Department of Taxes and Assessments, The City of New York, Borough of Manhattan, Hall of Records, April 24, 1911.

Honorable Board of Estimate and Apportionment, 277 Broadway, City:

Gentlemen—At a meeting of your Board held on March 9, 1911, a resolution was adopted approving of the schedule of salaries for the force to be employed in accordance with chapter 542, Laws of 1892, for the revenue bond fund, entitled R-DT-1, Block Tax Assessment Map Fund, under the jurisdiction of the Commissioners of Taxes and Assessments. Such schedule was based upon the payroll for the month of February, and no allowance was made therein for the vacancies in the force then existing, and which it was contemplated to fill at an early date. The attention of the Board of Taxes and Assessments was not called to this schedule until after it had been adopted by your Board, and therefore no opportunity was given to have notice taken of this omission.

In order to carry on the work satisfactorily and properly it is necessary that the vacancies in this force shall be filled without delay, and it is therefore requested that the schedule as adopted be revised by the change on the line reading "Draftsman, 1 at \$1,200," to read "Draftsman, 4 at \$1,200," thus making provision for the appointment of three additional Draftsmen at the rate of \$1,200 per annum, which appointments are at this time urgently necessary.

Your prompt consideration and attention is respectfully requested.

Respectfully, LAWSON PURDY, President.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 15, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On April 24, 1911, the President of the Department of Taxes and Assessments requested modification of the schedule for the revenue bond force employed in the Department in the preparation of new tax assessment maps.

It is proposed to add three Draftsmen at \$1,200 per annum. The existing schedule was approved by the Board of Estimate and Apportionment on March 9, 1911. The President states the following:

"The schedule was based upon the payroll for the month of February, 1911, and no allowance was made therein for the vacancies then existing, and which it was contemplated to fill at an early date. In order to carry on the work satisfactorily and properly, it is necessary that the vacancies be filled by the appointment of the three additional Draftsmen."

Provision for expenses incurred in the preparation of the new tax assessment maps is mandatory under chapter 542 of the Laws of 1892. Funds for the additional incumbents are available in an appropriation of \$36,300 on March 9.

I recommend the adoption of the attached resolution granting the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the schedule of salaries, as revised, for the force to be employed in accordance with chapter 542, Laws of 1892, for the revenue bond fund R. D. T. 1, Block Tax Assessment Map Fund, under the jurisdiction of the Department of Taxes and Assessments, as follows:

The Secretary presented the following communication from the Department of Taxes and Assessments requesting, and report of the Comptroller relative to, the modification of Salary Schedule 1342 supporting the appropriation made in the Budget for the year 1911, for said Department, providing for the increase in salaries of two Confidential Stenographers from \$1,200 to \$1,350 per annum each:

The City of New York, Department of Taxes and Assessments, Borough of Manhattan, Hall of Records, May 1, 1911.

Hon. WM. A. PRENDERGAST, Comptroller:

Sir—By action of the Board of Aldermen, taken on April 11, 1911, a resolution was adopted approving the recommendation of the Board of Estimate and Apportionment adopted March 30, 1911, and providing for two (2) additional Confidential Stenographers in this Department, at the rate of \$1,350 per annum. The schedule supporting the appropriation for this Department now provides for one (1) Confidential Stenographer at \$1,350 per annum and four (4) at \$1,200 per annum; and it is therefore necessary that they should be so modified as to provide for three

(3) at \$1,350 per annum and two (2) at \$1,200 per annum, making a net increase of \$300 and a corresponding decrease in the unassigned balance.

The request is therefore made that such modification of the schedules may be approved; and it is understood that you will approve such change without requiring that a further application be made to the Board of Estimate and Apportionment for this purpose. Yours very truly,

C. ROCKLAND TYNG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 15, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—In reference to a request of the Secretary of the Department of Taxes and Assessments, on May 1, 1911, for modification of the salary schedule for the Department for the year 1911, I report as follows:

It is proposed to strike out two Confidential Stenographers at \$1,200 per annum and add two at \$1,350. The change is for an increase in compensation to two incumbents of \$150 per annum each. The \$1,350 grade for the increases was recommended for establishment by the Board of Estimate and Apportionment on March 30, 1911, and the grade was fixed by the Board of Aldermen on April 11, 1911. The modification therefore is for compliance with action already taken by your Board.

The following table shows the line item changes in detail:

Account No.	Schedule Line.	Schedule Transfer.		Cash Transfer.	
		Increase.	Decrease.	Increase.	Decrease.
1342. Confidential Stenographer, 1	at \$1,350	\$2,700 00	\$1,800 00

		\$2,700 00	\$2,700 00	\$1,800 00	\$1,800 00

The attached resolution, if adopted, will grant the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The Secretary presented the following report of the Comptroller submitting for adoption resolution containing certain rules governing the modification of salary schedules, as requested by the various departments of the City government:

(On May 4, 1911, the above report was laid over for one week and the Secretary was directed to send copies thereof to the heads of all departments for their information. The copies were sent as directed.)

(On May 11, the matter was again laid over for one week.)

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 22, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—Modification of salary and wage schedules are frequently requested by the departmental heads for the purpose of permitting salary or wage increases and employment of additional help or the employment of persons at other rates than those fixed in the schedule.

The practice of the Bureau of Audit of the Department of Finance has been to audit against such modifications on the basis that these authorizations are not retroactive beyond the first of the month within which the Board of Estimate and Apportionment had acted. Occasionally the Department heads will increase salaries or employ added help for two or three months before action permitting same is taken by the Board of Estimate and Apportionment. This causes confusion in the audit of payrolls and frequently imposes hardships upon employees whose compensation is involved in irregularity without they having any knowledge of the fact. It seems advisable, therefore, that a rule should be set down for the guidance of the departments in this matter.

I therefore submit for the approval of this Board the resolution attached hereto.

I recommend the adoption of this resolution, and if approved by the Board, the Secretary be requested to transmit at once to the departments a copy of the resolution. Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the heads of the various City and County Departments, Bureaus and Offices, in the preparation of payrolls be governed by the following rules which are hereby approved by this Board.

(a) A modification of a schedule shall take effect from the first day of the month in which the resolution of the Board of Estimate and Apportionment authorizing the same is passed unless otherwise specifically stated in the resolution of authorization.

(b) Appointments, promotions or other changes in positions or compensations permitted by schedule changes must conform to this rule. The Comptroller is requested not to pass payrolls made up in violation of this rule.

(c) Where an emergency exists requiring an immediate change in position in a schedule or the employment of a person where the position is not scheduled, the request for the modification of a schedule to provide for the emergency change should state the reason for such action, giving the date thereof, in order that the Board of Estimate and Apportionment may have before it the facts upon which it may determine

as to the justification for such emergency employment and fix the date from which the modification covering the same is to be effective.

The Secretary presented the following communication from the Department of Water Supply, Gas and Electricity, requesting, and report of the Comptroller referring to said request, for the modification of Salary Schedules Nos. 480 and 481, supporting the appropriation made in the Budget for the year 1911, stating that it does not appear necessary to increase the amount unassigned in Schedule No. 480 for the purpose of adding thereto positions now vacant and the modification of said schedule is, therefore, not recommended, and recommending that Schedule No. 481 be modified, to provide for decreasing Foremen at \$3 from twenty days to fifteen and to increase Housesmiths at \$5 from eight to ten days, and Laborers at \$2.50, from 830 to 832 days, to meet existing payroll conditions:

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

Dear Sir—Under date of March 1 I requested a modification of Schedules of Accounts Nos. 480 and 481, and a modification was made complying in part with my request, only one line being at that time changed for the reason that the modification for that particular line was to take effect on January 1. The other changes requested are still necessary, and I again ask that the Board of Estimate and Apportionment modify the enclosed schedules supporting the aforementioned accounts.

Yours truly, HENRY S. THOMPSON, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 10, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On April 28, 1911, the Commissioner of Water Supply, Gas and Electricity requested modification of two schedules for the wages of regular and temporary employees in his Department for 1911. In connection therewith, I report as follows:

In No. 480, Wages, Regular Employees, Croton Water System, it is proposed to drop a Foreman at \$4 for 365 days; a Foreman at \$3 for 303 days, and two Watchmen at \$2.50 for 365 days. A Foreman at \$3 for 365 days, and two Laborers at \$2.50 for 365 days are to be added, the balance of \$1,274 to be added to the present unassigned balance.

It does not appear necessary to increase the amount unassigned in the schedule for the purpose of adding thereto positions now vacant. The dropping of the Foreman at \$4 for 365 days and the Foreman at \$3 for 303 days is therefore not recommended.

In No. 481, Wages, Temporary Employees, Croton Water System, it is proposed to decrease Foremen at \$3 from twenty days to fifteen days, and to increase Housesmiths at \$5 from eight to ten days, and Laborers at \$2.50 from 830 to 832 days. These changes are to meet existing payroll conditions.

