The Honorable the Legislature of the State of New York:

The memorial of the Mayor, Aldermen and Commonalty of the City of New York respectfully shows to your Honorable Body as follows:

Under its ancient charters, and various acts of the Legislature, the Common Council of the City of New York has for many years possessed the power to cause streets, avenues and public places in said city to be regulated, graded and paved, the sidewalks flagged, and curb and gutter stones set, and to cause assessments to cover the expense of such work to be laid upon the property benefited thereby. In the year 1875 an act was passed (chapter 476 of the Laws of that year) to provide for a uniform system for the repaving of streets, avenues, and public places in said city. Section 1 of this act contains, among other things, the following provision: "In case any of the streets, avenues, or public places in said city shall have been once paved, and the expense thereof assessed upon the owners of the adjoining and benefited property, the cost of the repaving thereof shall be borne by a general assessment upon all the taxable property in said city." The evident intention of the Legislature, in adopting this provision, was that the owners of property should not be compelled to pay twice for paving the streets in front of their property, but the provision above quoted has been so construed by the courts as, in may cases, to prevent the laying of an assessment for once paving streets, avenues and public places in this city.

Under general ordinances of the Common Council, the sidewalks of all streets (except the very wide avenues laid out under special laws) are from ten to twenty-two feet wide. In improving streets, the usual custom has been for the Common Council to first adopt an ordinance directing the street to be regulated and graded, curb and gutter stones set, and one course of flagging four feet wide to be laid in the centre of one or both sidewalks. When the earth forming the street has had time to settle, a further ordinance is usually adopted, directing that the carriageway of the street be paved, and the sidewalks flagged to their full width. The practice of causing only four feet of the sidewalk to be flagged in the first instance has been adopted from motives of expediency and economy. When the street has been newly graded, a single course of flagging four feet wide remains in position much better than flagging laid the full width of the sidewalk. In streets which have not been built upon, such single course of flagging is all that is required for public use, and the expense being, of course, much less than it would be if the sidewalk were flagged the full width, this practice is far more satisfactory to the owners of unimproved property, which yields no rental, and is assessed for the expense of the improvement.

It would not seem possible that the laying of a strip of flagging four feet wide, upon sidewalks from ten to twenty-two feet wide, could be regarded as a paving of the whole street, within the meaning of the act of the Legislature, above referred to. Such, however, has been the construction put upon this law by the courts. It has been held that when a strip of flagging four feet wide was laid upon the sidewalk, and the expense of such strip assessed upon the adjoining property, the laying of such strip was a paving of the entire street, including the carriageway, although such street might be from forty to one hundred feet wide, and that the expense of flagging the remainder of the sidewalk on each side of the street, and also of paving the carriageway, could not be assessed on the adjoining property.

The statute above referred to, therefore, as interpreted by the courts, operates most injuriously to the interests of the city and of the property owners. If the Common Council adopts an ordinance directing the paving of the carriageway, the flagging of both sidewalks the full width, and the setting of curb and gutter stones, all at once, an assessment to cover the entire expense of flagging the sidewalks and paving the street can be laid; but this course is objectionable, both to the city and the property owners, for the reasons above stated. If, on the other hand, the Common Council directs the curb and gutter stones to be set, and flagging four feet wide only to be laid, on one or both sidewalks, and an assessment to cover the expense of such work is laid, then, as above stated, the expense of paving the carriageway and flagging the remainder of the sidewalk cannot be assessed upon the property benefited, but must be borne by the taxpayers at large. In nearly all cases in which streets have heretofore been paved, and the sidewalks flagged, the expense has been assessed upon the owners of the adjoining property, and the practice of laying such assessment for the first pavement and flagging should be carried out through the entire city. It is a great injustice to the owners of property, who have paid the expense of paving and flagging the streets in front of their own property, to be compelled, as taxpayers, to pay a portion of the expense of the first paving and flagging of streets in other portions of the city. When the carriageway of a street, avenue, or public place has once been paved, and the sidewalks flagged to their full width, and curb and gutter stones have been set, then the entire expense of repaving the street should, as provided in the above-mentioned act of 1875, be paid for out of taxation; but until this has been done, the expense of once paving and flagging every street and sidewalk its full width should be assessed upon the owners of adjoining and benefited property.

