PETITIONS AND COMMUNICATIONS.

No. 44.

In the Matter of the Contest of the Seat of Isaac Gutman as Alderman for the 27th Aldermanic District.

To the Board of Aldermen of The City of New York:

In the Matter of the Contest of the Seat of Isaac Gutman as Alderman for the 27th Aldermanic District.

I.

The undersigned, James F. Mullen, residing at 179 East 93rd Street, Borough of Manhattan, City of New York, hereby contests the claim of Isaac Gutman to the office of Alderman of the 27th Aldermanic District of The City of New York, Borough of Manhattan, on the following grounds:

I. That the issuing of the certificate to the said Isaac Gutman was improper and based upon improper and incorrect returns.

II. That the Boards of Inspectors in the several election districts of the 27th Aldermanic District improperly and incorrectly canvassed the votes cast on November 2, 1915, and credited the said Isaac Gutman with more than the number of legal votes cast for him.

III. That the said Board of Inspectors improperly counted ballots for the said Isaac Gutman which should not have been counted for him.

IV. That the said Board of Inspectors credited the said Isaac Gutman with ballots which were void and should not have been credited to him.

V. That the said Isaac Gutman did not receive a plurality of the legal votes cast for member of the Board of Aldermen for the 27th Aldermanic District, New York County.

II.

The undersigned further demands of you that the undersigned be declared elected and recognized as Alderman for the 27th Aldermanic District of The City of New York, Borough of Manhattan, County of New York, and that he be seated as such on the following grounds:

That the undersigned received a plurality of the legal votes cast in the said Aldermanic District.

Wherefore, said James F. Mullen demands that this Board of Aldermen proceed without delay, pursuant to law in such cases made and provided, and promptly examine into the matters and things hereinbefore set forth, and thereupon order and declare that the said Isaac Gutman is not entitled to be seated as a member of the Board of Aldermen from the 27th Aldermanic District, and that the undersigned, James F. Mullen, be declared as the duly elected and recognized member of the Board of Aldermen from the 27th Aldermanic District, New York County, and that he be seated as such in your body.

Dated, New York, January 8, 1916. JAMES F. MULLEN.

CHARLES FIRESTONE, Attorney for James F. Mullen, Office and Post Office Address, 299 Broadway, Borough of Manhattan, City of New York.

Which was referred to the Committee on Privileges and Elections.

Board of Estimate and Apportionment—Resubmission of Certified Resolution Recommending an Issue of Corporate Stock, $23,500, for the Construction of a New Water-front Dump, Sherman Creek, Borough of Manhattan.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, January 10, 1916.

To the Honorable the Board of Aldermen:

Dear Sirs—At the meeting of the Board of Estimate and Apportionment on January 7, 1916, I was directed to resubmit to you the following resolution adopted by the Board of Estimate and Apportionment December 23, 1915, relative to the issuance of corporate stock, which resolution was not acted upon by the former Board of Aldermen before the expiration of its term of office:

Department.	Purpose.
Cal. No. 104 Department of Street Cleaning	*$23,500 00

*Corporate stock to provide means for the construction of a new water-front dump on a concrete and pile platform outside of the bulkhead at Sherman Creek, facing Academy (Marginal) Street, near the foot of 201st Street, Borough of Manhattan.

A copy of the report of the Committee on Corporate Stock Budget in this matter is herewith enclosed. Respectfully, JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of sections 47 and 546 of the Greater New York Charter, as amended, hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding twenty-three thousand five hundred dollars ($23,500), to provide means for the construction of a new water front dump on a concrete and pile platform outside the bulkhead at Sherman Creek, facing Academy (Marginal) Street, near the foot of 201st Street, Borough of Manhattan, under the jurisdiction of the Department of Street Cleaning; the pile and concrete platform to be construced with foundations upon which a cover to the dump may be erected, if found necessary or desirable, at some future time, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, maturing not more than fifteen (15) years after date of issue, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid; provided, however, that no encumbrance or expenditure by contract shall be made against the proceeds of corporate stock herein authorized, nor shall bids upon such contracts be advertised for until after approval by the Board of Estimate and Apportionment of the plans, specifications, estimates of cost and forms of such contracts, which shall be submitted to said Board by the Commissioner of Street Cleaning, nor shall any architect, engineer, expert or departmental employee be engaged or employed as a charge against such proceeds, except after approval by said Board of such employment and of the fee or wage to be paid by preliminary and final contract, voucher, or budget schedule, which are to be similarly submitted, unless in the case of departmental employees, such employment is in accordance with schedules approved by said Board.

A true copy of resolution adopted by the Board of Estimate and Apportionment, December 23, 1915. JOSEPH HAAG, Secretary.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, October 23, 1915.

To the Board of Estimate and Apportionment:

Gentlemen—On September 17, 1915, the Commissioner of Street Cleaning requested $45,000 in corporate stock for the construction of a covered dump, proposed to be constructed at Sherman Creek, facing Academy street near the foot of 201st street, Manhattan.

The Bureau of Contract Supervision to which the request was referred on September 18, 1915, reports thereon as follows:

"The Commissioner in his communication states that at the present time there are but two water front dumps provided to serve the area bounded by 110th street on the south and the City Line on the north, an ash dump at 134th street, North River, also to dispose of garbage from the Borough of The Bronx.

"At the present time owing to the lack of dumping facilities, material collected north of 165th street is being dumped in open land fills located at 203rd street and Nagle avenue, Manhattan, and at 225th street and Broadway, Manhattan.

"Garbage now has to be hauled from all points south of the City Line to the 139th street, Harlem River, dump. The great distances to be covered necessarily make the hauling charges extremely heavy. These long hauls, also cause much loss of time to the department and wear and tear upon its horses, vehicles and equipment.

"Under a contract with the firm of Dailey & Ivins, the City is obliged to deliver all materials collected in the Borough of Manhattan at the City's dumps in the said Borough. When this contract became effective on January 2, 1914, no additional dumps having been provided, the contractors voluntarily found for the City a number of open fills which have been in use since. The permission to use these dumps has proved beneficial to the City, but the permission may be withdrawn at any time, at the will of the contractors.

"Furthermore, the Commissioner states that the contractor for trimming the scows (H. B. Christensen, Jr.), has brought suit against the City for alleged breach of contract in failing to deliver all material collected in the Borough of Manhattan, at the water front.

"It is the opinion of the Bureau of Contract Supervision that an additional waterfront dump is badly needed in the upper part of the Borough of Manhattan.

"The location proposed for the dump is as suitable as any that could have been selected. Sherman Creek is on the westerly side of the Harlem River at a point between Dyckman and Academy streets. A bulkhead has been constructed on the northerly side of the 'Creek.' This bulkhead is on the southerly line of Academy street. It is proposed to construct a covered dump on a pile and concrete platform just outside the bulkhead, beginning at a point about 160 feet from the westerly end of the bulkhead and extending 200 feet easterly therefrom.

"It was proposed to construct a covered dump in all respects similar to the one recently constructed at West 77th street, North River.

"As there does not seem to be need at the present time for the construction of a complete covered dump at this point, the Bureau of Contract Supervision has submitted to both the Commissioner of Street Cleaning, and the Commissioner of Docks under whose supervision and control the work of construction is to be performed, the proposal that an open dump instead, be now built. The proposition is to build at the said location a concrete platform on piles suitable in all respects to carry a covered structure if it is desired or found necessary to erect one at some future time, and to place thereon for the present the superstructure of an ordinary open dump. At the present time, however, conditions are entirely dissimilar from those at 77th street and the North River. There are no residential or other buildings in the immediate vicinity and a covered dump does not seem warranted.

"The proposal to construct an open dump in accordance with the foregoing suggestions is acceptable to both the Commissioner of Street Cleaning and the Commissioner of Docks.

"It is estimated that an open dump such as described will cost not to exceed $23,500."

We recommend the adoption of the attached resolution approving the authorization of $23,500 for the construction of an open dump outside the bulkhead at Sherman Creek, facing Academy street, Borough of Manhattan. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; DOUGLAS MATHEWSON President, Borough of The Bronx; Corporate Stock Budget Committee.

Which wes referred to the Committee on Finance.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, December 16, 1915.

To the Board of Estimate and Apportionment:

Gentlemen—On December 7, 1915, the Commissioner of Street Cleaning requested permission to fill a vacancy of Assistant General Superintendent at $2,500 per annum. The Bureau of Standards reports thereon as follows:

"The vacancy exists in Salaries, Regular Employees, General Administration, No. 2324, Executive. The request is to promote James Asip, now employed as District Superintendent at $2,280 per annum, to the position of Assistant General Superintendent at $2,500 per annum. The work to be performed by the incumbent in the new position falls within Grade 5 of the specifications for the Supervision Group of the Street Cleaning Service with a minimum compensation of $1,920 per annum. No grade of position of District Superintendent at $1,920 per annum has been established.

"The duties of the Assistant General Superintendent are to supervise the entire work of the departmental uniformed force in the Borough of Manhattan. He will be in charge of the twelve District Superintendents who now receive $2,280 per annum."

In view of the foregoing we recommend the adoption of the attached resolutions granting the request and also recommending the establishment of the grade of position of District Superintendent at $1,920 per annum. Respectfully,

In Salaries, Regular Employees, No. 261, Inspection, it is proposed to change the line 'Inspector of Licenses, 21 at $1,200,' to read 'Inspector of Licenses, 19 at $1,200,' and the line 'Inspector of Licenses at $1,140' to read 'Inspector of Licenses, 3 at $1,140,' and to add the line 'Balance unassigned, $120.' On December 3, 1915, your Board approved of the above changes for the remainder of the year 1915.