The necessary schedule and cash transfers, as of May 11, 1911, are as follows:

Account No.	Line Items.	Schedule Transfer.		Cash Transfer.	
		Decrease.	Increase.	Decrease.	Increase.
480.	Foreman at \$3 per day (365 days)		\$1,095 00		\$705 00
	Watchmen, 5 at \$2.50 per day (365 days)	\$1,825 00		\$1,175 00	
	Laborers, 76 at \$2.50 per day (365 days)		1,825 00		1,175 00
	Unassigned balance	1,095 00		705 00	
		\$2,920 00	\$2,920 00	\$1,880 00	
481.	Foreman at \$3 per day (20 days)	\$15 00		\$15 00	
	Housesmiths at \$5 per day (8 days)		\$10 00		\$10 00
	Laborers at \$2.50 per day (830 days)		5 00		5 00
		\$15 00	\$15 00	\$15 00	\$15 00

I recommend the adoption of the attached resolution granting the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The Secretary presented the following communication from the Department of Bridges, requesting, and report of the Comptroller recommending, a modification of Salary Schedule 80, supporting the appropriation made in the Budget for the year 1911, for said Department, by decreasing a Watchman at \$2.50 a day from 365 days to 278 days, and to increase the number of days for Enginemen, Stokers and Laborers:

Department of Bridges, City of New York, 13-21 Park Row, Manhattan, April 22, 1911.

Hon. WILLIAM A. PRENDERGAST, Comptroller, 280 Broadway, Manhattan:

Sir—I have to request a further modification and revision of Budget Appropriation Wages—Temporary Employees—Bridges over the Harlem River, and in the Borough of Manhattan, Department of Bridges, for the year 1911, and to be effective as of April 1, 1911, as follows:

Drop line items:

80. Wages, Temporary Employees:

Watchman	at \$2.50 per day (365 days)	\$912 50
Engineman	at \$4.50 per day (147 days)	661 50
Stokers	at \$3.00 per day (119 days)	357 00
Laborers	at \$2.50 per day (18 days)	45 00
		\$1,976 00

Insert line items:

Watchman	at \$2.50 per day (278 days)	\$695 00
Engineman	at \$4.50 per day (168 days)	756 00
Stokers	at \$3.00 per day (135 days)	405 00
Laborers	at \$3.00 per day (2 days)	6 00
Laborers	at \$2.75 per day (3 days)	8 25
Laborers	at \$2.50 per day (42 days)	105 00
Unassigned		75
		\$1,976 00

This request does not increase the 1911 Budget appropriation made for the Department of Bridges, and is made necessary by reason of unexpected expenditures caused by men being called as witnesses in various City lawsuits by the Corporation Counsel, and, being on City business, they had to be paid, thereby exhausting the appropriations made for overtime and vacation periods. The Watchman will not be necessary until the completion of the storehouse for this Division later in the year.

Copy of revised schedule herewith. Respectfully,

KINGSLEY L. MARTIN, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 10, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On April 22, 1911, the Commissioner of Bridges requested modification of schedule for wages, temporary employees, for his Department for 1911. In connection therewith, I report as follows:

The request is in No. 80, Wages, Temporary Employees, Harlem River Division. It is proposed to decrease a Watchman at \$2.50 from 365 days to 278 days, and use \$216.75 of the amount released to increase the number of days for Enginemen, Stokers and Laborers; a balance of seventy-five cents is to be scheduled as unassigned.

It is stated that the changes are mainly on account of expenditures in replacing men called as witnesses by the Corporation Counsel in suits against the City. The decrease in the days for the Watchman is possible for the reason that the position will not be filled until the new storehouse of the division is completed later in the year.

The schedule and cash transfers, in detail, are as follows:

Account No.	Line Items.	Schedule Transfer.		Cash Transfer.	
		Decrease.	Increase.	Decrease	Increase.
80.	Watchmen at \$2.50 per day (365 days)	\$217 50		\$217 50	
	Enginemen at \$4.50 per day (147 days)		94 50		94 50
	Stokers at \$3 per day (119 days)		48 00		48 00
	Laborers at \$2.50 per day (18 days)		60 00		60 00
	Laborers at \$2.75 per day (3 days)		8 25		8 25
	Laborers at \$3 per day (2 days)		6 00		6 00
	Unassigned		75		75
		\$217 50	\$217 50	\$217 50	\$217 50

I recommend the adoption of the attached resolution granting the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The Secretary presented the following communication from the Sheriff of Kings County requesting, and report of the Comptroller recommending, that the Board approve of the expenditure of \$1,986.45 to provide for the compensation of one Matron during the month of January, 1911, at the rate of \$1,000 per annum, and of two Keepers, at the rate of \$1,200 each per annum, from March 16 to December 31, 1911, in the Kings County Jail, under the jurisdiction of the Sheriff of Kings County, and that the Comptroller be authorized to issue special revenue bonds, pursuant to the provisions of subdivision 7, section 188 of the Charter, to provide means therefor:

Office of the Sheriff of Kings County, Court House, Borough of Brooklyn, New York City, Brooklyn, N. Y., April 8, 1911.

Hon. WILLIAM A. PRENDERGAST, Comptroller, 280 Broadway, New York City:

Dear Sir—Referring to my letter to you under date of March 16, advising that I had appointed William J. Atkinson and William Parry, Jr., as Keepers at the County Jail, I would respectfully ask that a special issue of revenue bonds be authorized to pay their salaries to December 31, 1911, and also an issue to pay the salary of Nellie A. Trinneer for the month of January, 1911, for services rendered as Matron, for which payrolls and vouchers have been submitted to your Department.

These appointments were made pursuant to chapter 705 of the Laws of 1901.

Respectfully yours,

PATRICK H. QUINN, Sheriff, Kings County.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 10, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On April 8, 1911, the Sheriff of Kings County requested an appropriation in the sum of \$1,986.45 for payment of a Matron for January, 1911, at the rate of \$1,000 per annum, and to provide for two Keepers at \$1,200 per annum, from March 16, 1911, to December 31, 1911. In connection therewith, I report as follows:

The Sheriff states that the appointments were made for the County Jail in compliance with the provisions of chapter 705 of the Laws of 1901. In an opinion on a similar matter, under date of February 3, 1911, the Acting Corporation Counsel set forth the following:

"It seems to me that the provisions of chapter 705 of the Laws of 1901, as amended by chapter 464 of the Laws of 1903, would govern in this case, and that the Sheriff of the County of Kings is empowered to employ not more than eight Keepers and three Matrons at the amounts fixed respectively for each position by the acts of 1901 and 1903. * * * The Sheriff of Kings County has the authority to make additional appointments in excess of those provided for his office in the Budget for the year 1911, so long as he does not exceed the number prescribed by chapter 705 of the Laws of 1901, as amended by chapter 464 of the Laws of 1903, and also that it is mandatory upon the Board of Estimate and Apportionment to provide funds for the payment of the salaries of such additional employees." * * *

Chapter 705 of the Laws of 1901, as amended, fixes the compensation of Keepers at \$1,200 per annum and of Matrons at \$1,000 per annum.

The request is for a force of Keepers up to the legal limit and for two Matrons out of the three allowed by law.

In view of the opinion of the Corporation Counsel, I recommend the adoption of the attached resolutions approving the request and a schedule for the revenue bond force in the office.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

To the Board of Estimate and Apportionment:

Gentlemen—The Board of Education, in a communication dated May 6, 1911, requested approval by the Board of Estimate and Apportionment of plans, specifications and estimate of cost (\$15,000) for general excavation, etc. (Contract No. 1), of additions to and alterations in Public School 20, Borough of The Bronx.

It is proposed to contract for the excavation of rock, earth, etc., now on the

premises, to the required depths for the building, including trenches for walls, and drains, and the construction of a stone retaining wall along the easterly lot line. By contracting now for the excavation, much time will be saved, since the plans and specifications for the building are not yet completed in all details. By the time these plans and specifications are completed and the contract for construction is awarded, the excavation of the plot will be well under way, if not entirely completed. The plans and specifications for the excavation are satisfactory, and the estimate of cost is reasonable.

The work is to be charged to fund C-DE-110C for the construction and equipment of an addition to and installing electric work in Public School 20, Borough of The Bronx. The issue of corporate stock to the amount of \$106,200 was authorized for this purpose by resolution adopted by the Board of Estimate and Apportionment on March 9, 1911.

I submit for adoption the resolution appended hereto.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The necessary sanitary fixtures, lighting fixtures and steam heating fixtures, together with connections thereto, sanitary floors and bases are also provided for in the plans.

Maintenance, General Supplies, Vocational School for Girls."

(On April 20, 1911, the request of the Board of Education for the above appropriation was referred to the Comptroller.)

Board of Education, Park Avenue and 59th Street, New York, April 15, 1911.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

Dear Sir—I have the honor to transmit herewith a certified copy of a resolution adopted by the Board of Education at a meeting held on the 12th inst., relative to appropriating \$1,574.07 realized from the sale of products of the Manhattan Trade School for Girls, to the Special School Fund for the year 1911.

Respectfully yours, A. E. PALMER, Secretary, Board of Education.

Whereas, In accordance with section 1066 of the Greater New York Charter, as amended, there has been deposited in the City Treasury the sum of one thousand five hundred and seventy-four dollars and seven cents (\$1,574.07), representing proceeds realized from the sale of products of the Manhattan Trade School for Girls, for which a receipt has been received from the City Chamberlain and placed on file, a copy of which is as follows:

A true copy of preamble and resolution adopted by the Board of Education on April 12, 1911. A. E. PALMER, Secretary, Board of Education.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 8, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On April 12, 1911, the Board of Education requested the appropriation of \$1,574.07, realized from the sale of products of the Manhattan Trade School

for Girls, to the 1911 Special School Fund for use in the Borough of Manhattan, in compliance with the provisions of section 1066 of the Greater New York Charter, as amended. In connection therewith, I report as follows:

Section 1066 of the Charter, as amended by chapter 456 of the Laws of 1910, provides that the Board of Education shall have power to sell at prevailing market prices such manufactured articles or other products of its vocational, trade and truant schools as may not be utilized by the Board. All moneys realized by the sale thereof shall be paid into the City treasury and shall at once be appropriated by the Board of Estimate and Apportionment to the Special School Fund for use in the Borough in which the property sold was situated.

