secretary's Order No. 3876.—33 fender piles driven along face of bulkhead by John Rhinfrank & Co., under permit of the Board ; begun August 13 and finished August 15, 1884.

Bulkhead between East Twenty-first Street and East Twenty-second Street, E. R.

Secretary's Order No. 3725.—Dredged to 15 feet of water at mean low water-mark by Ogden & Co., by order of the Board ; begun July 11, 1884, and finished July 18, 1884.

Pier at East Twenty-third Street, E. R.

Secretary's Order No. 3795.—Ferry platforms and racks erected on southerly side of the pier by the New York Ferry Company, under permit of the Board ; begun June 28, 1884, and finished

December 24, 1884. Secretary's Order No. 4216.—Building ferry house on ferry platform, south side of pier, by People's Ferry Company, under permit of the Board; begun April 7, 1885; in progress.

Bulkhead along North side of East Twenty-third Street, E. R.

Secretary's Order No. 3908.—Top of old bulkhead removed about 3 feet down and rebuilt 3 logs high, with new backing-log, by the Greenpoint Ferry Company, under permit of the Board; begun September 1, 1884, and finished September 18, 1884.

Pier at East Twenty-eighth Street, E. R.

Secretary's Order No. 3821.—Damage done the pier by the steam tug "Bee," repaired by the owners of said tug, by order of the Board; begun July 15, 1884, and finished July 21, 1884,

Bulkhead 100 feet South of East Twenty-ninth Street, E.R.

Secretary's Order No. 3997.—Bulkhead rebuilt from low water-mark up, and fender piles driven by James Sutherland, by order of the Board; begun November 29, 1884, and finished December 24, 1884.

Pier at East Thirty-first Street, E.R.

Secretary's Order No. 3684.—7 fender piles driven by Joseph V. Brown, lessee, under permit of the Board ; begun May 16, 1884, and finished May 17, 1884. Secretary's Order No. 3771.—Half slip on each side dredged to 22 feet of water at mean low water-mark, by Joseph V. Brown, lessee, under permit of the Board ; begun June 7, 1884, and finished June 10, 1884.

Pier at East Thirty-third Street, E. R.

Secretary's Order No. 3190.—Resheathed surface with new 4-inch spruce plank, took up and replaced backing-logs, patched deck and and hauled one bearing pile to place, by the Knicker-bocker Ice Company, by order of the Board ; begun May 19, 1884, and finished May 31, 1884.

Bulkhead North of East Thirty-sixth Street, E. R.

Secretary's Order No. 3646.—10 spruce fender piles driven in front of bulkhead, by Warren Rosevelt, contractor, under permit of the Board; begun May 14, 1884, and finished May 15, 1884.

Bulkhead North of East Thirty-eighth Street, E. R.

Secretary's Order No. 4203.—Dredged in front of the bulkhead to a depth of from 14 feet to 16 feet of water at mean low water-mark, by F. M. Orton & Co., by order of the Board; begun and finished March 31, 1885.

Slip North of East Fortieth Street, E. R.

Secretary's Order No. 3927.—A crib bulkhead built across the inner end of the slip by the Equitable Gas-light Company, under permit of the Board, begun September 16, 1884, and finished October 1, 1884.

Pier at East Forty-sixth Street, E. R.

Secretary's Order No. 3817.—New fender piles driven, backing-log repaired and deck and sheathing of north half of the pier patched by Michael Kane, lessee, under permit of the Board; begun July 9, 1884, and finished July 19, 1884. Secretary's Order No. 3955.—50 feet in length of the outer end of the pier sheathed with 3-inch spruce by Michael Kane, lessee, by order of the Board; begun November 20, 1884, and finished November 21, 1884.

Bulkhead between East Forty-sixth Street and East Forty-seventh Street, E. R.

Secretary's Order No. 3817.—Face timber of bulkhead repaired and fenders placed by Michael Kane, under permit of the Board ; begun July 9 and finished July 19, 1884.

Bulkhead between East Fifty-second Street and East Fifty-third Street, E. R.

Secretary's Order No. 3587.—Repairing of bulkhead by E. W. Candee, under permit of the Board ; begun April 13, 1885 ; in progress.

Bulkhead North of East Sixty-third Street, E. R.

Secretary's Order No. 3916.-Backing-log placed by lessees, September 18 to 20, 1884 ; work of

2110

by Lawren Co., under permit of the Board ; begun April 21, 1884, and finished June 11, 1884.

