

CITY PLANNING COMMISSION

September 29, 2014/Calendar No. 12

N 140325 ZAQ

IN THE MATTER OF an application submitted by 2030 Astoria Developers, LLC for the grant of an authorization pursuant to Sections 62-822(a) of the Zoning Resolution to modify the location, area and minimum dimensions of waterfront public access areas and visual corridor requirements of Section 62-50 (General Requirements for Visual Corridors and Waterfront Public Access Areas) in connection with a proposed mixed use development on property generally bounded by a line 280 feet southeasterly of 3rd Street, the U.S. Pierhead and Bulkhead Line, 9th Street, and 27th Avenue (Block 906, Lots 1 and 5; Block 907, p/o Lots 1 and 8; Block 908, Lot 12; Block 909, Lot 35; portions of land underwater adjacent to Blocks 907 and 906) in R7-3/C2-4, R7A/C2-4, R6B and R6 Districts, within a large-scale general development, Borough of Queens, Community District 1.

WHEREAS, the City Planning Commission has received an application (N 140325 ZAQ) dated March 20, 2014 and revised on July 8, 2014, from 2030 Astoria Developers, LLC requesting an authorization pursuant to ZR 62-822(a) of the Zoning Resolution to modify requirements of Section 62-50 (General Requirements for Visual Corridors and Waterfront Public Access Areas) to facilitate the development of a mixed-use, large-scale general development located on property generally bounded by a line 280 feet southeasterly of 3rd Street, the U.S. Pierhead and Bulkhead Line, 9th Street, and 27th Avenue, in the proposed R7-3/C2-4, R7A/C2-4, R6B and R6 Districts, within a large-scale general development, Borough of Queens, Community District 1; and

WHEREAS, implementation of the proposed waterfront public access area component of the project also requires action by the City Planning Commission on the following actions which are considered concurrently with this application:

C 140322 ZMQ Amendment to the Zoning Map, Section No. 9a, changing from an M1-1 District to an R7-3 District with a C2-4 overlay; changing from an R6 District to an R7A District with a C2-4 overlay; and changing from an R6 District to an R6B District.

- N 140329(A) ZRQ Amendment of the Zoning Resolution of the City of New York, modifying Article II Chapter 3 and Appendix F, relating to Inclusionary Housing and modifying Article VII, Chapter 4, relating to a Large-Scale General Development.
- C 140323(A) ZSQ Special permit, pursuant to Section 74-743, to permit transfer of floor area between zoning lots, modify distance between buildings, modify yard, inner court and distance between windows or lot line requirements.
- C 140324(A) ZSQ Special permit, pursuant to Section 62-836, to permit bulk modifications within waterfront blocks.
- N 140326 ZAQ Authorization by the City Planning Commission, pursuant to Section 62-822(b), to permit design modifications for a waterfront public access area within a large-scale general development.
- N 140327 ZAQ Authorization by the City Planning Commission, pursuant to Section 62-822(c), to permit construction of a waterfront public access area in conjunction with the phased development of the buildings of the proposed large-scale general development.
- N 140328 ZCQ Chairman Certification pursuant to Section 62-811(b) that a site plan has been submitted showing compliance with the provisions of Section 62-50 and Section 62-60, as modified by the authorizations (N 140325 ZAQ, N 140326 ZAQ and N 140327 ZAQ), within a large-scale general development.
- C 130384 MMQ Amendment to the City Map to (a) establish 4th Street between 26th Avenue to the edge of the proposed waterfront esplanade and; (b) eliminate 8th Street from 27th Avenue to the U.S. Pierhead and Bulkhead Line.

WHEREAS, this application (N 140325 ZAQ), in conjunction with the applications for the related actions (C 140322 ZMQ, N 140329 (A) ZRQ, C 140323 (A) ZSQ, C 140324 (A) ZSQ, N 140326 ZAQ, N 140327 ZAQ, N 140328 ZCQ, C 130384 MMQ, C 140323 ZSQ, N 140329 ZSQ and C 140324 ZSQ), was reviewed pursuant to the New York State Environmental Quality Review Act (SEQRA), and the SEQRA regulations set forth in Volume 6 of the New York Code of Rules and Regulations, Section 617.00 et seq. and the City Environmental Quality Review (CEQR) Rules of Procedure of 1991 and Executive Order No. 91 of 1977. The designated CEQR number is 13DCP127Q. The lead is the City Planning Commission; and

WHEREAS, a summary of the environmental review and the Final Environmental Impact Statement appears in the report on the related application for a special permit (C 140323 (A) ZSQ); and

WHEREAS, the applications for the related actions (C 140322 ZMQ, C 140323 ZSQ, C 140324 ZSQ and C 130384 MMQ), were certified as complete by the Department of City Planning on April 21, 2014, and were duly referred to Community Board 1 and the Borough President, in accordance with Title 62 of the Rules of the City of New York, Section 2-02(b), along with this application (N 140325 ZAQ) and the related action non-ULURP action (N 140329 ZRQ, N 140326 ZAQ, N 140327 ZAQ, N 140328 ZCQ,) which were referred for information. On July 8, 2014, the modified applications (C 140323 (A) ZSQ, C 140324 (A) ZSQ and N 140329 (A) ZRQ), were referred to Community Board 1 and the Borough President pursuant to Section 2-06(c)(1) of the Uniform Land Use Review Procedure; and

WHEREAS, Community Board 1 held a public hearing on June 10, 2014 on this application (N 140325 ZAQ) and on June 17, 2014, by a vote of 44 to 0 with no abstentions, adopted a resolution recommending disapproval of the application with conditions. A summary of the recommendations of Community Board 1 appears in the report on the related application for a special permit (C 140323 (A) ZSQ); and

WHEREAS, this application (N 140325 ZAQ), in conjunction with the related actions, was considered by the Borough President, who issued a recommendation on July 30, 2014 disapproving the application. A summary of the recommendations of the Borough President appears in the report on the related application for a special permit (C 140323 (A) ZSQ); and

