DEPARTMENT OF HEALTH.

Report for Week Ending June 20, 1914.

WATCHING THE HEALTH DEPARTMENT AT WORK.

Not so many years ago it was believed that the proper functions of a health department were limited to the registration and tabulation of certain vital statistics, to the abolition of nuisances, the inspection of premises in order to discover damp cellars, leaking cesspools, foul drains, etc., and to matter relating to the spread of the more readily communicable diseases, such as smallpox, diphtheria and scarlet fever. In accordance with this conception, the Department of Health of this City was organized into two bureaus, the Bureau of Records, and the Sanitary Bureau. Contrast all this with the modern conception of the duties of health authorities: Diagnostic laboratory work, production and distribution of antitoxic sera and vaccines, performance of intubation, home supervision of tuberculosis, hospital and sanatorium treatment of tuberculosis, school medical inspection, intensive work in infant hygiene, supervision of midwives, control of the milk supply, bacteriological research, and organized public health education! In order to give an instructive outline of modern public health work, we present in the following pages, a resume of a single week's activities in the nine bureaus of the Department of Health of The City of New York:

BUREAU OF GENERAL ADMINISTRATION.

The Bureau of General Administration is concerned chiefly in keeping and authenticating the acts, records, papers and proceedings of the Department of Health; preserving the books and papers of the Department of Health and conducting its correspondence.

The Staff consists of: 1 Director, who is also Secretary of the Board of Health; 1 Chief Clerk, 1 Law Clerk, 1 Auditor, 5 Assistant Chief Clerks, 1 Clerk in charge of the purchase and inspection of supplies, 1 Clerk in charge of the sale of laboratory products, 1 Clerk in charge of Board papers, 1 Inspector in charge of construction and repairs, 1 Clerk in charge of stationery and printing, 1 Clerk in charge of the library and file and 167 other employees.

The following paragraphs show the varied activities of this Bureau, and will give some idea of the work performed:

During the week ending June 6th, 2,212 complaints were received. Out of this number, after investigation by Inspectors, 806 demanded the issuance of Board Notices; 433 showed no cause for action; 62 were abated by personal effort; 258 were referred to other City Departments; 49 demanded new service of orders, and the remaining 604 were complied with.

The Sanitary Code requires that certain industries be conducted under permits granted by the Board; the same applies to the keeping of animals, poultry, etc. The following list shows the number of permits granted, denied and revoked during the week ending June 6, 1914:

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore in such a manner as not to cause any damage to the pipes lying in the area to be filled in.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, after which not less than 100 cubic yards per day shall be placed, and the whole amount of the filling called for to bring the above described basin up to grade shall be completed within twenty-nine days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against him and forfeit the money paid for the privilege.

The purchaser shall during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same.

The purchaser shall provide all plank and other appliances and all necessary labor, and shall at all times keep the dump graded to the satisfaction of the Engineer.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money in the full amount of the bid price.

The purchaser agrees that he will comply with the provisions of the Labor Law. He further agrees that no laborer, workman or mechanic in the employ of the contractor, sub-contractor or other person doing or contracting to do the whole or a part of the work contemplated by the contract shall be permitted or required to work more than eight hours in any one calendar day except as in cases of extraordinary emergency caused by fire, flood or danger to life and property.

That the wages to be paid for a legal day's work to all classes of such laborers, workmen or mechanics upon public work or upon any material to be used thereon shall not be less than the prevailing rate for a day's work in the same trade or occupation in the locality where such public work is being constructed. Each such laborer, workman or mechanic shall receive the prevailing rate of wages. This contract shall be void and of no effect unless the person or corporation making or performing the same shall comply with the provisions of Sections 3 and 14 of the Labor Law.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the grantees.

First—The said right to construct, maintain and operate said transmission line shall be held and enjoyed by the grantees from the date upon which this contract is signed by the Mayor until January 1, 1938, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the grantees shall determine to exercise the privilege of renewal they shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the grantees and the Board.

If the grantees and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the grantees shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the grantees; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the grantees and their officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual compensation shall, in any event, be less than that required for the last year of the original term of this contract. If in any case the annual compensation shall not be fixed prior to the termination of the original term of this contract, then the annual compensation theretofore prevailing shall continue until the new rate shall be determined, and the grantees shall then make up to the City the amount of any excess of the annual compensation then determined over the previous annual compensation. The compensation and expenses of the said appraisers shall be borne jointly by the City and the grantees, each paying one-half thereof.

