NUMBER 44.

## LAW DEPARTMENT.

The following opinion constitutes a portion of the proceedings of the Law Department for the week ending August 16th, 1873:

LAW DEPARTMENT,  
OFFICE OF COUNSEL TO THE CORPORATION,  
August 11th, 1873.  
*William Irwin, Esq., Secretary Department of Public Parks.*

SIR—Your letter to the Counsel to the Corporation of the 8th inst., with its enclosures, asking his opinion upon various points connected with the awarding of contracts, was duly received. You inquire whether the Department has the right, under existing laws, to reject all bids made in pursuance of public advertisements, and award the contract to none of the bidders.

Section 1, of chapter 308, of the laws of 1861, provides as follows:

"All contracts by or on behalf of the Mayor, Aldermen and Commonalty of the city of New York, shall be awarded to the lowest bidder for the same respectively, with adequate security, and every such contract shall be deemed confirmed in and to such lowest bidder, at the time of the opening of the bids, estimates or proposals therefor, and such contract shall be forthwith duly executed in the name of said Mayor, Aldermen and Commonalty, by the head of the Department having cognizance thereof, with such lowest bidder."

This provision, so far as I am aware, has never been repealed, and the Department cannot, therefore, lawfully reject all bids, but must award the contract to the lowest bidder whose bid in other respects is made in conformity with the laws and ordinances now in force.

You inquire further whether the Department can reject any, and if so, which of the bids contained in the statement transmitted with your letter.

The irregularities in reference to the first and third bids are so manifest that I have no doubt that it is the right and duty of the Department to reject both of them. It has been judicially determined that the failure of a bidder to name sureties as required by the ordinances of the Common Council, is a defect of substance which renders the bid wholly null.

Russ vs. the Mayor, &c.  
12 Legal Observer, 38.

Unless there is some other irregularity in reference to the second bid than that stated by you, I see no grounds upon which it can be rejected.

The third inquiry made by you is whether it is legal to receive proposals at the office of the Department after the hour publicly named for the closing of bids, and what course should be pursued in regard to the same.

I do not think that the Department has the right to receive such proposals.

The ordinances provide that advertisements for bids shall (among other things) require that the person making the bid shall furnish the same in a sealed envelope to the head of the appropriate Department at his office, on or before a day and hour therein named. It would, therefore, be clearly irregular to receive bids after the hour mentioned in the advertisement for closing the same, and I think they should be laid aside unopened or returned to the parties offering them.

In this connection I would respectfully call your attention to the fact that the ordinances require that advertisements for bids shall state that the bids received will be publicly opened by the head of the Department issuing the advertisement, at his office, at a day and hour therein mentioned.

I am, sir, yours very respectfully,  
GEORGE P. ANDREWS,  
Assistant Counsel to the Corporation.

### Resolutions.

That the Sanitary Superintendent be directed to cause the inspection of occupied cellars north of Houston street to be resumed, with a view to the vacation of those found unfit for habitation, and also cause a re-inspection to be made of all cellars recently vacated south of Houston street, to ascertain if any have been re-occupied.

That the Sanitary Superintendent be directed to cause a survey to be made of the five blocks between Thirty-seventh and Forty-first streets, and Eleventh and Twelfth avenues, and maps to be prepared showing the boundaries of each lot, with the names of the owners, agents, and occupants, and the character of the business conducted upon it.

That the Sanitary Committee be directed to examine all the slaughter houses within the city

limits, and report as to the location of each, its capacity, its appointments for yarding, slaughtering and disposing of offal and refuse, and what measures, if any, this Board can take to render the business less offensive, and bring it under more perfect sanitary supervision.

That the reports of the Assistant Sanitary Superintendent in regard to Catharine and Centre markets, New York, be placed on file.

That the premises named in said reports having been, and being in the opinion of the Board, and in fact in a condition and in effect dangerous to life and health, and said Board having taken and filed among its records what it regards as being, and what is sufficient proof to authorize its declaration that the same are a public nuisance and dangerous to life and health, said Board does hereby enter the same on its records as nuisances, and makes in respect thereto the orders necessary to abate the same.

That in case the persons served with the orders duly entered in regard to Catharine and Centre Markets fail to comply with the same on or before Saturday, August 16th, 1873, at 12 o'clock, M., Inspector Gridley be instructed to execute said orders.