Pier 55, E. R.

Secretary's Order No. 3824.—The spring piles on the easterly corner repaired by the People's Ferry Company, by order of the Board ; begun July 22, 1884, and finished July 25, 1884.

Pier 57 E. R.

Secretary's Order "No. 3966.—Hole in deck on northerly side of the pier repaired by the alleged owners, by order of the Board; begun and finished December 11, 1884. Secretary's Order No. 4245.—Repairing deck sheathing, backing-logs and vertical sheathing of northerly helf of pier by the alleged owners, by order of the Board; begun April 21, 1885; in progress.

Secretary's Order No. 4290.—Driving bearing and fender piles on the northerly side and north-easterly corner by the New York Ferry Company, under permit of the Board ; begun April 22, 885 ; in progress.

Bulkhead between Piers 57 and 58, E. R.

Secretary's Order No. 4290.—Driving fender piles, placing backing log, and otherwise repair-ing the bulkhead by the New York Ferry Company, under permit of the Board; begun April 22, 1885; in progress.

Pier 58, E. R.

Secretary's Order No. 4267.—About 300 square feet of deck sheathing patched on southerly half of pier by the alleged owners, by order of the Board; begun April 30, 1885; in progress. Secretary's Order No. 4290.—Driving of 6 fender piles at the southeasterly corner by the New York Ferry Company, under permit of the Board; begun April 22, 1885; in progress.

putting on close fenders not yet begun.

Bulkhead at foot of East Ninety-third Street, E. R.

Secretary's Order No. 3888.—2 fender piles driven alongside of the 12-inch pipe in bulkhead, by Jacob Ruppert and George Ehret, under permit of the Board; begun August 27 and finished August 28, 1884.

Bulkhead at East Ninety-third Street, E. R.

Secretary's Order No. 4218. —Cutting of an opening through the bulkhead for a 16-inch pipe for drawing salt water, by Jacob Ruppert and George Ehret, under permit of the Board ; begun March 30, 1885 ; in progress.

East Ninety-seventh Street, Half Block South, E. R.

Secretary's Order No, 3537.—Filling with rip-rap slope, deposited by Michael Kane, under permit of the Board ; begun March 15 and finished August 9, 1884.

HARLEM RIVER.

East One Hundredth Street to East One Hundred and First Street, H. R.

Requisitions on the Comptroller.

The total amount of requisitions drawn on the Comptroller during the week is \$88,261.52. D. LOWBER SMITH, Deputy Commissioner of Public Works.

give to the Purveyor such direction and assistance in the purchase of articles requiring technical skill as will enable him to act understandingly. "3d. That the Chief Engineer and Secretary together make from time to time such changes in the forms of requisition, receipt, and certification of, the Engineer, and others, as the Committee of Finance and Audit deem necessary to insure greater promptness and efficiency in the transaction of the business (other than engineering) of the Commission. "4th. That until otherwise ordered, the duties of Purveyor and Property Clerk be performed by one and the same person, and that the services of the present Purveyor be dispensed with. "5th. That these changes shall take effect on the 1st of October next, and the Chief Engineer and Secretary are hereby directed to make the necessary arrangements therefor." This resolution was adopted by the affirmative vote of all the Commissioners. The Committee on Construction made report, dated September 14, concurring in the recommendation of the Chief Engineer that the following promotions be made in the Engineer Corps, viz. :

viz.

Henry H. Bowley, from Leveler to Transitman, with compensation at the rate of \$1,500 per annum

Ira A. Shaler, from Rodman to Leveler, with compensation at the rate of \$1,200 per annum. Andrew J. Lamb and Charles P. Bonnett, from Chainmen to Rodmen, with compensation at

Andrew J. Lamb and Charles P. Bonnett, from Chainmen to Rodmen, with compensation at the rate of \$75 per month. On motion of Commissioner Spencer, these recommendations were approved by the Commis-sioners, and the promotions made, to date from the 1st of October next. The Committee also recommended an additional appropriation of \$70, to cover the cost of glass targets, and of \$15 for furniture for the Engineer Corps. This recommendation was also approved by the Commissioners, and the appropriations made. The Committee also made report, dated September 14, in relation to the method of constructing the New Aqueduct across Gould's Swamp, and recommending further soundings and borings at that place.

place. The report was considered in Executive Council, and on motion of Commissioner Spencer, the recommendations of the Committee were approved by the Commissioners and the Chief Engineer instructed to make the required explorations and to report the results to the Commissioners at as early a day as practicable. The report was then laid over for future consideration, and the Committee on Construction

were requested to confer with the Counsel to the Corporation and obtain his opinion upon the legal questions involved.