The \$1,574.07 in the request has been paid into the City treasury.

In the Budget for 1911, \$10,000 was appropriated as Account 1234, for General Supplies for the Manhattan Trade School (Vocational School for Girls), with the understanding that the account was to be increased from time to time by the proceeds of the sale of goods manufactured from supplies furnished to the school. It is proposed, therefore, to add the \$1,574.07 to the account.

I recommend that the request be approved by the adoption of the attached resolution. Respectfully, WM. A. PRENDERGAST, Comptroller.

The following was offered:

Whereas, The Board of Education has deposited in the City Treasury the sum of \$1,574.07, representing proceeds realized from the sale of products of the Manhattan Trade School for Girls, which sum now constitutes the account entitled "Sales of Personal Property by the Department of Education," and

Whereas, Under the provisions of section 1066 of the Greater New York Charter, as amended by chapter 456, Laws of 1910, the Board of Estimate and Apportionment shall at once appropriate all moneys accruing from the sale of manufactured articles or other products of the vocational, trade and truant schools, Department of Education, to the Special School Fund for use in the Borough in which the property sold was situated; and

Whereas, In the Budget for 1911, Account 1234, the sum of \$10,000 was appropriated to establish a fund for the purchase of general supplies for a Vocational School for Girls, with the understanding that the account was to be replenished by the proceeds of the sale of goods manufactured from supplies furnished to the Manhattan Trade School, which was taken over by the Board of Education in September, 1910; therefore, be it

Resolved, That the Board of Estimate and Apportionment hereby appropriates the sum of one thousand five hundred and seventy-four dollars and seven cents (\$1,574.07), representing proceeds of sale of products of the Manhattan Trade School for Girls, to the Special School Fund for the year 1911, for use in the Borough of Manhattan, and transfers said sum from the suspense account, entitled "Sales of Property by the Department of Education," to the Budget account, entitled "No. 1234. Maintenance, General Supplies, Vocational School for Girls."

Which was adopted by the following vote:

Affirmative—The Acting Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented a report of the Comptroller returning for filing communication from the President of the Borough of The Bronx, relative to the co-operation by the Department of Finance with the other departments so as to insure the maximum of harmony and consequent efficiency.

Which was ordered filed.

(On February 9, 1911, the above communication was referred to the Comptroller.)

The Secretary presented a report of the Comptroller relative to the resolution of the Board of Aldermen requesting an issue of \$30,000, special revenue bonds (subdivision 8, section 188 of the charter), for the employment of Musicians for evening playgrounds, and submitting without recommendation two resolutions, one concurring in the request of the Board of Aldermen to the extent of \$12,672, and the other approving of the schedule of salaries for said fund:

Which was laid over one week.

(On April 27, 1911, the resolution of the Board of Aldermen, as above, was referred to the Comptroller.)

The City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Arsenal, Central Park, April 3, 1911.

To the Honorable, the Board of Estimate and Apportionment, The City of New York:

Changed to read:
Climbers and Pruners (303 days) at \$2.50 per day, (4,545 days)..... \$11,362 50

These changes are requested for the following reasons: The proper care of the trees under the jurisdiction of this Department some times necessitated concentrating the entire force of Climbers and Pruners, namely, those employed under 1068, "Maintenance, Parks and Boulevards," and those employed under 1085, "Maintenance of Trees in City Streets," inside the parks or upon the streets, in order to destroy new crops of caterpillars, etc. Under the present schedule it is impossible to bring the men under 1085 into the parks for lack of appropriation to meet their pay.

The change proposed will not give any one man more than 303 days of a working year, but it will allow the concentration referred to which is at times necessary.

Respectfully,

CHAS. B. STOVER, Commissioner of Parks, Boroughs of Manhattan and Richmond.

The City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Arsenal, Central Park, April 3, 1911.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—In order to meet the necessity of keeping the bridge paths and drives under the jurisdiction of this Department in proper condition for the public on Sundays and holidays, as well as providing for other work during the summer season, which must be done on Sundays and holidays by the Drivers and Cartmen in this Department, I have the honor to request the following change in the 1911 Budget, Account 1068, line items 12 and 13:

Change line item 12:
Drivers (teams) 25 at \$2.75 per day, 313 days..... \$21,518 75
to read:

Change line item 13:
Drivers (Cartmen), 34 at \$2.50 per day, 313 days..... \$26,605 00
to read:
Drivers (Cartmen), 34 at \$2.50 per day, 10,642 days..... \$26,605 00

Respectfully,

CHAS. B. STOVER, Commissioner of Parks, Boroughs of Manhattan and Richmond.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 15, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On April 3, 1911, the Commissioner of Parks, Boroughs of Manhattan and Richmond, requested modification of two schedules for the wages of regular em-

ployees in the Department of Parks for the year 1911. It is proposed to strike out line items for incumbents and substitute lump sum appropriations for a certain number of days. This would give part of the schedules for temporary employees contrary to the resolutions granting the 1911 Budget.

I recommend, therefore, that the same be not approved.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the requests contained in the communications dated April 3, 1911, from the Commissioner of Parks of the Boroughs of Manhattan and Richmond, for the modification of the schedules Nos. 1085 and 1068, supporting the appropriation made in the Budget for the year 1911, be and the same are hereby disapproved.

Which was adopted by the following vote:

Affirmative—The Acting Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary was directed to transmit a copy of the report of the Comptroller to the Commissioner of Parks, Manhattan and Richmond.

The Secretary presented the following communication from the Department of Bellevue and Allied Hospitals requesting, and report of the Comptroller recommending approval, pursuant to resolution adopted June 3, 1910, of the plans, specifications and estimate of cost (\$850) for grading a portion of the grounds at Bellevue Hospital and constructing a tennis court thereon:

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st avenue and 26th street, New York, April 11, 1911.

Hon. WILLIAM A. PRENDERGAST, Comptroller, Department of Finance, 280 Broadway, New York City:

Sir—Enclosed please find an estimate received from the New York Tennis Racket Company amounting to \$850 for the construction of a tennis court within the grounds of the new Bellevue Hospital, together with two communications from the Architects and plans relating thereto. There has been considerable difficulty in obtaining a contractor to bid on the construction of this work, and the bid which has been received, and which appears fair and reasonable, is for a limited period. Under the circumstances, the Trustees have the honor to request authority to accept this estimate as soon as practicable. Respectfully,

JOHN W. BRANNAN, President, Board of Trustees.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 12, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On April 11, 1911, the Trustees of Bellevue and Allied Hospitals submitted for the approval of the Board of Estimate and Apportionment plans, specifications and estimate of cost, \$850, for grading a portion of the grounds at Bellevue Hospital and constructing a tennis court thereon.

The estimate of cost is the amount of a bid received for the work by which the bidders agree to prepare an area 60 feet in width by 118 feet in length properly rolling it and laying out a tennis court with tennis tape.

The work includes about 100 cubic yards of excavation and 800 cubic yards of fill, which will be necessary, whether the ground is used for a tennis court or not.

These plans are submitted in place of others which were withdrawn at the suggestion of the Department of Finance and for which the estimate of cost was \$2,500.

The plans and specifications are properly drawn and the estimate of cost is reasonable. Therefore I recommend that they be approved. The work is chargeable to an appropriation made June 3, 1910, for grading grounds of the hospital.

A resolution is hereto attached which, if adopted, will carry out the above recommendation. Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution adopted June 3, 1910, hereby approves the plans, specifications and estimate of cost, eight hundred and fifty dollars (\$850), for grading a portion of the grounds at Bellevue Hospital and constructing a tennis court thereon, under the jurisdiction of the Board of Trustees, Bellevue and Allied Hospitals.

Which was adopted by the following vote:

The Secretary presented the following communication from the Fire Department requesting, and report of the Comptroller recommending approval, pursuant to resolution adopted June 3, 1910, of the specifications and estimates of cost for the following apparatus for the said Department:

Six chassis to be fitted to high pressure hose wagons, each.....	Estimated Cost.
Three power propelled auto attachments to be fitted to steam fire engines, each	\$3,000 00
	6,000 00

Fire Department of the City of New York, Office of the Commissioner, New York, March 31, 1911.

Hon. WILLIAM A. PRENDERGAST, Comptroller, City of New York:

Sir—I transmit herewith for approval specifications for six chassis, to be fitted to high pressure hose wagons and three power propelled auto attachments to be fitted to steam fire engines; the approximate cost, \$3,000 each for the chassis complete, as per specifications, and \$6,000 each for the auto attachments complete, as per specifications, it is proposed to charge against the fund for New Apparatus, Accounts 10-A and 10-B.

Two of the wagons and one engine will be located for service in the Boroughs of Brooklyn and Queens; the other wagons and engines will be placed for service in the Boroughs of Manhattan and The Bronx.

