93-50  
SPECIAL HEIGHT AND SETBACK REGULATIONS  
In Subdistricts A, B and C, and Subareas D1, D2 and D3 of the Hell's Kitchen Subdistrict D, and Subdistrict E, the height and setback regulations set forth in paragraphs (a) through (d) of Section 93-42 (Height and Setback in Subdistricts A, B, C, D, E and F) shall apply, except that such regulations are modified in certain locations as set forth in this Section. Such modifications include the establishment of #street wall# location regulations; and minimum and maximum base heights, as illustrated on Map 3 of Appendix A (Mandatory Street Wall Requirements). Such modifications also include depths of required setbacks, maximum length of building walls for towers, and tower #lot coverage#. Special provisions for recesses and sidewalk widenings are as follows:

- (a) Recesses  
Where #street walls# are required to be located on #street lines# or sidewalk widening lines, ground floor recesses up to three feet deep shall be permitted for access to building entrances, and deeper recesses shall be permitted only where necessary to comply with the pedestrian circulation space provisions of Section 93-63. Above a height of 60 feet for #buildings# fronting upon 34th Street in Subdistrict C or above a height of 50 feet for #buildings# fronting upon Tenth Avenue in Subdistrict C and Subdistrict D, and up to any specified minimum base height, recesses are permitted provided that the aggregate length of such recesses does not exceed 30 percent of the length of the required #street wall# at any level, and the depth of such recesses does not exceed five feet. No limitations on recesses shall apply above any specified minimum base height or to any portion of a #zoning lot# where #street walls# are not required.
- Where #street walls# are required to extend along the entire #street# frontage of a #zoning lot#, no recesses shall be permitted within 20 feet of an adjacent #building#, or within 30 feet of the intersection of two #street lines#, except where corner articulation rules apply.

\* \* \*

93-53  
Special Height and Setback Regulations in the 34<sup>th</sup> Street Corridor Subdistrict C

- (a) 34th Street  
For #zoning lots# with frontage on 34th Street, the #street wall# of any #development# or #enlargement# shall be located on and extend along the entire West 34th Street #street line#, except that to allow for corner articulation, the #street wall# may be located anywhere within an area bounded by intersecting #street lines# and lines 15 feet from and parallel to such #street lines#. Such #street walls# shall rise without setback to a minimum base height of 120 feet and a maximum base height of 150 feet. For #corner lots#, these provisions shall also apply along any intersecting #street line# for a minimum distance of 50 feet and a maximum distance of 100 feet from its intersection with West 34th Street. Above a height of 150 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.
- (b) Tenth Avenue  
For #zoning lots# with frontage on Tenth Avenue, the provisions of paragraph (a) of Section 93-541 shall apply.
- (c) Midblocks between Eighth Avenue and Ninth Avenue  
For #zoning lots# with frontage on West 33rd Street or West 35th Street beyond 100 feet of Eighth Avenue and Ninth Avenue, the #street wall# of any #development# or #enlargement# shall be located on and extend along the entire West 33rd Street or West 35th Street frontage of the #zoning lot# not occupied by existing buildings to remain. Such #street wall# shall rise without setback to a minimum base height of 80 feet or the height of the #building#, whichever is less, and a maximum base height of 90 feet. However, if the height of an adjacent #street wall# fronting on the same #street line# is higher than 90 feet before setback, the #street wall# of the new or #enlarged building# may rise without setback to the height of such adjacent #street wall#, up to a maximum height of 120 feet. Above a height of 90 feet or the height of the adjacent #street wall# if higher than 90 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.

\* \* \*

93-55  
Special Height and Setback Regulations in the South of Port Authority Subdistrict E