### Sanitary Bureau.

Record of the Sanitary Bureau for the week ending, August 9th, 1873:

The total number of inspections made by the Sanitary and Assistant Sanitary Inspectors were 1990, as follows, viz:

Two public buildings, 928 tenement houses, 119 private dwellings, 110 other dwellings, 36 manufactories and workshops, 80 stores and warehouses, 93 stables, 47 markets and market places, 25 slaughter houses, 3 gut cleaning establishments, 9 fat melting establishments, 2 cattle yards, 1 lard rendering establishment, 1 brewery, 3 public sewers and drains, 29 sunken and vacant lots, 1 sausage factory, 1 dye establishment, 3 manure dumps, 1 pier and dock, 10 scavenger boats and sheds, 73 yards, courts and areas, 66 cellars and basements, 60 waste pipes and drains, 144 privies and water closets, 116 street gutters and sidewalks, 2 cisterns and cess-pools, 4 dangerous stairways, 2 piggeries, 5 violations of the Sanitary Code, 13 other nuisances, and one visit of Sanitary Inspector to case of contagious disease.

Seven hundred and twenty-one reports were received from the Sanitary and Assistant Sanitary Inspectors.

During the past week one hundred and forty-six complaints were received from citizens, and referred to the Sanitary Inspectors for investigation and report.

Seventy-eight permits have been issued to the consignees of vessels for the discharge of cargoes, on vouchers from the Health Officer of the Port.

The Disinfecting Corps have visited 28 premises where contagious diseases were found, and disinfected and fumigated 22 houses, 22 privy sinks, together with clothing, bedding, etc. One case of small pox was removed to hospital by the Ambulance Corps. One hundred and seventy-two miles of street gutters, seven hundred and forty-five privies, fifty-three yards and thirty-five cellars were disinfected.

During the week 187 permits were granted to scavengers to empty, clean and disinfect privy vaults.

The following number of cases of contagious diseases were reported for the week ending, August 9th, 1873: Typhoid fever 5, scarlet fever 27, measles 6, diphtheria 27, and small pox 1.

The amount of meat and fish condemned by the officers as unfit for human food, during the week ending August 9th, 1873, was: carcasses of sheep 8, carcasses of hogs 2, carcasses of veal 1, 290 pounds of beef, 72 pounds of mutton, 558 pounds of poultry and 1,530 pounds of fish.

Five hundred and forty-six loads of night soil were removed by night scavengers from the privy vaults of the city.

### BUREAU OF VITAL STATISTICS.

During the week ending August 9th, 1873, 739 burial permits for city deaths, 92 burial permits for bodies in transit, and 42 burial permits for still-born infants, were granted; 155 marriages, 485 births, 42 still-births, 92 applications for transit permits, and 50 coroner's certificates were recorded; 33 searches of the records of births, marriages and deaths were made, and 3 transcripts of births, 5 marriages and 27 deaths from said records were issued, and one case was referred to the coroner.

By order of the Board,  
EMMONS CLARK,  
Secretary.

SANITARY BUREAU,  
NEW YORK, Aug. 12th, 1873.

E. H. JANES, M. D., Assistant Sanitary Superintendent, submitted the following report on Centre Market:

"Said premises are bounded by Broome, Grand, Centre Market Place, and Centre street, known as Centre Market, and constitute one of the public markets of the City of New York. It consists of a main building built of brick, and additions on Broome street and Centre Market Place, built partly of brick and partly of wood. On Centre Market Place the wooden structures connected with said market occupy the entire width of the side walk for nearly half the distance from Broome to Grand street. These are immediately connected with the market proper, are occupied