WHEREAS, this application (N 140325 ZAQ), in conjunction with the applications for the related actions, was reviewed by the Department of City Planning for consistency with the policies of the New York City Waterfront Revitalization Program (WRP), as amended, approved by the New York City Council on October 13, 1999 and by the New York State Department of State on May 22, 2002, pursuant to the New York State Waterfront Revitalization and Coastal Resources Act of 1981 (New York State Executive Law, Section 910 et seq.). The designated WRP number is 12-104; and

WHEREAS, this action was determined to be consistent with the policies of the New York City Waterfront Revitalization Program; and

WHEREAS, Astoria Cove, a proposed mixed-use development bounded by a line 280 feet southeasterly of 3rd Street, the U.S. Pierhead and Bulkhead Line, 9th Street, and 27th Avenue, in the proposed R7-3/C2-4, R7A/C2-4, R6B and R6 Districts, within a large-scale general development, within the Halletts Point peninsula, Borough of Queens, Community District 1; and

WHEREAS, the existing built conditions of the Halletts Point peninsula contain a mix of mostly single-story warehouses, public housing and light industrial uses with little or no direct pedestrian access to the waterfront, the proposed project would incorporate publicly accessible open space including a waterfront esplanade and upland connections on 4th Street and along 8th Street Mews, running the entire length of the site's crescent shaped waterfront; and

WHEREAS, the proposed waterfront esplanade would also include landscaping and seating along the waterfront, the upland connections are intended to provide view corridors and public access from 4th Street and 8th Street Mews to the esplanade; and

WHEREAS, the development of Astoria Cove and the waterfront esplanade requires compliance with the Zoning Resolution's waterfront zoning regulations regarding waterfront public access, which would, absent modification, require that 20 percent of the zoning lot's lot area be provided for waterfront public access. The zoning lot is comprised of 256,138 square feet and the applicant would therefore be required, absent modification to provide 51,228 square feet of lot area to meet the waterfront public access requirement, which would include the placement of a continuous shorefront public walkway; and

WHEREAS, the applicant is requesting a modification pursuant to Section 62-822(a) to modify the requirement for area and minimum dimensions of waterfront public access areas and shore public walkway requirements of Section 62-50; and

WHEREAS, the applicant requests a modification pursuant to Section 62-822(b) to modify the requirements regarding design requirements for circulation and access, number of plantings, location of bike parking racks, paving, design and feature seating and table amounts and trash receptacle locations in the waterfront public access areas; and

WHEREAS, the Astoria Cove esplanade, waterfront public access areas and supplemental public access areas have nearly 806 linear feet of seating; include approximately 16, 961 square feet of native maritime grassland and shrubland planted area; rain garden-planting mixes within the Mews; provides 60 bicycle parking spaces and 42 square feet of tables; and

WHEREAS, the commitment to provide and maintain the Astoria Cove esplanade would be memorialized through an Amended and Restated Restrictive Declaration and associated Maintenance and Operations Agreement, to be recorded against the entire Zoning Lot and executed by or consented to by "all parties in interest" to the Zoning Lot; and

WHEREAS, recognizing that the construction of Astoria Cove General Large Scale development and waterfront esplanade creates new and improved opportunities for public access to the waterfront, the 2030 Astoria Developers, LLC and DPR have agreed to enter into a Memorandum of Understanding (MOU) that provides a framework for public access to and use of this waterfront amenity area; and

WHEREAS, under the MOU, 2030 Astoria Developer, LLC and Department of Parks and Recreation (DPR) would enter into a license, maintenance and operation agreement that would improve the shoreline as open space pursuant to a plan approved by DPR in consultation with the Department of City Planning; and

WHEREAS, the MOU includes minimum standards for planting, seating and a circulation path that would allow the shoreline to function as a continuous public open space in combination with the proposed waterfront public access area for Astoria Cove and;

WHEREAS, the Commission believes that, based upon the foregoing, as considered at several Commission Review Sessions, the applications for the Astoria Cove Development should be approved insofar as the findings of Section 62-822(a) are met and the Astoria Cove Development would create significant new public access and new amenities on the East River/ Pot Cove waterfront. More particularly, the Commission believes that the open space includes exemplary design elements such as the bi-level esplanade that connects with the topography through native maritime grassland and shrubland, places to sit and picnic, active recreational children's playground, shade, and a close relationship to the water's edge especially through the design of the Get-Down; and

WHEREAS, the applicant also requests an authorization pursuant to ZR Section 62-822(b) to modify Section 62-50 (Design Requirements for Waterfront Public Access Areas). Such modifications are requested because certain amenities, such as circulation paths (at least 6-foot clear path is required, less than 6-foot is provided in some locations) are not possible given the geometry of the non-linear shoreline, which dictates the boundaries of the supplemental public

access areas. The requested design modifications enable Astoria Cove to feature ecologically friendly, aesthetically complementary design elements such as a the bi-level walkway which follows the natural topography without hindering the view to the water; planting and seating areas where patrons can enjoy the space and have unobstructed views of the water while getting as close to it as possible using the Get-Down stepped area. The modifications would thereby result in a design that, given the nature and purpose of the Astoria Cove proposal, would be superior to a design prescribed by strict adherence to otherwise applicable provisions; and therefore be it

RESOLVED, that the City Planning Commission, in its capacity as the City Coastal Commission, having reviewed the waterfront aspects of this action will not substantially hinder the achievement of any Waterfront Revitalization Program (WRP) policy and hereby determines that this proposed action is consistent with WRP policies; and be it further

RESOLVED, the City Planning Commission pursuant to Section 62-822(a) of the Zoning Resolution hereby determines that

- (1) The modifications of the location requirements of waterfront public access area and visual corridors are appropriate and makes the following findings:
 - (i) such waterfront public access area and visual corridors provided on the zoning lot comply with the required minimum dimensions; and
 - (ii) due to their alternative location and design, provide equivalent public use and enjoyment of the waterfront and views to the water from upland streets and other public areas; and

RESOLVED, that having considered the Final Environmental Impact Statement (FEIS), for which a Notice of Completion was issued on September 19, 2014, with respect to this application (CEQR No. 13DCP127Q), and the Technical Memorandum, dated September 26, 2014, (the “Technical Memorandum”), the City Planning Commission finds that the requirements of the