The Special Committee to whom was referred, upon July 29th, the communication of the Chief Engineer of that date, in relation to the discontinuance of the office of Engineer of Construction, made report thereon dated September 15.

made report thereon dated September 15. The report was considered in Executive Council, and action thereon deferred. The Secretary presented a communication from the Counsel to the Corporation, dated September 10, 1885, giving notice of the filing in the office of the Register of the City and County of New York, and the County of Westchester, on August 28, 1885, of the property maps for the New Aque-duct, from the east side of the Harlem river to One Hundred and Thirty-fifth street and Convent avenue ; and of the commencement of. September 11, of the required publication of notice of motion for the appointment of Commissioners of Appraisal. The communication was read and ordered placed upon file. The Chief Engineer, under date of September 15, submitted an estimate of the cost of con-structing culverts at Shafts Nos. 19, 20, and 21, and recommended that they be built. On motion of the Comptroller, the matter was referred to the Committee on Construction for investigation and report, with request that an opinion be obtained by them from the Counsel to the Corporation upon the obligation of the contractors—under the specifications—to provide for such drainage.

drainage. The Commissioners then adjourned.

JAMES W. McCULLOH, Secretary.

5. Henry McCahill, Attendant, N. Y. City Asylum for Insane.

Salary Increased.

August 31. Margaret Dunphy, Matron, Charity Hospital. From \$600 to \$700 per annum.

Minutes of Stated Meeting of the Aqueduct Commissioners, held at their office, No. 209 Stewart Building, Wednesday, September 16, 1885, at 2 o'clock P. M.

AQUEDUCT COMMISSION.

Commissioners present—The Mayor, the Comptroller, Commissioner of Public Works, Com-missioners James C. Spencer, William Dowd and C. C. Baldwin. Also, Chief Engineer Church, Deputy Chief Engineer Fteley, and Consulting Engineer Davis. Also, Chief Engineer Birdsall and Consulting Engineer Adams, of the Department of Public Works.

The minutes of the stated meeting of September 9, 1885, were read, ordered amended and, as

amended, approved. The Committee of Finance and Audit reported the certification to the Comptroller for payment of Voucher No. 1082, in favor of Samuel L. M. Barlow, for \$21,714.88, the amount due him for lands and easements for the New Aqueduct ; and also the examination and audit of bills included in Vouchers Nos. 1083 to 1112, which latter were, on motion of Commissioner Dowd, approved by the Com-

Nos. 1083 to 1112, which latter were, on motion of Commissioner Dowd, approved by the Com-missioners and ordered certified to the Comptroller for payment. The Committee also made report, dated September 15, in relation to the joint report of the Chief Engineer and Secretary, for rendering more efficient the work (other than engineering) now done in the Engineer's office at Tarrytown and New York, and offered the following resolution : "Resolved, That for the more efficient performance of the work (other than engineering) con-nected with the Engineering Department, and now done at the Tarrytown and New York head-quarters, it is hereby directed :

"1st. That all the work now done at Tarrytown and New York in connection with the purchase of instruments, materials, and supplies for the Engineer Corps, and keeping records of property, and all purchases for the offices of the Commissioners in New York, be hereafter done in the office of the Secretary in New York, and that the Purveyor and Property Clerk be placed under his

direction. "2d. That hereafter purchases of every kind for the Engineer Corps, and all the New York offices, shall be made by the Purveyor only, and upon formal requisitions, the Chief Engineer to

Relieved from Duty.

Dismissed.

September 2. James Person, Attendant, N. Y. City Asylum for Insane. "5. Charles Kuehle, Night Watchman, Bellevue Hospital.

G. F. BRITTON, Secretary.

APPROVED PAPERS.

Resolved, That permission be and the same is hereby given to John H. Dunn to place and keep a watering-trough on the sidewalk, near the curb, in Madison avenue, near the northwest corner of One Hundred and Thirty-fourth street, the work to be done and water supplied at his own expense, under the direction of the Commissioner of Public Works; such permission to continue only during the pleasure of the Common Council.