Respectfully, R. WALDO, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 13, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On March 31, 1911, the Commissioner of the Fire Department submitted for the approval of the Board of Estimate and Apportionment specifications for six chassis, to be fitted to high-pressure hose wagons, estimated cost \$3,000 each, and three power propelled auto attachments to be fitted to steam fire engines, estimated cost \$6,000 each.

On April 17, 1911, the Commissioner submitted an amended specification for the hose wagons.

The conversion of this apparatus is desired as part of the Commissioner's plan to do away with the necessity for horses in the high-pressure district of the City.

The present large high-pressure hose wagons are too large for use in the outlying districts of the City, and the engines in the high-pressure district are simply emergency apparatus, not intended to respond to fire alarms except in case of the failure of the high-pressure water supply.

The estimated costs given are reasonable.

Therefore I recommend that the specifications and estimates of cost be approved.

A resolution is hereto attached which, if adopted, will carry out the above recommendation. Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution adopted June 3, 1910, hereby approves the specifications and estimates of cost for the following apparatus for the Fire Department:

Six chassis to be fitted to high pressure hose wagons, estimated cost three thousand dollars (\$3,000) each, and three power propelled auto attachments to be fitted to steam fire engines, estimated cost six thousand dollars (\$6,000) each.

Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented a report of the Comptroller referring to the request of the Department of Health for authority to employ an Architect for the preparation of plans and specifications for the construction of glass and iron partitions in the Office Building of the Department of Health in Brooklyn, stating that in his opinion the resolution of June 3, 1910, does not require that any further action be taken by this Board authorizing the execution of the contract and recommending that the Secretary of the Board so advise the Department of Health.

The report was ordered filed and the Secretary directed to advise the Department of Health accordingly.

(On May 11, 1911, the above request was referred to the Comptroller.)

The Secretary presented the following report of the Comptroller, recommending that the resolution adopted April 6, 1911, authorizing the acquisition of a plot of ground 281 feet on Pennsylvania avenue, with a depth of about 110 feet, in the Borough of Brooklyn, for the use of the Department of Education, at a price not exceeding \$48,500, be amended by providing for the acquisition of the interior plot by condemnation proceedings, stating that the plot of ground is in three ownerships and negotiations have developed the fact that the owner of the second parcel is willing to accept \$14,000 for the plot, but the property is under lease, which has four years yet to run, and the lessee is unwilling to vacate the premises:

Department of Finance, City of New York, Comptroller's Office, May 15, 1911.

To the Honorable, the Board of Estimate and Apportionment:

Gentlemen—On April 6, 1911, your Board adopted a resolution approving of the acquisition of a plot of ground 281 feet on Pennsylvania avenue with a depth of about 110 feet, in the Borough of Brooklyn, for use of the Board of Education, and the Comptroller was authorized to enter into contracts for the acquisition of the same, at private sale, at a price not exceeding \$48,500.

The plot of ground is in three ownerships, the first having a frontage on Pennsylvania avenue of 150 feet, with a depth of 105 feet; the second having a frontage of 80 feet on Pennsylvania avenue, with a depth of 110 feet, and the third having a frontage of 51 feet on Pennsylvania avenue, with a depth of 110 feet.

Negotiations have been entered into by the Comptroller, with the result that the first parcel may be acquired for \$22,500, and the third parcel for \$12,000. The owner of the second parcel is willing to accept \$14,000 for the plot, but the fact has developed that this property is under a lease covering a period of six years, which has four years yet to run, and the lessee is unwilling to vacate the premises.

Under the circumstances, I am of the opinion that it would be more expedient to acquire the interior plot by condemnation proceedings, and therefore recommend that the resolution adopted by your Board on April 6, 1911, providing for the acquisition of the site, be amended so as to provide for the acquisition of the interior plot by condemnation proceedings, and I transmit herewith three resolutions providing for the acquisition of each parcel separately. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The Secretary presented a communication from the Commissioner of Water Supply, Gas and Electricity, requesting that the Committee, consisting of the Comptroller and the Chief Engineer of the Board, to which on October 16, 1910, was referred the matter of acquiring right, title and interest in all of the private water companies operated in The City of New York, be instructed to submit its report, in view of the fact that there will soon expire several contracts with private water companies from which the City is now purchasing water and the terms and conditions of the new and renewed contracts would probably be affected by the decision of the Board upon the advisability of purchasing the private water companies' plants and franchises.

Which was ordered filed, and the Secretary directed to transmit a copy thereof to the Committee mentioned therein.

The Secretary presented the following communications from the Department of Public Charities relative to, and report of the Comptroller recommending approval, pursuant to resolution adopted June 3, 1910, of the specifications and estimate of cost (\$6,000) for furniture, crockery, household utensils, rugs, etc., for the new Staff House, Metropolitan Hospital, under the jurisdiction of said Department, provided the clauses specifying supplies with only one trade name be amended by adding the words "or equal thereto," so as not to conflict with section 1554 of the Charter:

Department of Public Charities of The City of New York, Foot of East 26th street, New York, May 2, 1911.

Hon. WILLIAM A. PRENDERGAST, Comptroller:

Sir—In accordance with a resolution adopted by the Board of Estimate and Apportionment on January 5, 1911, directing that all City departments, authorized by the Board of Estimate and Apportionment to incur obligations and execute contracts payable out of corporate stock authorized to be issued in the Corporate Stock Budget adopted June 3, 1910, submit to the Comptroller of The City of New York, for report to the Board of Estimate and Apportionment, all plans, specifications and estimates of cost prior to advertising for bids upon public works, payable out of such corporate stock, I beg to submit for your consideration the specifications for the following:

"Furniture, Crockery, Household Utensils, Rugs, etc., for New Staff House, Metropolitan Hospital, Blackwells Island."

This expenditure is chargeable to the Department of Public Charities Building Fund C-CH-42, and the estimated cost is \$6,000.

Trusting that you will take prompt and favorable action on this request, I am, Respectfully yours,

M. J. DRUMMOND, Commissioner.

Department of Public Charities of The City of New York, Foot of East 26th Street, May 3, 1911.

Hon. W. A. PRENDERGAST, Comptroller, 280 Broadway, City:

Sir—Under date of May 2 we sent you, in accordance with the resolution adopted by the Board of Estimate and Apportionment on January 5, 1911, specifications for "Furniture, Crockery, Household Utensils, Rugs, etc., for the new Staff House, Metropolitan Hospital, Blackwells Island," and stated that this expenditure is chargeable to "Department of Public Charities, Building Fund, C-CH-42," and the estimated cost was given as \$6,000. This letter was signed by the Commissioner.

We now wish you to add to that specification, Line No. 2254, in place of Line No. 2354, being specification for window screens. Please see that this is attached to the other specification. Respectfully yours,

J. McKEE BORDEN, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 12, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On May 2, 1911, the Commissioner of Public Charities submitted for the approval of the Board of Estimate and Apportionment the specifications and estimate of cost (\$6,000) for furniture, crockery, household utensils, rugs, etc., for the new staff house, Metropolitan Hospital District, Blackwells Island.

An amendment to the specifications covering the furnishing and installation of window and door screens was submitted on May 3, 1911.

The supplies, etc., specified are necessary to completely furnish the new staff house, but the clause specifying the kitchen clock and some of the clauses specifying household utensils and rugs mention but one trade name, thereby conflicting with section 1554 of the Greater New York Charter.

To all clauses where but one trade name is mentioned the words "or equal thereto" should be added.

This expenditure is charged to a fund known as C-CH-42 released in the Corporate Stock Budget adopted by the Board of Estimate and Apportionment on June 3, 1910. The available balance in this fund is sufficient to provide for this expenditure.

The estimate of cost, \$6,000, appears to be reasonable, and, if the specifications be amended as suggested above, I believe the specifications and estimate of cost (\$6,000) may properly be approved.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, in pursuance of its resolution of June 3, 1910, hereby approves the specifications and estimate of cost, six thousand dollars (\$6,000) for furniture, crockery, household utensils, rugs, etc., for the new Staff House, Metropolitan Hospital District, Blackwells Island, under the jurisdiction of the Department of Public Charities, providing the clauses specifying supplies with only one trade name be amended by adding the words "or equal thereto" so as not to conflict with section 1554 of the Greater New York Charter.

Which was adopted by the following vote:

Affirmative—The Acting Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Department of Parks, Boroughs of Brooklyn and Queens, requesting, and report of the Comptroller recommending approval, pursuant to resolution adopted June 3, 1910, of the plans, specifications and estimate of cost (\$20,000) for furnishing all the labor and materials required for the erection of a comfort station and shelter building in McLaughlin Park, Borough of Brooklyn, submitted by the Commissioner of said Department:

Department of Parks, The City of New York, Boroughs of Brooklyn and Queens, Litchfield Mansion, Prospect Park, Borough of Brooklyn, February 20, 1911.

Hon. WILLIAM A. PRENDERGAST, Comptroller of The City of New York:

Sir—I beg to return you herewith plans, specifications and estimate of cost for furnishing all the labor and materials required for the erection of a comfort and shelter building in McLaughlin Park, Borough of Brooklyn, which were returned by you under date of February 14, but did not reach this office until February 20.