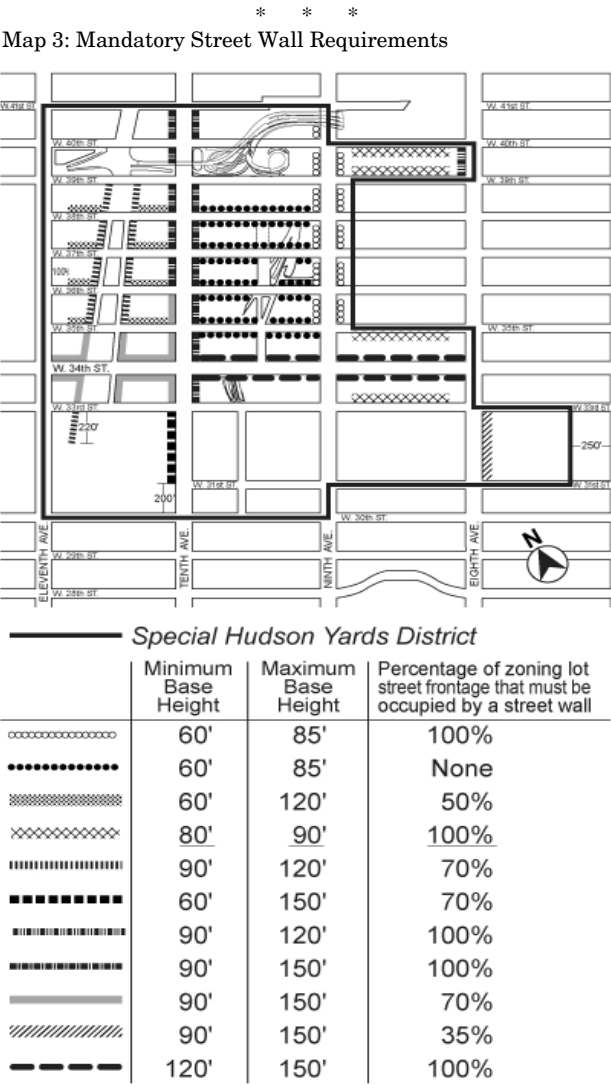

- (a) Zoning lots with Eighth Avenue frontage  
In the South of Port Authority Subdistrict E, for any #development# or #enlargement# on a #zoning lot# fronting on Eighth Avenue, the #street wall# of such #development# or #enlargement# shall be located on the Eighth Avenue sidewalk widening line and extend along the entire #street# frontage of the #zoning lot#. Such #street wall# shall rise without setback to a minimum height of 90 feet or the height of the #building#, whichever is less, and a maximum height of 120 feet. Above a height of 90 feet, no portion of the #development# or

#enlargement# shall penetrate a #sky exposure plane# that begins at a height of 120 feet above the Eighth Avenue sidewalk widening line and #street lines# of West 39th Street and West 40th Street, as applicable, and rises over the #zoning lot# at a slope of four feet of vertical distance, for each foot of horizontal distance, except as provided below:

For #zoning lots# with frontage on Eighth Avenue, the #street wall# of a #development# or #enlargement# shall be located on the Eighth Avenue sidewalk widening line and, where applicable, on the West 39<sup>th</sup> Street and West 40<sup>th</sup> Street #street lines#, and extend along the entire #street# frontage of the #zoning lot#. Such #street walls# shall rise without setback to a minimum height of 90 feet and a maximum height of 120 feet. Above a height of 120 feet, no portion of the #development# or #enlargement# shall penetrate a #sky exposure plane# that begins at a height of 120 feet above the Eighth Avenue sidewalk widening line and #street lines# of West 39th Street and West 40th Street, as applicable, and rises over the #zoning lot# at a slope of four feet of vertical distance, for each foot of horizontal distance, except as provided below:

- (a)(1) any portion of the #building or other structure developed# or #enlarged# pursuant to the tower regulations of Sections 33-45 or 35-63, as applicable, may penetrate the #sky exposure plane#;
- (b)(2) permitted obstructions, as listed in paragraph (a) of Section 93-41, may penetrate the #sky exposure plane#. In addition, a dormer, as listed in paragraph (c) of Section 23-62, may penetrate the #sky exposure plane#.

- (b) Zoning lots without Eighth Avenue frontage  
For #zoning lots# without frontage on Eighth Avenue, the #street wall# of a #development# or #enlargement# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain. Such #street walls# shall rise without setback to a minimum base height of 80 feet or the height of the #building#, whichever is less, and a maximum base height of 90 feet. However, if the height of an adjacent #street wall# fronting on the same #street line# is higher than 90 feet before setback, the #street wall# of the new or #enlarged building# may rise without setback to the height of such adjacent #street wall#, up to a maximum height of 120 feet. Above a height of 90 feet or the height of the adjacent #street wall# if higher than 90 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.