Adopted by the Board of Aldermen, August 31, 1885. Approved by the Mayor, September 15, 1885.

Resolved, That permission be and the same is hereby given to James Macmichaels to retain a sign on awning, in front of No. 234 Eighth avenue, provided such sign shall not be an obstruction to the free use of the street by the public; such permission to continue only during the pleasure of the Common Council.

Adopted by the Board of Aldermen, August 31, 1885. Approved by the Mayor, September 15, 1885.

THE CITY RECORD.

2113

HEALTH DEPARTMENT OF THE CITY OF NEW YORK,

SANITARY BUREAU, SEVENTH DIVISION-VITAL STATISTICS.

REPORTED MORTALITY * for the week ending September 19, 1885, together with the ACTUAL MORTALITY for the week ending September 12, 1885.

W. DE F. DAY, M. D., Sanitary Superintendent and Register :

SIR—There were 659 deaths reported to have occurred in this city during the week ending Saturday, September 19, 1885, which is a decrease of 13, as compared with the number reported the preceding week, and 27 less than were reported during the corresponding week of the year 1884. The actual mortality for the week ending September 12, 1885, was 597, which is 104.2 below the average for the corresponding week for the past five years, and represents an annual death-rate of 22.08 per 1,000 persons living, the population estimated at 1,405,727.

Table showing the Reported Mortality for the week ending September 19, 1885, and the Actual Number of Deaths each day, from the Principal Causes, with the Ages of Decedents, for the week ending September 12, 1885.

PROPOSALS FOR FELTING BOILERS.

THE SPECIFICATIONS AND PLANS FOR of Third avenue, the Central office of the Department of Public Charities and Correction, in the City of New York, until 0.30 of clock A. M. of Saturday, September 26, 185. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for FEI.TING BOLLERS," for which there is one separate set of specifications and the work for which is to be let in one contract, and with his or their name or names and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and papened and read. THE BOARD OF PUBLIC CHARITIES AND CORRECTION

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PRO-VIDED IN SECTION 64, CRAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corpora-tion upon debt, or contract, or who is a detaulter, as survery or otherwise, upon any obligation to the Cor-

awarded to, any person who is in rears to the Conjoration tion upon debt, or contract, or who is a defaulter, as surery or otherwise, upon any obligation to the Cor-poration. The award of the Contract will be made as soon as practicable after the opening of the bids. The person or persons to whom a contract may be awarded will be required to give security for the per-formance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of ONE THOUSAND \$1,000 DOLLARS. Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same: the names of all persons interested with him or them therem; and if no other person be so interested, it shall distinctly state that fact; also that its made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and with-out collusion or fraud; and that no member of the Com-mon Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithfill performance: and that if he sourcas the difference between the sum to which the corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation any be obliged to pay to the person or persons to whom the contract may be awarded here, on which he would be entitled on its completion, and that which the corporation any be obliged to pay to the person or persons to whom the contract may

difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting ; the amount, in each case, to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or afirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his delts of every nature, and over and ahove his liabilities as bail, surety or otherwise ; and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the construct and over and ahove manifered himself as surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the construct shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the Security offered to be approved by the Comptroller of the City of New York. No bid or estimate will be considered unless accom-panied by either a certified check upon one of the haitoful performance of the contract. Such check or money must Nor be inclosed in the scaled envelope con-taining the estimate, but must be handed to the officer or clerk of the Department who has charge of the Scimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract ha

amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but, if he shall exe-cute the contract within the time aforesaid, the amount of his deposit will be returned to him. Should the lowest formal estimate be accepted by the Board of Public Charities and Correction, due notice of the fact will be given forthwith upon, the receipt of the Comptroller's approval of the sureties, presented by the bidder as consenting to be bound for the faithful execution of this contract if awarded. Thereupon, if the Board shall not deem it for the best interests to reject all the proposals, the contract for this aforesaid work and materials shall be awarded to this lowest bidder, who shall execute the contract is awarded not even date there-with in due form, to the satisfaction of said Board, within five days after the award aforesaid. If the party or refuse to execute the same as aforesaid, and the Boxo accompanying the same, the said contract shall be regarded as having been abandoned, the party or parties notified as in default to the Corporation of the City of New York, and the work and materials will be re-advertised as provided in section 64, chapter 4to, Laws of 182. Bidders will write out the amount of their estimate in