The plans and specifications have been approved by the Department of Water Supply, Gas and Electricity, under date of December 28, 1910, and the copy herewith submitted to you bears such approval. Very truly yours,

M. J. KENNEDY, Commissioner.

Estimated cost for furnishing all the labor and materials required for the erection of a comfort and shelter building in McLaughlin Park..... \$20,000 00

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 15, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On February 20, 1911, the Commissioner of Parks, Boroughs of Brooklyn and Queens, submitted for the approval of the Board of Estimate and Apportionment the plans, specifications and estimate of cost (\$20,000) for furnishing all the labor and materials required for the erection of a comfort station and shelter building in McLaughlin Park, Borough of Brooklyn.

These plans and specifications were originally submitted on February 6, 1911, but were returned to the Park Department for the approval of the Department of Water Supply, Gas and Electricity.

The plans and specifications provide for the erection of a shelter building

about 62 feet long by 32 feet wide, with basement comfort station, to be built of brick, limestone and granite.

The necessary sanitary, heating and lighting fixtures, together with connections thereto, are also provided for, so that, with the completion of this contract, the building will be turned over to the City ready for use.

On August 28, 1910, plans and specifications for a comfort station in McLaughlin Park, at an estimate of cost of \$60,000 were submitted for approval, but, on account of the elaborate design and extravagant cost, the plans and specifications were returned without approval.

The plans and specifications now submitted appear to be complete and satisfactory and bear the stamp of approval of the Department of Water Supply, Gas and Electricity. The estimate of cost (\$20,000) appears to be reasonable.

Therefore I submit for adoption the resolution appended hereto.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

The Comptroller presented the following communication from the Department of Public Charities requesting, and report recommending, approval, pursuant to resolution adopted June 3, 1910, of the plans, specifications and estimate of cost (\$229,000) for the entire completion of an administration building, a surgical pavilion, a storage, kitchen and dining hall building, etc., for the Sea View Hospital, Staten Island, under the jurisdiction of said Department:

Department of Public Charities of The City of New York, Foot of East 26th Street, April 18, 1911.

To the Honorable, the Board of Estimate and Apportionment:

Gentlemen—In accordance with the resolution adopted by your honorable body on June 3, 1910, requiring all City departments to submit for the Board's approval plans, specifications and estimates for cost, prior to advertising for bids upon public work, funds for which have been released since January 1, 1910, or may be authorized in the Corporate Stock Budget for the current year, I beg to submit for your approval plans and specifications for furnishing all labor and materials necessary or required for certain excavation, masonry, steel and iron work, painting, plumbing work, power work and machinery, refrigerating work, electric work, and all other work for the completion of an administration building, a surgical pavilion, a storage, kitchen and dining hall building, a service tunnel and covered corridor connecting buildings and a power house, ambulance and laundry building, and also the power work and machinery, electric work, kitchen apparatus, fitting up, fixtures and the like for six ward pavilions (now under contract) for the Sea View Hospital, situated on the property of the Department of Public Charities, Borough of Richmond, The City of New York.

This expenditure is chargeable to the Department of Public Charities, Sea View Hospital.

Trusting that your honorable Board will take prompt and favorable action on this request, I am, Respectfully yours.

M. J. DRUMMOND, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 25, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On April 18, 1911, the Commissioner of Public Charities submitted for approval of the Board of Estimate and Apportionment the plans and specifications for furnishing all labor and materials necessary or required for certain excavation, masonry, steel and iron work, painting, plumbing work, power work, and machinery refrigerating work, electric work and all other work for the completion of an administration building, a surgical pavilion, a storage, kitchen and dining hall building, a service tunnel and covered corridor connecting buildings, and a power house, ambulance and laundry building, and also the power work and machinery, electric work and the like for six ward pavilions (now under contract) for the Sea View Hospital, situated on the property of the Department of Public Charities, Borough of Richmond, The City of New York.

The proposed work consists of the motors and machinery of the electric elevators; electric work, engines, generators, switchboards, wiring, etc., heating, ventilating and power work; refrigerating plant in laundry machinery.

All of this work was included in the plans and specifications approved by the Comptroller on July 15, 1910, at an estimated cost of \$1,350,000. Subsequently, the Department of Water Supply, Gas and Electricity changed the electrical portion of the specifications relating to the electrical work. The change provided for an alternating current instead of a direct current as specified in the original specifications. The specification as now drawn calls for an independent plant, but the bidders are requested to submit an alternative bid stating the reduction in cost should the independent plant specified be omitted, involving the following changes and omissions:

(a) Omit generators, engines, generator and exciter panels of switchboard, voltage regulators, transformers and apparatus pertaining thereto.

(b) Omit compression type of refrigerating plant and install absorption plant with the necessary and required accessories and connections.

(c) Omit feed water heater, separators, connections to feed water heater, water weigher connections to engine and compressors, exhaust mains, exhaust head, mains from feed water heater and overhead cranes in engine room.

A contract for the major portion of the work called for in the specifications, approved by the Comptroller on July 15, 1910, has been awarded for \$1,083,000, and the work proposed to be done under the plans and specifications now before the Board for approval include the balance of the original contract omitted on account of the contemplated changes to the electrical work which have now been approved by the Department of Water Supply, Gas and Electricity.

I have no criticisms to make of the specifications or plans. Concerning the estimate of cost (\$229,000), I have been unofficially informed by the architect that since the original estimate of cost was figured (upon which the appropriation of \$1,350,000 was based), a power plant and other items have been added, and he has some doubt as to the work being completed at the estimate given above, but competition may bring the work within the estimate given by the Department.

Therefore, I herewith transmit resolution to be adopted by the Board of Estimate and Apportionment approving the plans and specifications at an estimated cost of \$229,000 of the above-described work. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, in pursuance of its resolution of June 3, 1910, hereby approves the plans, specifications and estimate of cost, two hundred and twenty-nine thousand dollars (\$229,000), for furnishing all labor and materials necessary or required for certain excavation, masonry, steel and iron work, painting, plumbing work, power work and machinery, refrigerating work, electric work, and all other work for the completion of an administration building, a surgical pavilion, a storage, kitchen and dining hall building, a service tunnel and a covered corridor connecting buildings and a power house, ambulance and laundry building, and also the power work and machinery, electric work and the like for six ward pavilions (now under contract) for the Sea View Hospital, situated on the property of the Department of Public Charities, Borough of Richmond, The City of New York.

Which was adopted by the following vote:

Affirmative—The Acting Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

(On May 11, 1911, the resolution of the Board of Aldermen requesting the above appropriation was referred to the Comptroller.)

In the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof to be used by the Department of Health for the purpose of purchasing food supplies for issuance to tuberculosis patients attending the day camps located upon the ferryboats "Middletown" and "Susquehanna."

Adopted by the Board of Aldermen April 18, 1911, three-fourths of all the members voting in favor thereof.

Received from his Honor the Mayor May 2, 1911, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

P. J. SCULLY, Clerk.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 17, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On April 18, 1911, the Board of Aldermen adopted a resolution requesting \$10,000, in special revenue bonds for the purchase by the Department of Health of food supplies for tuberculosis patients attending the day camps on the old ferryboats "Middletown" and "Susquehanna." In connection therewith, I report as follows:

Three years ago day camps for tuberculosis patients were opened on the old ferryboat "Middletown," at the foot of East 91st street, Manhattan, and the ferryboat "Susquehanna," at the foot of North 2d street, Brooklyn. The "Middletown" was maintained by the Women's Auxiliary of the Department of Health Clinics until a year ago, when the Sinking Fund Commission transferred the boat to the custody of the Department of Health. Since then the employees on the boat, with the exception of one Nurse, have been supplied by the Department of Health. The expenses for provisions and supplies have been paid by the Auxiliary. The Brooklyn Bureau of Charities has similarly cared for the "Susquehanna." The organizations have asked to be relieved of the expenses of both boats, hence the request for revenue bonds.

It is estimated that the daily attendance from May 1 to December 31, 1911, will average 180. The cost of food supplies from January 1 to September 30, 1910, was \$6,626.64. The average attendance during that period was 80 patients at a daily cost per patient of 30 cents. The Commissioner of Health is of the opinion that economical administration will keep the expenditures down to \$10,000.

Dr. Hermann M. Biggs, General Medical Officer, states the following:

These two boats provide for an important need in tuberculosis work in large districts where they are greatly needed. They are to be regarded, in my opinion, as essentially a part of the tuberculosis work of the Department of Health as the conduct of the tuberculosis clinics or of the Riverside Hospital for tuberculosis or of the Sanatorium at Otisville. In my judgment, the Department and the City cannot properly expect or ask these two organizations to longer continue their contributions for this purpose, and I would strongly recommend that arrangements be made to supply the necessary provisions and to meet all the necessary expenses connected with the conduct of the boats. The Department of Health by accepting and conducting these boats, has accepted a responsibility which it has not, up to this time, properly met.