for the sale of meats and vegetables, and ventilated by means of doors and windows. On the Centre street front there are several small wooden projections connected with the main building, and built out to the line of the sewer step at the entrance of the building. These do not obstruct the sidewalk, but the external standing wood work of some of them are very filthy, particularly at the ends where the angles formed by the projections and the wall of the main building, have the appearance of being resorted to as public urinals, and the wood is saturated and offensive, and the flagging was found to be soiled with human excrements both liquid and solid. The floor of the extension on Centre Market Place, was found to be very much broken and decayed, resting immediately on the ground, with no under space for the circulation of air, it readily imbibes moisture from the natural dampness of the ground which not only favors decay of the wood, but is detrimental to the health of persons who occupy the floor. A portion of the floor on the Broome street extension was also found to be out of repair apparently from a similar cause. These conditions of the floors and external appendages of the market building, are in my opinion detrimental to health and require some alterations, with a considerable amount of cleaning, disinfecting and repairing. I was informed that a portion of the old floor in Centre Market Place and Broome street is to be taken up, and a new floor to be laid in its place under the direction of the superintendent of markets; an improvement much needed, and which should be made without delay. I would however respectfully recommend that before the new floor is laid, a portion of earth be removed to a depth sufficient to allow the circulation of a current of air beneath the floor. This will prevent the absorption of moisture from the ground, and the consequent rapid decay of the floor. As the external surface of the wooden structure along the sidewalk of Centre Market Place, has become saturated with filth, and interferes with the proper light and ventilation of the main building, I respectfully recommend that the wood work enclosing that portion of the sidewalk be removed, with the exception of the posts which support the roof, and that the market stands be confined to the area within the sidewalk, which should be restored to the use of the public. The wooden structures on the Centre street front, which do not extend beyond the line of the stoop, should be thoroughly cleaned and disinfected, the old and filthy boards should be removed and the structures thoroughly repaired and painted. The small corners formed by these structures and the wall of the main building should be inclosed with suitable railings for the purpose of preventing the continuance of the nuisances now existing. When these places have once been put in a proper condition, I believe they may with proper care be kept so, as cleanliness alone will always command a certain degree of respect even from the vicious and filthy.

I would here add that the untidy condition of this market, instead of being a credit, is a disgrace to the city. In addition to the filthy condition of the woodwork, much of it is covered with posted advertisements, or is generally dilapidated. The substantial brick walls of the main building, are in many places disfigured with posted advertisements, or from other causes are in a filthy condition. Many of the windows are extremely dirty, and others are so broken as to have scarcely an entire pane of glass in the sash. The lathing of the ceiling at the south part of the building is largely exposed and otherwise imperfect. All of these defects should be repaired: the semi-circular transom windows should be so arranged as to be easily opened for the purpose of ventilation, and the external walls of the market building should be thoroughly cleaned and painted. These alterations and repairs would transform the market from its present unsightly appearance to a neat and attractive building.

The following are the names of the occupants of the wooden structure around the market.

Centre Market Place, Frederick Graeber, dried fruit, etc., Peter Levitt, eggs, butter and crockery, Mrs. Fisher, hosiery, Charles Shrimpton, fruits and vegetables, James Boylan, fruit and vegetables, Mr. Dengerhts, pickles.

Centre street: J. H. Rucy, fish, M. Cassidy, poultry, James Donnelly, provisions, Mary Kiver, vegetables, Jantzen & Brother, meat.

E. H. JANES, M. D.,  
Sanitary Superintendent.

SANITARY BUREAU.

NEW YORK, August 12th, 1873.

Assistant Sanitary Superintendent Janes submits the following report on Catherine market:

Said market is known as Catherine market; occupies the middle portion of Catherine slip, from Cherry to South streets, and is divided by Water street into the upper and lower market. The main buildings are of iron, and are so constructed as to allow room for a sidewalk on each side along Catherine slip. On the southwest side of the market buildings the sidewalks adjoining thereto is left unobstructed; but on the northeast side of said buildings the space allowed for a sidewalk is occupied by wooden structures adjoining the main buildings, and extending to the curb stone. On the South street front of the lower market there is also a wooden structure extending ten feet beyond the curb stone, and oc-

REGISTERED MORTALITY (week ending August 9th,) AND THE ACTUAL MORTALITY (each day in the week, ending at noon, August 2d, 1873), WITH AN ENUMERATION OF THE CHIEF CAUSES OF DEATH.

Table with multiple columns: DATE, BAROMETER, THERMOMETER (Shade, Open Air, Fahr.), HUMIDITY, WIND, STATE OF SKY, RAIN, Actual Number of Deaths each Day, CAUSES OF DEATH, Deaths Reported and Registered during the week ending August 9th. cupping so much of the carriage way along the market front. This structure is occupied by Cornelius Haggerty, oysters and refreshments, and by Stephen Varney, fruit. The wooden structures adjacent to the lower market building and fronting on Catherine slip, are occupied as follows: Wm. H. Bolton, oysters. In front of this booth on a bridge covering the street gutter, and on the street pavement were a number of barrels and baskets of oysters; also, a coal box and cooking range. 1. Rody Green, oysters; street in front also occupied by barrels and baskets of oysters, cooking range, coal and ice boxes. 2. J. C. Cornell, poultry; street in front was occupied by boxes and poultry crates. 3. John Riely, oysters; street occupied by barrels, baskets of oysters, cooking range, and ice box. 4. James Duffy, vegetables. There are similar wooden structures adjacent to the upper market, and along the entire front from Water to Cherry street, occupied as follows: Jane Hendershott, oysters; T. Murphy, large beer. These sheds, and those adjacent to the lower market, do not communicate with the main building, and therefore they obstruct to some extent the proper light and ventilation of the market; but the sheds between Hendershott and Murphy, at the upper market, communicate with the main building, and are occupied by Edward Kearney for an ice box, Mrs. Clary, vegetables, and Julia Odum,