New York State Environmental Quality Review Act & regulations, have been met and that, consistent with social, economic, and other essential considerations:

1. From among the reasonable alternatives thereto, the Proposed Action, as modified with the modifications adopted herein and as analyzed in Chapter 25, “Potential Modifications to the Proposed Project,” of the FEIS and in the Technical Memorandum (the “Modified Proposed Action”) is one that avoids or minimizes adverse environmental impacts to the maximum extent practicable; and
2. The adverse environmental impacts of the Modified Proposed Action will be minimized or avoided to the maximum extent practicable by incorporating as conditions to the approval, pursuant to the Restrictive Declaration marked as Exhibit A hereto, subject to administrative and technical changes acceptable to Counsel to the Department, is executed by 2030 Astoria Developers, LLC or its successors, and such Restrictive Declaration shall have been recorded and filed in the Office of the Register of the City of New York, County of Queens.

This report of the City Planning Commission, together with the FEIS and the Technical Memorandum, constitutes the written statement of facts, and of social, economic and other factors and standards, that form the basis of the decision, pursuant to Section 617.11(d) of the SEQRA regulations; and be it further

RESOLVED, by the City Planning Commission, pursuant to Sections 197-c and 200 of the New York City Charter, that based on the environmental determination, and the consideration and findings described in this report, the application (N 140325 ZAQ) submitted by 2030 Astoria Developers, LLC for the grant of an authorization pursuant to Sections 62-822(a) of the Zoning Resolution to modify the location, area and minimum dimensions of waterfront public access areas and visual corridor requirements of Section 62-50 (General Requirements for Visual Corridors and Waterfront Public Access Areas) in connection with a proposed mixed use development on property generally bounded by a line 280 feet southeasterly of 3rd Street, the U.S. Pierhead and Bulkhead Line, 9th Street, and 27th Avenue (Block 906, Lots 1 and 5; Block

907, p/o Lots 1 and 8; Block 908, Lot 12; Block 909, Lot 35; portions of land underwater adjacent to Blocks 907 and 906) in R7-3/C2-4, R7A/C2-4, R6B and R6 Districts, within a large-scale general development, Borough of Queens, Community District 1, is approved to the following terms and conditions:

1. The property that is the subject of this application (N 140325 ZAQ) shall be developed in size and arrangement substantially in accordance with the dimensions, specifications and zoning computations indicated on the following plan, prepared by WORKSHOP: Ken Smith Landscape Architect, filed with this application and incorporated in this resolution:

2. Such development shall conform to all applicable provisions of the Zoning Resolution, except for the modifications specifically granted in this resolution and shown on the plans listed above which have been filed with this application. All zoning computations are subject to verification and approval by the New York City Department of Buildings.

3. Such development shall conform to all applicable laws and regulations relating to its construction, operation and maintenance.

4. Development pursuant to this resolution shall be allowed only after the attached Restrictive Declaration marked as Exhibit A, attached to the related report for special permit (C 140323 (A) ZSQ), subject to administrative and technical changes acceptable to Counsel to the Department, is executed by 2030 Astoria Developers, LLC or its successors, and such declaration shall have been recorded and filed in the Office of the Register of the City of New York, County of Queens.

5. Upon the failure of any party having any right, title or interest in the property that is the subject of this application, or the failure of any heir, successor, assign, or legal representative of such party, to observe any of the covenants, restrictions, agreements, terms or conditions of this resolution whose provisions shall constitute conditions of the special permit hereby granted, the City Planning Commission may, without the consent of any other party, revoke any portion of or all of said special permit. Such power of revocation shall be in addition to and not limited to any other powers of the City Planning Commission, or of any other agency of government, or any private person or entity. Any such failure as stated above, or any alteration in the development that is the subject of this application that departs from any of the conditions listed above, is grounds for the City Planning Commission or the City Council, as applicable, to disapprove any application for modification, cancellation or amendment of the authorization.

6. Neither the City of New York nor its employees or agents shall have any liability for money damages by reason of the city's or such employee's or agents failure to act in accordance with the provisions of this authorization.

The above resolution (N 140325 ZAQ), duly adopted by the City Planning Commission on September 29, 2014 (Calendar No. 12) is filed with the Office of the Speaker, City Council in accordance with Section 62-822(a) of the Zoning Resolution.

On June 10, 2014 CB1Q held a public hearing on the referenced Applications. Thirty-one of the 50 Community Board Members were present, constituting a quorum. Fifty-four persons signed up to speak, thirty-nine actually testified on concerns such as jobs, residential displacement, affordability of new apartments and transportation issues that would result from the construction of the Project.

At its regularly scheduled monthly meeting on June 17, 2014, the Board, on recommendation of the Zoning Committee, by a vote of 44 in favor, 0 opposed and 0 abstentions, denied approval of the ULURP applications unless the conditions and concerns discussed below are met.

PROJECT DESCRIPTION

The irregularly shaped 391,830 SF site is generally bounded by Pot Cove to the north, 9th Street to the east, 27th Avenue to the south and 4th Street to the west. The Project would consist of five (5) mixed-use buildings, ranging in height from 6 to 32 stories constructed as a Large-Scale General Development plan. Three (3) towers (Buildings 1, 2 and 3) would be located on the waterfront blocks along Pot Cove between 4th and 9th streets (Tax Block 906 Lots 1 and 5 and Tax Block 907 Tax Lots 1 and 8); two (2) buildings (Buildings 4 and 5) would be located on upland blocks, contiguous to unimproved 8th Street (Tax Block 908 Lot 12 and Tax Block 909 Lot 35).