PUPIL TRANSPORTATION INSURANCE  
CONSULTANT: (V.A.L.I.C.A.) – Competitive Sealed Bids – PIN# R0836040 – DUE 06-03-10 AT 5:00 P.M. – This RFP seeks a vendor to provide insurance consulting services for fleets of school buses that transport students to and from schools and other destinations throughout the New York City metropolitan area. These services include insurance brokerage, consulting, claim management, claim adjustment, risk management, loss analysis, and accident investigation services. The NYCDOE anticipates entering into a five (5) year professional services requirements agreement. NYCDOE transports more than 60,000 special education pupils and more than 110,000 general education students on over 6,400 school buses. School buses are used to get students to and from school as well as field trips, shuttle service and itinerant service destinations via contracted school bus vendors. Pursuant to DOE policy, school buses must be insured at a minimum liability limit of five million dollars (\$5,000,000) per occurrence. Historically, that insurance was obtained individually by each contractor. The Volume Automobile Liability Insurance Coverage and Administration (V.A.L.I.C.A.) program was instituted to take advantage of volume discounts which offset the extraordinary vehicle insurance increases both contractors and the NYCDOE experienced. Transportation contracts with each vendor were amended so that the NYCDOE will purchase and pay for the first one million dollars (\$1,000,000) of liability per occurrence through this V.A.L.I.C.A. program and the contracted school bus vendors provide coverage over and above this amount through supplemental or excess insurance. The insurance broker will manage a competitive solicitation process to obtain this one million dollar liability insurance coverage as well as Third Party Administrator (TPA) services from companies licensed to do business in New York State. The resulting five (5) year requirements contract will include options to extend the term of the agreement for three (3) additional one (1) year periods. If you cannot download this RFP, please send an e-mail to VendorHotline@schools.nyc.gov with the RFP number and title in the subject. For all questions related to this RFP, please send an e-mail to spisik@schools.nyc.gov with the RFP’s number and title in the subject line of your e-mail.

**ENERGY COUNSEL FOR THE CITY OF NEW YORK** – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 02509X100024 – DUE 05-10-10 AT 5:00 P.M. – The New York City Law Department (the “Department”) seeks proposals from law firms regularly engaged in the provision of legal services with an expertise in energy matters. The proposals must be submitted in the form of responses to a Solicitation Document available from the New York City Law Department beginning April 19, 2010.

The Department intends to enter into negotiations with one or more law firms and anticipates awarding one contract for these services in order to insure that the Department’s need for experienced and qualified legal services will be met in a timely and cost effective manner. It is anticipated that the term of the contract(s) will be five years, commencing no later than July 1, 2010.

To receive the Solicitation Document, interested law firms must send a written request for it by: (1) mail, messenger, or overnight carrier to: Robin Wakefield, Assistant Corporation Counsel, New York City Law Department, 100 Church Street, Room 6-218, New York, New York 10007; or (2) e-mail to: rowakefi@law.nyc.gov. Please specify in your request whether you wish to receive the Solicitation Document by mail or by e-mail. The Department encourages interested firms to request the Solicitation Document by e-mail.

Proposals will be evaluated by the Department to determine which firm(s) will be recommended for award of the contract. Firms under consideration for award of the contract may also be requested to appear for an interview by Department staff.

The Proposal must be submitted at the place and prior to the deadline stated in this Notice. Robin Wakefield, Assistant Corporation Counsel, is the Law Department’s sole authorized contact person for this procurement. All communications with the Department with respect to this procurement must be directed to the authorized contact person. She can be reached by e-mail at rowakefi@law.nyc.gov, or by phone at (212) 442-0421.

The source selection method of Negotiated Acquisition is being used because the services to be procured are legal services in support of litigation.

Promulgation of Chapter 1 of Title 15 of the Rules of the City of New York Governing the Asbestos Control Program

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN The Department of Environmental Protection by section 1043 of the New York City Charter and section 24-146.1 of the Administrative Code of the City of New York that the Department of Environmental Protection promulgates a rule governing and restricting concurrent demolition and asbestos abatement. These amendments were proposed and published on March 5th, 2010 in the City Record. The required hearing was held on April 7th, 2010.