"Vacancies are continually occurring in the 53 Inspectional positions in the Department of Licenses and in order to enable the department to fill these vacancies without delay at the minimum rate, it is suggested that the Board of Aldermen be requested to establish the grade of position of Inspector of Licenses at $1,140 per annum for six incumbents and Inspector of Licensed Vehicles at $1,140 per annum for two incumbents."

In view of the foregoing we recommend the adoption of the attached resolutions granting the request, and recommending to the Board of Aldermen the establishment of the grade of position of Clerk at $720 for one incumbent, Inspector of Licenses at $1,140 per annum for six incumbents and of Inspector of Licensed Vehicles for two incumbents. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

Board of Estimate and Apportionment—Certified Copy of Resolution Recommending Fixing of the Salaries of Certain Janitors in the Department of Education.

Whereas, By opinions of the Corporation Counsel as of June 28 and July 30, 1910, the Comptroller was advised that the payment of salaries of Janitors in the Department of Education was illegal unless such salaries shall have been established under the provisions of section 56 of the Greater New York Charter; and

Whereas, The Special Committee on Janitorial Compensation and the Committee on School Inquiry, Board of Estimate and Apportionment, submitted a joint report on March 27, 1913, which contained detailed suggestions and recommendations for the reorganization of the Janitorial force of the Board of Education; therefore, be it

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen, pending action by the Board of Education on the aforesaid report, that the compensation of Janitors in the Department of Education be fixed temporarily and until further modified, in accordance with the following list:

Janitor, P. S. 34 (Annex) Manhattan, per annum	$120 00
Janitor, P. S. 98 A, B, D and E, Manhattan, per month	50 00
Janitor, P. S. 190, Manhattan, per annum less $221	2,424 00
Janitor, Supply Depository at East 91st Street, Manhattan, per annum	1,080 00
Janitor, Bushwick High School, Brooklyn, per month, for the period from May 29, 1915, to October 24, 1915, inclusive	50 00
Janitor, P. S. 33, Brooklyn, per annum less $221	1,776 00
Janitor, P. S. 95, Brooklyn, per annum	684 00
Janitor, P. S. 95, Brooklyn, for care of four portable buildings, per annum	720 00
Janitor, Public School 178, Brooklyn, per annum	3,987 50

A true copy of resolution adopted by the Board of Estimate and Apportionment January 7, 1916. JOSEPH HAAG, Secretary.

City of New York, Board of Estimate and Apportionment, Committee on Education, December 21, 1915.

To the Board of Estimate and Apportionment:

Gentlemen—On November 24 and December 8, 1915, the Board of Education requested establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of rates of compensation for the janitors of the 91st Street Supply Depository, Manhattan; Bushwick High School, Brooklyn, and Public School Numbers 34 (Annex), 98 A. B, D and E, 190 Manhattan; 33, 95 and 178, Brooklyn. In connection therewith we report as follows:

A rate of $1,080 per annum is proposed for the janitor of the new 91st Street Supply Depository, located at 434 East 91st Street, Manhattan. This is a six-story building, the first floor being used as a garage and the other floors for the storage of miscellaneous equipment used in connection with vacation playground activities. The building is equipped with an electric freight elevator. The duties of the janitor will be to clean the building, operate the boiler and take care of the motor used in connection with the electric elevator. Upon the recommendation of its Supervisor of Janitors the Board of Education appointed to this position a licensed engineer taken from the Municipal Civil Service eligible list of janitor engineers with compensation at the rate of $1,080 per annum, which compensation appears to be reasonable.

For the Bushwick High School a rate of $50 per month is proposed to permit of compensating Mr. William A. Kip, janitor of Public School 106, Brooklyn, who

was temporarily assigned to the care of the Bushwick High School on May 29, 1915. On assigning Mr. Kip the Board of Education fixed his compensation for the Bushwick High School at the rate of $720 per month, the intention being that Mr. Kip would retain $50 per month for his services and pay the balance to the cleaning force of that school. The rate of $720 per month was, however, never fixed for that school by the Board of Aldermen, and the Comptroller, upon the advice of the Corporation Counsel, paid the cleaning force directly but made no payment to Mr. Kip for his services. In view of the foregoing the Board of Education requests the establishment of a rate of $50 per month as stated above to compensate Mr. Kip.

For Public School 34 (Annex), Manhattan, a rate of $120 per annum is proposed in place of the existing rate of $600 per annum due to the fact that this building has been abandoned for school purposes. For Public School Numbers 98 A, B, D and E, Manhattan, a rate of $50 per month is proposed to compensate the janitor who has been put in temporary care of these buildings.

For the following buildings temporary rates are requested, being the regular rates less rent allowance:

	Regular Rate.	Rent Allowance.	Temporary Rate.
P. S. 190, Manhattan	$2,424 00	$221 00	$2,203 00
P. S. 33, Brooklyn	1,776 00	221 00	1,555 00

For the care of two portables located on the premises of Public School 95, Brooklyn, the compensation has been reduced from $300 to $120 per annum due to the fact that these portables have been abandoned for school purposes. The compensation for these portable buildings has in the past been included as part of the compensation of the main building as follows:

	Rate per Annum.
Compensation for main building	$684 00
Compensation for two portable buildings	300 00
Compensation for two portable buildings	600 00
Compensation fixed for P. S. 95, Brooklyn, and Portables	$1,548 00

While reducing the rate for two of the portables it would be well at the same time to fix separate rates of compensation for the main building and the portable buildings.

A rate of $4,644 per annum is proposed for new Public School 178, Brooklyn, computed on the following basis:

77½ thousand square feet floor surface at $37 per thousand	$2,867 50
33½ thousand square feet paved surface at $18.50 per thousand	619 75
4 boilers, $105, $50, $40, $40	235 00
1 hot water heater	6 00
3 steam engines, $160, $80, $40	280 00
3 blowers, $32, $24, $16	72 00
2 fans, $16, $16	32 00
1 steam pump	32 00
2 electric pumps, $24, $16	40 00
2 electric motors, $160, $80	240 00
Rent Allowance	221 00
	$4,645.25

The compensation fixed by the Board of Education is $4,644 per annum, which is the nearest multiple of 12 to $4,645.25. In this connection it is recommended that the rate for Public School 178, Brooklyn, be fixed temporarily at $3,987.50 per annum. In arriving at this amount the formula has been used which was developed by the Efficiency Staff of the office of the Commissioners of Accounts from their study of janitorial compensation in public school buildings. By this formula the janitorial compensation for any given school building for day activities is arrived at by multiplying the building surface in one thousand square feet units by forty-five and adding to the product five hundred. Applying this formula to Public School 178, Brooklyn, we have

Building surface in one thousand square feet units	77.5
Multiplying by 45	× 45
Product	$3,487 50
Add	500 00
Total compensation	$3,987 50

It should be clearly understood, however, as stated in a report submitted to your Board at the meeting of November 19th (see Calendar Number 19) that the above mentioned formula is to be used in fixing temporary rates of compensation for each new building until such time as the precise compensation can be determined from an actual study of conditions therein.

In view of the foregoing we recommend the fixation of compensation as requested for the several schools above mentioned with the exception of Public School 178, Brooklyn, for which we recommend a rate of $3,987.50 per annum.

The adoption of the attached resolution will give effect to the recommendations contained herein.

Respectfully, WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

Board of Estimate and Apportionment—Certified Copy of Resolution Recommending the Establishment of the Grade of Position of Clerk in the Department of Bridges.

Resolved. That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Bridges of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Clerk	$1,320 00	One.

A true copy of resolution adopted by the Board of Estimate and Apportionment January 7, 1916. JOSEPH HAAG, Secretary.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, December 23, 1915.

To the Board of Estimate and Apportionment:

Gentlemen—On December 13, 1915, the Commissioner of Bridges requested modification of a 1916 salary schedule for the Municipal Garage Service and the establishment of the position of Clerk at $1,380 per year. In connection therewith the Bureau of Standards reports as follows:

"In Municipal Garage Service, Personal Service, Salaries Regular Employees, No. 2782, Administration, it is proposed to eliminate the position of Supervising Chauffeur at $1,380 and substitute a Clerk at the same rate. The incumbent of the position is to act as general despatcher for the garage and to perform a considerable amount of clerical work in the way of keeping records. The Commissioner proposes to appoint to this position Harry T. Rogers, a Clerk, who has been receiving $1,650, and for whom no provision is made in the 1916 Budget.

"The greater part of the work to be performed falls within Grade 4 of the Clerk Group, with a minimum compensation of $1,320. The Commissioner is agreeable to the change in rate to $1,320, leaving $60 to be scheduled as Balance Unassigned. It will also be necessary to establish, under section 56 of the Charter, the position of Clerk at $1,320."

In view of the foregoing, we recommend the adoption of the attached resolutions granting the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

The President laid before the Board the following communications from the Commissioner of Street Cleaning:

No. 52.

Commissioner of Street Cleaning—Request for Authority to Purchase Draft Horses Without Public Letting.

Department of Street Cleaning of the City of New York, Municipal Building, 12th Floor, New York, January 3, 1916.

Hon. GEORGE McANENY, *President, Board of Aldermen, City of New York:*

Dear Sir—In accordance with the provisions of section 419 of the Greater New York Charter, I hereby respectfully request power to purchase in the open market, without public letting, necessary draft horses allowed in the department budget for 1916, as follows:

Borough of Manhattan	$12,600 00
Borough of Brooklyn	36,000 00
Borough of The Bronx	19,500 00
	$68,100 00

On February 2, 1915, the Board of Aldermen passed a similar resolution authorizing the purchase of horses for the year 1915, on account of the inability of the department to procure animals promptly due to the war demand for horses of this character. As a result of this authorization in 1915 sixty-five horses were bought for the Borough of Brooklyn at an average price of $302.31 and twenty-two horses for the Borough of The Bronx at $273.00. The contract price bid in each of the above cases was $339 for Brooklyn and $340 for The Bronx. The City saved by this open market purchase of 87 horses $3,832.50 compared with the contract prices. The quality of the horses purchased on open market order was as good, if not better, than those purchased under contract.