The applicant proposes to construct a 1,729,748 SF mixed-use development with approximately 1,689 dwelling units (1,615,082 residential SF) of which 295 units would be affordable; 54,099 SF local retail space including a supermarket; 900 attended indoor accessory parking spaces located in four of the five proposed buildings on site and to convey a site within the Large Scale General Development area to the School Construction Authority (SCA) for a 60,567 SF K-5 elementary school with 456 seats. Also proposed is a 23,920 SF publicly accessible waterfront park and esplanade that would be a bi-level crescent that follows the natural curve of Pot Cove. It would contain overlooks, extensive plantings, passive and active recreational space and a playground. A pedestrian easement (the Mews) would be mapped to connect upland blocks to the waterfront esplanade. The Project would be built in four (4) phases with completion expected in 2023.

Phase 1: Buildings 4 and 5 on the upland blocks proposed to be zoned from R6 to R7A/C2-4 and R6B, located south of 26th Avenue abutting formerly mapped 8th Street. Combined, the two buildings would contain 132,410 residential SF with 72 dwelling units and 3,020 SF ground floor commercial space. Both buildings vary in height between six and eight stories with a maximum building height of 80 ft. Seventy-two (72) accessory, attended indoor parking spaces would be provided in Building 4. No parking would be provided in Building 5.

No affordable units are proposed for either building in Phase 1. The portion of the Mews between Buildings 4 and 5 would be constructed concurrently in Phase 1. A site (Block 908, Lot 12) along 26th Avenue at the corner of 9th Street, adjacent to Building 5 would be turned over to the City of New York but constructed by the SCA at the completion of Phase 4.

Phase 2: Building 3 is located in the proposed R7-3/C2-4 district on the waterfront block bounded by the Mews, the waterfront esplanade, 9th Street and 26th Avenue. It would contain 328,655 residential SF and provide 275 market rate dwelling units, 69 affordable units, 10,970 SF of ground floor commercial space and 230 accessory, attended indoor parking spaces. The building would have three sections with different heights: 26 stories (262') at the intersection of the esplanade with the Mews, eight stories (102') at the corner of 9th Street and the esplanade and six stories (82') along 26th Avenue between the Mews and 9th Street.

The section of the Waterfront Access Area and esplanade adjacent to Building 3 as well as 26th Avenue between 9th Street, the Mews and 9th Street near the waterfront would be constructed as part of Phase 2.

Phase 3: Building 2 is located in the proposed R7-3/C2-4 district on the waterfront block bounded by the Mews, the waterfront esplanade, 4th Street and 26th Avenue. It would contain 542,973 residential SF and provide 454 market rate dwelling units, 114 affordable units and 15,493 SF of ground floor commercial space that includes a supermarket. There would be 242 accessory, attended indoor parking spaces. The building would have three sections with different heights: 32 stories (320') at the intersection of the waterfront esplanade with the Mews, ten stories (100') along 4th Street between the esplanade and 26th Avenue with 12 stories (120') and eight stories (80') along 26th Avenue between 4th Street and the Mews.

The section of the Waterfront Access Area and esplanade adjacent to Building 2 as well as 4th Street between 26th Avenue and the esplanade would be constructed as part of Phase 3.

Phase 4: Building 1 is located in the proposed R7-3 district on the waterfront block west of 4th Street. The building would contain 611,045 residential SF and provide 527 market rate dwelling units, 112 affordable units, 24,616 SF of ground floor commercial space and 356 accessory, attended indoor parking spaces. Building heights vary: ten stories (102') and 29 stories (292') along the waterfront, ten stories (102') along the west side of the site from the waterfront to 26th Avenue and 22 stories (232') and eight stories (82') along 4th Street between the water and 26th Avenue.

The remaining sections of the Waterfront Access Area and esplanade adjacent to Building 1, as well as a playground, would be constructed as part of Phase 4. The SCA would construct the proposed 60,567 SF, K-5, 456-seat elementary school at the corner of 9th Street and 26th Avenue, after completion of Phase 4.

DESCRIPTION OF THE PROPOSED ULURP ACTIONS

In order to facilitate the development of the Astoria Cove Project, the following ULURP actions must be approved:

1. **C 140322 ZMQ Zoning Map Amendment to Zoning Map 9a**
 - a. rezone from M1-1 to R7-3/C2-4 a portion of the development site bounded by the waterfront, 9th Street, 26th Avenue and 4th Street;

- b. rezone from R6 to R7A /C2-4 a portion of the development site located south of 26th Avenue between 4th and 9th streets;
- c. rezone from R6 to R6B a portion of the development site south and west of the proposed R7A district between 4th and 9th streets;
- d. establish a C4-2 commercial overlay district over the entire R7-3 and R7A districts.

2. C 140323 ZSQ Large-Scale General Development Special Permits

The Large Scale General Development Special Permits facilitates construction of the proposed site plan as designed by allowing flexibility in placement of floor area and uses between the two zoning lots.

- a. ZR Section 74-743(a)(1) to allow for the distribution of floor area from the waterfront zoning lot to the upland zoning lot within the Large-Scale General Development;
- b. ZR Section 74-743(a)(2) to authorize reduction in the distance between Buildings 2 and 3, a waiver of court requirements for Buildings 1, 2 and 3;
- c. ZR Section 74-743(a)(6) to waive minimum distance between Building 5's windows and western lot line;
- d. ZR Section 11-42 (c) to extend the vesting term to 10 years for the special permits;

3. C 140324 ZSQ Waterfront Special Permit

The Applicant requests a Special Permit to accommodate the design of the proposed Project within the existing geography and topography of the site.

- a. ZR Section 62-836 requesting modifications to yard, height and setback, tower footprint size and maximum width of walls facing the shoreline that will increase the size and height of the buildings beyond what zoning permits as of right;

4. C130284 MMQ City Map Amendments

The Applicant proposes City Map Amendments to maximize access to the proposed waterfront esplanade.

- a. to establish a new segment of 4th Street from 26th Avenue to the waterfront;
- b. to demap a portion of 8th Street from 27th Avenue to the waterfront;
- c. to establish a public access easement within the public access area between 4th and 9th Sts.

5. N 140325 ZAQ Authorization

The Applicant requests an Authorization to widen the width to depth ratio requirement to accommodate active uses along the esplanade and to allow a narrower ratio to reflect the shoreline's natural topography.