Your memorialists further show that when any sidewalk has been flagged less than its full width, and the curb and gutter stones set, and subsequently an ordinance or resolution has been adopted by the Common Council, directing that such sidewalk be flagged to its full width, or the carriageway paved, it becomes absolutely necessary to take up and relay the old strip of flagging which has first been put down, and also to take up and reset the old curb and gutter stones. Such taking up and relaying old flagging, and resetting old curb and gutter stones, cannot well be done as a separate job, but should be done by the contractor for the new work. As the first partial flagging of the sidewalk, and setting of curb and gutter stones is, as above stated, a benefit to the property owners, the expense of taking up and relaying such old flagging, and resetting such curb and gutter stones, ought not to be paid from general taxation, but should be included in the assessment to be laid for the new work to be done under such ordinance or resolution.

Your memorialists have therefore caused a bill to be prepared, which is herewith transmitted, providing that every street, avenue or public place in the City of New York may be once paved to its full width, and every sidewalk flagged to its full width, and all the crosswalks and curb and gutter stones required may be once laid or set, and an assessment or assessments to cover the expense of all or any such work may be laid, notwithstanding that less than the full width of such street, avenue or public place has been previously paved or flagged, and notwithstanding that a part of such crosswalks, curb or gutter stones has been previously laid or set, and the expense therefor assessed upon the owners of adjoining and benefited property; and also that the expense of taking up and relaying old flagging, and resetting old curb and gutter stones, may be assessed upon the property benefited; and your memoralists respectfully pray that this bill may receive the favorable consideration of your Honorable Body, and may become a law.

Dated New York, April 7, 1880.

AN ACT relating to certain local improvements and assessments in the City of New York.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Sec. 3. The Comptroller presented the following report:

CITY OF NEW YORK—FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE, April 6, 1880.

To the Board of Estimate and Apportionment:

On February 24, 1880, there was referred to the Comptroller a resolution adopted by the Commissioners of the Fire Department, requesting the transfer of $1,200 from the unexpended balances of appropriations made to the Fire Department for the year 1878, to the appropriation made to said Department for the year 1879, the said amount being required to pay Clinton G. Colgate, the owner of a patent on the insulation of sub-marine telegraph cables and wires with gutta-percha, for a license covering the use of the insulators by the Fire Department in the year 1879.

I find on examination that, on the advice of the Counsel to the Corporation, the Fire Department, in January last, compromised the claim of Colgate against the said Department for the use of his patent, at the sum of $1,200 per annum, including the year 1879. The sum of $1,200 has been paid for the license for the year 1880, and the transfer asked for is necessary to provide for the payment for the license for the year 1879.

I therefore recommend that the transfer asked for by the Fire Department be made, and a resolution is herewith presented for that purpose.

JOHN KELLY, Comptroller.

And offered the following resolution:

Resolved, That the sum of twelve hundred dollars be, and the same is hereby transferred from the appropriation made to the Fire Department, for the year 1878, entitled, "Fire Department Fund—For Apparatus, Supplies, etc.," which is in excess of the amount required for the purposes or objects thereof, to the same title of appropriation made for the year 1879, which is insufficient to enable the payment of the claim of Clinton G. Colgate, for the use of his patent on the insulation of sub-marine telegraph cables and wires with gutta-percha, by the said department during the year 1879.

Which was adopted by the following vote, viz.:

Affirmative—The Mayor of the City of New York (Chairman), the Comptroller of the City of New York, the President of the Board of Aldermen, and the President of The Department of Taxes and Assessments—4.

The Chairman presented the following communication:

BOARD OF EXCISE,
299 MULBERRY STREET,
NEW YORK, March 24, 1880.

Hon. EDWARD COOPER, *Mayor, and Chairman of Board of Estimate and Apportionment of the City of New York:*

SIR—The Board of Commissioners of Excise in and for the City of New York respectfully state, that in part owing to have to defray certain legal charges from the appropriation heretofore made for the payment of the current expenses of the Board for 1879-80, and partly to the requirement to employ additional assistance in furthering the system adopted for the reduction of the number of unlicensed dealers, which expenditures were not contemplated when the annual appropriation was made, it has become necessary for this Board to request from the Board of Estimate and Apportionment that a further appropriation of $7,500 be made, in order to cover the necessary expenses to the first day of May, 1880, the same to be paid from the money received for licenses.