As the foreign demand for horses still continues, and as the department is in urgent need of a supply, it appears to be more economical and desirable that authorization be given for the purchase of the horses in the open market rather than by contract.

Yours truly, J. T. FETHERSTON, Commissioner.

No. 53.

Commissioner of Street Cleaning—Withdrawal of Request for Authority to Purchase Draft Horses Without Public Letting.

Department of Street Cleaning of the City of New York, Municipal Building, 12th Floor, New York, January 7, 1916.

Hon. GEORGE McANENY, *President, Board of Aldermen, City of New York:*

Dear Sir—On January 2, 1916, request was made for authority to purchase horses in open market, without public letting, during the year 1916.

Since that time bids have been received for a contract for furnishing two hundred and twenty-seven (227) horses; in view of the fact that the lowest bidder offers to furnish such horses at the rate of $284.00 per horse, which has been the average price paid in Open Market during the last six (6) months, I deem it advisable to award this contract.

On that account the desired authority to purchase in the open market, without public letting, is unnecessary, and I hereby withdraw my request.

Yours truly, J. T. FETHERSTON, Commissioner.

The President laid before the Board the following communication from the County Judge of Bronx County:

No. 54.

County Judge, County of Bronx—Request for Special Revenue Bonds, $2,325, for New Equipment.

County Court, Bronx County, January 3, 1916.

To the President of the Board of Aldermen, City Hall, New York City:

Dear Sir—On account of the proposed removal of this Court to the new Bergen Building, it will be necessary to purchase considerable new equipment, in all to the amount of $2,325. Much of our present equipment will remain in the old building for the use of the Supreme Court, and it, therefore, becomes necessary to purchase the items enumerated in order that the quarters may be properly furnished. In addition, I propose to have furnished a room which will be set aside in Chambers for the use of visiting Judges whom I have frequently been compelled to invite to sit in an additional part of this Court. Owing to the absolute necessity of holding an additional part of this Court for the greater part of this year, I now deem it advisable to furnish up the Grand Jury quarters in the new Bergen Building to accommodate this part of the Court, and for that purpose it will be necessary to purchase 100 chairs, a Judge's and Clerk's desk, and other equipment. At the time the budget estimate of this Court for the year 1916 was prepared funds were requested to provide for the purposes of this equipment.

The Board of Estimate, after due consideration, reduced the amount to $200, assigning therefor the reason that owing to the uncertainty as to the time of the completion of the Bergen Building annex it would be inadvisable to include the total amount requested in the budget appropriation, and suggested that application be made for an issuance of revenue bonds at or about the time the building became ready for occupancy. From the best information available, it appears that this annex will be ready in the early part of February, and inasmuch as it appears that much of the equipment enumerated herein should be ready and installed at the time of our entrance into the building, I believe that funds should now be provided in order that the same may be now ordered. Much of this equipment cannot be purchased from stock but will have to be made up specially, thus requiring in all probability some weeks in the construction thereof.

I therefore respectfully request that your Board authorize the issuance of special revenue bonds in the amount of $2,325.

No. 55.

President of the Borough of Manhattan—Request for Authority to Rebuild Certain Sewer Basins Without Public Letting.

City of New York, President of the Borough of Manhattan, Municipal Building, January 3, 1916.

Hon. GEORGE McANENY, *President, Board of Aldermen,* City Hall, New York City:

Dear Sir—During the construction of subways a great many receiving basins are removed, which afterwards have to be replaced by the Public Service Commission. Most of these basins are located at the intersection of the curbs of intersecting streets. In order to give greater facility to traffic in making a right-hand turn into an intersecting street, the Board of Estimate has adopted the policy of making curb intersections by radii of twelve feet instead of six feet whenever the opportunity presents itself. These changes are usually made in the curb lines in connection with the repaving of streets. This requires remodeling of the corner basin, which is left in the

roadway outside of the curb lines. This is accomplished by removing the granite head and replacing it with a cast iron manhole head, which is located in the roadway. One or two inlets, as the case may require, are built on the curb lines of the intersecting streets at about the house lines produced.

It is believed that advantage should be taken of the conditions due to subway construction to restore these basins in accordance with the policy which is now in vogue in connection with repaving. The Public Service Commission has agreed to rebuild the receiving basins, at locations to be designated by the Borough President, at the house lines produced, provided the Borough President's office pays the additional cost. The additional cost consists of the recutting of the corner basin-head to fit a straight curb or else the furnishing of a new basin-head and other incidentals such as additional length of culvert pipe and additional excavation.

The Corporate Stock Budget Committee of the Board of Estimate has determined that the reconstruction of basins is a proper charge against the Corporate Stock Repaving Fund. There are nearly 300 of these basins to be rebuilt, at an additional cost of approximately $15,000. In order to facilitate this work and to cause the least inconvenience, the work should be done by the subway contractor. Your honorable body is therefore requested to grant permission for the construction of these basins without public letting.

This request was made to the last Board of Aldermen too late to give it an opportunity to act upon it. In the meantime, the work of reconstructing these basins is either delayed or else the subway contractors are doing the work on the representation of the Public Service Commission that the City will pay for the additional work. It is urged, therefore, that prompt action be taken in the matter. If your Board desires any additional information on this matter it will be cheerfully furnished.

Yours very truly, MARCUS M. MARKS, President, Borough of Manhattan.

City of New York, President of the Borough of The Bronx, 3d Avenue and 177th Street, Office of the President, January 10, 1916.

To the Honorable the Board of Aldermen, City Hall, Borough of Manhattan, City:

Gentlemen—In accordance with the provisions of Section 383 of the Greater New York Charter (last paragraph), I hereby request, authorize and direct Mr. John G. Borgstede, Commissioner of Public Works in the Borough of The Bronx, to exercise all powers and perform all duties conferred or imposed upon me as President of the Borough of The Bronx, pursuant to the provisions of the Greater New York Charter, as necessity may require because of my absence or otherwise, and I hereby authorize said Commissioner of Public Works of the Borough of The Bronx to accordingly be Acting President of the Borough of The Bronx, and as such, a sitting member of the Board of Estimate and Apportionment of The City of New York and of the Board of Aldermen of The City of New York. County Clerk, Bronx County—Request for Special Revenue Bonds, $975, to Purchase New Equipment for the Criminal Branch in the New Bergen Building.

County Clerk's Office, Bronx County, County Court House, New York, January 4, 1916.

Hon. GEORGE MCANENY, *President, Board of Aldermen, New York City:*

Dear Sir—On account of the proposed removal of a part of this office which will be known as the criminal branch to the new Bergen Building, it will be necessary to purchase new equipment for the establishment of same, and as I am desirous of having fireproof furnishings, it will be necessary for me to request in all to the amount of $975.

At the time the budget estimate of this office for the year 1916 was prepared, I did not include request for this branch, as I was not positive as to the completion of the new Bergen Building. From the best information available, I am advised this annex will be ready on or about February 1, 1916, and inasmuch as most of the equipment will have to be made up special, and it will be necessary to have same ready upon our entrance into the new building, I would respectfully request that your Board authorize the issuance of special revenue bonds in the amount of $975.

Commissioner of Public Charities—Request for Authority to Purchase Motor Equipment Without Public Letting.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, January 4, 1916.

Re Purchase of Motor Equipment Without Public Letting.

To the Honorable the Board of Aldermen:

Gentlemen—Permission is hereby requested from your honorable Board to purchase motor equipment in the amount of $36,140, without public letting. I am requesting this permission because I believe that economy will result if this equipment is purchased in the open market, and that better vehicles will be obtained at lower prices than by advertising and awarding a contract. I have come to this conclusion after quite an extensive inquiry into market conditions generally, and after having gone into the question thoroughly with a large number of the firms from which we could make purchases in the event of purchasing in either way.

As a result of these inquiries, it is manifest that the Department of Public Charities can secure quicker deliveries at better prices by the open market method than by the advertising, public letting and contract method. Furthermore, it is essential that deliveries of all these cars be made at the easliest practicable date, because the 1916 budget provides only a limited amount of personal service, and also a very limited amount of forage in connection with the old method of transportation by horses and wagons.

The appropriation of $36,140, referred to above, contemplates mainly the purchase of hearses, ambulances, heavy trucks, light delivery wagons, buses, etc., etc.

In view of the need for prompt action upon this request, may I urge your favorable consideration at the first meeting of the Board of Aldermen.

Very truly yours, JOHN A. KINGSBURY, Commissioner.

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st Avenue and 26th Street, New York, January 5th 1916.

Hon. GEORGE MCANENY, *President of the Board of Aldermen*, City Hall, New York:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to renew their request to the Board of Aldermen for permission to buy in the open market, without public letting, three motor ambulances and a motor truck for this Department at a cost not exceeding $12,300, funds for which are available in the 1916 budget. The request is made in order to permit the selection and purchase of ambulances adapted to the use of the hospitals, as it has been found difficult, if not impossible to obtain acceptable cars by advertising for bids. The motor ambulances that are required are of a special character. Respectfully,

Hon. GEORGE MCANENY, *President of the Board of Aldermen*, City Hall, New York:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Aldermen to authorize the purchase, without public letting, of fresh fruits and vegetables required during the year 1916, for the employees of the hospitals of the Department, the cost not to exceed $12,000. This request is an annual one and is the same amount approved by your Board for this purpose last year.