- a. ZR Section 62-822(a) to modify the area and minimum dimensions of waterfront public access areas and visual corridor requirements specified in Section 62-50;

6. N140326 ZAQ Authorization

The Applicant requests additional waivers to accommodate design and topographical issues.

- a. ZR Section 62-822(b) to modify design requirements for the Waterfront Public Access Areas specified in Section 62-60;

7. N 140327 ZAQ Authorization

- a. ZR Section 62-822(c) to permit phased development of the Waterfront Public Access Areas;

8. N 140328 ZCQ Chairperson Certification

No permits may be issued until a site plan is certified as complying with Sections of the Zoning Resolution that pertain to visual corridors and waterfront public access area requirements and a restrictive declaration is executed and filed.

- a. ZR Section 62-811 certification of waterfront public access areas and visual corridors as modified by above referenced Authorizations;

9. N 140329 ZRQ Zoning Text Amendment

The applicant requests that a portion of the Development Site between 26th Avenue and the waterfront be an Inclusionary Housing Designated Area;

- a. ZR Section 23-952 and Appendix F to make the Inclusionary Housing Program applicable to a portion of the project area zoned R7-3;

CB1Q Comments and Conditions**Affordable Units**

The Astoria Cove Project is proposed to be located in an area where affordable housing is critical to a good quality of life for many of the area's residents. Public hearing testimony reflected residents' displacement concerns because of accelerated redevelopment and gentrification in Old Astoria.

Displacement of existing tenants in the area's privately held buildings is a very real issue because of the quick succession of new and proposed development projects in Pot Cove. During the next ten years the community will deal with physical and socio-economic impacts from the Hallett's Point project approved last October (2,644 units), the Astoria Cove Project currently under review (1,689 units) and a third large-scale development adjacent to Astoria Cove, number of units unknown at present, that is anticipated for review by the Community Board next year. Allowing 1,689 new dwelling units in the neighborhood with only 295 or 17% of the units designated affordable under the Inclusionary Housing Program is distressingly inadequate to mitigate the socio-economic impacts of the project. More important is the absence of a real public benefit to the community, besides a landscaped Mews, in the early phasing of the Project. No affordable units are planned in Phase 1. Provision must be made within this and future projects for an economically diverse population that reflects Astoria's population.

The Applicant informed the Zoning Committee and stated at the public hearing that discussions are underway with the Department of City Planning to increase the number of affordable units in Astoria Cove, but did not provide a new number of units. Additionally, because the Project design is in its massing stage, apartment distribution was not defined and it has not yet been determined whether the Project will be rental or condominium or a combination.

- 1) The total percentage of affordable units in this development should be increased from 20% to 35% of the bonus floor area.
- 2) The affordable units should accommodate low, moderate and middle-income individuals and families.
- 3) The affordable units must be permanently affordable throughout the life of the Project.
- 4) Affordable units must be located in all five buildings in the Project.
- 5) The Zoning Text Amendment (N 140329 ZRQ) that designates Inclusionary Housing Program areas must be amended to include the entire Astoria Cove Site to allow affordable units in all five proposed buildings.
- 6) Affordable units should be provided in each construction phase, including Phase 1 where the number of affordable units should equal 15% of the residential floor area of those buildings.
- 7) Residents of the affordable units must have access to the same building amenities as residents of market rate units.
- 8) The owner/management of Astoria Cove should work with local community groups and Community Board 1 to provide CB1,Q residents selection priority in 50% of the designated affordable units;
- 9) All affordable units generated by this project should be located within the Astoria Cove project buildings and not constructed outside the defined General Large Scale Development area identified in these ULURP applications;
- 10) If buildings are designated for condominium status, affordable units should be reserved for sale to middle-income residents.

Project Design and Sustainability

Comments on the design of the Project are limited since the proposed buildings are now only a series of conceptual massings.

Project Design

- 1) Quality Housing Program design requirements should apply to all buildings in the Project regardless of applicable zoning district;
- 2) Both market-rate and affordable 2-bedroom apartments should be included in all buildings to accommodate family households;
- 3) The applicant should meet at regular intervals with the CB1 Zoning Committee to present the project's building designs as they progress. The applicant should also present the final designs to the Community Board for information purposes before filing with DOB for building permits;
- 4) CB1 should review and comment on any changes to the General Large Scale Development Plan, including minor modifications;
- 5) No on-street parking should be permitted on the narrow vehicular roadway adjacent to the waterfront esplanade between 4th and 9th Streets in order to keep all waterfront views towards the Hellsgate and Triborough Bridges unobstructed for pedestrians.

Sustainability

- 1) Mindful of the impact a project of this magnitude can have on the environment, the Astoria Cove development team should strive to exceed LEED gold standards by incorporating

innovative sustainable techniques into the design of all buildings.

- 2) Design elements that increase energy efficiency and reduce the project's carbon footprint should be incorporated into the design of the buildings and open spaces throughout the development.
- 3) Measures should be taken to protect building mechanicals and fuel storage from storm surges and flood risks.

Parking/Traffic/Transportation

The geography of the peninsula is very often referred to as isolated and contained. It has an extremely limited street infrastructure and mass transit which is limited to bus service or the elevated subway located beyond walking distance. As a result, CB1Q is concerned that the Project will adversely affect traffic circulation on the peninsula and in Old Astoria and that proposed parking is insufficient to meet the anticipated demand of the residential and commercial uses as well as visitors to the area's waterfront activities.

The Applicant's proposal for shuttle buses to the elevated subway is limited to new residents and will exacerbate traffic congestion on the area's strained street system. All proposed accessory parking would be attended or valet parking and is not allocated for commercial or residential uses; on-street parking is negligible due to the existing limited street system. CB1Q is concerned that the attended parking approach is not a workable solution to what will be a significant adverse impact to the community both in practicality and cost to new residents and those who visit the area for its proposed amenities.

With more than 4,000 new apartments approved or in the pipeline for the Halletts Cove peninsula during the next decade with approximately 8,900 new residents, other alternative modes of transportation such as ferry service must be put into operation in the early stages of the area's redevelopment.