tripe. From the corner of Cherry street to a distance of about sixty feet toward Water street, the sheds are built out about four feet beyond the curb stone, and thus cover the gutter and a portion of the pavement, interfering with the proper cleaning of the same, while the angle formed by the end of this projecting portion, and that portion of the structure on the line of the curb-stone, affords a convenient receptacle for the deposit of filth in different forms. These several wooden structures adjacent to the main market buildings, are, in my opinion, detrimental to health, in that they obstruct the proper ventilation of the market, and thus tend to deteriorate the quality of the food exposed there for sale. I therefore respectfully recommend that the booth fronting on South street, and occupying a portion of the carriage way be removed, as in its present position it interferes with the proper street cleaning of the pavement and gutter; that the sides of the booths occupying the sidewalk on Catherine slip be removed in order that proper amount of light and ventilation may be restored to the market, and the sidewalk be restored to the use of the public; and that the entire portion of the wooden structure which projects beyond the sidewalk over a portion of the carriage way at Cherry street and Catharine slip, including such portion of the roof, be removed. I also recommend that the semicircular transom

windows in the main building be made to turn on pivots, or otherwise so arranged as to be easily opened for the purpose of affording additional ventilation whenever it may be required. E. H. JANES, M.D., Assistant Sanitary Superintendent.

HEALTH DEPARTMENT OF THE CITY OF NEW YORK, BUREAU OF VITAL STATISTICS, August 12th, 1873. SIR—In the week ending on Saturday, the 9th inst., there were 739 deaths reported in the city. During the previous week—ending August 2d—the actual number of deaths was 837, or 98 more than were reported last week. This great gain to human life occurred in young children. Last week there were 340 deaths reported of infants under a year old, and in the preceding week 432, or 92 more than this number of like age, while 607 deaths in children under 5 years of age were reported in that week, and only 487 of like ages last week. The rate of mortality continues steadily to decrease, and in that portion of the population over 2 years of age it continues, as it has been for two months, as low as in almost any other great city in the world. The mortality (304) in that portion of the population last week was less than a death-rate of 16 in 1,000 annually, while, by including the 433 deaths of infants under 2 years of age, the rate would be equal to 38.43 in 1,000 inhabitants yearly.

The daily mortality has quite steadily decreased, though, with a few exceptional days, from the 15th of July, when 157—the greatest number—died. The simple disorders that killed so many infants have resulted only from the usual causes of excessive summer mortality in this class—namely, continued high temperature, foul air, negligence of the natural wants and timely care of infants under 18 months old. After the closest scrutiny of the causes of death during the past weeks of excessive mortality, nothing in the nature of Asiatic cholera or any epidemic has appeared. The death-rate is again at the standard of the past seven years, and if families will prudently seek the parks, and the thorough cleanliness and ventilation of domestic quarters for their young children, and especially avoid all improper food, the present excess of mortality will quickly cease. Diarrhoeal maladies were charged with 297 deaths last week, 275 of these deaths being of children 5 years old. This is 49 less than in the previous week by this cause. The map now submitted shows that during three successive weeks this class of deaths has occurred chiefly within the special districts that were pointed out two weeks ago in the same map. Respectfully submitted, E. HARRIS, M.D., Registrar.

SANITARY BUREAU.

NEW YORK, Aug. 11th, 1873.

Dr. Stephen Smith, Chairman Sanitary Committee:

I beg leave to submit the following report on the condition of the streets and avenues, for the week ending August 9th, compiled from the usual weekly reports of the Inspectors and Assistant Inspectors of this Department:

Inspector Judson (1st, 3d and 5th wards) reports his streets as filthy with street manure, and considers it discreditable that so much street dirt and rubbish are allowed to lie in the streets and gutters, to be ground to powder, in the form of mud and dust.