Trustees, Bellevue and Allied Hospitals—Request for Authority to Enter Into Contract for Protection from Fire Without Public Letting.

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st Avenue and 26th Street, New York, January 5th, 1916.

Hon. GEORGE MCANENY, *President of the Board of Aldermen*, City Hall, New York:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to renew their request of November 26th, 1915, to exempt from public letting, pursuant to provisions of section 419 of the Charter, the contract of this Department for the employment of the Croker National Fire Prevention Engineering Company for weekly inspections, drills, instructions, testing of hose, standpipes, extinguishers and other measures for protection against fire, for the four months ending December 31st, 1915, at a cost not exceeeding $1,500 a year. A renewal of the request is made at this time in order to permit the Department to authorize the payment for the services rendered during the last four months. The Croker National Fire Prevention Engineering Company has been conducting drills in Bellevue and Allied Hospitals for several years past, and although the Department has made repeated requests for the asssignment of a fireman, it was not until December 20th, 1915, that Fire Commissioner Adamson detailed a man to the hospital for this purpose.

The fire protection work of this firm is in the nature of personal service of special character upon which it would be difficult, if not impossible, to entertain copetitive bidding. Respectfully.

Re Special Revenue Bonds for $7,600. *Repairs to Female Barracks, City Home District.*

To the Honorable the Board of Aldermen, City Hall, New York:

Gentlemen—I hereby respectfully request your Honorable Board to authorize an issue of Special Revenue Bonds to the extent of $7,600, to cover the necessary repairs to the roof, balconies, etc., of the building known as the Female Barracks, City Home District, B. I. During the severe storm of December 26, the roof and balconies of this building were seriously damaged, necessitating the removal of the inmates from that part of the structure.

We hesitated to take the money for these repairs from our general repair appropriation as this appropriation was authorized for ordinary repairs only, and is none too large for the actual needs of the department. We consider the repairs to this roof and balconies extraordinary, and for that reason the issue of Special Revenue Bonds is requested. Very truly yours,

Re Open Market Purchase of Flour, Etc.

To the Honorable the Board of Aldermen:

Gentlemen—I respectfully request permission to purchase flour in the open market without public letting for a period of three months, ending June 30, 1916, to an amount not to exceed $40,000, fresh fish, oysters and clams for the same year to an amount not to exceed $25,000, and agricultural and botanical supplies for the year to an amount not to exceed $5,000.

The request to purchase flour in the open market is made for the reason that at the present time the flour market is and has been for some time past in a very unsettled condition, due largely to the conflict raging in Europe. The price of this commodity fluctuates violently at times, having varied over $1 per barrel recently within fifteen days' time, which naturally causes more or less speculation when bid upon.

From June 1, 1915, to January 1, 1916, I purchased in the open market, without public letting, thanks to permission granted by your Honorable Board, approximately $57,810 worth of flour. When compared with the prices paid by the Department of Correction on contract during this period a net saving of over $5,000 was made.

Through the permission granted by your Board, I have been enabled to purchase, without public letting, fresh fruits and vegetables and fresh fish, oysters and clams at prices which show a saving, as compared with prices secured by other departments on contract. I believe that it will be to the City's best interest that these supplies be purchased this way the coming year. I submit for your information the following tables, which speak for themselves:

I might add that in the matter of fresh fruits and vegetables this Department has set a maximum price limit above which they will not be purchased except under extenuating circumstances.

Regarding agricultural and botanical supplies, it is admitted that it is not practical to prepare specifications for plants and seeds and that a contract will not secure supplies of the quality desired. It is therefore highly desirable that those supplies be purchased from a reliable dealer.

I trust this request will be granted, since I believe it to be in the best interest of the City. Very truly yours, JOHN A. KINGSBURY, Commissioner.

No. 64.

President, Borough of Queens—Request for Special Revenue Bonds, $279, to Pay the Wages of a Bricklayer in the Bureau of Public Buildings and Offices.

The City of New York, Office of the President of the Borough of Queens, Long Island City, January 6, 1916.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—In accordance with the provisions of subdivision 8 of section 188 of the Greater New York Charter, request is hereby made for an issue of Special Revenue Bonds to the amount of two hundred and seventy-nine ($279.00) dollars, for the purpose of providing the necessary funds to pay the wages of a Bricklayer in the Bureau of Public Building and Offices, this Department.

No provision has been made in the 1916 Budget for a Bricklayer in the Bureau of Public Buildings and Offices, and it has been found that it will be necessary to employ a Bricklayer in this Bureau during the coming year for about forty-six and one-half (46½) days, at the prevailing rate of wages, namely $6.00 per diem, and I would therefore request that you take action with respect to this request as soon as possible, for the reason above stated. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

No. 65.

President, Borough of Brooklyn—Request to Have Resolution Naming Parkville Avenue Amended.

The City of New York, Office of the President of the Borough of Brooklyn. Brooklyn, January 7, 1916.

The Honorable Board of Aldermen, City of New York:

Gentlemen—On December 14, 1915, the Board of Aldermen adopted the following resolution, which was received from the Mayor on December 28, 1915, without his approval or disapproval thereof:

"Resolved, That the name of Washington avenue, from Coney Island avenue to 41st street, Parkvile avenue, in the Borough of Brooklyn, be and the same is hereby changed to and shall hereafter be known and designated as Parkville Avenue; and the President of the Borough be and is hereby authorized and requested to note the change on the maps and records of the City of New York, and to number or renumber the buildings on said thoroughfare in such manner and to such extent as may be necessary."

Your attention is respectfully called to the fact that Washington avenue does not extend from 41st street to Coney Island avenue, but begins at 47th street and extends easterly to 1st street. From 1st street easterly is a street known as Johnson avenue which is slightly to the north of Washington avenue and extends to Coney Island avenue, the two streets not being therefore continuous.

It would seem to me that if it is the intention of your Board to rename both Washington and Johnson avenues, the resolution should be amended to read:

"Resolved, That the name of Washington avenue, from 47th street to 1st street, in the Borough of Brooklyn, be and the same is hereby changed to and shall hereafter be known and designated as Parkville avenue, and that the name of Johnson avenue, from 1st street to Coney Island avenue, in the Borough of Brooklyn, be and the same is hereby changed to and shall hereafter be known and designated as Parkville avenue, and the President of the Borough," etc.

I submit to your Honorable Board the new designation above entitled and would recommend that the resolution adopted be amended accordingly. Yours very truly,

E. W. VOORHIES, Acting Borough President.

No. 66.

Commissioner of Water Supply, Gas and Electricity—Request for Authority to Purchase Eight Light Runabouts Without Public Letting.

The City of New York, Department of Water Supply, Gas and Electricity, Bureau of Gas and Electricity, Municipal Building. New York, January 8, 1916.

Hon. GEORGE MCANENY, *President, The Board of Aldermen,* City Hall, New York City:

Dear Sir—I have the honor to request permission from your Board to purchase, without public letting, pursuant to the provisions of section 419 of the Greater New York Charter, as amended, certain light automobiles (runabouts), moneys for which were provided in the Budget authorized for this Department for the year 1916 in Code No. 2234, Purchase of Motor Vehicles and Equipment.

It is intended to purchase eight (8) light running machines costing approximately $3,600, and permission is hereby requested empowering this Department to enter into such contracts as may be necessary to purchase the said machines in the open market without public letting.

The said machines are to be used by the Inspection force of the Bureau of Gas and Electricity in the Boroughs of Brooklyn, Queens, The Bronx and Richmond, and provision has been made in the Budget for 1916 (Code 2283TW, Storage of Motor Vehicles) for the storage of the said machines.

Respectfully, WILLIAM WILLIAMS, Commissioner.

No. 67.

Commissioner of Water Supply, Gas and Electricity—Request for Authority to Expend the Sum of $20,000, Without Public Letting, for the Repair of Engines, Boilers, Etc.

The City of New York, Department of Water Supply, Gas and Electricity, Office of the Commissioner, Municipal Building, New York City, January 10, 1916.

To the Board of Aldermen, City Hall, New York City:

Sirs—For many years past it has been customary for this Department to obtain from the Board of Aldermen authority for the expenditure of a certain sum of money for the repair of engines, pumps, boilers and other pumping station equipment without the formality of advertising for competitive bids. It has been explained in the past and I now reiterate the reasons for the request. To comply with the provisions of the Charter in respect to the furnishing of labor and material it is necessary to supply the approximate quantities to be furnished. It is not possible to do this in relation to replacements and repairs on pumping equipment, as it is impossible to tell what apparatus or part thereof will collapse or become damaged. A further obstacle in respect to compliance with the Charter provisions is the fact that it is essential in almost every instance that repairs be made immediately, and the shortest possible period before the work could be undertaken by contract would be several weeks.

During the year 1915 several serious breaks occurred in the distribution systems where it became necessary to engage outside help, as the Department did not have the force or the equipment on hand to repair the damage. It was essential in these instances that the work be done immediately in order to restore the water service. One such break occurred in a submarine main supplying one of the islands in the East River. You can readily perceive how necessary it is in a matter of this kind to obtain immediate assistance.