Parking

- 1) The number of on-site parking spaces should be increased to at least 1.5 spaces per dwelling unit, similar to adjacent Shore Towers, to adequately serve all uses in the Project;
- 2) Accessory parking spaces should be dedicated specifically for the residential, commercial and retail, components of the Project;
- 3) One-third of the accessory parking spaces should be allocated as self-park spaces for visitors/shoppers to the project area;
- 4) Accessory parking should be provided for the community facility and school components of the Project when designed and constructed;
- 5) With the designation by NYCEDC of Pot Cove as a future Ferry Terminal, Special Permit, applications should be filed for additional parking that will be required for this use.

Traffic

- 1) The developer and DOT should evaluate traffic circulation and parking impacts during construction and after completion of each construction phase and mitigate any impacts;

- 2) **Building materials and supplies should be barged into the site in order to minimize impacts from construction traffic on the local streets.**

Transportation

- 1) **The applicant should work with Lincoln Equities, developers of the nearby Halletts Point project, and NYCEDC to establish ferry service between Pot Cove and Manhattan so that it would be operational by the time the developments are occupied.**
- 2) **An evacuation route must be established for the Halletts Cove peninsula with designated routes and signage that identifies staging and destination areas.**

Open Space/Recreational Needs

In the Halletts Cove community approximately 25% of the population is comprised of children and teenagers who need active recreational facilities. While the open space needs of the area's residents are served by Astoria Park and facilities under the Triborough Bridge, these facilities are already highly utilized, in need of maintenance and improvements and have limited hours of operation. In addition to the open, mostly passive recreational areas currently proposed by the Applicant at the end of the construction phases, the need for new recreational facilities for the current and future residents in the Halletts Cove area is an absolute necessity and should be realized in the early phases of the Project.

Waterfront Public Access Area

- 1) **Portions of the waterfront esplanade (i.e. the proposed 9th Street turn-around with access to the waterfront) should be constructed in Phase 1 to benefit the existing community.**

Play Area

1. **The Applicant and Department of Parks and Recreation should consult with CB1 before determining any receiving sites for improvements or monetary contributions as part of the Project's mitigation of open space impacts;**
2. **The play area proposed in the Waterfront Public Access Area should be relocated to a more central and accessible site and should be of sufficient size to meet the recreational needs of a wide range of age groups with age-appropriate equipment;**
3. **All open spaces shall have adequate lighting, security gates and be accessible to the public for a sufficient number of hours every day;**
4. **Responsibility for construction and maintenance costs for all open spaces must be identified and memorialized.**

Community Facilities

With three fully utilized Head Start programs in the Halletts Cove area, the program will require additional space for new residents from the Astoria Cove development. Additional enclosed recreational facilities are needed to accommodate current and future residents.

Youth Center

- 1) **The applicant should set aside a portion of the Project's designated commercial space to be occupied by early childhood programs.**

- 2) **CB1Q supports construction of a new recreational facility such as a YMCA or Boys and Girls Club for the area's older youth and adults and open to the public.**

Medical

- 1) **There is a critical deficiency of medical facilities in the project area. CB1Q encourages the Applicant to actively seek a hospital user such as Mt. Sinai or NY Hospital Queens to establish a satellite medical facility within the project's commercial square footage.**

School

School utilization rates in the immediate vicinity of the Project will exceed capacity with construction of Astoria Cove. Just beyond the impact area of this Project, schools are already operating above 100% utilization. In a Memorandum of Understanding dated April 17, 2014 between the developer and the SCA, successful conveyance of the site depends on i) the SCA exercising its option to construct the school; ii) the inclusion of development funds in SCA's Five Year Capital Plan and/or iii) SCA's timely response to the option to purchase the site for \$1.00. CB1 believes that no option to relieve developers of mitigating school impacts should be a part of approving this or future developments. To serve the existing and future community in Halletts Cove and to relieve overcrowding in the western part of School District 30, the school must be constructed.

- 1) **CB1Q adamantly insists that the construction of the school is mandatory as part of this Project;**
- 2) **The proposed school facility should be constructed early in the construction phasing to avoid overutilization of the area's local schools;**
- 3) **Prior to construction of the school, the proposed school site should be temporarily used for community recreational purposes;**
- 4) **The new school facility should include designated for recreational purposes that would be open to all community residents;**
- 5) **The school facility should be designed to incorporate programmatic space for early childhood programs like Head Start;**
- 6) **The Restrictive Declaration for this Project should not permit the designated school site to revert to the Applicant for residential or commercial development in the future.**

Commercial/Retail

With 84,470 SF of commercial and retail space proposed, concerns are raised about the potential traffic and noise impacts generated by sanitation trucks and vehicles servicing the commercial uses for deliveries.

- 1) **A FRESH Food Supermarket with designated accessory parking shall be part of the commercial component of the Project;**
- 2) **Internal loading and service areas should be incorporated into the Project design to avoid on-street traffic disruptions and congestion.;**
- 3) **Internal loading and service areas should be sufficient to meet the needs of all commercial uses.**

Jobs

Jobs for local residents and youth are of paramount importance in the community. The census tracts in the Old Astoria area currently have an estimated 10% unemployment rate among the area's civilian labor force. The proposed Astoria Cove development will generate job opportunities during all phases of construction and after project completion when the commercial and residential components are operational.

- 1) Priority should be given to local area residents and youth for a portion of construction jobs, as well as positions in local businesses, maintenance and security jobs in the new residential buildings once they are on line.**
- 2) The developer should work with construction and building service trades to set aside apprenticeship positions for local residents that will ultimately lead to permanent employment.**

Infrastructure Capacity/Energy Consumption

Much attention has recently been focused on the potential danger of the City's aged infrastructure and the accidents that can result with the underground gas and electric lines and storm and sanitary pipes. Con Edison recently began a program to assess the safety of its lines, especially in high-density residential areas. With power fluctuations are already a common occurrence in the adjacent Old Astoria area, the increased population resulting from both the Astoria Cove and Halletts Point projects will stress the area's aged infrastructure and could create unsafe conditions.