Statement of Basis and Purpose

The New York City Department of Environmental Protection has promulgated rules and regulations (15 RCNY 1-01 et seq.) outlining the criteria in which the DEP may grant a variance from the requirement that all asbestos containing material (ACM) must be removed prior to the commencement of work pursuant to Local Law 77 of 2009. This rule sets forth the criterion and the activities that require an asbestos abatement permit be issued pursuant to section 24-146.3 of the Administrative Code for any asbestos abatement work performed pursuant to such variance. This rule shall not apply to full demolitions or removal of one or more stories when performed as emergency work pursuant to article 215 of Chapter 2 of Title 28 of the Administrative Code. To further protect the public, this rule strictly limits concurrent asbestos abatement and demolition work unless a site-specific variance has been issued by DEP, in consultation with FDNY and DOB to ensure the safety of the activity.

\* \* \*

Chapter 1 of Title 15 of the Rules of the City of New York is hereby amended to read as follows:

Section one. Section 1-03 of Title 15 of the Rules of the City of New York is amended by relettering subdivision (f) to be subdivision (g) and by adding a new subdivision (f), to read as follows:

§1-03 Variances.

(f) Any variance from the prohibition on concurrent abatement and full demolition or story removal set forth in section 1-126 shall only be approved after notification and consultation with FDNY and DOB.

([f]g) Any violation of the terms of any variance issued under this section shall be considered a violation of the lettered subdivision modified by the variance.

§ 2. Section 1-26 of Title 15 of the Rules of the City of New York is amended to read as follows:

§ 1-26 Asbestos Abatement Permit (a) *Permit required.* An asbestos abatement permit authorizing the performance of construction work shall be required for asbestos projects involving one or more of the following activities:

- (1) Obstruction of an exit door leading to an exit stair or the exterior of the building;
- (2) Obstruction of an exterior fire escape or access to that fire escape;
- (3) Obstruction of a fire-rated corridor leading to an exit door;
- (4) Removal of handrails in an exit stair or ramp within the work area;
- (5) Removal or dismantling of any fire alarm system component including any fire alarm-initiating device (e.g., smoke detectors, manual pull station) within the work area;
- (6) Removal or dismantling of any exit sign, including directional signs, or any component of the exit lighting system, including photoluminescent exit path markings within the work area;
- (7) Removal or dismantling of any part of a sprinkler system including piping or sprinkler heads within the work area;
- (8) Removal or dismantling of any part of a standpipe system including fire pumps or valves within the work area;

(9) Any abatement activity to be performed within a building concurrently with the full demolition of such building or concurrently with the removal of one or more stories of such building.

([9]10) Removal of any non-load bearing / non-fire-resistance rated wall (greater than 45 square feet or 50 per cent of a given wall) within the work area;

([10]11) Any plumbing work other than the repair or replacement of plumbing fixtures within the work area;

([11]12) Removal of any fire-resistance rated

portions of a wall, ceiling, floor, door, corridor, partition, or structural element enclosure including spray-on fire-resistance rated materials within the work area;

([12]13) Removal of any fire damper, smoke damper, fire stopping material, fire blocking, or draft stopping within fire-resistance rated assemblies or within concealed spaces;

([13]14) Any abatement [work] activity that requires immediate construction work that would otherwise requires a permit from the Department of Buildings.

(b) *Work Place Safety Plan.*

(1) Plan required. For projects requiring an asbestos abatement permit due to one or more of the activities listed in (a)(1-[8]9) and (a)(1-[3]4), the building owner or its authorized representative shall submit, together with the asbestos project notification, a work place safety plan (WPSP) and any other applicable construction documents, which shall be prepared by a registered design professional, and a permit fee as specified in subsection (g).

(2) Plan not required. For projects requiring an asbestos abatement permit due to one or more of the activities listed in (a)([9]10-[12]13), the building owner or its authorized representative shall submit, together with the asbestos project notification, all applicable asbestos abatement permit construction documents, and a permit fee as specified in subsection (g).

(i) If the WPSP is being submitted pursuant to subsection (a)(9), it shall also set forth the sequencing of the proposed work. The WPSP shall not be approved unless it provides for a buffer of four floors or an adequate buffer as determined by the commissioner between the abatement and the demolition or floor removal work.

[(3) Plan requirements. The WPSP shall include, but not be limited to, the following items, depending on the size and scope of the asbestos project:

(i) Floor plans showing the locations of all asbestos project work areas in the building.

(ii) Floor plans indicating the locations of any components of the fire alarm system which have been deactivated, and setting forth mitigation measures to be implemented for the duration of the project.