The authority of the Board of Aldermen obtained last year limited the expenditure of the funds on open market orders on work relating to the repair of engines and boilers, also submerged mains. Before the Department could certify to the payment of the bills for expense incurred in the repair of several serious breaks in the distribution systems it was necessary to make separate appeals to the Board of Aldermen for authority to expend an additional sum, owing to the fact that the expense was in excess of $1,000. To avoid, if possible, the necessity of making several applications to the Board of Aldermen I respectfully request authority to expend, without public letting, twenty thousand ($20,000) dollars for the repair of engines, pumps, boilers and other pumping equipment; also for the repair of water mains and appurtenances connected therewith and where the work is of such magnitude or character that it could not be completed with the Department's own force. I attach hereto a proposed resolution, of which I ask the Board's early and favorable consideration.

Respectfully, WILLIAM WILLIAMS, Commissioner.

Resolved, That in pursuance of the provisions of section 419 of the Greater New York Charter the Commissioner of Water Supply, Gas and Electricity be and he is hereby authorized and empowered to expend the sum twenty thousand ($20,000) dollars without public letting for the repair of engines, boilers, pumping station equipment, distribution mains and appurtenances, including submerged mains, during the year 1916.

§ 41. License Fee and Bond; term—The annual license fee for each dealer in second-hand articles shall be $25, and every such dealer shall give a bond to the City, with sufficient surety, to be approved by the commissioner of licenses, in the penal sum of $100, conditioned for the due observance of the provisions of law or ordinance relating to such dealers.

All licenses for dealers in second hand articles now in force, which shall not sooner expire, shall expire on the 31st day of January next succeeding the date on which this ordinance takes effect. § 43. Restrictions. 1. Place, expired licenses. No dealer in second-hand articles shall carry on business at any other place than the one designated in his license, nor shall he continue to carry on business after his license is suspended, revoked or expired.

2. Prohibited Persons and Hours. No article or thing, except wooden furniture, stoves and kitchen utensils purchased in the way of business, shall be sold or disposed of by any dealer in second hand articles until the expiration of one month after such purchase, and no such dealer shall receive any article by way of pledge or pawn.

4. Not to be pawnbroker or junk dealer. No dealer in second hand articles, while licensed as such, shall be licensed as pawnbroker or junk dealer.

§ 44. Lost or stolen property to be advertised. If any goods, articles or things whatsoever, shall be advertised in any newspaper printed in the city as having been lost or stolen, and if the same, or any such answering to the description advertised, or any part thereof, shall be or come in the possession of any dealer in second hand articles, such dealer shall give information thereof in writing to the police commissioner, stating from whom the same was received. Resolution Referring to the Committee on Salaries and Offices a Resolution of the Board of Estimate and Apportionment Fixing the Compensation of the Janitor of the Bushwick High School.

By Alerman Bent—

Whereas, The Board of Estimate and Apportionment at a stated meeting held on December 3, 1915, adopted a resolution fixing the compensation of the "Janitor, Bushwick High School, Brooklyn," at $6,599 per annum for day service (item No. 51 on calendar); and

Whereas, Prior to adoption of aforesaid resolution the compensation of the "Janitor of the Bushwick High School, Brooklyn," was "$15,540 per annum, including night school service;" and

Whereas, The Board of Aldermen at a stated meeting held December 14, 1915, after rescinding the compensation of "Janitor, Bushwick High School, Brooklyn, per annum, including night school service, $15,540," approved and concurred in the aforementioned resolution fixing the compensation of "Janitor, Bushwick High school, Brooklyn, per annum for day service, $6,599," as provided by section 56 of the Greater New York Charter; and

Whereas, By the adoption of the foregoing resolution fixing the compensation of the "Janitor, Bushwick High School, Brooklyn, per annum for day service, $6,599," necessitated the dismissal of three (3) men and three (3) women whose wages ranged from $20 to $60 per month, and forced a reduction in the wages of eight (8) other employees on premises; and

Whereas, The aforesaid compensation of the "Janitor, Bushwick High School, Brooklyn, per annum for day service, $6,599, seems totally inadequate for the proper operation and care of such an institution; therefore, be it

Resolved, That in view of the foregoing facts that this matter be referred to the Committee on Salaries and Offices for its investigation and report.

Report of the Committee on Finance in Favor of Adopting Resolution for $2,700 Special Revenue Bonds for Salaries of Three Assistant Power Plant Operators, Department of Public Charities.

The Committee on Finance to which was referred on January 3, 1916 (Minutes, page 21), the annexed request from the Commissioner of Public Charities for $2,700, Special Revenue Bonds to pay the salaries of three Assistant Power Plant Operators for the year 1916, respectfully

REPORTS:

That the letter of request covers the details of this application. These stokers were left out of the Budget by the advice of the Bureau of Standards, based on the actual tonnage of coal fed to fires in these hospitals, it being calculated by said Bureau that during the inactive watches the engineer on duty would have about one ton of coal to shovel in his eight hour tour. While this is an excellent theoretical basis for economy, the Committee takes the larger view that safety of lives and property should be provided so far as is humanly possible, and believing that these stokers should be employed, it recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of two thousand four hundred and seventy-five dollars ($2,475.00), the proceeds whereof to be used by the Department of Public Charities for the purpose of paying salaries of three Assistant Power Plant Operators from Febraury 1, 1915 to December 31, 1915, at the rate of $900 per annum each, to be stationed at hospitals, as follows:

Cumberland Street Hospital ..... Two
Coney Island Hospital ..... One

Department of Public Charities of The City of New Yory, Municipal Building, Tenth Floor, December 31st, 1915.

Re Special Revenue Bonds to Pay Salaries of Power Plant Operators.

To the Honorable the Board of Aldermen:

Gentlemen—I have the honor to request that the Board of Aldermen authorize an issue of special revenue bonds in the amount of $2,700, to provide this Department with the necessary funds to pay the salaries of three Assistant Power Plant Operators (formerly designated Stokers).

Throughout the year 1915, and previously, the Cumberland Street Hospital and the Coney Island Hospital were each provided with three Engineers and three Firemen. The Budget for 1916 provides:

Cumberland Street Hospital.

1 Supervising Institutional Mechanic (Engineer).
2 Power Plant Operators (Engineers).
1 Assistant Power Plant Operator (Stoker).

Coney Island Hospital.

1 Supervising Institutional Mechanic (Engineer).
2 Power Plant Operators (Engineers).
2 Assistant Power Plant Operators (Stokers).

In other words, the force provided in the Budget for the two institutions in question will restrict us to the use of one Stoker at Cumberland Street Hospital and two Stokers at Coney Island Hospital. This means that at Cumberland Street Hospital during two of the three watches, the Engineer will be required to do his own stoking, and at Coney Island Hospital, the Engineer on one of the watches will be required to do his own stoking.

The question of the safety to the patients and inmates of these hospitals is a most serious one, and I believe we should not be required to be so handicapped that, should anything unforeseen occur to the plan or buildings, such as a leaky or broken pipe, a disarranged motor, an elevator out of order, or something of the kind, the engineer on duty would be required to leave his boilers and thus endanger the lives of many persons, and at the same time, make himself liable to the loss of his license by reason of such absence.

I consider this a matter of extreme importance, and hope your honorable Board will authorize the issuance of the Special Revenue Bonds above requested.

Yours very truly, HENRY C. WRIGHT, First Deputy and Acting Commissioner.

MESSAGES FROM THE MAYOR.

The President laid before the Board the following communications from his Honor the Mayor:

No. 91.

Message from His Honor the Mayor Reviewing the Accomplishments of the Past Two Years and Outlining What May Be Accomplished in the Next Two Years.

City of New York, Office of the Mayor, January 10, 1916.

To the Honorable the Board of Aldermen:

Gentlemen—The year 1916 marks the beginning of the second half of the term of the present administration of the City. It also marks the time when the duties laid down by the outgoing fusion Board of Aldermen, elected in November, 1913, are assumed by the Board of Aldermen elected last November. It is fitting, therefore, that I should at this time lay before you, the incoming Board, a brief review of the accomplishments of the past two years and an outline of what I hope may be accomplished in the two years during which we are to work together.

When the present administration took office in January, 1914, it was confronted with a serious financial situation. The cost of running the City government had been increasing for years at a greater rate than the population. Budget appropriations had increased from $28.03 per capita in 1906 to $35.87 per capita in 1913. In addition to this growth in current expenditures, the per capita funded debt had been steadily rising from $148.20 in 1906 to $186.66 in 1913, while the per capita assessed valuation of taxable property was gradually falling. The increase in annual budget and in funded debt since 1899 was stupendous. In 14 years the budget had grown from 93½ millions to nearly 193 millions, the gross funded debt had grown from 360 millions to more than a billion, and the net funded debt had grown from 257 millions to 836 millions.

These conditions, together with the constantly increasing demand of the public for wider service not only in the so-called social service departments but in the departments of fire, police and public works, made it imperative to effect economies and improve the administrative organizations of the government. The first six months of 1914 were given to this problem. The Board of Estimate for the first time equipped itself adequately to discharge its tremendously important work of financial authorization; the Mayor's departments got down to the business of stopping needless expenditures and improving the details of their business methods; the borough presidents and the Comptroller took similar steps toward economy and efficiency. Six months after the beginning of the administration the first opportunity for casting up results came in the preparation of the budget for 1915. The budget for 1914, prepared by the previous administration, had been kept down practically to the figures of the preceding year ($192,711,441.16 in 1913, $192,995,551.62 in 1914). It was the desire of the Board of Estimate to make such economies that the budget for 1915 should not increase over the 1914 figure. This meant that economies to be effected would have to be very substantial indeed in order to offset the necessary increases in such departments as education, where the number of pupils had increased, and in the department of public charities, where the average daily census of inmates had risen from 10,854 in 1913 to 12,651 in 1914, and promised to increase still further in 1915. To this end the Board of Estimate worked unremittingly through the Fall of 1914. As a member of that Board, I shared the responsibility for the whole budget, but as Mayor I had direct control over only 30 departments, whose 1914 budget appropriations had aggregated nearly $61,000,000. As finally passed, the budget for the departments under the Mayor was $59,309,602.72, a decrease under the 1914 budget of a million and a half.