- 1) The applicant should initiate contact with Con Edison (gas and electricity) and NYCDEP (storm and sanitary sewers, outfalls) to assess the condition and capability of the area's infrastructure to handle the increased traffic and energy consumption needs.**
- 2) The project should incorporate systems that are energy efficient into the design of the heating, ventilating and cooling systems in the project design.**

Queens Borough President Recommendation

APPLICATION: ULURP #140325 ZAQ

COMMUNITY BOARD: Q01

DOCKET DESCRIPTION

IN THE MATTER OF an application submitted by 2030 Astoria Developers, LLC, pursuant to Section 62-822(a) of the NYC Zoning Resolution, to modify the area and minimum dimensions of waterfront public access areas and visual corridors specified in Section 62-50 in connection to a proposed mixed use development on property generally bounded by a line 280 feet southeasterly of 3rd Street, the U.S. Pierhead and Bulkhead Line, 9th Street, and 27th Avenue (Block 906, Lots 1 and 5; Block 907 p/o Lots 1 and 8; Block 908, Lot 12; Block 909, Lot 35: portions of land underwater adjacent to Block 907 and 906) in R7-3/C2-4*, R7A/C2-4*, R6B* and R6 districts, within a large scale general development, Borough of Queens, Community District 1.

*Note: This site is proposed to be rezoned by changing M1-1 and R6 Districts to R7-3/C2-4, R7A/C2-4, and R6B Districts under a concurrent related application (140322 ZMQ).

(Related applications: ULURP nos. 130284 MMQ, 140322 ZMQ, 140323 ZSQ, 140324 ZSQ, 140326 ZAQ, 140327 ZAQ, 140328 ZCQ, 140329 ZRQ)

PUBLIC HEARING

A Public Hearing was held in the Borough President's Conference Room at 120-55 Queens Boulevard on Thursday, July 17, 2014, at 10:30 A.M. pursuant to Section 82(5) of the New York City Charter and was duly advertised in the manner specified in Section 197-c (i) of the New York City Charter. The applicant made a presentation. There were eleven (11) speakers in favor with eleven (11) against. The hearing was closed.

CONSIDERATION

Subsequent to a review of the application and consideration of testimony received at the public hearing, the following issues and impacts have been identified:

- o The applicant is applying for authorizations to allow development of a General Large Scale Development with modifications of the required area and dimensions of waterfront public access areas and visual corridors. This application is concurrently under review with eight (8) other applications that would facilitate the Astoria Cove Project;
- o The applicant is proposing to build a 1.762 million square feet project that will include 1723 dwelling units of which 345 units (20% of residential units) will be mandatory affordable housing per the Inclusionary Housing Program. This project would be the first large residential development project to require mandatory affordable housing and is expected to be prototypical in developing the city's affordable housing policy. All parties involved have worked very hard in shaping this requirement;
- o Also, included in the project are 54,099 sf of retail space that will feature a 25,000 sf supermarket, a site designated for a 60,657 sf, 456 seat Pre-K to 5 elementary school, a waterfront esplanade, and offstreet accessory parking for 900 vehicles distributed throughout the project;
- o The proposed project is expected to generate hundreds of jobs during construction and hundreds of jobs post construction in building maintenance/operations and retail/commercial jobs when completed. The jobs and economic activity generated by this project have the capacity to benefit Queens and New York City;
- o The 8.8 acre site is zoned M1-1 and is currently developed with industrial buildings and open lots used for storage and other industrial businesses. The surrounding area is developed with a mix of industrial and residential uses. The major east to west thoroughfares in this area are 27th Avenue and Astoria Boulevard. There are other mapped streets in the area that however are not improved or in use which severely limits access into the peninsula;
- o Community Board 1 (CB 1) disapproved this application with conditions by a vote of forty-four (44) against with none (0) opposed or abstaining at a public hearing held on June 17, 2014. CB 1's conditions are summarized as follows:

- Affordable Units should be permanently affordable and the percentage of such units should be increased to 35% for low, moderate and middle income individuals/families and distributed
 - through each phase and located solely within the project area defined by the General Large Scale Development. CB 1 residents should be given preference to 50% of the affordable units and have equal access to any amenities available to the market rate residents;
 - Project Design should use Quality Housing Program requirements. The market rate and affordable housing should include 2-bedroom units to accommodate family households. No on-street parking should be allowed along the waterfront esplanade to maintain all shorefront views. The project should strive to exceed LEED Gold standards by incorporating innovative sustainable elements into the project. Building mechanicals and fuel storage should be protected from storm surges and flood risks;
 - Parking spaces should be increased to 1.5 spaces per dwelling units, with dedicated spaces allotted by use, one-third of all of these spaces should be designated as self-park for visitors or shoppers, accessory parking should be provided for community facility space; parking should be provided if a Ferry Terminal is designated for Pot Cove;
 - the NYC Department of Transportation and the developer should monitor traffic circulation and parking impacts through construction and completion of all phases of the project and mitigate any impacts that may arise; building materials should be barged in to minimize traffic impacts on local streets; the developer should work to establish ferry service for the area, an Emergency Evacuation Route should be designated and signs erected to delineate staging and destination areas;
 - a portion of the proposed waterfront esplanade should be built in Phase I to provide a Waterfront Public Access Area for the existing community;
 - CB 1 should be consulted by the developer and the NYC Department of Parks regarding any proposed mitigations or receiving sites for the project's open space impacts, a proposed play area should be relocated to a more central and accessible spot and equipped with age appropriate equipment to meet the recreational needs of a wide range of age groups, all open spaces are to be provided with adequate lighting, security gates and kept open to the public, responsibility for construction and maintenance for all open spaces must be identified and memorialized;
 - a Youth Center should be located into a portion of the proposed commercial space for early childhood programs, a new recreational center such as a YMCA or Boys and Girls Club should be built to accommodate the area's older youth and adults;
 - a satellite medical facility operated by a hospital should be located within the proposed commercial space;
 - construction of the school should be mandatory in an early phase, prior to construction the school site should be used as a community recreational space for use by all ages, the school should be built to accommodate early childhood programs such as Head Start;
 - a FRESH Food Supermarket with dedicated parking should be part of the proposed commercial space, internal loading and service areas should be designed into the buildings, such loading and service space should sufficient to meet all commercial needs;
 - Job opportunities ranging from construction to maintenance, retail and security positions should be made available for local residents during and after construction, the developer should work with the construction and building service trades to provide apprenticeship positions leading to permanent employment;
 - the developer should contact the utility and infrastructure agencies to assure adequate service to support the projects needs, the project should use systems that are most energy efficient for the design of the buildings heating, ventilating and cooling systems;
- o Petitions were received at the Borough President's public hearing for and against the project. Speakers in favor of the project testified that the project would transform an underutilized waterfront manufacturing site into a more vibrant residential and commercial neighborhood, the project will generate jobs and services. Among the concerns raised by speakers at the hearing who were against the project were increased traffic and congestion, cost and lack of enough affordable housing, lack of accessible open space, concerns about the developer's past labor practices on job sites and that the construction and permanent jobs would not be well-paying with benefits, location of site within flood zone, hazardous materials on the site are not being properly processed;
 - o The applicant testified that there would be revised applications submitted to increase the proposed number of affordable housing and to make the affordable housing mandatory to development with restrictions based upon the use of public subsidies to generate the affordable housing;