advertised as provided in section 64, chapter 410, Laws of 1882. Bidders will write out the amount of their estimate in addition to inserting the same in figures. Payment will be made by a requisition on the Comp-troller, in accordance with the terms of the contracts, as the Commissioners may determine. Bidders are informed that no deviation from the specifications of the Commissioners of Public Charities and Correction, AND ARE PARTICULARLY CAU-TIONED TO EXAMINE WITH CARE THE PRO-VISIONS OF ARTICLE 5 OF THE PRINTED CONTRACT FORM. STEAMBOAT "MINNAHANONCK." THE SPECIFICATIONS AND PLANS FOR which are at this office-will be received at No. 65 Third avenue, the Central office of the Department of Public Charities and Correction, in the City of New York, until 0.30 o'clock A. M. of Saturday, Septem-ber 26, 1885. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for REPAIRS TO CARPEN-TER AND JOINER WORK OF STRAMOAT 'MINNA-HANONCK.'" for which there is one separate set of specifications and the work for which is to be let in one contract, and with bis or their name or names and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened and read. THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REFEAT ALL BIDS OR RESTINATES IF DEEMED TO BE FOR THE FUBLIC INTEREST, AS FRO-VIDED IN SECTION 64, CHAFTER 410, LAWS OF 1882. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corpora-tion. The award of the contract will be made as soon as

awarded to, any person who is in arrears to the Corpora-tion upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corpora-tion. The award of the contract will be made as soon as practicable after the opening of the bids. The person or persons to whom a contract may be awarded will be required to give security for the per-formance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of TWO THOUSAND (s2.0.0) DOLLARS. Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same ; the names of all persons interested with him or them therein, and if no other person be so interested, it shall distinctly state that fact ; also that it is made without any connection, with any other person making an estimate for the same purpose, and is in all respects fair and with-out collusion of raud, and that no member of the Com-mon Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supples or work to which it relates or in any porion of the profits thereof. The bid or estimate must be verified by the cath, in writing, of the party or parties making the estimate, that the several matters stated therem are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested. Each bid or estimate shall be accompanied by the con-sent in writing of two householders or freeholders in the chipse to execute the same, they shall pay to the Cor-poration any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or per-sons to whom the contract may be awarded at any sub-sequent letting ; the amount of the work by which the bids are tested. The consent above mentioned shall be accom-panied by the oath o required by section 27 of chapter 8 of the Revised Ordi-nances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surery. The adequacy and sufficiency of the security of New York. — No lid or estimate will be considered unless ac-companied by either a certified check upon one of the National Banks of the City of New York, drawn to the order of the Comproller, or money, to the amount of five per centum of the amount of the BOND required for the faithful performance of the contract. Such check or money more not the inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Esti-mate-box, and no estimate can be deposited in suid box until such check or money has been examined by said officer or clerk and found to be correct. All such de-posits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five daysafter notice that the contract has been examined by hail be forficited to and retained by the City of New York as sliguidated damages for such neglect or refusal ; bui, if he shall execute the contract within the discussid, the amount of his deposit will be returned to him. — Should the lowest formal estimate be accepted by the Board of Public Charities and Correction, due notice of Comptroller's approval of the sureties, presented by the bidder as consenting to be bound for the laithful execution of this contract, ff awarded. Thereupon, if the Board shall not deem it for the best interesti to reject all the proposis, the contract to this lowest bidder, who

shall execute the contract and bond of even date there-with in due form, to the satisfaction of said Board, within five days after the award aforesaid. If the party or parties to whom said contract is awarded neglect or refuse to execute the same as aforesaid, and the Boxp accompanying the same, the said contract shall be regarded as having been abandoned, the party or parties notified as in default to the Corporation of the City of New York, and the work and materials will be re-advertised as provided in section 64, chapter 410, Laws of 1825.

Bidders will write out the amount of their estimate in

addition to inserting the same in figures. Payment will be made by a requisition on the Comp-troller, in accordance with the terms of the contracts, as

Troller, in accordance with the terms of the contracts, as the Commissioners may determine. Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Commissioners of Public Charities and Correction, AND ARE PARTICULARLY CAU-TIONED TO EXAMINE WITH CARE THE PRO-VISIONS OF ARTICLE 5 OF THE PRINTED CONTRACT FORM.