(iii) Floor plans indicating the locations of obstructed or removed exit signage and lighting and setting forth mitigation measures to be implemented for the duration of the project.

(iv) Floor plans indicating the locations of any obstructed means of egress or required exit and setting forth mitigation measures to be implemented for the duration of the project.

(v) Floor plans or riser diagrams indicating the locations of any disengaged or removed components of the fire protection system and setting forth mitigation measures to be undertaken for the duration of the project.

(vi) A written description of all measures taken to mitigate compromised fire protection systems or means of egress, including but not limited to surveillance by a fire watch and an action plan setting forth procedures to be taken for the safety of building occupants in the event of an emergency.

(vii) If the asbestos project is being performed in a building where any dwelling unit is to be occupied for the duration of the permit, the WPSP shall include a tenant protection plan as required by chapter 1 of Title 28 of the Administrative Code.

(viii) A list of all non asbestos contractors who will perform work on the project.]

([4]3) Approval. The documents submitted pursuant to subsection (b) will be reviewed by DEP's asbestos technical review unit (A-TRU) and by any other relevant city agencies. Upon approval by A-TRU, DEP will issue an asbestos abatement permit to the building owner or its authorized representative.

§ 3. Section 1-126 of Title 15 of the Rules of the City of New York is amended to read as follows:

§1-126 ACM Procedures: Order of Work. [If ACM throughout the structure is not removed prior to start of the demolition work approved by the New York City Buildings Department Demolition Permit, the following Order of Work (schedule) shall be followed for abatement activities conducted in connection with a demolition.

Only after the ACM has been completely removed from the top three floors of the structure to be demolished may the topmost floor be demolished subject to the following limitations:

(a) None of the demolition activities shall compromise in any way ACM abatement being done on lower floors.

(b) None of the chutes or other procedures used to remove the demolition debris shall be routed through areas which are in the process of having ACM removed, or have been prepared for abatement of ACM.

(c) Demolition workers shall proceed through uncontaminated areas when approaching and leaving the areas where demolition is being performed. If the demolition workers must pass through the work area, passage-ways with appropriate air locks, through the area where ACM is being abated shall be provided to allow the demolition

workers to approach and leave the area where demolition is being conducted.

(d) As ACM is removed from succeeding floors, additional floors may be demolished as long as ACM abatement is always maintained at least two floors below the level at which demolition is being conducted, until all the ACM has been removed.

(e) Removal of ACM from levels below street level may be done simultaneously with ACM removal from upper floors. However, when below street level abatement is conducted, ACM shall always be removed from the lowest floor first before ACM is removed from higher

(f) The street level floor shall be the last floor from which ACM is removed.]

No ACM removal shall be performed in a building concurrently with the full demolition of such building or with the removal of one or more stories of such building, except as otherwise provided in these rules pursuant to Sections 1-03 and 1-26. This subsection shall not apply to emergency work being performed pursuant to article 215 of chapter 2 of title 28 of the administrative code.

§ 4. This rule shall take effect June 6th, 2010.

LOFT BOARD

■ NOTICE

NOTICE OF ADOPTION OF FINAL RULES

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN THE NEW YORK CITY LOFT BOARD by Article 7-C of the Multiple Dwelling Law and Mayor's Executive Order No. 129, dated May 22, 2009, and pursuant to and in accordance with the requirements of Section 1043 of the New York City Charter, that the New York City Loft Board intends to amend section 2-01 of Title 29 of the Rules of the City of New York, to add a section under which the Loft Board may penalize an owner for its failure to take reasonable and necessary actions to obtain a final certificate of occupancy as required in § 284(1) of the Multiple Dwelling Law.

A duly noticed public hearing was held on April 15, 2010, affording the public opportunity to comment on the proposed amendments, as required by section 1043 of the New York City Charter. Written Comments were accepted through April 9, 2010.

These rules were not published in the regulatory agenda because they were not anticipated.

Section 2-01 of Title 29 of the Rules of the City of New York is amended, and a new section 2-01.1 is added, to read as follows:

2-01.1 Failure to Take Reasonable and Necessary Action to Legalize Building.

(a) Definition of Reasonable and Necessary Action.