It is a satisfaction to this Board, in presenting this application, to represent that as to the efforts made to reduce the number of unlicensed dealers, while it is not believed that the total number of dealers has been increased, the number of licenses issued to this date exceeds by 610 the number for the corresponding period of last year.

The amount of license fees collected during the same time shows a gain of about $28,000, which sum it is estimated will be increased so as to show $40,000, as the income for the year by the first day of May, 1880.

This statement will be the better appreciated by the fact contained in the report of the Comptroller having reference to the communication last made to your Honorable Board in relation to receipts and expenditures that the year 1878-9, wherein was shown the increase of license fees received over the years 1877-8, to have been $184,710. The total receipts from license fees will this year amount to a sum exceeding $400,000.

Yours, respectfully,
RICHARD J. MORRISON,
PHILIP MERKLE,
GEORGE W. MORTON,
Commissioners of Excise.

Whereupon the Comptroller offered the following resolution:

Resolved, That in pursuance of the authority conferred upon the Board of Estimate and Apportionment by the provisions of Chapter 642, Laws of 1874, the sum of seven thousand five hundred dollars, ($7,500) is hereby appropriated from the Excise Fund as an additional amount necessary to pay the salaries of employees, rent, and other expenses of the Board of Excise for the year ending May 1, 1880.

Which was adopted by the following vote, viz.:

Affirmative—The Mayor of the City of New York (Chairman), the Comptroller of the City of New York, the President of the Board of Aldermen, and the President of the Department of Taxes and Assessments—4.

The Comptroller presented the following communications:

WM. H. KIPP, First Deputy Clerk.

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION,
NEW YORK, March 20, 1880.

WM. H. KIPP, *Esq., First Deputy Clerk of the Police Department:*

SIR—I have received your communication, bearing date March 11, 1880, enclosing a letter to the Board of Police Commissioners from Mr. Charles P. Miller, relative to the payment of the salary of Patrolman John Shea, from March 17, 1875, to March 17, 1877, and stating that the same was referred to me by the Board for my opinion.

From the memorandum enclosed in your letter, showing Shea's record during the time of his connection with the police force, and from the records in this office, the facts in regard to his case appear to be as follows: He was dismissed from the force May 17, 1875, on the ground that he was disqualified to hold his position, by reason of his having been convicted of a misdemeanor. In March, 1876, he obtained a writ of certiorari, by which he sought to review the action of the Board in his dismissal. The case was submitted to the General Term of the Supreme Court on May 15, 1876, and on February 15, 1877, the opinion of the Court was rendered to the effect that the conviction should be reversed, and the proceedings remanded. On the 16th of March, 1877, in pursuance of an order of reinstatement granted by the Court, Shea resumed his position as patrolman, and was assigned to duty in the Fourteenth Precinct.

The facts above stated appear to render this case similar, in all points, to that of Augustus C. Miller, concerning which I wrote you on January 29, 1879, and that of James Mulrey, concerning which I wrote you July 18, 1879. In those cases I advised you that in my opinion the plaintiffs were entitled to receive their salary for the respective periods which elapsed between the date of their removal and their reinstatement. I see no defense which could be made to an action brought for the recovery of this claim, unless it might be shown that after Shea's removal another man was specifically appointed to fill his place, who drew his salary during the time which he now claims it, or unless there was a disposition manifested on his part to abandon his claim to the position. I suppose, of course, that it would be impossible to establish any defense of the kind first suggested, and the fact that Shea commenced legal proceedings within a reasonable time after his dismissal would make it impossible to maintain the second. I therefore think it would be advisable for your Board to pay the claim if you have any moneys applicable to the purpose, and if not, I think it would be proper to apply for a transfer of a sufficient sum from some unexpended appropriation.

I am, sir, yours respectfully,
W. C. WHITNEY, Counsel to the Corporation.

Which were referred to the Comptroller.