Second—As compensation for the privilege hereby granted the grantees jointly and severally agree to install equipment and furnish electrical current to the City without charge to it, as follows:

(a) Install, reserve and maintain for the exclusive use of the City, as an integral part of the generating and distributing systems of the grantees, generating machinery, sub-station apparatus, cables, switches and controlling apparatus up to the switchboards in the structures of the drainage chambers now or to be hereafter provided by the Board of Water Supply of the City for the unwatering of the pressure tunnels of the Catskill Aqueduct; said drainage chambers situated or to be situated

- (1) At or near Croton Lake at the shaft known as the Croton Lake Drainage Shaft;
- (2) At or near the intersection of Clinton and South Streets at the shaft known as No. 21 of the City Aqueduct; and
- (3) In Morningside Park between West 120th and West 121st Streets, if the same were extended, at the shaft known as No. 11 of the City Aqueduct,

—sufficient in capacity to deliver 850 kilowatts of three-phase alternating current having a frequency of sixty (60) cycles per second at a pressure of 2200 volts at each of the shafts Nos. 11 and 21 and 850 kilowatts of three-phase alternating current having a frequency of sixty (60) cycles per second at a pressure of 40,000 volts at the Croton Lake Drainage Shaft.

(b) Furnish when called upon by the Board of Water Supply or its authorized representatives electrical energy up to the capacity of 850 kilowatts of three-phase alternating current having a frequency of sixty (60) cycles per second at a pressure of 2200 volts at each of the shafts Nos. 11 and 21 and up to the capacity of 850 kilowatts of three-phase alternating current having a frequency of sixty (60) cycles per second at a pressure of 40,000 volts at the Croton Lake Drainage Shaft.

(c) Install and maintain for the use of the City wires, cables or other conductors and controlling apparatus up to the switchboards in the buildings or other structures owned by the City and used in the operation of the Catskill Aqueduct; that is to say, gate-houses, offices, bridges and all other buildings and chambers used in the operation and maintenance of the aqueduct and aqueduct lands of the city which may be situated north of Battery Park in the Borough of Manhattan and south of the boundary line between the Counties of Westchester and Putnam.

(d) Furnish whenever required two-phase or three-phase alternating current having a fre-

quency of sixty (60) cycles per second, at a pressure of 110 or more volts, sufficient for operating all motors and other apparatus as may be required for the maintenance and operation of the aqueduct.

(e) Furnish whenever required single-phase alternating current having a frequency of sixty (60) cycles per second, at a pressure of 110 or more volts, or direct current at a pressure of 120 or more volts, sufficient for lighting all said buildings, bridges and grounds as may be necessary, and for any and all other purposes as may be required in connection with the maintenance and operation of the aqueduct and appurtenant works and structures.

Any and all payments to be made or service to be rendered by the terms of this contract to the City by the grantees shall not be considered in any manner in the nature of a tax, but such payments shall be made and such service rendered in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, to operate upon a route upon all or any part of lands acquired for aqueduct purposes.

Fourth—The service hereby required to be rendered as payment for the rights hereby granted shall continue throughout the whole term of this contract (whether original or renewal), and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to service to be rendered as payment for the rights hereby granted, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fifth—The consent hereby granted shall not be assigned, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the acts of any of the grantees, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Sixth—Should the grantees at any time fail to supply the service herein required as payment for the privilege herein granted in an efficient manner satisfactory to the Board of Water Supply, then the right herein granted shall cease and determine, and all sums paid or deposited with the City shall be and become the property of the City.

Seventh—It is understood by the parties hereto that the right herein granted is subject to any and every limitation imposed by law upon the use of the aqueduct lands outside of the present limits of the City or by any and every condition upon which such lands were purchased or acquired. It is understood also that no rights of any kind whatsoever are herein granted to or in any of the aqueduct lands lying within the present limits of the City.

Eighth—The transmission line hereby authorized shall be used only for the transmission of electrical current to and within the Counties of Westchester and Putnam of the State of New York, and shall not be used as a portion of or in connection with a transmission line extending into any other portion of the State of New York nor into any portion of any other state; provided that the Board may by resolution authorize the use of such transmission line for the transmission of electrical current from, to and within districts outside of said Counties of Westchester and Putnam, but the Board may, upon the adoption of such resolution, require such compensation for the additional right and prescribe such terms and conditions to govern the same as in its discretion it may deem proper.

Ninth—The grantees shall immediately begin the construction of ducts, conduits, poles and towers and the installation therein or thereon of wires, cables or other conductors and complete so much of such construction and installation as shall be necessary to furnish the service herein required and stand ready to supply the current herein required for the purposes of the Board of Water Supply, and the City of New York on or before October 1, 1914; otherwise this right shall cease and determine; provided that the time for completion of such construction and installation and the commencement of current supply, as required, may be extended by the Board, but the total extension of time shall not exceed twelve months; and provided further that when the completion of the construction or installation or the delivery of current shall be prevented by legal proceedings in any court or by works of public improvement or from other causes not within the control of the grantees, then such time may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the grantees and provided further that in no case shall such delay be deemed to begin until the grantees shall have given written notice to the Board of any such court proceedings or other occasion of delay and shall have delivered to the Board copies of any injunction or other orders and the papers upon which the same shall have been granted, and unless upon the request of the Board the grantees shall in writing consent that the Board, either in its own name as a party or in the name of the City as a party, may intervene in any such proceedings.