RECOMMENDATION

The Mayor, the Departments of City Planning and Housing Preservation and Development are effectively striving to shape and implement regulations that will result in the generation and preservation of enough affordable housing meet to meet the citywide goal of 200,000 affordable units. This is a very complex issue with many facets that must be identified, weighed and carefully reviewed. I note that the mandatory affordable housing of 20% without subsidy proposed by the City for this project is the first of projects to follow this policy. It is a critical first step towards the goal of creating and preserving 200,000 of affordable housing. The efforts of the Mayor and all agencies are greatly appreciated.

However, although the policy has great merit, because of the above consideration, I hereby recommend disapproval of this and the associated applications for the Astoria Cove Project for the following reasons:

- **Community Concerns:** The proposed redevelopment of the Astoria Cove site would revitalize an otherwise underutilized Queens waterfront. In addition to revitalization of the waterfront, the project proposes new housing as well as mandatory affordable housing for the first time, a school, a supermarket, services and retail opportunities, as well as jobs during construction and after in the stores and maintenance and operation of the buildings. However, in bringing hundreds of new residents into Astoria, the needs and concerns of the current existing residents, in particular the citywide shortage of much needed affordable housing, and the overall wellbeing of the borough and New York City must also be addressed. At this time there are still outstanding issues with this project which must be meaningfully addressed by whichever entity implements and constructs this proposed project in the future;
- **Traffic Impacts:** The Draft Environmental Impact Statement has analyzed thirty (30) intersections in and around the proposed project. Analysis shows that fifteen (15) traffic impacted intersections along 27th Avenue, Astoria Boulevard, Vernon Boulevard, Hoyt Avenue and 30th Avenue would remain either Unmitigated or Partially Mitigated after possible mitigation measures are implemented. These intersections are impacted during the AM and PM peak hours. Traffic impacts would be particularly hard felt by the existing and new community because the project site is located at the northern portion of a peninsula that is serviced by a very limited street network for the entire area;
- **Insufficient Mass Transit:** Mass transit service for this area is already overburdened. Area residents report that the nearest subway station is operating above capacity. Potential measures to relieve the crowding at this station include added shuttle service to other stations, adding capacity or widening of the stairs, or adding more turnstiles. It is also reported by area residents that the existing bus service does not run frequently enough to meet current transportation needs. More frequent and additional bus service is needed for this area especially as there is new large scale development. As of this date there have been no commitments or funding made available to implement any of these measures;
- **Ferry Service:** In addition to bus and subway service, alternatives services such as ferries must be considered to relieve the already congested roadway network. This is a waterfront site in an area with limited options in terms of providing additional roadways or other means of access. Therefore, ferries are an alternative transportation mode that would provide more service without further taxing the street network. New ferry service to Astoria could be part of a new commuter option with landings to service other New York City waterfront neighborhoods.
- **More Affordable Housing:** The proposed mandatory affordable housing for this project would be capped at 20% of residential development per the proposed zoning text amendment. However, even at the proposed levels of affordable housing within the AMI bands, there is still a severe shortage of housing within reach of many lower to middle income households throughout New York City. The projected rents for the proposed affordable housing would still be higher than what current local Astoria residents, who will bear the brunt of the impacts of the proposed project, could afford to pay. The lack of affordable housing has a wide ranging impact as evidenced by the number of families and individuals forced into homelessness and the longer term effect of pricing long-time residents out of gentrifying neighborhoods. The project proposes 1723 total units. There should be a larger percentage of affordable units provided to help meet the need for such housing in this area. CB 1 recommended that there should be 35% affordable housing units;
- **School Construction in the earliest phase:** The proposed school should be constructed in the earliest phase to meet the existing need for more seats in School District 30 Sub-district 3. The proposed school is scheduled to be built in the last phase of this project. The most recent analysis shows that some schools in the district are operating above capacity while the others are operating at high occupancy rates. The school should be built sooner to proactively assure that there are enough seats to meet current and future needs;
- **Area Supermarket:** The applicant has proposed a supermarket within the project. There must be assurances that the proposed supermarket will be first and foremost a food market that will provide the area with the highest quality fresh food, produce and prepared foods. There is a great need for such a supermarket because there are very few in the area. In addition to providing quality food to the neighborhood, the supermarket operator should also be willing to hire from the immediate area, pay a living wage with benefits and provide career path training for its workers;

- **Skilled Labor:** The proposed 1.762 million square feet project will only succeed if it is built by the most skilled and professional workers to assure the quality, durability and safety of the construction. The developer of this site must work with the construction and service workers to provide prevailing wages for development and living wages for the permanent workers. There must be a requirement that all required safety equipment, standards and practices are utilized on the worksite, and that benefits for the workers are provided. There should also be provisions for onsite training and apprenticeships for local area residents that will provide practical work experience and lead to careers which provide a middle class income.

PRESIDENT, BOROUGH OF QUEENS