The Chairman presented the following communications:

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, ROOM 19, CITY HALL,
NEW YORK, April 16, 1880.

Hon. EDWARD COOPER, *Mayor, and Chairman Board of Estimate and Apportionment:*

SIR—In the final settlement of the contract of Peter T. Masterson, for regulating, grading, etc., Twelfth avenue, from One Hundred and Thirtieth to One Hundred and Thirty-third street, the contractor was charged with 117 days excess of inspection, or overtime, at $3 per day, amounting to $351, and the assessment for the work was made up accordingly. Since this settlement, I have ascertained that Mr. Masterson is entitled to an allowance of 75 days, out of the 117 days charged, on account of delays to which he was subjected in consequence of the death of the Surveyor first appointed on the work, and the removal of a house which stood within the lines of the work. This allowance of 75 days, at $3 per day, amounting to $225, cannot be charged in the assessment, and cannot, therefore, be paid out of the assessment fund; and I would request that provision for the payment of the same be made by transferring for that purpose the following unexpended balances of appropriations made to this Department for the year 1879, to wit:

Aqueduct Repairs and Maintenance	$10 96
Aqueduct Repairs and Maintenance, Salaries	66 38
Boulevard, Roads, and Avenues, Maintenance of, Salaries	32 76
Free Floating Baths, Salaries	71 06
Flagging Sidewalks and Fencing Vacant Lots in front of city property	7 23
Supplying Water to Shipping, etc., Salaries	10 96
Street Improvements, for Street Signs, etc	26 34
Total	$225 69

—two hundred and twenty-five dollars and sixty-nine cents—the same being in excess of the requirements of the respective appropriations.

Very respectfully,
ALLAN CAMPBELL, Commissioner of Public Works.

Hon. EDWARD COOPER, *Mayor, Chairman Board of Estimate and Apportionment:*

SIR—We herewith submit to you resolutions passed by this Board, requesting the transfer of ten thousand dollars from balances of various accounts in the Department of the years 1874 and 1879, to supply account of 1879 for which it is required.

You will notice that these resolutions are for more in amount than is required; but we send them all to you, that your Board may select the ones from which the amount can be transferred, and we respectfully request that your Board refer this matter to the Counsel to the Corporation for his opinion.

Very respectfully,
TOWNSEND COX, President.

DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION,
COMMISSIONERS' OFFICE, NO. 66 THIRD AVENUE,
NEW YORK, April 5, 1880.

Hon. EDWARD COOPER, *Mayor, and Chairman of the Board of Estimate and Apportionment:*

DEAR SIR—We respectfully call the attention of your Board to the greatly increased cost of nearly all articles used by this Department. And fearing, from the experience of the months of January and February, that the amount appropriated for supply account for 1880, will be exhausted before the end of the year, we apply to your Board, that you may take such action as in your judgment is deemed best, and that you may be enabled to appropriate an additional amount, should it become actually necessary.

We apply at this time moreover that you may lay the matter before the Legislature during the present session, if it be necessary.

We hand you herewith statement of the cost of supplies for January and February of this year, and for the same period in 1879, for comparison.

Very respectfully,
TOWNSEND COX, President.

—or any part thereof, will be received at the office of the Department of Public Charities and Correction, in the City of New York, until 9 o clock A.M., of Friday, the 30th day of April, 1880. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, endorsed "Bid or Estimate for Groceries, Provisions, Dry Goods, Paints, and Lumber," and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the head of said Department and read.

The Department of Public Charities and Correction reserves the right to decline any and all bids or estimates if deemed to be for the public interest, and to accept any bid or estimate as a whole, or for any one or more articles included therein. No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, at such times and in such quantities as may be directed by the said Department; but the entire quantity will be required to be delivered on or before thirty (30) days after the date of the contract.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the estimated amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities, as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept to contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same respectively at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate, in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, issued on the completion of the contract, or from time to time as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

The Department of Public Charities and Correction reserves the right to decline any and all bids or estimates if deemed to be for the public interest, and to accept any bid or estimate as a whole, or for any one or more articles included therein. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The form of the agreement, including specifications, and showing the manner of payment can be obtained at the office of the Department.