Inspector Tracy (6th Ward) reports Walker street, from Broadway to Baxter street, dirty with street dirt and garbage. Elizabeth street dirty with street dirt, except in front of Fire Department repair shops. Bayard street, from Bowery to Elizabeth, dirty with street dirt. Mott street, from Pell to Bayard street, dirty with street dirt. Pell street and Doyer street dirty with street dirt. White street, from Broadway to Elm, dirty with street dirt. Elm street, from Canal to Pearl streets, dirty with street dirt and rubbish. Leonard street, from Elm to Centre, dirty with street dirt, garbage and rubbish. Mulberry street, from No. 41 down to Chatham, very dirty, with dirt, garbage and slops. Park street, from Pearl to Mott, dirty with street dirt and garbage. Pearl street, from Park street to Elm street, dirty with street dirt, manure and garbage. The streets in the 6th ward are not as clean as usual. I should say that the sweeping during the past week has not been thorough, even when done.

Assistant Inspector Emerson (7th Ward) found in the early part of the week that Division, Jefferson and Jackson streets contained rubbish and garbage, as did also Cherry, between Gouverneur and Corlears. During the latter part of the week, Cherry, between Catharine and Market, Monroe, between Market and Pike, and the eastern sections of Monroe, Madison and Division, East Broadway, between Pike and Rutgers, and Cherry, between Rutgers and Corlears, were filthy with manure, garbage and slops. The pavement and grading of Corlears street is still unrepaired.

Assistant Inspector Hughes (8th Ward) finds his streets in a tolerably clean condition.

Inspector Morris (9th and 15th Wards) finds his streets in much better condition than the previous week. Several of the streets were very imperfectly cleaned, among the worst of which were West Houston street, between South 5th avenue and Thompson street, and Carmine street, at its junction with Varick.

Inspector Bryant (10th and 13th Wards) reports his district as much dirtier than last week. Mangin street continues in the same condition, containing street filth, garbage, and in front of Nos. 63, 65, 67, 69 and 71, the street gutters and streets contain filth, rubbish and ponded slops and water. Essex street is being improved by the repair of the cobble-stone pavement. Goerck street, from Delancy to Grand streets, contains street dirt and garbage. Division street is dirtier than usual. Hester, Broome and Rivington streets have been imperfectly swept. The Inspector can see no way of keeping the streets clean until the cobble-stone pavement is replaced by something better, and the number of vigorous sweepers increased.

Inspector Munde (11th Ward) reports his streets in fair condition as regards cleanliness, and thinks the Street Cleaning Department deserve credit for their close attention to his very many notoriously badly paved streets. He reports, however, that 12th street, immediately east of Avenue C, contains foul and offensive water, covered with a green scum of evident long standing.

Assistant Inspector Hall (14th Ward) has no complaint to make excepting against Mott and Mulberry, and that portion of Hester street, between Mulberry and Centre. These have the old cobble stone pavement, and it is almost impossible to make it clean or keep it so. That of Mulberry street is in an especially wretched condition, being out of repair throughout its entire length in the 14th ward. "I would urge upon you," he says, "the necessity of having the old cobble stone pavement replaced by the Belgian or square blocks."

Assistant Inspector Atwater (17th Ward) reports that his streets have been clean during the past week, excepting 11th, 12th and 13th streets, portions of which, between 1st avenue and Avenue A, were strewn with garbage and street filth.

Inspector Russell (18th Ward) finds his streets in a very fair condition as regards cleanliness.

Assistant Inspector Walker (20th Ward) reports his streets in fair condition, excepting 39th street, between 9th and 11th avenues.

Inspector Roberts (21st Ward) finds his streets in good sanitary condition, excepting those streets which require to be repaved.

Assistant Inspector Ewing (lower part 22d Ward) reports his streets as not so clean as usual.

Assistant Inspector strong (upper part 22d Ward) reports the following-paved streets filthy with stable manure. Sixtieth street, between Boulevard and 9th avenue; 59th street, from Boulevard to River, and 9th avenue, from 60th to 63d street. Of the unpaved streets—9th avenue, between 67th and 69th streets, contains the ashes and garbage it had four weeks ago, and is daily receiving the same filthy materials. 64th street, between 9th and 10th avenues, is a dumping ground for all sorts of dirt; 63d street, between 9th and 10th avenues, is very filthy with ashes, garbage and all kinds of rubbish.

Inspector Post (lower part of 19th Ward) reports his streets as clean, excepting all the unpaved streets; also 1st avenue, between 43d and 48th streets; 2d avenue, between 46th and 48th streets; 41st street, between 1st and 2d avenues; 47th and 48th streets, between 1st and 3d ave-

nues; 54th and 56th streets, between 2d and 3d avenues.

Assistant Inspector Fowler (upper part of 12th Ward) found all his streets clean and in good condition.