Similar decreases were effected in the appropriations to the several borough presidents and to the Department of Finance, and only a slight increase was granted to Bellevue and Allied Hospitals. Treating all these departments as one administrative group, subject to the complete financial and administrative control of the Board of Estimate and Apportionment, the budget for 1915 reflected a most gratifying achievement. The administration had succeeded in checking the mounting cost of City government while providing at the same time for increased services to the people of the City. From 1906 to 1910 the average annual increase in budget appropriations to this group of departments was 9.2 per cent.; from 1910 to 1914 the average annual increase was 2.7 per cent., while the 1915 appropriations to these departments were less than those for 1914 by 2.1 per cent.

Unfortunately, however, the aggregate of the 1915 budget exceeded the 1914 budget by $5,994,234.90. This increase was due to causes beyond the control of the administration. An increase of about $1,600,000 was allowed the Department of Education due almost wholly to the increase in the number of school children to be provided for; an increase of over $7,000,000 was made in the appropriation for debt service due to an increase of over $4,000,000 in interest charges, and an increase of nearly $3,000,000 in the amount of special revenue bonds to be redeemed in 1915. The interest obligations were increased by the European war and by the issue during 1914 of $72,096,444.50 in corporate stock pursuant chiefly to authorizations of previous years and largely for the new subways and water supply. The increase in the amount of special revenue bonds to be redeemed was due almost wholly to the severe snow storms of the winter of 1914, which had increased the cost of snow removal over 1913 by nearly $2,000,000.

These increases were not to be avoided. If, however, the administration had not exercised the most drastic economy with respect to the expenditures over which it had complete control, if the Comptroller had not made possible, by his careful examination of the assets of the City's various sinking funds, the application of about $3,000,000 of accumulated surpluses therein to the annual sinking fund installments payable in 1915, and if other radical steps had not been taken, the budget for 1915 would have exceeded the 1914 budget by fourteen or fifteen millions instead of only six millions.

During 1915 the program of economy was rigidly followed. Department heads were instructed to exercise the greatest care in expending their appropriations and to seek every means within their power to prevent waste. I need not enter into the details of this program. The figures of the 1916 budget show clearly the success which attended our efforts.

During the preparation of the 1916 budget the departmental estimates were scrutinized with even greater care than in the previous year. Not only did a subcommittee of the Board of Estimate pass upon every item of every request for funds, but the whole Board of Estimate spent days and nights in the most detailed study of department needs. The result of such careful budget-making was again a material reduction in the appropriations to the departments directly under the control of the Mayor and the Board of Estimate and Apportionment. The 1916 appropriations to these departments total $70,189,035.75, a decrease of $1,592,346.27 under the 1915 appropriations and of over $3,000,000 under the 1914 appropriations. Average annual increases in the appropriations to those departments of 9.2 per cent. from 1906 to 1910, and 2.7 per cent. from 1910 to 1914, have become during the present administration *decreases* of 2.1 per cent. in 1915 under 1914, and 2.2 per cent. in 1916 under 1915.

The decrease in the appropriations to the Mayor's departments for 1916 amounts to nearly $1,000,000. Decreases of about $600,000 were made in the appropriations to the Department of Finance and to the borough presidents and the other departments under the Board of Estimate. This result is proof of the value of careful administration and painstaking budget-making.

During 1915 careful studies had been made of the work of the Department of Education. Although the Board of Education requested an increase of $2,500,000 in the appropriation for 1916, the Board of Estimate felt convinced that a reorganization of certain administrative methods of the school system in accordance with specific suggestions which it then made to the Board of Education would render unnecessary an increase in the 1916 appropriation over that for 1915. Accordingly, the Board of Education was allowed the same amount of money that it had received in 1915.

An increase of $142,000 was allowed to the Board of Elections. The expenses of this board are mandatory charges upon the city by statute, and the administration had no discretion but to allow the sum requested. Slight increases were also allowed to certain courts and county offices, and an additional $112,000 was appropriated for payment to charitable institutions.

A decrease in the appropriation for deficiencies in taxes of over two millions was more than offset by an increase of more than three millions in the amount appropriated for debt service. This increase was due very largely to the "pay-as-you-go" policy which was adopted by the city administration in September, 1914. This policy, with the terms of which you are doubtless familiar, provided for a plan by which an increasing portion of the cost of permanent improvements of the non-revenue producing class was to be defrayed from the tax budget until in 1918 the entire cost will be so defrayed. In adopting this new policy the Board of Estimate took a radical but urgently necessary step in the direction of sound city finance. For the

first time in the history of the city the future has been considered in the light of the immediate present. Though, as a result of this new "pay-as-you-go" policy, the burden on the taxpayers will be temporarily increased, taxpayers of the near future will benefit, because the now enormous interest burden will be progressively decreased. Every dollar borrowed on a 50-year 4½ per cent. bond costs, before final repayment, $2.69. The new plan assumes for the immediate present a larger burden, but it obviates interest and sinking fund charges. The increased amount included in the 1916 budget due to this new policy is nearly two million dollars. The balance of the increase in the appropriations for debt service is due chiefly to an increase in the amount of interest charges caused by additional issues of corporate stock to continue improvements already authorized and started.

The total of the budget for 1916 for city and county purposes is less than the total for 1915. The total which the taxpayers must pay for 1916, however, is materially larger than for 1915. This is due to the fact that the State of New York levied this year a direct tax upon the counties of the state. New York City's share of this direct tax is $13,975,021.73. It is this tax which is responsible for the entire amount of the increase in the 1916 budget over the 1915 budget. In this matter the administration had no discretion; the sum had to be included in the budget. It cannot, therefore, be held accountable in any way for the tremendously increased burden which the taxpayers must bear in 1916. A statement of the state comptroller which was recently published indicates that a direct state tax will not be necessary next year.

An even more striking example of economy than has occurred in budget-making is afforded by the record of corporate stock authorizations. The average annual authorization of corporate stock during the McClellan administration (1906-1909, inclusive) was $102,417,114.63, of which $51,663,423.62 was for revenue producing purposes and $50,753,691.01 for non-revenue producing purposes. The average annual authorization during the Gaynor administration (1910-1913, inclusive) was $87.951,-998.46, of which $56,311,014.23 was for revenue producing purposes and $31,640,984.23 for non-revenue producing purposes. During 1914, the first year of the present administration, however, the total authorizations were but $14,594,670.48, divided $5,636,-583.30 for revenue producing and $8,958,087.18 for non-revenue producing purposes. During 1915 the authorizations were even less, the total being $11,585,981.69, of which $3,545,070.56 was for revenue producing purposes and $8,040,911.13 for other than revenue producing purposes.

This is a remarkable record. An administration is strictly responsible only for initiating projects which require the authorization of corporate stock. Issues of bonds are the result in many instances of authorizations of previous years and must be approved if undertakings commenced pursuant to these earlier authorizations are not to be abandoned. It is extremely gratifying to me and to the other members of the Board of Estimate that we have been able so materially to curtail and check the mounting city debt. As I have pointed out above, every dollar borrowed on a 50-year 4½ per cent. bond costs $2.69 before final repayment. Until quite recently practically all issues of corporate stock were for 50 years. Every dollar therefore which has not been authorized by the present administration represents a saving to the taxpayers of the next fifty years of upwards of $2.69. Such radical steps toward retrenchment, together with the "pay-as-you-go" policy, will prove of inestimable value in the future. The Board and the public should bear in mind that the city is carrying to completion at this time two of the largest municipal undertakings in the history of the world. The great Catskill water supply system, costing to date $130,000,000. and the new dual subway system, involving an outlay of approximately $164,000,000 of city funds, are city enterprises of unparalleled magnitude.

The benefit of these expenditures will be felt for years. Their burden must, therefore, be borne with patience. New York has reason to be proud that it has been able to achieve these great improvements and to strengthen its credit at the same time.

In all these matters of retrenchment and economy, the Board of Estimate, during the past two years, has had the earnest and helpful co-operation of the Board of Aldermen. The Chairman of the Finance Committee has regularly joined with the Sub-committee on Tax Budget in hearing the budgetary requests of the several Departments. The Vice-Chairman of the Board has given his time freely in conference with me and with the Board of Estimate on matters of financial policy. The Board itself has responded willingly to the emergencies which have confronted the City Government. Not only has it been of great assistance in financial matters but it has also accomplished the greatest volume of legislative work in years. Since 1914 it has completed the revision and codification of the ordinances of the City. In addition, it has revised the Building Code and adopted all but one of the sections thereof.

There is, however, much still to be done. The City administration has gone about as far as it can in the matter of economy under existing laws and limitations. As I have pointed out again and again, until the City is given home rule, it cannot be held responsible for the unnecessary burden placed upon the taxpayers by law. These burdens are certain to increase largely within the next few years unless the City is permitted by the Legislature to revise its governmental organization and to control the expenditures of all boards, commissions and departments, including all county offices. The growing needs of the Departments of Education, Health, Charities and Police, as well as all other branches of the City Government, the surely increasing requirements of the new Child Welfare Board, the added cost for the next few years of the "pay-as-you-go" policy, and the other increases in appropriation which are inevitable in a city of the size of New York, make it imperative that every possible economy be practiced and that immediate steps be taken to increase the City's revenues.

