#### MESSAGE FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

EXECUTIVE DEPARTMENT,  
MAYOR'S OFFICE,  
NEW YORK, January 28, 1875.

#### To the Honorable the Common Council:

GENTLEMEN—The subject of ready communication between the several quarters of the City has received much attention, and has been fully discussed during the past few years.

The necessity for rapid transit is now generally recognized, and the question which confronts us to-day is of selection between the several practical methods proposed for accomplishing it.

That, when some proper means of rapid transit shall have been ascertained, it will have an important influence in retaining here the wealth which is created by the enterprise of our citizens, and in stopping the stream of population which has set so strong from the City during ten years past, has been strenuously maintained. And it may, I think, be now safely assumed that the discussions of the subject have produced a concurrence of opinions on these cardinal points: that any substantial improvement upon the present inadequate means of transportation and travel within the City will be effective in developing the growth and general prosperity of the City, and in enabling us the more easily to bear our present heavy burden of debt and taxation; that the work should be constructed, if practicable, by private capital, and not by the City; that capitalists should be encouraged to undertake the enterprise by permission to select routes along which business is likely to be profitable; that the roads should be built upon a system which will not only connect the localities in which are residences with the business quarters, but reach the points at which travelers arrive in or depart from the city; that the construction of a road along an avenue or street will not necessarily, even temporarily, depreciate, but, in the end, will enhance the value of neighboring property; and that the owners of premises situated on the route should regard that result, and their share of the great benefit to our community at large, as compensation for what they may have expected to be for a time a local disadvantage.

At the present time the conditions upon which assistance can be had from the State Legislature differ from those of previous years. The recent amendments to the Constitution seem to prohibit the Legislature from granting a special charter for

construction of such roads as are here contemplated, and to forbid the municipality from contributing from its own funds to aid such an enterprise in the hands of private parties. The general laws which the amendments to the Constitution contemplate to meet the cases in which special legislation is prohibited, have not yet been enacted or framed; but so far as the scope and terms of such laws can be foreseen, the power of legislation on this subject will, in effect, be ultimately devolved upon the Common Council. The matter thus comes with great force to your attention.

My own views upon the subject were suggested to you in my message of the 4th instant, and I am quite ready to support and further any reasonable measure to attain the object.

It will probably be found that energetic capitalists are prepared to build the road, and that advantageous lines and economic modes of construction can be selected and determined.

I recommend that you give prompt consideration to this subject, and that you appoint a committee with instructions to investigate it thoroughly by hearing all the parties more particularly interested, and thereupon to report at an early day such measures as are ascertained to be most feasible and best adapted to the necessary conditions of such a work.

Effectual relief from our present difficulties may be thus secured, and it is only by the Common Council, that measures can be initiated to meet the popular demand for some action in the premises by the City Government.

WM. H. WICKHAM,  
Mayor.

Alderman Purroy moved that the same be referred to a Special Committee consisting of five members.

Alderman Reilly moved to amend by referring to the Committee on Railroads.

The President put the question whether the Board would agree with said amendment.

Which was decided in the negative by the following vote:

Affirmative—Aldermen Lysaght, McCarthy, Morris, Reilly, Robinson, Seery, Shandley, and Southworth—8.

Negative—The President, Aldermen Billings, Blessing, Cole, Deane, Gross, Guntzer, Howland, Purroy, Simonson, and Strack—11.

The President then put the question whether the Board would agree with the motion of Alderman Purroy.

Which was decided in the affirmative.

The President laid before the Board the following message from his Honor the Mayor:

EXECUTIVE DEPARTMENT,  
MAYOR'S OFFICE,  
NEW YORK, January 28, 1875.

To the Honorable the Common Council:

GENTLEMEN—The questions of Assessment and Taxation are of recurring and increasing interest. There is no man so poor that his comfort and welfare are not affected by them. Assurance that the burden of taxation is equally distributed does much to reconcile the tax-payer to the demands of government upon him; and with anything short of that, he is not, and ought not to be, content.

In my message to you of the 4th instant, I referred to this subject and to the facts that, under the laws at present in force, the City of New York is required to pay more than its just share of the State tax, and that the contributions, exacted from us for the Common Schools, Asylums, and Reformatories supported by the State, must be admitted to be unreasonably large when it is remembered that we have besides to maintain our own Public Schools and Charities at the expense of the local tax-payers.

These questions of assessment and taxation will probably be brought in a short time before the Legislature in a report of a Committee appointed at the last Session.

Upon the facts and arguments submitted to that Committee, this community has a right to expect the recognition of principles and the adoption of measures which will assure to us substantial justice in the distribution of taxation. But the interests involved in the final settlement of these questions are so important as to demand from you immediate and prompt action, and I respectfully recommend the appointment of a Committee of the Common Council to represent the City of New York before the Legislature, or before any Committee of either House of that body which may have in charge measures relating to the matter of taxation. This seems the more necessary because of the fact that, while this City pays more than half of the entire State tax, we have no representative in the Board of State Assessors, which is composed of three gentlemen appointed from counties of which the aggregate assessment is less than one-fifth of that of this City alone.

To you, then, I commend this subject, well assured that you will appreciate its importance, and that you will act wisely and promptly upon it.

WM. H. WICKHAM,  
Mayor.

Which was referred to the Committee on Finance.

By Alderman Blessing—

Resolved, That His Honor the Mayor be and he is hereby requested to furnish to this Board the names of the various railroad companies which, having received franchises from the City, pay license for the same, together with the number of cars for which such licenses are paid, and the amount thereof; also the names of the railroad companies which have received their franchises from the State, and what action is necessary to equalize the licenses of all the companies, whether chartered by State or City authority.