It will be observed that Inspectors having unpaved streets uniformly complain of their want of cleanliness.

The proper paving of the streets is imperatively needed if we would have them clean.

All of which is respectfully submitted,  
WALTER DE F. DAY, M.D.,  
Sanitary Superintendent.

SANITARY BUREAU,  
NEW YORK, August 12th, 1873.

To the Commissioners of the Board of Health.

In compliance with the resolution of the Board passed on the 5th inst., directing the inspection and condemning of all unripe, decayed and unwholesome fruit offered for sale. I beg leave to make the following report:

Captain Thorne of the Street Cleaning Bureau having placed a large police cart with a driver at my disposal, I yesterday detailed Special Inspector Wallahan, who, with officer Rhodes of the Sanitary Police, made a tour of many of the streets of the 8th and lower part of the 15th wards.

In the smaller groceries, and on many hucksters stands they found nearly a cart full of fruit unfit for use, which they condemned, seized and disinfected. They were careful to discriminate between unripe fruit designed for cooking and unwholesome fruit intended to be eaten in its crude state. Whenever opposition was encountered the Ordinance and Resolution of the Board were shown, and the duty was performed as quietly as possible.

The fruit condemned, included melons, pears, apples, peaches, egg-plants, peas, beets, potatoes and cabbage.

The plan seems to work well and will be continued during the week.

All of which is respectfully submitted,  
WALTER DE F. DAY, M. D.,  
Sanitary Superintendent.

DEPARTMENT PUBLIC WORKS.

DEPARTMENT OF PUBLIC WORKS,  
Commissioners Office, Room 19, City Hall,  
New York, August 9th, 1873.

In pursuance of section 110, chapter 335 of the laws of 1873, the Department of Public Works makes the following report of its transactions for the week ending this day:

Table with 2 columns: Description of work and Amount. Includes items like Public moneys received, For croton water rent, For penalties on croton water rent, etc.

Total, \$24,232.13

The following contracts were awarded:

Sewer in Greenwich street, between Leroy and Morton streets, and sewer in Hudson street, between Vandam and Charlton streets, to John P. Cumming, Jr., of Carmansville; surety, Christopher Keyes, of No. 108 East Seventieth street.

Certificates of the cost of the following improvements were transmitted to the Board of Assessors for assessment: Outlet sewer in Eighty-ninth street, between Second avenue and the East River; and flagging north side of Thirteenth street, from No. 415 to Avenue A.

New lamps were ordered to be fitted up in Fifty-fourth street, between Tenth and Eleventh avenues.

Three hundred and eighty-five receiving basins have been cleaned; eighteen complaints as to street obstructions were received; eight permits to place building materials on streets, and one permit to set curb and gutter stones and flag sidewalk have been issued.

There has been an aggregate increase of nine men in the laboring force of the Department.

The total amount of requisitions drawn by the Department on the Comptroller during the week is \$697,092.63, and includes the bills of the New York, Manhattan and Metropolitan Gas Light Co's., for 1872, amounting to \$577,600.16.

GEO. M. VAN NORT,  
Commissioner of Public Works.

THE CITY RECORD.

The following compilation of the requirements of the Charter with reference to matter to be published and advertised in THE CITY RECORD has been prepared for the convenience of Heads of Departments of the City government.

A. DISBECKER,  
Supervisor of the City Record.

MATTER TO BE PUBLISHED AND ADVERTISED IN THE CITY RECORD IN ACCORDANCE WITH THE PROVISIONS OF CHAPTER 335 OF THE LAWS OF 1873.

SEC. 16. Immediately after the adjournment of each meeting of either board, it shall be the duty of the clerk of such board to prepare a brief abstract, omitting all technical and formal details, of all resolutions and ordinances introduced or passed, and of all recommendations of committees, and of all final proceedings, as well as full copies of all messages from the Mayor and all reports of departments or officers. He shall at once transmit the same to the person appointed to supervise the publication of THE CITY RECORD.

In all cases the yeas and nays upon the final passage of the resolution or ordinance shall be published.

§ 17. §. 26. The ordinances of the Common Council hall, as far as practicable, be reduced to a code, and be published as such in THE CITY RECORD.

§ 24. The Mayor shall render to the Board of Aldermen every three months, an account of the expenses and receipts of his office, and therein shall state, in detail, the amounts paid and agreed to be paid by him for salaries to his clerks and subordinates respectively, and the general nature of their duties which shall be published in THE CITY RECORD.