If, as a result of the deliberations of the State Legislative Investigating Committee, of which Senator Elon R. Brown is chairman, and which is now engaged upon an examination into the condition of the City's finances, the City is granted the degree of home rule for which I have pleaded, there are several reorganizations which I think should be made for the purposes of greater economy and efficiency. Among these are the establishment, through the consolidation of existing agencies, of a centralized Hospital Department and the creation of a department to care for the physical up-keep and maintenance of the City's plant and equipment, and the consolidation of certain of the county offices. In all this work the assistance of the Board of Aldermen will be vitally necessary.

I am confident that, as the occasion arises, I may continue to have the helpful co-operation of your honorable Body.

At a later date I will transmit a statement of the City's financial condition in accordance with section 115 of the Greater New York Charter.

Respectfully, yours, JOHN PURROY MITCHEL, Mayor.

Be It Ordained by the Board of Aldermen of The City of New York as follows:

4. Not to Be Pawnbroker or Junk Dealer.—No dealer in second-hand articles, while licensed as such, shall be licensed as pawnbroker or junk dealer.

§ 44. Lost or Stolen Property to Be Advertised—If any goods, articles or things whatsoever, shall be advertised in any newspaper printed in the city as having been lost or stolen, and if the same, or any such answering to the description advertised, or any part thereof, shall be or come in the possession of any dealer in second-hand articles, such dealer shall give information thereof in writing to the police commissioner, stating from whom the same was received. Every dealer in second-hand articles who shall have or receive any goods, article or thing lost or stolen, or alleged or supposed to have been lost or stolen, shall exhibit the same on demand, to any police officer, or to the commissioner or any inspector of licenses, or any magistrate of the city, or any person, duly authorized in writing for such purpose by the commissioner of licenses or any magistrate, who shall exhibit such written authority to the dealer.

PUBLIC NOTICE IS HEREBY GIVEN, PURsuant to law, that at a meeting of the Board of Estimate and Apportionment, held December 17, 1915, the following petition was received:

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The petition of Union Railway Company of New York City, a New York corporation (herein called "the petitioner"), respectfully shows to this Honorable Board and alleges as follows:

FIRST: That this Board, by resolution adopted July 2, 1914, and approved by the Mayor on July 10, 1914, duly authorized the execution by the Mayor of the City of New York on behalf of said City, of a proposed franchise contract granting to the petitioner the right and privilege to construct, maintain and operate double and single track extension to its present street surface railway with the necessary wires and equipment, for the purpose of conveying passengers only in the Boroughs of Manhattan and The Bronx, in the City of New York, upon the following routes, to wit:

First: Beginning at and connecting with the existing tracks of the Company in Lincoln Avenue; thence westerly by double track in, upon and along East 136th Street to and connecting with the existing tracks of the Company in Third Avenue, Borough of The Bronx, in order that the title of said company to operate over such route may be perfected and legalized.

Second: Beginning at and connecting with the existing tracks of the Company in Willis Avenue, at or near the northerly side of East 134th Street, Borough of The Bronx; thence southerly by double track in, upon and along Willis Avenue and upon and over the Willis Avenue Bridge and its approaches, to East 125th Street, Borough of Manhattan; thence by double track westerly in, upon and along said East 125th Street and West 125th Street to Manhattan Street; thence by double track westerly in, upon and along said Manhattan Street to West 129th Street; thence westerly by single track in, upon and along said Manhattan Street to 12th Avenue; thence southerly by double track in, upon and along said 12th Avenue to West 129th Street; thence easterly by single track in, upon and along said West 129th Street to Manhattan Street, and there connecting with the existing east-bound track in said Manhattan Street.

Third: Beginning at and connecting with the above described tracks on the Willis Avenue Bridge at the intersection of the northerly and easterly approaches to said bridge; thence easterly and northerly by double track upon and over said easterly approach to and connecting with the existing tracks in Southern Boulevard, Borough of The Bronx.

SECOND: That said proposed franchise contract was thereafter duly executed by the City of New York and by the petitioner under date of September 9, 1915.

THIRD: That the permission and approval of the Public Service Commission for the First District for the construction of said extensions and the exercise of said franchise was granted through an order adopted by said Commission on October 29, 1915, in Case No. 2021.

FOURTH: That said franchise contract provides, among other things, that the portion of said extensions in the Borough of Manhattan shall be operated by underground electric power and that the portion of said extensions in the Borough of The Bronx and upon the Willis Avenue Bridge and its approaches may be operated by overhead electric power.

FIFTH: That in order to operate the extension over the Willis Avenue Bridge and upon 125th Street pursuant to said contract it will be necessary to operate on 125th Street for a distance of approximately one hundred and ninety (190) feet west of First Avenue by overhead electric power with the necessary connections, wires, poles and equipment including a plow changing pit, instead of by underground electric power as required by the foregoing provisions of the franchise contract for all operations in the Borough of Manhattan.

SIXTH: That the petitioner desires that the said franchise contract be amended so as to permit of operation on 125th Street for a distance of approximately one hundred and ninety (190) feet west of First Avenue by overhead electric power with the necessary connections, wires, poles and equipment including a plow changing pit.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Seventh—The annual charges or payments shall continue throughout the whole term of this contract, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this lease; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the character of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this lease.

Eighth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any other corporation or to any individual a similar right or privilege upon the same or other terms and conditions over the route hereinbefore described, and the Company shall not at any time oppose, but shall consent to the operation of any street surface railway by any such other corporation or individual which may receive a franchise therefor from the City, and which may necessitate the use of any portion of the railway which shall be operated by the Company pursuant to this contract; provided, however, that nothing in this clause contained shall estop the Company from appearing before the Board and being heard on any application for rights upon or along said route.

Should the City at any time during the term of this contract grant to any other corporation or to any individual the right or privilege to operate a railway upon the tracks of the City on the route herein described, or any portion thereof, then the City shall, within thirty (30) days thereafter, give notice to the Company that such right has been granted and of the name of the corporation or individual to which such right has been granted.

At the expiration of ninety (90) days after the giving of such notice, such individual or corporation shall have the right to begin the operation of cars upon the tracks of the City upon the route, or any portion thereof, over which such corporation or individual may receive a right or privilege, and to use therefor the power and all other property of the Company which shall be necessary in the operation of the cars of such individual or corporation upon the tracks of the City, and shall have the right to continue such operation and use of such property during the term of this contract or until the right to use such property under the terms of the franchise or right granted said corporation or individual by the City shall expire, provided such expiration is prior to the expiration of this contract or any renewal thereof; but such corporation or individual shall, before beginning such operation, give a good and sufficient bond to the Company guaranteeing the payment of any sum or sums which such corporation or individual may be required to pay to the Company for the use of its property. Provided, however, that the Board shall be the judge as to whether the bond is good and sufficient, in case there is a dispute with respect thereto between the Company and such corporation or individual. Such corporation or individual shall pay to the Company for the right to use such power and other property above described such sum or sums as may be agreed upon in writing by such corporation or individual and the Company within said ninety (90) days, or in the event that such agreement cannot be reached within said ninety (90) days, such sum or sums as shall be determined in the manner hereinafter provided for.

If the Company and such corporation or individual cannot, prior to the expiration of said ninety (90) days, agree upon the compensation for the use of such power and property, then such compensation shall be fixed by three arbitrators selected in the following manner:

One disinterested person shall be chosen by the Company; one disinterested person shall be chosen by such corporation or individual and the two so chosen shall choose a third disinterested person. The decision under oath of any two of said persons who shall be so selected shall be final and conclusive, but the amount or amounts determined by said arbitrators shall not be less with due regard to the extent and duration of use than shall be sufficient to cover the proportionate cost of any property installed by the Company pursuant to this contract, including paving and additions and betterments thereto and of the proportionate current expenses of maintenance, depreciation and renewal, of regulation of traffic, of removal of snow and ice, of the sprinkling of streets, of the use of power and of the performance of such other duties and obligations as are imposed upon the Company in respect to the said railway, other than the payments to the City pursuant to this contract.

The compensation and expenses of the persons selected as arbitrators in the determination of such sum or sums shall be borne by the individual or corporation to which such right may be granted.

Within thirty (30) days after an agreement shall have been reached between said parties, or in case said agreement cannot be reached before the time specified herein, then within thirty (30) days after the determination of the arbitrators as herein provided, should two of such arbitrators agree, the said parties shall file a duplicate copy of a written agreement with the Board, which shall specify the sum or sums which shall have been agreed to by the said parties or determined by said arbitrators as the sum or sums which such corporation or individual shall pay to the Company for said privilege. If the Company fails to file the same with the Board within said thirty (30) days, then the right herein granted shall cease and determine.

If either party fails to appoint an arbitrator as herein provided, or should the first two arbitrators fail to agree on the selection of a third arbitrator within thirty (30) days after the expiration of said ninety (90) days, or if no two of said arbitrators so selected agree upon the sum or sums to be paid by such individual or corporation within sixty (60) days after they shall have been so selected, then such sum or sums shall be fixed by the Appellate Division of the Supreme Court, Second Department, upon the application of either party, and the decision of that court shall be final. In the event that said Appellate Division of the Supreme Court, Second Department, should decline to assume jurisdiction in the matter, then and in such event such sum or sums shall be fixed by the Board, and such fixation by the Board shall be final and conclusive.

Ninth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Tenth—Said railway shall be operated in the latest approved manner of street railway operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Eleventh—Said railway shall be maintained and operated subject to the supervision and con-

trol of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No repairs or reconstruction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues over which such officials have jurisdiction and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues, or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Twelfth—Said railway shall be operated by underground electric power substantially similar to the system of underground electric power now used by the street surface railways in the Borough of Manhattan, provided, that any other power may be used, except locomotive steam power, horse power or overhead electric power, which may be lawfully used, approved by the Board and consented to by the abutting property owners in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York.