Tenth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, the conduits, poles, towers, fixtures, wires, cables and equipment of the grantees constructed pursuant to this contract shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the grantees shall, upon thirty (30) days' notice from the Board, remove any part or all of such conduits, poles, towers, fixtures, wires, cables and equipments constructed pursuant to this contract and the aqueduct lands shall be restored to a condition satisfactory to the Board of Water Supply at the sole cost and expense of the grantees.

Eleventh—The grantees shall comply with all laws, ordinances or rules of the local authorities

having jurisdiction over the construction, maintenance or operation of the transmission line herein authorized.

Twelfth—The position of said transmission line upon said aqueduct lands shall be such as shall coincide with that designated and fixed by the Board of Water Supply. Before any work of construction or installation herein authorized shall be commenced, the grantees shall submit to the Board of Water Supply plans and specifications which shall show and specify in detail the character of the structure or structures proposed by the grantees and the location of the same upon City land. Said plans and specifications must be approved by the Board of Water Supply before such work shall be commenced. The work of construction and installation shall be under the supervision of the Board of Water Supply, and any rules or directions given by said Board shall be complied with by the grantees. If in the opinion of the Board of Water Supply it shall become necessary to change at any time during the term of this contract the location or the character of the construction or installation of said transmission line for the protection of life or property, or if in the opinion of said Board it shall become necessary for the City to use during said term any part or all of the lands upon which the structures herein authorized shall be situated for any of the purposes for which said lands were acquired, then the grantees shall make at their own expense such changes in the character of the construction or installation or changes in the position of such structures on said Aqueduct Lands as directed by the Board of Water Supply.

Thirteenth—All structures and appurtenances erected hereunder shall be kept in good and safe repair and in accordance with the instructions given by the Board of Water Supply.

Fourteenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the grantees, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the ducts, conduits, poles, towers, wires, cables, conductors, fixtures and all structures, constructed or in use, by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the grantees to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the grantees fail to appear, action may be taken by the Board forthwith.

Fifteenth—This grant is upon the express condition that the grantees, within thirty (30) days after the signing of this contract, by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of twenty-five thousand dollars (\$25,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the grantees of all of the terms and conditions of this contract and compliance with all orders of the Board, or the Board of Water Supply, acting under the powers herein reserved, especially those which relate to the furnishing of service herein required for the privilege hereby granted, and the maintenance of the property in good and safe condition throughout the whole term of this contract; and in case of default in the performance by the grantees of such terms and conditions, or compliance with such orders or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board or Board of Water Supply, acting hereunder, the grantees shall pay a penalty of fifty dollars (\$50) per day for each day of violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the grantees, directing their Presidents, or any one of them, or other officers to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the grantees should not be penalized in accordance with the foregoing provisions. If the grantees fail to make an appearance, or, after a hearing, appear in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the grantees shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of twenty-five thousand dollars (\$25,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Sixteenth—The grantees shall assume all liability to persons or property by reason of the construction or operation of the transmission line and its appurtenances authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the grantees hereby agree to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the grantees. The grantees shall pay all taxes on all property constructed or maintained pursuant to this contract and shall reimburse the City for all taxes upon said property which the City may be required to pay and shall reimburse the City, its officers and agents for any and all costs or expenses whatsoever of every name and nature to which the City may be put by reason of the construction, operation or maintenance of the transmission line and its appurtenances and shall save the City, its officers and agents harmless therefrom.

Seventeenth—If at any time the powers of the Board or of the Board of Water Supply, or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or the Board of Water Supply or other authorities, officer or officers.

Sec. 3. Nothing in this contract contained shall be construed as reviving or validating any lapsed or invalid franchise heretofore granted to any of the grantees herein or to their predecessors, or as enlarging or adding to the powers or privileges contained in said grants of franchises or as waiving any forfeiture thereto.

Sec. 4. Each of the parties of the second part, jointly and severally, promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, con-

ditions and requirements in this contract fixed and contained.

SEC. 5. This contract shall not become operative unless and until the grantees shall procure and cause to be executed an agreement which shall be proved in proper form for record and duly delivered to the Board, by which the Northern Westchester Lighting Company and the Peekskill Lighting and Railroad Company shall agree with each other, with the Westchester Company and with the City to furnish, whenever called upon by either the Westchester Company or the City, such service as may be required by the Westchester Company in order to supply to the City the electrical current necessary to fulfill the terms of this contract, and by which the said Northern Westchester Lighting Company and the said Peekskill Lighting and Railroad Company shall further agree with each other, with the Westchester Company and with the City to permit the Westchester Company to use so much of their facilities as shall be necessary to carry out the provisions of this contract. Upon the failure of either or any of said Companies to furnish such service or to permit the use of said facilities for any reason at any time hereafter, the rights hereby granted shall cease and determine and this contract shall be null and void and of no effect.

IN WITNESS WHEREOF, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and each of the parties of the second part, by its officers thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

#### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