§ 27. The Departments of the City government shall, once in three months, and at such other times as the Mayor may direct, make to him in such form and under such rules as he may prescribe, reports of the operations and action of the same and each of them, which reports shall be published in THE CITY RECORD.

§ 32. The Comptroller of the City of New York shall appoint and at pleasure remove for cause to be stated in writing and published in THE CITY RECORD, a Deputy Comptroller.

§ 38. The sworn statement of the Corporation Attorney and Public Administrator, with a detailed list of costs, commissions, fines and penalties collected shall be published in THE CITY RECORD monthly, as furnished.

§ 44. The name, residence and occupation of each applicant for appointment to any position in the Police Department; as well as the name, residence and occupation of each person appointed to any position, shall be published, and such publication shall, in every instance, be made on the Saturday next succeeding such application or appointment in THE CITY RECORD.

§ 64. All property transmitted to the property clerk of the Police Department shall be advertised in THE CITY RECORD for the benefit of all persons interested, and for the information of the public as to the amount and disposition of the property.

§ 65. All property and money that shall remain in the custody of the property clerk for the period of six months without any lawful claimant thereto, shall be sold at public auction, after having been advertised in THE CITY RECORD for a period of ten days.

§ 75. Real or personal property belonging to the city, or city and county shall be duly advertised previous to the sale thereof at public auction.

§ 82. The Health Department is authorized and empowered to add to the "Sanitary Code" from time to time, and shall publish additional provisions for the security of life and health in the City of New York, and therein to distribute appropriate powers and duties to the members and employes of the Board of Health, which shall be published in THE CITY RECORD.

§ 91. All contracts shall be entered into by the appropriate heads of departments, and shall, except as otherwise provided, be founded on sealed bids or proposals, made in compliance with public notice duly advertised in THE CITY RECORD, said notice to be published at least ten days.

§ 92. All property sold shall be sold at auction, after previous public notice.

§ 105. The "Board of Street Opening and Improvement" is authorized and empowered, after laying its proposed action before the Board of Aldermen, and publishing full notice of the same for ten days in THE CITY RECORD, to alter the map or plan of New York City so as to lay out new streets, &c., &c. &c.

§ 106. It shall be the duty of the Commissioners of Accounts, once in three months, and oftener if they deem it proper, to examine all vouchers and accounts in the offices of the comptroller and chamberlain, and to make and publish in THE CITY RECORD a detailed statement of the financial condition of the city, showing the amount of its funded and floating debt, the amount received and expended since the last preceding report, with a classification of the sources of revenue and expenditure, and such other information as they shall deem proper.

§ 108. It shall be the duty of the Comptroller to publish in THE CITY RECORD, two months before the election of charter officers, a full and detailed statement of the receipts and expenditures of the corporation during the year ending on the first day of the month in which such publication is made, and the cash balance or surplus; and in every such statement the different sources of city revenue, and the amount received from each the several appropriations made, and the amount of moneys expended under each, and the moneys borrowed on the credit of the Corporation, the authority under which each loan was made, and the terms on which the same was obtained, shall be clearly and particularly specified.

§ 110. In every Department or Board there shall be kept a record of all its transactions, which shall be accessible to the public, and once a week a brief abstract, omitting formal language, shall be made of all transactions, and all contracts awarded and entered into for work and material of every description, which abstract shall contain the name or names, and residences by street and number, of the party or parties to the contract, and of their sureties, if any. A copy of such abstract shall be promptly transmitted to the person designated to prepare THE CITY RECORD, and shall be published therein. Notice of all appointments and removals from office, and all changes of salaries, shall, in like manner, within one week after they are made, be transmitted to and published in THE CITY RECORD.

§ 111. There shall be inserted in THE CITY RECORD nothing aside from such official matters as are in this act (Chap. 335 Laws of 1873,) expressly authorized.

All advertising required to be done for the city, and all notices required by law or ordinance to be published in corporation papers, shall be inserted, at the public expense, only in THE CITY RECORD, and a publication therein shall be a sufficient compliance with any law or ordinance requiring publication of such matter or notices.

There shall be published in THE CITY RECORD, within the month of January in each year, a list of all subordinates employed in any Department (except laborers), with their salaries, and residences by street numbers, and all changes in such subordinates or salaries shall be so published within one week after they are made.