Reasonable and necessary action to obtain a certificate of occupancy, as used in § 284(1) of the Multiple Dwelling Law, means deliberate, diligent, and consistent action from the beginning of Article 7-C coverage through the issuance of a final residential certificate of occupancy for the IMD, or the issuance of a final certificate of occupancy for the residential portions of the IMD to legalize the building. Failure to take reasonable and necessary action to obtain a certificate of occupancy is a violation of this section.

(i) In deciding whether an owner has been taking all reasonable and necessary actions to obtain a certificate of occupancy pursuant to subdivision (a) above, the Loft Board may consider but not be limited to the following factors:

- (A) Whether the owner has filed an alteration application with the New York City Department of Buildings ("DOB").
- (B) Whether the owner has timely cleared all DOB objections to obtain the alteration permit.
- (C) Whether the owner timely obtains a permit after issuance of the Loft Board Certification.
- (D) Whether the permit is in effect.
- (E) Whether the owner has timely engaged a contractor to perform the work necessary to obtain a certificate of occupancy.
- (F) Whether there is any stoppage of work due to reasons within the owner's control.
- (G) Whether the owner has timely cleared all DOB objections and violations as required for obtaining a certificate of occupancy.
- (H) Whether the owner has timely scheduled all DOB inspections required for obtaining a certificate of occupancy.

(ii) Monthly Reports about Legalization Projects.

(A) Any IMD owner who has not been issued a final certificate of occupancy must file with the Loft Board a monthly report relating to the legalization projects in the building on the prescribed Loft Board form. In the case of IMD buildings owned by a cooperative or a condominium, the board is responsible for the filing of the monthly report. The report is due every first of the month.

(B) The report must be signed by the owner of the IMD building and a registered architect or professional engineer.

(C) The information provided in the report may be used

The proposed action would facilitate a threefold development proposal. First, the cellar and first floor levels (approximately 2,519 zoning square feet) would be converted to Use Group 6 retail use. Second, additional floor area (approximately 832 zoning square feet) would be constructed on the first floor for Use Group 6 and mezzanine uses. Third, a rooftop addition (approximately 661 zoning square feet) would be constructed for as-of-right Use Group 9 artist studio use. The creation of new floor area in buildings containing JLVQA dwellings is not permitted and commercial uses (Use Group 6) are not permitted below the floor level of the second story. A special permit pursuant to Zoning Resolution (ZR) 74-711 would allow the modification of these regulations.

Currently, the subject site is developed with a 9,377 square foot, 4-story building with a cellar. The subject property is vacant on the first floor and cellar levels; the second and fourth floors are occupied by one Use Group 9 Artist's studio each; the third floor is occupied by one JLVQA.

Absent the proposed action, the subject property would remain in its present size. As-of-right commercial or manufacturing uses would be placed on the ground floor and cellar, and the upper floors would remain occupied with one JLVQA and two artist studios. The analysis year for the proposed action is 2011.

Statement of No Significant Effect:

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning Commission, has completed its technical review of the Environmental Assessment Statement, dated June 19, 2009, prepared in connection with the ULURP Application (No. 090362ZSM). The City Planning Commission has determined that the proposed action will have no significant effect on the quality of the environment.

Supporting Statement:

1.

As indicated in the ULURP site plan, the subject property is fueled by natural gas. This would ensure that the proposed action would not result in significant adverse impacts due to air quality emissions.
2.

No significant effects on the environment which would require an Environmental Impact Statement are foreseeable.

This Negative Declaration has been prepared in accordance with Article 8 of the Environmental Conservation Law 6NYCRR part 617.

Should you have any questions pertaining to this Negative Declaration, you may contact Olga Abinader at (212) 720-3493.

## READER’S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above \$100,000 for information technology and for construction and construction related services, above \$50,000 for other services, and above \$25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

### NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a “living wage”, as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at [www.comptroller.nyc.gov](http://www.comptroller.nyc.gov), click on Labor Law Schedules to view rates.

New York City’s “Burma Law” (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court’s decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City’s Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

### CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination.

### VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at <http://nyc.gov/selltonyc>
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

#### Attention Existing Suppliers:

Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

### SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. “Selling to Government” workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

### PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

### NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

### PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor’s Office of Contract Services at (212) 788-0010.

### ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City’s business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City’s business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

### PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

### PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, <http://nyc.gov/selltonyc>

### HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.