I recommend that the request be granted by the adoption of the attached resolution.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Aldermen on April 18, 1911, requesting an issue of special revenue bonds in the sum of ten thousand dollars (\$10,000), the proceeds whereof to be used by the Department of Health for the purpose of purchasing food supplies for issuance to tuberculosis patients attending the day camps located upon the ferryboats "Middletown" and "Susquehanna," be and the same is hereby approved of and concurred in by the Board of Estimate and Apportionment, and for the purpose of providing means therefor, the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue special revenue bonds of The City of New York to an amount not exceeding ten thousand dollars (\$10,000), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Acting Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented the following communication from the Chief Justice, Court of Special Sessions, requesting the issue of \$2,150, and report recommending the issue of \$1,737.50 special revenue bonds (chapter 659, Laws of 1910), for the following purposes:

For the payment of the compensation of six Attendants in the Court of Special Sessions, at the rate of \$1,500 per annum, from May 16 to December 31, 1911.....	\$1,125 00
For payment of the compensation of a female Stenographer and Typewriter in the office of the Chief Probation Officer, Court of Special Sessions, at the rate of \$1,050 per annum, from June 1 to December 31, 1911.....	612 50

—and also recommending approval of schedules of salary increases and for the salary paid from said fund:

(On May 11, 1911, the request of the Chief Justice of the Court of Special Sessions was referred to the Comptroller.)

Court of Special Sessions of The City of New York, May 6, 1911.

To the Honorable Board of Estimate and Apportionment of The City of New York, 277 Broadway, City:

Dear Sirs—To provide for the payment of the increase of salaries of six (6) Court Attendants in this Court from May 1, 1911, to December 31, 1911, you are requested to issue revenue bonds to the amount of twelve hundred dollars (\$1,200); and for the payment of the salary of a Stenographer and Typewriter in the office of the Chief Probation Officer of this Court, revenue bonds to the amount of nine hundred and fifty dollars (\$950), to pay such salary for the balance of the year; such requests being made under the provisions of chapter 659 of the Laws of 1910.

Respectfully, ISAAC FRANKLIN RUSSELL, Chief Justice.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 17, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On May 6, 1911, the Chief Justice of the Court of Special Sessions requested \$1,200 in special revenue bonds to pay increases in the salaries of six court attendants, and \$950 in special revenue bonds for the salary of a Stenographer and Typewriter in the office of the Chief Probation Officer. The requests were made under the provisions of chapter 659, Laws of 1910, "An act in relation to the Inferior Courts of Criminal Jurisdiction in The City of New York." In connection therewith I report as follows:

On May 16, 1911, the grade of the position of Court Attendant, Court of Special Sessions at \$1,500 per annum, for six additional incumbents, was established. Their previous established rate was at \$1,200 per annum. The increase equalizes their compensation with nineteen Court Attendants who are paid at the rate of \$1,500 each per annum.

On May 2, 1911, the additional grade of the position of Female Stenographer and Typewriter at \$1,050 per annum for one incumbent in the office of the Chief Probation Officer of the Court of Special Sessions was established. The position is to be filled June 1, 1911, by the transfer of Helen L. Long of the same grade and rate, from the Department of Finance.

The issue of special revenue bonds as requested seems to be proper and in accordance with section 114, chapter 659, Laws of 1910, which stipulates that pending budgetary provisions, the Comptroller, with the action or concurrence of the Board of Estimate and Apportionment, shall make provision by the sale of special revenue bonds for the salaries of additional Justices, Clerks, Stenographers, Probation Officers, Court Attendants and other additional employees.

I recommend the adoption of the attached resolutions granting the request to the extent of the amounts actually necessary and required therefor.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The Comptroller presented the following communication from the Acting President of the Borough of Brooklyn requesting, and report recommending, the modification of salary schedule 1772, supporting the appropriation made in the Budget for the year 1911, for the Office of the President of the Borough of Brooklyn, to take effect May 1, 1911, to meet existing payroll conditions:

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, May 2, 1911.

Hon. WILLIAM A. PRENDERGAST, Comptroller, The City of New York, 280 Broadway, Manhattan:

Dear Sir—I would respectfully request you to recommend to the Board of Estimate and Apportionment a modification of Salary Schedule "1772, Wages, Temporary Employees," in accordance with the attached schedule. These modifications, if granted, will allow for the payment of Asphalt Workers at \$3 per diem, and Stone Cutter, at \$4.50 per diem, in accordance with the grades recently established by the Board of Estimate and Apportionment.

In addition to the change made necessary by these two lines in the schedule, I find in some of the other lines the amounts apportioned are not sufficient to carry the number of men now employed, while on the other hand, others are somewhat excessive.

This modification, if granted, will not increase the appropriation for this Department, and I would respectfully request that this matter be given your early consideration. Yours very truly,

L. H. POUNDS, Commissioner of Public Works, and Acting Borough President.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 16, 1911.

To the Board of Estimate and Apportionment:

The necessary grades of positions were recommended for establishment by the Board of Estimate and Apportionment on April 20, 1911, and the grades were fixed by the Board of Aldermen on May 2, 1911. The total increases are covered by decreases in the number of days for Foremen at \$4.50, Pavers at \$5, Rammers at \$4 and by transfer from an unassigned balance. The Acting President states that the modification is to make the schedule conform to existing payroll conditions. No increase in compensation or appropriation is involved.

PROPOSED FORM OF CONTRACT.

This contract, made this day of

1911, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and The Jay Street Connecting Railroad (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1—The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate railroad tracks, either at the same grade as the surface of the streets, or above or below the grade thereof, as shall be determined by the Public Service Commission for the First District of the State of New York, pursuant to law, for the purpose of conveying goods, wares and merchandise only, in the Borough of Brooklyn, City of New York, the centre lines of which are as follows:

A. One track beginning at a point on the easterly side line of Jay street about fifty-eight (58) feet northerly from the northerly side line of John street; thence southeasterly for a distance of about one hundred and thirty (130) feet to a point on the southerly side line of John street situated about twenty (20) feet eight (8) inches westerly from the westerly side line of Jay street.

Jamison, President, and F. E. Pratt, Engineer," a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description, and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2—The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Company within one (1) month from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within said one (1) month or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railroad shall be held and en-

joyed by the Company for the term of fifteen (15) years from the date upon which this contract is signed by the Mayor.

Third—Upon the termination of this contract at the expiration of said fifteen (15) years, or upon the termination of the rights hereby granted for any cause at any other time, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Fourth—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of three thousand dollars (\$3,000) in cash within thirty (30) days after the date on which this contract is signed by the Mayor and before anything is done in exercise of the privilege hereby granted.

(b) During the first ten (10) years of this contract an annual sum of five hundred dollars (\$500).

During the succeeding five (5) years of this contract an annual sum of one thousand dollars (\$1,000).

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges, as above, shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner, in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fifth—The annual charges or payments shall continue throughout the whole term of this contract, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any person or corporation a franchise or right to use the streets hereinbefore described or any part of them for railway purposes.

Seventh—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statute relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Eighth—The Company shall commence construction of the railroad herein authorized within six (6) months from the date upon which the consents of the property owners are filed with the Board, or from the date of the order of the Appellate Division of the Supreme Court made pursuant to section 174 of the Railroad Law confirming the determination of the Commissioners appointed thereunder, that such railroad ought to be constructed and shall complete the construction and place the same in full operation within nine (9) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railroad shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues, over which such officials have jurisdiction, and the Company shall comply with such conditions.

The electrical equipment to be installed, if any, by the Company for the operation of the railroad within the limits of the City, whether the same be upon streets and avenues or upon private prop-

erty, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Tenth—The work of construction of the tracks hereby authorized shall be done in such manner as shall not substantially interfere with the ordinary use of any street or avenue as a public highway.

Eleventh—Cars may be operated upon said tracks by steam locomotives, which shall be housed or boxed so as to conform with the type commonly known as the dummy engine, or by any other motive power which may be approved by the Board and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York, provided, however, that the Board, upon giving to the grantee one year's notice, may require the Company to operate its railroad upon the whole or any portion of the tracks hereby authorized by such system of electric power as may be designated by the Board, and the Company shall thereupon discontinue the use of steam locomotives from such tracks.

Twelfth—Neither passengers nor vehicles shall be prevented from crossing the tracks hereby authorized by the occupation of such tracks by cars or trains operated thereon, for a greater period than five consecutive minutes at any time, and the aggregate of such periods shall not exceed ten minutes in any hour between 7 o'clock a. m. and 6 o'clock p. m.

Thirteenth—Should the Company be allowed to operate at the same grade as the streets and avenues, the Company shall station flagmen at such points as shall be necessary to exclude pedestrians and vehicles from the tracks at all times when cars or trains shall be operated thereon. Should it seem necessary in the opinion of the Board at any time during the term of this contract, that gates be erected, maintained and operated across any of the streets or avenues for the purpose of excluding pedestrians and vehicles from the tracks hereby authorized, then the Company shall erect, maintain and operate such gates as may be designated, upon thirty days' notice by the Board to the Company.

Fourteenth—As long as said tracks or any portion thereof remain in any street or avenue, the Company shall set the curbs, pave the roadways and sidewalks and keep in permanent repair that portion of the surface of the streets and avenues in which said railroad is constructed, between its tracks, the rails of its tracks for a distance of two (2) feet beyond the rails on either side thereof under the supervision of the local authorities whenever required by them to do so, and in such manner as they may prescribe. In case of the neglect of the Company to make pavement or repairs after the expiration of thirty (30) days' notice to do so from the President of the Borough of Brooklyn, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Fifteenth—Should the Company be allowed to operate at the same grade as the streets and avenues, it shall at all times keep the streets and avenues upon which the said railroad is constructed, between its tracks, the rails of its track and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Sixteenth—Should the grades or lines of the streets and avenues in which the railroad is hereby authorized be changed at any time after the railroad has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Seventeenth—It is agreed that the right hereby granted to operate a railroad shall not be in preference or in hindrance to public work of the City, and should the said railroad in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances, in the manner directed by the City officials having jurisdiction over such public work.