It shall be the duty of all Heads of Departments to furnish to the person appointed to supervise the publication of THE CITY RECORD, everything required to be inserted therein. The said person shall have power to make requisitions in writing upon the Heads of Departments, to furnish the information necessary to make up such list, according to rules prescribed by him and approved by the Comptroller; and such information must be supplied by the department within ten days after such requisition. He shall have power to require such information in the same manner, every three months, and all other information in the control of said Heads of Departments necessary to perform his duties under this section. He shall include in his list the number of laborers, designating the department in which they are employed, and, if practicable, the numbers employed in the prosecution of specific work, and the amounts paid to them. He shall also cause to be printed in each issue of said CITY RECORD a separate statement of the hours during which all public offices in the city are open for business, and at which each court regularly opens and adjourns, as well as of the places where such offices are kept, and such courts are held.

The detailed canvass of votes at every election shall be published at the expense of the city only in THE CITY RECORD.

The Mayor may order the insertion of any official matter or report in THE CITY RECORD.

§ 112. After the provisional estimate is made by the Board of Apportionment, it shall be submitted by said board, with their reasons for it in detail, within ten days, to the Board of Aldermen, whereupon a special meeting of said Board shall be called to consider such estimate, and the same shall simultaneously be published in THE CITY RECORD.

Should the said Board of Apportionment overrule objections or suggestions made by the Board of Aldermen the reasons for such action shall be published in THE CITY RECORD.

DEPARTMENT OF DOCKS.

DEPARTMENT OF DOCKS, 346 AND 348 BROADWAY, } TO CONTRACTORS.

PROPOSALS FOR FURNISHING GRANITE STONES TO BUILD SIXTEEN (16) ARCHES, (MORE OR LESS,) OF NEW RIVER, NORTH RIVER.

SEALED PROPOSALS for this work will be received at the office of the Department of Docks, until 12 o'clock noon, of Friday, August 15th, 1873, at which time the bids will be publicly opened and read. The award of the contract will be made as soon as practicable after the opening of the bids.

The time allowed for the fulfillment of the contract is to the 1st day of December, 1873.

Any bidder for this contract must be known to be engaged in, and well prepared for the business, and must have satisfactory testimonials to that effect.

No proposal will be considered unless accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded under that proposal, they will, on its being so awarded, become bound as sureties for its faithful performance; which consent must be verified by the justification of each of the persons, signing the same, for double the amount of security required.

Bidders will state the price in their proposals for each separate item of the work to be done, by which the bids will be tested.

The engineer's estimate of the material to be furnished is as follows: 640 voussoirs, or arch stones; averaging from 6 to 16 cubic feet each. Total, 6298.24 cubic feet. 483 spandrel stones; averaging from 3 to 23 cubic feet each. Total, 6810.56 cubic feet. 64 stones furnished in the rough, 4046.60 cubic feet.

The Department of Docks reserves the right to decline any and all proposals, if deemed to be for the public interest; and no proposal will be accepted from, or contract awarded to any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as security or otherwise, upon any obligation to the Corporation.

Blank forms of proposals and plans of the proposed work can be obtained by application at the office of the Department.

Proposals must be endorsed as above, and addressed to "Commissioner Bodd, Treasurer of Department of Docks."

JACOB A. WESTERVELT, WILLIAM GARDNER, WILLIAM BUDD, Commissioners of the Department of Docks.

DEPARTMENT OF PUBLIC PARKS, 36 UNION SQUARE, (EAST) NEW YORK, AUGUST, 1873.

SEALED PROPOSALS WILL BE RECEIVED AT the Office of the Department of Public Parks until Saturday, the sixteenth day of August, 1873, at 12 o'clock noon, for SCREENED GRAVEL for walks and roads, to be delivered in such quantities and at such times and places as may be required during the four months next succeeding the date of the contract to be entered into therefor.

The terms of the contract, settled as required by law, may now be seen at the Office of the Secretary, as above. Samples of the gravel proposed to be furnished must accompany each proposal.

No proposal will be considered unless accompanied by an obligation in writing of two responsible householders or freeholders of the City of New York, their respective places of business or residence being named, to the effect that they will become bound as sureties for the faithful performance of the contract, should it be awarded upon that proposal.

The Department reserves the right to reject any or all proposals.

Proposals must be addressed to the Department of Public Parks, and endorsed "PROPOSALS FOR SCREENED GRAVEL."

The above mentioned SCREENED GRAVEL is the same for which proposals were recently requested to be sent to the Department, and the bids for which could not be opened owing to an informality.

H. G. STEBBINS, S. H. WALES, P. H. BISSINGER, D. B. WILLIAMSON, SAMUEL HALL, Commissioners.

HEALTH DEPARTMENT.