Thirteenth—No wires for the transmission of power shall be permitted unless they be placed in conduits underneath or along the side of the railway. When such conduits are constructed the Company shall provide two (2) ducts not less than three (3) inches in diameter each for the exclusive use of the City. Such conduits shall be used only by the Company for the operation of its railway and by the City, as above.

Fourteenth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents, and the Company shall not charge any passenger more than five (5) cents for one continuous ride, from any point on its road or on any road, line or branch operated by it or under its control to any other point thereof, or any connecting branch thereof within the limits of the City.

The Company shall carry free upon the railway hereby leased during the term of this lease all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Fifteenth—No cars shall be operated upon the railway hereby leased, other than passenger cars, and cars necessary for the repair or maintenance of the railway, and no freight or express cars shall be operated upon the tracks of said railway; and the tracks hereby leased shall not be used for the storage of cars.

Sixteenth—The Company shall attach to each car run over the said railway proper fenders or wheel guards, in conformity with such laws and ordinances as are now in force or may hereafter, during the term of this lease, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Seventeenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Eighteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Nineteenth—Cars on the said railway shall run at intervals of not more than thirty (30) minutes both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board.

Twentieth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway is constructed, shall if directed by the President of the Borough of Manhattan, cause to be watered at least three (3) times every twenty-four (24) hours when the temperature is above thirty-five (35) degrees Fahrenheit, the entire width of the streets and avenues, except when the width of such streets and avenues shall exceed sixty (60) feet between the curb lines, in which case the Company shall cause to be watered only sixty (60) feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Twenty-first—The Company shall at all times keep the streets and avenues, upon which the said railway is constructed, between the tracks the rails of the tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twenty-second—As long as said railway, or any portion thereof, remains in any street or avenue, the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed, between the tracks, the rails of the tracks and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe.

In case of the neglect of the Company to pave or repair the pavement on the streets after the expiration of twenty (20) days' notice to do so from the President of the Borough of Manhattan, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-third—Any alterations to the sewerage or drainage systems, or to any other subsurface or to any surface structures in the street, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-fourth—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-fifth—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time during the term of this lease the Company shall, at its own expense, change the tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues, the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twenty-sixth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the company as by last report.
14. Location, value and amount paid for real estate now owned by the company.

17. Amounts paid by the company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-seventh—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company, for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-eighth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain the structures and equipment as herein provided in good condition throughout the whole term of this contract the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars ($250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-ninth—The Company shall assume all liability for damages to persons or property occasioned by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirtieth—The said party of the second part hereby further covenants and agrees that the sum of Two thousand five hundred dollars ($2,500) heretofore deposited with the Comptroller of the City under and pursuant to the provisions of Section 2, Thirty-first, of said contract of March 4, 1909, as security for the performance by the Company of all the terms and conditions of said contract, shall remain on deposit with said Comptroller as security for the performance by the Company of all the terms and conditions of this contract; and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at the rates herein fixed, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railway and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions or compliance with such orders, or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same with interest, from the said fund after ten (10) days' notice to the Company; or, in case of failure to observe the said terms and conditions of this contract and orders of the Board hereunder, relating to the headway, heating and lighting of cars, fenders, wheel-guards and watering of street pavements, the Company shall pay a penalty of fifty dollars ($50) per day for each day of violation, and the further sum of ten dollars ($10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of a violation of the provisions relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund, to the original amount, and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-first—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways in which the Company is authorized to operate.

Thirty-second—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-third—The words "streets or avenues" and "streets and avenues," wherever used in this contract, shall be deemed to mean streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement, encountered in the route hereinabove described, and upon or in which authority is hereby given to the Company to operate a railway.

Thirty-fourth—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

SECTION 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

SECTION 4. This contract is also upon the further and express condition that the provisions of Article 5, and the other provisions of the Railroad Law pertinent hereto shall be strictly complied with by the Company.

SECTION 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions in this contract fixed and contained.

Resolved, That the Board of Estimate and Apportionment hereby grants to Conron Bros. Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all the terms and conditions, including the provisions as to rates and charges, upon and subject to the terms and conditions in said proposed form of contract, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

THIS CONTRACT, made and executed in duplicate this day of , 19 , by and between THE CITY OF NEW YORK (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and CONRON BROS. COMPANY, a domestic corporation (hereinafter called the Company), party of the second part, WITNESSETH:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree, as follows:

SECTION 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate conduits with the necessary branches and extensions therefrom, leading directly into private property, for the sole purpose of supplying refrigeration to consumers, provided that no conduit be of a greater outside diameter than twelve (12) inches, including insulation or other covering; the same to be constructed and operated only beneath the surface of Fort Greene Place between the northerly side of Atlantic Avenue and the southerly side of Hanson Place, in the Borough of Brooklyn, City of New York, such portion of Fort Greene Place and the existing conduits of the Company being more particularly shown on a map entitled:

"Map showing Conduits and Pipes applied for by Conron Bros. Company to accompany petition dated July 10, 1915, to the Board of Estimate and Apportionment, City of New York,"

—signed by Joseph Conron, President, a copy of which is hereto annexed and made a part of this contract.

SEC. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right to construct, maintain and operate said conduits shall be held and enjoyed by the Company for the term of fifteen (15) years from December 1, 1915, with the privilege of renewal of said contract for the further period of ten (10) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested persons selected in the following manner:

One disinterested person shall be chosen by the Board; one disinterested person shall be chosen by the Company; these two shall choose a third disinterested person, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of the original term of this contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuation so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall in any event be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(*a*) The sum of seven hundred and fifty dollars ($750) in cash within one (1) month after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(*b*) The further sum of seven hundred and fifty dollars ($750) in cash, within one (1) month after the date on which this contract is signed by the Mayor and before anything is done in exercise of the privilege hereby granted, the said sum of seven hundred and fifty dollars ($750) being the amount due the City by reason of the past unauthorized occupation of the street by the Company.

(*c*) During the first term of five years, an annual sum which shall be equal to two (2) per cent. of its gross annual receipts, but which sum shall not be less than three hundred dollars ($300).

During the second term of five years, an annual sum which shall be equal to three (3) per cent. of its gross annual receipts, but which sum shall not be less than four hundred and fifty dollars ($450).

During the third term of five years, an annual sum which shall be equal to three (3) per cent. of its gross annual receipts, but which sum shall not be less than six hundred dollars ($600).

The gross receipts mentioned above shall be the total receipts from all business of furnishing refrigeration to consumers.

(*d*) An annual payment of twenty-five cents ($0.25) for each linear foot of conduit constructed within the limits of the street, excepting, however, such conduits as are constructed within the vault space or vault spaces of any building or buildings used or occupied exclusively by the Company for the purpose of its business.

An annual payment of two dollars ($2) for each manhole constructed within the limits of the street.

The annual charges shall commence on December 1, 1915.

All annual charges as above shall be paid into the Treasury of the City on February 1 of each year and shall be for the amount due December 31, next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between December 1, 1915, and December 31, 1915, shall bear to the whole of one year.

Fourth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual, firm or other corporation a similar right or privilege upon the same or other terms and conditions, in the same street hereinbefore described.

Fifth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger or corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Sixth—Upon the termination of the original term of this contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination or forfeiture of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the conduits and appurtenances of the Company constructed pursuant to this contract within the street shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leassed to any company or individual.

Ninth—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the street, required on account of the construction or operation of the conduits of the Company, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Tenth—It is agreed that the right hereby granted shall not be in preference or in hindrance to public work of the City, and should the said conduits in any way interfere with the construction of public works in the street, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the conduits and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Eleventh—The Company shall bear the expense of keeping in repair for one year after it has been replaced, all pavement which may at any time be removed by said Company, either for the purpose of construction or for the repairing of the conduit line and its appurtenances.

Twelfth—The Company shall bear the expense of inspection which may be required by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, and of all work of construction.

(*b*) If the test be made in the field, of pipes in use or ready for use, such pipes shall be subjected to a pressure of two hundred (200) pounds per square inch.

A certificate showing that such a test has been made without injury to the pipes shall be executed by an officer of the Company, and indorsed by the Commissioner of Water Supply, Gas and Electricity, and filed with the Board.

Twenty-second—The Company shall assume all liability to persons or property by reason of the construction or operation of the conduits authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-third—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of one thousand dollars ($1,000), either in money or securities to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract and compliance with all orders of the Board, acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at rates not exceeding those herein fixed, the repairs of the street pavement and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions, or compliance with such orders, or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract, or its neglect or refusal to comply with any notice or direction of the Board, or other municipal officials, given or made pursuant to the terms of the contract, or under the authority of any laws or ordinances now or hereafter in force, in such case and in any of these events, the Company shall (except where other sums are fixed by this contract) pay to the City the sum of one hundred dollars ($100), for each violation as liquidated damages for such failure, which sums may be deducted from said fund.

The Board, on complaint made, shall give notice to the Company, directing its President or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be required to pay such liquidated damages in accordance with the foregoing provisions. If the Company fails to make an appearance, or after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith require the payment of said sums herein provided for, or where the damages are not liquidated by the terms of this contract such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw such amount from the security fund deposited with him. The finding of the Board as to the amount to be paid by the Company shall be final and can only be attacked on the ground of fraud or mistake. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of one thousand dollars ($1,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

These provisions for the recovery of such damages are in addition to the right to forfeit the franchise, conveyed by Section 2, subdivision Twentieth, of this contract.

Twenty-fourth—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-fifth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach or either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be property flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation of the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