Eighteenth—Any alterations to the sewerage or drainage systems, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railroad, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Nineteenth—Said railroad shall be constructed and operated in the latest approved manner of street railroad construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railroad equipment, including rolling stock and railroad appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time the rights hereby granted shall cease and determine.

Twentieth—The rates for carrying property upon the tracks hereby authorized shall in all cases be reasonable in amount, subject to the control of the Board, and may be fixed by the Board after notice to the Company, and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, and no rates in excess of those fixed shall be charged for such service.

Twenty-first—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railroad constructed and operated under this contract and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-second—In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board, acting under the powers herein reserved, the franchise or consent herein granted may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board

shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-third—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250), as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-fourth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-fifth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of rights conferred hereby, shall deposit with the Comptroller of the City the sum of Five Thousand dollars (\$5,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at reasonable rates, the repairs of the street pavement, the removal of snow and ice, the quality of construction of the railroad, and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions, or compliance with such orders or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder, relating to the obstruction of traffic, the maintenance of gates and flagmen, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing appears, in the judgment of the Board, to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any default made upon the security fund the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of five thousand dollars (\$5,000), and in default thereof, this contract shall be cancelled and annulled at the option of the Board, acting on behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-sixth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues in which the Company is hereby authorized to operate.

Twenty-seventh—The Company hereby agrees that it will not institute any proceedings to acquire by condemnation any land, property, appurtenances or rights pursuant to any law, unless and until permitted to do so by resolution of the Board, otherwise this grant shall cease and determine.

Twenty-eighth—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-ninth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3—Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Sec. 4—This grant is also upon the further and express condition that the provisions of Article 5 and other provisions of the Railroad Law, pertinent hereto, shall be strictly complied with by the Company.

Sec. 5—The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In Witness Whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the Richmond Light and Railroad Company, and the adequacy of the compensation proposed to be paid therefor; now, therefore, it is

Resolved, That the Board of Estimate and Apportionment hereby grants to the Richmond Light and Railroad Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of the City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

This contract, made this day of 1911, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Richmond Light and Railroad Company (hereinafter called the Company), party of the second part, witnesseseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double track street surface railway, as an extension to its present railway, with the necessary wires and equipment, for the purpose of conveying persons and property in the Borough of Richmond, in The City of New York upon the following route, to wit:

Beginning at and connecting with the existing tracks of the Company in New York avenue at or near its intersection with a private street known as Wadsworth avenue; thence by double track southwesterly in and upon said Wadsworth avenue to Tompkins avenue; thence across said Tompkins avenue to a private right-of-way; thence in a southerly direction along said private right-of-way to Sea avenue; thence across Sea avenue to a private right-of-way; thence southerly along said private right-of-way to Florida avenue; thence across Florida avenue to Richmond avenue; thence across Richmond avenue to Ocean avenue and there connecting with the existing tracks of the Company.

And to cross such other streets and avenues, named and unnamed, as may be encountered in said route.

The said route with turnouts, switches and crossovers hereby authorized is shown upon a map entitled:

"Map showing proposed alteration in the Richmond Light and Railroad Company, in the Borough of Richmond, to accompany a petition dated January 6, 1911, to the Board of Estimate and Apportionment, City of New York,"—and signed by S. F. Hazelrigg, Vice-President, and Walter E. Pettigrew, Engineer; a copy of

which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description, and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within three (3) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within said three (3) months or within one (1) month thereafter make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor until the expiration of the term of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day on (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuation so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

(a) The sum of five hundred dollars (\$500) in cash within sixty (60) days after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years an annual sum which shall in no case be less than four hundred and seventy-five dollars (\$475), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of four hundred and seventy-five dollars (\$475).

During the second term of five (5) years an annual sum which shall in no case be less than eight hundred and seventy-five dollars (\$875), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of eight hundred and seventy-five dollars (\$875).

During the third term of five (5) years an annual sum which shall in no case be less than nine hundred and seventy-five dollars (\$975), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of nine hundred and seventy-five dollars (\$975).

During the fourth term of five (5) years an annual sum which shall in no case be less than one thousand and seventy-five dollars (\$1,075), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of one thousand and seventy-five dollars (\$1,075).

During the remaining term, expiring an annual sum which shall in no case be less than one thousand and seventy-five dollars (\$1,175), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of one thousand and seventy-five dollars (\$1,175).

As the Company is operating both railway and electric light and power properties, it is agreed that the gross annual receipts mentioned above shall be the portion of the gross receipts from the railway property of the Company, as distinguished from the electric light and power property, as shall bear the same proportion to the whole gross receipts from such railway property as the length of the extension hereby authorized shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each

year. To be made coterminous with grant for rights at St. George for which application is now pending.

year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that portion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City, pursuant to the Railroad Law as amended.

The sum of five hundred dollars (\$500) which is hereinbefore required to be paid to the City by the Company within sixty (60) days after the date on which this contract is signed by the Mayor shall not be considered in any manner in the nature of a tax, but such payment shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fifth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the route hereinbefore described.

The use of the railway constructed by the Company under this contract, including the tracks, wires and other equipment or any structures used in connection therewith, in streets and avenues and private property hereinbefore described shall be permitted by the Company, to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets and avenues for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall equal the legal interest on such proportion of the actual cost of the construction of such railway and structures, and additions and betterments thereto, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same; and also such proportion of the cost of keeping the tracks and electrical equipment in repair, and the cost of additions and betterments thereto, such proportion of laying and repairing of pavement and removal of snow and ice and all other duties imposed upon the Company by the terms of this contract in connection with the maintenance or the operation of said railway so used, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation. Provided, however, that if in the opinion of the Company, the legal rate of interest upon the cost of such railway shall be an insufficient sum to be paid for the use of such tracks, it may appeal to the Board and the Board may fix a percentage upon the cost to be paid to the Company, at a sum in excess of the legal rate of interest, if, in its opinion, such action is justified.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company, pursuant to this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed, pursuant to this contract, within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Eighth—The Company shall commence construction of the railway herein authorized within three (3) months from the date upon which the consents of the property owners are filed with the Board or from the date of the order of the Appellate Division of the Supreme Court made pursuant to Section 174 of the Railroad Law confirming the determination of the commissioners appointed thereunder, that such railway ought to be constructed and shall complete the construction and place the same in full operation within three (3) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either

of such periods shall not exceed in the aggregate six (6) months; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided, further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Tenth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues, over which such officials have jurisdiction, and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Eleventh—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of Richmond, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York.

Twelfth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents and the Company shall not charge any passenger more than five (5) cents for one continuous ride, from any point on its road or on any road, line or branch operated by it or under its control to any other point thereof, or any connecting branch thereof within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Thirteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars, cars for the transportation of express matter, mail matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

The rate for the carrying of such property over the said railway upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board, and may be fixed by the Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, and no greater sum shall be charged for such services than provided for by it.

Fourteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Fifteenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Sixteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Seventeenth—Cars on the said railway shall run at intervals of not more than thirty (30) minutes both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board.

Provided, however, that the Company shall not be required to operate its cars between the hours of 1 o'clock a. m. and 5 o'clock a. m. each day, unless the Board shall determine after a hearing had thereon that public convenience requires the operation of cars during said hours.

Eighteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway shall be constructed, shall, if required by the President of the Borough of Richmond, cause to be watered at least three (3) times every twenty-four (24) hours when the temperature is above thirty-five (35) degrees Fahrenheit, the entire width of the streets and avenues, except when the width of such streets and avenues shall exceed sixty (60) feet between curb lines, in which case the Company shall cause to be watered only sixty (60) feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Provided, however, that the Company may, with the approval of the City official having jurisdiction over such matters, oil that portion of the surface of the streets and avenues between the tracks, the rails of the tracks and two (2) feet beyond the rails on each side thereof, at least twice each summer season, in such manner as may be necessary to prevent the rising of dust, and if the Company shall so oil such portions of the surface of the streets and avenues, then the Company shall not be required to water such streets and avenues as herein provided.

Nineteenth—The Company shall at all times keep the streets and avenues upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the President of the Borough, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twentieth—As long as said railway, or any portion thereof, remains in any street or avenue, the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. In case of the neglect of the Company to make pavement or repairs after the expiration of thirty (30) days' notice to do so from the President of the Borough of Richmond, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

The Company shall cause to be paved a strip sixty-four (64) feet in width across the entire roadway of New York and Tompkins avenues at their intersections with Wadsworth avenue, and a strip sixty (60) feet in width across the entire roadway of Richmond avenue at its intersection with Ocean avenue. The precise location of such pavement and the kind and character of the same shall be as determined by the President of the Borough of Richmond, and the work shall be done in the manner directed by said President.