The President put the question whether the Board would agree with said resolution.

Which was decided in the affirmative.

By Alderman Howland—

Resolved, That the Committee on Railroads be directed to inquire by what authority the Dry

Dock and East Broadway Railroad Company occupy the crosswalk in front of the Herald Building, in the busiest part of Broadway, with their track on which their cars are switched off, thus driving pedestrians into the middle of the street in a dangerous part of it, and also to ascertain and report if the said company can be compelled to remove said tracks, and to report an ordinance therefor.

The President put the question whether the Board would agree with said resolution.

Which was decided in the affirmative.

By Alderman Lysaght—

Resolved, That James H. Wynne be and he is hereby reappointed a Commissioner of Deeds in and for the City and County of New York.

Which was decided in the affirmative by the following vote:

Affirmative—The President, Aldermen Billings, Blessing, Cole, Deane, Gross, Guntzer, Howland, Lysaght, McCarthy, Morris, Purroy, Reilly, Robinson, Seery, Shandley, Simonson, Southworth, and Strack—19.

The Committee on Street Pavements of the Board of Aldermen, to whom were referred the

annexed resolution and ordinance in favor of paving Seventy-first street, between Second and Third avenues, respectfully,

## REPORT:

That, having examined the subject, they believe the proposed improvement to be necessary. They therefore recommend the adoption of said resolution and ordinance.

Resolved, That Seventy-first street, between Second and Third avenues, be paved with Belgian or trap-block pavement, and that at the several intersecting streets and avenues crosswalks be laid where not now laid, and relaid where those now laid are, in the opinion of the Commissioner of Public Works, not in good repair, or are not upon a grade adapted to the grade of the proposed new pavement, under the direction of the Commissioner of Public Works; and that the accompanying ordinance therefor be adopted.

PETER SEERY,  
WM. H. MCCARTHY,  
C. H. SOUTHWORTH,  
Committee on Street Pavements.

Which was laid over.

The Committee on Finance, to whom was referred so much of the Message of his Honor the Mayor as relates to the finances of the City, respectfully

## REPORT:

That upon an examination of the subject so referred, your Committee do not find that any recommendation from them at the present time is necessary, or that any action can now be taken by the Committee that will affect the question of the financial condition of the City, but that your Committee expect soon to be able to refer to the subject again.

MAGNUS GROSS,  
WM. L. COLE,  
PATRICK LYSAGHT,  
JOHN J. MORRIS,  
Committee on Finance.

The President put the question whether the Board would agree with said report.

Which was decided in the affirmative.

The Committee on Public Works, to whom were referred the annexed petitions of a committee representing the persons in the upper part of this City, engaged in the work of breaking stone for macadamizing and other purposes, to be given the preference by the departments using such material, in purchasing for public purposes, over like material broken by steam-power, respectfully

## REPORT:

That your Committee are clearly of opinion that the prayer of the petitioners should be granted, and that in the purchase of broken stone they should have the preference, provided that in so doing the City suffers no detriment. If, as is claimed by the petitioners, they can supply a superior article at less cost than that broken by machinery, then it is the imperative duty of the City to patronize them, as it would be were they competent to furnish the broken stone of a like quality, and at like prices. In these times of hardship and distress among the laboring people every opportunity should be given those disposed to work to provide the means of supporting themselves and families, even if by so doing the City should suffer a slight pecuniary loss. In the case under consideration, where all that is asked is to be permitted to compete with the present method of supplying broken stone by machinery, and if successful in the competition, to receive the patronage of the City, there can be but one opinion, and that in favor of granting the prayer of the petitioners.

The following resolution is therefore respectfully offered for your adoption:

Resolved, That in purchasing broken stones for macadamizing or other purposes by the Departments of Public Works or Public Parks, preference be given to those broken by hand, provided that such hand-broken stone be of equal quality, and no greater price than is now, or may hereafter be charged for similar material broken by steam-power.

JOHN REILLY,  
JOHN J. MORRIS,  
E. J. SHANDLEY,  
Committee on Public Works.

The President put the question whether the Board would agree to adopt said report.

Which was decided in the affirmative.

(G. O. 58.)

The Committee on Finance, to whom was referred the annexed resolution authorizing the Comptroller to lease the second, third, and fourth floors of building No. 2 Fourth avenue, for the Department of Buildings, respectfully

## REPORT:

That, in the opinion of your Committee, no better or more advantageous arrangement can be made to provide the Department of Buildings with offices. The rent is very moderate, as the fourth story is included in the proposed new lease, in addition to the second and third stories; and no more rent is being charged for the additional story. The building has been used by the Superintendent of Buildings for many years—in fact since the creation of the office—is centrally located and well adapted for the purpose for which it is intended.

Your Committee therefore respectfully offer for your adoption the annexed resolution.

Resolved, That the Comptroller be and he is hereby authorized and directed to lease the second, third, and fourth floors of the building No. 2 Fourth avenue, for the use and occupation of the Department of Buildings (being the premises now occupied by the said Department, with the addition of the fourth story), for a term of five years from the first day of May, 1874, at the rental heretofore paid for the second and third stories of the same building, viz., \$3,500 per annum, to be paid quarterly by the Comptroller, from the proper appropriation.

MAGNUS GROSS,  
PATRICK LYSAGHT,  
JOHN J. MORRIS,  
Committee on Finance.

Which was laid over.
