Resolved, Not to approve of the recommendations.

A communication dated July 28 was received from the Department of Water Supply, Gas and Electricity, recommending the employment of a competent electrician to examine the electric lighting fixtures, cut-outs, etc., in Bellevue Hospital. The Acting President reported that he had requested that Department to prepare the specifications, which they had promised before, and, on motion, the reply of the Acting President was approved.

A communication dated August 2 was received from the State Charities Aid Association relative to the method of storing and handling gasoline for automobiles. The Acting President reported that after consultation with the General Medical Superintendent he had replied that the danger referred to had been removed, and, on motion, the communication was therefore placed on file.

A communication dated August 8 was received from the Board of Estimate and Apportionment, authorizing the issue of \$800 special revenue bonds for the rent of the premises at 117 W. 136th st., for the accommodation of Nurses at Harlem Hospital during the remainder of the year 1910. This communication was placed on file.

A communication dated August 3 was received from the Law Department, transmitting for information an opinion rendered by that office to the effect that department heads need not grant increases in salaries and wages authorized by the City authorities if provision therefor has not been made in the budget appropriations. On motion, this communication was placed on file.

A communication dated August 15 was received from the Department of Finance, approving of the preparation of a contract with R. F. Almirall for services as architect in connection with the enlargement of the balconies at Fordham Hospital, on the basis of 7½ per cent., and declining to approve a contract on the basis of 10 per cent., as requested by Mr. Almirall. On motion, duly seconded and carried, it was

Resolved, To inform Mr. Almirall of this decision.

A communication dated August 15 was received from the Board of Estimate and Apportionment, transmitting a copy of a resolution adopted on July 29, directing all departments, as far as possible, to prepare their budget estimates for the year 1912 upon the basis of cost data. On motion, it was

Resolved, Inasmuch as this is the basis of the Trustees' estimate for 1911 that the same practice be followed in 1912, and that the communication be placed on file.

A communication dated August 15 was received from the Board of Estimate and Apportionment, transmitting copy of a resolution adopted on July 29, approving an amended form of standard specifications for coal and forage. On motion, this communication was referred to the General Medical Superintendent in order to adopt the standard specifications in this Department; and it was further

Resolved, To direct the attention of the Board of Estimate and Apportionment to the fact that the standard specifications for coal are not considered by the Board as good or as practicable as those now in use in this Department.

New Business.

The General Medical Superintendent referred to the fire alarm system planned for Pavilions L and M, and it was

Resolved, That this question should be considered at next meeting.

The Acting President reported that he had received a copy of an application for a writ of mandamus which had been made by William E. Barton, former Inspector of Construction, against the Board, directing his reinstatement, and that he had forwarded this application to the Law Department for the protection of the Board's interests. On motion, this action was approved.

A. M. ROBBINS, Acting Secretary.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.
The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Commissioner of Water Supply, Gas and Electricity, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy or cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale.

The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchers or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants.

The buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of any kind, extending down to the level of the cellar bottom, shall be removed from the premises or torn down. None of the dirt, debris or waste resulting from removal or demolition shall be allowed to remain on the premises. All of the foundation walls of all classes shall be taken down and removed. None of the buildings removed, in whole or in part, and any of the dirt, debris or waste resulting from said removal or demolition shall be erected or placed within 600 feet of property belonging to The City of New York.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against them or any of them, and against and from all damage and costs to which they or any of them are put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.