Twenty-first—Any alteration to the sewerage or drainage systems, or to any other surface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-second—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-third—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twenty-fourth—The Company covenants and agrees to abandon and relinquish and does hereby abandon and relinquish to the City all its rights and franchises to construct, maintain and operate a street surface railway upon the route beginning at the intersection of New York avenue with Wadsworth avenue; thence upon New York avenue to Richmond avenue; and the Company shall, within one year from the date on which this contract is signed by the Mayor, comply with the provisions of Section 184 of the Railroad Law in regard to the abandonment of said route so abandoned and relinquished, and shall remove therefrom any and all existing tracks of the Company within such time, and restore the pavement in the manner prescribed by the President of the Borough of Richmond. If the Company shall fail to secure the approval of the Public Service Commission or shall fail for any other reason to comply with the provisions of this subdivision within the time stipulated this contract shall be void and of no effect, and the grant made herein shall thereupon cease and determine. Provided, however, the Board may extend said period for a period or periods not exceeding in the aggregate six months.

Twenty-fifth—Should the City at any time during the term of this contract lay out and acquire a street of sixty-four (64) or more feet in width, between New York avenue and Tompkins avenue, the lines of which shall approximately correspond with the proposed street shown upon the map heretofore described, and made a part of this contract, as Wadsworth avenue, then the Company shall, on one year's notice, alter the position of the curbs in said Wadsworth avenue to such position as shall be directed by the municipal authorities having jurisdiction and the Company shall cause to be paved the entire portion of the roadway between the new curb lines of said Wadsworth avenue which is not now paved under the supervision of the municipal authorities having jurisdiction in such matters and such authorities shall designate the kind and character of the pavement to be laid.

Should the City at any time during the term of this contract lay out a new street along all or any portion of the railway hereby authorized, between the northerly line of Richmond avenue and the westerly line of Tompkins avenue, then the Company shall convey or cause to be conveyed the free and clear title to all of that portion or portions of land now claimed to be owned by the Company and shown upon the map heretofore described and made a part of this contract, which shall lie within the lines of such new street or any portion of the same as may be laid out by the City, and should the City at any time during the term of this contract lay out the portion of such new street immediately north of Richmond avenue, then the Company shall convey or cause to be conveyed the free and clear title to all of those two triangular pieces or parcels of land, one of which lies immediately south of the property of the Company, as shown upon said map and between the easterly line of Florida avenue and the easterly line of such new street, being shown upon the map heretofore described as Parcel A, and the other of which has a frontage on Richmond avenue and lies between the westerly side of Florida avenue and the westerly side of such new street, being shown upon said map as Parcel B.

The conveyances hereinabove required shall be executed within thirty (30) days of the date of the approval by the Mayor of the resolution of the Board of Estimate and Apportionment adopting the map laying out such new street or streets.

The Company hereby agrees that if the City is, or shall become, entitled to acquire, and shall at any time during the term of this contract acquire or otherwise come into the possession of any of the property on which railway tracks shall be constructed on that portion of the route described herein as private property, no compensation shall be awarded for the right to have railway tracks thereon.

When the City shall have acquired or come into possession of any property, as provided above, then the rights hereby granted in the streets and avenues shall be extended to cover such property and all the terms and conditions of this contract shall be applicable thereto.

Twenty-sixth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30

next preceding, and at any other time, upon request of the Board, which shall state:

—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-seventh—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-eighth—In case of any violation or breach of failure to comply with any of the provisions herein contained, or with any orders of the Board, acting under the powers herein reserved, the franchise or consent herein granted may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-ninth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time, and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Thirtieth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirty-first—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of one thousand dollars (\$1,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at the rates herein fixed, the repairs of the street pavement, the removal of snow and ice, the quality of construction of the railway and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions or compliance with such orders, or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder, relating to the roadway, heating and lighting of cars, fenders and wheel guards, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of a violation of the provisions relating to those matters, all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such

amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of one thousand dollars (\$1,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-second—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-third—The words "streets or avenues," and "streets and avenues," wherever used in this contract, shall be deemed to mean "streets, avenues, highways, driveways, concourses, boulevards, bridges, viaducts, public places or any other property to which the City has title or over which the public has an easement," encountered in the route hereinabove described, and upon or in which authority is hereby given the Company to construct a railway.

Thirty-fourth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This grant is also upon the further and express condition that the provisions of article 5, and the other provisions of the Railroad Law pertinent hereto shall be strictly complied with by the Company.

Sec. 4. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed, and the party of the second part by its officers thereto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

Dated New York, April 27, 1911. m15,j8

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment, held May 11, 1911, the following petition was received:

To the Board of Estimate and Apportionment:
The petition of New York, Westchester and Boston Railway Company respectfully shows as follows:

That your petitioner is a railroad corporation of the State of New York and is engaged in constructing its railroad in The City of New York in accordance with a certain ordinance adopted by the Board of Aldermen on the 26th day of July, 1904, and approved by the Mayor on August 2, 1904, granting to your petitioner the right to cross streets, avenues and public places as therein specified, which ordinance was subsequently amended by a contract between the New York, Westchester and Boston Railway Company and The City of New York, dated January 29, 1909.

That in and by the said contract dated January 29, 1909, the entire route of your petitioner, as therein amended, was set forth in full.

That on the 10th day of December, 1910, the Board of Directors of your petitioner, for the purpose of improving the line of the railroad, by affirmative vote of two-thirds, at a meeting duly called and held in the manner provided by law, adopted a change of route

of a portion of its main line and of its branch line in the City of New York so that the same should be in accordance with a certain map thereupon adopted by the said Board of Directors, entitled "Map and Profile of New York, Westchester and Boston Railway for New York County, New York, Part of Sections 1, 2 and 3, December 10, 1910, being Map and Profile of that part of the route of the main line of said Railway Company within said county; extending from a point between Ludlow avenue and Westchester avenue, east of Whitlock avenue, in the Borough of The Bronx, City of New York, to a point in White Plains road near its intersection with Sagamore street, in said Borough and City; and Map and Profile of that part of the route of the branch line of said Railway Company within said county, extending from a point in 177th street, between Van Nest avenue and Berrian street in said Borough and City, to a point in Bronx Park avenue between Chanute avenue and Craighill avenue in said Borough and City. All as altered, changed, amended and adopted by affirmative vote of two-thirds of all the directors of the said Company on the 10th day of December, 1910. E. J. Langford, Chief Engineer, New York, Westchester and Boston Railway Company.

That subsequently thereto your petitioner applied to the Public Service Commission for the First District for leave to exercise its right to change its route within the said County in accordance with the map so adopted and that the said Public Service Commission for the First District, by an order dated April 25, 1911, approved and authorized the exercise of the right by your petitioner to make such alteration and change and to adopt such amended route.

That on May 1, 1911, your petitioner duly filed in the office of the County Clerk of New York County the said map and profile, together with a certified copy of the order of the Public Service Commission for the First District approving the said alteration and change. A copy of the said map is submitted herewith marked Exhibit A.

That your petitioner, by the contract dated January 29, 1909, was permitted to make a connection with the Interborough Rapid Transit route at or near West Farms road. That your petitioner, in order to improve such route, desires to charge the same as hereinafter set forth.

That it is the purpose and intention of your petitioner to construct north of Lebanon street and across Lebanon street and 180th street, Adams street and Berrian street, a central station for the accommodation of its trains and the trains running over the connection with the Interborough Rapid Transit Company in order to improve such route, and also allowing room enough for the introduction of the Broadway-Lexington avenue road in case it should be extended up to this point, together with the trains of your petitioner's Throgg's Neck Branch.

That the proposed plan will require the crossing of the streets named at a width in excess of 60 feet, which is the limitation imposed by the franchise in regard to the crossing of streets. That submitted herewith is a map marked Exhibit B, showing that portion of the amended route shown in Plan A between 177th street and Unionport road, and showing the proposed width of your petitioner's road across the streets between the said two points, and also showing a proposed amendment to the connection between your petitioner's railroad and the terminus of the Interborough Rapid Transit Company near 180th street.

Wherefore, your petitioner prays that your Honorable Board will amend the said ordinance granting a franchise to your petitioner adopted by the Board of Aldermen on July 26, 1904, approved by the Mayor August 2, 1904, as amended by the contract between your petitioner and The City of New York, dated January 29, 1909, in the following respects:

(1) The description of the route of your petitioner's railroad with reference to that part thereof extending from 174th street to Adams street, shall be as follows:

—and the description of the beginning of the branch line shall be as follows:

(2) That the connection with the present subway elevated route permitted by your Board in the said contract dated January 29, 1909, be amended so that the same shall read as follows: In connection with the Present Subway Elevated Route (Interborough Rapid Transit Company).

Beginning at a point on the main line of the New York, Westchester and Boston Railway Company at or near Adams street; thence running southwesterly crossing 180th street, between Morris Park avenue and Berrian street (or Bronx Park avenue); thence crossing Berrian street and Lebanon street at or near their intersection; thence crossing 179th street and Devoe avenue at or near their intersection; thence crossing Bronx street between Clover street and Walker avenue; and thence to a connection with the Interborough Rapid Transit Railroad on Boston road, between Clover street and Walker avenue.

(3) That subdivision Ninth of Section 2 of the ordinance adopted July 26, 1904, be amended so that the same shall read as follows:

"Ninth—Any superstructure of the railway crossing a street and having a length of 75 feet or less, shall be constructed in a single span. If more than 75 feet in length, any intermediate columns to support the superstructure may be placed in the street in such a manner as may be approved. And further provided that at 180th street, Adams street and Berrian street, platforms and a station may be constructed across the said streets within the width of the superstructure above designated."

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary workmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the De-

partment of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beams, holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioner of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a Department, chief of a Bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
